

AN EDITORIAL

Merian For Water

It has well been said that man can make no more water-sheds...only God makes them. Although the primary effort in building the dam is to impound an adequate water supply for the four cities, we should not overlook the secondary aspect of such an undertaking... that of recreation. The White River Lake project made \$69,000 last year on its many avenues of recreation income. The lake continues to sell water to industry at Post, taxes are being lowered each year... industry will eventually pay for the project. "No town can GROW OREX-IST without water." Water is the strength of a people and the very future of their existence. If you have any feeling of responsibility for the next generation, you must vote for the Mackenzie Authority. If we are to leave this world in a little better condition than when we found it, we will surely feel obligation to leave our sons and grandsons a community with an abundance of water. VOTE FOR all three issues when you go to the polls Saturday.

Caprock Chat

By Wendell Tooley  
I VISITED a session of the big singing convention... First one I've attended since I was a young man. There were singers from 43 area towns... some came away as Dallas, Alabama, New Mexico, Oklahoma. The convention hasn't changed since I saw my first one there aren't as many young people in attendance as used to be... but it still serves a very good reason for the people who just love to sing gospel songs... Floydada's C.M. Lyles had written a song in which we were singing Saturday night. I understand many gospel songs, most of them published by the Sam Green and E. B. Chesnut were having a good time doing a good job as hosts of the convention.

VIETNAM veteran was in the Hesperian Monday... express his thanks to us for sending the Hesperian to a Vietnam. He is Johnny Brown, son of Mr. and Mrs. A.H. Robertson. He and his wife are moving here in 1959 to go to college and hasn't been in since. He got his B.A. degree from the University in engineering... think he's switching to physics degree. "What can we do about Vietnam?" He replied "I don't know... didn't look like we could win the war, but I don't afford to pull out... we just shouldn't have begun with it. There was one thing he did know for sure, he was happy to be home!"

NOTHING I like to run better in the Hesperian than our young men and women who are outstanding, successful, who help to make this a better place in which to live. I publish a statement made last week by the Rev. Granger of the First United Methodist Church in which he said: "I know a couple of 'Hearties' this summer and found them interesting and uplifting. I hope you don't mind my coining 'Hearties.' As I can see it, Hearties are kind people, but different. These Hearties were Suzanne who worked with our youth this summer and San Wilcox who worked with the Presbyterian young folks and the two of them worked together. The way that Hearties and Hipsters, as I see it, is, that both are dissatisfied with the way things are, but where they differ greatly is that Hearties don't believe the best way to deal with the situation is to see how dirty they can get, how much litter they can leave, or how many codes of society they can break. Hearties, and they are willing to get involved in a positive way to make things (and people) better. And San believe the best way to go about this is in the Christian faith. San and San both come from homes of affluence. Both would have lolled in comfort all summer and the rest of the year until they finally deteriorated from self-satisfaction, and they are choosing to invest themselves in a better and more Christian world. Suzanne has left her job and is working part time in an agency for disturbed people. San has been accepted at Union Seminary in New York City, but he has chosen to stay here."

Mackenzie Municipal Water Authority Vote This Saturday

Residents Of Tulia, Lockney, Floydada, Silvertown To Decide

Mackenzie Dam Site On Tule Creek

Floydada residents will join Tulia, Silvertown, and Lockney in a vote for municipal water, Saturday, September 6, at the City Hall. Polls will be open from 8 a.m. until 7 p.m.

The issue is for the approval of the Mackenzie Water Authority, a plan which includes the building of a dam and water plant on the Tule Creek about seven miles northwest of Silvertown.

Claude Weathersbee will be election judge, Jack Covington assistant judge.

Voters will vote on two ballots: one ballot reads: "For or against the issuance of \$4,615,000 general obligation bonds", "for or against the levy of a maintenance tax not to exceed 10¢ per annum on the \$100 valuation." The other ballot reads "For or against the water contract" The project must pass in all four towns by a simple majority for it to become a reality. The water rights expire in October.

The plan, under direction of the Mackenzie Municipal Water Authority, involves building a dam across the Tule Creek in Briscoe County, creating a deep reservoir lake at that location, and constructing a water processing and purification plant near Silvertown. Four cities, then - Silvertown, Tulia, Lockney and Floydada - will have access to this water supply when water transmission pipelines are built. SEE WATER, PAGE 8

Mayor Jimmy Seay

Mayor Urges Citizenry To Vote For Water

Floydada Mayor Jimmy Seay issues the following statement to the residents of Floydada concerning the Saturday Mackenzie Municipal Water Authority Election:

"The citizens of Floydada are now facing one of the more crucial times as decisions regarding our future water supply are being made. I would like to urge all of you to get out and vote for this all important project. We all are aware of the three propositions: (1) bond issues (2) maintenance tax (3) water contract. Please vote YES on all three propositions. There would be no point in voting on proposition one, the bond issue, and not voting yes on the other two issues. The bond issue will provide the funds necessary to build the dam. The second proposition of maintenance tax will of course go for the upkeep of the water system."

FLOYDADA HIGH, DOUGHERTY UP

School Enrollment Down Slightly

The Floydada Independent School District student enrollment is down 131 from last year. A count was made yesterday at all schools, comparison is made with a similar time last year. The trend down is similar in all area cities. Plainview was down over 308, Lockney was down 66. Floydada school enrollment is as follows: High school up 465 to 482, Junior High down from 295 to 270, Andrews Ward down from 459 to 401, Duncan Elementary down from 490 to 432. Lockney's enrollment is 914. COMMON SCHOOL DISTRICTS Floyd County's common school districts reported: South Plains was down from last year's 92 to 75, Providence down from 55 to 45, Dougherty up from 56 to 60.

Millions Of Dollars Going To Floyd Farmers This Week

"We mailed out around seven million dollars to Floyd farmers Tuesday and we will put out a total of approximately 12 1/2 million dollars this month," was a statement from ASCS office manager Tom Moore yesterday. Moore said that the checks represented diverted acreage payments for cotton, wheat and grain sorghum. He said that around a million dollars were mailed out in the spring, bringing the total to around fourteen million dollars.

Floyd County Budget Lower

The budget hearing on the 1970 Floyd County budget has been set for next Monday at 10:30 a.m. The County Commissioners will be in session Monday and are available to explain the new budget. The budget calls for an expenditure of \$486,573. Down slightly from last year. Income for the budget is based on property valuations of \$22,549,370.00. Valuations are down from last year's \$22,644,920. The tax rate will remain the same as last year, \$1.35. There are no salary increases for county officials in the new budget. On January 1, 1970 the county will owe \$269,968 in bond and warrant indebtedness. This should all be paid off by 1974. The 1970 budget includes \$77,000 on principal, and \$7,871 interest on the debt retirement plan. The budget includes \$6,300 for the two fire departments, to be divided equally between Lockney and Floydada.

Winds To Scrimmage Crosbyton

The Floydada Whirlwinds travel to Crosbyton tomorrow night to scrimmage the Chiefs. The game is in pre-season practice. Contest time will be around 7 p.m. A number of fans followed the team to Colorado City to see the scrimmage. One of the Whirlwinds' top performers, Stan Pierce suffered a shoulder separation in the scrimmage.

Rotary Teacher Banquet Tuesday Night

The annual Rotary Teacher Appreciation Banquet is scheduled to begin at 7:30 p.m. Tuesday night in the Duncan Elementary Cafeteria. The Rotarians and their Rotary Anns will host all school personnel and their guests. Master of ceremonies will be Rotarian Clem McDonald.

Young Farmers Meeting September 11

A meeting has been called for the Young Farmers Club on Thursday night at 8:00 o'clock. The meeting will be in the Floydada High School Vocational Agriculture Building. Everyone is invited to attend.

Wildcat Begins Drilling At Harmony

Drilling began on a Wildcat oil well about a mile south of the Harmony Community Center this week. Yesterday the driller for Delta Drilling Company of Odessa reported depth just past the red bed, around 500 feet. The wildcat is filed as Rose Thomas No. 1, and unofficial reports indicate an expected drill depth of 9,000 to 10,000 feet. The Thomas farm is farmed by J.M. Pierce and the well is located near the south side of the farm by a lake. The well is about four miles northeast of the Charmichael Oil Wells.

Lions To Host Whirlwinds

The Floydada roaring Lions Club will host the mighty Whirlwinds and their coaches at their noon luncheon today. The luncheon will be held in Fellowship Hall at the First United Methodist Church. This is an annual event of the Lions Club.

Few Reserved Seats Left

According to a report from Athletic director Preston Watson a few good reserved seats remain for sale for the home games football season. Tickets are on sale at Watson's office in the Floydada High School. The first home game is September 19 with Tulia. The Whirlwinds open the season at Ralls on September 12.

Grain Sorghum Meeting At Plainview Tomorrow

The Texas Extension Service will be conducting a series of meetings in the Panhandle and South Plains the week of September 3-5. These area meetings are to be held to inform the farmers about the grain sorghum referendum in early October. Dr. William Black, Texas Extension Service, College Station, Texas, is to be the featured speaker. Dr. Black is the

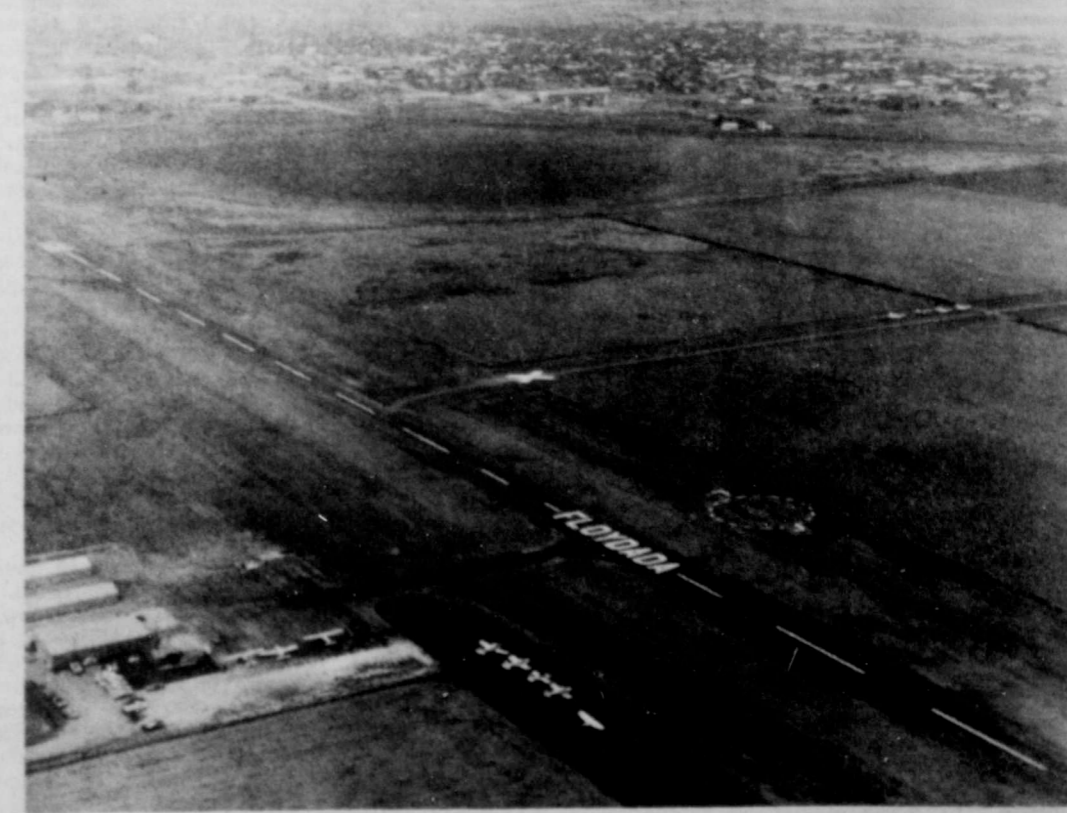

Jr. High Magazines Sales To Begin

The Jr. High School students will begin their annual magazine sales in the Floydada community September 26. This is an annual event at the school and profits go back into the improvement of the school. Money made in the past and this year's profits go to complete paying for the tennis courts and shuffle board concrete.

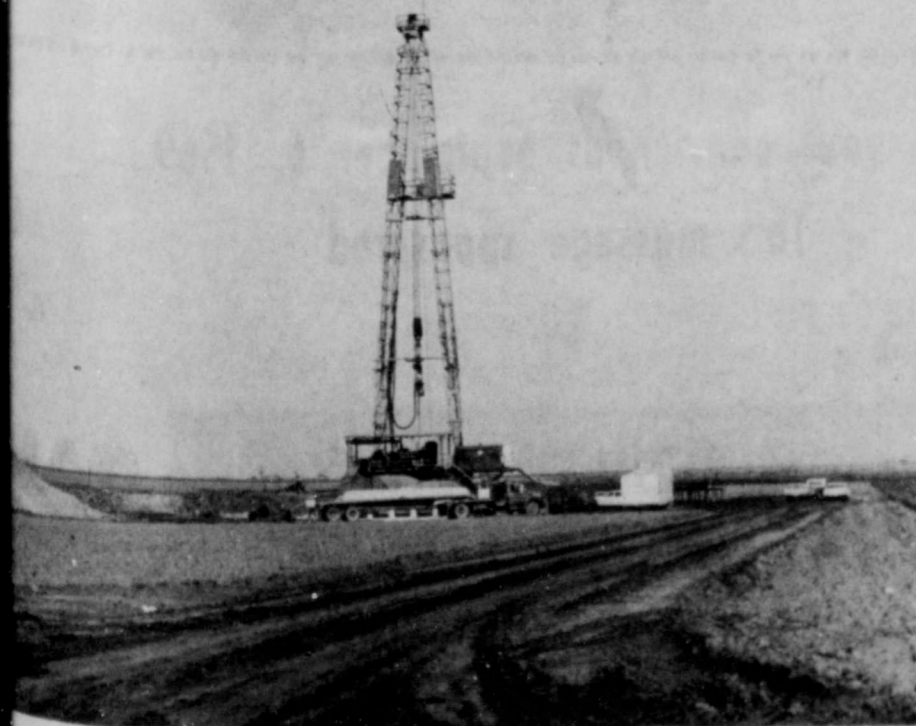

"We want to thank the people of this community for their loyalty to our magazine sales effort, we feel this profit staying in the community benefits everyone," said Jr. High principal A.W. Coltharp this week. Principal Coltharp also said that, "any special offer from any magazine company that our students represent will be honored during this campaign."

Director of the Grain Sorghum Producers Association

encourages every farmer and interested person to attend these informative meetings. The schedule of meetings are: September 5, 10 a.m., Hale County Agriculture Center, Plainview, Texas; 2 p.m., South Plains Electric Coop, Lubbock; 8 p.m., County Courtroom, Lamesa, Texas. Elbert Harp, Executive Director

## Carthel-McCarty Vows Repeated In Church Ceremony Saturday

Miss Debra Jean Carthel and Richard Truett McCarty exchanged wedding vows in a double ring ceremony Saturday evening at 7:00 p.m. in the Church of Christ, West College and Third. Frank Duckworth, minister officiated.

Mr. and Mrs. W. L. Carthel are parents of the Bride. McCarty is the son of Mr. and Mrs. Truett McCarty.

Forming the nuptial setting was a satin covered kneeling bench topped with a red long stem rose, an archway with greenery and flower baskets of white gladiolas with Royal blue ribbons tied in bows. Two seven tier candelabra graced both sides of the altar. The eternal candle was lighted at the close of the ceremony.

Wedding music was recorded. Brenda Dudley, soloist, sang "I Love You Truly", "Whither Thou Goest" and "The Lords Prayer."

The bride gave her mother a long stemmed red rose just before the vows were repeated and gave Mrs. Truett McCarty the rose atop the kneeling bench after the vows were repeated.

The bride was given in marriage by her father. She wore a white satin styled A-line gown fashioned and designed by the bride and her mother. Her gown was an empire design. The bodice was white chantilly lace over satin with wrist length petal point lace sleeves. Satin buttons adorned the back bodice. The A-line skirt was of white bridal satin bordered with a row of chantilly lace outlined in pearls to match the pearl trim around the neck and sleeves. The detachable chapel train of white bridal satin was trimmed with double rings outlined in lace and pearls. A three-tiered veil of silk illusion fell from a pearl crown of tiny lace leaves forming clusters centered with a jeweled forget-me-not.

The bride carried a bouquet of white roses surrounding a white orchid atop a white Bible. Blue satin streamers tied in love knots fell from the bouquet. The brides mothers wedding band was tied in the bouquet.

Traditional something old was a handkerchief belonging to the brides paternal great-grandmother, which she carried in her Bible. Something new was the bridal attire. Something borrowed was a brown cameo necklace from her late paternal grandmother, Mrs. W. A. Carthel; and a pair of cameo earrings from the brides maternal grandmother, Mrs. L. N. Clark. The bride wore in her left shoe a penny bearing the birthdates of the bride and groom.

Sue Carthel was her sisters maid of honor. Mrs. David Cook, sister of the bridegroom was matron of honor. They wore French blue gowns, styled in a straight line with elbow length sleeves. A semi-empire belt was attached under the arms. Bridesmaids were Misses Karen Watson and Pat McCarty, sister of the groom. They wore royal blue gowns styled identical to the maid and matron of honor. Their headpieces were matching satin bows with matching blue illusion veils. Each attendant carried a long stem white rose.

MRS. RICHARD TRUETT McCARTY  
nee Miss Debra Jean Carthel

with white wrist length gloves, a gift from the bride.

