HAIL WON'T HURT SUNFLOWERS? ... well ... this large field of sunflowers on the Edward Smith highway south of Floydada on the Ralls highway. (Staff Photo)

## By WENDELL TOOLEY

Floyd farmers had just started irrigating their row crops and were wishing for a good rain. Then the rains came ... the storms came and along with it a lot of hail.

Yessir ... it's a hard way to get some moisture.

The rain and wind storm combined with hail in parts of the county started late Sunday afternoon. There wasn't a definite pattern as the hail and rain hit various parts of the county.

An area from McCoy to about five miles north and east of Floydada received around three inches of rain and hail. Most of the heavy hail was east and north of McCoy where Lewis Reddy, Edward Smith, Lawrence Davis, Grady Walker were really hard hit. Others in that area who received a lot of hail included Albert Jones, Bill Daniels, Jay S. Hale, Jim Simpson, and Weldon Hammonds.

In the Lakeview area Willie Bunch received an inch and a half of rain, quite a bit of hail. Wayne Collins was hailed out near the Canyon. Wayne received a good two inches of rain and no hail on his farming east of Fairview. William Bertrand received 3.8 of rain Sunday night, 1.2 Monday night and was hailed out. Howard Bishop also received hail.

Dan Hagood had three of four farms hailed out northeast and east of Floydada.

Going east of Floydada there was heavy rain and hail for about seven miles out. Jack McIntosh got a good inch and a half of rain and no hail. A.C. Pratt, back northeast of Floydada received 3.5 inches Sunday night and .8 Monday night and only slight hail damage. Johnny Cates received 3.5 inches and crop washout.

Out Dougherty way only a half inch of rain was received Sunday night. Henry Hinton received .7 and Howard Drysdale received .9 ... no hail out this way.

## Hail Pattern

It seems that a strip from Plainview to Lockney about two miles wide hailed or washed out everything. In the Floydada area it would be from McCoy, about two miles wide to the Caprock. Then northeast of Floydada a strip about two miles wide and six miles long.

## Monday Night

The Monday night rains of one to two inches was general all over this area, fell nicely, all went in the ground, except where it was already wet from Sunday night.

## Mackenzie Manager Selected

Jim D. Green of Jal, New Mexico, has been employed as manager of the Mackenzie Water Authority, according to an announcement made by the president of the authority, Lon Davis.

The new manager was formerly in the production department of El Paso Natural Gas Company where he worked on all phases of gas production and efficiency with computer programmer. He was with El Paso from 1970 until his resignation.

He begins his work for Mackenzie this week.

Davis said, "after interviewing several applicants we feel that Mr. Green is well qualified for this position and we look forward to his development of recreation and water use plan for the Mackenzie Lake."

Davis said that a home would be built for Green and his family to live in at the lake later.

Green graduated at San Angelo State University in June of 1968. He served in the U.S. Navy from 1968 to 1970. His major at Angelo State was in physical education and recreation. His minor field was Social Science.

Green graduated from Matador High School and is married to the former Donna Kay Furgeson of Morton, Texas. They have two children; James five years of age and Krista 1 1/2 years.

There was a lot of hail damage reaching as far north as five miles from Floydada, a lot up the Silverton highway area.

In Floydada, plate glass windows were blown out of Buddy's, Perry's and the Lemondrop Saloon, Sunday evening.

Officially, Floydada received 4.1 inches on Sunday night and 1.9 on Monday night. The total rainfall for the year is 10.89. Of this amount 7.55 came in June.

The Harmony community received about an inch of rain Sunday and Monday nights and no hail to speak of.

Ray Cook who lives in the Hillcrest Community north of Dougherty received 2 1/2 inches of rain Sunday and Monday night and no hail.

Wayne Poteet got a lot of hail Sunday night ... about three miles northeast of Floydada.

Dougherty received 1.5 inches Monday night and no hail.

## Cotton Lost

A Floydada ginner estimated that some 3,000 acres of cotton were hailed out in the south part of the county.

He said he thought farmers would replant soybeans, or sunflowers on hailed out cotton land. It is hard to plant grain sorghum after cotton "Treflan" treated soil unless it is planted deep.

One elevator operator said there was no contract available to sell sunflower seeds except those taken out earlier this year ... and he had heard the open market might not be over nine cents a pound.

... and soybean prices aren't just real high.

One farmer said that "since we don't have many onions ... the onion prices looks terrific."

J.E. Waller, who lives on the Crosby County line received 2 1/2 inches of rain and no hail.

On the good side of the ledger, most of the wheat was harvested, much of the wheat land had been plowed and the moisture was good. One farmer's wife said, "we were hailed out ... but there are things worse, like getting killed in a tornado."

There are moisture benefits ... there is lake water to be pumped on crops later this summer.

The South Plains community received no hail and a little over two inches of rain Sunday and Monday nights.

E. J. Kinslow, who lives about five miles north of South Plains reported a tool house blown over in the storm.

A strip of hail about two to three miles wide, following the Plainview - Lockney highway and moving southeast destroyed crops and caused property damage all along its course Sunday evening. The hail was described as "devastating." Windows were broken on the north side of homes including those of Lonnie Scott, Oscar Golden, J.R. Belt and Loyd Duvall, all along the highway east of Aiken toward Lockney. A cow belonging to Golden was killed in the storm. Duvall reported 1.8" of rain Sunday.

