

Christine Wilson Game Winner

"Easy" Hesperian contest this week finds game winner missing Christine Wilson. First, is the \$7.50 winner. She missed Rice-Texas Tech and the Raiders. Entries tied for Mary Martinez. Morrison missed two Tech and Hereford, and had identical 30 points. Floyd was the tie-breaker. Second and third prizes were \$3.75 and \$1.50. Wilson also missed (the same two) away on the tie-breaker. A 41-point estimate missed three T. L. Holland, Morrison, Roy Newberry, Chappell, Troy Sanders and

Sharla Hood. Submitting entries with four misses were Charles Didway, Sam Ellis, W. O. Baker, Sammy Hale, Beverly Kincer, Mrs. Bill Tye, Mike Estes, Edwin Pollan, Mrs. Laron Fulton, Debbie Martinez, D. L. Thompson, Melody Powell, Jack Fuqua, Vickie Rainer, Freddie Morren, Greg Pruitt, J. C. Wester, Claude Weathersbee, and Coach Thompson's Activity Period at Floydada High School. The Rice-Tech and Hereford-Plainview gave our guessers the most trouble this week. Only 14 out of 121 entries had Rice picked to win, and just seven had Plainview circled. Only one entrant, Craig Hambricht, picked both Rice and Hereford.

There's another contest in this issue of the Hesperian, so give it another try, football experts - they're getting easier every week.

Saturday night Mr. and Mrs. Ted Anderson, Angie and Quint attended a Halloween party at the home of Mr. and Mrs. Edwin Leatherman, Tammy and Michael. Mr. and Mrs. C. M. Leatherman and Ricky were also there.

Our sympathy is with the family of Mrs. Lucinda Pratt of Ralls, who passed away Sunday at the Ralls Nursing Home. The family of Mrs. Pratt were longtime residents of Lakeview community.

Thursday, Oct. 28 was the 2nd birthday of Scotty Battey, son of Mr. and Mrs. Jerry Battey, and his mother gave him a little party with just the family present. Saturday, Mr. and Mrs. Jerry Battey and children, Kathie, Jerry and Scotty attended the Tech football game.

We are sorry to report that B. L. Breed was taken back to St. Mary's Hospital in Lubbock Friday, Oct. 22, and is still a patient there. Mrs. B. L. Breed and Mr. and Mrs. Odell Breed have been spending that time at the hospital with him. We hope he will soon be able to come home.

Mr. and Mrs. Grady Dunavant went to Lockney Sunday where they were dinner guests of Mrs. Edwin Dunavant. Others there were Mr. and Mrs. Boyce Mosely, Ricky and Elaine. Mrs. Mosely is a daughter of Mrs. Edwin Dunavant.

Mr. and Mrs. Foy Smith of Levelland spent Thursday with Mrs. R. C. Smith and Floyd. Friday night, Mr. and Mrs. D. C. Harrison visited in Ralls with Mr. and Mrs. Mutt Harrison.

Mr. and Mrs. Ted Anderson, Angie and Quint and Mr. and Mrs. Floyd Anderson were Sunday dinner guests of Mr. and Mrs. Jerry Leatherman, Stacy, John and Ludusia.

Sunday dinner guests of Mr. and Mrs. D. C. Harrison were Mr. and Mrs. Joe Max Harrison, Debbie and Tracy and F. M. Marquis.

Mr. and Mrs. Frank Smith of Lubbock spent Sunday with his sister, Mrs. Viola Brown.

Mr. and Mrs. J. R. Bartlett of Friona were Sunday dinner guests of his sister and family, the Edmond Browns.

Mrs. Elsie Price of Odessa visited Wednesday with Mr. and Mrs. Fred Lloyd. Another visitor in the Lloyd home was Billy Bever of Lubbock.

Monte Williams spent the weekend at Cedar Hill with Mark Gilly. Saturday night Mark and Monte and a friend, Bud Taylor, attended a Halloween party at the South Plains school and later the boys visited in the home of Mr. and Mrs. Don Probasco.

Saturday night Mrs. Q. D. Williams went to Lubbock, where she attended a meeting at the Children's Home, discussing new trends of foster parents.

Mrs. V. W. Bradshaw spent Thursday in Turkey visiting her sisters and brother and their families. She visited in the homes of Mr. and Mrs. Luke Johnson and Mr. and Mrs. Elmer Lacy.

Thursday Mr. and Mrs. G. W. Smith visited Mr. and Mrs. Fred Lloyd.

Sunday Mr. and Mrs. Bill Grundy of Port Aransas visited Mr. and Mrs. Howard Bishop. Recent visitors of Mr. and Mrs. Howard Bishop were Mr. and Mrs. Riley Teague.

Sunday afternoon Mr. and Mrs. Fred Lloyd visited at New Deal with Mr. and Mrs. Troy Montgomery. Later they went on to Lubbock to visit Mr. and Mrs. Lee Keese and Mr. and Mrs. Greg Williams and Shelley.

Mrs. Henry Brewer, Mrs. M. H. Watson and Mrs. Fred McDougle went to Lubbock Monday. While there they visited briefly with Mrs. Ervin Brewer and Mrs. Peggy Ayers. Wednesday Mr. and Mrs. M. H. Watson visited Mr. and Mrs. Henry Brewer and had lunch with them. In the afternoon Mrs. Dean Watson joined the group.

Mr. and Mrs. Earl Bishop of Floydada visited Mr. and Mrs. Henry Brewer Saturday and had dinner with them, and assisted in the hog killing.

Mrs. Tom Moore and daughter, Mrs. Dean Watson spent the day Monday at Childress visiting Mrs. Moore's parents, Mr. and Mrs. Pete Bumpus.