Sheila Durham, Lubbock, niece of the bride, was flower girl. She wore an empire dress of royal blue satin. The bodice was accented with elbow length sleeves. The skirt was gathered at the empire waist. Her headpiece was a matching satin bow with a matching blue illusion veil. She wore white wrist length gloves and carried a white basket with white rose petals nestled in it.

Scott McCarty, brother of the groom was ring bearer. He carried a white satin pillow with a lace heart placed in the center. The double rings were attached inside the center of the heart.

Jimmy Jeffress was best man. Groomsmen were Ronnie Poteet, Nera Visa, New Mex., cousin of the groom, David Cook, Lubbock, brother-in-law of the groom, and Tim Stansell.

Guests were registered by Miss Janice Lucas and seated by Ken Cooley, cousin of the bride and Lanny Barnett.

### Reception

A reception followed the ceremony in Fellowship Hall of the church, where the table was laid with a royal blue cloth with white lace top.

The brides bouquet and the blue eternal candle along with the three tiered wedding cake and crystal and silver service completed the table decor. The vases of long stem roses of the attendants were used at focal points throughout the party area. The baskets of gladiolas formed the back-

## Mrs. Whittle Hosts 1950 Study Club Meeting

The 1950 Study Club met Tuesday, September 2 at 7:30 p.m. in the home of Mrs. Cleo Whittle for a covered dish supper. Co-hostesses for the event were Mrs. Charles Anderson and Mrs. J.W. Cannon. Mrs. Sammy Hale voiced the prayer.

Mrs. Cleo Whittle, club president, conducted the business session in which Mrs. Don Cheek was granted a temporary leave of absence. New members introduced were Mrs. Carl Armstrong, Mrs. Bill Hendrix and Mrs. W.A. Rucker.

The program was presented

## Hoppers Honored With Gift Shower

Mr. and Mrs. Ronnie Hopper were honored with a miscellaneous shower Friday night at the Harmony Community Center at 8:30.

Guests were greeted by a hostess, Mrs. Glenn Pool, the honorees, and the bride and groom's parents, Mr. and Mrs. A. S. Megert of Borger and Mr. and Mrs. Bob Hopper.

Mrs. Jim McLaughlin of Petersburg registered guests. The bride's chosen color of yellow was used in decorating the serving table, which was covered with a white cut-work tablecloth laid over yellow. The centerpiece was yellow roses. Crystal appointments were used. Mrs. Glenn Curtiss served at the table.

Clever games which carried out the farming theme, which is the groom's chosen profession, were led to include all the guests by Mmes. Chloma Williams, J.R. Turner and Zant Scott. The final game led the honorees to a table of gifts.

Others in the house party were Mmes. Ronald Weaver, Milton Shore, Bud Moore, Monroe Schulz, Sherwood Ramsey and Wesley Carr. The hostess gift was a ten-piece set of avocado cast aluminum cookware.

About 80 guests registered. Out of town guests from other than Petersburg and Floydada were the bride's parents, Mr. and Mrs. A. S. Megert of Borger, the groom's maternal grandmother, Mrs. Maude Scott of Lorenzo, the bride's sister and family, Mr. and Mrs. Doyle Smith, Steve and Sherman of Miami, Mr. and Mrs. Bill Hopper and Mr. and Mrs. Lloyd Hopper, Delonnia, Kevin and Sydney of Plainview and Mr. and Mrs. Lyman Abell, Paul and Todd of Ralls.

## Twins Celebrate 80th Birthday

Mrs. Kenneth (Lucy) Bain Sr., and her twin sister, Mrs. Willie (Lizzie) Smithee, celebrated their 80th birthday Sunday with a reception in The Heritage Home in Plainview.

Mrs. Bain has resided in Floydada since 1916 and her sister had been a resident of Silverton for 75 years before moving to the Heritage Home in 1967.

The women were born on their father's birthday, August 31, 1889 in Seymour. They were the youngest of the 10 children of Mr. and Mrs. R.F. Stevenson. They moved to Silverton in 1892 where their father operated a drug store in addition to "doctoring horses and people as well". Their first and only home there was where Production Credit Office now stands.

Stevenson was a surgical doctor in the Civil War and the daughters readily recall narratives of his oftentimes wartime experiences. According to Lucy and Lizzie, their father told of oftentimes sewing up a wounded man, placing him on his horse and accompanying him safely behind the lines.

Although lacking in formal medical training, his practical background nevertheless proved its value as he tended to residents in and around Silverton as well as the ranchers' horses for many years.

Three of his sons owned several sections of land around Silverton that were later sold to the JA Ranch. As youngsters, the girls spent all their spare time during the summer helping their father and brothers round up cattle on the JA. All of their brothers, at one time or the other, worked on the sprawling outfit.

The girls just didn't have much use for a side-saddle, much preferring their "cow boy" saddles when astride a fast mount. They also recall climbing into the dining room table at JA headquarters after the evening meal to dance and sing for the cowboys, who thought the five-year-olds were just about the "cutest".

Both attended Silverton Schools and graduated in 1906. They well remember that they only missed one day of school during all those years, that be-

ing due to "sore eyes" and the fact that their mama kept them home on account of the ailment.

Lizzie married Willie Smithee at the family home in 1907 and the couple rode 8 miles west of Silverton to spend their honeymoon with her brother and sister-in-law, Mr. and Mrs. Eph Stevenson, who lived just west of the Mayfield ranch, near Rock Creek.

They had four children, three of whom are still living. They are Kathleen Green, Turkey; Gladys Strickland, Denton and Einell Montague of Plainview. Mrs. Smithee has been a member of the Methodist Church of Silverton since 1913.

Following her graduation from Silverton High School, Lucy attended college and taught school in Silverton before marrying Kenneth Bain in 1911. The moved to Floydada in 1916 and she continues to make her home there. She has been a member of the Cumberland Presbyterian Church in Floydada for over forty years. A son, Kenneth Bain Jr., lives in Floydada and a daughter, Jean Rushing, lives at Breckenridge.

Lucy and Lizzie both lost their husbands the same year. Smithee passed away in April 1964 and Bain died in July.

Two brothers still living are Walter Stevenson, California and Turner Stevenson, Canyon, Texas.

## Births

NEW ARRIVAL  
Mr. and Mrs. Robert T. Stovall are parents of a son, Robert Tyson Jr., who was born, at 1:08 a.m. Tuesday, August 26 in Lubbock Methodist Hospital. The baby weighed six pounds and nine ounces. The mother is the former Darlene Laminack.

Grandparents include Mrs. Mable Laminack of Floydada and Mr. and Mrs. Richard Stovall of Plainview. Mrs. R.F. Stovall of Floydada is a great grandmother.

er is Caprock District President of the Texas Federation of Women's Clubs.

With the quotation "When love and skill work together expect a masterpiece," Mrs. Whittle presented Mrs. Decker with the first copy of the 1969-70 pink yearbook, which is Mrs. Decker's favorite color, and a long stemmed red rose from the club. Mrs. Cannon then introduced the programs for the year.

Members attending were Mrs. Charles Anderson, Mrs. Carl Armstrong, Mrs. Gene Arwine, Mrs. W.R. Bradshaw, Mrs. J.W. Cannon, Mrs. Bob Copeland, Mrs. Doyle Moore, Mrs. Dallas Ramsey, Mrs. W. A. Rucker, Mrs. Jimmy Seay, Mrs. Lane Decker, Mrs.

Sammy Hale, Mrs. Bill Hendrix, Mrs. Doris McLain, Mrs. Jake Webb, Mrs. Cleo Whittle and Mrs. L.G. Wilson.

## 1934 Study Club Holds First Meeting

1934 Study Club held their first meeting of the year Tuesday, Sept. 2 with a barbeque supper at Rogers Restaurant.

Prayer was led by Emma Louise Johnston. Mrs. Helen Duniap presented the new yearbooks. Two new members, Mrs. Wayne Russell and Mrs. Clyde

Hodges, were the club members. Mrs. Maud Allen, Mrs. Bond, W. H. Campbell, G. Dunlap, John Hoffman, J.F. Moore and J.P. Moore.

of horseshoes for luck, a gift of Mrs. Richard Holzshu of Collingswood, New Jersey.

For something borrowed the bride wore a cameo necklace that belonged to the mother of the groom, a gift from her husband on her wedding day. For something blue the bride wore the traditional garter.

The wedding reception was held in the garden room of St. John's Methodist Church in Lubbock. Presiding at the guest register was Miss Mary Hillier of San Angelo, Texas. The house party also included Mrs. Gary Mims of Lubbock and Mrs. Albert Somdevilla.

Mrs. Lumpkin graduated from Loydada High School in 1965 and received a Bachelor of Music degree in applied organ from Texas Tech University in January. She is currently enrolled at Tech's graduate school studying music and psychology in preparation for work in music therapy. She is on the Dean's Honor List at Tech, a member of Mu Phi

Epsilon, honorary music sorority, and the American Guild of Organists.

Lumpkin graduated from Richardson High School in 1963 and from Baylor University in 1967 with a major in psychology and English. At Baylor he was a member of the Dean's Distinguished Honor List; Circle K, social service club; Psi Chi, honorary psychology fraternity; and was president of English Fraternity. He is now completing requirements for a doctoral degree at Tech in clinical psychology. He is employed by Tech as a research assistant. Lumpkin will begin internship at Texas Research Institute of Mental Sciences in Houston next June.

For travel the bride wore a white crepe-tucked tunic blouse, black flared skirt, and black accessories. After a brief wedding trip the couple will be at home at 2806 22nd St. in Lubbock.

## Carrie Thayer, Richard Bertrand United In Double Ring Ceremony

Miss Carrie Aurilla Thayer, daughter of Mrs. Ralph Thayer, became the bride of Richard Roy Bertrand in a double ring ceremony read at 2 p.m. Sat. in First United Methodist Church. The bridegroom is the son of Mr. and Mrs. O.N. Bertrand. Both families reside in Floydada.

Dr. Charles E. Lutrick of Amarillo performed the ceremony at the altar surrounded by seven - branched candelabras elevated to form a large archway of light. Brass containers holding large palms of comnodore foliage decorated the pulpit and lectern stands. Brass containers on each side of the communion table held arrangements of yellow and gold gladiolus and pom poms to complete the altar decorations. The bridal aisle pews were marked with large satin moss green bows and emerald foliage.

Mrs. Wendell Tooley sang "More" and "The Lord's Prayer" accompanied by the organ by Mrs. Rodney Bunch of Lubbock.

The bride entered on the right arm of her uncle, Albert L. Duncan, wearing an empire - styled gown of slipper satin. The sabrina neckline and petal point sleeves were outlined with aleoncon lace and seed pearls. The train was accented to a lace - on - pearl head piece.

Her bouquet was a cascade of white butterfly rosebuds and stephanotis. Centered atop a white ivory fan, and worked into the bouquet, was a corsage of white roses and stephanotis that was later removed and worn as her "going - away" corsage.

As the bride entered the church, she removed a long white rose from her bouquet and presented it to her new mother-in-law. As she left, she again removed a long white rose and presented it to her mother.

For something old, the bride carried the white ivory fan which belonged to her grandmother, Mrs. C. K. Bryan. Something new was her wedding gown. Something borrowed was a string of pearls from her great-grandmother, Mrs. Frances Wise. Her something blue was the traditional blue garter made by her aunt, Mrs. Lucille Duncan. She wore a six - pence in her shoe, given by her cousins, Mr. and Mrs. C. O. Woody.

Miss Kay Snead served as maid of honor. Bridesmaids were: Miss Debbie Jones, Miss Wendy Bertrand, sister of the groom, Miss Rita Taylor of Lubbock, and Mrs. Fred Thayer of Fort Worth, sister-in-

law of the bride. Each was attired in a formal - length gown of moss green Sakia fashioned with a wateau neckline, bell tiered sleeves and a sculptured yoke. The A-line skirts had a palanise effect with a bow and streamers in the back. Their headpieces were looped braid and butterfly illusion veils in matching colors. They carried basket arrangements of gold colored daisy pom poms trimmed in moss green ribbons.

Flower girls were Miss Carrie Sue Woody, cousin of the bride, and Miss Nesa Jackson. They wore formal length gowns similar to those of the bridesmaids, and carried arm baskets of white lace which held gold pom poms.

Ring bearers were Duncan Woody, cousin of the bride, and Jeff Bertrand, brother of the groom.

Candlelighters were Miss Penny Bertrand and Miss Becky Bertrand, sisters of the groom. They wore matching dresses and arm corsages of gold pom poms and moss green

trim. Kerry Bearden was best man. Groomsman were Waldo West, Fred Thayer, brother of the bride of Fort Worth, C. O. Woody, cousin of the bride, and Glen Bertrand, brother of the groom.

Seating guests were Johnny Cantrell, Butch Gilliland, both of Lubbock, and Randy Bertrand, cousin of the groom.

Following the ceremony a reception was held in Fellowship Hall. Guests were registered by Mrs. C. O. Woody, cousin of the bride, and served by Miss Patty Sue, Lockney, and Mrs. Glen Bertrand, sister-in-law of the groom. Decorations on the wedding cake were wedding bells belonging to Mrs. Larry Adams, sister of the bride of Dallas, and a small pair of hands which the groom's grandmother used on her wedding cake 55 years ago.

The newlyweds left in a shower of rice on a honeymoon trip to New Mexico. They plan to make their home at 409 S.E. Second Street in Lockney. Bertrand is employed with Bob's Auto Clinic in Lockney.

MRS. RICHARD ROY BERTRAND

## Local Women Attend WMU Houseparty At Waco

Six local women attended the Woman's Missionary Union Houseparty of the Baptist General Convention of Texas, which met at Baylor University in Waco Aug. 26-29. Women from the Caprock Association joined forces with the Staked Plains Association, along with women from the entire state, totaling 2500.

Theme of the WMU House Party was "Praise The Lord." Program personalities included Mrs. A. A. Cummins Jr., missionary to Kenya; David Fite, former missionary to Cuba; Ralph Neighbor, associate in the BGCT Department of Evangelism; and Billy B. Tisdale, missionary to the Philippines.

Learning opportunities began August 26 with a Mission Action Fair, featuring simultaneous presentations of tutoring, literacy, work with internationals, week-day programs, youth, and work on the Rio Grande River. Other study opportunities included problem-solving clinics, question and answer periods, and group techniques.

An inspiration time with missionaries was held each morning; state, home and foreign missions were emphasized each evening.

Music directors for the houseparty were Ron and Pat Owens.

Members of the Caprock Association who attended the three day meeting were Mrs. L. T. Wood, South Plains; Mrs. P.D. Helms, Mrs. C. O. Parsons, Mrs. O. G. Mayfield, Mrs. Mable Epperson, Mrs. T. R. Corley, all of Floydada; Mrs. John C. Kerr, Mrs. H. Cox, Mrs. Widney Johnson, Mrs. Vic Henry, and Mrs. E. Goode, all of Plainview; Mrs. Cathaline Turner, Hale Center; Mrs. Evelyn Godwin, Tullia; Mrs. Maurine

Allison, and Mrs. Mae Allison, both of Happy; Mrs. Carl Hogue, Vigo Park, Plainview; Mrs. Bertha Bullock, Plainview; Mrs. Mildred Anderson and Mrs. Visea Kitterell, Hart; Mrs. J. D. Black and Mrs. Betty Burnett, Cotton Center; and Mrs. Leo Day, Spur.

## Mrs. Baker Is Honored With Bridal Shower

Mrs. Billy Joe Baker Jr., the former Carla Nelson, was honored with a bridal shower Thursday night of last week in the home of Mrs. Edna Patton.

The bride's chosen colors of teal and white dominated the table arrangement.

Hostesses for the occasion were Mesmes Winfred Payne, Ray Ogden, Levis Gilliland, Jimmy Vickers, Foster Amburn, Wayne Bennett, Charlie Cross, Ronnie Birchfield, Tommy Rowan, J.D. Woody, Vida Womack, A. C. Pratt, Francis Gunter, Jim Owens, J.B. Grundy, Clarence Foster, Hozea Phillips, Evelyn Pierce, A.C. Carthel, Albert Duncan, J. C. Odum, A. L. Sparks, Jack Yearly, Lloyd Allen, Edna Patton and Mary Lee Swain and Delzie Bradford.

Their gift was a blender and ironing board and cover.

Mrs. H.O. Pope was transferred by a Moore-Rose ambulance this week to Rays Convalescent Home in Lubbock for further treatment of a broken leg.

Her address is 4710, Slide Road.

## Norman-Hopper Vows Exchanged August 22 In Spearman Church

Norman Pearson, daughter of Mrs. A. S. Meigs, and Mrs. B. B. Shoenke, both of Spearman, exchanged vows at 8 p.m. in the First Baptist Spearman.

Norman Hopper, daughter of Mrs. A. S. Meigs, and Mrs. B. B. Shoenke, both of Spearman, exchanged vows at 8 p.m. in the First Baptist Spearman.

of silk organza over bridal taffeta, designed with a closely fitted neckline of scalloped lace, Victorian bodice of re-embroidered lace, bishop sleeves of tucked organza caught at the wrists with deep cuffs, and softly gathered skirt of graduated tucks. An organza sash encircled the waistline and was accented at center front by a bow applied in lace. A chapel length train cascaded to fullness from the back bodice. She wore a strand of pearls, a gift from the bridegroom.

Her tiered bouffant veil of English illusion fell from a Dior bow of silk organza applied in lace and re-embroidered with seed pearls. She carried a bouquet of phalaenopsis orchids and stephanotis.

