AT CHAMBER BANQUET

# Word, Steen, Feuerbacher Honored

the annual Floydada Chamber of Commerce banquet Friday night in the Duncan Elementary school cafetorium. Following the meal, awards were presented to Boy Scout leader Jim Word, City Manager Bill Feuerbacher and former Hesperian editor Homer Steen.

About 350 persons attended

Lion's Club President Tom Snead presented a plaque for 18 years of service as a scout leader for Jim Word. Eagle Scout David McCulley accepted the award for Word. Clay Henry presented the

award for city beautification to Feuerbacher. Among other things, Feuerbacher supervised the removal of over 800 junk cars from the city limits. A special honorary member-

ship award was presented to Steen for service to the Chamber since 1915. He was present at the organizational meeting of the Floydada Chamber of Commerce on November 5 of that year, and has continued to serve for 55 years.

A special service award went to Vernon Parker for serving as president of the organization this past year.

After-dinner speaker Newt Hielscher entertained the banquet crowd with a 50-minute talk. His love of laughter was evident in his talk, and he impressed upon the audience that in addition to a love of laughter. people need to have a love for their fellow man, love of labor,

and a love of God.

#### HEALTH AND BEAUTY

Full, soft lip lines are something every woman desires and, with little practice, can have.

For some women, applying lipstick means simply adding color to their lips. For most of us, however, this is far from the case. Knowing how to improve on what nature gave you can do wonders for your face and in some cases make you look years younger.

Small, thin lips look harsh and severe and will make a woman look older, even unpleasant. Lipstick should be applied in generous curves to who is a neice of Dorris and give your mouth a soft, supple look. The corners should turn up on the line of the mouth drawn straight--never down.

his brother, David, student at Before you start reshaping Tech; Mr. and Mrs. Watson your mouth you will need a lip-

The First United Methodist Church at Lockney will be the setting for the June 6th marriage of Miss Judith Maureen Gallagher of Dallas and Arthur Paul Barker of Lockney.

The bride-elect is the daughter of the late Mr. and Mrs. John Francis Gallagner of Boston. Massachusetts. Mr. and Mrs. Artnur P. Barker Jr. are parents of the prospective bridegroom.

Miss Gallagher graduated from Texas Tech in December 1969 and is a member of Kappa Kappa Gamma social sorority. She is now teacning school

Barker graduated from Texas Tech in December 1969, where he was a member of Delta Law Delta social fraternity.

stick brush. A long-handled camel's hair brush is best. Next you will need a well-powdered puff, a tube of lipstick and some facial tissues.

First, powder your lips well to absorb moisture. Then cover your brush with lipstick and outline your lips, starting at the corners of the upper lip. Use short strokes. It will be necessary to resaturate your brush as you work.

If your lips are too large, it will be easy to make them appear smaller. When you are applying your foundation and powder, cover the outer edges of your lips. Then apply your lip line with the brush where you think best.

It is best not to try to change the natural line of your lips too much. Even if your lips are perfect-a lipstick brush and care will make them even more attractive.

.0.000000000000000 THE WORLD OF • ENTERTAINMENT O ................

MY SWEET CHARLIE

Some time ago 'My Sweet Charlie" was shown as a television movie -- now it is being shown in movie houses across the country.

The color and photography of

the Gulf Coast beach is excellent. However, the climatic scenes are unreal and almost unheard of-even though the principle characters (Patty Duke and Al Freeman Jr.) carry off their parts in a moving man-

The story concerns a pregmant, unmarried Southern girl and a young Northern Negro lawyer who discover they are hiding in the same abandoned house on the beach for entirely

different reasons. The director attempts (but fails to make real) the supposedly inbred hatred between the southerner and Negro-a situation, movie makers outside the South fail to understand.

Rumors are that the Jackie Gleason Show will be dropped from CBS-TV next year.

WATER, FROM P. 1

Percolation of rain water to the water table recharged the water supply to some extent in sandy land areas and along draws, Rayner said.

Average changes in the depth to water for 1870 (with the average annual decline from 1963-70 in parentheses) are as

fullows: Armstrong County, -3.25 feet (-2.17 feet); Bailey, plus 1.88 feet (-1.40 feet); Castro, -1.60 feet (-1.36 feet); Coctron, plus 48 Seet (-1.22 Seet);

Cresby, 4.96 feet (-2.86 feet) Deaf Smith, 4281 feet (-432 feet); Floyd, -237 feet (-136 feet); Hale, plus 20 feet (-2.5) feet); Hockley, -27 feet (-2.2) Lamb, -29 feet (-1.90

Lubbook, -12 feet (-LSI feet) Lyon, plus 130 feet (-30 feet); Parmer, 430 feet (-420 feet) Potter, plus 32 feet (-2.56 feet) and Randall, plus 36 feet (-2.54

