waiting to be caught this spring and summer.
(I wasn't aiming to get off on fishing in this column, but the more I think about it, the more I can hardly wait for warm weather to arrive). There just might be an opportunity for fishing during the big Easter holiday. . . if, we don't get that long awaited snow then!

MY CONGRATULATIONS to the Whirlettes for coming out almost winner. I know they have worked hard this season, and maybe next year will be the year we can go all the way to state.

THE BIG COUNTY fat stock show begins next week. I know right now what I'll be doing Sunday afternoon. Brad and I will be scrubbing three pigs and getting them ready to take to the show barn bright and early Monday morning.

I suspicion that our show gets to be a competition of dads raising animals for show as well as the FFA and 4-H boys. Although Brad has taken care of his pigs almost 100% of the time, I can't help but feel the excitement of show time. Last year, our excitement was short lived, because Brad got both pigs sifted.

I COMMENTED some time ago about a farmer who had a sow that grossed \$1,000 in a year's time. She raised 20 pigs that brought \$50 each. I also commented that I knew something would come along that would beat newspapering for a living.

Since then I received a letter from Mrs. Nancy Parker from Happy, Texas. She sent me a report on the forthcoming Hi-Plains Commercial Rabbit Raisers' Association and wrote a note at the bottom of the brochure, "Have you tried rabbits?" Then she enclosed this fact sheet on rabbits. I don't think I would be interested in getting into the rabbit business, but I'll print this fact sheet for anyone who might be interested: The first domesticated rabbits by man was in Africa. Asia used them for food 3,000 years ago. Rabbits have been marketed for 1,000 years in Europe. Rabbits are now being raised in 30 or more countries at a pro-

fit for meat, pelts and wool.
Rabbits are raised in all 50 states and also in our territories. There are over 50 different breeds of rabbits.
There are more than 40,000 farms raising rabbits.
Seven breeds originated in the U.S.
Only 600 head of producing animals will provide full time employment.

Each rabbit will show a profit of \$5 to \$10 per year depending on factors.
They can be prepared over 30 different ways.
Rabbits are no longer a pet, but a very valuable agricultural animal.

Up to 98.7% of the rabbit can be used.
Uses of the rabbit include meat, fur, wool, laboratory, fertilizer, toys, novelties.
7,000,000 lbs. of rabbit meat is used in one year in Los Angeles Co.

Rabbit meat is one of the highest nutritional meats available. Only about 7 or 8% of domestic rabbit is bone.
Domestic rabbits have no communicable disease injurious to humans, as wild ones do.

Over 85% of today's furs are duplicated with rabbit fur. Most felt hats are made from rabbit fur.
The mucilage on U.S. postage stamps is made from rabbit glue 100% pure.

Rabbit meat is good for stomach disorders, since it is easily digested.
Domestic rabbit is all white meat.

Rabbit feet have been good luck omens for hundreds of years. Rabbit manure is the best in the world for gardens, flowers and lawns.

Rabbits are used as a most dependable test of pregnancy. Rabbit feet are used by movie stars as cosmetic brushes. Rabbits are the smartest animals in the world - they add, subtract and multiply.

They will produce five times their own weight in a year. More rabbit fur than ermine is used for coronations of Royalty.
No back talk or crowing or any other disturbing noise comes

from rabbits.
Domestic rabbits have never been known to carry or rabbit fever.
Rabbits have a 31-day gestation period.
Does have been known to kindle as many as 22 in one litter.

The heaviest rabbit on record weighed 23 pounds. Germany kept in the war longer, because of its rabbits from backyard rabbitries.

Rabbit has a skin, hair, and eye sensitivity same as humans, thus it is used for testing such products as nail polish, and mascara.
Rabbits and hares are not one and the same animal. The offspring of rabbits are born naked and blind. The newborn of hares are furred and have vision.

"NOBODY WANTS TO DO NOTHING". . . This seems to be the attitude as it concerns the of the summer youth baseball program.

For years, the same old faithfuls have kept the program. Gradually, or possibly suddenly, these fellows think that someone else should carry the load for awhile. So, it is very simple, if the program is to continue, people must indicate a willingness to work in it.

I WOULD LIKE to make one observation in regard to sales tax election. I do not believe that the people's vote in the tax reflected a dislike for the mayor and the council. I think it showed the council that this was not the way they wanted the needed money appropriated.

Personally, I feel like the mayor and the council well, I think all of us can point with pride to many progress that have been accomplished by our mayor and councilmen.

If you appreciate them, now is a good time to

Letter To The Editor

Dear Mr. Tooley,
I hear Floydada has an ordinance concerning dogs running loose, but I have seen no evidence of this. Since moving here four months ago, I have had a pack of four or more large dogs in my yard every day. Although I tired of clearing up after them and listening to their barking, I said nothing but now the time has come to say something. This morning these dogs came into my yard and killed my beloved cat which had been my children's pet for over two years.
Please can't something be done before other smaller pets or perhaps even a small child is killed? This has happened in other places. Please don't let it happen in Floydada!
Sincerely yours,
Mrs. Nathan Woody

Dear Mr. Tooley,
In 1917 a young boy lived in Petersburg by the name of Oliver Moon. That summer he heard that there was to be a picnic at Floydada. Oliver asked his Daddy if he could take the car and go. Oliver wasn't but 14 years old. Mr. Moon didn't want him to go so far in the car alone said, if he would get some one a bit older to go with him he could go. Oliver came to me and asked if I would go with him, he wanted to go so bad that I took off and went along as a co-pilot.

