### LION DOLLAR INVESTMENT IN NEW EQUIPMENT

## Floydada Cooperative Gins Can Gin 700 Bales A Day

FERGUSON pictured with new gin stands at Cooperative Gins. (Photo by Brad)

After the expenditure of about a half million dollars in new equipment and modernization of their ginning plants, the Floydada Cooperative Gins can now gin about 700 bales every 24 hours.

The old double gin where the office is located has been combined into one big gin that can gin 20 bales per hour.

Possibly the biggest improvement is the installation of a Universal Density Press. This press will bring out a bale already compressed, eliminating the need of a cotton compress and making a neater, smaller bale that possibly will

### Rotary-Teacher

### Banquet Monday

All Rotarians and Floydada school teachers are reminded about the banquet honoring the teachers and school officials in Duncan Cafetorium at 7 p.m. Monday night.

A musical program is planned for the entertainment with a group of five girls coming from Girl's Town at Whiteface.

Emceeding the banquet will be Rotary President George Miller. School superintendent A.E. Baker will introduce the teachers, Rotarian Newell Burk will introduce other guests.

The school board meeting will be held on Tuesday night instead of Monday night.

bring more money in direct sales to the mill.

New Continental 141 gin stands have been installed. The Continental 141 is rated as "The World's highest capacity gin."

The C/MG Continental 141 is the world's first ultra-high-capacity gin, the first gin to exceed super capacities. Geared to gin 7½ bales an hour, day in and day out, on all kinds of cotton, and 8 bales or more an hour under special conditions, the Continental 141 is a major technological breakthrough. In capacity, efficiency, dependability and sample, the Continental 141 has begun to rewrite the record books worldwide... ushering in a new ginning era, according to Continental publicity material.

"Of course these improvements will mean more money for our cotton farmers as gain on compressing, storage and transportation, and we will also sample and weight our cotton at the gin (which is part of the additional income to the gin)", Ferguson added.

Ferguson also said the new plant would operate with ten men instead of 20 employees in the old gins, and that

the bagging and tying would cost less for the new ginning equipment. The press also has a Signode Automatic Strapping Machine.

The gin that is located about a block east of the Cooperative Gin office will again be in operation.

### COACH'S COMMENTS

Whirlwind coach L. G. Wilson said he was well pleased with the offense at Crosbyton... Kelvin Ratliff making over 150 yards in 11 plays and Rex Yearly with over 100 in eight plays.

"Although we made a lot of mistakes defensively, I felt that Mark Craig, Steve Moore and Gary Nixon were stand-outs," Wilson said.

Wilson said no one was injured, most every player got in the game... and Cooper is looking stronger after beating Littlefield.

	2-33	4-162

By Wendell Tooley  
A standing room only crowd of Whirlwind fans followed their team to Crosbyton Friday night and saw the Chiefs handily defeated 47-6 in the opening contest for both teams. The AA Whirlwinds scored at ease over the A Chiefs with most all players getting to see action.

Putting the scores on the board were Whirlwind halfbacks Kelvin Ratliff with three TDs and Rex Yearly with a couple. Quarterback Mike Vickers made the first TD and fullback Malvin Collins made another. Vickers made all the extra PATS except two.

In the first quarter Vickers and Ratliff made paydirt, in the second quarter Yearly made his two touchdowns, in the third quarter it was Ratliff again and in the last quarter Collins and Ratliff. Crosbyton's lone score came in the last quarter on a completed pass from quarterback Marty Davis to end Gilbert Navarro.

It was not only an enjoyable evening score-wise, but Whirlwind fans enjoyed the mild weather and good band entertainment at halftime.

### PLAY BY PLAY

Whirlwind Leslie Soto kicked off and the Chiefs returned the ball to the 25. Chief halfback Ronald Wiley made the first down in two running plays, then Whirlwind Mark Craig crashed through the line and threw Wiley for a loss of five yards.

The Chiefs couldn't go against the strong Whirlwind line and punted a nice 45 yarder. It was the Whirlwind ball on the 26 yard line. Kelvin Ratliff began to show his running ability with 16, 2, 9, 17 yard runs. Yearly and Collins also made some good runs to bring the ball down to the Chiefs' three yard line. Vickers quarterback sneaked the first TD of the game with 2:27 remaining in the first quarter. Vickers split the uprights with the extra point. Floydada led 7-0.

Crosbyton took the kick-off, fumbled and Floydada had the ball on the 41 yard line. A pass from Vickers to Yearly was good for nine yards. Collins picked up 12, and then it was Ratliff who burst loose from the 20 and scampered into the end zone for the second Floydada TD with 0:42 left in the first quarter. Vickers did and it was Floydada ahead 14-0.

Crosbyton took the kick-off, couldn't go and punted. It was the Winds ball on the 36 yard line. Ratliff made 4, Yearly 8, Ratliff 6, Yearly 13. Then Yearly picked up beautiful blocking and zig zagged into the end zone from the 35 yard line. Vickers kicked the extra and Floydada led 21-0 with 8:05 left.

Chiefs fumbled the ball as they received the kick-off and tackle Steve Moore covered it to set up the next Whirlwind TD. It was Floydada's ball on the Chief 40. Collins made a nice eight yard gain. Yearly three, then Yearly broke loose for his second TD of the quarter, going 25 yards for the touchdown. With 6:22 left in the first half Floydada led 28-0. (yes, Vickers kicked the extra.)

From this point on until the half it was mostly a defensive game with the Chiefs making one first down.

### HALFTIME

The biggest Whirlwind band in many years, entertained the crowd at halftime with the Whirlwind twirlers putting on a fine exhibition. Drum major Sherry Moss directed the band in several numbers.

### SECOND HALF

Floydada received the kick-off, you should have seen Ratliff make the next run for paydirt. He took off like Evel Knievel jumping 15 Mack trucks, picked up beautiful blocking, went into the end zone hardly touched by a single Chief. With 11:06 left in the third quarter Vickers kicked the extra point and Floydada led 35-0.

The Chiefs didn't give up... with Wiley doing most of the gaining they promptly made two first downs. Then Whirlwind coach L. G. Wilson began to play his reserves. Quarterback Greg Goen came into the game.