JIM GREEN

Green enjoys several hobbies: football, basketball, hunting and fishing. He has served as a player-coach in college baseball and also belonged to the rifle club.

## Netters win In Plainview Tournament

Floydada was well represented in the winner's circle at the Plainview closed tennis tournament last weekend.

Dominating play was Donette Marble and Elizabeth Farris. They won the championship in both girl's high school and women's doubles.

Then Donette defeated Elizabeth for the girl's high school singles championship.

Eleanor Hendrix brought home a second place trophy in women's over 35 doubles. Her partner was Lenda Wood of Slaton. Wendell Tooley also brought home a second place trophy in men's over 35 doubles. His partner was Dalton Wood of Slaton.

Lockneyites reported from 1.5 to 2.5" of rain after the hour-long hail storm, which left marble-to-golf-ball-size hail piled up to six inches deep in some areas.

In the Irick community, rain and hail was reported, but not as bad as at Aiken. Muncy got only .2" of rain and no hail damage.

At Providence, there about an inch of rain and no hail damage.

At the Paul Teuton place a mile west of Lockney, the report was 2 1/2" of rain,

all the cotton gone, and "not a trace" of the garden left.

South of Lockney at Raymond Rucker's, there was "hardly any rain" Sunday but some hail which damaged some seed onions. But Rucker escaped the traditional complete "hailing out" of his onion crop.

Closer to town on the Sandhill highway, Beth Kropp said the hail got to the gauge before the rain did, but she estimated "at least three inches of water." — in one form or another —

fell.

North of Lockney in the Lone Star and Sterley areas, there was less rainfall and no reported hail damage. Herman King at Lone Star measured a little over half an inch Sunday and another 1.2" Monday night.

In Lockney, Walter Taack reported 1.5" of rain Sunday and 2.95" Monday night/Tuesday morning. There were no reports of hail damage from the Monday night "storm".

## Grant Teaff Coming To Floydada

Winning the Southwest Conference championship, putting Baylor into the Cotton Bowl for the first time and being acclaimed as consensus National Football Coach of the Year and unanimous Southwest Conference Coach of the Year makes one wonder just what Grant Teaff will do for an encore.

The dynamic young mentor has accomplished miracles in his three years at the Baptist helm, taking over as a relatively unknown at a school that was admittedly at low tide in the football world.

The first year Teaff stunned the Southwest by posting a 5-6 record and being acclaimed Southwest Coach of the Year. In 1973 the Bruins suffered unsurmountable injuries and bad bounces and wound up 2-9.

This year the Bears were picked last in the pre-season poll and became the darlings of the nation as they made the impossible dream come true with the first Southwest Conference championship in 50 years and the first Cotton Bowl berth ever.

Teaff's climb to the top of the nation's coaching ranks, as attested by his being selected head coach of the South squad in the 1973 Blue-Gray All Star Game and head coach of the West squad in the 1975 All American Game.

At 25, he was the youngest college head coach in the country at his alma mater, McMurray College. Taking over a team that had been at the bottom of the small college ranks, Teaff posted three strong seasons before the school

## Floydada Track Boys Win

Several Floydada boys have been running in some track meets this summer. Two weeks ago it was a meet in Lubbock sponsored by the Southwest Optimist club.

In this meet Randy Ratheal placed first in the 440, long jump, 880 relay, second in the 220 and third in the shot.

Last Saturday in Brownfield Ratheal, Ricky Day, Todd Vickers and Jay Lackey placed second in the 440 and 880 relays. Ratheal placed first, Day placed second and Lackey placed third in the long jump.

Several Floydada boys will be competing in the Borger track meet this Saturday.

dropped scholarships. A lesser person would have jumped the ship, but Teaff felt an obligation to the youngsters he had recruited and stayed three more seasons until he was able to get a scholarship program reinstated.

In 1966 he was hired as assistant coach and recruiting coordinator at Texas Tech and brought in many of the players who represented the Red Raiders in bowl appearances.

In 1969 he undertook another challenge, moving to Angelo State University where the football program was at low ebb. He had consecutive 6-4 seasons, then moved to a 7-3, including a win over National NAIA champion Texas A&I when the Baylor opportunity presented itself, and he moved to Waco for another rebuilding chore.

Teaff is one of the nation's most sought-after speakers, traveling from coast to coast to share his Christian testimony and love for Baylor University in highly-motivating speeches to the youth of the land and at the nation's top football clinics where

BAYLOR'S GRANT TEAFF will be the inspirational speaker for the Baptist Men's Assembly Friday night. There will be a golf tournament beginning at 9 a.m. Friday at the Floydada Country Club. Supper will be from 6 to 7:15 p.m. in the dining hall at the Baptist encampment. The program will begin at 7:20.

### Funeral Services For The Leland Wood Family

Services for the Leland Wood family, who perished in a Sunday night tornado east of Silverton, were held Tuesday in the Silverton First Baptist Church with the Rev. Larry Wilson, pastor, officiating.

He was assisted by Earl Canwell, minister of Rock Creek Church of Christ. Burial was in the Silverton cemetery.

Wood, a native of Potter County, married Rita Taylor on Nov. 3, 1973, in Las Vegas, Nev. He graduated from Silverton High School and Tarleton State College. He was owner and operator of Service Elevator and was a member of the First Baptist Church.

