## Bill Baker Retires At Post Office

By Wendell Tooley  
"I don't really have many hobbies, but I like to fish, and my wife likes to fish too." Bill Baker said this week as he was interviewed about his retirement from the Post Office.  
Bill is a native of Arkansas, moved here when he was 17 years of age. . . graduated and went to work for Jack Deakins at the Palace Theatre. "Graduating in 1930 was just pretty rough as far as getting a job and of course the next three or four years got worse," Bill continued.  
In 1957 he went to work in the Floydada Post Office as substitute clerk and carrier. He served as town carrier for a year, then worked as full time clerk in the Post Office until December 31, 1974.  
The Bakers plan to do some traveling. . . they have a Campmobile. And they have four grandchildren to keep tab on. Son Billy Keith lives at Wichita Falls. . . he and his wife have a son. The Bakers have a daughter, Sue Webster at Lubbock, and she has three

girls.  
In dealing with the public in Floydada for the past eighteen years, Bill reports that he likes Floydada people, therefore plans to continue to make his home here.

## Exciting Basketball Here Tuesday Night

Everyone is reminded that the Floydada Whirlwind and Whirllette basketball teams will be playing here Tuesday night as they take on the Littlefield Wildcats.  
Both teams were in Dimmitt Friday night and the results of those games were not known at press time.  
District play begins for the Whirllettes Friday night as they travel to Lockney. The Whirlwinds enter the WTSU tournament in Canyon Thursday.

## The Goals For 1975

- Every year at this time The Hesperian lists some goal for this community to achieve in the New Year. The goals usually mean a better way of life for our people, they usually require hard work, some money, a progressive attitude among our people if they are to be a reality.
- As we have done in the past, we, at the Hesperian pledge our best efforts to work with the people of this community to achieve these goals.
1. Develop Floydada parks following the Texas Tech plan.
  2. Work for a few small industries.
  3. Work with vegetable farmers for more production and better prices.
  4. Modernization of Floydada business firms.
  5. Floydada irrigation farmers are basically selling their underground water and we will help them find the crops that will give the best money return on their irrigated crops.
  6. Establish a community ambulance service.
  7. Plan and start construction on a ground level county library.
  8. One centralized law enforcement office for the county and two towns.
  9. An additional 20 rooms at the Floydada Challenge Nursing Home.
  10. Start construction on multi-unit furnished apartments.

## Mental Health Outreach Center Needs Furnishings

It is thought that the Floydada Outreach Center for the Central Plains Comprehensive Community Mental Health/Mental Retardation Center of view will open in the Floyd County Courthouse this month.

Director of outreach programs, Roy Alexander, a psychologist who travels to the outreach centers to counsel patients, was in Floydada this week and lists several items that the office will need should various individuals

and organizations want to help supply them.  
Dr. Alexander said, "The following is a list of items needed to adequately furnish the Floydada Outreach office. Please note that all of these things will not be necessary for an initial opening of the office.  
In furnishing Outreach offices, we attempt to create a comfortable and warm counseling atmosphere. We like to avoid extremely loud colors as this is a detriment to the therapeutic process. While new furniture is not necessary, we like to have an attractive and neat office setting to assist our clients feeling at ease while visiting us.

window, coffee table or bookshelves for handouts, magazines, and pamphlets.  
**COUNSELING ROOMS**  
Living room furniture (couch, two comfortable chairs), end table or tables, lamp or lamps (medium, comfortable lighting), carpet (approximate size 10 x 10), pictures (two walls - small and large), drapery or shades for two long windows (one window in counseling room B).  
**PLAY THERAPY AREA**  
Cabinet for storage (preferably with lock), fold-up table (large one preferably)  
**ADDITIONAL ITEMS (If Happen To Be Available)**  
Smaller fold-up table (for testing), coffee pot and serving table or stand, potted plants or corner plants (real or artificial, FM radio (for use in lobby to cover voice distractions in counseling rooms), carpet or area rug for lobby, clock or clocks (for lobby and (or) counseling rooms).  
Anyone interested or seeking more information should call Billie Jordan or Judge J.K. Holmes.