It was a real nice day and the roads were good if you could call some of it a road we would travel a road for a ways then it would turn into just two trails across an open section two then another stretch of road but we made it there ok and so did a lot of other folks. There were a lot of folks came in wagons, in buggies, and horseback and quite a bunch of cars mostly Model T. Fords. Oliver parked the car where the bank building stands now at the North west corner of the square. It is now occupied by an insurance office.

Well, it was just a real good ole time picnic. Stands were set up. They had a large stock tank in the center with water and was just a real good ole time picnic. Stands were set up. They had a large stock tank in the center with water and several large chunks of ice and several different kinds of soda pop but mostly country red strawberry and the other things that picnic stands sold like peanuts, pop corn, candied apples, and the ole time grab boxes, picnic whips and walking canes.

There was a doll rack, I watched one man spend over five dollars just to win his lady friend a kewpie doll worth probably fifty cents in real value. There was one of those striking machines where the young man could show their lady friends what a muscled up boy friend she had. If he was man enough he could ring the bell and get a twofer cigar and a smile from his lady friend.

It was a lot of fun just to mosey around and watch people on the picnic grounds most couples had quite a bunch of children in those days and to watch some mothers trying to herd a passle of kids around was real amusing whacking Mary and smacking Johnnie trying to make them behave. Papa would turn the kids over to Mamma while he would sit on a wagon tongue or a car bumper, chaw his star navy tobacco and tell tall tales or try to make a horse swap with his neighbor.

East of the town was layed off a car race track and the main attraction for the afternoon was car races and oh boy, did they bust the speed records most of the cars were Model Ts and I think some of them made 40 miles per hour or more.

People didn't get to see much of the races for after about the third round all the turf was torn off and the dust was so thick you couldn't see the cars just hear a lot of roaring sounds. I never did see who won any of the races. I think the cutest thing they had was the doll parade put on by a bunch of little girls.

Well as I said it was a real nice day and every one seemed to really enjoy themselves. I'll bet there are quite a few who remember the picnic on the 4th of July 1923. It drizzled rain all day on the 3rd and that night it came a norther in the summer time and was it cold. People standing around with overcoats on. I was amused at one poor ole fellow had on an over coat, a toboggan cap pulled down over his ears trying to sell snow cones to folks wearing over coats. It was real odd to see such carryings on the 4th of July. People were shivering and shaking but were trying to laugh it off and have a good time and I think most of them did what else could they do?

I bet a lot of other old timers will never forget the good ole shows that were put by Brunke comedians and the late Harley Sadler. I would go to Plainview on Monday. Next I would go to Lockney on Wednesday night 2nd week and I would wind up at Floydada Saturday night 3rd week and see both of his Saturday night shows. He always had a second show on Saturday nights and one Saturday night did it rain? Water got about shoe mouth deep in the tent. He had pretty covers on backs of his chairs, they just kicked over those chairs and walked on them to keep out of the water and oh boy what a mess that was.

Art For Heart Exhibit Scheduled At Lockney

March has been designated as Heart Month in Floydada and Lockney and initial plans have been made for the annual Art For Heart Show to be held Friday through Sunday in the Lockney Insurance Office. Mrs. Jimmy Willson is Floydada chairman and Mrs. Joe Taylor is Lockney chairman.

These women and their helpers may be contacted for tickets to the show or will accept your contributions.

Mrs. C. B. (Conny) Martin of Lubbock will judge the art exhibit Thursday after entries have been accepted from 10 a.m. until 5 p.m. today.

The paintings will hang in exhibition from 1 until 6 p.m. Friday; from 10 a.m. until 8 p.m. Saturday, and from 1 until 5 p.m. Sunday. Tickets priced at \$1 will be sold by the show committee and all proceeds will go into the Heart Fund.

Dramatic and constant gains have been made in the fight against heart and blood vessel diseases since the onset of Heart Association-sponsored research programs in 1950. Heart transplants could not have been performed without the knowledge gained from Heart Association by your contributions to your Heart Fund. Yesterday's research is paying off today. So give generously.

Artists are asked to contact Mrs. Taylor or Mrs. Willson prior to entry date. Entry fee of \$3 will be charged with artists eligible to enter three paintings or drawings. If the article entered is sold, the Heart Association will receive 10 per cent of the sale price. Paintings may be picked up following the show on Sunday or from 1 until 5 p.m. Monday.

Better known as Conny in the field of art, Mrs. Martin is an active member and teacher in the Lubbock Art Association. She is past president of the association and has held the office of president of the board of directors for the Lubbock Garden and Arts Center.

Hardin, Norman Muncy, Leslie Nixon, A. C. Pratt, Jake Younger, Charles McDowell and Mrs. Berle Ferguson. Some 50 guests attended. The next regular meeting is March 11 for a Texas Day program.

