DOWNIE ESTATE INCORPORATED

Estate Headquarters To Be Located Here; Land In Terrell and Pecos

The vast estate of Charles Downie located in this county and Pecos county was chartered as a corporation this week according to an announcement made public on Tuesday. The charter, which was granted by the Secretary of State, calls for a \$50,000 corporation and represents real estate holdings in the excess of \$500,000 valuation. The estate consists of 103,000 acres with 64,000 acres being in Terrell County and 39,000 acres in Pecos County. This is one of the oldest as well as the largest ranches in West Texas. In the early 80's Charles Downie came to this section of the country and settled on the land. He gradually built up a large ranch as well as a fortune. This is the only large ranch in this section of the country that has not been cut up into smaller ranches and sold.

The principal headquarters of the corporation will be in this city. Mr. Alfred E. Creigh Jr., of this city, is serving the corporation as secretary.

The incorporators are the heirs of Charles Downie and will be known as the Downie-King Ranch company.

It is understood that the lands be continued under grazing leases as they now are.

NEW YORKER DIES IN ATTEMPT TO SWIM SANTA HELENA

ALPINE, Tex., Aug. 27.—The body of Joseph T. Tower, 34, Millbrook, New York, was recovered from the Rio Grande River last Tuesday. He was drowned Sunday when he attempted to swim the rapids during a passage by boat through Santa Helena Canyon, accompanied by J. B. Weller, geologist, and a Mexican. Tower was a member of the Harvard Club of New York, the American Association of Mining Engineers and a legionnaire. His fortune is estimated at a million dollars. The party was inspecting quicksilver claims on the border. It had been exploring for two days prior to the accident. The body is now at Alpine.

Mr. and Mrs. S. S. Daggett left Tuesday for Fort Davis, where they will spend several days. From there they will go to San Antonio for several days visit with relatives.

Mr. and Mrs. Sam Draper of Del Rio spent the week-end with Mrs. Draper's parents, Mr. and Mrs. Landon Rose at their ranch home near Dryden.

Rev. Ira Harrison and "Stump" Duke attended the Baptist Worker's Conference at Grand Falls, north of Fort Stockton, last Tuesday.

Mrs. McClellan of Lubbock is here visiting her sister, Mrs. A. B. Dyer.

Mr. and Mrs. C. J. Watts and daughter, Miss Floy, visited with relatives in Del Rio Sunday.

Mr. and Mrs. H. E. Fletcher visited with relatives in Valentine Wednesday.

Mrs. Charlie Rogers and children visited with relatives in Valentine several days this week.

Mr. and Mrs. F. L. Burnside have returned from a visit with relatives in East Texas.

Mrs. Mary Lou Kellar has returned from a visit with relatives in San Marcos and San Antonio.

You'll enjoy "Big Business Girl" to be shown at the Princess tonight.

J. I. Daniels spent several days in San Antonio this week on business.

Leon Gillespie spent several days in El Paso this week, having gone as a delegate to the American Legion convention held in that city this week.

Football Practice To Commence

Practice Starts Next Week; Prospect Bright For A Good Team

Duane Smith, coach for the coming school year, will arrive here the first of next week and will commence to lineup his men for football.

Sanderson has bright prospects for a good team this year, there being about 20 or 25 boys who will attend high school and will be eligible to play.

Soon after his arrival here Smith will meet with the boys to discuss football and possibly will have a try-out. On his return from Alpine, where he will attend the institute, he will issue suits, and strict, frigid training will begin in earnest.

Duane Smith who has been one of the outstanding football stars at Texas Christian University in Fort Worth, comes highly recommended as a coach as well as an all round athlete. At present, he is at A. & M. attending the coaching school that is being given there.

Princess Presents Worthwhile Shows For Next Week

Thrilling Western; Good Modern Comedy At Local Playhouse

Loretta Young, First National star, is an ardent movie fan. Between shots on the set at Warner Brothers-First National Studios, where she made "Big Business Girl" under the direction of William A. Seiter, she spent much of her time reading film magazines. Miss Young follows not only the leading ones, but subscribes for many obscure publications from the United States, Canada, Australia, England and France.

