### Hospital Fully Staffed

Announcement was made yesterday of the appointment of E.J. Kinslow and Bill Cagle to fill the terms of L.T. Wood and Hollis Bond, who had resigned from the Caprock Hospital board recently. Kinslow, a South Plains farmer, attended the board meeting last week, and Cagle, manager of Producers Cooperative Elevator, will attend his first board meeting on February 18. Walton Hale, Dr. Andrew McCulley and Jay S. Hale are the other members of the board. It was also reported that the hospital is fully staffed, and the board continues to seek another general practitioner doctor or two.

**LAND NEEDED**  
The board reported that there was a good chance of moving another doctor to Floydada if some farming land could be leased for the doctor's son to work. Anyone knowing of irri-

gated land for cash lease should contact Jay S. Hale.

Caprock Hospital is accredited for Medicare, and its room rates are reasonable in comparison with other area hospitals. A private room is \$30

a day, semi-private is \$27 and a ward is \$23.

Lubbock and Plainview hospitals charge \$50 per day for a private room.

Three Floydada medical doctors refer patients to Caprock Hospital.

### One Injured In Fire Monday

A local man was hospitalized in Lockney General Hospital Monday with reported first-degree burns sustained in a fire at Fuller and Holcomb Garage, 320 E. Houston.

Billy Fuller, 102 Mae Avenue, was the burn victim. He reportedly was washing a filter in gasoline at the truck garage when an acetylene torch was lit some 15 to 20 feet away, apparently igniting the gasoline fumes. Wayne Fuller said he saw the

burn victim run, hands and trouser legs afire, from between two trucks in the building, and he (Wayne) put out the fire with his hands.

There was an estimated \$1,500 damage to two trucks in the building.

The Fire Department was recalled to the scene some 30 minutes after putting out the truck fire when the roof of the building was discovered smoldering.

### \$712.77 Collected Monday

### Night In Mothers March

The Floydada Mothers March of Dimes drive is expected to exceed last years total with a collection of \$712.77 taken Monday night. The northeast part of the city had not been completed at press time. With that collection and the totals usually mailed in by contributors, the Mothers March should reach \$750. This amount was also collected in last year's fund drive.

Art work of Felicia Applewhite is on display for bids at the Floydada Post Office. Miss Applewhite has donated some of her works to the MOD, and proceeds from these sales will go to the Mothers March fund.

Assisting with the march were Mmes. Larry White, Rex Battey, Richard Burns, Bud Edwards, Carroll Sims, Ken Weaver, Weldon Emert, David Brewer, Jerry Webb, Jerry Thompson, Ray Morton, Nathan Woody, Louis Bearden, W. H. Simpson Jr., L. D. Simpson, Doyle Walls, Cleo Whittle, Jake Webb, Gary Pate, Donnie Galloway, Darryl Pierce, Alton Higginbotham, Harvey Allen, George Miller, Carl Armstrong, J. D. Woody, Dwayne Wilson, Jake Younger, Gary Carthel, Huel Peace and Jerry Galloway.

Bunch and Mrs. Milton Harrison, Lakeview; Mrs. Monroe Schultz, Harmony; Elmer Swaffer, Barwise Elevator; Mrs. Hilery Shurbet, Sandhill Store; Mrs. J. D. Cates, Dougherty Store. Rural areas and downtown businesses will be worked later.

Lockney's Mothers March had not been completed, but \$206 was collected Monday night. The county goal is \$2,000.

### Exhibit Pictures For Sale By MOD

A watercolor exhibit in the Floydada Post Office has been donated to the Floyd County March of Dimes by the artist, Miss Felicia Applewhite, a polio victim. Miss Applewhite lives north of Lockney at the Lives Star community.

The watercolors, mostly of West Texas landscapes, are for sale to the highest bidder, with all the proceeds going directly to the Floyd County March of Dimes, February 12 is the last day for bidding; previous bids must be raised by at least a dollar. The bidding chart is kept in the Post Office by Ed Wester, vice-chairman of the County March of Dimes. Barry Barker is the county chairman.

The MOD now concentrates most of its efforts in the drive to prevent birth defects. Miss Applewhite has been painting since she was in high school in Lockney, minored in art at Baylor University, and has studied in workshops with Dr. Caballero from Canyon and Connie Watson at Lubbock and others.

