Caprock Chat

BY WENDELL TOOLEY

WE HAVE nothing official on the progress of the dam, we have this information that seems to be up to date. The 1500 acres of the needed 2,000 acres for the dam have been purchased. The engineers are preparing specifications for the dam site, so construction will begin while rest of land purchase is being negotiated. Everything to happen yesterday, so don't really expect the engineers didn't have the specifications ready some two months ago. After being working on this project some seven or eight months, a lot of water has gone down the Tule Creek since the dam was built.

There are plenty bad out at the Tooley homestead. The next time the city sprays, a good north wind we can get a five mile south drift on the insects. I doubt that the city residents want to wait until a spray is along.

My old-son Keith is pretty much of an Indian. . . . all sorts of Indian relics in the new museum. Out on blue Sunday as we were going home from church I know a good location for the new museum!" I said, "I don't know where there was a good cave in the country club that would be just perfect."

TALKING politics sometime back and stated that our representatives and senators should have a pay raise from now on. From the looks of the cost of running office, it seems that the president's pay of \$200,000 may not be enough to live and conduct a campaign. Let it be recorded right here and now that I'm not going to pay raise for the president or the Congressmen who are \$42,500 per year.

The costs were released this week revealing what it costs to run the United States and I quote from an AP Washington:

STORY SAID COSTLIEST IN HISTORY

WASHINGTON (AP) - Richard M. Nixon spent \$35 million, more than any other presidential candidate in history, to win the 1968 election, a new study says.

The study, by the autumn homestead, the GOP had twice as much money as the troubled debt-ridden Democratic campaign reports.

The report Saturday by the nonpartisan Citizens' Campaign Fund puts the total cost of the 1968 race for all candidates, including early losers in the primaries, at \$100 million.

The pitched fights in both major parties, practically all of it was spent altogether by candidates in the pre-election-for-all as in the general election.

The November race cost \$24.9 million. That figure alone is almost double the total for both candidates' spending in the 1964 presidential election.

More than \$10 million or more was spent by Nixon forces on the campaign leading to the GOP nomination, the study says.

The financing of the 1968 election, compiled by Dr. Alexander of Princeton, N.J., a leading specialist on campaign finance. Among the major findings:

The loser Hubert H. Humphrey's campaign was so financially troubled that it was able to raise less than half the amount it spent in the fall, leaving his party with a deficit that lingers today.

The party candidate George C. Wallace actually raised more for the main run than Humphrey. Wallace's 1968 campaign cost an estimated \$7 million and wound up with money from Democratic donations for Humphrey in the fall of \$5 million.

ROUGHLY enjoyed the Christian Athlete's program at church Sunday night. It's just great when popular people stand up and witness to Jesus Christ.

JUST before press time yesterday that Bob Ross driver reported a 30 pound coyote attacked his 1968 pound tractor and I would imagine came out on his farm southwest of Floydada. They're checking it out.

PRECATE Dr. Herman Harvis for coming to Floydada each Monday, Wednesday and Friday. Also thank who is in the hospital on Tuesdays. I would like to have two part-time doctors become fulltime, and when a doctor gets here, we would really be in the health care with five doctors again!

Dr. Harvis at Rotary yesterday.

WEEK I read a copy of a speech made by Thomas R. Lee, entitled, "Hello Consumerism, Goodbye America." The publisher of Look magazine, and his talk was in business enterprise. What he was saying is that the individual research companies that continually scream to the government to control, patrol, and watchdog the products of private industry may break private industry's back with its "perpetual" requests. . . and outcome will be complete government.

THE EARLY thirties wellved about a mile and a half from the highway and it wasn't unusual for five or six stop by our back door each day and beg for food. Money was scarce so we gave them food and they ate it up.

My first tramp Tuesday morning when we admitted an old man with the shakes into our home. When he got cleaned up in our kitchen, and we helped him on his way he brought back memories of the early thirties.

THE U.S. SENATE voted for war pullout in Vietnam. I suspect that as many people would be unhappy with total withdrawal of troops from Vietnam as President Nixon thinks there would be.

Cash Taken In School Break-In

Local police are investigating a break-in at Floydada Junior High School last Thursday night or early Friday morning. Police Chief Tom Hopper said entrance to the building was apparently gained through a north door, where a glass was broken out. The intruders evidently reached in and opened the door from the inside.

About \$25 in cash was taken from the school secretary's office, Hopper said. The burglars took only bills and left several dollars in change. The only evidence of pilferage was in the secretary's office; the locked door there had been picked and a few papers were strewn around the room, but there was no other reported damage to the building.

The break-in may have occurred around 10 to 10:30 p.m. while police were investigating a minor disturbance at a ball game, Hopper said.

