This past week we had the honor of attending our third Blue and Gold Cub Scout banquet, and watch these young citizens of the future come forward for their awards which they had won during the past year.

So far our boys aren't old enough for this activity yet, but whether you have boys the age of Cub Scouts or not, it is hard not to get sorta worked up just watching their faces as the various badges, arrow points or what have you are handed out to them.

Ever see a lightning bug light up? Well, that's the closest thing to what happens we can think of. Next year, don't miss the opportunity to take part in this event.

Congratulations to all those youngsters who were presented awards Friday night.

We hate to harp on a given subject week in and week out, but when something comes around that something should be said about, well usually we try to.

This past weekend three groups of boys from the local Future Farmer Chapter went to Olton and Lubbock for judging contests.

While at the Lubbock contest J. C. Lane and J. T. Gee purchased the Grand Champion Duroc boar at that contest. We are proud that these men have had the foresight to make such a move.

They have the boar for service with the proceeds going to the local FFA Chapter.

We think that this move is one in the right direction for our young farmers to be thinking along . . . good stock and good maize just go together like ribbon cane syrup and hot biscuits.

We already have the maize and with good animals like this boar can help us obtain our youngsters won't be looking to Benson for help, but can stand on their own two feet and walk their grain to market.

J. C. Tells us that he has already had about 20 requests for services from this boar so the boys will make their money back, plus more in short time.

Visiting with J. T. Gee on this subject he tells us that the Chapter made over \$1,000 in one year with a registered Jersey bull some years ago (he wouldn't tell us what year it was but they were only charging \$5 so that pretty well dates it!)

BUILDING PERMITS

The following building permit was issued at the City Hall in Friona during the week ending March 1:

O. D. Bingham--Doyle Elliott --to build a new bowling alley at an estimated cost of \$50,000.

Squaws Scalp Antelopes

With Tommy Lewellen opening the scoring with a field goal early in the initial quarter of play, the Friona Squaws decisively defeated the Abernathy Antelopes in Plainview Tuesday night by a score of 49 to 29 to gain a berth in the Regional Tournament to be held Saturday in the Chapman field house in Lubbock. The Squaws' opponents and game time is yet to be announced. The win Tuesday night over the Antelopes avenged last year's defeat when the Squaws were beaten by a close margin of only five points. Fans will

recall this was the game when a starting forward for Friona missed action due to a knee injury. Also, this win gives the Squaws a trip to Regional for the second time in three years and makes the fourth time in four consecutive years they have gotten out of their district. There will be two games to be played in the tournament in Lubbock Saturday and in the event the Squaws come out on top in both games, they will then have a trip to Austin and the Girl's State Tournament to be held the following weekend. In the Squaw-Antelope game

in Plainview, it was the Squaws all the way as they found the bucket bottomless as the round ball found its mark throughout the better part of the evening.

but the same didn't hold true for the Antelopes as they scored only eight points in the opening period to Friona's 14.

The second quarter of action

was much the same story as the Squaws again found the bottom hole in the net to score 13 more while holding the hapless Antelopes to a mere four to give a halftime score of 27 for the Friona Squaws and 12 for the Abernathy Antelopes. Changing ends in the third period but not their style or brand of ball, the Squaws from Friona again outscored their opponents as they hit the mark for 12 additional points while Abernathy scored seven to move into the final period of play with the score 39 for the Squaws and 19 for the Antelopes, the

Class AA defending State Champions.

With each team scoring 10 points in the final period the Squaws maintained their 20 point lead built up during the first three quarters to go on and win by the same margin with the final score 49 for Friona and 29 for Abernathy.

Scoring for Friona was Jacquelyn Magness who had a warm night on the floor as she scored 23 points on 10 field goals and three extra points. Charlotte Bock hit for eight field goals to account for 16 points and Tommy Lewellen,

the play maker and floor man for the Squaws had five field goals to account for 10 points. Defensively it was Lawana Houlette, Eleanor Dodson and Gwen Green handling that end of the chore as the Antelopes found themselves smothered throughout the biggest part of the game.

Fans are urged to attend Saturday's game which will be held early in the a. m. in the Chapman Field House in Lubbock and back the Squaws who are making a bid for their first trip to the state finals in many years.

Feb. 29 Special For Few

February 29, which rolls around only once every four years is a day which is looked forward to by a "favored" few in our community.

Among these who claim February 29 as their birthday are Lonnie Ellis and Stevan Thornton, pictured here, and Glenn Floyd and Bill Flippin. Monday a new face entered this select group . . . young John Paul Latham, the fifteenth child born to Mr. and Mrs. J. O. Latham of Friona.

Young Ellis and Thornton, who according to the calendar are only three years old, but have the experience of 12 year olds and celebrated their birthdays together Monday and planned a trip to Amarillo Wednesday to see the Harlem Globetrotters play basketball.

After checking with Floyd we found he spent his birthday visiting the Friona schools (and incidentally almost missing out on a birthday party in his honor) and Flippin, well we haven't chased Bill to earth yet to find out how he spent his birthday.

As for young Latham, he was pretty well satisfied with about everything when his picture was taken shortly after his birth Monday night.

Mrs. Latham told the Star that "I'm glad he was a boy, for with all the other children we had 10 girls and four boys so this will sort of even things up."

The new father had left the hospital, guess this was routine for him.

The Lathams other children include Lois Marie Hunter, 23,

(Continued on page 8)

Handlers Asked For Certificates

All food handlers in the county (referring to all those persons who handle food in cafes, restaurants and stores selling ready to eat items) are warned to obtain proper health certificates, says Dr. Paul Spring of Friona, county health officer.

Dr. Spring emphasized that all food handlers are required by state law to have in their possession, or in their place of business, a valid health certificate.

Failure to comply with this law draws a penalty of from \$10 to \$200 fine.

Dr. Spring urged that all persons engaged in food handling obtain a certificate as soon as possible.

Moisture Report

The following moisture was recorded at the official weather bureau rain gauge at Friona Consumers during the week ending March 2.

THEY PUFF PRETTY HARD FOR 3-YEAR OLDS!--Lonnie Ellis and Stevan Thornton, right, puff out candles on their "third" birthday cake Monday afternoon. Born on February 29, the boys have observed only three birthdays in their 12 years.

Kenneth Williams New Boss Lion

Kenneth Williams of Friona was elected president of the Friona Lions Club to serve during the 1960-61 club year at the regular meeting of the club Thursday night.

Williams replaces George W. Jones in the capacity of Boss Lion and will take office in July.

Other officers elected at the meeting include Hollis Horton Jr., first vice president; Paul Hall, second vice president; J. C. Claborn, third vice president; Flake Barber, secretary; Dave McReynolds, tail twister and Martell LeVeque, Lion tamer.

Three directors elected include Marion Fite, Bill Nichols and Andy Hurst.

In addition to electing officers club members drew names from the pot to see who, along with

the incoming Boss Lion will represent the club at the Lions International Convention in Chicago slated for this summer.

The club sends the incoming president, along with one man from the list of 100 per cent attendance members to the convention.

Barber was picked from the 13 perfect attendance Lions to go on the trip along with Williams to represent Friona Lions.

Sweetheart election was postponed until the next meeting of the club.

Williams has been active in the Friona Lions for the past several years and has served in the capacity of vice president and assistant tail twister.

IN THE COURTS

No cases were tried in either the corporation of justice of peace courts in Friona during the week ending March 1.

Final Rites Conducted For Ervin Johnson

Final rites for Ervin Johnson, 77, who died Saturday at Parmer County Community Hospital, were conducted from the Friona Methodist Church at 2 p. m. Monday. Rev. Hugh Blaylock, pastor, was the officiating minister.

Johnson, a native of Bowie County, Texas, was first married to May Kilgore, who died in 1943. Later he was married to Hester Ferguson, who survives. He resided on a farm near Friona about 20 years before moving to town, and had been a resident of this area since 1926.

Surviving children are four daughters, Mrs. Gladys Kiel of Wichita Falls, Texas, Mrs. Freda Seitz of Pampa, Mrs. Jewell Wells of Friona; and four sons, Elvin Johnson of Nocomo, Floyd Johnson of Lubbock, Wayne Johnson of Colorado Springs, Colo., and Herschel Johnson of Friona.

Burial was in Friona cemetery under the direction of Claborn Funeral Home.

Cub Scouts Honored At Annual Banquet

Over 35 Cub Scouts and their families were on hand Friday night for the annual Blue and Gold Award Banquet for the awarding of badges and other honors for local members of Cub Scout Pack 56.

Among the special guests at the banquet were Mr. and Mrs. Raymond Fletcher of Hereford, scout executive for the district; and Mr. and Mrs. Guy Latta of Friona.

Mrs. Latta is president of the Modern Study Club, sponsors of the Cub Scout Pack 56.

Kennedy Squyres, son of Mr. and Mrs. Buddy Squyres of Friona received the highest award of cubscouting during the evening ceremony. Young Squyres received his Webelo award, signifying his climbing through all the ranks of cub scouts, and ready for his

Tenderfoot award in the Boy Scouts. Squyres was presented his Webelo ribbon by Fletcher.

Lion award pins were passed out to the parents of Joe Bob Mann, Mike Wooley and John Baxter. (The mothers pinned the awards on the boys upside down, after doing their first good turn the boys are then allowed to turn the pins right side up on their uniform.)

Wolf awards were presented by Cubmaster Joe Mann. He presented this award to Jody Fallwell, Gary Capps, Danny Carthel, Joel Osborn, Mike Pavalus, Milton Carlton, Mike Schwab, Mitch Terry, Larry Martin, Scotty Wooley and Gary Shirley.

Bobcat awards were presented by Den Chief Joe Ayres to Billy Bertchitwood, Troy Bass, David McFarland, Danny

Kendrick, Butch Watkins and Dean Agee.

Arrow points were presented to Mike Wooley, Joe Bob Mann, Johnny Barker, Randy Schwab and John Baxter by Joe Mann.

Bear Awards were presented to Gaylon Brewer, Jay Potts and Randy Schwab.

Den Mothers were presented certificates by Judge Barker. He presented them to Fadine Wooley, Deke Kendrick, Mary Gibson, Opal Baxter, Millie Capps, Ann Carthel, Winifred Hurst, Stella Shirley, Phyllis Squyres and Christine Mann.

Following presentation of the scouting awards table decorations were judged and Den 2 was named the first place winner, Den 1, second place and Den 6, third place.

The banquet was held in the Friona school cafeteria.

NONE FOR CITY YET--

5 Men In Race For Trustee Election

Five men have petitioned to have their names placed on the ballot for the two vacancies which will be up for election next month on the board of trustees of the Friona Independent School District.

The two vacancies will be the positions of D. C. Herring and Hoyt Smith.

The five men who will have their names on the ballots include Herring, A. S. Grubbs, Wayne Garth, Meryle Massie, and Ellis Tatum.

Herring will be running for

Fleming, Glenn Reeve Sr. and Eddie Meil.

Deadline for filing for positions on the city's election is Saturday at noon at the City Hall.

Seniors Present Play

The first presentation of the senior play "Onions In The Stew" will begin at 8 this evening (Thursday) in the auditorium. This play is an adaptation of the book by Betty MacDonald and is a three act comedy.

Geneva Floyd plays the leading feminine role, that of Betty MacDonald. Charles McKenzie plays her husband, Don. Sue Baxter and Charlotte Bock are the two teen age daughters, Anne and Joan.

Other characters are Howard, Jimmie Balm; Roger, James Gee; Claude, Don Clements; Claire Fessenden, Virginia Fuiks; Lesley Arnold, Pat Foster; Margo, Levada Hand; Miss Gravey, Lawana Houlette; Beegee, Betty Barnett;

Salsie, Janette Johnson; Kitzie, Monty Baker; Mrs. Watson's Harry, Robbie Osborn; New Motor Marvin;

(Continued on page 2)

Bulletin

Three men have put their names on ballot for city elections as of Wednesday when Star went to press.

R. L. Fleming is running for re-election as Mayor; Glenn E. Reeve Sr. is running for re-election as alderman and Charles C. Scales asked to be elected alderman.