Sophomore Mickey Minnett made some good yardage, also Collins began to get the feel of crashing through the middle. There was no more scoring in the third quarter.

In the fourth quarter The Winds had the ball on the Chiefs' one yard line and then just couldn't push it over. Crosbyton took over on their one yard line and fumbled on the first play. Wind Monte Williams recovered and on the next play Collins dived over the middle of the line for the TD. The kick for extra point was blocked and Floydada led 41-0 with 10:05 left in the game.

Donzell Minner kicked off and Crosbyton made a couple of first downs. Then Chief Davis hit Navarro with the TD bomb. Davis tried to run the extra point, but was sacked. Floydada led 41-6, with 6:02 left in the game.

With 2:58 left in the game, Ratliff scored again from the 23. His touchdown was set up by a nice 44 yard pass from Vickers to Minner. Vickers tried a pass to Yearly for the extra point that was incomplete. The game ended 47-6.

Next week, it will be the Whirlwinds playing a team they have never played before, AA Cooper, a school just south of Lubbock. Cooper defeated Littlefield 15-7 Friday night.

Quarterback Club meeting at 7 p.m. Monday!

## Forecast Up 5,000 Bales

In two weeks, have the forecasters to predict for Floyd County bales to 115,000. Cool weather just in (as low as 41 in the morning in north Texas) feel that this chance to make the bales.

Of course there is a definite need for at least 60 more days of good warm, dry weather.

The joint September forecast of the Lubbock Cotton Exchange and the Plains Cotton Growers Inc., released Wednesday, pegged the expected production in the 25-county area at 1,555,000 bales, up 86,400 bales from a month ago.

County	Sept. Est.	Acres	Aug. Est.
Bailey	42,000	42,000	40,000

THE CAPROCK HOSPITAL BOARD will really earn its "pay" as the board members manage the hospital until an administrator can be found. Board president Dallas Ramsey has stayed in contact with the hospital and no doubt can keep everything running smoothly in the meantime. The board is fortunate to have a good hospital staff.

### City Council Meeting

### Tuesday Night

The Floydada City Council meeting has been changed from Monday night to Tuesday night due to the Rotary Teacher Banquet on Monday night.

The meeting will begin at 7:30 p.m., everyone is always invited to attend council meetings.

### Williams Memorial

### Service Sunday

Caprock Hospital has started a Bob and Barbara Williams and Baby Memorial Fund in memory of their infant son, Jeffrey. Co-workers at the hospital said it was the couple's greatest desire to equip the hospital with life saving devices, two in particular, an Ohio Respirator and a Blood Gas Machine. Memorials will go toward the purchase of these machines. A chairman for the memorial fund said memorials may be mailed to Caprock Hospital, Box 340, Floydada.

Memorial services for Mr. and Mrs. Williams and their baby will be held Sunday, Sept. 8 at 5 p.m. in the First United Methodist Church in Floydada.

OFF AND FLYING AGAIN!....'Wind Kelvin Ratliff heads out for another touchdown in the Crosbyton game.

TONY SOTO makes a nice gain with Greg Goen and Malvin Collins in background.

STEVE MOORE lands on the Chief fumble after the Whirlwind kick-off in the first half. Other Whirlwinds close behind are: McArthur Mitchell, Joel Hendrix, Malvin Collins and Tony Soto. (Staff Photo).

# James Cage, Floyd SCS Board Receive Honors

James R. Cage, Floyd County Soil and Water Conservation District's conservation farmer for 1974 and five Floyd County SWCD directors were presented plaques Tuesday afternoon by the Goodyear Tire and Rubber Company for being second place winners in the 27th annual Goodyear Conservation Awards Program.

Tony Jones with Babe's Service Center, local Floydada dealers for Goodyear Tires presented the plaques. Texas is divided into three areas and the Floyd County SWCD is in the northern area, therefore it was an honor being named second place winner with competition being from 1/3 of the state.

The directors were honored for planning and management of the district's natural resources development programs. Selection of the winners was made by an independent committee of state agricultural leaders.

James R. Cage was named as the outstanding cooperator and conservation farmer of the Floyd County SWCD for applying and maintaining a grassed waterway, parallel terraces, and grass planting. Cage uses a conservation cropping system, crop residue management program and contour farming to have an outstanding conservation program on his farm.

Fields below the Caprock are included once square damage reaches 10 percent.

After September 25, adult weevils per acre is the criteria used. "Regardless of whether fields are above or below the Caprock", McIntyre explains, "they are included for treatment any time surveys show a weevil population greater than 200 weevils per acre. At times, this level is adjusted upward to stay within the monetary confines of the program."

The Extension specialist reports that over the 10 year-history of the project, weevil populations have been heaviest and most consistent from Roaring Springs, south. In contrast, weevil populations north of Roaring Springs often do not develop until very late and generally, after the crop is made.

Most years, more fields on the south are treated and many require several applications. Because of the heavier weevil pressure generally encountered in southern portions of the control zone, program officials have decided to treat this area, as a block with three consecutive applications at 7-10 days intervals, this year. In the northern portion of the control zone above Roaring Springs, fields will be included for treatment when they exceed the criteria of either 10 percent square damage or 200 adult weevils per acre.

SCS AWARDS BY GOODYEAR TIRE - [left to right] K. E. Probasco, Cecil Purcell, G. L. Fawver, Gerald Lackey, Herman King, James Cage and Tony Jones. [Staff Photo]

## ARM VIEW

### Weather Boll Weevil

"Generally, one survey team (two individuals per team) will survey all the fields in a unit every 7-10 days," McIntyre explains. "Ten years' experience has shown that 6,000 acre units are the most practical sizes for many of the operational aspects of the Diapause Boll Weevil Control Program".

The Lubbock-based entomologist explains that early survey results show extremely low weevil populations in fields within the control zone.

The vast majority of fields, he says, have less than five percent weevil damaged squares. However, survey records did show some early-planted, irrigated fields having approximately 10 percent square damage.

The entomologist explains that survey results, in the form of percent of weevil damaged squares or adult weevils per acre, are the basis on which fields are either included or excluded for one of the diapause insecticide applications.

Criteria for inclusion of fields for treatment in different areas vary, because of program objectives and differences in weevil population growth trends.

