## Gathers Data On Indian History

### Representatives of Witte Museum Visits Terrell County

#### Well-Known Artist Reproduces Indian Paintings Found

Miss Mary Virginia Carson, artist, and Miss Emma Gutzeit, secretary of the board of directors of the Witte Museum at San Antonio, were in Sanderson this week seeking early Indian history and data of Terrell county. Miss Carson is an artist of world-wide reputation and Miss Gutzeit has been a member of the board of directors of the Witte Museum for many years. These ladies were very highly pleased with their visit to this county, stating that the Indian paintings, drawings and carvings found here equaled, if not surpassed, any found in the state. T. J. Miller, father of Ranger Archie Miller, is acting as scout and guide for Misses Carson and Gutzeit. Mr. Miller hails from Alpine and in the early days was a surveyor through this part of the country, and knows where most of the caves, mounds, etc., are located that have Indian paintings, drawings and carvings.

On the Mansfield ranch the party found a number of small caves and caverns containing Indian paintings and drawing, including hands, (with fingers spread), heads, buffaloes, trees, etc.

A visit to the Big Canyon ranch rewarded the women with Indian drawing and paintings of buffalo, full-sized Indians, hands, heads, trees, etc.

At Meyer's Springs were found many beautiful Indian drawings and paintings. However, on Palma Canyon, this side of Lezier Canyon, were found the most interesting Indian specimens in this county. These were carved in solid rock. Misses Carson and Gutzeit stated that while they found a goodly number of Indian drawings and paintings over the state, they rarely found carvings equal to these, and especially those done in solid rock. These carving are almost perfect, and with the crude tool that the Indians were compelled to work with, must have required years to complete. The carvings found on Palma Canyon consisted of buffaloes, trees, men on horseback, Indians afoot, rivers, trails and many other designs. It is generally conceded by those who are familiar with Indian customs that these carvings were only made when there were something of very great importance attached to them and for this reason there is always a mystery surrounding them.

When the party finds a cave or bluff with Indian designs, Miss Carson sits down and draws with pencil an exact reproduction of the different designs; then she takes water colors (which she carries with her) and puts in the colors and when she has finished there is on paper an exact reproduction, coloring and all, just as it appears on the walls of the cave or side of a bluff. Yellow, red and black are the predominating colors used by the Indians in their drawings and paintings as these colors were probably the only ones that they could procure at that time.

The paintings will be preserved by the Witte Museum, and also miniature reproduction will be bound in book form, together with all Indian history and data connected with each that can be procured by the museum directors.

Mrs. Clyde Deaton and children returned from Del Rio where they have been the past few weeks visiting relatives and friends.

Miss Alene Simmang of Giddings, Texas, arrived last Thursday for a visit with Miss Mary Ellen Bohlman.

## Sheep and Goat Raisers' Close Convention In S. A.

### T. A. Kincaid, Ozona, Re-elected Prexy For Eighth Time

#### Over 1,000 Sheep and Goats Sold At Auction Sale

T. A. Kincaid of Ozona was re-elected as president of the Sheep and Goat Raisers' Association at their annual convention which closed in San Angelo last Friday following a three-day session.

Selection of Mr. Kincaid as president marks his eighth term in office. All other officials were re-elected. Judge James Cornell was appointed to the post of attorney for the seventh time; Roy Aldwell, treasurer for the seventh time; and Bright Baggett was named secretary for the fourth time. The personnel of the executive committee will remain the same.

The second Thursday in September was the date set for the meeting of the executive committee at Kerrville. Fort Stockton was also a contender for the Executive Committee Meeting. At this time the committee will decide on the date of the next convention which will be either in December or January at Del Rio. Site of the next sale, to be held next July, also is to be determined and it is probable that this will also be held in Del Rio.

Several resolutions were adopted at the convention among them being a recommendation of reduction of 25 per cent in handling charges on livestock by the stockyards, another urging the packers to get full value from the pulled wool that comes from sheep marketed by the ranchmen. The agricultural marketing act was supported also. Resolutions of sympathy designated Robert Massie, San Angelo; Will Hale, Talpa; W. M. Noelke, Mertzon; Leigh Harkey, Sheffield; Ed Downie, Sanderson; J. S. Pierce, Sr., Ozona; Hector McKenzie, San Angelo; J. O. Taylor, Del Rio; and W. H. Augustine, Ozona.

More than 1,000 sheep and goats were sold at the annual auction sale. It was the opinion of the ranchmen that the sale brought to West Texas one of the finest collections of sheep in years.

## TEACHERS PAY HERE NOT CUT

### Full 9 Months To Be Held; School To Be Operated On Budget This Year

#### School Board Considering On Starting School Early For The Next Term

The salaries of the teachers that are employed to teach in the Public Schools of our city and county will not be cut this year, according to an announcement made this week by John Stovell, secretary of the school board. Mr. Stovell also stated that the board would have ample funds to carry the school on and maintain its high standards and would have a full nine months term of school.

