Floyd Voters Join Nation For Nixon

Nixon 1465,
Humphrey 1305,
Wallace 847

Floyd County's voters joined the nation Tuesday in expressing a preference for Richard Nixon and Spiro Agnew to lead the country for the next four years as president and vice president. Although the voters favored Republicans for national leadership, Democrats won by a huge majority vote in state and county elections. Nixon received 1465 votes, vice president Hubert Humphrey received 1305 votes and George Wallace received 847 votes.

Suspected Forger Finds Wrong Truck

By Frank O'Hagan, Jr.
Everyone has bad days... but when a forger is running from the deputy sheriff and tries to hitch-hike out of town with the chief of police... his "bad days" are just beginning. Jerry A. Ridings, now in the Floydada jail, forged a check, according to officer's reports, for about \$47.00 to pay for lodging at the Fieldan Motel plus cash to get out of town. After cashing the check, Ridings rented a room at the hotel to wait on the bus. In the meantime, E. P. Smitherman, manager of the motel found out the check was a forgery and called the police. Ridings was seen leaving a local cafe and walking toward the hotel so Connie Reed, deputy sheriff, went to the hotel in pursuit of the "forger." Reed found the man's door locked; so kicked the door open to discover that Ridings had jumped from a two-story window and was running down the alley behind the hotel. Ridings then tried to catch a ride with someone that looked innocent enough but turned out to be Tom Hopper, chief of police, who was off-duty in his pick-up truck. By this time, he was boxed-in at the end of the street by sheriff, Walter Hollums... then it was all over except for some sore ankles and maybe a little crying.

Caprock Chat

THE PAST few months our thoughts have been on "my country's time to think 'My Country.'" We are first and foremost for Country and its leadership, and this is as it should be. Our hope is for the new President, Mr. Nixon. As we go with the new president, as he takes on the almost impossible task of solving this Nation's problems, of course, he has the help of our great leaders in the work on these problems... but the responsibility doesn't pass any further than the President's shoulders. We hope and pray that President Johnson can bring peace to Vietnam. It makes no difference who secures the office, our only desire is that we may have a better government as soon as possible.

Frank O'Hagan, Jr. New Reporter

Frank O'Hagan, Jr. has been employed as reporter-photographer for the Floyd County Hesperian and began work Monday. O'Hagan comes to Floydada from Texas Tech, where he has completed all requirements for his bachelor's degree in Journalism except foreign language. He is single, a member of the Catholic Church, Sigma Delta Chi, professional journalist society, and his home is in Dallas, where his father is an appliance salesman. He lived in Waco for 18 years and was graduated from Richfield High School in 1964. This is his first full time reporter-photographer job, but he served as summer editor of the University Daily at Tech and has received considerable reporting and photography experience working on the University newspaper. O'Hagan says that he likes all kinds of sports and his hobbies are golf, bowling, swimming and he's interested in getting his pilot's license.

Visitors From Turkey (Not Texas) In Floydada

Two agricultural engineers from Ankara, Turkey, visited in Floydada and Floyd County last Wednesday. Mr. Nihat Ozkicil and Mr. Mahir Demirel are on an extended tour of the United States to observe irrigation systems and other phases of soil and water conservation work. They have been

in the states of Washington, California, Idaho, and Texas. From Texas they will travel to Ohio and then back to their native land.

The two engineers are employed by the Turkey Ministry of Agriculture, Soil Conservation Service. They are also observing the USDA-Soil Conservation Service for helpful ideas.

The work unit conservationist - Jon LaBaume of the SCS in Floydada was responsible for showing the visitors different kinds of irrigation systems on several farms in Floyd County.

TURKEY VISITORS ARE... pictured visiting with J. B. Colston (left) and Jon LaBaume (right). (Staff Photo)

THE HARVEST has really come alive in the south and west part of Floyd County. I visited with Roy Crawford Colston Tuesday. Both were harvesting around a bale acre on dryland acreage. Looks good all over the county, and the soybean harvest is looking good. Farmers agree, some don't, that this rainy year has been good. Yet, we must all agree that we've saved an abundance of irrigation water in 1968.

IS CONSIDERABLE speculation as to who will win the Olton or Denver City. Last year it was Denver City, it appears the game will be played in Olton this year. It is of course stronger than last year. I have an opinion that Olton will play down to the line this year. However, Olton didn't touch in passing offense last week. It may be that Olton need much of a passing attack with the strong line backs that have proved so effective. I don't doubt in my mind that the best team is representative of the district, and I surely hope Olton can beat Denver City next year country, and with Olton losing 19 seniors, the Floydada is set for the district championship for the next two years. How's that for predicting ahead of time?

ABOUT THIS Friday?... Abernathy surprised us and won by two points last week. Our sympathy goes to our boys up north... Lockney has lost two games by one point each. This is pretty rough sledding. We should be able to beat them 21-7.

