

Wheat Referendum Vote Tuesday

R. G. Dunlap of Floydada, county leader of the Amarillo-based Texas Wheat Producers Association said today that "individual farmers are showing an increasing interest in the forthcoming wheat referendum and producer board election as a step toward strengthening their income from wheat through stronger organized producer efforts."

Wheat farmers in 34 counties of Texas that normally produce 75% of the state's 50 million bushel wheat crop vote Tuesday, May 11 in a referendum and promotion referendum. If passed by 2/3 of the growers voting, an assessment of not more than 5 mills per bushel will be made at the first point of sale on all wheat marketed in the area. Proceeds from the program, if passed, will be invested in research in production and marketing, disease and insect control, and market development at home and abroad.

The referendum is being sponsored by the Texas Wheat Producers Association on certification by John C. White, Commissioner, Texas Department of Agriculture under authority of the Texas Commodity Referendum Act of 1969, passed by the 61st legislature.

Leo Witkowski, Hereford, President, Texas Wheat Producers Association, said that "wheat has been a declining crop in Texas the past few years from the standpoint of acreage planted, harvested and marketed." He pointed out that "This decline has been very costly in terms of loss in income, not only to the producer, but also to the elevators handling wheat, and to the entire agricultural economy dealing in servicing, financing, transporting, and supplying the wheat farmer. Passage of this wheat referendum would provide funds to initiate development projects which might help in reversing the decline in the wheat industry and increase producer income from wheat."

"Passage of the Wheat Producers Referendum in Texas is a must," according to State Representative Delwin Jones of Lubbock, Jones, Chairman of the Agricultural Committee of the Texas House of Representatives, stated, "Those of us in state and national legislative bodies are watching to see if farmers are really concerned about their problems. When insects, disease, and other problems need immediate attention, the legislature is used."

County Bank Deposits Up

Loans Up A Little

Although there wasn't much rainfall last year... and hardly enough to plant on right now, Floyd County's bank deposits surely don't reflect the dry weather. The two First National Banks showed an amazing \$2,933,724.66 gain in deposits when the state bank call was made on April 20.

This is compared with a similar bank call on April 30 last year.

Loans were up \$248,109.55 in the same period of comparison.

Floydada's First National Bank was up in deposits from last year's \$9,473,768.74 to \$11,722,600.07. Loans were up from last year's \$4,273,256.92 to \$4,919,554.08.

Lockney's First National Bank showed an increase in deposits from \$6,441,787.82 to \$7,126,681.15. Lockney's loans were down from \$2,908,367.00 to \$2,510,180.02.

It is noteworthy that government payments are yet to come this year... probably in July.

Parker Studio Expands Business

Announcement was made this week by Vernon Parker that he has just contracted with a Kansas City photo firm for process work that will enable him to take pictures of school children in a 27 county area of Texas.

Parker said he had just returned from a visit to the Brenson Photo Industries of Kansas City, making arrangements for them to do the process work.

In the past Parker has taken pictures for Floydada, Spur, Lockney and Northwest Nurses School in Amarillo, doing the process work in black and white here.

His association with Brenson means that he can now offer color work to school children

and there is a possibility that his volume of business will triple.

Parker said he was impressed with the quality work of the Brenson company and also its size of production.

"I feel that this will not only help my business, but will help bring more people from around this area to Floydada," Parker said.

AN UNUSUAL MOTHER'S DAY FOR ALMA HOLMES ... Sunday, May 9, Mother's Day will be observed throughout the U.S. It's always a memorable occasion for Alma Holmes of Floydada. She calls it "Grandma Day" for that's usually when she has all the grandchildren home including her two sets of twin granddaughters. Two of her daughters are the mothers. Inset below are the two older twins, Tiffy and Tammy, seven-year-old twin daughters of Mr. and Mrs. Rodney Teague of Duncanville, Tex. Upper inset are the younger twins, Mary June, left, and Jane Anna, right. They are the twin daughters of Mr. and Mrs. Mac Willson of Canyon. The photos were taken at the age of five months. They were a year old last February.