Sunday, Mr. and Mrs. Dean Watson visited his parents, Mr. and Mrs. M. H. Watson and her parents, Mr. and Mrs. Tom Moore.

Morkels Will Be Honored Sunday On 50th Anniversary

Friends and relatives are invited to a Golden Anniversary reception honoring Mr. and Mrs. Harry Morkel Sunday, November 7, between the hours of 2 and 4 p.m. The event will be held in the Fellowship Hall of the First Christian Church in Floydada.

Miss Judy Emert Honored With Gift Shower

A gift shower honoring Miss Judy Emert, bride-elect of Randy Payne, was given Tuesday afternoon of last week in the home of Mrs. J. D. Glover in the Dougherty community. In the receiving line were Miss Emert and mothers of the future bride and prospective bridegroom, Mrs. Lon Emert of Dougherty and Mrs. Winifred Payne of Floydada.

Mrs. Weims Norman and Mrs. Jessie Pernel served punch and cake squares from crystal appointments. The serving table was laid with a white lace cloth over pink and held an artificial floral arrangement of white and shaded pink, carrying out the bride-elect's chosen colors.

New Arrivals

Twin daughters, adopted by Mr. and Mrs. Delmas McCormick of Floydada, arrived at the family home Friday, October 29. Amy Tryvonne, who weighed three pounds and 15 ounces at birth and Anita Renee, weighing three pounds, were born September 15.

The babies have two older brothers, Dorman, age 12, and Mark, who is eight. Grandparents are Mr. and Mrs. Weldon McCormick and Mrs. Artie Ward, all of Floydada, and H. S. Ward of St. Jo. Mrs. T. S. Pruitt of Burknett is a maternal grandmother.

Mrs. Springer Club Hostess

Mrs. George Springer was hostess for members of the 1934 Study Club Tuesday night. The meeting was opened with the singing of the Federation Song by the group, followed by roll call by each telling of a book she had read recently.

During business club members voted to give \$25 to the Floydada Girl Scout organization. The program on Literary Awareness was introduced by Mrs. R. G. Dunlap. She presented Mrs. Ralph Johnston, who reviewed the book, "Maria, The Potter of San Idefonso" by Alice Merriot. Mrs. Johnston told the interesting story of the Indian girl who learned the art of pottery making which caused her to become one of the best known of modern day pottery making. A collection of her pottery is very valuable today, Mrs. Johnston said.

Attending the meeting were Mrs. A. L. Wylie Jr., Jake Watson, L. B. Stewart Jr., Wayne Russell, Vernon Parker, W. O. Newberry, J. P. Moss, C. B. Melton, M. J. McNeill, Floyd Lawson, Ralph Johnston, Lonnie Hinsley, J. S. Hale Jr., Kyle Glover, Garland Foster, R. G. Dunlap, Everett Collier, David Campbell, Wilson Bond, Allen Bingham, W. F. Bertrand and hostess, Mrs. Springer.

Mr. and Mrs. Craig Edwards, Mr. and Mrs. Bob Kirk, Mr. and Mrs. Jerry Neeley, Mr. and Mrs. Choise Smith, Mr. and Mrs. Jake Younger, and guests, Mr. and Mrs. Troy Harris, Miss Lisa Gregory and Ricky Mosely.

ON TARGET
Many hunters worry about the distance they should lead a flying target but the fact is that lead, without swinging and following through, is doing it the hard way. There are some successful gunners who "spot shoot," picking a predetermined point ahead of the bird and consciously firing at it before the target arrives; but these people are the exception rather than the rule, and they only learn their technique with years of practice. To hit flying targets consistently, say Remington Arms experts, you've got to keep the gun moving, swing past the target, pulling the trigger as you do so, and continue swinging in a follow-through motion after you've touched off the shot. Above all, remember that a shotgun is pointed, not aimed.

WITH LOVE
The greeting card industry is receiving competition from talented amateurs forsaking packaged messages for do-it-yourself sentiments. One popular idea is the grow-your-own card. Buy a plant, and attach the message to the flower pot. Leave it on a friend's doorstep for a "personal" telegram. Sending a group card? Have everyone record his wishes on bright-color index cards. Hold them together with Scotch transparent tape for an accordion-style greeting. Feeling super creative? Cut out your message from different size types (find them in newspapers, magazines), tape it down with transparent tape and you have an original. When your card is so special, you don't even have to send a gift!

Thespians To Be Initiated

An initiation banquet for new Thespians of Floydada High School will be held tonight, Thursday, from 6:30 until 8 o'clock in the high school cafeteria. To be a Thespian each person has worked to gain ten points, with participation in at least two different areas: acting, directing, producing, business, writing, etc. Points are received for participation in performing arts activities only. One point represents approximately ten hours of excellent work. Sponsors use this formula in awarding points for items not specifically listed on the point system.

GREAT GASOLINE DEBATE

A clean car means cleaner air. But who can blame non-technical drivers for being confused when it comes to choosing a non-polluting gasoline? According to American Oil Co. spokesmen, any gas will keep your car running, if it has the proper octane rating. Big difference: non-lead fuel permits the use of catalytic exhaust emission control systems that cut auto-caused pollution. So-called "less lead" gas won't work. Even small amounts of the deadly metal foul the air and reduce the life of the catalysis that change pollutants into harmless substances.

Halloween Party At Nursing Home

Employees of the Floydada Nursing Home entertained residents and their guests Friday afternoon with a Halloween party and program, with prizes presented to the best talent and best dressed in Halloween costume.

