

First Open Air Concert Big Success

Second One Will Be Given Tonight at 7 O'clock

The first of a series of open air concerts was given last Friday at 7 o'clock by the High School Band under the direction of M. K. Sandifer, in the Kerr park.

A large crowd of interested citizens were out to enjoy the concert which was well given. Our band has made much progress under the leadership of Mr. Sandifer, who has proven his ability as an instructor.

The following program was given: Marches: "Mutual," "Summit," "Normal," Military Escort; serenade, "Idle Fancy;" overture, "Ambition;" one step, "Mister Joe."

Following are the personnel of the band and the instruments they play: Trumpets Henry Goldwire, Lee Hardgraves, A. C. Clatfelter, Billy Goldwire, Bernard Kerr, Bobby McCue. Flue-gar horn—Harold Lee Grigsby; baritones—R. E. Griffith, Joe Kerr Jr.; trombone—Raymond Thrift, Herbert Brown, Cleveland Deaton; sousaphone—Laury Stradley; alto horns—Jim Stovell, Bobby Lea, Richard Haley, Billy Latimore; saxophones D. C. Thrift, Junior Lemons, Robert Kerr, Billy Ferguson, Jack Shelton, Daniels Ochoa; clarinets—Aylmer Griffith, H. D. Johnson, Saver Lee Sharp, Elton Halley, Hollis Haley, Albert Appel, Charley Laughlin; obo—Tom Stovell; piccolo—Maurice Griffith; flute—Troy Druse; Drums—J. R. Black, Robert Pollard, Allen Owen, Jean Banner.

Another concert will be given this Friday at 7 p. m. at which time another entertaining program will be played.

Deputy Grand Matron Here

A regular meeting of Sanderson Chapter No. 136 of the Order of Eastern Star was held last Tuesday evening at the Masonic Temple.

Mrs. Hallie Peters, deputy grand matron for this district, of Rocksprings, paid an official visit to the order. Mesdames Greer, Epperson and Franks of Rocksprings were also guests at the meeting.

The hall was beautifully decorated in wild flowers. Mrs. W. H. Savage presented Mrs. Peters with a gift and a bouquet of the order's emblematic colors. The other visitors, Mesdames Franks, Greer and Epperson of Rocksprings were presented with nosegays of pansies and Mrs. Kernal was presented with pansy for her wonderful help.

After the meeting closed all were invited to the dining room where delicious ice cream and angel food cake was served to thirty nine guests by the hostesses Mesdames Joe Nance, A. B. Dyer and Tom Parson.

Mr. and Mrs. D. P. Southall and baby of Comstock, spent Sunday here with Mrs. Southall's parents, Mr. and Mrs. P. F. Sullivan.

AMERICA'S "FUNNIEST MAN" TO APPEAR

Jay Tobias Will Feature Chautauqua Program

"The funniest man since Bill Nye," is the sobriquet that has been given to Jay Tobias, headliner on this year's Chautauqua program. Millions of Americans will go anywhere at any time to hear and see Will Rogers. Will Rogers is funny

for what he says while Jay Tobias is funny for what he does. His every act and move is just irresistibly comic. The accompanying pictures show some of his costumes and poses in his appearances. Jay Tobias has been heard from coast to coast in Chautauqua and

Vaudeville and Musical Comedy appearances and is worth taking a day off just to see. There is no one else in the country like Jay Tobias, and Chautauqua patrons are fortunate in the opportunity they have seeing him at Chautauqua this year.

Chautauqua's Second Day's Program, May 12

Garvey Appointed Auditor Bexar Co.

Edgar G. Garvey was re-appointed county auditor by the five district judges of Bexar County last Saturday morning.

Garvey was appointed last November to fill the unexpired term of the late Walter S. Kendall, who died while holding the office. Harvey was assistant auditor when appointed.

Kendall's term was to have expired May 1 and Garvey's appointment Saturday was for the regular two-year term beginning on that date.

—San Antonio Express. Garvey is well known in this city being the son-in-law of Mr. and Mrs. R. L. Doak. In 1911, he was assistant cashier of the Sanderson State Bank. He has been in the auditors office in San Antonio for several years. His many friends here are glad to learn of his appointment and wish him further success.

Band Director Presented Gift

The Sanderson High School Band and Orchestra presented M. K. Sandifer, their director, with a trumpet case on Tuesday, April 14th, during the chapel program. Mr. Sandifer was presented this gift by the band and orchestra to show their appre-

New Water Well a Light Producer

Ten Gallon Flow Struck at 475 Foot Depth

The Texas-Louisiana Power Company have stopped drilling on the new water well that was being put down south of the plant near the wool house. Mr. Cox who had the contract for drilling the well, has already removed the drilling rig. The work was ceased at a depth of 475 feet. At this depth a stream of water was struck that tested out 10 gallons to the minute. Hopes had been entertained for a much better well running 40 or 50 gallons to the minute. However, even a ten-gallon well will help some. A derrick has been erected and this well will be put on pump soon.

It is reported that the company will probably drill another well up on the side of the hill just west of the present wells. There are three wells now on this hillside, the east well, middle well and west well. The middle well is the best producer, making about 40 gallons per minute. The west well was formerly the best producer until it began to fall down some time ago.

and for the excellent work which he has done this year. —Contributed.

Improvements At Court House

Concrete Stiles and Sidewalk Being Put In

The county road gang started to work here in town Monday of this week. The gang has been in town several days but have been waiting for Francis Mansfield to finish the concrete work on the cattle guards on the Dryden-Sheffield road. Francis put in cattle guards form Dryden to the Noley Scott ranch, (Eugene People's precinct) and it is reported that Commissioner R. E. Fred will put in guards from the Scott ranch on through his precinct (No. 4) which will reach the Pecos county line.

At present the old dilapidated wood stiles at the courthouse are being torn down and new concrete stiles, three steps high, are being put in. A concrete sidewalk will be placed in front of the stiles as well as a concrete walk from the stiles to the courthouse entrance.

It was the intention of Commissioner W. E. Stirman of this precinct to remove the old courthouse fence along the front of the yard and put in a concrete curbing 18 inches high in its place, but owing to the fact that the Texas Legislature passed a law putting tax paying off until October, making funds short, this improvement will not be undertaken just now, but will probably be done this fall. Incidentally, since the Legislature passed the delayed-tax-payment law a large number of counties in the state have had to borrow money at 10 per cent to get by on. Terrell county, however, is going along very nicely without borrowing any money.

ELEMENTARY SCHOOL HONOR ROLL

First Grade: Helen Ruth Harrell, Jimmie Wilkerson, Earl Hurst.

Second Grade: Lillian Harrell, Kenneth Litton, Reginald Monroe.

Third Grade: Mary Beth Banner, Amanda Haass, Billie Louise St. Clair, Margaret Ann Gregory, Elizabeth Brown.

Fourth Grade: Lorraine Haley, Bertha Mae O'Bryant, Fay Griffith, Mildred Hurst.

Sixth Grade: Mary Ferguson.

Oil Drilling Active In This County

Many New Test Wells To Be Put Down

Vast interests in the path of oil developments in this county is now taking place in spite of the low price on all commodities in the industry. Our reporter has just returned from a two weeks stay in a hospital and finds that the Big Bend Oil Corporation's test, Bassett No. 1, situated on the center of north-west quarter of section 155 in Block D, M. K. & E. Ry. Co. survey, is now drilling in a very favorable formation at the depth of 2669 feet. The Keck Pecos Trust Co. test, Hamilton No. 1, on center of section 6, cert. 100, Cedar Springs Block, Georgetown Ry. Co. survey, is drilling at a depth of 3150 feet with the prospect of bringing in a good producer. Miller Brothers, No. 1, Allison and Merk, situated on the center of section 10, Block 176, Texas Mexican Ry. Co. survey, is reported drilling at the depth of 126 feet. The Mid-Kansas Oil & Gas Company and Trans-Continental's test, M. H. Goode, Sr. No. 1, situated on section 26, Block 161, G. C. & S. F. Ry. Co. survey, is reported to be nearing the oil producing zone similar to that found in the Texon and Big Lake districts. Wooley and Jones, No. 1, Packenham test, situated on center of south-east quarter of north-west quarter of section 43 in Block B-2, C. C. S. D. & R. G. N. G. Ry. Co. survey, is now drilling in a favorable formation similar to that of the Yates Pool area at the depth of 912 feet.

Mrs. Jessie McPhee of Los Angeles, Calif., has recently arrived with her geologist and driller from the Golden State, and are now in the vicinity of Dryden, Texas, transacting business, according to information received by our reporter from a very important man in the oil industry of Long Beach, California. It is reported that Mrs. McPhee has leased a 640 acre tract of land to an independent concern who will immediately sink a deep test if necessary to prove up the field in which she and her clientele have holdings.

An independent operator called to see the editors of the local newspaper of this city yesterday, informing her that a local company composed of foreign capital, intends to sink a test for oil and gas on the John F. Nichols ranch in Block D-10, T. C. Ry. Co. survey, in the vicinity of section 56, and also another test on the Joe Nichols ranch in the vicinity of section 48 in Block D-10, T. C. Ry. Co. survey, in the near future.

It is already understood that E. M. Roger and associates of Ft. Worth, Texas, will eventually drill a deep test on the Frank K. Harrell ranch within approximately four miles of this city on the anticline through which the Sanderson Canyon has cut its channel and which is very prominently mentioned in Bulletin No. 1819 of the Geology of Terrell County, written by D. B. Christner and O. C. Wheeler on April 1st, 1918, and may be purchased from the University of Texas at Austin, Texas, from the Bureau of Economic Geology and Technology, for the probable sum of forty cents.

Mr. and Mrs. A. E. Creigh Jr. and Judge G. J. Henshaw left Wednesday for El Paso where they will represent the local Rotary club at the district meeting of the International Rotary convention which was held in that city Thursday and Friday of this week.

Road Contract Let Yesterday

Bad Hills To Be Cut Down and 4.5 Miles Graded

Contracts were let in Austin yesterday, Thursday, by the State Highway Department, for the grading of four and a half miles of highway and cutting down the two bad hills on the Fort Stockton road, known as highway No. 82.

This work will begin at a point 17 miles north of here and extend to the Terrell county line, towards this city.

Two large hills, which are now almost impassable, will be cut down and placed in good condition. When this work is completed it will put this highway, 82, in fine shape from the New Mexico line near Hobbs, through Wink, Monahans, Fort Stockton and on to here connecting with the Mexico Border Highway. This will also afford a direct cut-off to Carlsbad Cavern by the way of Fort Stockton and Pecos for traffic on the Border Highway and all points in South and Southwestern Texas.

