Caprock Chat

BY WENDELL TOOLEY

HALF of the Massie Activity board, and the Floydada city I want to express appreciation to Dr. and Mrs. Warfield for the gift of a new piano for the center.

Dr. Poole graduated in the same class with Bishop Alsie as Bishop Carleton was voted "most handsome". Dr. Poole was honor boy salutatorian of the class.

It seems that when Dr. Poole's parents, Bill and Ann were up the Caprock in a wagon from Hall County, Dr. Poole, said he was very much scared that the wagon would roll Caprock . . . the road or trail was steep and rocky. In his report about the trip up the Caprock tells that Warren didn't get up . . . "we're gonna have bad luck. . . because we moved the broom!"

CENTRAL CROSS - Astronomy buffs over the South Plains are in an uncommon arrangement of celestial bodies which will be seen at the Easter season tonight. At about 7:30 p.m. the planets, Mars and Saturn will be in a compact grouping with the bright star Aldebaran to form a cross. Skywatchers for the pattern in the western sky without using telescopes.

HESPERIAN expresses its appreciation to Bill Hale (board), Bill Cagle, E. J. Kinslow, Dr. Andrew McCulley (hospital), Wayne Russell, Ricky Burns (city council), for years of service to this community.

We pledge our cooperation with the newly elected persons in their places of service.

SEE NOW . . . how does that "sour grapes story" go? "I didn't want to eat no apricots anyhow!"

OUGH THE YEARS it has always been fun to sit up in bed and admire the beautiful Easter bonnets dotting the nation. However, the number has been getting smaller each year. Sunday, I observed not one hat or bonnet. The still wear very beautiful, colorful dresses, but no Easter bonnets.

ably, the wigs have taken place of the hats, but they surely are colorful. . . at least I don't remember seeing any wig.

MAN HAD been waiting to see the doctor when an elderly man ran out of the doctor's office and went screaming down the street.

"What's wrong?" the man asked the doctor.

"I'd like her she was pregnant," the doctor replied.

"Surely that isn't true, is it?"

"The doctor said, "but it sure cured her hiccups."

MAN ASKED another, "Can a man make a fool of himself knowing it?"

"If he has a wife," the other replied.

ST A REAL FRIEND yesterday with the passing of John J. recall the many projects on which we have worked, the help of prayer breakfasts, rounds of golf and a mutual help Floydada to grow and prosper.

was doing just what he loved to do when the heart attack he had just introduced an industrial team from out of a large luncheon hosted by both the Floydada Lion and clubs.

usual, he had a funny story to tell about Bob Mills of to as he introduced him to the audience.

had just nudged me and said, "Now, John is a good chap, he has just spent the morning showing us all the good about Floydada."

many years that John lived here as a business man, and for manager reflect his love and devotion to the people community.

was a typical grandfather . . . and he had the pictures to community will long cherish his leadership. . . may the less and comfort his family at this time of sorrow.

Retiring Floydada Teachers Have Many Plans For Future

The Hesperian interviewed seven retiring Floydada school teachers this week, expecting perhaps a reminiscing over past experiences, but found instead that these "old" teachers are looking forward instead to a busy future.

EDNA PHILLIPS One of the retiring Floydada teachers, Edna Phillips, has taught for all her teaching career in the Floydada area. She taught 20 years at Cone and 26 years at Floydada after teaching in rural schools in the Campbell, Starkey and Sandhill communities in Floyd County. She now teaches second grade at Duncan Elementary here.

Mrs. Phillips told a Hesper-

ian reporter that she enjoyed, and still enjoys, her years of school teaching and that teaching was her life and what she loved, but that she believes it is time to retire. She had already made the decision to retire this year.

She added that she tried to give "her" children her all during her teaching career, and always tried to build character and patriotism in her students.

She received her BS degree from WTSU and a Master's degree from Texas Tech in 1954. She started teaching in the rural schools at a salary of about \$30-35 a month, which was raised to \$70 a month when the war came along, and later to

\$90 a month. Mrs. Phillips also taught junior boys and girls for some 40 years at the First Baptist Church Sunday School here.

She plans to remain busy after - SEE TEACHERS, PAGE 8

ACS IN THE INNER CITY
 Increasingly, the American Cancer Society is drawing more people of the inner cities into the battle to control cancer. It is among these people that certain cancers strike with increasing frequency.