She never misses a motion picture and keep a clipping book into which she pastes every item about herself as well as reviews of her pictures.

In "Big Business Girl," which will be at the Princess Theatre tonight, Friday, August 28, she is supported by Frank Albertson, Ricardo Cortez, Joan Blondell, Dorothy Christy, Nancy Dover, J. C. Nugent and Virginia Sale.

On next Saturday, August 29, Hoot Gibson in "Clearing The Range," will be shown. This picture is the first of a series of old-time Western pictures with plenty of action, romance and thrills—as only Hoot knows how to act. It is well worth seeing.

"Sit Tight" is the name of the new Warner Brothers comedy featuring Winnie Lightner and Joe E. Brown, but sitting is about the only thing these two do not do throughout the picture.

In spite of this misnomer, Miss Lightner and funny-faced Brown do the most strenuous work of their careers in this harvest of guffaws which will be shown on Monday and Tuesday, August 31 and September 1, at the Princess.

Winnie is a "health" doctor and Brown is Jojo the Tiger, her correspondence - school - graduate wrestler and assistant.

If you can picture William Haines as a wolf in sheep's clothing you will have some idea of the fun in store for those who see the comedian on Wednesday and Thursday, September 2 and 3, at the Princess Theatre in his latest laugh-getter, "Tailor Made Man."

In this characterization Haines in his own inimitable way embodies the spirit of the man who rides from poverty and obscurity to fame and financial success. He starts out as an innocent little pants presser but ends up as a wolf of the commercial world.

The picture is based on the play of the same name which enjoyed a long run at the Cohan & Harris Theatre, New York, in 1917.

John Reininger spent several days in Marathon this week.

Peddler Tax Law Fight State-Wide

Distributors To Organize In Each County—Letters Mailed Out

A state-wide organization to defeat the enforcement of the state peddler's tax, which becomes effective September 1, was started Monday at a meeting of the executive committee of the Texas Allied Distributors Association, at a meeting held in San Antonio.

The San Antonio branch has started effective work toward a concentrated attack on the license which will range from \$20 to \$40 for each person selling from a moving conveyance goods other than those of his own manufacture.

Letters have been mailed out to all operators and distributors of food in the state and to every Chamber of Commerce, urging the immediate formation of groups to lend their co-operation.

The tax affects every distributor who sells goods, from the peddler of fruits and vegetables bought on farms and purveyed from house to house in the city, to the distributor who loads goods on a truck and carries them to the small merchants.

The Attorney-General's office has ruled that the act imposes a tax on everybody that sells from a moving conveyance who does not personally manufacture the goods he offers for sale, and that this covers virtually every kind of business.

THREE BIG GAMES ON FAIR SCHEDULE

DALLAS, Tex., Aug. 27.—Three football games of intersectional interest are scheduled for the three Saturdays of the State Fair of Texas, it has been announced here by Phil Prather, director in charge of athletics at the State Fair.

The first big game will be on opening day, when Texas A. & M. College meets Iowa. Iowa is said to have one of the strongest teams in its history this year and their game here with the "Fighting Farmers" is expected to be one of the hardest contested games of the season.

On the second Saturday of the Fair, Texas University will meet the University of Oklahoma. Texas and Oklahoma have been gridiron enemies for years and it's a "nip and tuck" proposition with them each year.

On the closing Saturday, two new teams will be seen in action at the huge State Fair stadium, when the S. M. U. Mustangs take on Centenary College of Shreveport, La. This will be Centenary's first appearance at the State Fair of Texas.

In addition to these three "major league" football games, ten other games are scheduled for the 1931 State Fair of Texas.

CULTURE CLUB SPONSORS TALKIE, "BIG BUSINESS GIRL," SHOWING AT PRINCESS TONITE

The Sanderson Culture Club is sponsoring the picture, "Big Business Girl," that is showing at the Princess Theatre tonight, Friday, August 28.