## Ronnie Thornton Will Head Floyd Fair Board

At a dinner meeting of Floyd County Fair directors and their spouses last Thursday night in Lockney, Ronnie Thornton was named to head the 1971 slate of officers. Thornton, a Lockney resident, succeeds outgoing president Eddie Joe Foster, who was elected vice president of the board.

Elected to serve with Thornton and Foster are Wanda DuBois, secretary and Button Beedy, treasurer.

Five new board directors were also named. They are Pat Northcutt of Silverton, Jake Webb and Joe Wheeler of Floydada, Button Beedy of South Plains and Jean Sparkman of Lockney.

The board has hopes of securing a director from Matador and Quitaque in the near future.

Other business on the agenda included setting fair dates and board meeting dates. The Floyd County Fair has been scheduled for September 23-24-25 at Lockney. The board plans to meet the second Monday of each month, alternating their meeting places between Lockney and Floydada.

**City Water Survey Released**

### City Adopts New Billing System

Floydada residents will receive new-style utility bills from the City beginning with the February billing, City Manager Bill Feuerbacher, said this week. The City has adopted a new data processing billing system employing only one meter reader and eliminating billing machines in the City offices.

Billing will be done by Data Service of Texas, a Plainview firm. The City will receive a punch-card for every meter, to be punched out when the meter is read and sent to

the processing center in Plainview.

The change involves no rate changes or extra charges of any kind, Feuerbacher said. The change is being made in an effort to save money on billing machines and labor involved in the City billing.

Other utility services in Floydada are already using data-processing systems. The City of Lockney has been using the new billing system for several months, Feuerbacher noted.

### Community Action Board Will Meet

The Community Action Board will hold a meeting Monday night, February 1 and members are inviting persons to submit questions concerning the program. These will be taken at the meeting and the answers printed the following week in the Hesperian.

After the questions are received the board will receive professional assistance in answering questions pertaining to legal help, classes sponsored by the Community Action Board and others which may arise. Work is being continued by the employment service and those needing work done are encouraged to contact the center, give requirements about the labor to be done and this will be matched to those applying at the center for work. A number of persons have applied for work since the effort was started by the Center.

Persons wanting to enroll in a class at the Center may talk with the director of the program. Classes in reading, budgeting, tutoring, cooking, welding, family planning, mathematics, kindergarten and others are being offered. However at least four people must be enrolled in one particular class if it is to be taught.

During the February meeting the board will discuss teaching a class in Spanish, if enough people are interested and if a teacher can be secured.

### Country Club To Elect Directors Tonight

Three new directors will be named at the annual Membership Meeting of the Floydada Country Club tonight (Jan. 28) at 8 p.m. in the Lighthouse Electric building.

Gary Carthel, Jerrold Vinson and Robert Stovall are the retiring directors.

Other current board members are Ike Johnston, president Jake Webb, vice president Jake Younger, and secretary-treasurer Dan Fry.

A financial report is also scheduled for the meeting.

### Collins Implement Sets Open House

New John Deere tractors and farm equipment being introduced for the 1971 farming season will be displayed Saturday, January 30, at an open house to be held by Collins Implement Co. in Floydada, area John Deere dealer.

### Saturday Is Last Day To Register To Vote

Saturday is the last day for Texas voters to register for the voting period from March 1, 1971 to February 28, 1972, according to County Tax Assessor-Collector C. J. Payne. The tax office in the County Court House, will remain open Saturday for late-registering voters in Floyd County. The office is normally closed on Saturdays.

The last official registration day, January 31, falls on a Sunday and will find the Tax Office closed, but mail applications postmarked by the 31st will be accepted, no matter when they are delivered. It was reported last week that the registration forms had to be delivered by February 5, but they will be accepted regardless of the delivery date, if postmarked by the 31st.

Registration continues to run about the same as previous years when no general elections were scheduled, Payne said.

Through Monday afternoon, 3,497 adults and 66 persons 18, 19 and 20 years old had registered at the Tax Office. This year is the first that the 18-20 year-olds have been eligible to vote. Their voter registration certificates are issued with the words "Federal Elections Only Until 21 Years of Age" and the registrant's birthdate written across the face.

