Wind Band Names Rosie Luna Queen

At halftime ceremonies at Wester Field Friday night, Rosie Luna was recognized as 1970-71 Whirlwind Band Queen. The Floydada High School band member was one of six senior girls nominated for the title.

The Band Queen is elected by secret ballot of the band members and is traditionally a senior girl.

Mike Thaxton, Band president, presented Miss Luna with a necklace, roses and the traditional kiss.

Each of the nominees received a charm.

Other nominees for the honor were Stephanie Arwine, Beverly Kinnibrugh, Brenda Nelson, Linda Thompson and Kacky

The Band is now preparing for the Region 16 University Interscholastic League Marching Band Contest which will be held Nov. 18 at Jones Stadium

Brotherhood Is Sponsoring Drug Abuse Program

Monday night, November 2, the Brotherhood of the First Baptist Church will sponsor a Community Drug Awareness program, beginning at 7:45.

Two high school students from Plainview, who are personally familiar with the drug problem there, will present the program. Problems of this area will be discussed and a question and answer period

Interested persons of the Floydada area are urged to attend and it is hoped that every church and civic organization will have representatives present. Parents and teenagers should be especially interested due to the rapid growth of this problem in the vicinity, a spokesman said,

Joe's Fried Chicken **Business Opens**

Joe Hesson is opening another business on the Matador Highway Tuesday, November 3. . . Joe's Fried Chicken.

The new business is located in a new building just east of Joe's 7-11 Grocery and will feature all sorts of fried chicken menus from chicken in the bucket to rolls and honey.

The Hessons moved to Floydada three years ago when they bought the Tastee-Freez. Their 7-11 Grocery store has been open over a year, and they have sold the Tastee-Freez, since opening the grocery store.

The Hesperian will publish a picture of the new business in

were received. According to Preston Watson, Floydada Athletic director, approximately \$3659 was received. "This is the largest gate receipts ever for a regular season game played in Floydada," Watson said.

"Bad weather brought Floydada's share of the Lockney game down to a little over \$500, so the record gate money will help the school's athletic fund considerably," Watson contin-

Watson estimated the crowd count at 3500 to 4000 including fans seated, standing, and in automobiles.

Dr. Snead Moves To **Morton Hospital**

A medical doctor who began practice at Caprock Hospital here in January of 1968 has moved away from Floydada and joins the medical staff of the Morton Hospital this week.

She is Dr. Eva Snead, and the move leaves Floydada with three doctors and brings Morton's doctor count up to two.

Tom Snead, husband of Eva, said the decision to move to Morton was due to the fact that he could work a 320 acre irrigated farm at Morton and would put half of it in cantaloupes and half in onions.

Snead had lost his lease on the City of Floydada's farm recent-Barney Barnett, administra-

years she was in this commun-

tor of Caprock Hospital said, "We regret very much that Dr. Snead is moving. . . we will certainly miss her, and her leaving will effect the operation of our hospital. . . she referred many patients to our hospital during the almost three

"We still have hopes that Dr. Cornell Petrissevich will return to Floydada when he finishes his exam in New York", Barnett added, Dr. Petrassevich is taking a course and exam required of all foreign doctors. He worked in Caprock Hospital for about five months before returning to New York.

Steve Puck- est carry was for five yards, and he lost the district scoring lead as he was held scoreless by the 'Wind defense while Walter Harris ran for three TDs and a double extra to take over as high-point man.

> The entire Olton backfield managed only 65 yards on the ground. Olton aerials went for 138 yards, 53 of those coming in the single scoring drive and most of the rest on desperation passes near the end of the game. The Mustangs strung together three first downs in their scoring drive and put two more back to back in the last frame, but the remainder of the nine were scattered. Eight of them came in the final half.

Great Defense

It was a "full house" in Wester Field Friday night and most of the crowd was pleased with the 28-7 Whirlwind victory over the previously undefeated Olton Mustangs, And again, it was Walter Harris night as Walter led the scoring column with three TDs and took over the district scoring lead.

It was a tense crowd, and nervous players through the first quarter as a defensive battle kept the ball on the ground and no scoring.