Builey County's showing of a 1.88-look rise in the water level s misleading. Rayner explained. He said he believes it is a result of measuring the wrong wells in 1969 by personnel of the Water Development Board

Measurements in Lubbock County showed the minimum depth to water in an observation well was 1.52 feet, while the maximum depth was 191.73 feet. Average depth of Lubbook Counby's 114 observation wells was

The average depth to water in Lubbook County his increased 12.88 feet since 1962, according to Eastner's report

Large Declines Noted Castro, Deaf Smith, Floyd and Parmer Counties have recorded the largest average declines since 1962, ranging between 30

and 14 feet. The smallest decline over this period has been in Lynn County. where the water level has dropped only 7.65 Seet.

How much water is left in the Ogalisia formation? Places with the larger water supplies (saturated thickness of the Ogallais formation)

generally have larger annual declines," Rayner said. Some Exceptions An exception to this general rule is in areas of very sandy salls where a greater recharge tions of Lamb and Balley Coun-

The reason this general rule holds true is because the greater thickness of the aquifer in those areas makes possible the larger espacity wells." Earther said. These wells in turn put a greater load on the aquifer and the result is a greater annual

Looking to the fining. Raymer said "there is no question we're depleting our water supply and we even know the present rates of depletion." But he said the area still has very favorable independent water conditions.

Future Still Bright ency for some people to sasume a doomaday attitude oncerning our water supply."

We do have some fremen-Sous ground water reserves. This plus a reasonable M.D., of Buenos Aires, Argenagricultural outlook gives this area a tremendously bright immediate future.

'One thing we should realize, however, is if there is an ultimate solution to our water problems under our present inigation-based economy, it is in

the importation of water, Rayter said. Some Areas Downitill

He said authorities have stated that irrigation will allow this region in general to experience a continued upward economic trend through 1965 before dropping sharply

Rayner acknowledged however, that some areas within the region are already on the gownfall side in water resources. and others will reach a peak and decline before 1965.

The decline of the water table should be noted and respected by citizens of this ares, but there is no reason to alarm them," Rayner said. I consider a decline of the water table to be a healthy sign. because it is a sign of wealth being generated.

Water stored in the ground has no actual value until it is produced," Rayter said. "To merely save water is a waste. But saving water and conserving water are two diflerent things."

FLOYD COUNTY WELLS This year's County Agriculburni Agents brigation Surway shows Floyd County in September of 1968 with 815 brokgated farms, 236,200 arrigated acres, a total of 1900 irrepation wells, no wells with a lift under 125 feet, 2900 with a lift over 125 Seet, 2000 with systeld under 700 gallons per minutes, 700 with a yould over 700 gallons per minute. Floyd County has 100 butane-

propise powered irrigation wells, no diesel or gasoline, 1,500 on electricity, and 2000 on nahutal gas

CAPROCK FROM PAGE !

"There was silence. Then my son said, "That's sick," and marched out of the room,"

She continued: "A husband's laughter, penerally, is an internal one. The only way you can tell if they're amused is when their kidneys juggle or they sport and the hairs in their nose part. Office as not, their face will remain a mask of tragedy and they will seemingly have no pulse. When you say to a man, 'Stop me if you've heard this one," he will.

"Animals rarely laugh at themselves. They find levity only in human misdomune. Believe me, there is nothing worse than to step out of the shower and have your dog sticker. We used to have a hamster that laughed so hard when I made the bunk beds he fell off his esercise wheel. One day I moved his cage to the buck of the commode. He eventually became paramoid from the flushing and rarely smiled, let alone laugh, "Women, God bless 'em, lough when they can. It's an intricate part of their surtival hit to get them through each day. I have seen women giggle irregularity problems, become hysterical with one foot in a girdle and observe a 40th birthday without even crying."

Maybe it is best that laughter is indefinable. First thing you know, some pharmaceutical house would get the formula, bottle it, put a prohibitive price on it, and the people who need it the

THE ROTARY CLUB received a real treat yesterday as Dr. .am.: Cooper spoke on the club's motio: "Service Above Self." We welcome Dr. Cooper to our city this week and invite him tack at his earliest convenience.

I JOK INGLY asked Chamber of Commerce manager John Reve, how come a little ole town like Dickens can get one of these Rock Festivals, . .and Floydada can't get one? (really, folks, I was just joking).

