inds Too Much For Chiefs, 41-0

v Scores, Kicks

of last year's at Crosbyton by 41 was 47-6....this year

ver here and got wind and when the hey came out with le shakey, but never

G

gave up.

The Whirlwinds never looked better...they showed good balance of running attack and passing ability. We never did know if we had a punter because, really, we hardly ever needed

With number one kicker Leslie Soto sidelined with an injured knee, junior Micky Minnett did a fine job of kick-offs and only missed one extra point. He looked good when he carried the ball

Floydada's side of the field was filled with fans, Crosbyton's side about half full. It was a beautiful night and although the game was so good for Floydada fans that it almost got tiring, it was an enjoyable, relaxed event.

Micky kicked off, Crosbyton couldn't go and punted a nice 33 yarder. The first play of the game for the Whirlwinds was a fumble and Crosbyton had the ball on the 'Wind's 42 yard line.

Ronald Wiley ran for four, then Wind Donzell Minner intercepted a Chief pass and the 'Winds had the ball on their 36 line. Kelvin Ratliff made a couple of yards, then broke loose for a nice 15 yard run. It was Micky then who got loose for a great 47 yard run and the first TD of the game. He kicked the extra point and Floydada was ahead 7-0 with 7:53 left in the first

After Micky kicked-off, the Chief's Wiley made four, then Whirlwind Elton Ratliff caught the runner behind the line of scrimmage for a 13 yard loss. At this point the Chief's completed one of their two passes, from Joe Mack Cargile to Wiley, good for 17 yards. They ran out of downs and punted

Floydada brought the ball back down the field with a 20 yard pass from quarterback Jay Womack to Minner, a 30 yard run by Kelvin Ratliff, and Womack blasted around left end from 16 yards out for the second TD. Mickey did and the score was 14-0 with 3:04 left in the first quarter.

In the second quarter the 'Winds scored again after Elton had made 12, Womack to Minner pass was good for 18, and another short W to M pass for the last four yards was good for the third TD. Micky missed this one and Floydada led 20-0 with 8:42 left in the second quarter.

The Chiefs decided to try their passing attack and Minner intercepted another. However, on the first play, the Whirlwinds fumbled and lost the ball to the Chiefs.

Then Gary Nixon intercepted a Chief pass and Floydada was back in the

At this point coach L. G. Wilson put in quarterback Jerry McGuire. Jerry threw a beautiful 66 yard pass to Minner for another TD. Micky did and the score was 27-0 with 5:19 left in the second quarter.

Crosbyton fumbled the Whirlwind kick-off and it was Floydada's ball on the 24. Some Floydada penalties and some second stringers lost the ball on downs. However, the Chiefs couldn't go and punted. Just before the half McGuire completed a nice 15 yard pass to Royce Chadwick. HALFTIME

Halftime was highlighted by the outstanding Whirlwind marching band and drum majors, majorettes, cheer leaders were introduced to the fans. SECOND HALF

Floydada scored on the first series of plays after receiving the kick-off. Kelvin and Micky made most of the yardage with Womack hitting Minner on a 14 yard pass for the TD. Micky's PAT was good and Floydada led 34-0 with 8:14 left in the third quarter.

punted a good 40 yarder. The last TD was set up by good runs by Kelvin, Micky, Elton. Kelvin zig-zagged in for the TD, hardly

Crosbyton made one first down, then

touched in the 11 yard scramble. Floydada led 41-0 with 0:58 left in the third quarter. Almost every Whirlwind played in the last quarter. Rusty Cagle

quarterbacked some, the Junior Varsity played a few downs, and Larry Jones made some yardage. Crosbyton made one first down in the quarter. McGuire tossed a fine TD pass (some 26 yards) to Randy Ratheal, but it was called back due to a penalty. McGuire completed a 12 yard pass to Chadwick, and another good for eight yards.

The Chiefs never gave up, they played their best until the last play of the game. They are a A class football team, but are to move up to AA next

Floydada travels to Cooper next

Coach's Comments

"We were just real pleased with the way our boys played their first game of the season...especially our number one group," was the opening statement by Whirlwind coach L. G. Wilson

Coach Wilson said the only injury was Monte Williams receiving a

He was a little concerned with some three Whirlwind fumbles in the Crosbyton game.

The coach expressed his pleasure with the balance of the team, as they showed they could run, throw, kick on the offense and the defense adjusted to the single wing back attack of the Chiefs with little trouble. He was also pleased with Micky Minnett's kicking performance.

the game with Cooper next week," the

Livestock Sale Changing To Wednesdays

The Floydada Livestock Sales Co. this week announced that they are changing their livestock auction day to each Wednesday instead of Thursday. This begins Wednesday September 10.

