SENATE SEEKS ALTERATION IN REDISTRICTING

Treasure Would Re-Align Kaufman, Liberty And Panola

AUSTIN, May 15. (AP)—The senate today passed a bill which makes alterations in the congressional redistricting proposal sent to Governor Miriam A. Ferguson several days ago.

Liberty County would be taken out of the second and placed in the seventh district, Kaufman County would be removed from the fourth and placed in the seventh district, Panola County would be shifted from the third to the second district, under terms of the bill.

Senator Julian Greer of Elkhart is author of the bill, which originally provided for the replacement of Liberty and Kaufman Counties. Senator Margie Neal of Carthage succeeded in amending it to reorganize Panola County in the reorganizing made necessary to fix boundary lines for 21 congressional districts instead of 18 as at present.

Because the Legislature had failed to redistrict the state, three congressmen-at-large were elected last November. The state's representation in the National House was increased on basis of reapportionment made by the 1930 federal census.

The bill being considered by the governor gave East Texas, Central Texas and the Panhandle new districts. Bexar County, Harris County and Dallas County each would have separate districts.

Tomorrow is the last day the governor will have for disposing of the bill, it being the tenth day it has been on her desk. The governor is permitted ten days, exclusive of Sundays, in which to dispose of a bill while the Legislature is in session.

Consideration of the bill brought on Senator T. J. Holbrook of Galveston a severe scolding of those responsible for the redistricting as adopted. Galveston County had been taken from the seventh district and placed in the ninth district, now represented by Congressman J. J. Mansfield of Columbus.

He charged Greer with trading with Speaker Coke Stevenson of the new district in return for one in East Texas including Hendersons county, Greer's home.

Holbrook tried to amend the reorganizing bill by striking out the enabling clause and substituting a redistricting plan that had been agreed by the Senate two years ago, but which died in conference when the two houses were unable to agree. He said that bill had been agreed to almost unanimously by the senators two years ago. His amendment was defeated 6 to 18.

AUSTIN, May 13. (INS)—The house today laid on the table subject to call a bill providing for appointment of the state auditor by the legislature instead of by the governor. It was put on the table on a motion of Representative Harry Graves of Georgetown in order to speed its consideration in the house. It now may be called up on 4 hours' notice.

GOVERNOR PUTS OK ON RELIEF BOND MEASURE

Asks People Without Poll Receipts Be Allowed To Vote

AUSTIN, May 15. (AP)—Texas today restored itself into the good graces of the Reconstruction Finance Corporation in the matter of distribution of unemployment relief funds. The Legislature passed and Governor Miriam A. Ferguson approved a resolution submitting a \$20,000,000 statewide bond issue, proceeds of which would augment federal money in providing relief.

The bond issue will be submitted at a special election on August 26, when several other constitutional amendments will be acted on.

At the same election the question of authorizing 3.2 per cent beer would be passed on and selection of delegates to a state convention that would cast Texas' vote on the matter of repealing national prohibition made.

Governor Ferguson sent both houses a message suggesting passage of a bill that would allow otherwise qualified persons to vote in the August 26 election although they had not paid a poll tax. She said such legislation would "permit many good citizens to vote who otherwise would be denied that privilege."

Under Texas law one who does not pay a poll tax by February 1 cannot vote in any election during the year unless exempted from payment of a poll tax.

MEDICINAL LIQUOR LID OFF; BIG RISE IN DEMAND SEEN

WASHINGTON, D. C., May 15.—The pint-a-week limit on medicinal liquor is off.

Beginning today, physicians may prescribe as much as they think their patients need and they don't have to tell the government what the ailments are that require a whiskey treatment.

As a result, federal officials look for a sharp rise in medicinal liquor consumption. There is plenty on hand. Industrial alcohol bureau figures show 5,000,000 gallons on pre-prohibition whiskey in bonded warehouses and about 6,000,000 gallons of green stock aging in distilleries. Consumption last year was about 1,000,000 gallons.

Russell Dorward, of the Asa Jones ranch, was a business visitor in the city Monday.

Operetta Given Tuesday Evening Well Attended

The operetta, "Barbarossa of Barbary," a musical comedy, was presented in this city Tuesday evening at the High School Auditorium under the direction of Mrs. May Tiebout Wilson.

