## and finally the rains Praise The Lord!

### Farmers All Smiles

It may be too wet to plow Saturday, and the abundant rains that have come to Floyd County could lead to a good voter turnout for the Primary election. It seems that the Dougherty area got the first rains...with a half inch reported on Saturday night. Off the Caprock over an inch was received on Saturday night.

Sunday night and Monday night scattered showers dotted the county, but the big rainfall came Tuesday night and Wednesday morning as a cool front came across the county.

Although the rains did not come in time to help most of the dryland wheat, it will help fill out the grain on what is left. Floyd farmers will certainly benefit in getting the row crops up as some had already planted grain sorghum and a little cotton. Corn was already up and growing on irrigated farms.

The dryland farmer had to have this rain in order to plant. See page 8 for rainfall reports all over the county.

## Saturday Is Voting Day

## Hernandez And DeLeon Vows Read In Lubbock

Wedding vows for Christine Hernandez and Sammy DeLeon were read April 27 in the Christ the King Catholic Church in Lubbock. Rev. Msgr. James E. Fitzgerald performed the twin-ring ceremony at 4 o'clock p.m.

The bride is the daughter of Mrs. Mary Hernandez, 2709 2nd, Lubbock, and the groom is the son of Mr. and Mrs. John C. DeLeon Sr., of 404 40th, Lubbock, former Floydada residents.

Given in marriage by her grandfather, Delfino Garcia, the bride wore a formal gown of bridal organza, fashioned with flower motifs scattered over the skirt, and used again on the bodice and long full sleeves. The skirt was bordered with a full ruffle touched at the hemline with daisy motifs. Her ribbon and flower headpiece held a waist length veil, from which also descended a floor length chapel train bordered with lace.

The bride presented her mother with a rose as she was being escorted to the altar, and both she and her husband presented his mother with a rose as they left the altar.

Miss Irene DeLeon of Lubbock, sister of the groom, was maid of honor. Mrs. Olivia Tijerina, Lubbock, was matron of honor,

and Mrs. Junior Martinez, Floydada, was bridesmaid. They wore blue dotted Swiss ensembles with bell-shaped sleeves and white lace trim.

Other attendants in the wedding were Mr. and Mrs. Blas DeLeon, Junior Martinez, Floydada; Mr. and Mrs. Demetrio Cristan, Mr. and Mrs. Lupe DeLeon, Mr. and Mrs. John DeLeon Jr., Mr. and Mrs. Manuel Martinez, Miss Evelyn Martinez, and Amador Tijerina, all of Lubbock; Miss Olga Garza, O'Donnell and Jerry Barron, Austin.

Pete Ybarra, Lubbock, was best man and Steve and Domingo DeLeon were ushers.

Serving as flower girls were Debbie Martinez, Floydada, niece of the groom, and Cynthia Diaz, Roswell, N.M., niece of the bride.

A niece and nephew of the bride, Eric Tijerina and Crystal Martinez, were ring bearers.

Following the wedding a reception for the newlyweds was held in fellowship hall of the church.

Mrs. DeLeon is a graduate of Lamesa High School and is employed by Texas Instruments. Her husband is a graduate of Floydada High School and is presently employed by Dunlaps in Lubbock.

## Progressive Dinner Enjoyed By Athena, Il Penseroso Clubs

Athena Junior Study Club hosted an international progressive dinner with Il Penseroso Junior Study Club as their guests, Saturday evening, April 27.

The group met at the Jack Frizzell home and from there they began their tour by bus with Bobby Hise as the driver and guide.

First stop was Hawaii at the Roy Turley home where the group was met by hostesses Sue Zorger, Jeannean Hise, Martha Sue Lusk, and Sandra Turley. The hostesses were dressed in Mu Mu style dress with leis for each guest as they arrived. Appetizers of fresh pineapple, coconut, bananas, avocado dip and chips, and pineapple juice cocktails were served. After a hula contest won by Mrs. Jack Frizzell, the group then

papaya plant, is a familiar item to most housewives. . . but in hospitals? Doctors in hospitals in Boston and Chicago are using the extract to tenderize slipped spinal discs, a treatment, they say, that relieves pain and spares many patients surgery.

