VOLUME 74 10¢ EACH FLOYDADA, FLOYD COUNTY, TEXAS THURSDAY, NOVEMBER 28, 1968 12 PAGES NUMBER 48

ACREAGE DIVERSION DROPPED

1969 Cotton Program Announced

Boost To Economy Of County Forecast

Floyd County's economy for the coming year received an estimated \$2 million shot in the arm when the 1969 cotton program was announced. This is additional money that will be funneled into the agribusiness in the area as a result of 45,472 more acres of cotton to be planted in the county during the year. Total county cotton allotment for 1969 is 95,472 acres as opposed to 94,989 acres in 1968. For 1969 there will be neither a mandatory nor a voluntary diversion program. This means the farmer can plant the full allotment of 65 percent and still be paid the same as if he had diverted a portion of it as was done this year. Acreage diversion in Floyd County this year averaged 33 percent of the cotton allotment, for which the farmer received compensation. The 1968 program included a mandatory diversion of 5 percent at payment rates of 10.76 cents per pound on the projected yields established for individual farms. In addition, growers this year were offered payment of six cents per pound for voluntarily diverting another 30 percent of their acreage from cotton production. The base price support loan rate will remain at 20.25 cents per pound for middling one-inch at average location. In addition to qualifying for participation in the loan program, growers will receive a direct price support payment of 14.73 cents per pound, up from 12.24 cents in 1968. Growers next year won't be required to divert any of their acreage allotments from production in order to qualify for benefits of the federal program. Total diversion and price support payment in 1968 came to \$5,742,433 and the total projected for 1969 will be \$6,243,-

School Out Early Nov. 27

School officials have announced Thanksgiving and Christmas holidays for Floydada Schools. A two-day holiday has been set for Thanksgiving and students will be dismissed eight teaching days for Christmas. Classes will be turned out for Thanksgiving at 2:30 Wednesday, Nov. 27 and resume the following Monday, December 2nd. Christmas holidays will begin at 2:30 p.m. December 20 with classes taking up on a Thursday, January 2nd.

Car Train Collision Near Compress

Adam Pena Mejia, driver of a late model Ford, collided with a train on new Lakeview Highway at approximately 1 a.m. Friday. Bud Rainey, highway patrolman, said that Mejia is present-

Sgt. Holmes Back From Vietnam

Sgt. Jay Holmes, son of Riley Holmes of near Floydada, arrived in the States Sunday from a year's tour of duty in Phu Cat, Vietnam. Holmes served as an electric technician on the F100 fighter-bomber planes

New Pastor At First Assembly Of God

The Rev. Raymond VanAmber recently arrived in Floydada to assume the position of pastor of the First Assembly of God Church. Rev. VanAmber is originally from Joplin, Missouri and has pastored two churches prior to his arrival in Floydada. One church was in Missouri and the other in Tennessee. The new pastor was elected to the position Nov. 10, after spending 1 1/2 years in Lubbock performing evangelistic work. Rev. VanAmber will reside at 326 W. Virginia with his wife Alice and two children, Christine age five and Deborah age eight.

Tools Needed For Center

The Floyd County Technical Action Panel (TAP) consisting of the following members: Alfred A. Harrison, Farmers Home Administration Supervisor as Chairman; Tom Moore, ASCS Office Manager; Jon LaBaume, SCS Soil Work Unit Conservationist; Joe Wilson, Vocational Agriculture Teacher; Alton Higginbotham, REA and Bob Hambright, Texas Employment Commission met November 21, 1968 and reviewed the needs of the Floydada Community Center. The members of TAP want to encourage anyone who has any

Glen Lester To Speak Here December 5 On Fertilizer And Soil

Farmers, ranchers and agribusinessmen are invited to hear Glen Lester of Plainview at 7:30 p.m. in Lighthouse Electric community room December 5. He will have a lot of interesting facts about all types of fertilizers and their relationship to soil. He will explain high yields if regard to high or low protein value in feeds for stock. He will tell much about soil chemistry and how this applies to food value for livestock. Lester is head of Oxidational Chemicals and is well qualified to help the Floyd farmer, rancher, and agribusinessman make greater profits in both crops and livestock.

Salvation Army Rev. Melton Drive To Begin Monday Speaks At Lions Luncheon

The Salvation Army will begin the 1968 campaign Monday with a noon luncheon. Foster Amburn will head the campaign with the goal set at \$2500. Business firms in Floydada are being asked for their cooperation in the "drive" under the leadership of Embre Douglas and Arlis Powell. Gayle Baucum is in charge of the rural area drive, and Jake Webb the general city of Floydada. Rev. Melton delivered a speech on Thanksgiving before the Lions Club at their weekly luncheon last Thursday. He gave the example of Christ curing the ten lepers and only one returning to thank God for what He had done for them. Examples were given from the Bible of people that lived 3,000 years ago and applied to our modern generation by Rev. Melton. Rev. Melton concluded his speech by saying that "it is only human nature to fulfill our desires; but now is the time that we must realize exactly what we have and be thankful for it."

BULLETIN!

Santa Claus comes to Floydada December 6. Read all about it in next week's edition of the Hesperian. Watch for Floydada's big Christmas opening.

OBITUARIES

Mrs. Whitehead

Services for Mrs. Tippa Le-la Whitehead, 96-year-old Lockney resident, were held Sunday in Davis Funeral Home Chapel in Georgetown with burial in Resthaven Cemetery in Austin.

Mrs. Whitehead died Thursday in a Lockney rest home. She was a native of Georgetown and moved to Lockney three years ago.

Survivors include five sons, Wayne O. and J. B. both of Cedar Hill, Warren W. of Texon, Leslie of Midland, and D. W. Scott of Georgetown; a daughter, Mrs. Clyde Rainey of Georgetown; two brothers, Fount Scott of Austin and Tom Scott of San Antonio; 25 grandchildren and 41 great-grandchildren.

Mrs. Callaway

Mrs. Opal Jewel Callaway, 58, died at 1:45 p.m. Friday in a Plainview Hospital where she had been a patient for 12 days.

Services were held Sunday in the First Baptist Church in Lockney with the Rev. James Allison, pastor, officiating. Burial was in Lockney Cemetery directed by Carter Funeral Home.

A native of Fannin County, Mrs. Callaway moved to Lockney 19 years ago. She was married to Curtis Harold Callaway on Oct. 1, 1947.

Survivors include her husband, five stepsons, William Curtis of New Jersey, William Curtis of Oklahoma City; Tommy Joe of Lubbock, Harold Jr. of Monahan and Kenneth of Pecos; three stepdaughters, Mrs. Lovelle Graham of Lockney, Mrs.

Betty Sue Roberts of Dumas, and Mrs. Naomi Hickman of San Antonio; a brother, William Henry Arney of Amarillo; three sisters, Mrs. Evelyn Hunter of Amarillo, Mrs. Rachel Davis and Mrs. Katherine Mathis, both of Morton; 36 step-grandchildren.

Millions Kick The Addiction, 100,000 MDs

NEW YORK - Cigarette consumption in the United States declined 0.24 percent in the fiscal year 1968, the American Cancer Society says in "1969 Cancer Facts and Figures."

The booklet estimates that there are about 21,000,000 Americans who have quit the habit, including 100,000 physicians, half of all physicians who ever smoked.

It comments that the decline in cigarette consumption—from 572.6 billion to 571.2 billion—occurred despite the tobacco industry's ever-increasing expenditure for advertising, and that it "is generally and wide attributed to the effects of intensified antismoking efforts."

