## FHS Track Program To Be Discontinued

The high-school track program is being discontinued, it was announced here this week by track and football coach G. L. Nilsson. Due to the lack of success on the part of the high-school track team, Nilsson said the cinder program was being abandoned in favor of setting up a chess team.

The local track clubs have entered four area meets this season and have failed to finish out of the cellar in any of those meets, their high point output being in the recent event at Wayland College in Plainview, when they managed a sixth-

place finish in the mile relay. There were six teams entered in the event.

The former mile relay team members, Mike Murk, Peeve Stuckett, Jarlie Chackson and Kirk Dampbell, have stated that they will form a bridge club, as they consider competition on the chess team 'too strenuous.'

APRIL FOOL!!! (Only kidding), Coach Wilson. Of course, the local trackmen are anything but losers, having taken first place in four meets this year.)

TWO MEN WERE TALKING about a mutual acquaintance who was doing a "stretch" at Huntsville. One said, "You know, I believe Jim is mad at me."  
"Why do you say that?" asked the other fellow.

I UNDERSTAND BOB COPELAND caught a huge over five pound bass at White River Lake Saturday.

FLOYDADA MERCHANTS would be wise to cater to the school payroll .... \$86,000 last month. School business manager Claude Estes also gave some more interesting facts about the school's operation at Rotary yesterday: a little over half a million dollars comes into the school system from local taxes, yet around a million dollars is paid out to operate the schools each year.

Of course the other half million comes from state tax money. Your school dollar is spent as follows: 4 1/2¢ administration, 69 1/2¢ instructional, 1 1/2¢ health, 3¢ transportation, 6 1/2¢ operate the plant, 2 1/2¢ maintenance, 1 1/2¢ insurance and fixed costs, 1¢ student activity, 1¢ capitol outlay, 9 1/2¢ debt service.

PRACTICE OR EXPERIENCE? - In one of the potato-growing states there lived a farmer who took pride in his scientific system of gardening. His aging hired man resented the instructions given him regarding the way the potatoes should be planted. "In all my twenty years' experience," he protested, "never did I plant potatoes that way."  
Whereupon the farmer retorted: "In all your twenty years of planting potatoes, you had no experience. You had just practice."  
The farmer was right. Practice is doing a thing over and over again the same old way. Experience is gaining by intelligently studying the results of practice, and applying to future practice the important lessons learned from them.

TWO IMPORTANT THINGS - It has been said that education boils down to just two things: character and good manners. A man or woman who can develop good character with good manners is educated because everything else will come. Without those two things there is no use in having schools or school-teachers, because you cannot do anything with people who have not developed these two all-important things - character and good manners.

OPEN-MINDED - One of the great dangers of our liberalized day is not that we shall be so narrow-minded we become thin, but that we shall be so broad-minded we become shallow. We are tempted to spread ourselves a mile wide and an inch deep. Seeking to avoid the intolerance of the bigot, we are inclined to fall into the nonchalance of the fool. In our enthusiasm for open-mindedness, we are tempted to become scatterbrained.

THE LITTLE OLD LADY entered the department store. Instantly, a band began to play, an orchid was pinned on her dress, a \$100 bill put in her hand. She found herself being photographed from all sides and a TV camera beamed down on her.  
"You're the one-millionth customer," the master of ceremonies told her, smiling broadly. "And now can you tell us what you came here for today?"  
"Yes," said the little old lady. "I'm on my way to the complaint department."

## Masons Honored

Masons and their wives were honored Saturday night at the Lodge Hall in Floydada, with a program and dinner. The dining area and hall were decorated in a patriotic motif for the annual event. Piano selections were played by Miss Wren Patterson of Plainview.

Faye Jackson presided over the gathering and gave the welcome. Heading the program committee were Roberta Russell and Ruth Daniel.

Mrs. Russell introduced guest speaker, Richard Brock, who spoke on patriotism. He is a junior in Lockney High School and the son of Mr. and Mrs. Howard Brock of Lockney.

The talk was well received by some 75 persons attending. Brock compared today's people with those of the old days in their troubled times, stating those of today more or less took everything for granted. He closed the talk by quoting the words of the song with those in attendance joining in. Carolyn Andrews, Plainview, accompanied at the piano.

