### Caprock Chat

BY WENDELL TOOLEY

MILTON has a daddy. . . really. Inadvertently when talking about Darla winning state in typing last week, "daughter of Mrs. Doodle Milton."

When it looked like Darla didn't have a daddy, she was even born? Tuesday, father of Darla, Grigsby (Doodle) Milton had the courthouse to get a birth certificate filled out for just to prove to the Hesperian staff that he is the father.

Like we started out to say last week, "Darla Milton of Mr. and Mrs. Doodle Milton." Sorry 'bout that.

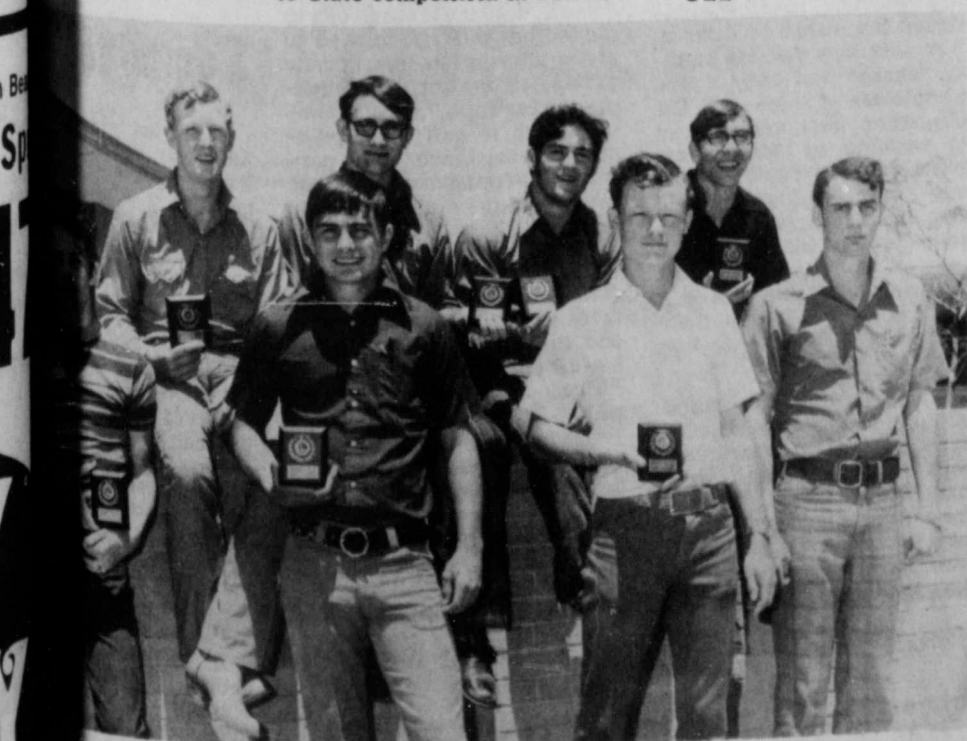

DOUGHERTY SCHOOL explosion brings to mind March 1971 when a gas blast in the basement of the New London, blew up with 290 students and some 15-20 were killed. Cagle (Joann) was a pre-schooler at that time. I haven't divulged her age and was in the gymnasium at the New London school when the explosion occurred. But, we feel that it was structurally sound to absorb an explosion. . . and, if it had been a modern building windows to relieve the pressure, more of the building would have been damaged.

ABOUT JUNE 27

## Mackenzie Board Ready To Let Dam Bid

Mackenzie Water Authority board members and city council members from Lockney, Silvertown, Tulia and Floydada met in Floydada in the bank community room last Wednesday night to finalize plans for letting bids on contracting building of the dam on Tule creek, seven miles northwest of Silvertown.

President of the board Lon Davis called upon representatives of the engineer company to brief the group on the steps that have been taken leading to offering plans to contractors for bids on June 27.

FLOYDADA MAYOR SEEKS NEW ESTIMATES  
Floydada mayor Jimmy Seay

told the group that the Floydada city council had recently received a letter from the engineers and bonding firm that prices had risen "appreciably" on the cost of the transmission pipe line from the dam to Lockney and Floydada.

"We are in favor of the Mackenzie project, but we would feel a lot better if we could have an up-to-date estimate on the cost of the pipeline on which Lockney and Floydada will be sharing the cost," the mayor told the group.

