## Handballers Split With Idalou

JOHNSON scores a couple of points in the Idalou game here night. At left is top scorer Donette Marble.

By Wendell Tooley  
Floydada basketball fans experienced joy and sadness here Tuesday night as the Whirlwinds had no trouble beating the Idalou Wildcats 81-43 and witnessed the heartbreaking Whirllette loss by one point after two overtime plays 71-70 to the Idalou girls' team.

**WHIRLETTES**  
The Whirllette game had the crowd on its feet most of the game as it was nip and tuck all the way. The Whirllettes took off slowly, running behind until halftime when they had gained a 33-27 lead.

With 2:40 left in the game the Whirllettes were behind again 51-54. It was 58-59 with 15 seconds left in the game, Floydada still behind. Donette Marble made two free shots and Floydada was ahead 60-59. With six seconds left Idalou's Arinda Speer made a free shot and tied the game at 60-60 when time ran out.

In the first overtime the score ended 65-65. Idalou pulled ahead to 69-71 with 35 seconds left in the second overtime. A Whirllette free shot with 15 seconds left brought the score to 70-71 Idalou winning.

Donette Marble was top scorer with 43 points.

The Whirllette guards had a difficult time getting the ball back down the court to the forwards and the Idalou guards were successful at times in stealing the ball from the Whirllette forwards.

The Whirllettes now stand 1-3 in the first round of play. However, they lost the first round last year and came back to win the second round and beat Tulia

## Damages McCoy Gin

What began around 2 a.m. extensive damage to the McCoy gin. Fire departments from Floydada, Ralls and Petersburg fought the blaze that destroyed the building and burr house. Also burned the back wall of the bales of cotton, one trailer

load of cotton and some bagging.

Gin manager Dan Fry said that there were only three farmers still harvesting cotton in that area.

Fry expressed his appreciation to the participating fire departments for their diligent efforts in saving the gin.

## Clarence Denton Manager Of Year

Clarence Denton, Floydada manager for Southwestern Public Service Company, Wednesday earned a "Manager-of-the-Year" award in competition with 12 other managers in towns similar in size to Floydada.

Cliff Mlinar, marketing vice president of Southwestern, presented the award for outstanding sales performance to Denton at a division sales meeting in Lubbock. The honor was accompanied by a gift of a trash compactor. Denton has been manager in Floydada since September 1, 1972 and this is the second year he has received the award.

Floydada made quota, or better, in 12 of 14 areas of sales competition and gained 3 first place positions to bring the honor to Denton.

Denton is president of the Floydada Chamber of Commerce and active in many civic endeavors.

SHANNON BELL, former Junior Historian, tells why she is a member of the Floyd County Historical Museum: "I first bought a membership in the Museum when I was a Junior Historian in Junior High School. We had many people that year to raise money to help the Museum get started. We presented a play, 'The History of Floyd County' and gave the profits to the Museum. We had a Museum membership drive at school and sold many memberships. We decorated the Christmas tree in the Museum and presented a program for a study club. We had so much fun and at the same time grew very interested in our County Museum. I think that buying a membership each year is an easy way to support the Museum and have a part in preserving our local history." (Staff Photo by Brad)

## Grandparent Valentine Page

Would you like for your grandchild to be a Valentine? And would you like to see the youngster's picture printed on this newspaper's Valentine page in the edition just before that favorite holiday?

The 1975 page of Valentine hearts, each carrying the picture of somebody's grandchild, will be published in the Thursday, February 13 edition, the day before St. Valentine's Day.

The offer is limited to grandparents and here is what they do:

Bring or mail a picture, preferably billfold size, to this newspaper not later than Friday, February 7 at 5 p.m., along with the youngster's name, the name of the parents and names of as many grandparents as the child may have.

This is for children one day through

six years of age. The child's face will appear on a special Valentine on the greeting page. The size of the individual valentines is shown in an ad on another page of this issue.