This is a First National Picture, featuring Loretta Young, Ricardo Cortez and Juan Blandell. The story is based on the College Humor story by Patricia Reilly and H. N. Swanson.

Proceeds from this picture will be used by the club to apply on their scholarship fund.

Station XER To Open In Sept.

Many Visitors Expected For Opening of Big Radio Station

The program to be offered as means of entertaining visitors expected to flock into Del Rio and Villa Acuna around October 1 for the grand opening of XER was drawn Wednesday on a tentative schedule. Claude Easterling of Del Rio Chamber of Commerce announced.

The arrangement calls for the address of welcome at the radio site to be given by H. Valdez, president of Villa Acuna, who will speak in behalf of the city he represents as well as Villa Acuna National Chamber of Commerce.

He will be followed by Julian LaCrosse, president of the Del Rio Chamber of Commerce, who will welcome visitors in behalf of the city of Del Rio and the organization of which he is chief.

Senor Valdez' address of welcome is scheduled for 10:45 o'clock in the morning of the day yet to be determined for formal opening of the world's largest radio broadcasting plant.

Following talks by Valdez and LaCrosse, responses will come from military bands, one to be obtained from an American camp nearby and the other expected to be brought from Saultillo, capital of the state of Coahuila.

Dr. J. R. Brinkley will deliver an address as will other expected here from Kansas, parts of Texas, Mexico and other points.

Introduction of the broadcasting station roster of employees then a barbecue to be given by Villa Acuna National Chamber of Commerce will taper off the opening day's program.

Visitors coming here on the special train being made up from mid-west states will be greeted on arrival in their Santa Fe excursion by Del Rio Chamber of Commerce and entertained at San Felipe Country Club that night.

Next day formal opening of the big XER station will occupy their time with auto drives to Devil's River points of interest tossed in to fill up vacant hours during their third day in the city.

The above tentative program was drawn up at a joint meeting of Del Rio and Villa Acuna National Chamber of Commerce committees. Julian LaCrosse appointed his Del Rio Chamber of Commerce committee as follows for dedication ceremonies: George E. Love, chairman; B. J. McDowell, F. L. Childs, J. A. Walker and A. C. Easterling.

Prospects Bright For 1931-1932 School Session

Increase In Enrollment Expected; New Course To Be Offered

With the opening on Monday, September 14, of the public schools, Sanderson and Terrell county has the prospects of having one of the best school terms yet. An increase in enrollment is expected as families are now moving into town in preparation for school. Since the close of school last spring several new families have moved into Sanderson and Terrell county.

All the teachers selected to teach in the public school of the city are degree teachers. Many of them have had several years experience and are highly recommended for their position.

With one of the finest and most up-to-date high school buildings in the south, our school children should take advantage of the opportunities offered them here. In addition to the regular literary courses offered, home economics, commercial work, and athletic courses are offered to the students. Possibly this year a course in shorthand will be added to the commercial courses now being taught.

A worthwhile and interesting opening program is now being worked out and will be given on Monday morning, September 14, at 9 o'clock to which the public is cordially invited to attend.

DOVE SEASON OPENS TUESDAY

The hunting season for doves will open here on next Tuesday, September 1st. Already local hunters are getting their shotguns oiled and in preparation for the first day's opening.

Both hunting and fishing licenses will expire on Monday August 31. All residents as well as non-residents will be required to have a license and they may be obtained from the county clerk.

There has been several changes made in regard to the licenses and hunting but as the new laws have not been received here we are unable to give the particulars on them.

Ambition and Talent

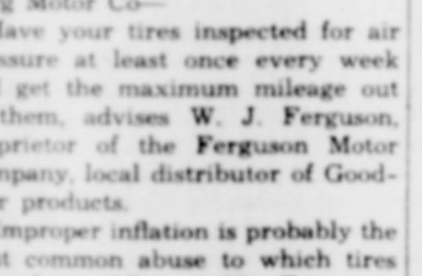

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

Ambition and persistence will carry us a long way in the ordinary affairs of life, and in most of the professions for that matter, but not in matters artistic unless there be combined with these other qualities some trace of talent. It is said that Matthew Arnold learned to be a poet through hard work, and that Stevenson so learned the art of literature, but there was talent combined with the other very necessary qualities which these men had.

