Donations Needed For Cemetery Upkeep

The Floydada Cemetery board of directors has issued the annual winter call for donations to help maintain the Floydada Cemetery.

The board reminds the public that the cost of labor is still high.

Those who wish to contribute may pay C. H. Bedford at the Floydada First National Bank of pay or mail their checks to Moore-Rose Funeral

Home, Box 444, Floydada. The cemetery directors are Edell Moore, Troy Leonard, C. H. Bedford, Watson Jones, Cecil Hagood, Alton Rose and Walter G. Collins.

Regional Friday In Plainview

The Floydada Whirlwind-Childress Bobcat regional playoff game will be in Plainview's Bulldog Stadium Friday at 7:30 p.m. According to a report from Floydada athletic director Preston Watson, Floydada representatives were able to bargain for the Plainview site but lost the toss

for the home stands, so Whirlwind fans will sit on the east side of the stadium. Tickets, all general admis-

sion, will be on sale in Floydada. The advance tickets are priced at \$2.50 for adults. Admission at the gate will be \$3. Student tickets are \$1 either way.

Around 40 interested Floydada citizens attended a called meeting in the Massie Activity Center Tuesday night to hear Keith Vaughn give them some pointers on how to get industry here.

Oden Chevrolet-Olds, Mary He was introduced by the president of the Floydada Beall's Department Store, Development Company, Bill Hale. "We won't get any further City Auto Inc., Jim Morri-

than you are willing to go," economic development specialist Vaughn stated in a matter-of-fact discussion.

Visibly impressed with the number and enthusiasm of those present, Vaughn added: "If you really want industry in Floydada, you can get it... maybe in 12 or 18 months . . . it can be done!"

A member of the Texas Office of Economic Opportunity staff, the youthful appearing development specialist pulled no punches. "To be frank, there are no quick answers" to attract new payrolls or expand existing businesses.

He said that a local task force should be named to establish priority goals here and work from that point. This encompasses more than in-

Total Community Effort Although OEO primarily is interested in securing positions for low income people, Vaughn said he believes this

can best be accomplished by total community improvement. "Low income groups, farmers, business people . . . we want to work with you," he stated.

A strong advocate of rural redevelopment, Vaughn told his audience that "There are people who don't want to see rural Texas survive." He noted that one national study group had recommended that towns across the nation with less than 25,000 residents "be allowed to die.

"Your biggest problem is trying to take changes and make them work for you," the group was told. A negative attitude is Rural America's greatest enemy.

In order to attract additional payrolls fo Floydada "I must have your time and commitments . . . in a very real way," added Keith who helped secure eight industries within 18 months in downstate towns under 5,000 population.

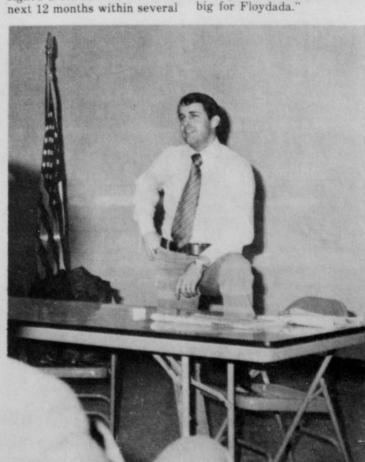

Contract was signed the previous Friday to locate a 123-employee plant in Crowell, a town smaller than Floydada.

Vaughn outlined his program, then invited questions from the group which consisted of a cross section of

interested residents. Will local funds be necessary, another individual wondered. "Some local funds may be necessary if any sizeable will need to answer these questions . . . how much is industry worth to you?"

The OEO representative has signed a contract to work the next 12 months within several

D. G. Ayres, local Veterans Service Officer for Floyd County, wishes to advise all Veterans that Congress recently passed a law which increases the monthly payments of educational assistance allowance for those in training under the GI Bill. It is generally felt that the increased Training Allowance Rates will enable many Veterans to either remain in school or now consider beginning a new career. Many Veterans have been forced to drop out of school because of the high cost of education. The increased rates of Veterans Administra-

tion Training Allowance will enable them to return to the classroom to complete their education.

In order to be eligible for GI Bill educational benefits, a Veteran must have been in service for more than six months, any part of which was after January 31, 1955, and he must have been discharged from service under other than dishonorable conditions. A Veteran is entitled to one and one-half months training for each month he was in service, with a maximum entitlement of 36 months of training time. If he had as much as eighteen months continuous active duty, he is entitled to the full 36 months training time.