## Floyd Irrigation Wells To Be Measured

Personnel of the High Plains Ground Water Conservation District No. 1 have begun the annual measurement of depths to water in the than 800 observation wells in the counties comprising the District.  
A coordinated and systematic measurement of the depths to water in observation wells constitutes the method of determining changes in volume of water stored in the aquifer beneath the land surface. The water-level records read through the observation wells in Floyd County constitute the

foundation for the District's cost-in-water depletion, income - tax - allowance program.  
An observation well is a well that has been selected for inclusion in the annual water-level measuring program. All wells are privately-owned - the District does not own any wells - and are measured with the permission of the well owners.  
District personnel will measure wells in Armstrong, Bailey, Castro, Cochran, Crosby, Deaf Smith, Floyd, Hale, Hockley, Lamb, Lubbock, Lynn, Parmer, Potter and Randall Counties.

- ROOMS TO BE FURNISHED**

## Lions JamBree Saturday Night

The next monthly Floydada Lions JamBree will be held this Saturday night, January 4, in the Massie Activity Center. Show starts at 7:30 p.m.  
The "Plowboys," a country and western group from Paducah, will join the regular group and "Brio," Floydada's high school rock group, has

been invited to play also.  
The show is very informal and admission is \$1 for adults and 50 cents for high school and under. All proceeds go toward the purchase of a good public address system for the MAC. Area musicians who have participated in past shows will be back again. This is a monthly affair for the Lions Club.

## Caprock Chat By Wendell Tooley

NOTE OF PROGRESS. . . the "Welcome To Floydada" sign on the Ralls way has been repainted a beautiful red and white. . . thanks to the Floydada Chamber of Commerce.

**TOUGH BREAK:** The frail old lady lived on the second floor of a rooming house. One day she fell and broke a leg. The doctor put it in a cast, and warned her not to walk up or down stairs. After months of slow healing, the doctor removed the cast.  
"Can I use the stairs now?" asked the old lady.  
"Certainly," he replied.  
"That's good," she chortled. "I'm sick and tired of climbing up and down the danged drain pipe."

**WAS IMPRESSED** with the fact that new Texas Tech coach Sloan made at the Peach Bowl. It is that Tech has hired one of the most promising young coaches in the country. We wish him well.

**IF WE WANT MORE ROSES,** we must plant more bushes.

**WRITE THIS** column 104 times a year and if I wanted I could give you a good example in each column of just a foolish things our Congress does each week.  
Here's a good example:

**WHAT DO YOU PLAN TO DO** to make it a better year? For our own sense of well being and accomplishments in the new year we might all remember a few basic rules so necessary to be a working cog of a healthy and growing community:  
Be a booster and helper.  
Keep an open mind to new ideas.  
Be cheerful and optimistic (whether you feel like it or not).  
Be big enough to admit it when you've goofed.  
Be quick to forgiveness.  
Never nurse a grudge.  
Live a healthy life; spiritually, physically and mentally.  
Be a hard worker. . . and keep faith in our community, our country, and our fellowman.

**OUTRAGED** Sen. Mark Hatfield (Oreg.) said he's "astounded" that this year our government shipped \$25 million of tobacco to poverty-stricken countries - under a program that is supposed to provide desperately needed food.  
Hatfield said it's "totally unbelievable" that this enormous quantity of tobacco was sent to underdeveloped countries as part of our much needed aid for Peace Program.  
Administration officials call these tobacco shipments "moral-building" - such a thought is worse than any mentality deleted from the White House tapes.

**FOR YEARS WE HAVE** tried to maintain newsstands on the streets of Floydada, and for years these newsstands have been stolen, beat up, robbed etc.

**How much food** rich in protein could have been grown on that land which yielded \$25 million worth of tobacco if we fit to underwrite and distribute throughout the under developed world?  
Congress must share the blame."  
We have given in to the self-serving stipulations of the tobacco industry have allowed a program designed to feed the hungry to be used to feed coffers of a special interest group."  
Hatfield said the \$25 million of tobacco was shipped abroad during the 4 fiscal year - and that he expects same amount to be sent during the 5 fiscal year.  
He noted that the shipments will exceed "between \$10 - \$12 million in tobacco as part of our food assistance to the Vietnam."

