Law Officials Busy With Wreck, Vandalism, Rape Investigations

Victims In Hospital, Jail, Court

The Floydada office of the Texas Department of Safety and the Floyd County sheriff's office have been busy over the past weekend investigating wrecks, vandalism and one charge of rape.

It all began with a two vehicle accident near the Floydada cemetery Friday afternoon. Then there was a chemical truck turn - over in the Blanco Canyon Saturday afternoon.

Saturday night five Floydada juvenile boys used a pickup to knock down every highway sign and some mail boxes between Floydada and Sandhill then one of the boys was charged with rape of a 15-year-old Petersburg girl.

A Floydada man, Herschel D. Hammonds and a Lubbock man, Darris Linder, 26, were injured in a two vehicle smash-up last Friday afternoon at an intersection of a dirt road and the Silverton Highway, just north of Floydada Cemetery.

Both men were taken by Moore - Rose ambulance to Caprock Hospital and Linder was later transferred to Lubbock Methodist Hospital. According to a hospital spokesman Linder is suffering from a fractured pelvic, front and back, and a deep laceration of the left knee. Hammonds was released from Caprock Hospital Tuesday morning. He was treated for rib injuries and lacerations.

Investigating Texas Highway Patrolman said Hammonds, who was driving a pickup, came onto the highway from the dirt road, into the path of Montgomery Ward service van, traveling north. The van overturned landing in the barrow ditch west of the highway. Floydada Fire Department volunteers hosed the vehicle down to eliminate the possibility of a fire, as fuel poured from the ruptured gas tank.

Officers said a citation was given Hammonds for failure to yield right of way.

TRUCK TURN-OVER
Donnie C. Applegate of Lubbock was coming down the south side of Blanco Canyon in a truck loaded with chemicals about 3:40 Saturday afternoon when a tire blow-out caused his truck to swerve up the canyon wall.

The truck then turned over, fell back upon the highway.

Highway patrolman Bud Rainey reported that Applegate might have been killed, but had his safety belt fastened and remained in the cab.

He was not believed seriously injured, and was taken to the Lubbock hospital. Fifty-five gallon barrels of chemicals were scattered over the highway. The truck was owned by the Helena Chemical Company.

City Cancels Rural Fire Protection

In a long meeting Tuesday night the Floydada City Council agreed to discontinue fire protection to homes and businesses outside the city limits effective midnight, October 30, 1969.

"We have no other choice, simply because we do not have the money to continue this service," Mayor Jimmy Seay told a Hesperian reporter Wednesday morning.

"We regret that we cannot afford to continue this service outside the city limits, and we are still open for negotiation with the Floyd County Commissioners Court. The Council is ready to negotiate or discuss fire protection for the rural area with the commissioners at any time. . . we solicit the public's help and suggestions at any time in solving this very important problem," Mayor Seay continued.

The county commissioners have offered the city of Floydada \$3,000 for help in maintaining the fire department. The city has turned this offer down and continued its request for \$11,000 to help buy a new fire truck and \$8,000 per year

on maintenance of the fire department.

SCS Director To Be Elected

An election in sub division #1 of the Floyd County Soil and Water Conservation District will be held at 8 p.m. next Tuesday, Oct. 7 at the Lockney Co-op Elevator in Sterley.

Purpose of the election will be to elect a director to serve on the Floyd County Soil and Water Conservation Board for the next five years. Herman R. King of Lone Star is the present director. Election will be by secret ballot and the director elected must live in sub-division #1. A director can serve consecutive terms.

All eligible voters are urged to cast their ballots on Oct. 7. An eligible voter is one that is at least 21 years of age, owns land in the sub division and lives in Floyd County. Wives of eligible landowners can vote and should do so.

Sub division #1 is the northwest part of the County starting at the town section of Floydada. It is bordered by the Floydada-Silverton highway on the east and the south border is the Floydada-Lockney highway.

Grain Sorghum Producers Referendum Saturday

Saturday is "D Day" for the Grain Sorghum Producers Association. This is the date farmers will vote on the Texas Grain Sorghum referendum.

Ballots must be received in the GSPA offices, 1212 14th Street, Lubbock, not later than next Monday, Oct. 6.

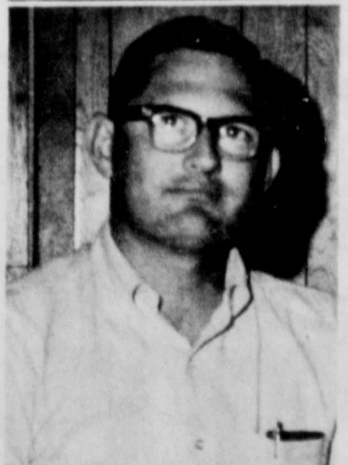

Twenty-four producers have been nominated for the Grain Sorghum Producers board. The 12 receiving the greatest number of votes will be elected to administer the GSPA promotion and research program.

Officials of the organization point out that promotion has built grain sales from about

200 million bushels in 1956 to markets for the record crop in 1969 of an estimated 758 million bushels.

"We still have the ability to produce more as the market will take it at prices farmers can afford to grow it," they note. "Promotion is the answer."

Should the October 6 referendum, asking five cents per ton produced from farmers, be carried a number of research items would be undertaken.

Caprock Chat

FIRE PROTECTION was cancelled at midnight Tuesday for other residents outside the city limits, I am concerned for my home.

It seems that it is up to the Commissioners Court to make sort of arrangements to protect us who live outside the limits of Floydada, and pay taxes which should insure protection.

IT'S BEEN a weekend and week of accidents, and I want to mean of thanking all the folk who gave us tips, so that we do a good job of covering the accidents with pictures.

Particularly like to run pictures of accidents, but we might awaken someone else to be more careful. . . alert; these pictures might save someone's life. Illustrate very graphically what happens when we are in the case of the youth who got in trouble, some of them happen when persons become intoxicated on alcoholic drinks.

Print names of juvenile offenders, but we run the

Spider Found Is Identified As Poisonous Brown Recluse

A spider, found some two weeks ago by Barry Hale, has been positively identified as the Brown Recluse Spider. Identification was made by the Area Extension Entomologist located at the South Plains Research and Extension Center near Lubbock.

The Brown Recluse is a poisonous spider that is found in the South and West part of the United States. The spider recently received quite a lot of publicity because of the death of a Lovington man in Lubbock that was bitten by a spider. The bite is very painful and it causes a lesion that heals slowly,

however this varies with the sensitivity of the individual. The Brown Recluse has a body about 1/2 inch in length with long legs. The color varies from an orange yellow to a dark brown or almost black. The body has short, slight hairs. The most distinguishing fact about the spider is a guitar or violin shaped marking immediately behind the eyes with a short distance median groove forming the neck of the guitar.

If the spider is found in the home, control methods of fumigation or other satisfactory methods may be used.

Ohmer Parrish Loses Life In Tractor Accident

Ohmer Parrish, Floydada resident, was fatally injured yesterday morning near Lakeview when he was pinned beneath a tractor that overturned with him.

Parrish was running a mowing machine behind a tractor on the roadway about a mile north of Lakeview and a half mile west, when the tractor overturned, falling off the west side of a culvert. The machine was going west when the mishap occurred between 8:15 and 8:30.

A. J. Edwards, who was also running a mower nearby, saw the tractor topple off the culvert, came to the assistance of Parrish, but was unable to free him. Edwards said that Parrish was caught beneath the water in

the ditch by the overturned tractor.