The engineer assured the board that he could have an estimate in about ten days. "Since this will not delay our plan of submitting plans to the bidding contractors on June 27,

I would entertain a motion that Floydada be granted time to get the new piping estimate," Davis told the board. Motion was made and seconded to that effect, and the board approved the Floydada request.

PIPELINE BACKGROUND

The pipeline from the treatment plant at the dam is approximately 34 miles from Floydada and the engineers have estimated the need for a 20" pipe from the plant to Lockney and a 16" inch line from Lockney to Floydada. Right-of-way for the pipeline is planned by highway north of Lockney and by railroad from Lockney to Floydada.

The next board meeting is set for May 24 in Lockney.

## Weather Station Hail Gauge Installed

(By James Huggins)

The descriptive terms for the size of hail common (unfortunately) in the West Texas area, such as "golf-ball-size", "marble-size" or (heaven forbid) "baseball-size" may soon be replaced by a three-digit number that will have a definite meaning (to meteorologists, anyway.)

The gadget that may make it possible is a Newton Hail Recorder, and one was installed this week at the official National Weather Service recording station at Producers Elevator here. The Newton Recorder, invented by Oliver H. Newton, a NWS official with the Texas A&M Research Center in Lubbock, measures the size of the hailstones that fall on it, their intensity per square inch, and the velocity of the wind that drives them.

A piece of aluminum foil is placed on a curved holder in such a way that, when a "weatherman" inspects the sheet after a hail, he can "read" it, and with the aid of charts and formulas developed by Newton, discern all the above information. Impressions made by hailstones in the soft aluminum sheet leave all the evidence the meteorologist needs to tell the hail's size and intensity and the driving wind velocity.

SEE HAIL PAGE 2

The strange-looking object being inspected by Vernon Hudson of the National Weather Service is a Newton Hail Recorder. It measures the size of hailstones that strike it, their intensity or number per square inch, and the wind velocity that drives them. It is one of 30 such recorders erected in this agricultural area by the NWS. In the background are temperature and rainfall recording equipment. (Staff Photo)

# Dr. Floyd Bradley Gives Impressive Baccalaureate Message

Dr. Floyd Bradley gave an impressive message to the Floydada High School graduates in baccalaureate services Sunday evening in the First Baptist Church.

The church was full in attendance of graduates, their relatives and guests for the occasion.

Dr. Bradley opened his message with a summary of current life as the graduating class is viewing educational changes, social changes, world crisis, moral problems, the knowledge explosion. He noted that many of the class voted for the first time and were assuming adult responsibilities.

He challenged the graduates to make their lives a contribution to this world by letting their wishes be worthwhile. "May I suggest that you fashion your ideals after the ideal personality, Jesus Christ," he continued.

He also told the graduates to be wise and not go after second rate things, and used Solomon of the Bible as an example.

Then Dr. Bradley used some four letter words as guides for a successful life: WORK to be the guidepost of life; GIVE of yourself; TAKE every opportunity to live right and do good; LOVE, the greatest commandment of all.

In conclusion Dr. Bradley said, "May your life be blessed by our Heavenly Father and may you in turn bless others."

Processional and recessional were played by Penny Bertrand at the piano and she also accompanied Homer Jones who sang. Invocation was given by Rev. C. B. Melton, the benediction by Rev. Dwayne Grimes. The congregational song service was led by Bob Copeland. Mrs. Bill Hardin was organ accompanist.

## HAIL FROM PAGE 1

Vernon Hudson, Sub-Station Network Specialist with the National Weather Service, who installed the "hail gauge" at

Producers here Tuesday, said that the wind that accompanied a hailstorm often contributes to or to a large extent even determines, the damage done to crops. Hudson said many times a very small hail driven by a strong wind literally shreds crops, whereas a larger hail with no wind might not do as much damage.

The hail recorder placed at Producers Tuesday is one of 30 which are being established in this agricultural area, a circle around Lubbock. Normally, Hudson said, one is placed in each county.

The recording station at Producers is the only official National Weather Service temperature recording station in Floyd County, although there is an official NWS rain gauge at the Milton Harris at Lakeview.

## EXPLOSION FROM 1

Two minutes later it would have caught the entire fifth and sixth grade classes in the room. Townsend, who was standing in the doorway of the room when the blast occurred, was hurled ten feet into the hall against another teacher. Neither was hurt, however, and his greatest concern was seeing to the injured.