At the same time, the society estimates that lung cancer will kill approximately 59,000 Americans, including 49,000 men, in 1969, 4,000 more than in 1968.

Dr. Roger A. Harvey, president of the society, noted that the historically lower lung cancer death rate for women than for men "is beginning to show a slow, steady rise."

"This is a tragically ironic new trend," he commented. "Because the very same set of 1969 'Facts' marks a continuing victory over what used to be the leading cancer killer among women—uterine cancer."

"Indeed, survival rates for many forms of cancer have gone up. We are particularly glad to be able to report that today, in some medical centers, com-

plete remissions are being achieved in up to 90 percent of certain leukemia cases. Some drugs, in series, have prolonged life of leukemia patients for over 10 years."

205,000 TO BE CURED
The booklet estimates that 205,000 cancer patients will be cured next year and that there are 1,500,000 persons alive in the United States today who have been cured of cancer. The society defines "cure" as freedom from evidence of the disease five years after diagnosis and treatment.

According to the new "Facts" 325,000 Americans will succumb to cancer next year, increasing this year's death toll

by 5,000. Other 1969 estimates: While cancer can be expected to eventually strike two out of three American families, about 103,000 cancer patients will probably die next year who might have been saved by better treatment.

The number of uterine cancer deaths, more than slashed in half in the past 25 years, will drop again, although incidence of the disease will remain constant at 44,000 new cases.

There will be 67,000 new cases of breast cancer in women, and 29,000 deaths, an increase of 1,000.

The ratio of male deaths to female deaths from cancer

will be 55 to 45. Some 73,000 new cases of cancer of the colon and rectum are anticipated, and 46,000 deaths, increasing this year's toll by 1,000.

There will be 19,000 new victims of leukemia and 15,000 deaths.

Our greatest glory is not in never falling, but in rising every time we fall.

Douglas Denning, was a luncheon speaker at the home of his nephew Mr. and Mrs. Clinton Thursday.

A pat on the back character if admitted to be young enough.

Every man should have a fair-sized cemetery to bury the faults of his youth.

YOUTH BRING "BLESSINGS FOR WHICH THEY ARE THANKFUL" AT FIRST METHODIST

Remember that what you possess in this world, at your death will belong to someone else, but what you are will be yours forever.

Don't try to tell someone how to wear their shoes until you have walked in their steps.

So you are just as good as the folks, are you? - well, what half?

People who take grim delight in being temperamental are usually more temper than mental.

An evil spirit passes the door first as a stranger; then it installs itself as a master.

More Screwworm Cases Reported

Screwworm cases literally exploded across Texas in October, with 4,046 of the costly livestock pest cases confirmed during the month. Heaviest outbreaks occurred in the two-week period stretching from October 13 through 26, when 2,068 cases were confirmed. The first two weeks of the month saw 1,431 outbreaks confirmed. As of November 1, Texas had already recorded 7,852 screwworm cases this year, exceeding case confirmation of all previous years since the screwworm eradication program was initiated in 1962, with the exception of the first year. Texas recorded 4,916 cases in 1963; 223 cases in 1964; 466 cases in 1965; 1,203 in 1966;

and 835 last year. While the 1968 cases are greater in number than those confirmed in 1963, they are concentrated in fewer counties of the state, officials report. Sterile screwworm production and distribution remains at a record high.

Holiday Bridge Event Set By 56 Study Club

Here is your chance to have fun, win prizes, and help your community all in one afternoon! Plan to set aside the afternoon of Thursday, Dec. 5, to play bridge at the Floydada Country Club. Your hostesses will be members of the 1956 Study Club. The party will begin at 1:15 p.m.

A special treat, in addition to bridge prizes and door prizes, will be a showing of party dresses for the holiday season by the following merchants: Beall's, Hale's, Hagood's, Jo's, Montgomery Ward, and Sears. Items for your Christmas decorating will be featured from Park Florist.

Refreshments will be served by Club Members. Tickets are \$1.50, and may be purchased from Judy Beedy, Peggy Dyess,

Teresa Hale, Darlynn Hambrigs, Roberta Hardin, Janet Lloyd, Edith Muncy, Doris Nixon, Beth Pratt, Leora Younger, Nell Ferguson, or Ina McDowell.

Proceeds will finance projects of the club such as aid to needy school children, T. B. Mobile, American Field Service, State Mental Hospital, hospital and nursing home.

KEITH NORRELL

VIVIAN BUNCH

Mr. and Miss 77A

Keith Norrell and Vivian Bunch have been selected Mr. and Miss Future Teacher of America of the Floydada chapter. The two were selected for their title following a recent speaking contest. Theme of their speeches were "Education; America's Dream."

Miss Carrie Perry and Bob Metteauer were judges for the contest.

During business the pledge of allegiance was led by Mychelle Reed. Prayer was voiced by Dale Baker. Minutes of the previous meeting were read by Brenda Mathis during which time she told of the district FTA convention to be held in Olton and took the names of those planning to attend.

This year rather than exchange Christmas gifts FTA members will collect gifts for a needy family.

Hook-Needle Club Meets In Baker Home

The Hook and Needle Hobby Club met Tuesday of last week in the home of Mrs. Sam Baker. During business final plans were made for the presentations of Christmas gifts to patients in the Floydada Convalescent Home.

Members have been working on the gifts as their chosen project and will give each member a gift December 3rd.

After adjournment refreshments were served to Mmes. Glen White, Vernon Cummings, Maurice Noblin, Lawrence Wedel, Norman Neiderbrach, David Lewis and hostess, Mrs. Baker.

The next meeting, December 3rd, will be with Mrs. Cummings.

HOSPITAL NEWS

Florence Stribbling, admitted 11-22, continues treatment. Rosia Nance, Cone, admitted 11-19, continues treatment. Juanita Garcia, continues treatment.

Lora Farris continues treatment. Lucy Crum continues treatment.

Baby girl Morino continues treatment.

J. B. Terrell, admitted 11-22, continues treatment. Oralia Guzman, admitted 11-20, dismissed 11-21.

Dolly Emert and baby boy, admitted 11-20, dismissed 11-23. Linda West and baby girl, Matador, admitted 11-19, dismissed 11-20.

Slides Of Holy Land Shown Club Members

"A Visit To The Holy Land" through slides was the program presentation Tuesday night of last week or members of the 1950 Study Club. Mary Tom Tooley, guest speaker, showed the slides and spoke on her recent trip to the Holy Land. She also spoke briefly on the Neighborhood Community Center in Floydada and told of their needs including volunteer helpers, materials, toys and cash donations.

Mrs. Sammy Hale opened the meeting with prayer and members answered roll call with a thing to be thankful for. Mrs. Jake Webb was program director and Mrs. W. R. Bradshaw was hostess for the meeting held in the Bank community room.

During business club adopted the motion made by the Floydada Chamber of Commerce to beautify Floydada. Members were reminded to bring their Christmas gifts to the next meeting. These will be boxed and sent to the State Hospital at Wichita Falls.

Those attending were Mmes. Charles Anderson, W. R. Bradshaw, L. W. Crabtree, Sammy Hale, Tom Moore, Doyle Moore, John Moss, Dallas Ramsey, Jimmy Seay, Claude Weathersbee, Jake Webb, Lawrence Wedel, C. C. Whittle, L. G. Wilson, Misses Jo Muncy, Nell Swinson and guest, Mrs. Tooley.