Mrs. Jack F. Reed, Spearman, was matron of honor for her sister, and other attendants were Mrs. Terry Tillery, Amarillo, and Miss Donna Seymour, Lubbock. They wore floor length gowns of yellow satin with full sleeves of organza. Each carried a white milk glass votive candle arranged with white pompoms and yellow roses and moss green velvet streamers.

Miss Stacey Megert, Amarillo was flower girl. Lighting candles were Stephen Pearson Smith, Miami; Ira Glen Reed, and Misses Lynda and DeAnn Reed, all of Spearman.

Norman Hopper, Ames, Iowa, brother of the bridegroom, was best man. Other attendants were Ira M. Pearson, Borger, brother of the bride; Dale Leinen, Lubbock; Larry Moore and Jearl Thorpe, both of Petersburg.

For her daughter's wedding, Mrs. Megert wore an orange lace dress with matching accessories. Mrs. Hopper, mother of the bridegroom wore a blue silk sheath dress with matching accessories. Both wore corsages of green cymbidium orchids.

At the reception in the fellowship hall of the church, Mrs. Norman Hopper, Ames, Iowa, registered guests. Mrs. Doyle Smith, Miami, sister of the bride, and Mrs. Don McCammond, Morse, assisted with the serving of the wedding cake and punch.

The bride is a graduate of Spearman High School and attended Texas Tech two years. She will be attending Wayland College in Plainview. The groom graduated in the spring with a B.S. degree in Agronomy. Following a trip to Denver, Colo. the couple will be at home at 600 W. 11th in Plainview where the groom plans to be farming.

Mr. and Mrs. R. N. Hopper, the groom's parents, hosted a rehearsal dinner in Borger Thursday evening.

## Preparations Begun For County Fair Flower Show

Officials of the Floyd County Fair Flower Show have begun preparations for the three-day event by extending an open invitation to area individuals and Garden Club members to enter exhibits. The show is slated Sept. 18-20 in the main building on the Fair grounds.

Serving as chairmen are members of the Lockney Garden Club with Mrs. Austin Meriwether as superintendent. Assistants are Mrs. Gene Collins Jr., Mrs. Loyd Wofford, Mrs. Kelson Shaw, and Mrs. J.P. Moss. Show clerks are to be Mrs. Ewald Quebe and Mrs. Raymond Rucker for the artistic division and Mrs. Wofford and Mrs. W.J. Mangold for horticulture division.

This is an amateur show with men, women, and children urged to participate. Each person is limited to one entry in each class and all flower containers must be provided by exhibitor. Officials request that horticulture specimens should be clean and free from insects and residue. It is recommended that all cut material be conditioned in deep water in a cool place away from drafts for at least three hours and to have extra material conditioned and available for replacement if necessary.

Entries will be accepted prior to 11 a.m. on opening day of the show. Late entries will be accepted for display only and will not be judged.

Division A of the show is

lowship hall of the church, Mrs. Norman Hopper, Ames, Iowa, registered guests. Mrs. Doyle Smith, Miami, sister of the bride, and Mrs. Don McCammond, Morse, assisted with the serving of the wedding cake and punch.

The bride is a graduate of Spearman High School and attended Texas Tech two years. She will be attending Wayland College in Plainview. The groom graduated in the spring with a B.S. degree in Agronomy. Following a trip to Denver, Colo. the couple will be at home at 600 W. 11th in Plainview where the groom plans to be farming.

Mr. and Mrs. R. N. Hopper, the groom's parents, hosted a rehearsal dinner in Borger Thursday evening.

horticulture including dahlias, roses, cannas, petuni mariold, dianthus, zinnias, gladiolus, fall iris, lilies, other annuals, perennials, potted plants, blooming vines, flowering shrubs, berryed shrubs, chrysanthemums, daylilies, and ornamental grasses. Included in division B are arrangements and division C is for junior entries, including creative animals made of fruits and vegetables, arrangement in toy, and arrangements depicting fairy tale or nursery rhyme.

## Becky Copelin Runner Up In Queen Contest

Miss Becky Copelin, daughter of Mr. and Mrs. Bob Copelin of Floydada, was named runner-up among queen contestants of the Angus Field Day held near Stinnett recently. Another Floyd County miss, Becky Sheele, was named Queen. She is the daughter of Mr. and Mrs. Albert Sheele of Providence, who is Miss Floyd County Farm Bureau.

The event is sponsored annually by the West Texas Angus Association and High Plains Junior Angus Association.

Randy Beedy of Stinnett won the junior judging trophy with an excellent score of 245 points out of a possible 250. He is the son of Mr. and Mrs. Charles Beedy and the grandson of Mr. and Mrs. Earl Cooper of Lockney, former Floydada residents.

## RECEPTION SUNDAY TO HONOR MR. & MRS. J. C. WESTER

Friends are reminded of the Golden Wedding Anniversary honoring Mr. and Mrs. J.C. Wester Sunday, Sept. 7. The reception will be held at the First Christian Church between the hours of 3 to 5 p.m. The family requests no gifts please.

## Questions And Answers About Mackenzie Water Authority

Propositions will be on the ballot? The first ballot will have two questions: (1) to authorize the Authority to issue \$4,615,000 in General Obligation Bonds, and (2) to authorize the Authority to increase the Maintenance Tax of not to exceed 10¢ per \$100 of assessed value.

The second and third ballot will have one proposition to authorize the Authority to enter into a water purchase contract with the City in which the City will guarantee that it will provide a minimum amount of water annually at a given rate. The water transmission facilities are constructed when request and water is available.

The fourth ballot will have two questions: the first is to request that the Authority have two ballots for the water contract questions and the second is a recent decision of the United States Supreme Court.

What happens if a city fails to carry any of the three or more of the general obligation bonds, the maintenance, and the water purchase contract?

The Mackenzie Project becomes a reality? The Mackenzie Project becomes a reality when the Authority has the engineering firm representing the Authority to do the work to impound and distribute water. It is more economical to impound and distribute water than to pay the cost of purchasing water for several miles from the east, even when done so on a long-term basis.

The Authority's engineering firm, Nichols and Endress, has done a great deal of work in the Texas Water Plan for the Texas Water Development Board.

What is the status of the Authority's water rights with the Texas Commission on Water Rights? The Authority's water rights permit will expire on October 1, 1970. The Authority will apply for an extension of time which it is hopeful will result in a favorable action if the elections carry.

Would a resident of a city vote for the Project if it would not need water for several years? The Mackenzie Project is a long-range project. The Authority's four cities are from two underground aquifers: the Ogallala and Santa Rosa formations. The Ogallala is the more commonly known formation being widely depleted. The Authority's engineers are studying the need for additional and supplemental water near the future. Little information is available on the availability of water in the Santa Rosa formation, but the City of Tulia has a producing well in the formation which obtains water of suitable quality. Test results from other cities in the Authority in this formation show that the water supplies of suitable quality or quantity. The likelihood of water impounded in the reservoir becoming salty, mineralized or undrinkable?

## Letter To The Editor

UNITED STATES SENATE  
Committee on  
Labor and Public Welfare  
Washington, D.C. 20510  
August 15, 1969

Dear Mr. Tooley:  
Congratulations to you on receiving a Distinguished Service Award at the Annual Association Awards Breakfast of the Vocational Agricultural Teachers of Texas on Wednesday, August 6, 1969, in Austin.

It was a pleasure and honor to be among those honored at this fine occasion.

Education is becoming more difficult in this constantly changing society. Agriculture is the backbone of American prosperity and growth, and it is at the disposal of young initiative. Those who work in the training of young men and women in the making of our Country have met a challenge which is most admirable, and I congratulate you on the well deserved award you received at the Breakfast. I regret that I had to leave early and missed seeing you presented with this distinguished award but it was imperative that I return to Washington for the crucial debate and vote on the ABM.

Best wishes for your continued good work, and with warm personal regards,

Sincerely yours,  
/s/ Ralph W. Yarborough  
Ralph W. Yarborough

The massive High Plains Diapause Boll Weevil Control Program, this year involving 13 spray planes, 150,000 acres of cotton and over 100 people, began aerial applications of insecticide Tuesday.

The program, now in its sixth year, is an annual fight to keep weevils from infesting vast acreages of weevil-free cotton on the Plains above the Caprock until such time as eradication techniques can be perfected.

Spraying in 1969 will cover weevil infested cotton in parts of 12 counties stretching 200 miles along the eastern edge of the High Plains. Counties in the "control zone" include Briscoe, Borden, Crosby, Dickens, Dawson, Floyd, Garza, Hall, Kent, Lynn, Lubbock and Motley counties.

Following the pattern proven successful for the past four years, spraying in the first three applications will be on a five to seven day schedule, using 12 ounces per acre of ultra low volume malathion. These applications are designed to break the weevil's reproductive cycle.

**Business Sense**  
Mother-Well, Eddie, did you let little sister choose which one of the two apples she wanted?  
Eddie-Yes, Mamma. I told her she could choose between the small apple or none at all, and she chose the small one.

**Returned the Compliment**  
School Teacher (just before vacation)-Now children, I hope you will have a pleasant summer, and what is more important, come back with a little more sense in your heads.  
Children (in chorus)-Same to you, Miss.

The Authority's engineers have stated that "water from the Mackenzie reservoir would be of good chemical quality". There are no outcroppings of salt, gypsum or other objectionable mineral strata on the watershed or in the reservoir area.

15. Will any of this water be used for irrigation?  
No, a sufficient quantity of water will not be available. The statute creating the Authority limits water usage to municipal, industrial and mining purposes.

16. Will there be recreational activities at the reservoir and, if so, who gets the funds accruing from these activities?  
The Board of Directors intends to develop recreation at the lake, and any revenues received will go into a special fund for the development of recreational facilities as, by law, no tax money be used for this purpose.

## Annual Field Day At High Plains Research Foundation September 11

Hundreds of West Texas area farmers are expected to be on hand September 11 for the 13th Annual Field Day at the High Plains Research Foundation.

With the addition of agricultural chemicals and seed distributor exhibits to the regular features, the Field Day is expected to be one of the most successful since the Foundation began in 1956.

The chemicals and seed displays will be exhibited in a tent on the lawn south of the Moody Building near area where field tours will begin.

The chemical and seed displays will become a part of the farm machinery exhibits which has proven to be one of the most successful features of Field Day activities. It is estimated that the farm machinery exhibits will number some 50 to 60 different exhibitors. Noting its popularity, Dr. Tom Longnecker, Foundation director, said the farm machinery exhibit grows every year.

The evening program will begin at 5 p.m. Guest speaker will be Congressman Bob Price, U. S. Representative, 18th Congressional District.

Door prizes will be given away during the program.

A highlight of the program will be drawing for a free Hawaiian Vacation for two, and \$500 in expense money.

Area residents are invited to attend the activities and view the latest research underway at the Foundation. Special areas of research includes new programs in minimum tillage, castor volunteer control and swine feeding economics study.

Field Day activities begin with research plot field tours at 1:30 p.m. These tours will continue until 4:30 p.m. Foundation facilities will be open for inspection during the afternoon.

## Questions About Money

- Test yourself . . .
1. If you saw a penny lying on the street, would you pick it up? Yes No
  2. If someone gave you a \$20 bill, and it later turned out to be counterfeit, would you: turn it in? spend it?
  3. Do you think quite a lot of people, or very few, cheat on their income tax? a lot a few
  4. If you were working at a job where you knew that one of your co-workers whom you liked was taking small sums of money from your employer, would you: say nothing about it? tell the person to stop? tell your employer tell the police?
  5. Do you feel you are paid what you're worth, or less, or more? paid right paid less paid more
  6. Do you live about as comfortably as your parents did when they were your age, or less comfortably, or more? same less more
  7. Do you expect to get a raise every year or two? yes no
  8. What is the highest yearly salary that anyone should be allowed to get in this country?
  9. If you were working for a company that was having a difficult time financially, and everyone was asked to take a 10 percent pay cut, would you take the cut or quit? take cut quit
  10. If you had to choose between these two kinds of jobs, which would you pick: one that was satisfying and paid a modest income? one that didn't like but that paid a high income?
  11. If someone gave you \$2,500 tax-free and said you could triple it at the toss of a coin or lose it all, would you take the chance? yes no
  12. If your whole income suddenly stopped, could you live for six months just the way you are living now if you used your savings, investments and ready cash? yes no
  13. If you had to choose between supporting your elderly parents in a rest home and sending your children to college, which would you choose? parents in rest home? children to college?
  14. Would you like to be wealthy? yes no
  15. Do you ever expect to be wealthy? yes no
- How people coast-to-coast answered the (same) questions:
1. Only 9% wouldn't pick up the cent; 2% couldn't decide, 26% would turn in the counterfeit bill - or say they would, 31% would spend it.
  2. More men than women - 61% to 45% - suspect there is a lot of tax cheating.
  3. While no one at all would report the company thief to the cops, only 13% would keep mum: 15% of us would tattle to the boss, and 67% would scold the thief.
  4. Almost half of us feel underpaid; 3% feel overpaid.
  5. Three fourths feel they live better than Dad did.
  6. And three fourths expect that raise.
  7. 73% insisted there be no limit on pay, but 4% felt \$20,000 should be tops.
  8. Fewer of the rich (16%) would quit than would people in general (21%).
  9. Only 15% would take the nasty, high-paying job.
  10. Just one quarter of us would try to triple the \$2,500, but 42% of the wealthy would.
  11. 46% of us could last six months on savings, etc.; 66% of the poorest group couldn't.
  12. A majority (and more women than men) would send the kids to college instead of the old folks to a home.
  13. 56% would like to be wealthy.
  14. But just 12% actually expect to be, and another 1% announced they already are.
- Max Gunther, in Saturday Evening Post

### Greater Fencer POWER than ever before!

Super 98 . . . Works even under bad conditions

The electric fencing power from the Super 98 has been used to charge electric fences where the fence wire is stapled directly to wood posts which are free of metallic shorts.

That shows the power you'll have using the regular steel posts and plastic insulators we recommend.

Also, Super 98 is lightning proof. For better electric fencing, try a Super 98 and see extra power at work under adverse conditions.

FAIRVIEW NEWS by Mrs. Clyde Bagwell

FAIRVIEW, Sept. 1 - We have had very little sunshine since the good rains of the past weeks and that has helped the moisture to soak in the ground. Several farmers have taken advantage of the land being too wet to work and have taken off on vacation trips. Mr. and Mrs. Harvey Allen, Mike and Norman visited Monday with Mr. and Mrs. Walton Wilson. Mr. and Mrs. Carl Nelson and Mrs. Ruy Irwin went to Amarillo Wednesday night to visit Mrs. Irwin's daughter-in-law and children before they went back to their home at Washington, D.C. Mrs. George Burgett and children have been visiting for several days in Amarillo with her parents, Mr. and Mrs. Milton Carmack. Hershell Irwin and son of Oklahoma City visited for a short time Monday morning with Mr. and Mrs. Ruy Irwin. Mr. and Mrs. Ray Cook and Mr. and Mrs. Don Rainer went to White River Lake Sunday afternoon for an outing. They enjoyed having the evening meal at the lake restaurant. Mr. and Mrs. Ruy Irwin visited Tuesday afternoon in the home of Mr. and Mrs. Marion Burns. Mrs. Kate Crabtree and J.C. Bullard went to Portales, N.M. Sunday afternoon to visit over Labor Day with their brother and sister-in-law, Mr. and Mrs. Preston Bullard. Mrs. Beulah Jernigan spent Sunday and Monday in Lubbock with her son and family, Mr. and Mrs. Jack Jernigan and family. Mr. and Mrs. E. W. Walls spent a week at Lake Texoma fishing. They were joined there by their son and family, Mr. and Mrs. Dean Walls, Roy and Eileen of Ft. Worth for the Labor Day weekend. It was nice talking by phone with our niece, Mrs. Bill Pierce and children, who called Saturday afternoon from their home in Everett, Washington. Saturday Mrs. Don Winters and children, Mike, Ann, Jimmy and Nancy of Floydada spent the day in the home of Mr. and Mrs. Ray Cook.

Mrs. Ray Cook. Mr. and Mrs. Walton Wilson came by Berger on their way home from Fort Collins, Colo. Sunday afternoon and stopped for a visit with her brother, Mr. and Mrs. Hub Austin. Mr. and Mrs. Harvey Allen, Mike and Norman visited Monday with Mr. and Mrs. Walton Wilson. Mr. and Mrs. Carl Nelson and Mrs. Ruy Irwin went to Amarillo Wednesday night to visit Mrs. Irwin's daughter-in-law and children before they went back to their home at Washington, D.C. Small Crowd Attends Air Show

AROUND 350 PERSONS attended the Floydada Air Show here Labor Day. Although the stunt plane did not arrive, plenty of sky divers and new planes for sale were featured. Top picture shows some of crowd, next picture is Sammy Hale, Tom Snead and Fred Cardinal cooking "fly-in breakfast," next picture shows sky divers coming down and Confederate Sky diver Horace Bennett preparing chute for his 25th dive. He used his emergency chute on number 139, bottom photo shows safe landing. (Staff Photo)

OBITUARIES

R. C. Ross

Funeral rites for R.C. (Reubin Creed) Ross, 74 year old longtime Floyd County resident, were held Saturday in the Calvary Baptist Church. Ross was dead on arrival at Lockney General Hospital early Thursday morning. He had been ill for about a week. Ross was a native Tarrant County and married Josie Guffee in Wise County in 1915. The couple moved to Floyd County in 1927 where they had farming interests until his retirement some eight years ago. He was a member of the Calvary Baptist Church. Survivors include his wife; one son, Melvin of Gruver; two daughters, Mrs. Buck Ragsdale of Goodland and Mrs. Larry Robinson of Denver, Colorado; two brothers, Robert J. of Tusculum, Ala., and Loyd of Bridgeport; three sisters, Mrs. B. R. Parrish of Eastland, Mrs. S.A. Pitts, of Oklahoma City and Mrs. Sadie Johnson of Denton; nine grandchildren and one great grandchild. Rev. Hollis Payne, pastor of the church, and Rev. R.C. Hodges of Plainview, officiated for the rites. Interment was in Floyd County Memorial Park under the direction of Moore-Rose Funeral Home. Pallbearers were Kinder Farris, L.B. Cozby, Jimmy Dunn of Lubbock, James Lovell, J. W. Cannon and Marion Burns. Honorary pallbearers included C.M. Meredith, Harry Morckel, Elbert Parks, Leo Frizzell, Clarence Foster, Wylie Rogers, W.A. Lovell, Dennis Weiborn and J.B. Grundy.

