Family Fun Night' Saturday

County 4-H youth and adult leaders Saturday, June 30, on the court house square in Floydada.

The event is scheduled to start at 6 p.m. Saturday, when food will be available on the south side of the square. Folk games and folk dances for the young people will be conducted after the meal.

Proceeds from the Family Fun Night will go toward financing the Texas State 4-H Club Center to be built near Brownwood. The \$2½-million facility, on a 78-acre tract at Lake Brownwood, will serve 4-H youngsters from all over Texas.

During the Saturday-night event at Floydada, the Floydada 4-H Club will sell hot dogs and Frito pie; the Dougherty club will sell brownies and cake; cornbread and beans will be available from the Harmony club; Lockney 4-H'ers will have the cold-drink, coffee and calf-fries concession; and club members from Lone Star will be selling home-made ice cream.

A \$60 pair of western boots will be given away during the event.

Members of the Floyd County fund-raising committee for the late 4-H Center include F. G. Jones (chairman), Mrs. Henry Hinton, Dean Hinton, Mrs. Wilma Colston, Steve Lloyd, Mrs. Kenneth Broseh, Marcia Fortenberry, Mrs. Monroe Schulz, Patsy Schulz, Mrs. Gerald Smalley, Mrs. Gayle McPherson, and Ginger Henderson. Patsy and Marcia

have served as publicity chairmen for the Family Fun Night.

And...everyone is invited...you don't have to be a 4-H member or leader to attend. The event promises to be a lot of fun for the entire family, whether interested in 4-H work or not.

PCA Makes Contribution
The state 4-H Center received a \$150 contribution Tuesday from the Floydada office of Production Credit Association. Floydada officer Buddy Lutrick presented the check to Doyle Warren, County Extension Agent — Agriculture and Billie McMorris, County Extension Agent — Home Economics.

The Floydada office was one of 10 PCA branches making \$150 contributions to 4-H county clubs in the area. All of the \$1,500 donated by the Production Credit Association will go toward financing the new center.

Donna Davis 1973 Farm Bureau Queen

Donna Davis, 16-year-old daughter of Thurman Davis of Lockney, was crowned 1973 Floyd County Farm Bureau Queen Tuesday night in Floydada.

Karin Kunkel, 17, daughter of Mr. and Mrs. Alton Kunkel of Floydada, was named runner-up in the Farm Bureau contest.

Miss Davis was officially crowned by Karen Willis, 1972 Farm Bureau Queen for Floyd County and District 2.

Floyd County Farm Bureau president Boyce Mosley welcomed guests and introduced the master of ceremonies, Spike Wideman of KFYO Radio in Lubbock. Wideman, a Floydada High School graduate, interviewed the seven queen candidates. Each candidate answered the question "Why are you glad your family belongs to Farm Bureau?"

Entertainment was furnished by Joe McLendon of Lockney and the "Amo Te's" a singing group from the

Floydada First United Methodist Church. Piano music was by Penny Bertrand.

Joe Brown, farm and ranch director at KDAV Radio, and Mr. and Mrs. J. C. Harris of

Tulia were the contest judges. Harris is Swisher County Farm Bureau agent.

Giants Clinch Freshman League Baseball Title

The Giants beat the Indians 16-9 Friday, then defeated the Mets 23-6 Monday, and own an unbeatable 9-1 record in the Floydada Freshman Baseball League.

Beedy and Vickers pitched for the Giants in their victory over the Indians. White, Cochran and Green were the Indians' pitchers.

Beedy pitched for the Giants again Monday when they beat the mets. The Giants knocked four homers in the 23-6 victory, two by Kary Helms and one each by Robert Soliz and Marty Daniels. The Giants scored 16 runs in the sixth inning.

Other action in the Freshman League during the past week saw the Mets clobber the Cardinals 20-7 in the early

game Thursday. Marquis pitched for the Mets, and Pruitt, Hodges and Westbrook shared pitching chores for the Cards.

Later Thursday, the Dodgers beat the Red Sox 18-5. Jackson and Davis were

Dodger pitchers, Bradley and Wells the Sox hurlers.

In the late game Monday, the Dodgers eased by the Cardinals 11-10. Jackson and DeLeon pitched for the winners and Hodges was the pitcher for the Cardinals.

