HICKS-DUNCAN
 Miss Zola Hicks and Mr. Robert Duncan were happily married at the home of the bride's mother, Mrs. A. M. Hicks on Wednesday, May the second, at twelve o'clock, Rev. Joe W. Bickley officiating.
 The living room was beautifully decorated with larkspur, sweet peas and maiden hair fern. The bride and groom entered unattended and were united by the use of the impressive ring ceremony of the Methodist Episcopal Church.
 After congratulations and best wishes were extended to the happy couple the guests were invited to the dining room which was artistically decorated with sweet peas and fern. Here they were served with a three course luncheon.
 The bride is the youngest daughter of Mrs. A. M. Hicks. She was raised at San Angelo, but for several years she has made her home at the T. Five ranch on the Independence. Her friendly smile and charming personality has won for her a host of friends in Terrell County. The groom is the eldest son of Mrs. Robert Duncan formerly of Sanderson but now of San Diego, California. He is a worthy young man of excellent character and business ability.
 The young couple received many useful and beautiful gifts of silverware, cut glass, linen and china.
 About five o'clock the guests began to leave and Mr. and Mrs. Duncan departed for their new home; the concrete bungalow recently completed by Prosser and Brown on their Geddis ranch.
 The writer joins their many friends in wishing this worthy couple a long, prosperous and happy married life.
 — A Friend.

Fresh vegetables every Monday and Thursday. Barbecued meat every day.
Sanderson Market.

Terrell County Mohair
 Last week a Terrell county ranchman received a check from a firm in New York City, in full payment for some mohair which he had shipped to them recently. The mohair brought from \$2 to \$10 per pound, the 6½ pounds bringing \$38.25. Following is the schedule of prices received for the mohair:

| | |
|----------------------------|---------|
| 2 lbs. 12 inch at \$2 lb. | \$4.00 |
| 1½ lbs. 14 inch at \$4 lb. | \$6.00 |
| 1½ lbs. 16 inch at \$8 lb. | \$12.00 |
| ¾ lb. 18 inch at \$9 lb. | \$5.75 |
| ¾ lb. 20 inch at \$10 lb. | \$7.50 |
| | \$36.25 |

In closing the letter to this ranchman, the firm wrote as follows:
 "Referring to your last letter you sent to me, I notice you will have some long mohair to ship soon. I will appreciate if you can ship it to me as promptly as possible, because at present I can utilize all the long mohair I can get, to use in my manufacturing plant to advantage."
 Wear made-to-measure clothes and you will always appear well dressed. Call at the Royal Tailor Shop and let us show you some of the "smartest" samples for suits you ever seen. The cost is low and satisfaction guaranteed.

Mrs. M. Boozer left Tuesday morning for a month's visit at Engle, New Mexico.

Mrs. Sue Douglas left Tuesday for Engle, New Mexico, where she will spend a month's vacation.

An Interesting Letter
 (Miss Mildred Thomson has written a letter to Prof. MacCalmont asking him to aid her in getting a school in the Panama Canal Zone. Her letter is so interesting that we copy some of it as follows:
 "Since I have been in Hawaii, I have been teaching the first grade. It is very interesting work, and the children are so responsive.
 "Hawaii is delightful. There are so many interesting people and scenes here. You can imagine the pleasing novelty of being close to the Ocean to one who has lived for fourteen years in dry western Texas.
 "Hawaii is the most cosmopolitan place you can imagine. It is indeed a melting pot, more Oriental than Occidental. Here the Portuguese, Spaniards, Porto Ricans, Filipinos, Anglo-Saxons, Hawaiians, French, Chinese, and Japanese, mingle constantly. There are very few native Hawaiians, I should say pure blood Hawaiians. It seems a shame. The Hawaiians are so gentle, loyal, strong and even tempered. Their one fault is their laziness. They are perfectly happy in their tiny houses surrounded with tiny taro patches from which they pound "poi." That is their main food. They are concerned very little with the problems which confront white men—such as food, shelter and clothing.
 "It is so interesting to watch these different nationalities. We live only fifteen miles from Hilo, the second city in the Islands. We go in town almost every weekend, and I believe the best part of the trip is the trip to town on the train. In one coach will be crowded nine or ten nationalities. It is such a good opportunity to observe and compare the various expressions, customs and appearances.
 "During the first of February Hilo Bay was swept by seven tidal waves. A great deal of damage was done. We were in Hilo at the time and it was certainly interesting.
 "We spent Christmas vacation at the Kilauea Volcano. I have never seen anything so awe-inspiring and yet so beautiful.
 "I have a first grade of forty-one pupils. Nine nationalities are represented in my room.
 "One who has lived in Hawaii will always want to come back here.
 "I am always hearing of the great improvement of the Sanderson Schools.
 Appreciatively yours,
 Mildred Thomson."

BASE BALL NEWS.
 Every Royal Rooter, Fan and Baseball Bug are urged to appear at the Indians Ball Park Sunday morning at 10:00 and help your Sanderson Indians along and also be on hand for the second game called at 3:00 p.m.
 Fort Stockton's fast team will play the Indians in a double header here Sunday and the Indians say they are out to get Fort Stockton's scalp. Railston is slated to open the first game for the Indians and "Red" Cavender will probably start the second game.
 Don't forget! 1st game at 10:00 a. m. and the 2nd game at 3:00 p. m.

Madison Made Silk Shirts can be bought from \$1.00 to \$15.00 and size 13½ to 17, at the Royal Tailor Shop.

A. M. Preston, who has been visiting Mrs. W. E. Lea, left Tuesday for El Paso. He was accompanied by little William Lea, who will visit his father, W. E. Lea, for several days. Mr. Lea has been in the hospital in El Paso for about two weeks.

Accordion, box and side plating; hemstitching 8 yd., pinking, braiding, buttons and buttonholes made. Mrs. H. B. Houston, Uvalde, Texas.

Camp Fire Girls
 The Minnehaha Camp Fire Girls had a "slumberless party" a few nights ago. The girls burnt the mid-night oil as well as all the scrap wood near their camp house. There were games of all description, stories (both pleasant and ghostly) and many amusing jokes and stunts were presented. At the hour of 4 a. m., songs were still floating through the air. Dawn called the girls home for breakfast as all their supplies were devoured about twelve o'clock.

NOTICE.
 I have bought out W. L. Harper's Shoe Shop and will produce first-class work at very reasonable prices. The only way to be convinced to what I say is to give me a trial.
 S. Ferguson.

JUDGE KENESAW MOUNTAIN LANDIS GOES UP IN THE AIR

Judge Kenesaw Mountain Landis recently visited Bradenton, Fla., where the St. Louis Cardinals were in training to witness an exhibition game with the Boston Braves. The judge made the trip from St. Petersburg in a seaplane.

GOOD BASE RUNNING REQUIRES PRACTICE

Baseball Player Must Learn to Start Fast and Master Hook or Fall-Away Slide.

By CARL LUNDGREN, Baseball Coach, University of Illinois.

To become a good, intelligent base runner, a player must put in a great deal of practice, experimenting, thought, and, above all, be able to use good judgment in running.

He should learn to start fast and master the hook or fall-away slide. The fast start means the saving of a stride or possibly two in the race with the ball and the hook slide makes it difficult for the opponents to touch you with the ball, frequently saving you from being tricked out at the end of your journey.

This slide should be mastered at the very beginning and the ability to use it on either bases or the base, thereby enabling you to watch your opponent, who is receiving the thrown ball, and slide as far away from him as possible.

If caught between bases avoid being touched out until all base runners have advanced as far as they can. With runners on second and third base the runner on third should hold his base if the ball is hit to an infielder playing close with no one out. Same condition and one out, try to score.

Do not depend on your coaches when you can follow the play yourself. You must listen to them, however, when the play is behind you.

The catcher is blamed for too many bad plays when the base runner has the play in front of him and is entirely to blame himself.

SPORTING SQUIBS OF ALL KINDS

Harold Ruel has been picked for the "place of honor" on the Washington team.

Pancho Villa may have lost his fly-weight title, but he still fights like a champion.

This year Cobb has as one of his assistants, Fred Carisch, veteran big league catcher.

The London club of the Mint league has signed a pitcher whose name is given as James Uchronoscko.

Fred Graff, veteran third baseman, has been peddled again, the Atlanta club having sold him to Little Rock.

Catcher Pleinich and Howard Shanks, formerly of the Senators, seem to be happier with the Red Sox.

The prince of Wales won a steeplechase and it has also been observed that the President usually wins at golf.

Hughy Jennings dopes the Tigers, Yanks and Browns to fight it out for the pennant, and to finish one-two-three.

As the Friedman, New England heavyweight titleholder, has shown real championship ability in his recent bouts.

The Cuba has been visiting First Sacker Cotter, outfielder Grigsby and Pitcher Zip Dumovich to the Wichita Falls club.

Some day the country is absolutely going to refuse to have nervous prostration over Babe Ruth and his batting slumps.

Vincent Richards of Yonkers, N. Y., won the national indoor singles tennis championship, defeating Francis T. Hunter.

Judging from Young Bob Fitzsimmons' recent showing in New York he has little of his celebrated father's fighting ability.

Newark (N. J.) A. C., whose spacious clubhouse was recently opened, will have constructed two golf courses for members' use.

Aquatic experts have picked Miss Lily Bowner of Honolulu as the successor of Miss Ethelinda Biebtrey, who in the past has set many world's swimming marks.

Carl Mays, the Yankee pitcher, is quoted as saying that he intends to take the game more seriously this season and show the fans he still is a star swirler.

Herb Pruett, the little left-hander of the Browns, is about twenty pounds heavier this year than last. Manager Lee Fohl is trying to figure out how to keep it on him.

The Birmingham club of the Southern league announces the signing of Harry Randolph, captain of the baseball and football teams of Bethany college, at Bethany, W. Va.

Waiter Alexander, veteran catcher, will manage the Marlin team in the new Texas association this season, has enlisted another veteran, Pitcher Earl Fishery, to assist him.

Billiard Champion

Ask Return of Ships.

Moscow—M. Karakhan, soviet undersecretary of state for foreign affairs, has sent a note to Tokio asking that the Japanese government turn over to Russia five of Admiral Stark's refugee ships, now at Genoa, Korea. The note remarks that this would be an opportunity for Japan to show her good faith in connection with Tokio's recent offer of partial resumption of relations with Russia.

Directors for Land Banks.

Washington—Selection of twelve directors at large for the federal land banks was announced Friday by the farm loan board. They are: Herbert Myrick, Springfield, Mass.; Vulosko Vaiden, Baltimore; L. I. Galton, Columbia, S. C.; James B. Davis, Louisville, T. F. Davis, New Orleans; O. J. Lloyd, St. Louis; B. F. Faust, St. Paul; D. P. Hogan, Omaha; Miles Lanster, Wichita; S. A. Lindsay, Houston; William D. Ellis, Berkeley, Cal.; and D. O. O'Shea, Spokane, Wash.

John Layton of St. Louis, world's three-cushion billiard champion and winner of the Interstate league tournament.

Helping the Washington Griffs to break in the winning list at St. Petersburg, Fla., where some of the big baseball teams of the country are in training, is Jez Zachary, star pitcher for the Griffs.

Cobb Ranks as Oldest Player in American

Cobb is the oldest player in the American league in point of service.

Cobb joined the Tigers in 1905 and is still going good. He has seen 18 years of service. Despite the strenuous game he plays, he has slowed down but little.

If Cobb continues to be a success as manager he can go on indefinitely in baseball, long after he is through as a player.

Cobb alone remains of the players who were in the American league at the time of his debut. He has seen them all pass out.

Eddie Collins and Walter Johnson are close behind Cobb in point of service. While Johnson is slowing up a bit, Eddie Collins seemed as good as ever last season, with a number of years ahead of him in the majors.

Leslie Bancroft is Praised by Tilden

Tennis champion Bill Tilden says of Leslie Bancroft, the Longwood C. C. of Boston; lawn tennis player who will for the first time strive for honors in the English championships at Wimbledon in June: "She can defeat every player abroad except Suzanne Lenglen and possibly Kathleen McKane. She can defeat 'Bunny' Ryan, Mrs. Satterthwaite, Mrs. Beamish and other English players. She may not do so, of course, but from my observations of the type of game displayed by the foreign women, I look for Miss Bancroft to make an excellent showing abroad."

TEXAS SHIPPERS TO FIGHT HIGH RATES

Rates From Points East of the Mississippi Is Declared Unjust.

Dallas, Tex.—Formal attack by shippers of North Texas against all interstate rates from points east of the Mississippi river and other points to the north, which was filed before the interstate commerce commission Friday by Albert L. Reed, traffic manager of the Dallas Chamber of Commerce, will open a fight that will draw a nationwide attention, it was announced at the close of the hearing before the interstate commerce commission on the Oklahoma rate case Saturday. The hearing has been conducted by Examiner William A. Disque and has been participated in only by carriers.

Mr. Reed's announcement that a request would be made to have the Texas protest attached to the Oklahoma rate case, brought a vigorous protest from Paul Walker, counsel for the Oklahoma corporation commission, who asserted that the Dallas and other North Texas shippers had no right to delay action on the Oklahoma case, which, he said, would be held up for two or three months while the case was being drawn.

Commissioner Disque said that he was in no position to say whether the commission would act favorably on the request that the two important cases be combined. No date was set for a final hearing in the Oklahoma case and will not be set until the interstate commerce commission has announced receipt of notification of the Texas shippers' complaints.

