## LOFTIN TAKES POST AS TEXAS TEACHER CHIEF

**Group Told Of Survey That Is Planned By State Board**

AUSTIN, Dec. 2 (INS)—The "revolt of the women" at the Texas State Teachers association convention here had ended in failure today as the election to the presidency over the women's candidate, Mrs. Roy C. Owen of Tyler, was announced.

The election committee announced that a tabulation of the ballots showed 1931 votes for Loftin as against 1159 for Mrs. Owen.

B. L. Griffith of Victoria was elected first vice president, with other offices uncontested.

New officers were installed today prior to adjournment of the convention.

Teachers were advised last night of a survey planned by the state school board. Chairman Nat Washer said the survey would be along the lines of that made last year of higher educational institutions and he hoped the legislature would pay more attention to recommendations than it did on the other survey.

In regard to the survey of colleges Washer declared local influence from the various schools had defeated the recommendations to the legislature for consolidations and other changes meant to increase the efficiency of the system.

The establishment of an elementary school division in the state department of education was recommended to the teachers by L. A. Woods, state superintendent of public instruction.

Several superintendents addressed the general session.

Attendance reached a high mark with an estimated 7500 persons, including teachers and families, at the general and sectional meetings.

## Drastic Reduction In Railroad Rates Effective Dec. 1

Commencing December 1, the traveling dollar will be made mightier than ever before by Southern Pacific Lines, according to announcement by J. T. Monroe, Passenger Traffic Manager.

The one-way fare will be two cents or three cents per mile. The two cent fare will be good only in chair cars and coaches, while the higher rate will be good to all classes of equipment.

For the round trips, two cents or two and one-half cents per mile in each direction will be charged. The two cents fare will allow a ten days return limit, and the two and one-half cents rate permits a return limit of six months.

The Pullman surcharge will be eliminated, which will reduce the fare approximately one-third.

Mr. Monroe also stated that with this general reduction, the public will be offered history's new low travel cost, and the lost train patronage should be recovered, for trains are the world's most comfortable mode of transportation and will be had at great economy.

## MEXICAN ACCIDENTLY SHOT

Octavio Lopez, a Mexican youth accidentally shot his self through the thigh of his right leg last Sunday afternoon while cleaning a 22 calibre rifle.

Dr. Sharp was called to dress the wound which will not prove to be serious and last reports were that the Mexican was getting along all-right.

Mrs. E. J. Chastain and son have returned from a visit with relatives in Chattanooga, Tennessee.

Mr. and Mrs. C. L. Surratt and son spent Thanksgiving Day at Pumpville with Mr. and Mrs. A. Milam.

## Ranchman And Aviator Freed In Villa Acuna

Release of two of the three Americans held prisoner in the Villa Acuna caracul since November 17 was effected Tuesday, it was announced by Fernando L. Garibay, acting consul for the local Mexican consulate.

The men were held for violation of customs laws, following their capture in Mexico at a point opposite Rutledge's ranch in the Big Bend country.

E. E. Bandy, ranchman, and John Falk, Randolph Field aviator, were released on cash bonds of 250 pesos each. "Cricket" Rutledge will remain in jail until a fine of 100 pesos and a cash bond of 210 pesos can be furnished.

Efforts made by Raymundo Rivero, Villa Acuna broker, Representative E. E. Townsend of Alpine, military authorities of Randolph Field and Acting Consul Garibay resulted in the men's release.

A statement released Wednesday by Acting Consul Garibay addressed to The News in part is as follows:

"Notwithstanding, it is not under my jurisdiction, I took the liberty to entreat in favor of the above mentioned Americans nationals, for the many justified reasons they argued, and especially for your personal recommendations and others from the authorities of this region, as well as to avoid any misinterpretation, which would obstruct our mutual friendship of the people and the local authorities of both countries."—Del Rio Evening News.

## Political Writer Says Allred Sure To Enter Race

AUSTIN, Dec. 4. (AP)—James V. Allred, now serving his second term as attorney general of Texas, will seek the Democratic gubernatorial nomination in the primaries next year.

This information came to the Chatterer from a source regarded as unimpeachable and set at rest any fear that Allred might cross the boys up by seeking the junior United States senatorship, which also will be a much sought-after prize in next year's election.

Prediction generally are rash, but the following is based on reliable information.

Allred will announce for Governor at a banquet to be tendered him by Del Rio friends Dec. 15. It is likely he will there set forth the principal planks in the platform he will take before the people and on which he will seek their suffrage.