A TEXAS cattle baron, charged with illicit land grabbing years ago, took the witness chair and protested

boarded the bus for salad in Mexico.

In Mexico at the Joe Henson home, hostesses, Kay Williams, Sally Carthel, Beth Calvert and Judy Henson were dressed in festive Mexican attire and served Dorito salad with homemade flour tortillas, with a tean and pineapple drink. A pinata was broken (with a little help) by Linda Kidd, and then once again the bus was headed out for another country, this time Germany.

The main course was Berroks, a meat, vegetable, and bread all wrapped up in one delicious dish. With the Berroks was served melon balls, and tea. German dress was worn by the hostesses, Vida Hrbacek, Pat Ritch, Jan Mize, Jan Widener, Peggy Wiley and Kay Bowles. A German fold dance was then demonstrated by Jan Mize with a few brave ones of German descent trying to follow along.

Next stop was in France at the James Poole home. It was really elegant — very "French". Served on spark-

ling silver were some beautiful assorted French pastries and coffee. Hostesses for the dessert in France were Virginia Taylor, Barbara Mathis, Emma Lou Fry, and Sheila Poole. Janey Fields, the French artist, displayed some of her work and presented each guest with an original miniature painting.

The final visit of the evening was to Japan in the home of Douglas Meriwether. Here, fortune cookies and a lime drink were served by hostesses, Virginia Owens, Lydia Watson and Donnie Meriwether. At this stop the guests were forced to retreat from the beautiful Japanese tea garden into the

Meriwether garage by the rain and wind. It was still lovely and we will give up our tea garden any time to some rain. SOYONARA was the clapping of hands and singing "Blessed Be the Tie That Binds".

Those attending other than the above mentioned hostesses were Mmes. John Peck, Dub Hallmark, Jack Frizzell, Omar Burleson, Edwin Teeter, Roy Kidd, Bill Evans, Kenneth Holt, Keith Jackson, Joe Hawkins, Charles Smith, Delvin Bybee, Cliff Hardy, Billy Karl Race, Ronnie Thornton, Jerry Cawley, Buster Terrell, Tom Taylor, Jerry Johnson, Jerry Perry and Bill Bigham.

# Where It Rained

## Pioneer Natural Gas Shares Down From 55¢ To 51¢

AMARILLO — Pioneer Natural Gas Company today announced that the consolidated net income for the first quarter of 1974 was \$3,779,042. This amounts to 51¢ per share compared with 55¢ per share for the first quarter of 1973.

Pioneer also announced that Pioneer Production Corporation's fourth well in the Jennings Townsite Field in Jefferson Davis Parish, Louisiana, has run electric logs and these logs indicate that two formations are productive. These sands are also present in the three wells previously drilled by Pioneer in the field. In addition to these productive formations, a new pay has been established below a new fault. Production casing is being run at this time and drilling will continue to test deeper sands. These sands should be encountered at depths higher than in any of the other wells that have been drilled in the field.

According to K.B. "Tex" Watson, president of Pioneer Natural Gas Company, there were four principal reasons for the failure to increase earnings during the period.

Watson pointed out that the weather was very mild with the result that volumes of sales to heating customers were off in excess of 17 percent from the same quarter of 1973. The total volumes of gas sales were practically unchanged with the deficiency in deliveries to domestic and commercial customers being made up by increased sales of gas for irrigation and industrial customers at comparatively lower contract rates.

Due to spot and accelerated purchases, the average cost of gas increased more rapidly in the quarter than would be expected in the second and third quarter of the year with the increase not yet reflected completely in cost-of-gas adjustments to customers.

Extremely low rainfall in the service area has caused irrigation sales to exceed those experienced during the first quarter of previous years, particularly as pre-plant watering accelerated in March. These larger sales of gas for irrigation are, to a noticeable extent, reflected in cost of gas purchased for which no revenue has yet been realized due to the billing cycle.

