

# THE SANDERSON TIMES

XIII

SANDERSON, TEXAS FRIDAY, JANUARY 17, 1941

NUMBER 46

## FULL PROGRAM OF ACTIVITIES PLANNED FOR SCHOOL

The remainder of the 1940-41 school term offers a full program of activities for pupils and teachers in the Sanderson schools. The regular schedule of school work covers a wide field of choice for the high school pupil over a total of 31 full affiliated courses. The work in the elementary grades stresses the fundamental subjects and in addition offers the pupil full courses in fire prevention, music including band, in art and handicraft, physical education and health, and woodwork for older boys. The Sanderson High School is again one of the some 250 Texas schools placed on the Southern Association of Colleges and Secondary Schools and thus has certain standards in regard to the regular school work above the requirements set by the Texas Department of Education.

The athletic program planned consists of basketball, volleyball, playground baseball, track, tennis, and the regular physical education courses providing for interclass games. The basketball season usually ends with the district tournament which is to be held at Fort Stockton on February 21 and 22. Volleyball for girls, tennis, playground baseball and track are all part of the University Interscholastic League activities coming in the Terrell-Brewster Bi-County meet in March and then going to the district meet.

## Interscholastic League Plans Made In Marathon

Representatives of the Marathon, Alpine and Sanderson Schools met in Marathon Saturday morning, January 11, and completed plans for the fifth annual Terrell-Brewster Bi-County Interscholastic meet.

It was decided that the meeting would be held in Sanderson on March 21 and tennis eliminations on March 22. Judges are to be secured from the College of Mines in El Paso, as has been done in past years.

The host school furnishes awards in the form of ribbons for the winners of all events but the total points made by a school are not counted and no championship trophy is given. Representatives from the Sanderson schools attending the meeting last Saturday were Superintendent R. D. Holt, Principals D. E. Smith and Ted Baker.

## Mrs. Herman Couch Hostess to Home Demonstration Club

The Ranch Home Demonstration Club met Wednesday, January 15th, at the home of Mrs. Herman Couch. The president called the meeting to order and transacted the old and new business. The meeting was then turned over to Miss Mamie Pryor, Pecos County Home Demonstrator.

Miss Pryor gave a demonstration on the right and wrong way to serve breakfast to a family. She gave a short talk on the use of whole grain foods in our daily diet, and she also gave a very effective talk and picture demonstration on the necessity of vitamins in our diet. Miss Pryor finished the program by preparing and cooking whole wheat griddle cakes.

The president appointed Mrs. John Dyche and Mrs. C. C. Mitchell as living room demonstrators, and Mrs. Malone Mitchell and Mrs. Albert Appel Jr. as bread demonstrators.

Those attending the meeting of the club this week were: Mesdames Albert Appel Jr., N. M. Mitchell, C. C. Mitchell, Sid Harkins, Ira Deaton, John W. Byrd, H. C. Goldwire, Ferd Monroe, Jack W. McKee, John Dyche, Sam Culbertson, Joe F. Brown, Miss Mamie Pryor and the hostess, Mrs. Herman Couch.

The next meeting will be held February 5th at the home of Mrs. Ben Arvin. Miss Pryor will meet with the club the first Wednesday of each month.

## Argentina Asks \$50,000,000 Loan

Photo shows members of an Argentine delegation to Washington for the discussion of a \$50,000,000 loan regarded necessary to sustain the increasing flow of exports to Argentina, which are much heavier than Argentine exports to the United States. L. to R., Dr. P. Preblich (Central Bank of Argentina); D. Espil, Argentine ambassador; Sumner Welles, U. S. acting secretary of state; E. Grumbach (Central Bank of Argentina); C. Prado, of the Argentine embassy, and R. Verrier (Central Bank of Argentina).

February 21 and 22. Volleyball for girls, tennis, playground baseball and track are all part of the University Interscholastic League activities coming in the Terrell-Brewster Bi-County meet in March and then going to the district meet.

The public programs planned for school pupils consist of some 36 assembly programs in which pupils participate, programs presented for the Parent-Teacher Association, and public programs at special times such as commencement.

The Sanderson School Band plans to attend the District contest this spring in Kermit similar to the trip made last year to Odessa.

