

AREA NOT YET OPEN TO PUBLIC

Mackenzie Dam Nearly Complete

Although the Mackenzie Dam is essentially complete, the area will not be ready for utilization by the public before spring, according to Don Bookout, attorney for the Mackenzie Water Authority, who spoke to representatives of the four area towns comprising the authority at a meeting held Monday in Tulia.

The meeting was called by Tulia Chamber of Commerce to initiate plans for promotion of the lake which will serve Tulia, Silvertown, Lockney and Floydada, and to coordinate these plans.

Fencing of the property has not been completed and the area is presently under lease for cattle grazing. Adequate personnel is not available at this time to police the property. Neither boat ramps nor an office

building has yet been constructed. Guard rails have not yet been constructed in potentially dangerous areas and there are many opportunities for sightseers to be injured.

In short, the area is not yet ready for public use and all vehicular traffic is banned.

Preliminary plans have been made to lay off certain areas for lease to individuals who desire to build cabins for personal use. Tentative locations include two peninsulas on the south side of the lake. Tentative plans are to reserve most of the north side for the public, those not desiring to construct private property.

In answer to numerous inquiries from persons wanting to lease building locations, Bookout said that certain dates would be announced this fall after the building plots have been surveyed and zoned for interested persons to drive through the area and become familiar with the locations and prices of the lots to be leased. Lots nearest to the lake will lease for a higher fee than those more distant from the lake.

All taxpaying residents of the four communities will then be invited to examine maps to be located at all banks in the four communities and sign up for a building site in the section desired, placing the money in escrow. The specific lot will then be determined by lot in a public drawing.

After tax paying residents of the four communities have been given a chance, all other interested persons will be given an opportunity to select building sites.

Bookout noted that there will be plenty of building sites for everyone in all price ranges.

"We have enough locations to satisfy every resident of the four communities should such a demand exist," he said. "Other such lakes have contracted with commercial firms to sell lots through sales promotions."

Bookout said that these two peninsulas alone will have a total of from 300 to 400 building sites.

Because no tax funds can be expended on recreational aspects of the lake, many of the improvements needed will have to await funds from other sources.

Inasmuch as the taxpayers have built the dam, directors of the authority are anxious for the people to have access to the project as soon as possible, Bookout said. But until potentially dangerous areas can be enclosed and adequate personnel provided to police not only sightseers but the public property, the area must be considered off limits. Damage occurred recently to the dam when youth on motorcycles attempted to use it as a race track.

Gary Martin has been named assistant manager of the authority, assisting Clayton Keller, manager, whose work must be limited due to a recent heart attack.

The authority is expected to accept the project from the contractor Monday night.

Bookout noted that due to inflation, the present value of the dam is much greater than the contract price. The contractor indicated that his bid on the same project today would be many hundreds of thousands of dollars higher than the figure bid at the time the contract was awarded.

Attending the Monday meeting were J. D. Copeland of Lockney, Bill Flynt of Floydada, Jerry Patton and Charles Sarchet, both of Silvertown, and W. V. Swinburn, Charles Zeeck, W. A. Amburn, Don Crocker, Bookout, and H. M. Baggerly, all of Tulia. Amburn hosted the group at a luncheon.

Arts And Crafts Sidewalk Show Saturday

It will be Christmas in August Saturday when twenty or more area artists and craftsmen will bring their art work for display on the sidewalks of downtown Floydada. The Lions Club Sidewalk Art and Crafts Show will open at 10 a.m. when artists will set up their displays and continue through 6 p.m. Oils, water colors, pastels and other media, crafts in ceramics, china painting, marble, wood and leather work, jewelry and candles will be shown. Artists have been asked to register at the registration table south of the courthouse and receive a location for their display.

Much of the art work will be for sale, and visitors to the show are reminded "to bring your pocket book" as this will be an excellent time to start buying Christmas presents.

"Events have been scheduled for the entire day so plan to spend Saturday in Floydada for shopping and entertainment," Lions president Bill Hendrix said this week.

The Lions Club Carnival which opened in town on Monday will continue through Saturday night. The carnival is back of Caprock Hardware on the corner of 5th and Missouri Streets and features rides and concessions. The lions will have their concession stand at the carnival all week. Lion Ray McDonald said that if the day "isn't too hot for kids" the carnival will be open on Saturday

afternoon for the entertainment of area youngsters.