Dear Editors

The article "Today's Youth" by Vikki Liston was a fine example of what many teenagers today feel. I would ask you to look around and see the many high school teenagers today that do not wear their hair long. They wear their clothes in the great Texas way. The high crowned hats and western style boots can be seen on many of the students in Floydada High School. These western styled cowboys don't visit the barber shop a lot. Only because their hair is cut at home in a shorter fashion than a few

These boys have their fun by competing not in football, basketball, or track, but in the rodeos and Pony Express Tournament, which are given in many towns in this part of Texas. They aren't on dope and they don't smoke marijuana because they think it's just plain dumb and besides that they don't have the money to spend on things such as this when they need other things. So just look around and see some of these future leaders. But look

The conference should be of interest to all those in hog production in the area, Discussed at the meeting will be the economic feasibility of pork production in West Texas, profit potential, and financing of hog operations.

Sponsors of the conference are Texas A&M University, the WTCC, Amarillo Chamber of Commerce, Southwestern Public Service, Grain Sorghum Producers Association, WTSU Panhandle Economic Program. and the Texas Agricultural Ser-

## LEGAL NOTICES

NOTICE OF ELECTION

THE STATE OF TEXAS COUNTY OF FLOYD

CAPROCK HOSPITAL DISTRICT TO ALL RESIDENT QUALIFIED ELECTORS OF CAPROCK HOS-PITAL DISTRICT:

NOTICE is hereby given that an election will be held on the 4th day of April, 1970, in CAPROCK HOSPITAL DISTRICT for the election of three Directors, said election to be held in accordance with the resolution and order passed by the Board of Directors of said District on the 20th day of February, 1970, said resolution and order being made a part of this notice for all intents and purposes.

THIS NOTICE of election is issued and given by the undersigned, pursuant to authority conferred by virtue of the attached resolution and order of the Board of Directors of CAPROCK HOSPITAL DISTRICT and under authority of law.

WITNESS OUR HANDS AND THE SEAL OF SAID DISTRICT, this the 20th day of Febryary, 1970.

/s/ Hollis R. Bond President, Board of Directors Caprock Hospital District

ATTEST: /s/ M. S. Robertson Secretary, Board of Directors Caprock Hospital District (District Seal)

RESOLUTION AND ORDER BY THE BOARD OF DIRECTORS OF CAPROCK HOSPITAL DISTRICT CALLING AN ELECTION FOR THE PURPOSE OF ELECTING DIRECTORS

WHEREAS, by virtue of the provisions of Chapter 238, Acts of the 58th Legislature, Regular Session, 1963, it is necessary that an election be held in CAPROCK HOSPITAL DISTRICT on April 1970, for the purpose of electing three Directors for such District to serve until the first Saturday in April, 1972, and thereafter until their successors have been declared elected and qualified; therefore,

BE IT RESOLVED AND ORDERED BY THE BOARD OF DIR-ECTORS OF CAPROCK HOSPITAL DISTRICT:

SECTION 1: That an election be held on the 2nd day of April 1970, within said CAPROCK HOSPITAL DISTRICT, for the 4th SECTION 1: That an election be held on the 4th day of April. 1970, within said CAPROCK HOSPITAL DISTRICT, for the purpose of submitting to the resident qualified electors of said District the following:

THE ELECTION of three Directors for said CAPROCK HOS-PITAL DISTRICT to serve until their successors have been declared elected and qualified.

SECTION 2: That the manner of holding said election shall be governed by the General Laws of the State of Texas, except as otherwise provided by Chapter 238, Acts of the 58th Legislature, Regular Session, 1963, and all resident qualified electors shall be entitled to vote. SECTION 3: To be eligible for the office of Director a person

must be at least twenty-one years of age, reside in and own land in the territorial limits of the District which is subject to SECTION 4: The said election shall be held at the Court-

house, Floydada, Texas; the presiding judge shall be William E. Brown, Jr., and the alternate presiding judge shall be S. J.

SECTION 4: The said election shall be held at the Courthouse. Floydada, Texas. The Presiding Judge shall appoint one Assistant Judge and at

least two (2) Clerks to assist in holding such election. ABSENTEE VOTING shall be conducted by Margaret Collier at the Courthouse, Floydada, Texas, in accordance with the provisions of Chapter 424, Acts of the 58th Legislature, Regular Session, 1963, and said Clerk shall keep her office open between the hours of 8:00 A.M. and 5:00 P.M. on each day for absentee voting which is not a Saturday, a Sunday or an official

SECTION 5: That the ballots for said election shall be prepared in sufficient number and in conformity with Chapter 6, V.A.T.C.S., Election Code, and that written or printed on such ballots shall appear the names of the candidates for directors who have submitted a proper petition under Chapter 238, Acts of the 58th Legislature, Regular Session, 1963.

