## County Bank Deposits Up Over Last Year

### Lockney Crops Bring Increase

Floyd County's bank deposits showed almost a half million dollar increase, according to a state bank call as of December 31, 1969.

December 31 of 1968 the two First National Banks in the county showed \$19,254,353.36. December 31, 1969 deposits showed a healthy increase of \$411,389.48, up to deposits of \$19,665,742.84.

Looking at the banks individually, Lockney was up in deposits from \$7,594,120.13 to \$8,061,012.58, and down in loans from \$2,977,892.79 to \$2,924,859.98.

The First National Bank in Floydada was down in deposits from \$11,660,233.23 to \$11,604,730.26 and down in loans from \$5,241,215.13 to \$4,553,513.43.

A June 13 hail accounted for the poor crop showing in the south part of the county with very little cotton money deposited on December 31, 1969. While wheat prices were down in 1969 and grain sorghum production was down slightly, farmers received outstanding prices on cattle and hogs, and produced a fairly good crop of soybeans. Grain sorghum price increased to \$2.

Of course the \$14 million dollars in government checks also helped maintain a good economy for the county.

The exploration is located 467 feet from north and 660 feet from east lines of Section 16, Block P.

This is the drilling rig that had been located on the E. E. Wells property.

The wildcatter on the A. S. Mize property near Cedar Hill has reached a total depth of 10,660 feet and is being logged.

### Births, Deaths, Marriages, Divorces Increase In 1969

### Chester Mitchell Re-Elected To Water Board

Dissension on the High Plains Underground Water Conservation District board led to an unusually large vote turn-out Tuesday.

Floyd County's Chester Mitchell was re-elected director from Precinct 5 by a count of 253 to 57 votes for W. D. Scarborough of Petersburg, a district committeeman in Hale County.

Total vote in the Precinct 5 election was 310. Running without opposition two years ago, Mitchell polled only 83 votes in the two counties in the district.

Voters turned out in surprisingly large numbers to oust incumbent Russell Bean of Lubbock as Precinct 1 member of the board, electing Ray Kitten of Slaton to take his place.

Kitten defeated Bean by a vote total of 329 to 280.

The Slaton man was Bean's first opponent since he was first elected in 1963.

Bean reportedly had been at odds with other board members over the firing of district general manager Tom McFarland last August.

The Floydada box favored Mitchell 105 to 7 votes.

The Lockney box favored Mitchell 127-3.

The Petersburg box favored Scarborough 47-21.

Pat Rizzell was elected precinct 2 committeeman with six votes in Floydada and 130 in Lockney. He was unopposed.

Fred Cardinal, also unopposed received 6 votes for precinct 4 committeeman.

BY WENDELL TOOLEY

FLOYDADA FOLK always come through when someone needs a situation of Buck Johnson and Billie Crutchfield this. Our people readily come forth with blood and help Buck. Many gave money to the Crutchfields.... Harris and Billy Stanforth took Kinder's plane and took it to specialists at Galveston.

Just one of the many reasons I like to live in Floyd people.

ALLY DID a double take when Nancy Williams came into my last week. She was wearing a midi-dress...first I thought she was the nursing home for some more pictures. Nancy was gracious enough to let me shoot her with a couple of friends in mini-dresses...quite a sight.

After taking Nancy's picture, I took a picture of the new went out to the nursing home for some more pictures. I grabbed the camera to go into the rest home, the door open, the camera came open and my film was exposed. The saddest story you'll hear this week. Sorry 'bout it.

DO NOT KNOW whether I ever told you this or not...but it Floydada firm whose advertisement you see in The Hesperian in week after week, who keeps The Hesperian in business. The occasional advertising is greatly appreciated.

IF it were not for our old stand-bys who know the consistent advertising, we wouldn't have much of a paper in Floydada.

WANTED to mention this to our readers and remind you to size the firms who advertise in The Hesperian...and mention to our advertisers that we appreciate them. We're a big reason for Floydada having a newspaper. We're on the subject of advertising, hope you'll notice the rise of a new advertiser this week...Dobbs Meat.

REMEMS THAT THE United States was wise in not getting in the Nigerian - Biafran war. Now that the war is over we can get a real look at the Nigerians. Will they be fair to Biafrans? Will they allow other countries to trade and medical supplies to help save lives?

ARE unanswered questions should we pull out of Vietnam the Viet Cong allow the South Vietnamese people as we know it here in the United States, or would we be pressed, enslaved?

THOUGH the United States did not send war equipment or money, we have given over \$80 million to help the people. This is compassion for a suffering people...this is America.

NOT ACQUAINTED with the parents of Lawrence Davis... I should mention that they have just celebrated their 50th anniversary. Our best wishes to them.

