

and then the monsoon season set in!

Days Of Nice Any Weather

Soaking rains came just as Floyd farmers were considering watering rowcrops and from a million to five million dollars was placed on the value of the rain-

too wet to plow and many farm families took advantage of the wet weather to take their vacation.

Thunderstorms which began Saturday and continued through Tuesday dumped up to five inches of rain at some points in Floyd County, washing away crops in some areas.

Highest rainfall reports in the Hesperian Tuesday included over five inches at Lockney and over four inches at Dougherty. Reports of crop washing came from the southwest portion of the county and near Petersburg in Hale County, from heavy rains Monday afternoon. Water ran over the road south of Floydada on the Ralls highway Monday.

BY WENDELL TOOLEY

FLOYDADA LIONS CLUB is selling tickets to the Co-American football game June 24 in Lubbock and you can get them at Bishop-Ramsey Pharmacy. Bill Feuerbacher has 30 tickets left . . . so, you better hurry.

ALSO got this bit of news from Bill at press time. "The Compacter" of old cars is working at Floydada, so if you know of any old cars that need picking up, call the city office.

SEER NATURAL GAS executive Bob Mills from Amarillo was in a talk he made at Rotary yesterday. Although the U.S.A. is facing a gas power shortage, it looks like we have an 18 year "stockpile."

being done to find gas power in the future? Bob listed three plants in the U.S.A. will begin making gas, uranium power and liquefied natural gas is being imported from other countries.

is experimenting at Texas Tech on a process to make gas out of feedlot effluent. He pledged the help of his company in helping locate a plant in Floydada and he concluded his talk with some horse sense, "communities grow when its citizens plan and work together for its accomplishment."

SUNDAY SCHOOL topic last Sunday was "change." It is most of us that a big change is occurring personally, every year . . . a changing age. As we go through life we reach different age levels, we experience moments

reminded this recently when I was filling out my fishing license. There was a blank to be filled in for color of hair. I had to write "gray" where I for many years had brown.

PRESENTATIVE of Floyd County's home demonstration club met with the city council Monday night and asked what could be done about the county's litter bugs. It is true that there are laws and state laws against littering public streets, but it is almost impossible for a few law enforcement people to catch every person who throws a can or other litter on the street.

Mayor summed the situation up correctly when he said that every person must be on the alert for the litterbugs, and the city officials "police the area."

is pretty simple, we must all be careful to put litter in the trash, every auto should have a litter bag . . . and every person should be responsible to caution others who do not do the litter laws.

THE students well demonstrated how effective this is when they took the responsibility to see that no litter was on the ground in front of Buddy's Super Market. The youth were able to do a better "police job" than the adults who occasionally drove by on the drag.

WAS A TIME when literally train loads of wheat left the county area. Today it is just a matter of a few car loads. The trucking industry is moving most of our grain so far from feedlots.

means less rail business through Floydada, consequently the notice concerning schedule changes which we reported in a story on this page today.

done to hold the schedule as it is, remains to be seen. The cooperation of the Chamber of Commerce, the city commissioners court and various agriculture organizations will be necessary in saving our railway service.

The thunderstorms halted wheat harvest in the county but most points report the rains good for maize and cotton crops. "But we're ready for it to stop for a while," some said.

J. D. Cates at Dougherty re-

ported 4.2 inches total rainfall measured through Tuesday morning, although places south of Dougherty received only a little over two inches.

Milton Harrison at Lakeview measured 2.86 inches since the rains began Saturday. At South Plains, Monday-even-

ing/Tuesday morning showers brought 2.25 inches after the northern Floyd County Community received two inches from earlier rains Saturday and Sunday.

West of Floydada at Sandhill and Barwise, rainfall totaled 2.4 and 2.75 inches re-

spectively. Near Harmony in the southwest portion of the county, Roy Hale reported a 2 1/2-inch total, and David Battey said he received over three inches.

Farther south at McCoy, 3.3 inches were reported.

Very little stormy weather accompanied the moisture. One report of hail on the south side of Blanco Canyon came from Lawrence Davis.

Bill Brown was up in a plane following the rain and said there was a lot of lake water

in the south part of the county.

Cotton is up and growing off well, according to one ginner and some farmers have grain sorghum that is just about to head out.