Then the mighty Whirlwinds broke loose in the second quarter with Harris scoring two touchdowns and Steve Puckett another. Greg Campbell kicked the first extra point, a pass play for two failed on the next extra point effort, but Harris ran over two on the third touchdown and Floydada led 21-0 at halftime.

The Mustangs hit the field with a passing attack shortly after the halftime with quarterback Steve Stockdale throwing a pass for the only Mustang TD of the contest.

About the middle of the fourth quarter Harris again skipped over for a touchdown, Campbell did, and it was the Whirlwind's seventh win of seven contests this season....28-7.

Walter Harris, Van Mitchell and Andy Selman moved the ball on the ground to the Mustang 20 before the Whirlwind offense bogged down and Olton took over on

The 'Wind defense stopped Workman and Marlos May cold before Workman managed five on the Mustangs' third play of the possession and Stockdale punted to Floydada's 33.

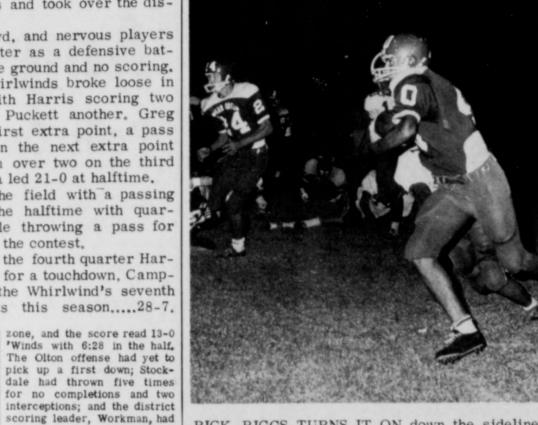

Again the 'Winds marched on a drive that picked up three first downs and 42 yards before fizzling at the Olton 25, a vard shy of the first But th Mustangs couldn't move either, as two rushes and an incomplete pass left Stockdale and Company four yards short of the mark and forced the second Olton punt of the night.

The 'Winds took over on their 29 and were pushed back to the 20. Steve Puckett got the 'Winds out of trouble with a beautiful 56-yard punt, then two plays later intercepted Stockdale's second-down pass, giving Floydada possession at the Olton

This time the 'Winds cashed in on the break. Quarterback Andy Hale's toss to Puckett fell incomplete on the first play of the drive, and the Whirlwind backs got the call to take the ball in on the ground. Harris got 33 yards, Selman four and Hale two in the drive, which took seven plays after the incompletion. Harris slithered the final four, Greg Campbell added the PAT, and the scoring ice had been broken with 9:10 left in Period

Starting from their 29 after the kickoff return, the Mustangs managed only seven yards before the punt. Harris got a yard for the 'Winds to the Floydada 35, and then the Hale-to-Puckett pass combination clicked with a completion to the Olton 31; a big 15-yard penalty against the Mustangs moved the ball all the way to the 16. Mitchell got it to the nine, and Harris took it on in for the second Whirlwind TD in a three-minute span. Campbell's kick was true, but a holding penalty on the extra try nullified the point and set the 'Winds back fifteen. A razzle-dazzle two-point try saw Puckett barely miss Mike Moore with a pass in the end

When Hurricane Celia ripped a tornadic trail through Texas, rural electric systems in her path needed help in a hurry. Within hours volunteers from other rural electric cooperatives in the state were on the scene to help restore service. Many of these skilled men had followed the devastating track of such shady ladies as Audrey, Beulah, Carla and Camille. They are among the 2500 employees of 77 member-owned rural electric systems in Texas who provide a first class electric service to their own member-owners. But a neighbor called for help and they answered. It is this spirit of cooperation that has helped make the rural electric cooperatives first in service to rural Texans, Helping Texas Grow.

MR.AND MRS.LENTON LANHAM

Mr. And Mrs. Lenton Lanham To Celebrate 50th., Anniversary

Mr. and Mrs. Lenton Lan-ham, who reside eight miles west of Silverton, will celebrate their Golden Wedding anniversary at a reception from two until five on the afternoon of Sunday, November 8, in the Pioneer Room at First State Bank

Their children, Mrs. Jack (Mary John) Harris and Ted Lanham, both of Silverton, and Mrs. Larry (Peggy) Tunnell of Amarillo, will host the reception. They will be joined in the hospitalities of the anniversary celebration by Donna, Lisa and Jill Tunnell of Amarillo, Mr. farmer. and Mrs. Riley Harris, Scotty and Shelly of Silverton, grandchildren and great grandchildren of the honored couple.