Four county organizations will have concessions south of the courthouse throughout the day. The Floyd County Clubs will sell sandwiches and other food, the St. Mary Magdalen Church will have tamales and cold drinks, the Floydada Day Care Center will sell snow cones, and the Floydada Fire Department will sell cold watermelon. "Don't cook at home. Come to town and eat" is the advice for the day. In addition to the food, Lion Art Ratzlaff has planned an afternoon program of informal popular and country-western music from 2 p.m. in the south courthouse area.

At 6:30 p.m. the Floyd County 4-H Clubs will kick off their big Bicycle Rodeo on California Street. All bicycle riders are urged to enter the rodeo and participate in the two hour safety program and events.

At 9 p.m. Radio Station KFLP will sponsor a Teen-Record Party on the concrete slab south of the courthouse. A KFLP disk-jockey will play music requested by the teenagers for listening and dancing.

The day's events have been planned as part of the Lion's Business Stimulation Project which the club adopted earlier in the year.

"It's going to be a full day of fun for the entire family", the Lions say. "Don't miss it!"

Mrs. John Wilson

Rock Crafts To Be On Display

John and Oleta Wilson will be displaying many rock crafts Saturday in Floydada's arts and crafts sidewalk show. The Wilsons, who live in the South Plains community have been collecting, polishing and slicing stones for some ten years.

One of their prized possessions is a rock fireplace made from stones given them by friends from a little of

everywhere. Jerry Allen did the masonry work on the fireplace. Each stone in the slab was sliced.

Saturday, the Wilsons will be displaying rings, book ends, earrings and other assorted jewelry, all handmade from polished stone.

Quite a bit of equipment is used by the Wilsons in the stone work.

Choir Will Present "Alleluia"

The Church Choir of Floydada's First Baptist Church will present a service of praise entitled "Alleluia! A Praise Gathering for Believers" this Sunday, August 25. The program will begin at 7 p.m.

Four outstanding guests will be featured. They include Richard Campbell, who is well known to Floydada area people as a former Texas Tech gridiron stand-out and a popular evangelistic singer. Larry and Sharon Rice, also in great demand as gospel singers, and a former Floydada woman, Linda Murphree, will complete the slate of special guests.

"Alleluia!" was written by Bill and

Gloria Gaither and Ronn Huff. The Gaithers have written a great number of well known gospel songs such as "He Touched Me", "The King Is Coming", "There's Something About That Name" and others. Many of their favorites are included in "Alleluia!"

Richard Hunt, Music and Youth Director at First Baptist, said that the program will be a refreshing and deeply moving worship experience that people of every age and church affiliation will appreciate. Several Floydada churches will be a part of the special service.

The public is cordially invited to attend.

Henry Butler has been employed as butcher and Mrs. Williams will manage the business.

Fresh Floyd County eggs, catfish, oysters and delicious barbecue will be every day features in the business.

Williams has been in the poultry business and eggs wholesaling business for ten years and the Williams family has lived in Floydada for eight years. Toby has served as president of the youth baseball program in Floydada this year.

The business will be open from 8 to 7:30 Monday through Saturday.

Mr. and Mrs. Dobbs will live in Lubbock and plan to just do "almost nothing."

Post Office Adjusting

The new U.S. Postal Service vehicles have been in operation four weeks and the city carriers are still experiencing difficulties in changes they are having to make. Postmaster Ed Wester asks that you please be patient until all changes are made. In some areas the mail may be earlier and some later. The carrier must arrange his route so that he will end up back at the vehicle, then he will deliver packages in the area he just completed walking. This is altogether different than what he was doing before, as another carrier delivered all packages.

Many people have asked if they could put a mail box on the curb. The Postmaster said, "you may but it is not necessary." However, any new area taken into the delivery zone must place their boxes on the curb. This includes residents in the 900 blocks of West Georgia, Tennessee and Kentucky. The carrier will deliver from his vehicle on all new extensions. Service began for these residents on August 17.