AFTER finishing a big dinner, I thought I would go down to the rodeo arena, shoot some action shots of the roping contest, come home and take a nap or watch a football on TV. I got down to the pony express contest, and got so excited interested in it, that I missed both the nap and TV. Now when there'll be another pony express event, but you now, don't miss it... it's real sport. Floydada boys and girls teams competed, and although the first contest for the girls they looked pretty good. We hope to fall off her horse, but she wasn't injured... embarrassed.

SOMETIMES, our best editorials are written by our readers. "Letters to Editor" column. Hope you'll turn to the editor of this edition and read Jack McIntosh's letter. It is a lot of thought, a lot of wisdom, and we heartily agree with his idea of unity as a nation.

THAT everyone, especially our Floydada merchants, with the American Legion and the VFW in their support to get 100 American flags flying in Floydada on Nov. 11. We do not have a flag, Gregg Brown, down at Brown's has several for sale. It is time to honor the men who gave their lives for this country and pledge our loyalty to the new president president than a huge display of waving flags next year.

TO PEGGY JAMES for giving a barber chair to be used in the Community Center adult training courses. Incidentally the kindergarten at the center has increased to 27 and help is needed. Can anyone give two hours one day a week to help? A passer-by asked the old scissors grinder. "I never saw things so dull."

LCC President Speaks To Rotarians

Dr. F. W. Mattox, president of LCC in Lubbock spoke to the Floydada Rotary Club at their weekly luncheon yesterday in their weekly luncheon yesterday in the Colonial House. Dr. Mattox told the Rotarians that the state college has tax money to help it expand and meet operational costs, but the private or church supported college had only the gifts of individuals to keep it in operation. "About 20% of college students are now enrolled in the private colleges of our nation now, and only about 12% will be enrolled in the future, due to the higher tuition charges that a private college must charge the student," Dr. Mattox said. Dr. Mattox emphasized that the private college has the freedom to be an "affirmative college"... belief in the Constitution, law and order, free enterprise system and not bound by government regulations, due to use of government money.

Dr. Mattox was introduced by Rotarian J. A. Arwine. Other board members of the drive committee include; James H. Word, C.H. Bedford, Lorin Leibfried, Walter G. Collins, J.C. Wester, Mrs. Wesley Carr, J.M. Willson, Jr., J.M. Willson, Sr., Harry Morkel, Homer Steen, Walter Hollums, Willie Bradshaw, O.M. Watson, Jr., James M. Lackey, John W. Reue.

The Seniors are still in the lead of the overall contest at high school. This contest has really been good, and it has helped GREAT class participation, and it has helped F.H.S. tremendously.

Class has the Spirit Stick this week and next week will be passed on to the Seniors, however our chances are better than anybody else's.

Whirlwind Band goes to Marching Contest next Tuesday. They really worked hard and we hope to represent you in the contest.

"The Diary of Anne Frank" is really working well. We are practicing at least three nights a week and we're sure you can really see a good play in December.

Last week was Nine Weeks' Tests, we were all really busy, but things will be back to normal this week. Congratulations to the Mean Green Floydada Whirlwinds, a good job Friday night, and we were all proud of the Mustangs.

Yesterday morning I took my S.A.T. test in Plainview. There were guys there from Olton. The first one LIMPED in and said "Say, you played a good game Friday night." "Are you from Floydada?" and I said "Yes." "Well, your team did quite good too." "I know of besides myself who could hardly get out of bed this morning."

Mustangs know they've played a tough bunch of boys!! Congratulations to Sharon Fuller on being selected as the D.A.R. Award. Sharon is a Senior this year, and a wonderful Whirlwind and a deserving winner.

Sophomore Class asked me to tell you that they are selling Christmas Candles, do buy them from the Sophomores. Congratulations to the Sophomore class for winning last Friday.

Be sure to come to the game Friday night to see the Whirlwinds beat Abernathy.

Thought for this week is "To thine own self be True."

Letter To The Editor

Nov. 4, 1968

Dear Wendell,

Today is election eve, and according to the polls released last night, tomorrow promises a very close vote in the presidential race after a long and bitter campaign.

In view of the facts above, I want to pledge myself to accord the winner of the race all the dignity and respect due the President of the United States, whether he is the man I vote for or otherwise. Will you and your readers join me in that pledge? We might at the same time renew our pledge of allegiance.

In view of the fact that "Law and Order" has been a source of concern of all the candidates and the voters, I also want to pledge myself to be more diligent in the observance of all of the laws of our land - local, state and national. The rule of law is really the sum of the citizen's respect for the law and we never know when our personal example is vital.

Lastly, since our legal and political system is steeped in the Judeo-Christian understanding of right and wrong, I pledge myself to more faithful worship of the Supreme Lawgiver and study of His Word for a better understanding of my responsibility to my fellow man.