Lenton Lanham moved to Briscoe County from Taylor

County in 1907, and Miss Pearl Huckabay moved to Floyd County in 1917 from Erath County. They attended school together at Sunset, now South Plains.

They were united in marriage November 10, 1920, at the par-sonage of the Methodist Church in Lockney by H. Bascom Watts, Following their marriage they lived and reared their children at South Plains.

They lived in Floydada from 1945 until 1951, and made their home in Canyon briefly before moving to Briscoe County in 1952. Mr. Lanham is a retired

WHEN Texans go to the polls November 3 to vote for U.S. Senator and governor and other public officials, they'll also have to decide on seven proposed amendments to the State Constitution. But the question that is causing the most controversy is No. 2 - "liquor by the drink". If the voter isn't informed, however, No. 2 is the one he's most likely to bypass. The proposition is "Repeal of the prohibitions against open saloons found in Section 20, Article XVI of the Constitution of the State of Texas." Since you cannot take a self-made memorandum on candidate choices into the polling booth, the voter is not likely to lug a copy of the constitution to examine Section 20, Article XVL Study the proposed amendments, this one in particular, and vote NO.

SEVERAL Floyd County farmers got together with their combines and trucks Monday afternoon and showed there is still love and friendship for our fellowmen. Tom Ashburn, south of Lockney, underwent major surgery Tuesday morning in Lubbock Methodist Hosal and some 17 Lockney area farmers, combined his soybean ley, Raymond Rucker, Hall Ferguson, Lloyd Widener and son, James Ferguson, Gail Wilson, Delton Jack, Clark Harris, Weldon Smith, A. RECORDS in the business office at Northwest Texas Hospital showing total delinquent bills owed by patients from Panhandle counties were revealed recently. The figures represented to total delinquent bill from each county since 1962. Noticed one from Floyd County in the amount of \$187.

YOUR newspaper in a way is like a supermarket according to the Bureau of Advertising, a service and research organization for the bulk of the nation's dailies. Women "shop" the ads before they go to the store, even the weekly newspapers. BOA interviewed 373 homemakers who usually are supermarket shoppers. The survey covered four large towns. They discovered that more than eight of 10 supermarket shoppers, or 83 percent, look at food ads before shopping. More than six out of five compared prices. Two thirds of the women, 66 percent, made a list before shopping, and nearly two thirds of the shoppers reported that they clipped ads as they prepared to restock the larder.

NOT only are we concerned with the dire need of doctors for smaller hospitals but so are our congressmen. In reply to a letter received from a Floydada woman, George Bush, candidate for Senator, said "I share your anxiety over this critical situation and have introduced legislation to help relieve this serious shortage, I have also asked Secretary Richardson's assistance in finding the swiftest and most effective means of aiding the smaller medical institutions in meeting the heavy demands they are now facing. This is an area, (meaning Floyd County) in which I am keenly interested and you may be sure that if I am elected I will continue to do everything within my power to see that the small towns receive the proper medical attention." The bill introduced by Mr. Bush is H.R. 19036 which is to amend the Public Health Service Act to encourage physicians, dentists,

Irvin Garrett Boyd, at 7 pounds and 12 ounces, was born on the corner of Jefferson and Main in Houston October 25 at 2:30 a.m. The young man was delivered by his father, who was rushing his wife, the former Shirley Gregory, to the hospital. The mother and baby are reported doing fine. Garrett is manager of a travel ag-

optometrists, and other medical personnel to practice in areas where shortages of such personnel exist, Mr. Bush helped to also introduce bill H.R. 19470, to amend title XVIII of the Social Security Act to modify the nursing service requirement and certain other requirements which an institution must meet in order to qualify as a hospital thereunder so as to make such requirements more realistic insofar as they apply to smaller institutions.

There are only three steps leading to the place where perfect harmony lives. Yet they are hard to climb. The first is to think kindly of one's neighbor. The second is to speak kindly to him. The third is to act kindly towards him.