The youthful attorney general it was learned confidentially from a source close to him has never entertained much thought of getting into the senatorial contest. Whatever ideas he may have had along this line were abandoned when the word spread that young Joe Bailey, congressman-at-large would go after the office now filled by Tom Connally. Political observers in general appeared to take it for granted that Bailey would oppose Bailey's formal announcement that he would be a candidate.

Those close to Allred say he has had an eye on the governor's office almost from the day he took the oath as attorney general.

## WRECKS CAR

Late last Sunday afternoon while returning to their home in this city after spending the week-end at the ranch, Mrs. Albert Appel and children, Miss Ellen, and Albert, Jr., suffered minor injuries when their Chevrolet sedan left the road and went into a ditch.

The accident was due to parts of the steering gear breaking. The right front fender of the car was badly damaged and the wind shield was shattered.

## 15,000 TEXANS ADDED TO CIVIL WORKS PROGRAM

**Total Allocation For State Is Increased To 206,000**

AUSTIN, Dec. 5. (AP)—Lawrence Westbrook, director of the civil works program in Texas, announced today the receipt of a telegram from Washington allotting 15,000 additional men to this state for employment projects.

Texas' total allocation is now 206,000. Laborers will receive a minimum of \$12 weekly on a 30-hour basis.

## Celebrates Repeal Of 18th Amendment

December 5th: They say. History always repeats itself, but this is once it did not.

This was the "scratching off from the Constitutional records of the United States of that noble experiment, the Eighteenth Amendment."

It was the first time in history, that any law has been scratched from the Constitutional Records.

In many parts of the country, great revelry and celebrations are now going on heralding in "the New Deal" in the form of "wine and liquor".

In view of this fact, a certain citizen of this community, proclaimed a holiday by celebrating this event so much in fact, that he, and his car both passed out completely on the corner of First and Oak Street.

Friends came to his rescue and after a great struggle succeeded in taking him off presumably to be put to bed to sleep off the effects of his jubilee.

## DR. SELFRIDGE

Dr. L. E. Selfridge, Superintendent of Home Missions in Western Texas Presbytery, died in a San Antonio hospital Thursday Nov. 30th, after a long illness. Dr. Selfridge was born in Missouri in 1871 and as a youth came to Texas. He took his college education in Austin College Sherman which he entered in 1889 studying under Dr. McCall who was then professor of Mathematics in that institute. His theological course was taken in Southwestern Presbyterian University at Clarksville, Tenn. He was licensed in 1898 and for 35 years preached the glorious gospel of Christ with rare sweetness and beauty. He served as pastor at Port Lavaca, Bay City and Temple and for the last 12 years was the faithful diligent and honored superintendent of Home Missions of this Presbytery. In 1921 he was chosen moderator of the synod of Texas, the highest distinction his brethren of the ministry could bestow upon him. Dr. Selfridge had frequently visited in Sanderson and in the spring of 1932 held a protracted meeting at the Presbyterian church. Few men in the state were so deeply loved, respected and honored by the people of this section of the State.

A great leader has gone from amongst us. May the Lord raise up for others who shall take his place in a perplexed generation.—Contributed.

AUSTIN, Dec. 4. (AP)—The Texas Bond Commission today decided to re-advertise for sale \$2,750,000 worth of state bonds, the proceeds to be used in relieving the unemployed.

Advertising for the bids to be received last Friday failed to bring any offers.

### Barney Oldfield Passes Through City

Mrs. A. A. Shelton had as her guests over the Thanksgiving holidays her mother Mrs. Kilpatrick and daughter Miss Alice of Christoval, her sister, Mrs. Gilmore and family, and Mr. and Mrs. Boone all of Presidio, Texas.

Terrell County Farm Loan Association was organized here this past week to help secure loans for ranchmen of this section who are applying for government relief loans.

At the meeting held on Wednesday the following were elected as officers of the association: G. J. Henshaw, president; Albert Appel, vice-president; Alfred E. Creigh, Jr., secretary and treasurer. Directors elected were: G. J. Henshaw, Albert Appel, J. C. Mitchell, R. H. Murrah, J. D. Nichols, Joe Kerr and Carl Cochran.

The association is served by a loan committee who passes on each loan. The regular loan committee is made up of R. H. Murrah, Joe Kerr, Jno. F. Nichols. And in order that a man would not sit on his own loan an alternate committee to be composed of Carl Cochran, Albert Appel and J. D. Nichols was appointed.