Sincerely yours,
/s/ Jack
Jack McIntosh

To the City and Mayor,

I drove through the Della Plains Area and it looks a lot better - the roads and where you cleaned the lots off on the corner of 9th and Lee St. I think the Mayor should make all the peoples that own those ole houses that are unused should be torned down or done like you did the ole place on the corner it would make our town look better its a whole block around the Church need cleaning and the ole cafe down on 8th street need closing or condemning all those shacks need condemning and destroying to improve the town.

Maybe if you the Mayor forced the action they would clean up the official mess. Just drive down Lee St. and look on around 8th and Jackson and see the horrible mess.

I'd like this put in the paper where everyone can think about this.

Dear Friends,

Now, since we have had a defeat, the Whirlwinds need your support more than ever in the game against Abernathy. With only two games left, we need to keep the spirit up. Last week's pep rally was the best we have had, but we want this Friday's to be even better.

The pep rally is at 3:30 Friday afternoon in the gym, and the game is at 7:30 that night. Come and show the boys that you are still backing them when the Winds will gain another victory against Abernathy.

Peggy's Meddlin's
BY PEGGY MEDLEY

WELL... the excitement of Nixon's appearance in Lubbock is over and it was quite an afternoon for this little ole gal. It isn't every day that you can shake hands with a presidential candidate, his wife and children, senators and a movie star. Guess it was a good thing Wendell didn't go though, he was wanting to see Terry Moore, and she didn't show. Dale Robertson came in on his private plane and all of us from here were able to secure autographs. I found out he is just two years older than I am. Somehow I had it in my mind he was younger, and he had grey streaks in his hair, wore a turtle neck sweater and had that old cowboy swagger.

I told the girls in my group that he was definitely too old for them and they remarked that they all liked older mature men.

I'm afraid I neglected our husbands just a wee bit for a while, but they took it in good stride. They would have probably treated us the same way if Terry Moore had been there. What fascinated me most, other than seeing the dignitaries, was a 96 year old man seated one chair down from me.

His daughter was next to me and gave me some history on her father. She was almost 80. She said he had voted Republican since he became of age and had never failed to vote. He had quite a visit with Mr. Nixon before the group left the airport.

Tanner Lane of Lubbock spotted the Carmel Eastham vehicle and plugged Dougherty for them. They have a sticker reading "Lucky Me, I Live in Dougherty."

I hadn't realized until now that it's time to be thinking of next school term's American Field Service student, and Sammy Hale, who is president of the local organization, is needing applications from parents. They need a family who can provide affection, care, guidance and discipline, food and lodging for a foreign student. If you feel you qualify be sure to contact Sammy. A more detailed story of AFS is elsewhere in the Hesperian.

Halloween was relatively peaceful in Floydada, and how lucky we were not to have had a tragedy like Lockney. Little tots at dusk dark are hard to see and they have no fear of anything happening to them as they dart from house to house or cross the streets.

I think a good warning to parents should be, regardless of the Halloween costume, make sure it's white. Coming home from the Halloween Carnival Thursday night several young people were crossing the highway near Junior High dressed in dark clothing, and with a car approaching, lights on bright, they were definitely hard to see.

Of course it would have helped if the guy in oncoming traffic would have dimmed his lights.

That's another gripe of mine, people who won't dim their lights. If I were a lawman I would give a citation for that about as quick as I would for turning right on a red without stopping.

PLAINVIEW is playing host to its first national convention of the National Gospel Singing Convention. The three-day run starts Friday, Nov. 15 continuing through the 17th, and will be held in the Hale County Agricultural Center, just south of Plainview.

REGARDLESS of the score the Whirlwinds played a good ballgame Friday night and I think each player must have been putting out 100%, otherwise the score would have been 40-0 at the half instead of 0-0. Olton realized it and cameback on field knowing they were going to have to put everything in the game to come out winners.

I still have the two tickets to the Shriners' Texas Tech Freshman and A&M Freshman game in Jones Stadium tonight. We would be happy for someone to use them. No charge!

MAYBE we worked harder in Floyd County in our Republican party than we anticipated, for it certainly surprised me that the county went Republican.

Because of Mr. Nixon's presidential election I won a steak from a relative and I'm going to find the biggest one they have in Floydada, even if I have to purchase a side of beef and let him pay for it. Regardless of how you voted, we of the Republican Party extend our thanks for the votes. A record number of voters turned out, 3,617, I believe.

DID you know the average woman of today under 30 years of age is 1.4 inches taller than the same age female of a generation ago, and has a smaller waist and hip measurement? She outweighs the young women of the 30s by 1.9 pounds. Women in the 30s had calves .3 inches slenderer but her forearms were .4 inches fatter.

THE Hong Kong flu bug has already entered the United States and medical men say there may not be time to develop a vaccine to prevent an epidemic. One doctor stated the vaccines used against the viruses causing the other types of flu are useless against this variety. This new virus is called A3 and is believed to be a variant of the A-2 bug. Regardless if the present vaccine doesn't help in the A3 virus it is advisable for persons to get the vaccine for the A-2 bug.

