## Floyd In Texas' Top Ten Farm Income Counties

# Floyd Joins State In Electing Democrats

### Big Favorite For Governor

Overwhelmingly for all Democrat party as voters of the state and over the USA.

Much interest was shown in this county in the Bob Price-Jack Hightower congressional race as Hightower is senator of this district. Floyd voters couldn't vote on this race, but were interested in seeing that Hightower unseated Price.

damage was reported on the Stinson Stringer, Ed Nutt and Tom Chatham farms. The temperature never did get down to 32 degrees in Floydada Monday or Tuesday night.

COFFEE FOR CANCER — an after the game coffee for cancer has been scheduled for Friday night at the Floydada Junior High School cafeteria. All football fans as well as the general public are invited to the coffee. Cake and pie and hot chocolate will also be served.

### Over \$80 Million Farm Income

AUSTIN — The final figures have been compiled, and last year Floyd County ranked in the top ten counties in total cash receipts from farm marketings.

first and second. Sales of cattle and calves brought in more than \$2.8 billion to the state's total agricultural income.

Floyd County farmers received almost \$80 million from the sale of crops and livestock. Agriculture Commissioner John C. White reported that government payments added \$9 million, bringing the total amount received from agricultural marketings to \$89 million.

Cash receipts from crop marketings totaled almost \$2.8 billion — with food grains and feed crops accounting for 21 per cent of the amount. Over \$758 million was paid to sorghum farmers, and a record yield brought total cash receipts for wheat up to \$240,918,000 — a 244 per cent increase over the 1972 crop value.

Approximately \$65 million was added to the county's agricultural income from the sale of crops.

Cotton is still an important cash crop to Texas farmers and last year's crop was worth more than \$757 million.

Deaf Smith County led the state with total agricultural cash receipts of \$181 million. With state-wide cash receipts for farm marketings totaling nearly \$7 billion, it would appear that Texas agriculture hit its big last year. However, a closer look at the net farm income reveals another story.

Government payments in 1973 were \$386,554,000 — 5.6 per cent of the total cash receipts paid to farmers. White reported that this was the lowest amount of government payments received by Texas farmers and ranchers since 1965. Payments in 1973 were for wheat, cotton, feed grain, sugarbeets, wool, mohair, cropland adjustment, rural environmental assistance and conservation programs.

According to White, average net income per farm was \$12,200 — which places Texas farmers squarely in the middle income bracket. Out of a \$7.2 gross farm income, \$5.2 billion went to pay farm production expenses.

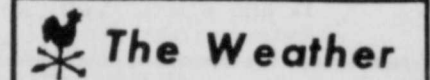

### BAND RECEIVES DIV. TWO RATING

The Floydada Whirlwind marching band received a "division 2" rating in the Interscholastic League marching competition in Lubbock yesterday.

Cattle and calves accounted for 43.5 per cent of the total cash receipts with sorghum and cotton lint being the highest income factors in Texas' crop figures. Each added 11.7 per cent of the total farm marketings.

The division 2 rating is considered excellent and the rating was made with one judge giving Floydada a division one rating and the other two giving a division two rating.

Texas ranked third in the nation in total cash receipts from crops and livestock. Iowa and California ranked

AND, while we're on the subject of football, I figure we'll beat Idalou about 40-0. This was my guess last week on the Abernathy game. Idalou is supposed to be stronger than Abernathy.

The Idalou victory over Abernathy was the Wildcats' first victory in some 15 games. Floydada had no trouble taking Abernathy 57-0 last week.

Eighth Grade Breezers Slay Slaton

The Floydada Eighth Grade Breezers breezed right on by Slaton to the tune of 24-6 at Slaton Tuesday night. Coach Gary Jones said it was the best team effort of the year as his team beat the 5-1 Slaton team that he considered a very strong team.

Ricky Luna was the big gun, scoring three of the Breezer TDs. In the first quarter he scored on a 50 yard run, carried the ball several times on the next drive then made the TD from the seven yard line.

In the second quarter Slaton scored on a 45 yard drive, and Breezer quarterback Todd Vickers held the option and scored from the six. At halftime the score was 18-6.

The third quarter was all defense with neither team scoring.

