SANDERSON, TEXAS, FRIDAY, JULY 31, 1931.

NO. 21.

Villa Acuna Radio Equipment Ordered To Open Sept. 16

Two Car Loads From Fort Worth Due There Soon

WORK GOES ON FAST Plans Laid To Open Station Early Next September

Special Correspondent.

Shipment of two car loads of expensive radio equipment from Fort Worth consigned to the Villa Acuna Broadcasting Corporation and due in Del Rio within a few days, was announced last Thursday.

Equipment being shipped from Fort Worth includes the large transmitters which will be installed in the studio building constructed near the two 300-foot towers.

Early this week several articles which will go into the world's largest radio broadcasting station at Villa Acuna were crossed from Del Rio. L. Pena, Mexican consul stated.

Opens September 16.

Although work at the station site has been negligible the past few weeks, it was because construction was ahead of the program, it was related. The big XER plant is tentatively dated to go on the air for its grand opening September 16.

Construction of the plant at Villa Acuna has resulted in Del Rio and the Mexican towns obtaining a considerable volume of publicity in newspapers over the middle West. The Wichita Beacon, Kansas City Star, and Kansas City Post, as well as the Des Moines Tribune and Chicago Tribune, have given the plant generous space. Numerous photographs of Del Rio and Villa Acuna have been used to illustrate feature and spot news stories on the huge station.

Mexicans Fined Here For Fighting At Lozier Wednesday Night; Knives Used

Francisco Hernandez, Jesus Hernandez, and Isacio Hernandez were fined in Justice Court here Thursday upon a plea of guilt to fighting. The men are all members of an extra gang of the T&NO, who are now stationed at Lozier.

The fight which was staged Wednesday night with rocks and butcher knives as weapons, was the climax to quarrels that had been brewing for several days among the men.

Isacio Hernandez was the most seriously injured of the three men. He suffered bruises and cuts about the head and his right eye was closed from a blow received. While there are several deep cuts on the man's head, his skull is not fractured and it is not thought that the injuries will prove serious. The other two men received minor cuts and bruises about their bodies.

Upon being notified of the trouble by the T&NO agent here, C. J. Watts, Sheriff Lee Cook and Capt. W. L. Barler, U. S. Customs officer, went to Lozier and brought the men here. They were given medical aid by Dr. Robertson, physician here for the T&NO Railroad.

Francisco and Jesus Hernandez are brothers and claim that they have been residents of Del Rio for the past 12 years. They were able to return to the steel gang at Lozier Thursday afternoon. Isacio Hernandez, who is no kin to the other two men, has a passport and has been here for the past 5 years. He claims he has a family in Musquez, Mexico. He was not able to return to the gang at Lozier and will be kept here for several days until his injuries have healed sufficiently.

"It Happened in June" Aug. 8th.

Mr. and Mrs. J. R. Black and sons will leave today for Paisano where they will attend the Baptist Encampment.

Mr. and Mrs. J. Calvin Stansell and daughters have returned from San Antonio where Mr. Stansell has been the past two weeks for medical treatment.

Bids Received For School Bus Driver

Total Of 8 Bids Received By School Board Saturday

PEEPLER'S LOW BIDDER Bids For Sale Of A New School Bus Are Rejected By Board

At a meeting of the school board which was held last Saturday, Eugene Peoples of Dryden, was awarded the contract for transportation of all school children from Dryden and vicinity along Highway No. 3 to Sanderson for the school term of 1931-1932. Mr. Peoples' bid was for the amount of \$172.50 a month.

There were eight bids received for the place, as follows: Roy Landers, \$175 per month; Charlie Rogers, \$175 per month; J. R. Blalock, \$175 per month; R. E. Mason, \$180 per month; Eugene Peoples, \$172.50 per month; B. F. Dawson, \$184 per month; J. I. Daniels, \$200 per month and Reuben Mussey, \$175 per month.

Two bids were submitted for the sale of an automobile school bus. The Ferguson Motor Company's bid for a Ford bus amounted to \$1,429.75, while Casner-McKnight Motor Company's bid for a Chevrolet bus was \$1,321. Both bids were rejected as the board thought it not advisable to buy a bus at this time. W. E. Stirman, president of the school board, stated.

Marfa Cavalry Band To Give Concert Aug. 14

The First Cavalry Band of Marfa will be heard here Friday, August 14, at a free band concert from 6:30 until 9 p.m. The band will leave Marfa on August 6 for a tour of the district which comprises the Davis Mountain Association of Legion Posts.

The band which is making a tour is being sponsored by the Davis Mountain Little District of the American Legion and is for the purpose to arouse a mutual feeling of interest in the area that become directly and indirectly affected, should Fort D. A. Russell at Marfa be abandoned.

The local Legion post is making plans for the concert which will probably be given at the park in front of the Kerr Hotel. After the concert, the First Cavalry Band will play for a dance given under the auspices of the local American Legion post at the C. A. C. Hall.

"It Happened in June" To Be Given Here August 8

On Saturday August 8 at 8:15 p.m. a home talent play "IT HAPPENED IN JUNE," will be presented at the Sanderson High School auditorium. The local Parent-Teachers Association is sponsoring the play, the proceeds from which will go toward paying for the piano that was bought the past year by the Association.

"IT HAPPENED IN JUNE," is a three act comedy drama. Many breath taking instances appear throughout the play, as well as many interesting scenes of romance and adventure.

The High School orchestra will furnish music during the evening. Special musical numbers will also be given between the acts.

Reserve seats will be on sale at the Empress Drug Store on Thursday, Friday, and Saturday of next week. Admission to the play will be 20 and 40 cents.

Mrs. Nora Wilson of Del Rio is visiting her daughter, Mrs. Vernon Buchanan and her mother, Mrs. Betty Bosworth.

Miss Mabel Zuberbeuler of Comstock is visiting Miss Kathleen Sullivan.

J. C. Reeves returned Wednesday from a visit with his family in El Paso. While away Mr. Reeves enjoyed a trip to the Carlsbad Caverns with his son and wife, Mr. and Mrs. Ed M. Reeves.

Meeting Changed By Association

Texas Assn. Will Convene In Winter; Sales To Be Held In July

The annual meeting of the Sheep and Goat Raisers' Association is in session this week in San Angelo. Many visitors are in attendance at the meeting and the members heard the visitors tell how the sheep country of West Texas is in the best of condition of all sheep areas of America today. They heard predictions of a continually stronger wool market which has already seen some steady gains.

Two radical changes were made at the convention on Tuesday when members adopted the resolution of the executive committee changing the date of the annual gathering from the summer time to sometime between December 1, and January 31 and designating the third Tuesday of each July for the annual sale which will alternate between San Angelo and Del Rio.

Over 1,000 rams and angora bucks were on exhibit at the fair grounds and were offered at auction.

T. A. Kincaid of Ozona, president, in his annual report, indicated the influence of the organization in the promotion of lamb consumption, in refutation of the government health department statement which advised people not to eat meat in the summertime and in securing privileges under the new trucking bill which allows the ranchmen to operate their own carrier service.

The convention will continue through Friday.

Precinct No. 5 to Get New School House

A new school building will be erected in Precinct 5, on the Sam Bell ranch near Watkins, according to announcement made Monday of this week by W. E. Stirman, president of the school board.

The building will be a one room structure of lumber and will be 16 x 24 feet, costing approximately \$400.

Work will probably be started on the school next week and it will be finished and ready for use in time for the opening of school in September.

Mr. Stirman stated that the following contractors were figuring on the bid, which would be let this week: John O'Dell, I. E. Owen, C. M. Breeding of this city, Eugene Peoples of Dryden, and John Nations of Del Rio.

From the first through the fourth grades will be taught and as yet no teacher has been secured for the position.

W. M. U. MEETS MONDAY AT HOME OF MRS. McADAMS

The W. M. U. of the Baptist church met in the home of Mrs. O. H. McAdams for a social hour Monday at 3 o'clock. Mrs. Ira Harrison had charge of the program, which consisted of contests, Bible games, and anagrams, which kept the guests in a happy mood. Mrs. C. V. McKnight and Mrs. McAdams served a delightful ice course at the close of the program.

Those present were: Mesdames A. D. Brown, J. J. Nance, F. L. Burnside, J. R. Black, A. B. Dyer, Nora Wilson, Ira Deaton, C. H. White, Harry Matthews, E. P. Halley, W. M. Druse, H. D. Johnson, Ira Harrison, Gayle Mussey, R. Fishback, Allan Dial, and C. V. McKnight.

160 GALS. GAS STOLEN SUNDAY

One hundred sixty gallons of Ethyl gasoline was stolen sometime Sunday night from the storage tanks of the Texaco Company, located in the west part of the city. The loss was discovered early Monday morning by L. R. Grigsby, local agent.

The thief or thieves broke the lock on the storage tank and helped themselves. So far no clew has been found as to the guilty person.

Miss Marie Milam spent the week-end in Del Rio as the guest of Miss Emma Winnie Easterling.

Leasing of Terrell Lands Runs High

Oil And Mineral Rights Wanted Mostly on Lands

LEASING PRICES HIGH

County In Good Shape; Many Carloads Of Sheep Are Shipped

Quite a number of inquiries have been received lately in regard to leasing large bodies of land in this county. In most instances all oil and mineral rights were wanted. Outside attention is still focused on Terrell county and evidently indicates favorable development of oil.

Horton Haley, who ranches south of Dryden, was offered this past week, a 10-year paid up lease on his ranch with a 6 months option to drill, according to reports reaching the Times office. The leasing price was very attractive, according to the report.

Several ranchmen from other sections of the state have been here for the past week or so, all wanting to lease range lands in Terrell county. However, not much range is available for leasing purposes, and where there is range to be secured the lease asked is somewhat high in price and with the low prices on mohair and wool, as well as livestock, the rancher cannot come out on the lease.

This county is in fine shape and all the livestock in good condition. For the past several weeks many carloads of lambs have been shipped to the market, as well as several hundred head of cattle, both of which have brought fair prices.

Report States Oil Struck on Sec. 43

Leonard Jones who has been drilling on section 43, block B-2, Gulf Colorado & Santa Fe Railway Co. survey, on the Pockenham ranch, in a telephone conversation with County and District Clerk, F. L. Burnside, on Monday, stated that he had struck free oil at a reported depth of 2,200 feet. Mr. Jones was then in McCamey on his way to Los Angeles, Calif., and stated that the well had been closed down for the time being.

This test is located about 16 miles north and seven miles west of the Mid-Kansas Oil & Gas Company No. 1 Goode, which last February struck a gauged 6,500,000 cubic feet of dry, sweet gas at 5,696 feet and which was shut down in April indefinitely at 6,120 feet.

Mr. and Mrs. C. J. Watts and daughter, Miss Floy, and Mr. and Mrs. B. F. Dawson and daughter, Miss Florene Thompson, motored to Alpine and Marathon Sunday where they spent the day.

MARRIAGE LICENSES ISSUED

Venustiano Falcon and Carolina R. Garcia.

Santona Maldonado and Alvina Serabia.

Fount Sharp, who has been manager of the City Barber Shop for the past year or more, gave up the shop last Saturday. He and Mrs. Sharp moved that day to the Bill Edwards ranch in Pecos County, where Mr. Sharp has a bunch of sheep and where he will work.

S. L. King of Berkeley, Calif., who spent several days here the past week in the interest of the Downie Estate, returned to San Antonio last Saturday.

Johnnie Williams of Del Rio spent the week-end here visiting Ervin Grigsby.