SOUTH PLAINS

NEWS

SOUTH PLAINS, Nov. 4-Heavy thunder and lightning storms raged around our area Friday night and some hail and three quarters inches of rain fell from the black clouds. The wind knocked out the telephone and radio at the M.M. Julian home in South Plains, and at the Fred Marble home the telephone was out. Hail fell at the Sanders home south of town, and piled up until it looked like snow. Some crop damage was sustained, but we are glad it was no worse.

Mr. and Mrs. L.N. Johnson took Carlton back to the Methodist Hospital last Wednesday for a check up and he is getting along fine. Carlton sustained football injuries a few weeks ago. His knee was operated on and put in a cast.

Mr. and Mrs. L.T. Wood arrived home Sunday night from Hobbs, New Mexico where they had spent the weekend visiting with her sister, Mr. and Mrs. Buster Dunham. They came home by Lubbock where they stopped a while with their daughter and family, Mr. and Mrs. James Teague and boys.

The Drum Beat

BY THE BAND BOOSTER REPORTER

NEITHER RAIN nor cold can keep our band from performing and doing a good show.

Three buses driven by Juan Salinas, Neil Bertrand, and Jerry Hodges drove to Olton Friday evening. All these wonderful men have volunteered their time and expense of obtaining a commercial license.

When you start driving a school bus, you find it isn't the easiest job maneuvering these monsters around, and also the responsibility of these many young people... you have to be an extra special person. Thank you for helping us! Those names I have forgotten to mention in the past... a thank you to you too.

The Floydada Band had the WHOLE half-time show and what a splendid job you did! You sounded great. You've really improved! All this extra work and practice really has paid off. You are bound to win a first at contest. HOW CAN YOU HELP IT?

Out on the field under the rain and the field direction of our drum major, Douc Cannon, the band marched on the field from the south end. Our twirlers, Penny McClintock, Kit Martin and Kacky Weems looked nice and sharp in the new uniforms and did a very good performance despite the heavy rain.

Entering in three ranks from the south end of the field the band played a fanfare. A block formation was formed on the 50 yard line playing "Golden Gate March". Then every other file separated from the main body of the band and back to the 50 yard line forming a block formation facing the Floydada stands. "Swagger Step" was played while a staggered file drill was formed. A march back to the 30 yard line playing "Colonial March" and doing a counter-march. "Burst of Trumpets" was played when a march back and a column left maneuver was executed. "Green and White" was played as the band made an

exit front and center to the sideline with the "Coca Cola" fanfare. Facing the Floydada stands they left the field in a sideline exit.

You're looking good, band... REAL GOOD!

Host Family Of AF Student Applications Being Taken

Applications are now being taken by Sammy Hale for parents of Floydada's American Field Service student for the school term 1969-70. Hale is president of the local organization.

Applicants need to have a heart large enough to share a portion with another child from another land for a year - and probably for life; a mind open to the different life and culture the student brings with him or her, accepting the differences and similarities; share laughter and gaiety to shrink the problems that may arise and to strengthen the bonds of communication.

The family must be understanding and realistic in its approach to guidance; able to recognize and appreciate individual differences; be cheerful and adaptable, open to the pleasure of a deeply human experience.

The family responsibilities include providing affection,

care, guidance, discipline, food and lodging.

Who pays the costs of the AFS? The host family pays for the student's food and lodging and family outings, etc., the AFS chapter contributes \$750 to AFS/International; the student's own family contributes what it can afford; the schools, in most cases, generally furnish supplies and such; AFS/International pays for overseas fares, personal allowances, medical expenses and necessary transportation within the United States.

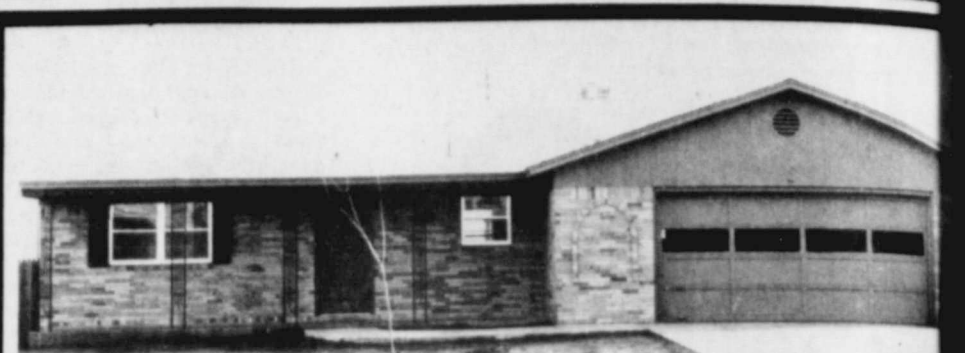

The young man or young woman who will pass through the door into the United States will be 16 to 18 years of age, ready for the senior year in high school. He will have been chosen because selection committees here and abroad saw in him qualities of adaptability, open mindedness, and eagerness to learn.