Solomon Jewelry Hit By Burglars

Solomon Jewelry lost about \$4,500 in merchandise in a break-in early Tuesday morning. Mrs. M. L. Solomon, owner, reported about 80 watches, including seven Accutrons priced \$135 up, missing. Four sets of pearls, two sets of diamond rings, several birthstone rings and some costume jewelry were also reported taken. There was no insurance.

The burglars, probably several of them, apparently broke into the jewelry store at a little after 12 a.m. Tuesday. A resident of the Lamplighter Inn a block away told police she heard breaking glass about 12:10 but saw a patrol car in the alley shortly after and did not call police.

City night patrolman Dusty Bogard discovered the store's back doors open at about 4 a.m. Breed, and they entered the building, too late to catch the intruders. The burglars used crowbars to gain entrance through the back doors and force open an inside door to get to the front portion of the store.

They opened and emptied a small safe containing most of the store's stock of watches but were unsuccessful in opening a heavier safe containing several diamond watches and some cash. A locksmith opened the damaged heavy safe; SEE BURGLARS PAGE 2

AN EDITORIAL

Who Loves A Hospital?

Who loves a hospital? The hospital people have been about as realistic as one can get in selecting the theme for this 1971 National Hospital Week. The question portrays the huge public misunderstanding which our hospitals have to keep working so hard to overcome.

Hospitals are thought of as places where most people go when they are sick. More accurately, hospitals are places where most people are being restored to healthy lives or told what to do to stay healthy.

Hospitals are often thought of as medical hotels for the few who can afford the tariff. Actually, hospitals today are deeply involved in delivering care to the underprivileged, and are increasingly visible in community health programs.

Hospitals are accused of contributing to inflation. Instead, hospitals are victims of inflation. Recent raises in hospital wages were long overdue, yet it takes 279 hospital workers to provide proper care to 100 patients, compared with 156 workers a quarter century ago. Boosts in the prices of hospital supplies are justified, but it takes even more equipment and supplies to provide the advanced clinical and diagnostic services now expected of the hospital.

Hospitals are front and foremost in the quest to control operating costs, reduce the length of stay and provide comprehensive health care prepayment. Since it is so important that a good hospital be available to any of us at a moment's notice, it behooves all of us to keep informed of hospital needs and problems. Getting informed is a logical way for you to observe National Hospital Week and we are sure your favorite hospital will be glad to help - as usual.

OUTSTANDING SOLOIST - Lou Ann Watson of Floydada was named "Outstanding Soloist" of all students participating in the Wilson Music Festival. Band Director Jim Swofford and Ann display her plaque.

Letters To The Editor

Well, well! We just had to panic after nearly two years of the Calley slaughter of unarmed, helpless women and children. And after months of trial, investigation and settled by jury, we howled until the jury verdict and confession was thrown out.

This is not quite as disgraceful as the outlawed youth converging upon the beautiful clean grounds of Washington; where about all the trouble that a city could stand, Russia is rejoicing at both of the big shows we have put on without any admission charge.

Always, like San Francisco, Watts tragedy, Kent University and others; the youth start out shouting this is going to be a peaceful march, when they know full well, several hundred will fall in and do the sensational, destructive, looting, burning, vulgar shouting, rock throwing. The word sanitation is trampled in the dust.

Why did not this same group bother Mr. Kennedy & Johnson? They all know that Mr. Nixon inherited this mess. He did not start it and is the only one who has tried hard to bring the boys home. The Good Lord knows this worthless war should have never been started, and for eight years it was not escalated - looks like it had been saved up to dump in some one else's lap.

WHAT can we have in town Old Settlers for the youngsters? This question has been asked many times. If you have some worthwhile ideas why not give Clifford Willis a call and let him bring it before the association members. Surely there is some clean entertainment we can furnish for them, even if the celebration is for pioneers. Someday the youngsters can say they too are pioneers.

Seems like the canyon between Silvertown and Claude is always pretty and green. We drove through going to Amarillo Friday evening during a pleasant rain shower. Saw three deer that looked as if they were eating well. Noticed too, that Claude was getting ready for the arrival of their new woman doctor.