The sale will begin at 10 a. m. from now on also.

This Wednesday there will also be a special stocker-feeder sale.

NEW MANAGER at the Floydada

Annual Meeting Development Co

There are 52 members of the Floydada Development Company and they are all urged to attend the annual membership meeting Tuesday afternoon at 5:30 in the bank community

President of the Company Bill Hale will be presiding over the business meeting.

Fair Parade To Start Earlier

The Floyd and Surrounding Counties Fair parade through downtown Lockney will start at 3:30 p. m. Thursday, September 11 instead of 4:30 p. m. as previously announced.

All entries must be at the starting point (North Main Street in front of Lockney Care Center) by 3:15.

Heart Association To Meet Tuesday

The Floyd County Chapter of the American Heart Association will hold its first meeting of the new year, Tuesday, August 9, at 12:00 noon for a luncheon at King's Restaurant.

Plans for the coming year will be discussed. Joyce White from the district office in Lubbock will be present.

Everyone is welcome and urged to attend, if you have a relative or friend who has suffered a heart attack or stroke you will find this is a very good way to help them and others.

GOOD ATTENDANCE AT

Sunflower Meeting

At a meeting of sunflower growers in Lighthouse Electric community room Friday morning complete details were given by representatives of Plains Co-op Oil Mill on payment for

sunflower seed. A spokesman for the mill said growers could take later payment on their sunflower seed and draw eight percent interest, or they could take ten cents of the contracted 15 cent price at time of delivery to the elevator. The

additional five cents would bear eight Playground **Equipment Film**

To Be Shown

On Tuesday September 9th at 4:30 p. m. in the Della Plains School building Floydada, representatives will be present to show films of playground erBanquet equipment suitable for day care centers, schools and parks.

Any civic organization, clubs or individuals interested in playground equipment are invited to attend.

The equipment is said to be very durable and economical.

Karen Brower, Licensed Representative from the State Department of Public Welfare and Linda Patton, Child Development Specialist, also of the State Department of Welfare, will be on hand to answer questions pertaining to the playground equipment.

CITY MANAGER BILL FEUER-BACHER left a chart on my desk showing how the cost of natural gas has increased as it affects the city's electric power plant. For instance in September of 1973 the city used 17,697 MCF of natural gas at a cost of \$5,885.02. In July of 1975, 17,880-MCF were used at a cost of \$15,531.64. The

cost has tripled! And there's no solution to the problem....nobody else sells natural gas, and diesel is two or three times higher than natural gas.

"OH YE OF LITTLE FAITH"....I apologize to the Whirlwinds for forecasting they would beat Crosbyton only 28 points. I'll try to do better next

WE ENJOYED THE BILLY GRAHAM CRUSADE, and recommend that you attend the last service Sunday night. I looked around and couldn't see any Floydada people there, I suppose all 4,000 of them were on the other side.

I GET CONSIDERABLY IRRITATED everytime I think of the actions of the longshoremen's refusing to load Russian bound grain on U. S. Ships in a Houston port recently. This action was taken because of their reputed concern of possible high food prices..... BALONEY!

The Gene Arwine home in Floydada will be the setting for a salad supper and assembling of the 1950 Study Club members Tuesday night, September 16. Joy Smitherman will be

The introduction of the new club Yearbooks will be given by the chairman, Carolyn Cheek, assisted by her committee, Mrs. Ray McDoanld and Mrs. Doyle

All club members are urged to attend.

56 Club Meeting

Members of the 1956 Study Club will meet Monday night, Sept. 8, rather than Tuesday, Sept. 9th, due to conflicting plans.

The opening program for the club's new year will be given at Lighthouse Electric, by Carolyn Fuqua, on "Care of House Plants"

Hostesses for the meeting will be Mrs. Jakey Younger, Mrs. Tommy Cathey and Mrs. Jerry Neeley.