"The rates from points east of the Mississippi are not only exorbitant to shippers in North Texas, but are highly discriminatory," Mr. Reed declared, in showing that from southern points east of the river the rates are proportionately much higher to Dallas, Fort Worth and other Texas points than to Louisiana, Arkansas and Oklahoma points. "Carriers are favoring the three states mentioned, and in so doing are making Texas shippers and merchants receiving the shipments pay thousands of dollars on freight rates that should and must be regulated to give us justice," he declared.

Washington.—Announcement that the government in 30 days will begin to "vigorously" enforce the law as interpreted by the supreme court to prohibit American and foreign ships from carrying liquor within the three mile limit, was made Thursday by Attorney General Daugherty.

Explaining that the supreme court mandate would become effective in 30 days Mr. Daugherty in a formal statement, in which he discussed the decision at considerable length declared that "every agency at my command will be used to enforce the law without favor, partiality or discrimination."

Mr. Daugherty issued his comment on the decision and its probable effect after he had spent several hours studying it, and after the ship liquor question had been discussed at a cabinet meeting. He expressed the opinion that several complex questions in prohibition enforcement had been considerably clarified by the decision.

After reviewing his own opinion that neither foreign nor American ships could carry liquor within the territorial waters of the United States and that domestic ships had no right to sell intoxicants on the high seas—a ruling later upheld by Federal Judge Hand in New York—the attorney general said the supreme court had placed "the final stamp of approval upon all of it except only the right of American ships to carry and sell liquors on the high seas and in foreign ports, but even as to that the supreme court has stated that congress may make such prohibition if it so desires."

"I am glad," Mr. Daugherty declared, "that the doubts entertained by some people in this country have now been put at rest and that it is clearly understood to be law of the land that no intoxicating liquor can be brought within the three miles of our shores."

Rich Harvest of North Sea.

It is estimated that the quantity of fish caught annually in the North sea would fill a procession of two-ton trucks reaching from New York to San Francisco by way of New Orleans.

Protecting Alaskan Game.

New regulations for the protection of game in certain localities in Alaska have been approved by the secretary of agriculture, effective April 1, 1923. The only important change made was that eliminating certain islands in southeastern Alaska on which the killing of deer was prohibited in the past. Krusof island, however, is still retained as a deer preserve. The killing of mountain sheep and mountain goats in the eastern part of the Kenai peninsula is prohibited until April 1, 1925. There still remains a closed season on deer west of longitude 141 degrees.

HOUNDS SPOILED HER SOLO

Impression Made by Young Songstress Quite Different From the One Intended.

I was spending the week-end with a friend of my mother's, who lived with her eligible son on a large country estate. I was taking vocal lessons and took myself quite seriously.

The morning after my arrival, seeing my host out in the vicinity of the stables, I decked myself in my best bib and tucker and sauntered to the garden, accompanied by two big hounds. From the corner of a watchful eye I saw my audience approaching, and I burst forth in my most wonderful soprano. Simultaneously the hounds lifted their faces to heaven, even as I, and joined me in a most hideous cry.

My sense of humor came to my rescue, and I joined the master in his laughter, but I could have cried much more easily.—Chicago Tribune.

MOTHER! GIVE CALIFORNIA FIG SYRUP

Child's Best Laxative To Clean the Bowels

Hurry, mother! Even a cross, sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Tongue Shows if Bilious, Constipated

Will Bar Liquor From All U.S. Ports

Washington.—Announcement that the government in 30 days will begin to "vigorously" enforce the law as interpreted by the supreme court to prohibit American and foreign ships from carrying liquor within the three mile limit, was made Thursday by Attorney General Daugherty.

98 OUT OF EVERY 100 WOMEN BENEFITED

An Absolutely Reliable Statement Important to Every Woman

Remarkable Results Shown by a Nation Wide Canvass of Women Purchasers of Lydia E. Pinkham's Vegetable Compound. 50,000 Women Answer

For some time a circular has been enclosed with each bottle of our medicine bearing this question: "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?"

Reply, to date, have been received from over 50,000 women answering that question.

98 per cent of which say YES. That means that 98 out of every 100 women who take the medicine for the ailments for which it is recommended are benefited by it.

This is a most remarkable record of efficiency. We doubt if any other medicine in the world equals it.

Think of it—only two women out of 100 received no benefit—98 successes out of a possible 100.

Did you ever hear anything like it? We must admit that we, ourselves, are astonished.

Such evidence should induce every woman suffering from any ailment peculiar to her sex to try Lydia E. Pinkham's Vegetable Compound and see if she can't be one of the 98. The Lydia E. Pinkham Medicine Co., Lynn, Mass.

CONSTITIATION

Take a good dose of Carter's Little Liver Pills—then take 2 or 3 for a few nights after. They cleanse your system of all waste matter and regulate your bowels. Mild—as easy to take as sugar. Counterfeiters beware!—Small Pill. Small Dose. Small Price.

Think of it—only two women out of 100 received no benefit—98 successes out of a possible 100.

Did you ever hear anything like it? We must admit that we, ourselves, are astonished.

Such evidence should induce every woman suffering from any ailment peculiar to her sex to try Lydia E. Pinkham's Vegetable Compound and see if she can't be one of the 98. The Lydia E. Pinkham Medicine Co., Lynn, Mass.

CONSTITIATION

Take a good dose of Carter's Little Liver Pills—then take 2 or 3 for a few nights after. They cleanse your system of all waste matter and regulate your bowels. Mild—as easy to take as sugar. Counterfeiters beware!—Small Pill. Small Dose. Small Price.

CARTER'S LITTLE LIVER PILLS

Tongue Shows if Bilious, Constipated

Will Bar Liquor From All U.S. Ports

Washington.—Announcement that the government in 30 days will begin to "vigorously" enforce the law as interpreted by the supreme court to prohibit American and foreign ships from carrying liquor within the three mile limit, was made Thursday by Attorney General Daugherty.

Explaining that the supreme court mandate would become effective in 30 days Mr. Daugherty in a formal statement, in which he discussed the decision at considerable length declared that "every agency at my command will be used to enforce the law without favor, partiality or discrimination."

Mr. Daugherty issued his comment on the decision and its probable effect after he had spent several hours studying it, and after the ship liquor question had been discussed at a cabinet meeting. He expressed the opinion that several complex questions in prohibition enforcement had been considerably clarified by the decision.

After reviewing his own opinion that neither foreign nor American ships could carry liquor within the territorial waters of the United States and that domestic ships had no right to sell intoxicants on the high seas—a ruling later upheld by Federal Judge Hand in New York—the attorney general said the supreme court had placed "the final stamp of approval upon all of it except only the right of American ships to carry and sell liquors on the high seas and in foreign ports, but even as to that the supreme court has stated that congress may make such prohibition if it so desires."

"I am glad," Mr. Daugherty declared, "that the doubts entertained by some people in this country have now been put at rest and that it is clearly understood to be law of the land that no intoxicating liquor can be brought within the three miles of our shores."

Rich Harvest of North Sea.

It is estimated that the quantity of fish caught annually in the North sea would fill a procession of two-ton trucks reaching from New York to San Francisco by way of New Orleans.

Protecting Alaskan Game.

New regulations for the protection of game in certain localities in Alaska have been approved by the secretary of agriculture, effective April 1, 1923. The only important change made was that eliminating certain islands in southeastern Alaska on which the killing of deer was prohibited in the past. Krusof island, however, is still retained as a deer preserve. The killing of mountain sheep and mountain goats in the eastern part of the Kenai peninsula is prohibited until April 1, 1925. There still remains a closed season on deer west of longitude 141 degrees.

How's This?

HALL'S CATARRH MEDICINE will do what we claim for it—rid your system of Catarrh or Deafness caused by Catarrh.

HALL'S CATARRH MEDICINE consists of an Ointment which quickly Relieves the catarrhal inflammation, and the Internal Medicine, a Tonic, which acts through the Blood on the Mucous Surfaces, thus assisting to restore normal conditions.

CHAPTER XV.—Continued.

"Thorne! Thorne! It's all right, it's all right!" cried Gale, in piercing tones. "Mercedes is safe! Yaqui saved her! Rojas is done for! Yaqui jumped down the wall and drove the bandit off the ledge. Cut him loose from the wall, foot by foot, hand by hand! We've won the fight, Thorne!"

For Thorne these were marvelous strength-giving words. The dark horror left his eyes, and they began to dilate, to shine. He stood up, dizzily but unaided, and he gazed across the crater. Yaqui had reached the side of Mercedes, was bending over her. She stirred. Yaqui lifted her to her feet. She appeared weak, unable to stand alone. But she faced across the crater and waved her hand. She was unharmed. The Yaqui waved, too, and Gale saw in the action an urgent signal.

Heavily taking up canteen and rifles, Gale put a supporting arm around Thorne.

"Come, old man. Can you walk? Sure you can walk! Lean on me, and we'll soon get out of this. Don't look across. Look where you step. We've not much time before dark. Oh, Thorne, I'm afraid Jim has cashed in! And the last I saw of Laddy he was badly hurt."

Gale was keyed up to a high pitch of excitement and alertness. He seemed to be able to do many things. But once off the ragged notched lava into the trail he had not such difficulty with Thorne, and could keep his keen gaze shifting everywhere for sight of enemies.

"Listen, Thorne! What's that?" asked Gale, halting as they came to a place where the trail led down through rough breaks in the lava. The silence was broken by a strange sound, almost unbelievable considering the time and place. A voice was droning: "Turn the lady, turn! Turn the lady, turn! Alamon left. All swing; turn the lady, turn!"

"Hello, Jim," called Gale, dragging Thorne round the corner of lava. "Where are you? Oh, you son of a gun! I thought you were dead. Oh, I'm glad to see you! Jim, are you hurt?"

Jim Lash stood in the trail leaning over the butt of his rifle, which evidently he was utilizing as a crutch. He was pale but smiling. His hands were bloody. A scar had been about tightly round his left leg just above the knee. The leg hung limp, and the foot dragged.

"I reckon I ain't injured much," replied Jim. "But my leg hurts like h—l, if you want to know."

"Laddy! Oh, where's Laddy?" "He's just across the crack there. I was trying to get to him. We had it hot an' heavy down here. Laddy w' pretty bad shot up before he tried to head Rojas off the trail. . . . Dick, did you see the Yaqui go after Rojas?"

"Did I?" exclaimed Gale, grimly. "The finish was all that saved me from runnin'! I reckon our chances are against findin' Laddy alive. . . . I tell you, boys, Rojas was h—l-bent. An' Mercedes was game. I saw her shoot him. But mebbe Laddy couldn't stop him then. If I didn't sweat blood when Mercedes was fightin' him on the cliff! Then the finish! Only a Yaqui could have done that. . . . Thorne, how about you? Dick, is he bad hurt?"

"No, he's not. A hard knock on the skull and a scalp wound," replied Dick. "Here, Jim let me help you over this place."

Step by step Gale got the two injured men down the uneven declivity and then across the narrow lava bridge over the fissure. Here he bade them rest while he went along the trail on that side to search for Laddy. Gale found the ranger stretched out, face downward, a reddened hand clutching a gun. Gale thought he was dead. Upon examination, however, it was found that Laddy still lived, though he had many wounds. Gale lifted him and carried him back to the others.

"He's alive, but that's all," said Dick, as he laid the ranger down. "Do what you can. Stop the blood. Laddy's tough as cactus, you know. I'll hurry back for Mercedes and Yaqui."

Gale, like a fleet, sure-footed mountain sheep, ran along the trail. He came upon Mercedes and the Yaqui. She ran right into Dick's arms, and then her strength, if not her courage, broke, and she grew lax.

"Mercedes, you're safe! Thorne's safe. It's all right now." "Rojas!" she whispered. "Gone! To the bottom of the crater! A Yaqui's vengeance, Mercedes."

He heard the girl whisper the name of the Virgin. Then he gathered her up in his arms.

"Come, Yaqui." The Indian grunted. He had one hand pressed close over a bloody place in his shoulder. Gale looked keenly at him. Yaqui was inscrutable, as of old, yet Gale somehow knew that word meant little to him. The Indian followed him.

Gale carried Mercedes up to the rim and along to the others. Jim Lash worked awkwardly over Ladd. Thorne

was trying to assist. Ladd, himself, was conscious but he was a pallid, apparently a death-stricken man. The greeting between Mercedes and Thorne was calm—strangely so, it seemed to Gale. But he was now calm himself. Ladd smiled at him, and evidently would have spoken had he the power. Yaqui then joined the group, and his piercing eyes roved from one to the other, lingering longest over Ladd.

"Dick, I'm figner'n' hard," said Jim, faintly. "In a minute I'll be up to you an' Mercedes. I've about shot my bolt. . . . Reckon you'll do—best by bringin' up blankets—water—salt—firewood. Laddy's got—one chance—in a hundred. Fix him up—first. Use hot salt water. If my leg's broken—set it—best you can. That hole in Yaqui—only'll bother him a day. Thorne's bad hurt. . . . Now rustle—Dick, old—boy."

Lash's voice died away in a husky whisper, and he quietly lay back.

"Thorne! Thorne! It's All Right, it's All Right!" Cried Gale, in Piercing Tones. "Mercedes is Safe!"

stretching out all but the crippled leg. Gale examined it, assured himself the bones had not been broken, and then rose ready to go down the trail.

"Mercedes, hold Thorne's head up, in your lap—so. Now I'll go."

On the moment Yaqui appeared to have completed the binding of his wounded shoulder, and he started to follow Gale. The descent to the arroyo was swift and easy. Gale hastily put together the things he needed, and, packing them all in a tarpaulin, he turned to retrace his steps up the trail.

Darkness was setting in. The trail was narrow, exceedingly steep, and in some places fronted on precipices. Gale's burden was not very heavy, but its bulk made it unwieldy, and it was always overbalancing him or knocking against the wall side of the trail. At last they reached a level, and were soon on the spot with Mercedes and the injured men.