SEVERAL pairs of hot pant were modeled by VIP wives at the League of Republican Women's Fashion show, which ended with Martha Mitchell appearing in a \$600 pink evening gown. In case you are interested, tall Mrs. Clark MacGregor, wife of the presidential assistant, wore black satin hot pants and top with a bare midriff. Tall and willowy Mrs. Ogden Reid, wife of New York congressman, also marched down the runway in a pair. Not all the models like the style. Peggy Stanton, the beautiful ex-TV gal who married Congressman Bill Stanton of Ohio, said that when you wear hot pants "into a restaurant or on the street you are an exhibitionist." She continued "What kills me is women who talk about liberation and they keep their brains covered up and their bosoms and their legs showing. I think women are all dressing today as if they hoped to be raped by the butcher, the baker and the candle-stick maker, and if they keep on they probably will." Remember those are quotes from Mrs. Stanton.

## Spring Fashions Shown At Style Show

The 1950 Study Club's annual Style Show was held Monday night with various spring fashions modeled by adults and children of the Floydada area. Entertainment was furnished by the Floydada High School Stage Band, under the direction of Jim Swafford.

The evening highlight was the appearances of the 1970 Miss South Plains Maid of Cotton and 1971 Miss Floydada.

Wendy Wooley, modeled her 100 percent cotton wardrobe, appearing in four different ensembles including street wear, evening wear, and the maxi. She was escorted by Ricky Watts of Floydada while modeling her presentation gown.

Miss Wooley was accompanied to Floydada by her chaperones, Mr. and Mrs. John M. Stabough of Lubbock. He is president of the Lubbock Cotton Exchange.

Miss Floydada, Lisa Gregory, modeled her ensembles worn at the recent pageant and was escorted, while wearing her presentation gown, by Leslie Robertson.

The club's next regular meeting will be April 6 with Mrs. Ray Morton.

## Mrs. Amburn Is Shower Honoree

A bridal shower honoring Mrs. Terry Amburn was held recently in the home of Mrs. Robert Singer in Tulsa.

Receiving guests with the honoree were Mrs. Frank Stark, her mother; Mrs. Glen Amburn, the bridegroom's mother, and Mrs. Foster Amburn, Floydada, grandmother of the groom.

The refreshment table was covered with a light aqua colored net over white linen, which was edged with French lace. The centerpiece was an arrangement of white and aqua colored carnations in a crystal container.

Some farmers, most housewives, drive-in theatre operators and restaurant owners have battled for four years to have Texas join the three states, Hawaii, Michigan and Arizona, that don't go in for daylight time. Keep trying tho, we may win yet!

ITS not a credit card, it's not a standard check, it's "supercheck" and many bankers say it's a step toward a cashless, checkless society. Now, there I have solved the man's problem of what to get his wife for Christmas! The multipurpose - or super check, basically allows the payments of up to 100 bills with only one check. At least eight banks in the New York area already are using the system and others are exploring its possibilities. The check is oversized, with the names of the stores, utilities, finance companies, and many others on it.

The customer fills in the amount he wants to pay each next to the firm name, totals the amount and signs the check. The bank then credits the account of each business that has an account with it or writes its own check to those who don't. The bank customer's cost is from 50 to 75 cents for a multipurpose check while individual checks cost from six to 10 cents each plus stationary, stamps and time. Will wonders never cease?

Given in marriage by her father, the bride wore a formal length gown of white angel crepe designed on empire lines. Venise lace formed the portrait neckline and accompanied the high-rise waist. Appliques of Venise lace sprinkled the skirt and edged the chapel length panel train. A matching lace toque held a blush veil over a chapel veil extending the length of the train. She carried a bouquet of white bridal roses centered with an orchid, and wore a pendant, a gift from the groom. She also carried a handkerchief belonging to her maternal grandmother, Mrs. Paul Williams, and in her slipper, for luck, a penny with her birthdate.

Mrs. Sweet also attended her sister as matron of honor. Mrs. John Moorhouse, of Seymour, and Mrs. Tom Moorhouse, of Benjamin, sisters-in-law of the groom, Mrs. Alan Underwood and Mrs. Bob Bratton, of Lubbock, were bridesmaids.