**ENJOYED VISITING** with Troy Patton, new Caprock Hospital Administrator, this week. We welcome Troy and his family to Floydada. . . you all get acquainted with them.

## Car Insurance Rates Increase \$25 In Floyd

Floyd County motorists can expect to pay about \$25 a year more for car insurance under new rates ordered by the State Insurance Board in Austin last week.

The hike for Floyd County includes changes ordered for bodily injury, property damage, full coverage comprehensive and \$100 deductible collision insurance.  
Don O'Brien, director of automobile insurance for the board, said the changes are for the average motorists driving a 1975 medium-priced car.  
Changes in the car insurance rates vary widely among the 40 rating territories in the state, and the figures O'Brien gave were for Territory 26, which includes Floyd County.  
The major changes include a tiny drop of one-tenth of one per cent in bodily injury; an increase of 11 per cent for property damage; an increase of 25 per cent for full coverage comprehensive, and a 15.4 per cent increase for \$100 deductible collision.  
The rates are based on a motorist using a car to drive back and forth to work and assumes there are no male drivers under 25, O'Brien said. The rates also take into account the 10 per cent discount for new shock-absorbing bumpers.  
Increases will vary among different drivers and conceivably could be lower on older autos.  
State Insurance Commissioner Joe

Christie said the new rates after two years of decreases, would raise insurance premiums back to 1971 levels. The rates will cost Texas motorists about \$50 million more a year than at present.

The statewide increase averages 8.8 per cent, with increases ranging from a low of \$9 in Parker County, to a high of \$39 in Montgomery County.  
Insurance industry spokesmen had said an 18.3 per cent increase was justified, and actuaries for the insurance board said statistics showed a 16.8 per cent increase was justified.

## Underground Water District Cost-In-Water Depletion Report January 15

The High Plains Underground Water Conservation District No. 1 will release the 1974 cost-in-water depletion, income-tax-allowance, decline maps and water depletion information for individual land parcels on January 15. The maps and other data are to be used by landowners and their accountants to calculate possible deductions on the landowners' income tax statements.

The District's Board of Directors voted in their December 17 meeting to retain the cost of \$7.50 for decline maps and \$5 per parcel for computerized decline data.

The Board also voted to add Floyd County to the list of counties whose decline is now provided on a parcel basis. The other counties are Parmer, Bailey, Castro and Lamb.

Landowners in the above-mentioned counties will not be furnished decline maps — they must contact the

District's Lubbock office (1628 15th Street) to supply the information needed in order to locate the parcel and determine the water-level decline thereunder.

Data necessary to determine the decline for these counties is as follows: 1) taxpayer's agent's name and address, 2) landowner's name, address and social security number, 3) account number and 4) the legal description of the land.

The correct legal description includes: the county in which the property is located, block and section, league and labor, township, range and section, home-stead, pre-emption name and abstract number, etc.

The decline maps, depicting the decline of the water table in the Ogallala aquifer, may be purchased by persons owning property lying within the following counties:

Armstrong, Cochran, Crosby, Deaf Smith, Hale, Hockley, Lubbock, Lynn, Potter and Randall.

You can also obtain service by going to the Social Security Office at 1401-B, West 5th Street, Plainview, Texas, or by telephoning 293-4371. A telephone call to the Plainview office may save you time and a trip.

When you need a program for your club, call us.

printed and addressed in a single operation, thus eliminating separate printing, assembling, stuffing, and the attaching of the printed address labels. It is the first time that this type of operation has been used in a Federal census.

Also, for the first time, the forms are being mailed out at the third class bulk rate to reduce postage cost. The return envelope containing the farm operator's completed report carries first class postage to protect the confidentiality of the information reported.

Completed forms are to be mailed back as soon as possible. Census by mail allows operators to fill out their reports at their convenience and use their farm business records. Estimates are acceptable and should be reported in the absence of records.

Recipients of census report forms are cautioned not to discard them. Follow-up mailings costing additional postage will be required until all forms are received. Even if the recipient is not farming, the form should be returned with that fact noted.