Yanks Still Unbeaten, Own T Shirt Crown

The Yankees stretched their Floydada T-Shirt League winning streak to seven games without a loss Monday, wrapping up the league championship with a 13-7 victory over the White Sox.

The Yanks' 7-0 record, with a game to play, far outdistances the second-place teams (the Pirates, White Sox and

Orioles), tied at 3-4, and the Cubs, in the cellar at 2-5.

Todd Beedy was the winning pitcher for the Yanks Monday, and Stephen Hodge took the loss for the Sox.

In other T-Shirt action the past week, the White Sox beat the Pirates 5-3 last Thursday. Norman Allen was the winning pitcher, Terry Westbrook the loser.

The Cubs defeated the

God And Country Program Sunday At First Baptist

A special God and Country program will be presented this Sunday, July 1, at First Baptist Church, Floydada. It is set to begin at 7 p.m.

A variety of musical and dramatic groups will be included in the presentation.

The church's Primary Choir, under the direction of Mrs. Adrain Helms and the Junior Choir, directed by Mrs. Carolyn Cheek, will perform special choreographed numbers.

The church's Junior High Puppet Group will present a show entitled "Betsy Ross and the American Flag." This group is directed by Mr. and Mrs. Bobby Rainer.

Elephant and donkey puppets, representing our nation's major political parties, will narrate the entire program. Their script was written by Mr. Rainer.

Also included in the program will be a flag ceremony. A Boy Scout Patrol will present the flags.

First Baptist's Youth Choir will feature a medley of folk songs with guitar accompaniment. Richard Hunt, Music and Youth Minister of the church, directs the group.

Also, under Hunt's direction the Church Choir will climax the program with a medley of patriotic songs.

Hunt said that the program should be an enjoyable one for all ages. The public is invited to attend.

Super Crop' Harvested

County's harvest is over 95 percent in the

agricultural area. The wheat harvest is in recent weeks with a good yield.

The exact amount harvested is available, but the overall yield of the county is 25 to 26 bushels per acre.

Wheat is the main crop for the county, and the quality is better than the

Floydada area. The area has a good yield with a

Plains area financed by the Water Development Board. In addition to the \$8-million Mackenzie project, the Texas Water Development Board finances the White River, Greenbelt, and North Central water projects, all within a two-hour drive of Floydada.

The Mackenzie project, when completed, will serve as a water reservoir for Floydada, Lockney, Tulia and Silverton. White River serves Post, Crosbyton, Ralls and Spur; Greenbelt serves Clarendon, Hedley, Crowell, Childress and Quanah; and North Central will serve Haskell, Knox City, Goree and Munday when completed. All are, or will be

when completed, treated-water projects.

The Texas Water Development Board is a \$400-million-dollar loan project for water projects in the state of Texas that cannot be otherwise financed. Some \$22 million, including a projected \$8 million total for Mackenzie, is on loan for the four Plains-area projects, according to development fund manager Burger.

Shurbet, one of the first appointees to the board, said "We are pleased and happy that we have been able to get this type of project in this area." The TWD board vice-chairman, a Floyd County resident with a Petersburg address, has served on the board for 16 years. Originally appointed by Governor Price Daniel and has served under Connally, Smith and Briscoe. Shurbet was at one time chairman of the Water Development Board. He was appointed as the "farmer-rancher member" of the board, a six-man state agency appointed by the governor.

The Mackenzie Dam gate is due to be closed in December of 1973 or January of 1974, members of the inspection team said Tuesday, and the dam will immediately begin collecting water for future use by the four cities. A pipeline will ultimately be constructed to bring the Mackenzie water to Floydada.

A \$200 reward is still being offered for information leading to the "arrest and conviction" of person or persons poisoning the dogs. The reward has been made up by concerned citizens of Floydada who have lost pets recently to the poisoning and by those with small children who may accidentally come in contact with the poison.

Improved Grasses Increase Texas Beef Production

There's a lot more beef in your favorite grocery store because of improved grasses planted by Texas conservation farmers and ranchers.

In fact, an extra 335 million pounds of beef is produced in Texas every year from grasses released by the USDA Soil Conservation Service.

Edward E. Thomas of Temple, state conservationist for SCS, said the figures came from a recent study conducted by his office.