Mr. and Mrs. J. I. Daniels and sons left Sunday for Corpus Christi Temple and other points where they will visit relatives for the next two weeks. Mrs. W. W. Laughlin is looking after the Highway Lunch Room during the absence of Mr. Daniels.

Airport Improvements Nearing Completion

The new Operation office, pump house, generator room, and other improvements which have been under construction at the Dryden Airport are well under way and will be completed and ready for inspection by August 8, according to announcement made this week by Staff Sgt. H. M. McCabe, who is in charge of the airport.

Bids were let last Thursday, July 23, at Fort Sam Houston, for the construction of quarters for the non-commissioned officers at the airport. The new quarters will cost approximately \$3,850. Mr. Tinnen of Del Rio was low bidder on the work which will probably be started on the quarters within the next two weeks.

Ferguson Motor Co. Competes In 3rd Annual Goodyear Dealer Zep Race

The Ferguson Motor Company, Goodyear tire dealer in this city is entered in the third annual Goodyear Dealer Zeppelin race, a contest in sales based on a two months' quota, and participated in by thousands of dealers all over the country, according to W. J. Ferguson, manager of the local concern.

"So many people have been asking us what we are so hopped up about in these so-called vacation days," continued Mr. Ferguson, "that I thought I would explain that we are in the contest to win, because it means a free trip to Akron to see the Goodyear Zeppelin Corporation's airship, where the world's largest airship is nearing completion for the U. S. Navy."

"Akron will be the center of national interest in August, because the ship will be making its trial flights about that time. The U. S. S. Akron, though huge in dimensions, is trim and shapely, measuring 758 feet in length or about 24 times the length of a standard box car, and twice the size of the U. S. S. Airship, Los Angeles.

"The Akron will be carried aloft by 6,500,000 cubic feet of helium, a non-inflammable gas contained in 12 separate cells, the largest of which has a capacity of 1,000,000 cubic feet. Eight twelve-cylinder motors, delivering a total of 4,480 horsepower, give the Akron a top speed of 80 miles per hour. These motors are reversible and because the propellers are mounted so they can be readily moved through angles of 90 degrees can move the ship in a vertical position as well as fore and aft.

"Three tons or 35,000 square yards of cotton fabric are being used to cover the sturdy framework of the ship. A compartment in the forward section will house five completely equipped pursuit planes that can be lowered through a trap door and launched or picked up while the Akron is in flight.

"We are planning a number of new merchandising features at our service station," said Mr. Ferguson, "to put this firm in the running for the prize trip to Akron and we are offering special attractions to be found in our advertisements."

Mrs. C. I. White and daughter, Janice, Misses Louise and Novice White returned Wednesday from a motor trip to Crystal City and San Antonio where they visited relatives. Marvin Kelley, who accompanied them on the trip will visit with relatives in Houston and Ennis before returning home.

Mr. and Mrs. D. P. Southall of Comstock spent last week-end here with her parents, Mr. and Mrs. P. F. Sullivan.

Mrs. O. H. McAdams and daughters, accompanied by her father, A. N. Tyler, left Monday afternoon for Sabinal where they were called on account of the death of Mrs. McAdam's uncle, Wiley Patterson. They returned home Wednesday.

Mr. and Mrs. Tol Murrah from their ranch in this county, visited Mr. and Mrs. C. V. McKnight here Wednesday.

Leigh Harkey, 39, Stabbed to Death Near Sheffield Fri.

Sheffield Ranchman Succumbs To Knife Wounds

DIES SOON AFTER

Will Wiley Taken To Ft. Stockton Jail After Affray

Leigh Harkey, 39, well-known ranchman of Sheffield, died in a San Angelo hospital last Saturday from knife wounds across the right side that he received early Friday afternoon at his camp on the Pecos river, near Iraan. Will Wiley, also of Sheffield, was placed in the jail at Fort Stockton, where he was taken by Thad Tarver, Texas Ranger.

With an intestine severed and a lobe of one lung cut by an eight-inch incision in his side, Harkey was rushed to the San Angelo hospital by his brothers, Jeff Harkey of Sheffield, Jim Harkey of Fort Stockton, and Sam Harkey, of Sherwood, Irion County sheriff. Jeff Harkey was one of several persons with Mr. Harkey when he was stabbed and overtook Wiley, who left the scene on a horse behind another rider.

The altercation is said to have begun when a man approached the Harkey camp and was using profane language and was asked by Harkey to stop, as there were ladies present. Only a few words had been exchanged when the stabbing occurred. At the time Harkey was preparing to enter one of his horses in a race during a meet and rodeo being held in Iraan.

Leigh Harkey, well-known in this city and county, had engaged in the livestock raising vocation at Sheffield since 1909. He and a brother resided at Christoval for four years, having moved there from San Saba County.

Funeral services were held Sunday in Sherwood for Mr. Harkey. In addition to the 3 brothers, he is survived by his widow, his father, J. M. Harkey, and a sister, Mrs. W. M. Terry of Mineral Wells, Tex.

Western Story Writer Is Brother of Mrs. Lochausen

In the August number of Cowboy Stories a short novel by Perry Milton Ross, a native Texan and a member of a pioneer El Paso family, appears. "The Rustler Queen," a fact article about the notorious Cattle Kate, is the name of the novel.

Mr. Ross is a well-known writer and has had several novels printed before, as well as several poems. He was editor of the Times-Picayune in New Orleans before going to Chicago where he now resides.

Mr. Ross has visited his sister, Mrs. J. H. Lochausen in this city a number of times.

Joe Kerr returned last Saturday from San Antonio, Floresville and Llano where he has been visiting relatives for the past ten days. Mrs. Kerr and children remained for a longer visit with relatives in Llano.

Al E. Creigh, Jr., left last Sunday for New Braunfels, Texas, where he will join Mrs. Creigh, and little Al, who have been there for several weeks visiting her mother, Mrs. John Craig.

J. W. Happle, head of the Men's department at the Kerr Mercantile Company, is taking his annual vacation. He left last Saturday for Hot Wells where he will spend his vacation.

A big dance is being given tonight at the C. A. C. Hall by Hack Johnson, rodeo promoter and is being sponsored by the American Legion Post of this city. Good music has been secured and a large crowd is expected to attend.

Mr. and Mrs. John Nichols left Tuesday for Floyd, Texas, where they will make an extended visit with Mr. Nichols' parents, Mr. and Mrs. S. H. Nichols.

On Their Way to Demand "Peace and Freedom"

LEAD by the intrepid and experienced Miss Mabel Vernon, the "Transcontinental Caravan of the Women's International League for Peace and Freedom" is on its way from Los Angeles to Washington. All along the route the women, who are in motor cars, are gathering signatures to petitions for peace which are to be laid before President Hoover, the object being to have the United States take the lead in the international disarmament conference which will be held in Geneva next year. Our illustration shows the scene in Los Angeles as the caravan is about to start.

women depart often from the highways in order to visit as many cities and towns as possible. They expect to reach the National Capital on October 16, and their parade up Pennsylvania avenue will be something to look at. Miss Vernon has conducted a number of coast-to-coast caravans in the last fifteen years and knows how to run them.

BEDTIME STORY FOR CHILDREN

By THORNTON W. BURGESS

GOOD WORD FOR GLUTTON

THAT is where Peter is not only nice but smart as well. Kind words always make friends and never make enemies. And the more friends one has the better. But it isn't with any such selfish purpose that Peter does it. Peter says kind things because he thinks kind things.

Now as he sat on the edge of the pond of Paddy the Beaver deep in the Green Forest and listened to the news from the Great Woods in the Far North, as told by Honker the goose, who had just stopped over for the night, Peter was hearing for the first time of Glutton the Wolverine. Buster Bear and Frickly Porky and Paddy the Beaver and Honker the Goose knew him well, and they knew

Buster Turned and Stared at Peter Very Hard.

no good of him. Buster had said that everybody hated Glutton; that he was so selfish that when he found more food than he could eat he spoiled what was left so that no one else should have any; that he was so smart in a bad way that no one could hide anything from him, and that he was so strong and savage that most of the people who lived in the Great Woods were afraid of him.

Then Honker the Goose had told how he had watched Glutton follow a trapper and find and pull up all the traps so well hidden that no one else can find them and leaves them in plain sight so that no one will get caught. It seems to me that he has done a splendid thing for his neighbors and that they have no right to say that he is all bad. Just think of how many lives might have been lost in those dreadful traps but for him.

SUPERSTITIOUS SUE

HER BROTHER BILL TOLD HER THAT— No gambler ever wants to win the very first pot, for if he does, that puts the Gypsy curse on him for the rest of the season and he will be writing I. O. U.'s before he is through. (© 1931, McClure Newspaper Syndicate.) (WNU Service.)

would be caught in them, at the same time stealing all the food which the trapper had put out as bait to lead little fur-coated people into the traps. He told how Glutton had broken into the little log house of the trapper while the latter was away, and had stolen or ruined all his supplies, so that the trapper had been forced to go away to get more. Of course while he was away the little people in fur had nothing to fear from traps.

Peter had listened with ears wide open. When Honker had finished Peter spoke.

"Did I understand you to say that Glutton is all bad and that every one hates him?" he asked.

"You certainly did," growled Buster Bear in his deep grumpy-rummy voice. "He hasn't a friend in the world."

"That's funny," replied Peter, pulling his whiskers thoughtfully.

"What's the matter with the people of the Great Woods?"

"Nothing the matter with us," growled Buster. "The matter is all with Glutton."

"Oh, I don't know," returned Peter. "It may be you don't owe Glutton anything. Buster, but it seems to me that some others up there in the Great Woods owe him a great deal."

Buster turned and stared at Peter very hard. "Peter," said he slowly, "you are the first one I ever knew who could find a good word to say for that ugly robber of honest folks."

"Perhaps no one ever has tried to find a good thing to say," retorted Peter. "I never have found anyone yet who doesn't do some good for others once in a while, even Reddy Fox. Now who are you people who live in the Great Woods most afraid of?"

"Hunters and trappers," replied Buster promptly.

"Then it seems of me that anyone who can and does get the best of them and actually drives one of them away is doing something good, very good, indeed, for the rest of you. Glutton may be a robber and may kill the smaller people when he can catch them, but when he pulls up all the traps so well hidden that no one else can find them and leaves them in plain sight so that no one will get caught, it seems to me that he has done a splendid thing for his neighbors and that they have no right to say that he is all bad. Just think of how many lives might have been lost in those dreadful traps but for him."

"That's so," grumbled Buster Bear, scratching his head thoughtfully. "I never thought of that."

Mother's Cook Book

"If not to fly, why has the robin wings While the green desert dares him to be free. Why does he yearn to reach remotest things. The mountain's rim—if it were not to be?"

DESSERT FOR HOT DAYS

WITH gelatin in so many attractive forms—flavored, plain acidulated and powdered—one may have a different dessert for every hot day, without repeating. Such desserts are not only refreshing to look upon, but are appetizing and sufficiently satisfying after a hearty meal. The following is an old-time recipe, but is always enjoyed:

Snow Pudding.

Soak one and one-fourth tablespoons of plain gelatin in one-fourth cupful of water fifteen minutes, then add one cupful of boiling water and stir until well dissolved; add one cupful of sugar, one-fourth cupful of lemon juice and stir until the sugar is dissolved, then strain into a large bowl. Beat the whites of three eggs until stiff and add to the gelatin mixture when it begins to stiffen—beat until very light.

