

Winds And Wildcats

Scrap To 7-7 Tie

Wendell Tooley
 Typical Wildcat-Wind
 defensive battle with

Floydada on top when you look at the statistics. Floydada was inside the Wildcat five yard line two times but couldn't pick the right play to score

against the tough Wildcat defense. The game was played on a beautiful night . . . Floydada fans filled their side of the stands, Littlefield's side was

FIRST HALF

Kelvin Ratliff returned the Wildcat kick-off to the 25. The 'Winds couldn't make ten yards and quarterback Jay Womack punted a 31 yarder.

Littlefield came back down field with a hard running game, making two first downs before punting a 28 yarder. The ball was on the 'Wind seven. The next play lost yardage back to the four and Womack finally punted a beauty . . . some 40 yards to relieve the pressure.

The Wildcats made one first down and the ball went over on downs at the 'Wind 28 yard line.

At this point the 'Winds began to move the ball with two first downs. Kelvin broke loose for ten, Larry Jones made 12, and then four yards right through the middle of the Wildcat line. The ball was on the Wildcat 30, but a costly Whirlwind fumble gave the ball to the Wildcats.

The Wildcats couldn't go and punted a 38 yarder.

Again the 'Winds couldn't make a first down against the strong Wildcat defense and Womack punted a 41 yarder from his own 30 yard line.

The 'Wind defense continued to get tough and the Wildcats made six and lost six . . . then punted a short 21 yarder.

The Whirlwind offense came to life as Kelvin broke right end for 11. Womack tossed a five yard pass to Micky Minnett, Larry Jones right through the middle for five, then a fine 20 yard pass from Womack to Minnett. The 'Winds had made three first downs and the ball was on the Wildcat eight yard line.

Four plays and the ball was on the three yard line and Floydada had run out of downs . . . and no touchdown. Floydada fans were frantic! The ball went over to Littlefield.

Littlefield made one first down and the ball was on their 16 at halftime.

At halftime Floydada led in first downs 5-4.

SECOND HALF

It could have very easily been a 7-0 victory for Floydada, but Steve Cruz took the opening Whirlwind kick-off right back downfield (some 70 yards) to set up the first Wildcat touchdown. It was the Wildcat's Bill Turner who plunged over the middle from three yards out for the first touchdown of the game.

Turner kicked the extra point and Littlefield led 7-0 with 10:31 left in the third quarter.

Micky returned the Wildcat kick-off to the 27. Kelvin and Micky made a first down, then if Kelvin could have made it past one more Wildcat defender as he raced down the west sideline going south, he would have surely scored. The exciting run was good for 22 yards and another first down.

Micky zig-zagged for 12 and another first down. The ball was on the Wildcat four yard line and Womack threw the touchdown pass to Donzell Minner with 7:08 left in the third quarter. Micky kicked the PAT and the game was tied up 7-7.

Friends, I wish you could have seen Micky's kick-off . . . it went past the goalpost and almost bounced over the fence out of the stadium.

The 'Wind defense showed the crowd they were plenty tough. They held the Wildcats to only six yards and Turner punted a high 27 yarder.

However, the Wildcat defense got tough and Womack booted a good 40 yarder. The Wildcats made three yards, then Jerry McGuire covered a Wildcat fumble on the next play and Floydada had the ball on the Wildcat 16 yard line. Floydada fans went wild . . . looked like the 'Winds were going in for another touchdown.

But the Floydada excitement was short-lived as Womack's pass was intercepted and the Wildcats had the ball on their own nine yard line.

The Wildcats made a first down, brought the ball out to their 29 before Turner punted a long 45 yarder.

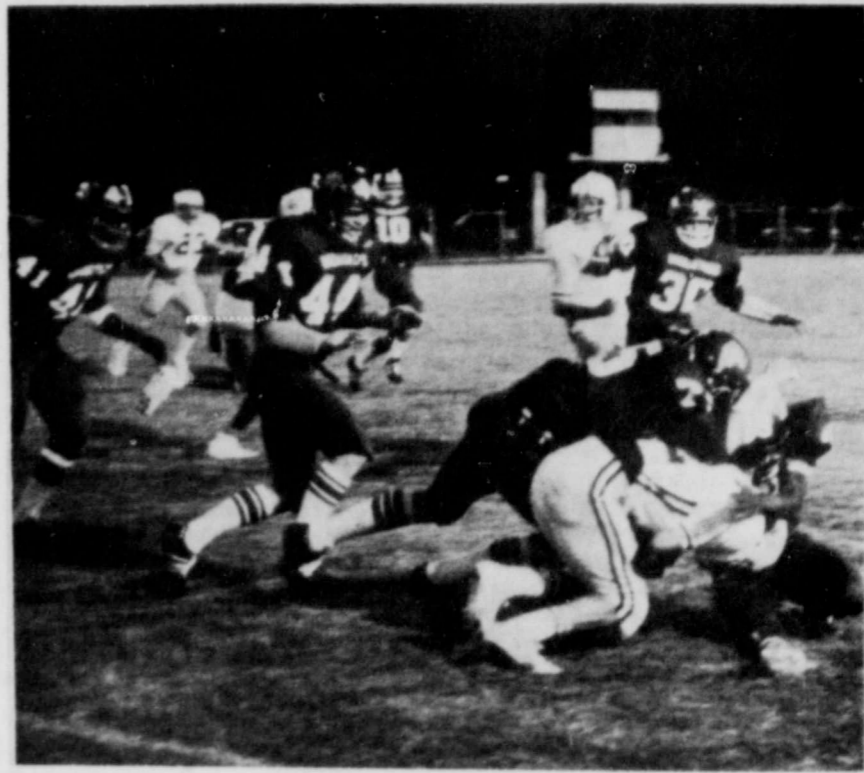

The 'Winds couldn't move the ball and Womack booted a 33 yarder.

The Wildcats had hardly got the ball going when Donzell recovered their fumble and Floydada was in the driver's seat again. Womack ran six, tossed an incomplete pass, then ran three more with the ball on the Wildcat five yard line. The ball went over on downs as Whirlwind fans just knew the 'Winds would score this drive.

The next play was almost tragic for Floydada as Turner scampered through the middle of the Whirlwind defense for a gain of some 50 yards.

Again the 'Wind defense stopped the Wildcats cold at their 40 yard line. Turner punted a 40 yarder and the 'Winds had the ball on their 20.

Micky made five, Womack turned on the speed around left end for 15 then

KELVIN RATLIFF, Jay Lackey, Jerry McGuire, Ricky Covington, and Steve Moore converge on Littlefield ball carrier. (Photo by Keith).

tossed a pass that was intercepted by an alert Wildcat.

The Wildcat quarterback Ronald Palmer tossed a long pass the first play and Micky picked it off. He had a good return on the interception but a 15 yard penalty nullified the gain.