In the fourth quarter the Breezers threw Slaton for a two yard loss on the fourth down and had the ball on the Slaton 30 yardline. Ricky took it into paydirt from the eight yard line.

On defense coach Jones praised Ricky, Michael Sales, Jimmy Covington, Jay Waller and Paul Radloff.

Seventh Breezer Nose Out Slaton

Outstanding defense by the seventh grade Breezers Tuesday evening from the first blast of the whistle to the end of the football game, put the Breezers ahead of Slaton by a score of 8-6. "It was defense all the way" said Coach Mike Cocanougher and "Henry Gonzales was outstanding, playing both defense and offense." Troy Marquis was named another outstanding player, playing both ways, running a kick-off all the way back for a TD, which was called back though by a clipping penalty against the Floydada Breezers. Two other outstanding defensive players named by the coach were Ray Mercado and Robert Armstrong.

Although the game with Slaton was not a district tilt, it was a good win, said Cocanougher. "We play Abernathy at Abernathy next Tuesday evening at 5 o'clock and along with us they are undefeated in the district. The winner of that game will be district winner" said the coach, "and we hope to have a good turnout for the game."

In the game against Slaton the Breezers kicked off and held the opponents. In the second play for the Breezers Henry Gonzales galloped 70 yards for the first and only TD for the Floydada team. Troy Marquis ran for the extra two points. The half ended 8-0.

It was in the second half that Troy ran a kick-off all the way for a TD, but it went for naught, as a clipping penalty was called against the Breezers.

In the third quarter Slaton passed for their only touchdown and the Breezers defense came alive again, holding Slaton on their two points after try. It was in this quarter that Floydada's Robert Armstrong intercepted a Slaton pass.

The last quarter no one could score in the all-defensive battle and the game ended 8-6, in favor of the Breezers.

Russell Wood, Todd Vickers and Ricky on offense. The last game of the season will be played at Abernathy next week.

## Peggy's Meddlin's

BY PEGGY MEDLEY

WE enjoyed the Tech Rodeo Saturday night, but I must say I was disappointed in the singing of David Houston. I have one of his records, the hit tune of "Almost Persuaded" cut back in 1966, but his voice then and now are entirely different. Could be that singers are just changing their tempo. Anyway he wasn't too well received (to my estimation) by the crowd. A Japanese musician in his Country-Western group really went over big. He is the next person to Bob Wells on the fiddle. You should have heard him cut loose on the fiddle to San Antonio Rose.

MRS. Ralph Cogdell ran across a former resident of Floydada at the airport in Tucson, Ariz., last week. Several will probably remember O. C. Cox, especially members of the Lee Trice family, who he worked for last in Floydada, and Lon Davis, who Cox said he used to go hunting with. Gwen became acquainted with the man as her luggage was being checked. He noted the Lubbock sticker and struck up a conversation with her after finding out she lived in Floydada. She received the best care on her luggage and he saw that it was on the same plane as she for the flight to Lubbock. Cox, who is baggage checker at the airport, said he lived in Floydada from 1935 until 1955.

HOW could the dirty-dogs do it? Looks like a Texas-Texas A&M showdown Friday after Thanksgiving, and what boss would let his employees take off work on a Friday to watch a national televised Southwest Conference football game? The Texas Aggies remained the only unbeaten SWC football club thus far.

THERE is much to the claim that dollars spent at home remain at home and circulate again through the community. Local merchants, understandably, seek appreciation of this fact. The success of a local business establishment (and it should earn that success with competitive prices and service of course) means more employees, perhaps a larger

store, a better selection of goods and other local spending, which helps create community growth and job opportunity.

Christmas shopping time approaches for 1974. It's easier to exchange purchases, get refunds, obtain service, etc., from local merchants than from distant ones. That's another advantage for shopping at home.

A sense of community spirit, pride and cooperation has helped build many towns and cities in this country. It can make this community, also, a better, more prosperous place in which to live.

JOE Christian, son of Mr. and Mrs. Greer Christian of Floydada, is an assistant coach for the Petersburg Buffs, who continues their winning streak in 4-A football. Joe was among assistant coaches praised by head coach of the Buffs this week. By the way, Joe's brother and family, the Bob Christians, are among those "returning local yokels to Floydada."