"Our survey revealed that in the last 20 years, 5.9 million acres of land has been planted to new grasses released by SCS," Thomas said. "Statewide, increased beef production is averaging 56 pounds per acre per year from these grasses. And the average climbs every year."

Thomas admitted that he didn't know how much this affected the price of beef for the housewife.

"But take away that 335 million pounds of beef every year and prices would have only one way to go — up," he stresses.

"In the past 25 years, annual beef consumption has jumped from about 64 pounds per person to 113 pounds. Meanwhile, our state's population has increased by more than 50 percent. That adds to a gigantic increase in the demand for beef."

Without improved grasses and better conservation treatment of grassland, this demand would outstrip available supplies.

Thomas said 23 grasses released by SCS are being grown in Texas. Each has its own area of adaptability and is used to fill a specific conservation need.

To illustrate how quickly some new grasses become popular with livestock producers, Thomas told of the success of Selection 75 kleingrass.

"We released this grass to commercial seed growers, in cooperation with the Texas Agricultural Experiment Station, in 1969," Thomas said. "In spite of the fact that seed are expensive and scarce, 132,000 acres have already been established."

And even though much of this land has not been grazed as yet, increased beef production from this one grass amounted to 11 million pounds last year.

In addition to the increased beef production, the survey revealed that the new grasses have increased mutton production by more than 1.1 million pounds. Smaller increases were noted for milk, mohair, wool, and goats.

Increased beef production is only one benefit from improved grasses. Others include erosion control, reduced sediment damage to lakes and streams, fewer dust storms, and more abundant wildlife.

The South Plains Telephone Cooperative serves the Texas counties of Lubbock, Hockley, Hale, Terry, Lamb, Castro, Cochran, Lynn, Crosby, Floyd, Garza, Dickens and Swisher.

Baccus Named To Deans List

Brad Baccus, son of Mr. and Mrs. Rusty Baccus of Lockney was named to the Dean's Honor list for the past semester at South Plains College in Levelland, according to Nathan Tubbs, Dean at SPC.

To make the Dean's list a student must maintain a 3.25 grade point average out of a possible 4 point grade average. Baccus maintained a grade point of 3.63 for the spring semester at SPC.

Baccus is a 1972 graduate of Lockney High School, and a business major at South Plains College.

Weevils' Travel Habits Clocked

Fall is apparently the favorite time of the year for travel by boll weevils.

While this information may not be of much help to travel agencies, the National Cotton Council says it is an important clue to scientists who are working to perfect better control methods for the cotton pests.

The distance covered by the weevils in their fall gallivanting also interests scientists. By clocking the insects' mileage, they can determine the size of an area that should be included in large-scale control experiments.

Results to date indicate that control areas should be extensive. More than 300,000 weevils were caught, marked, and released in the recent study. Some were retrapped two miles away after two months, while others flew 16 miles in two weeks.

A report on two history-making grain movements

Two "Backbreakers" BACK-TO-BACK

1. The huge export grain movement

(Santa Fe can report "mission accomplished" for moving its share of grain to Russia — just one phase of the big export job!)

2. The largest winter wheat harvest in history along the Santa Fe

(Now getting underway)

Moving millions of bushels of grain is a big job. To move it in a limited time period while the economy is booming and all shippers calling for more cars and service, makes these huge transportation projects "BACKBREAKERS."

Santa Fe is setting records meeting current demands for service, but no backs are being broken. For example, since last August Santa Fe has moved over 150,000 carloads of grain, a 50% increase in shipments. That's a staggering amount, but it's only part of the story.

With no prior notice to the rail industry to make special preparations, the Russian grain movement of 400-MILLION bushels was announced last year with a completion deadline of May 31, 1973. At the same time even many more millions of bushels were also being exported to other nations.

What Santa Fe did. Starting with a transportation system in excellent condition, Santa Fe people put their "know how" and all facilities in full throttle position.

2,000 new jumbo covered hopper cars were added to bring Santa Fe's fleet to 12,000, the largest in the rail industry.

4,100 smaller covered hopper cars were drafted for use, too, as well as regular box cars. Open-top hoppers not normally used for grain were also employed. In addition 64 new diesels are now hard at work moving the record traffic volume.

Even with all of this, special measures were worked out at considerable expense to the Santa Fe for handling cars to minimize port congestion and keep the railroad fluid.