Edwards started down the road for help and met Weldon Hammonds, who in turn called for ambulance, wrecker service and law officials.

The tractor was lifted before Parrish could be removed from the water. He was pronounced dead at the scene by Justice of Peace, S. J. Handley.

The victim was born at Cone, Tex., Feb. 20, 1899 to the late Mr. and Mrs. Rufus Parrish of Floydada. He and the former Carrie Mallow were married in Crosby County on Jan. 31, 1921. They moved to Floyd County in 1932 and Parrish was in the water well drilling business for

Producer Board Announce Dividend

The Board of Directors of Producers Cooperative Elevator announced Wednesday a cash dividend of \$27,576.75.

The checks will be distributed at the annual meeting of the association in November. The announcement was made in cooperation with October

being cooperative month for Texas.

"Cooperatives are one of the essential tools for maintaining farm income" was a statement recently made by one of the Republican spokesmen for the Treasury Department.

details of their offenses, so that others may see there is punishment for their wrong-doing.

AFTER HEARING DON JOHNSON of Plains Cotton Growers Tuesday night, I feel just a little encouraged about the cotton business. It was just a few years ago when the U. S. Government was sitting on 15 million bales of cotton. Now that bale count is down to around six and a half million bales.

Sears and Penney's have gone back to making 100% cotton sheets instead of blends with synthetics, there is a slight up-trend in use of cotton by American mills.

Of course we still have the problem of meeting prices on the world markets. . . other countries are underpricing us. Another change in cotton marketing is revealed that now the cheaper short staple cotton is more in demand. . . just after we had learned to raise the longer staple variety.

We lost some families in Floyd County when we got cuts in cotton acreage allotments some four years ago. It just takes less people to farm less acres. However, the government layout money has helped keep our farmer in business until the supply and demand can right itself.

I don't know what the price of cotton will be this fall, but after looking over the county's crop, I feel we can very easily double that 40,000 bales we made last year. . . if the creek don't rise . . . and if we have an average first freeze of say, November 3.

THE STATE SALES tax went up again yesterday. . . from three to three and one-fourth percent. Of course towns like Lubbock, Plainview, Lockney will go up to 4 1/4%. . . so it still pays to trade in Floydada.

For the convenience of you merchants we have the new tax charts for figuring 3 1/4 interest on purchases made. . . come by the Hesperian, we'll give you one.

I WAS OVER at Methodist Hospital for a board meeting the other day, and following lunch we received a guided tour of the hospital. Now, I know why they charge \$40 per day for a private room over there. . . it's the \$13,000 daily payroll that makes it necessary.

I've been visiting my mother over in the old Plainview Hospital and although the nurses and doctors are excellent, the old room for \$35 isn't much of a bargain.

Actually, when you compare hospital rooms, our own Caprock Hospital offers bigger, newer and more modern rooms than any area hospital we know, and for only \$30 per day.

FLOYD PHILOSOPHER Says World Needs A Commissioner Of War To Determine Who Has Won

Editor's note: The Floyd Philosopher on his Johnsongrass farm once more has his mind on war, his letter this week indicates.

Dear editor: I hadn't paid much attention to it, you let a man try to keep up with everything on earth and he'll wind up not knowing much of anything for sure, but according to a copy of The Avalanche I picked up on the road near this farm yesterday in an effort to keep America beautiful, Israel and Egypt have been fighting off and on for the past couple of years, and this almost floored me.

Why it was only two or three years ago that Israel whipped Egypt in exactly six days. I remember reading about it and how all the world was excited over how fast Israel won and how whipped Egypt was, and yet here they are fighting again.

You mean to say wars these days are like the pennant race in baseball or football? You start over again every year? You beat us this year but just wait till next year?

Obviously what the world needs is a Com-

missioner of War, to set up some rules. Heretofore, when one country whipped another you could figure it'd be at least 20 years before the loser could field another team, but nowadays no country seems to know when it's whipped and nobody ever wins the crown and the world series of wars never comes to an end.

I don't believe it'll work. If nobody ever won the World Series in baseball, if the gammas dragged on into winter and then on into next year and the year after that, the fans, given no chance to whoop and holler, would gradually lose interest. Sooner or later somebody is supposed to win, squirt champagne around the locker room, take the trophy and go home for a while, but dragging the fight out forever sure gets monotonous. It puts a strain on the gate receipts.

In case Congress is looking for a High Commissioner of War to set up some rules and get some dependable won-lost statistics, I would like to say I'm not a candidate.

Yours faithfully,
J.A.

is, Carl Plumlee brought in a huge "goose necked" cucumber this week. Believe he said Howard Gene Bishop grew it. Then we have a picture of a tall morning glory vine grown up the TV antenna by Mrs. Harv Thomas.

Like I've always said, we can grow anything in Floyd County and grow it bigger and better!

I'M SURE You have heard the expression "those sticky flies." Well, I'll tell you just how sticky they are. Tuesday morning when I headed for town, there were five flies on my radio antenna. After three miles and a speed of 70 miles per hour, they all finally lost their grip.

TALKING ABOUT high hospital room costs. . . noticed an AP story in Monday's Avalanche where the cost of some private rooms in Boston will go up to \$100 beginning October 1. Private rooms now are \$70-\$90.

LITTLEFIELD got a lot of publicity in the Lubbock newspaper last week. It seems they have opened a camping park. . . where the person coming through can stop, get water, electricity for his house trailer or camper and enjoy spending the night in Littlefield.

Floydada could very easily do the same thing by installing plug-ins and a few faucets in the little park near the city swimming pool. In the summer time campers would enjoy the swimming pool.

Wish we had some group who would sponsor such a project.

FACTS FROM the National Cotton Council:

"What did the astronauts have to do immediately upon exposure to the air of the good old planet Earth? If you were watching the re-entry or listening to reports of the event like nearly everybody else on earth, then you may remember that the "moon man" had to put on something called "bio-isolation garments" before they could even get out of the spacecraft. The garments are called BIG suits for short. . . but by any name, they are really ordinary old-fashioned cotton, a sturdy fabric that's been on earth for something like seven thousand years. These made in the NASA labs prior to the moon trip showed a garment made of closely woven cotton fabric reduces the number of bacteria shed into the air. The scientists needed a material that would cut down on the moon-dust bacteria shed into the earth's air, so the cotton fabric was chosen for the first garments the astronauts donned after splashdown. The BIG suits, in dark green cotton, are one-piece and loose-fitting. They have an attached hood and rubber face mask."

THE PROUD FATHER congratulated his son on his thirteenth birthday-anniversary and asked him how it felt to be a teen-ager. "It's all right, I guess," the boy replied, "except for the reputation."

DAD: "Did you have the car out last night?" Junior: "Yes, Dad; I took some of the boys for a run around." Dad: "Well, tell them I've found two of their lipsticks!"

OLD LADY: "Little Boy, why aren't you in school instead of at the movies?" Little Boy: "I've got the measles."

SARA: "Our dog is just like one of the family." Clara: "Really? Which one?"

A GOOD SALESMAN is a fellow who can convince his wife that she looks fat in a fur coat.

HE: "WOULD you marry a sap just for his money?" She: "Are you gathering statistics or proposing?"