DAD'S DAY SCENE . . . This is the way (ideally) it'll be Sunday, Father's Day, when Dad is king. . . he'll be pampered and petted, and the children will bring him his slippers, newspaper, and coffee as he relaxes in his easy chair. . . even his faithful dog will get in on the act. . . Santa Fe Rail Traffic Schedule May Change

A Hesperian reporter visited with Santa Fe's general manager in Amarillo, F. N. Stuppie, by phone Monday morning and learned the following facts about the future of Santa Fe rail service into Floydada:

1. Rail service will not be discontinued as long as there is a need for it here.
2. About a year from now or later, some of the "hot" freight traffic through here will be routed through Avard, Oklahoma, thereby making a slower schedule necessary through Floydada.

3. The new rails that were laid out on the right-of-way two or three months ago will be removed to the Enid, Oklahoma district as rails there are in worse condition than our rails.

4. These changes in no way affect the business of United Auto Transports and the Frisco line.

Floydada Chamber of Commerce officials were placing several long distance calls at press time yesterday trying to determine how many area cities the traffic change would affect and more information

about what changes would be forthcoming in the daily Floydada train schedule.

Farm Tractor And Machinery Safety Program Starts Monday

A tractor and machinery safety course will be taught at the Community Action Center in Lockney June 19, 20 and 21. The program will run from 6 until 10 p.m. each night.

The course is designed for training youth 14 to 16 years of age for exemption from the Hazardous Agricultural Occupation Order of the Department of Labor. Anyone interested in learning more about operating hazardous vehicles is welcome to come and participate. It will include 14 hours of classroom and lab instruction for safety, tractor maintenance, and practical

driving. The program is sponsored by the Community Action Center, Texas Agricultural Extension Service and the Floyd County 4-H Clubs. It is open to anyone interested in the safe operation of farm machinery. Youth participants must be 14 years of age.

Upon completion of the course, passing the written and driving examination, the graduate will be exempt from certain sections of the Hazardous Agricultural Occupation Order of the Department of Labor. This will qualify them to work on a farm for an employer.

City Council Handles Light Agenda

Although the Floydada city council devoted several hours discussing problems at its regular monthly meeting Monday night, it only acted upon three or four topics on the agenda.

Mrs. Teresa Battey met with the council, representing five home demonstration clubs in the county. She asked the city council what could be done about litter bugs. Mayor Jimmy Seay said that although there were ordinances against litter bugs, it was impossible to arrest and fine all of them. He added that everyone should be concerned about keeping Floydada clean and make an individual effort to see that others obeyed the litter laws.

New chamber of commerce manager Bill Flynt met with the council and explained the new budget under which the

chamber would be operating. The council voted to raise the chamber dues for the light and power department from \$180 per year to \$240.

In other business the council approved a trip for city manager Bill Feuerbacher to McAllen this month for the annual city managers conference. He will include the trip in his vacation.

The council discussed selection of a tax board of equalization, requirements of another full time man at the dump ground, and spent considerable time studying costs of Workers Compensation and insurance for the employees of the city. No action was taken on these topics.

All councilmen were present except Boone Adams and Ed Hammond.

Change Taken In Thriftway Break In

A break-in at Thriftway Super Market here early Tuesday morning resulted in the loss of about \$14 in change and damage to both the front and back doors of the store, according to Bob Stroud, the store manager. Several cartons of cigarettes may have been taken, Stroud said, but this had not been determined Tuesday morning.

Police Chief Tom Hopper said the front doors of the store had apparently been prized open with a bar of some type. The thief or thieves apparently left via the back door after tearing up a lock there. The store manager said the bread delivery man noticed the back door open early Tuesday morning.

Police said there was evidence that the burglars tried to get into the store vault. The attempt was unsuccessful.

Two Hospitalized In Wreck

The drivers of two vehicles involved in a traffic accident

in downtown Floydada Monday were hospitalized as a result of injuries received in the crash.

Gene Collins Sr., 80, of Floydada, received a gash in the head and neck injuries, including a cracked bone in the neck. He was reported by relatives to be doing "fairly well" Tuesday. He is expected to remain in Caprock Hospital here for several days.

David Thomas, driver of a pickup truck belonging to Babe Jones, was dismissed from Caprock Monday after the accident and later readmitted. The accident occurred at 3:20 p.m. Monday at the intersection of Wall and Missouri Streets in downtown Floydada.

