BRIDGE CLUB.

Mrs. Joe Kerr was hostess to the Wednesday Bridge Club and as such she proved herself very delightful. Baskets of shasta daisies, vases of zinnias, roses, dahlias, and snapdragon loaned their bit of happy color and made the room lovely.

Several games were played and Mrs. Max Bogusch had high score and Mrs. R. E. Corder second high. As guests there were Mrs. John Trent, Mrs. W. T. Carpenter, and Miss Ruby Cochran. Mrs. John Trent was awarded the guest prize.

A color scheme of pink and green was carried out very effectively in the dining room. Two tables were laid for the 13 members. Baskets of salvia, tied with the pink and green marine, formed the centerpiece.

As plate favors there were cunning dolls dressed in green and pink, carrying corsage bouquets. The dolls held the place cards. The refreshments were equally attractive in pink and green ice cream and cake.

Just phone us, we call for and deliver all work. No extra charge. The Royal Tailor Shop, Mrs. Whistler, prop.

Commissioners Court

Commissioners Court met in regular session last Monday morning with the full court present with the exception of Commissioner Earl Stirman who could not attend. Quarterly reports of county and precinct officers were read and approved, and all bills ordered paid.

John Stovall was appointed county engineer and will begin work about September 4th on the surveys for the Robert E. Lee Highway through Terrell county. Two new bids were received on the road bonds, but the court deemed it wise to reject both bids.

The tax rolls were approved and signed.

BASE BALL NEWS.

The Sanderson ball team was scheduled to go to Ozona this week for a series of three games with the Ozona team, but owing to the fact that one of the pitchers on the Sanderson team could not go at this time, the trip has been postponed until next week.

JUSTICE COURT.

Justice Court will convene in regular session Monday morning at 10 o'clock.

W. T. Carpenter was up from the ranch the first of the week, on business.

I. H. Elder was in from the ranch Friday, on business.

Picnic at Myers Spring

A merry crowd left Sanderson early last Sunday morning for Myers Springs to enjoy a day's outing at that beautiful spot. It took four automobiles to carry the picnic party and the well-filled baskets of "good things to eat" that were taken along. The outing was given in honor of Miss Johnnie Lemons, and it was enjoyed by every one. Those present were Mrs. Ray Caldwell; Misses Johnnie Lemons, Elouise Lemons, Johnnie McKinney, Bathilde Eldridge, Ruby Mansfield, Jessie Green, Alice Harrell, Ruby Cochran, and Messrs. Joe Farley, Jesse Mansfield, Carl Cochran, Alvin Harrell, Dan Farley, Carlton White, Ross Martin, Lee Roy Grigsby.

CALOMEL GOOD BUT TREACHEROUS

Next Dose May Salivate, Shock Liver or Attack Your Bones.

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crumbles into sour bile like dynamite, causing and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your drugstore and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.—Advertisement.

Texas News

A rate of 27 cents per hundred on cotton from Houston to New York via Galveston for export, was announced Saturday by the Morgan line.

John Dodson of Sulphur Springs was elected president and John Hood of Dallas vice president at the closing session of the Texas Rural Letter Carriers' Association at Fort Worth.

A special election to determine if the school tax shall be increased, will be held in the Minneola Independent school district August 19.

The tax rate for Taylor for the year has been reduced from \$2 to \$1.75.

The state board of education has fixed the apportionment for the public schools of the state for 1923-24 at \$10 per capita, which is \$3 less than the preceding year.

An issue of \$150,000 Houston County levee improvement district bonds of district No. 1, bearing 6 per cent and maturing serially, has been approved by the attorney general's department.

Land Commissioner J. T. Robinson has announced that oil and gas rights in 8.75 acres of submerged land in the Goose Creek field, San Jacinto Bay, Harris County, will be on the market August 31.

Steady progress is being made upon the extensive improvement work at the Cuero Light and Power Company plant, which is to provide power and light for the cities of Cuero, Victoria and Yorktown.

