SANDERSON, TEXAS, FRIDAY, FEBRUARY 10, 1933.

NO 48.

FOUNDERS' DAY OBSERVED BY LOCAL P. T. A.

Many Former Presidents In Attendance At Meeting Last Thursday

Sanderson Parent Teachers Association convened in regular session at the High School Auditorium, Thursday afternoon, February 2, at 4 o'clock. Mrs. A. P. Utterback, President of the organization presided at the meeting. Minutes of the last meeting of the Association and of the executive board meeting were read by the Secretary, Mrs. Lochausen.

The subject of the program was "Founders' Day." Mrs. O. J. James served as leader.

As the opening feature of the session the High School Band, under the direction of Mr. Cammack, played two numbers.

The Lord's prayer, led by Mr. B. J. Brannan, was prayed in unison.

The pupils of the 3rd grade sang two numbers.

An interesting review of the History of P. T. A. was given by Mrs. J. W. McKee.

Reports were heard from the chairman of the various committees. Mrs. Joe Nichols, chairman of the Program committee read the names of those who are to appear on program at the next regular meeting. Mrs. R. A. Hurst, reporting from the membership committee, stated that Sanderson P. T. A. now has 104 members, which far exceeds any number that the Association has ever had. As a means of reimbursing the funds of the treasury, Mrs. E. W. Hardgrave stated that the finance committee, of which she is chairman, is now discussing the possibilities of a chuck wagon supper to be given sometime in the near future. However, no definite arrangements have yet been made. According to the report made by Mrs. Creigh, \$23.50 was collected from the sale of the Christmas seals. Mrs. L. M. Baze, chairman of the study circle, extended a cordial invitation to everyone to participate in the discussion of the talk given by Mrs. Hardgrave concerning the losing and forgetting habit of children.

As Secy. of Resolutions, Mrs. McCall read a resolution giving favorable comment to the pageant and exhibit presented by the school January 27th.

Mr. B. J. Brannan, Mrs. Jim Kerr, and Mrs. John Stovell were appointed to serve as a nominating committee.

Each year it is the custom to observe the candle lighting ceremony in commemoration of the anniversary of National Birthday of P. T. A. In view of this fact a beautiful cake with candles on it was placed in the center of the stage, and around it assembled all the past presidents of Sanderson P. T. A. These presidents included Mrs. Lucilla Lemons, Mrs. J. W. McKee, Mrs. Alexander Mitchell, Mrs. W. E. Leo, Mrs. H. D. Williams, Mrs. H. C. Goldwire, and Mrs. A. P. Utterback. Every former president of P. T. A. who is now living in Sanderson was present. Each gave a brief talk honoring some particular phase of P. T. A. work. The cake was sold at 5c a slice, the money from which goes to the Founder's Fund.

Following the singing of "Blest be the Tie that Binds," the meeting adjourned.

The next meeting has been scheduled for 7:30 Thursday night, on March 2nd. This will be Dad's night.

LUTHERAN SERVICES

Preaching services will be held here tonight, Friday, at the Presbyterian Church at 7:30 by Rev. A. G. Weideranders, pastor of the Lutheran Church in Del Rio.

The public is cordially invited to attend these services.

Miss Johnnie Duke of El Paso is visiting friends and relatives here.

A. E. Creigh Jr., was a business visitor in Alpine Monday.

Oil Company Pays Sonora People 75c Acre For Leases

SONORA, Feb. 6.—The Superior Oil Company has paid Mr. and Mrs. C. G. Robson 75c an acre for more than 13 sections of land, and agreed to pay a rental fee of 25c annually for a lease on their ranch in the southwest corner of Sutton and adjoining acreage in Val Verde County, according to a deal just recorded here by J. D. Lowery, county clerk.

The deal is the first one officially completed in a number of oil leases reported late in December in Sutton and adjoining land in Val Verde and Crockett Counties.

Rumors of extensive oil leasing by major oil companies at prices ranging from 50c to \$150 an acre were heard here following a good showing struck in the Stanolind et al Tood deep test west of Ozona. The Humble Company was reported to be a large lesor.

The 820 acres secured from Robson is made up of 3,098 in Sutton County and 5,522 in Val Verde County.

DEL RIO LAMBS SELL FOR OVER 4 CENTS POUND

Animals Have Gone To Feed Pens In Illinois

DEL RIO, Feb. 6.—Highest price offered this season for Fall lambs was paid by J. R. Summers Saturday, when he shipped three double decks of Fall shorn lambs to Illinois feed pens, netting the producer \$4.10 a hundred pounds.

Shipping his purchase on Sunday, Mr. Summers paid top price for the lambs, which was more than 4 cents a pound to the producer, and topping the market by nearly a cent per pound above prices paid over the Fall and Winter Months.

Approximately 75,000 lambs have been shipped out of this section over the Winter, at prices ranging from 3 to 3 1/4 cents a pound. Most of the stuff sold to feeders at 3 cents per pound.

Mr. Summers, who has paid top price over the entire season for his purchases, has shipped approximately 15,000 lambs to feed pens in Illinois, Kansas, Missouri and Tennessee.

Within the next few weeks, Mr. Summers plans to ship several thousand additional head to market, he says.

Iraan Boy Scouts To Be Hosts To A Cage Tournament

IRAAN, Feb. 6.—Twenty Boy Scout basketball teams have been invited to participate in a scout cage tournament at the Iraan school gymnasium Saturday, March 4, according to W. C. Williamson, scoutmaster and director of the meet. Iraan Troop 49 is sponsoring the tourney.

Trophies will be awarded the championship and the runner-up teams, and an all-tournament team will be selected by the scoutmasters. Drawings will be held at 9:30 a. m. Saturday and play starts at 10.