Prior to September 25, weevil damaged squares are used as the criteria to include or exclude fields for treatment. Because the primary objective of the program is to prevent the boll weevil from moving into other western cotton producing areas, the level of square damage at which fields on top and adjacent to the Caprock are included for treatment is five percent.

**COTTON TALKS**  
FROM PLAINS COTTON GROWERS, INC.

"We are urging the Occupational Safety & Health Administration (OSHA) to abandon its proposal for extensive safety devices on existing farm machinery and to adopt a more reasonable compliance date for requirements on new machinery," says Donald A. Johnson, Executive Vice President of Lubbock-based Plains Cotton Growers, Inc. and Secretary of the Texas Association of Cotton Producer Organizations (TACPO).

A statement prepared by PCG on behalf of TACPO for presentation at OSHA hearings in Oklahoma City on September 4, cites a Texas Agricultural Extension Service study which concluded that the "retrofit" requirements in OSHA's farm machinery safety proposals are "economically unfeasible and impractical."

The statement, to be presented by W.W. Hart, Executive Vice President of the South Texas Cotton & Grain Association of Victoria, says that to require farm operators, especially the small ones, to bring old equipment up to OSHA proposals would cause a severe financial burden.

An example was made of four different types of cotton strippers. The "unfeasible and impractical" label was used in connection with the complexity of bringing an eight-year old, two-row cotton stripper into compliance. It was pointed out that the 1966 model stripper had all gears, belts and chains on the outside and that OSHA-proposed shielding might well cost more than the original value of the machine.

It was estimated that to "OSHA-ize" a 1962 model stripper of another make would cost around \$500.00 and require over 28 hours of design, construction and installation time.

Extension Service agricultural engineers studied two different makes of 1974-model strippers and came up with \$316.00 and \$264.00 as the respective costs to bring them in line with OSHA proposals.

TACPO also commented on some of the proposals for requirements on new machinery manufactured after OSHA regulations become effective, emphasizing that a high percentage of farm machinery operation is done by farm operators and their families. This gives farmers, as machinery operators, a direct interest and concern that the final regulations be effective in improving safety, and as farm operators an interest and concern that the regulations be economically feasible and practical, the TACPO statement says.

Regarding a reasonable compliance date, TACPO called attention to correspondence from the Farm and Industrial Equipment Institute which states that under normal conditions most manufacturers need at least a year to make changes in design and production, and went on to say, "Current material shortages are such that even more lead will be required under present conditions."

OSHA's proposal calls for protective devices on all machinery manufactured after January 1, 1975. TACPO pointed out that "Even if the regulations were final today less than five months would remain for manufacturers to redesign and retool their plants..."

TACPO recommended that an effective date for an agricultural machinery guarding standard should not be earlier than January 1, 1976, "and a firm date should be set only after ascertaining the ability of machinery manufacturers to comply without undue hardship."

**Farm-facts**  
A Weekly Report Of Agri-Business News  
Compiled From Sources Of The Texas Department of Agriculture  
John C. White, Commissioner

**COTTON HARVEST** is speeding up over the State where rains have not fallen recently. Harvesting is moving toward a peak in the Central Texas area and is nearing completion in the Rio Grande Valley. It is estimated that the cotton harvest over the entire State is six per cent complete, compared to two per cent at the same time last year. Boll weevil, cotton bollworm, and tobacco budworm infestations are reported in many fields over Texas, and insecticides are being applied in many areas. Heavy boll weevil infestations are reported in Knox and Wilbarger counties, light in Baylor, Cottle, Clay, Stonewall and Young counties and variable in counties around San Angelo. Cotton bollworms and tobacco budworms are reported damaging fields in Brazos, Burleson, and Robertson Counties and are problems elsewhere in the State. However, beneficial insects are reported keeping bollworm damage down in Rolling Plains fields.

**FOR THE FIRST** time this year the prices-received index for all Texas farm products was up in July. Texas Crop and Livestock Reporting Service said that the price index was six per cent higher in July than it was in June, 1974. The price index had gone down each month since last December. The July index was 475 per cent of the January, 1910-December, 1914 base period used for comparison of farm prices. That 475 per cent is only one per cent above the price index in July, 1973. Livestock and livestock products showed a five per cent increase over the June, 1974 index but was 27 per cent below the index announced at the same time in 1973. Field crop prices showed an increase over the same period in 1973.

## Candlelight Vows Unite Miss Carla Suggs, Donnie Fortenberry

Miss Carla Lynn Suggs and Donnie Wayne Fortenberry were wed Saturday, September 7, in a candlelight ceremony read in the First Baptist Church. Dr. Floyd C. Bradley, pastor, performed the vows at 7 o'clock p.m.

The bride is the daughter of Mr. and Mrs. Gene Arwine of Floydada and granddaughter of Mr. and Mrs. J. A. Meyers of Canyon; Mr. and Mrs. George Suggs of Hereford and step-granddaughter of Mr. and Mrs. J. A. Arwine of Floydada.

The groom is the son of Mrs. Marisa Fortenberry of Canyon and Durrel Fortenberry of the Cedar Hill community. He is the grandson of Mr. and Mrs. Robin Fortenberry of Cedar Hill and Rev. and Mrs. Virgil Sparks of Garland.

Organ selections were presented by Mrs. C. L. Record of Lockney. Timothy Sparks of Garland, uncle of the groom, sang "More" and "The Wedding Song."

The double ring vows were repeated before an altar scene formed with yellow and orange cascading gladiolas and greenery and a brass tiered candelabra. Commodore palm leaves in mass arrangements, along with side candelabra, accented a vow candle. Aisle ropes completed the setting. Pews were marked with hurricane type lamps tied with ribbon and greenery.

Candlelighters were Bryan Fortenberry, Amarillo, brother of the groom; Clay Suggs and Mike Arwine, Floydada, brothers of the bride.

Escorted by her father, the bride wore a floor length gown of silk organza and Chantilly lace. The scoop neckline and fitted bodice and the long tapered sleeves were enhanced by Chantilly lace flowers. The bouffant skirt, with front and back panels of the lace, circled into a chapel length train in the back, and was also scattered with lace flowers. She complemented the gown by wearing a diamond drop

borrowed from the groom's mother, which belonged to her grandmother.