Highway Patrol Needed

rising traffic volume, the Texas Department of Transportation has authorized an increase of 100-man ranks of highway patrolmen. This authorization was issued to C. W. Bell, Receiver of the Texas Department of Public Safety, on October 21, 1969. Bell stated that two in-creases have been authorized by the legislature to help meet the needs of the state. First, the salary of highway patrolmen has increased 10 percent; secondly, the salary of highway patrolmen has increased \$30 per month. REASONS: The increase must be between \$25 and \$35, a height of 68 inches, a weight of less than two hundred pounds, and one-half inch of height or more. The applicant must be a high school graduate or equivalent. They must be of the United States and of good moral character. They will take their oath at the Texas Department of Public Safety. The training course is approximately four weeks. Upon graduation, the applicant will be assigned to one of the four units: Highway Patrol, Highway License and Vehicle Inspection, and Highway Maintenance. RECEIVED: The Legislature meets each year in January. The Legislature has a year sick leave accumulation to a maximum of 10 days, \$10 per day at the end of 25 years, a retirement system and/or years of service when the station as a law, group health insurance and various other benefits are provided to per-sonnel. The duties of a patrolman are: individual's emotional, and physical. It is also an honor which provides one of the most rewarding careers in public service. The course of their Law Enforcement training is sub-stantive. Criminal and Accident Investigation, Narcotics, Traffic, Firearms, and First Aid are one of the ap-plicable subjects that are taught in the classroom. The course includes self-protection of judo, jujitsu, and various protection meth-

speed pursuit and apprehension of a flagrant traffic law violator or wanted criminal. His duties may also consist of accident investigation, directing traffic, regulating truck traffic, motor vehicle inspection, and testing applicants for a drivers license. Also, by his presence on the highways, the patrolman has the opportunity and duty of assisting motorists in distress, whether it be helping change a tire or rendering first aid to someone critically injured in an accident - this aid often being the difference between life and death. Because of the short time remaining to test applicants, immediate inquiry is urged for young men to contact the nearest D.P.S. office or patrolman.

Life In Israel Described By Son Of Local Woman

Tommy Sharp, son of Mrs. Elva Reeves, begins a two part series of life in Israel with this issue. He was born in Floydada.

Oct. 24, 1965 my wife, three children and I landed in Israel with the intentions of living a great deal of our lives there. We knew before we went that you had to have a temporary residence visa. We checked into all the details at the Jewish Agency at L.A., Calif. but they tried to discourage us. Knowing the problems we would be faced with, but we wanted to go anyway, so we went on a tourist visa with the belief in mind that we could get it changed after we got there.

We had heard a lot of stories about Israel; that they needed people to come there and help build up the waste land, and that they needed skilled labor, and I thought we would be granted a visa. It is of necessity because it is unlawful to work there without it, and I had to find a job right away, since it took our life savings to get there. When we arrived at the port I had \$300.00 in cash, one suit case each, and two Army duffel bags with clothes.

We wanted to live in Jerusalem, so we went to Jerusalem, got a hotel room that night. The next day I went house hunting. We didn't know a soul in Israel but had heard there were some Americans living there.

I looked up this one American that I had heard about and he took us in until we could get located. The next pressing thing was to straighten out that visa problem. This proved to be a much bigger task than I had thought it would be. I went to the visa department and filled out the papers then all I could do was wait. We were allowed to stay in Israel for three months on our tourist visa. Three months went by, still no visa. I went back to the visa department time and again, trying to convince them that we would be of use to the state, but my words were not convincing - they had an unemployment problem at that time. I didn't have the money to return to the U.S. even if I wanted to, however, I was not completely discouraged at this point.

I was determined to make every effort to stay since it took so much to get there and we loved Israel from the start, since it is the land of the Bible, the land of the Prophets, and most of all, the land where the Saviour was born and lived His life.

After our three months were up, we were in the country illegally, the visa department sent me a notice that I had to leave the country within five days or they would send the police out to pick me up.

I didn't feel like I had committed any great crime; we let thousands of Israelis come to America and according to international agreement they did not have grounds to refuse me the right to stay.

I then went back to the visa department and went past the office that I had been working with. I went to the Ministry of Interior who was at the top of the visa department for all the State of Israel. I didn't ask for an appointment - I knew I wouldn't get one. I walked past his secretary and up to his desk - he seemed a bit surprised since it is not his duty to handle individual cases.

I told him my problem and he listened. Well, we talked for awhile and he said, "I will make you a deal. Go out on one of our farms and work for three months and I will consider your visa."

This I did. Three months went by, still no visa. I don't want to give anyone the wrong impression of the Jewish people, we met a lot of very wonderful people there and I know they have to be very careful about who they let come there, since they are at war with the Arabs.

Year 1967 still no visa. I was about ready to give up on the visa and the 6 day war broke out. The Army took every able-bodied man and put him in uniform. They didn't take me because I was an American citizen, and I didn't volunteer. I knew if I did I would lose my U.S. citizenship - our government gave us a chance to get out before the war broke out. I felt if there was war that Israel would win and I knew if I left now that I never would get that visa. We had just moved out of Jerusalem just before the war and that is where the heavy fighting was.

My American friend, the one who took us in, had a bomb to fall in his front yard. It blew holes in his doors and broke a lot of dishes and did a lot of damage inside the house. He was in his basement when the bomb fell. The war started in June, just at wheat harvest. They knew they had to get the wheat cut but they wanted to make the front lines as strong as possible. The first act of war was the setting ablaze of a wheat field by the Egyptians.

Carter Re-Elected To Plains Cotton Growers Board

Lester Carter of Lockney was re-elected to serve on the Plains Cotton Growers board at a dinner meeting in Lockney Restaurant Tuesday night.

Don Marble is the other Floyd County director.

Don Johnson of the Plains Cotton Growers spoke to the group about recent developments in Washington as they concern the future of cotton. He was somewhat optimistic about use of domestic cotton in the USA, but said foreign countries are underpricing USA cotton.

"Our eight million bales is competing with 52 million bales produced per year around the world," he concluded.

Thieves Take \$250 In Valuables From Ulmer Home

A thief or thieves entered the M. A. (Macon) Ulmer home, four miles northwest of Lockney and confiscated \$250 to \$300 worth of jewelry, cash and other items.

Ulmer says the break-in occurred between the time his wife departed for work "about 9 o'clock" and the time three Ulmer children - Terry, Anne-Marie and Rosemary - returned home from school. Law officers are searching for the suspects.

Ulmer theorized that the thieves were frightened away "when somebody came down the road." The house was ransacked as the culprits searched for valuables.

daylight underneath the football from where he was, Floydada fans sure couldn't. Doubts like these may be solved on film so that calls for attending the Quarterback Club meetings if you really want to know. That's Monday night week following the home game with Lockney.

SITTING here looking at my typewriter today, which won't think for me, makes me tempted to hit below the belt on the subject of "something for the kids to do in Floydada." We are listed as a county seat, our population shows to be growing, we have wonderful schools, our taxes are adequate, we have a nice shopping area, 22 churches, civic clubs, a summer baseball club, Boy Scouts, Girl Scouts, a downtown and drive-in theatre, an airport, a wonderful hospital and eight highways leading into Floydada, but what in the way of recreation do we have for the youngsters? Sure, you say, especially those without children, there is recreation here for our kids.

WHAT KIND? Oh! they can play golf on a nine hole course at the Country Club if your father is able to afford a membership. They can go swimming from the latter part of May until the city pool closes in mid-August. We have a recreation center if you like to play pool and such, but what do we have in town that offers something for the entire family in the way of sports. Nothing.

This is what I'm leading up to, why not a playground, starting off with a miniature golf course? Cost money? Sure it does, but I think it will be worth it.