Larry White was able to return home last week from Lubbock Methodist Hospital where he received medical treatment.

Mrs. Joy Lawson, Floydada, sister of the bride, was matron of honor and Bill Harbin, cousin of the groom, was best man. Mrs. Lawson wore a pink knit suit and carried a bouquet of pink and white carnations.

A reception followed in the church prior to the couple leaving for a honeymoon trip to points in New Mexico.

Miss Katherine Johnson Wed To Randal Stracener

An arch of daisies and greenery created the setting for the wedding party.

The bride chose for her wedding a winter white bonded crepe fitted skimmer frock with a winter white open weave knit coat fashioned with a stand-up collar. She wore pearl drop earrings and winter white alligator accessories.

She carried a white Bible, showered with an arrangement of yellow sweetheart roses and a yellow glabella surrounded by daisies. The Bible contained a white handmade handkerchief which was made by the groom's great-grandmother. The bride's attendants were her sister, Vicki Johnson, Karen Freidsam and Gail Lovette. Robert Golden, Bobby Graham and Travis Stracener, brother of the groom were the groom's attendants.

The Stracener home was also the setting for the reception. The open rooms of the home were adorned with hanging daisy baskets and featured other daisy decorations including arrangements of candles in daisy rings.

Mrs. Roger Allen of Odessa, cousin of the groom, was at the registration table.

Guests were greeted by the newlyweds, the groom's parents, his grandparents, Mrs. Estelle Stracener and Mr. and Mrs. W. A. Steele, and the bride's out-of-town relatives, Mr. and Mrs. H. N. Clark, Eldon Browning, Bernard Stracener, Robert Hinchshaw, Bobby Sledge and Hylton Jarvis, Misses Deena Clark, Latresa Stracener, Kay Browning and Mrs. Robert Golden. Vows Read For Miss O'Donnell, Whitehead

Double ring wedding vows were read in the Saint Alice Catholic Church in Plainview, Saturday, February 22, for Miss Janet Marie O'Donnell and Melvin Wesley Whitehead, Rev. Edward Chrisman read the vows at 4 o'clock p.m.

The bride is the daughter of Mr. and Mrs. John E. O'Donnell of Plainview and the bridegroom is the son of Mr. and Mrs. J. B. Whitehead of Route 2, Lockney.

Mrs. Edward O'Donnell of Plainview was organist.

The bride, given in marriage by her father, wore a formal length gown of white chantilly lace over organza, fashioned with an oval neckline which was edged in seed pearls. Long lace petal point sleeves were caught by tiny self covered buttons. The empire waist was designed with a small flat bow of organza and the lace cage effect was beaded and scalloped, revealing a redingote front. The wateau chapel length scalloped train was highlighted with pearls and covered buttons down the center back.

Her elbow length four tiered silk illusion veil was attached to a tierra of petals, pearls and crystals. She carried a bouquet of feathered peppermint carnations, roses and English ivy.

Mrs. Mike Brown, Mundelein, Ill., sister of the bride, was matron of honor. Bridesmaid was Miss Pat Jungman, Hale Center and bridesmatrons were Mrs. Bob Barley, Libertyville, Ill., sister of the bride, and Mrs. Gerstie Trimble, Nashville, Tenn., sister of the groom.

Each wore identical cranberry silk linen gowns designed with cranberry maribou trimmed neckline and three-quarter length bell shaped sleeves. The semi A-line skirts were accented by full length trains which swept from the shoulders. They wore headpieces of matching material trimmed with the same maribu color. They carried cascade bouquets of light colored pink carnations and pink maline.

Misses Michelle Brown and Maura Barley, nieces of the bride, were flower girls. They wore formal length dresses of cranberry color velvet featuring miniature satin trains and matching headpieces. They carried pink baskets filled with flower petals.

Aubrey Whitehead, Lubbock, brother of the groom, was best man. Groomsman were John M. O'Donnell, Edward J. O'don-

nell and Tom O'Donnell, all of Plainview and brothers of the bride. Tom and Edward O'Donnell also served as ushers.

After a wedding trip to New Mexico the couple will be at home in Plainview after March 3.

Making The Drag

By Janie Willson

Hi, FHS halls seem so empty this week. The band is going to Brady this weekend Feb. 28 - March 1 and Friday will seem so very quiet with them gone. I would like to say how much I appreciate our big WHIRLWIND band and Mr. Swafford their director. The band has really helped to boost spirit all year and we are very proud of them. Good Luck at Brady!!! I know this is late but I'd like to throw in my congratulations to the new Student Council officers, Kelly Smitherman president, Larry Beaver vice-president, Judy Jameson treasurer, and Kit Martin secretary. I know that these four will strive very hard to make 1969-1970 council a great one. Our Whirlettes fought the good fight Thursday at Abernathy against Hale Center, but took their defeat gracefully. The Whirlettes are a fine group of young ladies. They represented their school in a fine way all year. We congratulate them on giving us a fine season and they can make district next year!!! The Student Council is sponsoring a clean up day for Friday the 28th. This is so each of us can help beautify our school. This will involve cleaning lockers, grounds and school rooms. Be sure to attend the Miss Floydada Pageant sponsored by the Senior Class on March 7. Gale Campbell, senior class president is in charge of the pageant. There are twenty girls entered. They are Betty Allen, Vivian Bunch, Reagan Cagle, D'Ann Cates, Denise Cates, Debra Chatman, Dianne Davis, Anne Fawver, Debbie Jones, and Kit Martin. Others are Karen Miller, Brenda Nelson, Kathy Selman, Shawn Sherbet, Iwana Smithy, Kay Snead, Dana Tye, Cindy Ward, Nancy Williams, and Sarah Williams. Best of luck to all the girls. New cars must be a new fad at FHS. Along with Miss Janet Milam, Miss Susie Ozuna has a new car this week. Careful now there are two loose. Keep Smiling, See you on the drag! Janie Willson