ANYONE'S GUESS...and there'll be a lot of guesstimation about the census count of Floydada's population this year. The guessing will originate through an estimate of any people per utility meter.

Master Ed Wester said October and November business was down last year, but December was up...but not enough to be 1969 above 1968.

Suppose we should be satisfied to just hold our own as many of our towns have really been losing ground in population in the last few years. Perhaps we're doing a fair job of holding things together until we can develop industry or vegetable farming, or something of which would bring more population to this community.

Suppose the day will come when the big cities will become overcrowded and polluted that people will be looking for a nice little community like Floydada in which to live.

Suppose that our population started going down or leveling off about four years ago...when the farm program called for more land to be laid out...this meant less people to farm the land.

Suppose about this time herbicides took out the cotton choppers and the population. Then, the baskets mounted above the tractor would not need hands to push the cotton back in the trailer to play.

Suppose a change in the farm program, mechanization, and a general trend of people moving from country to town is reflected in the above figures.

## Letters To The Editor

and I and others had a very nice Thanksgiving at Amath relatives. Then Christmas and the Sunday after we had several relatives and friends with us, all such as very enjoyable occasions to us.

My sister, Miss Winnie McLain of Dallas was with us for two weeks. Myrtle Williams of Dimmitt was with us for two weeks and some after and we three visited her later. Jan. 1970 in Lubbock for wedding of our granddaughter, Jo Diane. This a nice occasion also. This cold weather we do not much except to church services.

The new year is here it always reminds us of Taxes. It seems to grate on our nerves but should we hope or desire to get by without having taxes. It takes money to run the government. Perhaps too much and then comes in state, county, city and schools, and who would want to live where we do not have these things.

Local taxes are to be paid in January or penalty added, though to paid such in October when get 3 percent off. Income tax is pretty digging but many are drawing these salaries and still many more are just drawing. We find these salaried men that Paul commanded that if any would not either he should not eat, working not at all but are busy.

He commanded that they work and eat their own bread. We are not so tough with them as Paul was. We say go certain and we give you food, and other things, perhaps money to buy your cigarettes and beer and such like. Thus you have time to visit here and there pick up news good or bad either it as you go. Stop in an hour or so and take up time with who too courteous to say I need to be at work.

As to how to handle such cases please do not ask me for I know the answer. Now what I have said does not apply to very few people. Nearly all would be appreciated for a half day, or even several days and even these loafers well.

As to our city's way of raising money to pay our way, do not think it fair. 50¢ added to each water bill. 50¢ sewer bill and 50¢ to each garbage disposal bill. Something that everyone must have. If our sewer falls what a mess we have. And who would want our waste brown out to dogs and wind to scatter it all over town? This is not a fair way to raise the money to operate.

Let one out in mud and dust help pay for some of the haves others get and the repair and recoating of that in front and much more here in town.

As to a selfish standpoint turned down a city sales tax to see that this has brought much trade to our town. The sales tax is so high that 1 ct. added to it would not much and now since Petersburg has voted favorable we are the lone wolf, so why not call another election and see if people say now? Or if you have a fairer plan trot it in for it, but not for the plan we now have.

City employees really do have a job and not much pay. Endure such as I and probably hardly know that I exist. Hesperian readers know that I have had articles publishing as the years have gone by and in the last year I have more compliments than in all the years past. Sure not I agreed with me but all have been nice about it.

As a lot of these expressions is because they sure I here much longer, for will not be long until I be ninety years old. I really do appreciate the Lord letting me live and have a home and wife much younger than I to care for.

As poor a specimen of humanity as I am I really bearly all who know me are my friends. Mr. Tooley, see fit to publish this I be very thankful. This is my dear in Floyd Co.

Yours truly, J. T. McLain

## Gamma Iota News

By Mrs. D. W. Kirby

At the two o'clock tea Saturday afternoon in Petersburg, Mrs. Lee Nowlin, first vice-president of Gamma Iota Chapter, announced "Since 1940, more than one-fourth million dollars have been awarded to two hundred thirty-one selected women scholarship recipients by Delta Kappa Gamma International honorary society for women educators." Mrs. Nowlin mentioned that the size of scholarships for one year graduate study had increased from \$1000 in 1940 to \$2,500, in 1967. "In Texas," she continued, "some are for \$80 and \$100 for short summer terms, and \$1,500 for long terms." She encouraged members to apply now for the scholarships, though the gifts are not restricted to membership in the society.

Mrs. Sam S. Cowan, president, presided during the business meeting and also conducted the initiation services for Mrs. Trudy Roddy of Hale Center. Assisting here were Mrs. R. L. Dixon, Mrs. O. W. Tooker, Mrs. Prentice Mann, Mrs. Nowlin, and Mrs. Kermit Mitchell.