A meeting of the Turkey Trot Poultry Association held at Cuero went on record as favoring a bonus for destroying wolves, which do a large amount of damage in De Witt County both to flocks of turkeys and sheep.

The Rio Grande Valley Fair, which will be held at Harlingen this fall, promises to be of exceptional interest. Live stock exhibits will be in greater number than last year, which was the first year of the Valley fair.

Kendall County submitted the first tax roll of the year, it having been received at the controller's department only a few days after the state tax rates were fixed. The total value is \$4,191,230, an increase of \$1,217,900 over last year.

A branch of the Texas Farm Bureau Ribbon Case Growers' Association, with sixty-six members, has been organized at Livingston. F. L. Futch was elected president and E. V. Wilson secretary. Thirty-nine thousand gallons was signed up.

The attorney general's department has approved the following bond issues: Edwards County special road bonds, \$300,000, maturing serially, 5 1/2 per cent; Hill County road district No. 5, \$50,000, maturing in forty years with fifteen-year option, 5 per cent.

Giddings acquired land for the tourists' free camping grounds in the eastern part of town some time ago and is now fixing it up for use. Water pipes will be laid at once, also wires from the light plant. This tourists' park is on the Austin and Houston highway.

Crops in the bottoms and lowlands of Walker County are fine and an average of 85 per cent normal crop will be made, but on the upland and sandy farms the corn and cotton are both cut short by the drought. Light rains have fallen over many parts of the county, but not sufficient to wet the ground below the surface.

Permanent roads for Harris County, an estimated cost of which calls for a bond issue of \$4,000,000, will be voted on at the November general election if plans announced this week by the commissioners court carry. A bond issue of this size would require a 23c tax rate the first year, to be reduced to 18c each year on 30-year serial bonds.

A petition has been presented to the commissioners court by the voters of Road District No. 7 in Caldwell County asking that an election be called in that district to determine whether or not bonds shall be issued in the sum of \$20,000 for building good roads.

Rio Grande Valley tomato shipments filled less than 100 cars this season instead of the expected 700 or 800 cars, according to the United States department of agriculture. Early frozes and unfavorable weather conditions during the growing period are blamed for the shortage. Heavy rains and floods during the harvest time also cut the crop short.

The committee that has been at work signing up ribbon cane acreage for a syrup standardization plant at Lufkin, has completed its labors, growers having subscribed the output of 305 acres, which will yield approximately 106,750 gallons of syrup. It is believed this bona fide pledge will be sufficient to secure the establishment of the plant in Lufkin, as no other county in the East Texas cane belt has approached Angelina county in signed up acreage.

RIBBON CANE GROWERS FORM BIG ORGANIZATION

Lufkin, Tex.—East Texas ribbon cane growers from sixteen counties met Thursday. The state was divided into fourteen districts and an election was ordered to be held in each district Saturday, August 19, to elect directors, who will meet in Dallas, August 23, to choose state officers for the ensuing year, and who also will locate a standardization plant somewhere in East Texas.

MEXICAN SUPREME COURT DECISIONS

Do Not Protect Rights of American Land Owners, It Is Said.

Washington.—Formal announcement that recent oil land decisions of the Mexican supreme court do not, in the opinion of officials at Washington, effectively protect the rights of American land owners, was made Saturday in a statement issued by the state department.

The five court opinions upon which some Mexican officials have based a hope of recognition of the Obregon regime were said in the statement to apparently establish a precedent protecting improved land from confiscation, without furnishing the same guarantee for land in which mining operations had not been actually begun.

It was pointed out that in each of the five cases decided, the privileges granted to the owners of the lands had been "translated into positive acts," which, it was said, the court apparently interpreted as a protection against retroactive application of the confiscatory article 27 of the Mexican constitution. The decision did not, however, pass upon the retroactivity of the article as applied to undeveloped tracts.