Friday, May 14, will be a memorable occasion in Lockney. A plaque in memory of James A. and Alice Baker will be placed on their building, "The Baker Store." The plaque has been purchased by the children of the Bakers under the sponsorship of the Floyd County Historical Society. Alice Ratliff was an only child and married James Artemas Baker when she was 18. Five years following their marriage the couple moved to Floyd County, camping in a wagon south of the old Lockney townsite. Because of bickering Baker started a "new Lockney." The first building house a little bit of everything from a cracker barrel to the post office, and then later where pioneers did their banking. Fires and depressions both didn't omit the Bakers, but somehow they took care of each situation as it arose. Mrs. Baker kept the store operating while her husband was freighting supplies. He died in 1917 leaving the pioneer woman with 12 children to rear and a business to keep running, and that she did, until failing health halted her activities, followed a

MOTHER

By TEMPLE BAILEY

THE YOUNG MOTHER set her foot on the path of life. "Is the way long?" she asked. And her guide said: "Yes. And the way is hard. And you will be old before you reach the end of it. But the end will be better than the beginning." But the young Mother was happy, and she would not believe that anything could be better than these years. So she played with her children, and gathered flowers for them along the way, and bathed with them in the clear streams; and the sun shone on them, and life was good, and the young Mother cried, "Nothing will ever be lovelier than this!" Then night came, and storm, and the path was dark, and the children shook with fear and cold, and the Mother drew them close and covered them with her mantle, and the children said, "Oh, Mother, we are not afraid, for you are near, and we know no harm can come," and the Mother said, "This is better than the brightness of the day, for I have taught my children courage." And the morning came, and there was a hill ahead, and the children climbed and grew weary, and the mother was weary, but at all times she said to the children, "A little patience, and we are there." So the children climbed, and when they reached the top, they said, "We could not have done it without you Mother." And the Mother, when she lay down that night, looked up at the stars, and said, "This is a better day than the last, for my children have learned fortitude in

the face of hardness. Yesterday I gave them courage. Today I have given them strength." And the next day came strange clouds which darkened the whole earth—clouds of WAR and HATE and EVIL, and the children groped and stumbled, and the Mother said: "Look up. Lift your eyes to the light." And the children looked and saw above the clouds an Everlasting Glory, and it guided them and brought them beyond the darkness. And that night the Mother said, "This is the best day of all, for I have shown my children God." And the days went on, and the weeks went on, and the years went on, and the Mother grew old, and she was little and bent. But her children were tall and strong, and walked with courage. And when the way was hard, they helped their Mother; and when the way was rough, they lifted her for she was light as a feather; and at last they came to a hill, and beyond the hill they could see a shining road and golden gates flung wide. And the Mother said: "I have reached the end of my journey. And now I know that the end is better than the beginning, for my children can walk alone, and their children after them." And the children said: "You will always walk with us, Mother, even when you have gone through the Gates." And they stood and watched her as she went on alone, and the gates closed after her. And they said: "We cannot see her, but she is with us still. A mother like ours is more than a memory. She is a Living Presence."

Telephone Operators Like 'Happy Voices'

Southwestern Bell operators in Plainview sometimes receive bouquets - literal and verbal - from customers, but now the telephone company's "voices with a smile" are returning the tables. The Plainview operator force has instituted a program aimed at recognizing those customers who are particularly courteous and just generally nice to deal with. "The program has two parts," said Mrs. Cindy Allen, group chief operator for Southwestern Bell. "We are planning visits to those business customers with whom we deal daily so we will get to know personally some of the voices we've known for a long time. Secondly, we are letting exceptionally courteous customers know that we appreciate them." "We appreciate all our customers and the courtesy they show," Mrs. Allen continued. "However, with our CCR program, we are trying to recognize the type customer who makes an operator's day much more pleasant." The CCR idea and the plan to visit calling customers at businesses were developed by Plainview operators in a company courtesy session. "The operators felt that if they started looking more for customer courtesy, then they in turn might show even more courtesy to all customers," explained Mrs. Allen. "These folks may not be the only telephone customers in town, but we'd like to make them feel like it," she said.