These special Society programs differ, but the guiding principle of all of them is person-to-person contact—involving the communities themselves in the project.

In Chicago, for example, an interracial "Good Neighbor Corps" of volunteers transports cancer patients for treatment; a "Southside Pap Express" regularly takes women for uterine cancer tests. The city's large Spanish-speaking population is reached through "Casa Central," a cancer education center.

In New York City, the Society plays a cooperative role in organizing "health fairs" along with scores of other health and community groups. Besides Pap tests and breast examinations for cancer, free clinics offer tests for many other diseases as well.

California programs involve and serve Afro-Americans and Mexican-Americans. "People-Made Clinics," made effective by a portable examining room insuring privacy, are held in firehouses, churches, schools, etc.

In Atlanta, the Society has begun to involve residents of the predominantly black communities in Pap test and breast examination programs.

Responding to the needs of the inner city, the American Cancer Society is demonstrating that people will work together when the goal is the conquest of everybody's enemy—cancer.

Pesticide Legislation Discussed

An explanation of current federal pesticide legislation and how it will affect West Texas farmers will keynote a Weed Control Symposium slated for Bushland, April 6.

Dr. Jack Price, Extension leader in agricultural chemicals from Texas A&M University, will give producers the latest information about limitations on the use of pesticides.

The talk is part of a conference on control of perennial weeds that will begin at 1:30 p.m. at the USDA Southwestern Great Plains Research Center, according to Dr. Allen F. Wiese, weed researcher.

"Perennial weeds are becoming worse since herbicide use to control annual weeds has reduced the practice of cultivating," he says.

Girl Scouts To Honor Dads In Annual Event

Saturday night, April 8, is the date for the Father-Daughter Box Supper, an annual event in the program of girl scouting to which dads and daughters alike look forward. To be held in the Duncan Cafeteria, the fun-affair will begin at 7 p.m. Each scout will prepare supper for herself and her dad and bring the supper in a container designated by her troop leader.

Theme for the box supper this year is "Our Heritage - The Six Flags Over Texas", and preparations and planning have been done by Senior Troop 97, with leaders, Mrs. Andrew McCulley and Mrs. LeRoy Burns. Each of the seven troops will decorate tables according to one of the six flags over Texas; the third grade troop will use the Indian theme and legends for their tables. The program will be presented by the troops as, again, they use the six flags to carry out the theme. Senior girls will do much of the narration between acts, tying the program together.

One of the highlights of the evening will be the cookie sales reports, naming the girl scouts who have earned camperships this year, those who have earned champ cookie patches, book marks, and certificates of honor. The neighborhood chairman will present at the supper, the prize given to the girl who is overall high saleswoman, and the prize of ten dollars to the troop averaging the highest number of boxes sold per girl in the troop. All troop members were asked to participate in order for a troop to win this award.

Cadet Girl Scouts will be honored who have completed five years of active girl scouting: Connie Welch, Cheryl Bearden, Judy King, Laura McCulley, Kelli Parson, Brenda Turner, Kathy Green, Ann Campbell, and Tracey Puckett will receive gold five-year pins. Two leaders, Mrs. C. O. Woody and Mrs. Kinder Farris will also receive the pins. Rehearsal for the program will be held at Duncan Cafeteria after school on Friday afternoon, April 7.

Shower Honors Mrs. Tim Assiter

Mrs. Tim Assiter of Canyon, the former Janie Hagood, was honored Friday afternoon with a bridal shower in the Gene Probasco home. Guests called between the hours of 3 and 5 o'clock p.m., and were registered by Kelly Ann Hagood and Darla Assiter.

Mrs. Probasco received guests and presented them to the honoree, her mother, Mrs. Dan Hagood and to Mrs. Tommy Assiter, mother of the bridegroom.

The serving table was covered with a lace cloth over lime green and held a crystal bowl containing a colorful floral spring bouquet. Crystal and silver appointments were used in serving punch and cake.

Floyd County Women Attend THDA Meet

Fourteen members of the Floyd County Home Demonstration Clubs were among 246 persons present at the District 2 THDA meeting in Plainview March 28.

Floyd County Clubs were in charge of a safety workshop during the session. Chester E. Fant, safety officers of the Texas Department of Public Safety, conducted the workshop. During his talk he stated that all persons would be required to take written drivers tests in January, 1973.