During the first quarter revenue from gas sales increased \$2.8 million from the same quarter of 1973 while gas purchased cost increased \$5.3 million. Total revenues increased from \$35.2 million to \$47.6 million with sales of heavy machinery up over 50 percent and contributing \$5.3 million of the increase

and the new revenue from contract drilling of oil and gas wells contributing \$3.5 million. Increased profit was realized from each of these activities but the profit margin on sales of heavy equipment is relatively smaller than for the other principal activities of the company.

Finally, Watson pointed out that the depreciation rate on total gas plant in service had been increased from three percent to four percent effective January 1, 1974.

## Band Boosters Install Officers

Jack Covington will remain on the board as past president.

A financial report was given by Turner showing a net increase in cash on hand over the prior year.

A report was also given by band director Steve Schmidly on the Greater Southwest Band Festival held in Amarillo last week. He said the Whirlwind Band received a one rating in sight reading and a two in concert at the Festival. He praised the band members for their good work this year, including individuals who received ratings at the Festival. Schmidly also extended his gratitude to band boosters, school faculty, students and entire community for their cooperation during his year with the Whirlwind Band, and told the group of his plans to enter law school next school term.

just a shortage of gasoline, heating fuel, electricity, and the resultant shortage of goods. It means a woman must exercise more caution than ever when she is walking on the streets or driving along the highways. The Crime Crisis combined with the Energy Crisis spells danger, and women, since they are the more vulnerable, are being warned to be even more alert than before.  
 The National Safety Council whose "Safety on the Streets" campaign has been in operation for over two years, is urging women whenever they must be out on the streets and highways at night to get extra thought to the dangers which may confront them and to plan their routes and actions in advance.  
 Common sense dictates that a woman will not be out alone unless absolutely necessary, but if she must be, the National Safety Council recommends she carry a flashlight, hold her purse close, and not walk in or near dark alleys or bushes.

 8311, the "Golden Bronze Yield Leader," has been our most popular — so popular, in fact, that it may be in short supply in some areas. The reason is that the demand has been so great downstate where tolerance is so important. Fortunately, there are several other hybrids that are proven top performers on the High Plains. If you call 8311, ask your dealer about these.

- PIONEER Brand 8417**  
 This versatile yellow endosperm sorghum is a champion yielder in the medium-late maturity class, for irrigated or non-irrigated land. It has large open heads, uniform head height, strong stalks for easy threshing, good tolerance to smut and anthracnose.
- PIONEER Brand 820**  
 This top-notch full-season hybrid, is a consistently high yielder. Excellent drought resistance and standability plus good roots and stalks make it a good choice for irrigated or non-irrigated farming on the plains.
- PIONEER Brand 828**  
 One of the highest yielding sorghums you can plant, this full-season hybrid responds well to good management on good land with plenty of water. Plains growers like it because it holds its quality and threshes well even after an early freeze. It produces sturdy stalks with semi-compact heads of dark red grain.
- PIONEER Brand 846**  
 Famous for its versatility and adaptability, this medium maturity hybrid yields along with the full-season varieties. Resistant to smut, rust and MDM, its outstanding hybrid vigor and excellent drought resistance help it turn in consistently high yields even under stress.

## Spirits don't exist— not even in Kansas City

By Abigail Van Buren

© 1974 by Chicago Tribune-N. Y. News Synd., Inc.

DEAR ABBY: I don't know if you believe in spirits. I never did, but something happened that really got me thinking, and I don't know who else to ask about this.

When my husband was in Kansas City on a business trip he looked up an old girl friend just for old time's sake, and she told him that I had visited her some years back under very mysterious circumstances.

Abby, I have never met this woman in my life. In fact, I have never been to Kansas City. Now here is where the spirits come in:

My husband swears that this girl is telling the truth and that somehow my spirit left my body and went to Kansas City to visit Agnes. He says that Agnes described me to a "t," even to the mole I have on my right cheek, so now I don't know what to think.

