## Bus Riders Urged To Write Railroad Commission On TNM&O Pull-Out

It is very important to keep the TNM&O bus service in Floydada, said manager Doug Farabee. "Therefore we are writing a notice of protest to the Railroad Commission," Farabee stated. "Letters concerning this subject should be mailed up at the office of the Railroad Commission. Letters may be mailed to the Railroad Commission, P.O. Box 100, Amarillo, Texas 79101."

included explain why you feel bus service should not be discontinued along this route. State Senator Farabee relates by letter that it is important to keep in mind that while the Railroad Commission is interested in common carrier or package service their primary concern is with passenger service. "Therefore," he stated, "it will be of the utmost importance for us to show the need for bus service for passengers." "For many of the communities involved, Texas, New Mexico, and Oklahoma Coaches provides the only bus and common carrier service available. As a result, discontinuance of service along this route will cause a severe inconvenience for those persons who depend on the bus service for transportation, particular our older citizens," Sen. Farabee said. "Also, this route provides the only expeditious means of obtaining

commodities such as medical drugs. Many businesses depend on this service for the materials necessary to carry on their activities," he continued. "If you know of anyone who depends on the bus for transportation please contact them and ask them to also write the Railroad Commission," Sen. Farabee stressed. Letters should be sent to James H. Cowden, Director of the Transportation Division, Texas Railroad Commission, Capital Station, Austin, Tex. 78711.

## Texas A&M Group Reveal Plans On Extension Training School Here

Representatives from Texas A&M, headed by James Bradley, Director of Texas Engineering Extension Service, were in Floydada most of Tuesday where plans were revealed of the new

West Texas Regional Training Center to be built here.

Local officials, along with mayors, councilmen, city managers, and special guests of 11 other cities, met at Lighthouse Electric for an informal coffee, planning session, and a noon luncheon at King's Restaurant, courtesy of First National Bank of Floydada.

Among special guests were State Senator Ray Farabee and State Representative Phil Cates.

The group from A&M also visited the site, southeast of Floydada, where the school will be built. A sign on the land will be erected within the next month, an official said.

The 70 acres of land belonging to Mrs. Ophelia Goen, will be purchased by the Floydada Development Co., of which Texas A&M will be given 20 acres on which the school will be built. Remainder of the land will be for possible other industrial sites.

Temporary class rooms will be set up until the training center is completed. Facilities were also looked at Tuesday for office space to house a secretary, who will assume duties around Sept. 15 and an office manager from Texas A&M who will here around October 1. The group hopes to have the first

training program underway sometime between October 15 and Nov. 1 of this year.

It is hoped that the request for the training school will be approved by the coordinating board by January. If so, ground breaking for the new facilities should be in February, A&M officials said.

Several training courses have been added and at least 17 will be available in Floydada, with others added as the school progresses, depending too, on housing.

Among other programs mentioned for the school were training of supervisors of all levels and a heavy equipment and maintenance program. It was also mentioned that a waste disposal program would work well. At the meeting, Alton Higginbotham, manager of Lighthouse Electric, and member of the Floydada Development Board, introduced Mayor Parnell Powell, who welcomed the Engineering Extension Service group, and other dignitaries.

A&M director, Mr. Bradley, said as he outlined their plans, that courses in fire training, police training and lineman training for Rural Electric Cooperative employees will be among the first courses to be taught here, saying the training school would serve a 200 mile radius.

Mr. Bradley said the training school programs will be aimed at employed people to upgrade their efficiency in their profession. "We want to have the best training program as possible in this area," Mr. Bradley stated.

"We hope to have a budget approved for the school before too long, interview people, bring a manager here and go from there. In the meantime we will be designing a permanent building as soon as the legal work is done, and promise to give you the best we've got," Mr. Bradley continued.

Ed Kerlick, head of Electrical Training; Ernest Wentreck, Assistant Director of Business Affairs; Henry Smith, head of Fireman Training; and Ira Scott, head of Police Training said "we are interested in better ways of doing things in a society such as ours. We are going to provide the people of this West Texas area better law and fire protection and management".

Each commented on their desire to make the school a success.

Roland Benson, Chief Consultant Secondary Occupational Education and Technology, Texas Education Agency, spoke briefly on his program and said "we are enthusiastic about these programs coming to this area."

Scott said his police training program would offer basic, intermediate and advanced law enforcement certifications. Smith stated the fire training portion of the school would be a focal point of the West Texas area for fire training.

The school will serve as a location for A&M instructors who will also be available to teach in area community classes on the above programs.

Senator Farabee gave full support to the training school in his brief statement, and both he and Representative Cates said they are sold on this type of training and wish Floydada success in its venture.

Much credit in securing the school for Floydada went to Bill Hale, president of the Floydada Development Co. Floydada was chosen for the training site over three other area towns.

Towns represented at the meeting other than Floydada were Paducah, Dimmitt, Lockney, Tulia, Plainview, Ralls, Crosbyton, Silvertown, Petersburg, Roaring Springs, Lorenzo and Abenathy.