A choice of a new John Deere power mower or a chain saw will be given away as a door prize at the open house. Coffee and donuts will be served Saturday morning. The door prize drawing will be held at 3 p.m.

the school and hospital continue to be of prime interest to people. Could you answer some questions that have been asked in recent conversations?  
 I have heard the Floydada High School Ag Department is the "biggest and richest" in West Texas. What is this?  
 Is the new vocational ag course that pays the students? something like D.E.?  
 How did Floydada get so many vocational programs when other schools have only two or three?  
 How are the school cafeteria menus? What percentage of the cost is eaten by the students? Who collects the garbage from the cafeterias?  
 How many attend school board meetings? When and where are they held?  
 Yours,  
 Interested Parents

(withheld by request)

Answers to writer's questions:  
 The school is running smoothly after a complete turn-over of personnel and the board. However, I did not know there were some emergencies over the weekend and I was not available.  
 It is true that the Floydada vocational department in high school is one of the biggest in the county with over 140 boys enrolled. No truth in its being the "biggest and richest" in West Texas. The Floydada vo-ag program includes three while most of them have only two. Floydada was able to get another ag instructor because of the size of its program and cooperation with the new state and federal program for the extra teacher.

The new ag-coop program includes on the job training before some of the vo-ag boys are employed in agriculture in this community for which they are paid.  
 This new program in addition to its regular program has the school board and administration are quick to respond to programs such as this. Believe it is 95% successful.

I did considerable interviewing of cafeteria staffs at the schools to find the answers to these questions. They were planned by the four cafeteria supervisors and Mrs. Ker, dietitian. The supervisors estimate the children eat over 3/4 of the food served them. The students enjoy their hot dogs, pizza, fried chicken, fried steak, and food. They tend to leave green vegetables on their plates. Two schools reported an average of two five gallon food thrown out each day, the other schools estimated one each.

The cafeteria supervisor from Lubbock also keeps tabs on the food.  
 Jester and W. H. Bunch collect the school garbage. Everyone is invited to attend the Floydada school meetings. The regular meeting time is at 7 p.m. on each Monday of the month. Next meeting will be February 8 at the downtown school offices.

CHARACTER is that quality which makes one dependable being watched or not, which makes one truthful when it is to his advantage to be a little less than truthful, which is courage when faced with great obstacles, which is the firmness of wise self-discipline.  
 Arthur S. Adams

There is no cross compliance between farms or crops.  
 Set Aside Acreage - May not be grazed during the period May 15th to October 16th.  
 Acreage to qualify for set aside for 1971 will be about the same as the 1970 diverted acreage except:  
 (1) Regular skip row patterns of 2 rows skipped will qualify.  
 (2) Sweet sorghum may be planted on set aside acreage.  
 (3) Small grains may be left standing on the set aside if requested before May 1st.  
 For 1972 and future years the set aside must be land that has had a crop harvested in at least one of the three previous years.  
 The following land is not eligible for designation as set aside:

## ASCS Newsletter

**Sale and Lease of Cotton Allotments** - The Floyd County ASCS Committee has approved the out of county transfers by sale or lease of 1971 cotton allotments.

All 1971 cotton transfers will be made using the 1970 projected yield as the base for both the receiving and transferring farm, even though payments will be made on the 1971 payment yield.

Transfers can be made until May 3rd.

**Feed Grains** - Notices of Feed Grain bases and yields will probably be mailed the second week of February. Barley will not be considered a feed grain for the 1971 program.

Corn and Grain Sorghum bases will be the same as in 1970, the yields will also be about the same.

To qualify for payments a producer must sign up and set aside an acreage, no more than 20% of the base. Price support payments will be made on 50% of the feed grain base without regard to the crop planted.

Producers must plant at least 45% of their feed grain base to maintain the farms feed grain history. Wheat can be substituted (planted) for feed grain to maintain this history. (A Producer can maintain his feed grain history by not accepting his payments when the crop is not planted).

**Wheat** - Notices of Wheat allotments and yields will probably be mailed the second week of February. The allotment will be about 44.3% of the 1970 allotment. Yields will be slightly increased from 1970.

Soon after certification a wheat payment will be issued. This will be only for about 3/4 of the amount earned. The other payment will be made after December 1st.

To qualify for payments a producer must sign up and set aside an acreage, no larger than 75% of the allotment.