FLOYDADA CARE CENTER received the honor of being named "Outstanding Home of the Year" in the West Texas District by Challenge Homes, Inc. The plaque was presented to the Administrator, Dartha Westbrook, at the annual seminar of Challenge Homes in Jacksonville last week. Floydada Care Center was selected to receive this honor based on comparison of overall operation of facility compared to 10 other Nursing Homes operated by Challenge Homes in this area. Pictured are employees who made this award possible. Mrs. Westbrook holds the plaque. (Staff Photo)

In The Kitchen

By Gayle Jackson

Nearly everyone cans and freezes vegetables from their gardens in just about the same way, but most women have a favorite pickle recipe that must be made each year.

Clara Jeffcoat originally gave this recipe to Lucille Harris over 30 years ago and it has been a favorite of the Harris family since. Lucille says Clara gave her jars of the pickles after hearing that Lucille was craving pickles before the birth of her daughter.

DILL PICKLES

Bring 2 qts. water, 1 qt. vinegar and 1 cup pickling salt to a rolling boil. Pour over whole or sliced, washed pickles that have been placed in clean jars. Add a piece of fresh dill to each quart. Don't use pickles for several weeks.

CLARA JEFFCOAT

LIMED SWEET PICKLES

Buy 2 cups lime from lumber yard. Mix with 2 gallons water and pour over 7-10 lbs. of peeled and chopped or sliced cucumbers. Soak for 24 hours, stirring gently, occasionally. Rinse cucumbers three times in fresh water. Cover with cold water and let soak 3 hours. Drain off water and cover cucumbers with the following mixture: 2 qts. vinegar, 11 cups sugar, 1 tsp. each of pickling salt, celery seed and cloves. Let soak overnight. Next morning add a few drops green food coloring if desired and cook over medium heat for 45 minutes or longer. Pack in hot, sterilized jars and seal.

LUCILLE HARRIS

ICICLE PICKLES

Cut large cucumbers in 1/8 inch lengthwise, long strips. Let stand in ice water in refrigerator 8 hours or overnight. Pack into hot, sterilized jars after putting 2 slices of a large onion on the bottom of the jar. Combine 1 qt. vinegar, 1/3 cup salt and 1 cup sugar. Heat to rolling boil and pour over filled jars. Seal jars. Use after six weeks.

ALICE MITCHELL

SALTY, HOT DILLS

Into hot, sterilized quart jars, place 3 lbs. (about 3 qts.) washed whole or cut cucumbers, 1 piece dill, 1 clove garlic and 2 hot, small peppers. Heat 6 cups apple cider vinegar, 2 cups water and 1 cup bagged salt until boiling. Pour over packed jars and seal. Store at least 3 weeks before eating. This same recipe, which has been handed down in Walker family, can be used to pickle beans or okra.

ARMINE TARPLEY

For good measure, here are recipes for unusual relishes:

CORN RELISH

Cut corn from ears of sweet corn, but do not scrape the cob. Measure 6 cups whole kernel corn (can use canned corn) and add 2 chopped onions, 2 chopped sweet, green peppers, 1 chopped sweet, red pepper (can substitute canned pimientos), and 1 cup chopped cabbage. Mix in 2 tsp. salt, 1/4 tsp. pepper, 1 1/2 tsp. dry mustard, 1 cup sugar and 2 cups vinegar. Cook slowly for one hour, stirring occasionally. Pack into hot, sterilized 1/2 pint jars and seal at once. The relish is

SHOPPING for the school girl can be a problem. With this in mind you mothers with daughters between the ages of 7 and 14 may be interested in knowing that this age group have taken an inspiration from the older girl for some of the smartest looking back-to-school clothes for fall.

Tartan plaids and patterned sweaters make big news in the schoolyard in an array of warm fall colors. This season the sweater message is loud and clear. Bright diamond patterns colored in rust and camel sparkle on a zipped up sweater and teams with a kicky pleated skirt, which is also back. The ever popular pullover is updated with varsity stripes in contrasting colors on collars and cuffs. When pulled over trim fitting pants they make a dynamite duo.

There are the swifty fly-away and spiffy waist length jackets in color combinations of brown and camel, navy and rust, and red and green plaid. Whether they complement pants or skirts that match, jackets are tops for fall.

