MOVE LAUNCHED FOR PARK FUND

County and Subsidiary Committees Lined Up for Intensive Campaign

The Terrell County committee for the furtherance of the purchase of land for Big Bend National Park had its organization meeting on Sept. 25 to work out plans for the Million Dollar Campaign. The committee is composed of Joe Kerr, chairman, Alfred E. Creigh, Jr., secretary, and M. Baze.

The recognized benefit that would arise in Terrell county by the establishment of this park leads the committee to believe that our people should vigorously support the campaign, while the contribution sought from the citizens of the community has been \$1.00 to carry out the idea that a million Texans could contribute this amount. The committee calls attention to the fact that business concerns could contribute more largely in order to insure the completed program.

The following committees were lined up for an intensive campaign in the county:

The Culture Club Committee under direction of Mrs. Joe Brown, its president is deemed to carry out the Culture Club's independent program in connection with the Big Bend National Park and to give the ladies full opportunity to contribute their efforts in behalf of the program. It was deemed advisable that the Culture Club should undertake to canvass the ladies of Terrell county.

The Business Men's Committee to canvass the business men of the county, composed of W. J. Griffith, chairman; W. J. Ferguson, C. V. McKnight, J. W. Newman and Joe Nance.

The committee to canvass the ranchmen. This committee will be composed of J. C. Mitchell, chairman; Alfred E. Creigh, Jr., and Mark Carruthers.

Committee for Dryden: A. Buchanan, chairman, Chester Smith, and Julian M. Bassett.

The committee feels that in presenting the appeal to the people of our county not only to contribute toward this campaign but give it enthusiastic support all that would be the value this park would be to West Texas.

Value of a National Park in the Bend to West Texas:
1. A permanent source of revenue to the State, with an advertising value money could not buy.
2. The National Park Service estimates that out-of-state tourists will spend in Texas three million six hundred thousand dollars the first year the park is opened to the public.

3. Once the land is acquired and deeded to the U. S. Government, the National Park Service will develop and maintain the park at its own expense.

4. Mr. Conrad Wirth, Associate Director of National Park Service says: "The Big Bend National Park will be one of the greatest recreational and educational features ever undertaken by the National Park Service."

5. The Chisos Mountains, with an elevation of 8,000 feet, with picturesque scenery all its own, and with a climate equal to that of Colorado, will provide Texas with a summer vacation center close to home at a nominal cost.

6. The cooperative agreement between Washington and Mexico combine the 788,000 in Texas, and the 400,000 acres in Mexico and an International Peace Park will further cement the friendship between the two republics and improve trade relations.

The Plan
1. Organizations should be formed in every county and town to collect at least one dollar from every citizen to be deposited in the local banks, and all checks should be made payable to "Big Bend National Park Fund."
2. The Texas State Parks Board has been designated to handle this fund and not one cent is to be used for any other purpose than to purchase land for the Big Bend National Park.

3. A roll of honor for all contributors should be engraved on

Local Woman's Father Victim of Heart Attack

Funeral services for William Forest Jourdan, 72, county superintendent of public instruction, were held in Del Rio a 5 o'clock Monday afternoon in the First Methodist church, with the Rev. L. C. Beasley officiating. Interment was made in the Masonic cemetery under direction of the Doran Funeral Home.

Mr. Jourdan, who had been improving daily from a serious illness he suffered several weeks ago, died unexpectedly of a heart attack Saturday night in the Briggs Apartments, 300 E. Third street, where he made his home.

Born in Tishomingo County, Miss., on August 15, 1865, Mr. Jourdan was the son of Enoch and Mary Martin Jourdan. He attended the Mississippi Agricultural and Mechanical College and received his bachelor of science degree from the Mississippi State Normal School. During the four years he attended college, Mr. Jourdan taught school for three months every year.

Spent Life Teaching

He spent his life in the teaching profession but made a hobby of the study of science, particularly natural science. He took a keen delight relating stories of his observations as a natural scientist, especially those concerning insects.

He married Miss Dora Deane Nicholson in Hickory Plains, Prentice County, Miss., August 26, 1890. Mrs. Jourdan died in Del Rio December 6, 1926.

Mr. and Mrs. Jourdan came to Texas Aug. 17, 1891, residing in Temple while Mr. Jourdan served as principal of a little school 8 miles from there. Shortly afterwards he was elected principal of the Temple high school, a position he held for three years. In 1896 he went to Wichita Falls as the superintendent of city schools there and he served in that position for 10 years.