### County Agent's Corner

By Doyle Warren  
Floyd County Agent

There will be a meeting on the production of Sunflowers Friday, January 10, 1975, at Lighthouse Electric Co-op, beginning at 7:30 p.m.

This will be a meeting to inform on the production and handling aspects of Sunflowers. The program is sponsored by the Floyd County Extension Service Crops Committee, Producers Co-op and Lockney Co-op. On the program will

be the following:

Dr. James Supak, Area Agronomist, TAES Production; Dr. Robert McIntyre, Area Entomologist, TAES Insect Problem;

Local Growers Farming Sunflowers; Bill Cagle, Producers Co-op, Contracting; Rainy Davis, Lockney Co-op, Receiving and Handling.

Hope that all growers interested in the production of Sunflowers will attend this meeting.

## Nation's 20th Census Of Agriculture Underway

The 1974 Census of Agriculture got underway the week of December 29 with the mailing of approximately four million report forms to farms and ranches in the 50 States according to Vincent P. Barabba, Director of the Bureau of the Census. The Bureau is part of the Department of Commerce's Social and Economic Statistics Administration.

Farmers and ranchers are being asked to report on their agricultural operations during 1974. This 1974 census, the Nation's 20th farm census in a series that started in 1840, will update data most recently obtained in 1970 for 1969 operations. Primary emphasis will be on obtaining information about farms and ranches with sales of \$2,500 or more annually. Such operations accounted for 98 percent of the total value of all agricultural products sold in 1969.

To avoid undue burden on small farmers and to reduce processing costs, a short version of the census report form is being mailed to the over one million addressees estimated to have had both farm receipts and expenses of less than \$2,000 in 1973. All other addressees are receiving the standard form.

Forms are being mailed to a list of the following: persons who filled out Schedule F of the 1973 individual income tax return, persons listed with other Federal agencies as

associated with agricultural operations, and those reporting large or unusual farm operations in the 1969 census (such as institutional farms, farms on Indian reservations, etc.). This combined list of addressees forms a pool of potential respondents in the census.

The final total of farms counted is expected to be well under three million, as it was in 1969.

A new kind of report form is being used in the 1974 farm census in order to reduce costs. The report form, instruction sheet, and return envelope have been

Cattle On Feed at 1970 Low... Sheep and Lamb Feeding Also Declines... Wheat Pasture Prospects Good... Dairy Incomes Down.

TEXAS CONTINUES as the number one cattle feeding state in the nation, but feeders have the lowest number in feedlots in the state in the past four years. Cattle and calves on feed in Texas as of Dec. 1 totaled 1,428,000. This is 37 per cent below a year ago and eight per cent under last month. It is also the lowest since October, 1970.

During November, cattle feeders placed 51 per cent fewer cattle in their lots than a year ago. This is also 47 per cent below the previous month.

Nationwide, the same trend continues. In these seven states preparing monthly estimates of cattle on feed, the Dec. 1 inventory was three per cent below a year ago.

Cattle placed in the feedlots were down 33 per cent from a month earlier and are down almost 30 per cent from a year ago.

Reason for the continued decline in cattle feeding is due to continued high costs of production. Cattle marketings are also down considerably from month ago and year ago levels.

WHILE cattle feeding declines, there is also a downturn in the number of sheep and lambs on feed in Texas.

Drylot sheep feeders with a lot capacity of 2,000 head or more had 72,000 sheep and lambs on feed for slaughter as of Dec. 1. This is 16 per cent below the number on feed a month ago and 21 per cent below a year ago.

Current intentions to market include 31,000 in December, 32,000 in January and 9,000 in February.

Continued downturns in number of cattle and sheep on feed will in the long run be reflected to the consumer in fewer supplies of beef and lamb.

MEANWHILE, WHEAT PASTURE prospects in Texas continued to be bright. The Texas Crop and Livestock Reporting Service notes that winter wheat pastures in the Panhandle and Low Plains of the state are providing excellent grazing for livestock. Early stands continue to make good growth generally, and stocking rates have surpassed last year's level as farmers continue to move livestock onto fields.

In the three-state region—Texas, Kansas, and Oklahoma—only about half of the fall seeded wheat had sufficient forage to support grazing. Forage supply is still rated as fair.