Another part of the program is the immunization and general health program in the school under the direction of Miss Edna Peterman, Red Cross Nurse, who will be in the school for the three months of January, February, and March. The immunization program covers the fields of smallpox, diphtheria, tuberculosis, and typhoid. In addition, a dental clinic will be held, along with testing of vision and instruction in health and nutrition.

Clubs and other activities sponsored in high school are in journalism, science, library, speech, and dramatics, spelling, and in homemaking.

During the school year of 1939-40, it was estimated that the representatives of the Sanderson High School such as teams and individuals and single cars on school business traveled more than ten thousand miles. Hundred of athletic games and contests, many of them with other schools, were played. More than one hundred programs were presented by pupils in the school, or an average of three each week of the 36 weeks of the school year. It is believed that the present school term will compare closely with the past thus showing that school is a busy place for all yet offering a variety of instruction to the student who is ambitious to secure an education.

## Urge Payments Be Made for Christmas Seals

Persons who received Christmas seals and who have not sent in their check for them are urged to do so at once by Mrs. John L. Newton, treasurer, as the books must be closed February 1st.

The Christmas Seal campaign formally closed Christmas Day, but it isn't too late to mail in your dollar if you have not done so. A portion of that dollar will remain in Sanderson to be used as needed and the balance will go into the national fund. Returns so far have fallen short of the amount needed to carry on the work necessary in 1941 according to Mrs. Newton, although receipts are better this year than last.

Income tax payers are reminded that money spent for Seals can be deducted from their income tax returns.

## TERRELL COUNTY PREVENTATIVE DISEASE PROGRAM

Through the cooperation of the local Chapter of the American Red Cross and the local physicians, a number of preventive disease programs conducted through clinics will be again carried on in Terrell County.

We all know, states Miss Edna Peterman, local Red Cross Nurse, "that prevention is by far better and by far cheaper than the cure." Immunization for Diphtheria, vaccination for smallpox and typhoid fever, Schick and tuberculin tests will be offered at these clinics. There will be no charge for the pre-school and school children. Adults will pay a nominal fee.

In our efforts to gain protection against the communicable diseases we often forget about the babies and the younger children. But they are just as susceptible and furthermore their resistance against the hazards is less than among the older group. Because these programs may not be made possible within the next few years, every parent should take this opportunity to give his children these protections at this time.

## Regular Parent-Teacher Meeting Held Thursday

Mrs. Will Savage was leader of the P.-T. A. meeting Thursday afternoon, January 9, when it met at 4:15 at the high school auditorium.

The Rev. J. Y. Bowman led the group in prayer and the sixth grade sang, "Our Flag," "God Bless America," and "The Little Red Drum."

Mrs. C. P. Peavy read the minutes of the last meeting and gave the treasurer's report. A report of the committees was taken and Ted Baker took the room attendance. The second and third grades were awarded the prize.

Miss Edna Peterman, Red Cross Nurse, spoke about her work with the local community, stressing maternal and infant hygiene.

Judge R. S. Wilkinson gave an interesting discussion on "Economic Security."

## Mrs. R. S. Wilkinson Is Hostess to Wednesday Club

The Wednesday Bridge Club met with Mrs. R. S. Wilkinson Wednesday afternoon at her home with three tables of players present.

High score was won by Mrs. Clyde Griffith and second high went to Mrs. Tol Murrah.

Mrs. Wilkinson served a salad plate to Mrs. Max Bogusch, Mrs. Bustin Canon, Mrs. A. E. Creigh Jr., Mrs. Clyde Griffith, Mrs. R. D. Holt, Mrs. James Kerr, Mrs. W. H. Savage, Mrs. Tol Murrah, Mrs. C. P. Peavy, Mrs. J. C. Green, Mrs. Robert Duncan and Mrs. John Harrison.

## FUNERAL RITES FOR MRS. DAN ROSS HELD TODAY

Funeral services were held this morning, Friday, at 11 o'clock from the Baptist Church for Mrs. Nancy Elizabeth Ross, 66, who died Wednesday afternoon in a Del Rio hospital. She had been in bad health for some time but did not become gravely ill until about 45 days ago. She was taken to the Del Rio hospital for medical treatment Tuesday.