Invalid Two Years

At that time his health broke and he was an invalid for two years. He re-entered the teaching profession in Del Rio in 1911 as superintendent of city schools and served in that capacity for four years.

He also served as superintendent of schools in Harlingen for two and one-half years and then was appointed by the county commissioners of Cameron county to serve as county superintendent to fill an unexpired term of one year. Mr. Jourdan then was elected county superintendent of Cameron county for a two-year term and after that expired, he did not run for the office again.

In 1934 he was elected county superintendent of public instruction for Val Verde county, taking office on January 1, 1935, for a 4-year term which would have expired until January 1, 1939.

Survivors include six children and 13 grandchildren. The children include Harry A. Jourdan of Seattle, Wash.; Jerome W. Jourdan, Tulsa, Okla.; W. F. Jourdan, Jr., of Del Rio; Mrs. Rufe Murrah of Sanderson; Mrs. George Sartwell of Del Rio, and Mrs. Lois Newman who resides on a ranch in the Carta Valley country.

One sister, Mrs. Minnie Lee McKeowan of Iuka, Miss., also survives.

Two of the sons, Harry A. Jourdan of Seattle, Wash., and Jerome W. Jourdan of Tulsa, Oklahoma, were unable to be in Del Rio for the funeral. Mr. and Mrs. Rufe Murrah and daughter, Ruth, arrived in Del Rio Sunday from their home in Sanderson.

The flag over the court house, where Mr. Jourdan had his office, was at half-mast Monday, and all the offices in the building were closed during the afternoon in respect to the family.—Del Rio Evening News.

TAKEN TO SAN ANGELO
Miss Lois Taylor, who has been ill for the past three weeks in a Del Rio hospital, suffering from pneumonia and complications was taken to San Angelo last Friday and placed in a private sanitarium there. Accompanying her were Mr. and Mrs. Sam Harrell of this city, and Miss Taylor's sister, Mrs. W. M. Dyal of Lafayette, La. Upon their return here Sunday from San Angelo Mr. and Mrs. Harrell reported that Miss Taylor was some better. Her many friends here wish for her a speedy recovery.

Acreeage Leasing Continues: Test Drilling at 800

Renewed leasing activity in this county is expected in the near future and it is thought that several major companies will buy acreage in the vicinity of the test now being drilled on the Sam Bell ranch.

There was misunderstanding as to the location of the old Keck-Pecos Co. well, drilled in 1929. This has at last been cleared up. It was found that all oil maps showed this well, which was drilled to a depth of 3150 feet, was located in survey 6, block D-7 which is less than three miles from the Sam Bell test, located in survey 68, block D-7. The Keck-Pecos test was actually drilled on what is known as the "Cedar" block, and is approximately nine miles or more from the Bell test.

Now that this location has been corrected on oil maps, and verified by geologists, several major oil companies have been inquiring about the present test well, being drilled in eastern Terrell county.

One assignment recorded this week is from the D. & S. Oil Co. to the K. D. Oil Co. of Perner, Okla. 320 acres out of surveys 67 and 69, block D-7.

Records at the county clerk's office also show the following:
Oil, gas and mineral lease, F. C. Bates, Jr., et ux, to Beaver Motor Co., 40 acres out of survey 25, block 1.

Assignment of oil and gas lease, Bertha Heimann to Jean M. Innes, 70 acres out of section 28, in block 154.

Drilling is continuing on the Sam Bell test, the drill nearing the 800-foot level.

ELECTED CLASS PRESIDENT

Vincent Bohlman, attending St. Edward's University, Austin, was elected president of the junior class at a recent class election. This is quite an honor as Vincent was also president of his class in his freshman and sophomore years. He is the son of Mrs. W. F. Bohlman of this place.

Jap-China War Pictures Will Be Shown Tonight

The most realistic, and at the same time the most gruesome pictures ever brought to the American screen. This expresses general public opinion of the motion picture to be shown at the Princess tonight—pictures of actual fighting, in China.

The pictures show the result of the Japanese bombings of innocent non-combatants—torn and mutilated bodies of women and children scattered everywhere—their humble homes in shambles.

Unlike other wars, all restrictions were lifted regarding news and pictures of the Japanese invasion, and these pictures were rushed by Clipper to the United States. A full length picture that runs about 12 minutes and proves that Gen. Sherman's conclusion regarded was not overestimated.

Don't fail to see this picture—tonight and Saturday at the Princess Theatre.

Court to Canvass Bids to Purchase Road Machinery

On next Monday the regular meeting of the Commissioners' Court of Terrell County will be held, at which time all routine matters, will be taken up, as well as any other business that may be brought before the court.