Mrs. Calliham

Funeral rites were held Friday in Victoria, Tex., for Mrs. Glynn Atkinson Calliham, who died Wednesday of last week in Caprock Hospital. Mrs. Calliham was visiting in the home of a sister, Mrs. W.C. Sims, when she suffered a heart attack last Sunday night. She and another sister, Miss Etta Henry, also of Victoria, had been guests of Mrs. Sims for several days, and were planning to return to their home the following Monday morning. Mrs. Calliham was born Nov. 26, 1888 in Louisiana and had been in the variety store business all of her adult life until retirement. Mrs. Clarence Boone, Re-fugio; Mrs. Laverl Amon of Victoria and one son J.D. Calliham of Victoria; three sisters, Mrs. John Herrrell of Arcadia, La., Miss Henry of Victoria and Mrs. Sims of Floydada; one brother, Billy W.R. Henry of Athens, La. and several grandchildren, nieces and nephews. Burial was under direction of McCabe - Carruth Funeral Home.

N. O. Weathers

Funeral services for Nuborn Oren (Bill) Weathers, 67 year old Floyd County retired farmer, were held last Monday in the Lockney First Baptist Church. Weathers died the previous Saturday morning in Lockney General Hospital after a brief illness. He had been a resident of the Lockney Nursing Home for two years and had resided in Floyd County for 64 years. Weathers was born Nov. 28, 1901 in Celeste. He was a veteran of World War II and a member of the American Legion and Alken Baptist Church. Survivors include one brother, J.H. Weathers of Lockney, and two sisters, Mrs. Ed Whitfield of Lockney and Mrs. Ethyl Floyd of Brownfield. Rev. Carl Coffey, pastor of the Alken Baptist Church, officiated. Interment was in Lockney Cemetery with nephews and great nephews as pallbearers.

Tiodore Garza

Funeral rites for Tiodore Garza, 62 year old Floydada resident, were held Saturday morning in the First Baptist Church in Floydada. Rev. Raymond Asebedo, Floydada, brother-in-law of the deceased, officiated. Burial was in Floydada Cemetery. Garza died about midnight Thursday in Caprock Hospital. He had been ill for some four months. He was born Nov. 9, 1907 and married Tinny Asebedo, No. 2, 1934 in San Saba. The family moved to Floydada from Richland Springs in 1954. Garza was a member of the Baptist Mission Church. Survivors include his wife; one son, Jimmy of Floydada; four daughters, Mrs. Mike Guzman of Floydada, Mrs. Isah Jiminez, Ontario, Calif., Mrs. Santos of Lubbock and Mary Garza of the home; one brother, Pete Garza of Cherokee, Texas and 16 grandchildren.

Mrs. Walden

Funeral rites for Mrs. Agnes Walden, 66 year old former Floydada resident, were held Saturday in Wallace Funeral Home in Tulia. Mrs. Walden died Friday in Swisher Memorial Hospital. She had been ill a lengthy time. Born Oct. 1, 1902, in Arkansas she was married to A.J. Walden June 20, 1920 in Tulelo, Okla. The couple moved

Douglas Graves

Funeral rites for Douglas P. Graves, brother of Mrs. Tate Jones and Mrs. L.P. McCray of Floydada, were held Friday in the Gerald Baptist Church. Graves died Wednesday of last week in Annona after a brief illness. He was born Nov. 21, 1893 in Ranger and married Omz

Douley, March 23, 1942. He had been a member of the Gerald Baptist Church since 1942. He retired service employee of the Federal Government. He had resided in Annona, Tex. and was a member of the American Legion and the I.O.O.F. Survivors include one daughter, Mrs. J. R. Terry, and one son, J.D. Terry, both of Annona, Tex. Burial was in the Gerald Baptist Church cemetery. Mrs. J.R. Terry, widow of J.R. Terry, died in Lockney General Hospital, where she had been for several days, and was planning to return to their home the following Monday morning. Mrs. Calliham was born Nov. 26, 1888 in Louisiana and had been in the variety store business all of her adult life until retirement. Mrs. Clarence Boone, Re-fugio; Mrs. Laverl Amon of Victoria and one son J.D. Calliham of Victoria; three sisters, Mrs. John Herrrell of Arcadia, La., Miss Henry of Victoria and Mrs. Sims of Floydada; one brother, Billy W.R. Henry of Athens, La. and several grandchildren, nieces and nephews. Burial was under direction of McCabe - Carruth Funeral Home.

Mrs. J.R. Terry, widow of J.R. Terry, died in Lockney General Hospital, where she had been for several days, and was planning to return to their home the following Monday morning. Mrs. Calliham was born Nov. 26, 1888 in Louisiana and had been in the variety store business all of her adult life until retirement. Mrs. Clarence Boone, Re-fugio; Mrs. Laverl Amon of Victoria and one son J.D. Calliham of Victoria; three sisters, Mrs. John Herrrell of Arcadia, La., Miss Henry of Victoria and Mrs. Sims of Floydada; one brother, Billy W.R. Henry of Athens, La. and several grandchildren, nieces and nephews. Burial was under direction of McCabe - Carruth Funeral Home.

Sgt. Dixon Kinard, Floydada resident, died in the hospital August 21 according to word from the U.S. War Department. The family was notified of the death last Thursday. Sgt. Kinard joined the service in 1955. Survivors other than his mother, Mrs. L. R. Kinard, his wife, Mrs. L. R. Kinard, his children, Mrs. L. R. Kinard, his two brothers, Dallas and Houston, and his sister, Mrs. Joe Kinard, Mrs. Ray Green of Missouri, and Mrs. Kinard of Vernon. Funeral services being at press time.

NEWS FOR HOMEMAKERS

by Sherry Mullin, Floyd County H. D. Agent

Confused over which detergent to buy? Today's consumer needs to be a mathematician, tester and color expert. But Mrs. Doris Moyers, Extension home management specialist at Texas A&M University, has a simple solution: buy the cheapest detergent possible. Carefully and consistently measure it when washing. Use the smallest amount possible which gets good results. Another brand may use less detergent for the same results. If laundry has a gray cast, the consumer may be using too little detergent. The amount to use depends upon: the degree of soil, water hardness, wash temperature and load size. If clothes have a soapy residue after rinsing, using less detergent may solve the problem. Directions on detergent packages are based on the minimum amount for a normal size load, average soiling and average water hardness. If water is very soft, it may take less than the package recommended. The reverse would be true if water is very hard, says Mrs. Moyers. Price per ounce is not the entire story to a good buy since detergent is used by the cup, and some brands weigh more a cup than others. High sudsing detergents weigh anywhere from 2 1/2 to 3 1/2 ounces per cup and low sudsing ones weigh 4 1/2 to 5 1/2 ounces per cup. The matter is even more complicated since it takes more of some detergents than others to do an effective job in cleaning. The specialist explains if one brand costs four cents a cup and it requires a cup and a half, it will cost you just as much as another brand that sells for eight cents a cup but only requires three-fourths of a cup.

LEGAL NOTICES

REPORT OF NAMES AND ADDRESSES OF MISSING DEPOSITORS, AND THE ADVERTISING THEREOF, AS REQUIRED BY ARTICLE 3272b, TITLE 53, REVISED CIVIL STATUTES OF TEXAS TO: JESSE JAMES, State Treasurer STATE OF TEXAS Drawer X, Capitol Station Austin 11, Texas Notice of the Names of Persons Appearing as the owners of Unclaimed Amounts Held By: The First National Bank Floydada, Texas This notice is given and published pursuant to Section 3, Article 3272b, Revised Civil Statutes of the State of Texas, in an effort to locate persons who are the depositors or owners of amounts in accounts that have remained inactive or dormant according to the provisions of Article 3272b for more than seven (7) years. The unclaimed amounts due the depositors or owners listed herein will be paid upon proof of ownership at the office of the named depository within nine (9) months, and if unclaimed thereafter they may be subject to report to and conservation by the State Treasurer in accordance with said Article 3272b. Names of Missing Depositors Last Known Address City and State 1. Cantrell, Mr. or Mrs. A.B. Jr. Floydada, Texas 2. Jones, Dean None 3. McCarty, Mary Adm. None AFFIDAVIT OF DEPOSITORY OFFICER THE STATE OF TEXAS, COUNTY OF Floyd Before me, the undersigned authority, on this day personally appeared Neida Thayer who, after being by me duly sworn, deposes, says, and certifies as true the following: 1. That she is operations officer of The First National Bank of Floydada, Texas, the Depository named in the above Notice. 2. That the foregoing is a full and complete list of the names of all depositors and creditors for whom dormant deposits or inactive accounts have been held for more than seven (7) years and whose existence and whereabouts are unknown to the Depository. 3. That such listed depositors and creditors have not asserted any claim or exercised any act of ownership with respect to their deposits or accounts during the past seven (7) years. Sworn to and subscribed before me this the 22 day of August, 1963 (SEAL) (Signature) Linda Harrison, Notary Public, Floyd County, Texas. 9-4-63

I REMEMBER... I REMEMBER... He Coined A Word

When Claude V. Hall was editor and publisher of The Hesperian Gazette he enjoyed doing such off-beat things as providing a word (for the English language) that would stand for the third person singular. He argued there should be such a word so he manufactured it, and used it quite frequently. The word he coined was "thon." It stood for male or female. Gender of the subject governed. I have forgotten how he came to decide that "thon" was appropriate. Mr. Hall supported William Jennings Bryan. It was in 1896 that he started The Hesperian Gazette, the year that Bryan electrified the Democratic National Convention with his Cross of Gold, Crown of Thorns masterpiece. Mr. Hall evidently spent a number of years, as he matured, making up his mind whether he would make the school room, newspaper work, or the practice of law, his life's work. Each of these vocations apparently had a strong appeal for him. And he was fortunate in that he could be gainfully occupied while he was making up his mind. He was teaching in the Floydada school when he decided to

try the newspaper office. His salutary in Volume 1, Number 1, of The Hesperian, indicates as much. He walked out of the school room on March 5, 1896, and entered the journalist's profession at once, issuing his first newspaper on March 27. He bought at least a part of his printing equipment from Espuels Land & Cattle Co., Dickens. After he sold his newspaper plant in 1903, he re-entered University of Texas to get a degree with history as his major. A considerable part of the year 1905 he spent polishing up his "History of Floyd County" for publication as a special edition of The Hesperian for his successors, Crie & Adair. The original of this history is stored somewhere in the university files. It was his thesis for a master's degree. Evidently it was well-researched and well edited for it was reprinted as a volume of Panhandle - Plains Historical Review in 1947. He had only minor revisions to make. After a time in the class rooms of the public schools, Mr. Hall was back at study, preparing for a degree in law. He followed this profession for a time (He was practicing in Floydada in 1912) then he returned to the school room again, this time in one of the state's colleges teaching history. And in this course of time he was head of the history department in East Texas State College at Commerce. But he did not find this work completely rewarding. He told me he found he wanted to teach government. So, when ETSC established a government department he accepted an assignment, where he remained for the remainder of his active career. In fact, for years he was head of the History Department of the school. I first knew Mr. Hall in 1901, shortly after our family moved to Floydada on December 31, 1900. I enjoyed hanging around his print shop occasionally. Incidentally he loaned me books from his home library quite freely. Homer Steen

FLOYDADA ROTARY CLUB. believe in the future of Floydada and the South Plains of Texas, therefore we urge everyone to vote his conviction in the Mackenzie Municipal Water Authority election Saturday. In a straw vote yesterday, individual members of the Floydada Rotary Club voted 46-1 in favor of the Mackenzie Municipal Water Authority. WE URGE EVERYONE TO VOTE IN THIS VERY IMPORTANT ELECTION, SATURDAY, SEPTEMBER 6.

**CAPROCK, FROM PAGE 1**

first to spend a year working in a deprived area of the city before going back into the classroom.

Years from now some person who has chosen to invest his life or her life for good, will likely be asked by someone about it and he or she will answer, "I think it was in the summer of 1969. You see, we had a youth director that....."

Well, our Suzanne and the Presbyterian's San have come our way and most of us would think they did their best work with our kids, but I've got a sneaking feeling that actually they did their best with us adults. They taught us a few new things and they reminded us of some things we already knew and had almost forgotten. And they caused us to catch a new vision of how important it is to keep caring and to keep the communication lines open between the various age groups of us all, as I recall, it seems to me that our Suzie kept saying something about the fact that it all had to do with something about love. What was it she said....as if I didn't know....and as if I or any of the rest of us could ever forget! And why the heck am I getting misty eyed as I write this column? Maybe somehow I've learned to care a little more and to be a little more loving too."

IT SEEMS THAT our people's attitudes right now are much happier than back in hot, dry July and August. Now, after good rains and with the ASCS office sending out over 12 million dollars, the community is beginning to hum..... and you hear a few people whistling and humming to themselves.

This is a good time to mention that now is the time to write Congressman George Mahon and express your opinion about the forthcoming farm program (if there is to be one). The agriculture committee is hard at work, and it is the feeling of many farmers in our community that the present farm program should continue.

No doubt in my mind, it beats no farm program. So, if you

feel that Congress should approve this program that means 14 million dollar payroll to Floyd County, why not write or telegram Congressman Mahon today?

**HOW ABOUT AN EVENING COLLEGE IN FLOYDADA?...** this is possible and it will not cost Floydada any tax money. Texas Tech now offers to send instructors to area towns to teach evening courses.

Fact is, you can complete 1/4 of your bachelor degree work in such a program. Six hours can be applied to Master work. Floydada school buildings are available for the courses. The cost to the student is \$16 per semester hour, we must have a minimum of 30 students for each class.

Doubtless many Floydada area students are driving to Tech each week....why not have those classes right here in Floydada?

Call the Floydada chamber of commerce right now and give them the courses you prefer to take and we'll start the wheels rolling for a Floydada night college.

**THINK THERE MAY BE** some confusion on water rates concerning the Mackenzie Dam. Some folk think water rates would be high just as soon as the bonds are approved. This is incorrect, the high water rates go into effect in six or seven years from now (or when our underground supply runs out) as we put in pipe to the lake and begin to receive lake water. Taxes of course must go up next year with the beginning of building the dam and water filtering plant if the project is approved.

**70,000 See Texas Musical Production**

The 1969 season for "Texas" closed Labor Day. More than 70,000 people have seen the show this year. Comparative figures in the past are: 1966 - 61,338; 1967 - 64,925; 1968 - 65,012.

In a recent survey taken here as well as in outdoor shows all over the United States, the question was asked, "Have you seen this drama before?" At "Texas" 33% of the people interviewed said, "Yes."

It has been the privilege of the members of the Agricultural committee of the U.S. House of Representatives, who were brought to the Canyon by Rep. Bob Price. They also played to the Speaker of the Texas House the Hon. Gus Mutscher, and to a group of Texas senators led by Senator Grady Hazelwood. Directors and business managers of several other outdoor shows have been in the audience and several, including the director of UNTO THESE HILLS have written warm congratulations to the cast. The first meeting of the Texas Tourist Council ever held in West Texas was set so that its members could attend the show.

The audience has included visitors from 79 different countries and the triangle which goes to the visitor who has come the greatest distance has not been given to anyone from the United States. One evening the winner came from Vietnam and as he left the theatre he was delighted to be confronted by a very small boy who stuck out his hand and said "Welcome to Texas!"

All fifty of the United States have been noted in the parking lot or in the guest book. A man from New Hampshire completed the list. He was the last person to sign the guest book

**Nursing Home Visitors**

Those visiting residents of the Floydada Nursing Home this week were: Mrs. Leighton Teeple, Plainview, and Mrs. David Reddout, Monroe, La., visited Mrs. Luttrell and Paul; Brenda Jackson and Shane, Stacy and Shelley Bearden, Floydada, visited Pearl Martin; Mrs. P. O. Orman visited C. Alexander.

Mr. and Mrs. J. B. Terry, Midland, Mrs. Lawson Stevens and Ridge Terry, both of Amarillo, and Bill Daniel, Mrs. E. P. Nelson and Mrs. W. R. Daniel, all visited Mrs. J. R. Terry.

Mr. and Mrs. D. W. Burke visited all the residents. Mr. and Mrs. S. K. Porter and Mr. and Mrs. Albert Campbell, all of Lubbock, and Jimmy Jackson, Mark Noland, Kevin Noland, Nesa Jackson, and LaDelle Noland, all visited Mrs. Wise.

Mr. and Mrs. Jack Henry visited Mr. Snell; Mr. and Mrs. Olen Harris visited Mrs. Palmer.

First United Methodist Church held services for the residents Sunday afternoon, on Saturday night. At this close of the 1969 season, the staff and the cast wish to express their thanks to everyone who has made this success possible. Without the good will of its neighbors, and the skilled help of the newspapersmen and the broadcasters in TV and radio, "Texas" could not thrive.