Mrs. Carl Taylor (former June Davis) was honored with a shower November 2 in the home of Mrs. Ruby Smith. The couple was married October 25.

Elizabeth Hernandez and Fredda Davis served refreshments of punch and cake. The serving tablecloth, from Germany, was blue and white. Centerpiece was a bride and groom. The cake was white with blue coconut and two wedding bells. The napkins had bell designs.

Special guests were the honoree's mother, Mrs. Hubert Davis of Lockney, and her mother-in-law, Mrs. J. D. Taylor of Plainview.

Hostesses were Mes. Ruby Smith, Tommy Davis, Rafael Hernandez, Walter Kizer, James Wigington, Elizabeth Childs, Willis Hayes, J. W. Fancher, Tommy Hutton, Pat Smith, Miss Nancy Davis and Miss Yvonne Hayes. The hostess gift was a set of stainless steel.

## Halloween Family Night Hosted By Girl Scouts

Massie Activity Center was converted into a Carnival Thursday night for the second annual Girl Scout family night party. Floydada's seven Girl Scout troops hosted the come-and-go affair to which every members of the girl's family was invited. Each troop planned games and recreation to appeal to mothers, dads, little or big sisters and brothers, and the approximately 200 guests seemed to enjoy every minute of it!

Brownie Troop 50 planned the Fish Pond and the Blind Bat Draw; Brownie Troop 362 had the Snap Trap, Wheel of the Future, and the Balloon Dart Throw. Junior Troop 250 did lots of business at the Pumpkin Throw and sponsored the Costume contest; and Junior Troop 317 catered the Crazy Kafe ("all you can eat—ugh! —for a dime!") and the Clothespin-bottle-drop.

The Kafe-Sit, for which homemade cakes had been donated by troop mothers, was one of the most popular games, sponsored by Junior Troop 297. This troop also took care of the Football Toss and the Bean Bag Toss. One of the spookiest

corners was the Spook House which Cadette Troop 336 invented. This troop also had the Apple Bob.

Senior Troop 97 had charge of the Bingo Game and the Fortune Telling room where Madame Sophia told the futures of all comers! There was a snack stand for hungry guests and tables and chairs where a lot of "visiting" was enjoyed by guests.

The Family Fun Night, begun last year, is proving to have the potential of becoming an annual affair, judging from favorable comments from troops, their leaders and their families.

## Mrs. Ferguson Honored At Baby Shower

# Land Man Tells Floydada Teachers Career Guidelines

Twenty-six Floydada school teachers attended a career seminar at Duncan Elementary Cafetorium Monday and Tuesday and heard Jim Wilson of Hagerstown, Maryland give them tips on making students career minded.

The 26 teachers volunteered for the study, the school administration cooperated with the plan and the span of attention goes from kindergarten to high school graduates.

Wilson is director of career education demonstration projects and will return for two more days instruction in January. He was accompanied here by Travis Brown of the Lubbock Regional Education Services office and three teachers from Denver City who took the course a year ago.

Wilson said the program develops an awareness of careers even in kindergarten children who know where their parents work but don't know what they do. He said that Jr. High age students would explore careers more and high school students could go into "career clusters" and guidelines.

He said it was a five point program: 1. home and family, 2. decision making careers, 3. skill development, 4. business and industry, 5. curriculum and career orientation.

## Donations Still Needed To Purchase Life Saving Machines

Donations to the Caprock Hospital Memorial Fund are still needed if the hospital is to have the two life saving machines which the Hospital Auxiliary members and employees of the hospital are hoping to purchase.

Many local and area residents as well as numerous out of state contributors have sent checks toward the purchase of the machines and in memory of a loved one. At present, memorials total \$4,357.65. At least \$7,500 is needed to purchase the two machines, according to a spokesman for the auxiliary.

Donations are accepted whether for memorials or just a gift. A thank you for the contribution will be mailed to the sender. Contributions are tax deductible.

Memorials to purchase the machines were begun following the death of Marjorie Oden and Mr. and Mrs. Bob Williams and baby. Since that time many names have been added to the memorial list, the latest being in memory of Lillie Colston, Flynn Thagard, Kristie Simpson, Noel Troutman, L. P. Lawlis, Mary Lawlis, B. V. Carver, J. D. Bourland, Annie Stephens, Marjorie

If you have a problem with a chair-leg joint coming out and it's too loose for glue to hold well, do this: Hammer a small wedge into the dowel. As the dowel is forced into the hole the wedge will sink into the dowel and widen it, thus making it hold better. Glue is always a necessity for a joint like this.