It was Saxton's ambition to be a writer from the time, when he was a boy, he had been thrilled by the tales of Scott and Cooper. Adventure, the romantic, appealed to him in the strongest way. He labored at his compositions in school and college with the greatest persistence and the most swelling ambition. Try as he would he could never get higher than a "B" and that only rarely.
That was twenty years ago or more. He is dubbing along today on a small salary as a newspaper reporter, still trying to write, but never getting anywhere. Possibly he might have made a business man; maybe he could have been a lawyer or a physician, or he might even have taught other people how to write—it often does not seem essential that one should know how to do a thing himself in order to teach others—but he could not write himself. He had no talent for it, though he had immeasurable ambition.
I saw in a great art center some time ago scores of men and women whose feverish ambition was to be great painters. Some of them were young and healthy looking, but the thing that seemed to me the saddest about it all was the fact that many of them were old, gray, pale-faced, who were possessed of this high ambition to do something outstanding and yet who had grown old doing only the commonplace.
Jacobs has just asked my advice as to his taking up music as a profession. "Learn all you can for your own pleasure and the pleasure of your friends. You'll need to make a living, so I'd sell gasoline or automobiles."

Proper Inflation Results In Maximum Tire Milage, Says Ferguson
Ferg Motor Co.—
Have your tires inspected for air pressure at least once every week and get the maximum mileage out of them, advises W. J. Ferguson, proprietor of the Ferguson Motor Company, local distributor of Goodyear products.
"Improper inflation is probably the most common abuse to which tires are subjected," says Mr. Ferguson. "But there is no excuse for Sanderson motorists not avoiding this trouble. Motorists are invited to stop in at the Ferguson Motor Company, where one of our attendants will promptly check their tires. The service is free, regardless of the make of tires you use and it is not necessary that you even get out of your seat."
"Many tests have been conducted by the Goodyear Company, which prove conclusively that proper inflation is vital to long tire mileage. Identical vehicles have been equipped with similar tires and driven thousands of miles. Some of the drivers were instructed to check their air pressure frequently and carefully. Other drivers were instructed to ignore the air pressure in their tires."
"Invariably the results would be the same—the tires which were properly inflated were running in excellent condition long after the neglected casings had been discarded as useless," Mr. Ferguson stated.
"The modern automobile tire, such as the Goodyear All-Weather tread, is a rugged and dependable piece of equipment, but it will exceed expectations when treated properly. The Ferguson Motor company is ready to assist you in keeping your tires properly inflated, so that you can benefit with maximum mileage."

Joe Jr., and Campbell Kerr returned home Sunday from a visit in Floresville with their aunt, Mrs. J. E. Dewees.

Right Where You Are!

Right where you are, if you'll git-up-and-git,
And hustle and rustle and do.
And put your heart in it, and never say quit—
There's plenty of good things for you!
The prizes are waiting right there to be got:
You'll find them wherever you are,
By proving if you're a "go-getter," or not—
A "flash-in-the-pan"—or a "star!"
The croakers are croaking about the "hard times,"
And how things are hopelessly "punky,"
They're mourning the shortage of nickels and dimes,
But that kind of junk is the bunk!
And while they are buzzing about biz being bad,
The "wise ones" are hopping about,
And copping the prizes right here to be had—
And putting old "hard-times" to rout!
It's always hard times, if you're thinking that way,
And prospects are gloomy and blue,
But, while the sun's shining, if you will make hay,
You'll get what is coming to you!
Don't let hard times floor you, and steal your good rep:
Don't dream about "green fields afar,"
We know you're a winner—now show us some pep—
Make good on the job where you are!

James Edward Hungerford.

Spiritually Beautiful

Have you ever known an old lady who was spiritually beautiful?
Could you remember what her features were like? Or did you think of
her as sort of a beautiful flower of God's handiwork, sending forth love
and kindness and compassion for all, and every one loving her in turn.

