## Good Rain-Fall Over County Encouraging To Stockmen

### Showers Bring Relief To Parched Range In This County

Stockmen in this locality are rejoicing this week over a slow, steady downpour of rain which began falling at about 4 o'clock Wednesday morning and continued at intervals until late afternoon, soaking the parched ranges and bringing pleasant relief from the hot, sultry weather of the past few weeks.

Reports indicate that rain fell as far north as the south plains of the panhandle. Big Lake, McCamey and Pecos received heavy rains earlier in the week. Rain was reported Wednesday at Langtry but did not extend very far south of that place.

Weather reports forecast a continuation of showers over the western portion of the state during the next few days.

Temperatures all over the country this summer have been above normal while rainfall has been less than normal in most of the states east of the Rocky Mountains. Oklahoma, Texas and Kansas have been hardest hit by lack of rain according to press reports.

A total of 38 inch of rainfall was recorded in the city during Wednesday.

## TOM F. HUNTER IS CANDIDATE FOR GOVERNOR

### Not Trying To Pick His Opponents He Says In Corpus

CORPUS CHRISTI, July 17.—Tom F. Hunter of Wichita Falls will be a candidate for election to the position of governor of Texas in the 1934 Democratic primaries, he announced here last night.

"I have been asked a number of times if I would be a candidate," he said, "and I will be."

"Many people have asked me what I would do if certain men ran for the office, but I have replied that I will not attempt to select my opposition. I will run a good, clean and fair race."

Hunter and his wife and baby girl are in Corpus Christi for a two day visit.

## Two Mail Pouches Stolen At Uvalde

UVALDE, Tex., July 17.—Two locked pouches containing a few letters were taken from the Southern Pacific Railroad baggage room early today but police believed nothing of value was lost. An investigation was started.

### NEWSPAPER CONSOLIDATION

NEW ORLEANS, July 17. (AP)—The New Orleans Times-Picayune Publishing Company today purchased the New Orleans States, evening newspaper owned by the estate of the late Robert Ewing.

## A BIT OF PHILOSOPHY—By E. V. WHITE, DEAN Texas State College For Women (CIA)

Many gaze into the mirror in the search for beauty, and a few find it.

Better a poor man's riches than a rich man's poverty.

He cheats himself who sells his happiness at any price.

## REGULAR TERM OF DISTRICT COURT ENDED

### Judge Sutton Of Marfa Disposes Of Three Civil Cases

The Fall term of District Court, which recessed last Wednesday, reconvened on Monday with Judge C. R. Slatton on the bench, as Judge Montague was disqualified to hear two of the cases that came up for trial.

Only one day was required to dispose of the docket that had not been tried or continued, three cases being settled by the middle of the afternoon.

In the divorce case of Johnnie Whistler vs Mrs. Guida Whistler, which was originally set for Tuesday, a jury was waived and after hearing the petition of Mrs. Whistler, Judge Sutton granted her petition and awarded her the two daughters and infant son, and the oldest boy, John Lewis, was given to the father.

The civil case of H. C. Goldwire vs Lee McCue, suit on covenant in deed, was amicably settled before the Court as well as the case of Lee McCue vs H. C. Goldwire, suit for damage of grazing cattle.

The following were appointed as Jury Commissioners: Jim Kerr, R. E. Corder and W. J. Ferguson.

## Texas To Retire 4,190,208 Acres Of Cotton Land

COLLEGE STATION, Texas, July 17.—Texas cotton farmers have offered a total of 4,190,208 acres of land for retirement in the national cotton acreage reduction campaign, it was shown in tabulation made at Texas extension service headquarters here late Friday afternoon. The tabulation included reports from 219 counties. At this time reports were lacking from only a small number of counties, virtually all of which are estimated to have less than 1,000 acres planted in cotton.

Extension service officials again are issuing warnings that farmers should not plow up or otherwise destroy their cotton offered for retirement until authorized to do so by proper government officials, even though the Secretary of Agriculture has put the plan into effect.

They say that it will take some time for the thousands of contracts to be checked and accepted officially by the Government. According to telegrams received at extension headquarters from Washington more than 9,000,000 acres, or approximately 3,500,000 bales have been offered for retirement in the campaign by cotton growers in sixteen States.

## Financial Holiday Is Extended By Banking Official

AUSTIN, July 19. (AP)—E. C. Brand, State banking commissioner, today ordered extended until October 1 the financial moratorium authorized last Spring for loan and brokerage corporations dealing in bonds and debentures.

### Judge Sutton Here

Judge C. R. Sutton, of Marfa, who is District Judge of the 83rd Judicial District, presided over District Court here Monday, Judge Montague being disqualified in two cases that came before the court that day.

## FORT STOCKTON DISTRICT MEET HEADQUARTERS

### Neighboring City Chosen Permanent Site For Big Territory

Fort Stockton becomes the permanent location of the district headquarters for all scholastic meets if the present plans of the University Interscholastic League materialize.

On account of its favorable location, this city has been selected to be the permanent headquarters of a district comprising Pecos, Reeves, Culberson, Jeff Davis, Presidio, Brewster, Ward, Crockett and Terrell Counties. It will be the largest district in the State.

All one-act play, typewriter, basketball, literary, track and field contests will be held to decide the winners who will enter the state meet at Austin each spring. It will mean the assembly of hundreds of school contestants each year, and keen competition.

One of the main reasons for selection was the splendid equipment and gymnasium facilities of this school. Within the past two years a new high school building with adequate auditorium and gymnasium facilities has been completed. Two cement tennis courts have just been finished on the campus, and a steel grandstand seating five hundred people has been erected on the athletic field. A golf course with plenty of water hazards and a natural swimming hole, both one block from the center of town, add to the attractiveness of the location.

The swimming hole with its new bath house and its banks terraced to form a large amphitheatre is an ideal place for aquatic meets. Alpine has formerly been the site for this district, but due to its altitude was considered unfavorable for other cities, and the district has also been enlarged with this city the natural center.—Fort Stockton Pioneer.