A Veteran with no dependents is now entitled to a monthly training allowance of \$220.00; with one dependent, his rate is \$261.00; with two dependents the monthly rate is \$298.00. The increased rates will be retroactive to September 1, 1972, for those who were in training at that time. Increases were also authorized for Veterans taking On-Job-Training under the GI Bill.

Sorghum Disease Report Available

Texas grain sorghum producers now have at their fingertips information on disease resistance or susceptibility of most commercial grain sorghums in the state.

The information is available at local county Extension offices and concerns 191 hybrids and their reaction to downy mildew, head smut and maize dwarf mosaic virus (MDMV). The hybrids were contributed by 22 commercial seed companies in the state and two in Nebraska.

The massive campaign began this spring as a joint effort

of the Texas Agricultural Extension Service and the Texas Agricultural Experiment Station of Texas A&M University. Support through a \$1,000 grant-in-aid came from the South Texas Cotton and Grain Association.

Leaders in the project were Dr. Wendell Horne, Extension plant pathologist, and Dr. Richard Frederiksen, associate professor of plant pathology with the Experiment Station.

All hybrids were planted at three locations - Bay City, Port Lavaca and Iago (near Wharton). Plantings at Bay City were rated for downy mildew, those at Port Lavaca, for head smut, and plots at Iago were chcked for MDMV.

This is the first time a

project of this magnitude has been undertaken," said Dr. David Rosberg, head of the Texas A&M Department of Plant Sciences. "Furthermore, it was a joint effort with both Experiment Station and Extension Service personnel working hand-in-hand to compile a package of invaluable information for grain sorghum producers throughout the state and nation.

According to Horne and rederiksen, disease is a limiting factor to top grain sorghum yields in many areas of Texas, especially in the South. And genetic resistance is the best means of controlling these diseases

More Cattle On Feed

There were more cattle on feed across the nation in October, so downward pressure on fed beef prices should continue for the rest of 1972 due to the larger available supplies.

Prices will probably change little, though, until the first of the year, and there will not be too noticeable a difference until the spring months," said Dr. Ed Uvacek, livestock marketing speckalist for the Texas Agricultural Extension Service, Texas A&M Univer-

"The October 1 cattle on feed report shows 11.8 million head in the 23 major feeding states, a 10 percent increase over last year. At the same time the number of cattle on feed in Texas was 30 percent above a year ago," commented

Cattle and calf placements into lots during the July-September quarter dropped to 6.2 million head, a slight drop from the comparable period last year. However, in Texas feedlot placements during the same quarter were 23 percent

above last year, noted the

specialist.

Fed cattle marketings in the October-December quarter of this year are estimated at 6.6 million head, seven percent more than were marketed in the last quarter of 1971. Expected marketings from Texas lots are estimated to be 30 percent greater in the

this year. "Texas cattle feeding continues to grow in leaps and bounds," said the specialist.

"The information we have obtained from these tests should be mutually beneficial to both producers and commercial seed companies,' pointed out the pathologists. And it should be valid for all grain sorghum producing

"With this information producers will know the disease reaction of the hybrid they select. Of course, they need to consider only those disease ratings for the diseases that occur in their fields. For example, if downy mildew is a problem, a hybrid should be selected that has a high yield potential and is resistant to that particular disease."

Horne and Fredriksen contended that the disease ratings should provide producers with an important management tool that will help them reach the most profitable level of production.

How To Select Christmas Tree

There's no substitute for the beauty of a natural Christmas tree if it's wisely purchased and safely used, says Bill Smith, forestry specialist for the Texas Agricultural Extension Service, Texas A&M University.

Texas imports nearly five million Christmas trees annually, some as far away as Western Canada, points out Smith. As a result, the trees are stored in boxcars that undergo temperature extremes.

Those exposed to warm temperatures for a period of several weeks may already have dried out by the time they're put on our Texas markets," Smith notes.

To keep a Christmas tree fresh and green, he suggests these guidelines: 1. Buy your tree early. This

will enable you to be selective purchasing a reasonably fresh tree. Check for signs of needly shedding and brittleness which indicate excessive

Ernest West Speaks To Rotarians

Ernest West, minister of the City Park Church of Christ, spoke to the Floydada Rotary club luncheon Wednesday.

He associated the principles of Rotary and the attitudes that make a good Thanksgiving in his talk.

He was introduced by Rotarian Walton Hale.

Rotary sweetheart Lisa Gregory brought green "Remember The Tie" paper ties for the Rotarians to wear until the Littlefield-Floydada bi-district game.

"After thorough and exhaustive tests, it is the opinion of this clinic that your kid is a nasty little creep."

