West Texas Ranchers Request No Letdown on Import Rates of Materials Competing With Domestic Trade

Wool growers were promised aid this week by the Department of Agriculture of 22 to 24 1-2 cents a pound for good Texas 12-14 wool, as a means of bolstering the recently lagging wool market. The plans were outlined by the Department to a delegation representing the West Texas wool industry. The delegation, headed by T. Baker, president of the Texas Sheep and Goat Raisers' Association, learned that plans called for a flexible loan scale, with the amount depending upon the grade of wool.

The group also urged congressional leaders to oppose any reduction in tariffs on wool or woolen goods under the proposed treaty with the United Kingdom, which would be detrimental to their interests.

Thomason on the Job
In the interests of West Texas ranchers is Congressman Thomason, who has had conferences with Secretary Cordell Hull, president of the State Cordell Hull, president of the ranchers' objections to lowering of import rates on commodities, raw or finished, and to encourage a large import of domestic growers. One written by G. W. Cunningham, secretary of the Texas Sheep and Goat Raisers' Association, presented to the committee by Thomason, drew the explanatory reply from Mr. Thomason:

Hon. R. E. Thomason, our congressman, who is taking an active part in the fight of West Texas wool growers, to prevent lowering of import rates on wool and woolen products.

Highway Work West of Here to Start Monday

A construction crew and road-building machinery have been moved into this county by the T. M. Brown & Son firm, who were awarded the contract for work on Highway 90 west of here, the first part of February.

The work is confined to 1.1 miles of highway, and includes leveling a hill and reconstructing the base course. The awarded price of the contract is \$9,182.

Work will start the first of the week, it was announced, and 60 days will be required to complete the job.

Completion of this work will put that portion of the highway in Terrell county in first-class condition, although there are many dips that must be eliminated and bridges reconstructed before the road can be classed as an all-weather route.

A new business for Sanderson will be launched some time this month, according to present plans of those interested. It is a variety store, and will be located in the Ferguson building on Oak street, formerly occupied by the Pennington drug store.

The business will be owned and operated by Preston Pater of Sonora, and Mrs. Theresa Friend and son, Houston Stokes, of Menard. Mrs. Friend formerly resided in Sonora, is a close friend of Mrs. Dick Hill of this city, and a sister-in-law of Mrs. Harry Sharp, former Sanderson resident. Mr. Pater has been employed in the E. F. Vander Stucken Co. store in Sonora, and has been a resident of that city since 1928.

National Used Car Week to Stimulate Business Slump

New York, March 2—A national drive to sweep the American automobile industry out of the current recession and stimulate American business generally was announced here today by Alvin Maccauley, speaking for every American automobile manufacturer and the nation's 46,000 automobile dealers.

The campaign, to be known as "National Used Car Exchange Week" and scheduled for March 5 to 12, is an outgrowth of recent conferences at the White House between President Roosevelt and leaders of the automobile industry. Mr. Maccauley stated. The President has been advised of plans for the campaign, which is the first cooperative effort ever undertaken in which all American automobile manufacturers have taken part.

The campaign is timed at the outset of the spring selling season when both used and new cars usually begin to move in greatest volume, Mr. Maccauley said. It is aimed primarily at stimulating the disposal of used car stocks in dealers hands. Once this is accomplished, a substantial increase in car manufacturing schedules and employment of wage earners in the automobile factories is anticipated.

So far as the automobile industry is concerned, the most serious barrier to business improvement is the large stock of used cars in dealers' hands, Mr. Maccauley pointed out.

"Until these cars can be sold, it is impossible for dealers to handle a normal volume of new-car business," he explained. "This means that factories will be forced to continue on part-time, and thousands of men in the motor car plants and in allied industries must remain either out of work or on part-time schedules."

BACK FROM MEXICO

Mr. and Mrs. S. L. Stumberg and Mr. and Mrs. Robert Duncan returned home last Saturday from a two weeks motor trip that included a visit to Mexico City, and other points of interest in Old Mexico. They reported a very enjoyable trip.

FIRST STOCK SHOW SUCCESS

Large Gathering Attend County's First Stock Show

Terrell county's first 4-H Club livestock show, held here Tuesday afternoon, was a decided success, and was attended by a large crowd of ranchers and citizens. The exhibit was held on a vacant lot on Oak street, and the boys' entries consisted of five Hereford calves and 12 Rambouillet-Corriedale lambs. The show and judging started at 3:30 o'clock p. m.

The club was organized last summer by Ernest L. Williams, county agent, with six charter members, as follows: Allen and John Hardgrave, Hicks Canon, Bob and David Allen, and Campbell Kerr, all sons of prominent Terrell county ranchers. During the short time the boys have been feeding these animals much progress has been made, and the fine condition of the calves and lambs drew many favorable comments from those attending the show.

In preparing their entries for the show the boys displayed initiative of regular exhibitors. All the animals were arrayed in their "Sunday best, so to speak. The animals were washed, the hooves of the calves polished, their thick coats curled, while the lambs' fleecy coats were trimmed and blocked.