The ABC's of Delta Kappa Gamma were illustrated with drawings by Mrs. Guy Arnold and described with words beginning with consecutive letters of the alphabet by Mrs. Cecil Whitacre. For example, L was level-headed, lamplighter of knowledge, lucky and was illustrated with a teacher balancing a heavy weight on her head, S was scholarly, sensitive to needs of others, sacrificial, attends the society's sing-songs and was illustrated with a sing-song.

The walls of the community center were decorated with Gamma Iota's suggested 1970 New Year's resolutions. They were manuscripted in the society's colors by Mrs. D. W. Kirby of Floydada, who led the group in reading them in unison.

The refreshment table was covered with a white embroidered cloth and held a vase of red roses. Sandwiches and dainty sweets were served with tea and coffee by Mrs. Tracy Barnes. Others helping with decorations and serving were Mrs. Blake M. Lyde, chairman, Mrs. Clyde Martin, Petersburg and Miss Gladys Peck of Floydada.

PERSONS will have a chance to view the Wicks Pipe Organ in Harral Memorial Auditorium on Wayland Campus, Plainview, January 20, at 8 p.m., Earl W. Miller, assistant professor of music and college organist, will present for the public a lecture-demonstration program. On view will be the custom made organ of more than 3,000 individually hand-made pipes, some wooden and some metal, composed of five divisions - Great, Swell, Choir, Positiv, and Pedal. The organ is the largest Wicks organ in the state of Texas. It came to Wayland College piece by piece and it took ten men four hours to unload the 3,000 pipes, wind chests, console, shutters, cables, wiring and various other parts.

THE Universal Postal Union in Berne, Switzerland, has chosen as one of its goals for the 1971-80 decade "Next - day delivery of priority items" within a 300 mile radius. Sure wish the U.S. Post officials would find it if it works and borrow their "know-how". Never have I seen such slow mail since zip code. Ever who thought that one up should have his patent took away if he had such a thing. My gripe is that Danny is still waiting for his Christmas packages mailed December 18th., to San Diego. He said "maybe I'll have a happy birthday instead", which is Saturday, January 17. Makes your Irish "get-up" when you realize it takes that long for an item to go some 1100 to 1200 miles, in a supposedly modern - fast world.

This is a last minute insert: He called Tuesday night and his packages arrived that day. He didn't know why but they had been in San Francisco since Christmas, Oh! Well.

DEANNE Robertson returned home last mid-week from a three week trip to Hawaii. Deanne accompanied a girlfriend, Diane Marugama, Tech student whose home is on the island of Hawaii. Besides a wonderful sight seeing trip over the three main islands, Deanne said this was her first plane trip and

WHILE on the subject of mail the A.T. Hulls received a letter, sent back to them, which they had written to their son David and mailed September 23. They got the letter back Tuesday. David had been in Vietnam where the envelope had been addressed. He spent two days in Okinawa, then went to Japan, but somehow the letter never reached him altho it had been in the hands of some nine different postal officials. Evidently the last guy just gave up and decided to forward it back to the sender.

DAVID mentioned in a letter this week to his parents that while he was still in Vietnam a Marine Corp. Major came in to have his eyes checked for a military drivers license and David found out he was from Texas. He ask what part and the Major told him around Lubbock. David said he still hadn't recognized the major. He said "I'm from Floydada" and the Major said, "So am I". It happened to be Jerry Oden, son of the Conner Odens.

Bill Hardin, Norman Muncy, Leslie Nixon, Jakey Younger, Bill Orman and the guest, Mrs. Noland.

Club Members Meet With Mrs. Pratt

Members of the 1956 Study Club met with Mrs. A. C. Pratt Tuesday night. They were reminded of the District Convention to be held in Lubbock in March and also urged to continue the sale of their cookbooks.

During business a new member, Mrs. Stanley Simmons, was voted into club.

The program on Folk Art was presented by a guest, Mrs. Joe Richard Noland.

Refreshments were served by Mrs. Pratt to Mmes. Sharon Hutchins, Gordon Ham'right,

she wouldn't take for it. \*\*\*\*\* MRS. Bessie Wilson, who was president and chairman of the Floyd County Cancer Society last year, said Floyd County came out with the highest contributions in 1969 of the 11 counties in the unit. She said each contribution averaged out to 35 cents per person in the county and if, in this year's drive, each person gave in the amount of what a package of cigarettes would cost, we would better our goal even more in 1970. \*\*\*\*\*

WITH MY income taxed and with me being on my honor not to borrow money, and with all the prices outsize, I won't be able to buy much this year.