## Adopting Blanket Code Would Make 1,750,000 Jobs

NEW YORK, July 17 (AP)—Adoption of a blanket code for minimum hours of labor in industry, as proposed by Administrator Hugh S. Johnson under the national recovery act, would swell the American labor market by nearly 1,750,000 new jobs, the national industrial board estimated Saturday.

Basing its findings on May employment indexes, the board estimated that 720,000 more workers would be required in manufacturing with a thirty-five hour week and another 900,000 in the nonmanufacturing fields of mining, trade and utilities under a forty-hour week.

These figures are conservatively estimated, said Dr. Roland P. Falkner, chief statistician, pointing out that maintenance of the employment trend through June would add about 10 per cent to May averages.

"If such a general code is adopted," he said, "and industry maintained at a relative speed, employment would be increased about 13 per cent over present levels to a point about 70 per cent of the 1929 level."

"Our figures for average weekly working hours in manufacturing show an average of about two hours a week from the February average of 35.4 hours."

Charles Robertson came in Wednesday morning from San Antonio for several days visit here with relatives and friends.

Mrs. Mat Turner and daughter, Winifred, of Alpine, are visiting their son and brother, Richard Turner and family.

## JAMES CORNELL AND WIFE SUE ON TAX RAISE

### Angelo Couple Opposing Move to Collect \$86,624 More

WASHINGTON, July 17.—Judge James Cornell, attorney with offices in the Western Reserve Building, San Angelo, and a former district judge in West Texas, joined by Mrs. Cornell, has filed with the board of tax appeals a protest against a tax commissioner's ruling for collection of \$43,312.87 added income from each. Error by the commissioner in raising the reported incomes from \$76,220.95 each to \$220,677.75 is claimed by the San Angelenos through their attorneys, W. A. Keeling Austin; L. W. Elliot, Sonora, and Judge Cornell.

The petitioners allege that the \$400,000 paid by the Douglas Oil Company (or W. R. Whiteside) for certain lands and mineral interests did not represent taxable income in the full amount disputing the commissioner's assertion that "the profits on the Smith-Douglas-Morse deal were \$400,000, instead of \$161,916.62 as reported by the petitioners." Other items including the loss from the sale of the Spanish Court Apartments, and a difference between the reported and computed income from the partnership Cornell and Hunt, are involved in the voluminous petition.

On a joint community income of \$441,355.51, computed by the revenue bureau, each petitioner was assessed \$46,569.75, which, less credit for payments of \$3,196.88, leaves \$43,312.87, the alleged deficiency owed by each petitioner.

Associated in the mill will be James McDowell, 36 years in the textile business. Some of this time has been spent in Australia, Scotland and Russia. Jones said the proposed mohair mill expects to make women's fine dress goods, and a general line of mohair and woolen goods.

The money derived from the sale of stock, if the stock issue plan is carried out, would be used to equip the mill with machinery, and start merchandising its products. No one has been asked to buy stock in the mill yet, Jones said.

New Braunfels now has two textile mills, the New Braunfels Textile Mill, and the Texas Gauze mill. Though located on the banks of the Colorado, neither use water power.

## Real Is Appointed Member Of Texas Relief Commission

AUSTIN, July 18. (AP)—Lawrence Westbrook, director of the Texas rehabilitation and relief commission, today announced that Robert Real of Kerrville had been appointed to the commission of seven members.

Real was chosen by Coke Stevenson, speaker of the house, to take the place given to L. A. Schreiner of Kerrville, who declined to serve because of business pressure.

The law creating the commission provided for appointment of three members by the governor, two by the lieutenant governor and two by the speaker.

Financial Holiday 18pt gle yyi Die

## Oil Men Promise Co-operation In Roosevelt's Plan

WASHINGTON, July 17. (AP)—Co-operation of independent oil producers with the administration's efforts to choke the flow of illegal crude oil was pledged today in informal statements by officials of Independent Petroleum Producers Association.

Regulations issued yesterday by Secretary Ickes to prevent oil produced in violation of state conservation laws from moving to consumption channels is looked on as "most certain to bring early stabilization to the industry."

### APPOINTMENT MADE

AUSTIN, July 17. (AP)—Governor Ferguson today appointed T. H. McGregor, a member of the House of Representatives, to represent her at the conference at Washington when the oil industry will present its code for operation under the national recovery act.

E. H. McCright left Tuesday on a business trip to Fort Worth.

## Bessie Sharp On Trial At Fort Stockton This Week

### NEW BRAUNFELS MILL PROJECT PAYS ITS STOCK

### Wool Organization Plans To Branch Still Further

SAN ANGELO, July 18. —The New Braunfels mohair and woolen mill project which was endorsed by the Texas Angora Goat Raisers Association last year, has returned to the goatmen of the southwest any sums of money they invested in stock, according to Bailey Jones, secretary of the Chamber of Commerce at New Braunfels. However under a new plan other stock may be offered the public, said Mr. Jones. The mill has acquired the property of the Landa Oil Mill and its ten acres of ground and \$100,000 worth of stock may be issued. Jones said the property of the proposed mill had been rated at \$167,000 but was bought at \$25,000 and put in at that figure when the New Braunfels Mohair and Woolen Mill was incorporated for \$104,000. "There will be no water in the stock," said Mr. Jones.

Jones said he had been visited by Representatives of eastern banking houses who desire to finance the plan, with the desire he believes of getting control of mill and stopping its operations before a wheel is turned.

Associated in the mill will be James McDowell, 36 years in the textile business. Some of this time has been spent in Australia, Scotland and Russia. Jones said the proposed mohair mill expects to make women's fine dress goods, and a general line of mohair and woolen goods.