ANNE SWEPSTON, a teacher with the Floydada School system 35 years, has retired and is pictured receiving an engraved plaque and gift from Supt. A. E. Baker. Miss Swepston was honored Monday morning during an assembly of all Floydada teachers at the high school auditorium. (Staff Photo)

## Anne Swepston Honored On Retirement

Anne Swepston was honored Monday morning and presented a plaque on her retirement from the Floydada Public School System. Miss Swepston has taught in Floydada schools since 1940 and in Floyd County since 1938.

In commenting on her retirement Miss Swepston said during these years she probably used a barrel of red ink and marked at least a ton of notebook paper and collected enough chewing gum in the wastepaper basket to pave a city block.

Miss Swepston is a native of Motley County and moved with her family to the Hillcrest Community in Floyd County in 1917 where she has resided since. She attended school at Hillcrest and when she was a sophomore she started school in Floydada.

Receiving her B. S. degree from Texas Tech, with a teaching major in Spanish and minor in English, Miss Swepston later completed the requirements for English Major at North Texas University.

She began teaching at Hillcrest School in 1938 where she taught grades 1-8. In November, 1940 she began teaching Spanish and Junior English in Floydada.

Miss Swepston said her 35 years at

Floydada High School were filled with activities and besides enjoying the association of teenagers and the opportunity to try and help them, she found the years challenging and interesting.

Two highlights of those years, Miss Swepston says, was having a part in organizing the first student council some 25 years ago, and then being one

of the teachers to institute the phased English program.

She related she would cherish many happy memories and friendship of so many wonderful people she has known and worked with in her profession.

She expresses her gratitude to the school boards, the administration, and co-workers for making it possible for her to have these pleasant memories.

## More Spent On Home Improvements

NEW YORK, Aug. 9 — How much have Floyd County homeowners been spending recently for alterations, improvements, maintenance and repairs to their property?

According to the latest government reports, much more than usual. Their expenditures in the past year were about 14 percent larger than in 1973, the preliminary figures indicate.

An estimated \$1,210,000 was spent locally for such refurbishing, it is estimated, based upon a survey of residential properties in the regional area.

For the average housing unit in Floyd County, it amounted to an expenditure of \$338, compared with \$297 previously. Nationally, the average was \$403 per unit.

The regional data was compiled by the Department of Commerce by means of a sampling survey covering all parts of the country.

It shows that the chief outlay, in most cases, was for additions, alterations and other improvements. This came to \$12.6 billion, equivalent to 60 percent of the overall total.

The remainder, \$8.6 billion, went for maintenance and general upkeep. Painting was the biggest item, by far, in this category. Next in order were plumbing, roofing, heating, air conditioning and general repairs.

In Floyd County, the expenditure for improvements ran to approximately \$726,000 and for maintenance and repairs to \$484,000, it is estimated, based upon the general breakdown.

Total outlays in the United States for the upkeep and improvement of residential properties reached a record \$21.1 billion in the year, reports the Commerce Department. It compares with \$18.5 billion in 1973.

For more and more families, the goal of acquiring a new home has had to be put aside for the present because of

high prices and an unsettled economy.

The result is that many of them, who would normally have been moving into new homes, have decided to stay where they are and do some remodeling and improving of their present properties.

The \$1,210,000 outlay by Floyd County homeowners is indicative of the trend. Most of this expenditure went to local mechanics and to building supplies dealers.

Farmers in our community are still irrigating crops. Some have finished their maize, and some are watering their cotton, or vice versa. The biggest problem they have here is the insects. Boll weevils are in the cotton in some fields, and head worms are on some fields of Milo Maize. Crops on the whole just look perfectly beautiful, and warm, sunny days are needed to finish up the final weeks for crop maturing.

August 15, 1975

Mr. Jim Huggins  
The Lockney Beacon  
P. O. Box 187  
Lockney, Texas 79241

Dear Jim,

Enclosed please find a copy of a letter we recently sent to the members of the Texas Railroad Commission and the Director of the Transportation Division of the Railroad Commission.

Also enclosed is an instruction sheet we sent out to various people in the affected communities outlining the procedure for writing letters of protest. The Railroad Commission informed me that following this procedure would help expedite the processing of these letters.

Since citizen involvement is very important in resolving such matters, any assistance you could give in making the people of Floyd County aware of this problem would be greatly appreciated.

Sincerely yours,

Ray Farabee

Re: ...NOTICE OF PROTEST\* Notice #7817, Application of Texas, New Mexico, and Oklahoma Coaches to discontinue service over U. S. Highway 70 between Vernon and Plainview. Motorbus docket #200 and Common Carrier docket #3986.

Dear Commissioner:

The application noted above will, in my opinion, be detrimental to the interests of the citizens now being served by this bus route. For many of the communities involved, Texas, New Mexico, and Oklahoma Coaches provides the only bus and common carrier service available.

As a result, discontinuance of service along this route will mean a severe inconvenience for those persons who depend on bus service for transportation, particularly our older citizens.

Also, this route provides the only expeditious means of obtaining commodities such as medical drugs. Many businesses depend on this service for the materials necessary to carry on their activities.

Since passenger and package transportation are vital needs of this area, I hope careful consideration will be given before any cancellation of service is authorized. If I can furnish any further information on this matter, please contact me.