Do you chronically munch on ice? Well, if you eat as much as a tray of ice daily, it may indicate you are suffering from an odd ailment called pagophagia. Its victims suffer from an iron deficiency and if given small quantities of that nutrient they lose their abnormal appetite for the ice. I have a niece that's an ice muncher but I doubt if its because she is suffering from an iron deficiency. I think she just likes ice.

THREE of our former Presidents are mentioned in this weeks news. President Truman is recovering from influenza, President Eisenhower is improving following surgery and a book is being published about President Johnson, by a brother Sam. The book is said to be critical of the Johnson administration. A friend of the Johnsons was quoted as saying that Lyndon and Sam were very close but they didn't agree on many things. She said the book would have a lot of surprises. The title of the book wasn't mentioned.

WHILE on the subject of Presidents, we viewed the assassination scene of President Kennedy in Dallas during the

Herbert Els To Remain Pastor In Local Church

Herbert Els announced his plans to remain as pastor of the Floydada Church of the Nazarene for another year. He told the congregation Sunday of his decision to accept the renewal vote extended to him February 2.

Nazarene pastors who have served their current charge less than one full year at the time of the renewal vote on their district may only be considered for a one year extension. After one year of service they may be extended a two, three, or four year call by the membership. A minister is not obligated to accept a call.

The Els family moved to Floydada last May.

HELEN Bertrand was on Cloud 9 Tuesday when she received a dozen red roses sent from San Francisco with her son's handwriting on the card saying "I Love You", then a date, Feb. 25. The family surmised Richard was pulling a surprise on them and had already arrived in the states from Vietnam, not being due home until April. They figured the

date was when he would arrive home. However Helen's hopes were dampened after she reached home from work Tuesday and was placing the flowers in a vase. She found another card in the bottom of the box which said "These flowers were sent to you from overseas." So they knew from the card Richard was still in Vietnam. Helen is still bubbling over the way Richard expressed his love, and what mother would't be?

A Dumas house member dropped a bill in the hopper Monday that would require a 15-year old charged with a felony crime to stand trial as an adult. The former attorney said that from 1960 to 1966 the arrest of persons under 13 years of age increased in the nation by 59 percent while the population in the 10 to 17 year age group rose only 19 percent. Under the proposed bill the grand jury would determine whether the youth should be tried as an adult on recommendation of the district attorney, county attorney or the foreman of the grand jury.

WE visited at Parkland Memorial Hospital with a nephew while in Dallas and about all I can say is "Thank God we have the kind of hospital we have in good ole Floydada." They may have the best surgeons in the big cities but we have them beat when it comes to room cleanliness and efficiency.

IN case you are planning on redecorating your home, off-white will continue to be the most popular color in paints and wall coverings. Gold, avocado green and brilliant blue will also continue to be used extensively in home furnishings. These colors will continue to become clearer and brighter, according to color experts.

WITH the March of Dimes, Salvation Army, Cancer Crusade and other drives in our area plus around the corner, income tax time, we wonder how we can possibly pull another dollar from our pocket for donations. But we must, this time for the Heart Fund Drive and in exchange you will receive a ticket to the Art for Heart Show at Lockney Friday through Sunday in the Lockney Insurance Office Building. Mrs. Jimmy Willson and co-workers will be selling the tickets in Floydada and Mrs. Joe Taylor is heading the group in Lockney. This group of women are working hard to present the show, so do your part by purchasing a ticket. All proceeds will go to the Heart Fund.

Mrs. Emogene Walling of Kalamazoo, Mich., who was 102 last Friday, says her recipe for keeping fit is to eat lots of raw onions, limburger cheese and smoked and pickled herring. I doubt that her recipe for living a long life will change the diets of many people.

THANKS to all of you for the birthday cards. I got one that left me a little baffled tho and I still haven't figured out how he knew it was my birthday. Some people are just sneaky that way.

Stylish say if you are on a budget or if you are not really sure you'll flip over a wig, try one of the synthetics instead of human hair, they're cheaper. VIRAL illnesses continue to plague some school students and adults as well. While most are on the road to recovery, some still have the old aches and pains that goes along with influenza. Spring is just around the corner so with it maybe all the viruses will fly away.

SPEAKING of spring come April we go back to Daylight Savings time. That'll give you something to think on.