If you're trying to put a screw into a hole that's too

big, stuff into the hole some wooden matches, or tooth-picks broken off to fit and dabbed with glue, and try again.

Keep a cake of soap with your tools. When driving screws, soap the threads first and the job becomes easier. It also makes your task easier if you use high quality steel bladed screw drivers that are precision-ground, and nickel-plated to resist rust—such as Ritco tools.

Twelve years ago, I started editorializing for tennis courts and a tennis program here. It took six years to get it going, because I was told "not enough interest." Today, we have around 60 students in tennis and an adult tennis club with some 50 members. You gotta start sometime.

Of course the answer is enough people telling the school board and the school administration that we need choral programs.

He asked me how I liked the results? My answer was, "We had a new car in the middle thirties. Six cylinders ran fairly well. We had to seal-off two on the other side, they would not run: too unbalanced!"

World's most destructive war, caused times to be good for many. Let us hope that our sons will not be slaughtered and broken homes will not be like that then.

## Letter To Editor

Dear Mr. Tooley,

I have a beef concerning the lack of vocal music in our school system. It seems we are missing an opportunity to train our young people to cope with everyday problems by not teaching them to sing.

I have sung all my life and I don't remember ever singing with someone and being mad at them at the same time. I haven't talked to anyone else who has either. I don't mean that they should all sing professionally. I believe that our school district has many people who could make real "bathroom baritones" if given the chance.

I have talked to several young people who would like to learn to sing. I have talked to people who golf for relaxation who say that every ball has a problem on it and this is how many musicians lose their frustrations — by playing or singing their troubles away.

I have been told that if there were enough young people who wanted to learn to sing, the school would hire a teacher. Maybe those of us who are interested in this program should express desires. I feel Floydada has an opportunity to help provide a way for people to "harmonize" if harmony is what we want.

Our band, tennis team, football team, basketball team all have to learn to work in good harmony in order to function effectively, but when these people are out on their own how many of them can come home after a really bad day and lose their frustrations alone in their own home without waiting for the right opportunity or enough people to be available to make a quorum?

When you sing or play an instrument, you can do this alone if you wish.

Sincerely,  
Art Ratzlaff

(Editor's note) Through the years we have written several editorials seeking a choral program in Floydada High School, and we also have no music program in Junior High School. School administrators have always said, "we don't have enough students interested. . . or, we don't have a teacher qualified to teach choral an hour a day."

## Water Inc., Membership Drive Rally Nov. 9

Workers in the 1974 Water, Inc., Membership Drive will converge on Lubbock Saturday, November 9 for a leadership rally launching the organization's monthlong search for new members. The 10:30 a.m. get-together will be conducted in the Fifth Floor Meeting Room of the First National Pioneer Building.

Lloyd Calhoun of Hobbs, chairman of the membership drive steering committee, said workers from throughout West Texas and Eastern New Mexico will be in Lubbock for the rally which marks the beginning of the intensive solicitation for members. He noted that there is more evidence of widespread support for Water, Inc., this year than in previous membership drives.

Water, Inc., is a non-profit, membership-based organization which has been working for importation of water into the area since 1967. It was formed by 1,000 charter members and since its inception more than 5,000 individuals, firms and organizations have participated

in its financing through membership dues.

John Lowery, Water, Inc.'s staff member in charge of field services, predicted that membership would be at an all-time high at the conclusion of this year's drive.

Water, Inc., President

George W. McCleskey, has called a meeting of the board of directors immediately preceding the leadership rally. Directors are expected to set a time and place for the annual membership meeting and to elect a nominating committee.

The Morris Carrolls had as Sunday dinner guests their son and wife, the Brooks Carrolls of Lubbock. Birthday dinner guests of Mr. and Mrs. Paul Stout and Michele of Quitaque Sunday were Mr. and Mrs. Thomas Warren and Don, Mr. and Mrs. Jimmy Owen, Mrs. Ola Warren and Mr. and Mrs. Fred Battey.