Mr. Stovell also stated that the board was thinking of having school to start on Monday, August 31, and continue that week, and then recess three days of the following week in order that the teachers may attend the institute at Alpine. However, definite arrangement had not been perfected and as the school has to be taught 180 days, Mr. Stovell stated that it would be easier to begin a little early than to have to teach later in the year. And too, so many holidays had to be given during the year that the school board was considering the early beginning of school.

Supt. B. J. Brannan has been away all summer and is expected to return the first of next week. Upon his return, he, together with the school board, will work out a budget for the school to run on during the coming term. One of the new school laws is to the effect that each school must work out a budget for the year and must live on that budget, and that a copy of it must be sent to the State Department of Education.

## R. N. Allen Gives Formula For Worm Cure

Ranchmen throughout various parts of this county are kept busy these days fighting the stomach and tape worm as well as the sore mouth that is now prevalent among the sheep and goats.

Many remedies are on the market, some of which are very expensive, and these have been tried by the various ranchmen with very little success.

R. N. Allen, one of our prominent ranchmen, has been using a government formula for years and has found it very effective. Mr. Allen stated that it was not very expensive and when used according to directions it saved the stock right now. Many ranchmen have called him for the formula and The Times is glad to print it this week for the benefit of all ranchmen.

### A Good Formula for Dosing Sheep

For combating stomach and tape worms in sheep and goats the government formula has been used for years with good success. First, starve sheep or goats 30 hours, then give grown animals 4 ounces and lambs or kids under six months of age 2 ounces of the following mixture:

To 5 gallons of water add 5 ounces Black Leaf 40 and one quart of Blue Stone Mixture: Said Blue Stone mixture to be made by dissolving 2 pounds of Blue Stone in one gallon of hot water. Keep well stirred while using.

All stock dosed should be kept off food and water from 8 to 12 hours after dosing so that the medicine may have time to effect a cure. All vessel used in preparation of this formula must be glass, crockery, or enamel ware. Wooden vessels will do but in no case should one use iron, zinc, or tinware, as it creates a poison at once. This amount should dose about 170 head of grown sheep or goats.

To hold a sheep properly in dosing allow one man to hold sheep erect, another man to administer the medicine with dosing syringe. After inserting syringe hold sheep's nose tightly. Do not allow it one breath of air until the medicine is swallowed.

Mrs. E. C. Gilmore returned to her home in Fort Worth Wednesday after an extended visit here with her sisters, Mrs. A. A. Shelton and Miss Alyce Kilpatrick.

MR. PROPERTY OWNER

As a result of weeds and growths dieing and the fact that summer will not last much longer, Sanderson is in need of a Cleanup campaign before fall winds set in to scatter the debris further.

Just as we are judged by our friends, so is our town judged by those who pass through it constantly. We do not wish to leave a bad impression with our traveling visitors because Sanderson needs this tourist trade.

THIS AND THAT

Nice world, this. In a temporary economic slump, but things are happening in a big way—some amusing, some confusing.

We almost had Al Capone in a notion to go to jail for a while, but he backed down in the last minute and says he can't make it until September—or maybe Christmas.

"Alfalfa Bill," Oklahoma's eccentric governor, continues his war against the high cost of living. He's going to put the state into the coffin manufacturing business, because he believes that if the cost of living is bound to be high, the cost of dying ought to be low.

The depression isn't making much headway toward a return to prosperity. President Hoover fights doggedly to keep wages up, but the Bureau of Labor Statistics says he's not having much luck.

In Texas the legislature moves swiftly to the end of its 30-day period for legislative action against oil waste. Developments so far have been satisfactory. We had never expected any more than what we have received by way of legislative help for oil troubles to date.

That the solons receive \$10 a day for 30 days, whether they are there or not—so long as they attend the sessions for one day. (Which would seem to call for special effort at money conservation.)

That there were more solons absent during the inquiry than were present and listening to the proceedings, and that those who were there slept peacefully through it all, showing little life unless some legislator asked questions of a scandalous nature.

That the state pays for all the stamps, pencils and paper they can use; pays all the telephone bills—so long as the solon doesn't call his

As The Society Editor Saw It

During a fire in a village in Ohio, the editor of the local paper, being unable to locate the regular reporter, sent out the young woman who "did" the society gossip. Here is her report as it appeared:

"A brilliant fire was held yesterday afternoon at the residence of Mr. and Mrs. George Sopp, on Crown Hill avenue. A large number of people attended the function. Mrs. Sopp, who recently had her hair shingled, made a charming escape in an exceedingly handsome henna silk blouse, the pattern of which appeared in our woman's page last week.

"The firemen, who presented an attractive appearance, were suitably garbed in blue, the tunics being full-cut.

"The weather was quite delightful for an affair of this kind, a strong wind blowing. It is rumored that the fire was on a larger scale than any affair of a similar kind for years. It is also rumored that it cost Mr. and Mrs. Sopp about \$25,000."

Miss Rita Henry of Victoria who is visiting at the ranch home of Mr. and Mrs. John D. Harrison, spent Sunday and Monday visiting friends in Del Rio. She was accompanied by her uncle, R. L. Henry, and his son, Andrew, of Sanderson.