Townsend said there was little hysteria from the youngsters in the confusion and teachers said those uninjured fled out of the building in a very orderly manner, while others assisted in removing the injured from the classroom.

Townpeople from Dougherty as well as Floydada and surrounding areas came to the site and worked in any way possible following the blast. The injured were removed by ambulances from Moore-Rose, Carter in Lockney, and private cars.

Within two hours following the blast the east wall of the school was boarded up where five big windows were blown out; refrigerated foodstuff was moved to local residences in Dougherty and electricity shut off for precautionary measures.

This week members of the school board and volunteers are still working at the school picking up debris and removing damaged materials. A spokesman for the school board said they had not been able to meet so far this week to determine if the building could be remodeled but at this time he did not wish to make a comment.

Engineers from the Pioneer Natural Gas Company out of Amarillo said the best they could determine, gas leaked from underground lines, collected under the reading room and ignited. They surmised that a pilot light in a wall heater, thermally controlled, may have ignited the escaping gas, or there is the possibility that when a light switch was flipped on in the room, it could have caused the blast, "but we may never know," Bob Mills, public relations man for Pioneer said.

The closest lines feeding the building's heater system are buried plastic lines, according to Mills, but he said they encircle the building about six to eight feet from the outer foundation, and do not pass underneath the room.

Officials have found a leak in the lines some eight feet from the classroom and just east. A spokesman said how escaping gas settled beneath the room was not known. No lines run beneath the double

SOME ITEMS that may be given to the Massie Activity Center in honor of persons who have passed on: a water fountain, tables, chairs, speaker system, to name just a few.

SEVERAL YEARS ago there was a magazine advertisement with the headline, "they all laughed when I sat down to play". It showed a young fellow sitting down to play the piano. . . the advertisement was selling lessons to play the piano.

Of course the young fellow amazed them all when he sat down to the piano; he had taken lessons. . . and he played well. I tell you this to say how I felt when I saw Homer Jones' name on the baccalaureate program Sunday night to sing a solo. I knew Homer as an ag teacher and didn't know he could sing. Well, friends, I'm here to say Homer was the right selection for the solo, and his song, "All His Children" was fine for the occasion.

Yessir, Homer is a lot more than an ag teacher. . . he's a mighty good singer.

A WEALTHY MAN, registering at a California hotel, was asked by the clerk if he did not want a certain suite.

"Haven't you something less expensive?" asked the guest. "Why yes, we have, but your son always has that suite when he stops here," said the clerk, who had noted the signature. "That may well be, but my son has a rich father. I am not so fortunate."

IT WAS AN ideal Spring day and four girls, overcome with Spring fever, skipped morning classes at high school. After lunch they reported to their teacher that their car had a flat tire. Much to their relief, she smiled understandingly and said, "Girls you missed a test this morning. Please take seats apart from one another and get out your notebooks."

When the girls were settled and waiting expectantly, she continued, "Write the answer to this question: Which tire was flat?"

- (2) There are the JAW BONES who do all the talking, but very little else.

- (4) There are the BACK BONES who get busy and do all the work.

OUR THANKS to the American Legion for flagpoles, the American and Texas flags, to be erected in front of the MAC. We'll have flag raising ceremony pictures later.

THE LIONS CLUB reports they have contacted the carnival to be in Floydada May 24-27, located as usual in front of the hotel, to be in with the Old Settlers Reunion.

THANKS to the kindergarten classes of Duncan Elementary for the nice letters, after visiting our printing plant. These letters are a little unusual. . . printed by the students, and I enjoy them.

THE OPPORTUNITY for Floyd County to have a vocational or Jr. College is not being responded to by Floydada employers. Of the 260 survey sheets sent out on the feasibility study only 26 have been returned.

So, unless more interest than this is shown. . . just forget it. However, if there is any interest, our Chamber of Commerce should join Lockney in a called meeting to discuss the possibilities.

wood flooring of the room and the wall heater lines come through the wall some twelve feet above the floor.