Santa Fe can report "mission accomplished" for handling its share of the grain to Russia, and we still have other export grain to move, but the big job now ahead is moving this year's harvest.

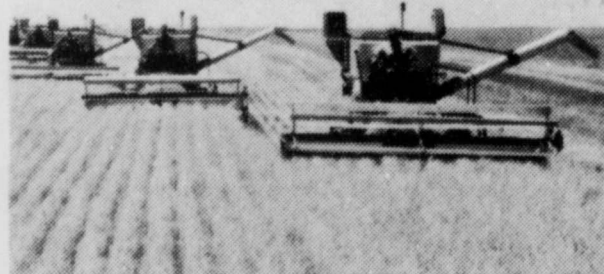

Largest wheat harvest along the Santa Fe, 687-MILLION bushels The harvest extends from Texas, across Oklahoma, Kansas, into Colorado and New Mexico. It is already started. It is a vast project and the Santa Fe job is to move the wheat to elevators during the brief period of harvest time.

What Santa Fe is striving for principally is more efficient car utilization, faster yard operations and the best possible use of locomotives to move the grain while keeping all freight rolling.

It's a job that can't be done without the help of everyone in the grain industry and cooperation of all shippers. With everyone working together, two of the greatest moves ever recorded in the history of rail transportation will be accomplished — the huge multi-million bushel export grain movement and the largest harvest in history along the Santa Fe. **Two "BACKBREAKERS,"** back-to-back, with Santa Fe putting its best efforts into getting the job done.

Santa Fe employees who have worked long and hard on the export wheat project are now focusing all efforts on the new harvest.

The harvest moves at a record pace with Santa Fe kept busy hauling the new grain to elevators and milling centers.

2,000 new jumbo covered hoppers bring Santa Fe's fleet to 12,000. These giant cars are ideal for moving grains, potash and other bulk commodities.

Daisies Can't Tell

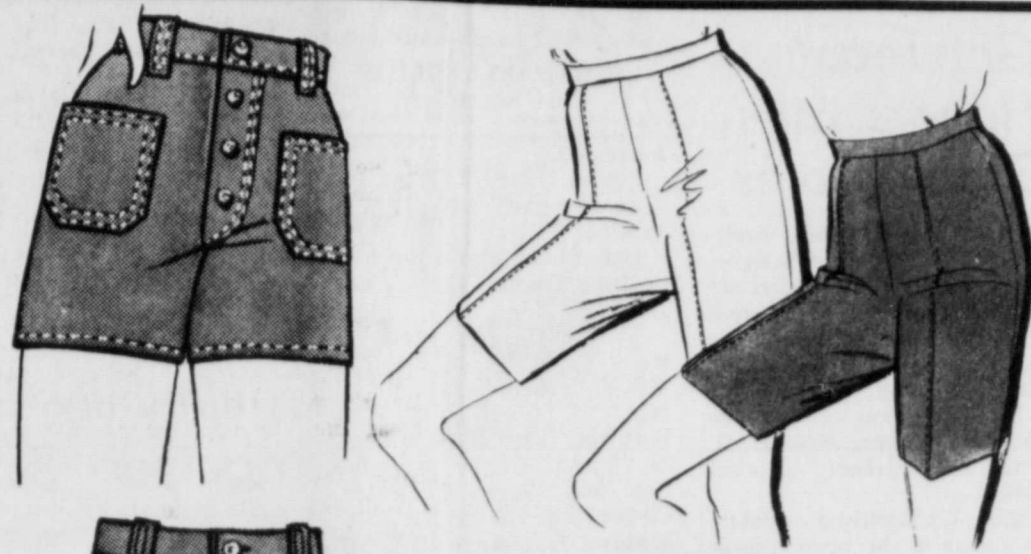

Growing plants don't know the difference between fertilizer elements derived from chemical fertilizers and those from organic substances. And the American Medical Association says there is no basis for claims that organically grown foods are nutritionally superior to those grown by modern agricultural methods. Dr. Ruth Leverton of the U.S. Department of Agriculture goes further in debunking such claims. She warns that foods produced with organic fertilizers can be the source of salmonella and other microorganisms that contaminate food.

BY PEGGY MEDLEY

IT'S almost plum hunting time again. Most anyone on the plains could have their own plum thicket, with hardly any trouble... but like everyone else we would rather make it a picnic and gather plums along the creek beds and in the wilds.