Kelvin made about a 20 yard run and it was called back on a five yard penalty. Womack made another good 11 yard run, but it wasn't enough to get the first down after the team had suffered some 20 yards of penalties.

Womack punted a 30 yarder.

The game was almost over, but Donzell intercepted a Wildcat pass and the Whirlwinds were still determined to get another touchdown. With ten seconds left in the game Womack threw a 31 yard bomb to Minner but time had run out.

Floydada is 2-2-1, facing another non-district game next Friday at Levelland. Littlefield is 4-0-1.

HALFTIME

At halftime the Whirlwind marching band played "Macharena" while in the circular formation, then "Evil Ways" in concert formation. They then marched to the north end of Wester field and played "Eat Em Up," "Musical Cheers" and the fight song as the Whirlwinds came back on the field.

Floydada	STATISTICS	Littlefield
12	First Downs	7
219	Yards Rushing	171
5/61	Yards passing	0
12/1	Passing att/int	3/2
2	Fumbles lost	2

5-42	Penalties	4-40

Coach's Comments

"I really believe our Whirlwinds jelled in the second half of the Littlefield game . . . after they made the tying score," was the opening comment of coach L. G. Wilson Saturday morning.

"Of course both teams missed some scoring opportunities, both teams made mistakes, but all in all I thought our overall performance was good," the coach added.

He praised the defensive performance of Jay Lackey, Steve Moore, Jerry McGuire and the hard hitting linemen.

Three sophomores got to see some action, Larry Jones, Rusty Cagle and Rick Covington . . . and the coach still hopes to get starters Monte Williams and Leslie Soto back in the future games.

"We took the fight to Littlefield, we were aggressive, we had the spark of enthusiasm that I like to see," the coach concluded.

One player, McGuire was slightly injured.

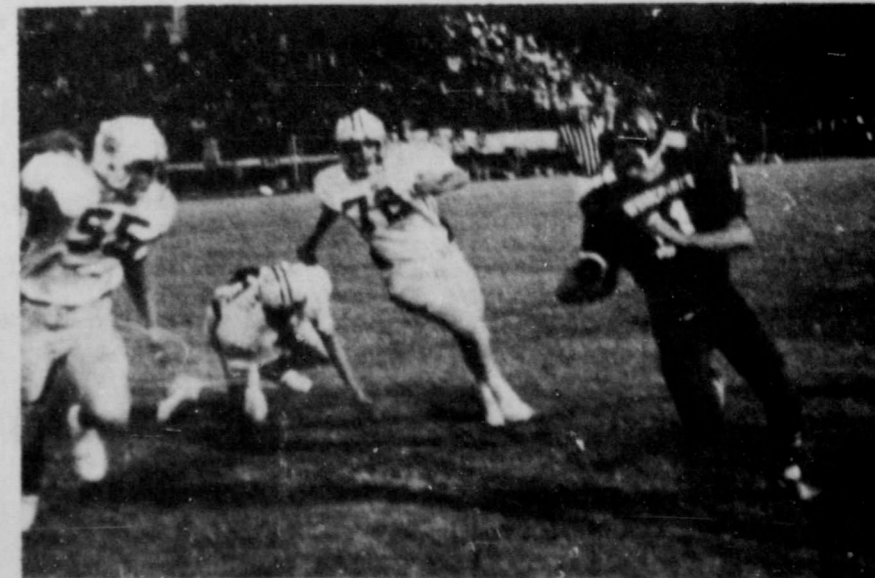

MICKY MINNETT takes a pass that was almost too low. (Photo by Keith).

GOOD BLOCKING precedes this good run by Kelvin Ratliff in the Littlefield game. (Photo by Keith).

Reserve Tickets Available For Levelland Game

Reserve tickets for the Levelland game Friday night in Levelland are available now at Floydada high school. The cost of the tickets if purchased here before the game is \$2.00 each. At the gate in Levelland, they will be \$2.50 each.

ACCIDENT VICTIM

Funeral Sunday

Funeral services for Laborio Ascension, 29, of Lockney will be at 5 p.m. Sunday (October 5) in Lockney San Jose Catholic Church with Father Richard Casey officiating.

Burial will be in Lockney Cemetery under direction of Carter Funeral Home.

Ascension, an employee of Lockney Cooperative Elevator, was found dead Thursday at the Coop Elevator in Lockney. He had apparently stepped into an auger in a tunnel at the elevator. Elevator superintendent Jack Gibson discovered Ascension in the tunnel beside the auger about noon Thursday.

Ascension was born September 20, 1946 in Mexico. He married Gloria Felan September 8, 1969, in Dumas. He is survived by his wife; his parents, Mr. and Mrs. Jeus Ascension; three sons, Laborio, Jr., Ruben and Tony; a daughter, Holly; seven brothers and four sisters.

Tax Statements Poorly Printed

According to the county tax office some of the statements sent out last week were poor print. Therefore new statements will be mailed soon that will be readable.

The tax office regrets this inconvenience to the taxpayer.

Need Some Money To Start A Business?

If you need some money to start a business of your own you should attend a meeting Wednesday night in the Floydada High School that begins at 7 o'clock.

It is sponsored by the Regional Occupational Center and Ray Chapa of Lubbock will represent the Small Business Administration. Chapa will answer all questions about how to get an SBA loan, the rate of interest, the timing of pay back and any other other question about their loans.

There is no charge to attend the meeting, but persons interested in attending should tell Beverly Kincer or Kathy Green . . . or this newspaper, if they plan to attend. It is possible that the attendance will be too large for the school room and the Lighthouse Electric community room will be used for the meeting place.

Rock Chat By Wendell Tooley

vetting the bill that supplies free lunches for children of fairly affluent parents. I am for free lunches for the poor people, but under the present program, almost everyone is eligible for free lunches.

Whose Wheat?
 Representative John McColister of Nebraska has a point.

"I find it incredible that some people can stand up and say that "we" should not sell our grain to the Soviet Union," he says.

"WE? Whose grain is this, anyway? Is it the longshoremen's grain? The government's grain? For the government to interfere and prevent sales would be outright confiscation without compensation, without a hearing, without so much as an apology."

Increasingly we encounter the kind of logic that regards the nation's crops as public property, to be disposed of by the government. The outrage of other independent businessmen were they subjected to this reasoning can only be imagined.

Pointing out that our farmers have produced a huge surplus of grain and that its sale is saving the taxpayer millions of dollars in storage costs, in addition to giving our balance of trade a badly needed boost, seems to have no effect at all. Reminding critics that the slipshod handling of the 1972 wheat sale to Russia has been replaced by careful planning, full disclosure and hard bargaining doesn't help, either.

One wonders if anyone can seriously believe that the best interest of consumers requires rock bottom commodity prices and liberal sprinkling of farm bankruptcies.

It is ironic that farmers, virtually the only true independent businessmen left, are subject to such intense attempted regulation of the sale of their products.