I know that everyone will continue to be helpful and give all the support you can. Last Friday we gave a surprise and going away party for Maria Arellano, Elsie Hollis and Dorothy Bailey. Boy! They were really surprised. Fruit punch and cookies were served to the residents and staff. Maria received a crock pot; also a pretty necklace from our Administrator, Laverne Christian; Elsie received a pretty liberty bell cookie jar; Dorothy received a pretty cake plate. We are all going too miss them very much and their smiling faces. Maria will be working at the school as a teacher's aid; Elsie will be going back to school in New Mexico; and Dorothy will be staying at home, but will have more free time to spend with her father who lives in Matador. You all come back and visit

with us anytime. We were all saddened on Friday by the death of Elsie Woodall's sister-Mrs. Ellie Hayes. We will all miss Ellie very much. May God give the family of Ellie the strength and courage to bear on. Elsie is one of our

We appreciate so much.

everyone who has shared in morning devotionals this week. They really lift us up spiritually. We also want to thank Chester and Joyce Freeman for coming on Saturday and Tuesday mornings and bringing the devotionals. They can really sing. Chester can also really play the guitar and harmonica. Thanks so much. Joyce and Chester are our aid-Twyla--sister and brother-in-law. They are really

Hope each and everyone had a very nice holiday on Monday-Labor Day. I really

Tuesday afternoon Mable Foster came and took five of our residents on the bus to Floydada. We all rode around and viewed all the pretty homes and flowers. We stopped for ice cream on the way home. We all really had a great time. The residents who went on the trip were Lewis Roberts. Mr. and Mrs. D. W. Burke, Simplicio Leal and Juan Garcia. Thanks Mable for the wonderful help and service. We also played ball in the lobby after returning from our trip to Floydada. Everyone had a lot of fun.

Wednesday, the ladies from the Main Street Church of Christ came and gave a birthday party for the residents who have a birthday in September. They are: Romana Luna, Mae Brown, Jack Harris, Inez Nichols and Martha Burke. One employee also has a birthday this month. She is Irma Rodriquez. Irma is one of our aides. Cake and fruit punch were served to the residents and staff. May each one of you have many more happy birthdays. The ladies who furnished refreshments for the party were Mrs. L. M. Honea, Annie Lee Kellison, Ora Collis, Ilma Baxter, Josephine Smith, Mildred Gammage, Ruby Bennett, Janie Klein, Tommie Williams, Faye Sams and Laura Manning. Thanks very much ladies.

Thursday we played Bingo. Elsie Woodall was our grand prize winner. She won the "hen" candy dish. We all always have fun playing

We have also been cleaning pinto beans for the

We have a resident who is a very fine singer. She is Romana Luna. She sang a song for us during the devotional on Tuesday morning. She did a very fine job. Thanks Romana!

We wish to thank every one who has brought flowers this week. The ladies of Main Street Church of Christ brought lovely flowers for the party on

BOLL WORN OUTBREAK WORST IN 15 YEARS.....WARREN

The cotton boll worm outbreak is general across Floyd County and is the worst this agent has ever seen. Producers should be aware of the problem and should be checking their fields. Commercial applicators are doing an excellant job of checking fields, but there is just not enough

manpower to check all fields. Check fields twice weekly (3-4 day schedule). Examine 100 small bolls and figure percent of infestation after inspection at 2 or 3 locations across field.

The decision to apply insecticide should be made when 15 - 20 percent infestation is found. This is

WE GLADLY

ACCEPT

U.S.D.A.

FOOD STAMPS

also based on number of beneficial insects present and size of the boll worm. Good control has been achieved on small worms but after worms are large enough to enter a boll, no control has been evident.

If the decision to apply insecticide is made, toxiphen plus methyl parathon or monocrotophos (azodrin) has given fairly good kills on the boll worms. Check fields closely 2 or 3 days following application of insecticide, where control has not been obtained, repeat application immediately. Apply insecticide at intervals determined by infestation. Where high resistance levels occur, effective chemical controls

Texas Tops In Farmland Owners---Texas boasts more farmland owners than any other state in the nation, says an economist for the Texas Agricultural Extension Service. Texas has 267,000 of the 3.3 million farmland owners in the United States. The next leading states are Iowa and Illinois. Texas also leads in the number of nonfarm land owners, or landlords who lease their land to others, with 87,500. Individual Texas land holdings by both farmers and non-farmers average 584 acres compared to 320 acres for the national

Environment Affects Cotton Fleahoppers--How and when fleahoppers affect cotton plants apparently depends on the age of the plant and soil moisture Floyd County Farm Bureau Floydada, Texas conditions, believe researchers with the Texas Agricultural Experiment Station. The fleahopper is one of the most destructive cotton insects; one insect per plant can cause stunting during the four-to-six-leaf stage. Fleahoppers were found to have no effect on square formation but did increase square losses. Water-stressed plants lost

I have recently changed my employment situation and am now self-employed. Is there any way to receive tax-saving deductions and set up a pension plan for myself?