He will participate in the life of his community and his

school; learn first-hand, not as a visitor, not as a guest, but as a member of a family what life in the United States is really like. And he will teach, about his own land and his own people.

The reason for AFS is that the student, through meaningful involvement in a U. S. family, school and community, may gain an understanding of the United States, its people, educational system, customs and ideals and spread this understanding among his family and friends in future years after he or she returns home.

The host family will not be left on their own, it will be backed by AFS. There have been thousands of families who have opened their doors to these students, will you? If so please apply right away to Sammy Hale, especially those interested in hosting young men students.

Olton Advances To Championship

By Wendell Tooley

The district leading Olton Mustangs had no trouble in defeating the Whirlwinds there Friday night 24-0 to thrill a throng of homecomers. Although intermittent rain showers plagued the contest, it didn't dampen Olton's winning game.

The Whirlwinds were definitely in the first half of the game as they held Olton to a 0-0 tie at halftime. Only the tough Whirlwind defense and the strong punting toe of Whirlwind back Steve Craig kept the Floydada hopes alive.

The 175 pound Charles McClain was a threat in the second half that ruined Floydada's hopes for a district championship. He crossed the double stripe three times to lead the Mustang win.

The win gave Olton a cinch tie for the district championship and an automatic trip to the bi-district play-offs. Olton is now 8-0 for the season, Floydada 6-2.

During the first half, the Mustangs had only one penetration while being held scoreless, however, Floydada was outgained 187 to 25 yards in the first half.

Two interceptions, one by Bob Marler and one by Stan Pierce also helped hold off the Olton offensive in the first half. The Mustangs drove down to the six yard line in the middle of the second quarter. However, the strong Whirlwind defense wouldn't let them score and Mustang Eddie Hooper tried a 26 yard field goal with 8:06 minutes left in the quarter, that failed.

At halftime Floydada could look back on very little offensive gainers: A five yard Jack Gregory to Steve Puckett pass, a 26 yard run by Puckett, a ten yard Gregory to Wester pass and an 11 yard Gregory to Connie Bearden pass.

I don't know what Mustang Coach Don Beck told his boys at halftime, but they came out to win the game. . . and with only two minutes gone in the third quarter, McClain fielded a 48 yard punt from Craig on the Olton 28. Retreating to the 28 yard line, he hesitated a moment close to another Mustang player, waiting for his blockers to take positions, then the speedy senior charged back upfield and raced 80 yards up the west sideline for the first touchdown of the game. This time Hooper's kick was good and the Mustangs were seven points out in front.

Floydada had the ball for three plays, punted. On first and ten from the Mustang 39, quarterback Johnny Lewis hit McClain with the first Olton completed pass of the game and McClain raced 61 yards for the second TD.

Hooper's kick with 8:34 minutes left in the quarter made the score 14-0.

McClain picked up his third TD of the evening early in the fourth quarter to up his season point total to 88 points. He still trails Friona's Tony Perea who also scored three touchdowns Friday.

The final TD was a 25 yard run, Hooper again kicked the extra point. It was 21-0. To add insult to injury Benny Akin kicked a 44 yard field goal with only 39 seconds remaining in the game, making the final score 24-0.

Floydada's outstanding plays in the second half included a 29 yard run by Puckett, a 14 yard pass from Gregory to Craig, Craig on two 7 yard runs.

Second Place In 3AA

It's all over but the shouting and the battle for second place in District 3-AA. Defending champion Olton has it all locked up!

The Mustangs have side-tracked five loop foes, with only Friona remaining. Even a loss to Friona would leave them with a 5-1 mark. Olton could do no worse than tie Dimmitt, whom it has beaten.

While Friona hosts Olton this Friday, Dimmitt hopes to strengthen its hold on the runner-up spot when it journeys to Lockney. Abernathy is at Floydada in the other 3-AA match.

Hale Center takes time off from district competition to engage hapless New Deal.

After a tight first half, Olton broke the tilt open in the second half to erase Floydada.

WHIRLWIND FANS, REMEMBER THE QUARTERBACK CLUB MEETING MONDAY NIGHT.

24-0, last Friday. The Longhorns - making a habit of dropping close ones - were nipped by 21-19, by Abernathy, and Dimmitt came from behind with a long pass to ease past surprising Hale Center, 28-27, Friona shocked Crosbyton, 48-23, in a non-league affair.

Olton will meet either Denver City or Frenship of 4-AA in the bi-district match.

West Texas Homecoming This Week

Highlighting annual Homecoming activities Saturday at West Texas State University will be a parade, football game, dances, and the silver anniversary reunion of the Class

of 1943.