Gale then set to work. Yaqui's part was to keep the fire blazing and the water hot, Mercedes to help Gale in what way she could. Gale found Ladd had many wounds, yet not one of them was directly in a vital place. Evidently, the ranger had almost bled to death. He remained unconscious through Gale's operations.

Jim Lash came out of his stupor. A mushrooming bullet had torn a great hole in his leg. Gale, upon examination, could not be sure the bones had been missed, but there was no bad break. The application of hot salt water made Jim groan. When he had been bandaged and laid beside Ladd, Gale went on to the cavalryman. A furrow had been plowed through his scalp down to the bone. When it had been dressed, Mercedes collapsed. Gale laid her with the three in a row and covered them with blankets and the tarpaulin.

Then Yaqui submitted to examination. A bullet had gone through the Indian's shoulder. To Gale it appeared serious. Yaqui said it was a flea bite. But he allowed Gale to bandage it, and obeyed when he was told to lie quiet in his blanket beside the fire.

Gale stood guard. The hour had come for him to face his great problem. It was natural that he hung back a little at first; natural that when he went forward to look at the quiet sleepers he did so with a grim and stern face urging him. Yaqui stirred, roused, yawned, got up; and, though he did not smile at Gale, a light shone swiftly across his dark face. His shoulder drooped and appeared stiff, otherwise he was himself. Mercedes lay in deep slumber. Thorne had a high fever, and was beginning to show signs of restlessness. Ladd seemed just barely alive. Jim Lash slept as if he was not much the worse for his wound.

Gale awoke Mercedes. Swiftly she sat up.

"Mercedes—come. Are you all right?"

Laddy is alive. Thorne's not—not so bad. But we've got a job on our hands. You must help me."

She bent over Thorne and laid her hands on his hot face. Then she rose—a woman such as he had imagined she might be in an hour of trial.

Gale took up Ladd as carefully and gently as possible. "Mercedes, bring what you can carry and follow me," he said. Then, motioning for Yaqui to remain there, he turned down the slope with Ladd in his arms.

Neither pausing nor making a mistake nor conscious of great effort, Gale carried the wounded man down into the arroyo. Mercedes kept at his heels, light, supple, lithe as a panther. He left her with Ladd and went back. When he had started off with Thorne in his arms he felt the tax on his strength. Surely and swiftly, however, he bore the cavalryman down the trail to lay him beside Ladd. Again he started back, and when he began to mount the steep lava steps he was hot, wet, breathing hard. As he reached the scene of that night's camp a voice greeted him. Jim Lash was sitting up.

"Hello, Dick. I woke some late this mornin'. Where's Laddy? Where's Thorne an' Mercedes? Look here, man! I reckon you ain't packin' this crippled outfit down that awful trail!"

"Had to Jim—an hour's sun—would kill—both Laddy and Thorne. Come on, now."

For once Jim Lash's cool good nature and careless indifference gave precedence to amaze and scorn.

"Always knew you was a husky chap. But, Dick, you're no boss! Get me a crutch an' give me a lift on one side."

"Come on," replied Gale. "I've no time to monkey."

He lifted the ranger, called to Yaqui to follow with some of the camp outfit, and once more essayed the steep descent. Jim Lash was the heaviest man of the three, and Gale's strength was put to enormous strain to carry him on that broken trail. Nevertheless, he went down, down, walking swiftly and surely over the bad places; and at last he staggered into the arroyo with bursting heart and red-blinded eyes. When he had recovered he made a final trip up the slope for the camp effects which Yaqui had been unable to carry.

In the labor of watching and nursing it seemed to Gale that two days and two nights slipped by like a few hours. Then Gale succumbed to weariness. After his much-needed rest he relieved Mercedes of the care and watch over Thorne which, up to that time, she had absolutely refused to relinquish. The cavalryman required constant attention. His condition slowly grew worse, and there came a day which Gale thought surely was the end. But that day passed, and the night, and the next day, and Thorne lived on, ghostly, stricken, raving. Suddenly, and to Gale's amazement and thanksgiving, there came an abatement of Thorne's fever. With it some heat and redness of the inflamed wound disappeared. Next morning he was conscious, and Gale

carried the roots and leaves of desert plants unknown to Gale. From these the Indian brewed an ointment. Then he stripped the bandages from Ladd and applied the mixture to his wounds. That done, he let him lie with the wounds exposed to the air, at night covering him. Next day he again exposed the wounds to the warm, dry air. Slowly they closed, and Ladd ceased to bleed externally.

Days passed and grew into what Gale imagined must have been weeks. Yaqui recovered fully. Jim Lash began to move about on a crutch; he shared the Indian's watch over Ladd. Thorne lay a haggard, emaciated ghost of his former rugged self, but with life in the eyes that turned always toward Mercedes. Ladd lingered and lingered. The life seemingly would not leave his bullet-pierced body. The tireless, implacable, inscrutable savage was ever at the ranger's side. His great somber eyes burned. At length he went to Gale, and with that strange light flitting across the hard bronzed face, he said Ladd would live.

The second day after Ladd had been given such this nourishment as he could swallow he recovered the use of his tongue.

"Shore—this's h—l," he whispered. That was a characteristic speech for the ranger. Gale thought; and indeed it made all who had heard it smile while their eyes were wet.

From that time forward Ladd gained, but he gained so immeasurably slowly that only the eyes of hope could have seen any improvement. Jim Lash threw away his crutch, and Thorne was well, if still somewhat weak, before Ladd could lift his arm or turn his head. His whippers grew stronger. And the day arrived when Gale, who was perhaps the least optimistic, threw doubt to the winds and knew the ranger would get well.

"Boys, come round," said Ladd, in his low voice. "An' you, Mercedes. An' call the Yaqui!"

Ladd lay in the shade of the brush shelter that had been erected. There seemed little of him but long, lean lines, and if it had not been for his keen, thoughtful, kindly eyes, his face would have resembled a death mask of a man starved.

"Shore I want to know what day is it an' what month?" asked Ladd. "Nobody could answer him. The question seemed a surprise to Gale, and evidently was so to the others. "Look at that cactus," went on Ladd.

"I reckon according to that giant cactus it's somewhere along the end of March," said Jim Lash, soberly. "Shore it's April. Look where the sun is. An' can't you feel it's gettin' hot?"

"Supposin' it is April?" queried Lash, slowly. "Well, what I'm drivin' at is it's about time you all was hittin' the trail back to Forlorn River, before the waterholes dry out."

"Laddy, I reckon we'll start soon as you're able to be put on a boss." "Shore that'll be too late."

A silence ensued, in which those who heard Ladd gazed fixedly at him and then at one another. Lash unobtrusively shifted the position of his lame leg, and Gale saw him moisten his lips with his tongue.

"Charlie Ladd, I ain't reckonin' you men we're to ride off an' leave you here?"

"What else is there to do? The hot weather's close. Pretty soon most of the waterholes will be dry. You can't travel there. . . . I'm on my back here, an' God only knows when I could be packed out. Not for weeks, mebbe. I'll never be any good again, even if I was to get out alive. . . . You see, shore this sort of case comes round sometimes in the desert. It's common enough. I've heard of several cases where men had to go an' leave a feller behind. It's reasonable. If you're fightin' the desert you can't afford to be sentimental. . . . Now, as I said, I'm all in. So what's the sense of you waitin' here, when it means the old desert story? By gosh, now mebbe you'll get home. Shore now, boys, you'll see this the right way? Jim, old pard?"

"No, Laddy, an' I can't agger how you could ever ask me."

"Shore then leave me here with Yaqui an' a couple of the hosses. We can eat sheep meat. An' if the water holds out—"

"No!" interrupted Lash, violently. Ladd's eyes sought Gale's face. "Son, you ain't bull-headed like Jim. You'll see the sense of it. There's Nell a waitin' back at Forlorn River. Think what it means to her! You'll go, son, won't you?"

Dick shook his head. The ranger turned his gaze upon Thorne, and now the keen, glistening eyes had blurred. "Thorne, it's different with you. Jim's a fool, an' young Gale has been punctured by cholla thorns. He's got the desert poison in his blood. But you now—you've no call to stick—you can find that trail out. Take your wife an' go. . . . Shore you'll go. Deliberately and without a mo-

ment's hesitation the cavalryman replied "No."

Ladd then directed his appeal to Mercedes. His face was now convulsed, and his voice, though it had sunk to a whisper, was clear, and beautiful with some rich quality that Gale had never before heard in it.

"Mercedes, you're a woman. You're the woman we fought for. An' some of us are shore goin' to die for you. Don't make it all for nothin'. Let us feel we save the woman. Shore you can make Thorne go. He'll have to go if you say. They'll all have to go. Think of the years of love an' happiness in store for you. A week or so an' I'll be too late. Mercedes, don't make it all for nothin'. Say you'll persuade Thorne, if not the others."

The second day after Ladd had been given such this nourishment as he could swallow he recovered the use of his tongue.

"Shore—this's h—l," he whispered. That was a characteristic speech for the ranger. Gale thought; and indeed it made all who had heard it smile while their eyes were wet.

From that time forward Ladd gained, but he gained so immeasurably slowly that only the eyes of hope could have seen any improvement. Jim Lash threw away his crutch, and Thorne was well, if still somewhat weak, before Ladd could lift his arm or turn his head. His whippers grew stronger. And the day arrived when Gale, who was perhaps the least optimistic, threw doubt to the winds and knew the ranger would get well.

"Boys, come round," said Ladd, in his low voice. "An' you, Mercedes. An' call the Yaqui!"

Ladd lay in the shade of the brush shelter that had been erected. There seemed little of him but long, lean lines, and if it had not been for his keen, thoughtful, kindly eyes, his face would have resembled a death mask of a man starved.

"Shore I want to know what day is it an' what month?" asked Ladd. "Nobody could answer him. The question seemed a surprise to Gale, and evidently was so to the others. "Look at that cactus," went on Ladd.

"I reckon according to that giant cactus it's somewhere along the end of March," said Jim Lash, soberly. "Shore it's April. Look where the sun is. An' can't you feel it's gettin' hot?"

"Supposin' it is April?" queried Lash, slowly. "Well, what I'm drivin' at is it's about time you all was hittin' the trail back to Forlorn River, before the waterholes dry out."

"Laddy, I reckon we'll start soon as you're able to be put on a boss." "Shore that'll be too late."

A silence ensued, in which those who heard Ladd gazed fixedly at him and then at one another. Lash unobtrusively shifted the position of his lame leg, and Gale saw him moisten his lips with his tongue.

"Charlie Ladd, I ain't reckonin' you men we're to ride off an' leave you here?"

"What else is there to do? The hot weather's close. Pretty soon most of the waterholes will be dry. You can't travel there. . . . I'm on my back here, an' God only knows when I could be packed out. LIVE STOCK

LOOK BEFORE LOADING STOCK

Many Cars May Have Defects That May Cripple Animals—Floor is Most Important.

(Prepared by the United States Department of Agriculture.)

Inspection of 700 arriving cars of live stock at seven of the large markets by supervisors of the packers and stock yards administration, United States Department of Agriculture, has shown that shippers would do well to make careful examination of cars before loading them. The railroads maintain satisfactory car-inspection service at the large markets, but not all cars sent to country shipping points have moved directly from the terminals. As a consequence many cars have defects that may cripple animals, or even cause their death. Of the cars inspected in this investigation seven had holes in the floor, 91 had projecting nails in the walls and 88 had cleats that might, and probably did, cause bad bruises. Eighty-two cars were without bedding, a large factor in the safety and comfort of animals in transit.

No matter who is responsible for the condition of cars, it is to the interest of the shipper always to make an inspection of his own, and most certainly it is up to him to see that the right kind of bedding is provided. Frequently partitions are used in stock cars and, because of this, a careful examination must be made for projecting nails and cleats that may have been left when these partitions were removed. The floor is the most important part of the car. It should be gone over thoroughly and any holes patched. Doors must be in good repair and, when the cattle or other live stock are loaded, securely fastened.

Last year at one Middle-Western market 1,700 cattle and more than 2,000 hogs were found crippled in cars. In December more than 1,000 crippled hogs were received at one of the Eastern markets. These numbers are small in comparison with total receipts, but they looked mighty large to the shippers who owned the animals.

Look before you load!

HORSES CARRY HEAVY COATS

Animals Sweat Profusely and Hair Will Not Dry Out—Shelter From Cold Rains.

Many horses will carry a heavy coat of hair this spring. Such horses will sweat profusely and the hair will not dry out readily. It will be almost impossible to clean them properly when they are working. They will tire easily and if not clipped will lose a lot of flesh in the first few days after being put to work. Horses that have been blanketed and well groomed and those that have been worked steadily will not have such a long coat of hair. Idle farm horses are seldom groomed and there occurs a natural greasiness that aids in keeping the animal warm. This also increases the difficulty of keeping the animal clean.

Clipping can be done any time during the spring of the year, but preferably just a few days before the spring work begins. Even though there may occur a few cold days or a few storms, the horses will suffer no inconvenience as they become accustomed to the change due to the clipping in just a few hours. However, if a blanket is available, it can be used and the horse should be sheltered from cold rains. The clipping should take in the entire body and where any clipping is done this is to be recommended. It is not advisable to clip trace high, taking in the belly. Horses as a rule do not shed early enough in the spring to enable them to work with any comfort.

LIVE STOCK FACTS

The harm a scrub bull does lives after him.

A club boy and his purebred pig are not soon parted.

Raw potatoes make a very satisfactory succulent for breeding ewes.

Thousands of good farmers have found that a purebred sire pays for himself in improving his offspring.