SECTION 6: The election officials shall make due returns of said election within five (5) days of the date of holding the SECTION 7: The Board of Directors shall give notice of the

election herein ordered by publishing a true copy thereof, signed by the President and attested by the Secretary, in a newspaper of general circulation published in Floyd County, Texas, one time at least ten (10) days prior to the election. PASSED, APPROVED AND ADOPTED, this the 20th day of February, 1970.

by Sherry Mullin Floyd County H.D. Agent

USE ANNUALS FOR ACCENT

There is nothing like a good selection of annual flowers to add beauty to a yard, accent to a landscape, or to provide a blaze of color to the neighborhood from late spring through the fall. For greater emphasis, use one type and color of annual in each planting

Annuals may be in beds along the foundation of the home, within areas that compliment the house, or in planters and planter boxes. Try planting a flower border in front of shrubs, a wall, a fence, or house foundation in order to provide a dark or contrasting background to obtain maximum effectiveness. They are frequently used in those odd shaped. or hard to maintain areas as they provide beauty with a minimum of effort. As an edging for shaded areas use calendula, coleus, and salvia. For sunny areas try dwarf ageratum, alyssum, dianthus, dusty miller, dwarf marigold, petunia, Drummonds phlox, verbena, and dwarf zinnia.

For a variety of effects use atum, alyssum, begonia, col-

I have never heard nor that is probably correct) that thought of a satisfactory explanation of why Charlie Jones' fall from the roof of the Owens house should have done such serious damage to his leg, that spring day of 1908. The fact that it did is enough to say. Dr. R. A. Childers, who was called, had a dim view of the possibility of saving the member. At Charlie's insistence he undertook to do so, however.

Later when gangrene made its appearance in the damaged part the doctor told the patient and suggested immediate amputation of the leg somewhat above the ankle. There were other days and other warnings as the infection took further toll. Then the day when the doctor told the patient he must have is that he had a hard time keepthe amputation if he wanted a ling from having a run-away chance to live.

When the patient consented, the leg was his. He held himpreparation was made to do the self together sufficiently to operation at once. I have been told (and Ulmer White thinks

#### Texas No. 1 in industry Development

Texas has earned No. 1 rating among the states in industrial development for 1969 first time in its history.

Gov. Preston Smith announced that Dun and Bradstreet orporation, in a report pubished by the Fortune Magazine marketing research staff, bestowed the recognition.

Number of newplants in Texas last year exceeded California's by 42 percent. California was in second place. Texas is the only southwestern state to rank in the top ten

of new industrial locations. Only six other states now exceed Texas' overall total of 15,576 manufacturing plants. Number increased by six per

cent during last year. Smith credited the increase to efforts of the Texas Industrial Commission and "the close-knit alliance between local, regional and state development groups and the partnership of industry and government that we have in Texas to promote a better life for all citi-

Top ten states invested \$7.9 million in programs to attract industry last year. Texas spent only \$385,570 - or less than five percent of the total, State's share of the 3,813 new plants nationwide was 24 percent.

"For an investment of one half the average, Texas has been able to accomplish nearly three times the results," Smith

Other states among the top ten were Georgia with 609, Illinois with 290, Alabama with 289, Indiana with 240, Florida with 224, Minnesota with 224, Ohio with 212 and North Carolina with 189,

#### Floydada Joins Association Of Governments

Lubbock Mayor W. D. "Dub" Rogers, Jr., President of the South Plains Association of Governments announced March 11 at the monthly meeting of the Board of Directors that seven county governments and eighteen municipalities have joined SPAG since last August when the By-Laws were changed to allow for regional expansion. The new members are as follows:

COUNTIES: Dickens, Garza, Hale, Hockley, Bailey, Terry, and Lynn, MUNICIPALITIES: Crosby-

ton, Littlefield, Muleshoe, Plainview, Ralls, Sudan, White-face, O'Donnell, Levelland, Floydada, Morton, Petersburg, Post, Ropesville, Tahoka, Wilson, Sundown, and Spur.

total membership of SPAG now encompasses 8 of the 15 counties in the region and 24 of the 41 cities. The population of the existing members is over 80% of the regional total.

Laws in August, the Association existed only in Lubbock County. Membership at that time totaled seven governments (Lubbock County, Abernathy, Idalou, Lubbock, Shallowater, Slaton, and Wolfforth.)

In Mayor Rogers' words, "The Association has taken on a regional aspect, which was lacking prior to August. We feel that with our broadened base, we can accomplish many of the goals which we have set for ourselves. We certainly look forward to working, communicating and cooperating, with our new members in the

#### County 4-Hers To Participate In Food Show

Seven Floyd County 4-H campus in Lubbock. They are Lindsey Lovell, Teena Jones, Kay Russell, LuAnn Lovell, Gaye Jones, Zoe Hodges and LeAnne Ferguson.

Food leaders working with

4-H boys and girls in the area of food and nutrition are Mrs. Porter Finley, Mrs. Monroe Schulz, Mrs. Bailey Henderson

and Mrs. Clay Mercer. The 4-H food and nutrition program is designed to help 4-H club members to develop leadership talents and to work toward achieving the broad objective of character and effective citizenship. Through project meetings and experience at

preparation of food and in the planning and serving of nutritious meals, and in the selection and use of equipment. Through knowledge of nutrition, they develop desirable food habits for good health.