Pre-Homecoming day activities are centered around the annual Homecoming assembly of the 7,300 WTSU students at 11 a.m. today when a queen to reign over events will be crowned. The gigantic pep rally will be staged in the field-house.

General registration of visitors and ex-students will open at 8:30 a.m. Saturday in the Student Union Building and continue throughout the day. Featuring more than a dozen floats, area high school bands and riding clubs, the traditional Homecoming parade will start at 10:30 a.m. from downtown Canyon. Line of march is east along Fourth Avenue to 24th Street, where groups will disperse onto the campus. Theme is "The Wonderful World of Walt Disney." The Buffaloes will play Western Michigan in the Homecoming

ing game at 2 p.m. in Buffalo Bowl, following barbecue lunch served in the two campus dining halls.

Area Colleges Play At Home Saturday

Texas Tech and West Texas found the winning combinations again Saturday. The Red Raiders plucked the Rice Owls' feathers, 38-15, and the Buffaloes gained revenge against New Mexico State, 23-14.

WT entertains Western Michigan at 2 p.m. Saturday. This will be homecoming and the final home match for the boys from Canyon.

Tech tries to stay alive in the Southwestern Conference race when they test TCU at 2 o'clock in Lubbock. The Raiders are well aware that three more victories would put them in the Cotton Bowl.

New York's Relief Rolls

Relief rolls in New York City, fed by both state and federal funds, have skyrocketed so fast in the last year that two investigations have begun, to determine why the number of recipients has risen so rapidly and whether all now drawing financial assistance are really eligible or are really unable to obtain employment.

A look at the mushrooming number of recipients strongly suggests that too many are content to draw welfare funds rather than work, and also that many who are ineligible are enjoying the windfall.

The cost of the New York City relief program is scandalous in itself. A year ago the number of recipients totaled 694,000 whereas by next summer the total is expected to be more than 1,000,000. Considering that the population of the city is 7,000,000 this means that one out of seven residents is drawing a relief check.

Obviously, this is far too many and at the present time, when prosperity is widespread and jobs easy to come by, no one who seriously studies these figures can conclude that Commissioner Jack Goldberg's Social Services department has been firm in seeing that ineligible are kept off the rolls and in seeing that those who can find work do so, rather than draw relief checks.

The issue, in the case of New York and other cities where such skyrocketing relief sums are being asked, is a moral one. Commissioner Goldberg says even more people are "entitled" to checks. But someone must furnish the money for these checks and since the federal government is paying most of it, every American has a right to object to such a philosophy.

The question is not one of bureaucratic rules, to determine who is entitled to money under these bureaucratic rules. The question, a moral one, concerns the spending of the taxpayers' money in a program which does not properly guard the taxpayers' interest and which threatens the economic health of the nation.

VOTE SIGNS FOR STUDENTS... Mrs. Fred Stewart and Mrs. Andrew McCulley, scout leader, watch Girl Scouts; Tracy and Kathy Green pin "voting signs" on students at Andrews Ward Elementary. (Staff Photo)

Editor's note: The following column is a new addition to the Floyd County Hesperian. It will include reviews of some of the top selling books now available in our library.

The Book Nook

"In Search of Light" contains the broadcasts of Edward R. Murrow from 1938 to 1961.

Murrow had a front row seat at some of the most important events in recent history; the book features highlights during a quarter of a century.

Through this book the reader gains an insight to some of the events that Murrow reported.

He painted vivid descriptions during World War II from the rooftops of London to the young American soldiers on troopship in the Atlantic Ocean.

Murrow's portraits of Churchill, Eisenhower, Truman, Stevenson, and many more show his journalistic integrity and his constant search of truth.

"The Dropout" by Lucius F. Cervantes, attempts to give some of the causes and cures of the high school dropouts.

The book shows some of the basic emotions and attitudes of people that failed to receive their high school diploma.

The author of the book feels that their success in America's economy is limited and that something should be done to keep young people in high school until they graduate.

Floydada Student Receives Letter From President Johnson

Frank O'Hagan, Jr., Floydada student at the elementary school, recently received recognition from President Johnson for her abstract drawing of a "Fighting Atom."

Mr. G. Zinn instructed his grade class to create a drawing from a mark that he gave each student's paper. The drawings were given thirty minutes to complete the drawing and they had to turn in their

drawings. The drawing was the creative drawing in the class and she entitled it "Lyn Johnson's Fighting Atom," Zinn said.

The drawing was received by Miss Covington, she took it to the White House as a representative.

Miss D. Roberts, personal secretary to the president, sent the letter to Belinda saying:

Belinda: President Johnson asked me to ask you for sending him your drawing. He appreciates your friendly thought and extends you his good wishes. Sincerely, Juanita D. Roberts"

Bertrand Out Of Hospital

Richard Bertrand, son of Mr. and Mrs. Neil Bertrand, has been released from a hospital in Saigon and is now on limited Naval duty at DaNang.