Winner in Calf Division

First prize in the calf division was awarded to Bob Allen, who, in addition to a blue ribbon was awarded a fine heifer calf, donated by Malone Mitchell, and raised on the Mitchell ranch. The winning calf was from the Big Canyon ranch, selected by Tom Russell, manager of the ranch. Second prize went to Campbell Kerr's calf, from the registered Hereford herd on the Malone Mitchell ranch. Besides a place ribbon, he received a show halter as a prize.

Third place winner was the calf fed by David Allen, also from the Big Canyon herd.

Awarded fourth place was the calf of Campbell Kerr, another product from the Mitchell ranch.

Fifth place was the calf fed by Hicks Canon, from the Robert Duncan ranch.

Each of these four boys were given imported Scotch combs as prizes.

Prizes, as well as the expenses of holding the show were made possible by the following Sanderson business firms: Kerr Hotel, City Drug, Empire Cleaners, The Community Public Service Co., Sanderson State Bank, Ferguson Motor Co., Frank's Super Service Station, Sanderson Mercantile Co., Cooke's Market, Jas. House Grocery, and McKnight Motor Company.

Winners in Lamb Division

Twelve lambs were entered in the show, divided into two divisions, group showings and singles. The entries were led by John and Allen Hardgrave. This division was judged with the following results.

First, second and fourth places were awarded to John Hardgrave.

Third, fifth, and sixth places to Allen Hardgrave. The lambs were excellently chosen and well cared for, and competition in this department was close.

Prizes of ewe lambs were presented the two boys, donated by J. M. Corder, Webb Townsend, and J. C. Mitchell.

In the group showing of three lambs, first place went to Allen Hardgrave, and second to John Hardgrave. No prizes were offered in this group showing.

Ernest Gibbens, county agent for the counties of Brewster and

Jeff Davis, was judge in the calf division. After awarding places to the entries, he gave an interesting talk, giving many practical hints on judging calves, and the selection of calves for feeding.

C. M. Gay, county agent for Pecos county, judges the lambs.

Wednesday afternoon County agent Williams and the 4-H Club boys left for San Angelo with the stock exhibited here, and will place them on exhibition at the big stock show to be held in that city beginning today. Quite a number of Sanderson people are planning to go over Friday for the show.

For the fine success of Terrell county's first livestock show, Mr. Williams stated that he was deeply appreciative of the help given him, and the interest shown, by both the ranchers and citizens. Present plans are to make the show an annual affair, and he hopes that next year will see a bigger show, with more of our boys in the role of exhibitors, and that there will be more and varied entries in the different divisions, demonstrating in no uncertain way the possibilities of this section as a livestock raising area.

Supt. Principal Are Re-elected For 1938-39 Term

Announcement of the re-election of R. D. Holt as superintendent of public schools, was made to the Times too late for any but mention of that fact. We felt that the choice is one heartily endorsed by an overwhelming majority of our people. A slight resume of school affairs under Mr. Holt's administration would hardly be amiss at this time.

This is Mr. Holt's third year as head of our school system, and during this time, every department has shown an improvement along basic lines. When he took charge the school was proud of the fact that it 23 affiliated credits. Reorganization of departments, the substituting of important courses for those of lesser importance, and the addition of extra activities, have increased these credits until this year the school has 28 1-2 affiliated credits. Courses, we are informed are thoroughly taught, and students who have graduated during the past two years have experienced no trouble in matriculating at colleges of their choice.

In students' athletic activities Mr. Holt not only acquiesced, but he cooperated with and encouraged this phase of physical education.

Duane Smith was re-elected principal of the high school, and head of the athletic department. He has been with the school seven years. He enjoys a popularity such as few people serving the general public enjoy. He is competent both as a teacher and director of athletic activities.

Working today under supervision of these two men is one of the most competent faculties the school has ever had.

200 Men Back On Jobs in Shops of S. P. at El Paso

According to the El Paso papers 200 additional shop men of the S. P. laid off last fall were returning to work this week as a result of the major restoration program put into effect by the company. Officials stated that the restoration orders received from San Francisco headquarters mean that 80 per cent of the number originally laid off will be returned to work.

Nance Qualifies Sheriff of Terrell; Appoints Deputies

At a special meeting of Terrell county's commissioners' court, held Thursday morning the members reviewed the bond of Jim Nance, which was approved, and Nance was sworn in as sheriff, to fill the unexpired term of Lee A. Cook, resigned. Nance was appointed at the February meeting of the court.

Deputies selected are Andy Anderson outside deputy, and J. W. Haynes, office deputy. Anderson is new in the department, but Mr. Haynes held a similar position for several years.

TOP PRICE FOR STEER

Prize fat stock went on the auction block in Houston this week and scored an all-time high when the grand champion Superior Lad, owned by Clifford Jordan was knocked down for \$1100, bought by the Rice Hotel.