Collegiate Champ

Keith Gledhill of Stanford university receiving the intercollegiate lawn tennis trophy from Frank A. Caldeen, chairman of the tournament committee, after the matches at Merion Cricket club, Philadelphia.

Old Ironsides Visiting Coast Ports

HERE is the U. S. S. Constitution, better known as "Old Ironsides," reconditioned and starting on a tour of Atlantic coast ports. She is being towed because of the difficulty of getting enough real sailors to man her.

When stiff enough to mold, pour into a mold that has been rinsed in cold water. Prepare a boiled custard, using the egg yolks, four tablespoons of sugar, one-half teaspoonful of salt, and a pint of hot milk. Cook until the spoon is coated, add flavoring and chill. Pour round the pudding when serving.

Grape Ice Cream. Scald one quart of thin cream, add one and one-half cupfuls of sugar, a pint of grape juice—if sweet lessen the sugar—add the juice of half a lemon and freeze as usual.

Whipped Fruit Jelly. Take a package of any flavor of gelatin—lemon is good—add a pint of boiling water and mix well. When cool and before it sets beat with an egg beater. Beat the white of an egg until stiff, add one-half cupful of powdered sugar and add to the jelly with two bananas, one orange and one-half cupful of fresh strawberries, all cut into small pieces. Make a boiled custard with the egg yolk, two tablespoons of sugar and one and one-fourth cupfuls of milk. Mold the jelly and serve unmolded with the custard for a sauce.

Wooden Bead Bag

This good looking bag in envelope style is woven of large wooden, brightly colored beads in red, white and blue, blending with the colors used in the crocheted bands on the blouse and with color of the hat. It is a clever accessory for use with any sports garb.

The Old Gardener Says:

WOMEN who work in their own gardens and find the ordinary steel rake heavy and cumbersome will be delighted with bamboo rakes, which come from Japan and are very cheap. Metal rakes now being made in this country have the same pattern and are almost as light. These rakes are especially useful when cleaning up leaves and grass clippings, but can be used also in garden work of a light nature. They can be handled in much the same way as a broom, and with much less effort than is required to manipulate rakes of the old-fashioned type. These rakes do not look very strong, but will stand a remarkable amount of hard service. Naturally the metal rakes are somewhat more durable than the Japanese product, but the latter is cheap and surprisingly satisfactory.

Longest American Tunnel

The Cascade railroad tunnel, longest on the American continent, is 7.79 miles in length. It was built through solid granite, and is lined throughout with concrete. The tunnel is straight as a rifle bore, but the eastern portal is 634 feet higher than the western. This gives a continual flow of fresh air through the tube. Work was commenced December 28, 1925, and the tunnel was completed ready for track laying December 25, 1928.

Mailed Ted Wrong Letter

THEODORA, flushed and happy, with a song in her heart, as she dreamed and played with the soft, shining, shimmering things she took from the trunk—the garments that made up her trousseau—suddenly heard Mrs. Abbey's high voice speaking in the lower room.

"There's no question about it, Mary. For five afternoons I noticed Will Hanley out driving with one of the prettiest girls I ever saw, I was suspicious, the girl seemed so interested in him, and I asked one of the men where Will works, and he said, 'Sure, he's engaged to her!'"

There was a deep silence in the kitchen below, and then Theodora heard her mother say in a slow, hurt tone: "Why it can't be so! Ted has his wedding dress ready, and their plans are all complete!"

"Well, I'm telling you what I saw and what was told me!" "It will break her heart! But I have been afraid—just a bit. He writes her so seldom since he went to the city, and he's such a handsome, popular fellow!"

"It is too bad—and if I were Theo, I'd—"

"Hush, don't speak so loud, please. Ted is in the old guest-room looking over her wedding things, and every sound goes right up there through the old register. She might hear you—and I don't know what she'd do if she did! She's been so happy in her dreams of—"

Her mother's voice died away. Theodora sat in dumb misery, a little heap of pain. "It could not be true!" her heart told her bravely; and then her mind whispered: "It might be true!" Will's letters had been so short—yet he had always been a man of few words; and he was handsome, good-natured—

She moaned a little as she sat on the floor near the trunk where lay the shining remnants of her dream. Suddenly, it must have been a long time after the conversation below, her mother's gentle voice came to her up the stairway.

Ted awoke with a start from the depths of her despair, rallied her will, kissed the soft garments one by one and folded them back in the trunk. Then she stood a moment in silence fighting for mastery of herself so that her mother would not read the hurt in her heart.

But the moment she stepped into the kitchen her mother's tender eyes understood. "Oh, Theo, you heard. But don't you believe it, dear. I know it can't be true!" her mother said quickly.

Theodora smiled faintly. "Of course, it isn't, mother."

"This is the day for the usual letter. He wouldn't keep up writing you if everything wasn't all right. He isn't that kind," her mother urged.

When the mail came, she found his letter. She opened it with slight, trembling fingers. Across the page her eyes read a line of fire:

"Dear Ted—Our engagement is off. Sorry, indeed. As ever, Will."

She could not quite stay the little cry of pain that broke from her lips. Her mother came to her with a rush, and Theo handed her the brief note.

Theo smiled at her bravely. "It's his way. I'm glad he said it simply and quickly."

Then she went quietly to the little room which had been her refuge in childish troubles and in later years, and there she wrote him a simple note of understanding. Then, with the letter in her hand, she walked through the gathering dusk of the late afternoon to the village office and mailed it. It would reach him in the morning.

On the evening of the day following the mailing of her letter she went outside into her mother's flower garden, and stood a silent, solitary figure searching for healing and peace among the blossoms.

As she stood there she heard the roar of a powerful motor and a car swept to a sharp halt at the door. A tall figure dashed to the house, saw her, turned, and came with long strides toward her. Then, with a strange sense of things unreal, she was caught in strong arms, kissed warmly on her lips and cheeks.

"Ted, what under the sun?" Will's strained voice said. "Why did you send that note?"

She explained haltingly. He groaned as he listened. "I sent that note to a pal of mine, Ted Evans, calling off a golf engagement—I mean I meant to; instead I sent my love letter to him and his note to you. What a mess!"

A little song began to sing in her heart. She understood, but she told him Mrs. Abbey's story. He laughed. "That girl is the daughter of a rich chap. The company asked me to teach her to drive her new car. She's the biggest dumbbell I ever met," he said with some heat. "As for that yarn of my being engaged to her, one of the men told me about an old lady who asked him about us and what he said. Now, look, I'm not going to take any more chances of losing you. Can't we be married tomorrow, right here in the old town? I've got the license!"

Only the flowers in the old-fashioned garden heard her answer—and they know how to keep secrets.

The DAIRY

BIG VARIATION IN VALUE OF ALFALFA

Time of Cutting and Weather Conditions Count.

For those who buy alfalfa it is well to bear in mind that there is a very considerable variation in the feed value of the different grades on the market, brought about principally by the time of cutting and the condition of the weather at the harvesting period. At the Kansas experiment station, for example, it has been found that when alfalfa is cut in the bud stage the hay may contain as high as 20.2 per cent of protein, as compared with 15.4 per cent when cut in the tenth bloom and up to full bloom and 13.1 per cent when cut at the seed stage. Feeding tests accompanying these different cuttings indicated that it required 1,628 pounds of hay to produce a hundred pounds of gain on beef animals with bud stage hay, 2,096 pounds of tenth bloom stage hay, 2,163 pounds of full bloom stage hay and 3,910 pounds of seed stage hay to produce a hundred pounds of gain.

At the Nebraska experiment station it was found that when alfalfa was cut when in one-tenth bloom the hay contained 56 per cent of leaves and when cut in full bloom, 33 per cent. Here again the earlier cuttings showed a higher percentage of protein than the later cuttings.

The effect of climatic conditions at the time of curing the hay was shown clearly at a number of tests made at the Colorado station. Hay that was put up under favorable weather conditions without rain contained 15 per cent of protein, while the same kind of hay damaged by rain during the process of curing contained only 11 per cent of protein.

These facts emphasize the importance of the buyer of alfalfa paying close attention to the grade of hay he selects. Leafiness in alfalfa is an important factor to consider. The more leafy alfalfa is, the greater the percentage of protein it carries and the higher, therefore, its feed value.

Dairy Cows Need Water

for Production of Milk

(By JAMES W. LINN, Extension Dairyman, Kansas State Agricultural College.) Cows should have water where they can get to it easily in the middle of the day. If the pasture is large much energy is wasted by them in coming back to the barn well at noon. Dairy cows need water in the middle of the day when the weather is dry. Probably there is nothing cheaper nor as often neglected for good dairy cows which get their forage in a large pasture as the water supply. For the cows which eat on a small pasture near the barn one well is enough, but for cows which have a large range to travel it is not economy to expect them to make the trip back and still spend a reasonable amount of time securing feed.

The well at a distance from the barn can usually have a windmill and be controlled by a tank float so that it requires very little attention. Water should be clean. Cows relish clean, fresh water as much as any animal. Since they have to drink five pounds of water to each pound of milk produced it is essential to see that they have it clean, fresh, and at a reasonable distance from the place where they graze.

Raising Dairy Calves

by Using Dry Skimmilk

Bulletin 410, the annual report of the Wisconsin agricultural experiment station, contains a summary of work done by I. W. Rupel and G. Bonstedt on raising dairy calves with dry skimmilk. Following are a few interesting extracts: "In the calf-feeding trial conducted this past season, calves fed dry skimmilk at the rate of 0.8 pounds daily made an average gain in weight of 1.4 pounds daily from birth to six months of age."

"When two months of age, one lot of calves was fed the dry skimmilk mixed with the grain ration and the daily gains were just as good as for the lot where the material was mixed with water until the calves were six months old."

"Whether farmers can afford to buy the skimmilk powder for calf-feeding purposes rather than to separate the milk and sell cream will depend on the price they are offered for their whole milk as compared to the cost of the dry skimmilk."

"There undoubtedly are locations in the state where whole milk is marketed where such a practice would be profitable at present prices."

Valuable Sire

It is not the scales that tell the value of a dairy sire. Nor yet is it the texture of the skin nor the type of the animal. The value of a sire lies in his ability to stamp his offspring with valuable characteristics. That ability is difficult to understand. Most farmers fail to know it, much less appreciate its value. This accounts for so many good bulls going to the block before their merits are known. Testing cows for production reveals these animals.

News Review of Current Events the World Over

Statesmen at London Conference Try to Pull Germany Out of Financial Morass—President Hoover Offers Plan.

By EDWARD W. PICKARD

Prime Minister Ramsay MacDonald.

FOUR resolutions or recommendations, devised by the committee of finance ministers and adopted by the seven-power conference in London, comprised the total results of the parley, and it was the opinion of experts that little if anything had been done for the actual relief of Germany.

The plan includes the suggestions of President Hoover, which Secretary Stimson said were really both American and British in conception. Here, briefly summarized, are the recommendations adopted:

First—That the central banks and the World Bank for International Settlements extend the \$100,000,000 German credit for a further period of three months.

Second—That private banks be urged to leave their credits now in Germany in German hands for the present.

Third—That a world bank committee be appointed to consider the questions of short-term loans to Germany and the conversion of existing short-term loans to long-term loans.

Fourth—That the conference "note with satisfaction" the action of German industrialists in creating a reserve of approximately \$125,000,000 on the German gold discount bank.

After the conference adjourned, Chancellor Brüning and Minister Curtius consulted the American delegates concerning the possibility of arranging a new long-term loan. If France refused to participate, they thought the loan might be made by America, Great Britain and several other countries.