New business at this session will be to receive and canvass bids for the erection of a concrete reservoir on the courthouse grounds. Also they will receive and canvass bids for the purchase of the following road machinery: One Master Diesel Tandem Drive motor grader and 2 Diesel No. 10 Auto Patrols, tandem drive model powered with 44 horsepower Caterpillar full Diesel engines. This machinery will be used for building and maintaining roads in the different precincts.

ELECTED CLASS PRESIDENT

Walter G. Downie of this city, who is attending Texas Military Institute in San Antonio, was, on last Friday, elected president of the senior class. Mr. Downie has been an honor student at the institute, and will complete his studies there this spring.

Seriously Injured In Accident On Rocksprings Rd.

L. H. Lemons and sister, Mrs. Grace Wheeler, are recovering from injuries sustained last Sunday evening when the car they were riding in turned over. The accident occurred about 28 miles north of Del Rio on the Rocksprings road, where it intersects the San Angelo-Sonora highway. Striking a soft shoulder on the curve, the car swerved from the road, striking a sign post and turned over several times. The car was badly wrecked.

Soon after the accident passing motorists brought the injured parties to Del Rio where they received treatment. They returned to their homes here Monday on the noon train.

Mr. Lemons' injuries consist of a badly cut lip, a hole being cut clear through, a slight cut over the left eye and chest injuries—several ribs being torn loose, and body bruises. Mrs. Wheeler received a crushed right arm, a deep cut on the nose, and bruises about the body.

They were enroute home after a week end visit at the ranch home of Mrs. Mata Wheeler in Edwards county.

4 Mexican Boys Injured in Auto Accident Sunday

Four local Mexican youths are recovering from injuries sustained Sunday in an auto wreck that occurred three miles south of Ft. Stockton. They were riding in a plately wrecked after turning over several times. A tire blowout was the direct cause of the wreck.

Nelo Rodriguez is in a Fort Stockton hospital recovering from a broken shoulder, an arm broken in two places, and a broken and cut jaw.

Jose Olivares escaped with a leg injury, while Premetivo Reyna and Julian Perez received badly cut faces and severe body bruises. Ben Ponce, the other occupant of the car escaped unhurt.

The party were enroute to Ft. Stockton to attend a dance and festival that night.

INSTALLING NEW PUMPS

W. J. Ferguson, local Ford dealer, was busy the first of the week installing new electric gasoline pumps at his garage located on Oak street.

Hubbel Blows Up Sixth and Yanks Score Seven Runs

The Yanks, in a Slugging Sixth, not only took the edge on their cousins from the other side of the village but sent "King Carl" Hubbel to the showers. Up until that inning it was a moutnd duel between the screwball artist and Senor "Goofy" Gomez, Hubbell, up to that frame, pitching one of the best games of his career. But in the sixth he boarded an airplane and when he got back to earth, thirteen Yanks had batted, making six hits count for 7 tallies.

The old saying "they never come back" was sidetracked in the opening game Wednesday. It found Gomez in there burning 'em up, pitching one of the best games of his tempestuous career; and at second base Tony Lazzeri dazzled the fans with sensational fielding, and hit the only homer of the game.

Score by Innings (1st Game)

YANKS . . . 000 007 01x—8 7 0
GIANTS . . . 000 010 000—1 6 2

The second game was pretty near a repetition of the first. Opposing pitchers were Ruffing for the Yanks, Melton for the Giants.

The Giants pushed one run over in the first on a double by Bartell and a single by Ott. The Yanks went scoreless until the 5th when the scored 2, and Melton went to the showers. They scored four in the sixth and 2 more in the seventh. In the ninth the Giants loaded the bases, but Ruffing held steady and the side was retired without counting.

World's Largest, Biggest Circus in Marfa Tomorrow

The world's largest circus traveling on 3 trains of double-length railroad cars, with 1,080 people, 30 elephants, 812 menagerie animals and 500 horses will exhibit in Marfa, Saturday, October 9th, and throughout this section plans are perfecting for the attendance of every man, woman and child—so it seems—at one of the performances.

Everybody will want to see the Cole Bros.-Clyde Beatty Circus this year. Six rings and stages and the hippodrome track, to say nothing of the vast aerial maze for the earth's foremost arenic talent—400 acknowledged kings and queens of daring. Sixty clowns will project ten times that number of mirth waves. Clyde Beatty's gigantic trained animal exhibited will be presented in the main performance.

