## Sharp Murder Trial Is Started In Del Rio On Tuesday Of This Week

The trial of Bessie Sharp, for the poison murder of her husband, Telephus Sharp, which occurred on a ranch near here in May 1932 was begun in the 64th District Court in Del Rio Tuesday morning.

The case, which was called here at the January term of court was granted a change of venue to Del Rio after efforts were made to try it here. The case has twice been delayed for trial.

A large number of State as well as defense witnesses from here are now in Del Rio for the trial, and many other witnesses from other parts of the State are also there.

Shortly after her arrest, Mrs. Sharp is alleged to have signed a written statement that she administered strychnine to her husband so that she might be free to wed Willie Burleson, her cowboy paramour lover.

Mrs. Sharp, who has been under observation in a State institution in San Antonio for some time, was brought to Del Rio Monday night by A. E. Steinmetz, deputy sheriff of Val Verde County.

When the case was called for hearing Tuesday morning court was recessed until that afternoon as several witnesses failed to get there Tuesday afternoon the court ordered a recess until 9:30 Wednesday morning.

Court attaches were of the opinion that selection of the jury might be started on Wednesday, provided the preliminaries are not interrupted by lengthy legal controversy over contested motions.

As we go to press late Wednesday afternoon we were unable to learn whether or not the trial had gotten underway.

## RESIDENCE OF TOM PARSON IS BURNED SUNDAY

### Part Of Furnishings Saved Before Blaze Destroys Home

Fire of undetermined origin destroyed the Tom Parson's residence in this city late Sunday afternoon. Much headway had been made by the fire when it was discovered by Mrs. Roberts who lives two doors east of the place and who spread the alarm. Volunteer firemen fought the blaze for several hours and it was with great effort that they kept near by homes from being ignited.

The residence, which is located on the western part of the city was constructed partly of adobe and partly of lumber. It was a large home and was divided into several apartments.

Mrs. Earl Stirman, daughter of Mr. and Mrs. Tom Parson's who occupied one of the apartments, lost practically all of her furniture and clothing. Mr. and Mrs. Ted Attaway, who have another apartment there did not lose anything. Most all of the furniture and clothing of Mr. and Mrs. Parson's were saved.

At the time the fire was discovered no one was in the place. Mr. and Mrs. Ted Attaway having left the place about a hour before. Mrs. Earl Stirman and children, who had spent the week end on the ranch, arrived just as the building collapsed.

The fire started in the adobe part of the building and which was occupied by Mrs. Earl Stirman and children. And when the men broke into this part of the building so dense was the smoke and flames that they could not save the contents and went to work taking furniture out of other parts of the building.

The home was covered by insurance.

## 4-H Member Wins Armour Trip To National Show

CHICAGO, Nov. 21.—One of the greatest ambitions of 4-H club members was realized when Sammie Hoerster of Art, Mason County, Texas, was announced winner of a prize educational trip to the eleventh National Club Congress to be held here November 25th to December 3rd in connection with the International Live Stock Exposition.

According to the National Committee on Boys and Girls Club Work, which released the information, the club member's selection was made from hundreds of members competing in the contest sponsored by Armour and Company for the best livestock club record. It is one of 12 such awards made by the packing firm in as many states to encourage club members to become successful livestock producers. Selection of the winner was made by the state club leaders.

The state winner is one of about 1,000 4-H members who will attend the Club Congress as delegates with their leaders. Their program for the week starts on Sunday with attendance at their choice of the city's great churches, and on the following days they will be guests of the Armour Company, manufacturing and mercantile establishments and visit the great museums and other centers of art and culture. They will also attend and compete in the many contests at the club show where 1932 national 4-H champions will be named.

W. R. House of Saragosa, Texas, and a former resident of this city, was here Sunday enroute to Del Rio where he is a witness in the Bessie Sharp murder case.

## DEMONSTRATION OF SORE MOUTH VACCINE GIVEN

### Actual Vaccine Given To Prove Its Worth By Veterinarian

Between 40 and 50 ranchmen were present Monday morning to witness the demonstration of the use of the sore mouth vaccine by Dr. I. B. Boughton of the Expert and Edwards counties. The demonstration was held in the ofment Station located in Sutton county of Joe Kerr at 10 a. m.

Dr. Boughton stated that the vaccine would immunize lambs from the sore mouth for six months and declared that the cost would run around one-half cent a dose plus the postage. The vaccine is prepared by the experiment station and must be ordered from that station same to be sent by mail.