The next meeting is the Christmas party December 17 which will be held in the home of Mrs. Seay.

Births

Mr. and Mrs. Bert Lee Emert of Floydada are parents of a son, Stephen Brad, who was born Wednesday night, Nov. 20 in Caprock Hospital. The baby weighed seven pounds and 13 ounces at birth. He has an older sister, Carolyn, and an older brother, Roger. The father is employed as a carpenter.

Grandparents include Mrs. J. W. Graham, Mrs. Estelle Hinkle and W. W. Emert.

FRIDAY was the fifth anniversary of the Kennedy tragedy. The anniversary always brings out speakers and the placing of flowers but actually Dallas and the rest of the world are now thinking of the assassination as history.

A CONSCIENCE box was set up during the week at the University of Texas prior to the Texas and A&M game for students to deposit tickets for the game they had drawn and didn't want. Quite a few tickets were deposited I understand, because some students were not happy with the ones they drew, like those down on the five yard line and such.

WELL the miniskirt was the test over the grandmother type dress. The contest was held at Long Beach between a shapely lass of 19 in a miniskirt and a grandmotherly type of 75. It was a test of who does best among ladies in distress. The shapely miss stopped a parade of male helpers as she stood beside her car, within three minutes and it took 17 minutes before grandma got assistance. Afterwards grandma remarked "that's show business, just goes to prove the young ones have more to show than us old ones."

Would you believe that Maxwell Smart, super-sleuth, agent-86, and master of the old "Sorry about that, Chief" routine has joined the U. S. Naval Reserve?

Not only did Max join up, but he took the "chief" and "99" with him. All of this was much to the amusement of yeoman third class Kenneth W. Webster, USN, son of Mr. and Mrs. Elmer M. Webster of Petersburg, who is aboard the anti-submarine warfare support aircraft carrier USS Yorktown in the Pacific.

The entire NBC-TV "Get Smart" crew was aboard the carrier for a two-day filming

session. Scheduled to be "Aired" in early December, the story centers around the two-week active duty tours of the "chief" and "86." During the film, many crewmen will be seen at their regular jobs. Bet the Websters will be glued to their TV to see the showing.

DID you know there is a Christmas, Florida; Christmas Cove, Maine, Christmas Valley, Oregon; a Santa Claus, Indiana and Bethlehem's all over the U.S.? Seven to be exact, one each in Connecticut, Georgia, Indiana, Kentucky, Maryland, New Hampshire and Pennsylvania.

THE Interior Department of the U. S. Government has been dunning the Southern Christian Leadership Conference for the expense of cleaning up the mess of the Poor People's Campaign in Washington last June. Head of the SCLC said they had no intention of paying the \$71,795 bill to the federal government. In fact, SCLC plans to sue the government for more than \$100,000 in damages. Rev. David Abernathy, president of SCLC, said they, the poor people, were not given ample time to take down their plywood and tent encampment, called Resurrection City. The Interior Department and other government agencies had to clean up the camp sight and billed SCLC for the cost. Abernathy said SCLC damages were from the destruction of the poor peoples property when it was moved from the grounds. Wonder what kind of trouble this will stir up among our people?

FROM one lady show business girl to another "She's ideal for summer stock-built like barn."

ANOTHER couple by the name of Henry are awaiting the arrival of a grandbaby. Ailene and Jack Henry will be sitting on pins and needles from about December 25 to New Years awaiting a call from their doctor son, Jack, in New York. He and his wife are expecting their first which will also be the first for the Jack Henrys.

"WE have known all along that boys were interested in girls", and with that the executive council of the Boy Scouts of America voted to "be prepared" to admit girls to the Scouts Explorer program (for older boys).

A VIRUS is moving among the towns people in Floydada and of course everyone is diagnosing it as the Hong Kong flu. One person remarked theirs was the Singapore virus, which I've never heard of. I understand Denver, Colo., has a virus epidemic and some five other states are in epidemic stages.

A MAN was taking his family for a Sunday drive when he came to a roadside stand where an enterprising farmer had set up shop to sell his eggs to passing motorists. The driver stopped, rolled down the window, and called out: "Say Mister! Are those eggs fresh?"

In answer, the farmer turned to his hired hand and said: "Hey Charlie, feel them eggs, and see if they're cool enough to sell to these people yet."

—Herm Albright

JoAnn Jameson
Treasurer Of
Honor Society

ABLENE - Jo Ann Jameson, daughter of Jodie M. Jameson of 531 W. Jackson in Floydada, has been named treasurer of Sigma Tau Delta English honor society at Abilene Christian College.

Sigma Tau Delta is an honor society for junior and senior English majors with a 3.00 or above grade point average.

Miss Jameson is a senior English major and a member of Kappa Chi social club and Who's Who in American Colleges and Universities.

Club Program On Home Life

Members of the 1929 Study Club met Thursday in the Community Room of the First National Bank for their regular meeting. The program was on Home Life-Flickering Flames. Roll call was answered with a fond memory of home. Mrs. S. W. Ross was club hostess in absence of Mrs. C. W. Denison. During business the resignation of Mrs. Geo. V. Smith was regrettably accepted.

Mrs. Jack McIntosh was speaker for the meeting and told of the needs of the Neighborhood Community Center kindergarten. Club members voted to contribute to the needs.

After refreshments went to Morckel's Candle Shop where Harry Morckel demonstrated the making of candles and decorating for the holidays.

Attending the meeting were Mmes. Kinder Farris, Clarence Goins, Ernest Kendrick, J. D. McBrien, Clement McDonald, S. W. Ross, Miss Vera Meredith and guests, Mrs. E. P. Nelson and her sister, Mrs. J. M. Baggett of Ozona.

The next meeting previously scheduled for December 5th, has been changed to December 12. Emma Lou Whitaker will show slides of her trip to the Holy Land. This will also be the club's Christmas social.

HAPPY
THANKSGIVING

MRS. MARY A. PATTON

Birthday Dinner Honored Mrs. Mary A. Patton

Fifty-three descendants and friends, including five generations of the family gathered in the home of Mr. and Mrs. Print Rice, November 17, for a birthday dinner honoring her mother, Mrs. Mary A. Patton. A resident of the Floydada Nursing Home, Mrs. Patton was 92, November 19.

She received numerous gifts and a telephone call from her son, Lonnie, of Lucerne Valley, California.

Present for the occasion were the honoree and Mr. and Mrs. O. C. Patton, Susan and Dwight, Carlsbad; Mrs. Leonia Jenkins, Seagraves; Mrs. Edna Patton, Mrs. W. J. Wilks and Mrs. Tom Stout, Floydada; Mr. and Mrs. Wayne Rice and Lavana, Plainview; Mr. and Mrs. W. E. Patton and Mrs. Sue Townley, Paducah; Mrs. Evie Frost, Mr. and Mrs. W. D. Brownlow and Ronnie, Cindy Vaughn, Mr. and Mrs. E. M. Walker, Mr. and Mrs. Oscar Holt, Timmy, Teddy, Kerry and Kelley, all of Amarillo;

Mr. and Mrs. Jim Loftin, Crockett; Mrs. Dorothy Tolver, Tyler; Mr. and Mrs. Milton Yarbrough, Tami and Lisa, Longview; Mr. and Mrs. R. G. Lynch, Hereford; Mr. and Mrs. Max Daniels and Karen, Mr.

and Mrs. George Patton and Mrs. Carroll Patton and David, Lubbock; Mrs. Mrs. Finis Carroll, Paducah; Mrs. Ronald, Kress; Troy Canyon; and host and hostess, Mr. and Mrs. Print Rice.