The reason they are hard to climb is that we are too busily engaged in thinking well of ourselves, speaking well of ourselves, and acting in a manner which we think will do ourselves the most good.

Mr. and Mrs. W. A. King of Fort Worth, who were in Lubbock for Texas Tech homecoming Saturday, spent that night in Lockney with his brother, Russell King and wife and were luncheon guests Sunday of Mr. and Mrs. C. W. Jones.

Mrs. Crawford read the devotional followed by the roll call, the exchange of recipes. A report by the finance chair-

man was given on the recent bake sale which netted \$40.85, and \$5 won for third place at the Floyd County Fair. Purchasing pecans and how many each wanted was also discussed.

A suggestion was given by Mrs. A. H. Kreis to change the date of the club's meetings. The motion was tabbed until more information on the matter could be given.

Mrs. Ray Carthel gave an interesting and informative program on making opinions count. She said know your Legislatures and Senators and to write them giving suggestions on various matters. Zeta Delta chapter, Amaril-

Pi chapter, Amarillo used a

panel to show what "The Ac-

ceptance of an Integrated So-

ciety" means. Beginning with a

visit made ten years ago by a

social worker into the home of a

prominent couple who lived a

stone's throw from a very hum-

ble building. The resident told

the social worker that she had

seen visitors of another color

enter this dwelling, that she and

her husband were very inter-

ested in solving the problem,

that they discussed it each

What is your suggeste

ution?" asked the social work-

er. They were undecided whe-

ther to build a high fence or a

audience Saturday that the pro-

blem now is tearing down the

fences and the hedges. Another

member of the panel who teach-

es the pre-school said five

year olds accept all colors.

She quoted, "A little child shall lead them."

used a panel: "It's A Good Time

for us to Become More Know-

ledgeable About Trends in Ed-

ucation" to explain their un-

graded school that is in its first

year. They described six learn-

ing centers for six age groups.

Each child is with his own age

group. Adrian's group was

reading at sixth grade level but

he was reading at 3rd grade le-

vel when school opened. He was

so well motivated that he car-

ried his third grade books with

him, studied while waiting in

lunch line, PEline, everywhere

until he was reading at sixth

grade level before six weeks

had passed. Each learning cen-

ter has three or four teach-

ers with about thirty pupils per

teacher. Though they are di-

vided into blocks of eight to

ten pupils. While teacher works

with one block others work independently. With three class-

rooms in one center, kits are

shared, thereby cutting down on number needed. Children there

are excited about it, One panel-

ist stated team teaching is the

greatest method. Sixty-one pu-

pils have three teachers; it

is structured so teacher chan-

ges, each goes to another cen-

ter. Teachers do not teach ele-

ven subjects; teaches one all

morning. Children stay with

own group in morning and are mixed in afternoon. "It's fun

to watch children grow," he

said. Another panelist who tea-

ches younger children told

about taking them outside to

see, smell, listen and feel the

morning. Then they went inside

to write about the experience.

Dougherty Will Have Carnival On Halloween

The Dougherty Community Club is sponsoring the annual Halloween Carnival to be held Saturday night, October 31, beginning at 7 o'clock. Everyone is extended an invitation to attend the event to be held in the Dougherty School.

Concession stands will be open and there will be games of bingo and cake walk as well as costume judging and a free door prize. Chances are also being sold for a turkey or ham. A Halloween Carnival is us-

ually held each year at Andrews Elementary School, but officials at the school said, "There will not be one this year." Floydada youths assembled at the Methodist Church last

night and played "Trick or treat" for CROP, Christian Rural Overseas Program.

Remarque

Once in a long while a writer comes along who, having been caught up in the cataclysm of war, is able to put the futility and full horror of it on paper for others to read. Such a man was the German-born Erich Maria Remarque.

His greatest book, All Quiet on the Western Front, vividly demonstrated the futility of World War I, the human drama of those at the age to be consumed in the furnace of stagnated trench warfare in the four years of that struggle. (Remarque was wounded five times.) He fled Hitler Germany and became an American citizen,

though he lived in later years in Switzerland. He wrote other novels, and good ones, but will always be remembered best for All Quiet On The Western Front, because it had such an impact on the world, and still does.