JIM Swafford is doing a great job with his newly organized Stage Band. I heard them for the first time Monday night and they are really good.

I Like this comment "This country's government might have just a mite of 'dandruff', but it's still head and shoulders above any other form of government that's around today.

FOR a fun-filled evening go out tomorrow night to Junior High and join in the festivities of "Miss Funtastic". I understand the young men running for the title are really fantas-

# Floydada Men To Build Ten Floor Business Building Here

... to see if he can, and  
... to keep our building  
... at home," Williams

"Another reason for building the skyscraper in near-east Floydada is in order to get out of the congested downtown area ... the crowds of foot traffic, taxi cabs, and buses make locating the building there unfavorable ... and we would have to build a parking area if it were located downtown," Land continued.

Williams said that although there wasn't a big need for office space in Floydada at this time, he felt that the town is getting ready to grow and big business will demand modern business offices. "Of course there is something for everyone in this new building" Williams added, "for the person who likes TV, we have one room with 50 TV sets of all shapes and sizes and colors ... for our old timers we have a domineer lounge with mother - of - pearl dominoes and gold edged tables."

Another unique recreational area of the building features a dirt floor. Land said, "I always did enjoy playing mumble-peg, marbles and tops when I was a boy ... and I have some friends who I think would enjoy this area of the building."

Floydada school officials were excited about the new building. Athletic director Prespound Watts said, one story of the building is a "coin flipping area." Area coaches may come to this room to flip for location of playing bi-district, regional and state games."

Yep ... just another April Fool story!

## Helicopters Play Key Relief Role in L.A. Earthquake

The recent Los Angeles area earthquake demonstrated the effectiveness of helicopters when disaster strikes.

The quake struck at 6:01 a.m., February 9, and by 7 a.m. the Los Angeles City Police Department had eight of its five Bell helicopters in the area, about 25 miles northwest of downtown L.A. Lt. James R. Beall, officer in charge of the helicopter section had his ships flying aerial reconnaissance over Van Norman Dam; providing closed circuit television coverage to the Police Mobile Field Command Post; coordinating traffic in the evacuated area, and providing aerial protection against looters.

Lt. Claude Cooper of the County Sheriff's Department pressed five Bells and two Hughes machines into serv-

ice, surveying damage at the Olive View and V.A. Hospital sites, where 48 of the 64 victims perished. Medical personnel and supplies were transported by helicopter to those areas from many parts of the county.

The fire department's helicopters shuttled doctors, blood and plasma.

The news media helicopters disseminated disaster news and evacuation orders, while industry-operated helicopters were made available to transport rescue workers and equipment.

## Soil Conservation Awards

The Soil Conservation Awards Program of the National Association of Conservation Districts has been renewed for its 25th year by its sponsor, The Goodyear Tire & Rubber Company.

The grand awards are in the form of expense-paid, vacation-study trips to Goodyear Farms, Litchfield Park, Ariz., and have been made to more than 2,100 representatives of first-place districts in the 50 states and Puerto Rico. According to Ray

Oviatt, SCAP director, 106 conservationists will make the trip this year.

**\$400,000,000**

It cost the nation \$400,000,000 to send three astronauts to the moon recently for some more rocks. At least two more rock-gathering trips are projected, and they are likely to cost at least \$400,000,000 per trip. The question naturally arises, as the Nixon Administration increases its debt by massive borrowing, whether further moon shots are justified in the near future.

While these trips to the moon are exciting entertainment and a marvel in science

and technology, they are now old hat.

# County Commissioners Court Approves Million Dam In Blanco Canyon

years of discussion and through county commissioners, the big decision finally made. . . a dollar dam will be in Blanco Canyon. . . The decision was made last week by the commissioners

court in a 3-1 vote. Construction will begin immediately on the dam to be built about two miles below the Baptist Encampment. Two of the commissioners had kept the issue alive for three days and nights. . . Carl Plumtree and John Fowling,

When commissioner Bill Mackpeal realized that the dam would make a tremendous fishing resort, he sided with the other two commissioners in voting for the project. The one dissenting vote came from commissioner Job Barrett, who, although admitting he

enjoyed fishing, said he voted against it because he didn't figure it would ever rain enough to fill the lake.