Survivors include his parents, Mr. and Mrs. Leland Wood of Silverton; two brothers, Ray and Ken, both of Silverton; three

sisters, Mrs. Neldean Nunnally of Richardson, Evelyn Wood of Denver, Colo., and Twila Wood of the home; his grandparents, Mr. and Mrs. Floyd Shipman of Abernathy; and his grandmother, Mrs. R. P. Wood of Claude.

Mrs. Wood, a native of Floydada, graduated from Texas Tech University. She taught home economics in Silverton High School two years ago.

Survivors include her parents, Mr. and Mrs. Ursal Taylor of South Plains Community; two brothers, Danny of Silverton and Ray of the home; a sister, Mrs. Kay Gilbert of Michigan; and a grandmother, Mrs. Ora Jacobs of Quitaque.

Ky Ray's survivors also include a great-grandfather and two great-grandmothers.

ton Funeral Home said, "it was the largest crowd for a funeral I have seen here in 15 years."

Pallbearers for Mr. Wood were: W. S. Copeland, Dub Forbes, Jerry Martin, Pam Phillips, Robert Hill and Jimmy Burson. For Mrs. Wood were: Glen Wood, Keith Marble, Dean Stewart, Terry Bomar, Steve Jarnagin, and Dwight Temple. For the son were Rogere Bethel and Norman Strange.

**Details of the Tragedy**  
SILVERTON — A farmer making a routine check of his crops Monday morning discovered the battered bodies of three of his neighbors killed by a tornado late Sunday.

The grim discovery of the bodies of Leland Hugh Wood, his wife and child on their ranch 12 miles northeast of here, came 12 hours after the death-dealing twister dipped from ominous thunderstorms and levelled the family's ranch home, a barn and a corral.

The body of Wood, 25, active civic leader and rancher, was found lying in a ravine among the rubble of his house in nearby Barrel Creek Canyon. His 11-month-old son's body, Ky Ray, was found near the remains of the house.

Mrs. Rita Wood, also 25, was found slumped in a pickup truck about a mile from the ranch. The truck was in a barrow ditch.

Justic of the Peace Johnny Lanham, who pronounced the victims dead at the scene, theorized that Mrs. Wood, critically injured by flying debris, was attempting to obtain help but died driving the truck.

"We don't know really what happened . . . really have to use our imagination, but it looks like she must have been driving for help," Lanham said.

The discovery of the death and destruction was made by farmer Glen Lindsey, who farms land adjoining the Wood's Barrel Creek Ranch.

As he was surveying his crops to see how much rain fell Sunday night, he noticed the levelled ranch house of his neighbor.

Driving to the scene, he apparently passed the Wood's pickup. After finding

Mrs. Leland Wood and Ky Ray (Parker Photo)

Wood and little Ky, he drove back down the dirt road and found Mrs. Wood in the pickup.

As the turbulent weather moved into the Silverton area about 8 p.m. Sunday, Lindsey told officials he was watching the clouds but didn't see any funnel clouds.

Clocks found near the Wood's home were stopeped at 8:24 (p.m. Sunday).

About 40 minutes earlier, Hall County sheriff's deputies confirmed two tornadoes touched down north of Turkey. Officials believe the killer twister probably was one of those sighted near Turkey.

Heavy rains and hail pounded both Hall and Briscoe Counties shortly before sundown Sunday.

Late Monday, volunteers continued to search through the Barrel Creek Canyon, seeking belongings of the victims.

A house west of the Wood's residence was moved off of it's foundation.

And a rain gauge tacked to an undamaged picket fence near the Wood's demolished house registered .50 of an inch of rain, mute testimony to the thunder-

storm which spawned both needed rain and death.

### Reception Honors Joy Frizzell

Miss Joy Frizzell was feted Sunday afternoon with a reception held in the home of Sheila Poole in Lockney. The honoree leaves late this week on the Rebekah Lodge and 100F-sponsored United Nations pilgrimage tour.

Hosts for the reception were Athena and Il Penseroso junior study club members. They presented Miss Frizzell with an address book, an autograph book and a travel diary.

Also recognized at the party was Jan Mize, an Athena member who is going on a tour of the Holy Land this summer. She was given a photograph album.

Special guests were the honoree's mother, Lucille Frizzell; her nieces, Heather Holt, Cindy and Julie Frizzell; her sister, Jackie Holt, and her sister-in-law, Pat Frizzell.

Cindy Frizzell and Cathy Carthel alternated at the guest register.

Refreshments of assorted cookies, nuts, miniature sandwiches and fruit punch were served by Jackie Holt, Teresa Duvall, Kristie Ford and Jackie Carthel. A yellow linen cloth covered the serving table, which was centered with an arrangement of yellow and white daisies in a crystal container. Crystal appointments were used.

The honoree, the special guests and those who assisted in serving and registering wore corsages of fabric flowers. Favors were copies of the preamble to the United Nations charter.

## South Plains News

By Mrs. Murray Julian

Our community has been shocked and saddened beyond degree this Monday morning as we learn that Mr. and Mrs. Leland H. Wood and baby son, Kyle, nearly a year old, were killed Sunday night in a tornado which struck their home east of Silverton around eight o'clock. Mrs. Wood was formerly Rita Taylor, 25, the daughter of Mr. and Mrs. Ursel Taylor, who live on a ranch east of South Plains. The young family was not found until the father did not show up for work this Monday and someone went to see about them, and found the storm of Sunday night had hit their home, and the loss is so great, we just offer our sympathy to all the family members and friends. Services are pending at Silverton at this time.