The money derived from the sale of stock, if the stock issue plan is carried out, would be used to equip the mill with machinery, and start merchandising its products. No one has been asked to buy stock in the mill yet, Jones said.

New Braunfels now has two textile mills, the New Braunfels Textile Mill, and the Texas Gauze mill. Though located on the banks of the Colorado, neither use water power.

Opinion among goatmen is divided as to the worth of the mill movement. Some think it is commendable; others say it would not be able to use all the 20 or 25 different grades of mohair, that a mill using all grades would of necessity be an expensive investment, others regard the bringing of the mill to the country as the first step of the movement to disassociate West Texas from New England dominance over its wool and mohair.

The Sheep and Goat Raisers Association of Texas made no endorsement of the mill plan.

Witnesses returning from the trial state that Mrs. Sharp's behavior has changed and that now she is a cool, calm and composed person and does not have that staring look out of her eyes. They state that she does not now smoke cigarettes incessantly as she did at her trial in Del Rio.

The defense indicated it would seek to show that narcotics addiction in Mrs. Sharp's case aggravated a tendency toward insanity.

The state failed to introduce as evidence a purported confession by the defendant, the defense objecting to its introduction.

## \$20,000 For Texas Geologic Survey Will Be Alloted

### WASHINGTON, July 18. —The Geological Survey today announced the allotment by States of \$500,000 received by it from public works fund for rehabilitation of stream included:

Oklahoma \$2,000, and Texas \$20,000.

### ATTORNEY FOR R. F. C.

MCKINNEY, July 17. (AP)—A. M. Wolford, former county judge of Collin County, was advised by Congressman Sam Rayburn in Washington today that he had been named attorney for the Reconstruction Finance Corporation.

### Case Expected To Go To Jury Sometime Today Is Report

With the completion of the jury late Monday afternoon the poison murder trial of Mrs. Bessie Sharp got under way in Fort Stockton this week. Tuesday morning witnesses were called and through out the week both state and defense witnesses have been on the stand testifying as to what they know or do

Word was received from Fort Stockton late Thursday evening, as we are going to Press, that the Sharp Murder Case went to the jury that afternoon without any arguments by the attorneys. Agreement was made by the attorneys that the testimony submitted by the Physicians would be sufficient evidence for the jurors.

not know in regard to the facts in the case.

Among the witnesses on the stand Wednesday were Sheriff Lee Cook of this county, who testified that Mrs. Sharp admitted giving poison to her husband, W. Telefus Sharp. Mrs. A. J. Ivy, mother of the defendant was also placed on the stand and told how her daughter had been ill from infancy and had undergone six major operations. She said her daughter became addicted to the use of narcotics.

Mrs. Harry Sharp, mother of Telefus, testified as to the youthful marriage, when both were 17, and also testified that he was ill three times within a week and died in agony May 3, 1931 in her home in this city.

It was the purpose of the State as well as the Defense to complete the taking of testimony in the case by late Thursday afternoon and to start arguments in the case Friday, expecting it to reach the jury that day. Whether this was done the Times was unable to learn as it went to press.

Witnesses returning from the trial state that Mrs. Sharp's behavior has changed and that now she is a cool, calm and composed person and does not have that staring look out of her eyes. They state that she does not now smoke cigarettes incessantly as she did at her trial in Del Rio.

The defense indicated it would seek to show that narcotics addiction in Mrs. Sharp's case aggravated a tendency toward insanity.

The state failed to introduce as evidence a purported confession by the defendant, the defense objecting to its introduction.

## H. D. JOHNSON ON HONOR ROLL AT UNIVERSITY

### Continues High Scholastic Honors In Work At University

Austin, Texas, July 20.—A total of 530 students comprise the honor roll of the College of Arts and Sciences at The University of Texas for the spring semester, according to Dean H. T. Parlin. In compiling this honor roll, designed to commend officially the highest one-tenth of the student body, consideration was taken of both the quantity and quality of the work done by each of the 4,136 students in the College of Arts and Sciences.

H. D. Johnson, Jr., son of Mrs. H. D. Johnson of this city was among the students who made this honor roll. While a high school student here H. D. carried off many honors and made the highest grade of any student in the high school during the four years he attended.

His many friends in this city are proud of him and are glad to know that he is keeping up his scholastic honors.

The Big Parade

The big parade continues, a constant stream of human driftwood, going East-- going West, in a never ending procession. Cheerful and unconcerned some of them, seemingly, others pitifully ragged and forlorn.

Freight trains passing through Sanderson still carry their quota of derelicts-- fifty to a hundred on every train. Victims of the depression some of them no doubt.

The country's floating population has not materially diminished in numbers as yet, and probably will not for many months to come.

Why Bother?

Why bother about the other fellow? If he is having a tough time of it in business and his personal affairs are out of joint, isn't that his concern, not mine? If he is flat on his back in the hospital, why should I visit him?

Maybe this isn't the answer, but it comes to mind. Some Hindu, whose name has long been forgotten first stated it. Generations have repeated it so often that it has taken its place among the proverbs of the East. It is: "Help thy brother's boat across and lo! thine own has reached the shore."

Be less ashamed to confess thy ignorance than, by holding a foolish argument, to betray it.--Eliz. Joceline.

We are informed that the farmers of the U. S. A. are refinancing. We are going to consult a good farmer and learn how he does it so we may go and do likewise.

The bachelor comforts himself with the thought that disappointment in love has one consolation-- it may have saved him a greater disappointment in marriage.

Many people know through bitter experience how easy it is to get into debt and how difficult it is to get out of it again. Pay as you go is a good habit to get into; that is, if you can.

It is said that members of the Senate consumed 500 aspirin tablets at the expense of the taxpayers during the past year. But just think how many aspirin tablets the taxpayers had to consume because of the Senate.

"Every production of genius must be the production of enthusiasm."--Disraeli.

ECONOMIC HIGHLIGHTS

Happenings That Affect the Dinner Pails, Dividend Checks and Tax Bills of Every Individual. National and International Problems Inseparable From Local Welfare.