Producers must plant at least 90% of the farms wheat allotment to maintain full history. Feed grain can be substituted (planted) for wheat to maintain this history.

**General** - 1971 allotments and bases are only for payment and set aside determinations and are not a limit on acres that can be planted.

Sign up will start March 1st and end on April 9th.

There is no cross compliance between farms or crops.  
 Set Aside Acreage - May not be grazed during the period May 15th to October 16th.  
 Acreage to qualify for set aside for 1971 will be about the same as the 1970 diverted acreage except:  
 (1) Regular skip row patterns of 2 rows skipped will qualify.  
 (2) Sweet sorghum may be planted on set aside acreage.  
 (3) Small grains may be left standing on the set aside if requested before May 1st.  
 For 1972 and future years the set aside must be land that has had a crop harvested in at least one of the three previous years.  
 The following land is not eligible for designation as set aside:

side acreage: Turn rows, drainage ditches, wet low lying areas, droughty knobs and banks, other areas which normally would not produce a crop, and skips of less than 2 normal rows in skip row planting patterns.

**Rural Environmental Assistance Program** - Announcement of this new program, a continuation of the Agricultural Conservation Program (ACP) was made in Washington, earlier this month.

The State and County programs will not be formulated until about February 22nd. So there will be no sign-up for at least another month.

As it appears now, most of the practices that are now approved for Floyd County will be continued, with a smaller cost share offered. Public benefit practices such as pollution abatement, enduring soil and water conservation, recreation, wild life and open space will be stressed.

**Warehouse Extended Loans** - 1970 Crop Grain Sorghum and Wheat is authorized for extension.

**Allotments Mailed To Farmers**

Allotment notices on Floyd County's 1971 base cotton allotment of 68,465 acres were mailed from the ASCS office January 20 to individual farmers.

Producers will receive their yields in an additional notice when all 1970 cotton production has been turned in to the county office. Thomas Moore, county ASCS executive director, is urging all farmers who have not turned in this production to do so in order that notices may be prepared prior to sign-up.

General 1971 allotments and bases are only for payment and set-aside determinations and are not a limit on acres that can be planted.

## Students Present Two Act Play

Thirty Floydada High School students are currently working on the winter drama production of "Up the Down Staircase."

The play will be presented February 4 and 5 at 7:30 p.m. in the high school auditorium.

The two-act play by Bel Kaufman demonstrates the trials and frustrations of a young teacher attempting to instill in her classes the true meaning of life.

Drama Club members are selling tickets for the two performances; tickets will also be sold at the door. Tickets are \$1.00 for adults and 50¢ for students.

## LEGAL NOTICES

**NOTICE TO BIDDERS**  
 County Depository Contract Bids will be received by the Commissioners' Court of Floyd County at the County Court Room, Floydada, Texas at 10 a.m. on Feb. 8, 1971 for the depository of county funds for the years 1971-72.

failed acres are planted to another crop the payment will be reduced by one-third. The producer must plant or have planted credit for at least 90% of the farm's basic allotment to earn full payments and retain full history.

The Floyd County ASCS Committee has approved the out-of-county transfers by sale or lease of 1971 cotton allotments.

Transfer to this county may be made until May 3, 1971. The 1970 projected yield will be used for the transferring and receiving farms to determine the amount of productivity adjustment in all cases. The 1971 yield will be used for the receiving farm for payment purposes. If the 1970 receiving farm's yield does not vary by more than 10% under the transferring farm's yield, all acreage will be transferred. A temporary transfer executed in 1971 for the first time cannot exceed three years. The receiving farm must comply with the set-aside requirements on the total acreage approved for transfer.

The same skip-row rules for planting patterns are still in effect except two or more rows skipped in a pattern are now eligible for set-aside.

Producers may start signing into the program March 1, 1971 and the last date for signing is April 9, 1971.

The Secretary of Agriculture made a tentative announcement for set-aside at 20% for cotton and 20% for feed grain. His final decision will probably be made early in February.

MRS. JAMES P. (CORKY) JOHNSTON  
(nee Jo-Christy Brown)

## Christian Church Setting For Brown And Johnston Wedding

The First Christian Church in Floydada was the setting for the January 21st candlelight wedding of Miss Jo-Christy Brown and James Preston (Corky) Johnston. The double ring ceremony was read at 7 o'clock p.m. by Roy G. McCullough, president of Wayland Baptist College.