Ken Maynard, the screen's greatest western star, will personally be seen at every performance. Maynard has starred in 87 pictures produced in the major studios in Hollywood. He is by far the highest priced star ever to be seen with a circus.

One of the finest and costliest street parades will be seen at 11 a. m. Hundreds of horses, five herds of elephants and two caravans of camels will be seen. In the line of march will be more than three-score elaborately carved and gilded allegorical floats, tableau wagons and open cages, displaying Clyde Beatty's menagerie.

Doors to the big show will open at 1 and 7 p. m. The big shows start at 2 and 8 p. m.

IMPROVING GARAGE

C. V. McKnight, local Chevrolet dealer, is having a new front put on his garage on West Oak street. When completed Mr. McKnight will install a new lighting system which will greatly improve the appearance of his business building.

Mr. Vandenburg, a potential G. O. P. candidate for president in 1940, addressing some of the party's leader (or was it an Elks' convention?) shouted "We have just begun to fight!" My, oh my, those Republicans must be hogs for punishment! It's been nearly a year since they were unmercifully mauled, and at present all they can do is sit up and take a little nourishment. Vandenburg, Hamilton and other leaders, are either ignorant of facts, or don't know just how to express themselves. Reminds us of a Mexican janitor at Pecos, who was proud of his English. His wife was injured in a wreck, and solicitous American friends asked how she was. "Oh," said Chappo, "he does dam fine now. Tomorrow he stand up in the bed and eat a cup of tea."

Scientist believes that age of the earth has been over-estimated a billion years. Goody! We're not as old as we thought we were.

Gen Hugh Johnson, outstanding ingrate of the year, is afraid there will soon be a ban on free speech. We sometimes wish that such would come to pass. Getting nowhere as a pro-New Dealer, he turns anti-New Dealer, and is now on the air sponsored by a company manufacturing headache remedies. This places the bombastic general in the paradoxical position of giving us a headache and then prescribing the remedy.

First grade in our school is making an intensive study of bugs. That's a large, wide and handsome assignment for even our leading experts. There must be at least a half million politicians footloose in this country, every one of them bitten by some kind of bug. Their ideas are at such variance that we feel sure it's not the same bug.

Judging from the tactics of Mr. Lewis and his cohorts we wonder if the real meaning of C. I. O. isn't "Come In Or—"

The latest in the pet line is barkless dogs, imported from the African jungles. This item does not interest us in the least. What we would like to see would be voiceless crooners and meowless tomcats.

At least ten outstanding democrats are being touted as presidential timber in 1940, among them being our own Jesse Jones. The Republicans haven't as yet named a potential choice—and the Sphinx-like silence of President Roosevelt regarding a third term has that bunch running in circles.

We pity the poor Chinese if the Japs ever take a notion to declare war on them.

The appointment of Sen. Black proves that "politics make strange bed-fellows." On the bench with him are two Jews who, with the Catholics and negroes, were targets of the Klan's venom.

Some definitions we found in our ramblings:

Bankruptcy—Putting all your money in your pants pocket and letting the creditors have your coat.

Airplane Cocktail—One drop and you're dead.

Fan Dancer—A nudist with an air conditioning system.

World's Biggest Kiss—Joe E. Brown kissing Martha Raye.

Armature—Some one on Major Bowe's program.

Magician—A boy who can turn a country lane into an amusement park.

Sugar Daddy—A form of crystallized sap.

Strip Tease (Ts)—Dismantling old Ford cars.

Project—New name for a job. Invented by PWA.

Optimist—The guy who still hopes to see an armless fiddler.

Will somebody please page Mr. Townsend of Old Age Pension fame. Looks like its going to be a hard winter.

Monahans—
A petition signed by the required number of free holders of Ward county was last week presented to the county judge, asking that the county site be moved from Barstow to Monahans. The county judge and the commissioners' court, in a meeting last week, okayed the petition and the date of an election to determine the issue was set for Nov. 9, according to the Monahans News.

Rocksprings—
An amateur crime wave, similar to one early last summer was last week reported by the Texas Mohair Weekly. Several of the business houses were entered and the knobs of five safe knocked. Besides items of merchandise the burglars made off with about \$150 in cash. No arrests have been made.

Fort Stockton—
At a recent meeting of the Fort Stockton Lions club \$75 was collected and sent to the Alpine chamber of commerce, states the Pioneer. The money will aid in the "buy an acre" campaign for the establishment of a National Park in the Big Bend.