A three tiered finger-tip veil of illusion descending from a Juliet cap of Chantilly lace and seed pearls was worn by the bride. She carried a cascade bouquet of yellow roses and phalaenopsis orchids and ribbon streamers centered with a detachable orchid corsage.

Miss Donna Davis of Lockney was maid of honor. Bridesmaids were Stephanie Arwine, Floydada, sister of the bride, Paula Bryant, Nan McCulley and Phyllis Guffee, all of Floydada and Karin Kunkel of Lakewood, Colo.

The maid of honor was gowned in a floor length ensemble in an apricot floral design, fashioned Victorian style with an A-line skirt and side ruffles. Bridesmaids were in empire designed gowns of yellow embossed with tiny flowers in a lighter shade. Yellow satin ribbon enhanced the high waist completed at the front with a flat bow. The gowns were fashioned with scoop necklines and billowy ruffled short sleeves. Each wore yellow picture hats and carried cascade bouquets of orange and yellow daisy mums, centered with a votive candle.

The flower girl, Melody Winget of Flemmington, New Jersey, cousin of the bride, wore a floor length gown in apricot color, and carried lace baskets filled with rose petals.

Michael Fortenberry of Canyon served his brother as best man. Groomsmen were Ricky Hodges, Snyder, Okla., Ronnie Graham and Max Yeary, Floydada; Larry Guffee and Jim Dempsey, both of Lubbock.

Ushers were Larry Brummet, Amarillo; Danny Killian and Larry Jones of Lubbock, and Lyle Suggs, Floydada, brother of the bride.

John Fortenberry of Canyon, brother of the groom, was ring bearer.

Miss Patsy Schulz registered wedding guests and also presided at the register for the reception held in the

Mrs. Donnie Fortenberry (nee Carla Suggs)

Massie Activity Center. Bridesmaids alternated at the bride's table covered with a Chantilly lace full skirted cloth, holding the bride's bouquet. Punch and a tiered cake decorated in yellow, apricot and orange rose buds, topped with doves was served with punch from crystal appointments.

The groom's table held the

bridesmaid's bouquets and a silver candelabra bearing yellow tapers. The table was laid with a white cloth accented by a yellow skirt. Mrs. Greg Carey of Lubbock served punch and German chocolate cake.

After the reception the bride changed into a navy and pink three piece dress of jersey knit with matching accessories and the orchid corsage from her bridal bouquet.

The bride is a 1974 graduate of Floydada High School and a graduate of Floral Design School in Denver, Colo. The groom, a 1972 Floydada graduate, attended West Texas State University, and is presently employed by Southwestern Bell Telephone in Amarillo where the newlyweds will

Mrs. Ronald Ray Evans (former Belinda Covington)

## Double Ring Vows Read For Miss Belinda Covington And Ronald Ray Evans

Miss Belinda Jeanne Covington became the bride of Ronald Ray Evans in a

double ring ceremony read Saturday, August 31 in the First Baptist Church. Dr.

Floyd C. Bradley performed the vows at 8 o'clock p.m. Mr. and Mrs. Jack Covington are parents of the bride. The groom is the son of Mr. and Mrs. Ronald Evans. Both families reside in Floydada.

The candlelight ceremony was read before an arched candelabra entwined with cascading palms, pom pon daisies, mums and gladioli. The background arrangement was flanked by standing chandelier candelabra in white and gold bearing long blue tapers. Two standing baskets filled with blue spider mums, white glads and chrysanthemums and baby's breath completed the wedding scene.

Miss Sharron Huggins presented organ selections and also accompanied Miss Christy Stringer as she sang "Annie's Song" and "The Wedding Song."

Given in marriage by her father, the bride wore a formal length gown of ivory satin organza fashioned with scalloped peau d'ange lace at the high Victorian neckline. The long lace sleeves were accented with a wide ruffle at the wrist. The bodice of the princess silhouette was enhanced by a lace overlay with seed pearls in a deep oval. A deep ruffle of lace encircled the hemline of the gown which swept into a full chapel train scattered with lace appliques.

Her headpiece was a matching lace Juliet cap holding three tiers of illusion, and she carried a cascade bridal bouquet of doty chrysanthemums, centered with a ring of baby blue carnations with ivory colored streamers.

To accent the Victorian neckline the bride wore an antique brooch belonging to her great great grandmother and passed down to her great grandmother, Mrs. L. L. Clark of Floydada. She also carried out the blue tradition and wore pearl earrings borrowed from

maid of honor and bridesmaids were Misses Paula Bryant, Teresa Hasley, and Penny Muncy, all of Floydada. Flower girls were Beeky Reeves and Lori Christian, Floydada, cousins of the groom.

Bridal attendants wore floor length gowns of knit seersucker blue trimmed in

ivory lace. They wore matching blue circlet headpieces and carried colonial type bouquets of white and baby blue carnations accented with miniature daisies.

The flower girls were gowned in matching blue floor length gowns with ivory trim, and carried white straw baskets filled with daisies and white and blue carnations.

Joel Evans of Floydada served his brother as best man. Groomsmen were Dan Daniel, John Cagle and Mike Gieskie of Floydada. Daniel and Cagle also served as ushers along with Monte and Joe Covington, brothers of the bride.

The reception was held in Fellowship Hall of the church. Miss Kathy Hale, Floydada, registered guests at the wedding and reception. Misses Ellen Bradley and Linda Norman presided at the bride's table which was covered with white lace

cloth over blue. The bride's bouquet and blue tapers in antique crystal holders were the focal point. Punch from an antique crystal bowl was served along with a wedding cake adorned with cherubs and doves on the top tier.

The groom's table was laid with a moss green cloth with a centerpiece of daisies, mums, blue carnations and baby's breath. German chocolate cake and pineapple and cheese hors d'oeuvres were served. Misses Mitzi Hale and Lori Vinson presided at the copper coffee service.

Members of the houseparty included Mmes. Max Dyess, Floyd Bradley, Jerry Thompson, Louis Pyle, Keith Reeves, Ray Holcomb, Joe Christian and Burl Ferguson.