The opera story deals with Algerian Pirates, Barbarossa, a renegade Greek, has made himself ruler of the Algerian pirates. Barbarossa is doing fine until Commodore Decatur, of the United States Navy, goes to Algiers to inform Barbarossa that the United States Government will no longer pay tribute money into his fathomless pockets and that he must sign a treaty. From then on trouble begins and soon Barbarossa finds that Jim Crow, Decatur's servant, has won all his money and that his pirates refuse to divide their profits with him. A strong love scene runs throughout the opera and when finally the French Consul arrives and notifies Barbarossa that Algiers has been captured by the French and the only way he can escape, is to abdicate his throne and leave. This leaves the lovers to follow the dictates of their own hearts and all ends happily.

The cast of characters were played by the following: Barbarossa, K. C. Parker, Ingad, Ethiopian slave Duane Smith; Commodore Decatur, "Stump" Duke; Ferdinand, Captain of a captured Spanish Ship, L. M. Bace; Jim Crow, Decatur's servant, C. C. Cammack; Althea, Barbarossa's daughter, Miss Nadyne Woodlock; Isabella, a Spanish slave Miss Louise Noble; Mulia Ahmed, Bey of Morocco, Jason Morgan; Monsieur de Castelline, French consul, Lee Hardgrave. Ferguson Signs Legislation For 3.2 Beer Ballot

AUSTIN, May 11. (AP)—Governor Miriam A. Ferguson today signed legislation that will submit to a vote of the electorate on August 26 the question of legalizing beer and setting up regulation for its sale if authorized.

The qualified voters would decide if the Texas constitution should be amended to permit the manufacture and sale of beverages containing not more than 3.2 per cent of alcohol.

A regulatory bill provides for the licensing of manufacturers and retailers of beer. It also directs that political sub-divisions that were dry prior to acceptance of constitutional prohibition should remain in that status unless in a local option election the voters should sanction the sale of beer.

The Legislature also passed a bill setting up machinery for the state to express itself about repeal of the 18th amendment to the federal constitution. Election of delegates would be held on August 26, the same day the beer question is submitted to elect delegates to a state convention that would cast the state's vote on the national prohibition question.

STRATTON GETS \$25,000 VERDICT FROM RAILWAY

Jury Brought Decision In Late Friday Night

Shortly after 10 o'clock Friday night a jury in the 63rd District Court sitting in Brackettville returned a verdict in favor of Clarence Stratton in the damage suit against the T. & N. O. Railway. The jury fixed the damages at \$25,000.

The case opened Monday and arguments were made Friday. Judge Joseph Jones, counsel for the plaintiff, presented the only argument offered, speaking for 40 minutes. The defense did not present any argument.

The suit grew out of an accident which cost the lives of four young people, two of them being Miss Carrie Stratton and Joe Stratton, children of the plaintiff. The accident occurred in January when the car in which the victims were riding ran into a freight train on a track pressed into service during the rush shipments of spinach. The young people were returning to Brackettville from Eagle Pass.

House Passes Bank Measure

AUSTIN, May 13. (INS)—Under a bill passed by the Texas House today, banks would be permitted to use state warrants as security for deposits of state funds.

The law now requires that government bonds and other securities of this type be furnished.

An amendment was adopted requiring \$120 worth of warrants as security for \$100. The bill originally required only \$105 in warrants as security.

Another amendment adopted required an affidavit from an officer of the assigning bank swearing to the fact that the original payee received no less than the face value of the warrant.

Proponents of the bill are of the opinion that the measure, if it becomes law, would materially reduce the discount rate on state warrants.

Editor's note: The clipping below was handed to us by Marion Briggs, who is associated with Mrs. McPhee in the putting down of a test well near Dryden, and was taken from a recent edition of a Wichita, Kansas, paper. The answer to the article was written by Hon. A. E. Creigh Jr., county attorney of this city.

GIVE TEXAS BACK TO MEXICO

E. F. Jones, Wichita oil man, advanced an idea recently, which he says is the key to the whole oil situation. Mr. Jones' plan to stabilize the industry and bring about an increase in the price of crude oil would be to shut down on all production in Kansas and Oklahoma; give Texas back to Mexico and then enact a tariff on oil from the southern republic.

Do people often say things merely to attract attention to themselves, to be funny or with the idea of adding something constructive to the thought of the day? Mr. E. F. Jones a pseudo-oil man of Wichita, recently succeeded in getting his name in a leading Kansas newspaper by stating that the world's oil production problem would be solved by "closing the fields of Kansas and Oklahoma and giving Texas back to Mexico." The statement makes it evident that Mr. Jones owns no oil interest in Texas and, on the other hand, indicates that his own interest would be served by a later development of the mineral resources of Kansas and Oklahoma.