Alpine—
A Fort Worth dispatch in the Alpine Avalanche of last week stated that Texas Hotel men in convention this week would contribute \$250 to the Big Bend project. The donation, while representing individual donations of the members of the Hotel Association, was taken from the general fund of the organization.

Iraan—
According to the Iraan Herald, the Lions club of this place have decided to launch an intensive campaign for the Big Bend Park project, and at a recent meeting a committee of prominent citizens was appointed with this end in view.

Uvalde—
The Leader-News last week reported the first major sale of fall mohair from a warehouse in that section, when L. Schwartz & Co. disposed of 150,000 pounds of old and kid clips, at 50 cents and 60 cents a pound. The prices, lower than those in the spring, were reported to be in line with those currently paid elsewhere.

Crystal City—
At a recent local option election held in Zavala county to determine whether or not the sale of beer should be continued, the final vote was 425 for the sales, and 285 against.

Floresville—
The Chronicle-Journal last week reported that up to Sept. 16 6,318 bales of cotton were ginned in Wilson county, as compared to 2,809 bales on the same date last year.

Pecos—
The Enterprise last week reported another highlight sponsored by this live-wire town—a big time football game as an annual affair. The first game is scheduled for Nov. 6, between the Sul Ross Lobos and the West Texas State Teachers.

Mr. and Mrs. John Carruthers and daughter, Miss Eva returned the latter part of last week from Del Rio where they had been visiting. They have rented the house of Mrs. W. H. Mansfield and moved in last Saturday. Mr. Carruthers ranches in the south part of the county.

J. W. Downum was a business visitor in Del Rio Tuesday.

Alfred E. Creigh and son, Al, went to San Antonio last Friday and attended the circus in that city Saturday. They returned home Monday accompanied by Mrs. Creigh who spent the past week there visiting Mrs. Helen Downie.

Brother of Joe Wolff Dies in San Antonio Hospital

J. W. Wolff left Tuesday morning for D'Hanis on receipt of a message informing him of the death of his brother, Frank X. Wolff, which occurred that day in San Antonio. Mr. Wolff was a pioneer resident of D'Hanis. In addition to his brother of this place, deceased is survived by the widow, Mrs. Theresa Wolff, three daughters, Mrs. R. E. Brigance, Mrs. Fred Ludwig and Miss Alice Wolff; four sons, Hubert, Raymond, Edwin and Clarence Wolff; two brothers, Sebastain and Emil Wolff; two sisters, Mrs. Lena Zerr and Mrs. Theresa Wipff.

Funeral services were held at the residence in D'Hanis Wednesday morning, and interment was in the D'Hanis cemetery.

Chosen Delegate To FFA Meeting In Kansas City

Bobby Lea, son of Mr. and Mrs. W. E. Lea of this city, who is a member of the senior class of the Cotulla high school, and a member of the Future Farmers of America club, has been elected as delegate to attend the national convention which will be held in Kansas City, Kas., beginning October 18th.

Bobby, also a member of the band, will leave Cotulla on next Thursday for Denton, where he will join other members of the band for a few days of instruction prior to making the trip. The band will play in several concerts enroute to Kansas City. On their return to Texas the club boys will visit the Pan American exposition in Dallas.

There is drama that grips the heart, and drama equally as gripping in the savage death dance of the wild Isorgi—a ceremony that is thousands of years old in the pathless jungle which the picture brings, sound and all, to the screen. The weird chants, the tom-toms, the swaying painted black bodies in strange cadence—it is never to be forgotten.

Wild animal fights to the death—one sees a zebra worst a lion in a death struggle; leopards routed by a pack of hyenas; the deadly charge of the rhinoceros; hair-breath escapes from the gigantic crocodiles.

Harry Carey give a magnificent performance in the role of Trader Horn, the guardian of Peru, his friend's son, and of the golden-haired Nina T, "White Goddess" in a temple of a savage tribe. Duncan Renaldo plays the role of Peru convincingly and Edwina Booth is beautiful as well as dramatic in the heroine's role. Olive Golden and others are in the cast—not to forget Mutia, the giant native who enacts Rencheru with all the skill of a trained screen actor.

Mrs. C. H. Arvin is visiting in San Antonio.

Internationally famous as a character actor, Lorre finds this his most difficult role as in a few sequences he is called upon for a triple impersonation. A Hungarian by birth, as Mr. Moto he must imitate a Japanese, and as Mr. Moto also must impersonate an Armenian.