Named for best talent was Lou Williams, who portrayed the TV comedian, Flip Wilson and Geraldine. Best authentically dressed were Capt. Kidd, played by Minnie Soliz, and his wife, played by Lola Allen.

Judges for the event were Peggy Medley and Steve Bracken. Guests were greeted by Dortha Westbrook, home administrator, who was dressed and masked as a clown. Fortunes were told by Rhonda Pierce, who was also mistress of ceremony.

Other entertainment included the Floydada Gadget Band comprised of nursing home employees, who played "The Ole Grey Mare" and "When the Saints Go Marching In" on rub boards, pots, pans, a drum, mouth harp and comb. The group also presented a skit, "Just Too Tired".

Participating in the band were Mary Henderson, Elna Ellis, Kathy Hearon, Maggie Galloway, Lou Williams, Stella Brown and Loretta Duvak. A poem entitled "Smile" was read by Janie Cuellar. Following the program nursing home residents and guests were served pumpkin pie and coffee.

IT looked as if Mike Clark had a sore toe Sunday when trying to kick field goals for his Cowboy team. Pro-kickers are not supposed to miss attempts from the 25 and 30 yard line, but Clark did. They are not supposed to drop punts either, but Cliff Harris did and he has had his share of those the past several games.

You can't say that Dallas did not move the ball under the alternating quarterback system because they netted an awesome 481 yards to the Bears 194. The usual boo-boos plagued the Cowboys including penalties that hurt. Most of my favorite teams lost over the weekend with the exception of the Fighting Whirlwinds. They have tough opponents in Littlefield Friday night and need all the support they can get. Go to the game and brighten the Floydada section of the stadium by wearing green. Keep those feet stomping and back the 'Winds all the way.

EMPLOYEES of the Floydada Nursing Home really entertained the senior citizens there Friday afternoon. Skits, presented in observance of Halloween, is just one of many programs put on during the year for the residents of the home. They are never forgotten. Each month there is a birthday party for all those observing the occasion that month, each Sunday there are church services, and on holidays always something special. You can rest assured our senior citizens are never forgotten at the Floydada Nursing Home.

ALL this squabble coming out of Washington on the safety of cars, a different type of car bumper and a device that balloons on the inside of the car to protect you in case of a collision. They have a free lunch program for children, whose parents cannot afford to pay, but these same youngsters, or most of them over the U.S. ride buses to school equipped without seat belts. A bill that would make them mandatory has been lying around on a desk in Washington for some time. Safety requirements for infant car seats also need to be tightened up. I think one of the main safety devices for autos is less speed on the highways. I believe if the State upped the speed limit to 100 miles an hour, there would always be a few drivers who would just have to break that limit and go 110. Why is it??

WALLCOVERINGS GO MODERN, AND THEY GO ALL THE WAY

Above: Re-doing a child's room? Child's play! The Toyland E-Z-Du Soft Border boxes in a bed, to harmonize with soldier-trimmed striped walls. Paint furniture fronts and pick room-wide colorings from the same patriotic red-white-and-blue palette. A professional decorator couldn't do better!

Right: Go modern with all-over shimmering squares, from Imperial's Right On collection. The metallic paper-work brings up the sparkle of modern materials. And the bold pattern is just what's needed to give substance to today's simplified furnishings... a sure way for mini-budgets to make a max-style statement, fast.

NEW YORK (ED) - What can you do with wallpaper? What can't you do! Today's witty and wonderfully versatile wallcoverings not only do a job - the best are scrubable, strippable, even pre-pasted for easy hanging - but they're fully prepared to take on any decorating job you dream up.

Even a child's room - normally an impossible pairing of demands for practicality and good looks - is child's play. A combination of a smart soft border - Imperial Wallpaper makes them in the 18" width, for many trimming assignments - with a coordinating wallcovering lets your decorating go as fashionably far as your imagination will take you.

Or go colorfully modern with smashing young pattern play. The outside scale that sets off simple furnishings at their dramatic best is seen in the new Right On collection of vinyl wallcoverings. Patterns run to strong geometrics, exploded plaids, up-scaled flowers Mother Nature never knew.

No more dowdy bouquets on this year's fashionable young walls! And for the young-at-heart, what could be nicer?

outing. Littlefield is "one of the soundest teams we have faced all year," Coach Wilson said earlier in the week. "They are well-coached and physically strong — they have a powerful running attack and adequate passing. This will be our toughest test of the season." Wilson said the Whirlwinds should be in good physical shape for the game.

Littlefield abounds in experienced backs. In addition to Funk and Hartley, they return 10 starters from last year's team, all of them seniors and four of them backs: Proferto Christian (165, HB); Matt Giles (175, FB); Jay Trammell (140, QB); and Jerry Kemp (165, HB).

Other lettermen returning for the 'Cats: guards Scott McNeese (195) and Allen Grisham (160); tackles Kenny Pratt (185) and Danny Estrada (215); center Brad Nace (200); and end Mike Cater (160).

Both teams should be up for the game. "We were a little flat last week — only natural after being up for Lockney and having to get up again for Olton," Wilson said this week, but the Whirlwinds "...played a good game (against Friona), considering we were all looking ahead to Littlefield." The 'Winds didn't move the football as consistently as they did in their previous two games (with Lockney and Olton), Wilson noted.

"We had a good game defensively, though," he said, "especially our former problem spots — defensive end, Mike Hale and Charles Jackson did such a good job that we are led to believe this position is now sound."

Halfback Van Mitchell, who did not play against Friona after being injured in the Olton game, will be back at full speed this week, Wilson said.