Mr. and Mrs. O. G. Mayfield visited Sunday p.m. with Mr. and Mrs. Raymond Evans. Mrs. Evans has been ill.

We regret the passing of Robert Cannon who was a faithful member of Calvary Baptist Church. Our sympathy is with his loved ones.

We always attend church where we are on Sundays, and it was good to be in our own this Sunday.

Yes, I'm home again. Even if you are away visiting loved ones, one gets lonesome to go home sometimes — call it homesick — though you are lonely when you get there, if the one and only has passed on.

By bus now, my first stop (not counting layovers) was Big Spring with son, Don Clark and family. Sunday we took off early for San Angelo and arrived in time for church. Then the delicious noon meal — a joint birthday dinner at Betty Lou's sister's home. Her son's birthday was on Saturday, Don Clark's on Monday, the 14th. Then we drove back four miles to a lake area to the new lake house — called "Green Acres", a beautiful place for weekends and holidays, with its boating and fishing, and sightseeing. We drove back home in the rain.

At 7:30 a.m. Monday Don Clark put me on the bus for Hillsboro, via Ft. Worth, where I arrived at 7:30 p.m. It rained all the way. My brother, Tarp Matthews, was in the hospital there, but better. I visited him and wife for 24 hours, then Margaret, Mrs. J. M. Ryman of Hubbard, came for me.

Theirs is a busy household. Friday, the 18th, Margaret and I attended the Golden Eagle banquet at Marquis Hall, NTSU of Denton at the homecoming. It was 60 years since I graduated there last May. It was worth the trip to have lined up for registering and getting name tags, and hear the constant, enthusiastic chatter of these former students.

The campus is crowded — only one original building left. The enrollment in 1913-14 was 1000+; this year there are 15,000. But our Golden Eagle group were as lively and friendly as ever.

About 3:30 we departed for Dallas where we viewed some of the accomplishments of patrons of the Dallas Fair, until almost sundown when we started home. It was the end of a perfect day.

One Saturday p.m. we — four grandchildren and I — went to Waco to see "Gone With the Wind". It was even better than it was when I saw it here over 30 years ago.

I called Mrs. Ross Green of R.I. Clifton while in Hubbard. She was ill with bronchitis. She sent greetings to all friends here, made when they lived at Center some 20 years ago.

Sunday we attended the funeral of a nephew of Jim's, Archie Green of Penelope. We saw many Green relatives of Jim's.

My brother had surgery and is doing fine. Was to go home Saturday.

I came home Wednesday. The bus plowed through the downpour from Vernon to Paducah and I reached home in the sunshine.

## AND RELIGION

are very much a part of religion. It is an emotion "feeling" (awareness is a better word) which no man can please God (Romans 11:6). Love is a "feeling" which we will not please God.

These must be preceded by knowledge of Truth, by the learning of the Word (Romans 10:17), and that we know God, to his Son, and victory over sin, and expression of obedience to God's will. We have done his Will then in our hearts over being into a right relationship with God (8:26-29). You don't have inside ones chest and then "feeling" is supposable me of my salvation, but intelligent faith concerning and the knowledge of their joy when you know you have right response to that will.

is the same way. It is pre-Bible knowledge, because God led us (I John 5:3). According verse if a person is unwilling the commandments of God, he truly love God. But after love itself, then there is the of joy and peace because we have done the will of God.

Think of Low Net Cost with Service.

FLOYDADA DELINTING CO. IS IN "PER-FECT CON-TROL"  
"PER-FECT CON-TROL" is a new concept of cotton seed treating by Gustafson, Inc. of Dallas. "PER-FECT CON-TROL" combines VITAVAX 17F, a systemic fungicide from UniRoyal, GO-BETTER, an insecticide from Growth Inc., and CAPTAIN, a time proven fungicide.  
All Three combine to stop - Rhizoctonia (damping off) Soil Born diseases Early insect attack Soil borne fungi Pre & post-emergence diseases by systemic action  
"PER-FECT CON-TROL" does all this by penetrating into the seed (systemic action) and remaining with the young seedling for 3 to 4 weeks. Ask Dean Morris in Floydada to put you in PER-FECT CON-TROL.