Teams invited are: San Angelo, Crane, Fort Stockton, McCamey, Rankin, Texon, Big Lake, Mertzon, Ozona, Odessa, Alpine, Sheffield, Sanderson, Sonora, Fort Davis, Wink, Marfa, Buena Vista, Marathon and Balmorhea.

More than 2500 garments made by 187 farm women in Limestone county last year by home demonstration methods saved these women an average of \$12.50 apiece.

Clyde Morris and Earls Pierson were visitors in Abilene over the week end.

COLLECTIONS ON COUNTY-STATE TAXES NORMAL

School Tax Collection Fair; Poll Tax Short Of Last Year

Taxes collected in this county off of the 1932 tax roll amounted to about forty five thousand dollars during the month of January, W. D. Hunter, deputy Sheriff and Tax Collector stated Wednesday. Mr. Hunter then had just about completed his monthly report for January and in an interview with the Editor stated that taxes were paid better than he expected. He said with the amount collected up to January 31, that almost fifty per cent of taxes that were assessed on the rolls had been collected.

Poll tax collections for this year were not so good and there is quiet a shortage over the number that paid last year. Last year 774 poll taxes were paid while this year only 519 have been paid in the entire county.

School tax collections for January amounted to \$6,218.13 of which amount forty-sixtyfifth will go to the maintenance fund and twenty five-sixtyfifth to the interest and sinking fund. With the amount that the State has sent out, which was \$2 on the 1932-33 per capita, the school will have sufficient funds to partially take care of vouchers not paid.

Terrell County finances are in fair shape and as yet the officials have not had to take script for their pay, and this is due to the wise expenditures of our County Judge and the board of Commissioners.

SAN ANGELO IS OPPOSING POPE GAME MEASURE

Proposes Bill To Abolish Commission And Hatcheries

SAN ANGELO, Feb. 4. (AP)—Several petitions opposing the abolishment of the Game, Fish and Oyster Commission and the creation in its stead of the office of game, fish and oyster commissioner to be appointed by the governor are ready to be passed here today. The protest was started by the San Angelo Lions Club Thursday when Culberson Deal, manager of the Board of City Development, related the purpose of House bill 273, introduced by W. E. Pope, of Nueces County.

The bill proposes among other things that the fees derived from licenses be diverted to the general revenue fund and that the commissioner shall employ six deputies. It therefore, provides the principle that money paid in by sportsmen for game and fish conservation purposes be utilized for general purposes. It contemplates that the game and fish laws of the State be enforced by the regularly elected peace officers, a principle that has worked disastrously in all states where the experiment has been conducted.

No provision is made in the Pope bill for the operation of the nine fish hatcheries, located at Dallas, Tyler, Huntsville, Jasper, Brownsville, Kerrville, Cisco, Wichita Falls and San Angelo, Deal said. It does provide, however, that all properties used by the game, fish and oyster commission and not necessary under the provisions of his bill, shall be sold. This may be taken to mean then that the existing fish hatcheries might be sold.

The Lions Club moved to oppose the measure by petition, suggesting that enactment would be most destructive of the law affecting game and fish conservation, and that the change would provide this State with the most inadequate game department of any State in the Union.

C. V. McKnight was a business visitor in Fort Stockton Tuesday.

MERCURY DROPS WHEN NORTHER STRIKES CITY

Coldest Spell In Many Years Experienced Tuesday Night

A violent drop in temperature was felt in this city by the middle of the morning Tuesday, when a blustery north wind struck this city suddenly, causing a sharp drop of the mercury. By sundown, so quick was the drop in temperature that many hydrants, water pipes, car radiators were frozen, before citizens realized that it was freezing weather. Throughout the night Tuesday the thermometer continued to drop until the low level of 6 above zero was reached.

Early Wednesday morning the government thermometer at the Kerr Mercantile Company registered 4 1-2 degrees above zero and no change was recorded for several hours. The thermometer then climbed a little during the day but freezing temperature was felt all day. Garagemen and filling station men were kept busy thawing out cars and keeping a supply of water on hand for cars. The sun shone all day, but still it was cold while housewives and citizens made vain effort to keep hydrants and water pipes thawed out.

Wednesday, while still cold, the mercury did not reach the low level that it did Tuesday, only registering 9 above zero. That temperature was maintained most all day Thursday, with a cloudy sky prevailing.

Livestock was hard hit throughout this territory and no doubt a few early lambs were killed. All vegetation which was commencing to bud out and get green received a set back and some of it was killed. Just what losses were suffered among the livestock we were unable to get a check on.

Old time residents state that this is the coldest weather that this section has experienced in many a year. No relief is in sight for at least three days more according to weather reports over the radio.

Simple Formality Proclaims Lame Duck Amendment

WASHINGTON, D. C., Feb. 6.—(AP)—A simple formality at the state department put the lame duck amendment officially into the Constitution today after a long and wearisome journey through congress and the state legislatures.

With a group of state department officials and two other witnesses present, Secretary Stimson signed the proclamation announcing to the nation that a sufficient number of legislatures had approved the measure to make it effective.

Under the amendment, the first regular session of the next congress will open on January 3, as will each session thereafter, and the 1937 inauguration will be on January 20 instead of March 4, shortening the time between November elections and the opening of the terms of members of congress and the chief executive.

Senator Norris of Nebraska, the Republican independent who sponsored the amendment in congress was unable to attend the ceremony at the state department. Besides state department employes, the only persons present were Miss Belle Sherwin, president of the National League of American Voters, and Clarence Martin, representing the American Bar association.

The secretary had received official notification of the approval of the amendment by 39 states. In addition to those, however, six others have acted, leaving only Florida, Maryland and Vermont which thus far have not approved it.

John Reininger, who has been in Marathon for the past week, returned to this city Wednesday.