Bertrand, a member of the Special Forces Services of the U. S. Navy, was wounded by shrapnel September 27 while on night river patrol duty. His mother said she was informed that a mortar shell exploded in the boat and a B-40 rocket landed in the river near the boat. Shrapnel from the mortars entered Bertrand's hip.

He was dismissed from the hospital the latter part of October and is now in non-action duty until further notice.

Letter To The Public

By AFS Student, Carolyn Kneale

Hi! This is Carolyn Kneale, more commonly called Kally, Floydada's American Field Service Student for 1968-69.

I have been living here with my new family, Mr. and Mrs. Fred Martin, their daughter, Kit and their son Dwane for three months and find life in Texas very interesting and varied.

There were many things that were strange to me at first, although I have become accustomed to them more. These included, light switches turn on the opposite way; in Australia, we drive on the left-hand side of the road (I am always gaily hopping into the driver's seat, which to me is the passenger side); ten cent coins are smaller than five cent coins; and all the paper money is green.

One day shortly after I arrived, Mother, Kit, Dwane and I drove to Lubbock to do some shopping. The day turned out to be a very interesting one because I saw tumbleweed, backyard oil wells and extremely short telephone poles which had been covered by drifting sand. To top it all, we were in a department store and I was wanting to buy some hose.

I innocently asked the shop assistant, "Do these stockings ladder?"

"Ladder?" she repeated wonderingly while she rolled the whites of her eyes at me. "Yes, do they ladder?" I asked again.

"I think you need the hardware department," she said, pleased that she had solved my problem.

Kit later told me that had I asked, "Do these host run?" I would have had no trouble. This is only one incident in many. Once Daddy asked me how much I weighed, I told him 87.

"Is that all?" he said. "Eight stone seven pounds is a lot," I said with emphasis. "How much is a stone?" Daddy asked raising one eyebrow. "Fourteen pounds," I answered.

"Then how much is it that you weigh?" With a quick mathematical calculation (that took only two hours) I replied, "119 pounds."

Another time, I asked Mother if I could have a brown cotton reel to mend some clothes. "Well, Kal, I guess we'd have to go to the cotton gin for that," she said.

"All that trouble just to mend something?"

What I should have asked for was a spool of brown thread. The first week I was here, I asked what time tea was, Mother said I could have some

FFA SWEETHEART - Penny Gail McClintock, daughter of Mr. and Mrs. F. D. McClintock of the Lakeview Community was named Sweetheart of Floydada Chapter of Future Farmers of America for 1968-69. The petite green-eyed brunette is also Rodeo Queen of the Floydada Club and represented Floydada at the Fort Worth Stock Show in 1966-67. She is secretary of the local DECA Club, twirler for the Whirlwind Band and enjoys horseback riding. Penny is a senior in Floydada High School.

tea if I wanted to, but supper would be about an hour.

"But we cannot have supper without first having tea," I insisted.

After a while it was straightened out. Back home we call the evening meal "tea" and supper is a late snack after

"tea." The thing in which, perhaps, I have found the most difference, is the food.

I never cease to be amazed at the endless variety of salads that Americans eat with the main meal, especially if it is

Banks Biggest Lenders To Farmer

banks were providing and ranchers with credit and other financial services than any other at the beginning of this year according to Tommie Stuart, chairman of the Texas Association of Agricultural Credit Associations and Vice President of the First National Bank of Waco.

The 27th annual farm lending summary of the Agricultural Committee of the American Bankers Association, quoted in the October issue of the Texas Bankers Record, Stuart said that at the beginning of the year, Texas banks were holding \$798 million in loans, 7 percent more than a year previous. This total included \$656 million in production loans and \$142 million in farm mortgages. At the same time, \$587 million in farm loans was held by life insurance companies; \$439 million by the Federal Land Banks; \$195 million by Production Credit Associations; and \$91 million in non-real estate loans, plus \$15 million in real estate loans by the Farmers Home Administration.

About 77 percent of the production credit extended to Texas farmers and ranchers came from banks. Stuart said that "bankers in Texas are conscious of the large capital investments required in agriculture today and are making a concerted effort through im-

proved lending programs to meet these changing credit demands of the state's farmers and ranchers."

The increased use of credit by farmers and ranchers, Stuart declared, has been accompanied by a substantial gain in the total assets of farm-ranch families, so that in the aggregate, the equity position of agriculture is being maintained at a satisfactory level, despite some claims to the contrary. He added that nationally farm-ranch families have \$231 billion of their own funds invested in agriculture, representing 82 percent of the total capital requirements of the agricultural community.

Stuart stressed the importance of farmers and bankers working closely together to improve farm financial arrangements. He reported that nine out of ten insured banks throughout the country had agricultural loans outstanding, with nearly 88 percent of the banks extending credit to farm and ranch people.

a sweet salad. Back home, a fruit salad would not be served with the main meal, but as a dessert.