The five generations of the family were Mrs. Mary Patton, daughter, Mrs. Betty Patton, granddaughter, Mrs. Dora Toller, a great granddaughter, Mrs. Glenda Yarbrough, great great granddaughter, Tami Yarbrough.

Mrs. R.B. Holt New Librarian At Lockney

Mrs. R. B. Holt has been appointed librarian of the Lockney branch of the Floyd County Public Library by the Floyd County Commissioners Court. Mrs. Holt succeeds Mrs. Harman who resigned because of reasons.

Mrs. Holt has resided in Lockney and Floyd County most of her life. She attended county schools and all her children attended Lockney schools. Her husband is a ployee of the City of Lockney.

Cancer Society Accepting Memorial Donations Here

Many persons find meaning and deep satisfaction in making a contribution to the American Cancer Society in memory of a loved one whom has passed away, but do not know how to do it. The Floyd Co. American Cancer Society Unit will accept any donations in memory of anyone, no matter where he lived. Simply send your check made payable to the American Cancer Society, giving the name of the one in memory; the bereaved family's name and address; also your own address. A prompt acknowledgment card of sympathy will be sent to the bereaved family, telling them of the donation to the American Cancer Society, and the donor's name, but the amount of money will not be stated. The donor will also receive a card stating the amount given to be used as an official receipt for tax exempt contribution.

No need to send your contributions out of town. It is easier to send to your local unit. All memorials are combined in the state office and the honored name is inserted in the memorial book of the state division. Each county is listed there, as to the amount donated to memorials during the year.

and Mrs. John B. Barton on their Golden Wedding Anniversary. Mr. and Mrs. Barton are lifetime residents of Motley County, married in Matador Nov. 18, 1918.

Mrs. Alma Holmes, Floydada and Mrs. Barry Barker, Lockney, are Memorial Chairmen of the Floyd County Unit. Mrs. Woodrow Wilson, Floyd County president, will also accept your checks made payable to the AMERICAN CANCER SOCIETY, for any donations given.

HOMER STEEN DUE HOME FROM SCOTT-WHITE

Homer Steen, former editor and publisher of the Hesperian, is expected home by Thanksgiving from Scott and White at Temple. Steen is recovering nicely from recent gall bladder surgery.

FLOYD DATA
Wheeler Turner, former Floydada resident, who recently suffered a severe heart attack recently, is greatly improved in Lubbock Methodist Hospital. He is now able to enjoy a limited amount of company at brief times.

FLOYD DATA
Valrie Green, a traction patient in Lubbock Methodist Hospital, is much improved and will undergo therapy treatments this week. Mrs. Green is suffering from a ruptured disc in the spine.

testers, the manufacturers don't exaggerate.

In tests it was found to have good brusting strength (important if the carpet is laid over holes or pebbles outdoors). It was rot resistant and resistant to shrinkage. It provided good footing dry or wet.

Water did not affect the carpet in any way. Some did tend to hold water, as a towel does. It is advisable to think twice about laying one of these on an outdoor porch with a wood floor; the dampness could accelerate the rotting of wood. On a cement floor a carpet might remain damp for a couple of days after a rain.

If the carpet will be exposed to moisture be sure to check the backing. If the backing is not a synthetic fiber also, it could rot from moisture trapped underneath.

The stains that were left came off quite easily when washed with clear water or dilute detergent, even 25 hours after the spill. Lipstick turned out to be tougher than most staining agents, but a grease solvent, even when used lightly, got rid of it quickly and should work well on most other greasy or oily stains.

Ordinary dirt washes off easily and can be hosed down outdoors. Or, it can be vacuumed like any other carpet.

The right care will keep indoor-outdoor carpet in its prime longer. This type of carpet is highly resistant to stains, but some foods, when allowed to set or to be ground into the carpet can cause trouble.

Take care with cigarette ashes. The synthetic fibers of the carpet aren't likely to catch fire, but the heat from the ashes could leave a melt mark.

Two additional advantages of the indoor-outdoor carpet are cost and ease of installation. It is the cheapest type of carpet available - starting at \$5 a square yard.

Installation is easy since the carpet can be cut with a knife, razor blade or scissors. It is important to cut to size very carefully since the material can't be stretched. The felt types do not need binding, but the tufted types should be bound to prevent raveling.

When buying indoor-outdoor carpeting be sure and get specific care instructions for stain removal and general upkeep. Then follow them.

The Beauty of it all

by MARY LEE

What is more beautiful than a golden brown turkey set like a crown at the head of a Thanksgiving table. The symbol of all that is good, wholesome, and bountiful in our land, the holiday turkey is a homemaker's pride and joy.

"How do you cook your turkey?" is a common question often asked of good cooks at this time of year. And all too often the answers can be confusing.

"I cook a 16-to-20-pound bird for 5 1/2 to 6 1/2 hours at 325 degrees," says one homemaker.

Harmonites Hold Thanks-giving Supper-Program

The Harmony Community held their annual Thanksgiving supper last Thursday night. The president, Everett Miller, gave the welcome and Mrs. Charles Carr was in charge of the program.

Horace Carr led the group in singing "America" accompanied at the piano by Mrs. Chlo-ma Williams. Prayer was voiced by Philip Dunavant and Glenn Poole led in the reciting of a Thanksgiving poem.

The bountiful feast was served buffet style to some 67 guests. At the head table a Pilgrim woman and man faced the dressing and barbecued venison. Vegetables, salads and desserts were at each side of a wreath made of fruits, nuts and berries. The table was centered with a large orange colored lighted candle. Individual table settings were centered with a small turkey made from pinecones. White tablecloths and orange colored napkins completed the settings.

SGT. COMPTON GRADUATES

SHREVEPORT, La. - Technical Sergeant Burwin R. Compton, whose wife, Aurio, is the daughter of Mr. and Mrs. A. G. Eubanks, Rt. 1, Floydada, has been graduated from the U. S. Air Force Senior Noncommissioned Officer Academy at Barksdale AFB, La.

Sergeant Compton, who received advanced military leadership and management training, is a fire protection superintendent at March AFB, Calif.

The sergeant attended Lincoln High School, Mankato, Minn., and completed requirements for his diploma after entering the Air Force.

Breedings Lose Brother Each

Mrs. C. A. Breeding and Terry attended funeral rites on Wednesday of last week in Alvarado, Tex., for her brother, Guy Davidson and on Sunday she and a daughter, Mrs. Gladys Chandler attended rites in Sulphur Springs for the half brother of Mr. Breeding, W. D. (Bill) Ashby.

Davidson, 69, died Monday of last week of a heart attack. He was in the dry cleaning business in Alvarado. Survivors include his wife, four children, three sisters, one brother, five grandchildren and three great grandchildren.

Ashby also suffered a heart attack and died last Thursday night in Dallas where he and his wife were visiting. The family resided in Plainview where he was employed by W. R. Grace & Co.

Survivors include his wife, three sons, four daughters, a stepdaughter, three sisters, one brother, one half-brother and 10 grandchildren.

What to do? First, remember that some people like poultry more "done" than others. Then there is the shape and quality of the bird; the method used for cooking (dry vs. moist heat); the type of roasting pan, and even the temperature of the bird when it is placed in the oven are variables.