U. S. Quarantine Stations Closed In Alpine Area

U. S. Department of Agriculture quarantine inspection stations, operated in this area for the past several years, are being temporarily closed, and will not be reopened until about the first of August, when the cotton harvesting season begins, it was announced here this week.

The stations have been operated by the department in an effort to prevent the further spread of the pink bollworm, prevalent in the cotton growing area of the Rio Grande in this district.

The closing of the stations will not mean a lay-off of any considerable number of men, it was stated. Two of the men in charge of the inspection station here have been transferred to the area offices maintained in Alpine to do laboratory work. One of the inspectors at the Fort Davis station, Sam Poe, has been transferred here.

There is no considerable movement of cotton out of the Rio Grande farming area at this time. Experimental and other work being done by the department forces here will go forward as usual, it was stated.—Alpine Avalanche.

TIME EXTENDED FOR PAYMENT OF AUTO TAX

Measure Passed By Both Houses By Large Majority

AUSTIN, Feb. 3. (AP)—Governor Miriam A. Ferguson today signed the bill extending the time limit for payment of motor vehicle registration fees to April 1.

The bill became a law immediately, having been adopted by two thirds majority vote in each House.

Many motorists in this county took advantage of the new law and have not registered their cars. However, according to the records of the Tax Collector's office registration of cars and trucks were about normal compared to last year. 1932 registration of cars were 379 and of trucks 105 on February 1; while this year 340 cars were registered and 100 trucks.

The extension of time is going to be a large help to motorist here and some that made an effort to register them by the first of February regret that they did not wait a few days as it crowded them to register their cars this year.

Edwards-McBee Are Let Out As Scabies Inspectors Friday

D. J. McBee of Del Rio and W. R. Edwards of Langtry were relieved of their duties as scabies inspectors by the State Livestock Sanitary Commission Friday afternoon when it made three new appointments. The third man relieved of office was H. E. Sharp, Eldorado. The men appointed are Frank Walton of Menard, Joe Turner of Rocksprings, and R. E. Taylor of Sonora.

The appointments were announced by Chairman Leo A. Callan of San Antonio after the first conference of the commission recently appointed by Governor Ferguson.—Del Rio Evening News.

Mr. Edwards, who has been inspector of this county for several years, has many friends here who will regret to learn of his being discharged from the commission.

The Editor has not learned just who will take Mr. Edwards place as inspector for this place.

Mrs. S. J. Kellogg returned Sunday morning from El Paso where she spent several days the past week.

Mr. and Mrs. O. H. McAdams were Del Rio visitors on Sunday and Monday of this week.

TEXAS LAND BILL HEARING SET THIS WEEK

West Texas Will Seek To Clear Mineral Title

(Fr. Stockton Pioneer)

Hearing on the West Texas Land Bill before the Public Land and Building committee of the House of Representatives is set for Tuesday, February 7th, according to word received here this week from Hon. B. Frank Haag, representative of this district. On Wednesday the Claims and Accounts Committee will have a hearing on the Pink Boll Worm bill which will affect a number of counties in this district.

Representative Haag announces these two hearings, which will have immense importance to the future of Pecos county as well as the others in his territory. The West Texas Land Owners Association, formed some two years ago is expected to take a most active stand in this matter.

The land bill now up for hearing calls for the payment of half the bonus money received by the land owners for mineral sales, namely oil leases and royalties. It also provides for the sale of the mineral rights to the land owners. It has been pointed out before that few, if any, of the owners who have received such bonuses in the past can now raise any such sum to pay their disputed half. Authorities claim that it would absolutely ruin a large part of West Texas. This bill is said to be an administration bill.

The bill passed two years ago, known as the Small-Wagstaff bill was later declared unconstitutional and necessitates a definite clearing of this problem facing the land owners of this section. Such legislation will be sought in this present session, beginning with the bill now up for hearing.

The Pink Boll Worm bill calls for the payment of compensation to those farmers who suffered loss during the eradication of the pink boll worm by the department of agriculture some years ago. A similar bill failed some years ago. It will mainly affect Ward and Reeves County in this district.

The ultimate outcome of this West Texas Land Bill is of vital concern to every person in this West Texas.

BILL REPORTED BACK FAVORABLY

AUSTIN, Feb. 7. (AP)—Two bills affecting purchasers of state-owned land in West Texas were reported favorably today by the committee on public lands and buildings of the Texas House of Representatives.

One of the bills would authorize the state land commissioner to make an adjustment with the land owners of the bonus and rentals due the state school fund under a decision of the state supreme court which held the state was entitled to one-half the bonus and rentals from oil and gas leases on the land.

The other would provide for resale of the land to the existing land owners for one-tenth of the original sale price. Under the resale, the state would reserve only a one-sixteenth royalty interest in the minerals and all bonus from future development would go to the property owners.

The land owners would be given 40 years in which to pay the amounts now due the state in bonus from oil development and 40 years in which to pay for the land repurchased.

Passage of the bills was advocated by J. C. Hunter of Abilene, representing the West Texas Land owners' association.

Earl Clark and W. W. Crawford of Marathon were business visitors in the city last Saturday.

"Dud" Barker and J. D. Jackson of Alpine were business visitors in our city several hours Monday.

A large crowd from this city attended the dance which was given at Dryden last Saturday night.

Official and Only Paper Published in Terrell County

Published Every Friday at Sanderson, Terrell County, Texas

ADDIE LEE LEMONS BOLING, Editor and Publisher

Entered at the Post Office at Sanderson, Texas, July 22, 1908, as Second Class Mail Matter Under Act of Congress, March 3, 1879.

Table with 2 columns: Subscription Period, Price. Includes One Year (\$2.00) and Six Months (\$1.25).