The explosion caught 5th and 6th grade students during a break after a film showing in the school auditorium. Those injured were the ones who had already entered the classroom. Students from the first through the fourth grades were still in the auditorium, possibly minimizing the number injured. They said they felt the building "shake" and knew it was an explosion of some sort. The youngsters were guided from the building by Mrs. David Townsend, who teaches the first and second grades and Billy Joe Cross, who teaches grades two and three.

One of the youngsters in the classroom said he heard a loud "boom" and felt the floor rise.

Evidence at the scene indicated the flooring rose and splintered, and boards entangled in overturned desks. An odor of charred wood was also evident. The ceiling displayed a large hole, fluorescent light fixtures were battered and glass broken.

as the pressure of the exploding gas sent projectiles upward. Damage to the school was said to be extensive, however no estimate was available.

Bob Vickers, a school board member, was the first to reach the blast site. He had just walked outside east of the school building, when the explosion occurred. Mrs. Ruth Daniel, Dougherty school bus driver, was the second one to the scene and she rushed to students' homes to inform their parents of the accident. Vickers, meanwhile, used a two-way radio to call into Floydada for assistance. Some parents in Floydada on business learned of the mishap while in town.

The anxiety for all students involved is still evident on the faces of loved ones still there, but as one parent phrased it, "Thank God no one was killed."

Graduation exercises for seven Dougherty Elementary students will be on schedule tonight. Of these seven, five were among those injured. They hope to be present for the ceremonies.

MR. AND MRS. PAUL WILLIAMS

## Mr. and Mrs. Paul Williams To Observe Golden Anniversary

Mr. and Mrs. Paul Williams of Plainview will observe their 50th wedding anniversary Sunday with a reception in the Flame Room in Plainview between the hours of 2-4 p.m.

The event will be hosted by the couples' children and spouses, Mr. and Mrs. James Richardson of Wellington; Mr. and Mrs. Delwin Williams and Mr. and Mrs. Jamie Williams of Plainview; Mr. and Mrs. Keith Williams of Bowie; Mr. and Mrs. Bill Powell of Warrenton, Va.; Mr. and Mrs. Walter Schuler of Houston; Mr. and Mrs. Russell Strain of Clinton; Mr. and Mrs. Gerald Ray of Claude and Mr. and Mrs. Jim Hall of Liberal, Kansas. The couple also have 23 grandchildren.

Williams and the former Ruby Noland, daughter of the late Mr. and Mrs. T. M. Noland of Floydada, were married May

21, 1922 in Floydada. Williams, son of the late Mr. and Mrs. S. V. Williams of Floyd County, farmed in this area before the couple moved to Plainview in 1942. He has been employed at Williams Sheet Metal until ill health forced his retirement.

## COACH'S REPORT

## Whirlwind Football Reviewed, Previewed

(by Coach L. G. Wilson)  
Floydada High School athletics have enjoyed another successful year. The football program, from a winning and participation viewpoint, was very

good.  
The teams that represented Floydada High School lost only three games and tied one - varsity (8-1-1), JV (8-1) and frosh (8-1). This indicates that

Floydada will be able to field a capable team for years to come.  
There were about 100 boys in this program, which represents about half the boys in high

school.

Next year the 'Winds will go into a new district (4-AA) after winning the District championship in 3-AA for three years in a row. Other teams in the new district will be Ralls, Lockney, Tulsa, Idalou and Abernathy.

The outlook will be fairly good. We lost 15 fine seniors but will return 15 lettermen, with a number of quality players among them.

The off-season program was real successful, with several boys really developing, both physically and attitude-wise. With summer ahead of us, things could change, but it looks now as if we will have speed, quickness and depth with not an abundance of size.

Position-wise, we look real strong at quarterback with a battle going on between Mike Hale (senior) and John Cagle and Rance Young (juniors).

Halfbacks will be Rex Rose, Mark Vinson, Rick Fuller, MacArthur Mitchell and possibly one or two others. Fullback is a solid position with Terry Jester (who has gained 15 pounds this spring) and Jerry Hearon, both seniors, and Danny Bradford, a junior.

The ends will come from Steve Anderson, Marc Smith-erman, Bill Norman, Randy Quisenberry, Danny Quisenberry, Eric Jones and Gary Sanders.

Centers will be Steve Hale, Jay Jones, Arnold Lipham and Rusty Holladay.