Herr Brüning also conferred with Premier Laval of France on the possibility of the latter visiting Berlin within the next three months.

That France is not at all in sympathy with the Hoover credits proposal was made clear by Premier Laval when he informed the conference: "Our country saved herself in 1923. That is an example which Germany should meditate upon."

Prime Minister Ramsay MacDonald presided over the sessions of the conference, and at its opening he sought to impress on the delegates the imperative need of speedy and decisive action. "If we cannot find a solution of the present crisis," said he, "no one can foretell the political and financial dangers that will ensue. It will be difficult to stay the flood before it has overwhelmed the whole of central Europe, with consequences social and political, as well as purely financial, which no man can estimate."

"Time is against us. Every day adds to the risks of a collapse which will be outside of human control."

FRANCE took advantage of the international confab to start a campaign for putting teeth in the Kellogg pact and in the League of Nations covenant. A memorandum issued at the Quai d'Orsay, replying to the league's request for information on armed strength, contained the official view that disarmament cannot be accomplished unless an international armed force is set up under the aegis of the league, or reciprocal obligations are undertaken to prevent aggression by a military force. The document gave no precise figures on France's armaments, but did declare that those armaments have been reduced to the lowest possible point "under present conditions in Europe and the world." National security is still the slogan of France, and she insists on guarantees if her armaments are to be modified.

The memorandum finally contends that insecurity for one state means insecurity for all, and the idea of neutrality is incompatible with the notion of solidarity of states.

WHILE statesmen in London were trying to reach conclusions that might result in the complete abandonment of the projected Austro-German customs union by the German government, the World court in The Hague opened a hearing on the proposal that has been so dear to the hearts of the officials in Berlin.

Before the court took up the case President Adachi of Japan installed Judges de Bustamante of Cuba and Wang of China, who were not present at the last session.

After this preliminary, the full court, including Frank B. Kellogg of the United States, began the hearing, with the governments of Germany, Austria, France, Italy and Czechoslovakia as parties to the case. They were represented by an army of agents, counsels, advocates, and assistants. The Austrian agent, Prof.

Dr. Franz Rotenberg.

Eric Kaufmann, was accompanied by an American, A. S. Feller, of the New York bar.

Dispatches from Vienna indicate that Austria is not nearly so eager for the customs union as she was before the present financial crisis hit Germany. Indeed, the Austrian government may drop the plan entirely. It is now engaged in trying to extricate Austria from its own financial difficulties. Dr. Franz Rotenberg, who, until recently was director general of the Bank of Austria, has been called on for help and has been made director of the Austrian credit bureau. It will be his task to arrange a national credit and budget system which, it is hoped, will pull the nation out of the hole.

ANNOUNCEMENT is made by the insurgent government at Canton, China, that it will begin operations against the Nationalist government on August 1, when Gen. Chang Fat-Kwei will lead an army into Kiangsi province, which is nominally Nationalist territory.

This decision followed the announcement that Gen. Shih Yu-San, an anti-Nationalist, had begun hostilities in northern China. General Shih's operations north of the Yellow river caused the declaration of martial law in Peiping and Tientsin and the invocation of a news censorship by Nationalist authorities.

TRANSPORTED from El Paso, Texas, in an ambulance, Albert B. Fall, former secretary of the interior, entered the New Mexico penitentiary at Santa Fe to serve a sentence of a year and a day for bribery in federal oil leases. He was put in the prison hospital, where he is expected to serve his time. The usual photographing, fingerprinting, classification and numbering routine was dispensed with until Fall is reported by the prison physician, Dr. E. W. Fiske, as able to stand these details.

Interviews by the press with Fall were forbidden by the United States Department of Justice in a letter of instructions to Warden Ed Swope of the New Mexico penitentiary.

SHOULD "Alfalfa Bill" Murray, governor of Oklahoma, seek any other office, it is likely he would receive a large part of the motorist vote of the state. He has been engaged in a contest with Gov. Ross S. Sterling of Texas over toll and free bridges across the Red river, which separates the two states, and for a time at least the result was that automobiles crossed the river on free spans, excepting the one at Denison, Texas, and the owners of toll bridges were doing no business. At the south end of the Denison free bridge Texas rangers were stationed by order of Governor Sterling to stop traffic after Oklahoma officers had torn down a barrier that had been erected. In retaliation, Governor Murray had highway crews tear up the approaches to toll spans that are near two free bridges. The Denison toll bridge was blocked at the Oklahoma end, forcing traffic to make a 20-mile detour to the free bridge at Preston.

Oklahoma highway employees said they had received orders to begin tearing up a section of road near Achille, Okla., leading to K. O. & G. railroad bridge at Carpenter's Bluff, eight miles east of Denison. The railroad bridge has a toll runway for vehicles.

Involved in the controversy are a federal injunction and a contract with toll bridge owners. J. J. Loy, Texas state senator, prominent in highway affairs, informed Governor Sterling that he considered the Texas executive had overstepped his authority in sending rangers to block the Denison free bridge. "The bridge was closed by a federal injunction and keeping it closed was a matter for federal officers," Loy said.

BAD weather marred the 1031 national balloon elimination race which started at Akron, Ohio, and the contest was decidedly unsatisfactory. First place was won by the United States navy pig which was piloted by Lieuts. T. G. M. Settle and Wilfred Bushnell. Second place went to the Goodyear-Zeppelin Goodyear VIII, piloted by Frank Trotter, and third honored to the W. J. R. of Detroit, piloted by Ed J. Hill and Arthur Schlosser.

The navy balloon landed at Marilla, N. Y., after covering a distance of 245 miles. The Goodyear came to earth about two hours later at Stevensville, Ont., 150 miles from her ensville, Ont., where she was starting point, while the W. J. R. came down at Westleyville, Pa. near Erie, after covering only 115 miles.

LIUET. Bushnell.

FRANCE took advantage of the international confab to start a campaign for putting teeth in the Kellogg pact and in the League of Nations covenant. A memorandum issued at the Quai d'Orsay, replying to the league's request for information on armed strength, contained the official view that disarmament cannot be accomplished unless an international armed force is set up under the aegis of the league, or reciprocal obligations are undertaken to prevent aggression by a military force. The document gave no precise figures on France's armaments, but did declare that those armaments have been reduced to the lowest possible point "under present conditions in Europe and the world." The Goodyear came to earth about two hours later at Stevensville, Ont., 150 miles from her ensville, Ont., where she was starting point, while the W. J. R. came down at Westleyville, Pa. near Erie, after covering only 115 miles.

LIUET. Bushnell.

The army balloon No. 1, piloted by Capt. Karl S. Axtater and Lieut. H. S. Couch, had to cover only about 80 miles to take fourth place in the contest. This bag came down at Custards, Pa., after running into a storm. The same storm forced down L. P. Furculow and John Rieker, the Akron balloon pilots, who landed four miles north of Ravenna to take fifth place after traveling only about 20 miles.

A second army balloon, piloted by Lieuts. Edgar Fogesonger and John A. Tarro, was last, with a flight of only 35 minutes. It covered only 12 miles before coming down. As a result of the contest, the navy and Goodyear balloons will represent the United States along with W. T. Van Orman of Akron in the international Gordon Bennett race.

NICARAGUAN insurgents have "busted loose" again and are giving the national guard so much trouble that United States marine patrols went to the rescue from Managua.

A large party of rebels armed with pistols and machetes entered the town of Rama on the Escudido river and, after sharp fighting, was driven back by national guardsmen. Three of the invaders and one guardsman were killed.

About the same time 250 men under Pedro Alamirano, Sandinista chieftain, sacked the small mining town of Santa Domingo in Chontales department, according to official reports. Police killed one of the insurgents. A national guard patrol was ambushed on both sides of the Chico river at Kusalaya by 40 insurgents, the government has been informed. Three of the insurgents were killed and one guardsman was wounded.

OUR eight new 10,000-ton cruisers, it has been found, roll so badly in rough water that the effectiveness of their gunfire is impaired. Therefore they are to be altered. Already anti-rolling tanks and larger bilge keels are being put in the Pensacola and the Northampton and if these changes are successful the other cruisers also will have them. Navy officials said the seriousness of the roll had been exaggerated. The seven cruisers now building have been so modified in design, it was said, that the tendency to roll will be eliminated.

WHAT was said to be the largest prohibition investigation ever undertaken came to a climax in Baltimore when a federal grand jury returned three indictments charging 53 corporations and individuals in New York, New Jersey, Delaware, Maryland, Michigan and Ohio with conspiracy to violate the prohibition laws.

The investigation was begun in August, 1925, after the seizure in Baltimore of three big stills used for cracking and re-distilling commercial alcohol for beverage purposes. More than 120 witnesses, including Prohibition Director Woodcock, Dr. James M. Doran, former director and official of the attorney general's office appeared before the inquest, which cost the government \$500,000.

Among those indicted were the United States Industrial Alcohol company, and its subsidiary, the United States Industrial Chemical company of West Virginia and Maryland, the largest industrial alcohol company in the country.

According to the charges, the conspiracy was started in 1927, and corporations were formed for the purchase of industrial alcohol so it could be resold to other individuals for conversion into beverage channels. It was said the ring operated plants at Cleveland, Erie, Pa., Paterson, N. J., and Fredonia, and Florida, N. Y.

WHEAT continues to be a live topic for a considerable part of the country's population, and scarcely a day passes without either an attack on the policy of the farm board or a defense of its way of doing business. The price having dropped to 25 cents a bushel or even lower in the Southwest, the growers are using their grain in ways heretofore unknown. In the Texas panhandle it is accepted as admissions to theaters, and by dentists and newspapers in lieu of cash. Many of the southwestern farmers are feeding wheat to poultry, cattle and hogs and using it for fuel. A judge in Dodge City, Kan., offers to marry couples for ten bushels of the grain, and in several cities motor companies take it in exchange for used cars at the rate of 50 cents a bushel.

SYNDICALISTS are causing a lot of trouble in Spain, and it is a question whether the new republic will be able to survive. Riotous demonstrations in Seville resulted in the death of nearly a score of persons, and martial law was proclaimed there.

It was predicted that when the assembly was formally constituted the cabinet would resign immediately. Alcala Zamora would be elected president and that he would summon either Manuel Azana, present war minister, or Alejandro Derrour, foreign minister, to the premiership.

The proclamation declaring martial law in Seville set forth that troops would fire on the slightest warning and that, therefore, residents had best keep off the streets and out of balconies. Resistance to the military will result in immediate court-martial. The troops were ordered to use heavy artillery to destroy houses from which sniping has been going on.

ETIQUETTE

An American film producer asked an English friend to watch the "shooting" of one of his "society" films to see that it was all right.

After a time the Englishman asked: "Why does that man keep on his hat when he's talking to a lady in the drawing room?"

"Sure," said the producer, "he can't take it off—another lady's coming in presently and he's got to raise his hat to her."—London Tatler.

Wearry Pete—Here is one good thing 'bout our profess.

Happy Tim—What's dat?

Wearry Pete—We are never troubled 'bout havin' to look for a job.

A Race-Track Sentiment

We wonder if the odds were fair, 'Een when we win a bet; Though luck is good, we still declare It should be better yet.

Not a Chance

Lawyer—Now, doctor, suppose the parson and the devil should have a lawsuit, which do you think would win?

Parson—The devil, unquestionably.

Lawyer—Ah! And will you tell us why?