Stress was made by Dr. Boughton that the ranchman desiring the vaccine must place his order early as it takes about three weeks to prepare the vaccine and also that the exact amount needed and well as when the vaccine is needed be given when placing the order. A suggestion as to the amount to order was offered by the doctor, to the effect that as many doses should be ordered as the number of ewes the ranchman had bred.

Actual demonstration was made here by the doctor he having a lamb here and the vaccine given so each ranchman would know how it was done. However each shipment of the vaccine will include instructions as to application of same.

Accompanying Dr. Boughton were T. B. Wood, Assistant Superintendent of Extension Department, and W. R. Neshitt, Special Agent of the Department.

You can't live high and run in low.

## Application For R. F. C. Loan Is Made By County

Joe Kerr, and Alfred E. Creigh Jr. and J. C. Mitchell returned to this city last Sunday after attending the group meetings of the West Texas Chamber of Commerce at Midland Saturday morning and Abilene Saturday afternoon.

This meeting dealt with relief work and how to handle the money that various communities are getting as a loan from the Reconstruction Finance Corporation.

Terrell County has made application for a loan of \$5,000 to be used for relief work here among the unemployed during November and December. Just whether all of this loan is secured is to be learned, at least part of the amount asked for will be secured.

When the loan is received it is to be used only for relief work, such as improving roads, public parks, etc., or for labor only and it cannot be used for purchasing material.

## Next Wednesday Is Last Day To Pay Split Tax

Next Wednesday, November 30, is the last day on which tax payers can take advantage of the split-tax payment. Provided one-half of the State and County tax is paid on or before that time, the taxpayer has until next June 30, to pay the other half.

Where the split-payment privilege is not used, the full amount is due before or on January 31, 1933. December 31, 1932 is the last day on which delinquent taxes can be paid without penalty and interest being attached.

The Tax-Collectors office has recently received the auto plate licenses for 1933, but it will be the middle of December before they will be able to issue the license plates as all supplies have not as yet been received.

The new 1933 plates have an orange background with white numerals for automobiles, while the commercial plates will be maroon and white.

Rev. B. M. Stradley, pastor of the local Methodist church, attended a meeting of the District Stewards Conference of the El Paso District of the New Mexico Conference of the Methodist Church, which was held in Van Horn on Tuesday of this week. Rev. Stradley addressed the meeting on the subject of "Our Annual Budgeted Benevolences."

## RANCH HOME IS RAZED BY FIRE EARLY FRIDAY

### Ranch House At "41" One Of Oldest In County Burns

Sometime during the night last Friday the ranch home of Russell Menzies, located about 15 miles north of here was destroyed by fire. Mr. Menzies has under lease the "41" ranch that is now owned by Alex Mitchell, but was formerly owned by the Big Canyon Ranch Company.

The home was completely destroyed as well as the furniture, much of which can never be replaced as Mr. Menzies states that his wife had lots of family heirlooms at the ranch.

Neither Mr. or Mrs. Menzies were at home when the blaze occurred and they were in San Angelo where Mr. Menzies has been due to injuries received several weeks ago when he fell while loading sheep at Fort Stockton, Texas.

How the blaze started is not known nor when it occurred is not known as discovery was made Saturday morning by parties who passed the ranch and reported it upon arriving here.

It was not learned whether insurance was carried on the place or not.

The ranch house, though one of the oldest in this section of the country had been remodeled and repaired since Mr. Menzies had leased the place.

## BUSES TO REPLACE S. P. MOTOR TRAINS INTO EAGLE PASS

EAGLE PASS, Nov. 19.—Buses, instead of motor trains, will operate between Eagle Pass and Spoford by train schedule after Saturday, November 19. This announcement was made by Station Agent J. C. Caraway here for the Southern Pacific headquarters.

The Greyhound Bus Lines, which already run cars daily between Eagle Pass and San Antonio, have contracted to fulfill the new schedule. The Interstate Commerce Commission has authorized the Texas & New Orleans Railroad, branch of the Southern Pacific, to remove motor trains 223-224 and 225-226, effective November 13. The railway delayed acting on this permission until Sunday, November 20.

Mr. and Mrs. J. Neal and Mrs. Sam Harrell and daughter left Sunday afternoon for Houston, Texas, where they were called on account of the death of Mr. Neal's sister-in-law, Mrs. S. R. Neal.