Commissioner Mackpeal quickly stated that he felt the Floydada city council could be prevailed upon to pump water into the lake from the city wells. . . if they were allowed free fishing privileges.

Chamber of Commerce manager Jon Hooree, said that he would begin printing brochures immediately depicting Floydada as a fishing resort and millions would flock into the area.

Dissent came from two groups in regard to the new lake. A local Baptist pastor, Lloyd Badley, said the Baptists didn't mind knee high water in the campgrounds, but it was possible the lake would back up and completely cover the buildings in the Baptist Encampment.

It also seemed that a suit might be pending as members of the Country Club and their legal counsel considered the possibility that the Country Club would go under.

The country club board further explained, "they didn't want the club to go wet".

Well. . . it does make a good April Fool story. . .

## A Timely Note

The Tire Industry Safety Council reminds owners of travel trailers, truck campers, camping and boat trailers and motor homes of the three major "don'ts" when it comes to caring for their tires:

1. Never "bleed" hot tires to reduce air pressure build-up. Pressure increases up to 15 pounds are normal.
2. Never overinflate beyond recommended limits in an attempt to compensate for overloads. Instead of making matters worse, lighten the load of the vehicle. No one ever needs everything he packs.
3. Never drive on under-inflated tires.

# Jack Hightower "Governor For Day"

Texas will get a lot of govern-  
ment, literally measured, when  
six-foot-three Jack Hightower  
plants his 13-A shoes inside  
that office this Saturday.

The 44-year-old senator  
from Vernon moves up for a day  
as chief executive from his po-  
sition as the Senate's president  
pro tempore, to which he was

elected when the 62nd Legisla-  
ture opened in January. The  
president pro tem is No. 3 in  
line to the governorship, and  
traditionally is accorded a day

in the No. 1 post.

The day will be special for  
Floyd County residents and oth-  
ers in the 30th District which  
Hightower serves. Several  
persons from this county plan  
to be in Austin for the special  
observance.

Saturday will be full of hon-  
ors and festivities honoring the  
44-year-old senator, whom  
many political observers be-  
lieve may one day claim the  
Lone Star State governor's  
chair for real.

The event unfolds at 9 a.m.  
with inaugural ceremonies in  
the Senate Chamber. Hightower  
will be guest at a reception  
from 10 until noon in the gov-  
ernor's office and a concert in  
the capitol rotunda featuring  
the Chapel Bells of Plainview.

The scene shifts at noon to  
the east lawn of the capitol for  
a chuck wagon lunch.

Afternoon hours - 2 until 4:30  
- will be filled with concerts  
in the rotunda, featuring the  
Midwestern University Choir,  
the Hirschi (Wichita Falls) High  
School Band, the Vernon High  
School Girls Chorus, the Ma-  
sonic Home (Fort Worth) and  
School Band, and the Red River  
Ramblers from Vernon.

An art exhibit will be view-  
ed in the Senate chamber from  
9 until 5 a.m.

Municipal Auditorium will be  
the site for the inaugural din-  
ner, slated for 6 p.m.

Tickets for the dinner are  
available at The Beacon office  
or from Jimmy Willson in Floy-  
dada.

## School Board Approves Swimwear For Classes

The local school board met  
last week and agreed that dur-  
ing summer months all stu-  
dents would be given permis-  
sion to wear swim suits to  
school, providing they wear  
oxford type shoes.

The board said they had no  
desire to rule over what a child  
wears to school, but did insist

that a loafer type shoe be worn.  
Principals said that way a  
teacher, most of the time, could

tell when a student was slip-  
ping up behind them.  
APRIL FOOL!

Bob Woodruff, the former head of the Coca-Cola Company,  
invited Edgar Bergen on a hunting expedition. Bergen, sharing  
a blind with one of Woodruff's friends, spotted a turkey. Both  
men fired, the turkey fell, and each insisted that he had shot  
the turkey.

"There's only one way to settle this," Bergen said. The ven-  
triloquist stepped up to the dead turkey, propped it up, and asked:  
"Who shot you, turkey?" The turkey answered, "You did, Ber-  
gen."