Either black and white or clear colored photos may be used. It is not necessary that the children live in this county. They may live anywhere in the world.

There is a charge of \$5.00 per picture and the photos will be returned following publication.

This is a unique way for grandparents to help their grandchildren say, "Happy Valentine" to the rest of the family. It is also an opportunity for proud grandparents to show readers of this newspaper they have the finest, prettiest or most handsome grandchildren to be found anywhere!

# Floyd Philosopher Comes Up With A Shrewd Plan To Whip Both Inflation And Recession

Editor's note: The Floyd Philosopher on his johnson grass farm joins the battle against recession and inflation this week, in his own way.

Dear editor:

Now as I understand it, there's sort of a race on between the Democratic Congress and Republican President Ford to see who can get credit for cutting taxes this year to fight the recession. Mr. Ford wants to give a 16 billion-dollar rebate to tax payers and Congress is working on a slightly different figure. Both would come to about a 10 percent refund on your 1974 income tax.

In trying times like this the country needs complete harmony without partisan bickering and I have figured out a plan to achieve it.

You see, as everybody knows, not only do we have a recession but we also have inflation. It's a two-pronged problem and we ought to attack it on both prongs.

Therefore I have come up with a solution: let Mr. Ford give me a 10 percent refund, and to keep peace and quiet in Washington let Congress give me one too.

I will then take Mr. Ford's refund and fight

the recession by spending it. At the same time, I will refund and sock it away in inflation.

There's no sense in doing what we've done before. What have we gained if we wind up with more inflation? Any economist will tell you that and save at the same time. Two separate refunds are not needed about this. Too long have Washington and the rest of the country rolled in this two-pronged still more momentum could be local level.

Why don't Floyd County this recession-inflation fight? What's the solution? Why can't the state get in on it too? We've got to stop this entirely on Washington. If up there will help, think eight from down here will

His success might be measured by a letter from a student who said: "Your life makes us smile."

Joy is a presence. It is a combination.

**WHAT ONE PERSON CAN DO**

**Harry Wong Teacher**

Harry Wong doesn't believe in wasting time. Within five minutes of the opening bell on the first day of school, he has his science class reeling - answering questions he throws out rapid fire.

"Teaching is the act of asking questions," says the 13-year classroom veteran, now with the Las Lomas schools in Menlo Park, California. "Kids... hate it when you ask questions because they must think of all they've seen or heard. But when they answer questions, they learn."

Mr. Wong, who refers to himself as "Crazy Harry," aims at the high school students who think of themselves as failures because they're not going to college. He calls them "the 60 per cent who come and dare you to teach them, not the dumb or disadvantaged, but the kid who comes and vegetates. The poor reader, the one who won't sit still, resists books and is alienated."

Harry Wong doesn't consider teaching a desk job. He walks up and down the aisles, making up educational lyrics to popular songs, draws cartoons and uses playing cards. He gives out two quizzes a week, grades them and returns them right away. Students who thought of themselves as "dummies" find themselves getting A's and B's.

In a presentation to 2,000 other teachers, Harry Wong advised them to stop role-playing, to forget about imitating other teachers and to "start being themselves." He added: "How I teach is my lifestyle."

Yet the neglect of the Bible is appalling! We talk about the Bible, we praise the Bible, we exalt the Bible. But many men when it's pages nor make a sustaining effort to see "What does it really say about my life and mine? We read newspapers, magazines and all kinds of books, and listen to the radio and watch TV for hours, but do not even know the names of the books or it's characters. SHAME AND WHO REALLY CARES? And I believe most any kind of idea writes a book about what the Bible supposedly teaches, especially the "1000 year reign" of Jesus on earth.

A man by the name of Jesus said "He that rejecteth me, and receiveth not my words, hath one that judgeth him in the last day." (John 12:47)

large Constituency with their Representative in Washington.

Not long ago, the 17th District was composed of 12 counties and 290,000 people. The Congress was not continuously in session as it has been in the last several years, and continues to be almost constantly. Today there are 33 counties with approximately 467,000 people which makes it impossible to keep the sort of acquaintance which should exist under our system of representative Government.