Starting lineups for the Whirlwinds look like this:

OFFENSE
Tackles — Les Robertson and Steve Hale
Guards — Mike Grigg and Kim Rose
Center — Mike Vinson
Halfbacks — Walter Harris and Van Mitchell
Quarterback — Rick Watts
DEFENSE
Ends — Charles Jackson and Mike Hale
Tackles — Terry Bunch and David Marricte
Inside linebackers — Kim Rose and Tony Goen
Corner linebackers — Terry Jester and Jay Jones
Halfbacks — Van Mitchell and Walter Harris
Safety — Langston Williams

CRIME, FROM PAGE 1

A Floydada man, Johnnie White, was seriously injured by gunshot wounds in the head and chest Sunday morning about 1:30, in a fight at "Boiley's" in northeast Floydada.

White was taken to Caprock Hospital here and transferred to Lubbock Methodist Hospital. Doctors here said White could not live for more than a few hours, but the injured man was still in the Lubbock hospital Tuesday, sheriff's deputies said.

Louria D. Buchanan was charged with carrying a gun, officers said, and could be charged with attempted murder or assault with intent to murder.

Buchanan was released from the county jail on bond.

Three Negro girls, two aged 14 and one 15, were surprised last Thursday in the act of burglarizing the Tate Jones home on the Matador Highway. Jones and his wife returned to find the three "young ladies" in the house, about 5:30 Thursday afternoon. They escaped with \$5 in cash, a watch, and some costume jewelry, according to sheriff's officers.

Deputy sheriff Connie Reed was called and pursued the three east on Highway 70. They were finally stopped in Paducah. The pickup they were driving was reported stolen from the Brownfield Co-op Gin, and they were reported to have hit a gasoline pump at an Idalou service station earlier Thursday.

The three claimed to be from San Antonio; the names they gave officers had not been verified last Tuesday. They are being held in Brownfield.

FLOYD DATA
Mrs. R. E. Young was able to return home Sunday from St. Mary's Hospital in Lubbock where she underwent knee surgery last Thursday. She is reported to be resting fairly comfortably.

PHOSPHATE NOT PROBLEM
Are detergent phosphates really bad for our nation's waters? The phosphates present in detergents used by approximately 85% of the total population of the U.S. cannot be claimed to have any effect whatsoever on the waters into which wastewaters containing these detergents are discharged, according to Dr. Daniel A. Okun, Head, Department of Environmental Sciences and Engineering, Univ. of North Carolina. Dr. Okun testified at recent FTC hearings on detergents.

TRAVELING LIGHT
Strange sounding places are calling to more Americans than ever before. The two-week trek to the local swimming hole pales beside thoughts of the Casbah. Tourist manuals cover finding a good hotel and cheap meals. But they don't tell you how to find a good tailor in Tangiers. And when you pack just a few things, a sagging hem or missing button can quickly turn you into the Ugly American. Scotch double-coated tape will solve on-the-road mending problems. A length of it will hold up a sagging hem, hide a falling strap. Safety tip: Use some tape to attach your Traveler's Cheques to the lining of your purse.

Take A Letter
The volume of mail hasn't gone down since the postage rates went up. If you have a maxi-correspondence, here are some ideas to make it manageable: 1) Buy an address stamp to save time when you're sending out bills. If you want to use just your address, not your name, cover the unwanted portion of the stamp with Scotch Magic transparent tape, then ink as usual. 2) Remove stamp pad ink from fingers with Scotch typewriter cleaner. 3) When mailing letters on a rainy day, cover the address with transparent tape. 4) Make use of stamps that have lost their stickum by attaching a small piece of double-coated tape to the back. 5) Use zip codes!

Lockney Woman 'Key' To Brother's

Successful Kidney Transplant In New York

By LURON BROWN

LOCKNEY — A kidney transplant for which Mrs. Jack Lockney was the donor was given promise of perfect operation of its kind.

Mrs. Frizzell, 52, gave one of her kidneys to her son, Jimmy Fletcher, 50, of New York City Sept. 21.

More than four hours the kidney was functioning. There have been no complications involving Fletcher or Frizzell. Surgeons told Mrs. Frizzell before she returned home that the transplant could turn out to be perfect.

Mrs. Frizzell believes prayer was a reason for success of the transplant. Special prayer services in churches, and the help of friends and relatives were part of the experience. She deems the most inspiring of her lives.

In the past several years Fletcher, an executive in radio and television company, had suffered from chronic kidney disease, a congenital ailment that was inherited from his mother, a brother, a sister and several other relatives on the maternal side of his family.

Lockney, each as large as a football and weighing almost 30 pounds, were removed July 13. He underwent dialysis for six-hour periods twice weekly until her husband's transplant.

Mrs. Frizzell learned several months ago that a kidney transplant was being considered for her brother, and she immediately agreed.

A team of six surgeons began operating at 8:30 a.m. on Mrs. Frizzell's kidney, removing one of her kidneys. Simultaneously in an adjoining room another team was making the transplant. Mrs. Frizzell's kidney was transplanted in her brother's right side.

Minutes before Mrs. Frizzell went into the operating room she told her husband, "If anything should happen to me, be sure that my other kidney is given to the person who needs it."

Mrs. Frizzell was hospitalized one week before the operation.

County Designated For Food Stamp Program

Floyd County was among 192 areas in 26 states designated last Friday for the Food Stamp Program by Edward Hekman, administrator of the United States Department of Agriculture's Food and Nutrition Service.

Previously, all of the areas except two Kansas counties had carried USDA's Food Distribution Program.

Implementation of the program in these areas is contingent upon state submission of an acceptable plan of operation under the new Food Stamp regulations announced by USDA in July.