The Boston News Bureau recently said that during the past three months there has occurred the fastest recovery in general business this country has ever witnessed. Most impressive has been the improvement among manufacturing industries, with important advances being shared by the agricultural groups.

Here are some Department of Commerce reports on a recent typical week:

Business index--Advanced sharply to highest point since October, 1930.

Steel--Ingot production mounting with industry passing the 50 per cent of capacity production point.

Commodity prices--Gained 5 of a point, to reach 64, highest level in more than a year.

Car loadings--Gained more than 13 per cent, with increase in demonstrated in all commodity groups except livestock, and in all regions except Central West.

Soft Coal--Production higher and price rise anticipated.

Lumber--Output still rising, and orders increasing.

Automobiles--Production reached peak for the year.

Bank debits--Check payments, indicating volume of business transacted, increased and above a year ago.

Wheat and cotton values increased close to a billion dollars recently. Dollar wheat, dream of the last few years, was reached because of weather that literally burned wheat in the fields in various important producing regions.

Spring wheat crop now is forecast at 175,000,000 bushels. Cotton crop is more difficult to estimate; present and future supply is roughly placed at twenty to twenty-one million bales.

Important indicator of conditions in general is electric power production. For several months it has shown consistent improvement.

During May there was a 4 per cent rise over April, whereas the normal change is about 2 per cent drop.

Steel plants have also shown themselves immune this year to the usual seasonal slump, and July started with no indications of a let-down. Only moderate slackening is forecast for the automobile industry-- sales touched the 1,000,000 mark for the first six months of the year, exceeding the most sanguine hopes of producers. Not since 1930 has there been a better half-year showing.

Another major industry which is feeling the stimulus of recovery is shoes. Output has been consistently ahead of last year, and it is believed that May production reached a record for recent months.

Reorganization of the railroads will await exploration of possibilities for operating economies. This is the attitude of Joseph Eastman, Federal Co-ordinator. He has indicated a score of fields where reductions may be obtained.

Examples: Joint use of terminals; unnecessary passenger or freight service; waste in repair expense; unduly low charges for warehousing and similar services; waste in use of equipment by pooling arrangements; etc.

Many of the projected economies have been hitherto impossible because of law and regulatory practices.

So far this year railroad traffic has improved. On several important roads business is 30 to 40 per cent ahead of last year. The railroad equipment industry, completely in the doldrums for years, feels optimistic.

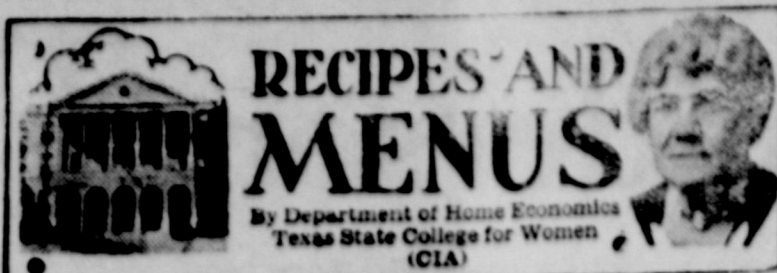

All businesses have been watching the operation of the National Recovery Administration with vast interest. No government bureau has ever had such dominance over trade practices, wages, hours of work, working conditions, production, etc.

The textile industry was the first to present a code for consideration; it has been worked out and approved in rapid time. Now dozen of other important industries are preparing codes. Among them are: Oil, construction, lumber, automobiles, tobacco, motor equipment, hosiery, hats, wood workers, dairy products, ceramics, retail dry goods, wholesale grocers, and so on.

Higher wages, shorter working hours with more workers and higher prices, principal goals of the measure, will result.

This price question has created some trouble in another bureau--that of Agriculture. Recent advances in wheat prices, plus the coming processing tax on flour, caused a group of midwestern bakers to announce an advance of 3 cents a loaf in the price of bread.

Secretary Wallace at once said that the increased cost to the baker could not be more than 1 1-3 cents a loaf, pointed out that the anti-trust laws are still in effect, intimating that prosecution would be the result of unjustified price boost.

RECIPES AND MENUS

By Department of Home Economics Texas State College for Women (CIA)

Attractiveness of the table plays an important part in staging an effective meal. Choose an exceptionally appetizing dish and make this your center of interest.

If it lacks color it may be garnished appropriately, and this will bring out the color scheme more effectively. Some of the garnishes which are often used are paprika, cloves, parsley, cherries, and mint. Cheese and lemon may also be used to advantage. Two aims may be accomplished by using garnishes: First, they may be used for flavor; and second, for decoration. The following menus show how much more attractive and appetizing a meal may be made by introduction of a little color:

Breakfast: Cantaloupe, cereal, sugar, scrambled eggs, whole wheat toast, jam, coffee or milk.

Luncheon: Split peas en casserole with paprika, red salmon with lemon, wafers, sliced tomatoes, pickles, watercress salad, lettuce, iced tea with mint.

Dinner: Consomme, saltines, broiled steak, gravy, potato apples, fresh corn, celery curls, Parker house rolls ice tea, cantaloupe with vanilla ice cream.

Breakfast: Chilled tomato juice, oatmeal, cream, waffles, bacon, syrup, coffee or milk. Luncheon: Asparagus pisa, cheese string beans, corn bread, congealed pear salad, lettuce, ice tea. Dinner: Fried chicken with parsley, creamed cauliflower, gravy, corn bread sticks, spinach de luxe, fresh peach salad, lettuce, tea or coffee, orange ice.

POTATO APPLES: 2 T butter, 1-3 c grated cheese, 1/2 tsp. salt, 2 c hot rice potatoes, pinch nutmeg, little cayenne, 2 T heavy cream, 2 egg yolk. Mix the ingredients together and whip until light. Shape in the form of small apples, roll in flour, egg, and bread crumbs. Fry in deep fat at 385 F. and drain on an absorbent paper. Insert cloves at the stems and blossom ends.