Parson—Because he would have all the lawyers on his side.—Pete Melo, Paris.

The Questioners

"My children ask more questions in an hour than I could answer in a week," confessed the worried-looking man.

"Yes," replied Senator Sorghum, "but they're not in a position to defeat you in an election if you don't succeed in guessing the precise answers they want to hear."—Washington Star.

Expensive

First Farmer—That rainmaker is going to charge us \$1,000 for that shower yesterday.

Second Farmer—If'n, I suppose that's what they mean by saving up for a rainy day.

No Trouble

"Tommy gets along with his wife very well."

"Why shouldn't he? His dad owns a millinery house."

BUSY DOCTOR PREFERRED

"Why does Snowpay always consult a busy doctor?"

"In the hope that he'll be too busy to force him to pay his bill."

From Small Beginnings

Don't worry if your job is small And your rewards are few. Remember the mighty oak Was once a nut like you.

Select Potatoes for Best Chips

Test for Soluble Sugars Is Key to Secret of Qualities.

(Prepared by the United States Department of Agriculture.)—WNU Service.

Specialists of the United States Department of Agriculture have devised a simple method for selecting storage potatoes which will make good chips or french fries. A test for the soluble sugars in potatoes is the key that unlocks the secret of their culinary qualities, since an excessive amount of these sugars produces a discoloration in french fries and chips and a sweetness in baked or boiled potatoes that is distasteful to some people.

Accumulate Sugars. Potatoes stored at temperatures ranging from 32 degrees to 45 degrees F. accumulate certain soluble sugars as a result of the breakdown of starch. In general, the lower the storage temperature the greater the amount of soluble sugars and the darker the color of the chips.

To make the test, a sample from the center of the potato is placed in a yellow solution of picric acid and sodium carbonate in a small test tube and heated over the flame of an alcohol lamp until it boils for one-half minute. Samples from potatoes that have not been stored at too low temperatures change the color of the solution to an orange yellow, but the excessive amount of sugars in tubers stored at low temperatures changes the color to a deep red or brown.

Test Satisfactory. This test has proved satisfactory in selecting potatoes for chip making, french frying, baking, and under certain conditions for boiling. It was designed especially for chip manufacturers, who must have potatoes with a low content of soluble sugars. The test is so simple, since it involves only a small portable outfit, that it can be used by buyers for hotels and restaurants where there is a demand for high-grade neatly cooked potatoes, free from a sweetish taste and discoloration.

Docking and Castrating Lambs Increases Price

One of the surest and easiest ways to make money on lambs is to dock and castrate them properly, says W. E. Morris, extension live stock specialist, University farm, St. Paul, Minn. These operations, he says, are simple and the risk is negligible when performed on lambs at from ten days to two weeks of age.

Correctly docked lambs bring from 25 cents to \$1.50 a hundred pounds more on the market at present prices than long-tailed lambs. Thin, long-tailed lambs are classified as cull feeder lambs and suffer the largest cut in price.

Castrating will increase the market value of ram lambs from \$1 to \$2 per hundredweight. Although fat ram lambs sell on the market at only one cent a pound below fat wether lambs, if ram lambs happen to be marketed thin they will be classified as culls and will bring about \$2 per hundred less than wethers would bring as feeders.

Docking or castrating may be done on lambs of any age up until fly time, after which it is not advisable to attempt either operation.

Important That Sows Be Kept in Condition

Sows which raise two litters a year, should not be allowed to become too thin during the summer. It is important that they make the required gain in flesh, most of which should be put on in the last half of the summer. Beginning at this time and continuing until they farrow, the bred sows will ordinarily need some grain or other concentrated feeds. With legume forage crops, these should be largely home-grown. With ordinary pastures, a small amount of some protein feed like tankage, linseed-oil meal, shorts or middlings should be fed with the corn or other grains. The amount of grain to feed, or the necessity of feeding grain at all, will depend entirely on conditions, and will be shown by the condition of flesh the sows are in. The judgment of the feeder, consequently, must always be relied on to determine how much to feed at any time.

Swine Need Salt

Swine need some salt, but not very much. Two-fifths of a pound of salt well mixed with each 100 pounds of grain mixture is enough. The feeding of too much salt when pigs are not accustomed to it will be fatal. Salt may be mixed with wood ashes or with coal slack, about one part to 20. After pigs have been hand-fed this mixture for a time they may be given free access to it. Salt may also be fed with finely ground limestone and steamed bone meal, limestone, 45 parts, and salt, 10 parts.

Sweet Clover Hay

If sweet clover is used for a hay crop, it is recommended that the hay be cut before the plants become coarse and woody, relates J. W. Lumb, of the Kansas State college. This class of forage is much more difficult to cure and store properly than many other forage crops, and therefore allows for the development of mold and spoilage that always is present in sweet clover and which is responsible for typical sweet clover disease.

WORLD'S LARGEST SELLER at 10¢

Only Absolute Monarch Is the Ruler of Siam

The only monarch absolute both in theory and in fact is the king of Siam. He was the first oriental ever to enter the White House with the rank and dignity of reigning sovereign.

The name of his majesty is Prajadhipok, easily pronounced with the accent on the second syllable pra-chai-ti-pok. Like nearly all Siamese the king is a Buddhist, officially "Defender of the Faith."

No other monarch has a cabinet dominantly composed of princes, his relatives. The crown prince of Siam is now minister of interior, has been minister of marine. No other crown prince holds cabinet office and no other king is in effect his own prime minister.

The famed sacred white elephants of Siam were never white, are rapidly losing in popular Siamese opinion their sacred character, and have disappeared entirely from the national flag which today is red, white, blue, white and red (five horizontal stripes).

A member of the Hoover cabinet recently asked a representative of Siam: "How far is it from the coast?" But Siam is not in fact, an island, quite the reverse. Shaped like a plump spider, Siam squats between French Indo-China and British Burma on the mainland of Asia, faces the Gulf of Siam and darts a narrow tongue of Siamese territory 600 miles down the Malay peninsula. Population, 11,500,000. Area, more than four times that of the state of New York.—Time Magazine.

BOIL WORTH 625

Grandmother always said this. Most of us willing to pay \$25 to get rid of boil. Get 50c box CARBOIL from your druggist today. Stops pain immediately. Heals wounds boil often overnight. Good for sores, stings, bites, etc. Get Carboil today. No use to suffer. Sporelock-Neal Co., Nashville, Tenn.

Sea Story

A quartette of revolvers were down on the waterfront one moonlit night, singing "Sweet Adeline," when the tenor fell off the dock into the bay. The incident passed unnoticed by the leader, but he perceived that something was wrong with the harmony.

"Smatter with you boys?" he complained. "One of you don't sound right."

"It's Jack," rumbled the basso, solemnly. "He's off quay"—Life.

DON'T ENDURE MALARIA

No need to endure icy chills and burning fevers. Take St. Joseph's Laxana (double strength). Marked improvement in three days. Costs less per dose; does more per dose. At all druggists.

Roosevelt Memorial

An obelisk will be erected this summer in Montana at the summit of Marias pass as a memorial to Theodore Roosevelt. The marker will rise sixty feet in the air at the point where the Roosevelt highway crosses the continental divide.

TO KILL Screw Worms

Your money back if you don't like Cannon's Liniment. It kills screw worms, heals the wound and keeps flies away. Ask your dealer. (Adv.)

Quite Right

Teacher—What is raised most in damp climates?
Tommy — Umbrellas — Baltimore Sun.

Name, Please

"What has become of the young man who was engaged to you last summer?"
"Which one?"—Karlakuren Oslo.

Worse

"Walter, this soup isn't half bad."
"No, sir?"
"No, it's all bad."

People are not thankful enough for brilliant men. They want them to be useful.

WINTERSMITH'S CHILL TONIC

For over 50 years it has been the household remedy for all forms of Malaria Chills and Fever Dengue. It is a Reliable, General Invigorating Tonic.

SHIP WITHOUT A RUDDER

It is not necessary for one to have a thorough knowledge of the sea, as well as a well-rounded out knowledge of the ship-building industry in order to grasp the significance of the descriptive phrase, "A ship without a rudder", for we all know that without a rudder a ship is rendered helpless in so far as steering is concerned. Likewise, a business that does not advertise is rendered helpless as far as doing a large volume of business is concerned.

Through the display columns of The Times is offered an ideal medium of advertising your business and NOWHERE is there to be found a better way to put ALL your products before the ENTIRE community.

THIS AND THAT

BY JIMMINY

We've had legislatures in Texas before that have made some lengthy investigations, but we've never had one that couldn't shake it off when the public showed enough of the old disgust. But, apparently, this extraordinary effort has gone beyond the control of the steering committee, hearing committee and jeering committee. The public is unwilling to believe that anything good will come out of the session—other than the \$150,000 the state must pay for its folly. Yet the servants of the people can't stop the "cross questions and crooked answers"—for one good reason or another.

Although vigorous protest have been made to stop what many writers term the "two-ring legislative circus," no one seems to be able to take the "bull" by the horns and throw it any further than the outer reaches of the legislative halls. It would appear that the lawmakers can't control oil production because they can't control their own members long enough to formulate a plan of procedure. And that was to be expected.

Many a representative left home thinking he could save the oil industry only to find that the best he can hope to do now is to save the double-six for an off in a game of Forty-two. Reports have it that the solons dabble by day and domino by night. All of which would indicate that the servants of the people see more advantage in holding seven "rocks" of one suit than they do in trying to hold seven oil men to one well.

The "board of inquiry" has questioned nearly everybody who ever had anything to do with oil, except the little tad in Tyler who had to take two tablespoonfuls of castor oil for being unruly—and if he don't prorate or do something soon, they will probably look into his case. Things are so bungled now that nobody knows whether the questioning is for a cure, or for curiosity.

One senator wanted to let the oil industry save itself and have the legislature pass a law that would save human life. The idea didn't go over—probably because a majority of solons don't feel like taking a junket to Hades to find out if

STOCK NEWS

There is a continued shipment out of here this week of livestock, mostly fat lambs to the market at Fort Worth.

Those shipping out of here since our last issue are:

Friday, Albert Appel, 4 cars lambs to Ft. Worth.

Saturday, Prosser and Brown, 2 cars to Ft. Worth and 2 cars on Tuesday of this week. Frank K. Harrell, 2 cars.

Sunday, A. Mitchell, 2 cars lambs to Ft. Worth.

The Russell Estate shipped 2 cars lambs Sunday to Ft. Worth market. On Tuesday of this week, 7 cars of cattle were shipped by the Russell Estate to the Peyton Packing Co. at El Paso, which were bought through R. H. Chalk, commission man of Del Rio.

R. H. Chalk also purchased for the Peyton Packing Co., 2 cars of cattle from Albert Appel which were shipped from here Monday.

On Tuesday, the following shipments of lambs went out of here, consigned to the Ft. Worth market. Russell Estate, 6 cars. Joe F. and V. A. Brown, 5 cars.

Wednesday, Prosser and Brown again shipped 2 cars of lambs from here and Albert Appel 2 cars. Son Turner and Albert Appel shipped out the same day, together, 2 cars of lambs. B. H. Tate shipped from Mofetta, 2 cars of lambs to Fort Worth.

R. N. Allen and E. W. Hardgrave, who shipped out of here last week, carried their lambs to the Kansas City market. They returned home Wednesday.

SAMBO'S PHILOSOPHY

"De trouble wid mos' folkses, dey ain't be sash of his OPPORTUNITY ar + bill collectab knockin' at dey doah."

it would be worthwhile.