The Food Stamp Program, administered by the Food and Nutrition Service enables eligible low-income families to increase their food purchasing power by investing their own money in food coupons (food stamps) worth more than they paid. The coupons are

spent like cash at retail food outlets authorized under the program.

According to the regional information office in Dallas, exact dates when the areas designated will begin issuing food stamps will be announced locally, after approval of the plan and establishment of the timetable by FNS personnel and state welfare officials for the steps that need to be taken to assure effective and efficient programs.

These steps include training of welfare caseworkers in the community on Food Stamp Program objectives and procedures, providing arrangements for coupon issuance, certifying needy families are eligible for the program, and meeting with retail grocers and food wholesalers to assure their understanding of the food industry role before being authorized to accept and redeem the federal coupons.

In addition to Floyd, other Panhandle-South Plains counties designated for the plan were Castro, Crosby, Hale and Swisher.

Water, Inc., Membership Drive Opens

Solicitors of the Floyd County Unit of Water, Inc., have launched an intensive 45-day drive for new members. The effort is a part of an area-wide membership campaign and is aimed at swelling overall membership totals to 3,000. There are 105 paid-up Water, Inc., members in Floyd County.

The campaign was launched with an organization-wide kickoff meeting in Lubbock Oct. 9. The special emphasis will continue throughout the month of November and during the first half of December.

Water, Inc., was formed in 1967. It is a non-profit organization dedicated to the search for water for the future. It has more than 2,500 members in West Texas, Eastern New Mexico and the Oklahoma Panhandle.

Guest Editorial

PAUL DURHAM in *The Diboll Press*: How right are we — I was talking with a friend the other day and she mentioned that if she had it all to do again she would never go to work.

Like many women nowadays, she has worked since her married life, struggling like most of us to raise a family and give them the comforts of a home.

Somehow I'm sure we wouldn't have starved for the "death" she said, "and we probably would have had a long life without the extra money."

She's probably right. We all live on what we can afford, regardless of that \$50 a week or \$1,000 a year.

The best place for a young woman is in the home with the children. I'm convinced that the most important time for parents to be with children is the first six years of the child's life. I don't know much about behavior patterns, but I feel those are the most formative years for children.

This makes me wonder about the current trend toward thousands of day care centers across the country for children of working mothers. In the home where the mother is the only one to provide for children, this is the only thing to do. But I really question the merit of such centers for children who have a working father. Those who do not have their mother at home with them — and it is at all possible, and we know of course there are exceptions where it is mandatory that parents work.

It is up to young parents, however, to decide if they desire the most: the luxuries of life that two salaries help provide, or a more healthy, more preferable, unfortunately, too few of us have that until after it is too late.

Day care centers are the greatest thing in the world for children whose mother must work. But it seems to us that the country had best give the children a long, hard look before they create thousands of these centers just for the convenience of sending young mothers into the labor force.

I am convinced that a young child is better off in a modest home, in modest clothes, an old automobile and no fancy boat or lakehouse — if he has his mother there to help him happily through the young years of his life.

When the mother can always go to work later, she can recall the time she missed with her children.

FLOYD PHILOSOPHER Finds New Hope, He Claims, For Old Domino Players In Their 40's

Editor's note: The Floyd Philosopher on his Johnson grass farm must have had a birthday, his letter this week sort of indicates.

Dear editor: I got tired of international news the other day, I tried to rest my mind on the editorials in the Avalanche-Journal, that didn't help, so I turned to the sports pages. After reading that, I'm not sure a man has any place to turn. For example, there was an article telling about the exploits of old men still playing professional football. Bobby Lilly of the Dallas Cowboys, it said, is still going strong even though he's 35 years old. Quarterback Johnny Unitas at 38 is still throwing the football. A lot of players for the Washington Redskins are well over 30. And so it went. I'll tell you, when a man is past his prime at 30 and old at 35, the world is moving too fast for me and probably you. But it's getting even worse. Another article in the same paper reported on a chess match between Bobby Fischer of the U.S. and Tigran Petrosian of the Soviet Union. The Russian, former world champion, lost, and the article said: "It was a bitter defeat for the

42-year-old Petrosian. He made the bid despite his age, which is considered old for the exhausting demands of tournament play." And it added: "Fischer, 28, is at the peak of his powers, according to most chess experts." You mean chess is even worse than football? You're at your peak at 28 and over the hill at 42? What's a man supposed to do when he's past 40? Retire and run for Congress? Edit a newspaper? However, there's hope for all such old people. I didn't know this until I saw it on the television the other day, but a man has invented and is now selling ballbearing dominos. That's right. There's a tiny ballbearing on the face of each domino and you can shuffle with practically no exertion. The dominos glide and spin with the slightest shove. Practically any old football or chess player can do it, and with a few corrective exercises to build up his hand muscles probably the chairman of Congressional Committee could get the hang of it. This should extend the playing days of domino experts almost indefinitely. Is somebody working on something like this for newspaper editors? Yours faithfully, J.A.

Upper Room Meditation

"I will follow you, Lord; but let me first say these at my home." - Luke 9:61 (RSV)

It is typical of many so-called Christians today. People don't do it because... and then give one hundred and say why they cannot teach a Sunday School class, help a nurse, or chaperone a retreat.

Some of these excuses seem reasonable: the mother with the father who is too tired after working all week, the person who finds no time to do things they want to do: go to the golf course.

What happened if Jesus had said, "I'm too young to give me a few more years to enjoy life"? On the contrary, He submitted Himself completely to God.