LeAnn Evans, sister of the groom, and the bride's cousin, Stacy Day, distributed blue taffeta rice filled roses.

For travel the bride

changed to a white polyester cotton sleeveless dress topped with a voile floral jacket. She wore ivory accessories and the corsage from her bridal bouquet.

The couple now resides in the Varsity Apartments in Lubbock.

## Concert Membership Drive September 16

Attractions for the 1974-75 season of Plainview Community Concerts have been announced with this year's membership drive to begin Monday, Sept. 16.

Mrs. Bill Feuerbacher and Mr. and Mrs. Dennis Teasdale will be handling membership sales in Floydada and Mrs. Charles Record and Mrs. Jerry Williams will handle Lockney memberships.

Six attractions already have been booked for '74-'75 including:

"Polynesia," a dance festival from the South Seas; "The Spanish Symphony Orchestra of Madrid;" "The Ronnie Kole Trio," jazz ensemble from New Orleans; Hildegarde, internationally known chanteuse; "The Romeros," Spain's first puppet theater for all ages.

Season memberships remain the same as last year, \$10 per seat and may be purchased only during the membership campaign. Tickets to individual performances will not be available. During past years, memberships have been sold out early in the campaign and

those wishing memberships are urged to contact the local representative as soon as possible.

### New Arrivals

Mr. and Mrs. Tommy Hays of Plainview are parents of their first child, a son born August 30 in Lockney General Hospital. He weighed 7 pounds, 8 ounces and was named Steven Cloyce. Grandparents are Mr. and Mrs. G. A. Hayes of Lockney and Mr. and Mrs. H. D. Hays of Plainview.

Mr. and Mrs. John David Turner are parents of a new girl, Carolyn Lori, born Tuesday, September 3 at 1 a.m. She weighed 7 lbs. 4 1/2 oz.

Maternal grandparents are Mr. and Mrs. S. R. Jones and paternal grandparents are Mr. and Mrs. John Turner of Silverton.

## Athena Hosts Garden Yearbook Party

The Athena Club year began in bloom with a garden party in the home of Mrs. Jerry Cannon, club president. Inviting the members were three daisies, mysteriously delivered, with the last one containing instructions to decorate it and bring it to the party. Members were greeted by hostesses dressed as southern belles. When all arrived, guests were ushered into the backyard. The patio featured gaily decorated tables by each departmental chairman. Featured were Texas Heritage stonseton corsages, International bread loaves, potted Conservation plant favors, handmade homelife dolls, and newsprint Public Affair placemats. The 1974-76 club theme was stenciled across the fence, "to cultivate a garden, is to walk with

God." A patio table covered by a beach umbrella held refreshments of melon balls, fruit punch, and homemade bread sandwiches. The members began by singing "A Daisy A Day" led by Mrs. John Peck. At the appropriate time, Mrs. Ted Carthel, Yearbook Chairman, presented the yearbook to each member as a gift, wrapped in daisied paper. Members looked over the year's programs and projects, as they scanned the flower decorated pages. The daisy art winner was then announced and the ceramics were exchanged. Members then moved inside to enjoy an auction of vacation treasures. For some time packages had been arriving from various vacation spots and collected by Mrs. Roland Watson, treasurer. John Peck served

as the auctioneer, and asked for bids from items from Japan, the deep south, "feedlot corner", "the funny farm", and "Taylor-land". Proceeds will benefit club projects throughout the year. A dessert of assorted sherbets in crystal compotes was then served. A brief business meeting then followed. Members voted to add \$50.00 to the West Texas State University Loan Fund. Arts Chairman, Mrs. Roy Turley presented quilting squares and needles to each member to announce her long range quilting project. All Athena Club members were present. Their special guest was Mrs. Bill Calvert of Lorenzo, who was presented with a farewell gift from club members.

between the hours of 9:30 and 11 a.m. A special invitation is extended to all women in Floydada to attend the coffee during their coffee break and visit with the group.

## Terrell District Bureau Queen

Terrell, 16-year-old daughter of Mrs. J. B. (Jeff) Terrell of Floydada, won the district Farm Bureau contest Thursday night at Ralls. Terrell, a junior student at Ralls High School was named Floydada Farm Bureau queen July 27 in a contest in Lockney. As district queen, she will go to the state contest December 15 in New Orleans. Terrell is also queen of the Future Teachers of America and was a district historian last year. She is a council representative at L.H.S. and a member of the First Church singing group, "His

ization has really made its most rapid strides during the past 13 years. In 1961 the Texas 4-H Youth Development Foundation was formed, and since that time public support for 4-H has grown and flourished

throughout the state. "The 4-H foundation was formed as a public foundation to garner private support for 4-H in Texas," explains Tom Davison, 4-H and youth specialist for the Texas Agricultural Extension Service and executive director of the 4-H foundation.

The foundation works on a cooperative basis with the Extension Service and is governed by a board of 26 trustees who are leading business executives from throughout the state.

"Many of the training and leadership programs for 4-H youth are made possible by individual and business contributions to the 4-H foundation," points out Davison.

Among the functions of the foundation are to mobilize human and financial resources, develop educational projects to improve the effectiveness of Extension Service programs, and beginning in 1975, to operate the new Texas 4-H Center at Lake Brownwood.

According to Davison, there are nine major projects in the state 4-H program that are supported by the 4-H foundation:

1. State 4-H Roundup - an annual competitive event

THE FLOYD COUNTY HESPERIAN  
Published each Sunday and Thursday at 111 E. Mo. St., Floydada, Texas 79235. Second class postage paid at Floydada, Texas 79235. Wendell Tooley, editor. Subscription rates: Local \$6.50 a year, out of state area: \$7.50.

Anna Shugart, Lockney,

Cass Fowler, Silverton, admitted 7-24, continues care.

to test 4-H skills in various areas of agriculture, home economics and community and natural resources.

2. Awards programs - more than 30 such programs provide recognition for 4-Hers who have distinguished themselves in project work.

3. International 4-H Youth Exchange - a national program involving the exchange of youth among various countries.

4. College scholarships - numerous scholarships are provided to qualified and outstanding 4-Hers who need financial assistance.