Mrs. O. G. Mayfield said the film was very interesting and showed things never realized or told in the U.S. She said the film would be of interest to all people and would be worth showing locally by other clubs and organizations.

During the business session of the meeting Mrs. Elmo Ellis of Plainview was elected District 2 Director over the 17 counties.

Square Dance Festival Set

The Lubbock Area Square and Round Dance Federation will hold its 13th annual festival in Lubbock April 7 and 8 in the Fair Park Coliseum. Request rounds will be from 7:30 to 8 each evening with the grand march beginning at 8 p.m. The Lubbock area square and round dance federation is made up of seventeen square and round dance clubs in Lubbock, Floydada and surrounding towns. They have an outstanding team of callers and round dance instructors booked for the two days of festivities. The calling duties will be shared by Marshall Filippo of Abilene, Texas and Beryl Main of Aurora, Colorado. Marshall Filippo is the host caller each year at Kirkwood Lodge, Mo., and travels extensively the rest of the year covering every section of the United States. Marshall was one of the featured callers at the Governor's Inaugural Ball held in Austin in January of 1971. Square dancers enjoy many of the fine recordings he has on Blue Star Labels.

Beryl Main returns to the Lubbock area on his tour touching many places in the U.S. and Canada. He has been a staff member at Kirkwood Lodge, Mo., Lookout Mountain, Colo., Cooper Ridgeway, New Mexico, Hidden Valley, New York and many more. Beryl keeps his square dances fresh and exciting by putting considerable emphasis on variety and originality in his own "Pattern." He and his wife, Kerrie, will be part of the "Wagon Wheel Record" group tour to Hawaii in 1973.

Jack and Darlene Chaffee will be in charge of the Round Dance program. They began teaching round dancing in 1960 and hold two beginner round dance classes each year. They are active in three round dance clubs which meet weekly as well as two square dance clubs. They were instrumental in organizing the Colorado Round Dance Association, are members of the Denver Square and Round Callers Association, and active in the Denver Area Square Dance Council. They have conducted their own round dance clinics in 14 states, Canada and Europe, and have served on panels for the National Square Dance Festivals in Dallas, Texas and Phita, Pa.

You may purchase tickets in advance from any area square dancer at \$1.00 per person before April 1 or you may purchase tickets at the door for \$1.50 per person. Spectators are always welcome free of charge.

A hospitality room will be open at the KoKo Inn at 1 p.m. Friday the 7th and all day Saturday. Eight hundred dancers are expected to attend the two days of festivities.

Mrs. and Mrs. Curtis Meredith and Terry of Tulsa spent Easter here with their mother, Mrs. C. M. Meredith. They were met here by Mildred Farnell of Gainesville, mother of Mrs. Curtis Meredith.

Sign of Good Breeding

Pioneer brand grain sorghum varieties have bred-in yield potential to help farmers get the most from their good management even in the face of adverse weather, insects, or plant disease.

Your Pioneer dealer has many varieties bred to help farmers on the South Plains turn in top yields. Some of these varieties are:

Pioneer Brand 846: excellent drought resistance — consistent high yields — MDM and smut resistant — 134-day maturity

Pioneer Brand 820: good yielder under stress, outstanding with plenty of water and fertility — MDM and smut resistant — 144-day maturity

Pioneer Brand 856: makes the most of limited water — threshes well — high yield potential — 126-day maturity

Pioneer Brand 8417: new yellow endosperm variety — full, open heads — good standability — easy thresher — MDM, anthracnose, smut resistant — 135-day maturity

Days to maturity is an averaged figure, which is affected by weather and other variables.

GOOD YEAR OR BAD YEAR, YOU'RE BETTER OFF WITH PIONEER.

CRAIG McDONALD of Ralls likes 846 because of its consistently good yields under limited irrigation. For example, in 1970 Mr. McDonald produced 3699 pounds per acre from 498 acres of 846. Most of this crop had only two waterings, 19 acres had no irrigation, while 54 acres were watered three times. Mr. McDonald has planted Pioneer for the past three years because he likes the way he can manage it where water is limited.