He has served as president of the board during the past two terms.

The city council will have three positions open for election in April voting and as of Tuesday afternoon no names had been thrown in that particular political ring.

The three men who will be retiring include Mayor R. L.

Five Cases On Civil Docket

The Parmer County grand jury makes it annual March trek to the county courthouse Monday, March 7.

From a panel of 16 men will be selected a jury to investigate 10 criminal complaints, and it will be for them to decide whether indictments will be made and the persons formally charged, or whether the cases will be dropped before they actually go to court.

Offenses include worthless checks, thefts and burglaries, and destruction of private properties. Some of the complaints have been made recently; others have been on tap since the fall G-J session.

To report for services grand jurors are Walter Hardage, C. C. Christian, W. N. Foster, Herbert Potts, Jack Clayton, J. D. Kirkpatrick, Monty Barrett, Don Murphy;

B. V. Hughes, E. E. Engleking, C. E. Clark, Virgil Teague, Ernest Anthony, Clyde Goodwine, Rene Sneed, and John Henderson.

There will probably be no criminal cases tried by jury, but five cases are on the docket in civil petitions. A panel of 48 men and women has been summoned to report for jury duty. The list:

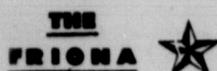

Claude Rose, E. E. Landrum, Mrs. C. P. Fairchild, A. L. Black, Dean Blackburn, J. L. Sherrill Jr., James Usbery.

(Continued on page 2)

RECEIVES WEBELO AWARD--Kenny Squyres, center, receives his Webelo Award, the highest award in Cub Scouting from Raymond Fletcher, left, district scout executive at the annual Blue-Gold Banquet Friday night. Joe Mann, local Cubmaster, assisted in the ceremonies.

Elsewhere \$4 Per Year

Right-of-Way Comes Quickly In Lazbuddie Road Project

County officials all but wrapped up a farm-to-market road project in the Lazbuddie community a week ago. They obtained right-of-way easements from landowners for almost all of the planned road that will extend from Lazbuddie northward to Highway 86.

Two owners had yet to settle when the commissioners met Monday in their regular session, and condemnation proceedings have begun in one instance (non-resident). The other property owner is expected to be able to reach an agreement with the county.

County Judge Loyde Brewer and Commissioners George Crain (Lazbuddie) and E. G. Phipps (Friona) made up the group that sought the easements in the name of the county. Henry Ivy, former Lazbuddie commissioner, assisted them. They made a one-day foray and by nightfall had all but two property owners agree to let the road improvements come through.

This is thought to be a record in getting right-of-way together for farm road projects in the county.

Commissioners Monday expressed the feeling that they would be able to complete their easement work within the next 30 days. After that, it will be up to the state to let a contract for construction of the road. This usually takes another 90 days.

It appears almost certain that the road, which runs north from the end of the present pavement one mile north of the "Lazbuddie corner," will be built this summer. The road extends three miles north, one east, and then heads north again until it intersects Highway 86 at a point 3 1/2 miles west of the county line.

The length of the project is 13 miles.

Another Lazbuddie project is due for construction this year. That is the building of a road from the Castro County line westward to pick up the end

of the pavement which is now about three miles east of the Lazbuddie corner.

That minor project is a part of a larger one, the bulk of which will be in Castro County. When completed, it will give a "straight shot" route from Farwell eastward across the High Plains to a point slightly southwest of Silverton, where Highway 86 will be picked up again. This is usually referred to as the "Draw project," since it crosses Running Water Draw in Castro County.

When those two miles of pavement are built in the southeastern part of the county, the current 10-year FM road building program will be ended.

In sharp contrast to the speedy ROW negotiations on the farm road in Lazbuddie, the commissioners slogged ahead Monday in the time-consuming task of arranging right-of-way on the four-lane improvement project of Highway 70-84. There is about 11 miles of

Sugar, Sweet Or Sour Subject

(ED NOTE: Following up our opinions of last week we were gratified to open our mail Monday morning and find the following article from the office of the Honorable Walter Rogers, our local Congressman. Mr. Rogers doesn't come out as strongly as we feel that he should on the subject of domestic sugar production, but his facts are mainly what we were interested in. Thinking that this article may be of general interest we are running this in your behalf: --)

The question of whether or not the Sugar Act should be renewed for one year may turn out to be one of the hottest issues during this session of Congress, the reason being that Cuba furnishes about one-third of the sugar used in this country. In round figures, Cuba last year furnished 3,215,457 short tons (raw value) of the United States consumption of 9,400,000 tons. In fact, we buy more sugar from Cuba than from any other source, including all the sugar produced in this country. The final adjusted quotas for 1959 were as follows:

Production Area (Short tons, raw value)	
Domestic Beet	2,267,665
Mainland Cane	697,783
Hawaii	977,970
Puerto Rico	969,875
Virgin Islands	12,405
Philippines	980,300
Cuba	3,215,457
Full Duty Foreign	278,845
Total	9,400,000

Hawaii, Puerto Rico, and the Virgin Islands, because of droughts or other causes, were unable to meet their original quotas by almost 390,000 tons. This deficit was divided up between the domestic beet growers, the mainland cane growers, and Cuba.

The domestic beet growers got 224,185 tons, mainland cane growers got 68,984 tons, and Cuba got 95,802 tons. It will be noted in the table above that Cuba is being permitted to provide approximately 250,000 short tons more than the domestic beet growers and the mainland cane growers thrown together are allowed to produce.

In fact, this country, together with Hawaii, Puerto Rico, and the Virgin Islands, which are all a part of this country, produce less than 55 per cent of our sugar needs. One of the reasons argued in support of this law is that sugar can be purchased from Cuba at a much lower price than it can be produced in this country, even though a premium above

the world price is being paid to Cuba. In any event, the program definitely cuts down the number of acres of sugar beets and cane which can be grown in this country. And it might be pointed out that it is generally accepted without question that this country could produce its sugar needs domestically without too much effort.

In view of this situation and the feeling generally that the present government of Cuba has been hostile to this country and overly friendly to the USSR, there is a great deal of sentiment for a re-appraisal by this country of the entire sugar situation, especially the preferred treatment which has been accorded Cuba. There are several schools of thought, one being that the Congress should immediately act to withdraw any further grant of quotas or preferred treatment to Cuba. Another is that the quota being enjoyed by Cuba at the present time should be measurably reduced and spread among other sugar producing countries. Still another is that the quota now held by Cuba should be measurably reduced and that portion given to mainland beet and cane growers. There is still another to the effect that the matter should remain static, and that any and all increases in sugar demands of this country should be filled by increased acreage allotments to mainland beet and cane growers. Some argue that to take the entire quota away from Cuba or even to measurably reduce it would be playing into the hands of the Reds. They feel that the Castro government would merely say to the world that the United States was punishing it for no good reason. Others feel that unless something is done to cut off or reduce the Cuban quota in the face of Cuba's recent actions which, taken at a minimum, have been definitely not friendly, this country could justifiably be accused of being soft.

Regardless of the school of thought to which anyone might subscribe, I think it could be unanimously agreed in this country that it is not to the best interest of this country to permit a Red-controlled government to be established practically at our front door, and certainly it is not to the best interests of this country to help finance the setting up of such a Red-controlled government, if that is what is happening. And many think just that. Whatever happens, every consideration possible should be given to increasing the production by mainland producers."

Former Resident Buried Recently

Funeral services for Everett Leroy Walker, son of the late Mr. and Mrs. Clarence E. Walker, were conducted recently at Walsenberg, Colo. The Walkers lived in Friona about 30 years ago.

Survivors, besides his wife and two month old daughter, include six sisters, Florence Davison of Moreland, Okla., Minnie McGee of Freedom, Okla., Mert Luellen of Pueblo, Colo., Nora Collis of Lovington, N. Mex., Evie Marcy of Naples, Idaho, and Hazel Hareno of Kellogg, Idaho.

Also one brother, Chester Walker of Pueblo and 20 nieces and nephews.

Aerospace Power For Peace

Aerospace is everything from the ground up, there is no dividing line within Aerospace that separates "air" from "space." As a field of operations, Aerospace is indivisible. It is a continuum.

We are in the Age of Aerospace now. There are no limits as to how far we can go. The present-day X-15 and Dyna-Soar are forerunners of manned spacecraft... spacecraft that will operate in that limitless expanse high over our heads.

Aerospace vehicles are only as good as the people operating and maintaining them... qualified people, trained in the various skills required by the hardware of today and tomorrow.

The USAF Aerospace Force, with its skilled men and blend of missiles, aircraft and eventual spacecraft, provides our nation with the greatest deterrent force in the world.

With missiles and aircraft in combination, we can take advantage of the performance of each, creating an instrument of Aerospace Power considerably greater and more potent than the use of missiles or aircraft alone.

Such power, born from an Aerospace Force, is the key to peace and freedom for our world.

Three Killed, 37 Hurt In 93 Accidents in 1959

Three persons were killed, 37 were injured, and \$48,561 worth of property was destroyed in 93 motor vehicle accidents in Parmer County in 1959, statistics at the Amarillo office of the Texas Department of Public Safety show.

Rural Motorcycles in the 31-county Amarillo Highway Patrol district decreased 12 per cent from 1958 to 1959," Captain J. W. Blackwell says. Captain Blackwell, commander of the Highway Patrol in this area, says, "During 1959 we had 104 people killed in rural traffic accidents compared to 118 rural traffic fatalities in 1958. Our patrolmen investigated a total of 2,000 rural traffic accidents during 1959. This traffic accident experience not only caused the death of 104 men, women, and children, but also injured 1,223 people and cause an estimated property damage of \$1,607,992."

Twelve of the 31 counties in this Highway Patrol district showed an increase in the number of motorcides for 1959. The highest increase for any county was in Hall County with five rural traffic fatalities compared with only one in 1958. Potter County had the largest number of deaths recorded with 14. Five counties --Collingsworth, Cottle, Hemphill, Ochiltree, and Roberts--did not record a traffic fatality in 1959.

"The real tragedy in our accident picture is the fact that the causative factors are well-known," Captain Blackwell says. "In 1959, as in 1958, too much speed at the wrong time and too much drinking while driving were the major contributing factors. When people start obeying the traffic laws themselves and insist that other drivers obey the law, then we will see a reduction in our accident rate."

"Doctor," said the pretty nurse, "every time I take a patient's pulse it gets faster. What shall I do?"
"Blindfold him!"
.....
"And upon what income do you propose to support my daughter?"
"Five thousand a year."
"Oh, I see. Then with her private income of \$5,000 a--"
"I've counted that in."

Reporter: "Tell me, Pop, to what do you attribute your longevity?"
Retired Truck Driver: "Well, it's thisaway, sonny. I never waste no energy resisting temptation."

MRS. FRANKLIN BAUER

of the Rhea Lutheran Church. He was 94 years old at the time of his death.

Pall bearers from Rhea were Melvin Sachs, Raymond Schueler, Herman Schueler and Chris Drager.

Sergeant--Private Jones? Voice--Absent.
Sergeant--Quiet? Let Jones answer for himself.

I GIVE YOU TEXAS

BY BOYCE HOUSE

Did you ever attend "amateur night" in an old-time vaudeville theater? I did--several times--in the Star Theater in Memphis.

Amateur night was, as I recall, on Friday night and anyone could enter--but he did so at his peril. Those who could sing, dance or play a musical instrument had an opportunity to appear before an audience and a chance to win one of the cash prizes.

The house was packed and the audience was the judge. Those that the crowd liked, they applauded. If they didn't like a performer, they would boo, hoot and even pelt with peanuts. But the most cruel form of disapproval was the cry of "Get the hook!" And out from the wing would come a long pole with a semi-circle of padded metal and the luckless performer would find this about him and would be yanked from the stage. Yes, it was perilous to try to please the audience on amateur night.

Nevertheless, I once took part. Well, I was not a performer; I was what you might call the promoter or producer of an act. It came about in this way:

I was in the eighth grade at Prescott (now Guthrie) School and lived on Chelsea. Next door were twin brothers, several years younger than I, named Harry and Harold. I was the

Patterson, Norman Taylor, Claud Mears, and Richard Vaughn.