Shortest recorded reign was that of Dauphin Louis Antoine, Louis XIX of France, which home, they develop skill in the lasted for 15 minutes.

#### Hereford Steer Exhibited By Miss Edwards Brings 535,000

PAGE ONE

"Go Again," a 1,082 Here-ford calf, exhibited by Cynthia Edwards of Llano, former Floydada resident, brought a ever, a steer must be shown un-der an individual's name, so Cynthia received the honor. According to Mrs. Edwards the new record price at the Houston Livestock Show held in Houston recently. The grand champion steer over all breeds sold to Mrs. Candace Mossler of Houston for \$35,000. Breeder was McBride Hereford Ranch, Llano. Dr. Miles McKee of Kansas State University, Manhattan, judged the show.

The unique name "Go Again", was due to the fact McBride also bred the grand champion of the 1969 Southwestern Exposition at Fort Worth, and his name was "Go-Go." The sire of both grand champions is Sil-

The Earl Edwards Jr. family resided in the Lakeview community before moving to Llano. Cynthia, granddaughter of Mr. and Mrs. W. Earl Edwards of Lakeview, was born in Floyd County, as were the other three Edward children. She is 18 years of age and is a senior in the Llano High School, Cynthia plans to enter Baylor University this fall.

Her start in 4-H work began in Floyd County under the leadership of county agent Cecil Lewis and she exhibited steers in Floyd County for five years.

The money from the grand champion steer, as well as others, from stock the Edwards children have shown, goes into a fund to be divided with Jamie, 16; Bill, 14; and Marilyn, age 12, who is handicapped. The thee older children have always had a joint project and share equally in the work; how-

According to Mrs. Edwards the other children always want Marilyn to be included even though she does not share in their projects.

#### NO HOG CHOLERA ON EAKIN FARM

Contrary to rumors going around, it is untrue that hog cholera has struck the Willie B. Eakin farm between McCoy and Petersburg.

Eakin reported to The Hesperian this week that the reports were untrue. . .doesn't have cholera on his farm. . and certainly doesn't want it!

FLOYD DATA

Mr. and Mrs. J. C. Odam and Gary visited in Lubbock Friday night with Mrs. Odessa Cage and Clay. Mrs. Odam and Gary remained overnight in the home of her sister and Saturday all attended the Musical Festival at Oakwood Baptist Church. Clay participated in the Festival. Saturday afternoon Mrs. Cage and Clay brought their visitors home, stopping in Abernathy where they visited Mrs. Odam's daughter, Mrs. Stanley Waits and

- 20. Megaphone rolled up, one end
- 21. Sun visor watch parades. 22. Use to sit on wet grass at con-
- certs, etc. 23. Stuff under doors to protect from
- winter drafts. 24. Use to insulate windows (as
- windows or between storm
- 25. Stuff in chimney flue if there's no damper
- 26. Place in bottom of shoes in winter to keep feet warmer.
- Use between sheet and blanket for winter insulation.
- 28. Use between bed springs and mattress for insulation.
- 29. Put inside jacket for extra
- warmth.
- 30. Use strip for book mark 31. Use figures and shapes for prac-
- ticing sewing, as schools do. 32. Protect trunk or seats when car-
- rying dirty or wet things. Wrap around ice cream to keep
- cold longer. 34. Use to start fires.
- Use to wrap wet garbage. 36. Make pinwheels.
- Line waste paper baskets.
- 38. Make special, self-contained and disposable bedside waste bas-39. Line bed to protect from soiling.
- 40. Place under baby's high chair to protect floor.
- 41. Shred for excelsior for packing. 42. Wrap dishes, glasses for travel-
- 43. Put sheets on windows to keep light out.
- 44. Place at door as mat for wet,
- muddy shoes or boots. 45. Bird feeder - place on top of
- snow and put feed on.
- 46. Cover school books in sudden
- shower. 47. Replace, temporarily, a broken
- window or screen. 48. Use to make or remake dress
- patterns cut and mark. 49. Place under paint bucket while
- painting. 50. Use to wrap wet or soiled dia-
- pers on a trip 51. Wrap wet bathing suits on trip
- home. 52. Place on drain under jars while
- making jelly.
- Place on drain when peeling or hulling strawberries - fold and
- dispose.
- 54. Place on floor at door to wipe
- 55. Save and give to paper drive.
- 56. Place under Christmas tree
- stand. 57. Place in doors to keep them from rattling.