Mrs. Ross had resided in this section of the country for many years. She was born September 20, 1874, the daughter of Mr. and Mrs. D. W. Burleson. With her parents, she moved to Edwards County at the age of eight years. She was married to Dan Ross February 3, 1891, in Edwards County and the couple would have celebrated their fiftieth wedding anniversary had she lived until February 3.

In 1910 Mr. and Mrs. Ross moved to Terrell County from Edwards County, later ranching in Ozona. They had been living in Sanderson for the past three years, however.

Survivors include her husband, Dan Ross, three sons, three daughters, a brother and a sister. The sons are Volten Ross, Arnette Ross and Rufus Ross. The daughters are Mrs. Ella Ross Evans of Wilcox, Ariz., Mrs. John Latta of Sanderson, and Mrs. R. C. St. Clair of Rankin, Texas. The sister is Mrs. Laura Harless of Elk County, Okla., and the brother is J. H. Burleson of Camp Wood.

Interment was in Cedar Grove Cemetery with Joe Oberkamp Funeral Directors in charge.

## Two Automobiles Figure In Wrecks

The automobile occupied by Mrs. L. M. Baze and son, Lyall Jr., and Ercella Falcon overturned late Friday afternoon about 6 miles east of Dryden when a piece of tubing stuck into a tire causing a blowout.

None of the occupants were seriously injured although Mrs. Baze was badly shaken and sustained bruises on the body. Lyall Jr. was also shaken and bruised and received a cut on the lip.

They were returning from San Antonio where they had been for several days. The car was badly damaged.

Another car figuring in an accident was the automobile occupied by Dr. and Mrs. William Aston. The accident occurred about 20 miles east of Dryden as they were returning to Sanderson Sunday night.

The doctor said the car hit a strip of wet pavement and started skidding. He was unable to regain control of the car and it skidded into the bar ditch and overturned, then coming back to rest upright. No tires were blown out and they were able to return to Sanderson in the car, although it was badly damaged.

Mrs. Ted Baker Hostess to Women's Circle

The Young Women's Circle met Wednesday at the home of Mrs. J. Y. Bowman with Mrs. Ted Baker as hostess.

The subject of the program was "Investing Our Heritage for Health in the United States."

The program was opened with a hymn followed by a paper A full discussion of health in the United States was then participated in by all present and a short business session was held.

A social hour was enjoyed by Mesdames Ted Attaway, B. H. Moorefield, A. B. Caraway, L. M. Wyche, J. S. Weyerts, Ed Robbins, J. Y. Bowman, John Oberling, Ted Baker, and Harlan Woolwine. Mrs. Weyerts and Mrs. Woolwine became members of the circle.

Mrs. Fred Schmidt spent a few days in San Antonio this week.

## Plan Public Health Nursing Service In Terrell County

The Nursing Activities Committee of the Terrell County Chapter of the American Red Cross met January 4th at the home of Mrs. J. W. McKee with the following present: Mrs. McKee, secretary; Judge G. J. Henshaw, chairman of the Chapter; Mrs. John L. Newton, chairman Nursing Activities Committee; Mrs. T. J. Murrah, R. D. Holt, superintendent of schools, and Miss Edna Peterman, American Red Cross Nurse. At the meeting plans were made for the three months public health nursing service.

The programs that will be carried on during the 3-months service are those that the committee and Miss Peterman felt were most needed in the county.

The program will include:

1. Immunization clinics for diphtheria.
  2. Schick test clinics for diphtheria.
  3. Vaccination clinics for smallpox and typhoid fever.
  4. Tuberculin testing program.
  5. X-rays for the suspicious cases.
  6. School Health Program including health inspection of some of the students, eye hygiene, dental examinations by local dentist, conferences with individual teachers relating to health problems or health program, and talks.
  7. Follow up through home visits of the children with a positive reaction of the T. B. test done in 1940 and those which will be done in 1941 who have positive reaction.
  8. Educational program through home visits of the pre-school children and infants.
  9. Home hygiene classes.
  10. Pre-natal program.
- The services of the American Red Cross Nurse were made possible through the cooperation of the local Chapter of the American Red Cross and the American National Red Cross who provided part of the expenditures through the Delano Fund.