ONE FANTASTIC NIGHT

Would you like to take one step beyond reality and enter a plane of fantasy to experiment with ESP, telepathy, mind control, and hypnotic fascinations? This is the question VIRGIL and JULIE ask as they invite you to spend an evening of enchantment with them when they present their spectacular show "ONE FANTASTIC NIGHT" on the stage of the Floydada High School on Tuesday, March 4 under the sponsorship of Floydada Band Booster Club - 7:30 p.m.

Recently CBS paid VIRGIL and JULIE over \$3,700, to appear for ten minutes on a national television special from the Ed Sullivan Theatre, Broadway, New York. It was necessary for the studio to fly VIRGIL and JULIE with their baggage, over 6000 miles for this one brief appearance.

The act that was so sensational as to attract this attention from the network was the "London Spirit Seance." This act was developed by VIRGIL and JULIE over a period of years and featured by them on a fabulous five-year tour completely around the world.

Those who have seen VIRGIL and JULIE on television will remember their "London Seance" as an unbelievable and hilarious ten minutes of top entertainment.

"The London Seance" will be just one of the many acts that will be presented during the VIRGIL and JULIE two-hour performance of "One Fantastic Night."

Texas Public Schools Week

There are four reasons why Freemasonry has promoted and sponsored Texas Public Schools Week in Texas for the past years. The four reasons are the basis of existence for Masonry itself, and principles of its belief in the Texas schools system:

- The Fatherhood of God
 - The brotherhood of man
 - The supreme worth of the individual
 - The conviction that man can reach a higher state of perfection on earth, as well as in heaven.
- For 115 years, Texas schools have been growing and progressing. And, this year, 1969, promises to be a brighter and better year than ever before. Masonic Lodges throughout the state have banded together to promote and punctuate the good that our schools are accomplishing for our youth, our homes, our communities and our state.

It will be your self-reward to visit a school or schools in your community March 3 through 7. See first hand what a good job teachers and educators in all phases of public schools are going.

Encourage your child and your family to appreciate and support one of the finest education systems in the United States. The Masons have long known what a great resource we have in our schools. Now, you can and should know, too.

March 3 through 7 is Public Schools Week in Texas. Visit a school somewhere, sometime during that period. Support our Texas Public Schools, their faculties, and student bodies.

News And Advertising

What would it cost to publish this in the newspaper? That's a question newspaper people frequently are asked and always are happy to answer even if in a surprisingly large number of cases the answer is "nothing at all."

That's when the question concerns events of news. Types of coverage which seem most frequently to confuse the public are death notices, weddings, anniversaries and, occasionally, accounts of special social events although the question of cost also often comes up concerning personal items and news and pictures of Plainview and area men in the armed forces.

Naturally, most of those who ponder about the cost of publishing stories and pictures are having their first experience in dealing with the news department of a paper. Otherwise they would know there is no charge. Even so, perhaps a few words on policy are in order for those who may be contemplating submitting news material.

Actually, the policy is simple. Newspapers charge for advertising, their major source of revenue, and do not charge for stories and pictures. And while all advertising is subject to approval before being accepted, a more lenient policy is used since the customer is buying the space in which his message appears, whether this is commercial, political or what-have-you.

News material also is published in connection with existing policies. Although there is no charge whatsoever, it is published if the paper feels it is of sufficient news interest to warrant the space it will occupy. This is not always a simple decision to make but the decision must be made. Consequently, general policies are set and certain type of stories simply are not carried for in the event they are accepted from one source, they must, in all fairness, be accepted from all.

Another question that frequently arises is the date of publication for a submitted article. Here, again, there is a difference between advertising and news.

Advertising is sold to appear on a particular day and is published on the date or dates the customer wishes. News contributions, however, particularly reports of club activities, are published as soon as possible if they cannot be published on the date desired. Despite the fact that all papers like to publish stories as soon as they are received, editors must gauge publication on the amount of space available on a given day (and that varies) and what news is present on the world scene and on the national and state as well as area and local levels.

So, bear with us. We solicit both your advertising and your news. Without either, we couldn't be a newspaper.

THE MISSION OF THE CHURCH

What is the primary mission of the church? Is it to provide an atmosphere and environment in which all men shall be treated as brothers?

Is the chief message of the church a man's responsibility to the community of men about him? Is the chief thrust of the church in terms of social patterns of behavior? Or is the chief mission of the church one of a personal commitment to the will of God? Is the chief thrust of the church perpendicular a man's relationship to his God? Or is it horizontal, a man's relationship to his neighbor?

Obviously this question is not new. It has been asked millions of times during the last 2,000 years. In every age some churchmen emphasize the individual aspect of the Christian mission, man's personal commitment to the will of God; other churchmen emphasize the social aspect, man's social commitment to his fellowmen. What is the answer? I am quite sure that from the standpoint of the Christian gospel the answer is neither individual nor social. It is both. The individual and the social emphasis are but two sides of the same coin. Christianity is not simply my relationship with God. Nor is it simply my relationship with my fellow men. Christianity is my relationship with God and God's children — my brethren of the world.

