Strong Winds Whip Fires North Of Floydada

A field located about two miles north of Floydada on the Lockney highway broke into a blowing fire yesterday morning as burrs that had been spread on it became ignited. A strong westerly wind whipped the smoke across the highway, causing minor accidents, and finally igniting cross ties on the railroad track. Simultaneously another field covered with cotton burrs broke out just west of the Floydada cemetery on the Silverton highway and the Floydada Volunteer Fire Department worked from about ten in the morning until after lunch controlling the fires. The Texas Highway Department, tractors and plows from Case Power and Equipment Company here worked in the burning field to stop the blowing burning burrs. Highway patrolman Freddie Cockrell reported three minor accidents in the west lane of the Lockney highway as two cattle trucks, two pickups and a car were involved. No estimate of damages to the vehicles were made, one woman sustained facial injuries. Due to the fact the vehicles were moving slowly through the smoke, damages were not extensive. City policemen and highway patrolmen stopped traffic through the smoke area for over an hour.

SHORT COTTON CROP

Bank Deposits Down A Little

Bank deposits were off slightly in Floyd County's two First National banks, according to the state bank call on December 31, 1971. Clay Henry of the Floydada bank said that the short cotton crop was possibly the biggest reason for the decline. Floyd County farmers are possibly harvesting one of the poorest crops in twenty years. The loan picture was brighter with loans down at the Floydada bank, up a little at Lockney. The December bank call of 1970 showed the Floydada bank with deposits of \$13,257,813.31. The bank call of December 31, 1971 showed a slight decline of \$13,105,990.84. The Floydada bank's loans were down from last year's \$4,500,835.23 to this year's \$4,322,313.08. Lockney's First National Bank was down in deposits from \$8,873,592.33 to \$8,409,571.66. It was up in loans from \$2,578,601.70 to \$2,679,047.53. A complete record of the bank call will be published for the Floydada bank in next week's Hesperian.

TICKETS TO C of C BANQUET... are available from Chamber of Commerce board members, at the Chamber office, or by calling Jake Webb at Southwestern Public Service or Alton Higginbotham at Lighthouse Electric. The annual banquet is scheduled for Thursday, February 10, in the Duncan Elementary School Cafeteria here. Speaker for the event will be Alsie H. Carleton, Bishop of the Northwest Texas and New Mexico area. (Staff Photo)

Attendance Good At Paving Hearing

There were several people present at the city's paving hearing and council meeting Friday night. The hearing concerned paving three blocks of Jeffie Street and one block of Hallie.

Presented could not afford the approximately \$400 paving cost and also did not want it. Another questioned the width of the paving at 40' on Jeffie Street. City Manager Bill Feuerbacher replied that there was a total of 60' right-of-way, ample for the 40' of paving. Attorney George Miller explained to the group present that the city would cooperate with the cost of the paving on a five year pay out plan. Mayor Jimmy Seay said that the council could understand the situation of persons who could not afford the paving, but must for the good of the majority approve the paving plan. After the hearing the council approved paving of two blocks of paving on Jeffie and one block on Hallie, plus approximately 37 blocks of seal coating paving repair work in the city limits. The council declined to approve paving for Jeffie Street between Main and Wall after persons meeting with the council stated that they were bearing most of the cost and did not want the paving, which did not go in front of their property, but went down the side of their property.