Yes. Under the Pension Reform Act of 1974, you may now receive many of the tax benefits enjoyed by employees of corporations. For retirement plan purposes . . . you are both an employer: being permitted to set aside up to 15% of earned annual income or \$7,500, whichever is smaller toward a pension plan . . . and an employee: not being taxed on such contributions or on the income earned by the funds during the accumulation period. To receive these benefits, you need to be under a qualified Keogh plan. Life insurance plans can pay retirement income as long as you live and pure insurance proceeds in such a plan are received by your beneficiary free of income taxes.

Field Day Slated In Lubbock

LUBBOCK -- Two top money makers in the South Plains agricultural spectrum, cotton and grain sorghum, will be featured here Tuesday, Sept. 9, as the Texas Agricultural Experiment Station kicks off its 66th Annual Field Day.

Some 120 varieties of cotton in irrigated, dryland and special glandless field tests are set for exhibition, reports Dr. Earl Minton, field day committee chair-

Also, a review of grain sorghums with bred-in resistance to greenbug damage will be presented by one of the hybrids originators, Dr. Jerry Johnson, TAES sorghum breeder.

Dr. Levon Ray, cotton geneticist, is scheduled to present the cotton variety portion of the field day program

Field day activities begin at 1:00 p. m., with field tours continuing until 5:00. Tours via tractor-pulled trailers will leave the Experiment Station headquarters every 15 minutes throughout the

Says Ray, visitors will be able to view 61 varieties of susceptible hybrids was

AT 10 A. M.

irrigated cotton, 44 varieties on dryland and a special field test evaluating the performance of 16 glandless cotton

Varieties are evaluated under conditions of severe verticillium wilt and in narrow row plantings, notes the researcher. Information gathered on lint and seed yields, fiber properties gin turnout and other characteristics will help producers in selecting a cotton variety

for next season. "Our field day tour will not only afford a first hand opportunity to compare cotton varieties including several new varieties just coming on the market," says

Discussing the genetics of the greenbug resistance hybrids, Johnson says, not only do the resistant hybrids have fewer greenbugs than the hybrids presently on the market, but they are able to tolerate larger numbers before sustaining leaf injury from a toxin injected by the

In 1974 tests resistant hybrids produced 5500 pounds per acre. Grain yield of reduced by almost 50 percent, from 5500 pounds to 2600 pounds where the insects were not controlled,

the TAES scientist reports. Johnson will also be on hand to demonstrate the greenbug resistant sorghum varieties at the Experiment Station at Halfway's Field Day scheduled two days after the Lubbock event, on Sept.11. Halfway field day activities begin at 1:00 p. m. running until 5:00. The Halfway center is located 14 miles west of Plainview on

The 275-acre Lubbock station, which houses TAES and Extension staffs, US-DA-ARS personnel and the agricultural meteorologist of the National Weather Service, is located 71/2 miles north of the city on Hwy 87, just north of the Lubbock Regional Airport.

INDOOR VEGETABLE GARDENS

Indoor Gardens For Vegetables--A variety of vege tables can be grown indoors by those who want to escape the hot summer weather and inclement weather that is sure to come in the months ahead. Among the most popular indoor vegetables are chives, parsley, peppers, tomatoes, leaf lettuce and radishes, says a vegetable specialist with the Texas Agricultural Extension Service. Basic requirements for indoor gardening include suitable containers with good drainage, a good fertile soil mix, adequate water and location with sufficient light for plant growth. Watering plants occasionally with a diliuted fertilizer

solution boosts production.

FLOYD COUNTY FARM TOUR visits ACCO at Aiken. Top: ACCO district sale manager Jack Link tells about corn varieties on the ACCO farms. Bottom:

Tour members line up for free barbecue lunch.

Lubbock-based Plains Cotton Growers, Inc., with an eye on maintaining and increasing the High Plains' share of the mushrooming market for cotton in the world's open-end spinning mills, will be cooperating September 10 and 11 with the National Cotton Council in the sponsorship of an open-end spinning seminar at Lubbock's Hilton Inn.

The seminar will bring to Lubbock a large number of the world's most knowledgeable and experienced technicians in the field of open-end spinning machinery and its use, says PCG Executive Vice President Donald Johnson, "and we think it will be a definite help to PCG's two-pronged push toward increasing demand for this area's cotton and attracting other open-end spinning operations to join the five such mills now in ion or announced for the High Plains are:

For example, Johnson points out, "Our research and that of many others has shown that acceptable and even superior arns, other things being equal, can be produced on the opennd system from low micronaire cotton, which is normally in bundant supply on the Plains. And the more mill people who ome to accept that fact, the more people will become interested buying High Plains cotton and/or locating a mill in the Plains area.