**Chances are Better**  
"Son, if you continue to study hard and be industrious it's within the realm of possibility that your face will some day appear on a hundred dollar bill."  
"Thanks, Dad, but I'd prefer to have my hands on one."

**Right Way to Figure It!**  
First Shopper: "That's a smart hat you're wearing. May I ask how much it cost you?"  
Second Shopper: "One hundred and twenty-five dollars. Twenty-five dollars for the hat and one hundred for the suit to match."

**MAYOR, FROM PAGE 1**

the water treating facility. The third proposition is the water contract, which will give the city councils of each of the cities involved the authority to contract with the Mackenzie Authority when water is needed for that particular city.

If the citizens of Floydada will get out and vote for this permanent water supply, we may be able to save approximately \$700,000.00 for the City of Floydada. The development and initial cost of our present resources west of town would be about \$700,000.00 and we still would not have a permanent water supply.

**WATER, FROM PAGE 1**

from the purification plant to those cities.

A similar proposal was voted down two years ago. But this time, a different approach to the taxpayers' pocketbooks promises a better chance of success, says Lon Davis, president of the authority.

The water plan will appear on the ballot as two propositions, he said. The first proposition will give the authority the power to issue \$4,615,000 in tax bonds to finance the dam, reservoir and plant.

The second proposition will be handled by each of the cities, rather than the authority. Voters will accept or turn down a water supply contract between the cities and the authority, thus allowing the authority to issue special project revenue bonds against the water supply contract.

This, Davis explained, means that initially only the dam, reservoir and plant will be built. As each of the cities individually needs the water supply, then, they will furnish funds to have a pipeline built bringing them the water.

However, if any of the cities defeats either of the propositions at the polls, the project cannot be carried out. The proposal was defeated in 1967 at Floydada and Tulia. Both Silverton and Lockney passed it at that time. The election was for over eight million dollars, which included pipelines.

Tulia and Floydada, currently are both in good shape as far as water supplies are concerned, Davis said. He emphasized, however, that when well water becomes scarce in those cities, the option of building a pipeline from the Briscoe County reservoir would assure them ample water through the year 2,000, based on population estimates.

Davis said the proposed project would bring fringe benefits to the area in the form of recreational facilities.

"There are definite plans to develop the reservoir as a recreational area," he said, "although this cannot be done with tax money. It can, however, be done with other revenue sources."

The reservoir, with a shoreline of 29 miles and an average depth of 52 feet, will be suitable when stocked for fishing and water sports, Davis said.

The water will come from runoff sources draining into the Middle Tule Creek and North Tule Creek. Currently, this water flows into the Prairie Dog Town Fork of the Red River.

Davis emphasized that this water, made potable by the processing plant, is not for irrigation use. It is limited by law to municipal, industrial or mining usage.

If the issue passes, Davis said the first thing the authority will do is petition the Texas Water Rights Commission for an extension to the water permit entitling them to the drainage water on the Tule Creek - which otherwise expires in October. He said there is no question that they will be granted the extension.

Then the authority will begin buying property for the reservoir, and ask for bids on the dam "quite soon."

Let's not look back five years from now and say, "Well, I surely wish we had voted yes on the Mackenzie Water Authority" as we now look back and view the White River watershed and the Meredith water supply.

We must have this water to sustain our population and for future growth."

## Square Dance Club Slates September 13 Dance

The Whirlers Square Dance Club will have Buddy Jones for next caller, Saturday, Sept. 13 at 8 p.m. at OK Rubber Welders or Andrews Ward Gym. Everyone enjoyed Sid Perkins calling on Aug. 22. There were 7 squares present consisting of members from Tip & Toe from Lockney; Boots & Slippers, Silverton; and spectators, which are always welcome.

The Whirlers want to welcome Ozell and Juanita Chapell to their club as new members.

The Whirlers dance every second and fourth Saturday nights, until after football season. Anyone interested in lessons may contact Jake Colston or Mrs. Elmer Dean Williams or any club member.

## Jerry Watson Assigned To Keesler Field

SAN ANTONIO—Airman Jerry L. Watson, son of Mr. and Mrs. Raymond Watson, Lockney Tex., has completed basic training at Lackland AFB, Tex. He has been assigned to Keesler AFB, Miss., for training as a personnel specialist. Airman Watson, a 1964 graduate of Lockney High School, received his B.A. degree in 1969 from Texas Technological College.

## Jerry Robinson In Conference

Jerry Robinson of Floydada on Aug. 21-22 participated in the eleventh pre-college conference ever held at North Texas State University.

Aimed at giving prospective freshmen a preview of campus life, the two-day orientation period included counseling, testing, registration, recreation and tours of the campus.

Some 215 of the 2,200 students who will enroll at NTSU as beginning freshmen in September took part in the eleventh phase of the 12-session program which began July 17 and will continue throughout the summer.

The group, which was housed in Clark Hall during the conference, represented 43 different Texas counties, Ohio, and New Jersey.

Robinson is the son of Mr. and Mrs. Ed M. Robinson, Rt. 2, Floydada.

## BARBARA GOEN VISITING IN PENNSYLVANIA

Mrs. Bud (Barbara) Goen explained from Lubbock last Saturday where she plans a weeks visit in Pennsylvania with her niece and family and with a brother and his wife, Mr. and Mrs. L.A. Kenward of Warwickshire, England.

The Kenwards arrived in New York Saturday night where they were met by their daughter, Mrs. Lloyd Woodson and family. Unknowingly to the Kenwards, until their arrival, Mrs. Goen was in the group to greet them.

The Floydada woman and her brother had not seen one another since 1955 at which time Mrs. Goen flew to England for the funeral of her mother. She plans to be with her brother and family the remainder of the week and will also visit other relatives while in the eastern part of the U.S.

Eighty-nine men received pre-induction physical examinations Tuesday. This is the local board's portion of the 11,135 quota for Texas.

IT'S A FAMILY AFFAIR... grading green bell peppers at the Floydada Vegetable Plant. These peppers were grown in the Olton area. (Staff Photo)

## Home Falls Floor Texans

Many of Texas' senior citizens are looking at the world upside down, the Texas Safety Association said today, explaining that older Texans aren't orbiting the earth, but they are tripping themselves up in falls.

A review of the first reports received in a one-year study of accidents among the aging being conducted by the Texas Safety Association for the Governor's Committee on Aging shows falls which occurred in and around home to be the leading cause of injury. More women were victims of falls than men.

Most older folks tripped over furniture, limbs or sticks in the yard, or slipped on throw rugs and highly polished floors.

To avoid falls around home the Safety Association suggests senior citizens observe the following precautions:

Store frequently used items between hip and eye level so you don't have to reach or stoop to get them.

Remove slipping hazards, such as throw rugs and low furniture from traffic areas.

Wear well-fitting shoes and clothing that does not dangle or trail.

Wipe up spills and have sturdy handrails on both sides.

Put grabbars in the bathroom near tub, shower and water closet.

## MRS. LARRY ADAMS OFFICER OF CLUB

On Tuesday, August 5, the Dallas Wives of Mortuary Students Club installed new officers during a dinner meeting held at Kirby's Steak House in Dallas, Texas.

The new officers are: president, Mrs. Darrel Brenner of Wray, Colorado; vice president, Mrs. David Fleisher of St. Petersburg, Florida; secretary, Mrs. Larry Adams of Floydada, Texas; treasurer, Mrs. Carl Doppenschmidt of New Braunfels, Texas.

## Supply Coaches, Band Directors

There's a new sur- old story of the age in Texas. Believe a short and band dir-

and mathematics the more wood boys and girls school education, still place in the annual They are, howev-

perimentents a- empty profes- are calling the tion Agency with

issue an emerg- a ..... coach, a woman phy-

sical education teacher, and someone to take over industrial arts, science, and mathematics?"

Of course, one superintendent won't have all these jobs to fill. On the other hand, any school district chief who has them all signed for is counting himself lucky.

"We haven't stopped to tally up the figures yet, but the calls are coming in fast and furiously for emergency permits in these areas or just for suggestions on filling the jobs," Waurine Walker, acting director of teacher certification at the Agency, says.

"The big rush right now is for coaches, music people, women in physical education, and

industrial arts teachers. At least, these are the surprises." Why are some teachers more scarce than others? A look at the college and university graduating classes provides some of the answers.

Last year, the Agency issued 1,081 emergency permits to science teachers not fully qualified for certification in Texas. At the same time, the 53 teacher education schools in the state graduated 322 students with the necessary semester hours to teach science from the seventh grade through senior high school.

The story in mathematics is almost a re-run every year. Of the 422 college seniors graduated with teaching degrees in mathematics, only 277 took their skills into the public school classroom. At the same time, the Agency issued 1,188 emergency permits.

Industrial arts, a major subject in only 12 of the states colleges, graduated 184 students. Of these, 107 went into teaching. Another 271 partially qualified industrial arts teachers were issued emergency permits.

The demand for special education teachers, particularly for men trained in occupational skills for the mentally retarded high school age young-

ster, is on another terrific upswing, according to Miss Walker.

"Last year Texas schools of education graduated 250 students qualified in this area, a year in which we issued 1,066 emergency permits simply because the demand was so great."

Emergency permits are expected to top the 12,000 mark by the end of October. However, this figure is not the true indicator of the number of teachers who aren't fully qualified, Miss Walker points out.

"About half the teachers who enter Texas schools on emergency permits lack only some minor qualification. Many of them completed their college work in another state and need only to pass the Texas government and American history requirements for certification. Others haven't filled the student teaching requirement before graduation, so must teach for two years before they can be certified."

"In many cases, these young teachers completed their work in August but won't receive their degrees until the next formal graduation ceremonies in January or June. Others are certified teachers but have transferred to subjects outside their usual specialties because

## CENTER NEWS

CENTER, September 1 - It is cool and cloudy today. Delightful!

Mrs. H.B. Mankins and Mr. and Mrs. Grady McCAda, formerly of Center but now of Tucumcari, N.M., arrived in this area Sunday afternoon where they are visiting relatives and friends. They attended the McCAda Reunion in Plainview Sunday. Then to Mrs. Mankins' brothers home, the D.W. Burks in the afternoon then to the Travis Lightfoot home where a Lightfoot Reunion was in progress. Two reunions in one day a Labor Day Week!

Mrs. J.E. Green visited Mrs. Mankins in the Burke home Monday morning and Mrs. Mankins and Mrs. McCAda visited Mrs. Ross and Mrs. Ragsdale (Maxine). Late this afternoon they are on their way home with a stop at Lockney. It is good to see these good old friends of yesteryear.

Mr. and Mrs. Fred Battey accompanied Mr. and Mrs. Julian Edmonson and Gay Lynn to Ft. Worth the Aug. 24 weekend to be present at the wedding of Mr. Battey's grandson Mike Cook of Amarillo to Miss Tonya Duncan. (They met at Tech). Monday the visitors saw "Six Flags..." before returning home.

Last Thursday Mr. and Mrs. C.W. Denison enjoyed a fishing trip to White River Lake. They were met there by their son C.W. Jr. and family of Brownfield. They came home with a good load of fish. An enjoyable outing.

Saturday evening guests at Mrs. Frank Dunn's were her brother and wife, the Floyd Montgomerys of Plainview, Miss Ona Mae McMurry of Canyon and Paul McMurry of Washington, D.C.

Mr. and Mrs. Clarence Guffee dined in the R.C. Ross home Sunday. The Ross children, Melvin and Mrs. Norma Robinson and family of Denver left for home about mid-week.

Mrs. O.C. Vinson returned home last Monday from an extended tour to visit relatives. She visited in Stephenville with the Ernest Huckabee family in Brenham with a granddaughter and husband, the Bruce Brendenburghs; spent a week in San Antonio, then to Harlingen back to Houston with a niece. Dined one day with Mrs. Eddie Parks. Then flew from Houston to Lubbock.

The Dale Millers are back from Arkansas where they visited her parents and other relatives.

Mrs. Vinson ate dinner Sunday with Mrs. Frank Dunn. Calvary Baptist Church enjoyed the sermon Sunday by Bro. Dennis of Dallas speaking for the A.N.E.C.

## Water Rites Filing Explained

The High Plains Underground Water Conservation District No. 1 has received numerous inquiries about notices sent to landowners from insurance companies, urging them to file for their water rights, and as a result of the legal notices that were run in the newspapers regarding the Water Rights Adjudication Act of 1967.

Otha Dant, Texas Water Rights Commissioner, has noted that the adjudication procedures do not pertain to groundwater, or water from plays (the intermittent lakes that are found throughout the High Plains area). These adjudication procedures also do not apply to water used from streams for stock watering or domestic purposes.

## Lucy Cogdell Graduates

Lucy Cogdell graduated from Texas Tech August 23, and last week began teaching duties in Andrews High School.

She received a Bachelor of Arts degree with a French major. She is teaching French and English at Andrews.

Lucy is a Floydada High School graduate and the daughter of Mr. and Mrs. Ralph Cogdell.

It was so nice. (I like reunions and conventions.) James David Welborn and family of Ft. Worth visited over the weekend with area relatives, the J.D. Welborns. Sunday afternoon all met at Bobby Welborns where ice cream and cake were served. Thus honoring James' birth day.

James and his daughter Rene' visited the Greens awhile Monday.

Mr. and Mrs. Olin Miller of Plainview are visiting Mr. and Mrs. Hal Thomas this Monday - busy fixing vegetables for the deep freeze.

Hosts to a Lightfoot Reunion over the weekend were Mr. and Mrs. Travis Lightfoot and Mr. and Mrs. T.C. Hollums. Guests present were: Mr. and Mrs. Gordon Lightfoot and Greg of Victoria; Mr. and Mrs. Orville Lightfoot and son Troy Gene and wife of Dallas; Kenneth Lightfoot and wife and Tonya of Amarillo, Cecil Carter and wife and son Glen of Lubbock.

Mrs. Vinson ate dinner Sunday with Mrs. Frank Dunn. Calvary Baptist Church enjoyed the sermon Sunday by Bro. Dennis of Dallas speaking for the A.N.E.C.

## 34th Anniversary Of Social Security

This month, with over 24 million Americans receiving \$2.5 billion a month in social security benefits and 20 million people insured by Medicare, the Social Security Administration will celebrate its 34th anniversary, Mencie King, manager of social security in Plainview said today.

The anniversary is being observed with ceremonies and special displays in many social security offices throughout the country, as well as at the National Headquarters in Woodlawn, Maryland, just outside of Baltimore. At the headquarters, an historical room is being opened this week showing mementos of the agency's history including the desk used by all the heads of the social security system since 1935.

When President Franklin D. Roosevelt signed the Social Security Act into law on August 14, 1935, he called it "The cornerstone of a structure which is being built but is by no means complete."

"The original law," continued King, "provided for old-age benefits to retired workers in industry and commerce only. Over the years, the social security program has expanded so that it now provides financial protection for virtually everyone in the country."

The first benefits to retired workers were paid in 1940. By that time amendments to the law had been passed to provide additional benefits for the dependents and survivors of insured workers.

In 1950 and thereafter, coverage was extended to millions of other people who were not covered under the original law - farm workers, state and local government employees, domestic workers, ministers, self-employed doctors, professionals, and members of the armed forces.

In 1956, disability protection was added to cover the thousands of people who could no longer work because of serious illness or injury.

"In its first quarter of century," said King, "social security had already grown into a program that protected a worker and his family in the event of his retirement, death, or disability. But it didn't stop there."

In 1965, Congress created Medicare to help people 65 and older pay hospital, doctor and other medical bills. In just 3 short years, Medicare has covered 17 million hospital stays or elderly people. And there were more than one million admissions for posthospital extended care. Older people have

also received visits in their own homes from visiting nurses, physical therapists, and other health care specialists, paid for by Medicare.

Payments under the hospital insurance program totaled \$10.9 billion for the 3 year period, and a total of \$4.6 billion has been paid under the Medical Insurance Program, which helps pay for doctor bills and other medical services.

In 1967, still other changes were made. Disabled widows became eligible for benefits at 50, people disabled before 31 needed less work to qualify for benefits, and children became eligible on their mother's earnings record on the same basis as on their father's.

Through the years, increases in monthly benefits amounts were made to keep pace with the rising cost of living.

Today's average monthly benefit to a retired worker is \$95, compared to \$63 ten years ago. The average benefit for a retired couple is \$166 a month, compared to \$111 ten years ago.

"One out of ever four beneficiaries are well below retirement age - young widows, children, and disabled workers and their dependents," said King. The protection afforded American families in the event of a worker's death has a face value of \$960 billion in potential survivors benefits.

"Ten million people are kept above the poverty level in this country because they are getting social security benefits," King said. "Since they have paid into the program for years, they have earned the right to receive their benefit checks - and do so with dignity."

## Jones Is Named Navy Recruiter

CS-1 Terry G. Jones, a native of Portales, N.M., will become the U. S. Navy recruiter for the Hale, Lamb, Floyd, Swisher and Cottle County area Aug. 25.

He will take the office in the basement of the Hale County courthouse, Plainview, from CS-1 C.L. Russell who will serve a year of duty in Vietnam aboard the tactical Research Ship, USS Jamestown. Russell has served as recruiter here the past three years.

Jones graduated Portales High School in 1960. He joined the Navy upon graduation.

He and his wife, Carol reside at 905 W. 27th. They have two children, Terry Jones Jr., age 6, and Tammy, age 3.

They are members of the First Christian Church. He will serve the five - county area for the next three years.