STOCK NEWS

Terrell county lambs are continuing to be shipped out of here direct to the market. A good price is being paid for the lambs and they are fat, thus insuring the shippers a fairly good price. This is about the only county where the lambs are being shipped directly off the range to the market.

Since last week's issue of The Times, the following ranchmen have shipped out:

Last Saturday Landon Rose and Son shipped out 4 cars of lambs from Dryden. Frank K. Harrell also shipped out 2 cars to Fort Worth from here.

Lee McCue shipped out Sunday 2 cars to Fort Worth.

On Monday, Mrs. Ed Downie shipped out 7 cars; J. M. Corder, 1 car from here. From Mofetta, B. H. Tate shipped 4 cars.

On Tuesday, Prosser and Brown shipped to the Peyton Packing Company 2 cars of sheep. Lee McCue, 2 cars to Fort Worth. From Longfellow, C. F. Fox shipped 1 car of cattle to the Fort Worth market.

Roy Lackey, who ranches on the Yoas ranch in the southwestern part of this county, purchased 150 nannies through J. W. Roberts, commission man, here. These goats were delivered last Saturday and they brought \$2.50 a head.

RATTLE OF THE RAIL

When the west-bound Sunset limited pulled out of here last Saturday with engineer G. R. Lees, he was making his final run, having been in the service on the El Paso division since December, 1887, or for more than 43 years and 7 months, with previous service on the H&TC. His total freight and passenger service would, no doubt, run up close to 3,000,000 miles, or more.

Engineers S. E. Peterson and C. H. Morris of Del Rio, now have freight runs out of here.

Fireman T. R. Arrington has gone to Valentine for yard service.

Firemen R. A. Hurst and J. H. Loehausen went to El Paso Tuesday morning for service.

No. 102 last Friday consisted of 14 cars, on account of State Militia from El Paso going to the encampment, and No. 104 Monday morning consisted of 16 cars, including depots. Both of these trains were handled by one of the "Golden State" types of engines.

Boiler Inspector H. L. Downum was here from El Paso Tuesday.

Pat J. McGovern, veteran retired pensioner, died in Houston recently and was buried in Fort Hancock. Mr. McGovern was pumper at Marfa for many years, and later was in El Paso shops. His son, H. J. McGovern, is a fireman on the passenger run from El Paso to Sanderson.

Engineer R. R. Allen is now on the night yard engine.

Fireman A. C. Burrows is working on the extra board here.

A. W. Toman has gone to San Antonio.

### The Searchlight

THAT SHINES BACK IN THE DARK CORNERS

(Dear Readers: During the first part of this week there was found beneath the door of The Times office a yellow parcel of paper on which was typewritten the following nonsense. From week to week, we hope, there will be published similar nonsense. The Management encourages suggestions which might lead to the identity, arrest and conviction of said person or persons who are responsible for this. And in the meantime—watch SEARCHLIGHT and hold your breath, for YOU may be next! Quien Sabe?)

James House includes that congenial smile in his list of 'specials'—and he really has them.

From the way the Marathon oil trucks have been unloading over at Prince Dishman's this week, this bunk of hard-times must have come from a cynical source.

Well, it won't be long now until W. C. Cargile will have to dig up another sombrero, which is just another way of saying that summer is nearly gone.

And just because summer is still with us, don't wait till the last minute to do your fall shopping. Sanderson merchants offer you a varied and reasonably priced assortment of wearing apparel.

Searchlight has been wondering for quite a while from whence the name "Bluebird Lunch" was derived—and why. We wonder if it means the same as "Canary Bird Lunch."

Dan Cupid is in the midst of a big rush among the Mexican populace of Sanderson—and it seems as though he's focusing ALL of his attention there at the present, too.

Add this to your string of similes: As lonesome as R. H. Lewellen without his little bow tie.

Maybe we're wrong, but there's good service to be had at J. D. Nichol's Store. If you don't buy some of your necessities there, you are missing a treat.

And the play the P. T. A. is throwing Saturday night at 8:15 p.m. at the High School Auditorium is going to be a wow. Plenty of action, fun, romance, and what not. The effort being put forth to furnish local patrons with home-talent plays should be recompensed by a "Packed House" next Saturday night.

Wonder who received the contract to build the glass cage for Frank Robertson's discarded tailor delivery car? Maybe Mr. Southsonian or Mr. Ford, especially, might take a fling at it for their museums.

Lest we forget—Sanderson movie-goers are to enjoy better programs from now on as a result of added new sound equipment being installed this week at the Princess Theatre. Here's hoping that there will be plenty of comedy-dramas.

Mr. and Mrs. George Baker arrived Wednesday from their ranch near Pumpville for a visit with Mr. and Mrs. Lee McCue.

Miss Rosalie Howard of Crockett, Texas, and Miss Rita Henry of Victoria, are guests at the ranch home of Mr. and Mrs. John D. Harrison.

Send your news items to the Times Office for publication.

"Grandpa" Banner returned Wednesday from Christoval where he went to attend the reunion of the Texas Division of the United Confederate Veterans which was held there July 29 and 30th.