Pecos county citizens have been anxious about this improvement and have been working for it for sometime. Pecos county has graded and improved the balance of this highway and it is now in good condition. That part of highway 82 that is in Terrell county has been put in excellent condition and since the "big hill" was cut down and placed in good condition two years ago there has been lots of travel over the highway to Stockton.

We know that our citizens and especially all the ranchmen who use this highway will be glad to know that the "41" hill especially is to be cut down and put in good condition.

John Stovell, resident engineer of this county, will be in charge of the work.

MRS. EDNA TYLER PATTERSON

Funeral services were held in Sabin Monday for Mrs. Edna Tyler Patterson, who died in Detroit, Michigan, April 24.

Mrs. Patterson is well known here having at various times visited her sister, Mrs. O. H. McAdams. Other surviving relatives are, her husband, Fred Patterson of Detroit, her father, A. N. Tyler of this city, four sisters, Mrs. N. S. Jones of Castolen, Mrs. H. S. Peters and Mrs. David Crews of Sabin, and Mrs. O. H. Adams of this city; two brothers, John Tyler of this city and Hal Tyler of San Antonio.

The many friends of the bereaved family in this city extend sympathy to them in their loss.

Mr. and Mrs. J. L. Glass and daughter, Miss Melburn, went into El Paso last Thursday night, where Miss Melburn was taken for medical treatment due to an infected eye.

Mrs. A. F. Thrift had as her guests last Sunday her mother, Mrs. R. W. E. Hirst, her brother, Bobby Hirst, and Miss Darley Wood, all of Ft. Stockton.

Large Kitchen Handy as Dining Room

(Prepared by the United States Department of Agriculture.)—WNU Service.

In the country, large kitchens are more or less necessary, because at certain seasons food must be prepared in considerable quantity to provide for the extra helpers in the farm work. Frequently it proves practical and convenient to use the kitchen as a family eating place, rather than to carry food

Dining Table at One Side of Kitchen.

and dishes some distance to the dining room. The kitchen range makes the room very comfortable and it is not necessary to increase the heat else-

Apples Are Used in Tasty Hot Dessert

A hot dessert in which apples decorate as well as flavor can be cooked in a skillet or in a heavy baking dish in the following way, says the bureau of home economics of the United States Department of Agriculture:

- 1/2 cup butter or lard
- 1/2 cup sugar
- 1 egg
- 1/2 cup vanilla
- 1 1/2 cups sifted soft wheat flour
- 1/2 cup cinnamon
- 1/2 cup salt
- 1/2 cup milk
- 1 to 4 firm-fleshed apples
- 1/2 cup sugar

Cream the fat, add the sugar, well-beaten egg, and vanilla. Sift the dry ingredients together and add alternately with the milk to the first mixture. Spread a thick coating of fat on the bottom and sides of a square or oblong baking dish or a very heavy pan. Pare, quarter, and slice the apples thin, spread in a single overlapping layer on the bottom of the baking dish, sprinkle with the mixture of cinnamon and sugar, and add another layer of apples and the remaining cinnamon and sugar. Pour the cake mixture over the apples. The batter is rather thick and may need to be smoothed on top with a knife. Bake in a very moderate oven (350 to 325 degrees Fahrenheit) for 45 minutes. Loosen the sides of the cake, turn it out carefully, upside down, and the top will be covered with neat layers of transparent apples. Serve hot with hard sauce or whipped cream.

Peaches-Mousse Combination Popular

Mousse With Canned Peaches for Dessert.

(Prepared by the United States Department of Agriculture.)—WNU Service.

Peaches and cream in combination become a dessert de luxe when the cream is frozen. A mousse, or ice cream frozen without stirring, is especially good for the purpose since mousses require somewhat heavier and richer cream than ordinary ice cream, made by churning in a freezer with a dasher. Peach melba is the dessert made by putting the ice cream into large halves of canned peaches, and it is a very pretty and attractive dish, but sometimes a little unmanageable on the plate. For that reason you may prefer to slice the peaches into convenient sections and serve them, with a little of the juice they were canned in, as a sauce or garnish. Vanilla is the most satisfactory flavor for mousse that is served with a fruit sauce, unless some of the fruit pulp is mixed with the cream and frozen also.

To make plain vanilla mousse, frozen either in a refrigerator with a mechanical unit or by packing in ice and salt, the following recipe from the bureau of home economics of the United States Department of Agriculture may be used:

- 1 cup double cream
- 1 cup rich milk
- 1 thin cream
- 1 tsp. gelatin
- 5 lbs. sugar
- 2 egg whites
- 1-16 tsp. salt
- 1/2 tsp. vanilla

Soak the gelatin until soft in a little of the milk or thin cream. Heat the remainder, and pour over the gelatin. Add the sugar and stir until dissolved,

where in the house, if much of the family activity goes on in the roomy kitchen. However, from the home-maker's point of view, the main consideration, in having family meals in the kitchen, is the step-saving feature.

The old-fashioned way was to put a large table right in the middle of the room. This was apt to make more work than it saved, for the housewife had to walk around it constantly in getting meals and doing other tasks. It always seemed to be laden with odds and ends about the time it was wanted for the next meal. A much better plan when a large kitchen does double duty, is to group the dining table and chairs at one side of the room, and bring the work centers close together on the other side. Placing the dining table to one side does away to some extent with the temptation to use it as an extra kitchen table.

The bureau of home economics of the United States Department of Agriculture has made a study of convenience in the kitchen, and emphasized the need of grouping work centers to route the tasks in logical order. Preparation of raw foods, cooking, serving, and clearing away and dishwashing, are the four activities that follow each other every day, and several times a day, in most kitchens. Compact centers for these jobs should therefore follow the same order around the room from left to right, for the right-handed worker. The centers for serving and clearing away and dishwashing should be nearest the dining room and close together. In this case they will be nearest the dining center. A glimpse of the sink on one side of the picture shows that this plan has been met in a satisfactory way in the farm kitchen that was photographed. The large closet is near both the sink and the table for putting dishes away or for setting the table.

Buttons Play an Important Part

By CHERIE NICHOLAS

Looks as if Dame Fashion had cornered the button market this season. The importance of buttons as they either fasten or trim the new

blouses, frocks and coats cannot be overstated. What counts most in this game of "button, button" which designers are playing with so much enthusiasm this season is to so position them that they will be as decorative as they are useful. From the various suggestions in the picture one may get an idea of both the effectiveness and the versatility of button treatments as they enhance the new modes.

Particular attention is called to the coat where the buttons are placed below the waistline. On the dress the buttons at the neckline have gone diagonal as has the movement of the stripes which pattern the material. The skirt is one of the new buttoned types which is so popular at present.

The first wee sketch in the illustration goes to show that even a single button if placed at the very most strategic point can be highly ornamental.

Notice in the next little picture that buttons are ranged on a plaid waistcoat. The vogue for waistcoats or mannish vests with either single or double-breasted buttoning is emphasized, in connection with the tailored suit which is so smart for spring.

Crystal buttons arranged on either print silks or summery cottons in connection with scallops as shown in the third sketch at the top of this group make a very effective trimming.

Below, considering the sketches from left to right, the first suggests an interesting placement of buttons on both skirt and bodice, the white triangular rever producing a striking contrast.

The same idea of buttons on both skirt and the blouse or vest is pleasingly varied in the center miniature drawing.

Among the lessons taught by this group of suggestions two are outstanding—the placement of buttons on the diagonal and the use of buttons below the waistline as they button the coat or the skirt.

Fairy Tale for Children at Bedtime

By MARY GRAHAM BONNER

One day as the fairies were playing in the beautiful garden, and were talking to old Mother Earth, they heard some little whispers down in the ground.

"Oh, we are so anxious to come up," was one of the little whispers.

"Dear me," said one of the fairies, "what does that little whisper mean, Mother Earth?"

"Oh, that is one of those impatient little radishes. They cannot bear to stay in the ground when the nice spring weather is here.

"Besides, they think they're very beautiful, and that red is so bright and gay after the long winter of snow, and the early spring days of slush and mud.

"They are really very proud of themselves, and now they are becoming so anxious to get up that I suppose I must let them very soon."

Then, from not far off, some other whispers came up through the earth. They were quite like those of the

radishes, but not exactly the same. The fairies decided this time it was something else besides an impatient little radish whispering.

"We want to come up," said the sounds. "We can just see above the earth, and we like the looks of everything on top of the ground."

"Our families have often told us how nice Mr. Sun is and Mr. Spring

and old Mr. Giant, who was walking by, said:

"Well, you give one for the radish family, and I'll give one for the lettuce family, and we'll see which will give the party first of all."

This made the greatest excitement in Fairyland. But didn't those little radishes grow and grow until they were ready to be pulled up first.

And they were so proud!

Never before had they been at a dinner party given by the fairies.

They certainly were looking their best—so red and bright, and tender and young.

Old Mr. Giant thought it a great joke that the radishes had won the race in this way.

And then he had a dinner party.

At the first party the treat was radishes, and at the second, it was lettuce!

Mr. Giant Who Was Walking By.

Rain, and that when we came up and looked about us we were admired right away by real people.

"Then we were taken up and put on a lovely dish and something soft and cool put over us—they called it dressing, and then we were eaten up."

The fairies laughed hard at that, for they were not used to hearing whispers such as:

"Then we'll be eaten up," said in such happy tones.

"Well," said the Queen of Fairies, "I can plainly see that the only thing for me to do is to give a dinner party."

Grand Jury's "True Bill"

A true bill is the finding of a jury charging a certain person with the commission of an illegal act. In other words, when facts are presented to the grand jury by the prosecutor tending to show that a crime has been committed and a certain person is indicted and the finding is known as a "true bill."

Consort Untrue to Napoleon

Marie Louise of Austria deserted Napoleon when he was on his way to Elba and returned to Vienna with Count Neipburg. While Napoleon was at St. Helena, Marie Louise lived openly with Neipburg at Parma, and she bore the count a son shortly after the death of her exiled husband.

Fresh Cheese

If you cut cheese in long strips and put in a glass jar, screwing the lid on tight, it will keep fresh till the last bit is used. It can be kept in the ice box in this way without harming other food.

Braised Lettuce Makes Welcome Dish

Lettuce, like other green leafy vegetables, may be cooked as well as served raw. The iceberg type of lettuce is especially good, when prepared by braising. A suggestion of bacon fat makes the result very tasty. The bureau of home economics of the United States Department of Agriculture has tested the recipe and recommends it.

- 1 large head lettuce
- 1/2 cup salt
- 1/2 cup pepper
- 4 tbs. bacon fat

Cut each head of lettuce into four pieces, taking care that a portion of the center stem is left on each section to hold the leaves together. Heat the fat in a large skillet, put in the lettuce, cover, and cook for 30 minutes, or until the lettuce is tender. If much liquid is drawn out of the lettuce, discard some of it during cooking. Turn carefully if necessary. Sprinkle with salt and pepper and serve on a hot platter.