Can you explain this? I am all bewildered and confused.

WONDERING

DEAR WONDERING: I don't believe in spirits. Even though you've never been to Kansas City or met Agnes, perhaps Agnes has seen you or a picture of you. Or possibly you have been described in detail to her. Don't worry about it. There is no evidence that spirits exist, much less leave the body and go to Kansas City.

DEAR ABBY: I am 14. My mother remarried two years ago. The problem is that before she remarried, she used to spend all her time with me and my little brother. As soon as she remarried she started spending all her spare time with him.

She is always sending us to the movies, park, etc. just to get us out of the house so she can be alone with him. My younger brother doesn't realize it, but our mother buys us things to make up for it. [Her shutting us out.]

Do you think I should have a talk with her and explain how I feel? I don't have anybody to tell my troubles to. Please help me. I feel so alone.

SHUT OUT

DEAR SHUT: Yes. Tell your mother how you feel. It will open the door to conversation and give your mother an opportunity to tell you how she feels, too. Instead of resenting the time your mother spends with her new husband, you should be glad she has found someone with whom she is so obviously compatible. If she's actually neglecting you and your brother, she may not realize it until you speak up.

DEAR ABBY: In response to the mother of an 11th grader who is upset about the four-letter words in the books assigned him to read by his English teacher.

Mrs. Upset states: "If I heard my son using such language as he is being forced to read, he would get five knuckles in the mouth."

As a mother and teacher it is my opinion that there is more suffering in this world caused by parents who think parenthood gives them the right to apply five knuckles in the mouth than by all the four-letter words that ever were.

Just as beauty lies in the eye of the beholder, so does filth in literature. To this beholder, dirty words, if used at all, might better be used to describe man's inhumanity to man: the inhumanity of assuming the right to judge the values of another person and further assuming the right to physically assault another person because of a difference in values.

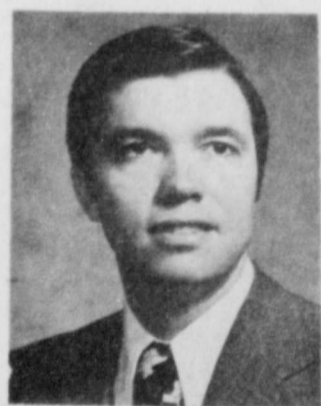

A WISCONSIN MOTHER AND TEACHER

DEAR MOTHER AND TEACHER: Beautiful! Your students are fortunate, and your children are blessed.

Hate to write letters? Send \$1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Cal. 90212, for Abby's booklet, "How to Write Letters for All Occasions."

### Gets Twisted Up In Economic Theories This Week

Editor's note: The Floyd Philosopher on his Johnson grass farm gets all twisted up in economic theories this week, his letter indicates.

Dear editor: A neighbor of mine who works all the time except when he's seeing a doctor about his ulcer brought me a newspaper clipping the other day and said, "Look at this."

The article reported on the plight of a young married couple which it said was typical of a lot of young people today. They're head over heels in debt despite the fact they make about \$12,000 to \$14,000 a year.

It went on to describe the situation. The couple needed a car, so, not having any cash on hand, borrowed \$500 from a loan company for the down payment and financed the rest in the regular way through the car dealer. They bought gas with credit cards, and when a bank sent them a new-style credit card, they used that to buy other things, like a TV set, etc.

Anyway, they soon found out their monthly installment payments were almost equal to the husband's pay check.

Now what interests me about this is the

### Some Scouts Like Rattlesnake Steak... Some Don't

Scout Troop 357 experienced an unusual weekend. They camped off of the caprock at Cogdell's ranch, preparing for the coming Camp-O-See on May 3-4 and 5 at The English Ranch near Crosbyton.

While working on their scouting skills two large rattlesnakes were killed by the adults. They were dressed and put on the menu for the night.