When available always follow the instructions on the turkey wrapper. If at all possible use a roast meat thermometer inserted into the center of the thigh muscle next to the body cavity. When it registers 180 to 185 degrees, it is most apt to please your taste.

What about thawing a frozen turkey? A large turkey will

The president presided over a brief business meeting during which time final plans were made for a Christmas decorating Contest to be sponsored jointly by the Harmony Home Demonstration Club and the Harmony Community Center. Judged for first will be the best all around decorated home; second will be best decorated door and third will be the best decorated window.

Hosts and hostesses for the Thanksgiving fete were Mr. and Mrs. Everett Miller, Mr. and Mrs. Charles Carr, Mr. and Mrs. Aubrey Brewster and Mr. and Mrs. Elmer Dean Williams.

Bundy Campbell Hurt In Wreck That Kills Two

L. B. (Bundy) Campbell, former Dougherty resident and brother of Vance Campbell of Cedar Hill, was said by relatives to be in fair condition in Lubbock Methodist Hospital Monday. Campbell was injured in a wreck about 8:30 Friday morning which killed Mrs. Jim Edmondson, 68 of Dumont and later proved fatal to her 76 year old husband.

Campbell is suffering from broken ribs and dislocated hip, lacerations and bruises and undetermined injuries. He was moved to a private room late Friday from intensive care, and is presently in traction.

The Edmondsons and Campbell both were in pickups which collided on a dirt road about 20 miles southeast of Matador. Investigating officers said the crash occurred in rough ranching country around the Devil's Cap area of Motley County. Officers theorized Edmondson was traveling west on the road when he was passed by another vehicle. In the heavy dust, Edmondson apparently veered into Campbell's lane of traffic, crashing head-on.

Campbell and his family resided at Dougherty some 16 years and he still has farming interests in that area. They now live in Matador.

The Edmondsons were longtime residents of Dumont. Funeral rites for Mrs. Edmondson were held Sunday and services for her husband were held Monday in the Methodist Church.

take about three days to thaw at refrigerator temperature. But if you have a dependable low temperature thermostat on your oven, you can thaw a bird in about 5 hours.

The turkey should be tightly wrapped in foil to prevent loss of natural juices, then placed in a 155-degree oven. It may be held there safely for 4 to 5 hours depending on the weight of the bird.

The larger the bird the more safe from bacteria it will be at the allowable times. A 20-pounder will thaw to 32 degrees in about 5 hours in a 155 degree oven.

Of course, you know that all stuffing should be removed from a cooked bird before placing it in the refrigerator. In fact, it's a good idea to remove the stuffing immediately after serving. As the bird cools, the warm stuffing provides a breeding ground for bacteria, and if the temperatures are just right, it can cause food poisoning.

The Paragon Greenhouse of Long Island paid a unique but fitting tribute to a courageous actress by naming a rose the Patricia Neal rose, Miss Neal,

MAKE A TASTY COOKIE COTTAGE

Select your favorite firm cookie recipe and a light fluffy frosting and plan your holiday centerpiece. Make it for a family party, your little neighbor next door or for the Cub Scout meeting. Here is a Marshmallow snow base to give this year's festivity a special touch. Make one batch for the tray and one to cut in squares to serve.

MARSHMALLOWS

- 1 envelope plain gelatin
- 1/2 cup granulated sugar
- 1/2 cup cold water
- 3/4 cup light corn syrup
- 1/2 teaspoon vanilla

Soften gelatin in cold water in a small saucepan. Place saucepan over boiling water and stir until gelatin is dissolved. Add sugar and stir until sugar is dissolved. Pour syrup into large bowl of electric mixer. Add vanilla, gelatin and sugar mixture to curd mixture, and beat about 15 minutes or until mixture is of a marshmallow consistency. Cover bottom of pan (7 x 10 x 1 1/2 inches) with equal parts corn starch and fine granulated sugar. Pour marshmallow into pan and smooth off top with knife. Let stand in a cool place (not refrigerator) until well set, about one hour. To remove from pan, loosen around edges; invert over a board sprinkled lightly with the corn starch and sugar mixture. Cut into squares with a sharp knife, moistened with cold water. Roll in corn starch and sugar mixture. Makes about 1 pound.

FLOYD DATA

Mr. and Mrs. Bill Ford of Agra, Okla., were overnight guests Wednesday with her sister, Mrs. V. D. Turner. The

Fords were enroute home from Arizona where they spent several days visiting their daughter and other relatives.

HOLIDAY GAMES ADULTS PLAY

Your holiday dinner went over fine. Your guests are all stoked up with energy. Now what? Many holiday hosts have discovered a fun-filled way to keep the festivities lively: play games.

First let's get rid of some old notions.

Think buckets went out with wells? Or that a spatula's for pancakes? Not so, say innovators from the Milton Bradley Company. They've used these delightfully unrelated items in a hilarious new game called "Drop in the Bucket."

To start, you need three or four players. You tie a belt around each one's waist, placing the plastic bucket in the small of the back. Then give each player four foam rubber colored

cubes and a 10-inch spatula. You've done your job. Now theirs is to drop their cubes into their opponents' buckets without letting any cubes land in their own.

There's going to be lots of twisting and dodging. Chuckling can be hazardous... and laughter downright dangerous. One slip will throw the cube out of control.

For the more sedentary types there are plenty of adult table games. "Don't Tell Me" is one where players try to guess the number stuck in their crowns by opponents.

Pfc. William W. Ross, son of Mrs. W. J. Ross of Ralls, former Dougherty resident, is now stationed at Fort Wainwright, Alaska.

Elementary School Honors Other Guests

Elementary School honored trustees and other guests, including Club women and an annual luncheon last night at the school cafeteria.

NEWS FOR HOMEMAKERS

by Sherry Mullin
Floyd County H. D. Agent

INDOOR CARPET
Indoor carpeting are woven or non-woven. The woven carpet is textured and in cut-pile, much like other carpeting. In the non-woven or felted construction, the carpet is somewhat like resilient floor covering. Generally, the felted types are cheaper. Aside from the price, there is no general advantage of one type over the other.

Another version of the non wovens is carpet tile. The tiles are 12 inch squares with soft rubber backs for use indoors or out.

Sharp objects, such as cleats on shoes, can damage the non wovens. If some repair work is needed, then you could replace a few tiles and not the entire carpet.

The manufacturers of indoor-outdoor claim it will hold up for a long time in or out of the weather; onboards, cement, brick or even bare ground. According to extremely rigorous tests conducted by independent

Let Us Give THANKS !

This Thanksgiving Day let us remember, as did our Pilgrim fathers before us, to give thanks for the prosperity we enjoyed in the past year. We who share in the blessings of a good life should lift our voices in prayerful thanks for the abundance of our festive board, spiritual freedom and boundless opportunities. We have watched with pride as our friends and family blossomed... our community prospered in this land we can proudly call our own. Now, when we pause to take stock of our joys... let us not forget ours is a hard-won heritage, one we have worked for, fought for. Let us pledge to reaffirm our faith in this heritage and determine to preserve and cherish it...

Consumers Fuel Assoc.

'Loan Me Five, Pop'

YOUR DAUGHTER'S record player blares... Your son makes constant requests for "date" money. These "minor" annoyances can indicate financial irresponsibility on the part of your children!