Caprock Chat

BY WENDELL TOOLEY

I HAVEN'T WRITTEN an editorial about the dump ground controversy, although I live in the country and have no place to dump my garbage. However, in looking back in the files of The Hesperian, no less than nine stories (most of them front page) have been written concerning the city's increased dump ground size that led to the locking of the gates to country people. Several points should be emphasized at this time for the people who still maintain they don't know the situation: It is not fair to pressure Floydada merchants over the situation. They had nothing to do with the locking of the gate. The city has spent over \$40,000 buying equipment to meet state and federal anti-pollution laws, they have bought land, they have the expense of hiring people to run the machine to pits, to cover the garbage instead of burning it. They pay a lot to work at the garbage grounds six days a week. The city council has no animosity for people who live out of the city limits. In fact they appreciate their friendship and loyalty, their being a part of the Floydada community, and most of all, want their loyalty. However, the city council is operating one of the tightest budgets we know. They have got to cut costs wherever possible. They are looking at a tremendous amount when the Mackenzie dam will be built. Only people who live in the city limits will bear this cost. On the other hand, I don't think we country people expect the people to pay dump ground costs for us. The city asked the commissioners court for what it considers a reasonable amount of help in maintaining the dump grounds on behalf of the country people, \$5,000 per year. The commissioners court on the other hand is trying to stay within a budget. Their budget comes from both town and country people. They have voted that \$5,000 per year is too expensive, and have indicated they believe they can maintain several dump grounds over the county cheaper than they can \$5,000 to the city. They, of course, offered to continue purchasing equipment to dig the city's pits as they have in the past. However, the city does not need this service, since it has to buy equipment to meet state and federal "cover up garbage" laws. Lockney people have no problem like this because they use the use of a dump ground partially maintained by the county and the size of their town does not bring it under the new anti-pollution laws. It is quite possible within the next year or two that county dump grounds will come under the same state and federal laws. The commissioners court voted on the \$5,000 request. Two members of the court voted to give the city \$2,000 per year, and members voted to give the city \$1500. The county judge submitted a letter to the city explaining the vote as a counter offer, has the privilege of breaking the tie and confirming either \$2,000 or \$1500 to the city on the counter offer. The city felt that it must have a minimum of \$5,000 from the county to help defray the dump ground costs. The Hesperian hopes that the above facts of information will enlighten the people who don't understand the situation. The Hesperian does not have the answer to the problem. The answer lies in the leadership of the city council and the commissioners court, who have been duly elected by the people.

Buddys Parking Off Limits After Hours

According to a report from Forrest Shannon, manager of Buddy's Food, his parking lot is no longer available after business hours. The food store, which is located on the "Floydada drag" has been the victim of many incidents in the past, and for that reason parking after 8:30 p.m. will be prohibited, according to Shannon. Shannon told a Hesperian reporter parking was being discontinued due to the following incidents: 1. The destruction of panels on the can coke machine, two times. 2. Forcible entry into coke machine. 3. Profanities written on stamp signs, self service gas signs, and rear doors of store. 4. Attempted entry into back door by force. 5. Entry by force into newspaper racks, undetermined amount of money taken. 6. Daily removal required by Buddy's employees of liquor, beer cans and bottles, and several unmentionables from the parking lot.

School Board Renews Superintendent's Contract

The Floydada school board renewed the contract of superintendent A. E. Baker through the school year of 1973-74. The board approved an overnight trip for the Whirlwind band to Lubbock on March 10. Only cost to the school district would be supplying bus for the trip. All board members were present except Betty Holmes.

School's Out May 19

The Hesperian would like to keep everyone informed on the Floydada school schedule and school will dismiss on Friday, May 19. Easter holidays are set for March 30-31, April 1 and 2. Easter is Sunday, April 2. March 10 is the end of third nine weeks period of study.

37,603
Bales Ginned

With an estimated 80% of the 1971-1972 cotton crop ginned, Floyd County farmers were rapidly winding up the harvest this week before another cold front blasts through the area. Tuesday, Bob Hambright of the Texas Employment Commission office here made a gin by gin count of every gin in the county and reported a total of 37,603 bales weighed across the scales. A cotton crop that looked like 85,000 bales going into September, now looks more like 45,000 bales. Of course the price hit a 31¢ figure that no one thought would ever be seen again. The old factor of supply and demand has finally come back to the crop that for 20 years was Floyd County's No. 1 money crop. alvin Jarboe was re-elected County Committeeman-at-large for Floyd County. County Commissioners elected were Connie Bearden, replacing M. J. McNeill in Precinct 1, and M. M. (Jack) Smitherman, replacing M. M. Julian in Precinct 3.

March Of Dimes Sponsors Sale Of Watercolors, Oils

Paintings by Felicia Applewhite, a Floyd County artist and a polio victim, will be on display at the Floydada Post Office through January 28. The pictures will be sold to the highest bidder, all proceeds going to the Floydada March of Dimes. Some of the paintings are watercolors, some are oils. A bidding chart will be kept by the pictures to show the amount of the bids. A progressive bidding method will be used. All bids must be raised by one dollar. The public is invited to see the pictures by Miss Applewhite, who has been painting since she was in high school at Lockney. She minored in art at Baylor University and has studied in workshops with Dr. Caballero from Canyon, and Connie Watson at Lubbock, and others. Ted Bell, a local watercolor artist well known throughout Texas, has donated a painting to be included in the bidding. All proceeds will go to the MOD to prevent birth defects. Last year's sale of Miss Applewhite's paintings brought \$184 for the March.