We met a couple while on our trip, who were retired. With nothing to do they decided to put in a playground and under their supervision the place has grown in leaps and bounds. They had two miniature golf courses side by side; they had game machines, snack machines and a place where spectators could watch the sportsmen play. Who were their patrons? Parents, along with their children, from ages of toddlers to high schoolers, all enjoying a family game. I think this is our main problem with youngsters in this area, nothing

for them to do. I'm not speaking of church, movies and school activities, I'm talking about sports outside the school, a "together" family sport. Most adults say "keep the kid busy and he won't have time to get into trouble." Sure that's a very good phrase, but what do you want to do work them 24 hours a day? They have from five to six hours at school that taxes their brain and body just as adults who put in eight to 10 hours a day working, they have their homework and chores too after school. Some are not old enough to drive out of town for something to do and most of the time the parents are too busy to take those who can't drive. OK, so I'm sticking my neck out, snarl at me for mentioning "something for our kids to do," but these youngsters are our future citizens, they won't be in Floydada five years from now because "there's nothing to do here."

I don't know how a person may go about putting in a playground, I don't know where you might secure the money or the land, I'm just putting the idea there for what its worth. With eight highways leading into Floydada not only would a playground have local trade but travel trade as well. Its something to think about.

WE have new tax rate sheets at the Hesperian for the asking.

THE A. T. Hulls received a real long letter yesterday from son David, who has been in Vietnam. It contained some three lines but covered a whole page. "I'm on my way to Okinawa." Needless to say it made mother and dad mighty happy. At present it is not known how long David will remain on Okinawa before coming home but his time is up in February, 1970.

THIS month, October, brings us a time - change. Think it the last Sunday in this month, which would be Oct. 25th. Just thought I would give you something to look forward to, that and Halloween.

THATS meddlins this week.

Bill Norman Utilizes Heart Pacemaker

By RAY PURCELL
Social Security Representative

HAVE HEART SURGERY - OR DIE. This was the decision facing Bill Norman of Dougherty about 3 years ago.

Mr. Norman had a cauliflower aorta valve in his heart and it was necessary to remove this and replace it with a plastic valve. In order for the plastic aorta valve to function, two small wires had to be extended from the valve down the rib cage to a device known as a "Pacemaker". The Pacemaker would be sewed to the inner side of the rib cage where it could transmit small electrical impulses causing the plastic valve to open and close.

The big decision was made and a team of doctors labored in surgery for hours. Mr. Norman's condition grew progressively worse for several days after surgery. The Pacemaker was out of time with his heart; "not in phase," the doctors said. His heart kept beating slower and slower until it slowed to 38 beats a minute. At this critical time the Pacemaker made an automatic adjustment and "phased in."

The crisis was over. Mr. Norman's heart beat normally for more than 2 years. Then the batteries began to run down. His heart slowed to 54 beats a minute. His doctor told him he needed a new Pacemaker.

Mr. Norman again entered the hospital. The doctors labored once again for a second lease on life. The second Pacemaker was fitted in place August 13, 1969 and the patient opened his eyes thankful that he was alive and thankful for recent medical research and progress. A new atomic Pacemaker had been perfected and installed in his chest. "This one should last 50 to 100 years," his doctor told him.

He was thankful, too, that he attained age 65 in August 1969 and became entitled to Medicare on August 1. Medicare will pay most of his medical expenses in and after August.

Social security records are confidential, of course. However, Mr. Norman has consented to the publication of his story so that others might learn more about their social security protection.

Rites Pend For Mark Parkey

Funeral rites are pending at Moore - Rose Funeral Home for Mark Parkey, 13 year old son of Mr. and Mrs. Bernie Parkey, who died about 2:30 yesterday afternoon in the Scottish Rite Hospital in Dallas.

Young Parkey, a victim of polio since the age of six, underwent corrective surgery Monday

and was progressing satisfactorily until contacting pneumonia Tuesday morning.

He was an 8th grader in Floydada Junior High. Survivors include his parents; a sister, Polly of the home grandparents, Mr. and Mrs. Edd Mancy and Mrs. D.J. Parkey of Floydada and several uncles and aunts.

A GROUP OF Boy Scouts visiting an FBI office stopped to view the pictures of 'The 10 Most Wanted Men.' One boy pointed to a picture and asked if that really was the photograph of the wanted person. Assured that it was, he said, "Then why didn't you keep him when you took his picture?"

New Oil Well East Side Floydada

The Hesperian learned at press time yesterday that another Cockrell Oil Company wildcatter will soon begin drilling just east of the Floydada city limits. Bulldozers were building a caliche road south of the Ponderosa to the drill site.

Drill site is just off the southeast corner of the United Transport Company.

This is the third wildcatter for Floyd County in the last four weeks. One is south of Harmony community center one is four miles east of Lockney.

Water Plan Work Proceeds Despite Bond Vote Result

AUSTIN — Work is proceeding on the Texas Water Plan, despite voter rejection Aug. 5 of a \$3.5 billion bond issue which would have helped finance municipal and industrial water supplies as a part of a \$10 billion construction program.

Members of the Texas Legislature, by providing an extra \$1,000,000 a year for the Texas Water Development Board, have in effect endorsed the board's intention to proceed with the planning program.

The Legislature also created a powerful legislator — citizen committee to have hearings, investigate alternate means of financing, look into the effect of the water development plan on the ecology and other matters, and bring back recommendations to the Legislature in 1971 on what to do about it.

Gov. Preston Smith has not yet named the three citizens to serve on the committee. Nor have Lt. Gov. Ben Barnes and Speaker Gus Mutscher named their three senators and representatives.

Clayton Comments
But, as Rep. Bill Clayton of Springlake, House sponsor of the resolution, puts it: "Their job will be to find out what objections people had to the bond proposal, so they can be met when a financing plan is proposed to the people again."

Actually, the Texas Water Plan is in effect, and the Aug. 5 defeat of the bond issue by a margin of 6,277 votes does not change it. It will remain in effect as a guide to development of water resources, to be considered by the Texas Water Rights Commission when it has hearings on each project in the plan through the years.

Rep. Clayton, whose job outside the Legislature is as director of Water, Inc., a non-profit group set up mainly in West Texas, feels that the finance plan should be submitted to the voters again in 1971, or in 1972 at the latest.

Officials of the three federal agencies working on phases of the plan say they still have their orders from Congress. Both the U. S. Army Corps of Engineers and the U. S. Bureau of Reclamation are continuing their studies related to the plan.

Basin Studies
The Corps of Engineers has several basin studies under way in Texas. In addition, it is making a study of the water needs and supplies of the Lower Mississippi River to see whether water can be spared from that stream, below New Orleans, in flood times, to supply needs of Texas.

The Bureau of Reclamation is making a study of the feasibility of a canal from the Mississippi to West Texas, and is refining its earlier study on a Gulf Coast Canal to carry water to the Houston, Corpus Christi and

Lower Rio Grande Valley regions. The U.S. Geological Survey is studying the Ogallala formation in West Texas, as a

gum Producer's Referendum is a must in Floyd County," according to State Representative Jones of Lubbock. Mr. Jones, chairman of the Agriculture Committee of Texas House of Representatives stated, "those of us in the state and national legislative bodies are watching to see if farmers are really concerned about their problems. If farmers are not willing to invest 5 cents per ton in working on their own problems, why should they expect the legislature to worry about them. Should farmers show enough concern to join together in finding solutions, then I can assure you that my colleagues and I stand ready to assist any way we can." Groups who are not interested in working on their own problems receive very little sympathy from those not related directly to agriculture who are responsible for spending tax money. When insects, disease, and other problems need immediate attention, the legislature is usually willing to help solve them when the farmers themselves show enough concern to help with the costs. For an example, "the boll weevil program would not have gotten off the ground if the farmers had not shown

enough concern to help finance it," Jones added.