THE FIRST STEP, say experts at the National Consumer Finance Association, is to establish the allowance. Explain to your child why he needs a budget, and let him get into the act.

IT MIGHT BE a good idea to discuss each item with him to see if all his expenses are necessary.

A FIRM POLICY on allowances benefits your youngster and saves wear-and-tear on your wallet!

WHEN your child has a "crisis"—he'll need more money than you give him. Try not to succumb to his "doe-eyed" pleas for more than he's due—but suggest in advance several ways for him to build up emergency funds.

MAKE SURE HE KNOWS some sure-fire methods of earning "extra income". It doesn't have to be a 9 to 5 job—maybe just little chores.

ENCOURAGE HIM TO SAVE. Give him a penny-saver or a piggy bank.

Eventually, the account can be used for college or as a "nest egg".

Parents can deduct certain deposits made to a child's savings account from their taxes under the Uniform Gifts to Minors Act. Don't insist that your child save ALL his money; financial experts say he should have practice in spending as well!

A THIRD WAY in which your child can conquer a "crisis" will teach him about credit. Give him a small loan—and as he pays it back, deduct a token interest from his allowance.

This will teach him that to establish credit he must also ESTABLISH his reliability. Fatherly credit given to a child will show him he can have what he wants NOW by paying for it as he uses it.

LOANS, SAVINGS ACCOUNTS, and "moon-lighting" won't teach your child much if he doesn't learn HOW to use his money.

The limits you place on his allowance may help, but you should provide him with additional guidelines on shopping.

Warn him against making foolish expenditures just because he's earned or saved some extra money. Be tactful in what you tell him.

Limiting his financial freedom will eliminate the important lesson mistakes can give him.

If the house fills up with feathers, fragrances, goldfish and posters—and your child chronically complains of "insufficient funds"

even AFTER you've budgeted him—you'll know it's time for a little talk about excess.

REMEMBER that part of teaching HIM how to use money depends upon how YOU use it! Repay all your debts on time.

Don't be excessive—but don't be afraid to show your youngster the benefits of good money management, such as a baseball game, a family outing, or some other expenditure made for leisure's sake.

You'll be letting him know that financial responsibility has its rewards.

THE POINT that can't be stressed enough is DON'T GIVE IN!

The only time you should "break" the budget is when you quietly add to his savings account as college rolls around.

There is no financial "crisis" a child has that can't be met in an adult way.

This doesn't mean you should take all the fun out of childhood by setting unreasonable limits—but if some degree of discipline isn't provided, the youngster won't be able to "cash in" later on the fun of being a grown up!

FROM THE LAMB COUNTY LEADER

COUNTY AGENT'S CORNER

by Joe Wilson

peach and plum trees should have been pruned October 15-Now, however, if treatment has been made previously, results could be obtained. To treat affected

trees loosen and level soil about 1 foot from the tree trunk. Place paradichlorobenzene crystals (moth ball crystal) in a groove 2 inches from the trunk and put several shovels of clean soil over the crystals

so that a cone shaped mound is made around the trunk. Compact the soil with the back of a shovel. Use the following guide on amount of crystals to use, 2-3 year old trees 1/2 ounce of crystals; 4-5 year old trees 3/4 ounce; and mature trees 1 ounce of crystals.

This method of treatment is the most effective way of control of this insect as they over winter in the soil and the gas given off by the crystals will kill them before they reinfest the trees.

Now is the time to take soil samples to see what soil

how much fertilizer to apply for next years crops. Soil samples can be analyzed for \$2.00 a sample at the South Plains Research and Extension Center Soil Testing Lab at Route 3, Box 213 AA, Lubbock, Texas 79401.

Instructions for taking samples and boxes can be obtained at the county agent's office as well as several fertilizer dealers in the county.

Application of fertilizer from now until planting time helps a farmer to equalize his work load during the year so that all operations will not be necessary to complete at planting time. No loss of fertilizer is obtained if properly applied when the soil temperature drops to around 50 degrees F. or below.

THE TRADITIONAL Thanksgiving Day service in First Church of Christ, Scientist on Thursday, November 28, 1968, will include a period for testimonies of gratitude to God from individuals in the congregation. The service is set at 11 a.m. and the church is located at 2203 Broadway, Lubbock.

A brief Lesson-Sermon, consisting of readings from the Bible and the Christian Science textbook, relates gratitude to an understanding of God's goodness and love. The Lesson-Sermon will be read by the First and Second Readers of the Church. The public is welcome to attend this service.

"Thanks be unto God for His unspeakable gift" (II Corinthians 9:15), the Golden Text of the Lesson-Sermon, states the opening theme of the service. The Responsive Reading includes passages from Psalms, two of which are:

"Truly God is good to Israel, even to such as are of a clean heart (Psalms 73:1); "And they remembered that God was their rock, and the high God their redeemer." (Psalms 78:35).

The following are several of the passages to be read from "Science and Health With Key to the Scriptures" by Mary Baker Eddy:

"The loss of earthly hopes and pleasures brightens the ascending path of many a heart. The pains of sense quickly inform us that the pleasures of sense are mortal and that joy is spiritual" (Page 265).

"The rich in spirit help the poor in one grand brotherhood, all having the same Principle, or Father; and blessed is that man who seeth his brother's need and supplieth it, seeking his own in another's good." (page 518).

THE WEEKLY SOUTH PLAINS COTTON CLASSING REPORT

THE WEEKLY SOUTH PLAINS COTTON CLASSING REPORT

The three Cotton Classing Offices of the USDA in this area classed 145,000 samples of new crop cotton last week ending Friday, November 22, 1968. This brought the total for the entire season to 486,000. 263,000 samples had been classed on the South Plains this time last year.

Predominant grades were SLM, MID LT SP & SLM LT SP. These 3 grades represented 68% of the total classed.

The average staple length from the South Plains area last week was 1 1/4 inch.

Micronaire readings by percentages were: 3.5 - 4.9 56%, 3.3 - 3.4 17%, 3.0 - 3.2 29%, 2.7 - 2.9 12%, and 2.6 and below 1%.

Their season record was 6-4, their district record 6-0.

domestic portion (65 percent) of allotments. To get this payment from the full 65 percent, producers are required to plant only 90 percent of their domestic allotments, which figures 58.5 percent of full allotments. Hence the 58.5 percent minimum. Production from the acreage planted between 65 percent and 100 percent of allotments will get no payment but will be eligible for the government loan of 20.25 cents per pound, basis Middling-inch, 3.5 to 4.9 micronaire at average location. There will be no payment for acreage that is diverted, no penalty for acreage not diverted. The choice is strictly up to farmers.

The national allotment is 16.2 million acres, of which about one million is taken out by land in Cropland Adjustment, Cropland Reserve, Etc., leaving 15.2 million acres available for planting. Producers conceivably could plant that full acreage or drop as low as about 8.9 million acres, 58.5 percent of the total.

On the Plains the allotment for the 23 cotton producing counties represented by Plains Cotton Growers, Inc. is almost 2.2 million acres, of which about 100,000 is idled by land retirement programs. The possibilities here then range from 2.1 million acres in cotton down to 1.2 million acres.

Obviously the final outcome will be somewhere in between these extremes as each individual farmer takes into account the conditions peculiar to his particular operation.

Among the factors that will have to be considered are the availability of land and water, profitability of alternate crops, expected market conditions at harvest time in 1969, and many others, with perhaps the heaviest influence being exerted by weather conditions in the Spring.