The state department, in making public the opinion, also pointed out that the Mexican congress had failed thus far to register its interpretation of the objectionable article by the passage of an appropriate statute to carry it into effect.

Department officials said they had prepared the statement only in order to reply to many inquiries they had received on the subject. It was indicated that no formal communication to the Mexican government, advising it of the decision reached here, was necessary. The statement follows:

"The department has received the text of four decisions of the Mexican supreme court rendered in May last in 'amparo' proceedings instituted by petroleum companies. "These four decisions seem to be identical in all essential particulars and, together with the similar decision of that court rendered August 30, 1921, in the 'amparo' case brought by the Texas company, appear to constitute what is called a precedent in Mexican jurisprudence. "These opinions set forth that article 14 of the Mexican constitution, providing that 'no law shall be given retroactive effect to the prejudice of any person whatsoever,' does not relate to the provisions of the constitution itself, and that when the constitution embodies retroactive provisions these must be applied retroactively."

San Augustine's First Sale. San Augustine, Tex.—The first bale of cotton of this season was sold in San Augustine Tuesday at auction and brought 2 1/4 cents per pound. The bale weighed 400 pounds and was grown by Charlie Gilbert, was classed a strict low middling and bought by P. L. Mabrey. A cash premium of \$42.50 was paid by the business men of the town.

Bonds Approved. Austin, Tex.—The attorney general's department approved the following bond issues on Monday: Edwards County special road bonds, \$300,000, maturing serially and bearing 5 1/2 per cent; Hill County road district No. 5 bonds, \$50,000, maturing in 40 years, payable in 15 and bearing 5 per cent.

Road Bond Election. Lockhart, Tex.—An election has been ordered by the county commissioners court to be held in road district No. 7 to vote on the question of issuing bonds to the extent of \$20,000 for the purpose of building and maintaining graveled or macadamized roads in said district.

Texas Guardsmen Break Camp. Austin, Tex.—Three thousand national guardsmen, who had for the past fifteen days been in attendance upon the annual encampment of the infantry branch of the service at Camp Mabry, entrained Friday for their respective home stations, the encampment having ended.

Texas Fourth in Postoffices. Washington.—Texas has 2,288 postoffices, and is the fourth largest state in the union in this respect, according to compilation made by the postoffice department. The largest number of postoffices, 2,987, is found in Pennsylvania and the second state is Kentucky with 2,556. New York is third.

Given Authority to Junk Line. Austin, Tex.—Federal Judge Duval West granted authority to the Eastern Texas Railroad company to abandon and junk its line.

Board Appointments Deferred. Washington.—President Harding may defer making appointments to the federal reserve board for several weeks, according to information received by senate republican leaders.

American Pilot Wins. Clermont Ferrand, France.—Edwin C. Allen, American pilot for the Aero-nautical Engineering Society, broke all records of the international gliding contest Tuesday when he flew 1000 metres in a motorless airplane.

Home, Sweet Home

By ANNE WHITFIELD

Copyright, 1922, Western Newspaper Union

The Goodges had been to Pleasant Point, to spend the holidays with Mr. Goodge's old father. They all climbed into the crowded street car out of the wet street. Mrs. Goodge first, picking up her skirt, Marjorie in her best navy silk poplin coat trimmed with the silver braid, and Peter with his great parcel.

Mrs. Goodge, who had a strap, looked round to see if her children had seats, a smile lining her long, reddish face as she observed their success, so that she looked like a llama. Peter, who was thirteen, grasped his parcel, breathing hard, his eyes very bright. Marjorie swung her feet under the silver-braided coat and hoped the other passengers were noticing it.

Mr. Goodge caromed against his wife as the car started with a jerk, and swore.

"I should think you might restrain your bad temper in the presence of the children!" snapped Mrs. Goodge. "This is the last time I take you out," Mr. Goodge retorted, as he tendered a nickel for himself and then had to change a dollar bill for the others.

Marjorie got out of her seat and leaned against her mother. "Dad's mad," she whispered.