Representative Jones stated that he was pleased with the peanut growers approving their referendum by an 84 majority and looked for the grain sorghum farmers to do equally well.

The Grain Sorghum Producers Association is sponsoring the referendum whereby grain producers within a 29 county area vote on a proposition of collecting five cents per ton at first point of sale or processing to promote the sales and carry on research vital to grain production. Representative Jones encourages all farmers to be sure to mark their ballots. Ballots must be returned by October 6 to GSPA offices. Additional ballots may be obtained at the local county agent's office or at GSPA's office in Lubbock.

Estimates Disputed
One major part of the Texas Water Plan, the population estimates to the year 2020, have been attacked locally as being too low, and statewide, by the Committee of 1,000 which opposed the bond issue, as being too high. They are not being touched, yet, but will be re-worked after the 1970 census. One of the jobs of the interim committee will be to try to work out the rivalry between the two University of Texas experts on population. The Center for Population Research and the Bur-

Voter Registration Starts October 1

Persons 21 years of age or over and those who will become 21 in 1970 wishing to become qualified voters in elections to be held from March 1, 1970, until February 28, 1971, may apply for voter registration at the office of C. J. Payne, Floyd County tax assessor-collector. Payne's office is located in the courthouse at Floydada.

Voter registration period extends from yesterday (Wednesday) until January 31.

"One change made in voter registration law requires each person who registers to file an application to the county tax assessor-collector," Payne says. "This application must be filled out by individuals who register in person as well as those registering by mail."

In the past, prospective voters registering in person were only required to sign the voter registration certificate.

Those who registered in 1969 may expect a pre-printed application through the mail within the next few days. This application will be enclosed with most of the 1969 state and county tax statements. It may be signed and returned by mail.

Chairman Howard Rose of the Texas Water Quality Board told the staff at its last meeting to give top priority to the multi-agency federal-state-local study of Galveston Bay and its ecology. He said facts will be needed the next time a finance plan goes to bal, to answer the concern about the way which led to heavy defeats for the bond issue in the counties along the bay.

The way things look now, the Federal reports will be going to Congress in 1973. Clayton feels that by then, Texas must be ready to say that it will pay its share, if Congress is to consider the proposal for massive Federal loans seriously.

Wylie And Rose Football Contest

Wylie and Kim Rose were the winning entry in the contest last week. They received the \$7.50 first prize. They missed only three points. Wylie - Abernathy - Vernon and Anner City.

Others who missed only four games, but missed the tie-breaker total of 35 include Bill Hendrix, Mrs. Jerrold Vinson, W. O. Baker, Harvey Allen, Tex Morren, Bud Goen, Joy Allen, Mrs. Norman Muncy and W. T. Lightfoot.

Undeclared Teams In 3AA

There were two of the seven Districts retain perfect they head into Friday night. Dimmity, pre-season own 3-0 records. The kingpins are extreme through loop without great stress. His host Friona, and his journey to Hale Center is at Abernathy promises to be the top contender Friday.

have been impressive against outsiders. District 3-AA enjoyed its strongest showing last Friday... winning five of seven outings. Only winless Hale Center, narrow 10-12 victim of Tahoka, and Abernathy, which bowed 28-38 to Childress, suffered setbacks. Lockney kicked Ralls 34-0, Dimmitt overpowered Sprinkle 43-14, Floydada outgained Post 21-14, Friona outlasted Tucumcari, N.M., 21-14 and Olton stormed past patsy Muleshoe 40-7 Friday night.

The league owns a strong 13-7-1 standard against non-district foes. Five of the seven clubs have winning marks, while Olton is even at 1-1-1. Hale Center is winless in three outings.

WTSU On Road This Week

WTSU will be away from the state soil this Saturday. West Texas State Tech are on the road.

at the same time in Stillwater against Oklahoma State. WT lifted its record to 1-1 with an impressive 22-7 triumph Saturday night over Northern Illinois. Tech was mauled 49-7 by Texas at Austin in the Southwestern Conference inaugural for both squads.

Clobbers

Floydada Freshmen clobbered Olton last night. The Olton Freshmen gave them a 41-0 rout.

GREAT PUT-ON - Natty cotton knit worked into a pull-over body shirt of chocolate brown makes a great back-to-school put-on for active boys. By Rob Roy, it sports two button-down pockets, wide cuffs, and a mock-turtleneck.

Crowds Follow Winds

The Floydada Whirlwinds made it three wins in a row for this season as they defeated the Post Antelopes in Post Friday night. The score was 21-14, but the statistics indicated a much greater win.

The Post stadium was running over - Floydada's side was full and many were standing. It was Stan Pierce and Mike Burk night. Pierce made the six pointers, Burk picked the extra points.

It was also defense night as the Whirlwinds faced the heavy line of the season, yet continually held the big Antelopes to no gain. Burk, Glenn Switzer, Mike Moore were standouts for the defensive Whirlwind element.

The first quarter was a defensive battle with neither team threatening for a TD. It was marked by a ten yard pass completion from Jack Gregory to Bob Marler, a 14 yard Gregory to Pierce pass, and the Antelope's Neff Walker making good ground yardage.

The fireworks broke early in the second quarter when Stan Pierce broke in the clear and carried for the first TD of the game from the 20 yard line... an 80 yard run. With 10:41 minutes left in the quarter it was Floydada 7, Post 0. Burk kicked the extra point.

But Post came right back. Antelope halfback Terry Moreau scooped up Burk's kick-off and dashed down the west side of the field for an 83 yard TD. One Whirlwind, Walter Harris had the last chance to tackle Moreau, made a grab at his belt and missed.

With 10:28 left in the second quarter it was a tied up game, 7-7. Antelope Randy Hudman kicked the extra point.

The Whirlwinds took the kick-off and began to work down toward the Post goal. Big Frank Watson made 22 yards, Gregory skirted end for 13, Watson made six more, Selman made 13. The ball was on the Post 14 yard line. Then Gregory hit Pierce with a short pass over right center. Pierce skipped through for the TD with hardly a Post player touching him. Burk kicked the extra point and

Floydada led 14-7 with 7:06 time left in the quarter.

SECOND HALF
Floydada was in good shape, working down field after taking the Post kick-off. Then Antelope Walker intercepted a Gregory pass. On the next play Walker went around the left end for 16 yards. Then over the center for 11 more.

The Antelopes were on the 18 yard line of the Whirlwinds. Then Quarterback Ray Altman hit Walker for an 18 yard pass TD. Hudman kicked the extra point and the game was again tied up 14-14 with 4:45 minutes left in the third quarter.

Floydada came right back, immediately made three first downs via Pierce, Selman, Watson running and Gregory threw a 15 yarder to Pierce, a nine yarder to Bob Marler and a 21 yarder to Marler. Pierce dived over from the four yard line for the third Whirlwind TD. Burk kicked the extra and again Floydada led, 31-14. Only 49 seconds remained in the third quarter.

Highlights of the last quarter included a pass interception by

Immunization

Medical Science has made commendable progress in immunizing the human race against the germs and virus that in times past have shortened man's life span. We, as Christians, need some such immunization against the germs and virus of such things as self-will and disobedience. We know that going a self-willed way brought death unto Samson, and disobedience caused Moses to not be able to go to the Promised Land.