Ancient Horse Racing

The first horse race was run in 690 B. C. in the twenty-third Olympiad at Athens. The distance was four miles. Eight years later the first harness horse competition took place in the twenty-fifth Olympiad, when the horses drew chariots.

Fresh Cheese

If you cut cheese in long strips and put in a glass jar, screwing the lid on tight, it will keep fresh till the last bit is used. It can be kept in the ice box in this way without harming other food.

Recipes and Food Suggestions

By NELLIE MAXWELL

Everyone now believes that there is in a man an animating, ruling characteristic essence, or spirit, which is himself. This spirit, dull or bright, petty or grand, pure or foul, looks out of the eyes, sounds in the voice, and appears in the manners of each individual. It is what we call personality.—Charles W. Eliot.

The following may be found helpful to many young housewives:

No woman who practices trading at the fancy grocer's or the delicatessen can call herself a thrifty housewife. We have too many of these stores supplying food that should be prepared at home at half the expense. Any woman with the strength to walk to a store and shop should be ashamed if she be equipped with a stove and kitchen of her own. In the large cities there is a reason for these markets and they are of course a great convenience for those able to pay for the delicacies which the stores prepare and sell. We had enough instruction during the late war to use up every bit of food advantageously; but it is useful that this knowledge be passed along each year to those young housekeepers who still are in need of it.

Simple things, nicely served, are most enjoyed. Frills may entertain, but the average person likes good, well-cooked and seasoned food, hot or hot plates if it should be hot and cold if it should be cold.

Coffee and most fruit stains are removed by pouring boiling water through the cloth at an elevation to give it force when falling. However, if cream is present, that must be removed with cold water and soap. With material which cannot be treated with boiling water, rub the stain gently with glycerine, rinse in warm water and press on the wrong side.

In making toast remember that quickly made toast browned on the outside has driven all the moisture into the center and has made the crumb soft and not good for those who have indigestion. A dry crisp piece of toast is made by first heating the bread very hot in the oven, then toasting quickly. It browns more evenly and is much more digestible.

Egg Milk Shake.—Beat three eggs very light, add four tablespoons of sugar, a few grains of nutmeg and cinnamon, three cups of milk, one teaspoonful of vanilla. Beat well and serve cold.

Cream of Celery Soup.—Use the outside stalks for making soup; they have the flavor and the tender inner stalks may be reserved for the table.

Wash and cut the stalks into pieces, allow one cupful of celery to two cupfuls of water. Cook until the celery is soft. Add salt to taste just before the celery is done. Strain and add two cupfuls of thin cream, thickening or binding the soup with a tablespoonful each of butter and flour cooked together; cook until smooth, serve hot. An egg well beaten adds richness and makes a most tasty soup.

Bran Bread.—Mix the following ingredients: One and one-half cupfuls of dark sirup, one-teaspoonful of soda, one and one-fourth cupfuls of sour milk, one and one-half cupfuls of bran, one-half cupful of seeded raisins, two teaspoonfuls of baking powder and one-half teaspoonful of salt. Bake in a well-greased baking pan for an hour. Put into a moderate oven and increase the heat until well baked.

Interesting Royal Watch

A clock of note has for its dial a gold watch made for George IV, and which still has attached to it the chain and watch-key used by that monarch. In a glass-paneled case below is a curious apparatus by which, at the stroke of twelve, a steel needle is projected through a hole in the rim of the watch case and automatically adjusts the minute hand should it be fast or slow.

Dragging Days and Restless Nights

Lack of pep is frequently caused by clogged-up systems. Feen-a-mint is thorough, dependable yet gentle in action. Effective in smaller doses because you chew it. Modern, scientific, safe, non-habit-forming.

Kill Rats Without Poison

A New Extremator that Won't Kill Livestock, Poultry, Dogs, Cats, or even Baby Chickens. K-R-O can be used about the home and country yard with absolute safety as it contains no deadly poison. K-R-O is made of Squill, as recommended by U.S. Dept. of Agriculture, oven-dried under the Concha process which increases maximum strength. Used by County Agents in most rat-killing campaigns. Money Back Guarantee. Insist upon K-R-O the original Squill Extremator. All drug stores, 75c. \$1.25 \$2.00. Direct if dealer cannot supply you. K-R-O Co., Springfield, Ohio.

K-R-O KILLS-RATS-ONLY

Carolina Woman Lost 47 Lbs.

In 3 Months and Feels Years Younger

"I have been taking Kruschen Salts for nearly 3 months. I have continued taking one teaspoonful in warm water every morning. I then weighed 217 pounds, was always bothered with pains in my back and lower part of abdomen and sides.

"Now I am glad to say I am a well woman, feel much stronger, years younger and my weight is 170 pounds. I do not only feel better but I look better, so all my friends say.

"I shall never be without Kruschen Salts, will never cease taking my daily dose and more than glad to highly recommend it for the great good that it is in it." Mrs. S. A. Salsogen, New Bern, N. C., Jan. 1926.

"P. S. You may think I am exaggerating by writing such a long letter but truly I feel so indebted to you for putting out such wonderful salts that I cannot say enough."

A bottle of Kruschen Salts that lasts 4 weeks costs but 85 cents at drug stores the world over. Take one half-teaspoon in a glass of hot water every morning before breakfast.

Attention to diet will help—cut out pastry and fatty meats—go light on potatoes, butter, cream and sugar—the Kruschen way is the safe way to lose fat. Try one bottle and if not joyfully satisfied—money back—Adv.

Stomach and Kidney Remedy

Twenty-five years experience has proved the value of my stomach and kidney remedial. Unless trouble is organically malignant, stomach and kidney trouble quickly disappears. One bottle will convince you. Have successfully treated cases by mail in 100 different states. Send \$2.00 for bottle of either in postage prepaid. HADDAM DRUG CO. H. M. Haddam, M. D., Superintendent, Haddam, Conn.

Unique Record

Thomas Smith, of Syracuse, N. Y., who worked for a railroad six days a week, yet never missing a day for thirty years, yet never rode on a train, has been retired with his name inscribed on the honor roll of the line. Smith's job was to sweep and tidy up the seventeen locomotive stalls in a roundhouse. Except for lifts on cars shunting around the yard, Smith never traveled by rail.

Don't wear diamonds unless you have a bank balance to match.

Children need not steal your health

There should be no health penalty attached to motherhood. There isn't among really healthy women. Expectant mothers who think of the baby's health as well as their own, should take a good vegetable tonic to protect the two lives—Dr. Pierce's Favorite Prescription. All dealers.

Every package of it contains a Symptom Blank. Fill it out and mail it to Dr. Pierce's Clinic, Buffalo, N. Y., for FREE medical advice.

Don't Suffer With BOILS

Why suffer intense agony of boils of the face when you use the Cream of GARDOL, skin pain, itching and boils fall off overnight. Get Gardol now. H. M. Haddam, M. D., Superintendent, Haddam, Conn.

THAT KIND OF PERSON

By FANNIE HURST

THE chronic restlessness which beset the soul of Agnes Lynn was largely due to the fact that she was continually being made aware, by appreciative friends, that she was too big a person for her small role.

Her role was that of primary teacher in the two-room rural schoolhouse nestled in a rather lovely valley that separated, by miles, two thriving villages.

For four years Agnes Lynn, who had been graduated from Normal school in the capital city of the state, had held this position as one of the two teachers in the little old, proverbially red, schoolhouse that stood beneath a pair of twin oaks and was backed by a beautiful rise of Pennsylvania mountains. The second teacher was a poetic-faced, middle-aged man named Roger Nash who had a limp due to what some people feared was a tubercular bone condition. But that was gossip.

Except for the insistence from her local friends, as well as those in one or another of the two adjoining villages, to say nothing of those in the city where she had been educated, Agnes would have found it in her heart to relax to the quiet, rural beauties of her life as school teacher in this green and placid valley. And yet she knew that she owed it to herself, her friends and her future, to put to more significant use the fine and virile brain with which she was so undoubtedly endowed.

It took all of her will power to fight against the inertia induced by the tranquil years in the tranquil valley. The children who trooped daily into her classroom were clean-faced, clean-hearted little youngsters, products of a wholesome agricultural environment, eager to be friends with her. The pleasant companionship of Roger Nash, frail, visionary, passive, was of sufficient intellectual stimulation to ward off tedium. Her room at the farmhouse where she boarded was a lovely old one of rare, early American furniture, spic-and-span cleanliness and a view of apple orchard, mountain stream and rich countryside that never ceased to delight her. As a matter of fact, an apple tree actually leaned in at her window to awaken her.

That was why, throughout the years she spent in the valley, Agnes had to fight against the sweetish kind of inertia that enveloped her. Life was so pleasant here, so deeply tranquil, each day filled with a fresh simplicity.

Her chance came when the principal of the Normal school from which she had graduated wrote an offer to recommend her for the position of executive secretary to the vice president of a Chicago mortgage and trust company.

There was simply no withstanding the lure of this offer. It meant not only the tripling of her salary, but it offered her contacts that could lead to big achievements in the business world. There did not seem much reason for Agnes to hesitate. And what hesitating she did was too private to confide to even the best of her friends. She would not have dared to admit it.

Opportunity had rapped long and insistently at Agnes' door.

Chicago, insofar as its resemblance to the life she left in the valley was concerned, might have been a city, not in another state, but on another planet. Not even her life as a student in the capital city of her state had prepared her for the degree of intensity, the complicated arduousness that awaited her. Life was like a gale that caught her from the moment she stepped off the train and kept her swirling and twirling at high tempo.

The demands of her position also kept her keyed to a degree of intensity that was as astonishing as it was exhilarating. For the first few months of the new environment, bewildered as she was in many respects, Agnes realized that she owed it to herself to have ventured forth into these active fields of enterprise. Gone were the old fears of intellectual lassitude, mental decline and physical smugness. The city had her in its tempo.

She rose in her fairly comfortable boarding house room that had for its vista the window of another boarding house room precisely like hers, she dressed in haste, she breakfasted in haste at a cafeteria, she met her employer in the tense, terse, impersonal mood of the city, she performed her tasks with a mechanical and speeded-up rectitude, she lunched in a busi-

ness women's club to the rattle of dishes and the roar of the elevated railroad, she met her employer for an afternoon of more of the speed of routine, she dined in a table d'hôte tenroom with the evening paper propped up against the sugar bowl. She sought out the movies, the theater or the company of a male or female colleague in her office for her evening's entertainment.

There was a man. There naturally would be in the life of an attractive, up-and-going girl like Agnes. He was salesmanager for the Chicago branch of an enormous automobile concern. A hale, hearty fellow, with concrete ambitions, tried and true. Lillianthal was headed for wealth. He wanted power, position, money. He was on his way to obtain them. He was already slated for one of the vice presidency plums of his firm.