In the meantime, let's be thankful that there is a limit to this session.

Mrs. H. D. Williams made a trip to Birmingham, Ala., recently, to meet Mrs. J. W. Sessoms, who has been visiting relatives in North Carolina. Mrs. Sessoms and Mrs. Williams motored back to Sanderson and were met in San Antonio by Messrs. H. D. Williams, J. W. Sessoms and Julian Kessler. They report a wonderful trip while away.

Greene Cooke was a business visitor to Ozona Monday. During his absence George Geaslin worked in the market.

Miss Helen Watson of Alpine spent Monday here as the guest of Miss Kathleen Sullivan.

METHODIST PASTOR INVITES CHURCH-GOERS TO SEND IN FAVORITE SONG TO BE SUNG

Last Sunday, Rev. B. M. Stradley, pastor of the local Methodist church, made a special request for the choir to render an anthem, "The Gift of Love", which was beautifully rendered, and Sunday night another request was made for the Junior quartet to sing "His Love Shining Through", which was beautifully rendered, also.

At the night service several requests were also made for old-time songs by the congregation.

The pastor advises that all requests for choir specials should be turned in to him, or to the music committee before Wednesday in order that the choir be given ample time in which to rehearse the songs before the Sunday services.

Special requests for congregational songs can be made at the service you desire to have them sung.

At the 11 a.m. preaching service, last Sunday, the pastor announced the appointment of the Committee on the Spiritual State of the Church as follows: Mrs. Jennie Freeman, chairman; Mrs. J. W. Savage, Mrs. Maggie Latimore, Mrs. W. M. McKinley, W. A. Povel, Mrs. F. S. Garrison, and Mrs. E. M. Buck.

RESOLUTION OF RESPECT

Whereas, there has passed from this life to the life beyond the brother and nephew, W. Telefus Sharp, of our sisters, Kathryn Harrell and Jennie Qualtrough.

Therefore, be it resolved by the officers and members of Sanderson Review No. 72, W. B. A., extend to them our sincere sympathy in their loss.

Be it further resolved, that a copy of these resolutions be sent to our bereaved sisters, a copy be placed upon the minutes of this Review and a copy published in the Sanderson Times.

Fraternally submitted,
IDA BODKIN
MAGGIE BANNER
IDA LAUGHLIN

T. R. Arrington returned last Thursday from Columbus, Ohio, where he has been attending the Brotherhood of Locomotive Fireman convention which was held in that city.

Mr. and Mrs. Frank Robertson and daughter, Patty Jo, left Monday afternoon for San Antonio where they will visit relatives.

What A World of Grief It Saves You!

¶ WE KNOW a seed house that proves each season's crop of seeds in their own trial gardens before they offer them to the public. Flowers and vegetables grown from these seed must measure up to definite standards, or else the entire crops from which the samples were taken are burned.

¶ We know a manufacturer of dry batteries who tested a new product two years before he sold a single battery to a single dealer.

¶ We know a manufacturer of an anti-freeze solution for automobile radiators who spent two years testing his product under all conditions before he said a word in advertising about the merits of his goods.

¶ We know a manufacturer of household pharmaceutical products whose self-imposed standards of purity and efficacy is even higher than that laid down by the United States Pharmacopœia and the National Formulary.

¶ If we mentioned their names you would recognize them immediately. You probably would say, "I plant those seeds," "I use that battery," "I use that anti-freeze," "My medicine cabinet contains those products."

¶ The four instances cited are typical of every reliable manufacturer in America. Millions of dollars are spent annually to develop, to improve, to standardize, and to take the guesswork out of merchandise. Other millions of dollars are spent in advertising to tell you about them.

¶ All of which is to say that in putting your trust in advertised merchandise you save yourself the bother, the expense, the disappointment—yes, the danger—of experimenting and discovering for yourself which make of soap, breakfast food, radio tubes, lingerie, gasoline, tea, electrical devices, stationery—or what-not—gives you the most service for your money.

¶ The news columns of this paper keep you informed of the happenings in which you are most keenly interested. The advertisements keep you informed of the newest, most advantageous, most reliable merchandise that America's most progressive makers are producing.

Bridge Parties

CACTUS CLUB

Mrs. Frank James delightfully entertained the Cactus Bridge Club at her home last Thursday afternoon. A Japanese motif was cleverly carried out in all appointments. High score prizes were awarded to Mrs. Carlton White, first; Mrs. W. C. Barksdale, second; Mrs. Max Bogusch, cut.

Those enjoying the afternoon were: Mesdames Frank Robertson, S. C. Bodkin, Kendrick Harrell, Wallace Henshaw, Carlton White, Clyde Harrell, Max Bogusch, W. C. Barksdale, B. F. Davis, Fred Montgomery, H. D. Williams, James Kerr, Jeff Sessoms, Jack Freshour and Misses Willie Mae Green and Louise White.

TUESDAY CLUB

A delightful afternoon was spent with Mrs. F. L. Burnside Tuesday when she entertained her club and a few additional guests with four tables of bridge. The living-room was attractive with baskets of zinnias, sunflowers and various wild flowers.

High score was won by Mrs. H. E. Fletcher; second high by Mrs. Herbert Buchanan and Mrs. S. C. Bodkin, low.

A delightful salad course was served to Mesdames Clyde Griffith, H. E. Fletcher, Herbert Buchanan, S. C. Bodkin, C. P. Peavey, W. H. Savage, J. W. McKee, A. F. Buchanan, C. M. Breeding, Mary Lou Kellar, J. S. Nance, J. W. Sessoms, D. A. Pollard, and L. W. Erwin.

NIGHT CLUB

The Saturday Night bridge club met last Saturday with Mr. and Mrs. Jim Nance as hostesses.

At the conclusion of a number of games, prizes were awarded to Mrs. Max Bogusch as holder of the high score for the ladies and to L. H. Lemons as holder of the men's high score.

Those who enjoyed the evening were: Mr. and Mrs. L. H. Lemons, Mr. and Mrs. Max Bogusch, Mr. and Mrs. Clyde Griffith, Mr. and Mrs. LeRoy Grigsby, Mr. and Mrs. F. L. Burnside, and Mrs. W. H. Savage. Refreshments of cantaloupe a la mode and coffee were served.

WEDNESDAY CLUB

Mrs. James Kerr was hostess to the members of the Wednesday Club and a few invited guests at her home this week. The rooms were attractively decorated with various cut flowers.

There were four tables of players that enjoyed the afternoon games of bridge. A purse was the high score prize that was won by Mrs. Fred Montgomery. A piece of lingerie was the second high score prize that went to Mrs. Kendrick Harrell.

A plate lunch consisting of chicken salad on lettuce, crackers, iced tea, olives, pickles, honeymoon cake and pineapple sherbet was served to the following guests and members: Mesdames Max Bogusch, Clyde Griffith, Tol Murrah, B. H. Tate, F. B. Carter, L. H. Lemons, J. M. Corder, H. R. Laurence, J. W. McKee, R. S. Wilkinson, Kendrick Harrell, C. V. McKnight, J. C. Green and C. P. Peavey.

WITH THE CHURCHES

CATHOLIC

Mass every morning at 7:30. 1st Mass on Sundays at 7:30; 2nd Mass at 9 o'clock.

—Rev. John M. Bertrant, Rector.

CHURCH OF CHRIST

Ladies' Bible class on Tuesday afternoon at 5 o'clock.

Mid-Week Bible study on Wednesday evening at 8:30 o'clock.

Sunday Bible classes begin at 10 o'clock.

Preaching and Communion each Sunday beginning at 11 a.m. and 8:30 p.m.

Young People's Bible Class on Sunday evening at 7:45 o'clock.

A cordial invitation is extended to all.

—R. E. GRIFFITH, Minister.

FIRST METHODIST

10 a.m.—Sunday School—"A Class for every age, and trained teacher for every class." A whole family Sunday School.

11 a.m.—Divine Worship. Special vocal and instrumental music furnished by the church Music Committee. Responsive reading: Isaiah 53—led by Mr. L. A. Lowe.

Sermon by the pastor. Subject: "Light From Calvary"—Text: John 15:13. "Greater love hath no man than this, that a man lay down his life for his friends."

3 p.m.—At Dryden Mission—Sermon by pastor; subject: "The Peace Giving Christ." Text: John 14:27.

Peace I leave with you, my Peace I give unto you, not as the World giveth, give I unto you. Let not your Heart be troubled, neither let it be afraid.

Special vocal solo by Miss Hazel Powell.

7:15 p.m.—Junior Epworth League in the parsonage parlor. H. Epworth League in the church auditorium. The League program is in charge of Miss Bernice Nichols. Special music to be furnished by the H. League mixed quartet.

8:15 p.m.—Sermon by the pastor.

Subject: "The Treasure Hunter." Text: Matt. 13:46. "When he had found one pearl of great price, He went and sold all that he had, and bought it."

The Methodist mixed quartet will render a special vocal number at this service.

WEDNESDAY, Aug. 5—8:15 p.m. to 8:45 p.m.—Joint meeting of Board of Stewards and Workers Council. 8:45 p.m. to 9:15 p.m.—Prayer service, conducted by the pastor.

We welcome all to come worship with us, and bring your unconverted friends to the Sunday night services, praying that they find the Lord.

PRESBYTERIAN

Sunday school begins promptly at 10 o'clock. Be on-time. Come and bring the children. The pastor will preach at 11 and at 8:15 p.m. All services last only one hour.

The Catechism Class will meet at 4 p.m., Wednesday, with Mrs. McCall. The Workers' Conference for officers and teachers in the Sunday school and all adults who are interested, will meet Wednesday at 8:15 p.m.

Choir practice for young people and adults will be held at the church Thursday at 7:30 p.m., lasting until 8:15 p.m. Only three quarters of an hour, but it means better singing on Sunday.

Let us strive for 100% in all our church work. "Give of your best to the Master."

JOHN V. McCall, Pastor.

Miss Rita Henry, of Victoria, is visiting Mr. and Mrs. John D. Harrison at their ranch home near Dryden.

Mrs. Margaret Hoffman is helping take inventory at the Sanderson Mercantile this week.

RESOLUTION OF RESPECT

Whereas, Our Divine Creator allowed the Angel of Death to take from his earthly abode Ed Downie, brother of our beloved sisters, Octavia Downie and Mary King.

Therefore, be it resolved that we, the members of Sanderson Chapter No. 136, Order of the Eastern Star, extend to our bereaved sisters our deepest sympathy and may they find comfort in the knowledge that God doeth all things well and will lighten the burden of those who put their trust in Him.

"He is not dead; he has but passed Beyond the mists that blind us here,

Into the new and larger life Of that serene sphere.

Be it further resolved that a copy of this resolution be sent to our bereaved sisters, a copy be spread on the minutes of the Chapter and a copy be published in the Sanderson Times.

Lesson for August 2

PHILIP'S MISSIONARY LABORS

LESSON TEXT—Acts 8:1-40.
GOLDEN TEXT—Therefore they that were scattered abroad went everywhere preaching the word.
PRIMARY TOPIC—Philip Tells a Stranger About Jesus.
JUNIOR TOPIC—Philip An Early Missionary.
INTERMEDIATE AND SENIOR TOPIC—Pioneering for Jesus.
YOUNG PEOPLE AND ADULT TOPIC—The Gospel Breaks Over the Frontier.