Mrs. Helen Potts and Mrs. Ray Martensen attended HD Council held in Farwell Monday.

Mr. and Mrs. Ernest Ramm and children of Muleshoe were recent visitors in the Franklin Bauer home.

owner of a set of boxing gloves so I said to the twins, "Why don't you and him fight on amateur night?"

Since this was not to be a real fight but an act, I felt a little rebarsing was in order, so I said, "Harry, you will win the first round; Harold, you will win the second round; the third and final round, you are on your own."

We reported at the alley door of the theater and were admitted back stage. When the time came for the bout, the sight of brother against brother appealed to the crowd. All went well in the first round, which was won by Harry, as agreed. The second round however, Harold got a little too vigorous and knocked Harry down. Up the battler bounced and tore into his brother. Harold gave punch for punch and the crowd roared. The bell rang but they still stood toe-to-toe, slugging until the assistant stage-manager, who was the referee, halted it.

They won second prize, which was \$5. As I recall, I gave them half. After all, I had thought up the idea, furnished the gloves and wrote the script.

Can you remember when, to keep his straw hat from sailing away--(they were called "sailors", by the way)--a man had a little black cord, one end of which was attached to the hat and the other end was hitched in the button-hole of the coat lapel? That's one fashion that should never have been abandoned--as far as West Texas is concerned.

An interesting sidelight on the Bryan-McKinley campaign of 1896 is provided by Oscar Ameringer in his "If You Don't Weaken" (Henry Holt and Company). Ameringer lived in Can-

ton, Ohio, which was the home of the Republican presidential nominee. McKinley, it will be recalled, conducted a "front porch" campaign while Bryan made the most extensive speaking tour the nation had ever seen.

Ameringer, as a member of the Grand Army Band, was on hand when the delegations arrived by train and the band would then lead the parade to McKinley's home. The young musician heard all but one of McKinley's speeches.

When Bryan was to speak in Canton, Ameringer went to hear him--but did not. The speech was made from the rear of the train. The crowd was so vast that Ameringer was unable to get close and, when Bryan began to speak, it seemed that "every switch engine in the state was slamming and bumping more cars around than I ever dreamed could be assembled in Canton's modest switchyard. Odd, how they happened to be busy just then."

Mark Hanna, McKinley's campaign manager, had assessed banks, insurance companies and big industries in general to raise an unprecedentedly huge campaign fund, a circumstance which might shed light on the reason for the noise during the speech.

After hearing all but one of McKinley's speeches and not hearing Bryan at all, whom did Ameringer vote for? He voted for Bryan.

Why do people wait until the first norther hits before they take armloads of winter clothing to the cleaner's?

When I was editing a small West Texas daily, I wrote three true crime articles which magazines bought for a total of close to \$1,000. And yet you bear it said that "crime doesn't pay."

His religion is his relationship to man, to God, to time and eternity. Therefore religion has to do with every area of his life, his work, recreation, and even his sleep. The Christian religion is that way of life exemplified for us in Jesus Christ, the most perfect revelation of God and right in all the history of mankind.

The churches of this city will soon be engaging in a simultaneous emphasis upon the importance of the Christian faith to men and our day. The date is March 13-20. Every citizen of our community owes it to himself to use this opportunity to enlighten himself through the services offered by the church of his choice.

MARCH OF DIMES COLLECTION HELD

The March of Dimes collection, which had previously been cancelled due to snow and bad roads, was held Friday night in connection with the regular Farm Bureau meeting.

Mr. Bill Sifford, president of the local organization, presided at the meeting. Bruce Parr of Black gave a report on the "Game Management Association" and passed out forms for membership in the association.

A report was also given on the membership drive for new Farm Bureau members. After the close of the business session, Bruce Parr showed the film of his Alaskan Tour. He also showed several films of Matze Day parades recently held in Friona.

A free will donation for the March of Dimes was held during the evening.

The Rhea extension club served pie and coffee to the large group present.

Visitors not living in the community were: Jess Osborn of Muleshoe, Raymond Euler of Friona, and Bruce Parr of Black.

LADIES AID MEETS

Rhea Lutheran Ladies Aid recently met at the Parish Hall for its regular business session and topic discussion.

During the business session plans were discussed for the 50th Anniversary of the church which will be held July 24th.

Mrs. Herbert Schueler lead the group in the topic discussion which was held in the form of a "Buzz Session."

After the topic Mrs. Franklin Bauer lead the group in a game.

Mrs. Robert Schueler served cake and coffee to the group. Present were: Mrs. Eldon Garber, Mrs. Carl Schlenker, Mrs. Herbert Schueler, Mrs. Chris Goetz, Mrs. Franklin Bauer, Mrs. Walter Schueler, Mrs. Robert Schueler, Mrs. Herman Schueler and Rev. Stroebel.

An executive board meeting was held earlier in the week in the home of Mrs. Carl Schlenker. Cookies and coffee were served to Mrs. Walter Schueler, Mrs. Eldon Garber, Mrs. Franklin Bauer, and Mrs. Herbert Schueler.

FUNERAL SERVICES HELD FOR FRED KAMRADT

Funeral services for Fred Kamradt of Grady were held Sunday afternoon at Steed Memorial Chapel in Clovis. Rev. Stroebel officiated at the service.

Mr. Kamradt was a member

PCA Officers Travel To Credit Meeting

Six members of the board of directors of the Plainview Production Credit Association, which serves the local field office of the PCA, will travel

Professor: "Why don't you answer me?"
Student: "I did. I shook my head."

Professor: "You didn't expect me to hear it rattle clear up here, did you?"

Daffynishion: Pole Vault--A safe where lumber is kept.

to Houston to attend the annual stockholders' and patrons' meeting of the Federal Intermediate Credit Bank of Houston at the Stephen F. Austin Hotel, in Austin, Monday and Tuesday.

The officers from this area which includes L. R. Durha, Henry Hayes, D. A. Anderson, Don Garrison and Grady Shepard, directors and Olan Alexander, general manager will be greeted by a banquet and an address by Governor Price Daniel to open the meeting.

W. N. Stokes Jr., of Vernon, president of the Federal Intermediate Credit Bank of Houston will give a report on activities and condition of the bank.

Other speakers at the meeting will include Frank Stubbs, of Corpus Christi, Texas member of the Federal Farm Credit Board of Washington, D. C.; H. Macon Boddy of Henrietta, vice chairman of the board of directors of the FIC Bank of Houston; Charles Sheppardson, member of the board of

governors of the Federal Reserve Banks of Washington, D. C. and several other financial leaders of the country.

According to Durham, president of the Plainview PCA, speaking on the records of the PCA over the country the associations have embarked on a program that will eventually result in ownership of the Federal Intermediate Credit Banks by farmers and ranchers of the country--a system designed to finance completely and adequately any agricultural need. This has been a goal of farm leaders in the nation for the past 25 years.

The Plainview PCA serves farmers and ranchers in Parmer, Hale, Floyd, Briscoe, Lamb, Swisher, Bailey and Castro counties. With headquarters in Plainview and field offices in Friona, Muleshoe, Dimmitt, Floydada, Littlefield and Tulia.

During the past year the association has loaned more than \$27,000,000 to its farmer and rancher members.

Civil disputes are always subject to last-minute settlement. It is not unusual to see adjustments completed out of court on the day the case is to be heard. At least one which had already been entered on the docket has been settled. However, as of Monday there remained the following cases:

inheritance dispute. **ALBERT CANNON VS BIRMGHAM FIRE & CASUALTY.** A damage suit arising from a disagreement over an insurance adjustment covering alleged losses on crop hail insurance. The Friona man had 20 acres of wheat and 135 acres of cotton insured for a total of \$7750.

PAUL D. TULLIS VS. VERNON BARTLETT. The plaintiff alleged the defendant defaulted on a contract drawn to sell a quarter section of land priced at \$52,000. An escrow account of \$5,200 in Friona State Bank is sought by the plaintiff as damages. Tullis is from Leveland, Bartlett from Petersburg.

HARRIS B. DUNN VS. E. T. JENNINGS. A damage suit for injuries sustained by Dunn to one hand when operating a power tool while in the employ of Jennings at Beuger Air Park, Friona. Dunn seeks \$5,000 damages.

NED FOSTER VS. PANHANDLE MUTUAL HAIL ASSN. Another crop hail insurance damage suit. The Oklahoma Lane farmer had insured 50 acres of cotton and 200 acres of wheat, in amounts totaling \$5,000 and \$6,000 respectively.

Terry: "Did you hear about the ship that was carrying soap that hit some rocks and sank?"

Jerry: "The crew probably washed ashore."

Tom Tatum High Pointer at Olton

Tommy Tatum, judging as a member of the Friona FFA Chapter's junior livestock judging team, captured high point individual honors at the Olton Invitational Livestock Judging Contests Saturday. Friona had two teams entered in the contests, one a junior team composed of Tatum, Tom Gee, Jimmy Schilling and Max Reeve won third place honors in a field of 15 teams. The other team entered at Olton, the senior livestock team, composed of Craig Coon, Floyd Reeve, E. C. Wilson and Johnny Miller finished in fifth place out of a field of 17 teams. While these two teams "fought it out" at Olton, another group of Friona's FFA boys were busy down at Lubbock in a contest being held there Saturday. These boys, which included Dwain and Phil Phipps, and Danny Carmichael were busy judging and finishing 10th in a field of 21 teams. Following the contest in Lubbock J. C. Lane and J. T. Gee, purchased the Grand Champion boar.

The Bible Teaches ...

Jesus said, "Peace I leave with you; my peace I give unto you; not as the world giveth, give I unto you." (John 14:27). This promise made a deep impression upon the hearts of first century Christians. They called their children by such names as Irenaeus and Irene which simply signify "peace."

There is much in life that disturbs and destroys peace. Looking to the past we are disturbed by our own errors, follies, and sins. All about us there is much to disturb our peace and cause us endless anxiety. Looking to the future our anxious minds are disturbed and perplexed by the weighty problems that confront us.

It is easily seen that the world offers no peace. It never has. The world says, "Peace, peace; when there is no peace."

Jesus the Christ offers us real peace. As we enjoy peace with God because of right relations with Him we may enjoy a peace of mind which passes understanding because of a sense of well-being.

Auto Wreck Results In City Runs High

A total of 33 wrecks were recorded inside the city limits of Friona during 1959 announced Ben Moorman, chief of police this week.

In going over the reports of 1959 Moorman picked up some rather startling statistics concerning wrecks in Friona.

According to his reports the most dangerous corner in Friona is the corner of Cleveland and Sixth Streets where three wrecks occurred last year.

Ironically enough, the wreck causing the highest total in

damages included only one person and was the tractor-trailer carrying six vehicles which turned over just inside the east city limits on Highway 60 last fall.

This wreck caused a total of \$14,000 in damages to the vehicles involved although the driver was only bruised and shaken.

The total damages, including both personal and property damage was \$35,270 for the year.

A total of 71 vehicles were involved in the "fenderbending"

and as Moorman pointed out "we were lucky that there were no fatalities included in the total."

Since many of the accidents occurred the city has placed either Yield signs or Stop signs at many of the accident prone intersections.

Moorman pointed out that the greatest majority of the wrecks happened at unmarked intersections and the city has taken steps to remedy this situation.

"We can put up the warning signs, but the responsibility still remains with the drivers," he said.

8th Girls Undefeated For Two Seasons

Friona's eighth grade girls' basketball team completed their season play last week by defeating the Dimmitt eighth grade girls' team by a score of 23 to 19. This victory gave the local eighth grade roundballers a perfect record for the past two seasons with their total wins at 25 against no losses.

Last season's record appeared in the Star at this same time last year. This year's record is as follows:

- Friona 35--Sudan 24
- Friona 45--Lazbuddie One
- Friona 36--Morton 14
- Friona 43--Canyon 21
- Friona 43--Bovina nine
- Friona 30--Kress 20
- Friona 47--Dimmitt (7th grade) 18
- Friona 37--Lockney 24
- Friona 43--Dimmitt 42 (overtime)
- Friona 45--Farwell 27
- Friona 36--Bovina eight
- Friona 33--Canyon six
- Friona 35--Bula 15
- Friona 23--Dimmitt 19

The girls won two tournays this season, beating Lockney in the finals of the Muleshoe Tourney and defeating Bovina in the finals of the Friona County-wide tourney.