"We" American consumers, usually with the encouragement of our legislature, do seem to regard the wheat and corn fields as "ours." In this community we have people who wade into corn fields and haul off roasting ears without even so much as a "thank you" to the fellow who owns the corn field.

Do "we" plow until midnight, worry over fertilizer shortages and skyrocketing fuel costs and take "our" losses when hail or drought destroys crops? No, indeed. It is "your" crop then. (Perryton Herald)

INSUR-MATION

DAVID B. CATES
Floyd County Farm Bureau
Floydada, Texas

I am a self-employed male, age 45, with an annual income of \$50,000. How can I use HR-10 to provide myself with a good income at age 65?

With HR-10, the maximum income allowed for computation is \$100,000 and the lessor of 15% of this or \$7,500; however, you can't exceed your actual income. Many choose to use a smaller percentage. For example, a man, 45, with 3 employees has earned income above \$50,000. His 3 employees earn \$21,600 annually, 7% of \$50,000 is \$3,500 and 7% of \$21,600 is \$1,512... a total of \$5,012 off the top of his income. This is a fair and legal application of HR-10, yet 70% of the total contributions go to him. Money, invested at age 45, in a flexible annuity paying 7% will yield a monthly income at 65 of \$1,175.

As It Looks From Here

By Congressman Omar Burleson

WASHINGTON, D. C. - By a vote of 308 to 60, the House of Representatives has voted to spend \$160 million's worth of research towards the development of an electric automobile.

It brings to mind the classic cartoon of Little Old Victorian ladies driving in a battery-powered horseless carriage. Some of this Federal investment actually would go into the production of about 8,000 demonstration cars to be distributed widely among the public. The Energy Research

Development Administration opposes the legislation preferring to go slower and continue its own research into the improvement of batteries for electric cars. This, it seems, is the problem of an electric vehicle. The Office of Management and Budget also voiced opposition, indicating that if this issue clears the Senate, it would probably be vetoed.

On the other hand, though the focus is narrow, it seems to be the sort of thing the President has been talking about - a move by which the Federal Government may give private industry the propulsion needed to achieve energy savings. All this, of course, is worthy intent.

Through Government-

Industry Cooperation, the House of Representatives wants to perfect and demonstrate in considerable volume the electric car - which people will want to buy for short-range driving. This means, of course, it would be almost altogether adapted to cities. It is true that some 55 per cent of all energy used by automobiles is consumed in the cities and that is where the exhaust pollution is concentrated. The wisdom of mass producing such a vehicle to be peculiarly a "city car," has been advocated for quite a while by some visionaries in the transportation field. They see enormous fuel savings along with relief for congested environments which many of them say have had about all they can

take from the gasoline combustion engine. Some also foresee fabulous rental-service possibilities in urban centers for these mini-cars of the future and their emergence as a major in-city supplement to mass transportation.

It is a nice vision - people purring around the city in little electric automobiles, emitting no air pollution and no noise. Now, if everyone was darting around the city in tiny vehicles, one might be as safe as another. But darting around big vehicles, including busses and trucks, is something else.

Efforts have been under way for some period to develop a practical battery as a source of power and in which the Government already has a hand. It would

seem, however, that if there is this great potential in building such a vehicle, the automobile makers could do the job. After all, business is in business for a profit. The Government has no auto plants to build vehicles; and the automobile manufacturers would have to build these 8,000 cars, or else the Federal Government would have to construct its own plants.

Big business is not going to overlook any bets in a proposition such as this if there is a potential for profit - that's what business is all about. But this legislation would put the Government in a private operation whether it is a sound investment or not. The Government is already in more business and projects

of one sort or another can take care of it. But all potatoes come from the Government next ten years new sources

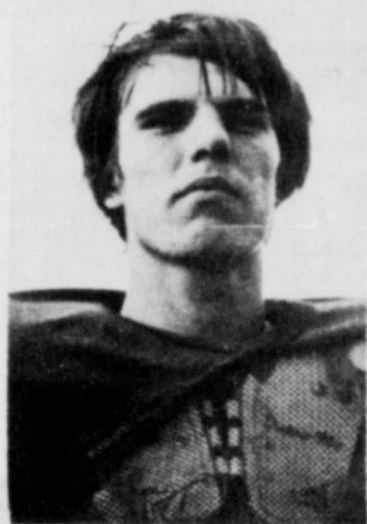

"I don't had a better cept perhaps"

Floydada Firemen Attend Training School

Last week local firemen from Floydada joined 427 towns to participate in the Second Canyon Area Fire Control School, which was held at Canyon. Classes were conducted under the auspices of the Firemen's Training School, Texas A & M University.

Engineering Extension Service, and were sponsored by the State Firemen's and Fire Marshal's Association. Facilities were provided by the Canyon Fire Department.

Following a brief orientation, the firemen were transported to the drill field where they fought controlled fires in three separate projects, which included L. P. G. fires, truck spill fires and house fires.

At the completion of the course, certificates were awarded to Larry D. Guthrie, Dale Kincer, Dwight Smith, Bobby Welborn, and Jerry C. Nulug.

Denice Chadwick In Top Five For Homecoming Queen

Denice Chadwick, Floydada High School graduate, and a senior at Southwestern State University at Weatherford, Oklahoma has been chosen among the top five girls vying for the title of 1975 Homecoming Queen at the University.

Students chose the top five Thursday out of 21

candidates. Run-off election will be held Wednesday, October 8. The winning coed's identity will not be revealed until her coronation at the Homecoming Assembly Friday morning, October 10.

Saturday, October 11, will be the big day in the Homecoming Queen's life,

when she will reign over the university's Homecoming festivities.

Denice, who is being sponsored by the O Club of the University is the daughter of Mrs. Jackie Chadwick of Floydada

Lockney Care Center Capers

By Linda Cumbie

By Linda Cumbie

Hi! We have surely had some pretty weather this week. The air though is filled with Fall. Some of our residents have been out walking or sitting in the sunshine this week. One of our residents, Mr. Word was out in the sunshine and he was enjoying it so much, he said that he thought about running away, but he decided he wouldn't. He came back up to the house after sitting in the sunshine, after deciding that it was too close to supper-time to run away. He had a good supper that night. Won't be long until the leaves will be turning gold and falling. The trees will sure be pretty before long with the different colors in them.

Friday afternoon, Mr. Freeman came with the bus and took Mr. Garcia and I to Plainview. Mr. Garcia had an appointment with the doctor. Thanks a lot, Mr. Freeman, for the help.

Hope everyone had a nice week-end. I surely did.

Monday afternoon, we worked on crafts. Have been working on a wagon, dolls and coat-hangers. The residents have been having a great time.

We would like to welcome Leo Frizzell back to the center after being in the hospital. He is up and around and doing just fine.

One of our residents is in the hospital, Mrs. Lester entered the hospital this afternoon. We wish her a speedy recovery.

We welcome a new resident to the center. She is Mrs. Mayme McGhee. Glad to have you with us, Mayme!