A witness said Collins, driving a 1964 Chevrolet, was travelling south on Wall Street, stopped at the stop sign at the intersection and proceeded across the intersection, apparently unable to see because of cars parked along the street. Thomas was going east on Missouri Street when the wreck occurred.

First Baptist, Methodist Churches Boast New Youth, Education Directors

David Cameron, 22, began serving last week as Coordinator of Youth, Music and Education Ministries at the First United Methodist Church here. The new Methodist Coordinator of Ministries is a native of Stratford, Texas, and a graduate of McMurry College with a degree in Church Music. He has completed a year of graduate study at Perkins School of Theology in Dallas.

Cameron served for three summers as youth director at Stratford, and last year at the First Methodist Church in Abilene. He was nominated by the First Church in Abilene as one of the Outstanding Young Men in America and recently received that honor, conferred by American Churches, Clubs, and Organizations.

David Miller, Youth Director for the summer at the First Baptist Church here, came to the First Baptist in May and will continue through August.

Miller, 20, is a 1970 graduate of Brewer High School in Fort Worth and a junior at Hardin-Simmons University. He played baseball and football at Brewer and was president of the student body and vice-president of the National Honor Society. SEE YOUTH, PAGE 7

Double Ring Vows Read For Miss Powell, Eugene Jones

Double ring wedding vows were read Friday evening in the South Plains Baptist Church for Miss Shirley Jean Powell and Carl Eugene Jones. The bride is the daughter of Mr. and Mrs. Fletcher Powell of South Plains and the groom is the son of Mrs. Mae Jones of Floydada.

Rev. Troy Cartmill, pastor of the church, performed the 7 p.m. ceremony before an altar banked with white carnations.

Wedding selections were played on the organ by Mrs. Kendis Julian, who also accompanied Tommy Powell of Tulla, cousin of the bride, as he sang "O Perfect Love."

The bride, given in marriage by her father, wore a formal length gown of chantilly lace over satin, fashioned with a high neckline, empire waist and Bishop sleeves, accented by wide cuffs. Her waist length veil of illusion was caught to a headpiece of white flowers and she carried a white Bible topped with a bouquet of

white carnations trimmed in blue streamers.

Miss LaNell Thrasher of Floydada was maid of honor and Miss Wanda Powell, sister of the bride, was bridesmaid. Both were attired in identically styled baby blue street length dresses and carried white long stemmed carnations tied with blue streamers.

Paint-Transfer Workshop Set

Print-transfer, sometimes called De-Cal-B, is the newest craft craze and one which has numerous possibilities. Adult ladies expressed an interest in this craft recently when Future Homemakers made plaques for their mothers for the annual Mother-Daughter supper.

A three-day workshop for adults will be in the high school homemaking department June 22, 23 and 26. Registration for the class will be at 9 a.m. June 22.

The best transfers are clay-base, dull finish pictures, engraved poems or quotations, and newspaper. Plaque molds of several sizes are available or transfers can also be made to canvas board.

Future Homemakers Meet At Texas Tech

More than 700 Future Homemakers from Area 1 chapters attended a leadership conference at Texas Tech University Monday and Tuesday. "Change, Choice and Commitment" was the theme of the workshop. Floydada chapter officers attending the conference were Phyllis Guffee, president for 1972-73; Nan McCulley, vice-president; Sharon Decker, secretary; Kathy Hinsley, treasurer; Zahn Daniel, parliamentarian; Bravada Garrett, song leader; and Linda Norman, pianist.

The girls attended division sessions and each received ideas to make her office effective in the local chapter.

The girls stayed in Coleman Dorm and were accompanied by Mrs. Mary A. Craig, chapter advisor, and Mrs. Corky Guffee, chapter mother.

Edward Kennedy, Senator (D-Mass):

MRS. DONNIE LYNN McMORROW

Wedding Vows Read For Vahlenkamp, Donnie

Wedding vows for Miss Billie Ann Vahlenkamp and Donnie Lynn McMorrow were read Saturday, June 10 in the Faith Lutheran Church in Sagerton, Tex.