## Men At Odds On Moustache Copyright Law

Lovelle filed suit in  
District Court of Floyd  
last week against Sorby  
for copying his style  
ache.

He stated that after ap-  
pearing in public with a mus-  
tache several months ago and  
receiving complimentary ap-  
praisal from the public, Turn-  
ner decided to go "mod" and  
copied the style of moustache  
Lovelle was wearing.

The suit was settled out of  
court this week after Turner  
agreed to wear his moustache  
less bushy than Lovelle.

## Neighborhood Center Nearing End Of Another Program Year

The Neighborhood Center is approaching the end of another program year and those involved extend their thanks to those who have participated.

Many things have been accomplished and all are looking forward to the future.

John Campbell, Neighborhood Aide, said as he turns his attention to the future he can see the many problems which lie ahead. He stated "This is your community, what problems do you see here? Is it employment, lack of understanding among residents of the community, or other problems? It is evident that the problems around us will not be solved unless we put forth efforts to solve them. The problems must be identified and solutions worked out."

"The Community Center is offering classes to increase

your understanding and to help with the many problems that are plaguing our community, state and county. An understanding of ourselves, neighbors, and other residents in the community is necessary if we are to do anything about the problems," Campbell stated.

At the present classes in reading, spelling, budgeting and a program on Boy Scouting are being conducted at the Center. More participation is needed in these activities. Additional programs are also available to low income people who need assistance in certain areas. We need to know your problem in order to help, Campbell continued.

All are asked to attend activities at the Center and get in touch with the Center director if you wish instructions.

## Dane Clark Painting Is A Feature In Art Magazine

An article on the paintings of Dane Clark, graduate of Floydada High School, is featured in the April American Artist Magazine published in New York City.

The article focuses mainly on Clark's interest in the Southwest and Mexico. However, the

influence of research in Spain, Portugal and Morocco is also shown.

Clark and his family live on Lookout Mountain above Denver, Colorado where he is co-owner of the Colorado Institute of Art, president of Unit One Graphics Corp., and president of Mount Vernon Country Club.

Clark, the grandson of Mrs. L.L. Clark, Sr., and sister of Mrs. J.E. Waller, opened Gallery Santa Fe in Santa Fe New Mexico two years ago. The gallery is managed by his father L.L. Clark, Jr., a former resident of Floydada.

## Wooley Rejects New Industry

Zendell Wooley, editor and publisher of the local newspaper, and president of the Industrial Committee of Floydada, said this week the opportunity had arisen for a new industry in Floydada with a promise to employ 450 persons.

Wooley said, however, "I have always been against progress for a small town. We must remain as is, in order to have harmony. I protest wholeheartedly against any type of industry which may come to our fine city." Wooley continued,

The newspaper man ruled over his committee who were in favor of the industry.

Chamber of Commerce manager Ron Jue, who was out of

town at the time, sent a hurried message from Las Vegas via carrier pigeon, to Wooley, emphatically protesting Wooley's decision, begging him to reconsider. But Wooley said a definite "no."

Wooley is active in local civic organizations (but probably not for long) including president of the local Rotary Club, enthusiastic member of Girl Scout Troop 987, and treasurer of the local chapter of F.T.B.U. (Floydada Tennis Bums United). He is also a faithful and dedicated member of the Mt. Sinal Baptist Church. He has been a resident of the Floydada community for the past nine years.

## FLOYD PHILOSOPHER

### Lays Claim To The Solution Of A Problem

Editor's Note: The Floyd Philosopher on his Johnson grass farm immodestly lays claim to the solution of a problem this week.

Dear editor:

Try it. It doesn't make any difference what subject you're talking about, somewhere in the world it's a problem something ought to be done about.

For example, I was reading in a newspaper last night I salvaged from a Christmas package it was used in to keep some cups and saucers from breaking - two of them came out all right except for a few chipped places - that dogs are becoming an unmanageable problem in cities.

That's right, the dog population, the article said, is increasing faster than the human population, which most people claim is increasing too fast itself, and as a result city officials don't know what to do. You take a city with a million people and a million dogs, counting those roaming the streets, dogs, that is, although some people come under this category

too, and you have got a problem. But of course dogs and people of the problem. There are too many airplanes, too many cars, too many diseases, in fact, to say the entire world you'll find one group that has had the same problem and keeps it the same. You don't find there're too many.