The bride is the daughter of Mr. and Mrs. W. E. Brown Jr., of Floydada and the bridegroom is the son of Mr. and Mrs. Preston Johnston of Lubbock.

Given in marriage by her father, the bride wore her mother's wedding dress of candlelight marquisette, fashioned with a fitted bodice and long fitted sleeves. The full skirt fell into a chapel train, and chantilly lace accented the yoke, sleeves and tiers of the skirt. Her Cathedral veil of illusion was edged in chantilly lace, and caught to a crown of seed pearls and lace appliques. She carried a bridal bouquet of gardenias, stephanotis and baby's breath.

Rande Lu Brown was her sister's maid of honor. Bridesmaid was Miss Janie Johnston, Lubbock, sister of the groom, and bridesmatron was Mrs. Martha Johnston, Lubbock, his sister-in-law. Cary O'Keefe Brown, sister of the bride, was junior bridesmaid.

Feminine attendants were gowned in apricot marquisette dresses trimmed in darker shades of chantilly lace. The

billowing sleeves were caught with wide lace cuffs, and lace edged shawl collars met the high waistlines. They carried colonial style nosegays of apricot roses, carnations and baby's breath.

Jerry Watson of Plainview was best man. Serving as ushers were WEB Brown, brother of the bride, Joe Johnston, brother of the groom, Morris Nunley and Tommy Keyton, both of Lubbock.

Thiess and Tracy Brown, twin brothers of the bride, were candlelighters.

Joan Seymour played wedding selections on the concert harp. Following the wedding a reception was held in Fellowship Hall of the church.

For travel the bride changed to a bone silk suit with red accessories.

She is a 1970 graduate of Floydada High School and is a sophomore student at Wayland College. Her husband is a graduate of Wayland College, where he was a member of faculty in the drama department. He is now associated with Shetland Stoves of Lubbock, where the couple is residing.

A desire for greater self-expression in this largely automated world, it seems, has played an equally important part in the "make-it-yourself" trend. Too, the demand these days is for a greater variety of clothing, and as most women have a fixed clothing budget, they must seek to meet these demands. One of the most popular courses being taught this day and time, is dress-making. Get ready in the future, too, to sew without thread! The industry is working on "sonic sewing", says a Singer spokesman. "Thread could become obsolete in the not-too-distant future." One young seamstress remarked, "How will we rip out a seam when we make a mistake?" Only time and sonic sewing will tell.

## Sharon Kay Powell Pleads Vows With Freddie Bradley

Miss Sharon Kay Powell, daughter of Mr. and Mrs. M. A. Powell of Pampa, grand-daughter of Mrs. H.A. Powell and niece of Parnell Powell and Mrs. Homer Newberry of Floydada, pledged nuptial vows with Freddie Dean Bradley December 21.

Lace edged the Victorian sleeves, hemline and chapel train extending down the back. She wore a queen's crown of pearls which held an elbow length veil of illusion, and carried a white Bible topped with a white orchid accented with delphiniums and greenery.

Mike Manley, minister of music and education at Hawley Baptist Church, played wedding selections on the organ and accompanied Mrs. Bob Hudson as she sang "Prayer For Love Like Christ's," and "The Lord's Prayer."

The local association makes and services loans in Floyd, Motley, and Briscoe Counties. Members of the local board of directors are Raymond Rucker, Lockney; Tate Jones and Menard Field of Floydada; John Irwin and Edgar Lee of Matarador; Carroll Garrison of Silvertown; and Leon Lane of Turkey.

John B. Watson, manager of the Federal Land Bank Association of Floydada, received the news today that the Federal Reserve Bank of Houston has reduced the interest rate on variable rate loans to 8%.

Watson said the reduction affects more than \$50 million dollars of variable rate loans to more than 10,000 farmers and ranchers in Floyd County, Texas. Watson said the variable rate loan plan was introduced by the Federal Land Bank in July 1969 over the objection of the local association.

## HEALTH AND BEAUTY

Prolonged illness or disability compels many people to spend months or years in bed. Time often drags, especially for those who are not fond of reading and for those whose eyes are weak or defective.