Pioneer is a brand name; numbers identify varieties. Reg. trademark of Pioneer Hi-Bred International, Inc., Des Moines, Iowa U.S.A.

point, which she has recently started, and she is planning to visit the Holy Land with her daughter who lives in Kentucky.
ANNIE TAYLOR
 Another retiring teacher who had already made plans to retire this year is Mrs. Annie Taylor, a seventh-grade math teacher at Floydada Junior High. Mrs. Taylor's first teaching job was in Washington County, Texas at a salary of \$50 a month. Although she now teaches math, Mrs. Taylor said she had taught in a one-teacher school where she instructed students in all courses - science, social studies and English as well as math.
 Mrs. Taylor, too, said she enjoyed her teaching years, especially emphasizing that she felt she was helping somebody,

and saying she enjoyed working with children.

She told the Hesperian reporter that she plans to rest after her retirement, then went on to say that "rest" for her would include traveling, visiting relatives and friends, cultivating flowers and reading, her favorite pastime.

KATHLEEN STEWART
 Mrs. Fred Stewart, a retiring first-grade teacher at Duncan, has also already made plans for retirement - when her husband retires the first of the year, the couple plans to travel, and hope to visit Hawaii.

Mrs. Stewart said she thoroughly enjoyed teaching in the public schools and had absolutely no regrets. She has been especially grateful, she said, for notes of appreciation from many of her former pupils. She taught in Barclay, Texas, starting at a salary of \$75 a month, and later moved to McLennan County, Texas before teaching in the Floydada schools.

ELBERT AND JEWEL REEVES
 Elbert and Jewel Reeves have made no definite plans as to what they will be doing after retiring from teaching, but Reeves told the Hesperian that one can find "a world of things" in which to get involved, and that he will be looking for something involving working with people.

Reeves has taught in the Floydada system twice, once ten or twelve years ago for a single year, and is now finishing six years of teaching in this "stretch", after coming here with expectation of filling in for a year. The Floydada Junior High science teacher expressed some misgivings, "in a way," about the compulsory retirement.

Reeves' teaching career began some 20 years ago in the White Flat community north of Matador, a monthly salary of \$90. He taught at schools in Hale and Lubbock Counties, served as ex-officio school superintendent at Matador, and served four years in the Texas

House of Representatives. Reeves teaches life science to seventh-grade FJHS students and has an advanced eighth-grade science class. Mrs. Reeves teaches fifth grade at Andrews Elementary School here, and is completing her fourth year in Floydada schools, including one year some ten or twelve years ago. In all, Mrs. Reeves has been a school teacher for 17 years. She will be along with her husband after retirement, she said, although their plans are now indefinite except for possible travel for a while before going back to work.

Elbert and Jewel Reeves summed up their teaching years with a phrase that cropped up frequently in interviews with the Hesperian teachers - they say they "thoroughly enjoyed" the experience.

RUTH WILLIAMS
 Mrs. Ruth Williams, a first-grade teacher at Duncan Elementary, told the Hesperian she hadn't had much time to think of her plans for after retirement, because right now she is concerned about getting "her" children to pass. She had announced her retirement intentions earlier.

Mrs. Williams has been a first-grade teacher for all but two of her 44 teaching years, when she taught fifth and sixth grade in a small rural school in Lynn County. She started teaching in a two-teacher school in Chico, in Wise County, Texas, where she worked for \$75 a month, teaching a four month term. Then she taught the two years in Lynn County before moving to Floyd County and teaching eight years at Providence, seven years at Sandhill, one year at Blanco, and three at Allmon. For the last 22 years, she has been in the Floydada school system.

She said she plans to put together some of the amusing things her students have done and said over the years. She and her husband would like to travel, possibly to Hawaii, Alaska and Florida, Mrs. Williams said.

JERRY ORBACH, the boss of MGM's "The Gang That Couldn't Shoot Straight," attempts to assassinate a rival mob leader, Lionel Stander, as he lunches with a con-man priest played by Robert De Niro and Harry Davis. Showing Friday and Saturday at the Capada Theater.

MARGARET SPRINGER
 Mrs. Margaret Springer is another teacher who had already announced her retirement, in January. Her first teaching job was in Steamboat Springs, Colorado, where her salary was about \$80 a month, as a third-grade teacher, she told the Hesperian. She taught there for a year before moving to Floydada, and has taught here for the past 20 years. She now teaches third grade at Duncan Elementary, and has been a third-grade teacher all her 21 years in the profession. Her plans for after retirement include visiting her children in Fort Worth and Spokane, Washington.