Our guards and tackles will be small by some standards but will be strong and quick and tough, we hope. Leading these boys will be Terry Bunch (second-team all-state last year), David Marricle, Tony Goen, Drew Lloyd, West Whittle, Lynn Becker, Craig Ham-bright, Ruben DeLeon, Mike Hatley, Steve Holmes, Ashley Wester, Mark Probasco and Eddie Ellis.

Right now it looks like we will have the over-all balance we need to be a good football team. We can throw the ball (our receivers need to work on catching this summer) - we have good runners and kickers - and our specialty teams (kickoff and punting teams) will again be tops. We believe our defense will be a good one.

What we need is continued community support. Encourage the boys this summer. Soon football books will be out, so we can't start too soon. Get your tickets early and be ready to support the 'Winds come fall.

John W. Young, Astronaut:  
"The earth rise is just beautiful. We can hardly wait to get there."

John B. Connally, Treasury Secretary, speaking to newspaper editors:  
"A democracy without a high degree of public confidence cannot long survive."

## Plainview Pioneer Roundup Saturday

The theme "Try It - You'll Like It", has been chosen for the 44th Pioneer Round-Up to be held Saturday, May 20. Mrs. Lena Faye Alford, president of the sponsoring organization, the Plainview Business and Professional Women's Club, stated that all plans have been completed for this event. The reception beginning at 10 a.m. at the Hale County Agriculture Center in Plainview, is a big feature and is a time when the real "old timers" get together to reminisce and exchange stories of the pioneer days. Mrs. Mammie Holloway, chairman of this committee and her assistants are expecting many pioneers from near and far to arrive soon after 10. One of the few remaining parades in Plainview will be staged at 3 p.m. originating near the Santa Fe Depot on north Broadway. Parade will move south on Broadway to 5th Street, east to Ash and north on Ash to point of origin where it will disband. Tickets, \$2.00 (tax included) for the evening activities, including a supper, program and square dance, may be purchased from any member of the Plainview B&PW Club or secured at the door. Mrs. Juanita Whitaker is ticket chairman. People of all ages are most welcome and are cordially invited to attend and help make this 44th Pioneer Round-Up on May 20 the best yet.

## SOUTH PLAINS NEWS by Mrs. Murray Julian

SOUTH PLAINS, May 15 — Mr. and Mrs. Curtis Sanders, Shonda and Brian, are moving into their beautiful new home on the Silverton Highway this Monday. The home is located near the Cedar Hill Gin area. They have been living in Floydada while it was being built.

Mrs. L. T. Wood, Mrs. Tillman Powell and Mrs. Murray Julian went to Tulsa to the First Baptist Church May 9 for a Regional WMU meeting, with outstanding state leaders bringing the program for the day. Mrs. H. C. Hunt presided.

and speakers, Claudia Jones, Eula Mae Henderson, and Mrs. Woodson Ames gave uplifting messages. The morning was rainy, and fog hung heavy over the roads, but the church was nearly full, with women coming from all over the area.

Arlis Powell, son-in-law of Mr. and Mrs. Grigsby Milton here, has been in the University Hospital in Lubbock for a week suffering with a back disorder. Arlis and family live in Floydada.

Mrs. Leo Brown, who lived in our community years ago, is also in the University Hospital, and will probably be there another week. She, too, is having back troubles. Mrs. Brown is a nurse at the University Hospital in Lubbock.

South Plains Baptist Church dismissed evening services Sunday night so everyone could attend baccalaureate services for the Floydada High School Class of 1972 in Floydada. The sermon was brought by Dr. F. C. Bradley. Graduation exercises will be held Friday at 8 p.m. in the Floydada High School auditorium. Arlene Hamm, daughter of Mr. and Mrs. Harold Hamm, is graduating from South Plains.

Mr. and Mrs. Kendis Julian, Tim and Miltz are in Lubbock this Monday visiting Mrs. Terry Julian at the University Hospital.

South Plains Baptist Church will dismiss next Sunday evening's services so members may go to Lockney to attend baccalaureate services there. Those from our church, Dee Earle Cummings, daughter of Mr. and Mrs. Sterling Cummings, and Sharlene Johnson, daughter of Mr. and Mrs. L. N. Johnson in the graduating class of 1972. Commencement services will be held Friday evening at 8 o'clock, May 26, for the Lockney graduates at the Lockney School cafeteria.