BICYCLES are booming. People have long been biking for exercising and recreation but now more and more Americans are mounting bicycles for basic transportation to work or to the store. There are the three wheelers for grandpa and grandma and the regular two wheeler that some grandpa and mas can ride. In fact one Floydada man told me the other day that he was 52 years old when he learned how to ride a bike. Do you want proof that bicycles are booming? There are 85 million cyclists, young and old - in this country today. Last year alone, 13.8 million new bicycles were sold in comparison with 10.9 million new cars. That's the first time since World War I that bike sales have topped autos.

Mothers are putting baby-seats on their bikes and doing errands with Junior for company. Oldsters are filling their shopping baskets on their adult-size trikes as they pedal around town.

One word of caution: Though summer time is wonderful for biking, it can be risky; More cars are on the road...so bike with care.

NEIMAN-Marcus, Dallas, is advertising Polo ties by Ralph Lauren. Know what a Polo tie is? It's a tie with a front pocket with button down flap, for holding tollroad change, coffee money, matches or your vitamin pills. The Polo tie is available in Denim blue or khaki cotton.

GOV. Dolph Briscoe praised our youth Monday by saying the young people are always the first to come forward to defend the United States. In to the bride-elect following the gift opening party.

Guests present were classmates of the bride-elect, Mrs. Louis Pyle and Janie of Floydada; and Mrs. Sterling Cummings and Dee Earle.

This was a good week at our home, except for Pearl Britton and L. H. Aldredge being ill; however, both seem better. He was able to be up visiting Monday and we hope Pearl will be up soon.

Some of our residents have been receiving letters from important people lately and we feel like others should know about them. Here is one to Mom Buchanan:

Dear Mrs. Buchanan:

I understand that you recently celebrated your 97th birthday.

Mrs. Brisco and I wish to join with your many friends and loved ones in extending warmest personal congratulations to you.

I sincerely hope the day was a memorable one.

Sincerely,
 Dolph Brisco
 Governor of Texas

She also received a letter from Bob Price, 18th District member of Congress and Omar Burleson, House of Representatives.

We are very glad they take time out in their busy lives to let our residents know they appreciate them.

All our residents who reach their 90th birthday in 1973 will get letters like these.

Thursday Bingo was fun and we had two new players, Mrs. Clark and Mrs. Hammonds. Both won at least one game.

Mom Buchanan was our big winner with three games.

We have three new residents, Hope Hammonds, Berta Campbell and Vernon Payne. We hope they will be happy here as we are happy to have them.

A-J Photographer Takes Fifth Place For NPPA Award

Avalanche-Journal photographer Milton Adams — who has been bowled over by an oblivious griddler during a nationally televised game, chased by police and narrowly missed by a tornado while shooting his photos for the paper — recently walked off with two more awards to add to a growing list of photo credits.

Two photos he shot the day after a twister raked Plainview, taking two lives, won him first and third place slots in the April clip contest of the National Press Photographers Association, Region 8.

The two honors moved Adams into fifth place for the NPPA Photographer of the Year Award for the region, which includes Texas, Louisiana and New Mexico.

The first place photo is of an elderly man supporting himself with a cane while looking at the rubble of his home. The photograph not only ran in The Avalanche-Journal and most major Texas dailies, but also on the front page of the New York Times.

Adams, 26, has worked for the Lubbock paper about three years, and was one of two men outside The Avalanche-Journal building on assignments the night the May 11 tornado took the city. Fearful Adams had been injured, an editor later found him in downtown Lubbock. He had been driving toward the newspaper when the twister struck, and luckily pulled into the downtown area moments after, instead of before, the deadly twister hit.

Later that night Adams drove news photos of the Lubbock damage to Amarillo both for the Lubbock paper, and for transmission to the wire services.

Adams is no stranger to twisters. He has provided photo coverage of tornados twice in Plainview, as well as twisters in Lubbock, Cotton Center and Hereford.

Two years ago, Adams recalled with a grin, a player bowled him over during the nationally televised All-America game.

"And man, did people recognize me," he laughed.

Twice, he recalled, police have chased him while he was

trying to get a photograph during late night occurrences.

Once an officer chased him several blocks on the way to a wreck, not because he was speeding, but because another car was trying to race with him.

"I didn't know either car was there," Adams admitted.