The truth is that the wealth to the nation and to the thousands of citizens of Texas by the vast oil fields and the development of them is a matter of such vital interest as to make such statements ludicrous.

Perhaps Mr. Jones does not know that last year the petroleum industry paid to the State of Texas in the form of taxes \$11,946,000.00; that in addition to this tax there was paid to the State through the medium of the gasoline tax \$32,208,756 used in the construction of modern highway systems. Further in addition to these tremendous items of revenue, there was paid by the oil industries in the form of taxes to city and county schools \$15,000,000. In short, the State of Texas derived a beneficial tax from this great State wealth toward the education and maintenance of the State and its improvement a total sum of \$59,154,756.00. As impressive as these figures may seem, the oil industry gave employment to 120,000 people in the State of Texas, and to 528,000 direct benefits for their support of industry. To the payment of payrolls, leases, as royalty to land owners, oil purchases, materials, supplies teaming, trucking, contract drilling water and electricity in the development of this mineral resource brought a total expenditure to the State during last year of \$639,500.00.

When one considers what the development of oil has meant to Texas, its people and the nation, it is difficult to understand the statement of Mr. Jones as making sense. Perhaps some of our oil people need the lesson of Villa and Carranza, but since Texas forms so great and valuable an asset, both to give respectability to the map of the United States and as a future empire of

natural wealth, those who have perspired in their labors of development and given the best years of their lives to produce this great natural wealth are surely entitled to as much consideration as that usually accorded to a Mennonite or an Osage of Kansas or Oklahoma.

The Livestock Situation

J. A. McNAUGHTON

LOS ANGELES, May 18, 1934—With the Federal government being called upon more and more to assist in financing livestock and agricultural producers, the public has reasons to be vitally interested in farm policies of the present administration. Probably the most important step so far taken by the Federal administration has been the measure calling for the consolidation of all governmental credit agencies.

Livestock loans are now being made direct to the producer, or individual, by the government. Until the formation of the Agricultural Credit Corporation, government loans were made indirectly through the medium of banks, loan companies and cooperative associations. As an example of the old order, Federal Farm Board money could be obtained directly by an individual, but only through the medium of a cooperative organization approved by the Farm Board officials.

A far-reaching decision has recently been made by officials of the Agricultural Credit Corporation, which may vitally affect the marketing of all farm products. Announcement is made that no wool on which either of these agencies have loaned money can hereafter be sold directly by the borrower in the country or F. O. B. shipping point, but must be consigned to a central point through a well established, financially responsible and Federally recognized commission house or cooperative marketing association.

Country sales of wool have been general in the past, with speculators, wool houses scattered about the country, buying at whatever price they had to pay, according to the information and trading ability of the seller. Such practice is ruinous to the wool market and prevents anything like stabilization of the price structure. On the other hand, when all sales are made on a central market, supply and demand establish values fair to all. Those who are financing sheepman thus have the assurance that every buyer is responsible and that the borrower is getting the full market value.

It is considered very possible that the government, as the nation's leading banker, will insist upon similar marketing practice in connection with other commodities as a means of stabilizing markets. Certainly, such practice would aid materially in stabilizing livestock markets.

Guests of Mr. and Mrs. J. C. Mitchell and daughter, Miss Annah, at their ranch home Sunday were Mr. and Mrs. Ray Caldwell and L. H. Lemons and family.

Trade among Friends

No matter what some folks say to the contrary, there certainly is a lot of sentiment in business. Friendship, for instance, makes more satisfactory sales than all the cleverness and argument in the world.

You like to trade at a certain store—not because its counters are arranged in a scientific way, but because the folks who serve you are always friendly and helpful.

Just that very thing—FRIENDLY SERVICE—is the power that draws people together into communities like this, where everybody can enjoy the many benefits of neighborly cooperation.

And FRIENDLY SERVICE is the sentimental reason why you find it very much to your advantage to trade with our advertisers—to buy where you feel at home, where your friends will see that you are well satisfied.