Tuesday afternoon, Mable Foster and Edna Phillips came with the bus and took us to see the Baptist Encampment down below Floydada. On the way back, we stopped for ice cream. Those making the trip were D. W. Burke, Myrtle Burke, Elsie Woodall, Juan Garcia, Simplicio Leal, Lewis Roberts and our aide Lucy. Thanks a bunch, Mable and Edna.

Wednesday afternoon, we worked on crafts again. Worked on the wagon, dolls and coat hangers. We all had a swell time.

Thursday afternoon we play Bingo. Had a large group this time. Even some of our visitors played with us. Our grand prize winner was a visitor, Shirley Hayes. She won a bag of jelly beans. We passed them around to our residents. They all enjoyed them.

Thanks to these ladies for bringing us egg cartons this week-Dixie Johnson, Eve-

Mr. and Mrs. Alton Nolan

Reception In Floydada Honor Mr. And Mrs. N

Mr. and Mrs. Alton Nolan will be honored with a reception in observance of their 40th Wedding Anniversary Sunday, October 12, in Massie Activity Center in Floydada.

Friends and relatives of the couple are invited to call between the hours of 2 and 4 o'clock p.m. They request no gifts please.

Children of the couple, Joe Arlan Nolan of Fort Worth and Joyce Mack of Austin will be hosting the reception. Grandchildren Tamra

JUNIOR HISTORIAN OFFICERS FOR are left to right; Becky Crabtree, Dwayne Marble, vice president; K Jones, reporter.

lyn Juarez, Mamie Hayes, and Mrs. Phenis. Thanks for caring so much.

Also, Mrs. Phenis brought us plastic bottles and greeting cards. Dixie Johnson brought us greeting cards. Thanks a bunch. Thanks also to the person or persons who brought the magazines and turnips. The residents will enjoy reading the magazines and eating the turnips.

Thanks a lot to everyone who has shared in morning devotionals this week. They have just been great. I always feel better spiritually after we have had our devotionals. Thanks to Brother Floyd Bradley and Esther Brasher for helping us out Tuesday morning. Brother Bradley gave the devotional and Esther played the piano for us. Thanks again everyone!

Lena Brotherton came Monday and did some of the ladies hair for us. We appreciate Lena.

We have beautiful flowers with us this week. Mrs. Robert Thel, and Lena, thank you for the flowers. We get flowers so often. Have had some among us. Woodall lost her law. She services on her daughter. Robert's nephew extend our pathy to this time.

One of our works in dev brother-in-law. The lady is Lena. We express See Capers

Tonya Daniels, Michael Tye Marble Wed In Candlelight Ceremony

Wedding vows were repeated Thursday evening, October 2 by Tonya Daniels and Michael Tye Marble, in a double ring ceremony read in the chapel of the First United Methodist Church in Floydada. Reverend Hugh B. Daniels performed the vows at 7:30 o'clock p.m.

The bride, a junior in Lockney High School, is the daughter of Mr. and Mrs. Robert Lee Daniels of Lockney. The groom, a senior in Floydada High School, is the son of Mr. and Mrs. Fred Marble of South Plains.

Baskets of white gladioli and brass candelabras highlighted an alter bench which formed the setting for the candlelight wedding.

Miss Penny Bertrand, Floydada, was organist, and accompanies Miss Ann Ford, Lockney, as she sang "The twelfth of Never."

Mrs. Phil Green of Lockney, wearing a blue chiffon floor length ensemble, attended her sister as

matron of honor. Joe Reid of Floydada was best man.

Aimee Green, Lockney, niece of the bride, was ring bearer, and Cindy Marble, sister of the groom, was candlelighter. Both were long dresses in shades of blue.

Ushers were Kelly Marble, brother of the groom, and Bret Marble, cousin of the groom.

The bride, given in marriage by her father, wore a floor length gown of silk organza, fashioned with an empire waist and long cuffed sleeves which ended in ruffles. Floral appliques embellished the skirt front and bodice as well as the Mandarin collar. Floral appliques also touched the chapel length train, and outlined the nylon tulle veil which descended from a fitted crown.

She carried a white lace covered Bible topped by a single orchid and wore a strand of pearls belonging to the groom's grandmother,

Mrs. Lillian Marble, given her on her 30th wedding anniversary.

Following the wedding vows, a reception honoring the couple was held in the home of Mrs. Lillian Marble in Floydada.

Cousins of the groom, Donnette Marble, South Plains, and Kim Wells of Denton, served cake and punch from crystal appointments. The table, laid with a white polyester cloth trimmed with lace, held a memory candle centerpiece and the bride's bouquet.

For travel, the bride changed to a pink suit with a cranberry blouse. After a wedding trip to Carlsbad, New Mexico, the couple will be at home in South Plains where the groom is employed by Marble Brothers.

Mrs. Michael Tye Marble

Jim Word Gives Program For 1929 Study Club

Jim Word gave an inspiring account of this area 200 years ago for members of the 1929 Study Club Thursday afternoon. The program was thoroughly enjoyed by members and their special guests, Floydada Senior Citizens.

Vice-president of the club, Mrs. Ian Moore, welcomed guests and presided over the meeting in absence of the president, Mrs. Edna Phillips gave the response for the Senior Citizens.

Following the Club Collect and Pledge, Mrs. Clay Henry introduced the speaker.

Word told the group that Spaniards explored this area, the first being Coronado with his expedition. He did not find the city of gold. Word said, and evidently returned across this area as artifacts of the Spanish

people, dating back to Coronado's time, was found near Barwise, a chain made glove and a chain made shirt.

Settlements were soon made across West Texas and in 1589, Indians who had been made servants and slaves, revolted and drove out the Spaniards. Later the Spaniards recaptured the New Mexico, Nevada and Texas region.

Word said in 1610 the Spaniards took over trade with the Indians. Pinole (bread) and corn was traded for hides until 1700 when the French moved in. The Spanish people and Indians made a treaty and did much trading which lasted until 1874 when two groups of people came to the country. Pastores and Cebdorios.

Word closed his talk by saying "we have a rich

history, long and very interesting, but at one time it was said this area was not fit for human habitation. We should be celebrating more than 200 years during the Bicentennial."

Mrs. S. W. Ross substituted in the absence of Mrs. J. A. Arwine in bringing the program on the continuation of "A Woman of American Revolution."

She gave the history of the life of Captain Molly, Margaret Corbin, an Irish widow and soldier, wounded in the shoulder during battle and disabled for the remainder of her life. Captain Molly was the first woman to receive a soldier's pension.

The announcement was made of the city-wide Federation meeting of clubs at the First Methodist Church October 28th for a

salad supper. Mrs. Harold Green of Tahoka, Caprock District TFWC president, will be guest speaker for the 7 p.m. gathering.