The bride, who is Floyd County Home Demonstration agent, is the daughter of Mr. and Mrs. W. H. Vahlenkamp of Old Glory. The groom is the son of Mr. and Mrs. Tom Morris of Bomarton, Tex.

Rev. Joseph Aalbu, minister of the church, performed the ceremony at 7:30 p.m., before pyramids of candles, accented with arrangements of white gladiolus.

Lillian Neinst was organist and accompanied Ruth Ann Morris and Debbie Morris, cousins of the groom, who were soloists.

The bride, given in marriage by her father, wore a formal length gown of white silk organza fashioned with a bateau ruffled neckline, and long sheer Bishop sleeves which were highlighted at the wide ruffled cuffs with bands of Peau de ange lace. The fitted scalloped trimmed waistline was accented by the A-line skirt of silk organza. Double rows of lace graced the hem-line and the Peau de ange lace was used again on each side of the skirt to form scalloped lace-over-lace.

Her three tiered silk illusion veil of chapel length, was edged in scalloped lace and held in place by a queen's crown of lace, designed with tiny lace petals crested with sequins. 1 6-ounce can tomato paste
1 teaspoon crushed oregano
1/4 teaspoon garlic powder
6 hamburger buns, split, toasted and buttered

onion rings or sliced Mozzarella cheese, optional

NEWS report out of Washington indicate that Alabama Gov. The House is almost certain to be Democratic again. With each state having one vote, that would presumably elect the Democratic candidate. If Gov. Wallace avoids a third-party race, his influence is likely to be minimal in November; thus he's likely to run again as a third party candidate, according to news reports.

The Great American Favorite Hamburgers

Regardless of its foreign origin - and the hamburger is supposed to have originated in Hamburg, Germany in 1891, there is no question but what it has become as American as the Fourth of July and apple pie. There are so many variations and here are just a few:

CHEESEBURGER TOWERS
2 pounds ground beef
1/4 cup finely chopped onion
1 tablespoon prepared mustard
1 tablespoon worcestershire sauce
1 1/2 teaspoons prepared horseradish
salt and pepper
6 slices process American cheese
6 hamburger buns, split and toasted

Combine meat, onion and seasonings; shape into 12 patties a little less than 1/2-inch thick. Cook in lightly greased skillet about 6 minutes, turning once - broil if you prefer. With cookie cutter, cut a 2-inch round from center of each cheese slice. Place half the meat patties on toasted buns; add cheese slice filling the hole in the cheese with catsup, mustard or barbecue or hamburger relish. Top with remaining meat patties and cheese rounds.

Or try a Smoky Cheeseburger: Prepare 6 meat patties and while they cook, combine one 5-ounce jar smoky pickle spread, 1 tablespoon prepared relish and 2 teaspoons prepared mustard; spread on top half mustards; spread on top half of 6 split hamburger buns. Broil 1 to 2 minutes or till cheese bubbles and buns toast. Put buns together with a meat patty in each.

Have you ever considered the versatility of the hamburger bun for other purposes?

Split and toasted, it makes a great base for creamed foods or Sloppy Joes to be eaten with knife and fork. Because of the shape, what better for a fried egg and ham sandwich? With weiners, clip at one-inch intervals almost through so they will curl up as they cook and they are just right for a bun, with a center which can be filled with sauerkraut for a great taste combination or baked beans with a topping of hot dog relish.

And for individual pizzas, they're perfect. Try this variation:

PIZZA BURGERS
1 pound ground beef

Writing Of "Living Bible" By Kenneth Taylor

"About this time Caesar Augustus, the Roman emperor, decreed that a census should be taken throughout the nation. (This census was taken when Quirinius was governor of Syria.)"

"Everyone was required to return to his ancestral home for this registration. And because Joseph was a member of the royal line, he had to go to Bethlehem in Judea, King David's ancient home - journeying here from the Galilean village of Nazareth. He took with him Mary, his fiancée who was obviously pregnant by this time."

"And while they were there, the time came for the baby to be born; and she gave birth to her first child, a son. She wrapped him in a blanket and laid him in a manger, because there was no room for them

in the village inn."

Perhaps the pastor read this version of the Nativity story (Luke 2:1-6) at your Christmas services last year. It is taken from the most recent version of the 66 Books of the Old and New Testaments called "The Living Bible," which has been in circulation for a little more than six months.