HAPPY NEW YEAR PIGS! What do you say about a two-year-old sow who had decuplets? Randy Spurlock says "I thought it was gonna be 12." Miss Polka Dot, Randy's sow, gave birth to ten little piggies on New Year's Day. Randy, four-year-old son of Mr. and Mrs. James Spurlock, was expecting a dozen "little Polies," he told the Hesperian photographer last week when he posed for a picture with Miss Polka Dot's family. Randy feeds the pig himself (with a little help from Dad) - has been since he got her about a year ago. (Staff Photo)

PAINTINGS DONATED TO MARCH OF DIMES... The sale of paintings by Floyd County artist Felicia Applewhite was so successful for the March of Dimes campaign last year that the auction-type sale is being repeated this year. Mrs. Sharon Hutchins, left, General Chairman for the Floydada March of Dimes, and Mrs. Julie Cathey, Mothers' March chairman, display some of the paintings donated to the March by Miss Applewhite, a polio victim. The paintings are on display at the Floydada Post Office and will be bid on through January 28. (Staff Photo)

Miss Wendy Ann Bertrand Is Bride Of Mark Montandon

Miss Wendy Ann Bertrand became the bride of Robert Mark Montandon in a double ring ceremony read in the First Methodist Church in Floydada Saturday, January 8. Given in marriage by her father, the bride wore a floor length gown of illusion silk bombazine and lace. The fitted bodice was accented by a scalloped neckline and long tapering sleeves ending at petal points at the hand and caught with self buttons. The bouffant skirt, highlighted by lace appliques, fell into a three-tiered chapel train. Her veil of illusion fell waist length from a crown of pearls and sequins.

MRS. J. WIATT WARREN

Baptist Church Scene Of Double Ring Vows For Miss Patsy Zgabay And Wiatt Warren

Double-ring wedding vows were exchanged in the First Baptist Church in Floydada Saturday evening January 8 by Miss Patsy Zgabay and James Wiatt Warren. Dr. Floyd C. Bradley read the ceremony at 7 o'clock p.m. The bride is the daughter of Mr. and Mrs. C. E. Leatherman of Floydada and the bridegroom is the son of Mr. and Mrs. J. W. "Wink" Warren of Lubbock. Baskets of white glads and lilac color pompons formed the wedding scene. The background was complemented by candelabra and commodore palms. A profile kneeling bench and bridal rope completed the setting.

Mrs. Bob Copeland was organist and accompanied Sharon Hutchins as she sang, "One Hand, One Heart," and "The Wedding Prayer."

The bride, given in marriage by her father, wore a formal length gown of white satin fashioned with a high Victorian neckline of Venise lace. The long bishop sleeves ended in wide cuffs and were edged in matching lace. A sheer yolk front and back of the empire bodice was outlined in Venise lace and the A-line skirt extended into a full chapel length train. Lace motifs accented the skirt which was bordered with a double row of Venise lace.

Her bridal veil of illusion, fell elbow length, from a headband of flowers. She carried a bouquet formed with an orchid, surrounded by white and lilac pompons.

For something old the bride wore a brooch belonging to the groom's late grandmother; something borrowed was a ring belonging to the maid of honor. She wore the traditional blue wedding garter and something new was her wedding attire.

Miss Jan Allison of Bridgeport was maid of honor. Bridesmaids were Kathy Wright of Munday and Terri Warren, Lubbock, sister of the groom. Angie Anderson, Floydada, cousin of the bride, was flower girl and Michael Leatherman, Floydada, brother of the bride, was ring bearer. Bridal attendants were dressed identically in fashions of lavender and purple velvet. They wore ribbon and flower headpieces and carried cascades of white pompons touched with lilac and purple.

The groom's father served as his best man. Ushers were

Steve Warren, Lubbock; Ricky Young of Goldsboro, for cousins of the groom. For the reception at the church, the serving table was covered with a purple and white floral pattern. The etched glass centerpieces, flanked by the attendants, graced the center of the tables. After a brief wedding and couple has taken their vows, Mrs. Warren is a graduate of North Texas State University where her husband is a junior student.

MRS. RICKY LEE HARRIS
(former Cerita Crutchfield)

Candlelight Ceremony Read January 2 For Miss Crutchfield And Ricky Lee Harris

The sanctuary of the First Lutheran Church was the setting for the candlelight wedding ceremony of Miss Cerita Ann Crutchfield and Ricky Lee Harris, Sunday, January 2. Steve Bracken, minister of the City Park church of Christ, performed the twin ring ceremony at 2 o'clock p.m.

The bride is the daughter of Mr. and Mrs. Crutchfield of Floydada. The groom is the son of Mr. and Mrs. Johnnie Harris of Plainview.

A brass tiered candelabra is an arrangement of large wax tapers and orchid tinted ribbons, formed the nuptial arch. Palms of commodore and orchid bows marked family pews.