This same old lady probably had no money to speak of, though she
had thousands of friends and was continually happy.

You probably knew another old lady who had all kinds of money
and everything that money could buy to make a person happy, yet she
was not happy in the least. No one was glad to see her, because no one
became happy of her. You may not exactly remember her features, but
you will never forget her sharp tongue and how happy you were to get
away from her.

When Jesus gave his sermon on the Mount he answered the question
of how to be happy.

Many of them would not believe, when he explained to that multi-
tude of people who had come great distances to learn the secret of true
happiness, that they were all wrong in the common assumption that the
acquisition of material things alone brings happiness.

The thought He gave to them was, according to Matthew, who tells
the story, that you are made happy by what you are, not by what you
get. The key to a blessed life lies in your heart. It is being merciful
and pure in heart. You must not be angry, you must not be revengeful.
You must love everyone, even your enemies.

The golden rule was a strange plan of life to most of that multitude
who were there from both sides of the Sea of Galilee, from Jerusalem
far off to the south, and from Tyre and Sidon to the north. It is strange
to many people today, as far as actually living is concerned, but it is a
good plan for happiness, nevertheless.

The next time you feel discouraged, or blue, or unhappy, why not go
out and do something to make some one else a little bit happier, for that
is what you would have them do to you, is it not? Then you will be
surprised how much it will help you to happiness.

"You don't have to wait until you are old to grow spiritually beauti-
ful."—Herald, Slayton, Minnesota.

Advertising And Prices

Vast sums spent by large manufacturers and merchants for adver-
tising are responsible for a popular superstition to the effect that adver-
tised goods are higher in price than they would be if they were not
advertised. The word "superstition" is used advisedly, because it has
been demonstrated many times that advertising lowers, instead of raises,
prices.

Advertising campaigns are costly and the consumer must pay for
them, but they are paid for by new business the advertising attracts.
There is nothing paradoxical in a situation where a manufacturer or
merchant adds an extensive advertising appropriation to his budget and
then turns around and cuts prices.

Million-dollar advertising programs make it possible for the manu-
facturer to lower his prices by so increasing his production that he can
effect real economies through mass production and can spread his profit
over a greater number of sales.

Advertising enlarges demand and thereby make it possible for the
retailer to buy stocks in larger quantities at lower cost. Moreover, goods
well advertised are more than half sold before the customer enters the
store, which lowers sales resistance and sales cost.

The price tags on advertised commodities are, in themselves, proof
that business can save money for its customers by spending millions for
advertising.—Leader, Eau Claire, Wisconsin.

THIS AND THAT

BY JIMMIE

It was a queer turn of events that
"forced" Governor Sterling to send the
"Texas Natural Resource Guard"
into the East Texas oil fields to quell
a bunch of oil insurrectionists at a
time when cotton is ready to be
picked, thus robbing him of the op-
portunity of being the greatest gov-
ernor ever to draw the \$4,000 Texas
offers for governors.

Cotton is "ripe" at this time of
the year and must be "plucked" or
go to ruin. But cotton pickers are
hard to find because cotton doesn't
command much of a price and
growers cannot pay enormous wages
for pickers. The average picker
can make about \$1.20 a day if he
works hard. But that's not the fault
of the farmer, he doesn't set the
price cotton is to be sold for.

However, had the East Texas "in-
surrectionists" delayed their tilt
with "law and order" for a month
or so, Governor Sterling might
have spared his generals and buck
privates to the cotton growers long
enough to get the cotton to the gins.
It would have been a master stroke
for the governor and would have
provided General Jake and his
braves with many thrills and adven-
tures.

There is little doubt but what
General Jake and his "boys" would
have made tremendous "advances"
in cotton patch warfare. The gen-
eral would have been permitted to
make his pajama wearing rules
more stringent, and would have
found more cows "in distress" than
in the East Texas situation, there-
by bringing undying fame to himself
and aides.