## CO-OP LOSSES BRING CHANGE IN OPERATION

### Talk Of Liquidation And Forming Of New Set-Up

SAN ANGELO, Nov. 18.—There was held at Sonora Thursday a meeting of the co-operatives operating under the National Wool Marketing Corporation and a discussion of the outlook for the growers' organization was held. Sol Mayer, president of the National Wool Marketing Corporation, is to be re-elected when the annual meeting is held in Chicago December 13. The first year the co-operative was in existence it handled about 130,000,000 pounds of wool and mohair, the next year 106,000,000 and while no figures are available for 1932, the tonnage is known to be substantially below the 100,000,000 mark.

The move of the co-operatives in handling its own sales is said to be due to a desire on its part to cut overhead. However, Draper & Co., is said to have initiated the move to sever relations.

Just how much money the co-operative lost during its three years is not known but it is believed it dropped at least \$5,500,000 on its 30,000,000 pounds of mohair, while the losses on the estimated 275,000,000 pounds of wool would be considerably higher.

When the meeting is held in Chicago there will be some desire expressed to liquidate the organization and form a new one. It would require, it is said, 12 to 15 years to amortize losses sustained by the co-operative thus far. The losses in wool and mohair have been extremely slight compared with the losses by the Farm Board in handling grain and cotton.

On the other hand there will be the desire on many of the co-operative members to continue operation with the present set-up. Should the Farm Board be disbanded and money which has been coming from it not available, the co-operative could still be easily financed.

## Taylor Buys Talley Ranch Near Brackett

G. F. Taylor, Dryden ranchman, recently bought the Talley ranch in Kinney County and has moved his stock there. His family will join him at the ranch at the close of the present school term.—Del Rio Evening News.

Among our personal items last week we mentioned the fact that Mrs. John Hayre had left for Henderson, Tenn., where she was to visit her son and that she would also visit relatives in other points in Tenn. We were in error in making this writup as Mrs. Hayre does not plan to leave until about the first of December. We are glad to make this correction.

WHAT IS A NEWSPAPER

The newspaper has become the public market place. Newspaper advertising creates the trade upon which the foundation of the community is laid. This is a social service of the highest order, for it makes known the new and better things of life, creates new desires, inspires people to work harder that they may be fulfilled, thus leading to a standard of living that is not equalled outside of America.

Into this development came the newspaper. Producers, Manufacturers, retailers—everyone with anything to sell—turned to the newspapers as the medium through which to reach a larger market.

Newspaper advertising has become the voice of business. Thru the newspaper the seller can tell his story to the millions—when, where as as frequently as he wishes—at a minimum cost. No other medium of advertising has ever taken its place.

This is not only a service to the manufacturer and retailer, but a service to the consumer—who learns through newspaper advertising when and where to buy and what to pay.

The demands made by a community upon its publisher are equal to or greater than, those made upon men in public office. His aid is sought upon every conceivable project. He must spend at least half of his time outside of his own place of business, and must make everybody's business his business. No one ever asks a newspaper man if he has time—time is about the only commodity he is blessed with, and he is expected to use it liberally in the interests of his town.

He is supposed to contribute to every project, assist in every activity, promote every cause and work for every public interest—but if he asks for work, the cry is raised: "Oh, yes, sure the newspaper wants to make money!"

A newspaper is looked upon by many as a sort of a divine agency—that God will care for it as he does for the lilies and the sparrows. Well being neither, we can't say—but our experience has been that God helps him who helps himself.—Standard, Fairfax, Minn.

COMPETING WITH TAXPAYERS
Why should Uncle Sam sell a commodity or service such as printing in competition with local, privately owned, tax-paying printing plants?

Why should 15,000 postoffices be used as order takers for a service that is not an essential function of the postoffice department or a necessary service in handling the mails?

The reason for raising these questions is that Uncle Sam offers to print return cards on stamped envelopes. With a "local dealer," or sales agency in the United States postoffice located in every center of population in the land, Uncle Sam does a volume of printing business that enables him to offer customers a ridiculously low price. The orders for printed stamped envelopes total a billion and a half

a year—over 4,000,000 for each of the 365 days in the year!