IT won't be long before Floyd County tomatoes will be plentiful and a good Tomato Relish recipe has been passed along to share with others.

TOMATO RELISH
3 pounds ripe tomatoes
3 medium onions, chopped
1 large green pepper, chopped

1 cup Karo light corn syrup
1 tablespoon salt
2 cups cider vinegar
1 tablespoon mustard seed
1/2 teaspoons whole cloves

1/2 teaspoons celery seed
2 (3-inch) sticks cinnamon
Dip tomatoes in boiling water just until skins are softened, about 1 minute. Remove skins and stem ends; coarsely chop. Place tomatoes, onion, green pepper, corn syrup, salt and vinegar in 4-quart saucepan or kettle. Tie mustard seed, cloves, celery seed and cinnamon in cheese cloth; add to vegetable mixture. Bring to boil over medium heat; reduce heat and boil gently, stirring occasionally, about 2 hours or until mixture thickens. Remove spice bag. Leaving 1/4-inch head space, ladle into clean hot 1/2 pint jars with 2-piece metal caps. Seal following jar manufacturer's directions. Process in boiling water bath 10 minutes. Cool on wire rack or folded cloth. Label and store in cool dry place. Makes about 5 (1/2 pint) jars.

FLOYDADA BAND NEWS

By Grant Hambricht
(Band Reporter)

Thursday, August 15, the Floydada High School Band attended the Ralls Lions Club Rodeo Parade. For their effort the band received a cash prize and a free barbecue dinner after the parade. The band was well received all along the parade route, and was asked afterwards to march in another parade later in the week. According to band director Dennis Teasdale, the band did a good job at the parade considering the amount of rehearsal time.

Last Tuesday night the band was treated with a watermelon feast after the night's rehearsal. The feast was compliments of the Whirlwind Band Council.

The band is now working on the fundamentals of marching and is learning new music. All this is in preparation for the upcoming half-time performances at football games, the Floyd

County Fair Parade, and the Panhandle South Plains Fair Parade in Lubbock. The band is really excited about this year's new marching routines and formations including circles and possibly a rotating whirlwind. One hundred members is the goal of the band and they lack only a few people, so

anyone interested in joining the band is encouraged to come by the band hall any time during the day or to a night rehearsal to talk to Mr. Teasdale about joining band.

NOXIOUS WEED REPORT

The District has just about caught up with the treating of bindweed at the present time. Wayne Lipham, supervisor of the District would like to

encourage farmers who are planning on having fence row treated to contact the District office and leave their request, by having fence row as clean as

possible before the application. You will get a better kill. The District would like to complete this type work by March 15, so the District can concentrate their efforts on bindweed at that time.

County Agent's Corner

By Doyle Warren
Floyd County Agent

Pollution control facilities and equipment for farm and business machinery may qualify for rapid federal income tax depreciation if installed and certified before January 1, 1975, says Doyle G. Warren, county agent for the Texas Agricultural Extension Service.

Farmers and businessmen may amortize or depreciate the cost of certain pollution control facilities and equipment over five years (60 months) even if the equipment has a longer, useful life.

Such facilities must have been installed and appropriately certified by state and federal pollution control certifying authorities after 1968 and prior to 1975. Also, the Internal Revenue code provides that the facility must be "a new identifiable treatment facility used in connection with a plant (or other property) that was in operation before 1969."

Any facility that is used to control the pollution or contamination of air or water is eligible, if the other conditions are met, notes Warren.

Many recent pollution control investments are viewed in two parts — one that qualifies for the fast write-off and one that will

on "New Appliances," given by a Lighthouse Electric representative.

Warren Powell, who has been home with his parents, Mr. and Mrs. Tillman Powell the past week, left for San Angelo where he is cutting grain in that vicinity.

Mrs. Ruby Higginbotham went to Canyon Saturday with her son, Alton and family, and spent the night with another son, Mr. and Mrs. Bud Higginbotham and Brett. She went to Amarillo Sunday to visit with her sister, Mrs. Edith Magnusson. Monday Mrs. Higginbotham is beginning another year with the Lockney schools and is in-service this week.

Mrs. Aubrey Stewart of Floydada, mother of Mrs. Kendis Julian, is in the Caprock Hospital, having been taken there Sunday evening when she became ill. We hope to find her doing better in the next few days.