Refreshments were served at the Thursday's meeting to Mr. and Mrs. Ian Moore and daughter, Mrs. S. W. Ross, Mrs. Clay Henry, Mrs. S. D. Hunter, Mrs. Sam Green, Mr. and Mrs. Menard Field, Mrs. C. W. Denison, Ann Sweepston, Mable Epperson, Edna Phillips, Mr. and Mrs. Luther Hill, Jim Word, Mrs. J. M. Willson, Sr., Mrs. H. O. Cline and Mrs. Emma Lou Whitaker.

Mrs. Aston Hosts Mary Martha Class

Mrs. Ray Aston was hostess to a coffee for members of the Mary Martha Sunday School Class of First Baptist Church in Lockney, when they met in her home Wednesday morning.

The opening prayer was voiced by Mrs. Ernest Fowler, followed by the devotional brought by Mrs. C. D. Atkins.

Mrs. Aston served an assortment of fruits, bread, coffee cake, hot tea and coffee to the following members: Mmes. R. C. Mitchell, John Jenkins, Howard Brown, Fowler, Les Ferguson, Atkins, R. W. Johnson, H. E. Frizzell and Willis Reynolds.

Mr. and Mrs. Darrell Dudley announce the arrival of an adopted daughter. The baby was born September 30, weighing 6 1/2 pounds. She arrived at the Dudley home Tuesday, October 2, and has been named Renee Mychele.

Grandparents include Mr. and Mrs. A. C. Carthel of Floydada and Mr. and Mrs. Melson Dudley of Lubbock. Mrs. Lucy Langford of Plainview is a great grandmother.

Mr. and Mrs. Julio Salazar of Grand Prairie are parents of a daughter, Stacy Ann, who was born at 2:42 p.m., September 25, in Arlington Memorial Hospital in Arlington. The baby weighed 6 lbs. 14 oz at birth. She has a brother, Scotty, who is nearly three years old. The mother is the former Velma Luna.

Grandparents are Mr. and Mrs. Lupe Luna of South Plains and Mr. and Mrs. Marcas Salazar of Corpus Christi.

FLOYD DATA

Mr. and Mrs. Sammy Hale and Randy spent the weekend in Oklahoma City, joined there by another son and his wife, Mr. and Mrs. Andy Hale. The group attended the Texas Tech-Oklahoma game Saturday night in Stillwater.

THE FLOYD COUNTY HESPERIAN

Published each Sunday and Thursday at 111 E. Mo. St., Floydada, Texas 79235. Second class postage paid at Floydada, Texas 79235. Wendell Tooley, editor. Subscription rates: Local \$7.50 a year, out of trade area: \$8.50

Troop 250 met at R. C. Andrews. Refreshments were served by Mrs. Polanco. Posters were made on bicycle safety and rules were read together. The Indian Rain Dance and the Chinese Rain Dance was enjoyed by the troop.

For the closing ceremony, a bridge was made and as each girl passed beneath by twos, the Girl Scout Promise was recited.

FLOYD DATA

Ben Galloway was able to return home Wednesday from the Veterans Hospital in Albuquerque, where he underwent major surgery two weeks ago. He is reported to be improving and able to be up and around some.

Mrs. V. D. Turner visited in Lubbock this week with her daughter, Mrs. Sherman Irwin and family, and son, Dorman Turner and family.

Just for Today

I will think above trivialities. I will concentrate on the more significant things in life. I will raise my level of thinking above the commonplace. For I know that this is how I show my true identity as a member of the humam race.

IT'S NOT MAGIC... IT JUST ACTS THAT WAY

Once again the Electric Company has "pulled one out of the hat". The electric heat pump is today's answer to maintaining a comfortable climate in your home and at an economical cost. The heat pump heats and cools with one unit... that means just one setting of the thermostat. No, it's not magic at all... just acts that way.

small university that

enrolls about 1000 students, she stated. "It has the best looking language laboratory I have ever seen. Since this is the center of the watchmaking industry, the technicians turned out a laboratory that functions marvelously. If every machine did not work perfectly the technician who made the part would appear immediately to fix it."
MISS APPLEWHITE lived in a large apartment with a couple, now semi-retired from watchmaking except for a few hours a day. The woman's specialty is polishing watch faces, a delicate operation. She is not sure of the man's specialty.
Miss Applewhite found food prices sky high and was delighted to have a student card that allowed her to eat at a reduced rate in a cafeteria on campus.
On a trip to the German-speaking area of Switzerland, Miss Applewhite stayed in a chalet run by German deaconesses, (similar to nuns) and marveled at the spotlessness of her accommodations. Hotels in Switzerland are said to be the training ground for employees of all the world's great hotels.
"THE FOOD was fantastic. So good," she remembers with nostalgia. "We had to observe rigid serving hours but I would not have missed a meal for anything."
"Here I also heard a sermon in German. After church we saw men with instruments going toward the gondola that takes skiers up. We, a German girl and I, hurried with our meal so we could go up to hear them sing. Well, we got fooled. As our gondola went up, they passed us coming down. We learned that the concert would be in the village so we came down on the first gondola.
"This was a group of men folk singers, who also yodeled. Their alpenhorns were from 10 to 12 feet long. We surely enjoyed this bonus concert."
"THE SWISS have the right idea. None of them expects to over work. Everything closes down by Saturday noon and does not open until Monday noon, or Tuesday morning. They like their recreation."
When asked about her purchases during the summer, Miss Applewhite laughingly told about her search for

Swiss embroidered curtains for her home at 1507 W. 7. "I kept looking for curtains that I could afford and finally found some lovely ones, which I still don't have up. But to my chagrin once again I found duplicates at Hemphill-Wells on my return, and at a comparable price. And I lugged them home!"
"I guess I'll never learn. The year I spent in study in Madrid, I bought handmade mantillas for the women in my family and came back to find duplicates at Hemphill-Wells."
MISS APPLEWHITE is not an avid collector, so she says. "I suppose you can say my money goes into film for my movie and still cameras. I like to have a record of my travels. The articles I usually buy are things I can use, not merely display." She almost forgot to say she collects records and is especially proud of one autographed and given to her by the director of the Scots Guard Band she heard in Edinburgh, Scotland.
This language teacher has many interests as one learns from talking with her. One might say she collects zoos and concerts. Her enthusiasm is apparent when she tells of the many world famous zoos she has visited.
But when the conversation turns to music, another facet shows.
"I heard the most wonderful concert at York Cathedral in England. It was in honor of the 500th anniversary of its founding. Appearing on that program were a full orchestra, four full men's choirs and four soloists, plus a great organist."
"DURING THIS summer I enjoyed little chamber orchestra

Social Security Representative In Floydada Each Wednesday

A representative of the Social Security Administration will be in Floydada at the county court house on the following dates: October 8, 15, 22, 29; November 5, 12, 19, 26; December 3, 10, 17, 31.
Hours are 9 a.m. each Wednesday through December.
Persons may also obtain service by going to the Social Security office, 1401-B West 5th Street in Plainview, or by telephoning 293-4371.
Those wishing a representative to speak on their club program may also contact that number.
Frizzell had Clyde Frizzell, Ethel Warren and his brother, all from Floydada. Mrs. Kitchens had Carol Turner from Matador; her grandson Joe Kitchens from Silverton. Mrs. Edwards had Mrs. Owens, Mrs. Odom and Alma Rape from Floydada. Simplicio Leal had visitors from Quitaque. Mrs. Grider had Mr. and Mrs. Art Ratzlaff from Floydada; Mrs. Bryant had Karen Bingham, her granddaughter from Amarillo; Mr. Garcia had visitors from Floydada. Mrs. Rogers had her son Howard and his wife B. from Flomot, Mrs. Peak from Matador and Mrs. Jamerson from Matador. Mrs. Jamerson and Mr. and Mrs. Rogers also visited with Mrs. Carwile. Mrs. Hamilton had Mr. and Mrs.