Some scouts thought it was the best meat they had ever tasted, others said "ugh" and ate only the food that was originally planned for the night. Eighteen boys with leaders Jerry Finley and Don Daniel, special guests Jack Covington and Bill Day, made the trip.

### Elected To Weed Control Board

Final returns from the ballots mailed in for the Board of Directors for the Floyd County Noxious Weed Control District gave the positions to Paul Schacht and Ray Ford.

Schacht replaces Ray Aston in Precinct 2 and Ford replaces Wayne Bramlet in Precinct 3.

The District is busy spraying bindweed on farmland and highway right-of-way and will begin County barrow ditches as soon as the herbicide is obtained.

All fence row applications that have already been turned in at the District Office will be worked in.

Wayne Lipham stated that he would rather do this type work starting in the fall so that the District might be through with fence row treatment by the last of March. Bindweed is beginning to show around April 1. The District needs to devote as much time as possible in the treating of bindweed. The annual audit report has been filed with the county clerk's office.

# Your vote urgently needed Saturday, May 4th!

## Light Voter Turn-Out Expected... YOUR VOTE COUNTS

- VOTE AGAINST -** Increased Revenue for Organized Crime through Illegal Bookmaking
- AGAINST -** A Cancer that Will Grow Into Legalization of Other Gambling Activities.
- AGAINST -** An attempt to Raise Revenue "Swindling" citizens rather than taxing them.

### Here are the facts on gambling...vote 'against' on Saturday

**1. What is being voted on Saturday, May 4?**

The proposition that Texas' 64th Legislature should enact a law to permit parimutuel betting on horse racing by local option.  
The issue is betting; not horse racing.

**2. Haven't we voted on this before?**

Yes. Voters in Texas have turned down parimutuel betting seven times in 21 years. In 1968, the year of the last referendum, the majority of voters in 181 of Texas' 254 counties voted "no."

**3. Didn't Texas have legal parimutuel betting at one time?**

Yes, and the results were disastrous:  
A wave of uncontrollable illegal gambling followed on the heels of the legal gambling as it has in every other state since.  
A massive erosion of consumer markets resulted from people spending their current income, as well as their savings, at the track instead of paying their bills and buying the necessities they and their families needed.

**4. Doesn't gambling offer a way out of poverty for some poor people?**

This is the saddest myth perpetrated by gambling interests. For each person who wins, hundreds of thousands gamble themselves into poverty and criminal activities to support their gambling habits. A New York City college professor, quoted in a recent *Wall Street Journal* editorial, explains:

"Gambling is technically a swindle: the payoffs on bets must be less than fair, and the overwhelming majority of the investors must eventually lose their money if the gambling enterprise is to survive and prosper."

**5. Would legalized parimutuel gambling solve Texas' tax problems?**

NO! A state cannot gamble its way into solvency. Legal parimutuel betting has not solved the tax problems of other states. In fact, it is proving to cost more than it brings in.

In our neighboring states that have legalized parimutuel betting, taxes from such betting have never accounted for more than one-half of one per cent of any state's budget.

Gambling interests always inflate parimutuel betting income projections. But even they estimate that total income to the state from parimutuel betting taxes in Texas would amount to no more than one per cent of the total state budget.

Further, gross revenue estimates do not take into account the costs to state government of legal parimutuel betting, such as law enforcement, welfare, administration and lost sales taxes.

**6. If people are going to gamble anyway, doesn't the legalization of this gambling provide a way to control it and draw the gamblers away from the syndicate-controlled bookmakers?**

No. Just the opposite. Law enforcement officials agree that from three to five dollars are bet illegally for every dollar that is bet legally. Legalization of any form of gambling has proven to create a climate in which people are enticed into all forms of gambling.

Legal gambling cannot compete effectively with illegal gambling. Illegal bookmakers give better odds. They offer credit. They let you bet by phone. And they don't report winnings to the Internal Revenue Service.