That means that I won't be needing that 10-cent shopping bag because I carry home my TV dinner and one can of dog food under my arm.

So sooner or later the shopping bag people will stop making so many shopping bags. That will put some shopping bag folders out of work, which means that they won't be buying much either.

Which will help the spiral, because then they will go on relief which is when spirals hit plateaus.

EXCEPT THAT then my 5 per cent tax surcharge will have to go back to 10 per cent because somebody has to pay for the holiday turkeys and for all the out-of-work bag folders.

And since bag folders are usually unskilled - which means nobody will teach them how to be sprinkler fitters.

And out-of-work people organize so that government departments have to be created to see that they are getting their out-of-work benefits.

Which costs money because no government department can be formed without hiring 4 professors from Harvard, 2 from Princeton, and one boll weevil expert who graduated from high school with Strom Thurmond.

THE PRESIDENT said I would have "slowing pains"

Bill Hardin, Norman Muncy, Leslie Nixon, Jakey Younger, Bill Orman and the guest, Mrs. Noland.

The next meeting, Feb. 10, will be in the community room of the bank for husbands' night. All members are urged to bring playing cards and dominoes. Meeting time is 7:30.

BRADLEY CHILDREN help mother celebrate 94th birthday at Floydada Nursing Home. Children left to right: Earl, Mrs. Tom Boyd, Ned and Brooks. (Staff Photo)

## Maude Bradley Celebrates 94th Birthday

By Wendell Tooley  
I had the privilege of helping Mrs. Maude Bradley celebrate her 94th birthday at the Floydada Nursing Home last week, and for a lady her age, I found her very sharp, witty, and still enjoying life to the fullest.

Her four children were present; Earl from Texas City, Mrs. Tom Boyd from Amarillo, J. Brooks from Dallas and Ned from Dougherty.

Near the birthday cake was a big pitcher of punch, and the pitcher is quite a keepsake of the family. It is more than 65 years old and came from the drug store where the father and husband was pharmacist in Chilton, Texas.

Mrs. Bradley enjoys talking current events, politics (she's an avid Democrat) and thoroughly enjoys playing dominoes, 42, and 84. However she does not play 42 by the "Dougherty rules". She also enjoys her needle work.

She enjoys a peace and contentment from daily devotionals and enjoys reading her Bible. Her favorite scripture is the 23rd Psalm. She has been in a wheel chair the past 15 years, due to a broken hip. Mrs. Bradley was born January 10, 1876 at Winchester, Texas, met her husband at a party in his honor at Chilton. The future husband made quite a clown of himself at the

party and Maude told a girl friend, "that's the silliest fellow, I've ever seen....I sure wouldn't want to date him." However, she did eventually date him, married him and they lived happily together, in rearing four children, six grandchildren and five great grandchildren.

Mr. Bradley passed away in 1909, while pharmacist at Chilton.

Before leaving Chilton Mrs. Bradley was honored as Worthy Matron of Eastern Star. The Bradley family lived at Chilton eight years after the father passed away, then moved to Amherst where the mother and Brooks operated a drug store on 19th street.

The mother, Ned and Brooks worked in the drug store.

Both Brooks and Earl followed in the fathers footsteps, making their life profession

of pharmacist. The daughter married a farmer-rancher, Ned became a Dougherty farmer following graduation at Texas Tech.

Mrs. Bradley has lived at the Floydada Nursing Home and reports, "enjoying living here" in Floydada.

### YOUNG FARMERS ATTEND CONVENTION

Steve Ferguson, Franklin Harris, Mr. and Mrs. Teddy Porter, Mr. and Mrs. Jimmy Woodard will be in Galveston January 15-19 attending the Young Farmers Convention.

You can't vote in April... if you don't register to vote this month.

from farm programs," remarked Franklin Dunn of New Deal. "It costs more to get a haircut than we can get for 1 1/2 bushels of wheat."

Interest Rates Hurting  
Henry Harris of Dickens said high interest rates "are hurting farmers as much as anything." C. A. Robinson of Plainview suggested that adequately funding the Cropland Adjustment Program would be an economical way to get acreages diverted from cash crop production.

The issue of advance feed grain payments drew no public comment from farmers at the meeting. About half the Lubbock County farmers who could qualify for advance payments actually applied for them last year. The total amounted to roughly \$300,000.

It has been customary in recent years to allow farmers to draw, in the spring or early in the year, an advance payment of up to half their scheduled diversion check. The remainder, along with the farmer's price support payment, is made in the summer or fall.

Full Rate Announced  
Previous efforts have been made to eliminate or reduce the advance payments.