NOTICE OF PROPOSED AMENDMENT TO THE CONSTITUTION OF TEXAS

S. J. R. No. 32. BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 1-a of Article VIII of the Constitution of the State of Texas be amended so as to hereafter read as follows:

with the efficient conduct of those affairs by necessity lodged in the Nation and the State will prove most responsive to the will of the people, and result to reward their diligence and intelligence by greater economy and efficiency in their local government affairs, it hereby is ordained:

"(2) Any county having a population of sixty-two thousand (62,000) or more according to the then last Federal Census may adopt a County Home Rule Charter, to embrace those powers appropriate hereto, within the specific limitations hereinafter provided. It further is provided that the Legislature, by a favoring vote of two-thirds of the total membership of both the Senate and the House of Representatives, may authorize any county, having a population less than that above specified, to proceed hereunder for the adoption of a Charter; however, as a condition for such authorization, it is required that notice of the intent to seek Legislative authority hereunder must be published in one or more newspapers, to give general circulation in the county affected not less than once per week for four (4) consecutive weeks, and the first of such publications shall appear not less than thirty (30) days next prior to the time an Act making proposal hereunder may be introduced in the Legislature. No County Home Rule Charter may be adopted by any county save upon a favoring vote of the resident qualified electors of the affected county. In elections submitting to the voters a proposal to adopt a Charter (unless otherwise provided by a two-thirds vote of the total membership of each House of the Legislature) the votes cast by the qualified electors residing within the limits of all the incorporated cities and towns of the county shall be separately kept but collectively counted and the votes of the qualified electors of the county who do not reside within the limits of any incorporated city or town likewise shall be separately counted, and unless there be a favoring majority of the votes cast within and a favoring majority of the votes cast without such collective cities and towns, the Charter shall not be adopted. It is expressly forbidden that any such Charter may in any way affect the operation of the General Laws of the State relating to the judicial, tax, fiscal, educational, police, highway and health systems, or any other department of the State's superior government. Nothing herein contained shall be deemed to authorize the adoption of a Charter provision inimical to or inconsistent with the sovereignty and established public policies of this State, and no provision having such vice shall have validity as against the State. No Charter provision may operate to impair the exemption of homesteads as established by this constitution and the Statutes relating thereto."

"(3) a. A Charter hereunder may provide: the continuance of a County Commissioners' Court, as now constituted, to serve as the governing body of a county to operate hereunder; or, may provide for a governing body otherwise constituted, which shall be elective, and service therein shall be upon such qualifications, for such terms, under such plan of representation, and upon such conditions of tenure and compensation as may be fixed by any such Charter. The terms for service in such governing body may exceed two (2) years, but shall not exceed six (6) years. In any event, in addition to the powers and duties provided by any such Charter, such governing body shall exercise all powers, and discharge all duties which, in the absence of the provisions hereof, would devolve by law on County Commissioners and County Commissioners' Courts. Further, any such Charter may provide for the organization, reorganization, establishment and administration of the government of the county, including the control and regulation of the performance of and the compensation for all duties required in the conduct of the county affairs, subject to the limitations herein provided."

"b. A Charter hereunder may provide that Judges of County Courts (including that County Court designated in this Constitution), and Justices of the Peace be compensated upon a salary basis in lieu of fees. The jurisdiction of the County Court designated in this Constitution, and the duties of the Judges thereof, may be confined to that general jurisdiction of a probate court which elsewhere is defined in this Constitution: The office of Justice of the Peace may be made either elective or appointive. Other than as herein provided, no such Charter shall provide for altering the jurisdiction or procedure of any Court. The duties of District Attorney and or County Attorney may be confined to representing the State in civil cases to which the State is party and to enforcement of the State's Penal Code, and the compensation of said attorneys may be fixed on a salary basis in lieu of fees."

"c. Save as hereinabove and hereinafter otherwise provided, such Charters, within the limits expressed therein, may invest the governing body to be established for any county electing to operate hereunder with the power to create, consolidate or abolish any office or department, whether created by other provisions of the Constitutions or by statute, define the duties thereof, fix the compensation for service therein, make the same elective or appointive and prescribe the time, qualifications and conditions for tenures in any such office; save, that no such Charter other than as hereinbefore authorized, shall provide to regulate the status, service, duties or compensation of members of the Legislature, Judges of the Courts, Districts Attorneys, County Attorneys, or any office whatever by the law of the State required to be filled by an election embracing more than one county. Excepting herefrom nominations, elections or appointments to offices, the terms whereof may not have expired prior to the adoption of this Amendment to the Constitution, at such time as a Charter provision adopted hereunder may be in effect (save as to those offices which must continue to be elective, as herein elsewhere specified), all terms of county officers and all contracts for the giving of service by deputies under such officers, may be subject to termination by the administrative body of the county, under an adopted Charter so providing, and there shall be no liability by reason thereof."