In January *The New York Times* quoted a 1974 New York City Police Department white paper conclusion that legalized offtrack betting there "rather than eliminating organized crime and driving out bookmakers, has led to a 62 per cent increase in illegal betting and brought more mob-connected figures into bookmaking."

**7. Are all illegal bookmakers tied to organized crime?**

Yes. A bookie is not a gambler. He takes a straight percentage of all bets placed. And he insures himself against losses through a complex system of "laying off" bets with other bookmakers. To get current odds, to protect himself financially, to survive he must be tied to the organized national bookmaking network. This network is controlled by and operated principally for the benefit of organized crime.

"Gambling is at the same time both the main source of illicit revenue for organized criminal syndicates and the primary channel to corruption of police and other officials. Organized crime cannot be controlled unless this enormous financial resource is cut off." (*Reducing*

*Crime and Assuring Justice*, New York: Committee for Economic Development, 1972, p. 49F)

**8. Wouldn't all the money spent at thoroughbred racetracks be a big boost to the Texas economy?**

One of Texas' most respected and quoted economists, Dr. Arthur Smith, says:  
"From the standpoint of economics alone, the case against legalized gambling in any form is overwhelming. In the first place, gambling contributes nothing worthwhile in the economic sense. It adds nothing to the sum total of goods to be consumed. What one person may gain, another person must lose. And in the process, the winner contributed nothing to society."

**9. Wouldn't racetracks and parimutuel betting bring lots of tourists to Texas?**

Few, if any, and certainly not the kind we would welcome.

Studies prove people do not include attending racetracks in their vacation plans. Less than 2 per cent of California's tourists attended any spectator sporting event at all. A survey in Texas in the 1960's indicated that less than one per cent of all Texans even consider horse racing when making travel arrangements.

Texas already ranks fourth in the nation in tourism. Legal parimutuel betting would offer little cause for an additional influx of tourists from our neighboring states. Most of these states, indeed all but Oklahoma, already have legalized parimutuel gambling.

"If the gambling doors are opened further, the money will come from people who are least economically able to lose it; money that should go for food, clothing, education and other necessities will go into gambling. We have enough problems of addiction in our society without introducing another lure."

William Cahn, past president, National District Attorneys Association

### Gambling Ads Said Illegal

DALLAS — Advertisements promoting parimutuel betting in Texas were characterized as dishonest today by Abner V. McCall, co-chairman of the Anti-Crime Council of Texas.

"The advertisements of the gambling proponents is misleading," said McCall. "It asks us to legalize horse racing. Horse racing already is legal."

McCall noted proponents of parimutuel betting "don't event attempt to make the case for gambling," a situation he said is "interesting."

"ACT (Anti-Crime Council of Texas) is not against horses or horse racing. ACT is against commercialized gambling," McCall said in his statement.

He added: "The vote on May 4 is on gambling, not horse racing."

McCall, noting a half-million dollar campaign to promote gambling, commented: "We are confident the gamblers will not be able to buy the election with a barrage of misleading advertising."

ation received word on April 15 that a purchase for 32,000 metric tons had been completed and shipment of the grain would be prior to May 1, 1974.

The Korean decision to purchase grain sorghum was announced to the U.S. Feed Grains Council team while the team was touring Korea in early April. Elbert Harp, executive director of GSPA, was a member of this team. The announcement was made by Mr. Yoo, president of the Korean Feed Manufacturers Association. Mr. Yoo, along with Mr. Dae Shik Yu, chief of the feed division of the National Association of Co-operatives of Korea, traveled to the United States to make this purchase. The Korean Feed Manufacturers Association and the National Association of Co-operatives purchase nearly all the feed grains for their members. Their membership processes a large part of the feed grains used in Korea.

Korea has been one of the bright spots in the area of market development for sorghum and GSPA feels that we have good prospects in the future for expanding that market. Korea is fast developing an economy which will support a higher protein diet for its people. Due to a lack of feed grain production in Korea, they will have to look to the U.S. and other countries to supply their feed grain needs. Harp, along with USFGC president, Darwin Stolte, chairman Fred Ludwig from Laurens, Iowa, and Roy Neeley from the Foreign Agriculture Service, U.S. Department of Agriculture, traveled through Asia on a market development tour in late March and the early part of April. Harp is co-chairman of the U.S. Feed Grains Council.