X-Ray Mobile Here May 6th.

West Texas area of Texas Tuberculosis and Respiratory Disease Association has begun a concentrated campaign to have as many citizens as possible X-rayed by the Christmas Seal Mobile Unit of the association. The chest X-ray program discovers many other abnormalities other than tuberculosis. In the past year, it has located emphysema cases, lung

cysts, and cardio-vascular abnormalities. The association bears the cost of having the film read and reported to each person in the survey. There is a fee of \$1.50 for the film and developing. A post card is mailed to those having a normal chest film. The ones who have an abnormal reading are notified by a first-class letter which urges them to contact their private physician, or the local health officer for further examination. Everyone is urged to keep the card with the number of his X-ray film and the date taken. These films are stored at the office of the association, and can be valuable for comparison purposes if some trouble develops in later years. Children under twelve years of age are too small to be X-rayed on this type of unit, but every adult is urged to take advantage of these health surveys. The Christmas Seal Mobile Unit will be in Floydada at the Courthouse from 8 a.m. until noon, and 1 p.m. until 5 p.m., May 6.

Awards Galore At FHS Sports Banquet

Winners Highlight Event

By WENDELL TOOLEY
The annual Floydada High School sports award banquet was exciting from start to finish... and the finish came about 3 1/2 hours after the start. It just takes a lot of time to honor the many sports winners of FHS this year.

Highlighting the event were the regional track and golf winners, district winners in football and tennis... and personal introduction of every FHS sports participant.

Athletic director Preston Watson served as master of ceremonies and was recipient of a beautiful plaque of appreciation before the banquet was over.

High school principal Charles Tyer gave the invocation, president of the Quarterback Club Gerald Hall presented the toast to the Whirlwinds and Whirlettes.

Following the meal served by eighth grade boys, head football coach L.G. Wilson recognized the Whirlwind football team. He mentioned the fact that the varsity, Jr. varsity and Freshman teams all combined lost only three games this year.

Wilson presented the coveted "Fighting Whirlwind" award to Andy Hale and he cited Mike Burk and Steve Puckett as most outstanding lineman and backfield man.

Whirlette coach Don Ford honored Terri Shipman with the "Fighting Whirllette" award in girls basketball.

Richard Hale and Andy were honored as the "Fighting Whirlwinds" in boys basketball by coach Curtis Chatham.

Track coach Bill Grissom presented the track "Fighting Whirlwind" award to Mike Burk and Steve Puckett. Coach Wilson said this year's track team had broken every FHS record except pole vaulting.

Andy Hale was honored by golf coach Joe Patey Jr. Hale will advance to state competition this week.

Coach Ford also introduced his tennis team and recognized

Square Dance Is Roundup Feature

Complete plans for the 43rd Pioneer Round-Up to be held on Saturday, May 15, are taking shape, according to Mrs. Romi Li Patrick, president of the sponsoring organization, the Plainview Business and Professional Women's Club.

The square dance on Saturday night following the program is always of much interest to local and area square dancers. Mrs. Bula McGowen is chairman of the dance committee.

Guest caller this year will be Roy Johnson of Amarillo. He and his wife, Barbara, began square and round dancing in 1962 and have been increasingly active ever since.

He has held many club offices and is past president of both the Amarillo Square and Round Dance Council and the Panhandle Square Dance Association and served three years as delegate to the State Federation. He is currently President of the Callers Association in Amarillo. They have attended all but one of the State Festivals.

Johnson began calling in 1964 and calls for Fairs 'N Square in Amarillo and the Calico Campers in Pampa. He travels over the Panhandle area as well as Dallas, Irving, Fort Worth, Wichita Falls, Austin, Victoria, Harlingen, Oklahoma and New Mexico calling dances. He also teaches square dancing.

and to Mrs. Fred Cardinal. The cheerleaders also gave Mrs. Cardinal a present.