Virginia Field and Thomas Beck supply the romance, and it is only due to Mr. Moto's tireless persistence and sense of timing that the mystery and danger that threatens their romance is cleared up. Victims of an international smuggling gang, headed by Sig Rumann, the couple are in a precarious position in Rumann's safe in Shanghai until their Japanese friend doffs his timid demeanor for the exciting climax.

Mr. Moto is a character not entirely above suspicion himself, for, as created by J. P. Marquand he is neither sinner or saint exclusively, and this spirit the directors skillfully adapted the play.

Miss Bess McAdams, who is teaching in the Eagle Pass schools spent the week end here with her parents, Mr. and Mrs. O. H. McAdams.

Mrs. C. H. White spent the week end in Crystal City, visiting relatives.

GIVE THE SCHOOL A BOOST

Are you the kind of a fellow that always has a kick for the man that's down and never a helping word to boost him up a bit? Words of encouragement are not needed to help bring victory that has been attained.

We are proud of our school—certainly, we all say we are, and yet, did you ever stop to think who is responsible for making this school what it is? It's not the fellow who sits back and says "We never have, so why don't we quit?" No school can do its best unless the student body and the community get in there and talk up that school.

Right now the entire school has its eyes focused on some twenty boys who are doing their best to carry the Black and Gold across the field of victory. All has not been smooth sailing, but who is the one that is doing the complaining? Not those football boys who are in there—win or lose—fighting for your Alma Mater as well as theirs.

Come on, fellows, let's talk up our school—not drag its colors in the dust. It needs your help, and it will help you!

Current Comment

The score does not determine a football game. Sportsmanship must be considered also.

Roberta Lochausen can't possibly understand what a "cranny" is. Won't some of you seniors tell her?

If you hear the seniors spitting out something really comical it is because they are studying Chaucer, and they think he's just too funny.

Everybody wants to know who the Snooper is. Well, that's too bad! She or He is everywhere, any time, and all the time. So, be careful!

The American History moved its residence, but some of the students didn't—until later. We wonder if they really did forget.

Solid Geometry notebooks are due today. Oh, my goodness!

Did you think the English Mastery test was hard? Well, to me it was just a few things I had meant to ask about, but didn't do it.

Brilliance Personified Miss L.—What is the largest continent, and why is it so called? Sixth Grader—Europe, named for "Your-up."

HOW GOOD IS YOUR UNDERSTANDING?

"What size shoe do you wear?" Now, girls, don't all answer at once.

This was a problem when a senior reporter tried to find out.

The girls acted as if they didn't hear the question because you know that girls are self-conscious about the size shoe they wear.

We find that Helen Turner wear size 7 1/2. Helen, take a bow. But wouldn't she look funny wearing a size 2. Mona Breg wears the smallest—a 4 1/2. The average is size 5. Now, don't tell anybody, but Miss Johnson, the volleyball coach, wears size 6.

Flash! The latest news—now even the football boys know this! Jimmy Cook has the faintest feet in the football squad—just 10 1/2. The average size is 8, while Wilton Dishman skips about in a 6, the smallest size in the squad.

Coach Smith is built on a firm foundation—size 8 1/2. Mr. Caraway says, "An 11 is a little small; I hate to wear a dozen; thirteen is unlucky; so I wear a 14."

Jest Scrimmagin' Around

The S. H. S. Eagles have lost two games this year to Class C teams. Bad, isn't it? But other teams have lost and lived over it and learned by their mistakes.

Sanderson is in Region II, District 8, in Class B football. This year the district is divided into two parts. Sanderson, Alpine and Marfa are in the south part, and Fort Stockton, Iraan, McCamey, and Big Lake are in the other section. The winners in each section play for the district championship. Supt. J. F. Reeves of Fort Stockton is chairman of the district, and Principal G. A. Horton of McCamey is secretary.

Out in this section of Texas there is a new conference C district this year. Sanderson was not invited to join. District 18 is composed of schools in this section. Members of this district are Balmorhea, Fort Davis, Rankin, Grandfalls and Van Horn.

Seven boys on the Eagle squad this season have played some football in the past. These are Bobbie Allen, Hicks Canon, Robert Chandler, Wilton Dishman, Troy Druse, and Robert Lochausen.

Cyle Earwood, junior in high school, saw his first service in football against Grandfalls last Saturday. He has promise of developing into a real player.

Malcolm Davis, who is playing football for the first time, is showing strength in the line. More like him are in demand. And he is not apt to fail in his studies, either.

The Eagles will be decked out in bright new orange jerseys for their next game. These were received this week from Lowe & Campbell. They have large black numerals on both the front and back, as required by a new football rule this year.