ASPARAGUS PISA: Boil asparagus in salted water, drain thoroughly. Serve on buttered toast and sprinkle generously with grated cheese. If the heat of the vegetables does not melt the cheese, put it under the flame for a minute.

SPINACH DE LUXE: 3 lb spinach, 4 strips bacon, 1-3 c butter or margarine, 3 tsp. salt, 1/4 tsp. pepper. Dice the bacon fine and brown lightly in the bottom of a large heavy kettle. Then add the spinach, which has been cleaned thoroughly, drained of water, and chopped fine. Add seasonings and butter. Cover and cook over a low heat until the spinach is tender. Any excess liquid may be removed and used for soup or gravy or may be served with the spinach.

SPLIT PEAS EN CASSEROLE: Soak overnight in cold water 1 pt. split peas, 1/4 tsp. baking soda. Cook slowly 2 hours, then drain. Mix together 1/2 c cooked rice, 4 finely chopped onions. Add salt, pepper and paprika to taste. Thicken with 1 T flour to 2 T water. Place in individual casseroles and bake in a moderate oven 375 F. for about 45 minutes.

Mr. and Mrs. Fred Yeates and children, Mr. and Mrs. Frank Robertson and children, Miss Mary Sloan and Mr. Raymond Yeates enjoyed a picnic and swim at Dry Valley Sunday afternoon.

J. E. Landers and son, "Pinkney" were Fort Stockton business visitors Sunday.

Ray Caldwell left Wednesday for points in California where he will visit relatives and friends.

Roy Barksdale was a Del Rio business visitor Monday and Tuesday.

For Sale-- A six room home, completely furnished. Mrs. Helen Daniels.

Miss Kathleen Sullivan left last Sunday for Austin where she will attend the second summer term of the University.

Mrs. E. B. Litton and children returned Tuesday from a visit in Tennessee with relatives.

Miss Mary Sloan returned Sunday to her home in Dry Valley after several days visit here with Mrs. Fred Yeates.

ON TEXAS FARMS

By W. H. DARROW Extension Service Editor

This column has been forced from its chronicle of simple yet important farm news to adopt the "cotton standard." The cotton reduction campaign has created an emergency about which a few things ought to be said.

It's the future that counts. By the time this is read the campaign will probably be history. The cash cotton rentals will probably not have arrived, but the problem of what to do with retired acres will be staring every cotton farmer in the face.

Some farmers will likely meet it by going fishing. Others will vainly try to plant this summer or fall every kind of cash crop they can think of. The majority, we hope, will take another look at the contract they signed and think hard about ways of making extra money out of those extra acres without violating their agreements.

Boiled to its essence, the cotton contract forces the signer to do something toward living at home, or toward enriching his land, or toward stopping soil erosion.

What can a farmer do with these extra acres? Well, he can sow cowpeas, season permitting, and have some good cow and hog feed, and perhaps some food for his family. If he gets a rain he might try a late sowing of sudan grass. It should give him grazing for work stock and cows until way up in the fall.

He may plant some late feed to get his stock through the winter. He may dig a trench silo and plan to fill it with late feed. If some of the acres are rather unproductive anyway, he might get ready to have a fling at a permanent pasture by sowing improved grasses and clovers this fall.

Speaking of pastures, a fine way to handle a few acres is by sowing to such small grains as oats or barley or rye this fall. A winter pasture is something much to be desired, thousands of farmers can tell you.

Vacancies Announced By Marines

The New Orleans Marine Corps recruiting station, located at 535 St. Charles Street, will enlist few young men who are graduates from high school or from institutions of higher learning during the month of August, it is announced by Major P. D. Cornell, officer in charge.

The Marine Corps offers land, air and sea duty. Marines serve in many desirable for those wanting travel and adventure. During an enlistment one will travel thousands of miles and will have many strange and thrilling experiences.

Men enlisted will be immediately transferred to Parris Island, S. C., for few weeks preliminary instruction, before going to some school, ship or marine barracks for duty.

Enlistment dates in August will be 1st, 11th, and 21st. Applications filed do not obligate men to enlist it only places them on list as eligible applicants.

A good cover crop of sorghum or cowpeas for turning under late this fall might be a good move. Whatever the future holds in store it's a safe bet that low yielding acres won't pay tomorrow any more than they do today. A farmer for his own good ought to either tune his poor acres up with cover crops or manure, or turn 'em out to pasture.

# CHURCHES

## BAPTIST

Sunday, July 23rd. Sunday school at 10:00 a. m. Mr. Adams, Superintendent. Attendance last Sunday was encouraging. Let all of our people make a special effort to come Sunday. Teaching at 11:00 a. m., and 8:15 p. m. by the pastor. There will be music at both services. Prayer meeting each Wednesday 8:15 p. m. Welcome to all of our services. J. F. Green, Pastor.

## CHURCH OF CHRIST

Who at my door is standing—presently drawing near, straining within demanding? These are the words of this hymn we are singing as Jesus is knocking at the door of every man's heart. He will not open the door of your heart here; yet he has made this promise to you, "If any man hear my voice, and open the door, I will come in to him, and will sup with him, and be with me." We sincerely invite you to worship and study with us at these services.

First day of the week:— 9 a. m., Bible study. A class for everyone. A good teacher for every class. A good lesson for all. "The gospel is the power of God until salvation," it should be the first concern with everyone to read and obey the gospel. Our attendance at these classes is fine.

10 a. m., Congregational song and a sermon by the minister. Subject is, "Saving Faith." 11:45 a. m., the Lord's supper. 7:15 p. m., Evening hour of worship and sermon by the minister. Subject is, "What must I do to be saved?" This is strictly a lesson on God's word, and the Bible answer is all that is given. Come and if you are saved. We appreciate a great number of visitors who are attending his service each day.