Mr. and Mrs. Raymond Upton flew out to Petaluma,

California, last Thursday to visit with Raymond's brother, Houston Upton, who had lost his wife about three weeks ago. The Uptons flew into San Francisco and then went by bus to Petaluma. While they were there over the weekend, Marvel Upton, Raymond's nephew, from Sacramento, came up to visit and be with the family. The Uptons came home by plane Monday.

Mr. and Mrs. Arby Mulder went to Clarendon early Sunday morning to spend the day with her sisters, Mr. and Mrs. Dale McGaugh. They had lunch with the McGaughs, and going home by way of Silverton they visited with her niece, Mr. and Mrs. Bill Durham. The Pete Lands reported heavy rains and hail Saturday night in Clarendon where they live.

**TEENS ATTEND 4-H LEADERSHIP LAB** — Young leaders from Floyd County 4-H clubs participated in a district 4-H leadership lab June 17-19. Site of the three-day summer workshop was South Plains Junior College. Those attending from Floyd County were (left to right): Front row: John Fortenberry, Lockney; Byron Brock, Lockney; Jim Kelly, Harmony; Curtis Smalley, Harmony. Standing: Doyle Warren CEA; Darlene Broseh, Lockney; Leeta Adams, Floydada; Carla Burleson, Floydada; Leanne Ferguson, Floydada; and Sharon Hillis CEA.

Mrs. Ruby Higginbotham is in Canyon this week, going there Sunday afternoon to get acquainted with her new granddaughter, little Shailin, the baby daughter of Mr. and Mrs. Bud Higginbotham. She weighed 6½ pounds at birth, and has lots of black hair. She has an older brother, Brett, who is around 3, and we offer our congratulations to Bud and Myra, to Ruby Lee and all the family.

Mrs. Grigsby Milton Jr. and her daughter, Mrs. Eugene Edwards and Rusty of Floydada returned early last week from Tracy, California, where they had flown the weekend before, having gone for the wedding of her nephew, and to visit her mother, Mrs. Willford and other relatives there in Tracy.

This Saturday, June 26, the Day Camp of the 1, 2, and 3rd grade boys and girls will be held down at the Plains Baptist Assembly Grounds, beginning at 9 a.m. Children will bring their own sack lunch, and drinks will be served. Then on June 27th there will be a Baptist's men's Day at the Plains Encampment. Supper will be served at 6 p.m. and the

program will follow at 7:20 p.m. with speaker Grant Teaff, head football coach at Baylor College. Please make plans to attend the camps of your choice.

Mr. and Mrs. Sylvin Kinnibrugh took their granddaughter, Melissa Horne of Plainview, with them Thursday night to the Bar None Rodeo. Mr. and Mrs. Teddy Horne of Plainview were also present for the night's performance.

Mrs. Carlton Johnson was bridesmatron in the wedding last Saturday night when her brother, Tony Ford of Lockney and Karen Jean Marr were united in marriage. Mrs. Johnson and Tony are the children of Mr. and Mrs. Bryon Ford of Lockney, while Mrs. Johnson lives here in South Plains, the newly married young couple will live in Denton, where they will be seniors at North Texas State University next fall.

A 3-day GA Camp was held at the Plains Baptist Encampment last week, June 16-19 with Bruce Keller, camp preacher from Plainview, and Bill Frazier, camp missionary. Cabin devotionals were held each evening, and Bible study

groups, nature hikes, crafts, swimming and other devotional periods filled the hours for the girls, who thoroughly enjoyed the Monday through Thursday church camp. Sponsors from the South Plains Baptist Church were Mrs. Kendis Julian, Mrs. Curtis Sanders and Mrs. Nathan Mulder, and girls attending were Mitzi Julian, Shawnda Sanders, Cindy Mulder and Anna Marie Arellano.

Mrs. Kendis Julian and children, Mitzi, Kristi and Tim visited in Floydada Wednesday with old friends who are here staying with relatives for a few days, and they visited at the R. B. Rosson home with twin sisters, Mrs. J.T. Harrell of Dallas with Wendy, Barry and Allison, and Mrs. Al Pfeiffer, and two younger children, of Houston, Brent and Scott. Visiting here at the home of her parents was the former Karen Goen, now Mrs. Dan Smith and Kyle and Daryl from San Angelo, and Mrs. Julian got to see all of them.

Mr. and Mrs. Paul Cypert have moved to the Lloyd farm, around 14 miles east of Floydada, and are getting settled on the farm. She is the granddaughter of Mr. and Mrs. Frank McClure. Rev. and Mrs. Jeff Messer of Fieldton spent Monday and Tuesday here with the Frank McClures, her grandparents. They made a freezer of ice cream and took to the home of Mr. and Mrs. Paul Cypert Tuesday night and visited with them.

Mrs. Jack Smitherman had the misfortune to cut her hand on a butcher knife a week ago Friday, and was taken to the doctor where the wound required four stitches. She is doing fine at this time and her hand is healing well.

Mr. and Mrs. Ray Givens of Lubbock were guests here Wednesday with her brother, Mr. and Mrs. Frank McClure.

Mrs. and Mrs. Murray Julian received word that their granddaughter, Dee Julian of Roscoe had been chosen Farm Bureau Queen there last Tuesday night, and she will go to San Angelo on August 16, for regional.