Sheep producers will find that it pays well, from a market standpoint, to have the ewes in strong, vigorous condition at lambing time.

Sunshine prevents the little pigs from contracting disease because the sun keeps the pens free from disease germs, cold and dampness, which are most deadly enemies of infant pigs.

A purebred ram is relatively cheap, and without one a flock soon degenerates.

The shepherd's problems for the lambing season are very largely solved if he has brought the ewe flock to the beginning of the season in good flesh and thrifty condition.

More attention paid to the sow and her litter at and immediately following the farrowing season will result in a greater number of pigs being saved.

The Courage and the Vision and the Clean Love of the Mother

By VISCONTRESS ASTOR, in World's Work.

I AM striving to take into public life what any man gets from his mother and most men get from their wives if they chose wisely—the courage, and the vision, and the clean love of a mother. That quality has done more than anything in the world to make up civilization.

Everywhere in Europe America Is Regarded as the Hope of the World

By C. S. MAC FARLAND, Federal Council of Churches of Christ.

Everywhere in Europe, from the Baltic sea to the Black, America is regarded as the hope of the world. Indeed, the most striking moral and psychological phenomenon in Europe, today, is the persistence of this hope.

The Long List That May Very Aptly Be Described as "Woman-Killers"

By MRS. GENE STRATTON PORTER, in McCall's Magazine.

Sometimes I feel that I should like to be a cyclone and blow with violence, first through my own home, and then through the homes of some of my friends, carrying away forever useless rugs, pictures, china, glass and impediments of all sorts that are not useful, not ornamental, and which add more burdens to the long list that may very aptly be described as "woman-killers."

More Than by Anything Else the Native Realist Is Vexed by Optimism

By CARL VAN DOREN, in New Republic.

More than by anything else the native realist in this century is vexed by that optimism which contributes to American philosophy its basis and to American conduct its most characteristic technique.

His pessimism, however, unlike that of Asia or of parts of Europe, rarely goes to the point of ultimate despair. It is, in all but a few cases, grounded in the confidence which the muckrakers had; that revelation leads to reformation. Exhibit the truth, the American realist believes, and something salutary will be the consequence, as day follows dawn.

Individuals Responsible for War Should Be Held Personally Accountable

By ROBERT L. OWEN, Senator From Oklahoma.

Without intending to refer to Europe at all, I am in sympathy with the resolution offered by the senator from Idaho (Mr. Borah) declaring that the making of war shall be an international high crime.

TEXAS SENATE AND HOUSE PROCEEDINGS

Texas Legislators Busy Dealing with Several Measures Now Before Them.

Asks Book Contracts Be Annulled. Austin, Tex.—After hearing the report of the text book investigating committee and an explanation of the committee's activities by Representative Baldwin, one of the members, the house Friday adopted the report viva voce. There was no discussion before the adoption.

Friday's Senate Proceedings. Austin, Tex.—Passed finally eleven bills, including: Burkett, Eastland court of civil appeals; Rogers, motor vehicle common carriers; Thomas, poll tax bill.

Friday's House Proceedings. Austin, Tex.—Adopted textbook investigating commission's report. Passed finally: Six million dollar supplemental school appropriation bill and Pope measure extending old text book contracts.

Thursday's House Proceedings. Austin, Tex.—Adjourned out of respect for the late Representative Lee J. Rountree.

Wednesday's House Proceedings. Austin, Tex.—Engrossed Pope text book bill. Asked free conference committee on judiciary appropriation bill.

Que Warrants Bill Falls Passage. Austin, Tex.—The famous Patterson quo warranto bill lasted but fifteen minutes before the senate Thursday.

Detailed vote follows: For: Baugh, Biedsoe, Floyd, Pollard, Ridgeway, Rogers, Stuart, Turner, Woods. Against: Bailey, Clark, Cousins, Darwin, Davis, Fairchild, Holbrook, Murphy, Rice, Watts, Wirtz.

Subjects Submitted by Governor. Austin, Tex.—The gates for legislation by the special session were thrown practically wide open Wednesday when Governor Neff sent a message to the legislature submitting almost a score of subjects for consideration.

Tuesday's Senate Proceedings. Austin, Tex.—Passed finally unanimously eleemosynary appropriation bill, appropriations totaling over \$7,000,000.

Monday's Senate Proceedings. Austin, Tex.—Engrossed eleemosynary appropriation bill with minor amendments.

Monday's House Proceedings. Austin, Tex.—Adopted resolutions approving step toward federal recognition of Mexico and criticizing a federal cotton production estimate.

Duke of York Weds Lady Elisabeth Bowes-Lyon

Westminster abbey, scene of the wedding of the duke of York, second son of the king and queen of England, and Lady Elisabeth Bowes-Lyon; recent photograph of the bride and groom; and Rt. Rev. R. T. Davidson, archbishop of Canterbury, officiating in the marriage ceremony.

Fascismo's Birth Is Celebrated

Italian crown prince on the way to the Tomb of the Unknown Hero in Rome, where a celebration commemorating the birth of the Fascist party took place. Thousands of young men from all parts of Italy journeyed to Rome where they were reviewed by their leader, Benito Mussolini, and the prince with his staff.

NEVER WILL LACK FAGS

Enough cigarettes to last a lifetime! That was the purpose for which a \$10,000 purse was recently given by the students of Stanford university to Prof. James Perrin Smith of the geology department. Professor Smith once taught Herbert Hoover and Mrs. Hoover at Stanford.

LEADER OF BOYS' PARADE

Louis Ball, fourteen-year-old New York boy, who has been selected to head the parade of 100,000 boys on May Day. The parade will mark the beginning of Boys' Week which is under the auspices of the Rotary club.

OLDEST OF MASONS

Dr. Joseph Halstead of Breckenridge, Mo., one hundred and five years of age, is the oldest Mason living. He joined the order at Lexington, Ky., in 1842. Dr. Halstead was family physician for Henry Clay and he remembers seeing Lafayette when the marquis made his memorable visit to this country in 1824-25.

They Have Been Married 70 Years

Rev. and Mrs. Luke Woodard of Fountain City, Ind., shown here in their latest photograph, have just celebrated their seventieth wedding anniversary. Mr. Woodard, who is the oldest living minister of the Society of Friends, is ninety-one years of age and Mrs. Woodard, who was Elvira Townsend, is eighty-seven. His career covers pastorates in New York state, Toronto, Canada, and fourteen months in Great Britain and Ireland.

He "Cut In" and Got a Bride

Patrick Mellon, a former gridiron star of the University of California, rather than be over-seer of his father's huge ranch, decided to spend his vacation keeping the lines of the A. T. & T. company in Arizona in repair. One day, while working on the poles, he heard a feminine voice trying to connect with Los Angeles without success. He "cut in" and helped her, learned she was Therese Captain of Kansas City and in a few months led her to the altar.

Texas News

Many Jackson County farmers have been busy planting cotton and rice. Cotton planted before the last rain is reported coming up fairly well.

The road maintenance tax of 15c on the \$100 valuation, voted on at Smithville, was defeated by a large majority.

The spinach shipments this season from the Laredo district exceeded 600 carloads, the heaviest in years.

The Mexican government will establish a consulate in Beaumont, and a carload of exhibits showing the resources of Mexico have arrived, to be placed in the new consulate.

At a meeting of the school board for the Hallettsville independent district the following officers were elected: S. H. Simpson, president; F. K. Buck, vice president; Fred Lacy, secretary.

Cuero spring gardens are flourishing now with new Irish potatoes and new snapbeans added to the general list of onions, beets, English peas, radishes, turnips, cabbage, cauliflower, spinach and other garden truck.

April grain loadings at Galveston totaled 1,166,571 bushels, of which 1,098,000 bushels were wheat and 68,000 bushels rye, as compared with exports of but 496,000 bushels of wheat in March, according to figures just given out.

The volume of oil movement through Galveston, Texas City and Freeport during the month of April aggregated approximately 1,923,000 barrels as compared with 2,318,000 barrels during the preceding month, according to figures obtained from clearance papers at the Galveston custom house.

The total tax levy for the city of San Antonio for the fiscal year 1922 will reach the sum of \$4,009,063.83, of which the city government will receive \$2,880,997.78 and the schools \$1,089,347.73, according to figures made public by John P. Pfeiffer, commissioner of taxation.

That the poultry business is fast taking hold in the Yoakum community is shown by the fact that Yoakum has, during the past year, shipped 12 carloads of eggs, while each mail brings a shipment of "baby chicks," which are distributed throughout the territory tributary to Yoakum.

Sixty dairy cattle in one herd, all tubercular, were killed and the carcasses burned at Houston Saturday, by order of Dr. R. H. Harrison of the state live stock sanitary commission. Two instructors and ten students from A. and M. College inspected them before they were killed. Milk from the herd was being sold in Houston, Dr. Harrison said.

The cotton cushion scale which has been attacking trees and other plants in Galveston, is doomed to death if the plans of the Galveston Commercial Association do not fail. The Australian ladybug beetle, which is said to be the only thing that will kill this scale, has been brought to Galveston and placed on the trees in a certain section of the city.

Shipment of large quantities of iron ore through Beaumont, which may make that port an important iron ore distributing point, may be the result of a receivership suit filed in the sixth district court. The case is that of Fox Winslow, capitalist, against the East Texas Brown Ore Development Company, and involves iron ore deposits estimated at 80,000,000 tons, or 22,000 acres, in Cass, Marion and Morris counties. Alleging that the holding company is unable to pay off \$100,000 in bonds held by him, Mr. Winslow brought suit for debt, foreclosure and receivership. M. H. Lantz of Beaumont was appointed receiver.

The prison population of the Texas state penitentiary system has reached the mark of 3,448 inmates, which is the highest number attained at any time during the past five years. This number is an increase of 1,346 over that of January 31, 1921, which was 2,500. The distribution of prisoners is as follows: Huntsville prison, 457; asylum, 21; Senior state farm, 116; Bassett Blakely state farm, 148; Blue Ridge state farm, 244; Clemens state farm, 374; Darrington state farm, 240; Eastham state farm, 312; Ferguson state farm, 160; Gorce state farm (women), 75; Harlem state farm, 302; Imperial state farm, 382; Ramsey state farm, 526; Retrieve state farm, 206; Shaw state farm, 158, and Wynne state farm, 126.

The 600-carload mark was passed in onion shipments out of the Laredo district Saturday, and Bermuda continue to roll out to the markets of the country at the rate of 20 to 40 carloads nightly. The shipment of onions is expected to end about May 20, when it is expected that between 800 and 900 carloads will have been shipped.

The new ice plant for Alto with a 10-ton capacity is completed. The estimated cost of the new plant is \$45,000.

Wortham Gusher 12,000 Barrels. Wortham, Tex.—Twelve locations have been made in the Wortham field and nine derricks will be completed in a few days, two on Snowden McGreener, two on Sun Company, two on Trapp, two on J. K. Hughes and one on Coeden. Activity is caused by bringing in of the Morrow No. 1, J. K. Hughes for 12,000 barrels.

DON'T WASH CAR TOO FREQUENTLY

Experts on Automobile Finishes Explain Why There Are So Many Shabby Machines.

Here is the opinion of an expert on automobile body finishes: "The idea that a car must be washed every time dust has accumulated on it is a mistake.

"Every time a car is washed the varnish is raised slightly and the enamel is dulled. It would seem necessary on account of heavy road mud to wash a car, but it isn't.

Mud Gets on Rear. "Mud generally gets on the rear half of the body and the running gear. Washing the running gear will not materially affect the general appearance of a car if it does lose its luster. It is the body of a car that catches the eye. Sprayed mud on a car can easily be removed by the use of a soft cloth drawn lightly back and forth over the surface until it crumbles away. It is not necessary to use pressure. Light fluffing accomplishes the trick.

"Any white dust left on the finish after this has been done will act as a fine polishing powder when a good polish is used.

"To keep a finish in the best possible condition, it is necessary to use a cleaner once in 90 days to smooth, clean and polish the surface. Cleaners always contain scouring powders, but a preparation of this nature should not be used as a regular treatment, as once the dirt and graysness have been removed from finish a cleaner will remove some of the good finish in each application. Therefore, as a general wash and polish in one application, a preparation very light in cleaning element, with preservative properties, should be used. If this treatment is followed, the finish on an automobile will be deep in shine and will not require refinishing for months and sometimes years.

Keep Enamel Bright. "The enamel on a car can be kept in bright condition indefinitely, while it is only natural for varnish to keep bright as long as there is life in it. "Water is not always free from alkali. Alkali will eat up varnish. Soap cannot be made without the use of alkali, and no matter how much oil and tallow are used, the alkali stays alive.

"Drawing the chamois skin over an enamel surface dulls it a little in every movement and in the course of three months of washing treatment, the enamel surfaces on a car turn gray. This never happens if a good reliable polish is used instead."

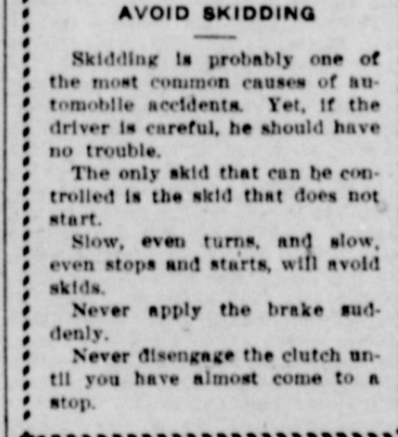

BRICK WILL HEAT MANIFOLD

Device Adapting Principle of Old-Fashioned Foot Warmer Has Been Put on Market. A device adapting the principle of the old-fashioned foot warmer has been put on the market for the purpose of supplying heat to the intake manifold, independently of the engine. This consists of a stove-like box which attaches to the manifold and burns a specially prepared fuel brick. The fuel is lighted with a match and supplies, it is said, constant heat for a period of 12 hours.—Motor.