Process Improves Discount Cotton

New processing techniques hold the potential for expanding the use of "discount" cottons, according to the National Cotton Council

ntensive research by the U.S. Department of Agricul-

OFF HALE'S FINGERTIPS . . . Whirlwind end Mike Hale, surrounded by Littlefield defenders Alan Mackey (13), Leneral Lewis (33) and J. E. Johnson (45), narrowly misses a reception of a John Cagle pass in the fourth quarter.

ture's Southern Division at New Orleans, in house and under contract with the Texas Research Center, Lubbock, has developed methods of blending, processing, and producing textile products

from these cottons The USDA points out that this has increased the demand for these lower quality cottons. As a result, the farmer benefits from receiving a higher price, and the textile industry and consumer get lower cost prod-

ucts. According to the USDA, 25 per cent of the cotton crop falls into the category of "discount" cotton. This is cotton sold at reduced prices because it is too fine fibered, too coarse, or too short.

(Staff Photo by Jim Huggins) WINDS FROM PAGE 1 break as the snowy weather

cleared just before sunset. Although it was plenty cold, there was no snow or rain during the game.

Floydada kicked off at the beginning of the second half and the Wildcats returned the ball to the 44. They made six on the ground, then lost two, had to punt and it was good for only about 27 yards.

Floydada looked good at this oint . . . they promptly made two first downs . . . Vinson ran for nine, then three, Cagle hit Vinson on a 13 yard aerial, Vinson made another six. Then the Littlefield defense held and Vinson punted.

Littlefield then made two first downs . . . all on the ground, had the ball on the Wind 44, couldn't go and punted.

Hearon took the ball. fumbled, and Littlefield recovered. However the next play the Whirlwind defense jarred a Wildcat runner, who dropped the ball and Mike Hale recovered for the Mean Green.

The 'Winds were able to get the ball out to the 30 and had to punt

Littlefield broke loose with a good offense on the ground . . . ten yards, then the long 22 yarder that gave them the first penetration of the game. The Wildcats took a 15 yard penalty which brought the ball back from the 16 to the 31 yard line of the 'Winds.

Littlefield tried a pass and it was Errick Jones who intercepted it and things were looking up for the 'Winds.

There was 7:31 time left in the game and the 'Winds' began to roll. Cagle made the first down. Then it was Hearon that got the ball just inside the Littlefield 20. . . . penetrations were 1 and 1 and Floydada was ahead 11-8 on first downs. Floydada fans were going wild.

Vinson made three good runs in a row, and it was Cagle who dived over for the TD with 2:53 left in the game. Young did and it was Floydada 7, Littlefield 0.

Littlefield took the kickoff and on the second play Vinson jumped high in the air to intercept a Wildcat pass. It was all over for the Wildcats as the 'Winds held onto the ball until the clock ran out.

Whirlwinds Get Ten Spots On All-District Team

Floydada Whirlwinds have backfield. been named to ten positions on the 4-AA Coaches' All-District team. Two Whirlwinds, Steve Hale and Jay Jones, made the All-District first teams both offensively and defensively.

Jones got the All-District nod at center and linebacker, while Steve Hale made the first unit at offensive tackle and defensive end.

Mike Hale was selected to the first-team All-District group at offensive end, and the Whirlwind halfbacks, Mark Vinson and Jerry Hearon, are in the All-District offensive

Defensively, tackle Terry Bunch joins Steve Hale in the All-District line, and Tony Goen and David Marricle, along with Jones, give the Whirlwinds three of the four All-4-AA linebackers' spots.

Receiving honorable mention in the All-District ballotting were guard Steve Holmes, fullback Rex Rose and quarterback John Cagle on offense, and tackle Lynn Becker, halfback Errick Jones, and Mike Hale, at end, on

Wilson said the Whirlwinds seemed a little flat after last week's "bone-rattler" with Tulia.

"We must re-group and get ready for an all-out effort next week." Wilson concluded. (The 'Winds face number-one-ranked Childress in the regional

RODRIGUEZ INJURED NEAR LONE STAR

Rodrigo Rodriquez who is employed by Floyd Jackson of Lockney was injured Tuesday morning when a horse rared and fell on him.

The accident occured north of Lone Star where Jackson farms.

Rodriquez suffered chest injuries and spent a day in Central Plains Hospital in

experienced as he was evidently unhurt. Picture at top shows bridge posts that car first jumped, then flew through the air, bounced twice before landing on its back in the bottom picture. The second picture from top shows where running gear and motor were lost in first or second bounce, Highway patrolman Bill Dawson said the car bounced or flew some 240 feet and Brown stayed in the car all the way.