Art Ratzlaff from Floydada. Mrs. Ormond had Ruth Roberson from Olton on Tuesday. They went out for lunch. Had a great time. Mrs. Roberson is Mrs. Ormond's daughter. Mrs. Lester had Elizabeth Settle from Lubbock. Maureen Griffith from Plainview, Bettie Brock from San Jose, California, Travis Lester from California, her sister Mrs. Grissom from Vernon. Mrs. Kellison had Mr. and Mrs. Tucker and Mr. and Mrs. Macham from California. Mrs. Fortenberry had out-of-town visitors. Mrs. Harris had Lola Turner from Flomot and Mrs. Johnny Turner from White

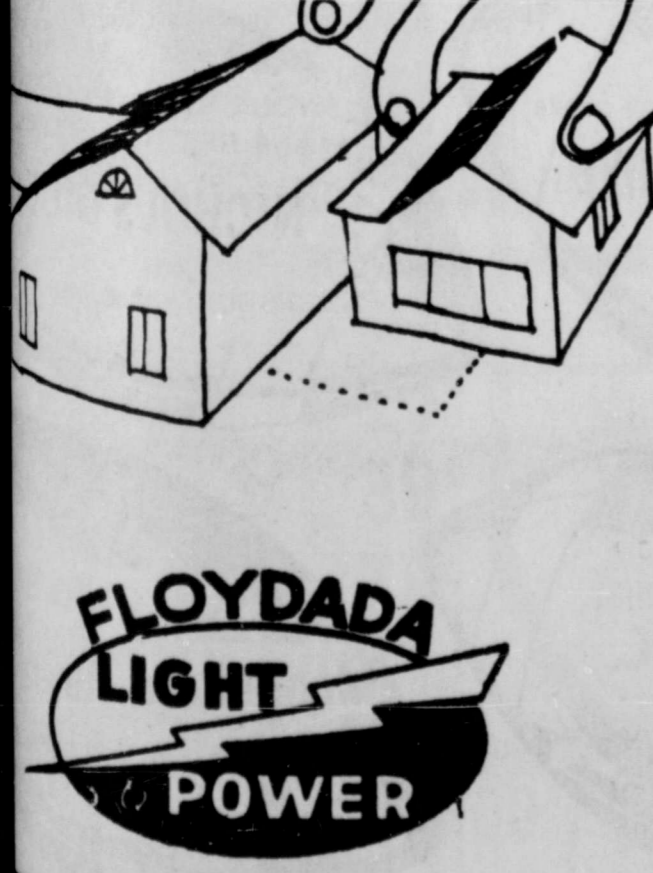

Flat. Mrs. Deitrich had Esther Brasher from Providence. Mrs. Brasher had Virgil Brasher from Providence. Mrs. Woodall had Mr. and Mrs. Happy Pile from Earth. Mrs. June Hayes and the Piles brought Mrs. Woodall some tomatoes. Mrs. Isom had Mr. and Mrs. Phillip Dunman from Plainview; also her daughter from Lubbock visited with her this week. Pablo Salquero had his daughter Evelyn Juarez from Floydada. Mr. Roberts had Mr. and Mrs. Dickerson from Silverton. Jose Zambrano had visitors from out-of-town. Jack Harris had visitors from Silverton on his birthday, which was Tuesday. Leon Marble had Mrs. Jackson from Floydada. Mr. and Mrs. William Hartley had Mr. and Mrs. Jameson from Plainview and also other out-of-town visitors. Mrs. Dyer had Floreine Cobb from Quitaque. Mrs. Plumee had Artie Webb from Floydada and Mildred Plumee from Matador. Mr. Burke had Jonelle Fawver and Mildred Cates from Floydada. Also Benny Taft from Floydada.
May God Bless!

Consumers Re discovering Cotton

COLLEGE STATION - Texas consumers may see an improved textile situation for cotton during 1975-76, Marlene Odle, a clothing specialist, reports.

While Texas produces about one-third of the nation's cotton, it only processes about one-fifth of the national total. Now a relatively new development—open-end spinning—makes Texas cotton more useful for clothing.

"This system can use short-staple, low micronaire cotton to spin high-quality yarns and do it three to five times faster than the conventional ring spinning method."

"The spinner works more efficiently and saves seven to eight cents a pound on raw material costs. New open-end spinning mills in West Texas will increase the

percentage of cotton processed in Texas," she said.

Miss Odle is with the Texas Agricultural Extension Service, the Texas A&M University System.

"Highlights of the 1975-76 world cotton outlook are prospects for near-record beginning stocks, smaller production, and larger consumption. Market analysts expect U. S. cotton exports to increase because of improved foreign relations and anticipated foreign purchasing."

However, with current low cotton prices and increased competition from food crops, the global output of cotton may drop moderately below 1974-75.

"Consumers apparently have 'rediscovered' cotton—it's making market gains at the expense of manmade fabrics. For instance, 100

per cent cotton flame-retardant uniforms recently replaced polyester-cotton blends in the New York City Fire Department.

"In addition, cotton recently was selected as the best fabric for industrial canvas used in connection with the building of the Alaska Pipeline.

"And the largest U. S. slack manufacturer has introduced a 100 per cent cotton fabric into its line of products for the first time since the advent of man-made fibers."

New fabric finishes promises to make cotton more versatile, the specialist reported.

"Researchers at the Southern Regional Research Laboratory are testing a new germicidal finish for cottons. It will kill and inhibit the growth of unwanted bacteria, with potential uses for bandages, hospital gowns, sheets and pillowcases," she said.

"No smell underwear with its own built-in deodorant is now available in men's socks, T-shirts, athletic shirts and briefs.

"A new dyeing technique for cotton that adds new dimensions to denim and twill allows one side of the fabric to be dyed one color and the other side another color.

"Cottons blended in different amounts with other fibers are constantly researched to produce fabrics that combine performance characteristics with comfort and easy care. One of the most recent blends is 60 per cent cotton with 40 per cent polyester. Other blends are with spandex, wool, mohair and rayon," she said.