As I see it, a gospel that does not begin with the individual does not begin. Men are confronted with the commit-

ment of their lives to the will of God and the ways of Christ. Jesus said, "Marvel not that I say unto you, you must be born from above." Do not all spiritual experiences begin with a fresh manifestation of the reality of God?

But it is likewise true that a gospel that ends with an individual... ends! If the Christian gospel is considered only a perpendicular affair, involving only my relationship with God, it could be only a means to "get to heaven." It could be unaltered selfishness. And Jesus once said, "If a man be my disciple, let him deny himself..." Furthermore an intimate disciple of Jesus wrote: "If anyone says 'I love God' and hates his brother, he is a liar; for he who does not love his brother whom he has seen, cannot love God whom he has not seen." (1 John 4:20)

Commitment of one's life to God begins at an altar, in the woods, in the streets, in the home or in the church. But it never ends until I have completed my responsibility to my neighbor in need. The First Commandment is: "Thou shalt love the Lord thy God with all thy heart, with all thy soul, with all thy mind." And "he second is like unto it: 'Thou shalt love thy neighbor as thyself.'"

If a layman wants to know why the church "gets mixed up" in minimum wage laws, a fair deal for minority groups, birth spacing, war, etc., this is the answer. Love of one's neighbor involves concern for his welfare... economic, social, political and religious. Helping one's neighbor is as much the Christian gospel as is the service of Holy Communion. The church begins "within these four cozy walls" but it reaches out to the uttermost part of the earth.

City Secretary Attends Seminar

City secretary, Miss Jimmie Lou Stewart, joined city clerks and secretaries from 57 cities in the Permian Basin, South Plains, and Panhandle regions for a seminar on "Legal Framework In Which We Live," in Lubbock Friday.

The one-day workshop is being sponsored by the Joint University Center for Community

Services, a project of North Texas State University and Texas Women's University, in cooperation with the City Clerks and Secretaries of Texas and the Texas Municipal League.

Miss Stewart will act as a panelist in the programmed discussions at the meeting.

FLOYD PHILOSOPHER Has A Few Notions For

Improving The National Postal System

Editor's note: The Floyd County Philosopher on his Johnsongrass farm offers some free advice to the post office department this week. There are times when it's hard to follow him.

Dear Editor: I've always figured the U.S. Post Office Department is like the U.S. Weather Bureau, if a forecast is right 70 percent of the time and the mail is on time about the same percentage, everything's normal, but according to articles I've been reading in all the newspapers I've seen lately, there's a move on to improve the postal service.

Critics say it's old-fashioned, it doesn't use modern streamlined business principles, you never hear of a postmaster getting so good in one town he's promoted to a bigger town, you never hear of a rural carrier forging ahead, going into business for himself, and opening up his own route.

I don't know about these criticisms, I know that about the only time I fail to get my copy of the Hesperian out here on this Johnsongrass farm is when I fail to pay for it, but there are some modern ideas the post office department no doubt could try out.

Debate Team Argues On Selective Service

RESOLVED: That the United States should establish a system of compulsory service by all citizens - this is the '68 - '69 High School debate topic. The question posed by this proposition is one of controversy, yet, it has extreme

value in determining the future of the United States. During the course of this school year, FHS debaters, Keith Norrell and Sam Henry, have had many important experiences with this question. Some of the solutions presented by opposing have been: the complete abolition of the Selective Service system, the imposition of a compul-

sory civil defense system, and the use of domestic service jobs to supplement an all-volunteer army. The FHS has its own plan, but feels that the latter is basically the most stable because, as a result of this plan, the federal deficit would be relieved in a matter of a decade.

Center Girls Nose Out Whirlettes 51-49 And Take District Title

HIGH FOR REBOUND... Linda Williams goes high for a rebound against Hale Center in the district playoffs. (Photo by Bill Finley)

Center's Cindy
Top Scorer

Well Tooley of the Whirlettes, who caught up most of the game, finally nosed out the Hale Center in a 51-49 victory Thursday at the Abernathy gymnasium.

The Hale Center girls' gymnasium was packed with fans who were on their feet all evening.

The Whirlettes started the first quarter with a double shot and were in the lead after the first quarter.

They were still in the lead in the second quarter, but the Hale Center girls started to catch up in the third quarter.

The Whirlettes were back in the lead in the fourth quarter.

The Hale Center girls never could get back in the lead.

The top scorer of the game was Cindy Williams of the Whirlettes, who scored 27 points.

Other scorers for the Whirlettes were Terri Williams with 18 points, followed by two forwards with 15 points each.

There was a considerable foul, three Whirlettes were out of the game.

The Hale Center girls had an advantage in the second half. They had two tall forwards, and the Whirlette guards continued to trouble passing to the forward court to the defense.

Teddy Allen said that the "hard game to lose" was that it was a "tough" game for both the Hale Center and the Whirlettes.

Coach Allen has had a good next year.

60 ATTEND SOIL FERTILITY MEET

Approximately 60 farmers braved adverse weather Thursday morning to hear seven specialists discuss various aspects of agriculture at the 21st annual Floyd County Soil Day program. The event was held in Plains Theatre here.