Weldon Gregg, farmer and seed breeder of Plainview, believes that with a few exceptions farmers on the Plains will plant 100 percent of allotments in late April or early May. If they're lucky and get a good stand that grows off well with good moisture conditions, they'll leave the full acreage in cotton, he thinks. But if they lose a part of their acreage to cold weather, wind, hail or other bad weather, they'll revert to some other crop if there's a reasonable chance of a profit from it, according to Gregg's calculations.

Subscribing to this theory in large part is Bill Thompson of Shallowater, President of the Texas Cotton Ginners Association. He says that in Hockley County, where he is a ginmer, "Farmers will probably plant at least 90 percent of the county's allotment and maybe as high as 95 percent." Thompson also thinks the entire 23-county area may plant as high as 90 percent of allotments, especially with favorable Spring weather.

Also in the "high acreage camp" is Don Marble, Floyd County farmer from South Plains.

And this kind of thinking is generally thought to prevail in the area South of Lubbock where light irrigation water and other factors make production of alternate crops less attractive than in the area north and northwest of Lubbock.

On the other side of the question is Calvin Wood, a north Lamb County producer. He says the farmers in that area with whom he has talked aren't interested in growing cotton on acreage above the domestic allotment. Most, he thinks, will go to soybeans, castors or some other cash crop on everything except the minimum required cotton acreage. Others, of course, agree with him.

However, from what we have been able to learn to date, and barring unforeseen developments, it appears safe to expect 1969.

But the tough question remains, here as elsewhere: How much? The 23 High Plains member counties of Plains Cotton Growers, Inc. have been assigned a total cotton allotment of 2,191,644 acres for 1969, up 13,086 acres from this year's 2,178,558

Winners Reversed In Football Contest

The Hesperian football judges reversed their decision on last week's football contest after they discovered they had graded the contests with some incorrect information from an area daily newspaper. They judged under the impression that Farwell beat Sudan. This was not the case, so in rejudging the contests, Barbara Goen is winner of the second place \$5.00 prize, and Si Medley wins the \$2.50 third place prize.

JACK GREGORY

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

The biggest and toughest question to arise out of USDA's recent announcement of next year's cotton program is: "How much cotton will the U.S. produce in 1969?"

The question is big because the answer will have a significant influence on such things as cotton prices, adequacy of cotton supplies, volume of cotton consumption in the U.S., and exports. It is tough to answer because the 1969 program leaves producers completely free to choose between planting anywhere from 38.5 percent to 100 percent of their cotton allotments. It neither encourages nor discourages plantings above the minimum level.

The only payment included in the program is the price support payment of 14.73 cents per pound on projected yield from the

DEADLINE SIGN-UP FLOYDADA OFFICE DECEMBER 16

This article appeared in Texas newspapers recently:

Friday, September 20, 1968 The Dallas Morning News

Patients Under Medicare Will Pay an Additional 10%

ATLANTIC CITY, N.J.—Wilbert J. Cohen, secretary of health, education and welfare, Thursday announced a 10 percent increase in the amount patients will pay for hospitalization under Medicare.

The new rates will become effective Jan. 1, Cohen said in a speech here at the 79th annual meeting of the American Hospital Association.

A department spokesman gave these details:

- A patient now pays the first \$40 of his hospital bill. Medicare covering the balance through the 60th day of hospitalization. Beginning Jan. 1, the patient will pay the first \$44.
- THE PATIENT pays \$10 a day from his 61st to his 90th day of hospitalization. This increases to \$11 a day with Medicare handling the balance.
- The patient pays \$20 daily for the next 90 days. This will be raised to \$22.
- Should the patient enter nursing home a day, his are free.

What does this mean to you?

It means beginning January 1, 1969, Medicare will be paying a reduced percentage of your total hospital bill. In order to be sure that your Blue Cross Senior Texan Companion Service continues to provide adequate protection and because of other changes in the Medicare law, it is necessary to amend your present coverage.

This January 1, 1969, reopening is taking place solely for the purpose of enabling applications for new Senior Texan Companion Service Members for a January 1, 1969, effective date, only on those people who have already applied or have already inquired.

And this reopening is taking place for the purpose of permitting any person now holding one of the other of the Senior Texan Companion Service coverages to switch to the Major Medical coverage if they have the Basic and want to make the switch or to switch from the Senior Texan Major Medical coverage to the Basic if they want to make the switch.

There is one other category of people who may now enroll in the new Senior Texan Service and that is for those people who are or will be eligible by February 1, 1969, for Senior Texan Companion Service and have Regular Blue Cross-Blue Shield coverage in the F.B. group.

Those members who will attain the age of 65 by February 1, 1969, are eligible to transfer on the January 1st opening.

Please remember that to be added in our group as a new member for Senior Texan Companion Service, a member must have a current Farm Bureau membership.

The Book Nook

"The Lithographs of Peter Hurd" . . . Peter Hurd has contributed fascinating personal reminiscences for each plate as well as notes on Lithography and the various stages of the Lithographic process.

Andrew Wyeth, another well-known American artist "has provided a moving tribute to Hurd and his work."

"Of Diamonds and Diplomats" by Letitia Baldrige who calls the book "a simple recording of a happy life."

The book begins at 12:01 the day of President Kennedy's inauguration, when the former Mrs. Kennedy wanted to give the "White House" a distinctive style.

These early days were the happy days that were destined to end in tragedy.

"The Raw Pearl" by Pearl Bailey . . . the Honest and informal talent of Pearl Bailey has bade her famous. This is the story of her rise to fame, in show business-plus, "conflict, struggle, disappointment and fulfillment that put her on top."

"There is a chapter on the meaning of racial conflict that speaks like a trumpet."

"This is a rare book by a rare person."

acre allotment.

The weighted average of projected yields set for the counties in 1969 comes to 543 pounds per acre. This figure is also up from 1968 when the average was 529 pounds.

Officials of the Agricultural Stabilization and Conservation Service report that individual farm allotments and projected yields will be mailed to farmers about November 27.

A county by county list of allotments and yields for 1969, together with the same figures for 1968, appears below.

SPECIAL THANKSGIVING DINNER

Bring your entire family to The Travel Center Restaurant for a fine Thanksgiving Dinner of Turkey and All the Trimmings.

TRAVEL CENTER RESTAURANT

Your first thought is that Chevy is a good looking pickup . . .

Here are some second thoughts:

work truck

We could add hobby hauler to the list. Chevy trucks are great for rock hounding. Collecting antiques. Etcetera.

The point is: They're as versatile as anything on the road. Or off. Especially, four-wheel drive versions. They go anywhere.

playmate

Wherever you go, you go in style. Sleek front end features a new aluminum grille. In back, there's a new 8 1/2-ft. box on some models. Great for big campers.

Great under the hood, too. Six or V8. Standard on V8 models is a big 307 cubic-incher.

second car

Under the rugged chassis, coil springs take care of bumps. Inside, thick foam seats take care of you.

There's a lot more. And more you can order. Like: power steering and air conditioning. See your Chevrolet dealer for all the facts and the good word on low price.

camper

CHEVROLET

Chevrolet is more than just a name.

Thanksgiving at PLIMOTH PLANTATION

A reputation once broken may possibly be repaired, but the world will always keep its eye on the spot where the crack was.

A man who has reformed himself has made the first essential act in reforming his neighbor.

If a person makes the of today he will always for whatever may come row.