"d. Any county electing to operate hereunder shall have the power, by Charter provision, to levy, assess and collect taxes, and to fix the maximum rate for ad valorem taxes to be levied for specific purposes, in accordance with the Constitution and laws of this State, provided, however, that the limit of the aggregate taxes which may be levied, assessed and collected hereunder shall not exceed the limit or total fixed, or hereafter to be fixed, by this Constitution to control counties, and the annual assessment upon property, both real, personal and mixed, shall be a first superior and prior lien thereon."

"e. In addition to the powers herein provided, and in addition to powers included in County Home Rule Charters, any county may provide by a majority vote of the qualified electors of said county, amend its Charter to include other powers, functions, duties and rights which now or hereafter may be provided by this Constitution and the statutes of the State for counties."

"(4). Any county operating hereunder shall have the power to borrow money for all purposes lawful under its Charter, to include the refunding of a lawful debt, in a manner conforming to the General Laws of the State, and may issue therefor its obligations. Such obligations, other than those to refund a lawful debt, shall not be valid unless authorized by a majority of all votes cast by those resident qualified voters of the area affected by the taxes required to retire such obligations, who may vote thereon. In cases of county obligations, maturing after a period of five (5) years, the same shall be issued to mature serially, fixing the first maturity of principal at a time not to exceed two (2) years next after the date of the issuance of such obligations. Such obligations may pledge the full faith and credit of the county; but in no event shall the aggregate obligations so issued, in principal amount outstanding at any one time, exceed the then existing Constitutional limits for such obligations and such indebtedness and its supporting tax shall constitute a first and superior lien upon the property taxable in such county. No obligation issued hereunder shall be valid unless prior to the time of the issuance thereof there be levied a tax sufficient to retire the same as it matures, which tax shall not exceed the then existing Constitutional limits."

"(5). Such Charters may authorize the governing body of a county operating hereunder to prescribe the schedule of fees to be charged by the officers of the county for specified service, to be in lieu of the schedule for such fees prescribed by the General Laws of the State; and, to appropriate such fees to such funds as the Charter may prescribe; provided, however, no fee for a specified service shall exceed in amount the fee fixed by General Law for that same service. Such Charters as to all judicial officers, other than District Judges, may prescribe the qualifications for services, provided the standards therefor be not lower than those fixed by the General Laws of the State."

"(6) a. Subject to the express limitations upon the exercise of the powers by this subdivision to be authorized, such Charters may provide (or omit to provide) that the governmental and- or proprietary functions of any city, town, district or other defined political subdivision (which is a governmental agency and embraced within the boundaries of the county) be transferred, either as to some or all of the functions thereof, and yielded to the control of the administrative body of the county. No such transfer or yielding of functions may be effected, unless the proposal is submitted to a vote of the people, and, unless otherwise pro-

vided by a two-thirds vote of the total membership of each House of the Legislature, such a proposal shall be submitted as a separate issue, and the vote within and without any such city, town, district, or other defined governmental entity, shall be separately cast and counted, and unless two-thirds of the qualified votes cast within the yielding defined governmental entity, and a majority of the qualified votes cast in the remainder of the county, favor the proposed merger, it shall not be effected. In case of the mergers hereby authorized, without express Charter provision therefor, in so far as may be required to make effective the object of the proposed merger, the county shall succeed to all the appropriate lawful powers, duties, rights, procedures, restrictions and limitations which prior to the merger were reposed in, or imposed upon, the yielding governmental agency. Particularly, it is provided that the power to create funded indebtedness and to levy taxes in support thereof may be exercised only by such procedures, and within such limits, as now are, or hereafter may be, provided by law to control such appropriate other governmental agencies were they to be independently administered. Such mergers may be effected under proposed contracts between the county and any such yielding governmental agency, to be approved at an election as hereinbefore provided for. In order to increase governmental efficiency and effect economy the county may contract with the principal city of the county to perform one or more of its functions, provided such contract shall not be valid for more than two (2) years."

"b. In case of the partial or complete merger of the government of a city operating under a Home Rule Charter, with the government of a county operating hereunder, those city Charter provisions affected thereby shall cease to control, and the county Charter provisions shall control."