Joe Kerr left Tuesday for Houston where he was to go before the Federal Farm Loan Bank in that city and get the association approved.

With the organization of this association for the County ranchmen now desiring government loans will be able to make applications for same to the association who will then take the matter up through the proper channels and thus help obtain loans.

## GRIEVANCES ARE AIRED WHEN S. P. HEARINGS OPEN

**Arguments Are Presented To President's Board At Houston**

HOUSTON, Dec. 4. (AP)—Southern Pacific officials and representatives of 2,000 employes in Texas and Louisiana, embroiled recently in a dispute that threatened to end in a strike, faced each other today and aired their grievances before an emergency arbitration board appointed by the President.

Fred W. Lewis, spokesman for the Big Four rail brotherhoods, stood before the fact-finding body, composed of Frank P. Douglas of Oklahoma City, chairman; Chief Justice Walter P. Stacy of the North Carolina Supreme Court and Dr. L. W. Courtney, college professor of Waco, and charged:

"There appears to be something radically wrong with the lines—it might be high blood pressure or appendicitis—when there are pending 700 suits with respect to train service and schedule rules. That's part of the disease. When the operation is over we hope we can eliminate some of the painful experiences the employes are going through."

H. M. Lull, executive vice president of the Southern Pacific Lines, a few minutes earlier had told of the inroads made by trucks and busses on the revenues of the railroad.

"This tremendous shrinkage in revenue," the vice president said, "brought the management face to face with vital problems and critical situations. It became a question of survival. It was essential to do two things: first eliminate waste and reduce expenses; second to retain and increase traffic and revenue. Any railroad employe who puts obstacles in the way of improvement of railroad service is standing in his own light and aiding to ruin the industry which affords him a livelihood."

The room was crowded with spectators, many of them apparently railroad workers. The hearing probably will continue for the full 30 days in which to study the board's report before final disposition. Neither side is bound by the finding however.

A LABEL ON THE PRESS

Newspaper publishers in the smaller cities and towns are resentful of a wise crack from Prof. Rex Tugwell one of the president's brain trust, reflecting upon them.

The prof. made this statement:

"While national magazines, good metropolitan dailies and radio networks carry many fraudulent and misleading advertisements, by far the most flagrant abuses are found in movie magazines, mail-order catalogues, educational and religious journals, cheap fiction or 'pulp' magazines, small dailies, country weeklies, and on small independent stations, as well as in direct mail advertising."

In answer to this sweeping assertion, the weekly newspaper editors are calling attention to their nationwide campaign in recent years to eliminate from their columns, false and misleading advertising. Look through the advertising columns of the Storm Lake newspapers, for instance. You'll find them free from advertisements of questionable nature. It is a matter of pride, in our business office, that this condition exists. The old day of fake advertising has long since vanished, so far the country press is concerned.

Prof. Tugwell doesn't know it, apparently, because we doubt if he ever made the acquaintance of the weekly papers now being published. We don't know whence he came. But he falls under the general criticism of the boys in the eastern cities who are trying to regulate conditions in the "wide open spaces" of which they know little or nothing.

It might interest the prof. to know that the Storm Lake newspapers have rejected scores of advertisements because they sounded "faky". This condition exists in thousands of the offices of the weekly newspapers. And one of the duties of the Iowa Press Association office at Des Moines is to investigate doubtful "ads" and issue warnings to the members of that organization against any that would be deceiving to the public.—Pilot Tribune, Storm Lake, Iowa.

THE NRA EVOLVES

At the midnight stroke of the clock on December thirty-first, the first maneuver in the United States' great offensive officially ends. Then the so-called blanket code, temporary agreements on minimum wages and hours, are like shock troops to be displaced along the major recovery front by the regulars, the industrial codes.

These have been formulated by trade associations and officially approved. They prescribe fair business practices as well as minimum wages and hours. They remain in effect until June, 1935.

Well may men rub amazed eyes. America, nurtured to strength on log-cabin traditions and rugged individualism, within seven months has adopted the principle of regulated competition. Perhaps Frederick R. Burley, Australian manufacturer, was speaking for many in other lands when recently he cited the National Industrial Recovery Act as "the most interesting going thing in the world today."

That the NRA program would encounter difficulties was expected. General Hugh Johnson, in becoming its administrator, likened himself to a man putting his head on a guillotine block with a wager that the axe would fail to fall. Recent events would indicate that he did not overstate the case.