The Johnson administration recommended more than a year ago a 50 per cent cut in advance payments for 1969 and total elimination this year.

President Nixon, however, announced last Feb. 5 the full rate would be paid in 1969 because "the government has a moral obligation" to honor what he termed an "implied commitment" that farmers would get the entire benefit.

But the administration, beset by tighter budget requirements, later decided to go along with the Johnson plan and cancel all advance payments this year.

There have been reports Hardin wanted to make the advance money available as usual but was overruled by White House budget planners who insisted USDA spending be held back as much as possible during the current fiscal year.

### IN REPORT MADE HERE

## Mahon Predicts Decade Critical For Farmers

By DUANE HOWELL

Avalanche-Journal Farm Editor  
A BUDGET-tightening decision canceling advance payments to producers under the 1970 feed grains program is not likely to be rescinded, U. S. Rep. George Mahon of Lubbock told about 500 here Friday at the KoKo Palace.

The congressman, speaking at a "general talk session" he called to review farm legislation and federal farm program problems, said he discussed the advance payments matter this week with Secretary of Agriculture Clifford Hardin.

Mahon, who covered a wide range of topics at the two-hour meeting, said Hardin held out hope the decision would be reversed.

"But the secretary did say the payments will be made as soon after the start of the new fiscal year on July 1 as possible," Mahon reported. Advance payments to feed grain producers, made annually since 1961, have ranged up to a national total of about \$400 million a year.

There have been reports of a campaign developing a mong farm belt congressmen to try to get the administration to rescind the decision. Critics contend withholding advance payments will force farmers to borrow more money at high interest rates.

Looking ahead to the next session of Congress, which will reconvene Jan. 13, Mahon said farm legislation "will be No. 1 from the standpoint of the economy of this area, and the economy of the country nationwide."

Noting that the current farm programs expire at the end of this year, Mahon said there "are many pitfalls on the road to farm legislation" for 1971 and beyond.

Farm Bloes Fades  
"The farm bloc dominated Congress when I went there," he said. "But today it is dominated by urban congressmen," he added, explaining that they are "becoming increasingly unsympathetic to the problems of agriculture."

Turning to specific commodities, Mahon asserted that "anyone in his right mind knows the problems of cotton are of the most serious magnitude."

"This past year was a 30-year low point for American cotton in total export and domestic use," Mahon said.

The congressman did not attempt to predict what the future will bring other than to say the "decade of the 1970s will be very critical in agriculture, and what happens is going to affect everyone in this room, everyone in this area, and everyone in this country."

### Views Are Given

A Dawson County farmer told Mahon: "Anyone who will get out in the country and talk to farmers who are struggling to make a living will find most of them favor payment limitations... This is the best farm program we've ever had."

Vernon Goodwin of Gaines County commented: "Most everyone is in favor of limitations so long as the limit is just above what he is getting."

Mahon said there is "little likelihood" the present program can be continued without a limitation on the payments an individual farmer can receive.

Without a limitation, he said, "we couldn't possibly get the votes to pass the program." He said the U.S. Department of Agriculture recognizes this and, as a result, ultimately may recommend a graduated scale of payment limitations.

### Trend Is Feared

But once a limitation were imposed, Mahon said, "it seems to me we inevitably would move" in the direction of a lower ceiling. He said some would argue that the only logical stopping point then "would be at the poverty line, which now is considered to be \$3,000 to \$5,000."

Mahon said there are about 1,200 to 1,500 persons in this general area who qualify for farm program payments totaling more than \$20,000 a year.

"So long as the price of what we get for our products is below our production costs, we're going to have to have some help

## SOAP and ELECTRICITY Blackouts and Outages

■ There's a difference between soap and electricity. There's a difference between blackouts and outages. The famous soap prides itself on being 99 and 44/100% pure. That's pretty close to perfect, isn't it. But does it surprise you when we tell you that electricity—the electricity we provide for you—that you use here has a reliability record of 99.997%... which is almost 100% pure. That's the difference between soap and the electricity you use. But, you say, what about blackouts? Well, it's this way. We define a blackout as a shortage of power. A situation when you, as a group of people, are using more electricity than the equipment that generates, transmits and distributes it can provide.

■ We don't have that here. We will not have that in 1970 here. Sure, there might be some isolated service interruptions which we call outages. Despite our 99.997% reliability record, there still may be some lightning strikes on a transformer, or a squirrel getting confused in a substation, or a careless driver knocking down some of our equipment, and, yes... we may have an equipment failure or a human failure... we're still not perfect... even though we try to be. In most cases we'll have your power back within the hour.