5. Leadership - training programs are designed to develop leadership skills.

6. Volunteer adult leader training - special training is provided to better equip adult leaders for working with youth.

7. Texas 4-H Council - the governing body of the state 4-H program which is composed of 30 members.

the governing body of the state 4-H program which is composed of 30 members.

8. Texas 4-H Congress - an annual event involving teenage 4-H members from all counties which is designed to provide learning experiences and strengthen commitments to the 4-H program.

9. Texas 4-H Center - a training facility for both youth and adults which is now under construction at Brownwood in Central Texas. The center is expected to be complete by March 1, 1975 and will house 200 people. It will provide opportunities for year-round training programs.

"The Texas 4-H program is fortunate to have the backing of the 4-H foundation, not only for the financial support that is made available but for the spirit and enthusiasm that flows from those who believe in our youth and in providing every possible opportunity for growth and

development," contends Davison.

## Avoid These Common Decorating Blunders

1. DON'T over-accessorize. Lamps, ashtrays, vases, mirrors... it takes only one too many to go from charm to chaos. When in doubt, don't.

2. DON'T try to force co-existence on a variety of non-coordinating patterns.

3. DON'T hire just anybody who says he or she is an interior decorator.

4. DON'T use monochromatic color schemes in rooms with a northern exposure. Correct dull lighting with vibrant colors - yellows, oranges, reds cheer best.

5. DON'T buy chairs for charm alone.

6. DON'T buy something expensive because it's drop-dead-different or the very latest fad. You may grow to loathe it and feel you can't afford to unload it.

FLOYDADA LION BOSS Bill Hendrix welcomes Lion District Governor Hack Lassiter to the club luncheon Thursday. Lassiter is a Slaton businessman. (Staff Photo).

## Teachers To Attend Workshop

Eleven Floydada teachers will attend the Texas State Teachers Association's District Workshop at Coronado High School, Lubbock, Wednesday, September 11 at 5:30 p.m.

Larry Yawn, president-elect of TSTA, will be the keynote speaker at the workshop. Discussion groups are scheduled for the

officers, building representatives, and committee chairman attending the workshop.

Those planning to attend include Lavada Garrett, Sonny McDonald, Emily Potts, Dale Tyer, Charles Tyer, Jo Ann Stelter, Jane Bean, Mike Coconougher, Mary Alice Craig, Jerry Livingston, and Joyce Williams.

What a snow job! Early man believed that storms were due to the wrath of a supernatural beast!

Don't Crawl Along With Old Fashioned Heating...

-Switch to ELECTRIC and Conserve & Save!

WHEN YOU HEAT ELECTRICALLY, YOU USE ONLY THE FUEL NECESSARY TO PROVIDE THE WARMTH, NO PILOT LIGHT NEEDED. IT'S CLEAN, CONTROLLED AND DEPENDABLE - AND OH, SO COMFY.

FOR REAL SAVINGS-BUY NO LARGER UNIT THAN NEEDED TO DO THE JOB, INSULATE AND WEATHERSTRIP YOUR HOME, KEEP FILTERS CLEAN, SET THERMOSTAT AT 68 DEGREES AND HAVE UNIT SERVICED ONCE A YEAR.

SAVE A DOLLAR! . . . . .

Due to several postal rate increases, continuous newsprint cost increases, and many other costs of operation increases too numerous to mention, the subscription price of this newspaper will go up one dollar on October 1, 1974.

We have been able to absorb these price increases for over two years, but just can't absorb any more.

Our newsstand rate will increase from 10¢ to 15¢ also on October 1, 1974.

We regret that circumstances beyond our control have caused this rate increase.

The yearly rate for Floyd County and adjoining counties will be \$7.50. All other yearly subscriptions will be \$8.50.

HOWEVER, IF YOU WANT TO SUBSCRIBE AHEAD AND SAVE SOME MONEY, YOU MAY SUBSCRIBE AT THE OLD RATE OF \$6.50 AND \$7.50 FROM NOW UNTIL OCTOBER 1.

This makes the per issue cost only a little over 5¢ per copy if you subscribe yearly.

# Hotline Relieves Minds Of Many Parents

Operation Peace of Mind, the Houston-based telephone hotline for runaway children, was the topic of intense discussion at Tampa, Fla., Aug. 28-29. Representatives of 26 governors were on hand to examine ways their states could be linked with the 24-hour service.

It was explained that the hotline was begun by Gov. Dolph Briscoe a year ago because of the grisly discovery of the bodies of 27 young men in the Houston

area. Hundreds of concerned parents from all over the United States were calling Houston to see if one of their runaways was that of their runaway child. Originally, the operation's costs were defrayed by private contributions with a recent assist by a Criminal Justice Division grant of \$21,000.

Gov. Briscoe opened the volunteer staffed service with the idea that if runaways called and their message that they were alive and well was relayed

to their parents, then they indeed would have that peace of mind. At that time, no one dreamed how the idea would grow and develop to the status it has received throughout the country.

**Thousands of Calls**  
More than 4,000 runaways from 47 states have called Peace of Mind since last September to let someone they care about know that they are safe. Many calls have resulted in the runaways voluntarily return-

ing to their homes and families.

The national impetus of the service began to grow when the Florida legislature, in an unprecedented action, appropriated \$20,000 in funds to publicize the Texas hotline number throughout that recreation state, which ranks high in runaways.

Gov. Briscoe observed, "The extraordinary thing about Operation Peace of Mind is that it not only meets a Texas need to help

runaway children, but touches every state and every parent's heart whose child is away from home."

Because of the increasing interest on the project from other states, Gov. Briscoe and Florida Gov. Reubin Askew jointly initiated the Tampa conference to discuss various methods of publicizing the hotline number in all other states to help as many children as possible.

Grace Surguy, director of POM, said "the reason Peace of Mind works is that all calls are confidential. We only relay the message runaways want relayed —

no more and no less."

**Toll-Free Number**  
"The runaway calls us on a toll-free number that is not traced and asks us to call someone to say they are okay. They generally call back later to see if there was any reply to their message," she added.

"Most runaways are afraid to call their parents directly, fearful that they might be rejected. It's a big decision for them to make that first telephone call," she continued.