Mr. and Mrs. Alvin Nichols left Saturday for Sweetwater where they visited their daughter, Mr. and Mrs. Glen Whitfill, and also his brother, Mr. and Mrs. Mark Nichols. Sunday they went to Dallas and Fort Worth with Mrs. Whitfill and Cindy Whitfill, who was visiting in Sweetwater from Dallas, and they visited Miss Harriet Griffin and Miss Minnie C. Griffin, and then spent the night and two days with Cindy Whitfill, and all went to Irving to see Mrs. Nichols' brother, Mr. and Mrs. Tom Davis. They returned home Wednesday evening.

Rain here Sunday night during the church hours left a small amount in South Plains, and 40 was registered there. E. P. Pritchett, Sylvin Kinnibrugh and Curtis Sanders and around there received over an inch of rain, and some hail, but only those in the southernmost part got any to speak of.

We offer our sympathy to the family of Mrs. Emmett Tierce (Alice) who died Saturday in the Central Plains Hospital at Lockney. Mrs. Tierce had been in failing health for many months. For years she and her husband were faithful Avon representatives, and was a familiar sight. Services were held in Plainview this Monday afternoon at 2 p.m. and interment was in the Lockney Cemetery. Mr. and

## Center News

By Mrs. J.E. Green

Here I am home again after a two weeks' visit down state with my daughter and family, the Dr. Ryman of Hubbard, and my brother and wife, the Tarpley Matthews of Hillsboro. Also some side trips. Went with the family to South Texas Wadsworth the first weekend to attend the Senior Ryman's 50th wedding anniversary reception. The next Sunday p.m. Donna and I drove to Alvin where she dropped me off at the Charles Horton home where I spent a very pleasant overnight visit with Mrs. Walter Sims and Betty Jo, former near neighbors at Center for 32 years (Mrs. Sims was). Donna went a few miles further to spend the night with her Howard Payne roommate. The Saturday before on June 14, half a dozen of us were in Dallas where, with mixed emotions, we saw some 40 people, mostly Howard Payne students and sponsors, board an American Airlines jet for a three weeks' tour of Europe (impressive and education, no doubt, but planes across an ocean are not for me). The group included our Sarah. The p.m. in Dallas was plenty hot.

My! Didn't we have a rainstorm Sunday night! And some hail. We regret the damage to early crops and some wheat still in the field. But we out here are usually ready for a good rain. We got recorded 3½ inches in about two hours. Father's Day weekend visitors of Mrs. Ava Jackson's were Mr. and Mrs. Neal Wright and Kevin of Rotan., Mr. and Mrs. Orbin Carroll and Mr. and Mrs. B. T. Mr. and Mrs. Hal Thomas spent Father's Day in Post visiting his sisters. Their son in law, Milton Mensch of Lubbock is recovering from an illness a while back and is back at work.

Price Scott, a former Floyd County citizen and County Superintendent, but for many years a resident of California, is reported much better after a recent heart attack.

The body of a nephew of Mr. Thomas, missing since March in a Washinton Mountain airplane crash, has been recovered and returned home. Last rites were conducted in Irving, a former home. Our sympathy is with loved ones.

## 55 MPH Speed Limit 120 More Days

LUBBOCK — The State Highway and Public Transportation Commission today acted to extend the 55-mile-per hour speed limit in Texas for another 120 days.

The Legislature, in special session in December 1973, required the commission to review circumstances affecting the speed limit each 120 days.

An amendment passed by the 64th Legislature this year extended the requirement for as long as the national maximum speed limit of 55 miles per hour is in effect.

The commission's action today extended the 55-mile-per hour speed limit in Texas for an additional 120 days beginning July 30.

Senior Scouts from Lubbock, Abernathy, Floydada, Friona, and Lockney will fly to Cuernavaca to attend a session from July 2-9. Three additional days will be spent sightseeing in Mexico City. Mrs. Marvin Buckberry and Mrs. Chester Green, both of Lubbock, will accompany the group. This is the second Council-Sponsored Trip to The Cabana.

"Our Cabana" is a resident international house, owned and operated by the World Association of Girl Scouts and Girl Guides and one of four World Centers for Scouts and Guides from more than 90 countries. Girls will come this summer to take part in a program of music, hand arts, swimming, sightseeing and service projects. Senior girls from this council will take a collection of dolls, balls, and

other toys to help with the Cabana Service Project at Gualupita Parish. Toys are distributed to several thousand needy children at Christmas.