Post Office Here Will Hold Open House Thursday

Thursday, July 1, 1971, has been designated Postal Service Day, and the Floydada Post Office will hold open house to mark the inauguration of the

United States Postal Service. It will be commemorated by the issuance of a new 8¢ stamp bearing the Postal service emblem. The stamp will be issued

simultaneously at all post offices. Floydada Post Office will give each person who visits the office a Souvenir Cachet envelope while they last. It will have imprinted the emblem of the Post Office and the emblem of the Postal Service.

Kenneth Bain Explains "Bad Check" Law To Retail Merchants

County Attorney Kenneth Bain spoke to the Floydada Retail Merchants group in the bank community room last Thursday morning about the "bad check law."

The merchants also discussed a \$2.00 per check handling charge on bad checks, but no decision was reached on a policy for Floydada businesses.

As an added feature, Postmaster Ed Wester said he would offer his visitors a FIRST DAY COVER - and a highly unusual one - for 8¢. He will stamp and cancel a few cachet envelopes in advance. The customer will have a July 1, 1971 date and a Floydada, Texas postmark. This will be the first such cover in the history of the postal service to be issued simultaneously in every Post Office in the United States.

He said that a book had been published by State Representative Ralph Wayne explaining the law. The Floydada chamber office will secure some of the books for any merchant desiring one.

Head of the retail trades committee Bill Hale said that the bank would not open the drive-in window on Saturdays due to help problems. He also said the bank would show films in September for the education of merchants and their employees on proper handling of checks.

A booklet will be presented to each person which describes the United States Postal Service and how it works, and how they can receive better service. The lobby of the post office will have posters on display showing historic stamps. Information will be posted on how the posters may be ordered. This will be of interest to stamp collectors or historians, Wester said.

Bain explained that his office was not a "collection office", but available for criminal prosecution of check writer violators.

OTHER BUSINESS

Bain said that checks of \$50 and less were handled in county court and over \$50 went to district court. Penalty for "no account or insufficient funds" checks of \$50 or less was from one day to two years in jail and

not over \$1,000 fine. The group agreed to a town-wide promotion beginning July 29 for back to school business, and everyone present agreed to close their businesses on Monday, July 5 in observance of the Fourth of July except Perry's,

The Postmaster and all postal employees invite everyone to visit the Post Office July 1.

Week End Revival Set At Nazarene

Dr. Lyle Eckley of Lubbock, superintendent of the West Texas District of the Church of the Nazarene will be preaching here this weekend. He is finishing his third year in the superintendent's post and was re-elected with a near unanimous vote. Prior to coming here he served the Northwestern Illinois District nearly twenty years. Both Dr. and Mrs. Eckley are greatly loved by laymen and ministers and much in demand for campmeetings and revivals. In May, Dr. Eckley reported having traveled more than 63,000 miles by car during the assembly year.

Dr. Lyle Eckley

Herbert Eis, the local pastor, says that "Dr. Eckley is a good preacher with a real concern for people as well as being a hard working, capable administrator. The Floydada church is fortunate to have him for these services." Dr. Eckley will be preaching at 7:30 p.m. Friday and Saturday and in the 10:45 a.m. and 6:30 p.m. services Sunday. All of the friends of the church are invited to these meetings.

I REMEMBER, I REMEMBER . . . Personality Unfolds

Little Katie Grows Up

Seest thou a man diligent in business, he shall stand before kings; he shall not stand before little men.

—Ancient Writ.

It was not too long after the Blanco Canyon picnic arranged by Mrs. Triplett, Mrs. Steen and Mrs. Henry for the talented young singer to break the monotony for her of long weekend, that the Dr. W. H. Freeman family moved to Oklahoma and little Miss Katie Freeman grew to womanhood in that state.

After her school years and her marriage to E. Lee Ozborn, she took up residence in Oklahoma City and lived there many years. Among her social contacts was membership in a woman's federated club, in which her enthusiasm and initiative soon attracted attention. She vitalized the tasks assigned her. She stood out as executive ability and flair for organization marked her efforts.

Not surprisingly her early association with the medical profession through her doctor father and other members of the family gave her a leaning toward study and effort in the field of health and welfare.

Honors Pile Up

The twenties and thirties encompassed a period in which she gave a great deal of effort to organized welfare. By 1940 women of Oklahoma had chosen her to head the state federation of women as president. By the end of her term in 1943 she was much involved in various programs, among them that of the American Cancer Society. She was called upon to serve two terms as vice president of that society. In the 1950 decade she received the American Cancer award for the state of Oklahoma and was elected an honorary life member of the board of directors of the American Cancer Society.

Then it was in 1960 Katie (real given name Kathrin) was chosen president of the General Federation of Women's Clubs, as well as General Federation Public Affairs Department Chairman. These duties required that she make her home at Federation Headquarters in Washington, D.C., for two years. There she supervised a staff of 35 as well as assuming various roles as an international leader, hostess to national and international dignitaries and traveling ambassador of the globe-girdling organization of 11 million women.