100 years of wheat Santa Fe all the way

Back in the 1870's when the Mennonites began their migration from Europe to America—Santa Fe was there! A representative of the railroad traveled abroad in those early days to influence homeseekers to settle along the pioneer rail routes being built westward across Kansas. The Mennonites were seeking freedoms of a new country and liked what they learned about America.

Santa Fe helped with their transportation, even chartering a special ship for the Atlantic crossing.

Santa Fe built special housing facilities in the settlement areas of Kansas and sold land, much below actual values, to the new homeseekers.

Santa Fe moved supplies for the home builders at reduced prices, sometimes for free.

Developing this new land back in the 1870's was not without hardships for the early Mennonites or for Santa Fe's pioneer rail builders. At that time, hardly anyone realized that their efforts would be rewarded through a few sacks of wheat seed which thrived in Kansas and spread to help make mid-America the breadbasket of the World.

100 years of moving wheat
Wheat is usually moved in a short period of time to meet harvest deadlines, export schedules and marketing requirements. These conditions make great demands on the railroads and it takes Santa Fe's modern facilities, an up-to-date car fleet and skillful employees to get the wheat job done year after year.

During the past century many things have been done to move wheat efficiently. Two examples stand out in Santa Fe's history:

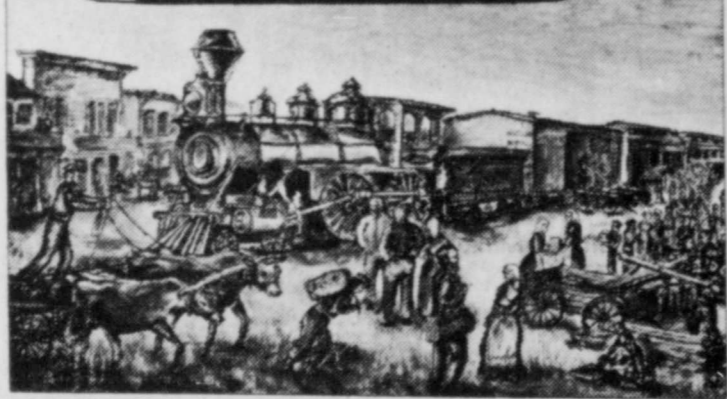

- (1) The giant 100-ton covered hopper car first introduced for moving wheat in 1963. Today, Santa Fe has 12,000 of these cars in service, the largest fleet in the rail industry, and 1,000 additional are now on order. Altogether these 13,000 hoppers have a capacity equivalent to approximately 21,000 conventional box cars.
- (2) One of Santa Fe's greatest achievements in handling grain was completed earlier this year when we moved a record-breaking billion bushels, a total of 350,000 carloads, in just twenty months.

Those few sacks of seed of Turkey Red hard winter wheat carried to America by early Mennonite homeseekers started one of the greatest agricultural developments in the nation. It's a history the Santa Fe has been proud to be a part of the past 100 years—all the way!

BOYS RANCH RODEO READY TO GO LABOR DAY WEEKEND

The biggest Labor Day attraction of the Texas Panhandle is the annual Boys Ranch Rodeo at Cal Farley's Boys Ranch where more than 370 boys will be putting on the 30th presentation of the nationally-known event. The Ranch's boys have been preparing for most of the summer by trying to become contestants by riding calves, steers, bulls and bucking brons. The rodeo's two-hour time limit restricts the number of entries to about 150 boys, but all will have some part in the rodeo production. Trophies are

awarded to riders for the best performances in each riding event. All the boys will be competing for the titles of Junior and Senior All-Around cowboys. The two top riders will also share the Michael McAngus Thomas Memorial trophy, a sculpture created by Amarillo artist Jim Thomas in memory of his son. The rodeo will also be an annual reunion of the Boys

Ranch Alumni Association whose members are composed of young men who have lived at the Ranch since its founding by Cal Farley in 1939. Another attraction will be barbecue beef plates that will be prepared and sold by the boys for \$1.50. Rodeo performances are scheduled for 2:30 p.m., September 1 and 2. Reserve box seat tickets are available at the

Boys Ranch office, Amarillo, and the service center.