## Mrs. D. M. Wells Entertains Tuesday Bridge Club

Members and guests of the Tuesday Bridge Club were entertained at the home of Mrs. D. M. Wells Tuesday afternoon.

When the scores were tallied Mrs. C. P. Peavy was winner of high score prize and Mrs. Robert Duncan won second high.

The hostess served a salad plate to Mesdames Bustin Canon, Robert Duncan, John Harrison, C. P. Peavy, Walter Grigsby, Mary Lou Keller, Austin Nance, J. S. Nance, Hugh Rose, A. E. Creigh Jr., Tol Murrah and W. H. Savage.

## TERRELL COUNTY OIL NEWS

Wells were reported this week as follows:

Sides and White Bassett Mineral Trust and Landon Rose No. 1, southwest corner of section 15, block 148, T. and St. L. Drilling at 600 feet.

State Consolidated Oil Co. No. 1 Holmes, northeast corner of section No. 14, block A-2, Running 8-inch casing at 1020 feet.

Briggs et al. No. 1 Kerr, section 18, block D-5. Preparing to resume drilling.

Chas. E. Detweiler et al. No. 1 Sam Bell. Remains shut down pending plans to deepen.

Interstate-Minerals No. 1 Gordon, center of section 213, block center of section 213, block G-4, Brewster County. No report.

W. C. Beasley et al. No. 1, Blackstone and Slaughter, northeast corner of section 30, block 129, T. and St. L., Pecos County. Drilling at 380 feet.

Editor's Note—This column is written by Cal Huffman, your representative, in an effort to keep you informed as to what goes on in Austin and in no way reflects the opinion or policy of this newspaper.

Austin, Jan. 14—With all the ordered regularity of a mining camp setting fuses for the big explosion, and fraught with as much danger to the tax-paying citizens of our great State, the 47th Legislature got under way on its five months' regular session today.

For the first 66 days, bills (probably 1700 of them) will be submitted. Thereafter, the remainder of the time will be taken up with disposing of them. Today, and for the duration of this week, the main business will be organization; selection of the legislative help, the clerks, doormen, stenographers, chaplain, pages, etc., and later the nomination of standing committees by the Speaker.

Homer Leonard of McAllen, elected Speaker of the House without opposition at the start of his sixth term, showed, his business training in the quiet remark: "Representatives are being limited to one appointment each; because after their political obligations have been taken care of, we're going to have to hire some efficient help to do the work around here."

At high noon, when the opening gavel sounded simultaneously in the House and Senate, several things were definitely known. This legislature is a serious legislature, not so much because the members are of any better calibre than their predecessors, but because most of them were elected to "get something done." The 31 Senators and 150 Representatives (2 of whom are women, former school teachers) are pledged to clear the slate of old legislation in order that problems looming from National Defense may be considered.

Biggest of the hold-overs is Social Security: how to put financial water under the ship of state so it can bear up under the burdens of old-age pensions, aid to the needy blind and dependent children, 50 percent co-operation in the pension fund for school teachers.

Your roaming legislator from District 87 scents through the drift of cigar smoke that most of the financial water will come from a Natural Resources Tax—a tax on oil, sulphur and natural gas. These vital resources have been piped from our State almost tax-free for many years, and even now can be obtained in other states cheaper than in Texas. Heretofore Texas levies

Have been directed at retail consumers in this State. The proposed new taxes will strike at the source, at the producers.

For instance, Texans are now paying a 4c a gallon retail tax on gasoline. If a 2c a gallon wholesale tax were substituted, Texans would pay only 2c instead of 4c and consumers in other states would also pay 2c. Since most of Texas oil and gasoline is exported, the total amount of revenue would be considerably increased. The same sort of tax on Texas sulphur and natural gas would reach consumers in every State in as great or greater proportion as in this State.

There is great sincerity of purpose behind this plan, but the tale of success is not told. Will this sincerity avail against the strong lobbyist wall maintained by the Wall Street interests who have been reaping the benefits of Texas' tax-free resources? Old-timers in the House say that the Natural Resources Tax will be passed there, but it will have a hard time in the Senate. Many Senators, they point out, are retained by Wall

### It Happened in Sanderson TEN YEARS AGO This Week—Remember?

January 16, 1931.