Strange that he should have been attracted to a girl of the particular type of Agnes. There was nothing obvious about her. She dawned upon you slowly. There was the obvious about Lillianthal. He was precisely what he seemed to be. In the phraseology of his trade he was a "comer." And yet, buried in him, was the consciousness that here in this slender, well-bred girl, was the sort of woman with whom he could proudly share his ultimate success. He visualized her in pearls and good lace, presiding at his table.

A successful man needed a wife like that. Class! That was Agnes all over—nothing showy, but class!

There came a time when the rather simple routine of the young business woman became a thing of the past. Instead, the best lakeshore hotel restaurant, night after night with Lillianthal. Opera. Races. Motor rides. And all, bear in mind, strictly within the pale of the rigid social formula of Agnes, Lillianthal who was known to have had his fling, treated her with the kind of elaborate deference a man of his type will show toward the woman he contemplates as mate.

In fact, if Lillianthal erred at all, it was in conservatism. Agnes was to be treated as the woman worthy to become his wife.

For sixteen months Agnes succeeded in sidestepping the impending proposal of marriage. It came one night, the very week, to be exact, that the banking house which employed her services increased her salary by 33 1/3 per cent and gave her a bonus of five hundred dollars.

At the conclusion of eighteen months Agnes was not only justifying the confidence of her friends in her executive ability, but was about to make a marriage that was in keeping with her general success.

It was then, while Lillianthal was waiting a promised week for his answer, that Agnes sat down and took stock.

It was the first time she had dared allow herself the time to make mental inventory of the state of mind and being of this girl who had come out of the valley.

First and foremost it was obvious to her that she was not in love—with Lillianthal.

It seemed to her as she sat there, facing herself in her boarding house room, that she was bankrupt in countless ways; that she was empty handed, empty-hearted. Everything that the new life had brought her was something mechanical and outside of herself. Good clothes. Good shows. Good restaurants. Showy companionship. And to replace the old joy-of-the-valley that seemed to have flowed out of her, there remained nothing.

Lillianthal was out of the question. Confidant predictions to the contrary notwithstanding, Agnes was miscast. She was not that kind of person. Memory of the valley—sweet mornings of walking to school, the tramping children, the pleasant chats beneath the schoolyard oak trees with a sensitive man called Roger Nash, the simple foods, the simple pastimes, the lovely, tranquil, early American room, became a nostalgia that was almost too much to bear.

Agnes had dared to take stock of herself. The results were appalling, but had to be faced. Agnes was not the kind of person she was supposed to be.

It took courage to go back; it took more courage than she would have believed herself capable of. It is no easy life to take what may be regarded as a retrogressive step and that is just what Agnes did in returning to her position as school teacher in the valley. At least that is how her friends, who were so ambitious for her, regarded it. She had gone backward. She had not been of the stamina they had hoped.

Agnes is not particularly interested in the psychology of it. She only knows that the valley is sweeter and greener and cleaner than ever and the task of teaching the young is one that fills her with ambition. The days have a tonic for her that nothing else could quite achieve and so have the long, stimulating hours in the company of Roger Nash, the visionary.

Red Squill Now Popular Poison

Effective Powder in Control of Rats Does Not Harm Other Animals.

(Prepared by the United States Department of Agriculture.)—WNU Service.

An onion-like plant that grows wild along the Mediterranean coast produces the safest rat poison yet known. It is called red squill, and it produces large bulbs that are made into the red squill powder that has proved so effective in killing rats. So says a leaflet on "Red-Squill Powders in Rat Control," just issued by the United States Department of Agriculture.

Red squill had been known in Europe for many years, says the leaflet, but apparently its use had not become popular, owing to extreme variation in the toxicity of the products available. Studies by the bureau of biological survey, United States Department of Agriculture, however, showed that drying red-squill bulbs under controlled temperature conditions makes it possible to produce a powder that is uniformly poisonous. The powder, although effective in destroying rats, does not seriously endanger other animal life. Reports of the progress of the investigation and the excellent results obtained in the early stages stimulated interest and powdered red squill is now manufactured in quantity in the United States. So far as known, the first of these commercial red-squill powders was placed on the American market in 1926, and in five years these products have taken a leading place among rat poisons.

Preparing Baits. More than a year ago the department published a technical bulletin, "Red Squill Powders as Raticides," giving in detail the results of the investigations. The new leaflet summarizes in popular form the technical bulletin and gives directions for preparing and exposing red-squill baits for rat control. It also discusses the effect of red squill on animals other than rats, showing that this poison is relatively harmless to human beings and domestic animals. As a test, one of the authors of the leaflet swallowed 15 grains of a toxic red-squill powder with no apparent harm, and later took 40 grains, which caused nausea and vomiting within 15 minutes, but no other effect. "Red-squill powder, when mixed with food in the concentration recommended for rat control, is not likely," it is stated, "to cause serious harm to farm animals in good health. It is possible that the irritant may cause death under certain conditions; so far as possible, therefore, red-squill baits for rats should be kept out of reach of other animals."

Copies of Leaflet 65-L, just published, may be had free on request to Office of Information, United States Department of Agriculture, Washington, D. C., and copies of the longer report, Technical Bulletin 154-T, may be purchased for 10 cents each from the Superintendent of Documents, Government Printing Office, Washington, D. C.

Poultry in Confinement Thrived Unusually Well. Bluegrass range does not benefit poultry to any appreciable extent if they are properly fed while in confinement. This is the conclusion of the Ohio experiment station after raising three lots of 100 pullets each under different conditions last year. The first lot had free access to bluegrass range throughout the test. The second lot had access to a wire screen porch but no range, while the third lot was kept indoors at all times. They were given plenty of sunlight whenever the weather permitted. The average ten-month egg production was 122 in the case of the lot which had free range, 127 in the case of the lot which had access to the screen porch, and 132 in the case of the lot kept in confinement. The feed consumption was in direct proportion to the eggs produced.

Proper Care and Feed for Very Young Geese. Do not feed your goslings for 48 hours. Give them milk and old bread for the first feeding. They must be fed often and not too much at a time. Their best food is bread and milk or corn bread and milk with a small amount of very fine young grass. If put on the grass or clover at the end of the first week they will certainly thrive after that. Let them have some sunlight, but too much of the hot sun will kill the small geese.

It is not good to let them run with the old geese until they are nearly grown, as the old geese will take them far away and dangers in form of turtles and weasels lurk in swampy places. If possible keep them in some large yard where you can feed and water them regularly and watch them grow.

Feed for Goslings. Stale bread soaked in milk and squeezed nearly dry and mixed with chopped boiled eggs makes a good first feed for goslings. A little tender grass chopped fine and a sprinkling of sand can be added. If the goslings have a grass range they will require little additional feed after they are two weeks old. But better results can be obtained by using a mash once each day. It can be made of two parts middlings and one part corn meal. Water is essential.

The Boyhood of Famous Americans

John Hays Hammond

The boys started on horseback from San Francisco to Oakland. Their aunt, with whom they were staying while their father was in the East, consented to the trip. They took a small compass, a shotgun, fishing tackle and \$60 in money with them. Blankets were also in the extra equipment, for the lads planned on doing a bit of camping before and after they visited their friends in Oakland.

John Hays Hammond, the older of the two lads, was fourteen years old. His brother was two years younger. They had been brought up in the California of Civil war days and they were accomplished riders and skilled in the ways of the great outdoors by the time most boys of today are still playing with toys.

Their father, a graduate of West Point and an army officer detailed to duty in California, had taught them self-reliance, a love for outdoor life and instilled in them a spirit of adventure from the time they were able to walk. So it wasn't unnatural that they should make up their minds to see something of the world instead of merely taking the ride to Oakland and back to San Francisco.

They had heard much of the Yosemite valley, then a comparative wilderness, and they turned their horses' heads in that direction, seeking the adventure that appealed so much to their venturesome dispositions.

Occasionally they stopped at small hotels, but for the greater part they slept in the open. They shot their own game, varied their diet with the fish that abounded in the mountain streams and thrived on their own cooking. By the time they reached the Yosemite they still had a substantial part of their money left.

From there they ventured into Nevada and by the time their father returned from the East and traced them through express company agents they had ridden approximately 1,000 miles on horseback. And all this in a period of less than three months.

While seeing the country young John had an opportunity to inspect his first quartz mine. He spent several days watching the operations there. That experience was largely responsible for his choice of mining engineering as a profession, a career in which he has gained world wide renown and great fortune.

The trail that started with the trip to the Yosemite carried him to practically all parts of the world, through dangers and half-raising adventures in South America, Africa and elsewhere and to friendships ranging from lowly miners to crowned heads.

John Hays Hammond was born in 1855 in San Francisco, to which city his father, who had been a major in the regular army during the Mexican war, had been detailed. His mother was a sister of Col. Jack Hays, famous as a Texas ranger, and later the first sheriff of San Francisco. Young Hammond spent much time at his uncle's home. His mother died when he was a little fellow.

His father and uncle, between them, taught him to ride, to swim and to hunt. He proved that he was an apt pupil when he and his brother made their 1,000-mile trip into the wilds depending largely on their skill with rod and gun to live as they rode through the lonely and rugged country.

The youngster was educated in the public schools of San Francisco. Later he went to a private preparatory school in New Haven to qualify for admission to Yale. He was enrolled in college at the age of seventeen and was graduated in 1876. At Yale he was a classmate of former President Taft.

From Yale he went to Germany where he spent three years in the Royal School of Mines at Freiberg. He returned to the United States and went to work for Senator George Hearst of California at \$75 a month. His father wanted him to be a civil engineer, but the lure of mining was too great, and he turned down a better paying job with a railroad to begin his chosen career.

He made progress enough to warrant him in going into business for himself. For a time he was too poor to pay an office boy and swept out his own office. He rode through the dangerous Apache country on a business mission in 1882, later almost losing his life in troublesome Mexico.

He came into world-wide prominence when he went to South Africa to act as an expert for Barney Barnato and Cecil Rhodes at their vast diamond holdings. He was accused of being implicated in the Jameson raid on the Transvaal republic and was sentenced to death. But he was pardoned and went on to greater fame and fortune.

Family Resemblance. Sharon had a new baby brother. One evening at the dinner table she remarked that he looked very much like her father. The latter, doubtful but pleased, inquired where Sharon saw a resemblance.

"Well," replied Sharon, after thinking a moment, "you're both bald, aren't you?"

Grain Supplement Is Big Aid for Steers

Produces Bigger Gains and More Tender Meat.

(Prepared by the United States Department of Agriculture.)—WNU Service.