Sincerely yours,

Ray Farabee

**CENTER NEWS**

(by Mrs. J.E. Green)

More beautiful weather, and such a nice three inch rain last week! What can be nicer in August.

Mrs. Norma June Robison and three daughters arrived last mid-week from their home in Denver, Colorado to visit several days with her mother, Mrs. R. C. Ross.

Mr. and Mrs. Dub Hartline called his parents Sunday, the W. L. Hartlines. They related their daughter, Robbie Lynn, who graduated from Roswell-High School in May, has joined the Waacs and is stationed at Ft. McClellan, Alabama.

Miss Vera Meredith's visitors; Mrs. Clay Muncy of Lockney came Wednesday; Mrs. Thelma Crawford and Miss Maurice Burton came Sunday afternoon; and Mrs. Green was there for Sunday dinner.

Mr. and Mrs. Charley Spence, and Mrs. Green were in Crosbyton Saturday for the Pioneer Reunion. There was a parade, a bountiful dinner served in the Pioneer building to some 500, and a fine program. For one like myself who grew up at Mt. Blanco and taught in the county several years, it

was doubly interesting meeting again old school mates and pupils-some not seen in fifty years. Everyone ought to attend such a meeting when they can.

Among others from our city there were Mrs. Leona Bell and Mrs. Betty Tye. In Crosbyton, Mrs. Marley joined us in the crowd and we visited in their home afterward.

Mr. and Mrs. Wade Warren visited Mrs. Elmer Warren Sunday afternoon.

Mrs. Leo Frizzell and Mrs. Elmer Warren were in Lockney Friday seeing Leo in the Rest Home. They attended the funeral of a brother-in-law, William H. Workman.

Mrs. Ava Jackson is scheduled to visit a son and wife in Odessa this week.

Mr. and Mrs. Percy Buske of Kress visited Sunday evening with Mrs. Opal Campbell and Mr. and Mrs. Travis Lightfoot. Mrs. Lindley dined Sunday with the Lightfoots.

Mr. and Mrs. Milton Mensch of Lubbock spent the weekend with her parents, Mr. and Mrs. Hal Thomas.

Sunday afternoon visitors at Mrs. Ola Warren's were Mrs. Hal Thomas, Mr. and Mrs. Thomas Warren, city, and daughter, Mrs. Paul Stout and babies of Quitaque Mrs. Joyce Owen came Monday morning.

Mr. and Mrs. Warren and daughter, Mrs. Stout were in Lubbock Sunday. They saw the Lee Burton family at Methodist Hospital where Mrs. Lee Burton was in intensive care after surgery. Later they attended the reception given Mr. and Mrs. Myron Kattner honoring them on their 25th wedding anniversary.

Mr. and Mrs. Paul Murff visited in Brice Sunday with relatives.

Mrs. Morris Carroll is in Paris with her mother, who is ill. Enroute she picked up her son, John, who was visiting a sister in Oklahoma.

Steve Green of Plainview lunched with his grandmother, Mrs. J. E. Green this Monday. He is to leave Friday for Baylor for his freshman year. He was an honor graduate from Plainview High in May. Our best to all these students who are college bound, including Dana Woody, our Calvary pianist.

**TRACTOR DOES HAVOC TO FLOYD COUNTY MEMORIAL GROUNDS.....**The above scene, believed to have been sometime in the past, shows furrows, some 18 inches deep, left in the ground. The tractor borrowed without permission from Kelton Shaw, which was part of a mile east and back south from the cemetery, investigating officers. Person or persons "borrowing" the tractor, the same location. Officials said the tractor was used to evidently dig a vehicle from the mud where it was mired? No graves were damaged. The incident is still being investigated.

form, plain paper will do. Letters can also be hand written, however, one should be careful that they are legible.

2. Near the top of the first page write:

"Notice of Protest"

This will help the Commission quickly determine the purpose of the letter.

3. Below "Notice of Protest" include the following information:.....re: Notice #7817, Application of Texas, New Mexico, and Oklahoma Coaches to discontinue service over U. S. Highway 70 between Vernon and Plainview. Motorbus docket #200 and Common carrier docket #3986."

4. Once the above information is included explain why you feel bus service should not be discontinued along this route. It is important to keep in mind that while the Railroad Commission is interested in common carrier or package service their primary concern is with passenger service. Therefore, it will be of the utmost importance for us to show the need for bus service for passengers. If you know of anyone who depends on the bus for transportation please contact them and ask them to also write the Railroad Commission. Letters should be sent to:

## CARDS OF THANKS

Mere words cannot express the profound gratitude of all our families to the host of friends and neighbors who have helped so much during this time of shock and grief following the loss of our "Little Glen."  
Your words of sympathy; all the beautiful flowers; all the good food - along with your many prayers - have truly helped to bring us through it all. May God richly bless each of you.

May we take this means to say thank you for the many ways our friends and loved ones helped us during my illness and since my return home. On the farm, the flowers, cards, calls and above all the prayers and those who stood by. May God bless each of you with good health and happiness. Again, thank you.