Notices of church entertainments where admission is charged, cards of thanks, resolutions of respect, and all matter not news, will be charged for at regular advertising rates.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon calling the attention of the management to the article in question.

Every governmental official or board that handles public money should publish at regular intervals an accounting of it, showing where and how each dollar is spent. This is a fundamental principal of democratic government.

UNDER-CONSUMPTION

Under consumption of the necessities of life rather than over-production is given as one of the reasons for present difficulties, according to the Trinidad Guardian, published in the British West Indies.

The more I see of advertising the more I am convinced that we know nothing about it.

We built up a world by advertising luxuries we could do without; then when the luxuries were doing all the business there was a slump in primary commodities.

The girls smoked cigarettes instead of eating sugar candy and chocolate; they gave up bread for rusk; they began to use artificial silk instead of wool and cotton and flannel; we used electricity instead of coal; we learned to eat canned goods instead of village products.

What did primary products do? Instead of advertising their way to success too, they cried overproduction. Overproduction is only a child's way of saying 'no buyers.'

Look around and see who advertises least. It is the producer of primary products every time. They got the idea that they were indispensable and when they found they were not, they sat down, and wept instead of taking a course in salesmanship.

Fortunes used to be made out of the land and farming. The farmer was the one-man shop in the one-horse town. Everybody had to go to him or starve. Nowadays instead of going to the farmer it is easier to buy canned food, luxuries advertised by middlemen or importers.

We can do without bread, cocoa, sugar, potatoes and practically all of the fresh products there is. But the producers 'kid' themselves that we can't. They blame lack of sales. If they advertised economies and overproduction for and marketed like everybody else, they would not get left in the lurch.

When the primary producers learn to keep pace in their advertising with the producers of luxury goods, the world will get balanced.

TEXAS INDUSTRIAL ACTIVITIES

American Beauty Cover Co., Dallas, member of Progressive Texans Inc., is marketing a most interesting novelty in its line of "Everite" memo pads and bridge scores.

An industrial possibility in Southwest Texas is indicated by the Kingsville Record's story of Sal del Rey, a salt lake that for generations has supplied that section with salt that is commercially pure.

Texas in 1932 started \$27,439,000.00 worth of highway improvements, including: 1,100 miles of grading and small structures, 473 miles of gravel or similar construction, 566 miles of concrete and brick highway and \$2,327.6 0 worth of large structures.

During the month of September thirty-five Texas mills reported total production of 596,971 barrels of flour from 2,718,826 bushels of wheat ground.

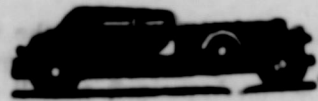

The Tem-Tex Dairies, Inc., plant at Temple, recently damaged by fire, will be rebuilt as soon as possible, according to announcement from A. E. Chiles, manager.

There are only six chemical plants in Texas, but the value of their output ranks relatively high at \$4,191,015 with \$1,504,541 "Value added by manufacture."

In 1910 Texas was producing 8,899,000 barrels of petroleum and ranked second among the States of the South. In 1931 Texas produced 331,544,000 barrels and led not only the South but the Nation, being more than one-third of the total production of the United States as compared with one-twenty third in 1910.

The Calmet plant, which was moved in August from California to Fort Worth through purchase by the Well Machinery & Supply Co., is the only water meter factory in the Southwest—the only one, in-

deed, outside of Wisconsin, Pennsylvania and New York. It has a monthly output of about 1,000 meters ready for installation.

The Muenster community cheese factory, which began in a very small way, is now receiving 60,000 pounds of milk daily and distributing \$15,000 a month among the farmers of that small Cooke county community.

Appreciation Of Recent Pageant Expressed At PTA

The following paper was read by Mrs. John V. McCall, chairman of resolutions, before the P. T. A. in the meeting on February 2nd.

Your resolution secretary wishes to express appreciation to the faculty of this school and to parents and children of this community for the very beautiful, entertaining, educational, wholesome, patriotic and historical pageant given in this building on the night of January 27th.

The colossal undertaking put on without a hitch showed fine management and good training. Many individuals should be mentioned but so many excelled that we dare not call names, for fear of omitting some worthy one.

The exhibit in the afternoon was splendid. To an ex-teacher it revealed many things, chiefly the advantages children of the present day, have in their well equipped schools and highly trained teachers.

January 27, 1933 should go down in local history as an epoch making day in Sanderson schools. Mrs. John V. McCall.

NOTICE TO DEPOSITORIES

THE STATE OF TEXAS COUNTY OF TERRELL

Notice is hereby given that the Commissioners' Court of Terrell County, Texas, at its February term beginning on the 13th day of February, 1933, will receive proposals and Bids from any Banking Corporation, Association, or individual banker in Terrell County that may desire to be selected as the County Depository of the Funds of said County, and the School Funds of said County.

Any Banking Corporation, Association or Individual Banker in said County desiring to so bid shall deliver to the County Judge of said County on or before the First day of said Term of said Commissioners' Court, Sealed Proposal stating the rate of interest offered on the Funds of the County, including the School Funds for the term between the date of such Bid and the next regular selection of a Depository for said County. Said proposal shall be accompanied by a certified Check of not less than one half of one per cent of the County revenue for the preceding year as a guarantee of the good faith on the part of the bidder, and that if his bid is accepted, he will enter into bond as provided by law; and it being understood that upon failure to give such bond said certified check shall go to the county as liquidated damages.

In Testimony Whereof, witness my hand this 18th day of January 1933.

G. J. HENSHAW County Judge, Terrell County Texas.

PIONEER BREWSTER COUNTY RESIDENT DIES

Mrs. Lucy Crawford, pioneer Brewster County resident, and who has made her home in Marathon for many years passed away at her home in that city early Wednesday morning. She was well and favorably known here and often visited in the homes of Mrs. Luella Lemons and Mrs. W. H. Mansfield in this city.