**CPL. RICKY N. BENNETT** has been named Marine of the Month for January, according to word received by his parents, Mr. and Mrs. Harold Bennett of Floydada. The Marine, who completed his high schooling and received his G.E.D. diploma in the Marines, advanced from Lance Corporal to Meritorious CPL in three months which is normally an 11 month step. Bennett will be in Floydada on a 30 day furlough early this month from Okinawa and will resume Marine duties afterward at Camp LeJeune, North Carolina.

The team received reports that according to the Korean plan, feed grain imports this year — either corn or milo, depending upon the price and supply situation — will be increased up to 15 percent over last year.

The Korean office of the USFGC expects the planned mixed feed production figure in 1974 to show 19.2 percent more than a year earlier, featuring drastic increase for swine and dairy cattle, 55 and 31 percent up, respectively, while the proportion of poultry feed this year shows 73 percent decreasing from 78 percent last year.

**AS IT LOOKS FROM HERE**  
By Congressman Omar Burleson

Omar Burleson, M.C. 17th District, Texas WASHINGTON, D.C. — Now that the Social Security Withholding rate has risen to 5.85% of earnings, providing a maximum tax bite of \$631.80 this year, it is dawning that "reforms" are not all they were thought to be when enacted.

Despite these reforms, the Social Security system discriminates against some of the very people it was designed to help by penalizing them for every cent they earn above \$2,100 a year. Any way figured, it amounts to an equivalent tax of about 50%.

More than half of employed taxpayers are out more on Social Security than they pay in income tax. The Federal Government collects more from Social Security taxes than it does from corporate taxes and the prospects are that it will continue to rise.

Whereas the income tax is called "progressive", Social Security taxes are "regressive". A worker who earns \$13,200 pays a higher percentage than levels of income above this amount. For instance, those with a \$32,000 per year income pay less than 2%.

The tax rate has more than doubled since 1967.

More and more younger people are asking these questions: Is the prospect of being supported in their retirement years sufficient reward for participation in the Social Security Program? Does the combined burden and promise of security discourage the thrifty habit of saving for one's old age? These are fundamental questions. If "contributions" continue to increase as they have over the last 7 years, these questions will become more and more difficult to answer.

The President has recently appointed a blue ribbon committee to study the implications of the Social Security structure. In the meantime, the Congress itself continuously studies this Program but more often votes more expensive provisions which will eventually make it a welfare program instead of an insurance plan originally intended.

One of the changes in regulations could be interpreted as an act of generosity unless a closer look is taken. Workers between the ages of 65 and 72 were given a "raise" in the amount of money they could earn without losing benefits. Until 1973, anyone entitled to Social Security retirement pay could receive additional income from earnings up to \$1,680 without any reduction in their checks. The new legislation raises this allowable to \$2,100. If earned income exceeds that figure, benefits are reduced by \$1 for every \$2 earned, but, once a person reaches the age of 72, this limitation no longer applies. Neither does it apply to anyone receiving income such as dividends, interest, or pensions. In this case, he receives 100% of his benefits.

Working people between the ages of 65 and 72 bear a penalty which is not placed on those who do not work, or on those who receive income from sources other than by work.

Pending legislation may reduce the upper age limit to 70 and increase the allowable earnings to \$3,000 but the burden still remains heavy on older people who have jobs. Even the 50% tax rate often does not deter older

people from looking for jobs. Two factors suggest that additional earnings are welcome to this age group, even though they carry this high rate. First, the level of income among older people is usually low. Second, rewards other than income can be important. Not everyone is happy in retirement aside from the need for additional income in these times of high prices which show no prospects of declining in the reasonably near future.