I have difficulty in explaining some different Australian foods, such as crumpets, meat pies, jaffles, fruit cake and pumpkin scones.

To quote some examples of new food, these would be: okra, red beans, black-eyed beans, cornbread, southern fried chicken, pumpkin pie, squash pie, thousand island dressing, coke salads, cherry cokes, Dr. Peppers and Sprites.

just to name a few.

I have found out that life here IS DIFFERENT to that in Australia - the people live at a quicker rate than what I was used to. The elections and halloeen were two aspects of the American way of life that I enjoyed greatly.

My experiences are many and enjoyable, and I have found the people friendly and helpful. I would like to take this opportunity to thank the many people who made my stay in Floydada possible, especially my parents, Mr. and Mrs. Fred Martin, the Student Council and the A.F.S. Chapter. To those of you who would like to be-

come involved in this worthwhile programme by hosting an A.F.S. student for a year, I would suggest that you contact Mrs. Helen Patterson, who would be glad to give you further information. I can assure you that the A.F.S. programme is an enriching and rewarding one.

President Johnson has signed a bill extending a Federal program to train workers in new or improved job skills for three more years. The program, established in 1962, is said to have trained on the job or in educational institutions 1.2 million persons.

A tour of the South Plains by air, a drive from Hereford to Lubbock and the testimony of many witnesses has impressed on the members of the Legislative Interim Water Study Committee that West Texas needs water and is willing and able to pay for that water when it is available. The Committee, composed of Billy Clayton, Springlake, Chairman, Menton Murry, Harlingen, Neal Solomon, Mt. Vernon, Bill Swanson, Houston and Bill Finck of San Antonio, took the tour prior to the public Committee Hearing in Hereford on October 5th.

The air tour was conducted in an aircraft furnished by Pioneer Natural Gas and another furnished by the Beechcraft Company of Amarillo. After take-off from Lubbock the flight was over Brownfield, West Plains, North to Muleshoe, Morton, then east to Plainview for lunch. A visit was made after lunch to observe recharge wells on the farm of Billy Clayton, near Springlake, Chairman of the Committee. A tour of the Missouri Beef Packers Plant at Friona and feed lots near Friona and Hereford completed the tour.

Witnesses before the Committee testified that as far as West Texas is concerned, all want to continue private ownership of ground water in West Texas. There also seemed to be a consensus that a price of \$20.00 per acre-foot the farmers could buy the water and still carry on a profitable farming operation. They seemed certain that the increased level of economic activity resulting from a reliable imported water program would justify increasing taxes by 1/10 to help pay for this water.

Testimony presented makes it seem essential that an import agency be created with power to contract with the State for purchase of the water and to contract with the users to sell them water. This agency would be the taxing authority to help defray operational costs. It would also need power to issue bonds, incur debt and to hire sufficient staff to carry out the needs of the agency.

Most witnesses wanted to be included in the area. As Bill Cleavinger of Wildorado testified, "We want to be included in the earliest possible phase at the earliest possible time for water deliveries and we want to be included in and be a part of any master import agency which would be organized to deal with imported water." Cleavinger was testify-

SOCIAL SECURITY NEWS

By Ray Purcell

Social Security Representative Q. I will be 65 years old next year and have been regularly employed at good wages all my life. I have been told that my benefit will be figured on the basis of my five high years of earnings. Is this correct?

A. No, it is not. In your case we will consider your annual earnings for the years from 1951 to 1969. From these 18 years, we must use the 13 high years in computing your average.

For more information contact your social security office at 1401-B West 5th Street, Plainview. If more convenient, meet with your social security representative. He is in Floydada at the courthouse on Wednesday morning, in Matador in the lobby of the First State Bank on the first Tuesday morning of each month and in Abernathy in the City Hall on the third Tuesday of each month.

The Day They Heard The Silence

in No Man's Land

At 11:00 A.M., November 11, 1918, the guns of World War I were stilled. For the first time in our Nation's history, Americans on European soil had defended the cause of freedom. Since that day, other generations of Americans have been called upon to defend that lofty cause throughout the world.

November 11, 1968, is Veterans Day, a time to honor all of our Nation's veterans, men and women who have fulfilled the highest obligation of their citizenship.

Out of World War I, which ended on that November 11th, 50 years ago, was born The American Legion. An organization of war veterans dedicated to God and Country, the Legion now includes in its ranks veterans of four major conflicts—World War I, World War II, Korea, and the Vietnam period. In their quest "to make right the master of might" American Legionnaires devote their endeavors to a strong, vigorous, compassionate America—an America to lead the world to that ultimate goal of honorable peace.

On this Veterans Day, November 11, we salute The American Legion, continuing into the future its magnificent 50 years of service to God and Country.