FAIRVIEW NEWS by Mrs. Clyde Bagwell

FAIRVIEW, April 3 - After weeks of what seemed to be spring - and fruit trees loaded with fruit, a freeze came last mid-week and killed all of the fruit and we are still having rather cool weather. Easter weekend was real nice but a strong, cold, dusty wind is blowing from the north this Monday morning.

R. M. Cannon returned home Wednesday from a few days visit down state where he visited his sister, Mrs. Josie Hill and family at Jacksboro. He also visited at Bridgeport and Perin with other relatives and friends of his and the late Mrs. R. M. Cannon.

Mr. and Mrs. Eugene Watts, Scotty and Kim of Lubbock spent the Easter weekend here with her parents, Mr. and Mrs. T. L. Perry. Mr. and Mrs. T. L. Perry attended the wedding of her nephew, Bobby Cozby and Rhonda Carthel Thursday night at the Dougherty Baptist Church.

Last Sunday Mr. and Mrs. Lyndal Carey, Carolyn, Mike and Sonja of Silverton spent the day with her mother, Mrs. Roy Meek. Mr. and Mrs. A. S. Mize visited Mr. and Mrs. Walton Wilson Tuesday night. Easter Sunday visitors in the Walton Wilson home were Mr. and Mrs. Harvey Allen, Mike and Norman.

Friday, March 31 was the 82nd birthday of Mrs. Ruy Irwin, and Saturday her daughter and son-in-law, Mr. and Mrs. Carl Nelson of Dimmitt came and spent the weekend. Mrs. Irwin had phone calls from her sons, George Burgett of Louisiana, Travis Burgett of Ft. Worth, and her daughter, Mrs. Naomi Mercer of Skellytown. Mrs. Carl Nelson took her mother to Floydada Sunday afternoon to visit in the homes of Mr. and Mrs. A. M. Carmack, Mrs. T. J. Whitley, Gladys and Ester Peck.

Mrs. A. S. Mize and Mrs. W. B. Wilson left after church Sunday for Matador where they visited until Monday afternoon.

95% More Cotton Intended

USDA's March 1 planting intentions report shows farmers in 1972 will devote 13,529,300 acres to cotton production, a 9.5% increase over planted acres in 1971. About 98,000 of the total will be extra Long Staple, leaving some 13,430,000 planted to Upland varieties - if the report proves correct. Texas intentions are for 5,480,000 acres, about 4% greater than the 5,

265,700 acres planted last year. Biggest acreage increase are planted for the medium and longer staple producing areas of the Mid-South and Far West, while the Southeast and Southwest regions project only a 5% increase. The 5% increase in Texas and Oklahoma, sometimes called "short staple country," amounts to 285,300 acres.

Nationwide, assuming that a normal 93% of planted acreage will be harvested, production from 12,462,000 acres, at the 1961-70 average yield of 477.8 pounds per acre, would produce about 12.4 million bales. Combined offtake for domestic and export purposes in 1972, according to USDA, is expected to be 11.2 million bales. At last year's average yield of about 442 pounds per acre, production in 1972 would come to only 11.5 million.

REPRESENTATIVE TOM CHRISTIAN

Representative Tom Christian Pleased With Special Session

AUSTIN - Rep. Tom Christian applauded the accomplishments of the Second Called Session of the 62nd Texas Legislature.

"In three short days the Texas Legislature elected a new Speaker, passed emergency legislation, and in my opinion, passed for the first time in history much needed rules reform."

"Under the capable leadership of Speaker Rayford Price the House voted to limit the powers of conference committees, to put an end to additions and deletions in legislation without the knowledge of the House, to reduce the number of committees from 46 to 25, to create a limited seniority system to promote expertise within the committees, and to record the proceedings of all committees and make them public record," Christian said.

Rep. Christian further stated, "the discharge of three committees - Appropriations, House Administration and Revenue and Taxation - will take the business of appropriations and administration out of the hands of Bill Healy and Tommy Shannon and put it back into the hands of the full committees."

Speaker Price since his break with Mutscher two sessions ago, was named to serve on the Escort Committee to seat the new Speaker and to remain on the rostrum for swearing-in ceremonies.