She is survived by a large family of children and several grand and great grand children.

Mrs. A. D. Brown left Monday morning for San Antonio where she spent several days this week visiting with Mr. Brown who is ill in a sanitarium in that city.

Let us print your letterheads, envelopes and statements. Work guaranteed and the best of stock used.—The Sanderson Times.

Spending to save through Advertising

Not many of us, these days, are troubled with so much money that we cannot spend it. But we ARE interested in spending the money we have, to get the most out of it.

One way—and not a new way, either—is to make a budget and put down, week by week, the money that comes in. Put down beside it, week by week, the money that goes out. So much for food, so much for clothing, so much for rent. So much for giving, and for luxuries.

It won't always be easy, of course, to stay within the budget. That's where advertising helps you. Advertisements in this newspaper tell you how much butter, foods, meats, clothing drugs will cost, BEFORE you go shopping! They point out ways to save money. They show you how to cut a little here, a little there. And they tell about new products, new ways of doing things, that help make this life of ours very much worth living!

EVENTS OF SOCIETY

DRYDEN MISSIONARY SOCIETY MEETS

The Dryden Women's Missionary Society met Monday at 3 p. m. at the home of Mrs. P. A. Wyatt with the following members in attendance: Mesdames Miller Holmes, W. A. Latimer, Mildred Holmes, E. P. Sherrod, A. M. Buck, Chester Smith, P. A. Wyatt, M. D. Holmes, H. M. McCabe, A. F. Buchanan, P. A. Presley, F. B. Carter and Miss Loreine Barker, and the following visitors, Dr. C. H. Cole, Rev. B. M. Stradley, and Mr. P. A. Wyatt.
Mrs. P. A. Wyatt presided at the meeting, Mrs. A. F. Buchanan led the singing and Mrs. Miller Holmes, Mrs. A. M. Buck and Mrs. W. A. Latimer read the scripture lessons. Talks were made by Mrs. A. F. Buchanan, Mrs. P. A. Wyatt and Mrs. A. M. Buck. Dr. C. H. Cole led in prayer and Rev. B. M. Stradley pronounced the benediction.
Refreshments of hot chocolate and cake were served. The next meeting will be held with Mrs. A. F. Buchanan.—Reported.

MISSIONARY SOCIETY MEETS

The Methodist Women's Missionary society met Tuesday afternoon at the Parsonage with the following present: Mrs. A. M. Hicks, Mrs. Bustin Canon, Mrs. J. L. Osgood, Mrs. F. S. Garrison, Mrs. J. Landers, Mrs. J. B. Halsell, Mrs. A. P. Utterback, Mrs. R. A. Johnson, Mrs. P. H. Vinsen, Mrs. T. A. Cramer, Mrs. J. H. Johnson, Mrs. B. M. Stradley, Mrs. J. W. Savage, Mrs. Clyde Morris, Mrs. M. B. Latimere, Mrs. James House, Mrs. Chas. White, Mrs. W. D. O'Bryant, Miss Eva Billings, Mrs. E. McSparran, Mrs. H. C. Goldwire, Mrs. Mussey and Rev. B. M. Stradley.
After the usual devotional program which was led by Mrs. Osgood, the society presented Mrs. Stradley with a birthday shower. Reported.

VALENTINE PARTY

Jesse and Wesley Lochausen were hosts, to the Presbyterian Pioneers Friday night. A full attendance was present and after a short business session, the fun of the evening began. First some lively singing. Then contests in making valentines and spearing a heart with Cupid's darts. Many beautiful valentines were made but Bobbie Lea's was voted the best. Robert

Harker was the successful one in throwing the darts.
Mrs. Lochausen served delicious cookies, cocoa and candy to the twenty guests.

DAUGHTER TO H. NORTH'S

Mr. and Mrs. Hilton North of Ozona are parents of a daughter born Sunday in San Angelo at the Shannon Hospital. Mr. North is a ranchman of Crockett county. The child has been named Mary.—San Angelo Morning Times.

Mr. and Mrs. North, who ranch in this county north of Dryden, have many friends in this section who will be glad to learn of the arrival of the little one.

Roy Milton Bogusch, who has been attending the University in Austin, returned home the first of the week.
Mr. and Mrs. S. C. Bodkin left last Friday night for El Paso where they will make their future home. Mr. Bodkin having been given a position in the signal department of the T. & N. O. in that city. They have been residents of this city for the past 25 years and it is with regret that their many friends in this city see them leave but wish them well in their new home.

Bert King of Del Rio has accepted a position as mechanic at the Texaco Service Station and Garage and comes highly recommended and is a first class mechanic, able to do work on all makes of cars. F. G. Grigsby manager, states. Mr. Grigsby also states that prices are reduced on repair work at the garage now.

Rev. and Mrs. K. D. Stukenbrok and daughter, Miss Louise, Mr. and Mrs. Ruel Adams, Mesdames J. W. Savage and H. D. Johnson and Fred Savage motored to Marathon last Thursday evening where they attended a Mission School that is being put on by the Baptist in that city.

Mr. and Mrs. S. J. Kellogg spent Monday in Alpine visiting with Mr. and Mrs. Robert Ratliff.

Loose leaf ledgers, Rubber stamps and stamp pads for sale at the Sanderson Times.

Advertise your goods in this paper and get results.

PERSONALS

Charles Robertson came in the first of the week from San Antonio for a visit here with relatives and friends.

C. L. Sims has returned from a visit with relatives in Corpus Christi.

Mr. and Mrs. Vance McLymont left Monday afternoon for Del Rio where on Tuesday, Vance underwent an operation for appendicitis. Late reports from his bedside were that he is getting along fairly well.