WELCOME HOME - was extended to Gene and Maxine Law and their young son by members of the Calvary Baptist Church Wednesday night of last week. The Laws, who are missionaries, in Africa, are home on furlough. Responsible for the sign greeting were Mrs. Marsha and Mrs. Ella Belle McPeak, who are pictured with the Law family. The Laws are former Floydada residents.

SHEILA POULSON of Lorenzo is the new Miss Rural Electrification. She is the daughter of Mr. and Mrs. George Poulson and is a student at Texas Tech. She will represent the association at functions throughout the coming year and will compete for the national Miss Rural Electrification title at Las Vegas in February.

## Soil Conservation District Winners Announced

Three Texas soil and water conservation districts are area winners of the annual Good-year Soil Conservation Awards.

Bosque District in Area 1, Devil's River District in Area 2 and Willacy Hidalgo District in Area 3 were selected on the basis of district planning, organization and accomplishments during the year. State agricultural and conservation leaders constituted the judging committee.

Two representatives from each district will be guests of The Goodyear Tire & Rubber Company on a four-day visit in December to the Wigwam resort and Goodyear Farms, Litchfield Park, Arizona.

They are, from the Bosque District, Raymond Whitney, Valley Mills, outstanding farmer-cooperator of the year, and J. W. Hardcastle, Meridian, member of the governing board; from Devil's River, Wallace - Hidalgo, Thomas B. Waite Jr., outstanding cooperator, and D. V. Guerra Jr., board member, both from McAllen.

The six Texans, along with 100 other representatives of the winning districts throughout the nation, will participate in a vacation - study program at the 10,000 - acre desert farm west of Phoenix.

Goodyear's Soil Conservation Awards Program has hosted more than 1,900 winning conservationists from every state and Puerto Rico since its beginning in 1947.

Lubbock Soil and Water Conservation District placed second in Area 1; H.R. Schwertner, Slaton, was named the district's outstanding farmer - cooperator. Coke District was runner - up in Area 2, with C. E. Arrott, Bronte, the outstanding cooperator. In Area 3, Lavaca District was second; Adolph C. Darilek, Moulton, was the outstanding cooperator.

## "Somebody Will Build A Dam On Tule Creek"

"Somebody will build a dam on Tule Creek...it may be Floydada, Tula, Lockney and Silvertown if they vote for it September 6...or somebody else if they turn it down."

These were the opening remarks of Al O'Brien, general manager of White River Lake as he spoke to the Floydada Rotary Club yesterday.

"People don't build watersheds...and they're few and far between in West Texas...just one person makes watersheds. God," O'Brien continued.

O'Brien said he knew of another city that would like to have the Tule Creek watershed and he said there was no doubt in his mind that "Water Is Worth What You Pay For It."

He said that although some mistakes had been made in operation of the White River Authority, the people of Spur, Post, Ralls and Crosbyton were happy with the good supply of water and recreation facilities at the lake.

"Post knows what water costs by the truck load, because they were out of water when the White River Lake water poured into their faucets. Post knows the value of water for industry as they would have lost the Post Mills without the present lake water supply."

O'Brien said that the people of Spur, Ralls and Post had a half million dollars and a half million head of time and it is selling water at \$69,000 a year in recreation. President of the Water Authority introduced O'Brien.

## IT IS YOUR MONEY

# You have a right to know these facts

You spend a lot of money for auto insurance. You have read wild statements about insurance costs and companies. If you would like some plain talk, here it is.

They say... Auto insurance companies are guaranteed a profit.

FACT: Before insurance companies can make a profit they have to first pay to have wrecked cars repaired or replaced, pay hospital and doctor bills for folks injured in auto accidents, pay for stolen or stripped cars, pay for cars damaged by hail, fire, wind or flood waters, pay wages or commissions to 95,400 Texans who give service to policy holders in every county in the state, pay taxes and operate their companies. If there is anything left after all these payments have been made, it is profit.

They say... Texas auto insurance rates need to go up 11.4 percent.

FACT: The evidence is very clear. Accidents are up. Medical costs are up. Repair costs are up. Auto thefts and vandalism are both up. All this forces rates upward. Facts and figures prove that a 17 percent increase is needed now.

They say... There is nothing you can do to lower your auto insurance costs.

FACT: You can't lower labor and medical costs. You can't lower automobile and parts costs. You can help reduce the number of traffic accidents and crimes against automobiles. The accident that doesn't happen does not boost the cost of auto insurance. The car that isn't stripped or stolen does not increase the cost of your auto insurance.

Let Governor Smith, your Mayor and your County Officials know that you want a stop put to Texas' growing traffic accident and crime tolls... that you want the law enforced. Good law enforcement can reduce accidents and crimes against cars.

Lower accidents and crime rates can mean lower auto insurance rates for you. Isn't this worth a little effort on your part?

## Association of

# Texas Fire & Casualty Companies

110 Vaughn Bldg.  
Austin, Texas 78701

They say... Labor costs are a small part of auto insurance costs.

FACT: Labor costs make up the major part of auto repair bills and in some parts of Texas labor costs for auto repairs have increased in recent time by an amazing 40 percent.

They say... Auto insurance companies make too much money.

FACT: Look at this listing of the earnings by major industries in the United States as published by the First National City Bank of New York and as republished in the study developed by the Arthur D. Little Co., an independent research organization then judge for yourself:

	Profit in Relation to Net Worth
Common Carrier Trucking	22.9%
Air Transport	27.5
Miscellaneous Transportation	16.5
Electric Power	11.4
Iron & Steel Mfg.	9.5
Telephone & Telegraph	10.0
Auto & Truck Mfg.	22.8
Automotive Parts Mfg.	13.4
Fire & Casualty Insurance	2.8

## EDITORIALS

### Parents Are Responsible

Parents take on a tremendous responsibility when they undertake to rear a child. They feel an obligation that he have plenty to eat, plenty of play, plenty of rest, a healthy body in every way.

Parents also take on the responsibility of seeing that their child gets an education. They cooperate with school officials in an effort to see that their child attends school, studies and that he receives a high school degree.

Parents often sacrifice in many ways to help finance a child in college.

Many parents feel a responsibility of teaching a child moral principals, they want him to know right from wrong and act accordingly.

Most parents feel a responsibility for a child's spiritual development...they take him to Sunday school and church, they have prayer in the home.

Then, there's another responsibility that parents have... and it's a responsibility that they often neglect. Parents have a responsibility to a child to teach him to work.

A child who learns early to work around the home, then later gets a job away from home learns much about life. He learns what a dollar is worth in labor, he learns some common and horse sense along the way.

A parent who has taught a child how to work, may have done him a greater favor than any money ever spent on education.

Many times it is easier for a parent to do a chore around the home, than continually urge or nag at a child to do the job. This parent is doing the child a disfavor.

In this day and time when a hand - out is fast overtaking a work - out, soft, lazy young Americans are fast becoming the new generation.

Why not make a resolution now parents?...do your child a favor, teach him how to work.

### The New Cars

September is new - car month in the United States. Uniquely American, the introduction - each year at this time - of new models in every U.S. line is something like a massive, mechanical fashion show. And many cars are sold because of their new styling or new appearance.

This year there are fewer changes than in some recent years and fewer new safety devices. The trend in the industry is still toward larger cars, at least for many of the older breeds but the rising flow of imports of small cars has induced U.S. builders to again stress the compact, as they were called several years ago, when their introduction didn't prove completely successful. (The Edsel was designed to take advantage of an expected smaller car trend.)

Ford's Maverick, introduced in April, is a sales success and Chevrolet is about to enter the field, as has American Motors. It may be, then, that the next few years will see the end of larger and larger automobiles, and that 1970 models, or those already designed, will turn out to be the largest cars ever to be built for the general public.

Growing congestion, rising prices, parking problems, crowded highways and other factors all point to an end for ever-growing automobiles, the world's biggest.

### The Irish Question

In Northern Ireland recent activities pose two questions. As usual, the organized agitators, the protesters, have received most of the publicity - and public sympathy. The tactics they have used have been winked out, completely overlooked, or excused.

What started the recent rioting and fighting? It was triggered by a parade of Protestants, in a city with a majority of Catholics. The parade had been held for many years and to ban it would have produced strong resentment. There should be no reason in a free country why any group is not allowed to parade - if orderly and behaved.

What would Americans think if Protestants decided to stone Catholics marching in a St. Patrick's Day parade in New York? What would they think if bombs were thrown at the marchers? Discriminations against the minority in Northern Ireland are to be regretted and opposed, as are discriminations against the minority (Protestants) in Spain, Italy, much of Latin America, etc. However, Protestants do not stone or bomb Catholic parades, nor are they quietly aided by the United States, a predominantly Protestant country - as agitators are aided in Northern Ireland by a Catholic country.

The discriminations we hear much about. The totalitarian tactics, illegal violence and destruction of civil rights by the agitators few criticize.

### New Texas Law Sets "Slow Pokes" Right

AUSTIN, Aug. 25 - "Slow-poke" drivers - a longtime hazard and source of irritation on the state's high - speed roads - will soon have to speed up or keep right when traveling on divided highways in the Lone Star State, the Texas Safety Association noted today.

Under a new law, going into effect Monday, Sept. 1, vehicles traveling at less than the normal speed of traffic on divided highways must be driven in the right - hand lane or as close as practicable to the right - hand curb or edge of the roadway - except when passing.

In commenting on the new law, the Safety Association expresses hope that the traffic measure will be a practical solution to the mounting problem of slow drivers who tie up traffic on heavy traveled roads and are frequently a contributing factor in traffic crashes.

The new law should also ease the tension of drivers who use the high - speed inside lanes on divided highways and not only find it mechanically difficult, but also emotionally difficult to cope with such drivers, the Safety Association continued.

Many drivers become quite irritated when there is no safe way to pass a slow driver. They often take risks that they would not ordinarily take and wind up in trouble.

Another provision of the new traffic law calls for all moving traffic to stay right of the center line on roadways having four or more lanes of traffic - except when authorized to go to the left by traffic control devices, or when making left turns into or from an alley, private roads or driveways, regardless of whether there is a double yellow stripe or not.

kits; shades, switches, plugs, cords, etc. may be purchased. All the lamps must be in place by 10 a.m. on the opening day of the fair.

Junior and senior educational exhibits must be in place by 12 noon Thursday, September 18. These exhibits are under the supervision of Mack Heald, Assistant County Agent, of Floydada, with whom reservations for the 7' x 8' booth space may be made.

Girls through the eighth grade are eligible to enter the Junior Household and Clothing and Canned Foods divisions of the youth department. Girls in high school are eligible to en-

### FLOYD PHILOSOPHER Views Truth In Lending From The Other Side Of The Counter

Editor's note: The Floyd Philosopher on his Johnsongrass farm views truth in lending from the other side of the counter this week.

Dear editor:

As I understand it from reading the newspapers for the past two or three weeks, everybody is now living under a new law called "Truth in Lending," which means stores, banks, lending companies and such like have to tell you how much actual interest you're paying if you borrow money or buy something on credit.

Although it's not the interest rate that bothers most people buying a car on credit, it's mostly how much per month the payments are and whether or not they or the car will wear out before they reach the last one, I'm sure this is a good law, but it's far enough.

What I mean is, I hope some smart-alek in Washington doesn't come up now with a "Truth In Borrowing" bill.

When a man is borrowing money for an honest purpose, truth should be told generally but not squeezed to death.

Take the case of a farmer I knew years ago. Every year he'd go into the bank to mortgage his mules and implements to get money to make another crop on.

"Let's see, those mules are six years old," aren't they?" the banker asked him the first time he went in.

"Yes sir. Sure are," the farmer answered truthfully, and he got the loan.

Next year it was the same. "Those mules still six years old, aren't they?"

"Yes sir."

For ten years the same procedure took place, the mules stayed six, the farmer always paid up, the banker was happy, the bank examiner was none the wiser, the farmer finally got on his feet and today owns his farm and a modern tractor, both debt-free, but Truth in Borrowing would have ruined him.

Something similar happens even today. How many used-car ads have you seen saying this car has 24,000 actual miles? Everybody understands there's a difference between speedometer miles and actual miles, just as there's a difference between lying and campaign-promising, which is in the same category with telling a woman with knobby knees she looks good in a mini-skirt.

Miles on a car or years on a mule are no proper concern of Washington, so long as everybody pays up on time.

Yours faithfully,

### Gin Stockholders Meeting Tuesday

The eighth annual stockholders meeting of the Floyd County Co-op Gin, Inc., will be held Tuesday, Sept. 9 in the meeting room of Lighthouse Electric Co-op, Inc. in Floydada at 8 p.m.

Two directors will be elected to fill the vacancy of B. A. Robertson and R. G. Dunlap whose terms expire this year. After the audit report and other business is transacted there will be a drawing for door prizes and light refreshments served.

ter the senior divisions of this department.

Superintendent of the Art Department is Ted Bell. Divisions are provided for teachers, adults 19 years of age up, youth 16 to 18, children 13 to 15, children 9 to 12, children 6-8 and children 3-5.

Mrs. Kelson Shaw is superintendent of the Flower Department. Entries must be made in this department between 8:30 and 11:30 a.m. September 18. A junior flower arranging division is provided for children 8-12 years old.

Mrs. Galé McPherson is superintendent of the Crafts Department and Mrs. Raymond Teeple is superintendent of the Textiles Department.

ANYONE FOR TURTLE SOUP?...This 15 pound creature was captured last Friday by Tommy Thomas when he and his mother spotted the turtle crossing Highway 207 at White River, in the canyon. The family had quite a problem trying to lead the turtle because of his snapping feature. Tommy plans to keep the turtle but is wondering if this size creature is normal for this part of the country or just where it came from. (Staff Photo)

Two major agricultural research centers on the High Plains one at Lubbock and the other at Halfway, will be touring their wares at field days during the week of September 8.

Their "wares" consist of the latest and most efficient farming techniques plus the most promising new plant varieties developed through years of scientific research.

The 60th annual field day and open house at the Texas A&M Research and Extension Center, located just off the Amarillo highway North of Lubbock, will begin at 1:00 p.m. on Tuesday, September 9.

The 13th annual field day of the High Plains Research Foundation, Halfway, will be held on Thursday, September 11, also beginning at 1:00 p.m.

L.D. (Don) Anderson, Crosbyton farmer and President of Plains Cotton Growers, Inc., which provides financial grants-in-aid each year to many of the research projects at both the research centers, is urging all PCG members to attend the field days and avail themselves of the latest advancements in farm technology.

"Of all PCG activities, Anderson said, our support for agricultural research has provided and continues to provide some of the most profitable returns, to our members. And these returns could easily be doubled if it weren't for the serious lag between the development of new and improved farming techniques and the field application of those techniques by farmers."

At the Texas A&M facility on September 9, tours will show more than 40 varieties of cotton growing side-by-side under identical conditions. All the new varieties being introduced to the High Plains will be seen, including the new Tamcot 788 which was developed at the Center and promises to play an important role in future cotton production on the Plains.

Visitors to the Lubbock Center also will have the opportunity to view and discuss test plots of narrow-row or "broadcast" cotton, one of the greatest departures from standard cotton production practices ever made, and one which offers dramatic possibilities for lowering production costs and increasing yields. Researchers say the system offers earlier maturity, higher micronaire and greater fiber uniformity, plus yield increases of 10 to 25 percent.

Other points of interest will include grain sorghum performance test plots of 75 hybrids, discussions and demonstrations of weed and insect control measures and a tour of the laboratories and greenhouses that play a vital role in agricultural research at the Center.

The field day at Halfway will begin with tours of research plots of a wide variety of crops and a tour of the Foundation's offices and shop facilities.

Of special interest to farmers will be new studies of minimum tillage seedbed preparation for cotton and grain sorghum, various applications of herbicides and fertilizers, the continuing studies on soybeans, sunflowers, castors and corn, plus a showing of the latest developments in farm machinery.

An added attraction on the evening program will be an address by U.S. Representative Bob Price of Pampa.

PCG research grants to the two centers this year, totaling \$20,650, were concentrated on cotton variety breeding work; disease, insect and weed control; temperature studies, fertility levels, soil moisture conditions and conservation of rainfall and irrigation water.

The 1969 grants - in - aid brought PCG's accumulated investment in agricultural research since the organization was formed in 1956 to \$369,200, which PCG officials say has attracted at least an equal number of dollars from outside sources.

Anderson commented "Without these funds, supplied largely by High Plains cotton producers through PCG, many of the advanced cultural practices and improved cotton varieties being used today would still be years in the future."

SCHOOL TEACHER RAISES BUNNIES - Darlene, daughter of Mr. and Mrs. Doyle Mount of the Mt. Pleasant area is pictured with four tiny cotton tails captured by her. She has a knack for raising wild life and has raised three jack rabbits from baby size. Her wild life comes to an end however. Darlene is now in Colorado, where she has accepted a position in the Montezuma School system. She is a graduate of Floyd County High School and Hardin - Simmons. (Staff Photo)

### CENTER NEWS

CENTER, August 25 - How grateful we are for the various recent showers. Here we got a good slow, one inch rain Sunday night. Now we can plant turnips and other fall vegetables.

Calvary Wednesday evening church goers enjoyed the service held by Brother and Mrs. Gene Law, former Floydadians. Mr. and Mrs. Law are on furlough from their mission station in Kenya, East Africa.

Mr. and Mrs. Milton Mensch of Lubbock visited over the weekend with her parents, Mr. and Mrs. Hal Thomas. Later Sunday afternoon the Thomases visited in Plainview with Mr. and Mrs. Olin Miller.