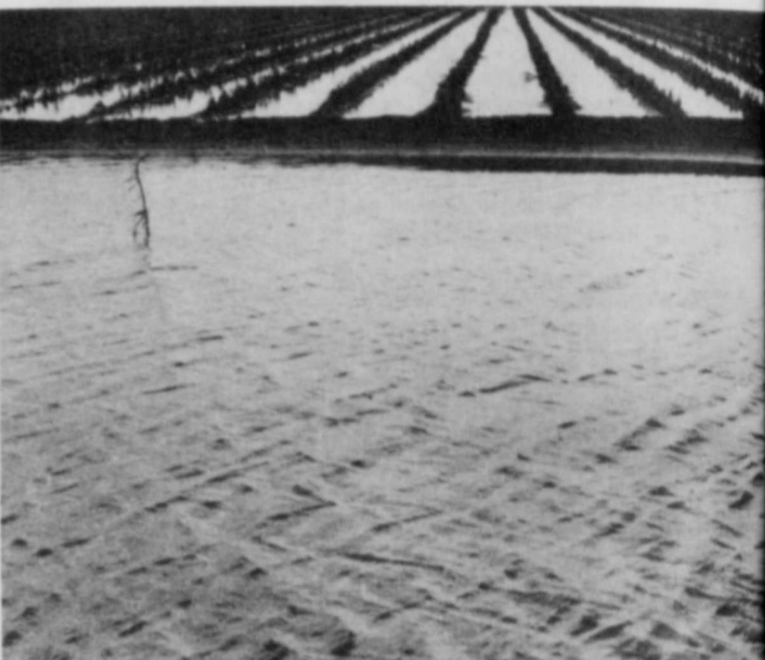

A total of seven days, including three overnight camping trips, have been held to prepare Caprock Seniors. Karmen Hopkins, Lubbock, will serve as senior patrol leader. Other patrol leaders and their assistants include: Tammy Tyer, Connie Welch, Tracey Puckett, Kelli Sue Parson, Floydada; Vick Florez, Friona; Debbie Faust and Terry Bryce, Lubbock; and Kathy Taylor, Abernathy.

Eight members of the group speak Spanish fluently and have helped the others learn simple children's games in Spanish. These games will be used with 125 disadvantaged children ages 3-7 years, members of nearby Gualupita Parish. The Seniors are also taking craft materials for egg shell mosaics, sewing cards and plastic straw necklaces to share with

# Years Moving Among Powerful, Graham Says His Allegiance Still to God

Piercing blue eyes accentuate point Graham is making.

with presidents. "There are some things I don't even tell my wife. Every president has a right to privacy. There are things I won't reveal now or put in my memoirs later."

He learned that lesson the day he met his first president, Harry Truman. In that private conversation, "Give 'em Hell" Harry was dishing it out to the press.

The press, of course, was waiting outside and cornered Billy. What had they talked about?

"Like the fool that I was, I told them," says Graham. They asked if Graham had prayed with Truman. Yes, he had. And would he mind restating that prayer on the White House lawn. Obligingly, Graham said yes.

The next morning, in newspapers across the country, there was the picture of Graham kneeling on the White House lawn.

A few days later a Washington column reported that Billy Graham was persona non grata at the White House.

"Years later, when I bumped into Mr. Truman again, I apologized. He said, 'That's all right, I know nobody told you what to do.'"

Graham, 56, now maintains that he probably was closer to Lyndon Johnson than to any other president.

"I almost used the White House as a hotel when Johnson was president," Graham says. When Johnson would find out that Graham was in a Washington hotel, he'd pick up the telephone and tell him to move into the White House instead.

He still keeps in touch with Lady Bird and saw her recently

when they appeared as character witnesses at the trial of John B. Connally.

Graham is keenly interested in the powerful people he meets and what they have to say. One needn't talk with him very long before he comes out with a recent thought of Henry Kissinger or an opinion of Alexander Solzhenitsyn, or maybe something the Queen of England had to say.

It does not come out like name dropping. Graham, the teacher as well as the salesman wants to share a thought that impressed him.

Graham acknowledges that at some time in his career he may have been used by some politicians. After all, a picture of a politician standing next to Billy Graham sure can't hurt. Would Graham like to name those who

might have used him? Of course not, replied the Christian, but he is quick to add that Nixon was certainly not one of them.

The evangelist and his wife, Ruth, live in a 10-room wooden house atop a mountain at Montreat, a tiny community outside Asheville. The house, made from three log cabins, is guarded by two German shepherds.

Graham resisted the protection for a long time and it finally took a personal call from the late J. Edgar Hoover to convince him there really were persons who might harm him.

Four of the five Graham children are married and have presented the Grahams with nine grandchildren. Two more are on the way. The youngest of Graham's children, Nelson Edman, is in prep school at Stonybrook, N.Y.

"We're very fortunate that all five of our children have followed Christ," Graham says.

The elder of the two sons, William Franklin Jr., got off to a rocky start.

"He was into everything you can think of, even having the police chief chasing him," Graham says. "I never got after him. Love would always come first. When it was over, there was nothing to re-establish."

At his wedding, the young man had a surprise for his parents. He announced that he and his wife were dedicating their lives to Christ.

Billy Jr. is now in Bible school at Denver, having given up cigarettes and beer, much to his father's relief. "Not so much for religious reason as health reasons," Graham says.

Already Graham's son is a powerful preacher. He looks like his father and Graham says modestly, "I've been told he sounds very much like me."

One daughter is married to a Raleigh, N.C., dentist who is active in local politics; another is married to a Philadelphia TV producer, and the third is married to a wealthy Swiss, a childhood friend who is now getting his Ph.D. in psychology.

Graham's wife was born in China, the daughter of missionaries. Graham says she knows the Bible far better than he does. They would like to visit China. Both Nixon and Kissinger have said they would help obtain the necessary papers.

"If we pressed Henry, we probably could get in," Graham muses, thinking aloud.

Graham firmly believes that God chooses His servants and that Divine Providence put him where he is today. He also got a little help from the public rela-

tion of William Randolph Hearst.

Hearst took a liking to the unknown young evangelist and sent down the order: "Puff Graham."

One story is that Hearst's maid was converted by Graham and she did the selling job on the newspaper tycoon. Graham's fellow evangelist and childhood friend, Dr. Grady Wilson, views it somewhat differently.