Grain fed as a supplement to grass for fattening three-year-old steers produces heavier gains and somewhat better finished carcasses than those of steers fattened on grass alone. The meat of the supplement-fed cattle is slightly more tender and contains a higher percentage of fat. These were conclusions drawn from a three-year experiment conducted jointly by the West Virginia Experiment station and the United States Department of Agriculture. The studies were a part of the national meat-investigation project, in which the state is associated with 28 state agricultural experiment stations. Details of the experiment are given in Technical Bulletin 217-T, Beef Production and Quality as Affected by Grade of Steer and Feeding Grain Supplement on Grass, just issued by the Department of Agriculture.

Both good and medium grade steers made decidedly better gains when fed grain on grass than similar steers finished on grass alone, the bulletin shows. The feeding of grain also increased the selling price of both grades of steers more than 10 per cent over those fattened on grass alone. The supplement-fed cattle addressed the grass-alone lots, though the carcasses from the latter group carried considerable finish.

In regard to the cost of finishing the steers with the grain supplement, the experiments indicate that the gains and finish of three-year-old steers on good pasture can be increased sufficiently by the feeding of a supplement to more than offset the additional expense. The bulletin points out, however, that good judgment in buying and selling cattle may have a greater bearing than feed cost on profits. Copies of Technical Bulletin 217-T may be obtained on application to the Office of Information, U. S. Department of Agriculture, Washington, D. C.

Carbon Dioxide Useful to Check Fruit Spoilage

Solid carbon dioxide may prove a possible aid in reducing the spoilage of fruits and vegetables in transit. The United States Department of Agriculture says that the carbon dioxide gas from this refrigeration gives added protection, when supplementing ice.

Dr. Charles Brooks, plant pathologist of the bureau of plant industry, found that about 300 pounds of solid carbon dioxide placed in a refrigerator car loaded with warm fruit will increase the carbon dioxide content of the air sufficiently within an hour to check rotting and softening as much as would a drop of 20 degrees to 30 degrees in the temperature of the fruit. The action of the gas in checking spoilage ceases after normal atmosphere is restored, but by that time the car has been fairly well cooled by ice and further spoilage is prevented by the usual methods of refrigeration.

If the gas has largely escaped from the car within 18 to 24 hours, no objectionable flavor is likely to result, although peaches, strawberries, apricots, and red raspberries easily lose flavor and become "flat" and insipid under extreme treatments.

Round Brooder House Is Becoming Quite Popular

Round brooder houses have become quite popular in the past few years. This is especially true for small broods of chicks.

The brooder houses are usually built of wood, although metal and tile are also extensively used.

Plenty of windows are provided for to allow for proper ventilation and light. The roof is usually from 6 to 6 1/2 feet from the floor at the sides and from 10 to 12 feet high in the center of the house. These dimensions are used for a house 20 feet in diameter and which is used for about 1,000 chicks. The frame is best sawed at a lumber plant, many of which specialize in this kind of work.

Farm Hints

Get pepper, eggplant, tomato, early cabbage and cucumber seed started.

Don't forget a packet of Italian broccoli. You can grow it easily.

Birds destroy many destructive insects and rodents and devour much weed seed.

Sugar sirup, made by dissolving 2 1/2 parts of sugar in one part of water, is a good food for bees.

Try better peas this year than you planted last year. Some of the new types are great improvements.

Such weeds as mustard and shepherd's purse will harbor and carry serious diseases infesting cabbage.

Leeks are worth growing as a vegetable as well as for flavoring soups and stews. Try steaming them and serving with melted butter sauce.

In order to get the most efficient and economical use of a piece of farm machinery, it is important to keep it working as many days in the year as possible.

WHEN YOU FEEL LOW

A headache is often the sign of fatigue. When temples throb it is time to rest. If you can't stop work, you can stop the pain. Bayer Aspirin will do it, every time. Take two or three tablets, a swallow of water, and carry-on—in comfort.

Don't work with nerves on edge or try all day to forget a nagging pain that aspirin could end in a jiffy. Genuine aspirin can't harm you; just be sure it's Bayer.

In every package of Bayer Aspirin are proven directions for headaches, colds, sore throat, neuralgia, neuritis, etc. Carry these tablets with you, and be prepared.

And no modern girl needs "time out" for the time of month! Bayer Aspirin is an absolute antidote for periodic pain.

Take Bayer Aspirin for any ache or pain, and take enough to end it. It can't depress the heart. That is why it is only sensible to insist on the genuine tablets that bear the Bayer cross.

His Lucky Day

G. T. Robertson, a truck driver living near Roanoke, Va., noticed an ordinary match box lying in the underbrush while hauling cord wood. He saw the box as he passed each day. Finally, having motor trouble at this spot and wanting a match to clean the carburetor, he picked up the box. It contained \$21 in bills.

Eat Everything without Fear of Indigestion

Are there lots of foods you can't eat—for fear of gas, bloating, pains in the stomach and bowels?

Do you have to pass up favorite dishes—while the rest enjoy them? That's a sign you need Tania! For more than 10 years Tania has restored to vigorous health thousands who suffered like you do.

Mrs. Arvena Bowers, of 1230 Jackson St., Topeka, Kans., says: "Five years I was troubled with gas, bloating and dizzy spells. But Tania toned up my whole system and increased my weight 10 lbs."

If you suffer from indigestion, gas, dizziness, headaches, or torpid liver—try Tania. One bottle often brings the needed relief.

Tania is a good, pure medicine, made of roots, barks, and herbs. Get it from your druggist today. Your money back if it doesn't help you.

Not Worth Keeping

First Golfer (telling fishing story)—He was about as long as that last drive of yours.

Second Golfer—Oh, really!

"Yes, so I threw him back."—Stray Stories.

COLDS SHOULD BE STOPPED AT ONCE

That's Why Lax-ana Is Double Strength

Colds are too dangerous to fool around with. They should be broken up at once before they get a hold on your system and lower your resistance to complications. It's astonishing how quickly you can break up stuffy head colds and stubborn, deep-seated colds by simply taking St. Joseph's Lax-ana (double strength) before going to bed. This doctor's prescription combines best cold medicines with quick-acting laxatives and brings overnight results. Sold by all druggists on money-back guarantee.

LAX-ANA DOUBLE STRENGTH

Radium Highly Priced

According to authorities of the Memorial hospital, New York city, which has eight grams, the largest amount of radium in any one place in the world, radium is now worth \$65,000 a gram.

When words so easily make people happy, why can't you use more of that kind?

BRACING AS THE SEA BREEZE

A draught of Lyko Tonic is as bracing as the sea breeze. It pepes you up RIGHT NOW! Taking that drag out of life, by giving you fresh vigor, new energy and greater endurance. Besides, it's pleasant to take. Get a bottle TODAY! Tomorrow you'll feel different—up in the harness and raring to go. At all good druggists. AI-42

FASHION HINTS OF GENERAL INTEREST

Do not let fannel or other woolen materials freeze after they are washed, because freezing causes shrinkage. Velvet and lapin make a truly delectable combination of materials when used for a negligee that is the epitome of luxury. It is made of pale pink velvet cut on the lines of a coat and as a finish inside the edges of a neck, fronts and sleeves there is a narrow band of beige lapin.

Pastel linens trimmed with Irish crochet bands are made with tiny esp sleeves and a skirt which depends on deep pleats set on a yoke at the hip-line. A belted coat of white kidskin worn over a black wool dress and complemented by a black felt hat, with its touch of white fur, constituted one of the smartest costumes shown this season.

Auxiliary Meets.

The Woman's Auxiliary of the Presbyterian church held their regular meeting at the home of Mrs. Pollard. A very interesting program was carried out. Delicious ice cream and peaches and cake were served to eleven members by hostess Mrs. Pollard.

Dr. McCall and wife will be with us Sunday, May 3, to hold services at the Presbyterian church.

W. G. ATKINSON

W. G. Atkinson, aged 84 years, died at 10:45 a. m., Thursday, April 30, at the home of his son-in-law, H. L. Stuckey. Interment will be at Fort Worth, Texas.

Mr. Atkinson was well known to our citizens and respected and loved by all who knew him. He led a faithful christian life for 65 years.

The many friends of the family in this city sympathize with them in this hour of bereavement.

McDuffey and Julian Kessler have returned from Houston where they have been with their father, who is ill. Julian was called back and left Monday morning.

There will be a baseball game Sunday at 3:30 p. m. at the American Legion Field. Fort Stockton and Sanderson playing.

OLD TIMERS ON THE DIAMOND TO PLAY SATURDAY, MAY 9TH.

The few old time baseball players of Marathon who recently challenged the old time ball-players of the First Methodist Church of Sanderson to a game, have made request that they be allowed to play the old stars of the diamond now living in Alpine, and Marfa.

The men of the First Methodist Church have agreed to meet the three town team of old ball players Saturday, May 9th, at 4 p. m.

W. D. O'Bryant, chairman of the board of stewards of the First Methodist Church, who is managing the Sanderson team, announces his line-up for this game:

LeRoy Grigsby, ss; Chester Smith, 2b; J. E. Landers, 3b; W. D. O'Bryant, c; L. A. Lowe, 1b; H. L. Stuckey, rf; S. E. Nelson, cf; Kelley Parker, lf.

Manager O'Bryant will start W. A. Powell on the mound for three innings, then shift to W. A. Latimar, and if Marfa, Alpine, Marathon are making distance hits will call in the local Methodist pastor, Rev. B. M. Stradley, with his slow teasing hop ball.

Both Powell and Latimar are distance hitters and the local pastor well known for his lack of hitting ability, therefore, manager O'Bryant thinks it advisable to keep the hitting strength up by using Powell and Latimar.

Saturday, May 9th, will be a good fellowship day of the two churches, viz: The Marathon Community Church and the First Methodist of Sanderson along with 40 or 50 visitors from Marfa and Alpine.

The junior boys of the churches, and the intermediate age boys of the churches will play a game of ball. The afternoon's fellowship and good time together for the day will be closed with a barbecue and picnic from 6 to 7 p. m.

Judge A. E. Mead of Marfa, and Dr. A. P. Utterback of Sanderson, will umpire the ball game.

LOCALS

FOR RENT — Cool quiet room for day sleeping.

Cap Mussey.
 Mrs. Albert Schupbach of Watkins visited her parents, Mr. and Mrs. Clyde Deaton, this week.

Mrs. E. C. Gilmore of Ft. Worth is visiting her sister, Mrs. A. A. Shelton and Miss Alyce Kilpatrick.

Paul Lowrey of El Paso was a visitor in the city Sunday. He was accompanied home by his brother-in-law, J. E. Landers.

Mrs. J. A. Hill and daughters, Mary Merle and Zula, of Corpus Christi, visited Mrs. A. F. Thirst last Friday.

Mrs. Greeche Cook and children have returned from a visit with relatives in Camp Wood, Texas.

Mr. and Mrs. Roy Landers and son left last Thursday for Staples, Texas, where they are visiting relatives.