Mr. and Mrs. Jack McCright and daughter, and J. Riley Dunman spent the week-end on the Fred and Callahan ranch on the Pecos river. They report an enjoyable outing and that the fish were biting fine.

Mrs. Dixie Schupbach has returned from San Antonio where she went last Thursday for several days treatment at a Diet and Rest Home in that city.

Mrs. D. L. Duke and children returned Tuesday afternoon from a visit of several days in San Antonio with relatives and friends.

Mr. and Mrs. C. S. McKinney and family spent last Saturday here with Mr. McKinney's sister, Mrs. Arthur Locke and family. Mr. McKinney has recently sold the Huespeth County News which he owned at Sierra Blanca and was enroute to Sabinal where he lives and owns the Sabinal Sentinel. While here Mr. McKinney was a pleasant visitor at this office.

Rev. and Mrs. K. D. Stukenbrok and daughter, Miss Louise, left Monday for Fort Stockton where they spent this week conducting a school of Mission. Rev. Stukenbrok is supply pastor of the Baptist Church in this city.

Place that order with us today for your printing needs and be assured of good work, quick service at a reasonable cost.—The Sanderson Times.

RECIPES AND MENUS

By Department of Home Economics
Texas State College for Women
(CIA)

DENTON, February 9.—In many homes the morning meal is so slight that some of the members of the family ignore the event, and the housewife should be quite chagrined, if she counted the calories. One hearty dish will do much to redeem the reputation of the breakfast menus.

Breakfast should be sufficient in amount and kind to safeguard the various members of the family against extreme fatigue, which results in lowered efficiency in performing both physical and mental tasks and in lowered resistance to disease.

A week of hearty breakfast:
Sunday: Grapefruit, southern waffles, fresh pork sausages, syrup, coffee.

Monday: Orange juice, rolled oats with dates and honey, cream, toasted rolls, coffee.

Tuesday: Stewed apples with rice scrambled eggs with cream sauce on toast, coffee.

Wednesday: Stewed apricots, nut bran muffins, bacon, coffee.

Thursday: Poached eggs in tomato sauce, buttered toast, pineapple-cranberry conserve, coffee.

Friday: Tomato juice, sautéed cornmeal mush, syrup, coffee.

Sunday: Sliced oranges, grape-nuts with cream and sugar, hot biscuits, bacon, strawberry preserves, coffee.

MENUS

Southern Waffles: Pour 1 c boiling water over 1 c yellow corn meal; mix well. Sift together 2 c flour, 3 t baking powder, 1 t salt, and 1 T sugar. Mix together 2 c milk and 2 egg yolks; add 3 T melted butter; add milk mixture to moistened meal. Then stir in the flour mixture. Fold in 2 egg whites, stiffly beaten. Bake in hot waffle iron.

Stewed Apples With Rice: Pare, quarter and core 6 tart apples. Heat 1 c molasses or syrup and 1

1-2 c water to boiling and add apples. Simmer gently until tender. Remove from syrup and arrange around serving of rice in bowl. Cook syrup until thickened and pour over apples and rice. Serve with cream.

Rice Cooked In Milk: Pick over and wash 1 c rice. Bring 2 c water to boiling in top part of double boiler. Add rice slowly. Stir gently with fork until most of water has been absorbed. Add 2 c hot milk. Cover and place over boiling water in bottom of double boiler. Cook until tender and liquids are absorbed. 1-2 t salt may be added to water or milk or sprinkled over cooked rice.

Sautéed Corn-Meal Mush: Bring 5 c water to boiling in top part double boiler; add 1 t salt; add 1 c corn meal slowly. Cook directly over heat until thick. Place over boiling water and cook 30 minutes. Add 1-2 c chopped cooked ham before packing in mold; well-greased pound baking powder cans may be used. It is time-saving to cook enough of the cereal to serve hot with cream and sugar the first morning and mold left-over portion for sauteing second day. Remove from mold; slice, using sharp knife. Sauté in bacon dripping until brown. Serve hot with syrup.

You have to buy groceries every day. Spend your money where every day's prices are SPECIAL prices and make your dollar do its full duty.

Just around the Corner

EVEN big-city folks must have their "neighborhood stores"! Most of them would no more think of going down town to fight their way through the crowds in search of a roast for dinner than they would of walking to the factory to get a pair of shoes.

City women know that their neighborhood stores can supply them just what they want — and that, in most cases, the service is more alert and friendly.

The same thing is true of this "neighborhood". Our merchants—the men whose ads you read in this paper — are in position to furnish your home with the best and most popular brands of goods. Not only can they save you money, but they gladly relieve you of a lot of worry and loss of time.

Bill To Reform Insurance Affairs Is Before House

AUSTIN, Feb. 8. (INS)—Substantial reform in practices of domestic insurance companies is proposed as an alternative to repeal of the Robertson insurance law by Rep. P. L. Anderson of San Antonio, chairman of the House committee on insurance.

To the end, Anderson has introduced, along with his bill to repeal the Robertson law, a dozen others affecting only domestic companies.

Domestic companies are thus forced a choice between the Robertson repealer, or the domestic correctives. Anderson has a large store of data, some of which is claimed to be sensational, that will be disclosed when the committee begin consideration of the bills.

The Robertson law, requires insurance companies operating in Texas to invest a large amount of their reserves in Texas. It has had the effect of driving from Texas most of the out-of-state companies, leaving Texas practically virgin territory for domestic companies.

Some of the more pertinent provisions of the Anderson bills, aimed at the domestic companies and to correct allegedly existing evils, follow:

1—Companies would be required to maintain assets equal to liabilities; a surplus reserve equal to 3 per cent of the insurance in force; and stockholders would be held liable up to the par value of their stock in the event of failure of a company.

