A very light vote was cast in this county last Saturday at the primary election. In precinct 1 only 39 votes were cast out of a possible 500 or more. At Dryden, precinct 2, the only other place that an election was held in the county, a total of 19 votes were cast out of a possible 90 or more. Due to rains and to the fact that the creeks were up it was impossible to get the ballot boxes to precinct 3 and 4.

Passes Through  
Sanderson in July**

A way-bill billed from Portsmouth, Virginia, dated July 16th, 1938, final destination Portsmouth, Virginia, passed through here on July 29th. This way-bill is known to the railroad men of the country as a "Boomer Way-bill", in that it makes a complete circle of the United States, portions of Mexico and Canada. An interesting feature of this way-bill is that every terminal through which it passes and every conductor who handles this way-bill is requested to endorse same and to add anything of interest concerning the particular part of the country through which it passes.

This way-bill was handled Sanderson to Valentine by Conductor W. H. Savage.

J. W. Happle is back on the job at the Kerr Mercantile after a two weeks' vacation spent here.

President Roosevelt, after proclaiming Wildlife Week, bought the first stamp of the last wilderness; cottontail of the farmlands. the most auspicious openings in its history, the Paisano Baptist Encampment began its 18th annual session Tuesday night. More than 400 are camped on the grounds, augmented by large numbers of daily attendants from Alpine, Marfa and adjacent communities. From almost every section of Texas, and from several outlying states they come. About a third are in this section for the first time. Many express amazement to find such climate and scenery in Texas.

Big Bend Sentinel—Marfa will be host to the nation's key figures in the beef cattle industry next Wednesday, Thursday, and Friday, when cowmen gather here to discuss the problems created by the sharp stock production increase in the South and the methods for increasing national meat consumption.

Floresville Chronicle-Journal—Floresville Peanut Pow Wow early in September, a festival to boost to the world one of the main crops of Wilson county and one of the chief factors in the Diversified Farming program so successfully carried on in this county, is now a certainty.

Fort Stockton Pioneer—For a number of years Fort Stockton has been placed arbitrarily in a price zone higher than that prevailing in towns east and north of Fort Stockton, both on the OST, U. S. 67 and the Bankhead. For several months past there has been a spread of 2 and 2½ cents in prices here and in serious loss of business, not only for filling stations and local oil distributors, but for other lines of tourist-supported business as well. These are the points on which the Lions Club will base its claim for a revision.

### Texas Youths Are Furnished Employment by NYA Work Projects

AUSTIN—More than 250 NYA Work Projects on which 9,500 Texas youths will be employed part-time have already been approved for the 1938-39 fiscal year by J. C. Kellam, State director of the National Youth Administration. The projects approved include those already in operation which are to be continued and some new projects too. As additional NYA Projects are developed during the year, they will be added to the present program.

Mr. Kellam said that the projects approved were selected for the job training value they will provide for the youths assigned to them as for the beneficial results which will accrue to each sponsor. The number of youths assigned to NYA Work Projects in Texas in Texas has been rising steadily since January 1, and the program will be extended until the job-training and employment it offers is available to every eligible youth possible. Young people who have passed their 18th but have