"Mad?" snorted Mrs. Goodge. "He's always mad. I lament the day that man ever came into my life."

A violent jerk sent Marjorie staggering against a middle-aged lady seated near the door. She began to whimper. Peter grinned across the parcel that he was holding. The car pulled up. Peter was out first, and waiting at the door of the paternal shop when Mr. Goodge arrived, followed by Mrs. Goodge with her head in the air, and Marjorie, still peevish, and snuffing her feet. Mr. Goodge pushed past them, opened the door, and stamped through his shop, followed by the rest of the family.

Tiers of oranges and barrels of Long Island potatoes were just visible in the darkness as the four Goodges felt their way into the sitting-room at the back. Mrs. Goodge sniffed to ascertain whether there had been an escape of gas. Mr. Goodge lit the gas, threw himself into the rocking chair and began angrily tearing his boots off.

"A nice finish to the day!" Mrs. Goodge said. "Swearing at your wife in a car!"

Disdaining to reply, Mr. Goodge stumped up to bed, carrying his boots in his hand. He was soon between the sheets, and Marjorie and Peter were whisked into their two cold little beds across the hall. Mrs. Goodge followed her husband's example, jumping into bed with a bounce that made the brasswork rattle.

Marjorie, in her little iron bed, with her little nose poking out of the bedclothes, ran over the day's delights as she fell asleep.

"What a time, going up to Grandpa's on that big boat, with its flat deck and velvet-lined cabin, on top of which we sat! I hope Dad takes us again soon!"

On the other side of the wall Peter dreamed of the noises of the boat's engine, and fancied himself a hand on its intriguing wheel, guiding it up the river, or else polishing up its brasswork and saluting the very nautical-looking captain.

Darkness covered Mr. and Mrs. Goodge. "Never thought the Dad would have given us all that linen and cutlery," remarked the little green-grocer. His wife's heart melted at once as she shared his joy in the possession of fish knives better than any of her sisters-in-law possessed, and, sweetest of all, ones that they had long coveted. She felt an immense elation, and a wonderful pride in Mr. Goodge, Peter, and Marjorie. She thought for a few moments of the shop beneath, and blessed the profits that it afforded them.

"We're in luck," she said. "I certainly never thought that your father would behave so handsome. My, won't Nan and Kate go mad when they know he's given us those knives! And Percy's wife always wanted that linen. Now we won't have to buy anything for the house for ages. And Peter and Marjorie were so good all the time, weren't they?"

"Pretty good," responded Mr. Goodge carelessly.

"I must say," said Mrs. Goodge, "that I've enjoyed every minute of the day. It's always so nice going out with you. Good-night, Harry."

"Yes, we had a good time. Must go again soon. Good-night, Em," her husband replied, and buried himself more cozily in the bed.

The Goodge family slept.

CROPS THIS SEASON ARE REPORTED GOOD

Enormous Increase in Corn This Season Following Good Weather in July.

Washington.—Bumper crops in general this year, resulting from highly favorable growing conditions during July, were indicated by the government's August crop report, just issued.

A 3,000,000,000-bushel corn crop for the fourth time in the history of farming in the United States, was forecast. A record crop of hay, estimated at 93,100,000 tons, is being harvested, surpassing the record made in 1919 by 1,300,000 tons.

The second largest crop of white potatoes ever grown was reported in prospect, the total production being forecast at 440,000,000 bushels, or 2,000,000 bushels less than the record crop of 1917.

Sweet potato production this year will probably make another record, according to the August forecast, which equals the record crop of 1920.

The fourth largest crop of tobacco ever grown is forecast, with a total production of 1,425,000,000 pounds.

Another 200,000,000-bushel crop of apples, the eleventh in thirty three years, is indicated, with this year's production more than double that of last year.

Peaches are a plentiful crop, with a total production this year second only to the record year of 1915.

July weather influence on the growing crops was said to have been extremely beneficial, as indicated by the increase in forecast of production this month as compared with those of a month ago.