Farmers saw the problem of duplication and overcrowding in cutting back. Where cities that where there was room for cars where there was barely farmers put one farmer where be four.

From 50 per cent of the population to 8 per cent. I don't know why cities have this solution.

## Red Cross Fund Drive

Holmes, members of the Floydada Firebells, Dee Copeland of Lockney, with other volunteer workers there. Baucum said the organization was trying in earnest to build the chapter's fund to a point

where they can furnish assistance if a disaster occurs. He said what the Red Cross is trying to do is to bring relief to those caused by disaster.

The Red Cross government at a organized in groups, veterans and many other to bring help to times.

Local chapters for disasters, they can be followed to provide relief, shelter, and emergency. The donations, expenses, voluntary contributions American people.

## "A Home Is A House With Love Inside"

VALENTINE  
SO OFTEN we awaken with a start  
cover that our smiles, if not much of  
abulary, have become obsolete,  
we see one of our high school girls,  
ow, going down the street in her maxi  
ankle-length skirt and coat, and a hat  
ey wore in the early 1920's, we have  
observed that she looks like a little  
ressed up in her grandmother's clothing,  
ber how little girls used to play "grown  
wearing their mother's or grandmother's  
s?  
BEFORE CONVERTING our observation  
ds, the thought occurs that the grand-  
of these girls doesn't look like that at

all! Her grandmother probably wears mini  
skirts! High school girls of today wouldn't  
have the most remote idea of what we meant  
if we compared their maxi garb to that of their  
grandmother!

CONSIDER THE IMAGE that comes to mind  
when we think of the home of our childhood...  
how foreign it is to many teenagers' concep-  
tion of "home."

Perhaps that is why our favorite writers are  
those of our generation and age. When they write,  
we understand what they are saying. We speak  
the same language.

A favorite writer, and a contemporary, is  
Dan Valentine who is a genius in creating  
word pictures. One of his essays is called "What  
Is A Home?" With apologies to those of the  
younger generation with whom he probably  
doesn't communicate, we pass on Valentine's  
remarks:

A HOME IS A HOUSE with love inside ...

A home is four walls glued together with  
the magic paste of tears and laughter, sorrow  
and joy, hopes and dreams....

It takes many things to make a home: An  
attic filled with yesterdays...rooms filled with  
today...and children filled with tomorrow....

A home is a sanctuary for the troubled  
....a friendly port for the lonely....a beacon  
for the wanderer....

A home is built with bricks and mortar and  
lumber and nails and concrete....

And devotion and love and courtesy and cour-  
age....

THERE ARE LARGE roomy houses which are  
empty ... and there are small, cluttered homes  
that are filled with happiness....

A home is a collection of rooms filled with  
ghosts and years gone by, and echoes of old  
memories....

A home is a stairway that has enjoyed the  
happy feet of children ... a home is a collec-  
tion of walls that bounce back echoes of happy  
times....

A home is as warm as the glow of a fire in  
a fireplace ... a home is as serene as a cat  
napping in the sun on a window sill....

A home is a front doorway that has known  
happy greetings and sad farewells....

A home is a nursery that has known a child's  
cry in the night ... and a parlor that has  
known a lover's sigh....

A HOME IS A HALLWAY mirror which has  
seen young ladies preen for high school proms....

A home is a boy's bedroom that has seen  
college pennants on the walls and baseball  
bats in corners and stamp collections on handy  
shelves....

A home is a collection of windows that have  
looked out on snowstorms and have seen spring  
days arrive and have watched the faraway stars  
on a summer's night....

A home is a kitchen that has heard the dish-  
es clatter in a sudsy sink...and has smelled the  
aroma of family dinners and known the secret  
of midnight snacks....

A home is a hallway that creaks with yes-  
terdays ... that has heard the happy romp of  
children on Christmas mornings....

A home is a happy living room that has  
known the talk of friends ... and a fireplace  
that has filled a room on a winter's night with  
a comfortable glow....