The regularity of wars has been a plague on civilization own measurements where you for thousands of years and they are still with us today. In want them. When entertaining the slow march toward a more enlightened world and toward the day when wars will no longer consume the flower of nation's manhood, as did World War I, some have made a lasting contribution to speed the arrival of the day when disputes will be settled at the conference table or in international courts, rather than on the battlefield. Remarque was one of those.

WOODROW HILL

Woodrow Hill

Services for Woodrow Wilson Hill, 57 of Floydada, were conducted Tuesday afternoon in the First Christian Church in Floydada. Hill, a tile craftsman, died Saturday night about 8:20 in Caprock Hospital. He had been ill the past several months with a malignancy and hospitalized since October 14.

Hill was a native of Swenson, Texas, born September 29, 1913. He moved to Floydada at an early age with his parents and was married to Willie D. Wilkins in Plainview December 25, 1933. He was a member of the First Christian Church.

The deceased preceded his mother in death by 36 hours. Mrs. W. H. Hill died Monday morning in Lubbock Methodist Hospital.

Survivors include his wife, two sons, Everett Hanson Hill of Fort Stockton, and Anthony Don Hill, presently of Floydada; one daughter, Patricia Ann Hill of Dallas; four brothers, A. V. of Beaver, Okla.; C. A. of Las Vegas, Nev.; Alton of Clovis, N.M. and Calvin of Lubbock; and nine grandchildren,

The Rev. Dwayne Grimes, minister of the First Christian Church, officiated for the rites. Interment was in Floyd County Memorial Park under the direction of Moore-Rose Funeral

Pallbearers were Pike Hanna, Bert Lee Emert, S. D. Medley, Otis R. McIntosh, Thomas Hernandez, Earl Baker, Ralph Pendergast and Kearney

Winn Completes Fourth "Canyonlands" Season

Floydada's Skinny Winn, opment of life on through the goods. 15 Floydada area persons is back in town after another very successful season in Moab, Utah directing "Canyonlands By Night", a light and sound extravaganza.

Winn reports that over 5,000 persons this past summer enjoyed a ride up the Colorado River. This completes four tourist seasons there.

Winn's is the only one of several tours that operate in the area which show visitors the spectacular canyons at night. Every evening from mid-May through September, the Canyonlands By Night tour boat loads sightseers and takes the difficult trip up the Colorado River to where the show begins.

On the 30-minute trip by the river, the host of the tour, Wayne McConkie, explains the background of the tour and answers questions about the

When the boat reaches the show site, the running lights are turned off and the audience is in near total darkness. Winn's sound equipment starts the show as a voice booms: "In the beginning, the earth was without form and void, . . and God said - "Let there be light-" and the floodlights suddenly light the canyon walls of the Colorado. The professionally recorded tape tells the story over the high-fidelity sound system on the boat as the powerful lights on Winn's trucks illuminate the canyon walls and cliffs. The light trucks travel on a road parallel to the river as the boat drifts back downstream.

The story told by the lights and sound spans the history of the area from the early devel-

VOTE

Amendment 3 is one of numerous proposals to amend the Texas Constitution which will be on the November 3 general

election ballot. This amendment would permit tax assessment of ranch, farm, and forest lands "based upon the capability of such lands to support the raising of livestock and/or to produce farm and

forest crops.' · This could almost destroy the tax base of many school districts.

· It would drastically alter the present principle of taxation based on market value.

 Special treatment would be given one group of taxpayers, and the door would be open to other exceptions. Those whose land is producing, and those who own homes

and businesses, would have to pay higher taxes to make up for revenue lost under this amendment. . Amendment 3 would not be good for education or for the citizens of Texas.

FLYING SAUCER IN THE CORKY GUFFEE YARD? No, it's a weather balloon being held by Harold Huggins, City of Floydada employee, Mrs. Guffee spotted the object as it was tumbling across the playground at R.C. Andrews Elementary School, She called officials then helped youngsters retrieve the balloon. It was tied to a tree in the Guffee yard until investigators arrived, Officials at Reece Air Force Base said the balloon could not be identified until the instruments were located. They were evidently broken off when the balloon came down, just where no one knows. The balloon could have traveled miles in the high winds which prevailed Thursday, even after it grounded, Anyone finding the instruments, which were attached to the balloon, are asked to contact Reece Air Force Base in care of the weather detachment, (Staff Photo)

Texans Who Care Mackenzie Board Gets \$300,000

A broad based list of Texans was announced today as being on the Board of Directors of Texans Who Care, the State wide organization set up to do educational work prior to the November 3 election, to keep Texas free of open saloons.