Bealls Observes 49th Anniversary

Beall's Department Stores this year observe the 49th Anniversary of its founding, according to Louis Anderson, vice president and manager of the local Beall store.

The local store here in Floydada is one of 61 operated in Texas and Oklahoma. Sixty stores are in Texas, one is in Oklahoma.

Anderson pointed out that the three original co-founders, Archie, Robbie and Willie Beall, started the business in Henderson, Texas in 1923. They believed that selling the finest, first quality merchandise for the lowest possible price would be appreciated by the buying public and their good reasoning fell on fertile ground.

Beall's 49th Anniversary Sale will be the biggest ever staged by the company, Anderson stated. Beall's staff of buyers, plus Beall's New York representatives have searched the nation's best markets for the entire year to secure anniversary offerings which are better than ever before.

During its 49 year history, Beall's has been known for its friendliness and neighborly spirit. All Beall managers and employees are prominent in all community projects and are recognized for their activity in religious and cultural affairs.

Beall's presently operates stores in Henderson, Nacogdoches, Mt. Pleasant, Longview, San Augustine, Gilmer, Jacksonville, Paris, Center, Kilgore, Lufkin, Greenville, Sulphur Springs, Marshall, Palestine, Vidor, Carthage, Conroe, Baytown, Stephenville, Weatherford, Sherman, Rusk, Bryan (two stores), Mercedes, Floydada, Eagle Pass, Bay City, League City, Killeen, McKinney, Laredo, Victoria, Corpus Christi (4 stores), Beaumont (4 stores), Orange, Austin (4 stores), Athens, Slisbee, Denton, Del Rio, Brownwood, Denison, Temple, Harlingen, Corsicana, Alice Waxahachie, Tomball, Portland and Ardmore, Oklahoma.

Beall's is headquartered in Jacksonville, Texas. A mammoth building houses executive offices, buying offices, all phases of account and credit, advertising and display, data processing and a warehouse from which good is distributed daily to all stores. R. G. Beall is president of the company.

An Open Letter To The People Of Texas

Dear Voter:

I'm a candidate for attorney general of Texas because I believe it's time for a change in the office.

Crawford Martin is seeking a fourth term. It's the first time in the history of Texas an attorney general is running for a fourth term.

Campaigns should be run on the issues and I don't like to inject personalities and personal relationships into a political campaign. But, the relationship between Frank Sharp and Atty. Gen. Crawford Martin cannot be swept under the rug.

The new book about the Texas stock fraud scandal, "Texas Under a Cloud" tells about that relationship. On page 128 the book says:

"Atty. Gen. Crawford Martin... got some free newspaper publicity when it was revealed in October, 1971, that he received a 'stock tip' from Frank Sharp - while Martin and his family were Sharp's ranch guests late in 1969 and again at Sharp's Houston office early in 1970."

"Sharp was trying personally to sell National Bankers Life stock to Martin, although the attorney general said that Sharp never mentioned the possibility of Sharpstown Bank loans to buy the stock."

"Martin said that he turned the stock offer down because it would have cost too much, because NBL was in 'shaky' condition, and because he did not buy 'speculative' stocks."

"He did not comment on the ethical aspects of a state official's accepting a stock tip of that sort - perhaps, because Martin, as attorney general, had ruled in favor of Sharp on a key legal issue about Sharpstown State Bank only two and one half years before Sharp made the stock offer to Martin."

"Martin's ruling had the effect of increasing the bank's capitalization dramatically and thus its ability to make large loans, ultimately giving Sharp the financial resources he used in the manipulations charged by the SEC."

As you know, hundreds of Texans lost their life savings because of Sharp's stock manipulations and it probably wouldn't have happened but for Atty. Gen. Martin's legal opinion.

Don't you agree, it's time for a change in the office of attorney general of Texas?

Just so you'll know what you'd be changing to, I'd like to tell you a little about John Hill. I'm a native Texan, grew up in Wink and Kilgore, was national debate champion at Kilgore Junior College and graduated from the University of Texas Law School. I served in the Navy during World War II, practiced law (much of the time in courtrooms) in Houston, and was secretary of state from 1966 to 1968.

I certainly would appreciate your support.

It is time for a change.

John Hill