AVOID SKIDDING

Skidding is probably one of the most common causes of automobile accidents. Yet, if the driver is careful, he should have no trouble. The only skid that can be controlled is the skid that does not start. Slow, even turns, and slow, even stops and starts, will avoid skids. Never apply the brake suddenly. Never disengage the clutch until you have almost come to a stop.

SHOWS HOW MOTOR SHOULD WORK

H. K. King of the Bureau of Standards at Washington, D. C., makes tests on all makes of automobile motors to determine the carbonization of lubricating oils in the cylinders of the motor. Every popular motor is put under exhaustive tests to see just how they will stand up under any condition.

HOW TO RUN A CAR

There is in circulation what purports to be an English translation of the Japanese rules of the road for motorists posted in the central police station of Tokyo for the benefit of English-speaking visitors to the city. It deserves the widest possible publicity, for it is couched in such language as will impress it on the memory of all motorcar drivers. Here it is:

"First—At the rise of the hand policeman stop rapidly. "Second—Do not pass him by or otherwise disrespect him.

"Third—When a passenger of the foot hove in sight, tootle the horn; trumpet at him melodiously at first, but if he still obstructs your passage tootle him with vigor and express by word of the mouth the warning, 'Hi! Hi!'"

"Fourth—Beware the wandering horse that he shall not take fright as you pass him by. Do not explode an exhaust box at him. Go soothingly by. "Fifth—Give big space to the festive dog that shall sport in the roadway.

"Sixth—Avoid entanglement of dog with your wheel spokes. "Seventh—Go soothingly on the grease mud, as there lurks the skid demon.

"Eighth—Press the brake of the foot as you roll around the corner to save collapse and tie-up. "We suggest, says the Philadelphia Ledger, that drivers inclined to be careless cut this out and paste it on the wind shield where they can see it all the time.

WHEN AN ENGINE OVERHEATS

Don't Blame Cooling System as Mixture Furnished by Carburetor May Be Cause. Don't always blame the cooling system when the engine overheats. The mixture supplied by the carburetor may be causing the trouble, perhaps being too rich. Possibly the spark is not advanced far enough; maybe the oiling system is clogged or for some reason is not properly lubricating the mechanism of the power plant. It might even be possible that the fan belt is slipping, thus preventing the fan from doing its full duty. Then there are the brakes. They may be dragging because the bands are too tight, a condition which can be discovered by jacking up the rear wheels and noting whether or not they turn freely.

HARMFUL TO JAM ON BRAKES

Practice Is Expensive Because of Wear and Tear on Tires and Burning Out of Linings. Fast driving, followed by a sudden jamming on of the brakes, gains little time, and is expensive, in the wear and tear on the tires, the burning out of the brake linings and injury to the brakes and other mechanical parts of the car.

AUTOMOBILE PAINTS

Undue wear on tires is caused by wobbling wheels. Never dip rags or cotton waste into the gasoline tank to obtain fuel for priming. It is better to overoil the engine than to give too little; use oil and save the engine. A self-starter makes less noise when the car is in gear and it is propelling the entire machine. It is old stuff to say that sprung vehicles pull easier than unsprung ones, but it seems to be generally forgotten, nevertheless.

NATIONAL CAPITAL AFFAIRS

Elevation of Guns on U. S. Battleships

WASHINGTON.—If President Harding does not disregard the advice of naval authorities, work of elevating the guns of the battleships will start soon. The department takes the ground that nothing in the spirit or letter of the treaty forbids elevating the guns and that it is imperative that this be done if the treaty status of equality between the United States and Great Britain is to be established. The navy's attitude in the matter is thus explained by Rear Admiral W. L. Rodgers, head of the general board of the navy: "American naval officers who were most closely in touch with the work of the Washington conference of 1921-22 are one in their belief that nothing in the naval treaty prevents increasing the elevation of the guns as provided by the congressional appropriation of last session.

"The United States navy is to be 'second to none.' It can only hold this place by modernizing its ships. Other nations are doing the same thing, but not all take the same steps to reach the objective. Modernization of ships is as old as navies. The United States navy, like the British navy and the French navy, has always followed the practice.

"The limitations on modernization prescribed by treaty are to prevent abuse of the treaty by building practically new ships under cover of alterations.

"Such sharp practice, it was the intention of the treaty to forbid, but each nation is free to modernize its own ships as it thinks best without disputing the methods preferred by any other navy, always keeping inside the treaty limitations.

"The change in angle of elevation is what the United States navy needs to keep our ships equal to those of Great Britain, which may choose at pleasure means of modernization more suited to its needs.

"Neither the treaty nor the spirit of the treaty expects to exclude competition. A navy equal to Great Britain includes competition as its basis. The treaty limits competition to such as may take place within the terms of the treaty and to this extent only.

"If the country wants no navy, or a navy that is inadequate, it may readily have such. But it should go about it, knowing what it is getting and not thinking it is getting a navy second to none.

"Putting the matter in another form, it is unbelievable that our delegates meant to agree that Great Britain by treaty was to preserve for some of her ships an ability to fire at ranges which most of our ships cannot attain without alterations of some extent."

Flapper Is a Friend of the Druggist

These figures relate only to the American-made products. If the imported perfumes were added, many more millions would be accounted for. Out of our 100,000,000 population, there are about 25,000,000 women of an age likely to employ the beautifying or rejuvenating agencies of perfumes and cosmetics. This means that each one of these women spends about \$3 a year on such products.

In 1914 there were only 276 factories making perfumes and cosmetics; in 1921 it took 422 such establishments to fill the requirements. In 1914 the industry employed only 5,421 while in 1921 there were 9,367 persons engaged.

The old-fashioned apothecary who filled prescriptions is finding business declining. The business is better than it was in 1914.

The figures show that the value of druggists' preparations in 1914 was \$48,000,000; in 1919 \$114,000,000, while in 1921 it was down to \$81,000,000. This might be explained by a statement that the people were buying patent medicines more generally, but apparently this explanation does not hold, for patent medicines show a 17 per cent drop from 1919 to 1921.

How Geographic Board Tinkers the Map

THE Will Hays of the map, the United States geographic board might jokingly be called. Arguments about names of places are diplomatically, but officially, settled by this august tribunal, mainly for the benefit of the government. The board establishes a form as correct, and henceforth the name is so written on all government maps, charts and documents, and in the postal guides.

About 25,000 decisions have been made by this geographic board since it was established in 1800. Oketokee swamp was spelled twelve different ways when the board settled on the form given here as most acceptable. Quobquimpassakewannogot, the unpromising name fastened on a little New Hampshire brook, was officially discarded by a decision of the board, and it became simply Beaver brook. Endless names ending in borough have had the ending shortened to boro, and a good many scarcely esthetic names have been changed to others suggesting pleasanter associations.

For one thing, the board aims to simplify names to some extent. It advocates dropping the words "court-house" as they are sometimes used after the name of a county seat. It prefers single word names. It be-

Yank and Jap Now on Equality in China

OFFICIAL announcement that the celebrated Lansing-Ishii agreement between the United States and Japan has been cancelled and is "of no further force or effect" has been made by the State department with an explanation that the cancellation was being announced simultaneously in Tokyo in an identical statement. The statement given out at Washington included only the texts of the notes exchanged between Secretary Hughes and Masanao Hanihara, Japanese ambassador, and was made public without comment.

The note to Hanihara, signed by Secretary Hughes under date of April 14, said: "I have the honor to communicate to your excellency my understanding of the views developed by the discussions which I have recently had with your embassy in reference to the status of the Lansing-Ishii exchange of notes of November 2, 1917.

"The discussions between the two governments have disclosed an identity of view and, in the light of the understandings arrived at by the Washington conference on the limitation of

armament, the American and Japanese governments are agreed to consider the Lansing-Ishii correspondence of November 2, 1917, as cancelled and of no further force or effect.

"I shall be glad to have your confirmation of the accord thus reached." Ambassador Hanihara replied under the same date as follows: "I have the honor to acknowledge the receipt of your note of today's date and I am happy to be able to confirm to you, under instructions from my government, your understanding of the views thus developed, as set forth in your letter."

This restores a parity of interests on the part of the Japanese and American governments in China and gives them an exact status with that of Great Britain, France, Portugal, Italy, Belgium and the Netherlands, the other signatory powers to the nine-power treaty negotiated by the arms conference.

QUAINT SPOTS IN NEW YORK

Frame Dwellings Still Nestling Among Skyscrapers Are a Connecting Link With Old Days.

No one has ever explained satisfactorily why a little white frame house should be considered so much more romantic than a red brick or a gray stone house of the same size. The fact remains that whenever our enterprising creators of fiction want to provide the ideal setting for their simple country girl heroine they always put her in a little white frame house.

And in plays where the hero and heroine, after three acts of storm and trials, settle down in a little love nest, it is always in this type of a house. Consequently, cliff dwellers have come to have a most romantic regard for this type of dwelling, and view the few remaining examples within the city limits with the same affectionate regard given to the old homestead. Strange as it may seem, excellent examples of this type of architecture exist within the heart of the city, and provide an interesting contrast to the towering buildings of our age.

Right in the heart of the roaring forties, just off Broadway, is a row of simple, two-story frame dwellings, under the shadow of skyscrapers like ghosts of a vanished generation, says a writer in the New York Sun. When they go there will vanish a row of quaint book shops, tea shops, coffee houses and antique dealers.

That some of the members of this generation prefer quaintness to newness is proved by the fact that in the fashionable eighties, just off Fifth avenue, a little white wooden house boasting that rarity, for New York, a real front porch, and a real back yard, is still used as a residence. Its immaculate whiteness stands out sharply in contrast to the gloomy brownstone dwellings around it. It looks for all the world like a wedding cake in among some cold chocolate pudding.

Another example of the moving picture setting right in the midst of New York is found on the upper West side, just off Riverside drive. This little frame dwelling, in addition to wide porches and green blinds, boasts a real garden bounded by green hedges that are the envy of all the residents of the fashionable apartments that surround it.

That the quaintness is not unappreciated by the busy city dweller is proven by the frequency with which cameras are opened in front of these houses. Doubtless many of these pictures are sent back home to the folks, just to prove that New York still has some real scenery.

Decentralizing a City.

A scientific plan for the future development of New York city, more thorough and comprehensive than anything of the kind ever before attempted, and including all the territory within fifty miles of Battery park, is being begun by a committee of experts appointed for the purpose by the Russell Sage foundation. The committee is known as the "committee on the plan of New York and its environs."

All suburban territory will be divided into six sections and one expert will make a particular study of its problems and of their relation to the whole plan. The survey will include consideration of every phase of city life with special reference to housing, transportation, zoning and recreation. The ultimate object is the decentralization of New York to the greatest practical extent, possibly through the creation of self-contained suburbs or "satellite towns" whose inhabitants will find opportunities for work, education, religious observance and recreation without going to the center of the city. A preliminary report will be made October 1.

Formation of Waterspout.

A water spout is a remarkable meteorological phenomenon, frequently observed at sea, and exactly analogous to the whirlwinds experienced on land. It occurs when opposite winds of different temperatures meet in the upper atmosphere, whereby a great amount of vapor is condensed into a thick black cloud, to which a vertical motion is given. This vertical motion causes it to take the form of a vast funnel, which, descending near the surface of the sea, draws up the water in its vortex, which joins in its whirling motion. The whole column, which after the junction extends from the sea to the clouds, assumes a magnificent appearance, being of a light color near its axis, but dark along the sides. When acted on by the wind the column assumes a position oblique to the horizon, but in calm weather it maintains its vertical position and is carried along the surface of the sea.—Boston Globe.

Of Biblical Origin?

The phrase, "at sixes and sevens," probably owes its origin to the Biblical "six, yea seven" used in Hebrew to indicate an indefinite number, as in the Book of Job, chapter v, 19. It is also explained as denoting originally the hazzarding of one's fortune, or carelessness as to consequences; in later usage it means the existence of a confusion or disorder. The idiom was in use at the time of Chaucer, and has been associated with an expression in dicing "to set all on cinque and six," these being the two highest numbers.—Literary Digest.

Then It Will Be a Nuisance.

Barber—Shave, sir? Mr. Stubblebrush—I dunno. Do I need it? Barber—Well, in about another week the children will be stopping you on the street to tell you what to bring them for Christmas.

Why That Bad Back?

Does spring find you miserable with an aching back? Do you feel lame, stiff, tired, nervous and depressed? Likely your kidneys have weakened. Winter is hard on the kidneys. Colds and chills and a heavier diet with less exercise tax them heavily. It's little wonder spring finds you with backache, rheumatic pains, headaches, dizziness and bladder irregularities. But don't be discouraged. Use Doan's Kidney Pills. Doan's have helped thousands and should help you. Ask your neighbor!

A BRUSH A PAIL and ALABASTINE Instead of Kalsomine or Wall Paper FAULTLESS STARCH

QUITE A "PROMINENT FELLER" Fact That "A. Louer" Was Very Much in Evidence in Paris impressed Jay Gould. Mrs. Barton French, who had taken a villa on the sea near Monte Carlo for the winter, said at a dinner party:

Old Colored Mammy Knew What to Do "I was distracted with fear when my little 9-month-old baby had dysentery, but an old colored mammy told me to give her Teethina and she has given me no more trouble since."