The Commissioners' Court met Monday. All the commissioners and county judge were present. This was the first regular business meeting of the court since the two new mem-

bers, Jim Mitchell and R. E. Fred were sworn in.

The new \$35,000 gymnasium of the Sanderson Public Schools was dedicated on Friday and Saturday nights of last week with a two game series of basketball between Sanderson Eagles and the Alpine Bucks.

Engineer C. L. Sims had the misfortune to have his leg hurt on a derrick the first of the week and left soon afterwards for San Antonio.

J. R. Blackweider made a business trip to Presidio this week.

Mrs. A. C. Clafelter entertained with an enchilada supper for the teachers.

Jesse Lochausen has returned home from El Paso.

Clyde E. Griffith, local weather observer for the United States Government Weather Bureau, has given us the following figures on the rainfall for Terrell County: Total rainfall for the year 1930 was 9.75 inches, while in 1929 the total was 11.01 in.

work of clearing off the grounds was started.

Alpine Avalanche—The rain and snow which fell here the latter part of last week brought a total precipitation of 49 in., according to the government gauge at Sul Ross college.

The fall was general over the Davis mountain-Big Bend section, as far as could be learned here, although it was some lighter in certain localities and heavier in others.

Sabinal Sentinel—February 6 and 7 is the date set for the annual Uvalde County 4-H Club Fat Stock Show. Club members, breeders and stockmen are looking forward to this event with much interest. This annual affair, sponsored by Sabinal or Uvalde Chambers of Commerce is held each year.

Big Bend Sentinel—Nearly ten per cent increase in the business done at the Marfa postoffice over that of the calendar year

1930 has been reported by Albert L. Logan, acting postmaster, whose records show a total of \$17,710.61 as the 1940 business volume.

The year's business was the largest ever done by the Marfa postoffice.

Fort Stockton Pioneer—The 260th Coast Artillery, National Guard unit from Washington, D. C., one of the newest type anti-aircraft regiments has written the Fort Stockton Chamber of Commerce for aid in arranging a site for an overnight stop of possibly a week-end, in Fort Stockton.

### CAPITOL THUNDER

(Continued from Page one)

Streeters as "legal advisers." For that reason, the Senate has consistently refused to pass a law which would impel all legislators to reveal the names of corporations on whose payroll they are listed. However, there are 10 new Senators this year. Maybe the will of the people will prevail.

Railroad lobbyists are wearing a wry smile these days. They have seen the handwriting of public opinion. They know the truck load limit is going to be raised from 7,000 pounds, lowest state limit in the nation. National Defense as well as interstate commerce argues for the change. What they are hoping for is that the ceiling will not be too high.

Meeting the facts squarely, even the railroad men acknowledge that the present truck load limit is too low to be enforced, and is not being enforced. Estimates on the proposed new law range anywhere from 12,000 pounds to infinity. That's the reason for the wry smile. They are hoping it will be 12,000 pounds. The railroad men would be satisfied with that—especially if it were rigidly enforced.

"Capitol Thunder" is just a homey news letter coming to you from your Representative. In it you will find each week a few hints about what is going on in the massive old building at Austin, among the men who are making the laws you will abide by in the next two years. Let us hope that soon the hints will become reports of definite action, so that this Legislature will go down in history as having accomplished something.

### New Unit Student Pilot Training at Sul Ross Announced

Alpine—A new unit of Civil Aeronautics Authority student pilot training will be enrolled at Sul Ross State College at the beginning of the second semester, January 27, through January 30. Dr. H. W. Morelock, Sul Ross president, has announced. Nine men and one woman student may register in the new class.

Students enrolling in the air school must have sophomore college standing and be between the ages of 19 and 26. Opportunities have been provided for flying students who need financial assistance to work for a portion of their expenses. Air school enrollees must be registered in the college but are not required to take other courses

### "Four Mothers" On Princess Screen Starting Wednesday

"Four Mothers," the latest of the gay, charming "Four Daughters" series will make its local debut at the Princess Theatre Wednesday, January 22. All the favorites of the Lemp family are back in this newest adventure. The story is more dramatic than its predecessors because now the Four Daughters are Four Mothers, yet it contains much sparkling humor.