- 58. Place under car in garage to keep oil from floor.
- 59. Use as shoe horn. 60. Paint large piece glued together and use to put electric train on.
- Paint roads, trees, houses. Make car litter bag. 62. Place on car floor to protect
- from muddy feet. 63. Place on car window to keep
- from icing outside. 64. Cover toys or sandbox during
- sudden downpour. 65. When sending small packages in a large box, place wads between
- to secure. 66. Use for makeshift table cloth at
- 67. Place by phone and jot messages in margin when you're short on
- 68. Save newspaper on date of child's birth to give to him later.
- 69. Wrap baby bottle to keep better.
- 70. When using car rack, place under luggage to protect car.
- Stuff in shoes to retain shape, 72. Place on floor or table when polishing shoes.
- 73. Place at door for dripping umbrellas.
- 74. Wrap small gifts, as for wishing well at a carnival.
- 75. Use for watching eclipse of sun (put hole in it and show on
- 76. For conversation piece, wrap shower gift with appropriate part of paper.
- 77. Wrap fish when fishing.
- 79. Place under sleeping bag for protection from dampness. 80. Roll tightly and tie, soak in cop-
- per sulfate, dry. Burns in pretty colors like logs.
- 81. Use as flower basket place flowers on it on ground and
- 82. Blot up water
- 83. Pack Christmas tree ornaments. 84. Light cigaret from campfire.
- Frame for modern art
- 86. Use for child's pup tent for play. 87. Cut articles for scrap book.
- 88. Put under large tents for moisture protection 89. Use on seat in car when chang-
- ing diaper on trip, fold and throw away.
- 90. Use to wipe paint brushes. 91. Line storage boxes.
- 92. Cover food at picnic.
- 93. Plain sheet for unique place
- 94. Cut letters and words and use for notes or signs for added
- interest. 95. Pile up for booster chair for child.
- 96. Small pile makes a hot plate.
- 97. Place folded sheet under baby to save wash in emergency.
- 98. Make Christmas tree ornament -strips cut either side.
- 99. Use a wad for an improvised ball game.
- 100. Use for string on tree small
- pieces on string can be painted. 101. Cover pile with cloth for seat
- 102. Desk pad small pile.
- 103. Make kites.
- 104. Make permanent book covers. 105. Protect face while sunbathing.
- 106. Place under blanket at beach-
- no sand on blanket. 107. Wad up to pad a costume.
- 108. Make a pinata.
- 109. Place between sheet and mattress as a rubber sheet.
- 110. Place in large ice chest after ice has been in a while. Separates ice and food, prevents sog-
- gy food. 111. Make hood for shoulder when
- washing or drying hair. 112. Use as car sun shade.
- 113. Put under car wheels when car is stuck in sand, snow or mud.

- 114. Use on windows as screen when changing at beach. 115. Put over clothes on clothes hang-
- er when storing. 116. Wrap around hanger and cover
- with cloth no crease in pants. 117. Poker for fire - tightly rolled.
- 118. Clean cobwebs tightly rolled.
- 119. Let children color pictures. 120. Place over ears under cap for insulation.
- 121. Place wet photographs on paper in darkroom 122. Store film and pictures between
- lavers 123. Shredded up, place in flower
- vases to support flowers. 124. Use for papier mache puppets.
- 125. Place under heavy objects on table tops
- 126. Wrap sandwiches extra protection over waxed paper. 127. Use sheets to sort cards or pic-
- tures each space for a cate-128. Place under table cloth to pro-
- tect table. 129. Use with bed sheets for improvised croup tent for sick child.
- 130. Draw shape of item to be washed on paper before wash-
- ing, facilitates blocking. 131. Roll and make a funnel. 132. Wrap oily stencils.
- 133. Cover furniture when sanding floors. 134. Cover floor under edge of rug
- when shampooing rug. 135. Mark size of foot when ordering 136. Use for
- practice typing. 137. Cover chrome when painting

inexpensive paper to

- 138. Wrap around wet flowers when carrying them from church. 139. Use as knee pad when working
- in garden or weeding. 140. Use small piece as support for wiggly table leg.
- 141. Line wash basket and use to dispose of weeds
- 142. Place on table when children are painting or glueing. 143. Make a large sheet-sized SOS
- if lost. 144. Plug small holes in walls. 145. Wrap around candle bottoms to
- make them fit holder. 146. Use as disposable plate when eating watermelon.
- 147. Place several layers under two layers of waxed paper for cutting board. 148. Use with folded edge down as
- dustpan. 149. Place flowers to be pressed in a
- book between two layers protect book. 150. Place under typewriter when
- typing to cushion sound. 151. Wrap stencils between for stor-
- 152. Use between two layers of diapers to waterproof baby. 153. Use to stuff hats to make them
- keep their shape 154. Use to stuff handbags when stor-
- 155. Lay on table and place towel over when drying sweaters. 156. When on a trip, use a sheet to
- blot and help dry washed rubber baby pants. 157. Use to pad lunch boxes, especially if the thermos is loose.