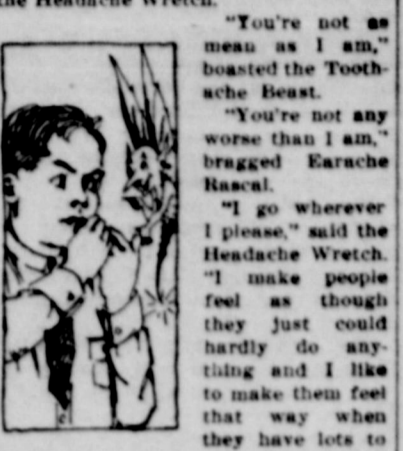

Beyond Her. "Madame, I am going to prove that your husband has money," said counsel to a woman in court. Woman—Then you're clever; I've never been able to.—Philadelphia Inquirer.

Shave With Cuticura Soap And double your razor efficiency as well as promote skin purity, skin comfort and skin health. No mug, no stinky soap, no germs, no waste, no irritation even when shaved twice daily.

None genuine without the Cross and Circle printed in red. Alabastine comes in all standard colors and these intermix to form countless others so that your decorating taste may be accurately followed.

Daddy's Evening Fairy Tale BY MARY GRAHAM BONNER

THE THREE WRETCHES

"I'm as mean as mean can be," said the Headache Wretch. "You're not as mean as I am," boasted the Toothache Beast.

"I go wherever I please," said the Headache Wretch. "I make people feel as though they just could hardly do anything and I like to make them feel that way when they have lots to do and when they just must keep up."

"Then I pound away. Oh, I'm a mean one, all right," said the Headache Wretch. "That's true," said the Toothache Beast. "If you were not mean you wouldn't be a friend of mine. But still I am madder than you are."

"Of course it is true that you're around more than I am. I take more holidays than you do. I go away a great deal more and in that way you are madder as you are about so much."

"But when I'm around I just do things properly. I make people feel as though their heads were going to come off."

"They know their heads are not going to come off and it makes them most miserable to know that their heads are going to stay right along there with all the pain I'm giving them."

"The note leaves no doubt regarding France's determination not to brook mediation, but to recover her dues. The reply is said to explain the reasons for refusal to negotiate by merely retreating the essential passages of Chancellor Cuno's offer without detailed explanations."

Berlin.—Germany has placed her latest proposals respecting reparations in the hands of the allied powers and the United States. Their chief feature is an offer of 30,000,000,000 gold marks in payment of her obligations under the treaty of Versailles.

FRANCE'S REFUSAL GOES TO GERMANY Would Result in Reopening of Versailles Treaty of Reparations Proposal.

Paris.—The proposals contained in the German note, delivered at the foreign office recently, in the German language, are regarded in French official circles as for Anglo-Saxon and neutral consumption only. The terms of the note appeared "so preposterous" to the members of the French government that it was assumed there was no hope or desire on the part of Berlin that they be accepted.

"The scheme amounts to the reopening of the whole question of reparations as settled by the treaty of Versailles," a high official of the government said. "The plan is aggravated by the suggestion that in case of failure of a loan, which no one in Paris thinks can be floated successfully, the question of payment by Germany would be referred to a commission which would be composed of neutrals who are loaded up with marks and have every interest of boosting them by getting Germany off as easily as possible."

Though the nature of the contents has not been disclosed officially, it can be asserted that the note in no way takes the form of a counter-proposition.

Premier Poincaré, M. De Lasteyrie, M. Letroquer, M. Steiner and M. Barthou collaborated in drawing up the reply. All agreed that by setting forth a reparation plan France would only fall into a time-worn German trap whereby Germany, they believe, was seeking to induce her opponents to make concessions without giving any promises herself.

It is understood the note begins by declaring the impossibility of using the German note as a basis for negotiations.

The note leaves no doubt regarding France's determination not to brook mediation, but to recover her dues. The reply is said to explain the reasons for refusal to negotiate by merely retreating the essential passages of Chancellor Cuno's offer without detailed explanations."

MEXICO SPENDS MILLIONS ON MIGRATING LABORERS El Paso, Tex.—During the last 12 months it has cost the Mexican government \$2,600,000 to transport laborers back to their homes, who flocked to the border to cross to the United States to get work and who were denied entry, according to information received at the local Mexican consulate.

Carriers Are Heard. Dallas, Tex.—Carriers were heard Friday on the proposed tariff changes, involving twenty-eight subjects, discussed before the Texas section of the Texas-Louisiana tariff bureau session. One of the supplemental dockets issued was a proposition from the carriers to establish a rate of 25¢ per 100 pounds on shingles and lumber except woods of value in carloads from Galveston, Houston and Texas City to Denton, Whitesboro, Denton, Fort Worth, Alvarado, Hillsboro, Sherman, Belts, Whitewright, Celeste, Greenville and other junction points on the Missouri, Kansas & Texas railroad.

Adrift With Humor

PLAIN AND FANCY SHUFFLING

"How come yuh ain't wukkin' today? Been fished?" "N-n-naw. De man I wukked foh kinda resigned from me."

"Resigned from bein' mah boss." "Th-huh." "How come yuh ain't wukkin' job own self? Has yuh been fished?"

HIS TOUCH "My daughter is going to Professor Jones, the eminent pianist."

A Timely Epitaph. Let all my riders kneel and cry Beside the Bier of Charles Case. To beat the train his car did try—Alack! The bus ran out of gas.

Dad's Idea of It. "Pa, what is domestic science?" "It's knowing how to open a can, son," replied his dad as he surveyed the salmon and canned vegetables and fruit that made up the evening meal.

Question of Meals. "You are not in politics for your health, I presume?" "In a way I am," replied the chronic office seeker. "Experts say if a person doesn't eat regularly his health is apt to be poor."

Power of Suggestion. Handy—Does your wife believe in auto-suggestion? Andy—Yes, every morning she puts a sponge on the breakfast table so I won't forget to wash the car.

Seeing Not Always Believing. Barton—But, surely, seeing is believing? Barton—Not necessarily. For instance, I see you every day, but as to believing you—

Lowering Himself. Pearl—Since Ethel married she has stopped wearing French heels; her husband disapproves of them. Beryl—I always said she'd lower herself by marrying that man.

SOME WERE DIFFERENT She: Were you in any active engagements on the other side? He: No, darling, I was true to you every moment.

Class Yells. My college class possessed a yell I don't recall it very well. Now to recall it better school I go; It has a yell that thousands know.

Something Else. "It seems there were two Irishmen—" "I don't want to hear about poor old Pat and Mike." "This is a magazine anecdote about Terence and Sheamus."

The Truthful Statesman. "Yes, I am retiring from public life on account of sickness," said the old job holder. "Well, I must say you look pretty healthy to me," replied his friend. "Oh, I am well enough," he answered, "but both my party and the public are sick of me."

Those Modern Days. He—May I kiss you? She—Certainly not; I permit no such familiarities, but I may kiss you before the evening's over.

REPORT OF MARKETS Price Range of Cotton, Grain, Hay, Feed, Live Stock, Meats, Fruits, Etc.

Latest report of markets, issued by Bureau of Agricultural Economics, U. S. Department of Agriculture, Washington, D. C.

Cotton—Spot cotton prices declined 151 points during the week. New York May future contracts declined 172 points. Spot cotton closed at 26.6c per pound. New York May futures at 26.93c.

Grain—Grain prices trended downward during the week and closed at net declines. Chicago July wheat down 5 1/4c; Chicago July corn down 2c; improved weather and crop conditions. Hulled in May futures and weakness in stock and cotton markets were depressing influences.

Feed—Mill feed markets steady. Fairly active demand for immediate shipment wheat feeds. Heavy offerings for future shipment especially in southwest. Deferred deliveries bran noted at \$3 to \$7 per ton discount.

Live Stock and Meats—Chicago hog prices advanced 10c to 25c for the week. Beef steers 5c lower to 10c higher; butcher heifers 15c lower to 15c and feeder steers and veal calves 25c to 50c higher.

Dairy Products—The butter markets were weak and unsettled the early part of the week under the influence of higher receipts and reports of weak foreign markets.

Fruits and Vegetables—Florida new potatoes declined \$1 to \$2.50 per barrel. Texas stock weaker. Old potatoes 10c to 15c lower, down 25c to 25c in Chicago.

BOWERS GAINED 25 POUNDS ON TANLAC

Was Wasting Away With Stomach Trouble, He States. Feels Fine.

C. L. Bowers, 3001 N. Houston St., Ft. Worth, Texas, well known engineer for the P. S. Oil Corporation, is another enthusiastic witness to the merits of Tanlac. He says: "Before taking Tanlac I had no appetite, and suffered from indigestion and stomach trouble. My nerves were so on edge that if anything went wrong it just worried the life out of me. I went down twenty pounds in weight, and felt so badly that life hardly seemed worth living."

"When I commenced taking the Tanlac treatment life began to take on a different aspect for me. The indigestion and nervousness disappeared, my sleep would rest me, and I put on twenty-five pounds in weight. Tanlac is the best medicine ever put in a bottle."

Tanlac is for sale by all good druggists. Take no substitute. Over \$7 million bottles sold.—Advertisement.

Would Economize. "And will you treat me nice, after we are married?" she sighed, her cheek tenderly pressed to his.

Aspirin Say "Bayer" and Insist! GENUINE BAYER Aspirin

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty-two years and proved safe by millions for Colds, Headache, Toothache, Lumbago, Earache, Rheumatism, Neuralgia, Pain, Pain.

Save Doctor's Bill. Young Wife—"I'm going to make the dessert myself tonight, dear. I saw a recipe in the cookbook for economical pudding."

Married Pair on Same Jury. A husband and wife served on the same jury in Minnesota. The jury disagreed.—Life (New York).

2 IN 1 Shoe Polish Saves You Money

FRECKLES Don't Hide Them With a Veil; Remove Them With Othine—Double Strength

This preparation for the treatment of freckles is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold under guarantee to refund the money if it fails.

Keep Stomach and Bowels Right Mrs. WIGGOLD'S SYRUP

In Every Type and Mood; Afternoon Frocks in Lace

IT WOULD seem as if the geni of knitted arts were tapping a font of perpetual inspiration, from whence ideas flow which cause even the most sophisticated stylist to marvel.

At first glance one would think that the gown in the picture was all of lace, bordered and smocked with fabric.

TWO-PIECE KNITTED SUIT

less array pass before our admiring eyes frocks, suits, capes, awenters, such as some few years ago would not have been deemed among the possibilities of knitting machines and human skill.

unique in that it starts at the shoulder, serving both as a sash and a side panel effect.

A blouse-colored lace frock which is most charming opens over a petticoat of like-colored georgette, which is inset with lace motifs.

Among the most interesting interpretations of the lace frock are those in light brown and cocoa shades, which trend also into the lighter browns.

Interest in two-piece knitted frocks is indicative of the season's trend. These are more or less elaborate and embody novelties in every detail.

The two-piece knitted suit of fiber silk shown herewith bespeaks a style aristocracy, such as appeals to those who seek the highest art in dress.

It is of the Russian mode, navy blue its foundational color, the blouse featuring with red, blue, tan and orange design. It accents the vogue for long sleeves. The skirt is self-striped in four horizontal rows.

Knitted tailcoats, in the way of two-piece suits, are unquestionably smart this season. Such, for instance, as one

OF BLACK SATIN-BACK CREPE

ands displayed in the better shops, simple of skirt and classic in coat lines. Frequently these Jacquette suits are knitted of mohair and fiber combined. An added attraction is a binding or border of solid color fiber silk, the same outlining coat and skirt.

These brownish lace frocks are accompanied with hats of malines and straw, trimmed in corresponding colored velvet ribbon or flowers, or they admit of colorful chapeaux to offset their neutral tints.

Just from Paris are the new beaded lace gowns. These are either designed with beads of identical shade or they show an ornamental profusion of color in their beading.

Georgette and organdie gowns, trimmed with dyed lace accurately matched are noted in advance summer showings.

Large platted lace-edging rosettes trim canton crepe frocks effectively.

Knitted three-piece costumes, dressy and not a sports type, consist of frocks, with unique capes some of which are fancifully embroidered. Charming is a knitted straightline frock all white save in the bodice part, which is lavender striped. The cape reaches to the bottom of the dress and is also white, the collar being of angora.

If casting about for inspiration in the way of an afternoon frock, let quinary cease, for in that one word "lace" is the quest rewarded. Summer costume collections are largely made up of lace frocks, ranging from black to white, with exquisite tones and dainty inclusive.

Of White Muslin. An unusual evening frock from Paris is developed in white muslin, trimmed with rows of tiny roses of silver brocade, with a huge bow of silver cloth at the side.

PLAN INCREASED EGG PRODUCTION

Interesting Experiment Being Made to Show Value of Breeding and Selection.

TO DETERMINE GOOD LAYERS

Not Necessary for Flock Owner to Use Trapnet to Detect Best Fowls—Hard Worker Can Be Told by Lateness of Moulting.

(Prepared by the United States Department of Agriculture.)

With no other equipment than good eyes, a sense of judgment, and a determination to apply a little knowledge, the average farm poultry raiser can increase the egg production of his flock in a single season, according to the United States Department of Agriculture. An interesting experiment is being made on the department's experimental farm to show the value of breeding and selecting daughters from good producing hens for layers, and the possibility of determining these good layers by only seeing and handling them. One year's results are now available and clearly prove the advantages of selecting the good layers in the flock by their appearance and retaining only their daughters for egg production.

Detect Heavy Layers.

It is natural to assume that the daughters of hens that are long-time layers will in turn be long-distance performers, and it is not necessary for the farm-flock owner to use a trapnet to detect these heavy layers. Improvement can also be made in the fall in selecting these good layers but much progress can also be made in the spring by breeding only from the best hens in the flock. In the fall the hard worker can be determined by the lateness of her moulting. Her weathered and ragged appearance late in the fall, provided it is not from ill health, means that she is still in her summer working clothes and bent on keeping up the good work of the summer as long as her energy lasts. The late moulting is the cue to select at that time and from which to save the eggs in the spring for hatching.