A HOME IS A FRONT PORCH that has seen  
10,000 new dawns ... and as many dark mid-  
nights....

A home is an attic filled with cartons of long-  
gone toys ... and trunks full of memories.

A home is a back porch that has known  
milk bottles and the scraping of small, muddy

feet at supper time....

A home is a backyard fence that has been  
leaned on over the years ... and has heard the  
gossip of the neighborhood....

A home is many things....

A BOOKCASE filled with strange and wond-  
erful tales ... a carpet worn with the scuffle  
of leather slippers ... a dining room table that  
has been the silent host at birthday parties....

A home is all these things ... and more....

A home is a basement work bench where  
doll buggies have been repaired and window  
screens painted....

A home is a lawn that has known bare feet  
in a summer sprinkler ... and rose bushes  
trimmed by loving hands....

A home is all these things ... and more.

But most of all, a home is a house with four  
walls ... held together with love.

## "Thou Shalt Not Kill"

God has commanded: You shall not kill. The conscience of mankind rightly extends this law to all actions which without due reason, endanger the health and physical integrity of any person. Suicide, and reckless actions which endanger one's life or safety, are as reprehensible as murder and mayhem.

And yet, in our time, a singular blind spot has developed in the consciences of many people who are in all other matters law-abiding and conscientious. This reference is to the careless and even reckless use of the automobile. Many who would never dream of handling a gun or knife carelessly seem to lose all moral sense behind the wheel of an automobile.

In far too many situations where death or injury occur in automobile accidents the driver is at fault.

His carelessness, neglect or reckless conduct causes the death or injury. From a legal point of view such conduct is a crime. From a moral and religious point of view, these actions are sinful.

Each of us has an obligation to seek an enlightened and educated conscience. It is for this reason we urge, with utmost seriousness, that every driver reflect upon the moral obligations he assumes.

The distinctive mark of the follower of Christ is his love for his fellow man. The mark of the upright and conscientious man is his strict regard for the rights of others. On the basis of both justice and Christian love we must join our fellow citizens, especially by our actions, in the crusade to keep our highways and streets safe.

**SCHWERTNER** produced 2 1/2 carloads, 200 pounds, of NK 275 grain sorghum from 1/2 acre on October 5. Mr. Schwertner reports a seeding rate of 7 pounds per acre on 40 double rows. At harvest his yield averaged 7,200 pounds of grain per acre. This ends the career of Mr. Schwertner to join an exclusive group who have harvested 1,000 for 1 return on their seed from Northrup King seeds.

## Floyd Farmer Wins NK Award

FOR 1970 - Among the outstanding sorghum growers, the winning Trainload and Sorghum Grower

Awards is A. E. Schwertner of Floydada. Carload winners produced at least a giant hopper carload of grain, and Trainload winners produced at least five carloads, or a million pounds. The awards were presented by Northrup, King & Co., Minneapolis-based seed firm, to honor grain sorghum producers throughout the "sorghum belt." Total production by the winners came to more than 500 million pounds of grain - enough to fill 2,500 carloads, or to make a train about 16 miles long. Nearly two-thirds of the contest entrants planted part or all of their sorghum acreage to NK 222 and NK 222A - two companion hybrids that have been planted by more farmers than any other grain sorghum.

## Dump To Move Inside City

City manager Bill Beuerbacher announced this week that due to citizens having to drive the great distance to the dump grounds, the council had voted 100-0 to move the dump inside the city limits.

Beuerbacher said with the money saved by citizens on gas, that amount of cash would be turned over to the council, and a swimming pool built for every home owner in town, with the remainder of cash being donated by the city.

## FLOYD PHILOSOPHER Comes Up With Program To Put Nearly Everything On A Paying Basis

Editor's note: The Floyd Philosopher on his Johnson grass farm has some far-out ideas this week, but that's his responsibility, not ours.

Dear editor:

As I understand the plan to reorganize the postal system, according to an article I read last night in a newspaper somebody mailed me a couple of weeks ago and I received yesterday, the idea behind the move is to put the post office department on a paying basis, managed by a commission of business experts.

They're going to cut out wasted effort and antiquated methods, mechanize and streamline the system, raise the rates right and left, and generally operate the thing like it was any other business designed to pay its own way.