Election Set For Zone 2 Directors

The Floyd County Soil and Water Conservation District directors election for zone 2 will be held October 7 at 8:30 p.m. at the Lockney Coop Elevator located at South Plains, Texas.

All landowners who own land in zone 2, live in the county, and are 21 years of age are qualified to vote in the election. Husband and wife may both vote. The election is an open type convention, nominations for director will be made from the floor, voting will be by secret ballot. The directors nominated must also live in the county and own land in zone 2.

The boundaries of the zone are as follows: north boundary, Briscoe-Floyd county boundary line, east boundary, Floyd-Motley county boundary line, west boundary, Floydada-Silverton highway, and south boundary is county road

A bale of cotton that brings less than \$175 to the producer increases in value to \$1,800 when made into dresses, Marlene Odle, a clothing specialist with the Texas Agricultural Extension Service, The Texas A&M University System, reports.

located three miles south of South Plains, Texas extending east to the Floyd-Motley county line boundary.

Cecil Purecell is the current director for zone 2, the director elected will serve on the board for five years assisting four other directors in carrying out a local soil, water and plant conservation program for Floyd County. Other directors currently serving the District are: Gilbert L. Fawver, Herman R. King, R. G. Dunlap, and Gerald Lackey.

The directors of the SWCD board encourages all landowners who are qualified to vote, to please make plans October 7th at 8:30 p.m. to come and vote at the Lockney Coop Elevator located at South Plains, Texas.

Range And Wildlife Facility

To Be Dedicated At Tech

LUBBOCK—Texas Tech University's new Range and Wildlife Management Building, the Goddard Building, will be dedicated in ceremonies at 3 p.m. Friday (October 10).

W. R. Goddard of Dallas, chairman of the board of the C. B. Goddard Investment Company and chairman of the Charles B. Goddard

Foundation, will make the official presentation of the building to Texas Tech. Clint Formby of Hereford, chairman of the Board of Regents of Texas Tech, will respond to the remarks by Goddard.

Dedication ceremonies will be conducted at the east entrance of the structure. The new \$865,000 building is situated in the Agricultural Sciences area of the campus. The facility was made possible by contributions from the Goddard Foundation and from the Noble Foundation of Ardmore, Oklahoma. The three-level structure contains 21,000 square feet, 13,800 of which has been completed, occupied and put to use.

Participants in the ribbon-cutting ceremonies, in addition to Goddard and Formby, include Texas Tech President Grover E. Murray, Agricultural Sciences Dean Anson R. Bertrand, Dr. Donald Burzlaff, chairman of the Department of Range and Wildlife Management; Norman Igo, director of New Construction; and Reverend Robert D. Nicholson, pastor of the First Presbyterian Church.

A reception and tour of the facility will conclude the program. "The Goddard Building," Burzlaff said, "is most functional with outstanding teaching facilities, research laboratories and staff offices.

"We are proud of the facility which will complement the outstanding quality of our faculty and staff."

The Floyd Philosopher Wants Right To Depreciate Himself On Income Return Like Quarterbacks

Editor's note: The Floyd Philosopher on his Johnson grass farm thinks he has discovered a possible tax loop hole.

Dear editor:

These days, if you want to keep up with labor-management news you naturally have to read the sports pages and that's what I was doing the other night when I ran across an item that made me sit up straight.

According to it, owners of professional football teams can depreciate the costs of quarterbacks. That's right. Say they pay \$500,000 for a quarterback. They then estimate he'll last for, at the most, depending on how much bigger and faster the blitzing linebackers get, about five or six years, give or take a few knee operations and broken ribs. So, they depreciate the cost on their income tax return.

While some people may be outraged at this, I think it's a splendid idea and if I can think of his name I'm going to write our Congressman and ask him to introduce a bill letting everybody in on this.

For example, say you're 50 years old and it has cost you a minimum of \$2,000 a year in food, clothing and shelter to reach that age. (You can't figure in what it has cost you to see \$500,000 quarterback plays, your subscription to Playboy and things like that.)

All right, that's \$100,000 you've got invested in yourself, subject to annual depreciation on your income tax.

Now comes the ticklish part. Do you elect a quick write-off, say 10 years, or do you string it out over 15 or 20 or even more?

Suppose you feel good and drive carefully and decide to depreciate yourself over 20 years. That means you can write off \$5,000 a year on your income tax. Sure beats that \$100 Congress allowed us last year. Make a joint return, depreciate your wife, and wind up with the government owing you.

Changing the subject, considering how the CIA has been opening mail willy-nilly, how the FBI and the Secret Service have ignored clear-cut warnings about individuals who feel like shooting a President, how Washington can't for the life of itself figure out an energy policy, how our foreign policy makers seem to believe selling arms to all sides is the way to secure peace, how the Russians continue to out-smart us when it comes to buying grain, how the big cities are going broke, considering all these and a few more you are probably thinking of, do you sometimes get the feeling that this country is being run mainly by incompetents?

Yours faithfully,
J.A.

Burzlaff said the Texas Tech department is unique in that it is the only one in the nation which combines range and wildlife management disciplines.

"It is an important marriage of disciplines," Burzlaff said. "And we now can match the quality of our department's facilities, staff and faculty with those of any major university."

The department has 10 staff members, three secretaries, two technicians, and three research associates. There are 230 undergraduate majors and 27 graduate students in the department.

Dr. Burzlaff joined the department as chairman in 1973. He earned his Bachelor of Science degree in agriculture from the University of Wyoming in 1950; his

master's in botany in 1952 from the same university; and his Ph.D. in range management in 1960 from Utah State University.

He came to Texas Tech from the University of Nebraska, where he was professor and vice-chairman of the Department of Agronomy.

Goddard has interests in oil, ranching and investments. He operates ranch properties both in the United States and Australia. A son, Bill Goddard, was graduated from Texas Tech in May of this year with a degree in range and wildlife management.

The Goddard Foundation has placed emphasis on community programs, support for youth agencies, secondary and elementary education, a school libraries project, and a medical research institute.

Costly Ban

WASHINGTON—Ill-conceived actions by the Environmental Protection Agency (EPA) with regard to chemical insecticides could cost farmers and consumers dearly if they are not soon reversed.

The EPA has begun proceedings to ban the use of the chemical insecticides chlordane and heptachlor. The manner in which EPA is proceeding raises serious questions about the validity of its case and the agency's regard for due process of law.

Chlordane and heptachlor are widely used to prevent insect damage to corn, wheat, flax, peanuts and a host of other crops in the United States. Chlordane is the active ingredient in such commonly used insecticides as Black Flag Ant and Roach Killer and Ortho Ant Killer.

Chlordane is at present the only cost-effective remedy for treatment of various corn pests, seed treatment of wheat, and prevention of termites. More than five million acres of cropland are treated with chlordane. Without the insecticide, losses of the American corn crop could reach 24 million bushels. The loss to the American wheat crop could be as high as seven per cent of the total—more than the amount sold to the Soviet Union this year.