"Billy was preaching anti-communism pretty heavily then, and Hearst liked that," Wilson says. Wilson now, is one of the 12 or 14 evangelists in Graham's organization who lead rallies in smaller towns. Besides the major Graham crusades, the others preach at about 270 crusades a year.

Graham still sees communism as a menace to the world.

"They have a gigantic plan for the world and they may win temporarily," he says. "But

Christ will win in the end.

"I don't see any hope but the coming of Christ. I used to think the world really was going to turn to God. I don't believe that anymore."

Graham feels the deterioration of moral values is a greater evil than communism.

"We will bury ourselves. It's our own affluence that will be our destruction," he says.

Graham's basic fundamentalism, the belief that each man must be redeemed through Christ, has remained unchanged over the years. He sounds downright gloomy as he talks of the state of the world — the coming of Armageddon, the end of history, the second coming, terrorist organizations that could be building the Bomb, and the quagmire America has found herself in since the assassination of President Kennedy.

## More Hail Plagues South Plains Farmers

LUBBOCK — After a short two-week lull, crop-damaging hail storms are again pounding portions of the South Plains. This time most of the storm activity appeared to be centered north of Lubbock.

Several thousand acres of crops were damaged in Floyd, Hale and Lubbock counties Monday night, according to Dr. James Supak, area agronomist with the Texas Agricultural Extension Service. The most severe storm cut a swath approximately four to five miles wide from northeast of Petersburg nearly to Aiken. Another followed a one to three mile-wide path from northeast of Floydada, passed north of Cone, and finally dissipated in northwest Crosby County. A smaller but nonetheless damaging storm was reported in the Abernathy vicinity.

Supak said early reports from Bailey County indicate a severe hail and rain storm caused considerable damage to crops northeast of Muleshoe Tuesday night.

"Due to the late date, cotton destroyed by these storms will have to be replaced with alternative crops," the agronomist said. "Producers are urged to carefully evaluate the condition of their crops before making the crucial decision to replant."

"As we said before, don't make your final decision the morning after the storm. Wait at least two or three days to evaluate the prospects for recovery. Run a sandfighter or rotary hoe as soon as possible to prevent further damage by blowing sand."

Reports from the storm-hit areas indicate that hail stones were generally large. Frequently, these do less overall damage to cotton than smaller stones which, when combined with driving winds, literally peel both bark and leaves from cotton plants.

Supak advised producers to check the plants carefully. If portions of leaves still remain on the plants and the stems are not broken they will probably recover quickly. Even if leaf defoliation was nearly complete, as long as the bark on the stems is intact below functional buds, the plants will recover.

Research by Texas Agricultural Experiment Station scientists has shown a stand of cotton averaging two plants per foot (about 26,000 plants per acre) has the potential to produce as much cotton as a normal stand, provided there are no long skips, Supak explains.

"This damage will further delay an already late crop and cut into the yield potential and fiber quality," he added. "From an economic viewpoint, however, salvaging what remains of the present cotton crop is probably the best alternative open to the producer."

"A lot of corn, most of it in the 6 to 14-leaf stages, was also damaged by these storms. Generally, the younger corn will stand a better chance of recovering than that in the more advanced stages. At the six-leaf stage, the growing point is still at or slightly above the soil surface and relatively safe from injury.

Even complete defoliation and light stand losses (10 to 15 percent) at this stage generally don't reduce yields over 10 percent if growing conditions for the rest of the season remain favorable."

At the eight-leaf stage, the growing point is usually two to three inches above the soil surface and more susceptible to damage. Plants in which the stems were cut or bruised by large hail stones below the growing point may not recover. Removal of the major portion of the leaves at this stage often results in 10 to 20 percent reduction in grain yield. Yield losses are further complicated by stand losses; a 25 percent reduction in stand could increase losses an additional 10 to 15 percent, the Extension specialist said.

By the 10 to 14-leaf stage, ear shoots are starting to develop on the six to eight nodes above ground, and the growing point is well above the soil surface. Plants badly bruised or broken over below the growing point will not recover. Loss of functional leaves at these stages becomes more critical. Research at Iowa State has shown that leaf loss of 50, 74 and 100 percent tends to cut yields approximately 20, 45, and 75 percent, respectively. A 30-percent stand loss could add another 10 percent to the yield loss figure.

Supak said the final yields will be largely determined by the growing conditions and care the damaged crop received during the season. Maintaining an adequate moisture supply is perhaps the most essential (and costly) input factor which the producer can provide.

Although more tolerant to hail than cotton or corn, sunflowers also sustained damage from these storms, he added. Stages of development of this crop presently range from four to six leaves to late bud (plants are beginning to exhibit the yellow ray petals). Damage ranged from partial or complete leaf defoliation to bruised and broken stems to some stand loss resulting from destruction of the bud or stalk breakage below the bud.

Very little information is available about influence of hail damage on sunflower yields on the South Plains. However, guidelines used by insurance hail adjusters in the Red River Valley of Minnesota and North Dakota may be fairly applicable for this area also.

As with other crops, damage in the early stages of growth has the least severe effect on yield. For example, at the six to nine-leaf stage, 50 and 100 percent defoliation generally results in yield losses of approximately 10 and 40 percent, respectively. At fully leaved and bud stages, however, 50 and 100 percent defoliation results in about 20 and 80 percent yield losses, respectively.

Stand losses also contribute to yield losses, Supak emphasized. Each one percent loss in stand cuts yields about 0.4 percent. In other words, if 10 out of 100 plants are killed, yields will be cut four percent.