Mr. Bill Hardin, organist, led the selection, "More Than a Mother's Love," as the parents of the couple were escorted into the church. He also played "Whither Thou Goest" as Judy Jameson gave the reading "How Do I Love My Wife."

The bride wore a formal gown of sheer silk over satin, accented with lace and beads, which also complemented the cuffs of the full sleeves. A floor length veil fell from the shoulders of the gown and her waist length train of illusion was attached to the flat bow trimmed with beads and bows. She carried a bouquet of white carnations and rose buds accented by white satin streamers.

After something old and something new she carried a handkerchief belonging to her aunt, and Mrs. Sallie Shipman of Paris, Texas. She wore a brooch belonging to her late mother, and pennies in each of her shoes, bearing the birth date of both the bride and groom.

Miss Sherry Crutchfield of

Hobbs, New Mexico, sister of the bride, was maid of honor. She wore a floor length dress of lavender and purple crepe, fashioned with a Victorian collar and long sleeves. Her brief veil of purple fell from a flower headpiece of matching color, and she carried a cascade bouquet of white small mums accented by lavender maine and streamers.

Don Elgin of Cleveland, Tennessee, brother of the groom, was best man. Ushers were Johnny Stringer of Plainview and Nick Harris of Plainview, also a brother of the groom.

Mrs. Greg Boggs of Lubbock, registered wedding guests, which included grandparents of the couple, Mr. and Mrs. Tom Hopper of Floydada and Mr. and Mrs. Aubrey Brock of Bovina.

Following the wedding, a reception honoring the couple, was held in Fellowship Hall of the church. The bridal table was covered with a white net cloth trimmed in pearls and beads, made by Mrs. Sallie Shipman. A candelabra and

bouquets of the bride and her attendants formed the centerpiece. Crystal and silver appointments were used in serving wedding cake and punch.

At the table were Misses: Johnnie Thurston, Lori Daniel, and Judy Jameson. Shirley Coleman assisted.

For travel to Santa Fe, New Mexico, the bride changed to a brown knit dress with matching accessories, and the corsage from her wedding bouquet.

Mr. and Mrs. Harris are residing on Route 1 in Lubbock.

The bride is a 1970 graduate of Floydada High School and attended Texas Tech. Her husband, a graduate of Plainview High School, attends Texas Tech and is employed by TXN&O Coaches as an accountant.

THE Claude Rings will observe fifty years of marriage tomorrow, Jan. 14. Their children are planning to be here for a family celebration to be held in Quanah Saturday where the couple was reared and where most of Mrs. Ring's brothers and sisters still live. Think the Rings have lived in the Dougherty area all but about two years of their married life. Their children are Sue Bain of Los Angeles, Calif.; Helen Womack of Dallas; Hubert Ring of Muncy, Ind., and Kenneth of Floydada.

MRS. Pearl Fagan writes Floydada friends she really enjoyed a wonderful Christmas gift from grandson, Larry. A trip to Portugal. She spent three days in Madrid, Spain and six days in the Mallorca Islands while on the trip. Mrs. Fagan continues to make her home with Larry in Omaha, Neb.

A certain well known guy used to phone acquaintances a few weeks before Christmas and ask, "What size collar do you wear?" This hint brought him much valuable "holiday loot" from people who had planned to only send him a greeting card. On Christmas those he called would receive plain cards from the guy, saying, "To Joe, the greatest guy who ever put his head in a size 15 collar."

V. D. AND Valree Turner's children got them an automatic eye garage door opener for Christmas and one of the boys asked their father the other day how the doors were working. He replied, "Great. When they see your mother driving up they fly open in holy terror!"

WON'T be long before our daily living will be filled with campaign speeches. Recently a candidate, completing a talk, looked out over his audience and confidently asked, "Are there any questions?" "Yes," came a voice from the back "Who else is running?"

TEN years ago in Floydada in the month of January the Wagon Wheel Western Wear was heavily damaged by fire, the new ASC office held open house on Missouri St.; Ricky and David Holland, Lon and Ralph Johnston Jr. received their God and Country Scout Awards; Sue Foster, Veda Thayer, Janice McNeill, Linda Willson and Marilyn McLain received their First Class Badges in Girl Scouts; United Transport drivers and their families were

Parents of the bride are Mr. and Mrs. C. W. Denison of 1006 E. Repetto in Brownfield. She is the granddaughter of Mr. and Mrs. Carl Denison of Floydada. The bridegroom is the son of Mr. and Mrs. Rayford Baldwin of Abilene.