County Agents Joe Wilson and Mack Heald noted that 43 persons registered, but estimated that others who failed to register pushed the total attendance mark to 60. Although this number is lower than last year, attendance was above average.

Good "material with which to work" for the past two years, and now loses only one starter, Linda Williams.

On the other hand, Hale Center loses four of its six starters.

The Book Nook

The books reviewed in Book Nook are available in the Floyd County Library.

"A Fighting Chance," by John Ridgway and Chay Blyth... This book tells the fantastic story of two husky young British paratroopers that rowed across the Atlantic in a twenty-foot open boat named English Rose III.

The two men had neither sail nor engine to aid them, only their courage and their cunning against the overwhelming power of the elements in a 92-day voyage from Cape-Cod to the shores of Ireland.

"Diaper Days of Dallas," by Ted Dealey... Not many people can remember what "little d" was like before it exploded into "Big D"...when it was little more than a wide place in the road.

This a personal history - not based on academic research, about Dallas at the turn of the century. It tells in part the way things used to be with an interesting chronicle of growing Dallas told by Ted Dealey, publisher of the Dallas Morning News.

The Guns of August," by Barbara W. Tuchman... This book gives a vivid history of the opening clashes in August 1914 and the thirty days of battle which followed to determine the course of the First World War.

Mrs. Tuchman reveals the human reasons for the disasters of war that will provide an insight to the shaping of nations today.

ESSAY WINNERS... Fifth-grade students to read their essays on "What America Means to Me" at R.C. Andrews Elementary PTA meeting tonight are; Julie Poage, Elizabeth Farris, Jimmie Kay Sales, Curtis Smalley, Van Miller, and Gordon Bond. (Staff Photo)

Chapter Farmer Awards Given At FFA Banquet

The Future Farmers of America held their annual "Father and Son" Banquet Thursday night in Duncan Cafetorium, presenting Chapter Farmer Awards to twelve candidates.

Those present to receive the awards were: Jimmy Nichols, Deryl Evans, Steve Aldredge, Mike Simpson, Mike Anderson, Gregg Sissom, Mark Whittle, Will Sinor, Mark Saunders, Robert Pyle, Tim Assiter and James Hinton.

FFA member Steve Craig outlined some of the projects undertaken by the Floydada Chapter this year for the 142 guests attending the banquet. "In this year's projects, FFA members sold 500 boxes of citrus fruits during the Christmas season with the proceeds going to the chapter," Craig said.

Also during the Christmas season each boy in the Floydada chapter contributed between 25¢ and 50¢ each to the FFA Chapter at "Boys Ranch" to help them buy stock projects.

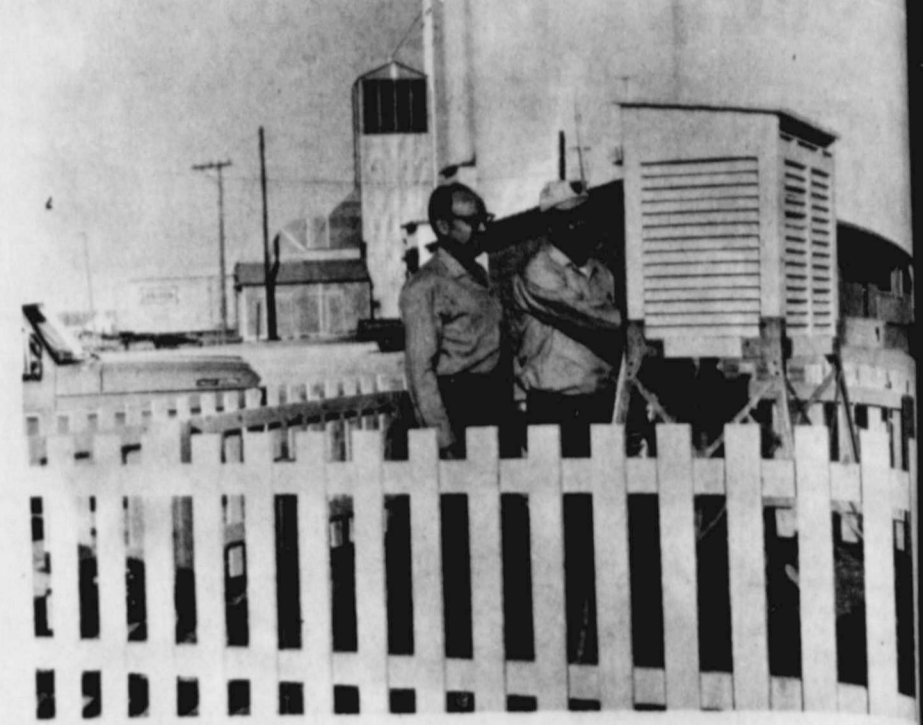

Another project in the agriculture department at the high school is the construction of walkways between the shops and the main building.

Besides these chapter projects, each member also cares for a stock project in which he raises an animal for contest entry with hopes of selling the animal at a profit.

Also during the banquet, Garvin Davis was given a gift in appreciation for the help that he has given to the FFA chapter by his contribution of a Charolais calf.