I got to thinking about this and I guess it's all right, provided the business managers go all the way.

For example, if they decide it ought to cost 8 cents instead of 6 cents to deliver a letter from Floydada to Lockney in 24 hours, and it turns out it takes 48, shouldn't the sender be entitled to a rebate for the delay in transit? Business is business, isn't it?

## Local Females To Oppose DST

Meg Pedley, society editor of a local newspaper, has issued a plea to the females of the community to unite and oppose the men (and the rest of the country) in a plan to continue to go by Standard Time even after Daylight Savings Time comes into effect later this month.

Meg said "We women have just as much right to have the time the way WE want it as the men, what with women's lib and all that. We mothers think standard time is just fine, better for getting our teenage daughters to bed on time at nine p.m. Why, I remember last year when my daughter had to go to bed at nine, it was still daylight. If we use DST again this year, I may have to let her stay up 'til 9:15 - maybe even 9:30 on weekends."

"But what we really want to do," Meg continued, "is for the females of Floydada to get right ahead using standard time and let the men go ahead and use DST so they can get in all that golf playing and the other fool stuff they do. You know how they are."

## FLOYD DATA

Mrs. George Quisenberry, the former Sharon Fuller, is reported to be improving at her home, following hospitalization with a liver infection and enlarged heart. Mrs. Quisenberry is requiring complete bedrest and medication for her condition.

## Two Floydada Men Charged With Pollution

Two Floydada men were charged with pollution of the air in county judge Cellar Domes' court last week.

District attorney Gorge Millern presented a case against the men that called for 30 days of jail for each... but the judge ruled that both should be released on probation.

Local builder Wimmie Jillson was charged with driving in downtown Floydada with his window down and pipe smoking into the atmosphere from the open window of his auto. Several eye witnesses were in court to testify to the validity of the charge.

Jillson said that he felt his individual rights had been trampled upon and he also had a considerable investment in

smoking pipes and two hundred pounds of tobacco which he had purchased at a discount store.

The other Floydada man charged is a well known member of the Floydada school staff, Charles Tired. It seems that Tired was breakfasting in the Mutsler Cafe when the man next to him complained that what he thought was pepper in his eggs was actually tobacco from Tired's pipe.

(Well, it makes a good April Fool story).

## Official Memorandum By PRESTON SMITH Governor of Texas

### GREETINGS:

Texas Industrial Week is observed this year during the week of April 4-10 by resolution of the Texas Legislature.

Texas manufacturing industries created thousands of jobs in the new jobs were the result of new plants locating in Texas and the expansion of existing firms.

We honor members of industry in our State because of the continuous contributions they have made to Texas. The people of Texas observe this annual event in appreciation of what our industries contribute to the State economies. The free enterprise system invested hundreds of millions of dollars in our State's industrial growth during 1970.

With such an amount invested in our current and future industries, it is essential that every Texan work for a favorable climate in which established industries may invest in the economic well-being of our citizens.

Texas Industrial Week allows an opportunity to demonstrate our appreciation of Texas industry through the promotion, display, and sale of products manufactured in this State.

THEREFORE, I, as Governor of Texas, do hereby designate the week of April 4-10, 1971, as

### TEXAS INDUSTRIAL WEEK

in this State, and urge all citizens to give due recognition to this vital segment of our economy.

In official recognition whereof, I hereby designate this 8th day of Feb.

*Preston Smith*  
Governor of Texas

Happy Home Environment  
WHAT'S THE IDEAL?

Most people would agree that the ideal happy home environment must take into consideration the environmental aspects as well as the spiritual and human relationships.

In the present state of technology, electricity does its job well when it comes to environmental aspects of conditioning the air in your home.

The ideal system, now available, not only does its job of comfort heating in winter and comfort cooling in summer but also refines the air itself. Electric humidifiers control the amount of moisture in the air and electrostatic air cleaners remove undesirable dust particles.

So then, 4 things to give you a happier home environment... electric heating, electric cooling, electric humidification and electric air cleaning... and all of it automatically. Ask your Public Service manager for complete information.

ELECTRICITY - IT DOES SO MUCH GOOD FOR SO MANY PEOPLE!