Let us say, "I'll follow You, but first..." Rather, let us say, "I'll follow You, but first..." Here I am.

Lord, we are all guilty of making excuses for not following You. We thank You for our salvation, made possible by the death on the cross. Cleanse our hearts of all excuses and may we become willing to do whatever You ask. Amen.

Daniel Elected To Scout Lodge

Allan Nickson of Lorenzo, Texas has been elected to the office of Lodge Chief of the Nakhona Lodge, Order of the Arrow, in the South Plains Boy Scout Council, according to Lodge Advisor Charles Ward. Nickson will serve as head of the lodge in 1972.

The new officers will be installed at the annual lodge banquet on November 20 and will participate in a weekend of training at Camp Post on December 4-5, Ward said.

Dan Daniels of Floydada, Chuck Jones of Lubbock will serve as secretary and the treasurer-historian for 1972 will be Andy Sowder of Idalou.

Direct Dialing Possible To Mexico

DALLAS -Southwestern Bell customers in Texas will be able to dial calls direct to Mexico City starting November 7.

"The new service promises new speed and convenience for many customers," said H. D. Schodde, vice president of Southwestern Bell operations in the state. "Texans place an average of 9,000 calls to Mexico every business day."

Schodde said dialing direct to Mexico City would be similar to dialing station-to-station calls to points in the United States. "Both seven- and eight-digit telephone numbers in Mexico City may be called from any phone with 1 - (Direct Distance Dialing) capabilities," Schodde explained.

"To reach a seven-digit number in Mexico City, just dial 1, plus 905, plus the seven-digit telephone number. "To place calls to eight-digit numbers in Mexico City," Schodde continued, "all the customer has to do is dial 1, plus 90, plus the eight-digit number. That's all there is to it."

Letters To Editor

I would like to say I appreciate your informative paper - that is, the fact that you are willing to print my personal letter to you several times a week. I would like to drop in your office on my next return to Floydada, Texas. I have many friends there and indeed the memories of my childhood with my mother and father, Dr. and Mrs. W. S. Goen. My father was a horse and buggy doctor there. Sincerely, Katie Ozbirn (Mrs. E. Lee Ozbirn)

Thank you for your contribution of publicity to the spaghetti dinner for the Floyd County Day-Care, Inc. I am acknowledging your contribution was prominently displayed in the cafeteria that night. You'll be happy to know your support is appreciated. Sincerely, Mrs. Ralph Johnston (board member)

Whirlwinds" sticker can provide some very interesting information. Recently it has been necessary for me to make several trips to Kerrville, Texas where my mother is with a terminal illness. With a gas-station stop at a courteous gentleman in his camper and carrying a Colorado deer hunt made mention of the Floydada, Texas. Our conversation then revealed that he was Dr. W. S. Goen, a former teacher at Lakeview, 1930-32. He mentioned names of Bishop, Edwards, Bunch and others who coached Willie Bunch in basketball. When I returned to Floydada, I was waved off the road by Mrs. W. S. Goen, who had passed my car, noticed the sticker, and asked me to deliver some Aloa Vera to Mrs. W. S. Goen. I then met her husband, and learned more about the Kennedys and the plants. I live where folks are fondly remembered! Mrs. Charles Craig

and I now get monthly payments from the Veterans Administration. Could we also be eligible for monthly social security benefits? A. Yes. Since service in the United States Armed Forces is covered under social security.

TEC To Enlarge Services

Texas Employment Commission has begun a concerted effort to intensify and enlarge its services and its relations with its various publics, Chairman Harold K. Dudley has announced. "Texas Employment Commission employees are working on the design of a new program which we believe will add a new dimension to our operations and to our agency," Dudley said. No criticism of the present work of TEC is implied by the new program, the chairman specifies. "The Commission is now doing more than ever before in its operations, touching on many programs and many publics, as well as the unemployed. In fact, by most criteria, TEC could be rated the best state employment service in the nation, and one of the best of either public or private organizations." Present trends, said Dudley, will lead the agency to participate in more federal, state and local manpower programs than ever before; to serve twice as many employers as are now being served, and to serve more employees because of changes in federal and state laws.

"The Commission is conscious of its obligation of service," the Chairman continued. "In the Seventies we have a great opportunity to be of real service to those who genuinely need it. This is an example of our determination to provide the best service possible."

Texas Employment Commission's 3,500 employees are being asked to express themselves freely about their organization, and to make constructive suggestions which will improve the services and relations with the public, Dudley indicated. These suggestions will be evaluated, with an eye toward new concepts.

The chairman called attention to several of the many trends which "are sure to have an impact on the future of our agency": The agency relationship with all its publics is growing; its own employee roster is larger; the public is taking a closer look at business and government; policy at the federal level is to permit state and local governments to have more of a say in operating programs; more trust is being placed on the individual; and there is a need for more coordination of manpower efforts.

Dudley said that "there are many problems in the manpower field for which solutions have not yet been found: the problems of unemployment, of over-training in certain fields, of the lack of training in certain fields such as environmental control,

FLOYD PHILOSOPHER Sees Trouble Ahead When The Courts Try To Define Noise Pollution

Editor's note: The Floyd Philosopher on his Johnson grass farm examines a new form of pollution this week.