"With sunflowers, bent, severely bruised and broken stems have an amazing ability to recover. Frequently a knot develops around the wound and the plant forms an 'elbow' and bends back up toward the sun. Unfortunately, not all plants will recover in this manner, especially in the later stages of development. From the four-leaf to the fully leaved stages, about four out of five plants may be expected to recover. At the later stages (early bud to mid-bloom), only two to three out of five will survive," Supak explained.

In evaluating hail damage to sunflowers, producers should determine stage of development, degree of defoliation, direct stand reduction and stem damage, he said. If half the leaves are destroyed, they should figure a 10-percent loss for plants with four to six leaves and 20 percent for those in the bud stage. With total defoliation, estimate losses at 40 and 80 percent respectively for these growth stages. Add to this the approximate stand losses (both direct and those due to stem damage) to estimate total yield reduction.

The sorghum crop is expected to suffer the least damage from the storms. This is due partly to its inherent ability to tolerate this type of damage and partly to its ability to recover rapidly. From emergence to the time the sorghum plants display 7 to 10 fully extended leaves, the terminal bud of the plant is located at or near the soil surface. A hail storm during this stage of development may strip leaves, but because of its rather protected position, the terminal bud is seldom injured. If approximately 75 percent of the plants survive, replanting is unnecessary as tillering will compensate for the reduced stand.

Supak said hail damage during the 7 to 10-leaf stage will, however, have detrimental effects on yields. Research conducted at Panhandle State College in Goodwell, Okla., has shown that when 25, 50 and 100 percent of the leaves are destroyed during this vegetative growth stage, grain yields are reduced by 8, 10 and 24 percent, respectively, he reported. In addition, the plant's susceptibility to disease and insects (especially the sorghum midge) is increased by reduced vigor and delayed maturity. Replanting will not necessarily alleviate these pitfalls since the faster maturing hybrids generally have lesser yield potentials and are also susceptible to midge damage if planted late in the season.

Following the 7 to 10-leaf stage, the sorghum plants enter the reproductive growth stage and hail damage becomes a more serious problem. A severe storm not only destroys leaves but may also damage or destroy the head in its formative stages. Still, recovery tends to be rapid. Plants with injury to the growing point or forming heads develop tillers from auxiliary buds at the uppermost non-damaged joints and these will eventually form heads.

### Boys Ranch Receives License

Texas Boys Ranch of Lubbock recently received their license from state officials in Austin which was the last step required to receive homeless or unwanted boys. The ranch was started in January of 1973 and has one cottage at the ranch site located just north of Lubbock on Liberty Road.

"This means we now can accept applications for boys," says Roger Engels,

executive director of the ranch, "and hopefully the assessment committee can meet in early July and we will have ten boys living in the cottage by the end of July." Hopefully another cottage will be started by fall. Engels said the office has been swamped with calls about applications and the sooner we can build more facilities, the sooner we can accommodate more boys.

Texas Boys Ranch has received the license re-

quired by the State Department of Public Welfare. County judges, families, churches, educational facilities and concerned citizens throughout the fifteen south South Plains Associations of Governments County area may receive more information regarding admission into Texas Boys Ranch by writing to Texas Boys Ranch, P.O. 6040, Lubbock, Texas, 79413, or by calling 747-3187.

# LAKEVIEW

By Mrs. Clyde Bagwell

The Sunday night rain storm with hail and high winds played hop-scotch over the community — several had 3 inches and more with hail, others only had a nice cotton shower with no hail. Mrs. Clyde Alexander reports 3 1/10 inches of rain and damaging hail and wind. The Earl Edwards farm only received 85/100 of an inch of rain. Three and three-tenths inches of rain along with hail and high wind was reported at the Odell Breed farm. Three inches of rain at the P.L. Hart place. Ted Anderson reports nearly 4 inches at their place with damaging hail.

Earl Edards Jr. and son Bill of Llano are here harvesting their wheat and plowing.

Mr. and Mrs. Clinton Lang of Bryan spent Friday and Saturday here visiting her grandparents, Mr. and Mrs. Earl Edwards Sr.

Monday and Tuesday Mr. and Mrs. Lawrence Marr of Albuquerque, N. Mex., were here visiting in the Earl Edwards home, Mrs. Marr is a sister of Mrs. Edwards.

Sunday night Mr. and Mrs. Q. D. Williams and Monte attended a farewell supper at the City Park Church of Christ after the church services, honoring Mr. and Mrs. Jim Judah who are moving from Floydada. The supper was delayed for nearly two hours due to the rain storm. Several of the men went out to the cars to bring in the food and were caught in the hard rain and had to stay in the cars until it let up.

Mrs. Williams reports they only had one inch of rain at their place.

Friday Mrs. Q. D. Williams went to Lubbock and visited Mrs. Charles Miller's mother, Mrs. Kissel at the Colonial Rest Home.

Mr. and Mrs. Henry Brewer and Mr. and Mrs. Harry Brewer and family went to Wichita Falls Saturday and Sunday where they visited Mr. and Mrs. Claude Draper, Mr. and Mrs. Joe Musgraves, Mr. and Mrs. Herbert Forman and Mrs. Ellen Johnson.

Saturday night supper guests at Mr. and Mrs. Howard Bishop were Mr. and Mrs. Pete Calloway of Lubbock and Syd Brown.