And in addition for each 100 acres of wheat a farmer plants he must let lie fallow, uncultivated 30.8 acres more, and he can plant absolutely nothing on that 30.8 acres.

Last year the Secretary of Agriculture Hardin cut the price support of cottonseed nearly \$5.00 a bale. That means that the farmer does not receive enough from his cottonseed to even pay the cost of ginning a bale of cotton.

In November 1969, Secretary of Agriculture Hardin said he was calling in the 1967 and 1968 reseal loans on grain sorghum. This order meant to sell all the grain sorghum in storage from the 1967 and 1968

of Agriculture cut the rice acreage for 1970 by 15 percent. He had already cut the rice acreage for 1970 by 10 percent. I have made two separate appeals to the Secretary of Agriculture Hardin to change this order. Twenty-five Congressmen from Texas, Arkansas, Louisiana and California led by the prestigious chairman Wilbur Mills of Arkansas joined me in this protest. Thus far, the Secretary of Agriculture has turned a deaf ear to all

of our pleas.
In addition the Secretary of Agriculture recently announced that there would be no more advance spring payments on wheat and feed grain. In past years, a farmer who took part in the feed grain diverted acreage program could get about 50 percent of his payment in the spring and the rest at harvest time.

Without advance payments, the farmer will have to go to banks or other lending institutions to get money to plant his crops. With high interest rates of today, the farmer is burdened with the extra heavy expense of borrowing money.

There are bills in the Senate, which I am co - sponsoring, to force the Secretary of Agriculture to at least make the 50 percent advance payments to our wheat and grain growers. We need these bills passed to save many family farms from being wiped out. It is important for Texas as our state has more farm families than any other state in the Union.

Senator Ralph Yarborough

Mrs. Ava Jackson's daughters and their husbands visited her over the weekend. They are the Orban Carrols and a daughter and family. The Howard Stringers, all of Amarillo, and Mr. and Mrs. Neil Wright of Rotan. Sunday afternoon Mrs. Leo Frizzell and Mrs. Jackson and the visitors went to South Plains to visit the Garvin Beedys and to see the new baby.

Mr. and Mrs. Albert Mize visited Mr. and Mrs. Leo Frizzell last Friday. Clarence Ashton visited his father, R.H. Ashton Sunday afternoon.

Mr. and Mrs. Gordon Mummert visited the Morris Carrolls Sunday afternoon.

The Carroll's son "Tree", who is in the service, called, Sunday from Augusta, Geogia to say he has completed basic training there and expects to get a furlough before

Douglas Simpson has been named manager herefor Southwestern Bell Telephone Company. He succeeds Jerry M. Sachse, who has been promoted to unit manager in Lubbock.

Tuesday.

Mrs. Oliver Allen Monday afternoon, Tuesday she visited Mr. and Mrs. Luther Holmes, who recently moved to town. Sunday afternoon Mrs. Vinson visited in the home of her

Sunday afternoon Mrs. Vinson visited in the home of her son, Jerrold and family. Her nephew and family, Mr. and Mrs. Green Stroup of Brownfield, were also present.

Mr. and Mrs. Milton Mensch of Lubbock spent the weekend with her parents, Mr. and Mrs. Hal Thomas.

Mr. and Mrs. Thomas visited in Plainview Friday with Mr. and Mrs. Olin Miller, Mrs. Doyle Sandifur spent

Mrs. Doyle Sandifur spent several days last week in a Quanah hospital with flu.

Visitors in the Sandifur home Saturday morning were Austin Purdy of Lubbock and Dub and Theo Thompson of Amarillo; and Herman Graham of Muncy; in the afternoon.

Mr. and Mrs. C.W. Denison visited Saturday afternoon in

SOYBEANS, A GOOD CASH CROP

The foresight someten years ago of a few outstanding farmers who were looking for new and practical crops for this area is paying dividends for soybean growers today. Soybeans were a good money crop on the High Plains again in 1969.

In Hale County where an estimated 60,000 soybean acres averaged 35 bushels per acre the value to the farmer was estimated to be over 4.6 million dollars by Dr. Douglas Owen, Agronomist at the High Plains Research Foundation at Halfway.

According to Owen the 42 county area of the irrigated High Plains had over 200,000 acres in soybeans in 1969. Assuming average yields the crop value was estimated to be over 10 million dollars to High Plains farmers.

Extensive research on irrigation, fertilization, and cultural practices on soybeans at the High Plains Research Foundation has resulted in increased yields and reduced costs for farmers throughout the area.

"Many factors are responsible for the growth and popularity of the crop but much credit is due to development of new and improved varieties for the High Plains," Owen said.