The purpose in the past has been an attempt to refer to those things not usually a matter of daily mention in the news media. Rather, it is intended to be a background of events, either past or present, and opinions of what may occur in the immediate future.

The Congress has just opened with its usual ceremonies and, until now, all time has been consumed by caucuses of both political parties and general organization.

Probably at no time does the flower of "reform" bloom more fully in the Washington garden than at the present. The snows seem only to nourish it. Some of the buds which appeared two years ago have faded but others take their place. It seems that the term "reform" is assumed to be for the better, but some might be more correctly defined as just change. At the center of change, under the guise of reform, is the constant attack on the so-called seniority system. Seventy-five new Democrats have been conditioned that there should be many changes and that experience is an excuse for control and authority. There are not many things which cannot be improved upon and the best system has some evils about it. Times demand change but not necessarily alone for the sake of change.

We have now experienced the loss of the chairmanship of some of the most knowledgeable men on particular subjects under their jurisdiction. The Congress is very much like a corporation. In fact, it is the biggest corporation in the world and represents over 200,000 people who are affected by what it does. It should have the most experienced and dedicated individuals to be found anywhere to conduct the affairs of the Nation. It is called representative because Members come from every corner of the Nation but with wide varying interests. To arrive at legislation those interests many times must be

incompatibility of inflation and recession at the same time creates unprecedented problems — coping with one can easily further complicate the other and some policies and actions recommended or already in effect, have contributed to the present situation.

No matter how long one may have served in Congress, or how imbued with zeal the newly elected may feel, all face a most consequential year. People deserve and expect the most dedicated efforts at coping with the challenges ahead. Scrutiny and observation should and will be intense.

## Well-Closing Suit Slated On

High Plains Undergrnd Water District from closing an irrigation well.

The district, charged by law with regulating the use of underground water in 15 area counties, found two wells on land farmed by Cox and his son to be much closer together than is allowed by district regulations.

District directors, who reviewed the status of the lawsuit at their Monday meeting, voted in December to order Cox to either close the well in question or reduce its flow to less than 100,000 gallons per day.

Cox filed suit and gained a temporary injunction from 64th District Judge John Boyd.

Cox's suit claims, among other things, that the well was drilled by the property's prior owner, his brother J.B. Cox, in 1968, under a permit issued by the district.

The district, however, says J.B. Cox took out that permit by saying that no other wells were located within the required 300 yards, when in fact another well is within 149 yards.

In other business Monday the district directors canvassed

To make Tina's visit here more festive, Mrs. Hanson left her Christmas tree up just for the occasion. I enjoyed interviewing Tina while we three sipped spiced tea before the holiday setting.

Tina declined to have her picture taken for the paper and asked that I just hit the highpoints of her life, because she said her visit to Floydada was the most important.

showed in every gesture as she unfolded the story of how the two met over 20 years ago when Mr. and Mrs. Hanson were also living in El Salvador working for the same mining company as Tina's father. In speaking of Mrs. Hanson, Tina said, "she scatters friendship wherever she goes". To prove it, Mrs. Hanson has a houseguest this week from Alaska. She is a retired nurse of 52 years in Alaska, where she still lives. The two met when both were young girls working in Alaska. I hope to compile some history of her career for the paper as soon as she has rested from her

## Spaghetti Supper Slated

trip. But back to the Honduras visitor. Tina said Mrs. Hanson played cupid in her courtship to Luciano Danjoi, a sanitation engineer in El Salvador from Peru. Her wedding dress of Filipino material was made by Mrs. Hanson.

The petite dark haired woman is a native of El Salvador. Her father came to the States from Sweden as a young man and did mining in the early days at Cripple Creek, Colo., before going to El Salvador, then to Honduras as a mining engineer.