This Bible is a departure from the numerous other productions. It is a "thought-by-thought" paraphrase, instead of a "word-by-word" translation, by Kenneth N. Taylor, a Wheaton, Illinois, Bible scholar.

The project grew from a proper seed - a child's question.

Taylor, a graduate of Northern Baptist Theological Seminary, would read the Bible regularly at home to his 10

children.

After a difficult passage, he would usually have to paraphrase it into simple English, with the footnote, "That's what it means."

"Then why doesn't it say so?" a child would ask - many times.

After a few such questions, Taylor himself began to wonder why the language was so difficult, especially since it's the young whom teachers of Christianity are trying to reach.

Then, about 1956, he began to put his rephrasings on paper. By 1962, he had finished all the New Testament Epistles. He tried to get them published.

This, however, was only 10 years after the publication of the Revised Standard Version, which had produced such a

storm over certain translations deemed to be "modernist" in their shadings and therefore an undermining influence in "true Christian teaching."

In the forefront of these criticisms during the early 1950s were the conservatives and "evangelical Protestants." They believed that changing any line of the King James Version risked negating the "Word of God," even though the literary masterpiece produced by the scholars in the reign of the first Stuart had been the "Word" only since 1611.

As late as 1962 some evangelical scholars still doubted the wisdom of "tampering." Four publishers turned thumbs down on the project.

"I was crushed," recalled Taylor, who is no modernist,

"My whole background is respect for God's Word and belief in its inspiration and authority. My purpose was not to 'tamper' with it, but to convey its real content more accurately and clearly. Only the Lord gave me the courage to go ahead with it."

Like a religious man, he remembered Matthew 17:20, which, in "The Living Bible" is "For if you had faith even as small as a tiny mustard seed . . . nothing would be impossible."

So, on faith, he had 2,000 copies of his paraphrasings produced privately under the title, "Living Letters," when a printer extended him credit. He handled mail orders from a home garage in Wheaton, Illinois.

Orders trickled in until, in 1963, his work caught the eye

of Billy Graham, who ordered 50,000 copies for distribution.

Taylor did not stop, with such a giant "evangelical" as Graham on his side. He paraphrased other parts of the Bible and printed them under such titles as "Living Gospels," "Living Prophecies" and "Living Psalms and Proverbs."

The sale volume hit nine million copies. By last September, the entire paraphrasing project was produced in one 1,020 page book titled "The Living Bible." It is in its fourth printing with 2 million copies in circulation. In many big cities it has landed on the best seller list.

During National Bible Week, the annual award of the Layman's Bible Committee went to Taylor for his 16 years of work.

A side epic is the growth of Taylor's homeborn publishing firm, Tyndale House, Wheaton, of which he is pre-

...sident, Tyndale House now handles 75 other published titles and has a multi-million-dollar sales volume. It has an expanded \$300,000 plant, more than 50 employees and a branch in England named for William Tyndale's colleague in Bible translations, Miles Coverdale.

Taylor channels royalties from the sale of Bibles into a foundation that provides translations into 51 languages.

Said Graham about the completed project: "In this book I have read the age abiding truths of the Scriptures with renewed interest and inspiration as though coming to me directly from God. 'The Living Bible' communicates the message of Christ to our generation. Reading it will give a new understanding of the Scriptures."

Other conservative Protestants have also praised the book, men like Herschel H. Hobbs of Oklahoma City, past president of the Seventh-Day Adventist Church; and Joseph H. Jackson of Chicago, president of the National Baptist Convention, U.S.A.

These testify that the conservatives, after seeing many a Bible translation since the RSV shook them up, seem to have lost their fear of "tampering with the Word."

One of the objections to the Revised Standard Version was the translation in Isaiah 7:14 as... "Behold a young woman shall conceive and bear a son, and shall call his name Immanuel. . . ." This passage, interpreted as forecasting the birth of Jesus, was offensive to fundamentalists and other conservatives, because it used the words "young woman" instead of "virgin," and thus, they thought, detracted from the divinity of Christ.

In "The Living Bible," the word is "virgin."

Taylor's paraphrasing contains many short words and that make for an exciting prose.