The announcement included judges, congressmen, college presidents, and the National PTA President. Prominent national sports figures, businessmen, journalists, and religious leaders also were on the list. These included: Don Maynard of the New York Jets, who lives in El Paso off-season; Bill Glass, new to Dallas, formerly of the Cleveland Browns; Linday Mc-Daniel, Baytown, pitcher for the New York Yankees; and Mrs. Leon Price, President, National Congress of Parents and Teachers.

The recent Postmaster General of the U.S. under Lyndon Johnson, Marvin Watson of Washington, D. C. and Huntsville, Texas, and Dewey Presley, President of the First National Bank of Dallas, were listed. The group is urging Texans to vote against Proposition 2 in the coming November election, feeling that liquor by the drink would mean more human suffering from traffic fatalities and alcohol related crime in Texas.

If we are to continue to have an efficient and economical state government, one which does serve all the people of our state, it is important that Texas have a governor who can work with the state legislature and state agencies. Preston Smith is also the first Panhandle resident ever to be elected Governor of this great state. In it's 134 years of existence, this is the first time the Panhandle citizens have had a fair share of representation in Austin and it behooves us all to go to the polls Tuesday, November 3rd and give Preston Smith a big vote of confidence. Freshmen Topple Abernathy, 28-10

The Freshman Whirlwinds led the Abernathy ninth graders all the way in a game played last Thursday evening. Rex Rose scored three touchdowns for the 'Wind freshmen on runs of 20, 80, and 27 yards. Final score was 28-10.

Rose's first marker came in the opening quarter. Quarterback John Cagle threw to Marc Smitherman for the two extras. Later in the same period,

Cagle hit Smitherman again, this time for a 25-yard touchdown. PAT try failed, and the 'Winds led 14-0, Only scoring in the second

period came when the Whirlwinds were caught behind the goal line for a two-pointer for the Antelopes.

In the third quarter, Rose opened the scoring with his 80-

logical approach to me is to vote against it for this reason: we know that liquor by the drink will increase the sale of alcoholic beverages because the liquor interests have spent so much money trying to get it in the legislature and passed.

I hope you'll vote against amendment no. 2.

The Lubbock A-J had an interesting article Tuesday about the effects of the strike against General Motors, Area GM dealers are feeling the pinch of the strike, including those in Slaton. It appears things will get worse before they get better.

One of the things mentioned in the article - and a point we've heard comment on around town - is that federal food stamps are being issued to strikers. Several dealers complained that, in effect, the federal government is supporting the strike by issuing the food stamps.

The story went to say that Rep. George Mahon had been contacted last week and urged to seek a withdrawal of the food stamp program from the strikers. Mahon said he had not received enough expression of sentiment along these lines from

Lubbock voters. If you'd like to express an opinion, now is a good time to write your representative!

WELL, IT'S Wednesday afternoon and almost press time, but I just wanted to say Buff Morris of Canyon, sponsor of the Opportunity Plan, gave a most enjoyable talk at Rotary today. He explained how his school lending plan helps young people from both sides of the track learn a vocation or receive an education. He has helped 17 Floydada students since 1965. Also happy to see Virginia Dyson, secretary for the Opportunity Plan, who was also a Rotary visitor.

THANKS TO JOGGING, more people are collapsing in perfect health than ever before.

I SUGGEST YOU take a look at amendment No. 3. . . it has many sides to it, and won't necessarily lower taxes for the small or medium size farmer. . .it appears to be advantageous for the big forest and land owners, especially the speculators around the big cities. It could mean that land appraisals would be done by a state man, rather than local equalization boards.

BRAD AND I saw the Tech-SMU game Saturday, and after Friday night's exciting Whirlwind game, the college game seemed sorta slow. Then, you gotta really be for one team to enjoy a game, I think. 1970 cotton production may required in establishing future cotton yields. Therefore, it is important that each gin keep accurate records of all cotton ginned.