In summing up the season's record, Coach Don Watkins had

this to say, "There was no question that many of the teams we played were smaller and less experienced. However, I am certainly not taking anything away from the local girls, because when the going got rough, as in the overtime game with Dimmitt and with the Dimmitt game last week, the girls definitely came through."

"I attribute these girls' success to two main factors; desire and team spirit. It didn't matter who was out there; the outcome for the team was what counted and anytime you have this kind of personnel and attitude, you are likely to win more than you'll lose with a little work."

"The same holds true for the seventh grade girls, who also

had an undefeated year, winning eight and losing none. They are a real wonderful group of girls in both grades and I personally feel they have represented their school and community well."

The seventh grade girls' record is as follows:

- Friona 43--Sudan, five
- Friona 40--Lazbuddie, three
- Friona 17--Morton, five
- Friona 23--Canyon 19
- Friona 40--Bovina 21
- Friona 22--Dimmitt 20 (two overtimes and one sudden death)
- Friona 17--Canyon 14
- Friona 18--Dimmitt 12

The perfect season for the two teams gives them the junior high district championship which consisted of Friona, Dimmitt, Canyon and Olton.

BEAR BADGES AWARDED--Gaylon Brewer, Jay Potts and Randy Schwab were presented bear badges.

The pretty blond steno was rather conceited. During lunch hour one day she boasted to the other girls about the number of men she was currently dating.

"You know," she said coyly, "a lot of men are going to be miserable when I marry."

"Really," commented one of the girls acidly, "how many men are you going to marry?"

Youngster: "What did one octopus say to another?"
 Fristie: "I don't know. What?"
 Youngster: "One of these days, pow, pow, pow, pow, pow, pow--right in the kisser."
 Fred: "Say, why are you fishing where there isn't any water?"
 Ted: "Oh what's the difference? I never catch anything anyway."

WHO'S WHO IN FHS

BY BETSY FRYE

A Freshman girl is honored this week as student of the week. She has sandy hair, green eyes, and is fourteen years old. Her parents are Mr. and Mrs. Troy F. Ray.

This week's student is active in FHA, Pep Club, basketball, and other activities. Some of her favorites are as follows: Sport Basketball
 Hobby Watching T. V.
 Food Fish
 Singer Fabian
 Song "Forever"
 Actress Loretta Young
 Actor Rock Hudson
 Movie GIANT
 Subject Study Hall

Teachers
 Coach Adams, Mrs. McClain
 Pet Peeve
 Smart-alecs and snotty people
 Carol Ray is this week's honored student.

Golden Speaks On Communism

BY CAROLYN WINES

It seems that the history teachers, as well as the other teachers, are quite enthused with the talk delivered to them on Communism by Dr. Floyd Golden, president of Eastern New Mexico University. Golden was guest speaker at the Parmer County Teachers' meeting Monday night, Feb. 22, held in the Friona cafeteria. Golden's talk was primarily about the education system of Russia, not about politics behind the Iron Curtain. In various history classes the following day, Feb. 23, the topic of discussion was Communism. The students showed a considerable amount of interest in these discussions. This is one way of showing that the youth of America still believe in the rights established in our constitution by our forefathers centuries ago.

BY CLARE SAVAGE

The El Sombrero was rated superior, after judging in several fields. The El Sombrero is from Perryton. Members of the West Texas High School Press Association were entered for criticism.

Bob Blauenstein, foreign exchange student from Vienna, Austria was honored by being selected as Rotary Club Boy of the Month for February. Among other things he is a member of the National Honor Society, Mu Alpha Theta (Whatever that is) and was selected honorary City Chief of Police. (Might be nice to have an exchange student at old FHS.)

Brenda Hendrick was chosen outstanding senior girl of Palo Duro for the year 1960. Brenda was chosen for her dependability, service, leadership, and patriotism. She held a "97" average throughout her three and one half years at Palo Duro. (Little hard to believe, isn't it?) . . . Prairie Sage.

Emergency Rations
 A mother received this note from her teen-ager daughter who was away at boarding school: "Please send food packages. All they serve here is breakfast, lunch, and dinner!"

Submarine--A can of people.
 Tricycle--A tot rod.
 Nail--A slender, pointed piece of metal with a flat head to aim at while you hit your thumb.

Celebrity--A person who works hard to become well-known and then wears dark glasses to avoid being recognized.
 Modern girl--One who dresses fit to kill and cooks the same way.

The sign on the newly painted wall in the high school said, "This is a partition--not a petition. No signatures are required!"

Squaws Tumble High-Rated Abernathy

BY LUTHER METCALF

Squaws tumbled the Abernathy Antelopes, Tues. March 1, at the Plainview High School Gym, the final score was 49 to 29. The Squaws took the bi-district championship with this game.

The Squaws will go to Lubbock on Sat. March 5, to play in the regional tournament. They play at 11:10 Sat. morning and 8:30 Sat. evening, if they are successful Sat. morning.

The Squaws jumped into a 14 to 8 lead at the end of the first quarter and at the end of the half the Squaws took a 15 point lead, with a score of 27 to 12. As the third quarter buzzer sounded the Squaws maintained a 20 point lead with the score 39 to 19. In the remaining part of the game the Squaws scored 10 points and the Antelopes scored 10.

Friona made 23 field goals, while Abernathy made only 11. However, Friona had 11 fouls called on them and Abernathy had 4 on them.

Jacquelyn Magness led the Squaws scoring attack with 23 points, Charlotte Bock had 18, and Tommy Lewellen had 8.

Are all the nominations in for president and vice-president for the SFC? Bob Sanders and Kay Struve were nominated for the office of president by the student council at their meeting Wednesday, February 24. Also nominated were Beth Akens and Floyd Keeve for the office of vice-president.

The student body should remember that they may nominate anyone they wish for these offices. They must check through the office to run a certain person and have a petition with 25 names on it. The candidate must be a sophomore or junior.

The deadline for nominations is March 4, so be sure to get your nominations in.

Spotlight performances by Risa Howell and David McFarland represented George and Martha Washington. This was given as the second graders' contribution to the Parmer County Teachers Association Monday night, February 22.

Mrs. Hayes and Mrs. Bessie Watson were in charge of the second graders. Mrs. Woodward accompanied David and Risa and the chorus who was composed of Donna Parr, Beverly Anthony, Jenisu Fallwell, Vicki Knight, Kay Reithmire and Lucy Duran. Their costumes were white crepe paper skirts with cherries clipped around the bottom of the skirt and white blouses.

David and Risa were dressed as the Washingtons did in their day. The scenery was composed of a cherry tree and a log.

Friona High School Choir sang three songs. They were: "All The Things You Are," "Mexican Clap Hand Dance," and "Goodnight My Someone."

Traffic rate clerk: "My girlfriend is a twin."

OS&D clerk: "She is? How can you tell them apart?"

Traffic rate clerk: "Her brother is built differently."

Magellan went around the world in 1521 . . . which isn't so many strokes when you consider the distance.

"How's the wife, George?"

"Not so well, old boy. She's just had quinsy."

"Gosh! How many is that you have now?"

PUBLIC SCHOOL WEEK--Shown above are Mr. and Mrs. Ralph Taylor and Mike enjoying the fine food of the school cafeteria. Many other parents visited during Public School Week.

Rarin' To Go

BY CAROLYN WINES AND ADELLE SMITH

The 1960 Senior Class is rarin' to go. The play cast is ready for the night of production of "Onions in the Stew." After many successful rehearsals and many mishaps the cast has the play down "pat."

Dress rehearsal was held Monday night and it proved to be very successful. Many unusual, pretty, and old costumes, as well as characters, are to be seen in the play. Everyone attending this adult comedy will thoroughly enjoy it.

The public is cordially invited to attend the play at 8 p. m. Thursday, Friday night, or both. Tickets may be obtained at the door either night. General admission tickets are 75¢.

It's Katydid Time !!

The annual Junior Katydid sale is here again. Friona High School students are enjoying this chocolate, caramel, and pecan combination candy. Only receiving their candy this week it has already been sold making the Junior Class a profit of \$72.00.

Having gone over so well, plans are being made to reorder this tasty treat. Contact a Junior student if you would like any of the next order.

Thespians 'Dress Up' Dressing Rooms

BY JAMES ANTHONY

The seniors will have a great aid in dressing for their play Thursday and Friday. The Thespians have put a mirror in each of the auditorium dressing rooms with a shelf below it for make-up and such. They have put in brighter lights so the shadows won't be so prominent and clothes racks so the clothes won't be wrinkled and dirty.

They have decided to invest their money from the Thespian play in this project. It will help the Thespians and anyone else who has a play. The student body is proud of these improvements. Thanks Thespians.

School Enjoys Assembly

The students of the Friona public schools thoroughly enjoyed an assembly presented by the famous cartoonist, Jeff Hayes. This assembly was presented in the school auditorium at 9:00 A. M. Tuesday, March 1. Hayes showed how various people would look in cartoons, such as: Bill Taylor--very studious, Mr. Bennett--as the Lone Ranger, Larry Potts--baseball player, etc. Hayes was welcomed very cordially by all the students.

Following the assembly, senior play skits were presented. Don Clements was narrator and Janet Snead gave a synopsis.

The operator was about to close the doors of the crowded elevator when a tipsy gentleman pushed his way in. As the car started up he tried to turn around to face the door, but was wedged in so tightly he couldn't move.

The other passengers stared into his bloodshot eyes with growing embarrassment. Finally, when the general strain became unbearable, the tipsy man cleared his throat and said: "I eckspect you people are all wonderin' why I called this meetin'?" Well, first thing, our westbound freight is terrible outta balance . . ."

A rabbit has a shiny nose because--The powder puff is at the other end.

New Books Provide Interesting Reading Material

BY MARGIE CARLTON

BLAZE OF SUNLIGHT
 By Faith Baldwin

Rose and Mark Holmes had the kind of marriage that is rare. After twenty years of living together, they were still in love with one another. They shared common interests, and each respected the other.

When Mark was killed in an automobile accident, the bottom dropped out of Rose's life. She knew that she had to go on, but aside from her duty to the children, she saw no reason to continue living. Her pleasure in life was gone. Desolated, she withdrew from her family and friends into an emotional tunnel of grief and loneliness. Mark was dead, and this was the only fact that had meaning for her.

BY BETSY FRYE

THEY FLEW THE ATLANTIC
 By Robert de la Croix

Here are all the triumphs and disasters, the eccentricities and the heroes who carried out the aerial conquest of the Atlantic.

Here is the first attempt and transoceanic flight--by dirigible--in 1910. Here are the famous successes, Alcock and Brown, the NC-4, and Lindbergh. Here also, are the stories of the gallant Nungesser and Coll, Hamilton, Jean Merndoz, Hill and Payne, Minchis and Princess Lowenstein-Wertheim, all who met death.

Some were great aviators, and pioneers, some were irresponsible glory seekers, some simply adventurers. All were men and women of high courage and their stories are drama of the most exciting sort.

Robert de la Croix tells these tales of courage, adventure, failure, and triumph with intimacy, suspense, and a fine sense of narrative excitement.

BY BETSY FRYE

THE VANDAL
 By Richard O'Connor

THE VANDAL is a panoramic novel of love, war, and intrigue in the Byzantine Empire of 540 A.D., ruler of the civilized world. Here, in the story of a nation at the height of its power, is an epic human drama of Belisarius, the great general and defender of the empire, of the Emperor Justinian, who, jealous of Belisarius' popularity with the masses, sought revenge on a grand-and-vicious scale, of the plotting, knavery, and hypocrisy of a fabled city and its opulent court revealed through the eyes of Marius the Vandal, young adjutant of Belisarius.