For the work on the experimental farm, 35 late moulting were selected from 100 pullets that had laid all summer. The daughters from these 35 selected layers produced in one year a return above feed cost of \$1.65 more per bird than the hens in the original flock. Other flocks have been started on the experimental farm to further demonstrate that the high-producing hens can be selected without the aid of a trapnet and that their daughters retained in the flock will increase the average of the egg production.

Mark Heavy Layers.

During the winter it often is possible to note the hens that are laying. Remembering that a hen in order to be a large producer should be a winter layer, it is advisable to mark these winter layers and in the breeding season separate them from the rest of the flock and save their eggs for the spring hatch. The main thing to strive for in a farm flock to make it pay well is large egg production. Large egg production goes hand in hand with vigor and stamina. Select the hens that are alert and that are early off the roost. Medium sized hens are often the best layers. Large, fat hens often lack vigor.

This test by the department serves to show that great improvement in the average egg yield is obtained by knowing the good layers and by hatching the future layers from them. While a trapnet is the sure method of selection, it is seldom practical on the average farm. Hence, a little time devoted to selection from observation may be well spent.

FEEDING POTATOES TO PIGS

Peculiarly Valuable as Supplement in Fattening—Boil Them in Feed Cooker.

Since it will be to the advantage of potato growers to get rid of all undersized and injured potatoes at home, the best method of feeding this product to the pigs will be of interest to many. Potatoes are peculiarly valuable as a supplement in fattening pigs. The best practice is to cook the potatoes, drain off the water and then mix the potatoes with grain at the rate of about three parts of potatoes to one part of the grain. Boil the potatoes in a feed cooker and then do the mixing in a barrel with a piece of board of suitable length. Thus prepared, liberal quantities may be fed to fattening hogs and also to brood sows and small pigs.

MENACE TO POTATO GROWING

Tip Burn Is Serious in Many Sections—Bordeaux Mixture Effective in Controlling.

Tip burn has come to be known as probably the most serious menace to the potato growing industry in this country. It became so serious in many sections that growers during the last few years gave it up. Scientists at the Iowa State college have been testing the value of bordeaux mixture for spray on potato plants, and find it the most effective agency in controlling tip burn. The average gain in yield during the seven years was 25 per cent.

BARNYARD MANURE TO MAINTAIN FERTILITY

Concrete Pit Is Sure Way to Prevent Big Waste.

Many Farmers Permit Valuable Material to Lose Greater Portion of Its Elements by Failing to Give Proper Care.

A concrete manure pit is a certain means of saving a part of the millions of dollars that are wasted annually in this country from careless handling of barnyard manure. Soil fertility built up and maintained by regular application of barnyard manure will result in bountiful crops, yet the majority of farms will allow this material to lose the greater portion of its valuable fertilizing elements by improper care or lack of care.

According to the Pennsylvania experiment station the value of manure produced in one year by a horse is \$31.67; that by a dairy cow \$38.76. One-half of the value of manure is in the liquid, consequently every precaution should be taken to save this part.

Pennsylvania Manure Pit.

The simplest manure pit is simply a water-tight concrete box which prevents the valuable elements of the manure from leaking away. This can be enlarged to suit requirements. For the average farm a manure pit 20 feet wide and 24 feet long with an average depth of 4 feet will take care of the storage of manure from 20 animals. It should be made with a floor sloping toward one corner, in which a cistern is located, into which the liquid manure can drain and from which it can be pumped out. One end should be open so that a spreader can be backed into the pit to facilitate the removal of the manure.

The fertility of the farms in eastern Pennsylvania, which has been preserved through long years of cropping, has been maintained through the careful utilization of all manures. The accompanying photograph shows a rather elaborate manure storage arrangement built near Narberth, Pa. It is provided with a sloping floor upon which the manure spreader can be driven to dump the manure into the pit. The opposite end is open below so that the spreader can be loaded easily. This pit is provided with a roof, which is considered good practice, as it gives the manure further protection.

BROODY FOWL POOR BREEDER

Applying Leg Bands When Putting Lazy Ones in Coop Shows Them Up at End of Season.

A method used by poultrymen to make sure that hens that go broody a number of times during a season are not used for breeders is to put a celluloid leg band on the birds each time they go broody, says the New York state agricultural college at Ithaca. It will be found that some hens go broody several times during the season while others of the same breed and strain do not stop laying at all. Those hens that have four or five bands on their legs at the end of the laying season should not be used as breeders. Most of them are not even worth saving another season as layers.

Figures collected by poultry specialists show that it costs 15 to 20 cents a month to feed a hen. A hen that averages 18 eggs a month more than pays her way, even when eggs are cheap. Those that go broody often are not profitable. The college recommends visiting the hen house each night and putting all hens found on nests in the broody coop, leg-banding them at the same time. Here they are confined for 72 hours and fed laying mash, green feed, and plenty of water. If the broody coop is roomy and in a cool place they will soon "come out of it," the college predicts.

PLAN NOT TO DESTROY BEES

Yearly Complaint Made That Honey Gatherers Are Killed by Spraying Fruit Trees.

Every year a good many complaints are made by beekeepers all over the country that their bees are being killed by the spray applied to fruit trees. There is no need for this, if the spray is applied at the proper time. As a matter of fact, it is better for the spray to be applied at a time when it will not kill the bees from the stand. The point is best applied after a majority of the petals have fallen, say 95 per cent, and should come before the calyx lobes close. The spray is equally effective in controlling the codling moth if applied after most of the petals fall and it will not harm the bees.

Mystery of Baldwin Apple.

The Department of Agriculture says that soon after 1740 the Baldwin came up as a chance seedling on the farm of John Ball Wilmington, near Lowell, Mass. and for about forty years afterward its cultivation was confined to that immediate neighborhood. Eventually the farm came into the possession of a Mr. Butters, who gave the apple the name Woodpecker or Pecker, and it was also called Butters. Deacon Samuel Thompson, a surveyor of Wolburn, brought it to

attention of Colonel Baldwin

of the same town, by whom it was propagated and more widely introduced in eastern Massachusetts as early as 1784. From Colonel Baldwin's interest in the variety it came to be called the Baldwin. In 1817 the original tree was still alive, but it perished between 1817 and 1832. A monument to the Baldwin apple now marks the location.

Gratify your liking for appreciation by appreciating your neighbor.

On the Night Shift.

Nighthawks and whippoorwills work chiefly at night, when most of the other birds are off duty, and at day-break their good work is taken up by the swifts and swallows, says Nature magazine of Washington. These birds are provided with big scapnet mouths, and as they swing through the air over wide areas of country, they scoop up almost unbelievable numbers of insects. Six hundred were taken from the stomach of a single Arkansas nighthawk.

IMPORTANT: Over \$750.00 for Grape-Nuts Recipes

The Postum Cereal Company will buy not less than 101 Recipes or suggestions for new Uses of Grape-Nuts, paying \$50.00 for each one accepted. And in addition—

Good Housekeeping Institute, conducted by Good Housekeeping Magazine, will decide an award of \$2500.00 for the best four of the 101 or more Recipes or suggestions for new Uses of Grape-Nuts, so purchased:

\$1000.00 for the 1st selection \$750.00 for the 2nd selection \$500.00 for the 3rd selection \$250.00 for the 4th selection

Read carefully the terms of this offer so that you may have the fullest opportunity to share in its benefits. The conditions are so simple and fair that every housewife in the United States can take part in this National Recipe Festival!

There Is No Other Food Like Grape-Nuts

WHILE practically every man, woman and child in the English-speaking world knows Grape-Nuts as a delicious, nourishing and wholesome cereal, and while it is common knowledge that Grape-Nuts with milk or cream is a complete food, many housewives do not know of the appetizing and economical dishes that can be prepared with Grape-Nuts. It lends itself, we believe, to more uses than any other cereal. The convenience and economy of Grape-Nuts, and the flavor, zest and wholesomeness which it imparts to other food, make it invaluable in every home.

Frequently we receive interesting letters from women throughout the country, telling about the attractive dishes they make with Grape-Nuts—delicious puddings, salads, dress-

ings for fowls, etc. No doubt there are thousands of women who are finding varied uses for Grape-Nuts in their home cooking, and even more thousands who will be glad to learn of those varied uses; for while we all cling to old favorite dishes, we also welcome and enjoy a change.

So that is the thought back of our offer of more than \$7500.00 in cash for new ways of using Grape-Nuts. To those women who are already using Grape-Nuts in various ways, other than as a breakfast cereal or in the recipes given here, and to those women who would like to try their hand at developing some new way to use Grape-Nuts, we offer to buy at \$50.00 each not less than 101 new Grape-Nuts Recipes. We plan to include these new Recipes in a beautifully illustrated cook book.

What Is Grape-Nuts?

Grape-Nuts is a highly nutritious food in the form of crisp, golden granules. It contains the full nutriment of wheat and barley, including vitamin-B and mineral elements required for building sturdy health. These elements are often lacking in the ordinary diet, chiefly through "over-refinement" in the preparation of food.

Every housewife in the Land should take advantage of this extraordinary opportunity to earn the tidy sum of \$50.00 by a little pleasant and educational effort in her own home. Also the fair and equal chance to secure one of the liberal awards to be made by Good Housekeeping Institute.

Moreover, there's the greater knowledge of the value of Grape-Nuts, not only as a delicious breakfast cereal, but in the preparation of a variety of appetizing dishes that add to the health and pleasure of the whole family.

Where you don't find Grape-Nuts you don't find people.

No other food is so thoroughly baked as Grape-Nuts. More than 20 hours are consumed in the baking process which makes Grape-Nuts easy to digest, and also develops a natural sweetness from the grains themselves.

The form and crispness of Grape-Nuts invite thorough mastication—a decided advantage because this not only provides proper exercise for the teeth, but makes for good digestion.

Conditions Governing the Purchase of, and Awards for Grape-Nuts Recipes

The Postum Cereal Company will buy not less than 101 Recipes or suggestions for new Uses of Grape-Nuts, paying \$50.00 for each one accepted. This offer is open to every person in the United States.

It is not necessary to purchase Grape-Nuts. A suitable quantity will be sent upon request to those desiring to submit recipes.

Your Recipe should state the exact number intended to be served. Recipes should be carefully tested—make sure that proportions and directions for preparing will bring best results.

Form of Recipe: First, write name of your Recipe at top of sheet, underneath list all ingredients, using level measurements only; then the directions for preparing, worded simply and accurately. Do not use metric.

In considering Recipes for purchase, and for awards by Good Housekeeping Institute, we will be guided by the following points: (a) Palatability. (b) Simplicity and economy. (c) Accuracy and clearness of expression of recipe.

Announcement of the Recipes purchased, and Awards by Good Housekeeping Institute, will be made in January Good Housekeeping. Recipes submitted to the Postum Cereal Company for purchase will not be returned.

If more than one Recipe is offered, each must be written on a separate sheet. Write name and address plainly on each Recipe submitted. In the event of a tie for any award offered, an

award identical in all respects with that tied for will be made to each one trying.

Recipes or suggestions for new uses submitted for purchase must not duplicate any of the 100 Recipes printed in this announcement. No Recipe will be purchased from anyone directly or indirectly connected with the Postum Cereal Company, Inc., or Good Housekeeping Institute.

Form of Recipe: First, write name of your Recipe at top of sheet, underneath list all ingredients, using level measurements only; then the directions for preparing, worded simply and accurately. Do not use metric.

Below are ten Recipes showing a few of the many appetizing dishes that can be made with Grape-Nuts. Read them over, try some of them, and then you will find it easy to work out a new Recipe or think of a new use for Grape-Nuts, that we may purchase. And remember, your Recipe or suggestion for new use of Grape-Nuts may also merit one of the large awards.

GRAPE-NUTS Ice Cream. Prepare this favorite ice cream in the usual way. Just before the cream hardens in freezing, add Grape-Nuts as it comes from the package. On the proportion of one-half cup of Grape-Nuts to one quart of ice cream. If you buy ice cream ready made, add Grape-Nuts in place of nuts. You'll find the resulting flavor unique.

GRAPE-NUTS Salad. 1 cup Grape-Nuts 2 cubed bananas 1/2 cup cubed pineapple 2 teaspoons lemon juice 1/2 cup cottage cheese 1/2 cup mayonnaise Dressing. Cut up the fruit, add lemon juice, mix with Grape-Nuts, and serve on bed of lettuce with Cream Salad Dressing. Makes four to six portions.

GRAPE-NUTS Six Minute Pudding. 1 cup Grape-Nuts 1 tablespoon sugar 1/2 cup scalded milk 1/2 cup raisins. Cover Grape-Nuts with scalded milk. Add sugar, raisins, and a little nutmeg. Cook six minutes directly over the heat, stirring constantly, and serve with any good pudding sauce. Makes four to six portions.

GRAPE-NUTS Cookies. 1 cup Grape-Nuts 2/3 cups flour 1/2 cup shortening 2 teaspoons baking powder 1/2 cup light brown sugar 1 teaspoon cinnamon 1/2 cup milk 1/2 teaspoon salt 2 well-beaten eggs 1 cup chopped seeded raisins. Cream shortening and sugar, add milk and well-beaten eggs. Add well-sifted dry ingredients, and raisins that have been drained with part of the flour, and then the Grape-Nuts. Beat thoroughly and drop from a spoon on baking sheet one and one-half inches apart. Bake in moderate oven for fifteen minutes.