Redemption has been paid for, at Calvary, but the surrender of one's will to the Will of Almighty God is the greatest requisite for our individual soul's immunization. All our purchased possessions of Calvary become of none effect to us individually if we enthrone self in our hearts and leave Christ in the same position He was found at birth - "No room in the Inn". He now stands at our hearts door and patiently knocks as Rev. 3:20 states if any man hear my voice, and opens the door, I will come in to him. Read also John 14:23.

"I REMEMBER, I REMEMBER....."

Judge J.C. Gaither

I wrote something a few weeks ago about Dr. M.F. Husky and the passing of Mayor W. T. Montgomery in the dreary, wintry closing days of 1918. As I wrote I was reminded of another character who played a part in community affairs for some 30 years and whose friendship I treasured.

This was J. C. Gaither, who came to be known as "Judge" due to his service of some years as justice of the peace in Precinct No. 1.

Born in 1849 Mr. Gaither passed on in 1939, being almost 90 years of age at his death. His son, W. C., giving vital statistical information for record, said the judge was born in South Carolina. However, in all the conversations I ever had with M. Gaither, he spoke of Falls County, (Chilton) as his boyhood home. The family must have come to Texas in Mr. Gaither's early childhood. If I had to explain this assumption this is the only way I could do it.

He came to Floydada in 1909 (I think, but maybe 1910), thus spending the last 30 years of his life here. He came to Floydada to assume the duties of secretary of Floydada Commercial Club and was active in this capacity for probably four years.

In those days we thought one of the best means of advertising a Texas county was to have an exhibit at the State Fair of Texas, particularly if the county could rank in the first three top exhibitors. Mr. Gaither had me go with him to Dallas twice, as I recall it, to help with the exhibit. I guess now this was in the years of 1912 and 1913.

After M. Gaither ceased to be with the Commercial Club he officed for a number of years with Geo. A. Linder in the county surveyor's office in the court house.

The thing which made me associate his name with that of

Mayor Montgomery was that he was named administrator of the estate of the mayor. After two or three other capable men had served in this capacity for a time, and each had given the tangled estate up as hopelessly insolvent, beset with tax titles and other obstacles to successful termination, Mr. Gaither accepted the appointment and in the course of four or five years, made his final report of the affairs of the estate, appraised at a value of \$11,000. That does not mean anything in 1969 but in those days \$11,000 was \$11,000.

Mr. Gaither was interesting in that he never appeared to be in a hurry or to be flustered. He spent much time "reflecting." And though at his passing he was practically penniless, he served capably in any number of private and public trusts.

Patterson Is FFA President

Willie Patterson has been elected president of the Future Farmers of America, Floydada chapter. Patterson will serve the chapter during the 1969-70 school term.

Other officers elected along with Patterson are Victor Smith, vice president; Joe Jones, treasurer; Stan Pierce, secretary; Tommy Wylie, sentinel; Joe Thurston, parliamentarian; Mike Simpson, reporter and Chuck Baker, chaplain.

FLOYD DATA

Mr. and Mrs. Gen (C. O.) Woody and family have moved to Fort Riley, Kan. where he is stationed in the Army. The Woodys have been visiting in Floydada with relatives after returning recently from Germany.

OBITUARIES

Voy Dillahunt

Funeral rites for Voy Dillahunt, 69 year old retired rancher, were held Sunday in the Church of Christ at Lockney. He died Friday morning in Lockney General Hospital.

Dillahunt was born in Dewey County and moved to Lockney from Carlsbad in 1952.

Survivors include his wife; a stepson, John Hooten of Lockney; two stepdaughters; three brothers and one sister.

Burial was in Rose Hill Cemetery at Tulla.

Caprock Hospital Commended By TANE

The Caprock Hospital, of Floydada, Texas has been commended by Texas Alcohol Narcotics Education (TANE) for not allowing sales of cigarettes on the hospital premises.

A certificate of commendation and recognition says the award is given "for decision not to allow sale of cigarettes on the premises, thereby making the people more aware of the health hazards of cigarette smoking. This action contributes to the saving of lives, to which cause both Texas Alcohol Narcotics Education and this institution are dedicated." It is signed by Wallace J. Shelton, president, and Albert F. Tucker, Executive Director.

TANE recently completed a survey of Texas hospitals in which it was found that 205 of 582 hospitals replying to the questionnaire did not allow sales of cigarettes. Among those replying was one hospital that had removed cigarettes because of their link with cancer and other diseases, but allowed cigarette machines back because of "pressure."

"We believe these courageous hospitals are setting a trend. It is incongruous for an institution that treats cancer to allow a cancer cause to be sold on the premises. We sincerely hope the remaining hospitals will follow the example set by this institution," said Albert F. Tucker, TANE Executive Director.

TANE is a non-profit, educational organization, supported financially by Texas churches of some 19 denominations. Its programs of education include public school assembly programs, publishing books, producing film strips, a free film lending library, a speakers bureau of more than 100 men, research, television public service, legislative informa-

Mrs. McPherson

Funeral rites were held Friday afternoon in the Lockney First United Methodist Church for Mrs. Pearl McPherson, 82, mother of Mary McPherson of Floydada. The Lockney woman died Wednesday of last week in a Lubbock Hospital.

Mrs. McPherson moved to Lockney in 1925 from Alvarado.

Survivors include the daughter, five sons, Wiley of Austin, E. C. of Lubbock, Mace of Midland, Jay of Lockney and J. P. of Houston; one brother, Ken Anderson of Fort Worth; one sister, Mrs. T. T. Hunnicutt of Fort Worth; 10 grandchildren, 10 great-grandchildren and one great great grandchild.

Interment was in Lockney Cemetery.

Mrs. Rasco

Funeral services for Mrs. Bertha Marie Rasco, 45 year old sister of Vandie Hobart of Floydada were held Friday in the Assembly of God Church in Memphis. Mrs. Rasco died Wednesday morning of last week in Lockney General Hospital. She had been ill a number of years.

The family resides near Lone Star, north of Lockney. The deceased was born in Durant, Okla., and was married in 1957 to Clarence Rasco.

Survivors include her husband, two daughters, Barbara Ann of the home and Mrs. Melba Thornberry of Washington; her mother, Mrs. John Hobart of Amarillo; three brothers and six sisters.

Moore-Rose Funeral Home had charge of local arrangements.

Katne Asks For Feed Grain Export Expansion For 1970s

Promotion of export sales of grain sorghum continues to be important to area farmers. "Exports of grain sorghum and other U.S. feed grains to foreign countries should expand at least 4% to 6% per year through the 1970's." So stated Richard L. Katne, president, U.S. Feed Grains Council, in a statement addressed to Texas farmers this week.

The USFGC is an international trade promotion organization financed by farmers and ranchers, business, industry, and government. Texas grain farmers support the organization through a membership in the Council by the Grain Sorghum Producers Association.

Additional funds are provided by other organizations and by the federal government from Public Law 480.

The Council, operating through eight foreign offices, and an annual seminar on alcohol and drug problems jointly sponsored with Baylor University each February.

Though TANE is a Texas organization, and its programs are aimed at Texas people, the organization's books and film strips are in demand nationally. Some have been translated into other languages.

One of TANE's publications is entitled, "Smoking... or Health?" cartoon-illustrated, and written by Lindsay R. Curtis, M.D. A film strip has been produced, based on the book.