The High Plains Research
Foundation has been at the front
of soybean research since it
began an extensive breeding
program in 1960 and developed
the Hinn, Patterson and HP963 varieties for the High
Plains region. Tests in cooperation with the USDA have prothe Lockney General Hospital
with Mal Jarbo and Mrs. Clyde

Bagwell.

C.W. Denison Jr. of Brownfield is visiting his parents

today.

We had news from Mrs. Walter Sims, now of Alvin, Texas, that she has been sick with flu.

We hope she is well soon.

Edwin Warren of Tech was visiting home - folks Sunday, mostly at Caprock Hospital where his father, Thomas Warren, has been a patient for about two weeks. Also there today visiting at the hospital were Mr. and Mrs. Earl Huckabee of Dumas and relatives elsewhere. Thomas is reported improving.

We sympathize with Paul Attebury who received a message this morning that an uncle in Grand Prairie died early today of a heart attack.

Mr. and Mrs. Paul Stout arrived last week from North Carolina where Paul had received his discharge from the service. They reached home to find their fathers both in Caprock Hospital.

Mrs. W.L. Hartline was "under the weather" last week, but is better now. vided essential data leading to the release of the Hill and Clark 63 varieties for this area.

According to Dr. Owen several new varieties performed well in the 1969 trials and could be recommended for limited field plantings in 1970. The Kent variety produced 52 bushels per acre last year and had averaged 49 bushels per acre for the last three years. Kent performs best where Clark 63 adapted and would be recommended as an early maturing variety similar to Patterson and HP-963. "It's best area of adaptation is probably on the Northern Plains," Owen said. York is another leading new variety similar to Hill in maturity. In 1969, York produced 60 bushels per acre and has

a three year average of 53 bushels per acre. York is recommended for areas where Hill normally performs well.

New and improved varieties continue to be developed and tested at the High Plains Research Foundation under Dr. Owen's supervision. The latest results are published in the Annual Report to be released this month.

The practical application of ten years research and experience published in a short Soybean Production Guide written by Dr. Owen is available upon request.

First tank to be used in battle was "Little Willie", which saw service in the battle of Flers in France on Sept. 15,

# Apply Terracion Super-X the first time you plan cotton.

# Are you going to go through another year thinking you can't afford an Oldsmobile?

few people think an Oldsmobile is out of their reach. They think it costs a lot more than it really does. Result? Many people buy an ordinary car and end up with a lot less car and value for their money.

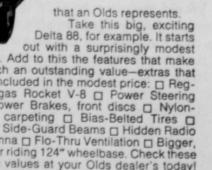

PHONE 983-5233

It's so unnecessary, too, because Oldsmobile has many models that are priced

right down with the so-called low-priced So why settle for the ordinary when you

Take this big, exciting Delta 88, for example. It starts out with a surprisingly modest price. Add to this the features that make it such an outstanding value-extras that are included in the modest price: 
Regular-gas Rocket V-8 Power Steering ☐ Power Brakes, front discs ☐ Nylon-loop carpeting ☐ Bias-Belted Tires ☐ Door Side-Guard Beams | Hidden Radio Antenna | Flo-Thru Ventilation | Bigger, better riding 124" wheelbase. Check these can step up to an Olds and all the value extra values at your Olds dealer's today!

Oldsmobile: Escape from the ordinary

INDY PACE CAR 1970

insecticides, equipment, operators and the precious time. Multiply that by the number of acres you could lose to seed and seedling disease. Now think about Terraclor Super-X Soil

Think for a minute what it costs to replant

an acre of cotton that doesn't make a stand.

There's the cost of seed, fertilizer, herbicides,

Fungicide. It could very well eliminate replanting. Here's why: Terraclor Super-X is a combination of two Olin discoveries that effectively control the fungi that cause cotton seedling disease.

How important is this to you? The regional Cotton Disease Council reports that losses average \$60,000,000 a year to seedling diseases alone.

Terraclor Super-X is applied while you plant. Your cotton seed is surrounded by protection in the furrow, where it counts As the seed germinates and the seedling emerges, the fungi that kill unprotected plants are held off by Terrac Super-X. You get a healthy, vigorous st from only one planting.

About seed treatments: They are great far as they go. But seed treatment protection lasts only until the seed coat opens and the seedling grows into untreated soil. That's when you need Terraclor Super-X in the furrow.

Terraclor Super-X is available from your/ Olin dealer in three formulations: granular. liquid and dust.

A special formulation is available with a qu ity soil systemic insecticide impregnated the granules for combination fungus an sect control.

If you don't know your local Olin d write to Terraclor Super-X, P. O. Box 991, Rock, Ark. 72203 for his name.

You ought to get to know him. He cal you get a good stand from only one planting. That's one good reason he is known as the rare bird in the business.