Marfa cancelled their tentative game with Sanderson for Friday, Oct. 8. Reason given was that some other team was probably considered as a better drawing card for the Highland fair, for a night game.

Since the division of District 8B Sanderson has to play only two League games, Marfa and Alpine furnishing the opposition. Such an arrangement makes it difficult to complete a full schedule, unless outlaw football is resorted to.

First Spring Pavilion The oldest spring pavilion in the United States was erected over one of the famous springs at White Sulphur Springs, W. Va., about 1818.

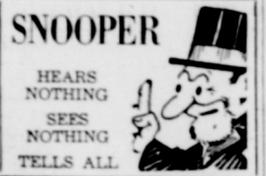

Keeping Tab On Exes of S. H. S.

William Henry (Jr.) Lemons graduated in 1936 from Sanderson high school. His main activity was band. He played the saxophone in the high school band for a number of years. Junior is a Sophomore at Texas Tech. at Lubbock, Texas. At the present time he is getting along fine in his studies.

Reuben Mussey (Sy), graduated from Sanderson high school in 1936. He was a star football player on the Eagle squad. He played with the Eagle for three years. Sy is a sophomore in John Tarleton college, Stephenville and is on the football team. He is doing fine in his studies at the present time.

D. C. Thrift, a former student of Sanderson high school, recently passed through Sanderson enroute to San Antonio. From there he expected to go to Houston where he has accepted a position with an oil company. D. C. received his degree from Sul Ross last spring and for the past two years he was assistant coach of debate in the Alpine high school. While attending S. H. S. he represented the school in debate for several seasons.

Note: The staff of the EAGLE NEWS need information concerning ex-students of the S. H. S. If you have interesting information regarding some former student, who is now making good, please turn it into the staff. Also information is needed about graduates of the Sanderson high school for any year prior to 1909 and for the years 1913 to 1916, inclusive. (Thanks).

What girl was seen Sunday night with Albert Weigand in a Model A Ford? Was that you, Miss _____?

Students Asked to Aid Fund for Park

The Sanderson Public Schools have received an invitation to participate in raising a fund for purchasing land in the Big Bend National Park. They have also received a large poster with pictures and descriptions of the Big Bend Park area.

A contribution of from ten to twenty-five cents by each student will be greatly appreciated by the National Park Service, and will make the student feel that he has an interest in the park. The sum to be raised is one million dollars, which will be used to purchase land in the Chisos Mountains for a National Park. The park will also include 400,000 acres just across the Rio Grande. It will be a National Peace Park between Mexico and Texas.

NOTES FROM THE Grades School

The children of the first grade are making an interesting study of the various types of bugs. The children catch the bugs in little white nets. After they catch the bugs they take them to the room and make a study of each one. The children are finding this study very interesting and helpful to them.

The pupils of the fourth grade are making "Safety First" posters. They are making cut-out letters which are pasted on a sheet of construction paper. The posters are all concerning safety in various places. They also have been making colorful posters in their art class. The cut out trees, houses and other things which make up a landscape. They paste these on colored paper, used for the background. They have made several pretty posters this way.

THAT "LUCKY FELLOW"

Bosh! He isn't lucky at all. He's just got good sense, plenty of nerve, a body and soul full of ambition to get somewhere and the will power to execute his resolutions.

While we idle, he works. When we sit, he thinks. We resolve, he executes. Tomorrow we will plan what to do next day. Yesterday he had it all worked out, and today did it.

Anyone can do what he will—within reasonable limits—but it can't be done without action. Take a dose of "wake up and go" if you want to get somewhere.

Students Display Interest in Library

The library is very busy these days. Everyone seems to be reading a book. One new book in the library is "A Grain of Wheat," by Toyohiko Kagawa, the noted Japanese writer. This is an outstanding book for young people. It is the story of a young man who made his Christianity count in a most practical way by building it into a better life for his community. This is a good book and has been read by many.

Some of the most popular books in the library this year are: Martin Johnson, Lion Hunter; The Broad Highway, Little Men and Little Women. These books are always in demand and they never seem to get old to us.

Another new book recently received in the library is "The Art and Science of Speech," by E. C. Barksdale, a teacher in the San Antonio public schools. This book deals with the various speech events in the Interscholastic League and should be helpful to pupils and teachers in preparing for competition in 1-act play, declamation and debate.