Mr. and Mrs. J.D. Welborn had their local children in the home Sunday afternoon; Bobby and family, the Roger Gooches, Donna and Clarmon Booth, Eunice Arney, also Mrs. Joe Bryant and girls.

School begins Wednesday and Mrs. Welborn will again be on "the force" that feeds the hungry children in a school cafeteria.

Mr. and Mrs. W.C. Plumlee had all their children, Mr. and Mrs. Hal Thomas, and most of the grandchildren home Saturday. These were Mr. and Mrs. Charles Plumlee and son of Los Angeles, Calif., Mr. and Mrs. W.B. Goss and son of Talledega, Ala., Bobby Plumlee and family of Amarillo, and Mr. and Mrs. Johnny Hinds and boys of Plainview.

Mr. and Mrs. Earl Thompson of Matador visited Thursday in the home of their son, Bob Thompson and family.

Mr. and Mrs. Paul Stout returned Thursday from their wedding trip to points in Colorado. Now they are visiting her

parents, the Thomas Warrens and other relatives before going on to N. Carolina where they will be at a military base.

Women are busy canning and preserving and pickling - getting ready for the dormant part of the year.

Mrs. Denison dropped in at the Greens one afternoon last week.

The Greens said a long distance "goodbye" Sunday to their son, Clyde and family of Peralta, N.M. They are on their way to Ketchikan, Alaska where the adults will teach this coming school year.

Again we were shaken to the depths Thursday morning when another longtime good neighbor, R.C. Ross, answered the call and passed on. How he will be missed at home, at church, and in the community. A host of friends and relatives filled to over flowing the Calvary Baptist Church Saturday afternoon. Bros. Payne and a former pastor at Center, Bro. Hodges, conducted the last rites. Mrs. Ross and children and all other loved ones have our deepest sympathy.

Mr. and Mrs. Leo Frizzell took Mrs. Ava Jackson to Lubbock Friday where she is visiting her son, Vern, and family. On their return the Frizzells visited the J.E. Greens awhile in the afternoon.

Bro. and Mrs. Hodges and two granddaughters of Plainview and Mr. and Mrs. Jimmy Dunn of Lubbock visited the Greens Saturday afternoon.

Jimmy Dunn and family spent over the weekend with his mother, Mrs. Frank Dunn.

### Five Year Old Is Member Of Angus Association

Ty T. Williams, 5, Aiken, Texas has been granted a junior membership in the American Angus Association at St. Joseph, Missouri, announces Lloyd D. Miller, secretary.

This new junior membership entitles the member to register purebred Angus at regular membership rates and to the

privileges of the Association until the age of 21. At that time junior members are eligible to convert to lifetime memberships in the Association.

There were 215 young people in the United States to receive junior memberships last month.

### Bollworms In The South Plains

Bollworms are being found in many cotton fields throughout the South Plains, reports Dr. Bill Clymer, Extension entomologist, and producers should pay particular attention to avoid economic damage from this insect.

However, he cautions against spraying if not needed as an application of insecticide will kill the beneficial insects and probably necessitate continuation of spraying at 5 day intervals.

Bollworm adults or moths tend to be more active in lush growth after the recent rains cotton will be in better condition and more vulnerable to attack. Also, damage may be greater in the younger June planted cotton.

According to past research, one bollworm can destroy 8 squares and about 2 bolls, says Clymer. This can be quite an expensive pest when heavy populations are present. Research has shown 2,000 - 2,500 worms per acre are of economic importance. This is about 1.5 to 2 bollworms per 10 feet of row.

Producers are urged to check their fields closely by carefully examining plants in several areas across the field. If

an average of 2 bollworms per 10 feet of row is found, control should be considered. Clymer points out, however, that worms over 1/2" in length are most difficult to control.

Your local county agricultural agent has available insect control guides which give the latest information on when to spray and what chemicals to use. If you are in doubt on control measures do not hesitate to contact your local agent

FLOYD DATA  
Mrs. Betty Shirey, Judith Ann and David left for home Wednesday after an extended visit here with her parents, Mr. and Mrs. W.D. Newell and her brother, Louis H. Newell.

## The Greatness Of Christian Love

Henry Drummond once said, "The greatest thing in the world is love." But he was not speaking of the so called free love of today, nor was he speaking of the cheap form of love between the sexes played up by so many of our magazines and movies of modern society and thinking. He spoke of real genuine, sincere, Christian love. He was thinking in terms of perhaps one of the best loved chapters of all the Bible - The hymn of Christian love - Paul's first letter to the Corinthians chapter thirteen. For it is this type of love that gives quality to all other gifts - it achieves the greatest wonders - endures forever. Paul knew from a personal experience of the permanence of Christian love, and he was writing to a dearly beloved church despite all its blemishes.

Christian love is the more excellent way of life advocated by Jesus Christ himself. Every word seems to have been chosen in Paul's letter with the particular situation at Corinth in mind. Love without which, a community cannot be built (agapa), highest type of love - unmerited grace bestowed on people in Christ. He is not speaking of human quality of benevolence - but divine graciousness revealed in Christ - which reaches its peak in love for enemies. It is a superior, supreme love of a divine nature that is lasting. It is a love that is dynamic and active - Paul used verbs to express it. He states the idea of what man's attitude toward God and his fellowman ought to be, but stops along the way to brush aside the sickly sentimentality that often masquerades as love. It is the supreme method of spiritual fellowship as every church was meant to be - the very bond of unity that makes a church, and it is within the power of every member to share in it. However, the supreme idea is to practice it in all relationships of life and especially in the Christian community itself.

Christian love is great in comparison or contrast with other things of God's great bounty: for example, money, pleasure, health, education, and power - all are good to use in Christian service, but none of them can begin to be as great as Christian love. Christian love will fruitify all various gifts all members of Christ's body may possess and deepen the fellowship. Love succeeds where all else fails.

Christian love is great in itself. It cannot be adequately defined - not set limits. It means being like the Lord Jesus. It means being a gentleman or a lady. Kindness is one convincing evidence of Christian love. It means being able to get along with people. Love's humility is its greatness.

Christian love is great because it endures in order and time. When all other good things fade, love endures. It increases, gets stronger and stronger - Love awakened in a baby for a Mother's smile is not so vast as the love which will flood his soul when he looks upon the face of his first born son. Robert Browning said it this way, "Grow old along with me the best is yet to be." Love never falls down on its job - will never let us down. It endures from time into eternity. "Earthly things have their day, and cease to be." There is little else beyond the grave. All good things do not last, but it is a blessing indeed to know that the essence which endures is Christian love.

The future belongs to love - speaks a language everyone understands and everyone can speak, if he will. Love enriches him who gives it as well as him who receives it. Real Christian love is ultimate reality - "God is love." It is a guarantee that all hate, fear, and falsehood are doomed.

Love is the only gift of the Spirit that abides through eternity. All the unspeakable energy of a spiritual and moral universe is on the side of those who have aligned their life with Christ, who was love incarnate. Not even death itself can defeat or destroy them. WHEREFORE, MAKE LOVE YOUR AIM! Which if planted in the hearts of the world rulers, it will rule the world of men and bring universal peace.

# Waggoner Carr Speaks To Boys Staters

**THESE DEMANDS ARE NON-NEGOTIABLE**

Graveyards all over America are filled with people who, during their lifetimes, had golden opportunities to do great things, but they never got around to doing them until it was too late. Some of them were too timid, or too scared, or too busy, they thought. Many of them died with sadness in their hearts because time had run out and there was yet so much to do. Some had started too late. Some had never started at all. Some had lived a lifetime of timidity and cowardice proving once again the truth of the wise saying, "a coward dies a thousand times, a brave man dies but once."

Quite a few years ago a brave man of America died who had served his country well, in war and peace, as common citizen as well as President. His name was Theodore Roosevelt. His life was a full one. He tasted both success and failure, but he stood tall and unafraid and he was loved and respected by the world. He was quoted as saying,

"It is far better to dare mighty things and to enjoy your hour of triumph, even though it is checkered occasionally with failure, than to take stock with those poor souls, who neither enjoy much, nor suffer much because they live in a gray twilight that knows neither victory nor defeat."

I like that philosophy of life. That is the kind of life I have tried to live and will continue to live as long as God gives me breath and strength.

I believe that is the kind of life you prefer. You have already established that kind of reputation or you would not have been selected as a delegate to Boys State. I do not believe there is a man or boy in this room who wants to live the life of a coward. I believe the chances are good that there are future governors, senators and maybe even a president here tonight.

Believing this as I do, I seek to fan the spark of ambition you have. I desire to cause you to wake up and realize the opportunities you have at this very moment to serve your fellow American. I want you to hear the call of your country - to sense the crying need for your young leadership - to feel the urgency of this need - and most of all, to get you to dare mighty things, so you, too can enjoy your hour of triumph!

I do not ask the impossible. I do not expect you tonight to solve the intricate problems of war and peace. I do not ask you tonight to create a heaven on earth. As much as I wish you could, I do not believe any of you possess the magic wand of fairyland stories that by a sweeping wave can cure all the evils of the world.

No, I would much prefer that you aim your leadership toward more practical goals - toward goals close at hand that mean as much to you and your generation. If you can solve the problems of your own generation, then you shall have qualified to wrestle with the problems of the world.

Those of us of the older generation find it increasingly difficult to cope with the destructive and devious tactics of the mad dogs of your generation while we search for honorable peace in Vietnam, the easing of tensions in other parts of the world, the ever present world domination aspirations of the communists, the exploration of the universe, and a better life for us all at home.

Tonight I want you to make up your minds that your number one job is to take the offensive against the long haired mad dogs and dirty rattlesnakes of your generation! To date, most of you have done absolutely nothing but sit on the sidelines. Some of you have even been afraid to say anything...much less act! You have turned a deaf ear to your own conscience which has urged you to do something. You have already experienced the shamed feeling of a coward. You have been through a coward's death. As the mad dogs and the rattlesnakes continue their destruction of America, you face the unacceptable prospect of gradually losing respect for yourself as you seek the safe hiding place of a cowardly hermit. Like the Roman emperor, you will have fiddled while America burned.

You have silently allowed the Hitler type revolutionaries of your generation to blacken your reputation throughout the land. They have turned the college campus into a battleground with guns and all. They have kidnapped college presidents, closed colleges, barricaded buildings, ransacked official records, forced college deans to walk before them like prisoners in a chain gang, howled curses and foul words at respected public officials, demanded huge sums of money from our nation's churches with the threat to seize all churches and hold them if the money is not paid.

The motivating force behind all this violence and bloodshed is the organization which calls itself Students for Democratic Society. SDS is headed up by admitted communists who are loyal to Russia, Red China and Fidel Castro - not the United States of America! Last March, the SDS national council met here in Austin where they, believe it or not, were invited to use the comfort and facilities of the local churches - the very churches the communists are committed to destroy. At this meeting, they acclaimed the "heroic struggle" of the Viet Cong. This SDS meeting was controlled by three major groups - the Pro-Chinese Communist Progressive Labor Party, the Communist Party of the U.S.A., and the Young Socialist Alliance, the youth organization of the Trotskyite Socialist Workers Party. Michael Klonsky, national secretary of SDS - the top official - said at the meeting, "Our primary task is to build a Marxist-Leninist revolutionary movement." Since then, the viciousness of campus disorders has substantially increased with serious uprisings at Harvard, Columbia, Stanford, American University, George Washington University, Northeastern University, Berkeley, New York City University, Queens College, Dartmouth, Marquette University, and others. As FBI Director J. Edgar Hoover recently declared, "The SDS and its adherents have rocked campuses from coast to coast with violence, riots and sabotage."

Chapters of SDS are believed to exist on more than 225 campuses - and new ones are constantly being formed. SDS claims about 400,000 members. But those who follow the organization closely estimate that there are as many as 100,000 SDS "adherents" who will join its campaigns and back its causes. It is a growing organization and becoming more violent and more revolutionary. Now SDS leaders talk openly of overthrowing basic American institutions. Their latest plan calls for their members to infiltrate into the ranks of labor in key U.S. industries. Their objective is to cause disorders in industry as they have done on the college campuses.

This subversive organization is now extending its poisonous tentacles into our high schools. At the time of my last visit to New York City in April, forty - seven high school principals and supervisors had been driven from their schools by bands of student terrorists.

Therefore, those of you in this audience who are in high schools need to pay heed.

In my youth it was the Nazi movement that threatened to destroy America. In your day it is the SDS. Both organizations used and are using the same tactics. What the SDS wants is a collectivized government and the abolition of the Constitution. It supports free speech except for those Americans who disagree with it. These people believe they have the total truth. Therefore, they must shut up people who disagree. They shout down speakers they don't like. They clubbed former Secretary of Defense McNamara at Harvard. They stoned Mayor Alioto at San Francisco. At Harvard, the militants carried a meat cleaver with them when they confronted the school officials with their demands.

They make demands on colleges. Some of the demands they make are attainable but some are always included that are impossible. All of the demands are presented as a package and the announcement made that "These demands are non-negotiable." At San Francisco State, SDS demanded the reinstatement of a professor. The man was in jail under an indictment for carrying three prohibited weapons and couldn't possibly be reinstated by the college. At Duke, they demanded the reinstatement of all students who had flunked out the year before.

I, for one, am fed up with being on the defensive. I am an American and am proud of it. Our land is not perfect but while you and I are working together for a better day, I am not going to sit idly by and watch these radical subversives destroy us. The militant minorities are doing all the demanding. It is you and I who should be making the "non - negotiable demands" of them. Well, let's get started!

Are you ready? From this moment on, let's take the offensive! Let's tell the SDS and all their sympathizers and followers that we make the following demands on them and that these demands are non-negotiable:

1. You must obey our laws - both on and off the campus. If the militants want the laws changed, they must change them through the legislative halls and courts like the rest of us must do.
2. You must immediately cease and desist your attacks on others. We are going to protect free speech for all our citizens - not just for the SDS.
3. You must respect our American institutions. We are not

going to allow our high schools and college campuses to be turned into arsenals, battlegrounds or havens for criminals - young or old.

4. If you want an education, you must obey the rules like the rest of us, or you will be promptly expelled for we are going to protect the rights of all students to attend classes and get an education without interruptions or strikes fomented by the militants.

5. If you like Russia, Red China and Communist Cuba as much as you say you do, then get out of the United States and stay out. We will not let you do to our country what you did to Czechoslovakia.

My fellow Americans, there's nothing these sick people can say or do that will make me ashamed of our land. Oh yes, we have our problems and deficiencies but they can be corrected and they will be corrected - not by destroying America, but by hard work and understanding among us. Compared to other countries, America is the greatest of them all. I believe America is the most lovely and livable of all nations. I believe that Americans are the kindest and most generous of all people. I believe that even the hublest of us are born with a privilege that places us ahead of anyone else, anywhere else. The privilege of living and working in America, of repairing and renewing America; and one more privilege no one seems to get much fun out of lately - the privilege of loving America!

## Air Medals Awarded To Major

Major Royce H. McNeill, son of Mrs. C.H. McNeill of Lubbock and a nephew of several Floydada residents, was recently awarded his second through 17th oak leaf cluster to the Air Medal for "meritorious achievement while participating in aerial flight over Southeast Asia". The major, a Floydada High School graduate, is presently assigned to Castle Air Force Base, Merced, Calif., with KC-135 as an instructor pilot.

Air Medals were awarded Major McNeill for service in Vietnam during the period of Jan. 30 to Dec. 14, 1962. He flew more than 300 missions as a forward air controller during this tour of duty.

While serving as controller or air liaison officer, the major flew direct close air support for Army operations. He flew missions for the Army's

# Hale: Some can make it big in a little town

Something I get tired hearing, and I hear it almost every time I stop in a small town, is this: "There's no opportunity for young people in a small Texas town. There are no jobs here. Our young people have to go to a big city to make a living." You know what I feel like saying when I hear that? I want to say, "You've been telling your young people that for so long that they now believe it, and so by the time they grow up they're convinced that they have to head for a big city or starve."

It's just not right to keep saying it, because it's not true, and it's not fair to the scores of small towns in this state which are struggling to survive. And what they need to survive and grow is young people.

**NOW THEN, it's true that**

there are not very many little towns where a college graduate can go with the ink still wet on his diploma and get a 40-hour-a-week salaried job paying \$700 a month.

In fact, I think that a young fellow just out of school who expects to work a 40-hour week certainly ought to head for the biggest city on the map. He's not going to help a small town anyway, and it's not going to help him.

What the little town needs are more young guys with energy and imagination and business sense, who don't walk in asking how much vacation they're going to get and whether they'll have to work on Saturday.

high school graduating class of 50 youngsters may not have but two or three who are capable of it. But two or three is all a town that size needs. Even one can make a big difference.

What do they do? They go into business, mostly. Start small in a new business, or buy an old one and revive it, or establish a little manufacturing plant. Always something that requires some vision, the ability to see an opportunity where none seems to exist.

Something else it takes is work. Hard work, too, at least for a few years.

**I'VE BEEN RUNNING** around rural Texas now for 22 years and I've seen a lot of young guys become successful in a really astonishing way, when I didn't think they could.

Maybe one would buy a little old rickety radio station, or open a feed store, or borrow enough to establish a small plant that turns out valves or chicken coops or mop handles

or furniture. I'd see a fellow doing that and say to myself, "Well, hell, you'll never make it."

Now I'm seeing these guys and how they've made it and 15 and 20 years ago most of them are doing great.

**WHATEVER THEY DO** with has expanded times bigger, and they have a new home out on the town with three bedrooms and two big cars in the garage and probably they've got a boat and a place on the lake. They go to Colorado in the fall and they're in the small towns they're in. They show up on the radio, the bank, and as chairman of the Chamber of Commerce, and you think "not happy? Ha, you believe they are."