Here, in the sumptuous palace of Buzantium on the arid battlefield of the semi-barbaric Middle East, the fates of Marius and his liege lord are played out--a desperate Persian campaign, a wife's blaspemous infidelity, a love affair threatened by treason.

THE VANDAL is a vivid recreation of the struggles and triumphs of an outlander caught in the rip tide of civilization.

BY BETSY FRYE

Need Sewing Lessons ?

BY BETSY FRYE

For what do most people use needles? For sewing material, naturally! To us uneducated souls, a toe doesn't seem to be material, but to a scientist like Miss Scott, it evidently is.

While at the home of her parents in Hereford Sunday, this took place:

"It happened this way, I was prissing around in my little sister's bedroom, and I stepped on a needle. When I looked down, only the thread was showing!" Miss Scott returned to Friona where the doctor took out the needle.

We hope your toe soon recovers from its unusual accident, Miss Scott, but a word of advice is in order: From now on, be careful where you do your "prissing!"

Biology Class Gets Together

BY CLARE SAVAGE

Ever been to a biology party? Mr. Bennett's biology class had a party, Friday 26. After everyone arrived at the biology room, they departed for a scavenger hunt. Refreshments consisting of sandwiches, pops, and cookies were served and games were played when everyone returned.

Lee Gibson, Tommy Scales, Ineta Stowers, Karen Turner, Charles Love, Janet Smith, Jim Roy Wells, Harold Bails, Cleatus Rhodes, Carla Turner, Phil Phipps, Ellis Parson, Gary Snead, Gloria Patterson, Donna Baker, Maynard Greeson, Martha Wages, and Mr. Bennett attended the get-together.

Teenagers--Let's Stage A Cleanup Campaign !

Not so long ago while making a trip a certain fact was brought to mind that had been bothering us for some time. During most of the ride we listened to the radio, between the songs played were advertisements. Consistently about every half hour an advertisement for a certain risque movie would be heard. The speeches in it were intimate ones which putting it most mildly were very suggestive.

Today's authors and playwrights seem to be going overboard to introduce to the American public that which is vulgar and obscene. It is no secret that at present the biggest majority of our books contain so much muck and filth that they are not fit to be read by anyone.

We, as young persons, and teenagers are the main ones who patronize the movies. This filth is being flung in our faces and apparently we like it for we don't hesitate to go to a show that we know has the reputation of being against everything we know as right. Perhaps you don't believe that producers aim this trash at teenagers. Then maybe you will observe that in the last two years age limits on obscene movies have been lowered from 'adults only' to 'adults and mature teenagers.'

We can't blame only the authors of these books. Blame ourselves! An author doesn't buy a million copies of his own trashy book--we do. When we attend movies that are 'off limits', so as to speak, and read dirty books, we are giving the author the go ahead sign to write more because we evidently like them.

It is time that we woke up! If we as teenagers don't quit patronizing these things, we are pretty sure to find that our nation is going to be filled with immorality--and soon! You only have to pick up a newspaper and look on the front page to see the results of only a few years of trashy publications. Criminal offenses are rising.

Many of you are Christians. Consider it your duty to do everything you can to wage a war against this literature. Quit buying trashy magazines from the newstands. If we don't buy them it's likely that so many won't be printed. Take a stand against it.

If you aren't willing to do this--you will pay and pay dearly. America is becoming a melting pot of trashy literature and it's high time that we try to pour some of the muck out. It's up to us to make America a wholesome place to live. Will you take a stand or spinelessly sink into the muck?

Dear Milly:
 I am constantly bothered by a certain boy calling me every night asking me for a date. Every night I tell him no, but he still calls me. What can I do? I've politely told him I just DON'T want to go with him, but he still calls me all the time. I've told him to stop calling me, but that doesn't work either. I need help.
 Helpless

Dear Helpless:
 If you have told this boy that you don't want to go with him politely and he just won't take the hint, then be blunt and just tell him that you are tired of him calling you, because you are not going with him. You may lose a friend in the process, but he has already lost one.
 Milly

Dear Milly:
 Have I ever got troubles! This boy I have been going with left last week. I thought I loved him, but now I have started going with someone else. I really think of him. I'm not sure that I love this other boy. How can I be sure?
 Uncertain

"A" Boys Polled

In a poll conducted recently the Friona High School "A" boys basketball team picked an all opponent team.

The players chosen were as follows: Guards--Phil Guinn, Abernathy and Gary Loflin, Tullis; Forwards--Junior Coffey and Hal Ratcliff; Center--Bruce Ayers, Gruver.

The Friona boys feel that these are the best ballplayers that they have played against this year.

A customer had complained about the pastry. "I was making pastry before you were born," replied the indignant cook.

"Maybe," replied the customer, "but why sell it now?"

Dear Uncertain:
 You probably won't be sure of your love for this other boy until you see him again. Go ahead and have fun while he is gone. Then when he returns you will be sure one way or the other.
 Milly

Dear Milly:
 The boy I've been going with asked me to marry him. I told him I would, but after he bought my ring, I decided that I didn't love him. I've been going with him over a year and I've been wearing his ring for about four months. I can't decide what to do. Can you help me?
 Mixed Up

Dear Mixed Up:
 The solution to your problem is simple. I can tell you what to do, but doing it is the hard part. Give his ring back to him and explain the reason. Tell him that you realize that marriage is a lifetime proposition and you don't feel that you will be happy with him because you don't love him.
 Milly

Tidbits

Here's an idea for you boys: If you are going to buy a corsage for that special girl you could send it with this note: With all my love and most of my allowance.

The Little Monster
 Little Bobbie, tired of riding in the car, suddenly turned to his father and said, "I wish you would let Mommy drive, it's much more exciting."

Good Try
 The sign on the newly painted wall in the high school said, "This is a partition--not a petition. No signatures are required!"

Progressive Study Club Celebrate Mardi Gras

NOW IT'S TIME TO EAT--After a fun filled evening refreshments are being served. Mary Bavousett hands Robert Ginsburg pie and coffee as Billy Joe Mercer looks on. Dr. and Mrs. Lee Spring, the clowns seated in front, seem to view the whole thing as most amusing.

Honored guests at a Mardi Gras party at the club house Tuesday evening were husbands of the members. Tables were covered with red and white cloths and centerpieces were decorative bottles of colored water holding lighted candles.

Games were directed by Sarah Barber and Winifred

Hurst. The television show "Keep Talking" was featured on the game list. Others included Charades, action songs and specialty numbers.

Dr. and Mrs. Lee Spring, who came dressed as clowns, were judged the best dressed couple. Other outstanding costumes were worn by Bob

Nichols who depicted beatniks; Martha Mae and Tom Pruett, who were dressed as Indians; Also Betty Louise and Floyd Rector who came as nursery rhyme characters; Winifred and Andy Hurst, dressed as Spanish entertainers; Marion and Ruthie Fite with sailor uniforms; and Fluke and Sarah Barber, who

came dressed as scarecrows. Others present were Hollis and Lunell Horton, George and Phyllis Anderson, Robert and Beegie Ginsburg, Steve and Mary Bavousett, Marty and Virginia Martinez and Dave and Shirley McReynolds, Martell and Gloria LeVeque, Ann and M. C. Osborn and Billy Joe and Tommie Mercer.

Of Interest To THE WOMEN

THURSDAY, MARCH 3, 1960

THE FRIONA STAR

SECTION II

IT REALLY WASN'T A STAG AFFAIR--There were also ladies present. Bill Nichols, left, entertains a group of men with mandolin music. Others pictured are Bob Riethmayer, Marion Fite and Tom Pruett, standing, and Steve Bavousett, Andy Hurst and M. C. Osborn seated.

CLOWNS CAPTURE HONORS--The honor of being chosen "best dressed couple" went to Dr. and Mrs. Lee Spring. Judges had a difficult time deciding whether the acting or costumes tipped the scales in the Spring's favor.

Fashion Show Highlights Modern Study Club Program

FIVE ENTER CONTEST--Mesdames George Taylor, Bill Nunn, Frank A. Spring, Deon Awtry and Mack Bainum model their entries in the Vogue pattern contest. Each model made her suit and selected accessories to wear with it.

Highlighting the program at the Monday evening meeting of the Modern Study Club at the club house was a style show. Members of the club who entered the Vogue pattern contest modeled suits they had made.

In the judging Ethel Ruth Spring was chosen to represent the club in the style show at the district convention to be in Lubbock next month.

Following the style show Lilah Gaye Gee and Allo Reeve discussed two phases of communism. Mrs. Gee spoke on "Communism Appeal in the United States" and Mrs. Reeve chose for her topic of discussion "Communism, A False Religion."

During the brief business session two reports were made. The scrapbook reporting the community achievement contest has been mailed to contest headquarters. Hospital representatives estimate that \$10,000 has been donated to the institution since its beginning.

Odie Claborn and Juanita Dickson were hostesses. Guests were Lois Norwood and Martha Clements.

TO REPRESENT CLUB--Mrs. Frank A. Spring was chosen to represent her club in the Vogue pattern contest at the District Federated Club Con-vention in Lubbock March 21 and 22. She wore a gray suit, white gloves and black shoes. Her purse and the band on her hat were black.

CERTIFICATES PRESENTED TO DEN MOTHERS--Mothers receiving certificates were (Back Row) Fadine Woolley, Deke Kendrick, Mary Gibson, Opal Baxter, Millie Capps, and Ann Carthel. Front Row: Winifred Hurst, Stella Shirley, Phyllis Squyres, Christine Mann.

Prices Take Extended Trip

Mr. and Mrs. Dewey Price returned Friday evening after making a tour of several western states and visiting relatives and friends at various places.

At Los Angeles they were guests in the home of Mr. and Mrs. Dale Price and family. He is a son of the couple. Then at Modesto they visited with Mrs. Price's sister, Mrs. E. C. Henderson and her family. Two of the most impressive sights they report were Hoover Dam and the Grand Canyon. They were gone from home about three weeks.

Mr. and Mrs. Wayne Mills and children, Mike and Susan, are new residents in Friona. Mills is employed at the E. R. Day Golf Station. The family lives in the Jennings Duke house on North Main.

TYPICAL TEENAGE GIRLS--Sue Baxter, who plays the role of Anne MacDonald talks over the telephone while her sister, Joan, played by Charlotte Bock wears her hair in a towel turban during a hair coloring session.

Boy Added to Norwood Family

Mr. and Mrs. W. B. Norwood Jr., of Albuquerque became parents of a baby boy Tuesday of last week. He was named John Richard. Older children of the couple are Joylinda, Jeanette, Jacquelyn and Jill. He is the grandson of Mr. and Mrs. W. B. Norwood Sr. Mrs. Norwood is in Albuquerque getting acquainted with her new grandson and visiting with other members of the family.

Mr. and Mrs. Frank A. Spring visited their son, Frank Louis, at Austin last weekend. Frank Louis attends St. Stephens School there.

Family Dinner At Hub Honors Visiting Relatives

Mr. and Mrs. Miles Robbins of Pierre, S. Dak., and Mr. and Mrs. Clarence Baxter and daughter, Helen, of Eads, Colo., were weekend guests in the homes of Mr. and Mrs. J. W. Baxter, Mr. and Mrs. L. R. Dilger and other relatives and friends.

A family dinner at the Hub Community Center Sunday honored the visitors. Others present were Mr. and Mrs. J. W. Baxter, Mr. and Mrs. Bill Baxter and daughters, Sue and Ann, Mr. and Mrs. J. W.

Baxter II, Mr. and Mrs. Billy Dean Baxter and family, Ronnie Castleberry and Jerry Rankin;

Also Mr. and Mrs. Louis Baxter and sons, Mr. and Mrs. Dick Baxter and daughter, Mr. and Mrs. Oscar Baxter and children, Mr. and Mrs. Jim Baxter and Patricia, Mr. and Mrs. Sterling Graham and Gail;

Also Mr. and Mrs. Troy Young and daughters, Mr. and Mrs. Calvin Martin, Mr. and Mrs. Larry Martin and children Clarence Martin and children, Martha Ann, Larry and Mike, and Mr. and Mrs. Eugene Nidey and daughters all of Friona; Also Mr. and Mrs. L. B. Baxter and Charley Baxter of Clovis.