Branched candelabras holding votive candles and entwined with greenery back of the altar formed the setting for the nuptial vows. White pedestals, green swags and votive lights graced the front altar rails and votive candles and silver bows accented the pews.

Presented in marriage by her father, the bride wore a full length white all-over lace gown. The high waisted dress featured a band of white crepe at the waist ending in a flat bow at the back. Covered buttons graced the front of the dress to the waist. Full sleeves were gathered to wide cuffs edged in lace and the high-neck-

The bed was on fire from a short in the electric blanket; an ice storm hits the county causing rural electrical service and telephones to go on the blink and the death of Glad Snodgrass, Floydada ex-mayor and a pillar in the business community a half century, is reported.

FLOYD PHILOSOPHER

Comes Up Against A Hard Problem In Keeping Everything Like It Is

Editor's note: The Floyd Philosopher on his Johnson grass farm may get the ecologists in after him but that's his problem, not ours.

Dear editor:

I have long felt that whooping cranes, like farmers and space scientists, ought to be preserved if possible, but lately I've begun to wonder how far man ought to go in trying to keep all endangered species alive.

For example, I read an article in a newspaper last night that reported wildlife biologists were disheartened because their efforts to raise black-footed ferrets in captivity so they could later be released were failing. The only four captured females in this branch of the weasel family died and the scientists aren't sure any more are living in the natural habitat which used to stretch from Texas to Canada.

That's too bad, I said at first, although frankly up to that point I didn't know there was such an animal as a black-footed ferret, although I know if you let an ecologist know that something is about to become extinct the fire of battle lights up in his eyes and he jumps into the fray. Wonder what they'd do if they heard the mosquito was becoming an endangered species?

But I read further in the article and found out the black-footed ferret, if he's still around, lives in prairie dog burrows and rarely shows itself during daylight, "preferring to stalk sleeping prairie dogs under cover of darkness."

Well, maybe ecologists want to preserve the ferrets but I have a notion the prairie dogs wouldn't be interested in that program at all.

Furthermore, say the scientists do capture some more of the rare weasels and produce enough to turn loose again. How long would it be before the prairie dog became an endangered species? This of course would call for a program to capture prairie dogs, nurture them while they multiplied, and turn them loose, meanwhile keeping a close count on the ferrets who may have been thinning out pretty fast what with no prairie dogs to slip up on in the night. The thing could go on forever. There'd never be any unemployment among

ecologists. There are times maybe when we should just leave things alone, letting prairie dogs, ferrets and other nations work their way out of their own problems.

Yours faithfully,
J.A.

THINGS ARE SHAPING up quite normally in Bangladesh. A couple of weeks ago, they said over there they'd accept no aid from the U.S., no matter what.

Now, though, they've generously softened up some toward us. This should be a point of great rejoicing among our international uplifters.

The Bangladeshers, or whatever, now say they will accept American charity - but it must be only that of their own choosing.

They will, they say, look very carefully at any U.S. proffers of aid before accepting it.

Very noble - and since there seems to be some "ethics" involved, why not leave it up to India to uplift Bangladesh?

After all, Bangladesh is India's baby - and India says it's a Big Boy now.

WELL, WE WOUND up batting 1000 on our political forecasts of Smith to seek re-election as governor and Yarborough for U.S. Senator.

I have no forecasts to make about who will represent the Democratic party for President of the U.S.A.

I doubt that President Nixon has endeared himself to Texas people, by supporting the Miami Dolphins against the Dallas Cowboys in the Super Bowl Sunday.

THE PIONEER NATURAL GAS folk were by my office for a visit last week and expressed their appreciation to the people of Floydada for bearing with them when the gas went off last week.

I believe they said they had every gas connection in Floydada back "in flame" by nightfall of the morning the trouble developed.

THERE'S A LOT of activity across the alley behind The Hesperian as Jimmy Willson begins expansion of Builders Mart... should be doubled in size when he gets through. We'll have more on this later.

LIKE I BEEN saying all along... Floyd County is just full of "well traveled" people. I was at a dinner the other night and observed that the couple on my left, Mr. and Mrs. Francis Montandon has been to Africa recently. The couple on my right was Mr. and Mrs. Bob Glover, former minister of Lockney Church of Christ... he had been in Moscow, Russia recently.

I further learned that Kit Martin and Rodney Reynolds of Africa first met in the Montandon home in Lockney.

Well... you just never know.

The country editor was confronted by a fierce-looking man who shouted, "That report of my death in your paper was a lie, sir, and I'll horsewhip you publicly if you don't apologize in your next issue."

When the next edition appeared it contained the following item: "We regret very much that the notice of Col. Burley's death that appeared in our last issue was not true."