Adams is a Lockney High School graduate and the son of Mr. and Mrs. Quentin Adams of Aiken.

Hewitt was the second person to die from the results of the wreck, which occurred Saturday evening east of Tulia. Jamie Altman, three and a half year old daughter of Mr. and Mrs. Danny Altman of Tulia, died about 8:45 p.m. in Swisher Memorial Hospital. The car in which the child was riding with her mother and sister reportedly caught fire after the collision with Hewitt's pickup.

Family Members Of Mrs. Reed Killed In Mishap

Word was received here early Tuesday morning by the Ray Reed family of the tragic death of Mrs. Reed's sister, her husband and a 16 year old daughter, killed in a pickup camper wreck around midnight Monday near Indianapolis, Indiana.

The family, Mr. and Mrs. Tom Woodmass and daughter, Debbie, of Phoenix, Ariz., were the accident victims. Two other daughters and a son traveling with their parents, were said to be all right. An older daughter of Mr. and Mrs. Woodmass remained in Phoenix and was to have flown to New York later in the week to meet the family, where they were to vacation and visit Woodmass's parents.

Mrs. Reed said her sister and family were in Floydada Sunday visiting them and left here enroute to New York. Survivors of Mrs. Woodmass, age 37, other than her children include her mother, Mrs. Emma Thompson of Lubbock, several brothers and sisters, including Mrs. Reed, Floydada, and Mrs. Smead Coke of Lubbock.

Funeral rites for the trio were pending at press time.

SUNDAY EXPRESS

LET'S ANSWER BACK

IS IT NOT TIME that South Africans stopped accepting, without answering back, all the muck slung at them?
By Scandinavians, Dutch, Australians, New Zealanders, British Labourites? The United Nations?
Stopped being so shamefaced about being South Africans?
Stopped being so prepared to adopt the timorous line: "Of course we are maligned, of course the world applies double standards to our disadvantage, but we do have a government whose policies stink in the nostrils of the world; therefore, as a nation we have only ourselves to blame, for we have the rulers and the reputation we deserve."
A high price, but . . .
This is only true up to a point. Apartheid does stink. Separate development is hardly any better.
And South Africa, because it practises racial discrimination by legal enactment, must perforce pay a high price for its policies.
But we cannot allow ourselves to be branded as the world's No. 1 Racists. Attacked viciously. Condemned universally. Maligned perpetually.
A nation supposedly without any redeeming features.
A nation which is hounded and black-garmented.
By nations and peoples who have no right to cast stones at us.
Communist States which deny democratic freedoms.
Black States which are one-party dictatorships and in which millions of people die (Biafra and Uganda being only two examples) for ethnic or tribal reasons.
Asian States which have killed, maimed and ravished countless numbers of people in territorial and ideological wars.
Sickly States.
Scandal-ridden States.
A sum of human and national failings which is a blot on the peoples concerned and on mankind itself.

Too meek
In this company we certainly do not deserve to rate as the polecats of the world. Yet we do.
Because, besides having racial policies which are open to severe criticism, we are too meek.
Too browbeaten.
Seemingly incapable of hitting back.
Allowing our enemies to brand us as a nation of jackbooted monsters.
We appear to be afraid to tell the world: Yes, we err badly. Yes, we sin grievously. Against God and against man.
But we are not unconscious of our failings.
We are striving to better the lives of people of colour who are as much inhabitants of this country as we, the Whites, are.
We are doing much that is positive. It is not all grim. It is not all inhuman.
The Blacks, despite racial discrimination, are advancing.

Right to fair play
Internationally, we must express our play in the same way as we play. We have a right to demand standards should not be applied more than they are applied to us.
We have a right — as all nations have — to seek our own solutions to our own problems, without force from any other country, or from guerrillas, or from foolish backing of countries illwill.
And we have a right to say against us, whether they be cultural, or any other basis: to isolate us to an even greater degree than we are already isolated; or to attempt to force change on us by isolation or any other means.
There must be a peaceful solution can only come about changes made within this country. As for us South Africans, stones, either, since we all live political affiliations, in a country the enterprise of the White sweat of the Blacks.
We are all guilty of this and we are all responsible for these faults are rectified.
We need to achieve once a national purpose, of pride in our belief in our future.
That is the true message of which we have just celebrated.