Alternative means of controlling insect pests are astronomically expensive. They range from \$5.80 to \$12 per acre, as opposed to costs of 11-43 cents per acre for chlordane or heptachlor.

Obviously, farmers and consumers will pay an extremely heavy price in additional costs and reduced crop yields if chlordane and heptachlor are banned.

The price would not be too heavy if there were hard scientific evidence to support EPA's claim that the two chemical compounds do in fact cause cancer in humans. But no convincing evidence has yet been forthcoming, and EPA's actions indicate that the bureaucrats there are aware of how flimsy their case is.

EPA began its campaign against chlordane and heptachlor in late 1974, when it announced its intention to cancel the registration of the two compounds. Hearings were begun to determine if there were sufficient cause to warrant banning chlordane and heptachlor, but the hearings were abruptly and precipitously cancelled by EPA on July 30.

EPA announced its intention to suspend the two insecticides, despite the fact that it had not proved their use is harmful. No reason was given for this hasty action, but there are reports that EPA scientists—who would have been called to testify had the hearings continued—have mixed opinions about the potential harmfulness of the two insecticides.

One fact is clear—chlordane and heptachlor have been widely used for 25 years without a single incident which would justify banning their use before the evidence is fully assessed.

I have written EPA Administrator Russell Train urging him to permit an independent scientific inquiry to determine what the facts are with regard to the two insecticides. If Mr. Train does not respond favorably, I intend to propose appropriate legislation.

Shell color of eggs is determined by the breed of hen, and it doesn't affect nutritive value, quality or cooking performance of the egg. Mrs. Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System, explains.

THERE'S MORE TO LIFE THAN A PRETTY BALLOON!

A bouncy red or yellow balloon is the symbol the world over of good fun and happy feelings. There's rarely a festival, a fiesta, or a fair held anywhere without the familiar balloon vendor strolling through the crowd, selling happiness for a few pennies. Parents buy them for their kids and young men present them with a flourish to their girl friends. Just why a balloon is so much fun isn't clear, but one thing is certain—the pleasure never lasts. The air leaks out, balloons unexpectedly pop, careless fingers send them soaring away forever. But there is a far greater pleasure to be found that will last for an eternity. It is the happy pursuit of a Christian life and you can find out all about it this Sunday — in church.

THE WHIRLWIND BAND goes into circular formation at halftime. (Photo by Keith).

JV Defeat Littlefield 12-0

By Doug Simpson

Steve Westbrook tossed a 26 yard touchdown pass with 3:46 remaining in the first half, and later plunged one yard for another score, leading the Floydada Junior Varsity squad to a 12-0 victory over the Littlefield Wildcats, Thursday, October 2, at Wester Field. The win boosted the Whirlwinds' season record to one win, one loss, and one tie.

The first quarter was a real defensive struggle, as neither team was able to score, or create a great deal of offensive movement.

However, Steve Westbrook's 26 yard touchdown pass to Andy Rainwater put the Whirlwinds on the scoreboard with 3:46 left in the second period. Calvin Reese's conversion attempt failed, and the Winds went into the locker room at halftime, leading 6-0.

The third quarter was scoreless, and Floydada's deepest penetration was halted with 1:59 left. The drive which looked like a sure touchdown ended on the Littlefield 2 yard line, and the Wildcats took over, first and ten.

In the final stanza, Todd Vickers

intercepted a Wildcat pass and returned it 45 yards, setting up Westbrook's one yard plunge, to insure the victory. Reese's point after attempt was blocked. This action occurred with 1:48 left to play.

JV coach Joe Paty had these comments: "We played very well defensively, and it was our defense that kept us in the game."

The Winds dominated the statistics, as well as the score.

Offensive linemen Jim Potts, Rudy Garibay, Kerry Pratt, Jon Jones and Carmen Soliz did a fine job of blocking all night.

Kenneth Griggs made 15 unassisted tackles and 2 assisted tackles, and Monty Covington, Charles Bradford, Sheldon Sue, and Jack Carthel each made over 10 tackles in the game.

Steve Westbrook rushed for 48 yards on 9 carries, and scored one touchdown, and Jessie Morales and Calvin Reese also did a fine job rushing.

Next Thursday, the JV will play the Lockney Longhorns' JV squad, in search of their second win of the season.

Quitaque Country Pretty

There are very few areas in Texas that can match the enchantment of our Caprock country during the golden days of Indian Summer. The hills take on a certain golden hue as the colors begin to change, and the Valley has a special charm ALL ITS OWN. Even the weatherman likes to add his endorsement, for the days are usually warm and balmy, with the nights crisp and cool. This fall the Valley is looking its best, for the September rains provided a carpet of green, and they were just what was needed to carry crops through to maturity. Most of the Valley cotton was not damaged by

the sudden cold spell that swept across the Plains, and if we can avoid an early freeze, we stand an excellent chance to harvest a good crop.

STATE PARK NEWS

New Name for Park - An official name has just been given the new State Park north of Quitaque. At the meeting of the Texas State Park Board in Austin last month the Park was officially named "Caprock Canyons State Park." The new name met with approval with people from this area, for the name is not

only descriptive of the colorful canyons that border the Park, but it should also help to identify and locate our particular region of the state.

Repairs at Lake Theo - Have you seen the extensive repairs that have just been completed at Lake Theo? Billy Lyles did a superb job on the repair work of the dam, and in a few months the front and backspice will be mulched and seeded. This is only the first of many other works of improvement that will be made at the new park site.

THE WHAT CYCLE?

Did you know that there is exactly the same amount of water on our planet today as there was when Cleopatra floated her barge down the Nile, and even eons before? And that it's the SAME water? And that the same amount will be present in all the years to come?

All true. What happens to water is known as the hydrologic cycle, which simply means that the same water is used again and again.

Water evaporated by the sun into the atmosphere becomes clouds which return the moisture to the earth in the form of rain or snow or sleet, only to evaporate again to continue its cycle.

All of which makes a tiny drop of water a mighty interesting thing.

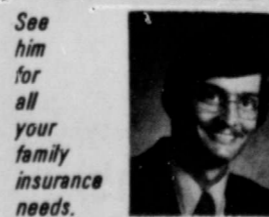

But it is no more scarce today than it has been at any time in the history of our planet. What makes it seem scarce is that so many more people are using it because populations continue to grow, and we continue to find so many new uses for it.

Consider the days 100 years ago or so when a family of

10 used a washtub to take one bath a week, compared with a family of five today, each taking a bath every day—35 baths a week. And that doesn't take into consideration the automatic washers, dish-washers, disposals, and other 20th century conveniences.

So, even though there is no less water than there ever was, there is less water per person, and we need to use it wisely, care for it, keep it clean, so that it will sustain many generations to come.