Week Day:— Sunday, 3:30 p. m., Ladies Bible. All ladies in Sanderson are invited to attend this class. Mrs. L. Surratt is the efficient and qualified teacher of these good classes.

Announcement concerning the week Bible class will be made during the preaching hour. About fifty-five recently attended our week service. All you are among the host of people who worship at this Church on Lord's Day?

Frank Traylor, Minister.

## CATHOLIC

Mass every morning at 7:30. Mass every Sunday at 7:30. Mass at 9 o'clock. Rev. J. M. Bertrant, Rector.

## DRYDEN CHURCH

Services Sunday July 23rd. 2:30 p. m., Sunday School. Classes for all the ages and good teachers for all the classes.

We use the Bible in the Sunday school and earnestly endeavor to teach the great fundamental principles of eternal life which are most surely believed by all Christian people, and avoid those questions involving many small groups and individual convictions on non-essentials.

3:15 p. m., Brother Stradley brings us the 6th message from the first chapter of the gospel according to St. John. His subject for this message will be, "Seeking and Finding Spiritual Satisfaction." The young peoples quartet will sing at this service. The congregational singing will be led by Mrs. A. M. Buck. Responsive reading the 23rd Psalm led by Mr. W. A. Latimer.

All are welcome to any and all the services. We are so happy that the interest and attendance this summer is so much better than usual and it is our earnest prayer that all attending the services receive just the blessing most needed.

Mrs. P. A. Wyatt, Sunday School Superintendent. W. A. Latimer, A. F. Buchanan, Mrs. A. M. Buck, Mrs. Millard Holmes, Mrs. Chester Smith, Stewards.

## METHODIST

Services Sunday July 23rd. 10 a. m. Sunday school. A class for every age and a trained teacher for every class. A whole family Sunday school.

11 a. m. Divine Worship. Sermon by the pastor, subject, "Glowing Christianity." Responsive reading the 24th Psalm led by Miss Kate Sharp. A special vocal number, in keeping with the theme of the message will be given by the Church mixed quartet.

7:15 p. m., the Sanderson Hi-Epworth League will meet in the church.

8:15 p. m. Sermon by the pastor, subject, "Economic Rehabilitation according to God's plan." Congregational singing led by Lowry Stradley. A special anthem number by the choir.

Tuesday, July 25th, the Women's Missionary Society will meet promptly at 3 p. m.

Wednesday, July 26th, prayer meeting at 8:15 p. m.

All are cordially welcome to any and all services. All christian people who do not have access to the denominational church of their choice in Sanderson are cordially invited to come and worship the Lord and serve Him with us.

# :: SOCIETY ::

## TUESDAY CLUB

Mrs. Bustin Canon entertained her Tuesday Club and several additional guests with a bridge luncheon this week at her lovely ranch home.

Upon arriving at the ranch the guests were served a four course luncheon, following which bridge was enjoyed till late in the afternoon, the guests then enjoying a swim.

Guests invited to the lovely affair included Mesdames P. J. Holman, F. L. Burnside, Mary Lou Kellar, Bozarth Brown, Lee McCue, D. A. Pollard, LeeRoy Grigsby, Jim Nance, S. S. Daggett, Joe Kerr, O. J. James, Robert Duncan, N. M. Scott and R. C. Ashbrook.

## BIRTHDAY PARTY

Last Wednesday evening at the home of her parents, Mr. and Mrs. R. H. Lewellen in this city, their daughter, Miss Dorothy, was hostess to several friends at a party, the occasion being her birthday.

Twenty-two young folks gathered and enjoyed the evening playing various games.

Refreshments of cake and punch were served to Mary Ferguson, Mildred Underwood, Helen Ruth Jackson, Lucille Blunt, Mary Mansfield, Winifred Turner, Sammie Carter Zada VanCleave, Lois Lewellen, Robert Kerr, Bernard Kerr, Billy Ferguson, Ralph and John Atkins, Vincent Bohlman, Howard Black, Charlie Laughlin, Bill Laughlin, Henry Goldwire, Hal Rowlett, Harry Lewellen and Mrs. S. H. Underwood.—Reported.

## MCKINNEY-HOFFMAN

Last Friday evening at the home of Mr. and Mrs. LeeRoy Grigsby in this city, Rev. John V. McCall, pastor of the Presbyterian Church, united in marriage, Mr. Parker McKinney and Miss Margaret Haass Hoffman, both of this city.

The bride is the eldest daughter of Mr. and Mrs. C. F. Haass, former residents of this city, and who recently moved to Hondo. During the past year or more she has been employed at the James House Cash Grocery and Market.

The groom, who is the son of Mr. and Mrs. T. D. McKinney of Alpine, has long been a resident of this city. He is employed at the Border Service Station.

Following a short trip to San Antonio and Hondo the young couple returned to this city and will make their home here.

The Times joins with their many friends in extending congratulations and best wishes.

## PRESLEY-SPENCER

Last Friday afternoon at his office, County Judge G. J. Henshaw united in marriage Mrs. Josie Miller Spencer of this city and Mr. H. C. Presley of Dryden.

The bride is the daughter of Mr. and Mrs. E. B. Miller of this city. The groom is from Dryden and is the son of Mr. and Mrs. G. M. Presley of that city.

Following a short trip to Del Rio they returned to Dryden and will make that city their future home.

Their many friends wish for them a long successful and happy married life.

Guests of Mr. and Mrs. S. J. Kellogg this week were his brother and wife, Mr. and Mrs. Gus Kellogg of Houston, his sisters, Mrs. Jim Guynes and children of Big Lake and Mr. and Mrs. Miller Bradbury of Franklin.

Mr. and Mrs. M. H. Goode, Sr., were Del Rio visitors the first of the week.

Each first Sunday at the morning divine worship hour we observe the sacrament of the Lord's supper and invite all christian people to come to the Lord's table with us.