LETTERS TO EDITOR

About Streets In Della Plains Area

ALEX WALL

Dear Editor,
We thank the city for the street lights, and the street signs, in the Della Plains area.
We also want to thank Mr. H.H. Roberts. We also thank the city for the streets, and the culverts, but some places the water does not drain properly.
We need some more work on the draining system. The soil that was put down, doesn't help any in wet weather. We need a white caliche so it will enable us to travel in bad weather. We would also be thankful if the city put some stop signs and some church zones down here.
Yours Sincerely,
Elder Alex Wall

Mr. and Mrs. Farris Join TCU Committee

FORT WORTH - Mr. and Mrs. Kinder Farris have accepted an invitation from the chancellor and the chairman of the Board of Trustees of Texas Christian University to become a member of the institution's Committee of 100.
Authorized recently by resolution of TCU's governing body, the committee will meet twice to consider a tentative statement of plans for the University's future and to help in their refinement. The first gathering is planned for Feb. 26 on the TCU campus.

The Committee of 100 will serve as a task force in assisting in realistic appraisal of plans, programs and progress of the University as it moves toward the year-long observance of its 100th birthday in 1972-73. In keeping with TCU's outward looking philosophy, the distinguished persons invited to membership are from Fort Worth, Texas and throughout the United States. They were selected because of their interest in and knowledge of the school as well as their willingness to devote time and attention to the broad concerns of the University.

"This is the most serious undertaking that TCU has initiated in its 96-year history," said Dr. J. M. Moudy, chancellor. "We have asked these outstanding leaders of the state and nation to share in determining the destiny of this institution in the new century ahead."

Assembly Homes Inc. Changes Names

The Board of Directors of a rapidly expanding nursing home organization with headquarters in Glenwood, Minn., has announced a change of name. The change from "Assembly Homes, Inc." to the new name, "Challenge Homes, Inc." became effective February 1, 1969. The Floydada Nursing Home of Floydada, Texas as a part of this organization will continue operation as a Challenge Home.

The change was necessitated because of confusion arising from the use of similar or almost identical names for nursing homes by a number of other concerns.
Another reason for the change was to help eliminate the mistaken idea that the organization is operated by or under the auspices of the Assemblies of God, a church denomination with international headquarters in Springfield, Massouri.
The Rev. L.D. Kramer, an ordained Assemblies of God minister who is founder and president of the Challenge Homes pointed out, "Our homes are open to persons of all churches, races, and creeds." This policy also applies to the 1,200 employees of the homes, he added.
Challenge Homes operates 30 facilities located in Arkansas, Florida, Louisiana, Minnesota, North Dakota, South Dakota, Kansas, and Texas.

The Times of London said of this show, "Certainly one of the best." The Chicago Daily News Foreign Service said, "The State Department could spend millions and not be able to build the international good will Virgil and Julie are doing."
Virgil and Julie presented their performance to capacity business at the Academy of Music in New York City and Irving Devor, Associated Press Columnist, said of this performance, "Every phase of the show merits applause."
Tickets for "One Fantastic Night" are on sale by members of the Floydada Band Booster Club, who advise that a capacity audience is expected to witness the performance on Tuesday Evening, March 4, at 7:30.

Legend says Washington chopped down the cherry tree. Ever since, cherries have been associated with his birthday. Cherry pie is probably the American favorite at least for this occasion, but you might like to try something different this year. Below are several ideas for you to choose from.

CHERRY-TOPPED TORTE
2 cups graham cracker crumbs
1/2 cup butter melted
1/4 cup chopped nuts (optional)
3 (8 Oz.) packages cream cheese
1 1/2 cups sugar
5 eggs
3 tablespoons lemon juice
1 (1 lb. 8 oz.) can cherry pie filling
Mix graham cracker crumbs, butter and nuts in a 13 x 9 x 2 1/2 inch pan. Press firmly into bottom of pan. Beat cream cheese and sugar together until fluffy; add eggs one at a time, beating well after each addition. Stir in lemon juice. Pour filling over crumbs and bake in moderate oven (350 degrees) until set in the center, about 45 minutes. Cool. Spread pie filling over top; refrigerate until ready to serve or carry out. (This is a very filling dessert best served after a light meal.)

CHERRY COBBLER
(a convenience dish)
1/2 box white cake mix
1 large can fruit
1/2 cup margarine
1 cup sugar

40-YEAR-OLD BULB... W. B. (Skinny) Winn is shown with an antique light bulb believed to have served for over 40 years. (Staff Photo)

Antique Light Bulb Lasts 40 Years

"They don't make 'em like they used to" is a comment often heard in today's world, and a light bulb that has provided over 40 years service seems to prove the point.

W. B. (Skinny) Winn, electrician, discovered the antique light bulb while working at the home of Mrs. Mable Smith, 202 S. First.

"I was installing an electrical system for a washer and dryer when Mrs. Smith said that a light bulb on the front porch

had burnt out last week, and asked if I would replace it for her," Winn said.

Winn said the light bulb is one of the oldest that he has seen and it is surprising how long the bulb has lasted.

Mrs. Smith said that the bulb has been in use for at least 40 years and possibly longer.

"I think the light bulb has been working almost as long as there has been electricity in Floydada," Mrs. Smith said.