## Club Has Tour Of Day Care Center

Members of the 1929 Study Club had a tour of the Floydada Day Care Center when they met in the Home Ec room at Della Plains School Tuesday for their program on Education, law enforcement and the Day Care Center. The club is one of the Day Care Center sponsors. Mrs. Clarence Goins, club chairman of the Center, directed the group and Mrs. John Campbell conducted the tour of the facilities.

Mrs. Ian Moore opened the meeting with prayer and the American Creed was given in unison by club members.

During business Mrs. Vance Campbell distributed membership blanks to the Texas Anthropological Society.

Mrs. Thelma Horn described the Home Economics Rehabilitation Opportunity program at Della Plains, after which Mrs. Q. D. Williams took club members through the early childhood classroom of Plan A for pre-schoolers.

Program speaker was Floyd County Sheriff Bud Rainey, who was introduced by Mrs. Williams. Sheriff Rainey discussed the positive viewpoint of juveniles in Floyd County, stating the

county only had a small record, some 130 cases, and most of those repeaters. He told the club he felt it was perhaps the lack of parental interest and that when funds were available for a qualified juvenile officer, that it would help the situation. Sheriff Rainey said most of the young people in the county were self-disciplined and wanted to do what was right. He stressed that in comparison to other counties the size of ours, juvenile cases were small.

Mrs. Moore served coffee and brownies in the home ec room to Mmes. J. A. Arwine, Vance Campbell, H. O. Cline, Clarence Goins, Clay Henry, S. W. Ross, Q. D. Williams and guests. Cindy Arwine and Elizabeth Novian of Lubbock, and Mrs. Thelma Horn.

Next club meeting will be February 6 for a program on D.A.R. Bicentennial Americanism, held in the Floyd County Museum. Members will start a Bicentennial quilt at this time.

## Lockney Care Center

By Maria Arellano  
The New Year's snow typified the mood of our residents for this New Year — clear, fresh, and revitalizing.

Celebrating their birthdays this month will be Dora Harris 1-3rd; Ella Casey 1-15th; Louis Roberts 1-18th; Mary Carwile 1-24th. On Jan. 8 the ladies of Main Street Church of Christ will honor these residents with a birthday party. We also have two employees celebrating birthdays — Happy Birthday to Georgia Perez who has her birthday Jan. 4. She is our housekeeper. We want to wish her a very happy day. Agnes Jones, who is one of our cooks will celebrate her birthday Jan. 29.

Again we thank the many people who have made our past year a very joyful year. And to everyone who takes time to come each morning to participate in our devotionals. And all our visits. This past week we had Edna Rogers of Matador, Mr. and Mrs. Howard Rogers, Mr. and Mrs. Degan, Flomot and Mr. and Mrs. Roy Calvert, Abernathy, Mr. and Mrs. Smallwood, Matador, visiting with Ola Rogers. Mary Carwile had her granddaughter, Ruby visiting her. Bettie Lester had her daughter, Elizabeth Settle, Lubbock, visiting with her.

Elsie Woodall had her son Charles Woodall and wife of Odessa visiting her and taking her to Hale Center for a day. Dee Witt and

Martha Burke daughter of Floydada visiting Mr. and Mrs. Paducah, and wife of Matador, Mrs. Marie Carter visited her. Ruth Roberts visited her. Ormand, Mr. Virgel Blakney visited her. Lockney Cemetery. Funeral services were set Saturday at Azle, where he had lived for several years. Survivors include his wife and a sister, Mrs. Will McDonald of Lockney.

**Accent on Health**

The beginning of any new year is a time for looking ahead — as well as reflect- ing on the many blessings and accomplishments the past 12 months. The Texas State Depart- ment of Health is happy to have been a part of many good things received by Texans during the past year. Your tax dollars pro- vided these services in many areas. During 1974 the incidence of immunizable diseases reached an all-time low. Taking the lead in lowering these so-called childhood diseases was the Immuniza- tion Division of the State Health Department. Public health facilities throughout the state provided more than three million immuni- zations — and private physicians added a great contribution in this effort. Texas schools continued to report 95 per cent or more immunizations among pupils for diphtheria, tetanus, pertussis, polio, mea- sles and rubella. A sizable increase in pre-school im- munizations also was re- ported. For those who were in need of hospitalization, the Health Facilities Construc- tion Section channeled loans and grants into local facili- ties. These funds went to 35 additional hospitals and other health care facilities. In addition, assistance was given approximately 50 others with construction al- ready underway. To ensure compliance with regulations, the Hospi- tal Licensing Program made