Late in March of 1621 concluded a peace treaty with the Indians which was to last for fifty years.

FIRST THANKSGIVING AT PLIMOTH PLANTATION

THE FIRST THANKSGIVING celebrated at Plymouth in 1621 was a harvest festival, a gathering of family, friends and neighbors, and a time of games and feasting.

Almost half of the original 102 Pilgrims had survived the first winter. They had labored long and hard to build a village and plant crops. When their harvest was gathered, they celebrated.

In writing to a friend in England describing the First Thanksgiving, one of the Pilgrims said: "Our harvest being gotten in, our Governor William Bradford sent four men on fowling; so that we might after a more special manner, rejoice together, after we had gathered the fruit of our labours. They four, on one day, killed as much fowl as, with a little help besides served the company almost a week."

"And among the rest, their (the Indians) greatest king, Massasoit, with some ninety men, whom for three days, we entertained and feasted, and they went out and killed five deer; which they brought to the Plantation and bestowed on our Governor, and upon the Captain (Myles Standish) and others."

In describing this Thanksgiving, which set the pattern for the traditional American celebration, other writers tell of foot racing, wrestling, exercising arms (infantry drill) and pitching the bar.

These scenes were acted out by citizens of Plymouth, Massachusetts, many of whom are descendants of those who celebrated the First Thanksgiving. Appropriately enough, the setting was at Plimoth Plantation, an outdoor museum where the first Pilgrim settlement is being re-created.

Athletic events and contests of skill between Pilgrims and Indians made for another part of our Thanksgiving tradition.

LAND AUCTION

SATURDAY, DECEMBER 14, 1968
10:30 a.m. at the Improvements on Farm

LOCATED — 8 Miles South of Lockney on Farm Road 378, then 1 1/2 Miles West to S. E. Corner of farm, or 8 Miles West of Floydada, Texas, on Farm Road 784 to Sand Hill Store, then 2 Miles North and 1 Mile West, with signs on farm.

240 ACRES — LEGAL

East 1/2 of Survey No. 9, Block 4, Abstract No. 525, Floyd County, Texas, 160 Acres, Survey No. 8, Block 4, Abstract No. 531, Floyd County, Texas. This is in one block.

MINERALS — 1/2 Minerals. Not Leased.

IMPROVEMENTS

1-5 Room and Bath House. Needs repair. Good Domestic Water Well. Pressure Pump. 1-40x80 Quonset Barn. Good Condition, with 20x80 Feed Shed on side. Good Corrals and Cattle Working Pens. Excellent Fence, also Telephone.

IRRIGATION

1-6" Irrigation Well fixed for Pressure Sprinkling System, 3-4 Mile of HI Pressure Asbestos Underground Tile for Sprinkler. This is excellent Water. Well is on Natural Gas. This land Can be Sprinkled or Gravity Watered.

ALLOTMENTS

50 Acres of Cotton — 62 Acres of Milo — 9.5 Acres of Wheat.

GRASS

There are 90 Acres of Midland Bermuda. Excellent Turf. Waters Good. This is a Cow Mans Paradise. It's Hard to Believe How Many Cattle This Farm Will Run. Approximately 30 Acres of Native Grass. If you are looking for a Livestock Operation This is it. All You Need is Cattle and This Land. Is ready.

A. S. C. PAYMENTS

For The Year 1968 This Farm Received \$5,194.00 in Payments.

TERMS

The Federal Land Bank has approved a loan of \$36,200.00. You Make Your Arrangements Anywhere You Choose. The total amount is to be paid in Cash at the Closing of Contract. 30 Day Closing. 10% Escrow to be Paid Down When Land is Sold and Signing of Contract. Possession When Deal is Closed.

NOTE — This was the dream of The Durhams when they fixed this farm for a Livestock Operation. Because of Serious Illness of Mr. Durham he is no longer able to see after this farm. There is going to be a new owner — Just as well be you—Look it over prior to Sale Day.

This Farm Will Carry More Cattle Than Many So Called Cattle Ranches— A real opportunity to combine this with your present farm operation — Don't wait, look it over.

NEWS FOR HOMEMAKERS

by Sherry Mullin
Floyd County H. D. Agent

CONSUMER EDUCATION WEEK

The week of November 4-8, 1968 has been designated as National Consumer Education Week. The purpose of the column for the month of November will be to inform all people in the county of the consumer help available through the County Extension Office. Every family makes consumer decisions daily and the Extension Service provides scientific information on buying and use in order that consumers may make wise decisions. There are many bulletins available, some at no cost, while some have a small cost. Please call or come by the office when we may be of service to you.

The era of truth-in-lending will dawn on July 1, 1968. Then all lenders and credit merchants will be required to disclose the one pertinent bit of information they have until now almost uniformly withheld - the true rate of interest on installment loans and sales.

Then consumers will discover that rates on most credit deals start at about 9 percent or more, rather than the 6 percent per year or less many think they have been paying.

The new law will require almost all consumer credit contracts up to \$25,000 and home mortgages of any size to disclose the true annual interest rate.

It will be labeled as the "annual percentage rate" and reflect not only the interest rate on the debt but also the extra charges that wouldn't have been tacked onto a cash deal - for example life, accident, or health insurance to cover the balance due.

Backers of the bill had to concede some minor compromises. The annual rate won't have to be computed on credit up to \$75 if the finance charge is \$5 or less, on credit about \$75 if the finance charge is \$7.50 or less, or on a monthly account bill if the finance charge is 50 cents or less.

However, every installment contract will state in dollars the total of all finance charges, the purchase price of the goods or services being financed, any down payment or trade-in allowance, the net amount being financed with credit and the size of the weekly or monthly payments as well as their due dates and the total number of installments before the debt is paid up.

Under the new law, all revolving credit contracts and monthly bills must state the "nominal annual percentage rate." The word "nominal" is part of a compromise between the legislators who wrote the bill and the retail merchants, who tried to escape having to disclose their annual interest rates at all. It means almost the same thing as the annual percentage rate of other kinds of lenders - but not quite.

The "nominal" rate on revolving credit will equal 12 times the monthly rate. Most stores and mail order houses, for instance, charge 1 1/2 percent a month and will therefore have to disclose a "nominal" rate of 18 percent per year.

But stores charging the same "nominal" rates can and do levy significantly different revolving credit-charges. The differences are concealed in the way they get the monthly balance on which credit is levied.

CONSUMER REPORTS illustrated this point with the example of one retail store which applies its credit charge to the opening balance on your bill before deducting any payments you have made or credits for merchandise returned during the month.

On a \$200 opening balance, with payments of \$100 and a monthly charge of 1 1/2 percent, this store would charge \$3, or an annual rate charge of 36 percent.

Another retail store, accord-

REP. WAYNE OUT
OF HOSPITAL

Rep. Ralph Wayne of Plainview is out of the hospital and back at work as chairman of the House Administration Committee.

Wayne has been under treatment at Seton Hospital in Austin after an ulcer was found. He has been placed on a special diet and surgery was not required.

SOCIAL SECURITY NEWS

By Ray Purcell
Social Security Representative
Q. I recently learned about the change in the Social Security Act that will provide benefits for many more children of women workers who have passed away. Would this provision still apply if the children are living with their father who is regularly employed?

A. Yes, it certainly will. If the mother was insured, benefits will be paid to the children. The amount of the father's earnings will make no difference.

For more information contact your social security office at 1401-B West 5th Street,