"Most of our efforts are directed at alcohol and other dangerous drugs. Smoking cigarettes is often overlooked because it kills much more slowly. But it still kills," Tucker said.

conducts feed trials, consumer promotions, meetings and seminars, tours, and many other activities to increase grain utilization in 18 of the more developed countries.

Katne continued, "The best foreign market for U.S. feed grains is Japan. Their feed industry is growing at an annual rate of about 12%, and there doesn't seem to be any slowing down indicated for the near future. The Japanese have expanded greatly their consumption of meat, milk and eggs, but there is plenty of room for improvement. They still only consume about one-third as much of these products, per person, as do the Americans."

"Other markets are also growing, such as Europe, but artificial trade barriers prevent us from moving more grain in. We also have a problem with a surplus of feed wheat world-wide, but there is hope this can be solved within a year or two."

"There are also some newer and smaller markets that will develop in Africa and the Far East. The U.S. Feed Grains Council is studying these and will send two study teams to them October 10 thru 31."

"All things considered, it looks to us as though the recent declines in feed grain exports should turn upwards this year, and continue in that direction for quite some time to come. Throughout the world we see increases in population, and many nations where the people have more money to spend on better food. When this happens, they buy more meat, milk and eggs, and this represents a bigger demand for feed grains."

OUTH PLAINS NEWS by Mrs. Murray Julian

PLAIN, Sept. 29 - We are happy since the shine is drying out the past weeks. We have not been able to get to the farm since the farmer is busy and hopes the shine continues.

Mrs. Joe Taylor, Gregg of Lockney, was here with her party Mrs. J. P. Taylor was here for the church service on Monday morning with Mrs. Bell spent the week at the Hi-Plains hospital with her father's illness. Mrs. Bob Reeves and the Reeves family have been in the hospital since three weeks since the doctors are treating meningitis. Monday Mrs. Raymond is some

father of Mrs. Roscoe, had a fall recently. He is in the Memorial Hospital in this time, but will be moved to the Sweetwater.

Donna Shelton and Sandra, have moved to Plains next door to Stewart home, and is attending school at the hospital.

Mrs. A. V. Bebe the family just got the past week. Mrs. Beck and fourth Lockney where she is at the Lockney.

Mrs. Leona and Barbara arrived here to spend the night with Mrs. Raymond Sunday they all went to visit with Mrs. Alton Higginbotham at the hospital.

Mrs. Alton Higginbotham returned that night, where she has been the past three weeks.

Mrs. Alton Higginbotham returned that night, where she has been the past three weeks.

Mrs. Alton Higginbotham returned that night, where she has been the past three weeks.

contribute to this worthy cause, get in touch with either of them. Put them in boxes, please, ready to be loaded on the pickup.

Congratulations to Mr. and Mrs. Eddie Parks, oldest son of Mr. and Mrs. L.H. Parks here, who became parents Sept. 19, of a baby son, Russell Edwin. The baby weighed seven pounds one ounce. The Parks also have a little girl, Leigh Ann, three years old. The L.H. Parks went to Houston last Tuesday to visit their son and family.

Mrs. J.R. Spivey and Mrs. W.H. Simmons of Truscott attended the 60th wedding anniversary of Mrs. Spivey's sister, Saturday in Earth. They came here Saturday night to spend the weekend with Mr. and Mrs. Sylvan Kinniburgh.

Tommy Bradshaw of Claude, who was reared here, is now enrolled as a freshman at Texas A&M College. We congratulate him on being the winner of the Opportunity Award Scholarship. He is the son of Eulan Bradshaw and Mrs. Eddie Mae Bradshaw.

Those who attended the WMU Workshop in Lubbock which was held at the First Baptist Church last Thursday, were Mmes. L.T. Wood, W.L. Trice, Mike Wood, Tillman Powell, Travis Young, Eugene Beedy and Mrs. Nathan Mulder.

Last Tuesday night Marc Smithman and Rance Young played football with the Floydada 7-8th grades at Tullia, and several families went to see the games including Mr. and Mrs. Derall Young, Mr. and Mrs. Philip Smithman and Mrs. Don Probasco.

Mr. and Mrs. Leighton Teepie have the roof and windows in their new home here on their farm. It is now beginning to take shape, and looks beautiful. Rhonda Teepie has been here this fall, staying with her aunt and uncle, Mr. and Mrs. Harold Hamm, and attending Floydada High School.

We add our congratulations to Miss Judy Ann Whitfill of Sweetwater, and David Allen of Marathon, who were married last Saturday, September 27, at the VFW Gardens in Marathon at a private wedding ceremony. Only their parents Mr. and Mrs. Glen Whitfill attended from here. Both are senior students at Sul Ross College in Alpine, and will continue their school work there. Grandparents here are Mr. and Mrs. Alvin Nichols.

Mr. and Mrs. Kendis Julian and Mitzel and Mr. and Mrs. Murray Julian took their relatives, Mr. and Mrs. David Julian and Susan of Hollywood, and Mr. and Mrs. Robert Jackson and Bobby of Hallandale, Florida to Lubbock Thursday afternoon to catch a jet back to Florida after a two weeks visit out here. They left at 1 p.m. and were home at 6 a.m. by the incredibly short time of 6 p.m.

Mrs. Travis Young was hos-

of twenty-five dollars which will be used to buy books or micro-film for the Genealogical Department of the Library in Plainview. Mmes. Don Marble, Fred Marble, Keith Marble and Mrs. Henry Bollman of Lockney were instrumental in getting the exhibit ready.

Mrs. Fletcher Powell and Mrs. Tillman Powell took Mrs. Linda Lambert to Lubbock Monday where Mrs. Lambert will be staying with her small daughter, Sherre, as she undergoes an operation of her mouth, the first of the series to be done. We hope the surgery will be very successful.

The October meeting of the South Plains PTA will be held Friday afternoon, Oct. 3, at 2:45 p.m. with Claude Jarretts 6-7th grades giving the program. All members try to be present for the meeting as they will be planning the Hallowe'en Carnival. All of the Del Cerra Pecans have been sold by the PTA members, but another shipment is due, so please contact any of the members for the pecans, a new crop, which are \$1.75 a pound.

Mr. and Mrs. Murray Julian, Mr. and Mrs. David Julian and Susan, and Mr. and Mrs. Robert Jackson and Bobby of Florida spent last Tuesday in Roscoe visiting with Mr. and Mrs. Terry Julian and children, the Harold Althofs and Mrs. Thurman Flowers, and in Abilene with Dick Althof, who is in the Hendricks Memorial Hospital.

The Grain Sorghum Referendum vote deadline is October 6. The referendum is sponsored by the Producers Grain Cooperation and is for \$.05 per ton to be assessed by farmers and to be collected at the point of the first processing or sale. The money collected will be used for research, disease and insect control, education, and promotion of grain sorghum. The referendum is for 29 county area principally in the panhandle area of Texas.

Producers should have received their ballots by now as they were mailed September 20. In case a producer did not receive a ballot one may be obtained in the county agent's office. Mark your ballot the way you wish to vote and return it so that it will be postmarked no later than October 6.

Armyworms continue to plague small grain farmers. The worms have destroyed several thousand acres of volunteer wheat plus some early sown wheat and rye.

Many farmers elected to abandon the volunteer wheat unless it was desperately needed for early grazing. The early sown wheat and rye has generally been sprayed if the infestation was discovered in time. The worms have the ability to clean a small grainfield in a few short days as they are large foliage eaters and they generally travel in large groups.

The insect stays in the larvae or worm stage about 3 weeks, then goes into the pupae stage for 2 weeks before emerging as a moth and laying more eggs.