B. M. Stradley, Pastor.

## PRESBYTERIAN

Sunday school at 9:45 a. m., Sims Wilkinson, Superintendent. Preaching at 11 a. m., and at 8:15 p. m., by the pastor.

Vesper meeting at 7 p. m. The Auxiliary will meet Monday at 3 p. m. with Mrs. Joe F. Brown. Mrs. Jesse Lochausen is leader of the program.

Prayer meeting at 8:15 p. m. on Wednesday.

John V. McCall, Pastor.

## PERSONALS

Mr. and Mrs. S. J. Kellogg accompanied by their house guests, Mr. and Mrs. Gus Kellogg, Mrs. Jim Guynes and children, and Mr. and Mrs. Miller Bradbury spent Monday in Tesnus visiting Mr. and Mrs. M. B. Wilson. Mrs. Guynes and children and Mr. and Mrs. Miller Bradbury remained over until Tuesday for a longer visit with their sister, Mrs. Wilson.

Miss Sybil rotter and sister, Mrs. W. R. Jordan, of Houston, were in town Tuesday from the Trotter ranch.

Mrs. George Thurman and sons were shopping visitors in the city Monday from the Stumberg ranch.

Lorna and Ara Call of Casa Grande, Mexico, spent several hours here Tuesday with their sister, Mrs. R. A. Hirst. They were enroute to their home following a trip to the World's Fair at Chicago.

Born, Friday July 14, to Mr. and Mrs. Fred Talbot an 8 pound boy. Both mother and baby are doing fine.

A large number of our citizens are in Fort Stockton this week in attendance at the District Court there, being called as witnesses in the Bessie Sharp murder case.

Mr. and Mrs. John Trotter have as their guests at their ranch their daughter, Mrs. W. R. Jordan of Houston. Mrs. Jordan, formerly Mrs. Gussie Trotter Daniels, was married on June 17 in Houston to Mr. W. R. Jordan of that city, who is an engineer with the Suderman-Young Towing Co., Inc.

**RATTLE OF THE RAIL**

Superintendent C. R. Morrill made a trip over this division from San Antonio Wednesday.

J. C. Harris, master mechanic, was here from El Paso Tuesday.

Engineer C. H. Morris, who has been in El Paso recently, has been assigned to a freight run out of Del Rio.

Firemen C. Tribble and M. S. Wright, who have been holding regular runs out of here have been assigned to freight runs out of Del Rio.

Engineer Joe Cottle returned Wednesday from a visit to Del Rio.

Fireman G. T. Rutledge was down from El Paso a trip on passenger this week.

Fireman J. F. Reininger has been placed on the extra board here.

Engineer C. Gillispie, who has been working out of here for some time, has been assigned to a freight run out of El Paso.

Engineer J. E. Cook of El Paso is now working on the extra board here.

Engineer O. D. Edens returned Tuesday from a visit to El Paso.

Operator Taylor, on the third trick is laying off on account of sickness.

Fireman E. H. O'Neil is laying off and has gone on a visit to points in New Mexico.

Fireman C. H. Broadhead has returned from a visit to El Paso.

**Walker Is Sworn In As Customs Collector**

AUSTIN, Texas, July 17.—A. S. Walker of Austin was sworn in Saturday as United States Collector of Customs for the southern district of Texas, succeeding James W. Bass, Republican. Walker held the place for eight years during the two terms of Woodrow Wilson as President.

M. C. Landrum, of Austin was named chief deputy collector, succeeding Fred R. Jarsons. Landrum had been in the department under Walker's previous tenure.

**Federal Oil Cops To Locate At Tyler**

WASHINGTON, July 17.—Policing East Texas oil fields to prevent shipment out of the State of hot oil produced in excess of State production orders will be conducted from Tyler, heart of the new production, where oil bootlegging is believed most flagrant. The "big stick" will be wielded by A. D. Ryan, Federal agent in charge, who will take off from here by plane, arriving in Tyler tomorrow. Ryan will work under Louis R. Glavis, director of investigations of the Interior Department, who is in general command of enforcement of the President's executive order barring hot oil from interstate and foreign commerce. Ryan is an experienced investigator and oil engineer and has worked in all the principal oil producing States, including Texas. He has been in the Government service seventeen years. All complaints of law violations in Texas should be made direct to Ryan at Tyler, not to Washington. Quicker action may be obtained that way, it was explained.

**Confederate Vets' Reunion Postponed**

The Confederate reunion at Christoval, held regularly each year from 1921 to 1931, and dispensed with last year because of the depression, will not be held this year because of still stringent financial conditions and the enervating spell of hot weather. F. C. Van Horn, Sr., publisher of the Christoval Observer and commander of Tom Green Camp 947 of the Sons of Confederate Veterans, said here Monday.

Hoping to satisfy the desire of the veterans expressed at the 1931 meeting, when they said they wanted to hold reunions as long as there were two of them left, Christoval is hopeful of holding another reunion next summer. —San Angelo Morning Times.

Hon. John Perkins, an attorney from Alpine, was a business visitor in the city Monday.

Hon. John Wright, an attorney of San Angelo, was in attendance at District Court here Monday.

**The Livestock Situation**

Los Angeles, July 20, 1933.—Dramatic advances of grain and feedstuffs, with virtually no gains in values of fat livestock, have given western stockman cause for worry. With few exceptions, feed prices are sharply higher than a month ago, whereas the general scale of livestock prices has shown no improvement. In the San Joaquin Valley barley is selling at \$20.00 to \$22.00 a ton, or just about double the prices paid a year ago. Cottonseed cake and meal have advanced along with corn, feed, wheat, milo and other products.

Despite the higher scale of feed costs, with attendant increased cost of putting flesh on hogs, lambs and steers, there is more interest in cattle feeding in most of the western states than at any previous time.