Dear editor: I hadn't thought much about it, by the time you get through thinking about water pollution, air pollution, and ground pollution you don't have much time left, but according to an article I read yesterday a new kind of pollution now confronts us. It's noise pollution. In fact, the discoverers of this new one have become so sensitive to noise they've filed suit against a church for ringing its bells too often, but the main complaints are against jet airplanes, roaring trucks, bumper-to-bumper traffic, automobile horns, construction noises, etc. The courts had better get ready for some complicated suits. For example, take the automobile horn. If you've worked hard all day and go to bed around 8 p.m., a horn blast in front of your house right after you've dozed off is clear-cut

noise pollution and the honker ought to be thrown in jail. But if you're a teenager across the street waiting for your date, a horn blast signaling his arrival sounds like music. A big jet roaring overhead near your house is an unmitigated nuisance, I understand it's so bad you can't even hear your own lawn mower running, but if you're waiting at an airport to get rid of some in-laws after a three-weeks visit, it sounds wonderful. Or take a mockingbird. Who would ever consider it guilty of noise pollution? It's something you write poetry about. But you let one open up outside your window at 2 a.m., get stuck on the same three notes, and continue whistling away for two hours, and you're ready to file suit against the universe. I won't go into the noise rock bands make, but if I were a candidate for the Supreme Court I believe I'd give some second thoughts about taking the job if I had to rule on laws trying to define noise pollution.

Yours faithfully, J.A.

FOOD PLENTIFULS FOR NOVEMBER

Be prepared for November feast - stock the cupboard with good plentifuls listed by the U.S. Department of Agriculture. Pork, one food feature for November is in keeping with the seasonal mood of the month. Pork is high in nutrition value - an especially rich source of thiamine (vitamin B), as well as other B vitamins, iron and protein.

Other foods on the USDA November list include turkey, rice, broiler fivers, eggs, potatoes (instant mashed potatoes and frozen french fries), apples, applesauce, apple juice, cranberries, cranberry sauce, cranberry juice, cocktail, prune juice and fresh and canned pears.

Use these plentiful foods to plan festive menus, such as pork crown roast with rice and apple stuffing, rice cooked in equal amounts of apple juice and water. For your calorie watchers 3 ounces serving of cured ham, fat trimmed off, contains 160 calories.

Rice can be fixed many different ways. Try some of the following suggestions: cook rice in tomato juice and serve

topped with cheese sauce. Serve creamed salmon, hard-cooked eggs, peas and pimiento over hot fluffy rice. Pour hot chili con carne over cooked rice. Mix sweetened, cooked rice with whipped cream and layer in parfait glasses with cling peaches sliced.

Consider the plentiful foods when shopping for your family's food needs. Nutrition foods are available at all prices so consider those that are less expensive to help stay within the food budget. Remember that the fancy cut vegetables such as French-

style green beans or julienne carrots usually cost more than other cuts. Because they are more attractive they are best used to dress up a dinner plate or cold salad. Short cut green beans and diced carrots and tomato pieces are examples of the least expensive styles of processed vegetables. They are best used in soups and souf-fles.

Use The Tongue To Say...

W. Maurice King has said: "Lord, sometimes I talk too much, I talk about people, I am sure, too much, I am often a carrier of what I have heard, not what I really know."

I talk to You when I should be listening to hear what You would say to me. So I miss out on much needed guidance and direction.

Sometimes I talk to compensate for my ignorance or basic insecurity. Sometimes I rattle on and on because of habit.

Lord, help me to bridle my tongue, to practice more self-control in my use of it. Help me to speak up for the right, to speak out against the wrong; but also to know when to invoke the genius of silence."

It is interesting to note that the Bible is not very complimentary about the tongue. James declares that the man is perfect who makes no mistakes in what he says, and is, therefore, able to bridle the whole body. And then he goes on: "If we put bits into the mouths of horses that they may obey us, we guide their whole bodies. Look at the ships also; though they are so great and are driven by strong winds, they are guided by a very small rudder wherever the will of the pilot directs. So the tongue is a little member and boasts of great things. How great a forest is set ablaze by a small fire!"

And the tongue is a fire. The tongue is an unrighteous world among our members, staining the whole body, setting on fire the cycle of nature, and set on fire by hell. For every kind of beast and bird, of reptile and sea creature, can be tamed and has been tamed by humankind, but no human being can tame the tongue - a restless evil, full of deadly poison."

Now we understand that James does not mean that little instrument of flesh that fills up a good portion of the mouth, but rather the speech, the words, that the little instrument helps shape and produce. He speaks here of our speech, and more specifically of our sinful speech.

Dr. J.B. Phillips translates the words this way: "The tongue (our speech) is as dangerous as any fire with vast potentialities for evil. It can poison the whole body; it can make the whole of life a blazing hell."

Powerful words! How easy it would be to blame the trouble on that little instrument as naively as Flip Wilson says, "the devil made me do it." But in our more thoughtful moments we know we must make every effort to tame that troublemaker. Untamed, it causes so much damage to human lives and human relationships. Tamed - what a blessing it can be!

What James actually calls for is tongue management. There simply is not enough room in the mouth for the shoe, too. Be a master - not a slave of the tongue.

What a wonderful world it is when the bit and the rudder guides properly. The option is there, he says - it can be used to curse men or to bless our Lord and Father. Of the options, I prefer the latter.

November is the month that reminds Americans in a special way that they should be using the tongue to say, "thank you, Father, for Your continuing blessings." Seriously, now, when have you paused, and from the depths of your heart breathed a prayer of thanksgiving to God for your family, friends, community, nation, material and spiritual blessings? It's so easy to take them for granted rather than for gratitude.

Why not begin special training today for that little instrument in order that by Thanksgiving Day it may say "Thank You" in a loving and grateful way.

SWPS To Open New Plant

Clifford B. Jones Station, the newest electric generating facility on the Southwestern Public Service Company's system, will be dedicated at ceremonies to be held at 11 a.m. Saturday, Nov. 6.