The cast stars the Lane sisters Priscilla, Rosemary, and Lola together with Gale Page as the Four Mothers. Adam Lemp, honest, respected citizen of Briarwood and devotee of Beethoven, is played by that grand actor, Claude Rains. His wise, philosophical sister, Aunt Eta, is portrayed by May Robson. Jeffrey Lynn, Eddle Albert, Frank McHugh and Dick Foran are cast as the husbands who are ideally suited to their wives.

Adam Lemp persuaded many of the townfolk to invest in some property in Florida that his son-in-law Ben (Frank McHugh) owned. When a hurricane came along and devastated the area, Adam felt as if he were responsible for the loss and sells his property in Briarwood in order to repay his friends.

This warm story of how a great family helped themselves escape the disheartening results of adversity by working together will always be remembered. It is not only the story of a family's sacrifice. It is the story of a doctor's search for cure that will rid the town of a certain disease. It is the story of how a man's love for great music is kept alive. Above all it is a story of faith in the little man.

unless they desire to do so. Regular college students may take the ground school work for three semester hours of credit, and flying students receive additional credit.

The present pilot class at Sul Ross will complete its training on January 29, J. O. Casparis, C. A. A. pilot instructor for the college has advised.

### Musical Hawkshaw Fells Skulduggery At Deb Party

A vicious plot to do away with a beautiful young lady before she inherits her father's fortune and an eerie castle is the theme of "You'll Find Out," new starring vehicle for Kyser, his band and the College of Musical Knowledge, showing at the Princess Theatre Monday and Tuesday of next week.

A musical-mystery novelty, replete with chills, laughs and tuneful thrills, the story is laid in the vast halls, spooky passages and secret rooms of an enormous mansion where the heroine gives a party to cele-

brate her... turn home... To entertain... gages Kay... Three men... ever, turn... macabre... skulduggery... gain control... horror tri... re. Boris... goal plot... ing the... their most... tions are... ling and... interfe... shaw Kay... Babbitt, I... Mason.

### DOES FORD PAY GOOD WAGES?

HERE ARE SOME FACTS ABOUT FORD LABOR.

During the year ended November 30th, 1940, the Ford Payroll throughout the United States averaged 113,628 hourly wage earners, not including office employees, students, or executives. They were paid \$185,105,639.12. On this basis, the average annual wage was \$1,629.05.

According to the latest available government figures, the annual average wage of all workers in employment covered by old age insurance law was \$841.00.

If the 45,000,000 workers of this country received the same average wage as Ford employees, they would have had additional wages of more than \$35,000,000,000, thus increasing the national income about 50%. Think what such an increase would mean to the workers of this country and to the American farmer, whose prices are based on the national income.

Wage scales in the Ford Rouge plants are divided into three classifications:

Unskilled	Minimum hiring wage - 75c per hour
Semi-skilled	Minimum hiring wage - 80c per hour
Skilled	Minimum hiring wage - 90c per hour

Higher wages are in consideration of ability and years of service.

Minimum wage scales for unskilled labor at the Rouge plant are the highest in the industry. Top wages for skilled labor compare favorably with, or are higher than, wages in other automobile plants.

Now some facts on Ford labor conditions: Not only are sanitation and other health conditions the best in the industry, but Ford also leads in safety devices for the protection of employees. Proof of this is found in the following comparison of compensation in the automobile industry:

25,819	between 40 and 50 cents
14,731	between 50 and 60 cents
3,377	between 60 and 70 cents
417	between 70 and 80 cents
12	between 80 and 90 cents

In addition to the so-called "piece work" employees, the Ford Motor Company hires, and now has on the payroll, some regular hourly wage workers who are blind, crippled, or otherwise incapacitated for normal work. They are not selected on the basis of ability to build cars or to do any other kind of work. They are on the payroll because of the belief of Henry Ford that a large company has a moral obligation to employ anyone who is able to do any kind of work. The above are facts. They are not the kind of facts anyone who really wants to get a job in the automobile industry should ignore. Anyone who wants to get a job in the automobile industry should contact on the basis of fair wages and fair treatment must place Ford at the top of his eligible list.