Mr. and Mrs. S. S. Draggett have as their guest, Mrs. Draggett's niece, Mrs. W. H. King of San Antonio.

B. M. Doak left Thursday for Del Rio where he visited his brother, John M. Doak and family. He returned home Monday.

Mr. and Mrs. C. F. James were week-end visitors with her parents, Mr. and Mrs. R. E. Fred, at their ranch north of Dryden.

MUST SELL — A seven-room house across from new high school in Alpine. Beautiful trees, lawn, on corner. Write or see Mrs. Laura Bless.

Mrs. J. T. Newsom returned to her home in Mojave, California, Monday following several days visit with her brother, C. F. Haass and family.

Mr. and Mrs. John Whistler were in town the first of the week from their Brewster county ranch shopping and visiting friends.

John Green Jr., who is attending Schreiner Institute in Kerrville, spent last week-end with his parents, Mr. and Mrs. J. C. Green.

Jeff Vaughn, former sheriff of Presidio county, and one time Texas Ranger, and also now owns a large ranch near Valentine, was in the city last Saturday visiting his brother, Bill Vaughn.

Mr. and Mrs. J. Calvin Stansell and daughters returned from San Antonio the latter part of last week where Mrs. Stansell was taken for medical treatment. Her many friends are glad to know that she is better and able to be up now.

Man Foots It Back to Langtry

Leads Horse From Sanderson to That Place

A man who is traveling from Corpus Christi to New Mexico, was in town Sunday. The man left Corpus Christi several weeks ago in a "house-built-on-wheels" drawn by two old mules. At Langtry one of the old mules played out and the man caught a ride with some tourists into the city for the purpose of procuring a horse to assist the remaining mule to pull the outfit on to their destination. He finally located a horse belonging to Jap Stedeman, for which he paid \$12.00. The horse, however, was neither broke to work or ride and the man left here Sunday evening on his way back to Langtry, afoot, leading the horse. Just how he is going to manage with a wild horse hitched up to a wagon with an old mule, we are unable to say. He may not have any difficulty in getting the "brone" started but may have some difficulty in getting him stopped after he does start.

Several of our ranchmen said that if they had known the man wanted a horse they would have given him one just to get it off the range.

Just imagine!
 We thought we couldn't afford one

The General Electric Refrigerator is not an expense. A family in the most moderate circumstances can afford one. For the actual experience of General Electric owners proves that the savings made possible through its use repay the cost of a General Electric in two years time.

The most important savings are due to food protection made possible by the constant, dry cold. Spoilage is prevented. Leftovers are utilized. Foods can be bought in quantities—on special bargain days—at lower prices. In health, and in savings of time and labor, the dividends are just as tangible.

Buy the refrigerator with the Monitor Top—a symbol of saving. Sealed within is the entire simple mechanism—permanently oiled. Beautiful cabinets are all steel—porcelain lined—easy to clean—and exceptionally roomy.

Drop in today and let us show you in dollars and cents how the General Electric will save for itself.

Cactus Club

Mrs. S. C. Bodkin was hostess to the Cactus bridge club and friends Thursday afternoon at her home. Beautiful spring flowers were used in decoration and a pink and green color theme in all the appointments. Prizes of lovely green glassware were awarded to Mrs. Herbert Buchanan, first club, Mrs. Horace Fletcher, second club, Mrs. Sims Wilkinson, first guest, Mrs. J. C. Green, second guest.

Those present were Mesdames Carlton White, Frank James, Wallace Henshaw, Horace Fletcher, Herbert Buchanan, W. C. Barksdale, Sims Wilkinson, Max Bogusch, W. H. Savage, F. L. Burnside, M. K. Sandifer, A. C. Clatfelter, D. A. Pollard, S. S. Daggett, H. L. Newton, J. C. Green, James Nance, Clyde Griffith, L. H. Lemons, P. J. Holman, H. R. Laurence, M. L. Kellar, Jim Kerr; Misses Willie Mae Green and Louise White.

Night Bridge Club.

Mrs. R. S. Wilkerson was hostess to the members of the Night Bridge Club at the home last Saturday evening. Spring flowers were used in the decorations.

A string of beads was the ladies' high score prize that went to Mrs. L. H. Lemons. The men's high score prize was two decks of cards and was won by Max Bogusch.

A plate lunch consisting of tuna fish salad, olives, crackers, lemon tarts and coffee was served to Messers. and Mesdames: Max Bogusch, C. M. Breeding, A. E. Creigh, Jr., Clyde Griffith, L. H. Lemons, Jim Nance, M. P. Lester, L. A. Lowe, John Stovell and Mr. Lynn Harrell.

HOB0 PARTY

Allen Owen entertained a number of his friends at the home of his parents, Mr. and Mrs. A. F. Thrift, last Saturday night. The party, which was given in honor of Allen's fifteenth birthday, was in the nature of a hobo party. Various games were played throughout the evening following which each guest was given a paper bag containing sandwiches and cake, and a tin cup filled with punch.

At a late hour all departed thanking their host for a pleasant and enjoyable evening.

Miscellaneous Shower

Mesdames Parker and Nelson were hostess to a miscellaneous shower Wednesday given in honor of Miss Fleta Bell Jernigan, a bride elect of the month.

The honoree was the recipient of many beautiful gifts. Fancy cake and fruit parfait were served to the members of the faculty. Plate favors were miniature china love birds in a nest.

Bridge Party.

The Faculty bridge club was hostesses to a number of their friends to an afternoon party at the Kerr hotel last Saturday. Spring flowers in profusion were used as decorations.

There were four tables of players and several tea guests present that enjoyed the afternoon. Mrs. Horace Fletcher won the high guest prize, a mayonnaise set, low guest prize, a musical powder box, went to Mrs. W. C. Barksdale. Club prize, a novelty electric lamp, was won by Miss Corinne Fox. Refreshments of sandwiches, punch, angel food cake and nesselro parfait were served.

P. T. A. Barbecue and Carnival

The barbecue and carnival sponsored by the Parent Teachers Association was held in the

high school building Tuesday evening, April 28. After an exceptionally good barbecue dinner in the home economics dining room, the carnival spirit began in earnest with pop-corn balls, candy and people in gay colored costumes running about thru the more conservative members of the crowd.

The main event of the evening was the performance in the auditorium. It consisted of music, playlets, and dance numbers by the high school students and a three round boxing match sponsored by the 6th graders. Their champion, Melvin Pollard gloriously knocked out O. T. Schuppach, the high school's man, in the third round.

Miss Fleta Belle Jernigan was in charge of the program in the auditorium.

Those in charge of the carnival as a whole were Mesdames Lochausen and Druse.

Among the Clubs

SPANISH CLUB BANQUET

The Spanish classes of the Sanderson high school concluded the observance of Spanish week with a Mexican supper at the high school Friday night, April 24th, at eight o'clock. The room was decorated with American and Mexican flags; the colors, red, white and green were used in the table decorations. Small Mexican sombreros served as nut cups. The supper was served by four girls dressed in Mexican costumes.

H. D. Johnson, as toastmaster, welcomed the guests. The response was made by Miss Margaret Martin. Father Bertrant made an interesting talk about Spain.

The guests were Mr. and Mrs. M. K. Sandifer, Misses Bonnie Cox, Martha Vernon Robinson, Margaret Martin, Mary Arrington, Beatrice Nichols, Ellen Appel, Florine Thompson, Marybelle O'Bryant, Mr. W. D. O'Bryant and Father Bertrant. The members of the classes present were Althea Kellar, Dolores Gonzales, A. D. Johnson, D. C. Thrift, Henry Goldwire, Jack Hayre, Daniel Ochoa, Aylmer Griffith, Archie Milam, Allen Owen, Hal Rowlett, Miss Dorothy Weatherby, teacher.

Coming Events

MUSIC RECITAL

Miss Myrtle Harrell will present her music pupils in a student recital, Tuesday evening, May 5th, high school auditorium at 8:15 o'clock. Every one is cordially invited to attend.

P. T. A. TO MEET

The regular meeting of the Parent - Teachers Association will be next Thursday afternoon, May 7, at 4 o'clock. The meeting will be held in the high school auditorium and an interesting program has been prepared. All members are urged to be present as this is the last meeting of the school year.

DEBATE

Next Monday at the high school auditorium at 8 p. m., the subject "Resolve That Substitute Trial By Jury Be Adopted," will be debated. D. C. Thrift and H. D. Johnson, district debate champions, will debate Al E. Creigh Jr. and Rev. B. M. Stradley.

An admission of 25c will be charged, the proceeds from which will go towards paying the expenses of the champion debaters to Austin.

Reaping What We Sow

1. Sowing Iniquity:
"Even as I have seen, they that plow iniquity, and sow wickedness, reap the same"—Job 4:

2. Some Sow Strife:
"A forward man soweth strife; and a whisper separateth chief friends."—Prov. 16:28.

3. Increase of Evil:
"For they have sown the wind, and they shall reap the whirlwind."—Hosea 8:7.

Tears and Joy:
"They that sow in tears shall reap in joy. He that goeth forth and weepeth, bearing precious seed, shall doubtless come again with rejoicing, bringing his sheaves with him."

The Sure Harvest:
"The wicked worketh a deceitful work, but to him that soweth righteousness shall be a sure reward."—Prov. 1:18.

6. Man Reaps what he sows:
"Be not deceived; God is not mocked; for whatsoever a man soweth, that shall he also reap. For he that soweth to his flesh shall of the flesh reap corruption; but he that soweth to the Spirit shall of the Spirit reap life everlasting."—Gal. 6:7,8.

Remember the date of our meeting, May 17 to 24.

R. E. GRIFFITH, Minister.

THE METHODIST CHURCH

Rev. B. M. Stradley, pastor of the First Methodist Church announces the following sermon subjects and texts for Sunday, May 3rd, at the First Methodist Church:

11 a. m.: "The Christian Sunday and Christian Civilization." Special music by the choir.

3 p. m. at Dryden:
The Junior Sunday School class will render a special vocal number led by Mrs. E. M. Taylor. Sermon subject, "The Living Christian." Text: Gal. 2:20: "I am crucified with Christ; nevertheless I live; yet not I, but Christ liveth in me; and the life which I now live in the flesh, I live by faith of the Son of God, who loved me and gave himself for me."

8 p. m.: Subject, "Our Medium of Exchange With Heaven." Text: Rev. 3:18: "I counsel thee to buy of me gold tried in the fire that thou mayest be rich."

Special young people's quartet led by Miss Mattie Rue Newton will render a special vocal number with piano and violin accompaniment. Violin solo by Mr. Henry Goldwire. The Junior double quartet will render "The Beautiful Garden of Prayer," led by Miss Inez Young.

We extend a cordial invitation to all who are not regularly working and worshipping elsewhere to come with us.