But then they are a kind of men. The kids doesn't go around making cause there's no opportunity.

He gained his commission in 1953 through the Aviation Cadet program. He is a native of Lubbock and attended Texas Tech.

## BOLLWORMS

Bollworms are a serious pest of cotton throughout Texas, particularly in West Texas, according to Dr. Bill Clymer, Extension area entomologist.

During the month of August bollworm activity of ten increases and bollworms can cause considerable damage to cotton. In the West Texas area large numbers of eggs and small bollworms are present in some fields. These populations could develop into a real problem on cotton, says the entomologist.

The bollworm is considered a pest of many crops other than cotton. It is also known as the corn earworm and the tomato fruitworm and it readily attacks legumes and many other crops. The first brood of larvae feeds on legumes and corn of sorghum, while the second brood attacks corn and sorghum crops, then migrates to cotton fields and severely damages the more succulent cot-

ton plants.

According to Clymer, the bollworm egg is scarcely as large as the head of a common pin and ranges in color from white to light brown. Eggs are laid singly and scattered over the cotton plant.

Larvae vary in color, sometimes light green, pink or brownish to black with alternating light and dark stripes. Adults or moths vary from light brown with a greenish cast to a deep reddish brown. They have a wing spread of about 1 1/2 inches. The development of a stage from egg to adult is about 35 days.

Larvae feed on the fruit and the principal damage is the loss of both squares and bolls, explains Clymer. Producers are urged to inspect their fields frequently by either of two methods in order to detect any change in bollworm infestations.

One method is to examine the terminal buds (upper three to four inches of the plant)

of 100 cotton plants and 100 consecutive squares and bolls at each of several points in the field. Begin treatment when bollworm eggs and four to five young worms are found per 100 terminals or 5 percent of the squares and small bolls have been injured by small bollworms.

The other method for inspecting for bollworms is to make a whole plant examination (terminals, squares, flowers, or bolls) of all plants on 10 feet of row in five locations in the field. When larval counts average more than 1.5 larvae per 10 feet of row, begin treatment. Apply insecticides at five - day intervals or less. Check fields closely two to three days following each application for effective control. Where control has not been obtained, repeat application immediately.

Where bollworms are still small and are continuing their feeding to very small squares, infestations above the 5 per-

cent level can probably be eradicated without economic damage, points out Clymer. They begin feeding on squares, blooms and treatment would be for a 5 percent infestation. Once a field is infested with an insecticide that controls bollworms, insecticide treatments will be practically unnecessary. Therefore, no treatment for subsequent infestations may be necessary.

Again, producers are urged to inspect their fields frequently, both the untreated, in order to determine if and when treatment for bollworms is necessary, explains the entomologist. Consult a local county agricultural agent for control procedures.

Progress Against Bollworms

Thirty years ago it was saved from the insect - one-in-three loss the American Cotton

### COUNTY AGENT'S CORNER

by Joe Wilson

Mites are attacking grain sorghum in the area. Reports from the extension entomologist Bill Clymer, and Lyndon Almand, states that the mites are building up in the south plains area. The mites caused considerable damage in the northern part of Floyd County in 1962.

The mites are very small and are generally on the underside of lower leaves first. They have the ability to multiply rapidly killing the leaves and possibly causing the plants to lodge and fall. Grain sorghum fields may be hurt up through the soft dough stage by the insects.

Ethion and parathion are cleared for use on grain sorghum for mite control. If an airplane is used it would be a good idea to apply a total of 5 gallons of mix to the acre so that a good coverage could be obtained.

Bollworms are also causing damage within the county at this time. In some fields the worms have reached the stage where they are hard to kill with insecticides.

The larger the worm, as a general rule, the harder it is to kill. If at all possible check closely to find the small worms as the insects are building up in a field and apply the insecticide when the population reaches a damaging level and the worms are still small.

The recommended insecticides for bollworm control are:

- Azodrin .8 to 1.0 lb. per acre.
- Sevin Methyl Parathion 2.0 .5 to 3.0 .75 lbs. per acre.
- Methyl Parathion 1.25 to 2.0 lbs. per acre.
- Strobane methyl parathion 2.0 1.0 to 3.0 to 1.5 lbs. per acre.
- Toxaphene methylparathion 2.0 1.0 to 3.0 to 1.5 lbs. per acre.

There is another article appearing in the paper that tells how to check for bollworms to determine when to spray.

The Floyd County Farm Tour is being held September 2 starting at the W.H. Nelson's Farm North of Floydada 1 1/2 miles on the Silverton Highway. The tour is scheduled to get underway at 8:30 a.m.

Stops include Soybean, Cotton and grain sorghum variety tests, irrigation systems, parallel terraces and other conservation work, improved pastures, and financing farm operations.

The tour is sponsored by the Farmers Hoe Administration, Soil Conservation Service, and the Agricultural Extension Service.

### The Teenager Looks At Drugs

This is the 3rd in a series of about 5 articles concerned with problems discussed at the Texas Youth Conference in Austin on July 31 - Aug. 3.

This week's article will be fairly short because the topic of discussion is drugs. There is not really a drug problem in Floydada but one could take place within the next year or so.

It is becoming progressively easier for young people to bring back pills and drugs from Mexico. This is a federal problem and the authorities are working on it. The step that we should take as citizens is to report any use of dangerous drugs; parents should discuss with their children the dangers of the use of any kind of drugs.

It was very alarming to me to find out at the conference that a person can become hooked on simple aspirins. Peppills and tranquilizers. These should be used only by prescription of a qualified doctor and the directions should be followed very carefully.

Parents should make certain they know exactly what their children are taking and how much of it. And teenagers should take the responsibility for the correct use of drugs.

Possibly the most common type of drug abuse these days, especially the 12-15 age group is glue - sniffing.

Parents should be on the look - out for any unusual symptoms in their child's behavior. Many children are driven to the use of drugs because of problems at home.

Within the next year we hope to have much more information on drugs and drug abuse so that all the citizens of Floydada will be well - informed.

Next week's article will again be concerned with driving.

Brenda Mathis

FLOYD DATA

Mr. and Mrs. Carl Plumlee had all of their children home with them over the weekend. They are Mr. and Mrs. Charles Plumlee and son of Los Angeles, Mr. and Mrs. W.B. Goss and son of Talledega, Ala., Bobby Plumlee and family of Amarillo and Mr. and Mrs. Johnny Hines and sons of Plainview.

"Eagle has landed" joins famous words.

## Please Don't Hurt Our Children . . .

**DEAR DRIVER**

Today, our daughter, who is six years old, started to school for the first time. Her brother was with her, but he's only nine himself, and he still looks pretty little to me. Their Cocker Spaniel, whose name is "Scoot," sat on the front porch and whined his canine belief in the folly of education as they waved "goodbye" and started off to the halls of learning.

Last night we talked about school - our daughter and I. She wondered what the teacher would be like . . . she hoped she could sit beside Mary (the little girl next door). She said her "letters" for me - just to be sure she knew them. Oh, we talked about a lot of things -- tremendously vital, unimportant things. Then she tried on her plaid pinafore to show me . . . and then to bed.

She looked so helpless -- sound asleep, with "Princess Elizabeth" (that's her doll) cuddled in her right arm. You see, I'm her daddy. When her doll is broken or her finger is cut, or her hand gets burned, I can fix it - but when she and brother start to school, when they walk across the street, then they're in your hands.

They're nice kids, both of them. They like to ride horses and swim and hike with me on Sunday afternoon. But I can't be with them all the time. I have to work to pay for their clothes and education. So please help me look out for them. Please drive slowly past the schools and intersections -- and please remember that children do run from behind parked cars.

**PLEASE DON'T HURT OUR CHILDREN**

**A PROUD DADDY**

**THIS MESSAGE SPONSORED IN THE INTEREST OF PUBLIC SAFETY BY . . .**

# Floyd County Hesperian

**WITH PLAINS NEWS by Mrs. Murray Julian**

Day night. Mr. and Mrs. Glen Whitfill and Cindy of Sweetwater, Miss Judy Whitfill and fiancé, David Allen, both of Alpine where they attend Sul Ross College, came Friday night to Mr. and Mrs. Alvin Nichols to celebrate the 75th birthday of Mrs. Whitfill's father, Alvin Nichols, and also the birthday of Cindy, who was 18. Other visitors included Mr. and Mrs. Johns Cox and Mrs. Margie Martin and Charlotte of Lockney, who visited in the Nichols home Thursday and Sunday evenings. Others who visited here Sunday and Monday at the Nichols were his brother, Mr. and Mrs. Mark Nichols of Sweetwater.

Mr. and Mrs. Horace Marble went to Mineral Wells Friday morning where they visited over the long Labor Day weekend with their daughter, Mr. and Mrs. Marvin Wells, Kim, Marlinda, and Kay. They are expected home this Tuesday.

Mr. and Mrs. Bruce Julian of Austin visited Saturday morning in Roscoe with the Terry Julians, then came here to spend the weekend in Floydada with Mr. and Mrs. Edell Moore, and here with the Murray Julians and the Kendis Julians.

**FOOD FOR HURRICANE VICTIMS, Floydada ministers Delmar Andrews, Floyd Bradley, Dwayne Grimes and C. B. Melton put finishing touches on food that was sent to the hurricane area via the Salvation Army last week. (Staff Photo).**

and D'Ann McClure spent Sunday and Monday here with their grandparents.

Mr. and Mrs. Raymond Upton, and Mr. and Mrs. Melvin Myers, Larry and Douglas went up to the Palo Duro Canyon Sunday night where they enjoyed a barbecue supper and attended a special showing of "Texas." This Monday night is the last showing this year for the popular show in which is depicted the history of Texas. Those who have not seen the wonderful lighting and scenes, will want to make plans early next summer to see it.

Mr. and Mrs. Jimmy Upton and daughter went to Abilene State Park in Abilene, where they attended a family reunion of Vicky's grandmother's folks, the Grants. The reunion began on Friday night and the group camped and fished during the weekend. Mr. and Mrs. Tom Pierce and Mr. and Mrs. Otis Johnson also attended.

Mrs. Bryant Higginbotham accompanied her sister, Mrs. Jim Magnuson and husband to Arizona Friday evening after school, and enjoyed a weekend of fishing and camping out. The Magnusons are from Amarillo.

Mr. and Mrs. Ennis Bishop, cousin of the Philip Smithermans, spent last Saturday night and Sunday here with the Smithermans and boys, Monty and Marc.

We are sorry to report that Carla Bean, daughter of Mr. and Mrs. Kenneth Bean returned Tuesday to University Hospital in Lubbock. She has had trouble bending her knee, which was recently operated on, and they took her back for therapy. Several from here visited her during the week, including the Philip Smithermans and the Walter Beans of Silverton.

Penny Arnold, daughter of the Fred Arnolds of Silverton, was crowned queen of the annual Silverton Young Farmers Rodeo recently and first runner up was Miss Pat Jarrett, daughter of Mr. and Mrs. Claude Jarrett. Jarrett is principal of the South Plains school.

Mr. and Mrs. Don Marble spent the past weekend in Ruidoso with friends.

Beverly Kinnibrugh, who is in room 808 at Methodist Hospital in Lubbock, is getting along just fine from the disastrous fall from the horse she was riding in Alpine on a band trip. She is still suffering a good deal, but her broken collar bone and broken leg are healing, and she hopes that she may be brought home sometime this week. Her mother spent last Thursday with her, August 28, and had a beautiful birthday cake brought in for her on the occasion of her birthday. Mrs. Kinnibrugh teaches second grade in Floydada at Duncan Elementary School, but took Thursday off to be with her.

Mr. and Mrs. Tillman Powell and family and Mr. and Mrs. Tommy Powell from Omaha, Neb. left last Wednesday to go to Anna, Texas, where they spent the rest of the week with Tillman's parents, Mr. and Mrs. W. S. Powell and several sisters and brothers near there. Tillman's sister, Mrs. Bobby Adams, her husband and son, Larry came home with them Saturday and spent the Labor Day weekend here with the Powells. Tommy, from the Offutt AFB at Omaha, has spent the past twenty days here on a furlough, and with his wife will return Tuesday to his base at Offutt.

Mr. and Mrs. Roy Burks of the Ballinger Gin, where he is manager, arrived here Saturday night and with Mr. and Mrs. Bryan Karr went to Palo Duro Canyon, where they attended a showing of the spectacular, "Texas". They spent Sunday here with the Karr family. Mr. and Mrs. E.P. Pritchett visited with them Sunday afternoon.

Mr. and Mrs. Baab from Beaver, Oklahoma were here from Friday of last week to visit here in South Plains with a daughter, Mr. Dean Stewart and family, and in Plainview with relatives. The Stewarts spent the Labor Day weekend on a fishing trip to New Mexico.

The South Plains Baptist Church revival begins Sunday with Robert Perrin, evangelist and Vance Zinn, singer. Morning services during the week will begin at 11 o'clock, with everyone bringing a covered dish to put together for the noon day meal, and the night meal will be served at the parsonage. Preaching at night services will begin at 7:30 p.m. Everyone is cordially invited to attend.

Jimmy Pritchett, son of Mr. and Mrs. E.P. Pritchett, is now at Fort Monmouth, New Jersey, where he will have about seven weeks study in the signal corps. He is in the third week there, and is stationed with the United States Army. Mr. and Mrs. Pritchett are in Houston, where Price is doing his internship at the hospital, and Patty is teaching fifth grade this winter.

Frank D. Jones, who was headed for Vietnam, is now scheduled to go to Louisville, Kentucky, and will spend the next year there. He is in the Armed Forces, and as soon as possible he will send for his wife and 9 months old son, Wilbur Dock.

Mr. and Mrs. Jay Frank Parks from Pampa spent the Labor Day weekend here with his parents, Mr. and Mrs. L.H. Parks.

Mr. and Mrs. Keith Marble, Dwayne and D'Lee spent the Labor Day weekend in Amarillo, where they attended the drag races, and other places of interest, and visited with her brother, Mr. and Mrs. Jerry Robertson.

Mr. and Mrs. Fred Marble, Mike, Kelly and Cindy went to Dallas to spend the weekend with her sister, Mr. and Mrs. Bill Schenck and family, and enjoyed several days with them,

coming home Monday night. Mrs. Jack Manley, of Amarillo, niece of Mrs. C.F. Fortenberry, who underwent brain surgery last week in St. Anthony's, is getting along just fine, and all the relatives are pleased with her progress. The Fortenberrys spent part of their weekend in Amarillo.

Mr. and Mrs. Johnny Calahan from Texas A&M College were home with his parents, Mr. and Mrs. Shelby Calahan Saturday, Sunday, and Monday.

**Caprock Water Utilities Assn. Meets Here**

The Caprock Water Utilities Association held its regular monthly meeting at the Duncan Elementary School in Floydada at 8:30 p.m. Thursday, August 27, 1969.

Meeting was opened by President Maynard Brown. The welcome address was given by the City Manager of Floydada, Bill Feuerbacher.

Guests were recognized and welcomed. President Maynard Brown presented a program consisting of a question and answer period, which was very interesting and beneficial to all.

H. G. Wilson acted as secretary in absence of Secretary George Willis.

Johnny Enloe was appointed to the certification committee. A motion was made and seconded to pay \$35.00 to Matador

*Teenager Looks At Driving And Insurance*

I was at first hesitant to include this article in my series but after talking with about twenty adults I found out that this is concerned with the sort of things which have been bothering them for some time. In case you are completely confused by now, the subject for concern is the part that responsible adults should play in seeing that drivers of all ages are safe.

The first problem that should be discussed is that of insurance. I am sure that many of you have been involved in an accident, with someone who has not had insurance coverage, and this puts you in a very bad position. One of the very first steps that parents should take after a child of theirs begins driving is to see that that child is covered by accident insurance (this should also include complete coverage for the car.) This is not only for the family itself but also is for the good of anyone else involved in an accident with that child. In simple terms it just makes good sense to have your family covered and safe-guarded.

The next problem is perhaps one of the biggest in Floydada. It is the under-age driver; the "little darling" that mom and dad give a set of keys to a "wee" bit early. Well, welcome to the world of common criminals, mom and dad, because when you allow your child to drive without his or her license that is exactly what you have become. Now aren't you a fine example for your children; don't you really deserve a lot of respect; aren't you a great, loving, and responsible parent; sorry, folks, the answer to the above questions is NOT yes. Contrary to popular belief your child will not stay at home and

for part of the meal at the joint meeting between the Caprock Assn. and the Greenbelt Assn. in September.

Thirty-nine members and guests attended the meeting.

waste away because his birthday came too late and he cannot obtain a license for a year or two. What will it take to make some of you see that in the long run you are doing your child more harm than good by allowing him to drive illegally. In the first place you, as an adult (ADULT? - sometimes I wonder) are putting yourself in a pretty shaky position as far as the law is concerned. Did you know that you will be held responsible for any damage your little darling does to anyone or anything else?

If this doesn't make you stop and think then how about the personal side of the issue? Do you REALLY think that a child who is not old enough to get a license from the state of Texas is capable of operating a motor vehicle on the highways? At all times? In all conditions? Do you think that as a parent you can know just when your child is old enough to handle a car properly? Even if you are one of the lucky people to be blessed with a very talented youngster, have you forgotten the law? Isn't it about time you realized that those "grumpy" old men put a restriction on the legal age limit for a purpose - I'm willing to bet Your Child's Life they didn't do it just for the fun of it - ARE YOU?