2—Dividends could be paid only from profits and all profit in excess of 10 per cent could be credited to policy holders, thus effectively limiting profit of 10 per cent.

3—Interlocking directorates of two or more companies would be positively barred.

4—Every company would be required to file vouchers showing all money spent in legislative activities because Texas companies "have maintained a large lobby during each session and have been instrumental in blocking all legislation not acceptable to them."

5—Company officials could not receive a salary in excess of \$5,000 unless approved by the State insurance commission. Anderson explained this was not so radical as it might seem. The present law provides approval of the board of directors for a salary of more than \$5,000, and he merely added the approval of an uninterested body, the insurance commission. "Some are receiving exorbitant salaries out of premiums paid by insurance buyers and at the same time are borrowing money from the Reconstruction Finance Corporation."

6—Examinations of companies would be annual rather than biennial.

7—Statements of all loans and investments would be required. To prevent companies from hiding illegal loans.

8—Companies would be forbidden to purchase or sell property or make a loan in which a relative or a director or officer of the company is interested; or to make loans to any corporation in which a director of the insurance company has an interest. "The purpose is apparent. Banks, insurance companies and loan companies go broke soon after they begin dealing with the officers and directors and the relatives of the officers and directors."

9—The insurance commission would be given incidental powers necessary to enforcement of insurance laws.

10—Stockholders in insurance companies would be required to render their stock for taxation, there being, in Anderson's opinion, "no reason why stockholders in insurance companies should not pay taxes the same as stockholders in banks."

11—Companies would be required to pay taxes on their personal property, their policy reserves on the same basis that national and state banks pay taxes on their personal property.

MARFA MAN STARTS MOVEMENT TO SAVE WHITE-TAIL DEER NOW LEFT IN BIG BEND TERRITORY

ALPINE, Feb. 4.—A movement to save the comparatively few white-tail, or flag-tail, deer remaining in the Big Bend country of Texas has been started by Captain J. B. Gillett, Marfa ex-Ranger.

Captain Gillett states that he has had numerous requests from cattlemen and other residents of this area to start a movement to save not only this species but other breeds of deer whose habitat is in this part of the State.

"The proper name of the flag-tail deer is 'Arizona white tail' (Odocoileus Conesi)," Captain Gillett writes, "and are thus described by J. Stokely Ligon in 'Wild Life of New Mexico.'"

"This beautiful, dainty deer," says Captain Gillett, "is considered to be the smallest of the white tails; its size is little more than half that of its larger kindred, the Virginia, or common white tailed deer; the does weigh about 40 to 50 pounds and the bucks 60 to 75 pounds."

"Owing to their diminutive size they are the common prey of mountain lions, bobcats, coyotes and eagles, and no matter how well protected there never can be many of them."

"On this account there should be a closed season on these beautiful deer for all time if we would preserve them for future generations. If one will take the time to look at a map of Texas they will see that the mountainous area covers only a very small portion of the great State of Texas and the Big Bend is big in name only when compared to the size of the rest of the State."

"This small area commonly known as the Big Bend is the home of the lordly mule deer (the black tailed), and the home of the Arizona white tailed deer."

"And unless there is something done right now to protect these beautiful deer from visiting sportsmen and pot-hunters they will soon disappear like the buffalo and be a thing of the past."

"A closed season on the white-tails should be had at this session of the Legislature and if you must hunt the black tails, I would suggest an open season of only 10 days with a limit of one buck to the man. I would make the Pecos River the 'deadline'—there can be no mistake about this river for there is not another one like it in the United States, and I have never known of a black-tail or an Arizona white-tail deer being seen east of the Pecos River."

"The game wardens of West Texas are a fine lot of men and I am sure would be more than willing to help us protect this game from extinction."

"It is said by the press of the State that 2,000 buck deer were killed in the Big Bend section of Texas this past hunting season; at that terrific rate of slaughter, how long will it take to exterminate the deer of this part of Texas?"

"Let's get busy and save them."

ON TEXAS FARMS

By W. H. DARROW Extension Service Editor

In Armstrong county wheat farmers have gone in strongly for treating wheat for smut by the machine method of applying copper carbonate dust to the seed. The county agent reports 35,000 acres planted to treated wheat, done at a cost of 3 cents per acre. Smut can damage the crop in the county to the extent of \$40,000, local elevator men declare.

A 10-acre pasture developed as a demonstration by Edd Fulgham in Wood county paid \$18 per acre in grazing last year, according to the county agent. Horses, cows, and mules were charged from 2 to 5 cents per head per day for the rich pasturage, and calves were charged at half rate. The average cost of improvement and upkeep was \$1.80 per acre.

Two years ago self-feeders for hogs were practically unknown in Goliad county. Now they are so common that hog feeding without them is regarded as a sign of poor management. The new system of feeding hogs by self-feeders on rations of corn and equal parts cottonseed meal and tankage, introduced by the county agent, has revolutionized hog raising and has led to the general use of hogs to dispose of corn at a small profit.

ECONOMIC HIGHLIGHTS

Happenings That Affect the Dinner Pails, Dividend Checks and Tax Bills of Every Individual. National and International Problems Inseparable From Local Welfare.

As is usual at this time of year, business sentiment is somewhat mixed. Reports from various parts of the country point to a change for the better in industrial activity, always an encouraging sign. Financial observers seem to be a trifle more optimistic. Even the high percentage of commercial failures impresses many as having a favorable—elimination of weak units in the industrial machine is essential to getting it going again at full speed.

At the recent retailers' convention, it was forecast, that sales would drop 20 per cent during the first quarter of 1933 with improvement in the second quarter. A majority of retail authorities believe that prices are gradually being stabilized.