■ We're concerned with reliability with the cost of our service. That's why we've averaged spending \$20 million a year on new, modern and more efficient equipment. This year we've invested another \$25 million. We expect to give you all the electricity you need with more purity than the famous soap and at the lowest possible cost. That's our pledge for 1970.

## Former Floyd County Educator To Retire July 1

J. W. Jones, superintendent of Denver City schools 30 years, will retire July 1. He formerly was an educator in Floyd County.

A veteran of 45 years in the teaching profession, Jones told the school district's board of trustees when he resigned that he had reached normal retirement age and felt it was time someone else took over the position. No successor has been named.

Jones, 65, started as a teacher in a rural school in Floyd County. He served also as principal of the small school and his wife was an elementary teacher there.

traded the property in Floyd County in the 1960s for ranch land near Midland. Four years ago he bought the Proctor Ranch 15 miles south of Midland where he made his home.

Survivors include his wife, one daughter, Mrs. W. A. Oatman Jr., of Sweetwater; one brother, six grandchildren and one great grandchild.

After two years, Jones moved to a four-teacher school in the county and remained there a half-year before moving to Lockney. At Lockney he was high school principal four and one-half years.

He took over as superintendent at Denver City in 1940 when the only educational facility was an eight-room building. Construction was started that year on a high school for Denver City. Jones has supervised the growth of the school system into one of the most modern and best-equipped school plants in Texas.

The school official plans to live in Denver City following retirement.

### NAZARENE FROM PAGE 1

\* Per capita giving hit a record \$213.26 in 1969—or \$77.75, 57 percent, more than the 135.51 figure in 1959.

\* Giving for all purposes was \$82,309,225 in '69—an increase of \$40,125,671, or 95 percent ahead of the \$42,183,554 given in '59.

The three new colleges started in 1967 and 1968 helped to raise enrollment at Nazarene colleges to more than 9,000 students in 1969. The denomination also had more than 9,000 young men serving in the Armed Forces and 73 gold stars on its Vietnam war memorial roll.

The statistical report came from the office of the general secretary, Dr. B. Edgar Johnson.

The Church of the Nazarene was organized in 1908. It holds to all the historic doctrines of the New Testament and has become the largest denomination in the United States that stands for scriptural holiness in the Wesleyan tradition.

It is affiliated with the National Holiness Association.

Concerning the work of the local Church of the Nazarene — A study of the reports of the local pastors for the last ten years, as recorded in the District Assembly Minutes, reveals several things. Church membership has risen from 40 to 60. Sunday School attendance averaged 42 at the beginning of the decade and averaged 50 for the ten year period. The building of the new sanctuary in 1965 was largely responsible for an increase in property value from a total of \$20,000 to over \$46,000 for the buildings and property now. Total indebtedness increased considerably also but has been reduced to approximately \$7,000 at the end of 1969 compared with \$2,000 in the report for the beginning of the decade. Per capita giving for the total membership, including non-resident members has risen from \$125.00 in 1960 to \$236.98 for the 1969 Assembly year. The latter figure is \$23.72 above the denominational average. Herbert Eis, the pastor, stressed that this was attained by giving of more than a double tithe by some and the systematic tithing of others. "You can't help but appreciate and pray God's blessings on people like that" he said.

AT FLOYDADA YOUNG FARMERS MEETING last week, (l to r) speaking on herbicides Jim Sterling and Harold Smith of Estes Fertilizer Co., and Dr. Doug Owens who showed slides of his trip to Russia.

"I REMEMBER, I REMEMBER"

*Bitter spoils the sweet...*

I have said that chance often has much to do with the tenor of our lives, and even our destinies, good or bad. I will tell you a yarn that is to the point, about an orphan girl who shall be nameless:

I do not know when her parents came to Floyd County. Records show that they filed on a 160-acre pre-emption survey in 1890, got it paid out and patented in 1895, then filed on an adjacent 160 acres and got a patent from the state in 1900. The husband was a man of more than ordinary clerical talent. He got a job in Floydada in 1898, when the couple bought lots and built a home in town. They had had a tough (but not necessarily unhappy) battle. Things were to be better it seemed. They had 320 acres of land clear, a few head each of cattle and horses, and he had a good job.

**BUT DEATH INTERVENES**  
But the death of the mother in 1902 brought a major crisis to the family. Her spouse was left with five little boys and one little girl to rear. The youngest was four. The little girl was a nice-looking, well-behaved youngster, eight or nine when her mother died. When the father's job suddenly terminated he seemed unable to get other work. He had to get permission of the probate judge to sell off his land as needed so as to provide for the children.

**TRAINS AS A NURSE**  
As soon as she was of sufficient age the daughter went into training to be a registered nurse. She returned home and nursed for a time for local physicians. Later, employed in

another city and over-worked, she was induced to become a narcotic. Local friends blame an unscrupulous employer.