Some of the worms have been in the worm stage almost three weeks so a decline in the population could come about from now on. Also by the time the moths are ready to lay more eggs the weather might be cool enough that the hatch will be reduced, thus we could see the worms dwindle down in number from now until frost. Basically, however, the population depends a great deal on the weather, beneficials and the possibility of a virus disease attacking the worms.

Most farmers that have not planted their wheat are talking about holding off a few days longer in hopes the worms will decline in numbers.

There are several insecticides that are recommended for control. They are:

- Sevin - 1 to 2 lb. per acre
- DDT - 2-4 qt. per acre
- Endrin - 1 1/2 pts. per acre
- Methyl Parathion - 1 1/2 to 2 pts. per acre
- Toxaphene 2 to 2 1/3 qts. per acre

Other legislation passed included replacing the State's forgery penalty law which was accidentally repealed under the Texas Education Code last session. Additionally, Governor Smith has now signed the antiquities bill, which takes recovery operations out of the exclusive jurisdiction of Land Commissioner Jerry Sadler. As you know, he has been sharply criticized for his handling of salvage activities and was reprimanded by the House of Representatives for his misleading testimony before a House committee. This was the first time this had occurred in our history.

In agricultural news, we have acquired funds again this year for continued castor bean production research and new funding to study water recharge possibilities. Additionally, the State Department of Agriculture is currently studying a soybean certification petition presented by a group from the South Plains area.

Again, let me express my appreciation to you for the confidence you continue to place in me. Please call on me anytime I may be of service to you. Warmest personal regards,

Sincerely,
/s/ Ralph

FAIRVIEW NEWS by Mrs. Clyde Bagwell

FAIRVIEW, Sept. 29 - We are having beautiful early fall weather now and everyone is busy trying to get their wheat land plowed and wheat sowed. Some fields of wheat, planted early, are up to a good stand and growing fast. Vegetables are still being gathered and canned or taken to market. Maize fields are being harvested as soon as it is dry enough to combine.

Mrs. Edell DuBois received word last Wednesday that her sister, Mrs. Walter Hall, passed away. She had been a patient at a Teague hospital for several weeks. Funeral services for Mrs. Hall were held Friday and interment was in Post Oak Cemetery. Mrs. DuBois was unable to attend the funeral, but had visited her recently while she was in the hospital. Our heartfelt sympathy is with Mrs. DuBois at this time.

NEWS FOR HOMEMAKERS

by Sherry Mullin
Floyd County H. D. Agent

Mention milk to most people and they think of the fluid that comes in bottles and cartons. Milk comes in many other forms, though. Some of these have more nutrients added and some are virtually fat-free. Part of the liquid has been removed from some and nearly all the liquid has been removed from others.

A sweet treat in the line-up of dairy products is sweetened, condensed milk. This is a concentrated milk containing 42 to 44 percent sugar - the perfect ingredient for desserts, candies, salad dressing and other mealtime fare.

Incorporate sweetened condensed milk in this recipe for CRISPY BREAD STICKS. Slice day-old bread 3/4 inch thick, remove crusts and cut into strips 3/4 inch wide. Dip sticks in sweetened condensed milk, covering well, then drain on waxed paper or cake rack.

Roll in shredded coconut or finely chopped nut meats. Put on lightly greased baking sheet. Bake on top shelf in 350 degree oven until lightly browned, about 15 minutes. Serve hot or cold.

PEANUT CLUSTERS
For 26 clusters, 1 3/4 inches in diameter, melt 1/2 pound sweet chocolate in top of double boiler over boiling water. Remove from heat. Add 2/3 cup sweetened condensed milk and 1 cup whole peanuts. Mix well. Drop by teaspoonfuls onto

Dieter's Buttermilk Delight - Combine equal amounts chilled buttermilk and vegetable-tomato juice.

RURAL FIRE PROTECTION TO DISCONTINUE OCTOBER 1, 1969

THE CITY COUNCIL HAS BEEN NEGOTIATING WITH THE COUNTY COMMISSIONERS FOR THE PAST 3 1/2 MONTHS IN ATTEMPT TO ORGANIZE A JOINT FIRE DEPARTMENT FOR THE CITY OF FLOYDADA AND ITS SURROUNDING RURAL AREA.

A FIVE YEAR STUDY WAS MADE OF EXPENSES INCURRED IN OPERATING THE FIRE DEPARTMENT. THE EXPENSES WERE PRORATED FOR CITY FIRES AND RURAL FIRES.

THE COUNCIL HAS APPROACHED THE COUNTY COMMISSIONERS ON THE BASIS OF THIS STUDY AND AS OF THIS DATE HAVE NOT BEEN ABLE TO REACH AN AGREEMENT.

THE COUNCIL ASKED THAT \$8,000 PER YEAR BE THE COUNTY'S SHARE OF A JOINT FIRE DEPARTMENT PLUS \$10,000 NEEDED NOW FOR THE PURCHASE OF A NEW FIRE TRUCK.

THE COUNTY COMMISSIONERS HAVE OFFERED \$3,000 PER YEAR, WHICH ON THE BASIS OF THE STUDY WILL NOT COVER THE NECESSARY EXPENSES.

THE CITY COUNCIL FEELS THAT THE MOST SENSIBLE THING TO DO WOULD BE TO CREATE A JOINT OWNED CITY-COUNTY FIRE DEPARTMENT. BY HAVING A JOINT FIRE DEPARTMENT THE COST WILL BE LESS THAN TRYING TO MAINTAIN TWO SEPARATE DEPARTMENTS, A CITY FIRE DEPARTMENT AND A COUNTY OWNED RURAL FIRE DEPARTMENT.

WE ENCOURAGE YOU, THE TAX PAYERS, TO TAKE AN INTEREST IN THIS PROBLEM THAT CONFRONTS ALL OF US. CONTACT YOUR COUNTY COMMISSIONERS AND YOUR CITY COUNCILMEN. LET US KNOW YOUR FEELINGS ON THIS IMPORTANT MATTER.

DAVIS TAKES PART IN COMMISSIONING SUBMARINE

(19HLO44601) USS SEAHORSE (FHTNC) Sept. 23 - Chief Electronics Technician James P. Davis, USN, son of Mr. and Mrs. James M. Davis of Petersburg, Tex., and husband of the former Miss Marilyn J. Rice of 912 N. Eighth St., Boise, Idaho, recently took part in the commissioning of the nuclear-powered submarine USS Seahorse at the Naval Submarine Base, New London, Conn.

The Seahorse is the third U.S. vessel to bear the name. The first Seahorse was a one-gun schooner used in the War of 1812. The second was a diesel submarine which received nine battle stars for operations with the Pacific during World War II.

1970 Caprice.

A lot of cars cost more. But few if any are really that much more car. Which explains why more and more of the smart money is coming to Caprice.

Look what you get:

- A big substantial 18-foot-long prestige car with a new 350-cubic-inch V8 engine, power disc brakes, Astro Ventilation, wheel covers, deep twist carpeting, push appointments.
- A remarkably roomy car, with a ride so smooth and

silent you'll feel like Mr. Big himself. Tell you what, though. If you absolutely insist on a more expensive car, we won't stand in your way.

Go ahead and order air conditioning. Order stereo. Order tinted glass, power windows, 6-way power seat, our new Headlight Delay system.

Your Chevrolet dealer will happily help. See him real soon. Putting you first, keeps us first.

If you spend more for a car, you must want to spend more for a car.