GRAPE-NUTS Cheese Casserole. 1/2 cup Grape-Nuts 1/2 teaspoon pepper 1/2 cup milk 1/2 cup cheddar cheese 1/2 teaspoon onion 2 eggs 1 teaspoon salt 1/2 cup grain paprika. Scald the milk. Add Grape-Nuts, butter and seasonings and combine with the cheese and eggs, the latter slightly beaten. Pour into a buttered baking dish, surround with hot water and bake about forty-five minutes in a slow oven. Serve as the main course at luncheon, supper, or a meatless dinner. Makes four to six portions.

GRAPE-NUTS Fruit Pudding. 1 cup Grape-Nuts 1 pint boiling water 1 package lemon-Jell-O 1/2 cup seeded raisins or chopped dates or gelatin. Add the boiling water to the Jell-O or lemon. Flavor, gelatinize and stir until it is dissolved. Pour into a mold, and after the mixture has cooled slightly, add the Grape-Nuts and raisins. Allow the mixture to chill and harden. Makes four to six portions.

GRAPE-NUTS Meat Loaf. 1 cup Grape-Nuts 1 egg 1 pound veal mutton 1/2 tablespoon lemon juice 1/2 cup milk 1/2 teaspoon salt 1/2 cup onion 1/2 cup tomato 1/2 cup carrot 1/2 cup celery 1/2 cup parsley 1/2 cup minced onion. Put the meat through a food chopper, add seasonings. Brown minced onion in a little fat before adding Grape-Nuts, milk, and slightly beaten eggs. Pack in a baking dish, shaping like a loaf of baked bread and smoothing evenly on top. Bake for forty-five minutes, heating frequently with one-half cup of hot water, a tablespoon at a time. Just before taking from oven, brush with some of the beaten white of egg and a little milk. Brown for one minute. Makes four portions.

GRAPE-NUTS Loaf Cake. 1 cup Grape-Nuts 2/3 cups Pastry Flour 1/2 cup butter 2 teaspoons baking powder 1 egg 1 teaspoon salt 1 cup milk 1/2 teaspoon vanilla Cream butter and sugar, add egg-yolks well beaten; then milk and Grape-Nuts. Beat the mixture thoroughly, fold in alternately the stiffly beaten egg-whites and four sifted with baking powder three times; lastly, add the vanilla. Have cake pan previously greased and lightly floured; fill two-thirds full and bake in a moderate oven for forty-five minutes.

GRAPE-NUTS Tomato Soup. 1/2 cup Grape-Nuts 1 sliced onion 1 quart tomatoes 2 teaspoons salt 2 cups water 1/2 teaspoon onion 10 peppercorns 1 whole onion. Cook tomatoes, water and seasonings twenty minutes; strain and add salt and soda. Crush the Grape-Nuts with a rolling pin. Melt the butter, add the sliced onion, combine and heat the soup to the boiling point. Substitutes whole Grape-Nuts for tomatoes in serving individual soup plates. Makes four to six portions.

GRAPE-NUTS Fudge. 1/2 cup Grape-Nuts 2 squares chocolate 1 cup granulated sugar 1/2 teaspoon salt 1 cup milk 1/2 teaspoon vanilla. Combine the sugar, milk, chocolate and salt; place over a slow heat, and stir constantly until the sugar is dissolved. Then continue boiling gently, without stirring, until the thermometer registers 230 degrees F., or the mixture forms a soft ball when dropped in cold water. Put the nuts in bowl of cold water and allow to stand open. Remove and add the boiling sugar and salt. Beat the mixture well creamy and thick, then add Grape-Nuts and continue heating until thick enough to knead. Turn out on a buttered plate and cut into desired squares.

 HENRY GATES, Editor.
 Entered as second class matter July 22nd, 1908, at the post office, Sanderson, Texas, under the Act of March 3, 1879.

Mrs. Emma Young and daughter of Hondo is visiting her mother, Mrs. Joe Wolfe and her sister Mrs. Ben Dawson.

Mr. and Mrs. Bert Williams and baby of Alice, Texas spent several days in Sanderson this week visiting Mrs. J. W. Happle.

Wear a Madison made silk shirt and keep cool this summer, for sale at the Royal Tailor Shop, all sizes and prices.

DRYDEN NEWS
 (By our regular correspondent)

Mr. Finch from Devine is visiting his daughter, Mrs. Charles Thomas, this week.

Mr. and Mrs. J. D. Nichols and children made a business trip to Sanderson Thursday of last week.

Mesdames Chas. Thomas and Willie Banner made a business trip to Del Rio last Saturday.

J. Berkely from Houston is visiting Mr. Latimer and family this week.

Fount Sharp and Billie Howard from Sanderson were down Monday on business.

Mrs. M. Miller is on the sick list this week.

Mrs. J. D. Nichols and daughter Bernice went to Del Rio Tuesday on business.

Edmond Jones and son Lewis returned from Roswell, New Mexico, Monday, where they have been on business.

Church News of Sanderson
 (This column is devoted to the interest of our churches and will be run each Saturday)

Presbyterian Sunday School opened at usual hour last Sunday. Several pupils and some teachers were absent. An excellent lesson and good singing enjoyed.

Mrs. H. D. Williams took charge of opening exercises at Presbyterian Sunday School last Sunday, our good superintendent being absent in El Paso. Mrs. McKee is back home now and will take her usual place Sunday.

Bro. McMillian will not fill his pulpit in the morning (13th) but will be here for the evening to preach the baccalaureate sermon in the school auditorium at 8 p. m.

with Mrs. Virgil Ellis on the 9th with 8 members present and 3 visitors. Missionary study. The next meeting will be with Mrs. Turner on the 16th. All are cordially invited to come.

Our president, Mrs. Tardy, will be present next meeting, being home again from her visit.

We, myself and wife, wish through the medium of this column to thank and show the appreciation we feel to our many friends and the good people of Sanderson for the very liberal "pounding" given us last Thursday evening. Also for the kind reception given us when we arrived on No. 110, and for the excellent dinner prepared for us by the ladies and sent to the parsonage.

With hearts full of love to all, and for the work of the Master,
 Yours sincerely,
 Rev. Joe Bickley, and family.

The Big Men of the District

We number among our friends and customers men big enough to buy out this business outright were it for sale.

They trade here because in their own up-hill climb towards Prosperity, they have acquired real ideas of value and they find that our merchandise corresponds to their ideas of the value that should be found in merchandise.

They also find that the prices we quote correspond to their ideas of what prices should be.

The more merchandise that is bought on this basis, the better for us—our merchandise gives so much for a moderate price.

We always invite an honest comparison of our prices, quality for quality, with prices quoted elsewhere. Such a comparison pleases us because it usually means for us a pleased and a permanent customer.

RATTLE OF THE RAIL.

R. Templeton has returned to El Paso.

O. Stansell of El Paso is now firing out of Del Rio.

W. B. Shine, division storekeeper, was here from El Paso Tuesday.

Fireman Artman and Frandolig have gone to Del Rio to take a freight run out of there.

President Scott and Vice-President Waid of the Southern Pacific, Texas and Louisiana Lines, and party of Houston, made a tour of the Orient from Alpine to Sweetwater, Texas, Tuesday and Wednesday, going from Sweetwater to Fort Worth over the T. & P. Engineer Slocumb and Fireman F. E. Brown took the train from here to Sweetwater accompanied by Fireman Cartwright as messenger.

Fireman Cargile and wife returned Sunday from a trip to El Paso.

Two passenger cars of veteran pensioners from the Southern Pacific lines in Texas passed through Sanderson Monday enroute to San Francisco for a gathering of all of the pensioners of the Southern Pacific Lines and Union Pacific. Last year there were 800 in attendance.

A number of the old-timers will be sorry to learn of the death of J. G. Ewald in El Paso two weeks ago. Mr. Ewald was stationed here as agent about 25 years ago.

The 920 numbers of the Pacific type passenger engines here have been changed to the 600 numbers, the 920 now being the 610.

The regular bi-monthly Safety meeting of the Southern Pacific Lines was held at Sanderson, Thursday, May 10th. Delegates from all points of the Texas Lines were present.

12. "Mothers Day."—Marie Bickley.
13. Song No. 13.
14. Prayer, led by Mrs. des Landes.
15. Benediction.

WEDNESDAY BRIDGE CLUB

Mrs. James Kerr was hostess to the Wednesday Bridge Club and additional guests at a delightful party Wednesday afternoon at her home.

The reception hall and living room were beautifully adorned with baskets of roses, snap dragons, and larkspur. After four games were played, Miss Sybil McKee was awarded first prize, Mrs. Vance McLymont second, and Mrs. J. W. Happle cut the consolation prize.

The guests were then invited into the dining room, a perfect bower of roses. Covers were laid for twelve about the table which was lovely with four baskets of roses, tied with bows of maline, the colors blending perfectly with the flowers, and lighted by five tapers held in silver candle-sticks in the center. A refreshing two course luncheon was served.

The guests at departing received quite a pleasant surprise when the hostess presented each one, who had not scored a prize, a pretty bouquet of roses.

Those who enjoyed this very pleasant afternoon were Mesdames John Green, F. B. Carter, W. T. Carpenter, Vance McLymont, Paul Lowry, J. W. Happle, Edward Dowdle, Max Bogusch, Sims Wilkinson, John Stovell, Misses Naomi Wells and Sybil McKee.

Letter of Appreciation
 Alpine, Texas, May 8, 1923.
 Sanderson Times,
 Sanderson, Texas.
 Gentlemen:

I wish to express my sincere thanks in behalf of the courtesy and business extended the writer by the Sanderson people during my business visit pertaining to the Waldron organization.

I further beg to state it was the first effort of anyone going out direct to sell Waldron shares, other than at Alpine by said organizer.

A period of three years having elapsed since locating here, during which period devoting all my time, energy and ability to this industry, ascertaining the possibilities in this quicksilver mining district. Today with a great future. Productive mines are made, not found.

Thanking you, I am sincerely,
 E. A. Waldron.

School Notes

The cooking class served the faculty with a delicious dinner last Friday. Everything passed off nicely and the teachers said that the class was certainly progressing rapidly. We are sorry to say that Prof. MacCalmont hasn't been able to be at school since.

The Seniors were entertained Saturday night at the home of Mr. and Mrs. Maynard Boling, with a hard luck party. They were royally entertained and all had a very enjoyable time.

Mary Alice happened to a slight accident the other day in algebra class. We hope she has at least recovered her poise.

The Seniors are now ready for their two weeks seniority "What we have been going to school for all these years." There will be seven masterpieces composed in Sanderson during these two weeks, the occasion being the long looked for opportunity to express their opinions to the public.

The baccalaureate sermon will be delivered by Rev. J. A. McMillan at the School Auditorium, Sunday evening at 8:15. A good musical program will be rendered by the pupils of the High School. Everyone is welcome.

From Dryden, Texas
 (Special)

Miss Nell Chandler has resigned her position with the Del Rio Western Telephone Company, where she has been employed since last October. Miss Nell will take charge of the telephone exchange in Dryden. Mrs. W. D. Chandler (her mother) has had charge of the Dryden exchange since Miss Nell's departure. All are proud to have Miss Nell back and hear her pleasant voice over the line.

Miss Helen Vasbinder of Del Rio is spending this week in Dryden with Miss Nell Chandler. This is Miss Vasbinder's second visit in Dryden and she states the scenery is beautiful and she likes the people fine.

Don't forget the old-time dance in Dryden on May 17. Refreshments will be served. Everyone is welcome.

Mrs. C. F. Burling and children of Alpine came in Wednesday to visit her mother, Mrs. J. B. Ross, and other relatives.

Why annoy your neighbor for the use of his Telephone when you can have one in your house for \$2 Per Month?

Sanderson Telephone Company

Small Cars and the World's Most Popular Tire

The largest factory of its kind in the world is devoted solely to the production of Goodyear Tires, sizes 30x3, 30x3½, and 30x4. Isn't this immense production, day after day, a positive indication to you of Goodyear's high ability and honesty of purpose in building the best Clincher tire on the market. THINK IT OVER. These tires, as well as other sizes, are here for your inspection. They cost no more than ordinary tires. Our helpful tire service will increase your mileage. It costs you nothing and saves you money.

MUSSEY BROS.

The Senior League program Sunday will begin at 6:45, so all may go to the school house for the baccalaureate sermon. The program is as follows:

Subject, "Good Mothers." To be selected from the Bible or modern literature; and discuss her life, works, or any other phase you see fit. Names to take this up are as follows: Mesdames Taylor, Harper, and des Landes; Miss Puckett; and Messrs Garrison and Smith.

Song service and League benediction.

The "Tacky Party" given to Junior Leaguers last Thursday was a complete success; there were 55 present. Sam Winn was the most tacky "girl," and Cecil Turner the most tacky boy. The prize was awarded to Lilliemae Lea as winner in guessing contest. Refreshments were ice cream cones and candy. All enjoyed themselves.

The ladies of the W. M. U. met

For your friend graduate why not give them a nice box of Ham merrill Bond Stationery? Come in the Times office and let us show them to you.

W. H. Callaway, the popular manager of the Van Noy Interstate Restaurant, has placed an order with the Casner Motor Co., for a new Buick "Six." The car will be delivered in a few days.

Subscribe for the Times To keep up with the Times.

Dr. L. C. Popp, dentist of Alpine, returned to that place Wednesday after spending a week here in the interest of his profession.

FOR OVER 40 YEARS
 HALL'S CATARRH MEDICINE has been used successfully in the treatment of Catarrh.
 HALL'S CATARRH MEDICINE consists of an Ointment which quickly Relieves by local application, and the Internal Medicine, a Tonic, which acts through the Blood on the Mucous Surfaces, thus reducing the inflammation. Sold by all druggists.