601 hospital surveys and reviewed plans for more than 14,000 new hospital beds and 54 new hospitals. Personal services were extended by the State Health Department to residents throughout Texas. More than 186,000 children benefitted from medical and dental screenings and treat- ment. Some 12,857 children were aided through hospi- talization, medical or surgi- cal care, artificial appliances and other services through the Crippled Children Ser- vices. Maternal and Child Health services went to more than 65,000 children and an additional 31,000 maternity and 86,000 family planning patients. Through the Chronic Di- sease Division screening program, diabetes tests were provided for more than 22,000 potential diabetics. Control tests were made for 3,474 known diabetics.

### What One Person Can Do

color of their skin, but by the content of their character." On August 28, 1963, Martin Luther King, Jr., shared that dream with more than 200,000 people. It was the climax of a massive March on Washington.

The dream started when a black seamstress in Montgomery, Alabama, refused to surrender her seat to a white passenger and move to the rear of a bus. "I was tired..." she said later. "My

feet hurt." As undramatically as that, the 1955 Montgomery bus boycott began. It catapulted an unknown young Baptist preacher, Rev. Doctor Martin Luther King, Jr., into national and, eventually, international prominence as a spokesman for civil rights. It led to a Supreme Court decision that segregation based on race was unconstitutional.

During the boycott, Mar-

tin Luther King forged a weapon that could be used by those with little economic or political power — nonviolent resistance. "I used the teachings of Jesus to give spirit to the movement," he explained. "I used the methods learned from Gandhi and Thoreau." But the driving force, he said, was love: "Our weapon is love. Hate cannot drive out hate. Only love can do that."

Leadership brought fame. It brought suffering and imprisonment. It brought a Nobel Peace Prize. Finally, it brought death at an assassin's hand, on April 4, 1968, at the age of 39.

Does the horror of Dr. King's murder belie his dream? Not unless our frequent failures to live in harmony cancel Jesus' injunction to "Love your neighbor as yourself."

### Understanding YOUR CAR

FOR SAFETY AND ECONOMY  
**DRIVING FOR ECONOMY**  
Like almost everything else, gasoline and petroleum products are more expensive today than they used to be. Real savings can be achieved by knowing a few basic things about how to drive and maintain your car for maximum economy and efficiency.

For example, fuel economy possibilities start the minute the engine is started. Don't let the car idle until it warms up; instead gently drive away after it has run no more than a minute. Idling takes minutes of gas-wasting. If the engine burns gas for 10 minutes every winter morning that's roughly 50 minutes per week and, depending on car and idle speed, the gasoline wasted this way could fuel a trip of up to 400 miles.

### SWPS Plans Improvements

More than \$345,000,000 will be invested in new equipment and improvements during the next five years by Southwestern Public Service Company, Roy Tolk, chairman and president of the electric company, announced today. The investment for 1975, 62.4-million dollars, will be the largest annual amount ever budgeted for the company, but the record will

be short-lived. The projected investment for 1976 is more than 65-million dollars, more than 76-million dollars in 1977, and in 1979, the company expects to spend more than 77-million dollars for the improvements and equipment necessary to continue providing electric service for this growing area.

Three new generating facilities to be installed

during this five year period will increase the capability of the SPS system by more than 1-million kilowatts, bringing the total capability to approximately 3 1/2-million kilowatts.

Harrington Station, northeast of Amarillo, will be the site for the first two additional generating units. The first is now under construction and is schedul-

ed for completion in mid-1976 and completion of the second unit is planned for 1978. These two generators will each have a capability of 350,000 kilowatts and will use coal as their primary fuel.

"Construction of the third generating unit will start during the latter part of the five year period and will also use a coal fired boiler," Tolk said.