It is the responsibility of each cotton producer to advise his ginner of the correct farm numbers from which each bale of cotton was produced (also the county in which produced.)

CROP REPORTS - During the last half of October some 25,000 farmers will receive crop questionnaires from Cary Palmer of the Texas Crop and Livestock Reporting Service. Accurate estimates are of great importance to producers for providing an accurate picture of their county and Texas agriculture. Each farmer receiving a questionnaire is urged to fill it out carefully and return it promptly to the Agricultural

Statistician in Austin.
CHANGE IN OPERATORS AND OWNERS-Please advise us of any changes in landowners

or operators for 1971. 1970 DIVERTED ACRES -These acres can now be grazed but no harvesting of any crop grown in 1970 will be permitted.

1968 WHEAT CERTIFI-CATES - In the near future producers will be notified of their earnings from the 1968 "Export Certificate Pool". These earnings based on the 1968 Domestic Certificate's

are small. Producers will have an opportunity to claim these payments or let their payments help finance the "Wheat Research and Promotion Act" which is designed to benefit

United States wheat farmers. There is nothing to do on this program until you receive notice of your share of the export certificate pool.

The Most Important Election of Our Time!

We must keep a Senator in Washington who is responsible to the people of Texas. A Democrat who is free to support Administration policies when he thinks they're right but who can oppose them when he thinks they're wrong. Texas needs two Republican Senators like we need more inflation, higher unemployment, higher interest rates, tighter money, a higher cost of living George Bush may be able to do more for the Republican Party. But Lloyd Bentsen, as a Democrat, can do more for the people of Texas Lloyd Bentsen will be free to oppose Republican policies of tight money and high interest rates which have put 1,500,000 people out of work in the last 22 months without stopping inflation. Free to work for rural development through tax incentives for industries which locate in small towns. Free to work for welfare laws that will guarantee opportunities and protection for those who really need it rather than a minimum annual income without sufficient work incentives. Free to support legislation that controls criminals

Your vote for Lloyd Bentsen Tuesday, November 3rd will help insure Texas' independence from Republican control.

Here's a watertight statement about Vanguard's lubber gasket joint.

The idea of using a rubber gasket joint in Vanguard PVC plastic pipe was revolutionary. It meant no more bands or solvents. Easier. aster, trouble-free installation. But that was just a beginning.

Next we put the pressure on. We hydrostatically tested it. We put it through all sorts of temperature tests. We twisted it and turned it. Then we field tested it. We gave it more punishment than you or those inevitable ground shifts could ever hope to.

Just as we anticipated - the rubber gasket held. So, whatever your needs for plastic pipe. Vanguard is it. Bend it any way you want. We'll make a watertight statement about Vanguard's rubber gasket. It won't leak.

Just be reasonable. Vanguard is available in 1/2 to 15-inch diameters.

"Another threat that has grown in recent years in the intentional poisoning of defenseless youngsters by candy given them by strangers."

Parents can help protect their children by making sure they are adequately supervised their trick-or-treating rounds, Hammond said, Either parents or older teenagers should always accompany younger children on Halloween, he pointed out.

Costumes limit the ability of the voungsters to see and the dark color of some of these costumes makes the children hard for drivers to see, Hammond said, "For unsupervised youngsters these conditions can bring needless tragedy on our city and suburban streets," he

A Refreshing Look

No profound thinking is required to recognize that a revolutionary change has occurred in the last few years in the traditional American way of thinking. The break in our cultural life is so abrupt, complete and farreaching that it has been likened to a geological fault. This cultural rift has occurred since 1964 and has resulted in the discarding of the traditional American views and values. What we have taken for granted as a part of our American way of life is suddenly being challenged and re-

Those of us who have lived from "horse and buggy days" through the astounding scientific achievements of the past few decades have difficulty in seeing things from the viewpoint of a generation that never knew a depression. The youth of today cannot recall a world without television, computers, jet planes and astronauts. The new environment created by our generation has aided in producing a new outlook and a new set of values or lack of values in some instances.