FROM THE EUNCE (Louisiana) News: "Great minds discuss ideas; normal minds discuss events; small minds discuss persons. And until they shake down into classifications, all discussions dwell on the possibility of rain tomorrow."

A LITTLE GIRL from Harlingen was on a visit in Chicago, and she awakened one morning to see it snowing for the first time. "Oh, mother, what is that?" she cried excitedly. "Why, that's snow dear," responded mother. "What did you think it was?" "Snow!" marveled the child. "Gee, it looks like popped rain!"

CHINESE PROVERB: "Do not use a hatchet to remove a fly from your friend's forehead."

IT WOULD BE nice to live in the kind of world in which Bob Hope could spend Christmas at home.

TWO BOY SCOUTS were on a hike. One said to the other: "Speaking for myself, I'm trustworthy, loyal, courteous, kind, obedient, cheerful, thrifty, brave, clean - and lost!"

"TAKE FIVE"

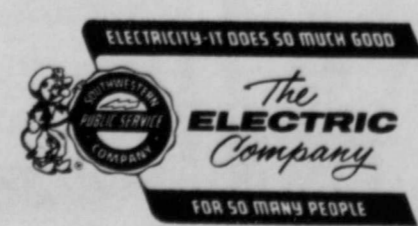

"Take Five" to millions of military veterans means to take time off to rest.

To us, "take five" means detailed work and planning for the next five years.

We'll be investing more than \$144 million in power plant capacity and the lines and equipment needed to get an adequate supply of electricity to you. Electricity that will be needed for sewage and water treatment, disposal of wastes and for other environmental "clean-ups". Electricity, the cleanest of all energies at the point of consumption, is being depended upon as the means for effectively and efficiently cleaning up our environment.

And, adequate electricity will be needed just for the normal growth of people, their industries, their jobs, their resources - nothing frivolous, mind you - just normal, everyday solid growth.

Yes, through 1976, we'll be taking five - doing the worrying - so you won't have to... so when you want electric power it'll be there at the flick of a switch.

Scabies Quarantine

Inspectors Aid Cattlemen

Indsey N. Lackey, a livestock inspector with the Animal and Plant Service at Floydada, Texas has completed a training course in cattle scabies identification. Lackey will be working in Floyd County, Texas to help cattlemen move their livestock to market during the current cattle scabies quarantine.

The quarantine is aimed at stopping the worst cattle scabies break to hit the nation since 1919. The eradication effort is being handled by specially trained men because the mites that cause cattle scab are hard to spot. The mites are often spread by lice. Lackey and the other inspectors in the quarantine area are helping cattlemen identify infected animals and clean them of mites. If every head of infected and exposed cattle in the quarantine area is inspected and the affected animal is properly dipped for scabies the quarantine can be lifted.

NEWS FOR HOMEMAKERS

by Billie Vahlenkamp
Floyd County H.D. Agent

PORK IN YOUR DIET

Plenty of Pork is good news. Pork offers tasty eating, variety in cooking, high protein and rich source of Thiamin (Vitamin B-1) plus other B vitamins and Iron.

Even calories watchers can include pork in their meals. A three-ounce serving of roasted fresh Boston butt with the fat trimmed off has about 205 calories. A three-ounce serving of lean fat-trimmed ham contains about 160 calories.

When selecting pork the cut should be purchased for a specific dish and should be suited to the method of preparation. Often several cuts can be used for one recipe. Because of changes in supply and demand, one cut might be the best one time and another the best time.

It is usually wise to buy large rather than small cuts of meat for proper care and use can be made of all the meat. The cost of pork serving is usually less if a large piece is large enough for a second or sometimes third serving. Meat which contains a large amount of bone, gristle and fat has a high percentage of waste and may be more expensive per serving than other cuts, even though the cut is larger in price per pound.

When selecting pork cuts, remember that ribs and loins and pork roasts or chops have a higher proportion of bone than center cut roasts or chops. The end cut usually sells

for less money per pound. Country style spareribs are meatier than regular bony spareribs and usually cost less per serving. You get three servings per pound from country style spareribs as compared to one serving from regular spareribs.

"Water added" to ham means that 10 percent moisture was added after the meat was cured and processed.

The Boston butt, a square piece of meat from the upper part of the shoulder leads all other pork cuts in its percentage of lean meat. It contains 84 percent lean while ham is 63 percent and loins are 67 percent lean meat.

A shank or butt half of ham has no center cut slices removed while a shank or butt end does. The butt part of the ham has a higher proportion of lean meat than the shank part and usually sells for a little more than the shank.