In September of this year, SPS announced its interest

in taking a lead role in the construction of the nation's first nuclear power plant using a gas-cooled fast breeder reactor. The company signed a letter of intent with the General Atomic Company of San Diego, California indicating that SPS would contribute 100-million to such a project.

Transmission lines and transmission substations to be built during the five year period will represent an expenditure of more than

\$50-million. The lines will be 115,000 and 230,000 volt and will serve the major load areas in Southwestern's system.

Construction will start in the near future on a 115,000 volt transmission line from Cunningham Station, near Hobbs, New Mexico, to Carlsbad, New Mexico. This new line will provide additional power for new and existing industrial loads.

"This region can avoid the recession which is gripping much of the nation if the

people of the area will continue the planned development program for growth which utilizes all of our assets. Planning is the key word and our area development people are dedicated to helping every community that wants to work at planned progress. Finally,

the whole region can count on adequate electric power being one of the assets at work," Tolk concluded.

A. Nope. The insurance protects you against damage caused by accidents, but not against damage resulting from your intentional acts. And it most emphatically doesn't protect you against the criminal charges that a neighbor with dislodged teeth could lodge against you with the police!

I'm 31 years old, and have a hearing loss.

I knew I had to do something to correct it, and my doctor said a hearing aid would help...but I didn't want to pay \$350 or \$400!

I found the answer with St. John's.

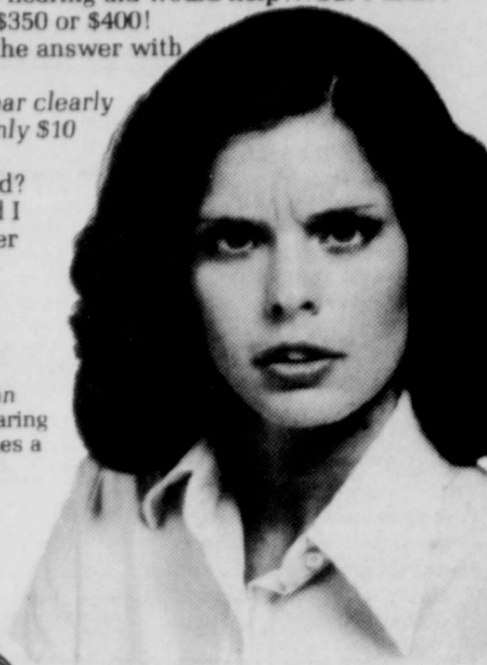

I now hear clearly and it cost only \$10 per month!

Delighted? You bet! And I thought better hearing was expensive.

Don't buy a hearing aid!

Today! You can find better hearing for only pennies a day. Send the coupon now.

## TURN OFF THE WORLD

Sunday John 1: 35-39  
Thursday Acts 10: 34-41  
Monday Proverbs 3: 1-8  
Friday Exodus 34: 27-31  
Tuesday Ephesians 4: 1-6  
Saturday John 3: 14-18  
Wednesday Psalms 26: 8-12

We all feel that way at times: And, tragically, there are some folks who feel that way much of the time.

But while the world in which we live leaves a lot to be desired, it's our world. And life in that world is pretty much what man himself has made of it.

The God who created us and our universe had some excellent plans for life as it should be. They are clearly set forth in the Bible whose writing He inspired. And they have become the spiritual blueprint of constructive living for millions of believers.

As the earth continues its endless turning, search for your goals in faith—not escape. . . in the Word of God—not the words of cynics.

FLOYDADA CHAMBER OF COMMERCE MANAGER BILL FLYNT is moving to Colorado and just to make sure he has a good set of skis the Floydada Lions Club gave him this set Thursday. They are "downhill type" as you can see the way the boots slant... the runners are strong 1 x 4 lumber, the ski poles are purposely different lengths for going around the mountain... a bearing holder and an old brake band are part of the ski poles. ### What One Person Can Do

WELTHY FISHER, EDUCATOR

Mrs. Welthy Honsinger Fisher, named for a Puritan ancestor, is vibrant at 95. Capping a lifetime of teaching and boosting literacy among the world's poor, she "slowed down" in recent years to round-the-world lecturing and fund-raising. In her 94th year, she took a ten-day trip to China.