"Absalom said, 'Wait until morning, then, at my side. Don't be afraid. Who gives the signal here and then I will take courage and (2 Samuel 18:20) 'Well, look, I said, 'I have read the age abiding truths of the Scriptures with renewed interest and inspiration as though coming to me directly from God. 'The Living Bible' communicates the message of Christ to our generation. Reading it will give a new understanding of the Scriptures."

Dear Editor,

One man is in the hospital seriously injured, broken arm and two pick-ups demolished because narrow country road with two wide ditches. This right of way but the ditches take up most of it. Being stirred up by another pick-up, these men did not see and because there wasn't room for two vehicles had a head on collision.

I think it's time our commissioners take a look and do something about them. Our roads should be in a manner for vehicle travel, and not be all dirt. Find this condition all over our county, not just here.

Nearly 1,000 girls from over the Caprock Girl Scout Council have registered for summer camping at Camp Rio Blanco, Pat Harris, Council Scout Executive, announced this week. The girls, ranging in age from 8 to 18 can participate in two programs this summer. A program for resident troop campers gives troops and their leaders the opportunity to camp together for two, three, or four nights, with the troops preparing their breakfast and evening meal out of doors and their

noon meal is served in Bridwell Lodge. Individual girls may attend the established camp program for one or two weeks under the supervision of a trained staff. At Camp Rio Blanco, located east of Crosbyton in Blanco Canyon on the White River, the campers live in tents, covered wagons and cabins and participate in swimming, hiking, outdoor cooking, crafts, badge work, singing and campfires.

rison, Leader. Made To Export 1971 Cotton

The unusually large supply of short staple cotton in West Texas at this time is the result of bad weather during the 1971 growing season. The cotton is principally one inch or less in staple length, low micronaire, and grades spotted and light spotted. The quantity remaining unsold is estimated at 200,000 to 300,000 bales. Demand for this cotton is slack in both the domestic and commercial export markets. However, it is suitable for certain end uses requiring coarse yarns, and some can be blended with higher quality cottons. The Department of Agriculture has offered, in cooperation with the Cotton Council International, to furnish technical assistance to those countries whose milling industries are unfamiliar with the use of this cotton.

Chamber Manager Joins Association

SOUTH PLAINS NEWS by Mrs. Murray Julian

PLAINS, June 12 - Community has had some showers this Sunday afternoon, during the afternoon. South Plains had a short period of rain, but other areas did not get that much. Around 12 inches fell in the eastern part, and about 1/2 inch in the western part.

Troy Cartwright and Mrs. Cartwright left Saturday for Gainesville, Texas, to visit with her mother, Mrs. J. H. Cartwright, and her father, Harold Abney, a senior student from the University of Texas at Austin. They will be in Gainesville for the Sunday morning services at the First Church of the Nazarene. Visitors from the community include Mrs. J. R. Spivey, and Mrs. J. T. Thomas of who were guests of Mrs. Bill Gilbreath. June 13 morning, members of the Hobby Club will meet at the home of Mrs. E. E. Wells.

Holland family was held in Amarillo June 10, at Thompson's. Families brought picnics and spent the day at the home of Mr. and Mrs. Mulder and their son, Timmy. This is a reunion of Mulder's mothers.

Nichols was taken to Methodist Hospital, and is still there. She is recovering from her surgery, and she is doing well. Alvin Nichols is still in Lubbock with his daughter, Mrs. Bill from Sweetwater. The Wittfill's from Pensacola, Florida, are here Tuesday with her grandmother, Nichols had been in the hospital several days going to Methodist.

Higginbotham and to Wichita Falls for the funeral service for her sister-in-law, Mrs. Higginbotham of Wichita Falls. Mrs. Higginbotham spent the night in Chillicothe. Mrs. Carl Higginbotham spent the night with Mrs. Higginbotham and Mrs. Frisby. Alton Higginbotham also attended the funeral. We sympathize to the family.

Mr. and Mrs. Murray Julian spent Tuesday until Thursday afternoon in Palo Duro Canyon in their house trailer with their grandchildren, Dee, Dickie, Mitzi and Kristi Julian. The nights were very cool there, and they saw many longhorn cattle, road runners, and beautiful wild flowers.

Mrs. Henry Love of Cedar Hill fell and broke her hip last Sunday, and is in the Methodist Hospital in Lubbock. We hope to hear she is doing better soon.