"One of the most rewarding aspects of Peace of Mind is that the runaway's SEE HOT LINE, PAGE 10

 Saturday  
 • Romans  
 8:9-13

Laughing children splash and splutter in the shallows. Farther out, big boys race and tear in noisy games of tag. Fathers show their children how to swim, while mothers smile encouragement. Lovers nestle close on striped blankets, and grandmas nod sleepily under big-brimmed hats. The day is good, a day of sand and sea and clear blue sky.

Then a whistle shrieks, and laughter stills as life guards work to save a life. Dread hovers, and even when the child is safe within his mother's arms, for some the day is tarnished.

It's easy to be gay on picnic days. But, when tragedy comes close and fears clamor, life's happiness is a temporary thing. Where can you find confidence?

Your church has the answer. It is the abiding place of God. Within its fellowship through prayer and worship, you can learn that God is the center of your life and that His goodness never wavers.

### Bride's broken bank breaks bank

By Abigail Van Buren

DEAR ABBY: We drove 500 miles to attend the wedding of a relative. Our son was to be in the wedding. The wedding was to take place at 4 P.M. on Friday night before the wedding, the bride and groom broke the bank and the wedding was cancelled.

What do we do with the wedding gift? Do we take it to the church? Who pays for the tuxedo for the occasion and never got to wear it? Do we get a motel bill?

I think the bride's parents who invited us should help us out. Should we ask them?

DEAR STUCK: That's what you are. The wedding gift - unless you can return it - is sure for your son's rented tuxedo, and your motel bill.

And no, don't ask the bride's parents. They've got enough trouble trying to control their own noses.

DEAR ABBY: My husband died very young. It was a terrible shock as he had good health and had no warning whatsoever. We were together, which is more than many couples can say. I still feel cheated.

I was in such a state of shock when my eldest daughter took me to her home for three weeks. When I returned to my home, I was stunned to find that every trace of my husband had been removed. Not one thing belonging to him was left.

My two daughters and one son (all married) themselves to go through my house and dress my father's clothes.

I broke right down and wept. They thought they had done me a big favor. Abby, wasn't it MY right to dispose of my things in my own good time? Perhaps memories of him around.

It's too late in my case, but please pray for me who one day may presume to do what I should have done.

DEAR CRUSHED: Please consider the situation. Undoubtedly wanted to spare you what would be an agonizing task. But you make a good point they should have asked.

DEAR ABBY: I am a 21-year-old male. I am being married in the near future. Both my fiancée and I have a big wedding and invite our many guests. I would like to have a big wedding but my fiancée's parents would empty her parents' pockets.

My fiancée and I feel that the traditional parents must foot the bill for the wedding. I'm afraid her folks would not be so generous if they were offered to chip in.

As it stands now, my future in-law's feelings are hurt. I would like to have a big wedding alongside my well-to-do family.

If you can come up with a solution, I would welcome early wedding gift.

DEAR DOOMED: Why not break with tradition? Why not break with the interest of common sense? Perhaps you wouldn't be as "hurt" as you think if you went in for the kind of wedding you want. If you refuse, go the traditional route, and after your honeymoon, your parents can throw you out and all your friends.

CONFIDENTIAL TO MARK: Love is a "gelt" complex.

Everyone has a problem. What's your problem? Write to ABBY: Box No. 69700, Los Angeles, Calif. 90022. Enclose a stamped, self-addressed envelope. Hate to write letters? Send \$1 to Abigail Van Buren, Lasky Dr., Beverly Hills, Cal. 90212, for "How to Write Letters for All Occasions."

According to Agriculture Commissioner John C. White, slightly more than half of the potatoes sold for human consumption are processed, with 40 percent going into French fries. More than 90 percent of all market rolls and rolls used in fast-food restaurants are made in France.

It is estimated that 70 percent of all sales rung up at

### Pilot Error Possibility In Fatal Plane Crash

CINCINNATI, Ohio (AP)—The possibility of pilot error is being investigated in a plane crash that killed three persons Tuesday, including the nation's first husband-wife nursing team to serve in the Vietnam War.

Federal authorities said the finding of a plane wing 3,000 feet from the crash site could indicate extreme stress due to overreaction from the pilot.

At the controls of the light aircraft was Robert A.

Williams, 37, a hospital administrator from Floydada, Tex. With him was his wife, Barbara, 29, and their two-month-old son Jeffrey.

The couple drew attention in 1966 when the military allowed them to break tradition and serve together in a rugged mountain outpost in Vietnam.

They were visiting Cincinnati to show their new son to Mrs. Williams' parents.

E. J. McAvoy of Chicago, investigator for the National

Transportation and Safety Board, said there was no preliminary indication of mechanical failure.

Witnesses saw the plane break up shortly after take-off from the suburban Blue Ash Airport.

McAvoy said there was a strong possibility Williams may have experienced "special disorientation," a common problem in crashes involving private planes.

He said pilots not familiar with instruments become confused on flying into clouds and overreact.

"They pull back on the stick" in haste to get above the clouds, he said, forcing stress on the wings.

The result, he said, is a tear in the outer fabric.

causing the skin of the wing to expand "like a balloon and explode."

He said the plane wing had exploded.

### As It Looks From Here

Omar Burleson, M.C. 17th District, Texas WASHINGTON, D.C. — Few people who have observed public transportation systems in our larger cities would argue that they do not have problems. Some systems are broke because operating expenses have priced them out of business, even with some paying high subsidies to keep it going.

On May 20, 1974, the House of Representatives passed a Mass Transit Bill, the cost of which is \$11,400,000,000 over a period of six years. Originally the bill had a \$20

### HOT LINE FROM PAGE 7

call to us and the reply from the parents that the child is loved and wanted back home often makes the two contact each other directly and work out a reconciliation based on love and better understanding." Mrs. Surguy concluded.

The conference delegates have returned to their governors with the details of how to best help the runaway children of America. Most have indicated an immediate willingness to begin implementation of publicity throughout their state of the Peace of Mind hotline number.

**More Publicity**

With the expected increase of publicity on the national hotline number (1-800-231-6946) and of the Texas WATS number (1-800-392-3352), Texas is preparing to add more in-coming WATS lines as the traffic demands. Texas will continue to supply the communications equipment and staff support, with other states advertising the telephone number.