Spring wheat showed an increase in its production forecasts, amounting to 15,000,000 bushels; corn, 157,000,000 bushels; oats, 64,000,000 bushels; barley, 10,000 bushels; white potatoes, 11,000,000 bushels; tobacco, 10,000,000 pounds; apples, 12,000,000 bushels, and peaches, 1,700,000 bushels.

The great corn crop made vast improvement during July in the leading producing states, the improvement in Kansas having been 30,000,000 bushels over the July forecast; Missouri, 25,000,000 bushels; Illinois, 26,000,000, and Nebraska, 17,000,000.

Thirty-Two Million Road Fund for Texas by 1925

Fort Worth, Tex.—Approximately \$2,000,000 in nine years is the amount the federal government will have appropriated to Texas for good roads when 1925 is reached, according to figures compiled by the United States Bureau of Roads in this district.

The appropriation began in 1916, when Texas was allotted \$295,000. The following year the amount was raised to \$590,000, and since that time it has not fallen below \$4,000,000 in any year. The amount appropriated since 1916 up to date has been slightly in excess of \$22,000,000, and for the next three years the following amounts have been allotted: 1923, \$2,950,000; 1924, \$3,850,000; 1925, \$4,425,000.

For the money thus spent, together with that furnished by counties, the state has received 1120 miles of completed roads and at this time 12,600 additional miles are under construction or are projected.

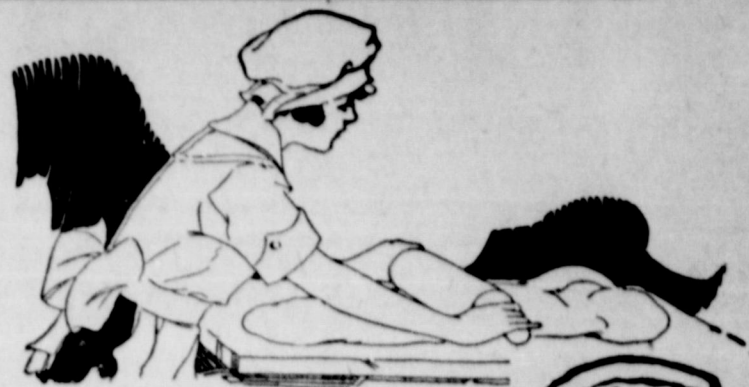

Texas, both in projected mileage and federal appropriation, is ahead of any other state in the Union.

Figuratively speaking, the amount spent by the government gives every man, woman and child in Texas an \$8 equity in the public roads.

MAY ACCIDENTS CLAIM TOLL OF 151 PERSONS IN TEXAS

Austin, Tex.—Accidents caused the death of 151 persons in Texas during the month of May, according to statistics compiled by the vital statistics bureau of the state health department. Fifty-four homicides and 22 suicides were reported.

Births reported totaled 4,627 and deaths 3,044. Seventy sets of twins were born during the month. Of the births reported 4,379 were white and 248 negroes, and of the deaths 2,626 were white and 518 negroes. Illegitimate births numbered 104.

A Presbyterian Next Time. Little Mary Lou, aged six, had always been an ardent Methodist, but was one day persuaded by a small playmate to visit a Presbyterian Sunday school. She was enthralled by the new surroundings and was especially infatuated with the charming young teacher who so cordially invited her to come again. "I'd like to," said Mary Lou wistfully, "if I didn't have to go to my own Sunday school. But do you know, if I had my life to live over again, I just believe I'd be a Presbyterian."—Kansas City Star.

Don't Kill Bullsnakes. Kansas farmers find that a bullsnake in an alfalfa field is worth at least \$2.50 a month, says the Scientific American, for an acre harbor, on an average, six gophers, which damage the crop to that extent. One adult bullsnake keeps an acre free of the pests. The bullsnake is harmless, feeds also on rats and mice around barn or granary, and deserves the protection of the farmer.