In conclusion Watson expressed appreciation to the board of education, superintendent A. E. Baker, Tyer, A.W. Coltharp, the quarter back club, The Hesperian and KFLD for their support and cooperation with FHS sports.

The crowd of over 200 in conclusion sang the school song, led by the cheerleaders.

The turkey and dressing banquet was held in the high school cafeteria.

Amarillo has always been home for Johnson, his wife and daughter, April, except for a few years. He is a graduate of Texas Tech University and is a registered professional engineer. He is employed by the Texas Highway Department.

Mrs. McGowen and Johnson cordially invite all square dancers to attend the Pioneer Round-Up and participate in the square dance which will begin at approximately 9 p.m. on Saturday night at the Hale County Agriculture Center.

The Church

Christ said "I will build my church" (Matt. 16:18) and in (Acts 20:28) the word of God says concerning Christ that he purchased the church with his own blood. In these scriptures it is seen how important the church that Jesus established really is in the mind of the Lord, HE GAVE HIS BLOOD FOR HIS CHURCH.

Question: Have you every heard something like this, "The church is not necessary, or the church is not important" this is the teaching that comes from so many and the thing that is really strange is that they CLAIM to preach the TRUTH, when nothing could be farther from the truth. Let US test their faith and prove that they in reality DO NOT BELIEVE WHAT THEY PREACH.

Next Sunday do not go to church, and if you are approached by your preacher then say to him, what can the church do for me that Christ has not done for me? You told me that I was saved BEFORE I joined YOUR church, you went on to say that I had been saved by the blood of Christ and you also told me that there was NO WAY THAT I COULD BE LOST, now if I am saved and can't be lost and this all happened before I joined YOUR church can you then tell me why I would even want to come to YOUR church?

Friends there is no answer that can be given for the mess of things that have come about by THE FALSE TEACHING of men who tamper with the word of God and who would have you to believe things that are NOT SO.

The Bible says that the precious blood of my Lord was shed for His Church, if Jesus shed His Blood for His Church IT IS IMPORTANT, DON'T LET ANY MAN TELL YOU THAT IT ISN'T. The man who does is going without GOD and without CHRIST (II Jno. 9).

I love you very much and it is for this reason that I tell you the TRUTH, if I can be of service to you in any way please feel free to call upon me at any time day or night. I have nothing to offer you but the word of God, and so I urge all to MAKE YOUR PREACHER GIVE YOU A BIBLE ANSWER CONCERNING THESE THINGS. I would be glad to talk to you or your preacher any time that is convenient for you.

Produce carloads of sorghum with NK 222G

Growers report 1,000 to 1 return

Leon Stoval produced over 1,000 lbs of grain from every pound of NK seed he planted. Seeded at the rate of 8 lbs per acre. Stoval averaged 8,400 lbs of grain at harvest. Excellent quality grain. The large yellow endosperm berries build a high test weight. Reports of over 60 lbs are not uncommon. Cattlemen say NK 222G makes top quality feed. Thresholds clean with a minimum of dust. Strong-standing.

BARWISE ELEVATOR & FERTILIZER

NK 222G stalks are extremely tough. A huge root system defies root lodging. Plants are short and compact to withstand high winds.

Word Maps Mackenzie Camp

Jim Word has recently completed verification of the location of the Mackenzie Supply Camp site in Crosby County. It's a possible location for a State Historical Survey marker, between Silver Falls and White River Lake. Word is Regional Consultant to the State Archeologist.

He spent two Saturdays at the camp site recently, and made reports to the State Archeologist on the evidence - the old dugout, a small stone building, and several bunkers built by General Ronald S. Mackenzie's men against Indian attack - at the Crosby County location.