The expected criticism has come. Some say the NRA is too dictatorial others declare its provisions unduly raise production costs and are unenforceable. And so it runs on. But more important than the mere fact of criticism is that it is being welcomed by officials and is proving a corrective for mistakes admittedly made. That augurs well.

Already an evolution in the NRA is perceptible. Gerard Swope, of the General Electric Company, has suggested further administrative changes. But neither his nor other

LETTER OF SALUTATION

To the People of Sanderson, Dear Friends and Brethren in Christ Jesus:

I just want to salute you all as I am the newly appointed Minister of the Methodist Mexican Church in this town. I have been here twice since I was appointed and certainly do enjoy very much this town and the nice way that I have been treated by the citizens of the community and especially by the Mexican people that I represent as their Pastor.

Perhaps many of the good christian people of this town will be glad to know that there is here a very good congregation of converted Mexicans who are members of the Methodist Church. They have the same songs that you sing in your church and the same Bible and they worship God in Spirit and in truth like you do in your own churches, the only difference is that we have the services in Spanish. But the difference in language do not separate us from the same spirit of our Lord, so if any day any one of our dear American brethren feel like coming and joining with us in worshipping God, we will be very happy and glad to have you with us and I am sure that you will receive a blessing.

By this means, I want to express my gratitude to the pastor of the American Methodist church, Rev. T. M. Taylor, and to his congregation for their invitation to us to join with them in the Thanksgiving service last Thursday morning. The Mexican congregation went and we all were very happy among our dear American Brethren. One Father, One Saviour, and One Spirit. Also, I want to thank the congregation for the offering in the sum of \$3.00, that was made toward

helping me in the Missionary work. My thanks, also, to the Primary department of the Sunday School, for the nice box of things that they gave to us for our little girls. We certainly had a wonderful day.

For the present I am making my residence at Alpine and from there I will attend the church work at Marathon and this city. Now I can come once a month, but, in the future if I can, I will make the visit two times or more, that is if I can get some help in order to cover the expense. I trust God and His People not only will make it possible for me to come but to live here in order to co-operate with the People of this town for any good cause. While I am absent the Mexican Brethren have always conducted the services by some one among them.

We are approaching the commemoration of the birth of our Lord, I mean Christmas time, and the ladies of the congregation are very busy with a program or play that they will put on in the church. Everybody is invited. Mr. Nicolas Flores and Juan Zepeda, are appointed in a commission in order to visit the business houses and any other people who wants to help the little Mexican children to have a very good Christmas. So if any of you want to help the Mexican children to have a good Christmas tree, please see these two brothers and they will be very glad in giving you any information. I also hope to be here for those days. Call on me and I will be very glad to assist you in anything that is for His Glory.

Yours in His Work, Constantino Gonzalez, P. O. Box 923, Alpine, Texas.

CHURCHES TEMPTED

An office on the twenty-second floor of Chicago's Mather Tower last week had its finger on the pulse of the U. S. churches. The pulse beat briskly. Throughout the land, best briskly. Throughout the land, best briskly. Throughout the land, best briskly.

Goodwin Corp. has sent 900 agents into the field to recruit "Good News Broadcasters" from the churches. Last month 30,000 had been signed up. Last week 130,000, with more and more names piling up in the Chicago office whose staff now includes 116 employees.

Promoter Goodwin estimated last week that 225,000 U. S. churches would be benefitted by his plan. To make it even more palatable, the prospectus announces that manufacturers whose products appear on the lists must agree to use "a portion" of increased profits to raise wages, shorten hours, improve labor conditions, eliminate child labor.

But the scheme failed to tempt the more vigilant pastors of Christ's flock. Said the Christian Century last week: "It is amazing that an intelligent church woman can be taken in by it. . . . The whole atmosphere of their church life will be cheapened and commercialized by their participation in it. . . . The Christian church has its own dreams, and it will not prejudice their realization on behalf of the acquisitive dreams of any private interest whatsoever."