FORD MOTOR COMPANY

### Deer Trapping Gets Under Way; 29 Are Bagged In 2 Days

Deer-trapping operations which, before they are completed, may result in 500 to 1,000 bucks and does being trapped and transplanted on shot-out areas, got under way auspiciously recently, according to reports received from field workers by the executive secretary of the Texas Game, Fish and Oyster Commission.

The Game Department, using a newstyle trap, one which catches a deer at a time, and one in which deer cannot injure themselves, hopes to double or quadruple its former distribution of deer as a result of the success of the new traps. Fifteen of 122 traps built for the Department were set on a South Texas area and the first morning it was

found that fourteen of the fifteen traps contained deer. The following morning each trap contained a deer, making a total of 29 in two days. When all traps are put into operation in South or Southwest Texas or in the Hill Country it is expected that they will work just as efficiently.

Traps are baited and set each night. When the deer enters to feed, a door slams behind him and he is trapped in an enclosure so narrow that he cannot injure himself. Field workers remove the deer each morning and place them on trucks and transport them to areas the Game Department is planting with game areas upon which there is suitable food for deer, but from which the game had been shot off.

Deer are trapped in areas where they have become too numerous and there is not sufficient food.

The deer trapping project of the Texas Game Department is one of many by which the Commission hopes to eventually restock millions of acres of land in the Lone Star State with deer, turkeys, quail, javelinas, beaver and antelope. Antelope trapping is already under way for the second consecutive year. Other trapping projects will be started soon.

"A constant drop of water. Wears away the hardest stone. The constant gnawing Fido Masticates the toughest bone. The constant wooing lover Carries off the blushing maid. And the constant advertiser Is the one who gets the trade."

### "Murder Over New York" Exciting Chan Picture

Here's the picture Charlie Chan fans have been waiting for—the case of the stratosphere bomber! It's the latest mystery hit from 20th Century-Fox, "Murder Over New York" and comes Friday and Saturday, January 24 and 25, to the Princess Theatre, with Sidney Toler again portraying the famed oriental sleuth.

Charlie battles death-dealing spies high in the skies over America's greatest city in "Murder Over New York" and in one of the screen's most unusual climaxes. Chan solves a diabolical plot to sabotage a stratosphere bomber. Called by previewers "the strongest of the Chan pictures," the film is said to give Toler not only his ablest supporting cast but the best story he's ever had. Among the prominent players in the cast of the picture are Marjorie Weaver, Robert Lowery and Ricardo Cortez.

"Murder Over New York" depicts the adventures that befall Chan in New York when he comes to attend a police convention. En route he meets an old friend from Scotland Yard who enlists Charlie's help in

attempting to locate a notorious saboteur, but before Chan can aid the Englishman is murdered.

Sensing the implications of the case, Chan bends all his efforts toward a quick solution. He narrows down the list of suspects, and is about to make his solution when a sudden attack destroys his evidence. Undaunted, Charlie continues his pursuit of the criminal mastermind.

The thrilling climax of the picture takes place in a plane high over New York. It develops into a battle of wits, but but six seconds separating Charlie from death—and a more suspenseful job has never been turned out by the mystery masters of Hollywood.

Outstanding in the supporting cast are Donald MacBride, Melville Cooper, Joan Valerie, Kane Richmond and Sen Yung.

### Autrey Stars In Range Thriller of Double Program

The announcement of a new Gene Autrey picture is occasion for real celebration among the Autrey fans. The Princess Theatre has scheduled Autrey's latest, "Gaucho Serenade," for a run of two days starting Friday, January 24, and local enthusiasts are due for a real entertainment thrill.

The story deals with Gene and Frog and their efforts to aid the cause of a little English boy who is being used as pawn by a gang of crooks who are trying to prevent his father from giving testimony which would result in their conviction for fraud.

"Ronnie," arriving at the dock, spies Gene and Frog and mistakes them for Martin and Blake who were scheduled to meet him. Martin and Blake are in reality the gangsters who want to kidnap the child, posing as his friends. When they learn that he has gone with Gene and Smiley, they are hot on the trail and the transcontinental chase provides background for many production highlights, including

a Mexican amateur song contest in which Gene renders the popular number from which the picture takes its name.