In addition to airing the present favorable characteristics of High Plains cotton, Johnson continues, the interplay of ideas during the seminar may help to point PCG's agricultural research in directions that will lead to varieties, cultural practices and ginning procedures that will make High Plains cotton even more desirable for open-end spinning.

Joining the NCC and PCG in producing the seminar is the nternational Institute for Cotton (IIC), Texas Tech University, Cotton Incorporated, the American Textile Manufacturers Institute, U.S. Department of Agriculture, and land-grant universities across the Cotton Belt.

Noted open-end technicians are on the two-day program from England, West Germany, Japan and the U.S.

Foreign speakers will be S. Allen Heap, International Institute for Cotton, Manchester, England; H. Landwehrkamp, Schubert & Salzer Company, Ingolstadt, W. Germany; H. Hergeth, Hergeth Company, Dulmen, W. Germany; and T. Konishi, Daiwa Spinning Company, Osaka, Japan.

U.S. participants include Jack Towery of Texas Tech's Textile Research Center, Lubbock; Clifford W. Palm, Omintex, Charlotte, N.C.; Peter Lord, North Carolina State University; Edward A. Vaughn, Clemson University; Dwight Carlisle, Russell Corporation, Alexander City, Alabama; and Carl Feaster of USDA's Cotton Research Center, Phoenix, Arizona.

Omintex, Russell Corporation, Hergeth, and Schubert and Salzer are companies involved in the manufacture and sales of open-end spinning machinery. Daiwa is one of the largest textile firms in Japan, has several open-end spinning mills there and has broken ground for the construction of an open-end plant at Levelland. Don Anderson of Slaton, cotton producer delegate to the

NCC, past president of PCG and author of the NCC Board resolution which made the seminar possible, will give the welcome and opening statement for the seminar at 8:30 a.m. An industry reaction and discussion panel of farmers, cotton

breeders, merchants, machinery manufacturers and researchers will conclude the program.

Exceptional Grain Harvests Expected By Texas Farmers

conditions than last year will yield per acre rose from Texas produce a record wheat crop and the second largest sorghum crop in the state's history, Agriculture Commissioner John C. White has announced.

Wheat production is expected to be 131 million bushels. This contrasts to last year's 52.8 million bushel crop, which was plagued by

Harvested acreage increased from 3,300,000 in 1974 to 5,700,000. This year's yield is 23 bushels per acre, compared with last

year's 16 bushels per acre. The grain sorghum crop is projected at 394.4 million bushels, compared with last year's harvest of only 312 million bushels. Harvested acreage is estimated at 6.8 million acres this year, almost one million acres more than last year.

Corn production is expected to be the best since 1910 as yields should reach 115 million bushels, White said. This is an increase of 32 million bushels in 1974. Corn acreage increased from 800,000 acres in 1974 to 1,100,000 in 1975.

Rice harvest is forecast at 24,885,000 pounds per hundredweight, slightly less than last year's harvest of 25,258,000. Although

AUSTIN-Better weather s62,000 to 553,000 acres, 4,494 to 4,500 pounds.

> Cotton production for 1975 is expected to be 3,100,000 bales, compared with last year's harvest of only 2,462,000. Harvested acreage declined 9 percent, from 4,400,000 acres to 4 million in 1975. This year's yield per acre is expected to be 372 pounds, compared with 269 pounds last year.

A Weekly Report Of Agris Compiled From Sources Of The Texas Department of John C. White, Commiss

The Texas swine industry is breat now that the federal and state hog cho the Panhandle have been lifted. A 100s parts of Deaf Smith and Castro counter quarantine for about six weeks.

A total of 75 swine herds in the area addition to depopulating two infected he another 23 herds in Texas and six in 0k destroyed because they had been exposed the infected herds.

About \$350,000 in federal indemni obligated to compensate owners for h prevent further spread of the disease.

At one time, hog cholera was a ma menace costing producers more than \$50 vaccination expenses and herd losses.

COTTON HARVESTING for the state concern for most Texas row crop farm around the 10 per cent completion cotton root are causing problems. One by recent advances in prices for cotton.

Sorghum harvest is more than half or many locations have been lower than ame on the High Plains continues to make sate

Peanut harvest is less than 10 per cent Blacklands and Cross Timbers areas, pe good growth but moisture will be ne satisfactory prospects.

Rice harvest is two-thirds finished; lagging behind last year at this time. Soy make generally good growth over the state