Tina received her education in Sweden. Her trip there and residency of seven and a half years came about when her father, then a widower, announced one night at supper that one of his children must go to Sweden to become acquainted with his family.

Tina, who was then in a convent, consented to go for a year's visit and due to the war remained seven and a half years. She said the only thing good that Hitler did while she was in Sweden, was to give her the opportunity for an education. She graduated from high school in Stockholm and attended the University there, receiving a degree in Language and Commercial Business.

Even after the war it was a long time before Tina could get a ship out of Sweden, due to mines in the waters. She was working as secretary in a large bus depot in Sweden when the word came that it was safe to travel.

At this time her father, two sisters and a brother were residing in Colorado, anxiously awaiting her arrival. She had written them earlier to tell them she would be wearing a school type beret on her head so they would recognize her, for she had left the family as a mere child and returned as a young woman.

Later, part of the Swanquist family returned to El Salvador and it was at this time that Tina became employed in 1949 by the Rosario Resources Corp. She met the Hansons there in 1950.

After her marriage she and her husband returned to Colorado where he could work on his doctor's degree. Tina returned to Honduras for a visit when her father became ill and stayed with him through his lingering illness and eventual death.

She continued working for the resource corporation and transferred to the Honduras mines in 1955 in order to have the opportunity to educate her son. She is now private secretary to the general manager.

Tina said it was a sad occasion for her when Mr. and Mrs. Hanson left Honduras to come to Floydada for rest and to prepare for retirement.

While here, Mr. Hanson died of a heart attack and the two women saw one another

again in 1968 when Mrs. Hanson returned to Honduras to get the remainder of the family's belongings. This was Tina's first visit back to the States in 21 years and it even snowed while she was here. The first she had seen since leaving Colorado. In Honduras there are two types of climate, wet and dry, Tina said. Four months dry and the rest wet.

Tina left Honduras for the States December 10 with a stop-over in Guatemala, then was joined by her son in San Francisco for the holidays and a reunion with her brother at Piedmont, whom she had not seen in 16 years. Later Tina visited in Las Vegas with her sister, then on to Floydada.

Tina's son carries the family name of Gustaf Adolfo Swanquist Danjoi. She explained that Swanquist means "swan in a branch" and the meaning of quist was "even in poverty there is peace of mind". The

## Floydada Care Center Happenings

By Dessie Turner

This has been another busy week for us. Hope our residents have enjoyed as much as I did.

We had rewarding church services each day. Our special thanks go to the people who give these devotions each day.

Lockney Care Center asked us to come to play bingo Tuesday. Six of our residents were able to go along and play. Had a nice game. And great prizes. We really enjoyed the trip. The Lockney Care Center is very pretty. Everyone was so nice to us. Our appreciation goes to Lavern Christian and Maria Arellano for asking us.

Thursday was our January birthday party. We had six residents with birthdays. The ladies from the City Park Church of Christ again served cake and punch. Had a beautiful birthday cake, and centerpiece that made the table very attractive. Most of all our residents came to the dining room to

be served cake and punch. The cake and punch were delicious. Our special thanks again to the ladies who came and helped us with this occasion.

Welcome to our many visitors for this week.

## WHEN YOUR RATES GO UP WE'RE THE FIRST TO KNOW

Because our rates go up first. When the people who generate electricity for the Lighthouse Electric Cooperative pay more for their generating fuels, when they install costly anti-pollution devices, when they do anything that affects the price of power, the costs are passed along to the Lighthouse and its members-owners. In a time of instability in the oil and gas market, such increases seem all too frequent. But the Lighthouse Electric Cooperative, through good times and bad, for more than 30 years, has provided power at its lowest possible price. It's a promise we make for the future as well.

## Energy Program Results: Higher Food Costs

Farmers Union Jay Naman predicted that if Ford's energy regulations were passed that they would result in higher food costs. Naman said that a 10-15 percent increase in the price of food and fiber would result in a 10-15 percent increase in the price of food and fiber to the consumer.