ALWAYS TIRED NO AMBITION

Nervous and Dizzy, Everything Seemed to Worry Me. How I Got Well

Larwill, Indiana.—"My back was so bad I could not do my washing. I was always tired out and had no ambition, was nervous and dizzy and everything seemed to worry me and I had awful pains in my right side. I felt badly about four years and could not do my work as it should have been done. I saw Lydia E. Pinkham's Vegetable Compound advertised so much and it did so many people good that I began to take it myself. I am feeling fine now and every one tells me they never saw me looking so well. I live on a farm, do all my work, and have three little girls to take care of. I am recommending this medicine to my friends and know it will help them if they use it like I do."—Mrs. HENRY LONG, R. R. 3, Box 7, Larwill, Indiana.

Many women keep about their work when it is a great effort. They are always tired out and have no ambition. When you are in this condition give it prompt attention.

Take Lydia E. Pinkham's Vegetable Compound, for it is especially adapted to correct such troubles, as it did for Mrs. Long.

Calling upon a friend, the visitor found another visitor there in the person of the small granddaughter, Mary. Seated in her tiny rocker, playing with her doll, the little girl was apparently utterly oblivious of their conversation until it touched upon the death of a mutual acquaintance and the details of her burial, when suddenly the small voice piped up with, "Gran'mover, when you die I ain't goin' to bury you nor nothin'. I'm goin' to have you stuffed."

APPORTIONMENT FOR SCHOOLS DECREASES

Allowance for Each Child Is Reduction of \$3 From Last Year.

Austin, Tex.—For the ensuing scholastic year the public schools of Texas will receive \$10 for each child from the state available school fund, this apportionment having been made Friday by the state board of education on a basis of 1,292,658 scholars, a decrease under last year of 5,333 in the scholastic age, and a reduction in the allowance of \$3 per child. The present apportionment of \$13 for each child is yet unpaid.

An estimate of the income of the state school fund for the coming year is as follows: One-fourth of occupation taxes, \$47,721; two-thirds of poll taxes, \$600,000; supplemental tax \$58,833; delinquent taxes, \$569,156; insolvent, \$52,023; penalty, \$14,332; depositary interest, \$34,962; income from permanent textbook tax, \$2,668,937; total from 20c school tax, \$5,659,616. Total available fund (estimate) \$12,746,459.

Figures compiled by the state board of education in controlling its apportionment took into consideration the state tax rate of 35c on the \$100 of valuation on the estimated taxable value of \$3,349,760,000, which was a decrease under last year of \$105,249,000. The proceeds of the 15c for textbooks would yield \$4,019,712, and it is estimated that only \$1,340,755 will be needed, leaving \$2,678,957 to be used in the apportionment. To that is added the remaining 20c of the state school tax, or a total of \$5,659,616, making the grand total for school support \$8,028,573.

The cost of textbooks per child actually enrolled in the schools was \$3.62 in 1919-20; \$1.19 in 1920-21, and \$1.25 for 1921-22. The increase in the cost of the third or last year was due to a change in language books and grammars, the estimated cost of the new adoption being \$450,000.

Since county depositories for textbooks were adopted the textbook division of the department of education has made reductions of \$6,322 in positions abolished and extra help not used. A third position is to be abolished September 1. The actual disbursements for three years for textbooks is \$6,978,344; the total set aside, \$7,270,179, and balance on July 1 is \$291,836.

No census rolls have been received from Cameron, Garza and Sherman counties and the city of Houston, estimates being made for these. The Sherman County court house burned, the school records being destroyed.

The total apportionment this year is \$12,926,580, against \$15,873,883 last year or \$3,947,303 less this year.

MORE THAN ONE MILLION CHILDREN WORK FOR WAGES

Washington.—More than a million American children between 10 and 15 years of age are engaged in gainful occupations, 1,060,858 being the exact figure, according to a census bureau report Friday. Out of every thousand boys between those ages 113 were recorded as employed either on their own account or for wages, while 5.6 per cent of the girls were so employed.