Mr. Nelms, of Raymondville, where he has been living the past four years, has moved to the home formerly occupied by Mr. and Mrs. Jim Roberts and children. He will be manager of the South Plains branch of the Lockney Cooperatives. His family will be moving here later on.

Mr. and Mrs. Milton Hamilton of Perryton and their children spent last week here with his sister, Mr. and Mrs. Reese Hightower. They were visitors Sunday at the Baptist Church with the Hightowers.

Mr. and Mrs. Bud Higginbotham and son of Canyon spent Saturday and that night here with his mother, Mrs. Bryant Higginbotham.

Mr. and Mrs. Murray Julian visited in the home of Mr. and Mrs. Early Pritchett and their house guest, Mrs. Herbert Y'Blood, of Medford, Oregon, Friday night. Mrs. Y'Blood arrived by plane and has been here visiting the Pritchetts and other relatives, including the Robt. O. Turners and the Melvin Titus family at Aiken. She plans to return to Medford Tuesday.

Dee and Dickie Julian of Roscoe spent Saturday and Sunday here with their grandparents, the Murray Julians. Terry visited here with his folks and the Kendis Julians, Sunday afternoon when he came for the children. They, too, have been getting some good rains in Roscoe, and they hope to be able to plant this week.

Mr. and Mrs. W. Fred Cox of Edmonton, Alberta, Canada have been here visiting with Mr. and Mrs. Jack Smitherman. They left this past week for home in their plane, leaving their house trailer at the Smithermans. The Coxes reported 8 inches of snow on the ground in Canada at this time. The Cox family spent most of the winter at Arlington and other places with their children.

Mr. and Mrs. Fletcher Powell and his family have been moving during the past week to the Cedar Hill Highway in a brick home on a Cogdell farm. The children will be attending Flomot schools next winter, and we will surely miss them here.

Mr. and Mrs. Travis Young and children went to Floydada Sunday afternoon for funeral services for her uncle, Wheeler Turner of Lubbock in the First United Methodist Church. Burial was in the Floydada Cemetery. Turner passed away Friday night in Methodist Hospital.

Mr. and Mrs. Tillman Powell, Donna and Sandy went to

## FLOYD PHILOSOPHER

### Claims He's Alarmed Over Fact Cities Don't Want National Convention

Editor's note: The Floyd Philosopher on his Johnson grass farm seems alarmed over a trend he claims he's spotted.

Dear editor:

It's hard for me to figure out, but as I understand it a new problem has arisen in this country which a lot of people haven't noticed because when you've got as many problems as we've got a new one has to wait its turn to get recognized. We're probably two or three hundred behind now, backed up all the way from Floydada to Washington and points east.

The new problem is, where to hold a national political convention. Nobody seems to want one.

It's a fact. The Republicans first decided on San Diego but were frozen out and then had to change to Miami Beach, and when they did the Mayor, Police Chief, and the people of San Diego generally cheered happily, as though a tornado which had been sighted coming their way had suddenly veered in another direction.

On the other hand, when Miami Beach was chosen, no less an organization than the city's Chamber of Commerce itself opposed it, along with the police department. "We've already got the Democratic Convention and one's enough," they said. Who wants measles on top of the mumps?

This is strange indeed. It used to be that a national political convention was like a cir-

cus — everybody was in favor of its coming to town with the exception maybe of the picture show owner and the street cleaning department.

But now, well I'll tell you, when a Chamber of Commerce doesn't want a national political convention with its accompanying publicity, thousands of visitors and millions of dollars to show up in its town, there may be a trend developing that gives the problem a higher priority on the waiting list than we'd figured.

Have you ever stopped to think what'd happen if the Chamber of Commerce in Washington suddenly decided having the national capitol there was bad for business?

What'd happen if Austin got wind of the trend and decided it didn't want the state capitol either?

Coming on down, what'd happen if . . . whoa, I won't go any further as this might get too close to home.

Anyway, you see what an unsettling thing it'd be if nobody wanted any politicians settling down in their town, temporarily or permanently. What would we do with them?

I never thought it'd happen, but it looks like it's time for the Un-American Activities Committee to start investigating Chambers of Commerce. Something's wrong somewhere. Yours faithfully, J.A.

Anna, near Dallas, to visit his parents, Mr. and Mrs. W. S. Powell over the weekend. They both have been ill.