"Since petroleum products comprise a major cost in the production of food and fiber both from the standpoint of energy and fertilizer, the President's recommendation to tax imported crude oil and natural gas would immediately result in higher food costs," Naman said. Naman called for a mandatory fuel allocation program which would provide agricultural producers with adequate fuel supplies at reasonable prices. "President Ford could

conserve millions of barrels of petroleum by imposing tough allocations on petroleum used by the synthetic fiber industry. The continued unlimited production of synthetic fibers is a wasteful use of energy. Farmers and ranchers need these markets for superior natural fiber and both those producers and consumers would be served by a reduction in synthetic manufacture," Naman said.

Turning to the President's State of the Union message, the farm organization leader said that he was disappointed that President Ford did not emphasize agriculture and the serious economic problems of farmers and ranchers. He pointed out that many of the economic problems of the nation stem from the lack of incentives to farmers and ranchers to produce for export markets. "Our great agricultural capacity in the United States can be called upon to lessen our economic problems by improving our balance of payments. Apparently, the president is not informed that present federal farm program fails to encourage adequate production and to give farmers and ranchers the kind of assurances that are necessary for an expanding agriculture and stable markets," Naman said.

After the war, Rutledge became bookkeeper for his former partner, Martin and Co., and remained there until moving to Tahoka in 1962.

Before leaving Floydada he was an active civic leader and was president of the Floydada Chamber of Commerce. He wrote the general information in the Floydada City Director published in 1930.

Rutledge married the former Due Ann Ramsey June 12, 1912, in Tahoka. They moved to Amarillo, then to Floydada in 1916.

They lived here until Mrs. Rutledge died in 1955. He married the former Mrs. Beulah Aplewhite in Floydada in 1962. The couple moved to Tahoka where they had resided since.

Rutledge was a member of the First Christian Church in Floydada and a member of the Masonic Lodge No. 1031 and 2921.

The baby is survived by her parents; her grandparents, Mr. and Mrs. Robert Lee Porter and Mr. and Mrs. James Gardley all of Fort Worth and great grandparents, Joe Allen and Hazel White of Floydada and Beatrice Young of Lubbock.

Irwin was a rancher and had been a resident of Grenville for 50 years. He was a veteran of World War I.

Survivors include his wife, Lora; two sons; a daughter; two sisters, Mrs. Gracie Mayfield of Clayton and Miss Alta Mae Irwin of Bridgehampton; two brothers Ruy of Floydada and Herbert of Noble, La.; 13 grandchildren and three great grandchildren.

A Chinese god was said to be able to produce plants with golden poems written on their leaves.

## IRS Urges Prompt Filing

PLAINVIEW — Plainview area residents should consider filing their 1974 income tax returns as soon as possible if they have not already done so, according to Walter Perry, Director's Representative of the Internal Revenue Service (IRS) for the Plainview area.

"One basic fact you can always depend on," said Perry, "is that the sooner you file your return, the sooner you'll receive a refund if you are due one." He especially urged taxpayers not to delay filing their returns while hoping for a tax cut.

He explained that the proposed tax rebate, if approved by Congress, would be based on a

taxpayer's total tax liability for 1974. That liability, he said, cannot be computed until after a taxpayer's return has been filed with the IRS and processed at the agency's computer center in Austin.

Perry said that persons filing income tax returns this year actually have two reasons to file early. Those expecting refunds will get those refunds in about five weeks, while taxpayers filing in March or April may have to wait up to twelve weeks for their refund. And all taxpayers, including those who will owe tax with their returns, need to have a correctly completed return filed with the IRS before they can think about receiving a tax rebate.

## Alcohol And Drug Abuse Meeting Tonight

There will be a meeting on Alcohol and Drug Abuse at the Neighborhood Center in Della Plains School, January 23. Board of Directors of the Alcohol and Drug Abuse Program will meet at 7 p.m. and then open meeting to the public at 8 p.m.

All interested and concerned people are urged to attend this meeting.