The report showed a decrease since 1910 of 54.8 per cent from the number of children employed in agriculture, 60.2 per cent in mining, and 29 per cent in manufacturing and mechanical industries. Those engaged in other occupations increased in the same decade by 12.9 per cent.

The bureau explained that the decided decreases in certain vocations were partially explained by the change in the census date from April, 1910, to January, 1920.

Rail Heads Agree Conditionally

New York.—The executive heads of 148 American railways Friday conditionally accepted President Harding's second proposal for settlement of the nationwide railroad strike, "that the president's request that the strikers be taken back would be interpreted that the roads would rehire only as many of the strikers as would be needed to recruit their present forces to normal."

BROTHER'S HOME

The fact that his supposedly adored 31g brother was returning home from college that day had been carefully concealed from ten-year-old Tommy until he came back from school. "Tommy," said his mother, after her younger son had gone upstairs to wash his face and the elder had been concealed in the pantry, "I have a big surprise for you." "I know what it is," replied Tommy unconcernedly. "Brother's back." "Why, how did you guess that?" "Cause my money-box won't rattle any more."

PLANS FOR CONTROL TEX. FLOOD WATERS

Austin, Tex.—Adoption of resolutions proposing plans for controlling flood waters of Texas and reclaiming the overflow lands was the result of the conference Monday of 157 engineers interested in flood prevention and land reclamation.

These plans include asking Texas representatives in congress to procure adequate mapping and hydraulic surveying by federal engineers where needed in Texas, that each stream watershed be considered an independent unit, and that the legislature be asked to make ample appropriations for extending the activities of the state board of water engineers and the state reclamation department.

The conference was called to order by Governor Neff, and after he had explained his purpose in calling the conference, T. U. Taylor, dean of the engineering department of the University of Texas, was elected chairman.

Almost the entire day was devoted to addresses and talks by various engineers and representatives of similar associations. In adopting the resolution looking toward flood prevention and overflow land reclamation the conference pointed out briefly the needs in each case. Much stress was laid on the resolution requesting the state legislature to appropriate ample funds for the work of the board of water engineers and the reclamation department.

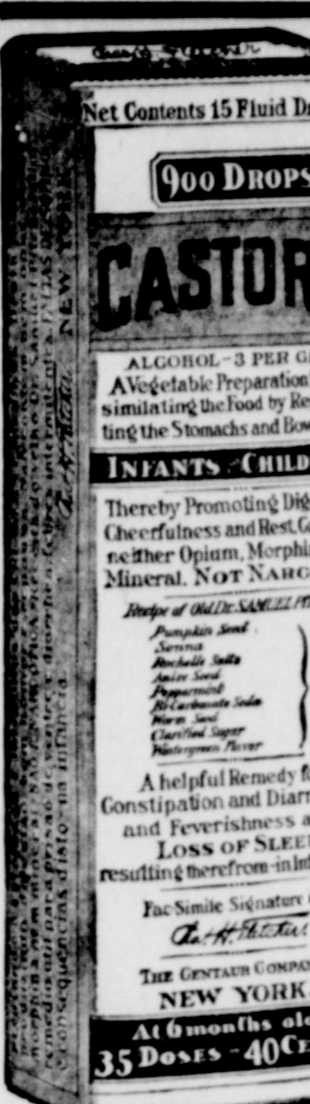

An advisory committee on flood prevention was named, as follows: E. E. Sands, Houston; J. B. Hawley, Fort Worth; T. U. Taylor and E. H. Sellard, both of Austin; C. T. Bartlett and W. B. Tuttle, San Antonio; F. A. Jones, J. C. Nagle and E. N. Noyes, Dallas; W. F. Shaw, Mercedes; F. A. Merritt, Galveston; V. L. Sullivan, El Paso, and R. A. Thompson, Wichita Falls.

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food. A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.