BAPTIST CHURCH

The pastor will preach at both hours next Sunday. Subject for the morning hour will be: "Building an Additional Room to our Church." No collection will be taken. Theme for the evening service will be of interest.

IRA HARRISON, Pastor.

The Presbyterian Church.

Dr. John V. McCall of El Paso will preach Sunday, May 3, at 11 a. m. and 8 p. m. All are cordially invited to attend these services.

Notice of Reward Offered.

A reward of \$250 is hereby offered for information leading to the arrest, conviction and sentencing of any person found stealing sheep or goats from the ranch properties of the undersigned. A suspended sentence of a court will not entitle any informant of the benefits of this reward.

Marathon and Sanderson Sunday Schools in Tie

The Methodist Community Sunday School of Marathon, and the First Methodist Church Sunday School of Sanderson, are now in a tie on the attendance contest which has two more Sundays to run.

These Sunday schools are now exactly tied with 923 points each or an average on time full point attendance of 61 a Sunday.

These Sunday schools will have a joint barbecue and general outing with several baseball games, etc., Saturday afternoon, May 9th. The two pastors are old time baseball players and have several old time ball players in their churches.

These old time players will be seen in action again May 9th. The pastors will be pitted against each other in the last three innings of the game. Dr. Ludlam with a fast ball and quick, snappy delivery, and Rev. B. M. Stradley of Sanderson with a slow, deliberate hop ball.

Don't forget to have your winter clothes thoroughly dry cleaned before storing away. Moths never bother clean clothes! Phone 68 today.

American Mothers

Left—Photograph of Mrs. J. Ernest Schiller of Philadelphia which won the \$250 international grand prize for the "Loveliest Mother in the United States and Canada" in a \$20,000 contest conducted by the Photographers' Association of America. (Photograph, courtesy of the Photographers' Association of America.)
Center—"The Spirit of Motherhood." This composite Madonna results from the features of 271 paintings which range in date from 1293 to 1823. It was made by Joseph Gray Kitchell after 31 years of study.
Right—Photograph of Mrs. Blanche Rusby of Detroit, which won the \$500 international grand prize in the contest mentioned above. (Photograph, courtesy of the Photographers' Association of America.)

By ELMO SCOTT WATSON
MAY 10 is the day this year when America honors its mothers. In accordance with a resolution passed by congress in 1914, designating the second Sunday in May as Mother's day and asking the President to issue a proclamation calling upon government officials to display the flag upon public buildings, President Woodrow Wilson issued such a proclamation, asking his fellow-citizens similarly to display flags at their homes as "a public expression of our love and reverence for the mothers of our country."

Since that time the day has been generally observed throughout the United States and there has grown up the custom of sending to our mothers letters, telegrams, flowers, candy and other gifts on that day as well as honoring them by wearing a white carnation if one's mother is dead and a colored carnation if she is still living. All of which expresses a pretty sentiment and the origin and regular observance of Mother's day in the United States are facts in which Americans take considerable pride. But to offset this pride in the pretty sentiment is an ugly fact of which many Americans are not aware. And that fact is that the mortality rate from maternity causes in the United States is the highest in the civilized world, and that 10,000 of 16,000 American mothers who die each year from childbirth causes need not die if they are given adequate maternity care!

Do you doubt that statement about the mortality rate among American mothers? If so, look at these official figures, compiled by the children's bureau of the United States Department of Labor for 1927 (the latest year for which figures for most of these countries were available) in regard to the maternity death rates, per 1,000 live babies, for the following countries:

Uruguay	2.2
Italy	2.6
Japan	2.8
The Netherlands	2.9
Finland	3.0
Hungary	3.0
Denmark	3.1
Czechoslovakia	3.6
Switzerland	3.7
Spain	3.9
England and Wales	4.1
Estonia	4.1
Irish Free State	4.5
Northern Ireland	4.8
New Zealand	4.9
Lithuania	5.0
Canada	5.6
Chile	5.8
Australia	5.9
Salvador	6.3
Scotland	6.4
United States	6.5

In the light of these statistics and the custom of wearing white carnations in honor of mothers who have died, some one has asked this very appropriate question, "Does it not seem that 10,000 white carnations, one for each mother who needlessly died in the last year as a result of motherhood, represent too great a toll in pain and sorrow to be paid for by sentiment alone?"

However, an answer to that question may be found in a movement which is already under way. For this year the observance of Mothers' day marks the beginning of a nation-wide educational campaign to reduce the mortality rate among American mothers so that 10,000 shall not die in vain each year. This campaign has been started by Mrs. John Sionne, president of the Maternity Center association in New York city, and it has the indorsement of high government officials. At a recent White House conference President Hoover said, "When mothers understand the standards of care, they will demand protection." Sur-

geon-General H. S. Cumming of the United States public health service in endorsing the campaign as a new form of Mother's day observance has declared, "The high maternal death rate is a disgrace to our profession and I am convinced that efforts such as these will go far toward improving conditions." Similarly Grace Abbott, chief of the children's bureau, stated, "There are no more tragic deaths than of mothers in childbirth, and I feel sure that, if it were understood by the people of the United States that to a very large extent these deaths are preventable, they would be prevented." Typhoid fever, smallpox and diphtheria have yielded to scientific control in the last quarter century, and tuberculosis has been reduced to half its toll, as almost everyone knows. But the death rate from causes connected with maternity has not been lowered at all during the period for which records are available.

Italy, Denmark and five other nations have maternal death rates less than half that of the United States, which, as has been seen, is twenty-second on the roster of the nations of the world. In many of these countries the results have been commonly achieved by legislation requiring obedience, but in the United States improvement cannot be expected by such drastic action unless there is popular opinion back of it.

"We have refused to address ourselves effectively to this problem for at least twenty-five years," says Dr. Ralph W. Lobenstein, a noted obstetrician of New York city. "If we are to improve conditions we must face them, not rationalize. The humiliating conclusion is that this national disgrace can be removed when, as a people, we set out to remove it."

"The idea of going to a physician at once," states Dr. Frank W. Lynch, a leading obstetrician of San Francisco, "may seem ridiculous to the ordinary woman. She would not think so if she realized the value of taking things in time. In nearly every hospital in the land, it will be found that most tragedies occur in women who were not under medical supervision during the period of the child's development."

"Perhaps the root of the difficulty," states Carolyn Conant Van Blarcom, in her book, "Obstetrical Nursing," "lies in the fact that childbirth, as well as the attendant suffering and death, are so familiar that they are regarded as being normal incidents in the ordinary course of affairs. One of the most dramatic of all human events, the birth of a new being, is accepted casually, almost without concern, because it is so frequent—so commonplace."

"Moreover, we are all accustomed to hearing stressed the fact that child-bearing is not a disease, but is a normal physiological function. Not so

generally, however, do we hear emphasis put upon the equally important fact that there is extreme danger of infection while these physiological functions are in progress, and that they must subject the entire organism to such a strain that there results a dangerously narrow margin between health and disease."

Here is the evidence that adequate maternity care saves mothers' lives. Louis I. Dublin, Ph. D., statistician of the Metropolitan Life Insurance company, and an expert internationally known, examined the records of 4,726 mothers cared for by the Maternity Center association over a period of six years in a certain section of New York city. He compared the results with what happened to mothers in the same section of the city not receiving such care. This showed that those in the first group have about three times as good a chance to survive as the others. "The result," says his report, "is indicative of the saving of lives that might be accomplished were every mother to receive the benefit of adequate maternity care. As more than 16,000 women in the United States every year die from causes related to maternity, this means that more than 10,000 deaths are preventable. In addition, 30,000 of the 100,000 babies who now die in the first month of life, would be saved. Infants, as well as mothers, are protected by adequate maternity care."

"There is nothing peculiar to the civilization of the United States to account for the fact that our maternal death rate is more than twice that of such countries as Denmark and the Netherlands, where records are kept as carefully as they are here. This country's low position on the roster of nations of the world is because there is a striking absence here of trained care for the great mass of women in moderate circumstances who have children."

"We have allowed things to go on with indifference to the waste of lives of mothers and babies, assuming that all was well, when decidedly it was not. The situation cries to high heaven for a remedy."

Adequate maternity care is the observation, care and instruction by doctors and nurses of mothers from the time the woman thinks she may be pregnant until she is able to resume her regular activities and to care for her new baby, according to Hazel Corbin, general director of the Maternity Center association.

Commenting on the work done by this organization which reduced the death rate among mothers to 2.2 per thousand live births as against 6.5 in the country as a whole, Miss Corbin adds: "Nurses urge each mother to register as early as possible with the private doctor or hospital physician who will deliver her so he may direct her care during pregnancy and know all about her when it comes time for the delivery and care of the baby. Each mother is helped to select, from the facilities available, what is best suited to her condition."

"The nurses, working with the doctors and reporting to them each time they see the mothers, visit each mother at regular intervals during pregnancy. They help the doctor or midwife during delivery and make regular visits afterward and give, or teach some responsible person to give, the necessary care to mother and baby, as well as see that the household is running smoothly so the mother can rest as long as necessary, and gradually, as the doctor advises, resume her usual activities and increased responsibilities."

Improved Uniform International Sunday School Lesson

Lesson for May 3 JESUS IN THE HOME OF ZACCHAEUS

LESSON TEXT—Luke 19:1-10.
GOLDEN TEXT—For the Son of Man he came to seek and to save that which was lost.
PRIMARY TOPIC—Jesus Makes a Bad Man Good.
JUNIOR TOPIC—Jesus Makes Zacchaeus Want to Do Right.
INTERMEDIATE AND SENIOR TOPIC—Beginning a New Life.
YOUNG PEOPLE AND ADULT TOPIC—Repentance and Restitution.

I. Jesus Passing Through Jericho (v. 1).
Jericho is noted as a stronghold of the Canaanites which was miraculously delivered into the hands of Israel in response to their faith, Joshua 6, and also for the faith of Rahab which saved her from destruction with the city Heb. (11:31). Two notorious sinners, Rahab and Zacchaeus, were saved at Jericho.

II. Zacchaeus Seeking Jesus (vv. 2-4).
1. His object (v. 3).
He sought to see who Jesus was. He doubtless had heard of Jesus' kind treatment of publicans, so was prompted to see what kind of a man he was.

2. His difficulties (vv. 2, 3).
(1) His infamous business (v. 2).
He was a tax collector of the Roman government. The very fact that a Jew held such an office under the hated Romans would make him extremely unpopular. Then, since he was rich, it was evident that he had practiced extortion in collecting taxes. By virtue of his traitorous act in accepting such an office from the Romans and his extortion in collecting taxes, he was ostracized from society. Many men have a hard time in coming to Christ because of their unpopular business relations.