Exotic keepsakes enliven the simple furnishings in Welthy Fisher's retirement home in Connecticut. One is a huge brass tray given to her by the President of India. "I love the world and I love people," says the woman who went to China in 1906 as a Methodist missionary. Because of a teaching background, she became headmistress of a school there. In 1924 she married Frederick Fisher, the Methodist bishop of Calcutta and Burma.

Widowed in 1947, Mrs. Fisher plunged into a new career. Gandhi had urged her to teach illiterate adult villagers to read and write. "If it's a cotton-growing village," he said, "first teach them to write, 'cotton.'"

She took his cue and went further. In three years, she opened her own school in Lucknow, India — Literacy

### Floyd Philosopher

Philosopher Has Some Unsolicited

Advice For People Planning To Buy Gold

Editor's note: The Floyd Philosopher on his Johnson grass farm tackles the gold situation this week, more or less.

Dear editor: The same as you, all Congressmen, Governors, economists, financial experts and everybody else except jewelers and dentists, I don't understand gold.

Furthermore, I never expect to. The part I do understand is that gold, which used to be worth \$35 an ounce, is now worth about \$200 an ounce, or was the other day, which by the pound comes to even more than the price of a new car. Also, I understand that the U.S. government is now allowing Americans to buy the stuff. Gold, that is. Cars they don't seem to be hankering for.

I couldn't understand why people would want to buy gold until I read an article by an expert. He explained it was a hedge against inflation. This cleared it up. I'd thought they were buying it in case they had a lot of teeth needing capping.

But I'll tell you, buying gold as a hedge

against inflation strikes me as about as sound as going into the ranching business for the same reason. These buyers of gold may be like the ranchers who were holding their cattle last year expecting the price to soar as soon as price controls were lifted. I have six over-grown Jersey steers out here I'll sell cheap. I would swap them for gold if I had a magnifying glass to see how much I was getting.

Then an altogether different idea hit me. As I understand it, the U.S. government has several billion dollars worth of gold stored at Fort Knox, stacked like cord wood with each stick worth nearly \$200 an ounce or about \$70,000 a stick.

But, we paid only \$35 an ounce for it. Any time you can buy something for \$35 an ounce and sell it for \$200, it seems to me you'd be mighty foolish not to sell and take your profit and I've heard the government was considering the idea until somebody pointed out how much income tax it'd have to pay. That ended it. You're not going to see Washington get caught in a trap like that. Yours faithfully, J.A.

House. It has graduated 6,000 instructors for the poor and trains puppeteers and "tin trunk" librarians. There, 200 writers have learned to prepare materials specifically for "new literates." Literacy House has

published 70 such books, plus audio-visual materials. Through World Education, Inc., the technique has spread to 14 countries. "She really moved things in India where there wasn't any movement". Said Bill

Baird, who had gone there at Mrs. Fisher's request to teach puppeteering.

Welthy Fisher has written an autobiography entitled "To Light a Candle." She has beamed the light of literacy into many dark corners.

### Young Sheep Producers Receive Boost Thru 4-H

America's young sheep producers—some 80,000 in 4-H projects—are about ready to tally up their results for 1974.

Utilizing their carefully kept records, the 4-H'ers are looking at profits, individual performance of animals, and overall quality of their breeders. Many also are evaluating their personal results as they seek added recognition in the national 4-H sheep program.

Sponsored by Wilson & Co. Inc., and supervised by the Cooperative Extension Service, the program offers top awards of six expense-paid trips to National 4-H Congress in Chicago, and an equal number of \$700 scholarships.

On the way to earning these coveted awards, the

young people also can pick up \$50 U.S. Savings Bonds as winners in their respective states. About 40 such awards are expected to be presented by Wilson & Co. this year.

While most youthful sheep producers conduct their operations on the nation's farms and ranches, Gayle Allard, 19, of Turlock, Calif., has proven that success can come with good management on limited acreage. She has raised some 48 sheep and lambs on a quarter-acre lot and her records last year were good enough to earn national honors, including a \$700 scholarship.

For information about opportunities offered boys and girls in the national 4-H sheep program, contact the county extension office.