Bill F. Harper of McAllen passed away Friday around

12:30 p.m. in Lubbock's Methodist Hospital. Services were held at Lockney June 12, with burial at McAllen. Harper was injured in a car wreck May 26, south of Post, and his wife, Vera is still in the Methodist Hospital.

Mrs. Ruth Burnett, sister of Mrs. Bill Harper, has been staying at the hospital with Mrs. Harper, and came here Monday for the week to visit in the homes of her brother, the Murray Julians, and her nephew, the Kendis Julians.

All members of the Bill Harper family, including the children and grandchildren, and others of the family were served dinner at the South Plains Baptist Church Monday noon. They offer their thanks to all those who brought food and were so nice to the bereaved ones.

Miss Shirley Jean Powell and Carl E. Jones of Floydada were united in a lovely wedding at the South Plains Baptist Church Friday evening, June 8, at 7 o'clock. Shirley is the daughter of Mr. and Mrs. Fletcher Powell, and Jones is the son of Mrs. Mae Jones of Floydada. LaNell Thrasher and Wanda Powell were bridesmaids, and Tommy Jones and Jonnie Powell acted as groomsmen. Mrs. Kendis Julian played organ music, and after the ceremony a reception was held in Fellowship Hall of the church. Refreshments were served by Mrs. Tillman Powell and Mrs. Tommy Powell.

The young couple left after the reception for Dallas and Oklahoma. When they return, they will live in Floydada. We wish the young couple happiness in their life together.

Mrs. Nathan Mulder entertained at a birthday party in honor of their oldest daughter, Cindy, Saturday, June 10. Guests played games and enjoyed refreshments of birthday cake, homemade ice cream and punch. Attending were Ronnie, Richard, Candy and Rhonda Taylor of Floydada, Mitzi Julian, Danielle Wood and Penny, Jimmy and Cory of the

community. Mrs. Wilson made her home at the Baptist parsonage at Fairview for a number of years while her husband, the late Rev. Joe Wilson was pastor. She is an aunt of Walton Wilson and Mrs. Bill Tye, and has many other relatives in and around Floydada. Mrs. W. B. Wilson is a sister-in-law.

The community expresses sympathy to all of the bereaved loved ones. We also express sympathy to Mrs. J. E. Green of Center on the loss of her stepmother, Mrs. K. J. Matthews, last week.

FLOYD PHILOSOPHER Finds Something In A Proposed New Telephone Law

Editor's note: The Floyd Philosopher on his Johnson grass farm reports on a new idea he's discovered.

Dear editor:

Every once in a while somebody comes up with a new idea, and I found one last night buried on an inside page of a newspaper where I had gone to get away from the turmoil on the front page. I don't mind reading about a problem bad enough to get on the front page if it has an answer, but most of the problems being headlined today don't have any answers.

Anyway, a town, I forget its name, has passed an ordinance limiting the telephone calls telephone salesmen can make. If you want to sell something by phone, you have to buy a permit and can call only on weekdays from 8 a.m. to noon and 4 p.m. to 8 p.m. Violators are subject to a \$200 fine.

This is a step in the right direction but it doesn't go far enough.

What we need - and I haven't worked out the details on it yet - is a law preventing anybody from calling anybody else unless the called

person wants to be called. I don't remember the figures but I remember reading a while back the number of telephone calls made each year in the United States and it runs into the billions and billions.

I estimate that fifty per cent and maybe three fourths of those calls were to people who had just as soon not be called, some particularly at the time and others not at all.

Now the problem for Congress is to figure out a law that prohibits unwanted telephone calls.

I don't see how members of Congress can do it, but it'd give them something to do to get their minds off all those other problems they can't find answers to either.

Meanwhile, if you want to develop strength of character, the next time your phone rings just sit there and let it ring till whoever's calling gives up. If you can resist the temptation to answer, you have conquered one of man's major frailties. Excuse me, I've got to stop, the phone's ringing.

Yours faithfully,
J. A.

Monte Williams spent Friday night with Mark Gilley at Cedar Hill and the two boys attended a party at the Don Probascos that night.

ARTIST

Hospital Patient 'Color' Amazing

By TANNER LAINE

Avalanche-Journal Staff

AT A TIME and place most persons would be up, Mrs. Leona Julian is just beginning a performance in art.