I. Philip Preaching in Samaria (vv. 5-8).

In taking the gospel to the Samaritans we see the broadening of the scope of Christianity. Philip was one of the seven so-called deacons. He went to Samaria and preached Christ showing that God's purpose included these despised people. Christ is the true message of the evangelist. Not Christ as an ethical teacher or as an example, but Christ as the Savior from sin through the offering of himself on the cross as a substitutionary ransom.

II. Philip Preaching to the Ethiopian (Acts 8:26-39).

Following the preaching to the Samaritans, the gospel was preached to the Ethiopian who was in all probability a Gentile. In his conversion we see the gospel in its outreach to the ends of the earth.

1. Philip meeting the Ethiopian (vv. 26-30).

a. Leaving work by divine direction (v. 26). The Lord called Philip away from a great work in Samaria and specifically directed him to go near and join himself to the chariot. The tactful question put to the treasurer gained him a seat by his side. The mission which at first seemed so unpromising was now clear.

b. An officer of state seeking the way of salvation (vv. 27, 28). The Ethiopian had been to Jerusalem to worship. Despite his high official position he was not ashamed of the worship of God. The journey from that far-off country required hardship and expense, but to one whose soul yearns after God this is all joy.

c. A providential meeting in the desert (vv. 29, 30). The coming together of these two men was clearly the pre-destined way of God.

2. Philip preaching to the Ethiopian (vv. 30-35).

a. The Ethiopian's employment on the way (v. 30). He was reading the Word of God. The particular portion was the fifty-third chapter of Isaiah. A most excellent way to spend one's time while traveling is to read God's Word. It is through God's Word that the individual is shown the way of life.

b. The need of an interpreter (v. 31). The Ethiopian was reading one of the clearest testimonies to the Messiah in the Old Testament, yet he was unable to understand it. The Ethiopian, a great statesman, needed an interpreter of the Scriptures. The gospel needs to be experienced before one can be a witness to its saving power. The human mind in its natural state is blind to spiritual things, making the work of an evangelist indispensable. Preaching the Word of God will always be necessary. God has designed that through the foolishness of preaching, men shall be saved. Valuable, indeed, as the Bible is in the hands of men, the touch and influence of the believing man who has experienced the work of God in his own heart is needed.

c. Philip's message (vv. 32-35). He began at the scripture which the Ethiopian was reading and preached unto him Jesus. This shows us that the person presented in the fifty-third chapter of Isaiah as suffering in the stead of others was Jesus Christ, also that the central theme of the preacher's message should be Christ crucified. He did not preach Jesus as a great teacher, but as a Savior who had suffered and died in the stead of sinners. The vicarious atonement is a note which is at the very heart of the message of every evangelist.

3. Philip baptized the Ethiopian (vv. 36-38). As a result of Philip's preaching, the eunuch proposed baptism. When Christ is truly received men will desire to confess him in baptism. Where this desire is lacking the gospel in its fullness is evidently not preached. The Ethiopian might have offered many excuses as to why he should neglect this important ordinance, but like every man who is honest before God, he was willing at any cost to render obedience.

4. The Ethiopian rejoicing (v. 39). Having been baptized, he went on his way rejoicing. Confession of Christ and obedience to his Word always brings joy.

Worry

Oh, if religion can only rid us of this cursed habit of worry, what a blessing it will be! And Paul says it can. He is writing in the shadow of a prison, "Be anxious for nothing!" When a song to sing itself through prison bars!—James I. Vance.

The Cross

The cross is the real measure of life. You either stumble over it to spiritual death or you rise on it to newness of life.—P. T. Forsyth.

Machines That Are Almost Human

By E. C. TAYLOR

The Wireless Light

IT WILL not be many years, scientists predict, before we will go home press a button, and a crystal globe, having no wires inside or out, will cast a pleasant light in our homes.

This wireless light is now a fact, and is used in several robots that surprise us by their human-like performances.

The new wireless light looks like a crystal sphere when not lighted. It has no filament inside it to burn up and break, and has no metal inside or out. It contains gases rendered highly luminous by a high frequency electric current in a near-by coil of wire. In homes of the future mechanical age, these coils could be placed in the walls, and no lighting apparatus or wires, only the crystal lighting globes, would be exposed.

One of these wireless lights, a huge one, operated by radio, recently was mounted on a tower in Schenectady, N. Y., and it threw off sufficient light to read a newspaper two miles away. These wonder lights cost little and give off almost no heat.

The new magic lights are similar to the neon tubes used for the new type of outdoor advertising lights, but cast a soft glow instead of the glaring red or blue of the neon outdoor tubes. The neon tubes need wires, but the magic light has no wires, and the crystal globes could be carried from one place to another and set down where one wants it.

This magic wireless light utilizes the principle of the ordinary electric doorbell, where by pressing a button, a current of electricity is sent through a coil which repeatedly pulls a hammer that rings the bell.

Scientists discovered that in the neighborhood of a rapidly changing magnetic field, electrons in a gas-charged bulb started first one way and then another, thus producing light.

The wireless light can be used only in proximity to changing magnetic coils. For home lighting these coils would be placed in walls, and they could be started actuating by pressing a button, just as the doorbell is made to ring.

This principle of magnetic coils is used to make a robot work in the United States government assay office in New York city. That robot literally picks gold out of the air.

A considerable quantity of gold formerly was lost in the fumes that passed off during the smelting process in the assay office.

Now these fumes are forced to rise between two metal plates. These plates are charged with a high voltage electric current. The gold particles in the fumes become electrified and settle on the near-by electrodes. Then they are shaken into a collecting chamber below.

Hundreds of ounces of gold, worth many thousands of dollars, have been recovered in this way by the robot.

Another magnetic robot now used by railroads detects broken rails and prevents accidents. The robot is housed on a small car resembling a handcar, that is towed slowly over the rails. As it passes along the rails it sends an electric current through the rails directly beneath the car.

When a break in a rail is encountered, the current is interrupted, and the robot squirts a dab of paint on the spot where the break is indicated.

This device detects flaws of so minute a nature that they could not be seen by the human eye. Countless railroad accidents have been averted by the use of the robot.

The magic light is helping to perfect television, that remarkable device that brings pictures of actual events along with sound over the radio. Scientists have progressed so far in this, that six-foot screens have replaced the fourteen-inch screens of a short time ago, and many more persons now can see the radio talkies and movies than formerly. With a development of the new magic light, it is predicted that two-way television will be speeded. Demonstrations already have been made, showing both parties to a telephone conversation, and it will not be long, say scientists, before you can see the person you are talking to over the telephone. You also will be seen, though.

(© 1931, Western Newspaper Union.)

Best Wood for Chessmen

The forest products laboratory says that the best chessmen are probably made from genuine boxwood. This wood is imported in relatively small quantities because of its scarcity and high price. It probably can be readily had, however, in the small sizes required for chessmen. West Indian boxwood should also be suitable for chessmen. The wood is much more common and is considerably lower in price. Among American species holly is probably best suited for chessmen. This wood is light colored, rather heavy, and quite hard. It carves well and takes a smooth finish.

Opera Stars' Pay Limited

Opera stars of Germany are to receive not more than \$100 a night nor more than \$6,500 a year, according to a recent decision of the German Stage society. This limitation of compensation is caused by the bad financial condition of most German operas. It is feared, however, that famous foreign artists will refuse to appear in Germany at these rates.

Combination for Beach and Water

By CHERIE NICHOLAS

IS YOUR vacation program mostly a matter of swimming, bathing and sunning? If so, you will be interested in the combination bathing and beach costume, shown in the picture. It might correctly be spoken of as a three-in-one proposition, for it is all of that—a sun, water and sand costume.

As to "looks," well, you can see for yourself that it is about as smart a costume as ever went in the water or ever came out for a stroll on the beach. As to being practical, that is exactly why we are illustrating it here, because it is thoroughly so.

See to the left this modish suit all ready to jump in and take a swim. Of course, not even a bathing costume is expected to stay under the water all the time, especially when the call of the beach style-parade is so insistent. When it comes to beach regalia, as every woman knows, it is huge hats and novel pajamas which are telling most of the story. Wherefore, it's a wise designer who included in this ensemble perfectly stunning pajamas with a straw hat as gaily colorful as the mode demands.

You will adore the chic color scheme of the snug-fitting pajamas which be-

long to this ensemble and which are therefore made of the same skipper blue jersey as the shorts and bodice. When reminds us of the fact that Jersey is more popular than ever for bathing and beach costumes. But about the stripes which distinguish these pajamas and which we started to tell about, they play up algerian red, legionaire blue and morocco sand—French colonial colors, if you please, which are so highly in vogue at the moment.

Now that designers have taken to creating the many-piece costume, which is true both as to formal and informal modes, the trend is especially made a feature in the realm of bathing and beach-toys. One of the newest ideas in this direction is the three-piece which includes a wrap-around skirt which by a mere gesture on the part of the wearer can be converted into a serviceable and charming beach cape.

Clever looking beach sets which are as gaudily colorful as any bathing beauty might wish are made of terry cloth, the trio consisting of a long practical coat, a wide-brimmed hat to match and a large roomy bag which is rubber lined.

(© 1931, Western Newspaper Union.)

AMERICAN BATHING SUIT WORLD'S BEST

Paris, the style center of the world, jags far behind America in the design of one important feminine garment, according to Baron de Meyer, famous French stylist and fashion authority. That garment is the one-piece bathing suit.

The American one-piece may not be modest but it's the most modish garment of its kind in the world, the baron writes in Harper's Bazaar. Nothing—and only nothing—can equal it for showing off the feminine figure to the best advantage.

"Nothing made in Europe can beat the quality of the American-made bathing suit," Baron de Meyer writes. "No other suit of its kind apparently gives the female figure so perfect a shape."

In one way, however, the French suits have the bulge on all others. They're so tight that they cause their wearers to bulge in the wrong places, the baron says.

European bathing suits would improve, the French stylist believes, if their designers would spend their summer vacations on the beaches studying the needs of bathers. At present it is very difficult to obtain a stylish suit on the continent. The few women who do insist on smart bathing suits are obliged to have them made to order.

Wool Is About Smartest

Thing for Sports Wear

If questioning whether or not wool is endurable for summer wear, since it is to be about the smartest thing for sports, try out the venture with a dress of kid angora. One will never know that one is wearing wool, so delightful is it to the touch. Then also, it comes in the faintest and loveliest of pastel colorings, so becoming that one can hardly resist its appeal.

Linen Mesh Underwear

Relief in Hot Weather

Linen mesh underwear is something of a relief in hot weather. It is the kind about which it is said that it is hot in cold weather and cool in warm weather. As a matter of fact it does absorb perspiration far more readily than silk or cotton and those who wear it are loud in their praise.

Demurely Simple

Demurely simple is this beautiful gown of black crepe with a motif of large leaves etched in silver thread and silver sequins. With it is worn short gauntlet gloves of white suede.

Charming Little Coats

Enhance Evening Gowns

Lovely little coats are worn over summer evening dresses. They are made in many fabrics, many styles. Some have short sleeves, some have caplets over the arms, some are really capes. One cape is made of finely plaited chiffon cut in points around the lower edge.

These little coats and capes are made in all the colors of the rainbow, and in black and white as well. If you sew cleverly, they are not difficult to make. And they certainly add much to the effectiveness of the summer wardrobe.

Some of them have a band of fur around the elbow sleeves.

"ROUGH RIDERS" OF THE DESERT RANGE

The vast African desert stretches for miles in every direction as far as the eye can see, there is no life, no movement. Suddenly, from behind a high sand dune a file of riding camels come trotting with that graceful action that takes them incredible distances without fatigue.