The purchasers of this service offered by Uncle Sam are not the "common people," some of whom address letters improperly and thereby contribute to the cost of maintaining the dead letter office. Banks, retail merchants, professional men, manufacturers, the public schools, colleges, fraternal organizations—all dependant upon prosperous towns, home trade, local pay rolls, taxpayers able to pay their taxes—these constitute the customers who take advantage of Uncle Sam's bargain price on printed envelopes.

If its O. K. for Uncle Sam to sell printing, why not extend a good thing and insist that he add to his line and thus serve a much larger number of postoffice patrons? Why not add a grocer's apron to the printer's apron Uncle Sam now wears? Why not sell breakfast food, evaporated milk, butter, shoes, drugs, dry goods, clothing, etcetera, over the postoffice counter?

Unless Uncle Sam quits printing business, printers should obtain signatures from postoffice patrons to a petition demanding that the postoffice department sell not only printing—that accommodates only a limited number of customers—but other products. Think of the saving in price that would be possible through enormous volume and frequent turnovers! And Uncle Sam is lucky; he doesn't have to pay taxes.—News, Magdalena, N. M.

Why Your Electric Bills Vary

If your electric bills have been gradually getting a little higher each month since the end of Summer, the following chart may help to explain the reason:

This Chart Shows Why Electric Bills Vary
The average use of electric lights in the home is nearly three times greater in the Winter than in the Summer, because of the shorter days and the longer periods of darkness.
And lighting is only part of the story.
During the late Fall and Winter months more time is spent at home. The electric radio is probably on longer. More entertaining is done... the electric grill, toaster, percolator and other appliances are kept busier than in the Summer months.
Bills for electric service naturally reflect this greater use, but the slight increase is negligible compared to the comfort and cheer electricity brings to the long winter evenings at home.

## BRIDGE PARTY

Mrs. B. F. Pyle was hostess to several friends with a going away party honoring Mrs. T. M. Pyle, who is leaving for El Paso to make her home. The delightful affair was given Thursday afternoon at the Kerr Hotel and bridge was enjoyed. The score pads and tallies were suggestive of "going away" and were very attractive.

Following the conclusion of several enjoyable tables of bridge the honoree, Mrs. T. M. Pyle, was presented a week end bag. A parchment waste paper basket went to Mrs. J. C. Green for having made high score in bridge and a novelty electric lantern was presented to Miss Gerry Coates for second high score prize.

Pecan pie with whipped cream and coffee was served to Mesdames Doc Turk, Col. Coates, Jim Kerr, Joe Kerr, Max Bogusch, L. A. Lowe, Clyde Griffith, P. C. Coates Jr., J. C. Green, F. B. Carter, A. E. Creigh Jr., T. M. Pyle and Gerry Coates.

## MRS. MCKEE HOSTESS TO PRESBYTERIAN AUXILIARY

The Presbyterian Auxiliary met Monday with the president, Mrs. J. W. McKee. Mrs. John V. McCall gave the closing chapter in the mission study on the Indians and conducted a "spell down" on the whole book. Mesdames Joe Nichols, S. C. Bodkin, N. E. Charlton, J. W. McKee and Miss Rosa Dunman showed diligent study of the Red Man.

A generous free will offering was made for Home Missions.

Mrs. McKee assisted by Mrs. Gerdes served pashofa and wilocshi, two delicious Indian dishes.

DENTON, Nov. 24.—As the month of November progresses our minds turn toward the annual celebration of Thanksgiving. Along with the other thoughts which occasion brings to mind is the one of Thanksgiving dinner. "What shall I serve for dinner this year?" This is a question arising in the minds of many women.

The menus for this dinner should be a rather special one. Of course, custom demands the traditional turkey and cranberries. To add variety to the menu and make the dinner more festive, start off by using an appetizer as first course, then follow directly with the main course since the meal will be such a heavy one. Follow this with a light salad course. The dessert for the dinner should be a medium one and by all means serve coffee, nuts and mints.

## THURSDAY MENUS

Breakfast: Orange juice, bacon, toast, coffee, milk.

Dinner: Tomato juice cocktail, whole wheat wafers, roasted turkey with dressing, rice, giblet gravy, asparagus on toast, cranberry sauce, butter, hot rolls, grapefruit salad, French dressing, green gage plum sorbet, cookies, mints, coffee, nuts.

## FRIDAY MENUS

# What Must A Young Girl Know Before Marriage?

There is a true story told of an ingenious Budapest bookseller, who—faced with hard times—advertised that he had for sale a volume of information indispensable to a young girl contemplating matrimony. He said that in this book would be found—not what every young girl is told before marriage—but what she will find it indispensable to know.