Pork picnics are cut from the lower shoulder and the front leg of the porker. They have 61 percent lean. Picnics are sold fresh or smoked with the bone in or boneless. Research has shown that all fresh pork cuts need to be cooked only to 170 degrees F maximum internal temperature rather than the previously recommended 185 degrees F. Lower internal cooking temperature means less cooking time, less shrinkage, less spattering and juicy, more flavorful meat. Roast pork in a 325 degree F oven.

Cattle Film Available

A 25-minute film produced by the Texas Cattle Feeders Association, entitled "A Day With the Cattle Feeder," is available for use by civic, agricultural and other groups for programs, according to Dr. Robert C. Albin, professor of animal science at Texas Tech University.

"Texas Tech has been presented with a copy of the film to be made available to groups who are interested in feedlot operations," Dr. Albin said. The film is in color with sound and is particularly appropriate for all kinds of youth and adult clubs interested in agriculture and livestock production, he said.

Groups wishing to schedule the film are invited to write Dr. Robert C. Albin, Department of Animal Science, P.O. Box 4249, Texas Tech Station, Lubbock, Texas 79409.

ARE WE GETTING ANYWHERE?

"Are we getting anywhere against cancer?" That's the question most often asked of the American Cancer Society. The answer is a very definite "yes". And here's why.

The earlier you find cancer, the better your chances of cure. In the 1940's, if colon-rectum cancer was treated early before it had spread, 51% of the patients were saved - only about one half. Today this figure has risen to 69% - more than two thirds. Among lung cancer patients, early treatment before the cancer

had spread lead to only 12% survival. Now it is 29% - an improvement, yes. But we have an even better weapon against lung cancer - not smoking cigarettes.

Uterine cancer patients were saved in 68% of the cases when treated while the cancer was localized. That was in the forties. Today the figure is 81% and could be close to 100% if every woman had a Pap test and was treated promptly and properly.

Yes, we are getting somewhere. Longer life with earlier detection and prompt treatment. That's the word from your American Cancer Society. Support the Society so they can spread the word.

COUNTY AGENT'S CORNER

By Doyle Warren

Futures Trading will be thoroughly examined as a marketing tool for producers, grain elevator managers, feedlot managers and feed manufacturers on Thursday, January 20, 1972 at the Community Center in Hereford, Texas, according to Doyle Warren, County Agent.

"Although futures trading is not new," points out Warren, "Futures contracts on feeder cattle and the added grain sorghum futures contract provide hedging opportunities for different segments of the grain and livestock industries, particularly in the High Plains."

Dr. Mark Powers, vice president, Chicago Mercantile Exchange, will kick off the program, speaking on "Futures Markets: Their Operation and Function". "Trading Mechanics and Techniques" will be discussed by Jim Stark, Commodity Specialist, Regional Commodity Office of Merrill, Lynch, Peirce, Fenner & Smith, Dallas. Extension Marketing Specialist from Texas A&M University, John J. Seibert, will talk on "Futures - Cash Market Price Relationships".

"Understanding and Computing Basis" will be handled by Dr. Donald E. Farris, Professor, Livestock Marketing, Agricultural Economics and Rural Sociology Department, Texas A&M University, along with Seibert. Jim Lepene, manager for Grain Purchasing, Ralston Purina, St. Louis, will discuss "Shifting Some Risk of Price Change to Others Through Futures Trading."

The program will conclude with a local panel telling "How I Use the Futures Market," according to Warren.

Programs with registration forms will soon be available through Warren's office.

Japanese, Italian, German, Spanish, or other foreign languages, the spokesman said.

Many people, though, can save a visit to a social security office or contact station simply by calling the nearest office and taking advantage of "Teleservice." "If you want to file an application, for example, we often can take the information over the phone, fill out the appropriate forms, and mail them to you for your signature," he said.

Extended Unemployment Benefits Triggered Nationwide

U.S. Secretary of Labor J. D. Hodgson has notified the Texas Employment Commission that the national trigger for extended unemployment benefits will be in effect beginning January 2, 1972. The first date on which a claim for extended benefits can be filed in Texas is January 10, and claims filed through January 21 may be backdated to January 10. Claims filed after January 21 will not be backdated.

"The extended benefits become payable to individuals as a result of amendments to state and federal law and are payable only to claimants who have exhausted their regular benefits," says R. L. Coffman, TEC Administrator.