The plant is located southeast of Lubbock on Farm Road 3020, just west of the Buffalo Springs Lake Road.

Following the dedication ceremonies, the plant will be open to the public for two days, with the visiting hours on Saturday being 11 to 7 p.m. and on Sunday from 1 p.m. to 7 p.m. Dr. Clifford B. Jones, president-emeritus of Texas Tech University and a director of Southwestern Public Service Company for more than a quarter-century, will dedicate the new facility.

The response to Dr. Jones' dedicatory remarks will be made by Roy Tolk, president of Southwestern Public Service Company.

The new generating facility has a first unit capability of 246,000 kilowatts. This machine is the largest single unit on the Southwestern system. Construction has already started for a second unit of the same size, scheduled to be in service in 1974.

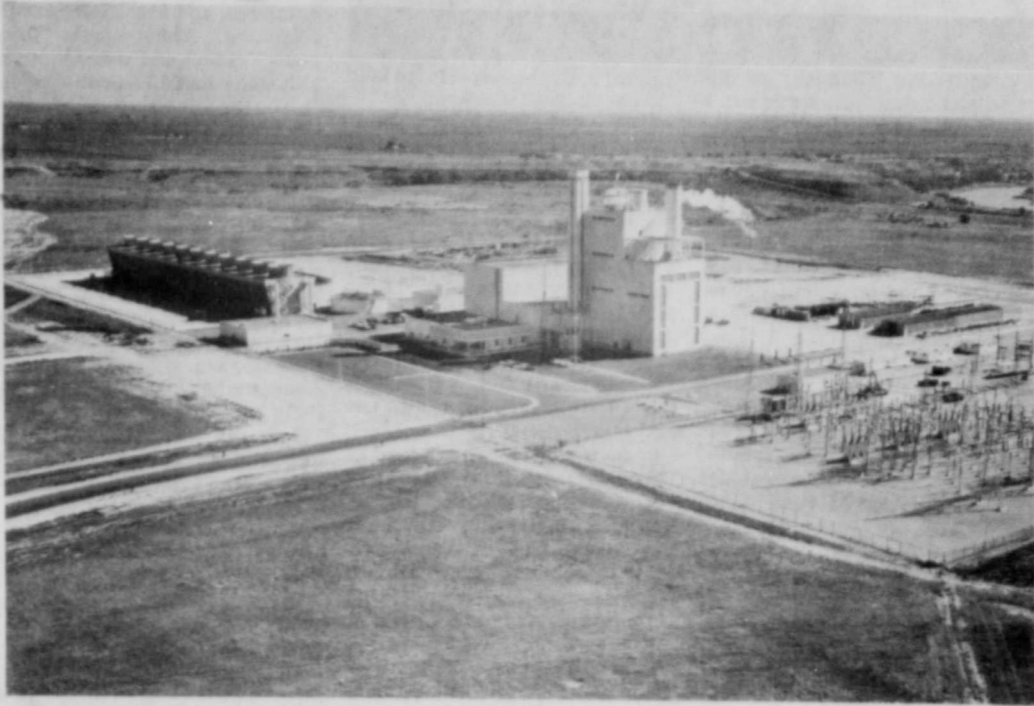

When the second unit does go on the line three years from now, Jones Station will be the largest of the 11 major generating stations on the Southwestern system.

The turbine control system at the new station is the first of its type in the world. The result of cooperation in research and development between Westinghouse Electric Corporation, the manufacturer of the turbine, and Southwestern, the system utilizes a digital computer and data recording devices to bring the turbine on the line and control it while in operation. Peter G. Botsonis, a supervisory engineer for Southwestern and a 1958 Texas Tech graduate, played a major role in the development of the control system.

The new facility uses treated sewage effluent, purchased from the City of Lubbock, as its cooling water. In addition, it has equipment which makes it possible to use sewage effluent for the boiler water for test periods of operation.

The sewage effluent is also used for irrigation purposes after it has left the plant system.

The use of the reclaimed water at Jones Station and at

AN AERIAL VIEW of Southwestern Public Service Company's Jones Station, southeast of Lubbock. Named for Dr. Clifford B. Jones, president-emeritus of Texas Tech and a Southwestern director for more than a quarter-century, the new plant will be dedicated at 11 a.m. Saturday, Nov. 6. It will be open to visitors from 11 until 7 on Saturday and from 1 until 7 Sunday, Nov. 7.

Nichols Station on the North Plains results in a daily saving of fresh water which is sufficient to meet the needs of a city of 25,000 people.

The generating capability of Jones Station will be controlled by an automatic dispatching system, which regulates the production of all of Southwestern's major generation facilities.

The automatic dispatching system knows which generators do their work the most efficiently when everything, particularly the cost of fuel, is taken into consideration. So, the ADS loads up those generators which are most efficient first, and conversely, takes the load off those machines which are least efficient first. The result is that, under any given conditions of electric load—maximum average—minimum—the electric company is working to provide its customers with the most efficient—and economical—electricity that it can produce.

The plant has a central information system which takes nearly 500 different readings every minute, records them and

calculates their meaning insofar as the plant's efficiency is concerned.

Jones station is located on a 320 acre tract which was formerly part of the V-8 Ranch. It has been under construction for about 36 months and has provided more than \$5,000,000 in payroll and local purchases for the area economy.

While it isn't something you could put together with a "do-it-yourself" kit, the plant is, in fact, a home-made product. The design, engineering and construction supervision was done by Southwestern Public Service Company's own engineering department, under the direction of H. O. Hodson and E. W. Robinson, vice presidents.

Missouri Valley Constructors, Inc., of Amarillo, was