Thousands sent their mail-orders. Then—complaints began to pour in. Finally an outraged man brought the bookseller into court. He stated that he had sent for one of these compendia of indispensable information . . . and that he received by mail a 19th Century Cook-book—"Lazy Little Lulu Learns Cookery." He wanted the bookseller found guilty of obtaining money under false pretenses. . . .

But the judge acquitted him, saying that he was in thoro accord with the bookseller's view that a knowledge of cooking was of primary importance to the prospective bride.

The modern newspaper could be advertised truthfully in very much the same way. The most indispensable knowledge to a young wife is knowing where and what to buy . . . how to get the most for her money. . . how—on a limited budget—to keep her home fresh, new, attractive. . . how to dress herself and her children, inexpensively yet in the very latest styles . . . how to serve on her table foods of the most dependable quality.

In other words—the advertising that appears in your local newspaper contains information of real value . . . NEWS! Announcements of the latest and best in the shopping world. This is indispensable information to every woman, especially to those with families. It helps them run their homes successfully. Surely that is what every woman must know.

### Rev. Harrison Will Tender Resignation As Pastor Sunday

Rev. Ira Harrison will tender his resignation next Sunday to the members of the Baptist Church according to announcement made to the Times on Tuesday of this week.

Rev. Harrison has been pastor of the local church for the past 3 and a half years and before accepting the call to this church he came here to preach from El Paso where he was located. During the time they have been here, Rev. and Mrs. Ira Harrison have always stood for the best in the community not only from a religious standpoint but from a civic point as well. They have been ever ready to minister and help wherever needed.

In tendering his resignation Rev. Harrison has this to say: "Sunday morning will close my 3 1-2 years pastorate with the church here. During this period of time 85 members have been received into the church and \$12,000.00 (Twelve Thousand) has been given to all causes.

In the main our work has been pleasant and the above report indicates some progress made and good accomplishment. We appreciated our friends here and are going away feeling that we have made some good friends. We are leaving conscious of the fact that we have made many mistakes. I believe I have been faithful to the Word of God. I have preached with deep convictions. I have not preached to please everybody. I am leaving with all my financial obligations met. I owe no man a cent on this earth as far as I know. I am going away with no stain of character. I have tried to live the message that I preached.

We shall never forget the people here and deeply appreciate what all have done for us. This little church has been a great help to us and we pray that the Lord will send a man here to lead them on.

Mrs. Harrison and I will leave about the 1st for Fort Worth, Texas. The pastor will preach Sunday morning.

Very Sincerely,  
Rev. and Mrs. Ira Harrison.

### Local Minister Volunteers To Reduce Salary

Just before the sermon Sunday morning at the Sanderson Methodist Church the Pastor, Rev. B. M. Stradley, called the Church in Conference and after a few remarks of expressions of gratitude that the Stewards had raised his salary before the annual Conference, he advised, that owing to the unemployment situation and the general economic depression he believed it the part of wisdom and justice to face the local condition as it is and asked that his salary be reduced from \$100 per month to \$69.33 per month during the present strained economic condition.

Rev. Stradley urged that the Annual Benevolences as budgeted by the Church for the primary purpose of supporting duly constituted institutions doing relief work be raised as soon as possible. He also asked that the difference between the salary as recommended by the Pastor go into this annual Benevolences Budget.

### MINATURE RAILROAD BUILT TO RUSH WORK FOR RIVER BRIDGE

A railroad has been built by the contracting firm of Thomson & Simpson in order to construct a highway bridge across Devil's River near Del Rio. The railroad, diminutive, it is true, nevertheless has its real narrow gauge tracks, including a "Y" and a genuine locomotive with cab.

The five-ton Plymouth locomotive, which uses gasoline as fuel and can carry 3,000 pounds, was at the Thomson & Simpson plant in San Angelo Tuesday and is to be moved at once to the bridge site where work already is underway.

The concrete mix is hauled down-grade from the pit out across the river to the various piers. A crane which now is excavating, will lift the concrete and pour it into the forms.

The firm has a contract on the Devil's River bridge, another across the Castle Canyon and another span across Evans Creek, all on Highway 3.

In Terrell County the firm has about completed another job on small bridges and eight miles of grading. The second series of projects are near Dryden.—Del Rio Evening News.