When to print a news story and when to withhold certain news is a major problem of the average country newspaper. In cases where an officer has betrayed a public trust, or in the case of a person guilty of a serious crime the road is easy. In such instances the public have a right to the facts. Where the offense is personal, however, and to publish the story would serve no beneficial purpose, the editor is on the spot. To withhold it brings howls from a few—thank God, just a few—who insinuate the paper hasn't intestinal fortitude. What a howl these few would let out were the paper to publish some details in connection with their conduct. In case of doubt the editor must be guided by conscience. If an error is made on the side of kindness and sympathy it will be forgiven by the more broadminded readers, who are overwhelmingly in the majority. The mission of The Times, in the main, is to carry on for the best interests of its town and section. To divert from this course, and dabble in the muck of harmful rumor is not, and will not be, its policy.

Gov. Allred's attack on Bill McCraw, attorney general, has us puzzled. It looks as though he is playing the role of the dog in the manger, or trying to clear the fairway for a third try at the cup.

Frauds, swindlers, shell game slickers! Harsh words, Horatio! But last week the high school advertised a slap-ball game between our girls and the gal team of San Antonio. Thinking it a good chance to see new faces, new forms, curves, etc., a change of scenery, so to speak, we invested 25 Lincoln coppers. Ugh! The touted beauties from Santone were high school boys. Consolation comes with the fact that every candidate for bald-headed row was there, too. And some talked their wives into going to the movies or staying at home. The Eagle News reports the gate receipts totalled \$65, more than three times as much as taken in at any other game. So, we had lots of company. Ugh!!!

The administration can think up the funniest things. The latest brain storm to halt the recession (whatever that is), is for us all to buy second-hand cars. Right now half the U. S. is riding in cars they'll never pay for, and the other half is hitchhiking. But if every person did have a car, the slaughterer might be so great that there would be no economic problem for the few left.

The things they're digging up on Attorney General McCraw will make him out an arch criminal. That's why we never sought office: our opponents would trace back far enough to find that our ancestors hung from trees by the neck instead of the tail.

Springtime is house cleaning time, even in Soviet Russia. But this time they're going to shoot only twenty-two.

"President Signs Insect Control Bill." We hopes that takes in these white-collared parasites holding an insignificant office in the Alphabet League, but who order you around as if they were "got-a-mighty."

In springtime minds will wander, You'll keep cooking like a dove. And wonder what's the matter—Shucks, you ought to know its LOVE!

Well, after this brain hatch, we're ripe for a tussle with one of those "cats" with which the Rio Grande reputedly abounds.

Romance, Glamor Highlights Latest Dietrich Picture

"Angel," which will be shown at the Princess Theatre on next Monday night, March 7, brings to the screen a new star combination. The delicate, ethereal beauty of Marlene Dietrich and the light, whimsical directorial touch of Ernst Lubitsch, making a compound that brings out a high variety of film entertainment.

The production is handsome as well as lavish, the acting of Miss Dietrich, Herbert Marshall and Melvyn Douglas all that anyone could ask, and the supporting cast simply splendid.

Herbert Marshall plays the part of an absorbed diplomat, giving all his time and attention to political problems to the exclusion of his wife, Marlene Dietrich, who resents his lack of attention.

They have one evening together during which Miss Dietrich answers all of Douglas' questions about herself with the statement that he must never know who she is, and must never see her again.

A strange quirk of fate brings Marshall and Douglas together—they become friends. Douglas visits Marshall's home and he is astounded to meet the woman he knew in Paris only as "Angel." Dismayed, she runs away from them and they both pursue her, and she decides finally that her old established love for Marshall is worth more to her than her new emotion for Douglas.

HEALTH CERTIFICATES FOR FOOD HANDLERS

Austin.—For the protection of the public a law was passed in 1921 making it mandatory for every person employed in a public eating house, bakery, meat market, dairy or candy factory to secure a health certificate from a reputable physician.

Typhoid fever, diphtheria, and amoebic dysentery carriers have been found numbers of times at work in dairies, cafes, and other places where food is prepared or offered for sale. It is not too much for the consuming public to demand that those who sell them food shall be free from communicable diseases.

The Texas State Department of Health has repeatedly advocated periodic examinations for the general public, as it is during the examinations that many incipient diseases may be discovered and treatment began in time to stop development to such a degree that treatment will not help.

Mrs. T. A. Harmes returned Sunday from a visit with relatives in Fredericksburg, and at Rocksprings with Mrs. Mata Wheeler.

"45 Fathers" Jane Withers Latest, Funniest Picture

When Jane Withers and the Hartman's those eccentric ventriloquists and famed Broadway satirists of the dance, start to throw their voices and dance about uproariously funny things happen in the starlet's latest and most laughable and lovable picture, "45 Fathers," 20th Century hit which comes to the Princess Theatre tonight and Saturday, March 4 and 5, in which Thomas Beck and Louise Henry are also featured.

Forty-five millionaire bachelors sign up as Jane's guardians. They try to make a lady out of her, but she almost makes a wreck out of them. They try to give her that finishing school touch with Professors Sammy Cohen and George Givot in charge of aesthetic dancing and voice culture, but when the Hartmans show her how to throw voices, dancing and discretion to the winds, it's almost the finish of everybody.

Jane, in spite of her ill-luck in doing bad whenever she attempts to do good, manages to save the wealthy Thomas Beck from the entanglement of a scheming society siren intent on getting his money. The manner in which she and the Hartmans perform this good deed is enough to make even the dummy laugh.