Never in the history of mankind has youth been so vocal, We must try to understand the youth of today but they need desperately to try to understand the generations before them. Eric A. Walker, president of Pennsylvania State University, recently gave a remarkable address to the graduating class of that institution. It was so timely and pertinent and presented such a refreshing view that it deserves repeating.

"Ladies and gentlemen of the graduating class, no one has more pride in your accomplishment than the elder generation. But I am not going to tell that older generation how bright you are. Nor am I going to say we have made a mess of things and that you are the hope of mankind.

"I would like to reverse the process. For if you will look over into the bleachers, I will re-introduce you to some of the most remarkable people ever to walk the earth; people you might want to thank on this graduation day - your parents and grandparents.

"Let me tell you about them. "These - your parents and grandparents - are the people who within just five decades have increased your life expectancy by approximately 50 per cent and who, while cutting the working day by a third, have more than doubled per capita out-

"These are the people who have given you a healthier world than they found. And because of this you no longer have to fear epidemics of flu, typhus, diphtheria, smallpox, scarlet fever, measles or mumps that they knew in their youth. And the dreaded polio is no longer a medical factor while tuberculosis is almost unheard of.

"Let me remind you that these remarkable people lived through history's greatest depression. Many of these people know what it is to be really poor, what it is to be hungry and cold. And because of this, they determined it would not happen to you, that you would have a better life, you would have food to eat, milk to drink, vitamins to nourish you, a warm home, bet-

ter schools and greater opportunities to succeed than they had, "Because they gave you the best, you are the tallest, healthest, brightest, and probably the best looking generation to in-

Preston Smith believes in working hard. For you. And that's why he's doing such a good job as Governor of Texas.

When Preston Smith entered public service, he didn't start by asking Texans to elect him Governor. That would have been foolish, because being Governor carries great responsibilities. And it demands the clear, steady judgement that comes only from experience.

Preston Smith had the good common sense to work his way up-gaining insight into how our state government functions. He served six years each—as State Representative . . . as State Senator . and as Lieutenant Governor. Only then, when he felt fully qualified, did he seek

the Office of Governor. Now, after two years he has expanded the duties of the Governor's Office to better serve all the people of our State. Yes, Preston Smith believes in hard work. For 20 years, he's been working

FLOYD PHILOSOPHER

Computers Are Amatuers At Prying

Into The Private Lives Of People

Editor's note: The Floyd Philosopher on his Johnson grass farm examines the computer age this week, we suppose.

Dear editar:

I don't know about the rest of you but I've never understood what goes on inside a computer, oh I know it can figure out at what angle and what speed to fire a rocket from the earth to land at a given spot on the moon but hasn't been able to figure out how to get a letter from Lubbock to Floydada on time, but exactly how it works is something I leave to the scientists.

What got me started on this was an article I read in a newspaper last night about an international conference of 400 lawyers called in Brussels to examine the effect of computers on human beings.

According to them, the computer can become a "horrifying tool for prying into the affairs of the individual." They said it can become a "threat to the individual and his private life due to the great mass of information about private lives that can be assembled and called up instantaneously."

I think those lawyers are getting excited over nothing. What I mean is, information about private lives has been found out and stored up in some human brains long before computers were even dreamed of, and most of the time it has been released not only instantaneously but repeatedly.

I never have heard of a town yet that didn't have some people who could give you down to the last detail a full report on the private lives of 90 per cent of the population, and they were working on the other 10 per cent.

I'm not saying it is always 100 per cent accurate, but when it comes to finding out and storing up a great mass of information about private lives, the amount of detail they have assembled out-computers a computer ten to one, and they can be switched on any time of the day or night without electricity. In fact, if they aren't switched on, they turn themselves on automatically.

Those lawyers ought to realize that a computer can't hold a candle to people when it comes to finding out what other people are doing privately.

Yours faithfully,

That decade, I would say, put an end to the era when every citizen in a precinct owed his county five days of work on the public roads. The warning from the overseer was given so the freeholder could arrange his affairs to be at the designated place on the day set.

Somewhere I have a copy of one of these "warnings" - not in Floyd County. What the workers did was to cut saplings in the roadway, remove stumps and rocks, fill chug holes with the best material available and reduce any unusual humps from the terrain.

A citizen could be exempted from road duty by paying \$5 into the county treasury - a dollar a day.