J.V. will follow 9th grade

8th grade will follow

billion cost tag with a provision to subsidize States and Cities up to 50% of their operating costs.

Under the threat of a veto, because of its contribution to inflation, an amendment was adopted reducing the total amount by almost half and reducing the Federal contribution to operating subsidies from 50% to one-third.

We ordinarily think of "Lobbyists" as those trying to get something for special interests. Some of the lobbying efforts in behalf of this legislation was special interest such as equipment manufacturers, suppliers and consulting firms, but the most active was the American Transit Association, the National League of Cities, the U.S. Conference of Mayors and the National Governor's Conference. These are pretty heavy guns and, as a result of their efforts, it was difficult to even reduce the \$20 billion called for in the bill.

One of the big catches in the operating subsidy is that in every Session of Congress over the next six years efforts will be made to increase subsidy payments to the Cities since it is an invitation to let operating costs in the way of union demands and other expenses continue to rise, expecting Federal funds to make up the difference in losses.

The bill as passed, is divided into categories of A, B, C and D. The bulk of the \$11.4 billion will go to only nine cities, namely Boston, Chicago, Cleveland, New York, Philadelphia, San Francisco, Atlanta, Baltimore and Pittsburgh. Other large cities to become eligible under the formula must set systems by meeting certain defined Federal requirements. When they do so, further legislation will probably be proposed in order that they also share in these Federal handouts as if the Federal Government had the money to do it.

There is also a carrot held out for smaller towns and

NEW BALING PRESS AT Floydada Cooperative Gins is pictured above. Universal Density baling press... it has a 40 bale an hour capacity, and strapping, safety engineered, just to mention a few of its advantages. The gin to try it out on some 1974 cotton this month.

rural communities should the Secretary of Transportation decide they are doing the things necessary to qualify. These things "necessary" are rather vague and it would appear that it would be a day considerably in the future before any small towns or cities, much less rural areas, would share in this Federal legacy.

One of the strongest arguments of the supporters of the legislation was that the Federal Government had responsibility to help build and operate city transportation systems because of restriction placed on the use of private automobiles in many areas. Notably, this measure for the first time establishes the principle of operating subsidies which, it is fairly safe to predict, will have no end.

Incidentally, it would have been strange for the casual observer to note that the sum of \$14 million for a rail crossing project in Hammond, Indiana was

included to be paid out of the Highway Trust Fund. The explanation is rather simple. The Chairman of the Rules Committee happens to be from Hammond, Indiana, and is a favored figure because of his position in the House of Representatives. The handlers of the bill had a

pretty hard time getting an explanation of the Mass Transit bill well amended to fail by a 223 against.

Please join the Folks at . . . .

FHS DRAMA CAST continues "Star Spangled Girl" rehearsals. (Left to right) Craig Hambricht, Sharon Decker, and Ray Foster. (Staff Photo by Brad)

## FHS Drama Cast Working On "Star Spangled Girl"

The set is going up for the FHS drama department's early fall production, "The Star Spangled Girl". The three-act play stars Sharon Decker as Sophie Rawschmeyer, Ray Foster as Norman and Craig Hambricht as Andy. Building the

set is the drama I class, under the direction of stage manager Dana Woody. House managers Leslie Simmons and Johnnie Cates are preparing tickets to go on sale Sept. 11. The play goes on stage September 21 at 2 and 7:30

p.m. Drama director Weldon Melton says, "it looks like a

very good play. The kids are working hard. Be sure and come laugh."

HERO OFFICERS — Seated: Mrs. Wilma Adams, advisor, and Bertha Rodriguez, assistant project chairman; Irma Rodriguez, assistant project chairman; Maria Nuncio, project chairman; standing, left to right: Sally Alaniz, vice president; Marcia Fortenberry, secretary-treasurer; and Rita Martinez, reporter. (Staff Photo)

## Tractor Pull Popular

Petersburg entries won 9 of 23 places in the Tractor Pull staged here Monday evening.

Four of the nine places were first places.

The event attracted about 40 tractors from Texas and Oklahoma, along with spectators from a three state area.

The winners in their respective divisions were: 7000 stock tractor; Junior Looney, first and George Neaves of McAdoo, second.

The 12,000 Texas turbo; Derwood Blagrove, Ackerly, first; Gene Chappell, Crosbyton, second; and Mickey Givens, Crosbyton, third.

The 9,000 stock tractor, J. D. Adams, first; Elbert Long, Big Spring, second.

The 15,000 Texas turbo; Gene Fullingim (Eddie Fullingim, driver), first; George Willis, Jr., second and Derwood Blagrove, Ackerly, third.

The 12,000 super stock novis; Forrest Dollar, Plainview, first; Steve Trowbridge, second and Junior Looney, third.

The 12,000 stock tractor; Robert Fullingim (Bryan

Fullingim, driver), first; Charles Carr, Floydada, second and Elbert Long, Big Springs, third.

The 18,000 Texas turbo. Derwood Blagrove, Ackerly, first; George Willis Jr., second and Forrest Dollar, Plainview, third.

The 9,000 open; Derwood Blagrove, Ackerly, first; Don Ramsey, second and Rex Thomas, Lamesa, third.

Between 900 and 1,000 spectators were on hand for the event.

If wages had gone up no faster than food prices in the last 20 years, the average industrial worker would be earning \$2.59 an hour, not \$3.89, Agriculture Commissioner John C. White said recently.

### What One Person Can Do

What more logical person to develop a back-pack baby-carrier than a mother of four? Margaret S. Hansson is that mother, the co-inventor of the Gerry Carrier which has become a badge of flexibility and freedom for young parents all over the world. Back-packed little ones appear anywhere from hiking trails and museums to supermarkets.

About 15 years ago, Mrs. Hansson had the idea when she and her husband wanted to take their little son on a camping trip in the Rockies. She is now president of Gerico Corporation, the multi-million-dollar manufacturer of the Gerry Carrier and other children's products. She has become a leading figure in the American juvenile furniture business.

Margaret Hansson has been successful because:  
\* She is involved with products which a mother understands.  
\* She has put the caution and concern of a mother into her long years of lobbying for tougher safety standards in baby products. The prevailing standards for baby carriers are those she established.