DRUMS RECEIVED

Ten bright, new, orange and black drums made their appearance in high school Tuesday. The drums are for the new drum corps which will soon be a reality. Girls who ordered the drums are Helen Turner, Marjorie Cannon, Adelaide McGonaghy, Elizabeth Brown, Lillian Harrell, Laverne Halley, Margaret Gregory, Martha Bassett, and Vivian Earwood. More will be heard from these drums later! ! ! !

YOUR P. T. A. DUES

Forget the trials you have had; Forget the weather if it's bad; Forget the knocker—he's a freak; Forget him seven days a week; Forget you're not a millionaire; Forget the gray streaks in your hair; Forget the home team lost the game; Forget the one who was to blame; Forget to ever get the blues But don't forget to pay your dues— On time! —Irene C. Rees.

Choral Club Meet and Elect Officers

At the last Choral Club meeting, Sept. 29, the officers for the club were elected. There were as follows: Ethel Laura Nance, president; Bennie Mussey, vice president; Laverne Halley, secretary; Doris Cochran, reporter.

There are twenty-eight girls in the club, twenty-two sopranos and six altos. The theme song selected is "Trees," the words being written by Joyce Kilmer. Some new songs have been ordered which the class will learn.

Miss Louise Taylor, a former student in music of Baylor College and of San Marcos Teachers College, is the director of the girls' Choral club this year. Miss Taylor has had considerable experience in choral club work in other schools.

Uniforms for the choral club this year have not definitely been decided upon.

WHERE DO YOU FIT?

If a student studies, he's a book worm; if he doesn't, he's a fake. If he flunks, he's unlucky; if he doesn't he's a cribber. If he knows his lessons, he's a smart aleck; if he doesn't, he's a dumb-bell. If he has ideas, he's a crank; if he hasn't, he's numbskull. If he spends his money, he's a spendthrift; if he doesn't, he's a tightwad. If he's quiet, he's a high-hatter; if he's sociable, he's a pain. If he talks, he's a chatterbox; if he doesn't, he's an oyster. If he's religious, he's a fanatic; if he's not, he's a heathen. If he dies rich, he's a skinfliant; if he doesn't, he's a pauper. Now, I ask you confidentially—Which are you? —sHs—

Brain Teasers From Math Club

Each and every Friday a group of future Einsteins meet in the Math room. Their chief ambition is to solve all problems involving mathematics. Such is called the Math Club. One of the problems confronting them at present is as follows:

"If a hen and a half lays an egg and a half in a day and a half, how long would it take six hens to lay 42 eggs?" And one of the problems last week was:

"A certain young man went into a grocery store and purchased some apples. As he emerged from the store, who should he meet but his girl friend. He gave her half of his apples and a half an apple. He had not gone another block when he met a second girl friend to whom he gave half of his remaining apples and half an apple. (Women, as you know, have a weakness for apples). When the unfortunate lad finally reached home he had one apple left, but during all of this he had not cut one single apple. Question—How many apples did he start out with?"

Moral: Be content with one girl friend. Better still, none.

So get out your compass and ruler and Algebra book and tie into 'em. If they keep you awake at night, don't blame me. Blame Mr. Caraway, he started it. Anyway he knows all the answers. —sHs—

Eagles' Feathers Are Ruffled By Grandfalls, 32-0

The Sanderson Eagles played the Grandfalls football team at Grandfalls last Saturday. The Eagles were defeated 32 to 0 by a heavier and more experienced team.

Sanderson won the toss and chose to receive. Earwood took the punt but fumbled when tackled. Grandfalls recovered and immediately drove for a touchdown, using a reverse play over the right side of the line. Grandfalls next kickoff was taken by Earwood who was downed on the Eagles' 30-yard line. Sanderson, for the first time this year, displayed offensive tactics and drove the ball to midfield before they were forced to punt. Grandfall again took the ball and a steady march down the field netted them another touchdown before the end of the first quarter. They converted, and the score was 13-0.

Sanderson kicked off to open the second quarter, Grandfalls taking the punt on their own 20, and run it up to the 35-yard line.

In this third quarter Grandfalls scored two more touchdowns by using line play over Sanderson's right side of the line. Tries for extra point after both touchdowns were not good. At the end of the third quarter the score stood, Grandfalls 25, Sanderson 0.

Sanderson showed a decided weakness in the final quarter as in the last half with Fort Davis, and Grandfalls scored again, and converted, bringing their total to 32. Another touchdown was made in this quarter by Grandfalls, but it was called back and a 15-year penalty assessed against the local boys for clipping. The final score was Grandfalls 32, Sanderson 0.

A clean brand of football was played by both teams and very few penalties were assessed.