Complete rest in bed is necessary in the cure of many diseases. The body isn't equal to the wear and tear of everyday living. When you're up and about, your heart beats more rapidly and the lungs have to work harder. You can't keep the muscles still; they're constantly in motion. You don't notice this particularly, but your body is burning fuel which must be replaced to sustain life.

Rest conserves the fuel supply. The drain on the system is greatly reduced so that the body is enabled to fight the infection more effectively. The new drugs haven't done away with the necessity for rest, though they help combat and overcome infection.

The process of repair goes on rapidly when the patient doesn't have to struggle against fatigue, changes in temperature, work or worry. Unless the patient resigns himself to bed rest, he'll get little benefit from it.

When you retire, learn to relax. Don't clench your fists and draw up in a knot. You must sleep if your body is to repair itself during the night. First get into comfortable positions when you go to bed, which should be reasonably early. Relax your muscles. Let your body go completely limp. Approach sleep by an evening prayer. Ask forgiveness for all your wrong deeds or thoughts. If any one has trespassed against you, forgive him. Wipe the slate clean. Don't harbor any feelings of hate or unkindness towards anyone.

Having gotten your mind and body in a state of peace and relaxation, turn into the position in which you usually go to sleep and repeat the little prayer that your mother taught you as a child. Inhibit thought. In a few moments you'll be sleeping soundly.

## Our Water

Without action by Congress or a large appropriation of funds, President Richard Nixon recently signed an executive order which may achieve more in the fight for clean water than any other effort in this direction in years.

The President found authority for requiring industries to obtain federal permits for dumping waste into the country's rivers and streams in an old law, originally intended to control dredging operations, dating from 1899.

**RECIPES FOR BEAUTY AIDS**

**GOLDEN BATH OIL**

Into the container of your blender put:

- 1 pint safflower oil
- 2 tablespoons liquid coconut oil or shampoo
- Few drops of your favorite perfume (Optional)

Blend at high speed for thirty seconds. The speed will break down the oil into zillions of divided oil atoms, and will allow it to freely dissolve in the bath water. Use 1-2 tablespoons to a tub full of water!

**FACIAL CREAM**

- 2 fresh egg yolks
- 2 tablespoons wheat germ oil
- 1 tablespoon white vinegar
- Few drops of your favorite perfume
- 1 cup safflower oil

Cover and turn motor on low speed. Immediately uncover and add in a steady stream, 1 cup safflower oil or 1 cup sesame oil or a combination of

both. Cover and continue to blend until thick and golden.

Wonderful for cleansing face or applying before a shower or both. Can also be used as suntan oil.

**CLEANSING GRAINS**

In the dry blender container put:

- 1/3 cup fine castile soap, cut in pieces
- 1/3 cup white corn meal
- 1/3 cup almond meal

Blend on high speed until ingredients are finely ground and thoroughly mixed, stopping the motor if necessary and pushing the mixture down into the blades.

To use it, place about a tablespoonful at a time in the palm of the hand and mix it with enough water to form a paste. With the finger tip gently scrub the face, particularly any oily areas. Rinse with warm water and apply an astringent to close the pores.

For oily skin, use daily; otherwise use three times a week.

**TING**

- 1 cup rose water
- 1/3 cup witch hazel
- 1/2 teaspoon honey
- 1/2 teaspoon white vinegar
- 1 tablespoon spirit of camphor

1/2 teaspoon alum powder  
A few drops of perfume  
Blend until smooth. Pour into bottles.

**FACE LIFT**

In a cup mix:

- 1 egg white
- 1 tablespoon dry skim milk powder
- 1 teaspoon spirit of camphor
- 1 teaspoon mint extract

Whip smooth with a fork, blending it very thoroughly. Apply thickly over the face and neck and allow to dry for about fifteen minutes. If you lie down with the feet elevated and head lower than the body, you will increase the effectiveness of the treatment. Rinse with warm water and follow with icy cold water and apply Ting.

**HONEY HAND LOTION**

This honey of a hand lotion may look a bit sticky as you read the directions but when you see it you will find that it is not. Honey and glycerine are natural moisturizers and a few drops of this lotion rubbed into the hands each time after you wash them will keep them beautiful.

Into container put:

- 3/4 cup rose water
- 1/4 cup glycerine
- 1/4 teaspoon white vinegar
- 1/4 teaspoon honey

Blend at high speed for twenty seconds.