Proves Charming Hostess

Mrs. Ozborn proved equal to the tasks that came her way.

One instance was the beautiful manner in which she entertained at a large reception in honor of Her Majesty, the Queen of Thailand in less than 10 days after assuming the federation presidency. Two months later she was hostess at a gala luncheon honoring Her Majesty, the Queen of Denmark.

On the broader front of international affairs Mrs. Ozborn scheduled a convention in Rio de Janeiro in June of 1961 which was followed by subsequent seminars in four other countries in the South American Continent. In those meetings she was encouraged by two different presidents of the United States — Mr. Eisenhower and Mr. Kennedy, both of whom "opened doors" for her activities in those lands.

Little Miss Katie indeed did grow up!

sue the war without being defeated by the doves?
Polls seem to indicate that about 57 percent of the people agree with the position of the doves. The others are listed as hawks, . . . or "don't know."

It has well been said that no other American conflict since the Civil War has so divided the American people.

Some people say, "Okay, we'll move out of Vietnam, but will the Vietcong release our prisoners of war?" Well, the fact is, if we don't get our prisoners out pretty soon, they are going to die in prison from malnutrition, and there'll be very few left to release.

Of course one of the provisions of the Senate's vote is that we withdraw troops subject to the release of our prisoners of war. I just believe we have leaders smart enough to work out the details of an arrangement that would be agreeable to both sides of the conflict.

I suspicion that in my thinking I have changed from a hawk to a dove in possibly the last two years. In the past I have thought that the USA could control Communist uprisings all over the world. . . there were people who thought we could whip the Japs out in a couple of weeks after Pearl Harbor. . . some thought we could whip the Vietcong in a month or two.

Three years ago when I made that trip around the world and I asked people of many countries what they thought about the US fighting in Vietnam, most were of the opinion that the USA could not police the world. . . most couldn't care less.

of getting food poisoning.

Before planning your meals, take a look at the canned food section at your grocery. You'll find many canned meats and canned combination meat dishes, such as roast beef, beef steaks, corned beef, ham (canned hams, two pounds and under, usually do not require refrigeration), meat balls, tuna fish, shrimp, salmon, chicken, Vienna sausages, turkey or chicken fricassee, chili and spaghetti with tomato sauce. Use a little imagination serving these canned foods. Add grated Parmesan cheese to spaghetti, for example, or fluffy scrambled eggs to Vienna sausage for an energy-building breakfast. Instead of serving chili con carne plain, serve it over toasted cornbread squares. Make the cornbread from a package mix and have it for breakfast, then toast the left over and pour chili over the cubes.

Corned beef hash can be served several ways. Brown it in a frying pan or place in a baking dish. Make hollows in the corned beef with a spoon and drop eggs into the nests. Cook until hash is heated and eggs are done.

Many of the chopped ham loaves can be sliced and served cold with salads or made into sandwiches. They can also be sliced and broiled or fried. Use imagination with your sandwiches too. Add pickle re-

lish to deviled ham spread, tongue or liver. Or combine meat spreads with hard cooked eggs and salad greens for a salad treat. Chopped ham on a slice of bread covered with a slice of cheese is another easy sandwich to serve. Broil or heat until the cheese melts.

It takes thousands of cars to move wheat at harvest time—
Santa Fe is ready!

420-million bushels is the estimated harvest now getting under way in the southwest and midwest wheat belt. This harvest has to be moved from growing areas to elevators and mills, also to ports for export. Here's how Santa Fe has been getting ready for this big job. At the start of the year we ordered 800 giant 100-ton covered hopper cars which are ideal for moving wheat, potash and bulk commodities as they can be loaded in twelve minutes and unloaded in about three minutes. During April we added 500 more to increase the order to 1300 cars, so we could have almost 10,000 giant hoppers ready by harvest. We also use box cars and other types of equipment to keep the wheat rolling. And there are other ways we are ready for this big job. Last year we expanded and automated our Argentine Yard at Kansas City, which is a busy wheat terminal. Our data center at Topeka is prepared to keep constant check on cars to gain the best possible utilization of equipment. Diesel units have been added to our locomotive fleet and older units updated to move the wheat trains. Now the harvest is starting and Santa Fe people, with their experience and dedication, are ready to handle this big transportation job. All together we are making our strongest effort to move this year's wheat harvest while at the same time keeping all other freight moving across our railway.

"To efficiently move huge volumes of wheat at harvest time must depend on fast loading and unloading of cars by shippers, elevator operators and at port terminals. We must also rely on prompt inspection by government agencies. Through cooperation with everyone in the grain industry, Santa Fe is making an all out effort to move this year's wheat harvest without a serious car shortage."