The above article was taken from the December 4 issue of the magazine "Time" and was handed to the Editor by Rev. T. M. Taylor, pastor

WHAT IS A STRAWBERRY ROAN TOLD BY KEN MAYNARD AT THE PRINCESS

Years ago, a song writer named Curley Fletcher wrote a song called "Strawberry Roan." It was a typical range song. As such, it had a minimum of tunefulness and a maximum of expressive language. It was sung and strummed on the banjo and guitar at innumerable camp fires, but got very little further until the present vogue for western songs attacked the radio. Now no program is complete without a range song. Ken Maynard picked this "Strawberry Roan" song of Curley Fletcher's out of the limbo of forgotten things and made it into a movie. It is all about a bucking strawberry roan who is so difficult to ride that the prize buckaroo of the entire west was thrown from his arching back. Here are a few choice couplets to show the general expressiveness of the song and of the critter.

"Down in the horse corral standin' alone, Is this old covoye, a strawberry roan." "He's the worst buckin' bronc I've seen on the range. He can turn on a nickel and give you some change." "He went up toward the east and came down toward the west To stay in his middle I'm doing my best."

"When my stirrup I lose and also my hat, I'm pulling leather and as blind as a bat." "Then he makes one more jump and heads up on high, Leaves me sittin' on nothin' away up in the sky."

Maynard's horse, Tarzan, plays second fiddle to the strawberry roan in this picture, which has as human players Ruth Hall, Harold Goodwin, Charles King, William Desmond, Frank Yaconelli, James Marcus, Jack Rockwell, Bob Walker and Ben Corbett.

This picture is coming to the Princess Theatre on next Friday and Saturday, December 15th and 16th.

## "Tugboat Annie" Tale Of Battling Feminine Skipper

Thrills, laughs and heart throbs all mingle in the reunion of Marie Dressler and Wallace Beery, beloved team of "Min and Bill," who are again co-starred at the Princess Theatre on December 22-23 in "Tugboat Annie," filmization of the famous Saturday Evening Post stories of a battling feminine tugboat captain and her sanguinary adventures.

Miss Dressler plays Annie, with Beery cast as her shiftless but good-natured mate, Captain Terry. They battle and make up again for countless laughs; there is a dramatic note of mother love and a gigantic thrill in the climax when Beery enters a blazing firebox to repair a boiler at sea and thus save a storm-tossed liner.

Most of the picture was filmed in Puget Sound in the actual locales of the Norman Reilly Raine stories, which gives the picture an extraordinary sense of authenticity. Miss Dressler pilots a seagoing tug and competes with the whole waterfront in the vivid maritime drama, directed by Mervyn Le Roy of "Gold Diggers" and "Little Caesar" fame. Episodes in several of the Post stories are used. Annie and Terry raise their boy to be a sea captain; he seeks to remove them from the squalid tug that is their home. Terry lapses into his old drinking habits and is disowned by his son, but comes through in the stirring sacrifice at the finish.

Robert Young, who scored in "Hell Below," is seen as the young captain. Maureen O'Sullivan has the romantic feminine lead, and the cast also includes Willard Robertson, Tammany Young, Frankie Darro, Jack Pennick and Paul Hurst.

Mr. and Mrs. J. T. Trotter left Thursday afternoon for San Angelo where Mrs. Trotter will enter the Shannon Hospital for medical treatment.

Misses Gladys and Sammis Carter spent last Saturday in Del Rio visiting with Miss Mattie Gwen Kercheville.

### Prepared to Save Lives

One of the most valuable services given to the American public by the Red Cross is through its Life Saving and First Aid courses. Virtually all of the life guards at beaches and pools in the nation are Red Cross life savers. Nearly every industry in America supports the First Aid work of the Red Cross because it annually saves lives of thousands of injured persons. These courses are taught by Red Cross experts in both lines. Last year 66,354 certificates were issued to persons completing the First Aid course and 78,795 certificates for completing Life Saving instruction.

### War Veterans' Problems

Not since the period of the World War has the Red Cross faced a greater problem in handling the claims of World War and other veterans. Due to the changes in the regulations covering veterans' claims, chapters all over the nation have been crowded with veteran applicants for relief and for service in preparing appeals. During last year Red Cross home service workers in 3,268 chapters dealt with the problems of 411,124 ex-service men or their families. The chapters also aided 7,346 men still in the regular army, navy and marine corps.

### An Army of Children

The membership in the Junior Red Cross last year was 6,629,866 boys and girls in schools, private, public and parochial. They enjoyed volunteer work in hospitals and for orphans, the aged and crippled, and also aided their schoolfellows by providing attention for their eyes, purchasing their glasses, and giving many other types of service to them. The Juniors aid their school work by carrying on correspondence and the exchange of portfolios with school children in other nations.