Sally Stevick Honored

Mr. and Mrs. Glen C. Stevick and daughter, Sally, left Sunday afternoon for Dallas, where Sally will be a patient at the Texas Children's Hospital for at least a week. She is undergoing a series of tests for a heart condition.

Wednesday morning Sally and her mother were honored with a coffee in the home of Mrs. F. W. Holcomb. After gifts were presented to the two, coffee and cookies were served.

Those attending and sending gifts were Jo Hand, Mrs. Lucy Welch, Frank Carson, Sue Procter, Jo Nettles, Jinx Snead, Owen Buckley, Lorraine Welch, Marie Fleming, LaVon Reeve, Ruth Houser and Oleta Houser;

Also Iona Renner, Uldene Grimsley, Mamie Lou Welch, Thelma Johnson, Fadine Woolley, Sadie McKinney and Seva Struve.

While the Stevicks are away Janet and James Ray are staying with the James Procters and Ronnie is staying with the R. E. Sneads.

Iva Ben Parr Honored

Iva Ben Parr, daughter of Mr. and Mrs. Bruce Parr of the Black community and a freshman in Friona High School, has been selected to play in the All Girl Band festival at Texas Woman's University at Denton March 4 and 5.

Miss Parr is a member of the Friona High School band and plays a trombone. She is also a member of the Friona chapter of Future Homemakers of America and the Future Teachers of Texas.

Principal Raymond Cook states, "Iva Ben is a good student and we are very proud of her. She was elected the friendliest girl in the freshman class last fall."

Daffynition: Alarm clock--Something to scare the day-lights into you.

in and around FRIONA

WITH JUNE

Weather seems to be the top conversation piece up and down the street this week. Most persons can't remember when there was such a long spell of wet, damp, cold weather. Think the weather bureau stations around over the Panhandle will back up the thinking of local people.

Most men, even the farmers, seem to agree that it has been good for crops in spite of the fact that it has been nerve wracking for most of them. Perhaps the restlessness of people was understood by the person who originated the saying, "Busy people are happy people."

Before very long we will be having warm windy weather and then will forget how we longed for a change for several months. It seems that most of us listen to the radio and watch television anxiously for the latest weather forecast then complain about what we hear.

If each one of us heeded the adage that says, "Never waste any time complaining about things you cannot change," the weather would be much less talked about.

A conflict between Public School Week and six weeks examinations this week was responsible for fewer visitors at the local schools. Even so, a number of persons did visit classrooms and the lunchroom. It is always good for any parent to visit school and become better acquainted with teachers.

Some new construction has been slated for Friona as soon as the weather permits. Work on the new station at Friona Consumers has been delayed

along with another project or two. Stakes have been set for the bowling alley.

In the not too far distant future Frionans will be bowling at home.

Any time the subject of advertising comes up, we think of the two following items. The first one is in the form of a poem and goes like this: "He who has a thing to sell--And goes and whispers in a well, is not so apt to get the dollars--As he who climbs a tree and hollers."

The other is a joke. A business man, who was closing his doors due to the lack of business, was heard to remark, "Advertising was the cause of my failure."

His neighbor was quite surprised and remarked, "I didn't know you ever did any advertising."

The businessman replied, "I didn't till my competitor did!"

Several persons have called to inquire about the beautifully hand lettered scrolls that were presented to past presidents of the Friona PTA at the last meeting. These were made by Mrs. Willard Gaskins, who lives on North Main Street right here in Friona.

Mrs. Gaskins, Jane to her friends, also does oil paintings and other types of art work. Her response to the request of the PTA program committee to make the scrolls was graciously granted. The Star staff joins the PTA in thanking Mrs. Gaskins for doing a job well.

Our sincere apologies this week go to Mr. and Mrs. Roy

Young. In a recent story about their son's birth, we erroneously reported his name as Roy Grant, and didn't know any different until early this week.

After meeting up with Loretta in the drug store and admiring the baby, we inquired what he was being called. Nothing could have been a bigger surprise than when she answered, "Brent." Perhaps when he gets older we will apologize to him for misspelling his name, but right now it doesn't make a bit of difference to him.

The following item entitled "Mistakes" fits just about every human being we know. "The sins I see in other folk--Are the only ones I mention. Any mistake that I might make is justified by a good intention."

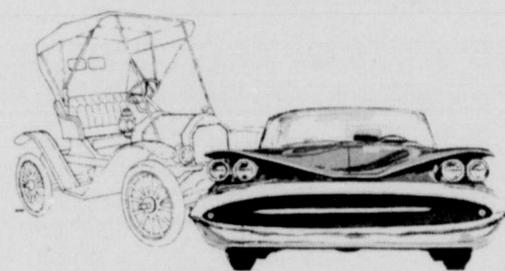

New neighbors of ours are the Vernon Christians. Vernon, Maxine, Ann and Lou are from Center, Colorado. However, they are not strangers to most of us. They formerly lived in the Black community and later lived north of Bovina.

In addition to being new residents of our community, they are new subscribers to the Star. It is nice to have them back.

Last Tuesday night a large portion of the Friona residents were in Tulia for the girl's basketball game. This week on Tuesday night many fans will be at Plainview to see the Squaws play Abernathy. Think the experts figure the two teams are pretty evenly matched and anyone could win.

The one thing most Frionans agree on is "Win, lose or draw, we're with you all the way!"

Letters to the Editor

(The following letter was written by Gaylord Maurer, son of Mr. and Mrs. Carl Maurer, who needs no introduction to most of our readers. He grew up here and graduated from Friona High School.)

Friona Star
Friona, Texas

At the moment I am working at the Shell Foundation, which is an agricultural experiment station set up to help the farmers. The men working here experiment with all varieties of crops, fungicides, chemicals and fertilizers then make recommendations to the farmers. This service is free for the farmers and excellent advertising for Shell.

Mr. G. K. Warner, head of the International Division of H. J. Heinz, his wife and I left New York for Caracas the 25th of Jan. Our flight left at 9:30 and we arrived at the Maiquetia Airport at 2 p. m. We are met by Mr. F. R. Pool, who is to manage our Venezuelan factory, and driven into Caracas and our respective hotels.

A slight interjection here, if I may be allowed. For any of you that read Bob Considine's article "The Place Where Nixon Faced Death," whether you are a fan or not of his, it left much to be desired. In the first place, he was right when he said a taxi costs you \$10 into Caracas, but he didn't mention it was 20 miles, nor that that you could take a bus or "por puesto" taxi where you share the expenses (\$2 at the most), nor that from Idlewild to downtown New York City it is \$6.75 plus a tip and only half as far. In the second place, the Communist "stronghold" which you drive through upon entering Caracas is no different than many other cities, and more important people than Mr. Nixon have been coming in this way for many years. In the third place, when he hollers that a fair room at the Tamanaco Hotel costs \$16, he forgets to mention it is the best hotel in Caracas. In the fourth place, the price offered his friend for a new Chevrolet should have been 15,000Bs or \$5,000 instead of \$15,000. Well, enough said to show you his article was

very slanted and above all, it didn't help to create better feelings between Venezuela and the U. S.

The two major hotels in Caracas where most of the tourists, businessmen, and political representatives stay are the Tamanaco and Avila. These two are directed more toward the American and European way of living. The Tamanaco being very lively, busy and having lots of entertainment, while the Avila is very well equipped, but much quieter. For those who plan to stay any period of time, they find an apartment or house when possible. It is true that living here is expensive--expensive because they want to live as they have been used to living in the U. S. A., and because the biggest percentage of goods (necessities, food and luxury) are imported.

Your question now is how do the poor live. Well, its for sure they don't have any of the luxuries, nor do they live in any more than a board and tin shack, nor do many of them have running water, but somehow they survive. At the moment in Caracas many of the poor districts are without water as this is the end of the dry season and the reserves are running low. Many seem to manage to have a few chickens, pigs, or goats and a small garden from which they can draw their vegetables during the year. Vegetables are very high here as they are either imported or what is grown is not enough to supply the needs of all or it is so poor it is useless. The men work on government projects and make enough to furnish the rest of the necessities. The terrific housing project that Perez Jimenez put on to clear the slums brought a further increase of campesinos (the people living in the country) into Caracas.

The movement of the people from the slums into the fancy new apartment buildings was

thought to be the answer to a lot of problems, but it soon proved to create more problems. All thoughts of what was going to happen to their pigs, chickens, goats and gardens had been forgotten--until it became evident to them that these things were necessary for their survival. This realization brought about a mass movement, in some cases, out of the apartments and the building of new shacks further up the hill. I realize this doesn't cover the situation very well, but at the moment it is the best I can do.

The exploitation of the government's funds can easily be seen in many cases, one in particular being the grand fashion in which the military elements have lived. The grounds are kept trimmed beautifully, large monuments and statues cover the area, their living quarters and clubs are nothing but the finest in Caracas, plus having their own race track. This shouldn't be considered too unusual though, considering the position the Armed Forces has played in controlling the government through the history of Venezuela.

I see I forgot to mention a few vital statistics about Caracas and the surrounding area. The airport is located right on the coast and the 20 mile drive to Caracas is a continuous climb to its elevation of 3,000 feet. Caracas has an average temperature of 60-65 degrees at night and 80-85 degrees during the day, all year! We are located 10 degrees north of the equator and the length of the day does not vary much more than 1 hour the whole year. Even though they are located above the equator, they have only two seasons--the rainy season and the dry season. The first begins in April and lasts until October, while the second starts in November and lasts until March. The country is considered Tropical, yet we have mountain ranges that reach an

Bond Sales Total \$2,932 In January

"Savings Bond sales for January 1960 totaled \$2,932," Frank Spring, Chairman of Parmer County Savings Bonds Committee reported today. "Our county has reached 3.2 per cent of its 1960 goal of \$90,000."

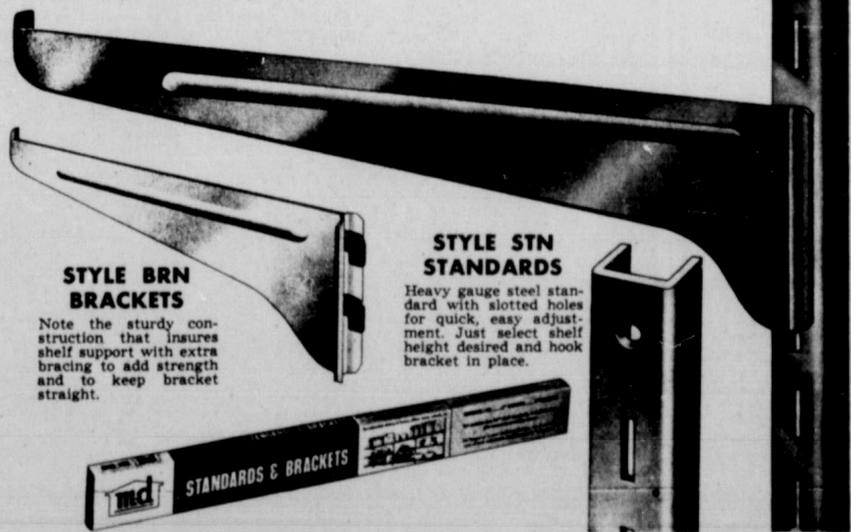

Sales in Texas for January were \$16,537,766 which is 10 per cent of the state goal. "When we buy our Country's Savings Bonds we are helping to save things that money cannot buy," concluded Spring.

A man was telling his friends about the frightening experience he had on the Western vacation trip.

"It was terrible," he said. "Indians to the left of me, Indians to the right of me, Indians to my rear, Indians in front, Indians everywhere closing in on me." "Whew," exclaimed a listener. "What did you do?" "What could I do?" the man replied. "I bought a basket."

THE HIGH PLAINS FARM AND HOME

Brucellosis Still Serious Problem

Although most of the United States is participating in one of the programs to prevent brucellosis, the cattle breeding disease is still a serious problem in Texas.

A recent meeting was held at the Hub community building, which 31 farmers and cattlemen from four counties attended, to analyze a new law passed last year to allow counties to work together in

the Brucellosis control program. Previously it was an individual county matter.