She is flat on her back in Lubbock's Hospital and has been for weeks. She has been almost constantly for 3 1/2 years, during which she learned to paint. She has just emerged from a cast that extended from chin to knees after eight months in the 60-pound enclosure. And now she must be motionless on a board-like surface.

Yet, the Roscoe housewife turns out sketches and paintings by the dozens. She gives them to friends, visitors and the nurses - 20 in all - in recent weeks. Still, she is behind in filling 200 orders.

JUST ANOTHER piece of art? Not on your life. The detail and attractiveness of her work is alive when you watch this amazing artist. She draws, inks, or paints rapidly but with fastidious care. She does a basic sketch in black India ink, pen and small brushes. Then, she fills in with watercolors or colored inks. She prefers the latter and her best work is with them.

She uses a light sketchboard, made especially for her by a Lubbock High School football coach, Stone, a friend. Stone once coached at Roscoe. Mrs. Julian attended public schools.

SHE TACKS or tapes her drawing paper board, which she holds up with one hand. She holds the other for drawing or painting. She turns her head from side to side, or nod it. She rests for quite a long period without resting, pen or brush into her mouth and holding it resting or studying her work.

Also, with the hand in which she holds the book, she holds the models for most of her work or painting. Her materials are on a table at her feet, including water colors, water, a dozen colored pens (opened for her).

It was in 1969 in the apparent safety of her life that an accident occurred which altered Mrs. Julian's life so drastically.

"WE HAVE a large picture window in the kitchen which looks out on Interstate Hwy. 20. The window extends into our kitchen. I was sitting at the table of the kitchen cabinet to adjust some drawers when it happened. I felt a sharp pain in my back, knife stabbing. Then it quit hurting," Mrs. Julian said.

But long hospitalization and extensive surgery ahead for the farmer's wife. Two spinal discs ruptured and the sacroiliac nerve was almost severed. "I had to undergo surgery for bone fusion and grafting," she related.

"It's all very complicated," the personable Mrs. Julian said when she could walk again. Weeks of therapy are ahead, she feels sure.

MRS. JULIAN was living and enjoying a life up to the time of the accident. Her husband is a farmer - rancher. The couple has two children, a son, 14, and a daughter, 10.

Her parents, brothers, and her husband and other of them - see her about "once a week" visits, including Lubbock and Roscoe. Mrs. Julian said she has about "once a week" drop in almost daily.

"When you think about others and you think about yourself, like I do drawing or painting, you think about yourself."

And her "thinking of others" has resulted in 200 "get-well" cards that cover one wall of her hospital room - so apparently, others of her, too.

She is the daughter-in-law of Mr. and Mrs. Julian of South Plains.

For those who say the railroads are at the beginning of the end,

here's a progress report from Santa Fe that says it's much, much more like the end of a beginning.

MORE POWER
We're adding 52 new giant diesels and rebuilding 50 older units to provide a locomotive fleet producing over 3,850,000 horsepower.

MORE CARS
1910 additional cars are coming in 1972, including 100 giant refrigerated hopper cars for in-bulk movement of potatoes, oranges and other perishables.

MORE TERMINALS
Santa Fe's new million dollar rail and truck terminal has now been completed at Houston, Texas to meet expanding truck, Piggy-Back and container traffic.

BETTER SERVICE
Run through trains with connecting railroads link - east, west, and southwest and save hours moving through Santa Fe's electronic classification yard in Kansas City.

BETTER PIGGY-BACK
We're expanding Piggy-Back and container service all along the Santa Fe to handle increasing domestic and international shipments.

BETTER IDEAS
An expanding microwave network linked to our data system for car tracing and locomotive utilization, and plans for the development of a unique coaxial train for moving containers are just a few of the new ideas at work on the Santa Fe.

MORE and BETTER are key words at Santa Fe. What we're doing, is why we're saying, rail service is still one of the most efficient ways to move freight. What we're spending last 10 years: Two billion since World War II. The railroad industry and the Nation need sensible transport regulatory policies - administered with an even hand. We can take it from there - into a new era of railroading. Still think the railroads are at the beginning of the end? For Santa Fe it's more like the end of the beginning!

Santa Fe - The complete transportation company moving by rail, truck, air freight, pipeline and land development.