Word said Mackenzie used the supply camp both in 1872 and 1874, when Kiowa, Comanche and Cheyenne "jumped" the reservation and terrorized area white settlements. Mackenzie lost the Indians the first time in '72 when he camped for the night and the Indians kept moving, but in '74 he stayed with them, Word said. He overtook them near Mt. Blanco, where Crawford Draw runs into the White River, and followed them out of Blanco Canyon - they evidently left the canyon near the present location of the Floydada Country

It's PIONEER again this year. Here's why:

CRAIG McDONALD, Ralls, averaged 3,6999 bushels of grain sorghum per acre last year from 498 acres of Pioneer brand 846 with limited irrigation and very little rain. The crop was planted April 21 and harvested last of August. Of the total acreage, 19 acres had irrigation, 54 acres had one watering, 373 acres had two waterings, and 52 acres were watered three times. McDonald has planted only Pioneer for the past two years and likes 846 for its consistent yield under limited irrigation. He expects to plant 846 again this year. We are pleased that so many good farmers like Craig McDonald plant Pioneer varieties year after year.

Letters To The Editor

April 26, 1971

Dear Sir: I have read dozens of newspaper stories and "letters to the Editor" and not one have I seen which discussed Amendment One fairly or even objectively.

Amendment One was prepared by a group of citizens throughout the state even before our present legislature was elected. The Ethics Commission which would be so created would be appointed by the Judiciary over which legislators have absolutely no control.

The big lie which has been carried by all state papers in its "letters to the Editor" reflect this is a subterfuge for legislators to get a pay raise. The facts are salaries will be left as they are or adjusted only by the Ethics Commission. The legislature has only the power to accept or reject any change.

The truth of the matter is this plan has worked well in many states in giving a fine balance of representation in the legisla- ture.

Finally, who have Texans resisted all efforts to raise legisla- tors' salaries? The answer is simple. Obviously any effort on the part of us, as legislators, to campaign for a raise would be resented. As a result those who fall for the communist line "that all elected officials are bad," have their heyday.

FLOYD PHILOSOPHER Comes Up With Odd Statistics

Editor's note: The Floyd Philosopher on his Johnson grass farm wanders around through some statistics this week.

It's not very important, but I was reading in a newspaper last night that there are now 255,200,000 telephones in the world. Furthermore, as you might guess, nearly half of those, or 114,798,000, are in the United States. We've got one phone for every two people.

But what interested me was a further breakdown in the statistics, reporting that people in the United States last year made 156,450,000,000 phone calls. If you lost track of the zeroes, that's over 156 billion calls.

Moreover, that comes out to an average of 745 telephone conversations for each man, woman and child, the report said.

Now considering the fact a lot of people don't talk on the phone at all, like infants, and a lot don't have access to phones for long hours at a time, like farmers and laborers and bus drivers, etc., plus the fact a lot of people don't even have phones, you can see that some segments of the society are making a whole lot more than 745 phone calls a year. To get up to that 156 billion calls, somebody has to talk at least 10,000 times a year, or an average of about 30 times a day.

I can believe it. I'm not calling any names, but I can believe it. Just to be doing, I figured up how much the world is paying for its 255,200,000 telephones, more or less. Just say the average phone costs a flat \$5 a month. That's \$1,266,000,000 a month, or \$15,192,000,000 a year, not counting long distance calls. When you add long distance charges, I'd say it's costing the world something around 30 billion dollars a year to talk.

I started to figure up how much truth is transmitted in those 30 billion dollars worth of calls a year but I never was any good at small fractions.

Yours faithfully,
J.A.

drivers, etc., plus the fact a lot of people don't even have phones, you can see that some segments of the society are making a whole lot more than 745 phone calls a year. To get up to that 156 billion calls, somebody has to talk at least 10,000 times a year, or an average of about 30 times a day.

I can believe it. I'm not calling any names, but I can believe it. Just to be doing, I figured up how much the world is paying for its 255,200,000 telephones, more or less. Just say the average phone costs a flat \$5 a month. That's \$1,266,000,000 a month, or \$15,192,000,000 a year, not counting long distance calls. When you add long distance charges, I'd say it's costing the world something around 30 billion dollars a year to talk.

I started to figure up how much truth is transmitted in those 30 billion dollars worth of calls a year but I never was any good at small fractions.

Yours faithfully,
J.A.