Present at the meeting were cattlemen from Parmer, Castro, Deaf Smith and Bailey counties. The latter three counties are presently petitioning to enter the control program.

The move came as a result of price differential between the High Plains area and certified

areas that are participating in the Brucellosis Eradication Program at a state or federal level. Cattle shipped from this area to certified places lose sometimes from \$2 to \$6 a hundred weight, and most cattle are exported as stockers and feeders, many of them to "certified free states," where the disease has been eliminated. New Mexico is listed as one of these areas.

The new law was requested by Texas cattlemen because of the price differential. Although there is little of the disease in the Parmer County area, the market is still greatly affected here.

The disease, brucellosis, causes cattle to suffer a reduction in milk production, and also results in abortions, sterility and difficult breeders. It also lengthens calving time by 50 per cent, according to C.M. Patterson, extension veterinarian of the Texas Agricultural Extension Service.

Brucellosis is a highly contagious disease and is a problem to swine breeders as well as cattle. Humans may contract the disease by drinking un-

pasteurized milk of a contaminated cow. The disease is constantly a threat to other animals, such as sheep, horses and goats.

Brucellosis is commonly called Bang's disease in cattle. In swine it is referred to as "contagious abortion, and is commonly called "undulant fever" in man, Patterson says.

The germ causing the disease is not hardy and cannot survive outside of the animal's body. It is transmitted, usually through common feed and water troughs and bodily contact. Man can become infected by handling diseased animals without taking proper sanitary precautions.

Patterson reports that a 1956 survey proved that 79 per cent of the 2,551 dairy herds showed some evidence of the disease. Since then, every graded dairy herd in the state has enrolled in a brucellosis control program.

"Present figures show a marked reduction among this class of cattle," Patterson says.

Over all of Texas, Patterson estimates that approximately one of every four herds is contaminated, although only about 5 per cent of Texas beef cattle are infected. Fewer infections occur in the arid regions of far West Texas and the Panhandle. In eastern Texas, areas may have an infection rate as high as 20 per cent.

The extension veterinarian indicates that a steadily declining market for Texas' stocker and feeder cattle, will be even more restricted in the near future unless most of the state adopts

the control program.

There are two control programs that any county or group of counties can enact by a petition of 75 per cent of the owners comprising at least 51 per cent of the cattle on the tax rolls. They are the Type I Brucellosis Control Area and the Type II.

The type 1 program is designed to prepare highly contaminated regions to enter the type 2 program. No testing is required under this program and owners of the cattle must have all female calves vaccinated at their own expense. Vaccinations must be done by authorized veterinarians and reported on approved forms within 10 days.

Beef calves to be vaccinated under the first plan must be between 4 and 12 months old and they must be branded. Dairy calves vaccinated must be between 4 and 8 months of age under this plan. Certification of calves in dairy herds is also required.

The testing procedure in a Type II control area:

1. All registered cattle.
2. All dairy cattle.
3. All herds with fewer than

20 animals.

4. 20% of cattle in herds of over 20 cattle. If reactors are found, then all cattle in that herd.

Cattle that are classed as reactors or contaminated must be sold for slaughter or quarantined under this plan. In cases where immediate sale of reactors would cause a hardship, they may be quarantined up to one year's time.

Certification of a disease-free area, after testing under the second plan is complete and approved, is for three years. Recertification must be done after that time is up. Re-certification involves checking of 20 per cent of the herds in the area.

In order for the re-certification to be approved, infection must be down to one per cent of five per cent of the area's herds. If the area cannot be recertified, it must start over on the methods for certifying.

Patterson recommends that all farmers and ranchers follow a calfhood vaccination program and encourage the en-

Vegetable Meeting Tuesday at Friona

Farmers who want to explore the prospects for raising vegetables as a crop this year will be interested in a special meeting set for that purpose by County Agent Joe Jones. The meeting will be in the community room of the Friona State Bank next Tuesday, March 8, and will begin at 9:30.

Dr. Clyde Singleterry, Extension horticulturist; and Harlan Smith, Extension plant pathologist, both of College Sta-

tion; and Joe Cole, horticulturist for the Plains area, will be the featured speakers of the meeting. They will review the outlook for vegetable production and marketing on the irrigated Texas Plains this year.

Farmers are expected to exhibit lively interest in vegetables this year, although the acreage which has gone into truck crops is as yet not great.

A similar meeting was held last year, with beneficial results along educational lines.

The 1960 Guide for Controlling Cotton Insects, L-218, is now available at the offices of local county agents or from the Agricultural Information Office, College Station, Texas. At least six major changes have been made in the recommendations.

This Is National 4-H Week

(Editor's Note: This is National 4-H Week. Veda Wilson, a member of the Pleasant Hill 4-H Club, has written an essay on the organization. She is 12 years old.)

BY VEDA WILSON

National 4-H week will be observed March 5-12 with the theme "Learn - Live - Serve - Through 4-H."

Today there are more than two and one-fourth million 4-H boys and girls in more than 92,000 clubs in the United States, Alaska, Hawaii and Puerto Rico. The first clubs appeared during the early 1900's.

Leaders in agriculture felt the best way to get modern, scientific methods used on farms was to train boys and girls to use

them. Later the clubs selected the 4-H name and the green four leaf clover emblem.

The Smith-Lever Act, passed in 1914, provided federal funds to help county extension agents in organizing and expanding the activity.

WHO MAY JOIN 4-H?

Any boy or girl 10 to 20 years old may join 4-H. Race and religion make no difference. Not all 4-Hers live on farms.

Hormones Improve Gains

Feeding of hormones to feedlot cattle has been recommended for several years. They have been used both orally in the feed and as ear implants. Additional gain with less feed has made feeders consider its use profitable.

There are instructions for use on the containers in which these products are purchased, says U. D. Thompson, extension animal husbandman. These instructions specifically state the length of time that cattle on oral feeding must be removed from feed containing the hormone prior to slaughter.

Some products require that animals be removed from such feeds at least 48 hours before slaughter. Thompson cautions that implanted cattle are not to be slaughtered for a certain number of days after the implants are administered. Certain products require 120 days prior to slaughter.

Anyone using or considering the use of hormones by either of the above methods should acquaint themselves with the proper use of the product, the husbandman emphasizes. This applies to hormone use with any cattle intended for slaughter.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

4-H offers a broad program for better family living. He or she may select projects to grow gardens and livestock. They may learn to sew, cook and serve tasty meals; freeze or can foods, to make their homes comfortable and attractive. So many projects are offered that it is sometimes hard to decide which one to take.

Club members conduct their own activities, to a great extent. They elect their officers, decide questions by majority vote, and conduct their own meetings. In this way the 4-Hers learn to think and do for themselves and to work together as a team.

It is not all work for the members. There are picnics, skating parties, and many other special activities.

It is important to the 4-H member and the leaders to have the cooperation and support of each parent.

4-H leaders take special training for their jobs and serve without pay. Members, 14 years or older and experienced in 4-H work, may serve as junior leaders.

Would you like to join 4-H? If you wish to know more about 4-H clubs and how you may join one you can get information from your county extension agent.

Now is the time to order your trees for windbreaks. Farmer County Soil Conservation District is making Arizona Cypress seedlings available to you again this year for those who plan to establish farmstead or feed lot windbreaks. Some may be planning to put out a few trees in a designated wildlife area as protection for quail and pheasant.

These seedlings will be potted and will be of very good stock. People who have ordered them

in the past have had good luck with them when they are given reasonable care.

Cost to you is 30 cents per seedling and application for not less than 50 or more than 400 trees will be accepted. Applications may be obtained from the SCS office or Steve Messenger's office in Friona or the county agricultural agent's office in Farwell.

Stubble mulch is a year-round way of managing plant residue on cropland. Harvesting, seedbed preparation, planting and cultivating are all done so as to leave residues of the previous crop on top of the soil until after the next crop is seeded. These residues or stubble of the last crop make a mulch that helps conserve soil and water.

Stubble mulching greatly reduces both wind and water erosion. It is particularly useful here on the Great Plains where ways to control wind erosion are a continuing need and where high producing stubble crops such as small grains are common.

When left on the surface, the residues keep the wind from getting at the soil and keep the rain from compacting it. The soil will take water more rapidly. The wise use of residues pays because it saves soil and water.

Roadside markets on heavily traveled highways offer a sales challenge to farmers who produce for such outlets. This method of marketing fresh farm produce offers opportunities for those willing to meet the challenges, says J. F. Rosborough, retired extension horticultural marketing specialist. A new extension publication, "Fruit and Vegetable Marketing--Roadside Markets Can Sell Farm Produce," which Rosborough authored is available from local county extension offices.

Most farm and ranch operators claim annual depreciation on buildings and equipment, but few take advantage of depreciation on livestock. C. H. Bates, extension farm management specialist, says if allowable depreciation on livestock is not claimed each year, the operator loses the deduction. Every ranchman or livestock producer should discuss this question with whomever makes his tax report. Many tax accountants have devised sheets for keeping continuous depreciation records on the same animals for a period of years, the specialist adds.

Total tonnage of fertilizers sold during the fall of 1959 (July 1 to December 1) was 4.8 per cent over that sold during the same period in 1958 and 20 per cent over the total sold in the fall of 1955. Sales of anhydrous ammonia were down 8 per cent and of ammonium nitrate, 10 per cent, reports Dr. J. F. Fudge, state chemist. The total tonnage of anhydrous ammonia used in the six-month period was six times as great as in 1954. Anhydrous ammonia accounted for 27 per cent of the tonnage of all materials, 66 per cent of the total materials nitrogen and 57 per cent of all nitrogen sold.

Feed grain prices are expected to average a little lower in 1959-60 due to the record 1959 crop and the large supplies, according to John McHaney, extension economist. Expected lower livestock prices in 1960 and lower supports, especially for sorghum grain, will have a tendency to cause feed grain prices to be lower. McHaney added that a further increase in feed grain utilization is expected because livestock numbers continue to increase, causing heavy feeding of grain and other concentrates. However, total utilization has not kept pace with production and supplies continue to mount.

H. D. AGENT'S CORNER

Jimmie Lou Weinscott

A meeting to plan a drapery making workshop will be held in my office in the Courthouse on Monday, March 7 at 2 p. m. Anyone interested in the workshop is asked to attend the meeting. Each person will make a short drape for a sample to learn how to make drapes.

QUICK MEALS--SIMPLE BUT NUTRITIOUS!

Save time and energy when you plan family meals... It's easy, with the colorful new bulletin on "Quick Meals" written by extension foods and nutrition specialists of Texas A&M.

Just what is a good meal anyway? Specialists define it as one which helps to meet the health needs of each individual in the family by providing one serving of all food groups listed in the Texas Food Standard, a daily guide for good eating. Basic patterns for breakfast, dinner and supper are given in the bulletin, along with other suggestions for planning quick meals.

You will find tasty recipes, and easy-to-follow suggestions for preparing oven meals, one-dish meals, top-of-range and broiler meals, and pressure saucepan meals. Soups and sandwich menus with recipes are included, too.

You can get a copy of this bulletin from your county home demonstration agent's office.

TRAIN CHILDREN TO HELP...

Expecting the youngsters to

help with work around the house this summer? If so, it will pay to give attention and patience to training them in jobs they are to do, reminds Mrs. Eloise Johnson, extension family life specialist.

Children are often confused because adults are not consistent in teaching them to do things; not clear in the direction given. They need to know why certain things should be done or why certain ways of doing things are better than others.

Patience pays... You might try this pattern to train children and others in doing a job. First, explain to the child exactly what he is to do, and how it is to be done--step by step. Work with him several times, helping as needed. Watch him do it alone, making suggestions as he works.

Leave him while he does it. Finally, it's important to praise him for good work or effort, so that he leaves a job with a feeling of satisfaction.

F. Z. Beanblossom, poultry marketing specialist for the Texas Agricultural Extension Service, says he has often heard the comment that the albumen of eggs (egg white) doesn't contain any food value. He says that research shows that the albumen contains over 50 per cent of the protein in the egg and about 75 per cent of the riboflavin. Don't, he adds, waste the albumen and rob yourself of much of the protein and B vitamins in the egg.