A claimant for extended benefits may receive as much as 50 percent of his total regular unemployment benefits, payable at the same weekly rate as his regular benefits. To be eligible for extended benefits,

a claimant must not have entitlement to regular benefits in any state or territory; must have a benefit year that ends on or after January 2; must file for extended benefits covering weeks subsequent to January 2, 1972; and must be totally or partially unemployed. He must also meet the conditions required to draw regular unemployment benefits, such as filing a claim, being able to and available for work, and actively seeking work.

Claimants must file with the Texas Employment Commission for extended benefits in the same manner they file for regular benefits.

The cost of extended benefits will be shared on a 50-50 basis from the state unemployment insurance trust fund and the federal government.

As required by federal law, the extended benefits program was incorporated in the Texas Unemployment Compensation Act by the 62nd Legislature.

TAILORED SOCIAL SECURITY SERVICE INCLUDES 'CIRCUIT-RIDING' REPS

"Circuit-riding" field representatives, expanded telephone service, foreign language translators, and new branch offices in the inner cities and suburbs are all part of the new "tailored service" provided by social security, according to social security officials here.

Tailored service can help you in a variety of ways with almost any business you may have with social security," a spokesman said.

Social security "business" now range from applying for benefits to changing an address to simply asking questions involving the re-

tirement, disability, survivors, or Medicare programs.

The "circuit riders" are social security representatives who make regular service rounds to smaller communities, the spokesman said.

Notice of their scheduled stops at these contact stations is submitted in advance to newspapers.

In areas where foreign languages are commonly used, social security office staffs often include translators and other multi-lingual personnel.

In some areas, there are social security staff members who speak Chinese,

Japanese, Italian, German, Spanish, or other foreign languages, the spokesman said.

Many people, though, can save a visit to a social security office or contact station simply by calling the nearest office and taking advantage of "Teleservice."

"If you want to file an application, for example, we often can take the information over the phone, fill out the appropriate forms, and mail them to you for your signature," he said.

The Key To Living Is Giving!

A very favorite story of mine is about TWO SEAS in PAL-ESTINE -
One is a sparkling sapphire jewel,
Its waters are clean and clear and cool,
Along its shores the children play
And travelers seek it on their way,
And nature gives so lavishly
Her choicest gems to the Galilee.
But on to the south the Jordan flows
Into a sea where nothing grows,
No splash of fish, no singing bird,
No children's laughter is ever heard,
The air hangs heavy all

around
And nature shuns this barren ground.
Both seas receive the Jordan's flow,
The water is just the same,
We know,
But one of the seas, like liquid sun,
Can warm the hearts of everyone,
While farther south another sea
Is dead and dark and miserly -
It takes each drop the Jordan brings
And to each drop it fiercely clings.
It hoards and holds the Jordan's waves
Until like shackled, captured slaves

How God Answers

He prayed for strength that he might achieve; He was made weak that he might obey. He prayed for wealth that he might do greater things; He was given infirmity that he might do better things. He prayed for riches that he might be happy; He was given poverty that he might be wise. He prayed for power that he might have the praise of men; He was given infirmity that he might feel the need of God. He prayed for all things that he might enjoy life; He was given life that he might enjoy all things. He had received nothing that he asked for - all that he hoped for; His prayer was answered he was most blessed.

cured of cancer

Eight-year-old Jo Ann Baca of Brighton, Colorado, has every reason to smile at the future. As an infant, she developed Wilms' tumor - a cancer of the kidney. Prompt treatment saved Jo Ann's life. Today, many children are being cured of cancers that once were incurable. To cure more, give more.

An important message for people who prepare their own income tax returns.

Maybe you've been cheating yourself all these years.

Every year, between January and April, millions of people sit down to do battle with Uncle Sam. Some are "self styled" accountants. Others think they can save a few dollars doing it themselves - so why not.

The sad truth is, however, no matter what their reason was for starting, many of them end the same. On the short end.

You see, when it comes to income taxes, amateurs should depend on H&R Block. We have all the facilities to help you make "income tax time" a pleasant experience. To begin with, H&R Block now has over 6,000 conveniently located offices manned by thousands of specially trained personnel who are anxious to help you. They'll sit you down over a free cup of coffee and show you some things about your income tax that you might never have known existed. For example, do you know

all about deductions for child care and casualty losses? And maybe you are aware that if your income increased last year, you may be able to save tax dollars by "income averaging."

Well, when it comes to income taxes, H&R Block is aware of just about everything because we're a company that eats, sleeps, and dreams tax returns 365 days a year.

Yes, maybe you can save a couple of bucks doing your own returns, but it really may be costing you a lot more by not having your return done by H&R Block.

DON'T LET AN AMATEUR DO H&R BLOCK'S JOB.

H&R Block.
The income tax people.