For the buck privates an oppor-
tunity would have been presented
for the "boys" to have a field in
which they could "work up"—to the
end of the row. Soldiers are so
accustomed to going from pillar to
post that the change of going from
stalk to stalk would—or might
have been—a welcomed adventure.
And the scale for good cotton
pickers is so near the scale for good
soldiers that there would have been
little cause for complaint from either
side.

This same turn of events pre-
vented General Jake Wolters from
going down in history as the out-
standing general ever to be engaged
in "economic warfare."

But, alas, such a thing will never
come to pass because there's a
movement on foot to make it against
the law to plant in 1932.

Governors, representatives of gov-
ernors, cotton men, and politicians
met in New Orleans recently and
endorsed a plan whereby cotton
would be barred by legislation next
year. It was pointed out that special
sessions of legislatures in the dif-
ferent states would be necessary to
carry out the proposed plan. Inas-
much as Texas has suffered one
extraordinary session this year, be-
sides the four months' regular "con-
fusion," and is "deeper in the hole"
because of them, it has been sug-
gested to this column that the Tex-
as solons be permitted to hold their
session by correspondence—with
their own stamps and on their own
time. That is, if they are as "vital-
ly" interested in the farm prob-
lem as they say they are.

George C. Handy, publisher of
The Ypsilanti (Michigan) Press,
says:

"When the intelligent and loyal
small town purchaser buys in the
home town store he gets full value
for his money, he has the satisfac-
tion of knowing that he has cheered
a fellow townsman, and there are
no more deserving people in the
world than these small town fellow
townsmen of yours and mine. They
are the genuine, true blue kind.
They work for all they get, then
they don't get much. They support
the church and the school and the
fair and the lodge and do their bit
in the community drive and the
Board of Commerce and the Rotary
and Kiwanis and Lions and Ex-
change Clubs. They are first on
the list when contributions are
needed and last too often when
there are purchases to be made.
Yet they continue to serve. When
guests arrive unexpectedly the
butcher responds to a telephone re-
quest for a little after-hours serv-
ice and the grocer runs up with a
yeast cake or an extra bottle of
milk, but we expect that. No one
loses any sleep about the number
of such calls the butcher and the
grocer get.

"Why just the other day a de-
partment store dealer in Ypsilanti
made a special trip out of town to
his wholesale house for an emer-
gency order needed by a family in
which there had been a death. Then
he helps the widowed mother with
funeral arrangements and leaves his
store and uses his car to take rela-
tives of the afflicted family to and
from the cemetery, even though the
burial is in another city. He thinks
nothing of it. That is just a part of
a small town fellow townsman's life.

"Yes sir, these small town mer-
chants are true blue, I tell you, and
they deserve a lot more considera-
tion than they get. And the funny
part about it is that it is good busi-
ness from a purely economic stand-
point to trade with them. THEY

A Tropical Wedding

PEOPLE know what to eat in
the tropics in order to keep
cool and preserve their
health. So why not take a
leaf out of their book, these
dog days, and serve a dish which
unites two tropical fruits, bananas
and Hawaiian pineapples, both of
which are plentiful and cheap? The
first of these fruits is fruit, and the
other is cream. There's a good reason
for this.

Bananas are picked green and
ripen successfully on their way to
our markets. But a pineapple picked
green fails to develop the same sugar
content as a pineapple permitted to
come to full maturity on the plant.
And this natural fruit sugar forms
the major part of its flavor and
sweetness. So pineapples are allowed
to ripen beneath Hawaii's sunburn,
picked at their prime, and shipped
into cans with their fat flavor in-
tact.

Here's the Recipe

The ceremony for the wedding of
these two tropical fruits is a trifle
that will fairly melt in your mouth
is as follows:
Pineapple Banana Fritters: Beat
one egg well, and add one-fourth cup
milk, one cup flour, and one and one-
half teaspoons baking powder, one
fourth teaspoon salt and one washed
banana. Drain the contents of one
banana can of crushed Hawaiian
pineapple, and add. Drop by spoon-
fuls into deep hot fat, cook, and fry
until brown. Serve immediately with
powdered sugar. This recipe from
Lizzie Green to fourteen friends.