ON-THE-FARM GRAIN STORAGE
You Can Own This
Behlen Curvet
and have it "PAID IN FULL" IN ONLY 28 MONTHS

WHY YOU ARE AHEAD with an ALL-STEEL BEHLEN CURVET:
• Multi-Purpose - Both grain and machinery may be stored with a partition bulkhead.
• Heavy-Duty Construction - No sagged grain can be stored 12' against side walls.
• Low Cost - About 30% less than straight-wall steel buildings.
• Only Practical Leak-Proof Building on the Market - Non-aging rubber strips seal off weather, vermin, insects out.
• Unlimited Capacity - Available, 30' width, length unlimited. Easily enlarged.
• Quick Erection - Can be erected on your site in a week.
• Easy Financing - Through Behlen Purchase Plan or local ASC office.
• Special Drying Floor System - May be installed at low cost.
Here's an example of how one 40' x 50' Behlen Curvet will pay for itself in 28 months... and within 40 months give you a profit of \$2,502.05 to boot.
• The first year, seal your grain at the support price.
• The second year the ASC will pay you approximately 16 cents a bushel to re-seal your grain.
• In 28 months, your ASC earnings will have equalled the complete cost of your Behlen Curvet.
When you drop into our store, I'll show you exactly how you can also make a profit of \$2,502.05 as well as owning your Behlen Curvet "free," lock, stock, and barrel.

THE HAPPY HOMEMAKER

BY JUNE FLOYD

If you've never baked a prune cake, you've surely missed a treat. Not too many years ago prunes were one of the few fruits available on a year-around basis and most of us remember eating stewed dried prunes often.

It seems that after canned fruits became available less dried fruit was eaten, so the prune packers developed many recipes calling for prunes. Since they are one of our favorite fruits, we've made a collection of cake recipes calling for prunes.

Since most of the recipes call for "plump" prunes, you might be interested in knowing that "plump" prunes are just plain dried prunes that have been soaked in cold water 24 hours. Use 1 quart of water for each pound of prunes.

This week something new is being introduced in this column. For the first time we will have a picture. Just hope you decide to make a Prune Upside-Down

PRUNE UPSIDE-DOWN CAKE

Cake and that it turns out "just like the picture."

PRUNE UPSIDE-DOWN CAKE

This prune cake is almost candy-like on top with its brown sugar and butter in taffy glaze over the tart-sweet prunes. Below is a tender crumbed cake, with a nutty flavor bestowed by whole bran cereal in the batter. Turned out fresh from the pan, still warm, the deep prune topping glistening and fragrant,

this cake is a fine dessert. And it's perfect, of course with coffee alone, or as a light evening refreshment. Some will prefer it in its own prune-fruity plainness, some dressed up with a dollop of whipped cream. Either way, it's joyous eating.

1 1/2 cups plumped prunes
1/2 cup brown sugar, firmly packed

1/2 cup prune juice
1 tablespoon lemon juice
2 tablespoons butter or margarine

1 cup sifted flour
1 1/2 teaspoons baking powder

1/4 teaspoon salt
2 eggs, separated
1 cup sugar

1/2 cup hot water
1/2 cup whole bran cereal
1 teaspoon vanilla flavoring

Cut prunes in half; arrange in greased 9x9-inch pan. Sprinkle with sugar, prune and lemon juice; dot with butter.

Sift together flour, baking powder and salt. Beat egg yolks well; blend in sugar a little at a time. Add hot water slowly, beating well. Stir in the whole bran and vanilla. Add sifted dry ingredients and mix thoroughly.

Beat egg whites until stiff but not dry; fold into batter. Spread evenly over prunes.

Courthouse

INSTRUMENTS FILED FOR RECORD WEEK ENDING FEBRUARY 27, 1960 County Clerk's Office, Parmer County W.D., Friona Enterprises, Inc., O. D. Bingham, Bk. 1, Part Bk. 3, Otis Ford Sub. of Lot 15, Bk. 3, Lakeside Add., Friona D.T., Wm. Doyle Elliott, O. D. Bingham, NW/4 Sec. 21, N/2 of SW/4 Sec. 21, T5S, R4E W.D., E. D. Chirwood, Edward D. Chirwood, Jr., 1/3 int. in Parts of Sec. 16 & 17, T14S, R3E

W.D., S. G. Wilson, Mary Ann Waldrep, 1/13 int. Sec. 38, D&K

W.D., Charles L. Lenau, Leroy Hunton, Lot 3, Bk. 1, Hillcrest (except E5) E 60' Lot 5, Bk. 4, Mimo, Farwell

W.D., Henry Minter, C. R. Elliott, E/2 of SW/4 Sec. 10, T6S, R3E

Bake in moderate oven--350 degrees--about 45 minutes.

Remove from oven; let stand a few minutes, turn upside down on cake plate. Let stand a few minutes longer before removing pan. Cut into serving pieces and serve warm or cold with whipped cream, if desired.

Then a different type prune cake recipe calls for the prunes in the batter. The following one must be good. Mrs. Dee Brown of the Midway Home Demonstration Club and Mrs. Giles Cobb of the Black Home Demonstration Club both submitted it for publication in "What's Cooking in Parmer County."

KENTUCKY PRUNE CAKE

3 eggs
1 cup salad oil
1 cup buttermilk
1 cup cooked cut prunes
1 teaspoon vanilla
2 cups flour
1 1/2 cups sugar
1 teaspoon cinnamon
1 teaspoon nutmeg
1 teaspoon soda
1 teaspoon allspice
1 cup chopped pecans
pinch of salt

Mix as follows: Blend sugar, oils and eggs. Add sifted ingredients alternating with milk. Add vanilla, nuts and prunes. Bake at 300 degrees until sides shrink from pan and tops springs back when pressed.

BUTTERMILK ICING

1 cup sugar
1/4 cup buttermilk
1/4 teaspoon soda
1 tablespoon white syrup
1/4 stick butter

Combine all and cook until mixture forms soft ball in cold water. Pour over cake in the pan without beating and while still hot. The icing will soak down into the top and sides making a delicious moisture that will keep almost indefinitely.

Use 9" x 13" pan or two 8" x 8" square pans. When made as a layer cake, icing may be used as a filling as well as on the top.

MML, Robert Gilliam Edens, Cicero Smith Lbr. Co., Lots 16 & 17 Bk. 42, Bovina W.D., Linda Jean Herod, Lois Y. Haggard, Part int. in Part Sec. 35, T3S, R3E W.D., Sarah Ollie Williams, et al, George McKinney, Bk. 48 & 49, Lots 3 & 4, Bk. 28, Lots 3 & 4, Bk. 29, Bovina W.D., John H. Gammon, Joe Briggs, S/2 Sec. 63, Kelly "H" D.T., Connie O'Brien, Conn. Gen. Life Ins. Co., N/2 Sec. 4, T10S, R2E W.D., R. B. Chesser, Earl B. Peterson, SW/4 Sec. 12, T11S, R3E

Farm or ranch buildings or structures to be used as production facilities should be planned carefully before construction begins, says W. S. Allen, extension agricultural engineer. Careful planning, he adds, will insure the best possible return on the investment and the maximum in labor saving, both important factors in the ever-increasing cost-price situation faced by agricultural producers.

Baker Dwarf 292 Top Castor Bean

Castor bean tests for 1959 at the High Plains Research Station show that Baker dwarf varieties 292 and 296 continue to be the best in yield of the released varieties with 1866 pounds and 1859 pounds per acre, respectively, Delbert Langford, assistant agronomist, states in commenting on his report.

These yields were approximately 400 pounds per acre above the 1958 record and about 700 pounds above the 1957 yield. The Dawn variety made similar gains.

Five of the eight varieties tested were experimental and not yet released. The average

yield of all eight was 1,829 pounds per acre. This exceeded the 1958 averages by 194 pounds and 1957 by 653 pounds. One of the experimental varieties was over 200 pounds above the three year yield leaders. Even higher yields may be anticipated in the future.

The eight varieties of castor beans under test at Halfway made a surprising recovery

from the June 22 heavy hail damage. Castor beans suffered less than other crops on the research farm at Halfway.

The eight varieties were planted May 15 at the rate of 10 pounds of seed per acre. They received 50 pounds of nitrogen sidedressed on June 19. All varieties were harvested January 29.

- 1/2 cup whole bran cereal
- 1 teaspoon vanilla flavoring

Cut prunes in half; arrange in greased 9x9-inch pan. Sprinkle with sugar, prune and lemon juice; dot with butter. Sift together flour, baking powder and salt. Beat egg yolks well; blend in sugar a little at a time. Add hot water slowly, beating well. Stir in the whole bran and vanilla. Add sifted dry ingredients and mix thoroughly. Beat egg whites until stiff but not dry; fold into batter. Spread evenly over prunes.

W.D., Henry Minter, C. R. Elliott, E/2 of SW/4 Sec. 10, T6S, R3E

Bake in moderate oven--350 degrees--about 45 minutes. Remove from oven; let stand a few minutes, turn upside down on cake plate. Let stand a few minutes longer before removing pan. Cut into serving pieces and serve warm or cold with whipped cream, if desired.

Then a different type prune cake recipe calls for the prunes in the batter. The following one must be good. Mrs. Dee Brown of the Midway Home Demonstration Club and Mrs. Giles Cobb of the Black Home Demonstration Club both submitted it for publication in "What's Cooking In Parmer County."

- ### KENTUCKY PRUNE CAKE
- 3 eggs
 - 1 cup salad oil
 - 1 cup buttermilk
 - 1 cup cooked cut prunes
 - 1 teaspoon vanilla
 - 2 cups flour
 - 1 1/2 cups sugar
 - 1 teaspoon cinnamon
 - 1 teaspoon nutmeg
 - 1 teaspoon soda
 - 1 teaspoon allspice
 - 1 cup chopped pecans
 - pinch of salt

Mix as follows: Blend sugar, oils and eggs. Add sifted ingredients alternating with milk. Add vanilla, nuts and prunes. Bake at 300 degrees until sides shrink from pan and tops springs back when pressed.

- ### BUTTERMILK ICING
- 1 cup sugar
 - 1/4 cup buttermilk
 - 1/4 teaspoon soda
 - 1 tablespoon white syrup
 - 1/4 stick butter

Combine all and cook until mixture forms soft ball in cold water. Pour over cake in the pan without beating and while still hot. The icing will soak down into the top and sides making a delicious moisture that will keep almost indefinitely.

Use 9" x 13" pan or two 8" x 8" square pans. When made as a layer cake, icing may be used as a filling as well as on the top.

W.D., R. B. Chesser, Earl B. Peterson, SW/4 Sec. 12, T11S, R3E

Farm or ranch buildings or structures to be used as production facilities should be planned carefully before construction begins, says W. S. Allen, extension agricultural engineer. Careful planning, he adds, will insure the best possible return on the investment and the maximum in labor saving, both important factors in the ever-increasing cost-price situation faced by agricultural producers.

Baker Dwarf 292 Top Castor Bean

Castor bean tests for 1959 at the High Plains Research Station show that Baker dwarf varieties 292 and 296 continue to be the best in yield of the released varieties with 1866 pounds and 1859 pounds per acre, respectively. Delbert Langford, assistant agronomist, states in commenting on his report.

These yields were approximately 400 pounds per acre above the 1958 record and about 700 pounds above the 1957 yield. The Dawn variety made similar gains.

Five of the eight varieties tested were experimental and not yet released. The average

yield of all eight was 1,829 pounds per acre. This exceeded the 1958 averages by 194 pounds and 1957 by 653 pounds. One of the experimental varieties was over 200 pounds above the three year yield leaders. Even higher yields may be anticipated in the future.

The eight varieties of castor beans under test at Halfway made a surprising recovery

from the June 22 heavy hail damage. Castor beans suffered less than other crops on the research farm at Halfway.

The eight varieties were planted May 15 at the rate of 10 pounds of seed per acre. They received 50 pounds of nitrogen sidedressed on June 19. All varieties were harvested January 29.