In addition to Autrey and Smiley, Burnette, who portrays "Frog", the cast includes a large number of film notables. June Storey, Mary Lee, Clifford Severson, Lester Matthews, Joe Crehan, Smith Ballew, William

Ruhl, Walter Miller, Hank Warden and others.

## Remember Way Back When...

- cooking involved long hours over a hot and cranky cast-iron stove that needed constant tending?
- the weekly washing was a back-breaking day-long session with tubs and scrub board?
- ironing was done with heavy sad irons that were heated on the stove and were always too hot or too cold?
- housecleaning was a dusty ordeal with broom, dust pan and carpet beater?

is no longer a slave to round-the-clock drudgery. Her electric range cooks meals automatically. Her electric washer does the laundry quickly and effortlessly in a fraction of the time required by hand methods. Her electric iron, vacuum cleaner and food mixer make short work of what were formerly tedious, arm-wearing tasks. Her electric refrigerator safeguards the family food supply and her radio brings entertainment at the turn of a dial.

That is the way life was lived in a big percentage of American homes as recently as 25 years ago. In those days, housekeeping was a wearying round of toil that began at daybreak and ended only at bedtime.

Today, things are different. Thanks to electricity's tireless hands, the woman of today

In less than half the span of a lifetime, electricity has completely transformed American home life. It has brought the American homemaker comfort, convenience and leisure that make her the envy of the entire world. And, although it has steadily widened in usefulness, it has steadily decreased in cost. To enjoy its manifold contributions to better living, the average family pays less than the price of a pack of cigarettes a day.

### Culture Club Meets In Home Mrs. A. E. Creigh Jr.

The Sanderson Culture Club met at the home of Mrs. A. E. Creigh Jr. Thursday with Mrs. Creigh and Mrs. E. W. Hardgrave co-hostesses.

The subject for the afternoon was based on Winston Churchill with Mrs. W. H. Savage as leader. Mrs. Savage gave a brief "Biography of Churchill" and also "Churchill's Triumphs and Defeats" "Reconstruction and Disarmament" was discussed by Mrs. Hugh Rose, with Mrs. O. H. McAdams taking as her topic "Appeasement and Disaster." Mrs. Joe F. Brown talked on "Britain's Awakening—and America's" after which was held a fifteen minute open discussion.

Mrs. Ira Deaton presided at the business session at which time the nominating committee reported.

The following officers were elected for the coming year, taking office in August: Mrs. W. H. Savage, president; Mrs. H. C. Goldwire, vice-president; Mrs. J. H. Lochausen, recording secretary; Mrs. T. R. Arrington, corresponding secretary; Mrs. A. D. Brown, treasurer; Mrs. A. F. Buchanan, parliamentarian; Mrs. O. H. McAdams, historian and reporter.

The hostesses served delicious congealed salad, sandwiches, mints, coffee and tea to seventeen members.

### Presbyterian Ladies Hold Circle Meetings Monday

The Executive Board of the Presbyterian Auxiliary met last week at the home of Mrs. John Nichols at which time plans were made for foreign mission work, week of prayer, and a nomination committee was appointed.

Circle No. one of the Presbyterian Church met at the home of Mrs. Joe F. Brown Monday afternoon. Greetings for the New Year were given by the chairman, Mrs. Joe Nichols, and each one present answered roll call with some inspiring thought for the new year. Mrs. R. D. Holt gave a beautiful devotional on "Faithfulness" with references being read on the subject. Mrs. J. W. McKee then led the program on "What Are Our Greatest Foreign Mission Needs? There were seven present.

Circle No. two met with Mrs. Elton Secrest at the same hour. Mrs. John Harrison, circle chairman, presided. Mrs. W. E. Lea led the program on foreign missions and Mrs. John W. Byrd gave the devotional on "Faithfulness." Twelve were present for the meeting. The Auxiliary will meet at 10 a. m. January 20, at the home of Mrs. J. H. Lochausen. The book, "Sent from God" will be reviewed. Two chapters will be reviewed before noon and three chapters during the afternoon. A covered dish luncheon will be served at twelve o'clock.

Mr. and Mrs. Johnnie Williams left last week for Bakersfield, Calif., where they will visit with Mrs. Williams parents, Mr. and Mrs. J. W. Espy. From there they will go to Washington and Oregon before returning home.