(2) His shortness of stature (v. 3).
He was too small to crowd his way through to Jesus, and being hated by the people, they had thrust him aside, no doubt, with taunts and jeers.

3. His persistence (v. 4).
He ran before the multitude and climbed up into a tree. What he lacked in stature he was determined should be made up by the height of the tree. Zacchaeus seems to have been of that temperament which knows no defeat. The obstacles placed before him he brushed aside; those he could not brush aside he climbed over, his heart set upon the goal.

III. Jesus Finding Zacchaeus (vv. 5, 6).
While Zacchaeus was trying to see Jesus, Jesus was looking for him. This is always the case, when desire is stirred up in a heart to see Jesus, Jesus is seeking that one. When Jesus saw him he commanded him to come down from the tree and declared his intention to go home with him. Jesus called him by name, but did not utter a word which would humiliate Zacchaeus. Jesus knew his heart's desire and dealt with him accordingly. All souls who earnestly seek Jesus shall be found of him. Zacchaeus quickly responded. He came down, and with joy received Jesus. He acted wisely in that he did not hesitate. A moment's indecision and waiting would have kept Zacchaeus from Jesus—from Jesus and salvation.

IV. Zacchaeus' Conversion (vv. 7-10).
His conversion was sudden and thorough. He was converted before he reached the ground.

1. What the crowd said (v. 7).
They said just what they say today when sinners come to Christ. They call to mind the man's former sins. They also reproached Christ saying that he had gone to be a guest with this notorious extortioner, the tax collector. That for which they reproached Jesus was his glory. His supreme mission was to save sinners (v. 10).

2. What Zacchaeus said (v. 8).
His conversion was thorough. It took hold upon his heart. His new life was begun with resolution and restitution. He dedicated half of his goods to the poor. The man who a little while ago was a grafter was now a generous giver. His conversion got hold of his pocketbook. His determination to make restitution wherein he had wrongly exacted taxes shows the genuineness of his conversion. While God forgets the past of the sinner when he comes to Christ, the sinner who is converted will seek to make right all wrongs, be they unkind words or unrighteous deeds. Sorrow for sin is not enough when restitution is possible.

3. What Jesus said (vv. 9, 10).
"Today is salvation come to thy house." The publican was now a child of God, a son of Abraham. Salvation is a present reality to those who receive Jesus Christ.

The Bible
Hold fast to the Bible as the sheet anchor of our liberties; write its precepts on your hearts and practice them in your lives. To the influence of this book we are indebted for the progress made in true civilization, and to this we must look as our guide in the future.—U. S. Grant.

Afflictions
Afflictions are not so much threatened as promised to the children of God.—John Mason

INDIGESTION GOES—QUICKLY, PLEASANTLY

When you suffer from heartburn, gas or indigestion, it's usually too much acid in your stomach. The quickest way to stop your trouble is with Phillips' Milk of Magnesia. A spoonful in water neutralizes many times its volume in stomach acids—Instantly. The symptoms disappear in five minutes.

Try Phillips' Milk of Magnesia, and you will never allow yourself to suffer from over-acidity again. It is the standard anti-acid with doctors. Your drugstore has Phillips' Milk of Magnesia, with directions for use, in generous 25c and 50c bottles.

IN EVERY HOME

Because of the fact that the general public has come to regard aspirin as a medical necessity and the average home always has one or more boxes on hand at all times, it is now possible to purchase twelve 5-grain tablets of genuine pure aspirin for 10c. There is no reason to pay more. When you go into a drug store to buy aspirin, never say "Gimme some aspirin." Be safe be sure, be sensible. Always ask for St. Joseph's Genuine Pure Aspirin and you will get aspirin that thousands of druggists know is as pure as money can buy. St. Joseph's Aspirin is both genuine and pure and because of this fact has quickly become the largest selling aspirin in the world for 10c. It meets every government standard. The next time you want aspirin be sure to ask for "St. Joseph's"

English Language Not Dominant in Americas

There are nearly as many people south of the Rio Grande as north. Indeed, allowing for omissions due to the impossibility of enumerators reaching various aboriginal tribes living in the remote interiors or on inaccessible mountain peaks, it is likely these two divisions of the all-American population are about equal, which means again that the vogue of the English language and that of the Spanish is about on a par in the western hemisphere. It is true that in Brazil, Portuguese is spoken almost exclusively by the educated native population, but this deduction is offset again by the fact that many millions in North America speak French and not English.

A summary of the latest census in Central and South America and Mexico gives the total population at 113,436,000. Of these people, 42,000,000 are in Brazil; 16,000,000 in Mexico; 10,300,000 in Argentina; 7,000,000 in Colombia; 5,000,000 in Peru, and between 2,000,000 and 4,000,000 in each of the following countries: Bolivia, Chile, Venezuela and Cuba. Other smaller nations on the continent and in the West Indies make up the sum which proves that Anglo-Saxon and Spanish achievement and occupation are about equal in the New world.—El Nuevo Diario, Caracas.

The ten leading ports of the world are New York, London, Hamburg, Los Angeles, Rotterdam, Antwerp, San Francisco, Seattle, Liverpool and Singapore.

Quick COMFORT for fretful upset children

ALL children are subject to little upsets. They come at unexpected times. They seem twice as serious in the dead of night. But there's one form of comfort on which a mother can always rely good old Castoria. This pure vegetable preparation can't harm the tiniest infant. Yet mild as it is, it soothes a restless, fretful baby like nothing else. Its quick relief soon sees the youngster comfortable once more, back to sleep. Even an attack of colic, or diarrhea, yields to the soothing influence of Castoria.

Keep Castoria in mind, and keep a bottle in the house—always. Give it to any child whose tongue is coated, or whose breath is bad. Continue with Castoria until the child is grown!

For sale by all druggists. Be sure to get the genuine product with Chas. H. Fletcher's signature on wrapper, and this familiar name-plate:

FRAGRANT & REFRESHING ANTISEPTIC-ABSORBENT

Cuticura Talcum for the Toilet and Nursery
It is cooling and it is soothing. Pure and delicately medicated, Cuticura Talcum is ideal for every member of the family; for Baby after the bath, for Mother as a finishing touch to her toilet, and for Father after shaving.

Mr. and Mrs. M. H. Goode Jr., were week-end visitors in Del Rio with her grandmother, Mrs. V. A. Gildea and other relatives.

Mr. and Mrs. Clyde Deaton spent several days in Del Rio this week.

W. B. A. MEET

The regular monthly meeting of Sanderson Review No. 72 was held last Thursday evening at the Masonic Temple.

Following the regular business meeting, which was presided over by the president, Mrs. Theresa Dawson, the seventeen members present retired to the dining room where they were served a delicious plate lunch consisting of tuna fish salad on lettuce, saltines, olives, potato chips, punch, coffee and cake by Mesdames Schupbach and Dawson.

Later in the evening a number of young people, who had been invited for the social hour, enjoyed an hour of dancing and playing of games.

The W. B. A. will give these social events once a month and all are looking forward to the meetings.

RATTLE OF THE RAIL

A new time table goes into effect Sunday, the only change in passenger trains being No. 104 arriving and departing one hour earlier, arriving at 5:30 a. m. instead of 6:30.

Fireman S. Counts of El Paso is now working on this board

Fireman D. L. P. Duke of El Paso visited in Houston recently.

Fireman J. P. Boatright and R. S. Clark of Del Rio are now working on this board.

Asst. general manager A. D. Mims, in private car Beaumont, was on the division a few days ago.

H. P. Ross of Dallas passed through Tuesday enroute to El Paso.

Engineer R. R. Allen has been on the sick list a number of days this week.

MARATHON-SANDERSON BOYS BALL GAME

At 3 p. m. Saturday, May 9th, the boys of the Methodist Church of Marathon and the First Methodist Church of Sanderson will play a baseball game.

Loyd Carter of Marathon is captain of the Marathon team, and Loyd Utterback is captain of the Sanderson team. The line up of the Sanderson boys are: Stokes Sharp, 2b; Loyd Utterback, 3b; Bennie Stradley, rf; Bobbie Lee, ss; Charles Stuckey, 1b; Billie Latimar, p; Billie Smith, c; Julian O'Bryant, lf; Dick Mussey, cf; Bobby Mason, Johnnie Clark, pitchers; James Blackweider, utility outfielder; Cleveland Deator, Martin Bodkin, infielders.

Both teams are composed of boys who regularly attend Sunday school and church.

After the ball game the boys will have a barbecue supper at 6 p. m., and a good fellowship time together.

Prof. B. J. Brannan and L. A. Lowe will umpire the game.

DRYDEN SUNDAY SCHOOL ORGANIZED SUNDAY

Last Sunday afternoon the following officers and teachers were elected to serve this year in the Dryden Community Sunday School:

W. A. Latimar, asst. supt; Miss Martha Thomas, treas; Mrs. E. M. Taylor, primary junior teacher; Mrs. W. A. Latimar, intermediate boys; Mrs. Chester Smith, intermediate girls; Mrs. A. F. Buchanan, senior class; Mrs. A. M. Buck, adult class.

The Sunday School meets every Sunday afternoon at 3, and the people of the Dryden community and surrounding country are giving splendid support to the work.

The weather man says "clear and warm." Come in today and select your summer suit. Greatly reduced in price this season.

EMPIRE Cleaners and Dyers. FRANK ROBERTSON, Owner.

Mrs. Guy Nation returned Monday from Kerrville where she has been with her mother, Mrs. I. H. Elder, who has been ill.

Dud Barker of Alpine was a business visitor in the city last Friday.

NOTICE BY PUBLICATION IN PROBATE

THE STATE OF TEXAS,
To the Sheriff or any Constable of Terrell County, Greeting:
You are hereby commanded to cite all persons interested in the estate of R. J. Turner, Sr., deceased, to appear at the next regular term of the County Court of Terrell County, Texas, to be holden at the courthouse thereof in Sanderson, Texas, on the first Monday in May, 1931, the same being the 4th day of May, 1931, to contest, should they desire to do so, the application of J. M. Turner, filed in said court on the 23rd day of April, 1931, which will then and there by such court, be acted on, for letters of administration upon the Estate of R. J. Turner, Sr., deceased.

Herein fail not, but have you before said Court, on the first day of the next term thereof, this Writ, with your return thereon, showing how you have executed the same.

Witness F. L. Burnside, clerk of the County Court, Terrell County, Texas.

Given under my hand and the seal of said court, at office in the city of Sanderson, Texas, this the 23rd day of April, 1931.

(Seal) F. L. BURNSIDE, Clerk, County Court, Terrell County, Texas.

Issued this the 23rd day of April, 1931.

F. L. BURNSIDE, Clerk, County Court, Terrell County, Texas.

MUST SELL - A seven-room house across from new high school in Alpine. Beautiful trees, lawn, on corner. Write or see Mrs. Laura Bless.