Serious drought conditions are reported throughout most of the western range country, with range pastures the poorest in many years. Pacific Coast packers have been backward about bidding on half-fat grass steers and have shown a preference for hard-finished cattle that will kill out with white fat and marbled beef. In a season of good grass feed the natural feeds in the western country are sufficient to put a satisfactory finish on the majority of cattle, although there is a growing market for strictly choice, grain-fed bullocks, especially young stock.

As a result, western stockmen who are in position to finance feeding operations are practically forced to feed some concentrates to supplement poor range feed. Many in the trade are optimistic in their views of the fall and winter market, believing that fat stock prices will advance sufficiently to pay a profit on feeding costs. This view is strengthened as reports come in of workers again obtaining employment.

In the industrial districts in Southern California, employment agencies are placing more and more workers right along. This means greater buying power and certainly, people will want meat along with other necessities.

While it may take some time for livestock values to become adjusted to the higher levels in sympathy with feedstuffs, it is believed probable that the Federal Agricultural Administration will make a drive towards higher hog prices early in Fall. This would naturally cause improvement in beef prices.

**Highland Fair Set For Oct. 12-13-14**

MARFA, July 17.—The Highland Fair Association met this week and agreed upon October 12, 13 and 14 as definite dates for the fair this year. The association is determined to make this the greatest and best fair in the history of the organization. Ernest Williams, says "that the prospects for the feeder sale on both registered stock and feeder calves is the best in many years. Exhibits will be from Presidio, Jeff Davis, Brewster and possibly other counties.

**BRIDGE PARTY**

Mr. and Mrs. Jess Haley entertained the members of the Ace Club with a bridge party at their ranch home, near Dryden, Saturday evening of last week. Refreshments were served and all present reported a most enjoyable evening.

Ladies high score prize was won by Mrs. John Harrison; Mr. A. A. McDonald winning the gentlemen's prize.

Those present were: Mr. and Mrs. John Harrison, Mr. and Mrs. R. O. Kessler, Mr. and Mrs. H. M. McCabe, Mr. and Mrs. A. A. McDonald, Mrs. Long, Mrs. Bunter and Mr. A. F. Buchanan.

For Sale—A six room home, completely furnished. Mrs. Helen Daniels.

**DISPELS MYSTERY OF BANK BUSINESS**

Country Banker Gives Simplified Picture of How a Bank Works to Help Other People's Business

A COUNTRY banker recently prepared the following simplified statement for his neighbors on just how a bank goes about helping them: "It is the most important part of a bank's business to lend money. Of all the money deposited in a bank, the law requires that a certain percentage be kept on hand as a reserve to meet the demands of depositors. It is the business of its officers to lend the balance conservatively and safely.

"The loans of a properly managed bank are invariably made to those it believes are able to repay, and always on condition that they be repaid at a stipulated time.

"The promise of an individual to repay a loan to a bank on a certain date is as sacredly inviolable as the promise of a bank to repay its depositors on demand, or, in the case of a certificate of deposit, on the date it falls due. When it comes to be known of an individual that he 'always pays,' his credit is established and his bank is always glad to extend him needed accommodations.

"A well managed bank never capitalizes industries. That is, it does not place its loans in fixed form, but puts them where they are to be used for temporary requirements, and where they will be taken up at the time specified.

**How a Bank Lends**  
"It is not the function of a bank to become a partner in industries, nor could it be legitimately done with the money of depositors. Its loans must be kept in 'liquid' form,—that is, repayable in cash at stated intervals.

"A bank must use the greatest discrimination in making loans. A stranger cannot expect accommodations. It is customary for the borrower to make a statement of his financial affairs, which is kept in the bank's records. It is a punishable offense to make a false statement for the purpose of borrowing funds.

"Naturally, in their dealing with the regular depositors of the bank, its officers become well acquainted with their characters and their resources and are thus in a position to determine how large a line of credit each one is entitled to. That is one of the great advantages of being a bank depositor.

"The man who knows how to get into debt wisely, that is, who borrows money, with which to make more money through legitimate enterprise, is the borrower whom the bank is looking for. By the frank interchange of opinion and a free discussion of various projects, the borrower is often guided and helped by his banker.

"In order to procure a line of credit at a bank three things are important: "1. A statement of assets showing a basis of credit in the way of invested capital, or collateral of sufficient value to cover amount of loan, or "2. An endorser whose credit is established at the bank; and "3. Average deposits of a sufficient amount to justify the extension of the desired accommodation."

**AS WILL ROGERS SEES IT**  
Will Rogers recently told why the banks had got into trouble. "Don't blame it all on the bankers," he said. "When we all needed money they loaned it to us—but when they needed it we couldn't pay it back."

**PERSONALS**

Mrs. Carl Cochran and children returned Sunday from a visit of several weeks in San Antonio with relatives. Accompanying them home was Miss Ruby Mae Cochran who visited here this week with relatives and friends.

Mr. and Mrs. Louie Cravey were in town the first of the week from their ranch.

Mrs. Guida Whistler and children, accompanied by her father, Tom Everett were visitors in the city Monday from their home in Del Rio.

George Miller was a business visitor in the city Monday. Mr. Miller, who was former Pharmacist at the Sunshine Pharmacy in this city, is now with the Jones Drug Store in Marfa.

**20 Minutes versus ---Three Hours**

Have your neighbors ever dropped into your home to borrow the weekly collection of circular letters, hand bills, etc., that the users think are as good as advertising in your favorite country newspaper?—Menomonee (Wis.) Falls News

Few people realize the actual coverage of even the most modest country newspaper. Not so long ago an advertising expert was quoted as saying that careful research had ascertained that a certain well known metropolitan paper is read, on an average, for the space of 20 minutes, while the average country newspaper has a "reading life" of 3 hours to its credit! It is kept 'round the house for a week and everyone in the family takes his turn in going through its pages.

That is something for both subscriber and advertiser to think about.

**The Sanderson Times**