After she was "hooked" she lived in Lubbock for many years. She used the narcotic in increasing doses, until such time as she reached her maximum.

Naturally her usefulness as a nurse was destroyed. She stayed on the road on a tour of drug stores most of her waking hours for years. She would walk by the side of the road, carrying a magazine as though reading. (Possibly to call up more easily the fantasies the narcotic induced, possibly to indicate to passing motorists she did not want to hitch a ride.) (At least she always courteously refused home-town friends.)

**THEN THE FINALE**  
The generation that came along after me would laughingly tell of passing "Roadside Annie." I quit trying to explain that she was a nice little orphan girl, how ambitious she was, how hard she had worked to attain a professional status, I never quit wincing at their light-hearted jests.

After the thing became a nightmare she told friends she often prayed at night that she would not live to see the dawn. The end came for her about 14 years ago as she walked beneath an underpass in Lubbock. She shuffled off of the walk into the path of a passing vehicle.

**NEWS FOR HOMEMAKERS**  
by Sherry Mullin  
Floyd County H. D. Agent

It is unfortunately true that very few housewives know or want to know how to cook wild game. But there is nothing mysterious about it. In general you should cook game as you would pot roast or chicken, remembering that such game is usually drier than domestic beef or poultry. So keep such game moist while cooking.

**ROAST DUCK OR GOOSE**  
Wash thoroughly, wipe inside and outside with damp towel or vinegar. Tack back wings and truss. Rub the ducks inside and

out with butter, salt and pepper. Add your favorite dressing. Place bird in a baking dish, adding two tablespoons of bacon grease. Bake in hot oven (450 degrees F. for first thirty minutes. Drain off fat and add two inches of water in covered pan. Turn breast of duck down. Then cook another one and one-half hours at 325 degrees F. Keep breast in juices so it will remain moist. Baste frequently. If you desire rare duck, do not add water and cook twenty minutes or more, according to rareness desired, at 425 degrees F. A simple bread dressing, or oyster, giblet, or ground pork sausage may be used. Some prefer sauerkraut or wild rice for stuffing. (Geese are prepared the same as ducks.)

**QUAIL OR DOVE**  
Dry thoroughly; roll bird in flour with salt and pepper added; fry in half butter and half bacon grease until slightly browned. Then place bird in a Dutch oven; add chopped celery, onions, carrots and water for flavoring; cook for one hour and one half at 325 degrees F. If you desire gravy, thicken the juices and add two chicken bouillon cubes.

Come by or call the office for a bulletin on cooking wild game.

A year ago we came up with this crazy bunch of letters which stand for our motto—We May Be The Only Phone Company in Town, But We Try Not To Act Like It.

Some folks thought we were just trying to be funny, but we were dead serious about the motto the letters stood for. We still are.

Communications is our business

—our only business. That is why we at Southwestern Bell can devote all of our energy, our talents, our knowledge and resources to providing you with the very best in communications service at the lowest possible cost.

We encourage you to take for granted the world's best telephone service, with the assurance that we won't.

## Do Not Separate Three Parts Of License Plate Renewal Form

AUSTIN - The Texas Highway Department is sporting a red face.

In recent news releases announcing the new computerized motor vehicle registration system, Department information specialists wrote:

Easy-to-follow instructions are printed on the three-part form.

That must be a mistake - because a lot of motorists haven't been following instructions. And mistakes generate confusion.

This is the first year that the Department has gone to the new system, which includes an order-by-mail program for obtaining 1970 motor vehicle license plates.

But to make sure that motorists do understand the three-to-follow instructions, they are:

1. Each motorist whose vehicle was registered last year has or will receive in the mail a long, narrow envelope with a printed message on the front reading: "Important - This is Your License Plate Renewal Application."

2. The envelope will contain a three-part form. DO NOT SEPARATE THE THREE PARTS.

3. You may renew your motor vehicle license registration during January and February by mailing the three-part form (intact) and your check to your county tax collector. Add \$1

for postage and stamps for each vehicle. Plates will be mailed January 1 and thereafter.

4. You may renew your vehicle license during February and your check collector's office during February and your check collector's office during February.

That's it! Now one of the seven Texas motorists with those "easy-to-follow" instructions.

## SOUTH PLAINS NEWS by Mrs. Murray Julian

SOUTH PLAINS, Jan. 12 - Rev. W. L. Trice, Travis Young and Fred Fortenberry from the South Plains Baptist Church will leave this Monday morning for Fort Worth where they will attend the Baptist Evangelistic Conference held there January 12-14 at Convention Center.