One out of every 5 older people is defined as poor. Clearly, it is often not only desirable but urgent for senior citizens to increase their incomes. There is no substantial indication that the labor market would be materially affected if the entire ceiling on income earned by Social Security recipients was removed.

**Wage An Hour Pay Boost Effective May 1**

Many Floyd County employees will be bringing home more money for the first pay period in May as the new Federal minimum wage laws become effective Wednesday.

The new wage law increases the minimum rate of wage earners already protected under the Federal Hour and Wage Act of 1967 to \$2 per hour. The new regulations bring many other employees under coverage of the act — such as hospital nurses' aides, employees of certain hotels, motels and restaurants, employees of pre-school (day nurseries, kindergartens) and employees of enterprises not engaged in interstate commerce with an annual production volume of more than \$1 million. Also brought under the new regulations are employees of retail enterprises that do a volume of business greater than one quarter of a million dollars annually.

Minimum wage rate for employes in fields now being brought under the act is \$1.90 per hour.

**EXEMPTIONS LISTED** Among wage earners exempt from provisions of the act include those who

**RICHARD HALE** PRESIDENT, OF KIVA CLUB

Richard Hale, son of Mr. and Mrs. William R. Hale of 813 W. Virginia, Floydada, has been elected to the post of president in Kiva, a men's social club at McMurry College in Abilene, Texas, for the 1974-75 school year.

Kiva, organized in 1937 as McMurry's first social club, has the purpose of promoting school spirit and brotherhood on the campus. Members are known as "Medicine Men" on the Indian Reservation of McMurry.

A 1971 graduate of Floydada High School, Richard is a junior at McMurry. He is majoring in political science and minoring in chemistry.

work for retail enterprises with annual income of under \$250,000. On Jan. 1, 1975, the income provision is lowered to \$225,000 annually and then, workers for these firms will come under the act. By 1977, all employees of retail enterprises will be under regulations.

Still exempt in 1977 will be employes of single establishments, not part of a retail chain, with a business volume of less than \$250,000 annually.

Farm labor is exempt from the minimum wage rate of \$1.90 hourly unless the employer is part of a conglomerate doing \$10 million annually or the employer has worked employes 500 man days during any quarter of the previous year. Then employes' minimum wage rate is \$1.60 per hour.

Also under the new minimum wage regulations are employes of county, state, federal and municipal governments.

**EVERYONE AFFECTED** The new minimum wage

rates will have an effect on almost everyone in Floyd County if not directly with a wage increase, indirectly through increased costs in goods and services, a spokesman at the Texas Employment Commission said.

Most employers are expected to pass the increase in wages onto those who receive goods and services.

The day rate on private rooms has been increased to \$51 at the Plainview Hospital as a result of the pay increase.

# 4-H Youth To Participate In District

Twelve 4-H members from Floyd County will compete in the District 2 Elimination Contests in Lubbock Saturday, May 4, according to County Extension Agent Richie Crow.

The youth won in county contests qualifying them for district competition.

Approximately 25 contests will be staged at the same time, Crow says. The contests, divided into senior and junior divisions, are open to 4-H'ers actively participating in 4-H who are between the ages of 9 and 19 years.

The competition will be held on the campus of Texas Tech University, Lubbock.

Competing in the contests from Floyd County are as follows:

Share-The-Fun — Elva Martinez, Maybelle Martinez, Kelly Ward, Dara Carthel, Martin Eastham, Carlos Rainwater, Marty Covington, Dennis Stanley; Safety — Leanne Ferguson, Shawnda Heflin; Beef — Kristi Willis, Julie Morton.

Competition in the events will give youth from 20 counties on the South Plains a chance to test their skills. The two top teams and/or individuals in the district contest will represent the district at the State 4-H Roundup in College Station in June.

An awards program is set for 1:30 p.m. in the Coronado Room of Texas Tech

University Center. Dr. William F. Bennett, Associate Dean, College of Agricultural Sciences, will

welcome the contestants. The 4-H program in Texas is sponsored by the Texas Agricultural Extension Service.