"c. When any embraced incorporated city or town elects to merge its governmental functions with those of the county under the provisions hereof, such Charter may provide for defining or redefining the boundaries of such cities and towns, provided, however, that in defining or redefining the boundaries of such cities and towns, such boundaries may be extended only to include those areas contiguous to such cities as are urban in character; and as to such cities or towns and for the benefit thereof of the county, in addition to the primary city and county tax herein authorized and any other lawful district tax, may levy and collect taxes upon the property taxable within such city or town as defined or redefined, within the limits authorized by Sections 4 and 5 of Article XI of this Constitution, (or any Amendment thereof) for incorporated cities according to the population, provided that no tax greater than that existing at the time of such merger or for any added purpose shall be imposed upon any such city or town unless authorized by a majority of all votes cast by the resident qualified voters of such city or town."

"d. Areas urban in character though not incorporated, under appropriate Charter provision may be defined as such by the governing body of the county, provided, however, that no portion of the county area unless it has sufficient population to entitle it to incorporate under the then existing laws of the State; and no such urban area, when created, shall be vested with any taxing or bonding power which it would not possess if it were operating as a separate incorporated unit under the then existing Constitutional and Statutory provisions of this State; and provided further that the governing body of the county for the government of such areas shall have and exercise all powers and authority granted by law to the governing bodies of similar areas when separately incorporated as a city or town, and such areas shall be subject to additional taxation within the same Constitutional limits as control taxation for a city or a town of like population. Likewise such Charter may provide for the governing board of the county subject to existing Constitutional and statutory provisions to define, create and administer districts, and have and exercise the powers and authority granted by the Constitution and laws relative to the same."

"(7). No provision of this Constitution inconsistent with the provisions of this Section 2, of Article IX, shall be held to control the provisions of a Charter adopted hereunder, and conforming herewith, Charters adopted hereunder shall make appropriate provision for the abandonment, revocation, and amendment thereof, subject only to the requirements that there must be a favoring majority of the vote cast upon such a proposal, by the qualified resident electors of the county; and no Charter may forbid amendments thereof for a time greater than two (2) years. The provisions hereof shall be self-executing, subject only to the duty of

the Legislature to pass all laws (consistent herewith) which may be necessary to carry out the intent and purposes hereof. Further, the Legislature shall prescribe a procedure for submitting to decisions, by a majority vote of the electors voting thereon, proposed alternate and elective Charter provisions."

Section 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors of the State at an election to be held throughout the State on the fourth Saturday in August, 1933, at which election all ballots shall have printed thereon the following:

"For the Amendment to Article IX of the Constitution of Texas, adding Section 3, providing authority for the adoption of a Home Rule Charter by the voters of counties having a population of sixty-two thousand (62,000) or more, to effect more sufficient and economical government within such counties, and to authorize merger of separate governmental agencies within such counties as may from time to time be authorized by vote of the people thereon."

"Against the Amendment to Article IX of the Constitution of Texas, adding Section 3, providing authority for the adoption of a Home Rule Charter by the voters in counties having a population of sixty-two thousand (62,000) or more, to effect more efficient and economical government within such counties, and to authorize merger of separate governmental agencies within such counties as may from time to time be authorized by vote of the people thereon."

Each voter shall scratch out one of the above listed clauses on his ballot, leaving unscratched the particular clause which expresses his vote on the proposed Amendment to which it relates."

Section 3. May 9, 1933

A great thing has occurred amongst us. We have made a complete turn-around, and at last America's face is toward the future.

Three years---1929 to 1932---we Americans looked backward. All our old financial and political machinery was geared to pull us out of the depression by the same door through which we entered. We thought it simply a case of going back the way we came. It failed. We now realize that the way out is forward---through it.

Thanks for that belongs to President Roosevelt. Inauguration Day he turned the Ship of State around. Having observed the failure of sincere efforts to haul us back the way we came, he designed a new method---new political and financial machinery---to pull us out the way we are going---forward. He is clearing international obstacles out of the way; he does not stand in awe of tariffs. The people begin to feel that he does not take advice from the "interests"; that he has courage and loyalty to work for one supreme interest only---the welfare of the American people. That is a big achievement for two months in office.

And now we all look to what is coming; we grow less and less concerned with what is behind. We are looking for a hand-hold on the haul rope. Every man wants to do what he can, and all he can.

The best thing I can do for the Country is to create industry by building good motor cars. If I knew anything better to do, I would do it. Industry must be my contribution. Motor cars must face ahead to the future, like everything else. They are so much a part of the Nation's daily life that if they lag behind they hold the Country back.