Fred Fortenberry carried the mail on Route Q, Saturday for Cliff Gilley of Lockney, who went to Waxahachie to take their oldest daughter, Shawndra back to her college work at the Assembly of God college there. She had been home with her parents for the Christmas and New Years Holidays.

Mr. and Mrs. Raymond Upton went to Amherst Friday afternoon to attend funeral services for Raymond's niece, Mrs. Grace Huff, daughter of Mr. and Mrs. B.M. Ferguson, Services were held at Amherst, and Mrs. Huff was buried at her husband's side in Littlefield Cemetery.

Mrs. M.M. Julian is teaching the 4-5th grades at the South Plains School this Monday for Mrs. Alice Eddins, Mrs. Eddins went to her home in Lubbock Friday and her home had been broken into and her belongings rifled. She lost all her credit cards and much cash and her watch.

6 degrees was a low here last Wednesday morning, and snow did not melt any until Saturday when a bad dust storm developed. Snow and ice laid on the ground since Dec. 28.

Mr. and Mrs. Fred Fortenberry had as guests this Sunday her brother, Mr. and Mrs. Cecil McCain and children of Amarillo and Mrs. Fortenberry's mother, Mrs. N.C. McCain of Lockney. They all had Sunday dinner here at the farm.

Mr. and Mrs. Mike Wood and children returned the first part of the week from a holiday trip to Atlanta, Georgia, where they visited her mother, Mrs. B.J. Logan.

Mr. and Mrs. Merritt McDonald from Trinidad, Colo., left Thursday for their home after visiting here the past week with Mr. and Mrs. Murray Julian. They have already had 14 inches of snow in the

mountains before the snow of Dec. 28 hit there.

Mr. and Mrs. R.E. Young and Peggy Young from Floydada visited with Mr. and Mrs. Travis Young and children Saturday, and stayed for dinner with them.

Lori and Shandra Young spent Friday night with Judi Bean in honor of Judi's birthday, which is this Monday, Jan. 12. Judi's parents are Mr. and Mrs. Don Bean, and Mr. and Mrs. Travis Young are parents of Lori and Shandra.

Hobby Club members met in the new home of Mrs. Leighton Teeple Thursday morning with a surprise coffee and visitation. Coffee, cake and doughnuts were served guests, and a plant was given Mrs. Teeple for her new yard. Those who attended were Mmes. J. K. West, Fred Fortenberry, E.J. Kinslow, Grigsby Milton, Shelby Calahan, L.T. Wood, H.L. Marble, J.P. Taylor, Harold Hamm, Tillman Powell, L.H. Parks, Arby Mulder and Mrs. Teeple. Since Thursday, Jan. 8, was the birthday of Mrs. Walter Wood, several of the women went to Mrs. Woods home later to wish her a happy birthday. Those who went were Mmes. Fred Fortenberry, H.L. Marble, J.P. Taylor, Tillman Powell, Grigsby Milton, Harold Hamm and Leighton Teeple. Thursday, January 15, Hobby Club members will meet in the home of president, Mrs. J.P. Taylor to make plans for the coming year, and to hold election of officers.

72 were present at Sunday morning services at the Baptist Church with visitors Miss Sue Beaver, Jerry Powell, Billy Paul Harris, and Bruce Julian.

Mr. and Mrs. Frank McClure went to Plainview Saturday to spend the day with their daughter, Mrs. Jean McClure and children, and to celebrate the birthday of Jean McClure.

Mrs. Don Probasco was able to come home from Methodist Hospital Sunday night after spending last week there. She is feeling much better, and we are glad she was able to come home.

Mrs. Teddy Horne and 2 year

old daughter, Melissa, have been spending the past week here from Plainview, staying with her parents, Mr. and Mrs. Sylvia Kinnbrugh, as both of them were suffering with influenza.

Mr. and Mrs. Bruce Julian arrived here from Austin Friday, and they will be here with relatives for a few weeks as they decide where they will go to make their home.

The oil well rig which was set up on the Ernest Wells place stopped their drilling operations about a week ago, and Saturday a week ago took the tower down. They have filled the hole with concrete, and are taking out their equipment now.

Gilbert Bean is in the Lockney Hospital since Monday morning suffering with a circulation problem. He will have to be there for several days. We are glad to hear he is getting along all right.

# Impala. It's got more re-sale value because it's got more to re-sell.

One of the nicest things about buying an Impala is selling it. That's because selling it traditionally brings back more of what people put into it in the first place. Money. Where does Impala keep getting its higher resale value? From features like those you see below. Features which explain why America's most popular car for the last nine years will undoubtedly make it ten in a row.

Impala. More to drive. More to re-sell.