To many, one of the good events of 1932 was a decline in the cost of living of 9.4 per cent. This, too, has its other side—the continued decline in commodity costs is one of the most stubborn influences in prolonging depression. Another barrier to industrial rehabilitation is the growing fear of heavier taxation and the possibility of a general sales tax that will further damage purchasing power. The state of the public finances continues to be unhappy, with the deficit hovering around the \$1,200,000,000 mark. Federal receipts are below expectations, due principally to the lost potency of the income tax.

Consumption of electricity, like car loadings and bank clearings, always plays an important part in the making of business barometers. It is, therefore, cheering to know that since July sales of power have been constantly increasing and in greater proportion than the normal seasonal increase. The December advance marked a greater percentage gain than did the increase in the same month in 1930—a year of extraordinary electric consumption.

Latest reports on major industries show:

BUILDING—Improved, with contractors ahead of same period last year.

LUMBER—New business continues to exceed production, and in Southern pine district is 13 per cent ahead of last year.

STEEL—Fell off after moderate expansion; consensus of opinion looks to improvement in next few months.

COPPER—Profitless at present 5c price; best side is that domestic consumption leads production.

WOOL—Sales close to normal so far this year.

OIL—The drop in crude from 62c to 38c a barrel, in the face of protraction agreements, and because of overproduction, is one of the most discouraging of recent events.

NEWSPRINT—Price-cutting has led to losses.

SHOES, SILK AND AUTOMOBILES show definite improvement.

Employment declined 4 per cent in December, with four out of seventeen major industrial groups making increase. White collar workers constitute 28 per cent of those out of work. Even slightest change upward in purchasing power should be immediately reflected in employment statistics, as stocks of finished goods of all kinds are now at an irreducible minimum and only demand is needed to make factories hum.

Legislature Seek To Abolish The State Poll Tax

AUSTIN, Feb. 6.—(AP)—Abolition of the state poll tax was sought today in a resolution to amend the constitution introduced in the Texas house of representatives by Representatives T. H. McGregor of Austin and P. L. Anderson of San Antonio.

The constitution now provides for a poll tax of \$1 to which the state added a tax of 50 cents and a majority of the counties an additional tax of 25 cents.

Representative A. P. Johnson of Carrizo Springs introduced a resolution proposing to amend the constitution so as to classify all interest-bearing bonds, notes, warrants, debentures or other evidences of indebtedness as intangible personal property subject to taxation. Bonds of the United States, Texas and political subdivisions of the state would be exempt.

A bill to make an emergency appropriation of \$106,080 to pay the salaries of criminal district attorneys in districts comprising two or more counties was introduced by Representative W. M. Harman of Waco.

A bill to require oil and gas leaseholders to drill offset wells in certain instances was introduced by Representative Frank B. Haag of Midland.

Anderson sponsored a bill to levy a gross receipts tax of 1 1/2 per cent on the receipts of telephone companies from local exchange business and 3 per cent on the receipts from other activities within the state. The bill would require quarterly reports and payment.

Elimination of suits in the enforcement of tax lien was provided in a bill introduced by Johnson. A bill to reduce the amount to be paid in redeeming real property sold for taxes also was offered by Johnson. It would permit redemption during the first year for payment of the amount for which the land was sold, plus 10 per cent and during the second year for the sales price plus 20 per cent.

A bill to allow cities to regulate construction and maintenance of telephone and telegraph lines within the city limits was introduced by Anderson.

—READ THE TIMES IT PAYS—

Look over the ads in this paper.

While farm conditions show little changes, a good sign is that the fundamental supply and demand situation in regard to wheat is steadily improving, thus warranting the opinion that price improvement will come in the future. There have been some farm price setbacks with cattle and hides holding tenaciously to the upward trend. Foreign demand for cotton has been moderately good.

Of national interest is the fact that forced sales totaled 9.5 per cent of all the farms in the country during the five years ending March 1, 1932. Tax delinquencies were responsible for 3.5 per cent of these.

A rise in prices—probably temporary—recently occurred in Bolivia, with but little change in the other South American countries. Basic British industries are reported to be more active. For the first time in 30 years the Nationalist Government in China has succeeded in balancing its budget. Rumania showed a large favorable foreign trade balance for the first nine months of 1932. Canadian business continues low.

SUL ROSS COLLEGE GETS HIGH RATING

According to a report from the American Association of Teachers Colleges, Sul Ross ranks with the highest class of teachers colleges.

In the letter received by President Morelock, from Charles W. Hunt, secretary-treasurer of the American Association of Teachers Colleges, the statement is made:

"In applying the standards, the committee took cognizance of the original understanding that members on the faculty for more than five years and having less than the master's degree should not be counted against the institution until September 1, 1933. Its recommendation to the association will be based on this understanding."

It was also agreed to recommend that an institution should this year be allowed to exceed in its teaching load the standard of 16 hours for five per cent of its faculty but that none should exceed 18 hours.

Last year 111 colleges were ranked in Class A.

The committee bases its reports on the standards set for teachers colleges. Some of these are: requirements for admission, standards for graduation, size of faculty, preparation of faculty, teaching load of faculty, organization of the curriculum, student health service and living conditions, library, laboratory and shop equipment, and location, construction and sanitary condition of buildings.—Sul Ross Skyline.

WOOL IN SAN ANGELO BRINGS 14 1-2c A POUND
Clip Of 55,000 Pounds Is Sold By Frank Cargile
SAN ANGELO, Feb. 4.—Wool took another half cent a pound rise yesterday when Frank Cargile sold 55,000 pounds of 1932 twelve month wools to Tom Richey, wool buyer for A. W. Hilliard and Son of Boston at 14 1-2 cents a pound.

The wool was on storage at the Wool Growers Central Storage Co., and Mr. Richey, who was in Boston made the purchase by telegraph. He had secured samples of the wool earlier.