A sharp order rings out. The camels halt and kneel, their riders jump to the ground and run to the top of the dune, flinging themselves on the sand. Another order, and the rattat-tat of a machine-gun breaks the desert silence.

It is the famous Sudan Camel Corps in action—one of the finest bodies of troops in the king's service.

This camel corps, which forms part of the Sudan defense force, is officered by British officers who are seconded by their regiments for two years. The rank and file are Sudanese, black soldiers with a great reputation for valor and faithfulness.

There is keen competition among British officers to serve with the corps, and the supply is always greater than the demand.

One of the chief attractions is the chance of a "scrap." The Camel Corps is always setting out on little expeditions that end in bush encounters with some desert raider. Keeping the peace in an area several times the size of England is no small task for a few hundred men.

The headquarters of the corps are at El Obeid, 250 miles southwest of Khartoum. There are British troops at Khartoum, but owing to the prevalence of malaria, it is unsafe for them to be stationed further south.

The Camel Corps is composed of rifle companies and a machine-gun company, which are stationed at various strategic points.

There is a mistaken idea that riding a camel is a quick way to painful bruises and a badly jolted inside. Actually a seat on a proper riding camel going at a trot is as comfortable as any armchair. All camels are not riding camels, however, and one of the long-suffering beasts of burden from the zoo would hardly suit the Sudan Camel Corps. A good riding camel is worth several hundred dollars, and some of them have pedigrees as long as any derby winner.

Although it is not exactly a health resort, there are about seven white women in El Obeid, which has a tremendous ever-moving population. Caravans from all over Africa pass through the town en route for Mecca, and each race has its quarter where its representatives stay perhaps for a few days and perhaps for months.

It is this widely assorted, constantly quarrelling human hodgepodge that the Camel Corps has to keep in order. That it carries out its duty with such success is a remarkable tribute to its efficiency.—Montreal Herald.

Some Health "Secrets" of Elderly Britishers

Famous people have undergone a searching cross-examination concerning their way of life and the secrets of their health by Mr. Leonard Henslowe, who has published their answers in "Living As We Do." Sir Claude Champion de Crespigny, aged eighty-three, drinks elder, ale, and wine in moderation, and eats only a little meat. Sir Alfred Butt attributes his good health to "lack of time to be ill." Lord Brentford, home secretary in the last British government, neither smokes nor drinks. Mr. Justice Eve eats only bread and meat, and spends his holidays in a caravan. Earl Jellicoe attributes his good health to his healthy ancestry. Mr. James Douglas says: "I owe my constitution to my parents and my ill-health to myself." And Mr. Hannen Swaffer says: "So far as I know I haven't any health."—London Mail.

Mennonites in Paraguay

The Mennonites, reputed descendants of the Dutch Waldenses of the Middle Ages, have found a haven in the Paraguayan Chaco. They went to South America after their venture had failed in Prussia, Russia and Canada. The government of Paraguay granted them a colonization concession in 1921 and the colony now numbers 1,400 persons. Their charter allows them to maintain schools in their own language, German. Also, they are exempt from military service and swearing in court, affirmation being sufficient. The Mennonites are desirable colonists, especially if allowed to live according to the traditions of their ancestors.

Keep Your Balance!

It's all very well to keep on your toes, but not to the extent of being off balance most of the time.—American Magazine.

In trying to figure out the problem of life some men subtract what they own from what they owe.

Chills and fever go, strength and pep return—when you take GROVE'S TASTELESS TONIC

Rained in Nick of Time

The most timely rain ever experienced by Dr. A. F. Hardt, Williamsport, Pa., fell on a recent night as the doctor discovered next morning. A fire from burning trash nearby reached the house some time during the night, burned up the side and through the roof when a sudden rain-storm came along quenching it. No one knew anything about the fire until next morning when Doctor Hardt saw the big hole in the roof.—Capper's Weekly.

STOP THAT ITCHING

To relieve the Itch of Eczema conditions, Athlete's Foot, Tetter, Ring Worm, Itching Toenails, Poison Oak, and as an antiseptic dressing for old sores—Ask Your Druggist For BLUE STAR OINTMENT

Dream Fulfilled

In Belmont (N. C.) on business W. D. Kennedy dreamed that one of his children had been killed, so he wrote a letter to his wife asking if they were all right. Mrs. Kennedy replied on a postal saying the children were all safe, and gave it to Charlie, four-year-old son, to mail. As he was crossing the street to a mailbox he was run over and killed by a truck.

The Inspired Typewriter

Indignant Caller—What do you mean by saying in the paper that I looked quite nutty as I stood on the platform?

Reporter—Natty? My dear sir, I'm very sorry—I wrote "natty."—Boston Transcript.

Terrell County Oil Activities

By J. CALVIN STANSELL

It is reported that the Jones test, Packenham No. 1, situated on section 43 in Block B2, has encountered a slight showing of oil around the depth of 2,000 feet and are now fishing for a bit.
Reports from the other wells in the county are favorable and it is reported that several new locations have been made.
A large number of individuals in the states of California, Colorado, Washington, Arkansas, New York, Illinois, Louisiana and Florida have recently purchased small assignments of oil and gas leases in the various portions of the county and in some instances royalties.

METHODIST WOMEN'S MISSIONARY SOCIETY MEETING LAST TUESDAY EVENING

On last Tuesday the Women's Missionary Society of the First Methodist Church held its weekly meeting at 4 p.m.

Mrs. F. S. Garrison, president, presided at the business session, while the minutes of the previous meeting were read to the society by Mrs. R. C. Davis, secretary, and were approved.

On motion of Mrs. C. J. Watts, the new chain budget plan was adopted, after which the meeting was turned over to Mrs. C. J. Watts, devotional session leader. Rev. Stradley led in the invocation and the hymn, "Tell Me The Old, Old Story" was sung and was led by Mrs. Jennie Freeman.

Mrs. C. J. Watts gave the scripture exposition, and addressed the society on the subject: "The Living Water". Mrs. B. M. Stradley then led the hymnal prayer, after which Mrs. C. J. Watts led responsive reading of Galatians 6: 1, 10.

Mrs. Annie McKinley led the special prayer for Divine leadership on the women's work.

Mrs. Clyde Harrell then led the hymn, "What A Friend We Have In Jesus." Mrs. L. W. Erwin then gave a special talk on the subject, "Forestalling Future Illiteracy," with Mrs. Annie Ware closing the educational period with a talk on the need of higher standards of education based on moral character.

The local charity committee then made its monthly report through the chairman, Mrs. J. W. Savage. Mrs. Derrick made a special address to the society on the general subject, "Let Us Mind The Thing Spiritual", bringing home the great cardinal truths with much telling effect, dwelling on the great need of the Master's leadership through a consecrated life. Mrs. Derrick spoke in commendatory remarks of the local officers and members of

DRYDEN AIRPORT NEWS

By SGT. H. M. McCABE

Lieut. Schweizer, pilot, with Lieut. Edwards as passenger, from Fort Crockett, landed at this airport and refueled this week, later departing for their home station. Lieut. Schweizer and Edwards had been on a trip to the west coast.

Capt. Baze, pilot, and mechanic as passenger, stopped here this week on their way to El Paso, enroute to West coast from Brooks Field.

Lieut. O'Connell, pilot, with Maj. Brenn as passenger, Lieut. Everest pilot, with Capt. Hart as passenger, and Lieut. Taylor, with Sgt. Cadnich as passenger, all of Fort Crockett, refueled here recently, enroute to Johnson's ranch in the Big Bend section to spend the week-end. They returned two days later departing immediately for their home station.

Lieut. J. C. Monfort, U. S. N., pilot, with mechanic as passenger, refueled at this airport and later departed for Kelly Field. They were enroute to Philadelphia from San Diego, California.

ODD BITS OF NEWS

John D. Sloan, coal miner of Kona, Ky., aged 54, is the father of 34 children.

Pursued by his wife from city to city, C. K. Waterfield was finally arrested in New York on a charge of desertion after evading her for 17 years.

Because her husband would not eat his meals at home, Mrs. A. C. Davidson of Tulsa, Okla., filed a divorce suit.

All the 250 waitresses of a chain of London restaurants bobbed their hair within three days after rules against bobbing were rescinded.

Accustomed to tea since his childhood, John Rodgers of Los Angeles said in a divorce suit that his wife insisted on giving him coffee and thereby spoiled his pleasure in life.

Lady Alexander Paget of London, from whose home a thief stole two famous snuffboxes, expressed the hope that the miscreant would sneeze to death.

Mike Kaplan, an Irish barber, retired recently when he was notified he had inherited \$35,000 from a relative in Dublin.

While Lyle Bower of Coldwater, Michigan, slept, thieves stole a cook stove and electric plumbing fixtures.

Roy Miller is the only pupil at the Lynchburg School, near Girard, Illinois.

the society, and of the splendid condition of the local society, closing her address with a prayer for a more consecrated life for each one present.

After the hymn, "Let The Lower Lights Be Burning," led by Mrs. Allen, the meeting was closed with a prayer which was offered by the Rev. B. M. Stradley.

Immediately following the close of the business session, light refreshments were served the following, who were also present at the meeting: Mesdames F. S. Garrison, R. C. Davis, John O'Dell, J. H. Derrick, A. P. Utterback, Maggie Latimore, J. H. Halsell, Jennie Freeman, Clyde Harrell, B. M. Stradley, Annie McKinley, L. W. Erwin, John Dial, Annie Ware, and Misses Beasie and Martha Stradley, and Messrs. J. H. Derrick and B. M. Stradley.

MRS. JOE F. BROWN ENTER-TAINS PRESBYTERIAN AUXILIARY MONDAY

The Presbyterian Auxiliary was entertained most hospitably in the home of Mrs. Joe F. Brown last Monday afternoon. Members and visitors motored to the ranch Monday morning, and at the noon hour a delicious buffet dinner of chicken pie, roasted ears, cottage cheese, sliced tomatoes, string beans, buttered beets, carrot salad, and pickles was served to the following members present: Mesdames P. J. Holman, C. F. Haass, F. Woodward, Annie Ware, S. C. Bodkin, A. F. Thrift, Joe Nichols, W. H. Savage, J. W. McKee, H. R. Laurence, Sims Wilkinson, J. W. Wilkinson, D. A. Pollard, Bozarth Brown, J. H. Lochausen, Rev. and Mrs. B. M. Stradley, Rev. and Mrs. John V. McCall, Mr. and Mrs. John Nichols, and Misses Mary Hill and Dick Wilkinson, and Misses Dorothy Stradley, Roberta Lochausen, Jimmie Wilkinson, and Billy Savage.

STATE FAIR TO HAVE BIG FARM DISPLAY

DALLAS, Tex., July 31.—Every foot of space available in the Agricultural Building at the State Fair of Texas will again be utilized for the 1931 State Fair of Texas, in Dallas, October 19th to 25th, it has been announced here by J. L. Lancaster, and W. I. Yopp, directors in charge of this department, and J. A. Moore, superintendent of agriculture.

It is expected that 80 per cent of the 253 counties of Texas will be represented in the 1931 Agricultural Show—the largest number of counties ever exhibiting at an exposition in Texas.

The Sanderson Drug Co. now offers a fresh and complete line of Snake-Bite Serums and Anti-toxins just received, kept under electrical refrigeration at all times to insure freshness and maximum strength. Give us a trial.—Adv.

THE SANDERSON DRUG CO.
