## POPPIES AID NEEDY CHILDREN AND VETERANS

How the little red poppies, worn in honor of the World War dead on Poppy Day, help care for needy children of war veterans throughout the year was explained today by Mrs. Wilma Corder, child welfare chairman of Clarence Hallie Mulkey 160 Unit of the American Legion Auxiliary, as the Unit continued preparations for the observance of Poppy Day, Saturday, May 24.

"Every poppy that is worn means more help for the children who have been left without a father's support because of the last war," she said. "First, there are the children of the men who make the poppies, the disabled veterans in the government hospitals and those employed in the Auxiliary's poppy work rooms. These children benefit from the earnings of their fathers, the poppy money helping keep their homes together until the father can once more take regular employment.

"Then, there are the children whose fathers have died or are not in position to work in the poppy program. The money contributed for the poppies goes to work for them and keeps working all year through the Auxiliary's vast child welfare program. It is the determination of the Legion and Auxiliary that no child of a veteran shall be left in need, and the funds collected on Poppy Day are the principal source of finances for carrying out this determination.

"Food, clothing, shelter, school expenses and medical care are some of the things which the poppy means to unfortunate children of veterans. We think it highly fitting that the flower which honors those who have died for America should help those who will build the America of the future. We hope that everyone will remember these children when they secure their poppies on Poppy Day and contribute as generously as possible to the Auxiliary's welfare fund."

## Men and Motors—The 'New Army on Wheels'

Uncle Sam's motorized force—the new army on wheels—is symbolized by the "dawn patrol" of Chevrolet 4 x 4 army trucks shown across the bottom of the photo. The Chevrolet four-wheel-drive army truck, above, carries a complete telephone switchboard. Within a few minutes after the Fourth Division's motorized units completed a 235-mile trek from Fort Benning, Ga., on a practice mass movement, Major-General Lloyd R. Fredendall could communicate with every part of the vast commandment. The Fourth, moving in three columns, each 45 miles long, made the trip in 10 hours as compared with nearly 10 days before motorization.

### THESE FIGURES ALL ADD UP; WHAT'S THE MEANING?

Figures have been used to prove many things. The figures below connected with the four leading powers of the world all add up even and divided into 1941—but do they mean anything?

Former County Judge John Ballou ran across the figures in Tyler last week. He passed them on to Ollie Mallard, who gave them to the Review. Here they are and you can draw your own conclusions:

<b>MUSSOLINI</b>	Born	1883
	Came to Power	1922
	Years in Power	19
	Age	58
	Total	3882
<b>HITLER</b>	Born	1889
	Came to Power	1933
	Years in Power	8
	Age	52
	Total	3882
<b>STALIN</b>	Born	1879
	Came to Power	1917
	Years in Power	24
	Age	62
	Total	3882
<b>ROOSEVELT</b>	Born	1882
	Came to Power	1933
	Years in Power	8
	Age	59
	Total	3882

The total figure divided by two equals 1941. Your guess is as good as ours.—Athens Review.

### PATRIOTISM IS THEME OF CLOSING SCHOOL PROGRAMS

The central theme for all the school programs this spring is patriotism and Americanism. The love for country and the obligations of the citizens to their country are predominant. On Wednesday night, May 21, the American Ward School and

also the Mexican Ward School will present programs on the patriotic music of America. The Baccalaureate sermon on the night of May 18 will follow the theme I AM AN AMERICAN which is a day set aside by the president of the United States to stress the obligations and duties of new citizens especially. The Rev. Taft Holloway is to speak on this program.

The commencement program speaker is A. E. Creigh Jr., and the theme for this program is also Americanism and democ-

cracy. The public is invited to attend all these programs. The annual junior-senior quiet, which is to be held evening of May 17, is keeping with the idea of patriotism for the theme of quiet is military.

### THE RECORD... Facts That Concern You

## A couple of bad eggs... but why blame the hen?

A bad egg does turn up once in a while... but that's not a sensible reason for destroying all the good eggs... or for taking it out on the hen.

Beer retailing in America is something like that. The vast majority of beer retail establishments are clean, law-abiding, wholesome places. And still there may be a few "bad egg" retailers who violate the law or permit anti-social conditions.

The brewing industry wants these undesirables eliminated entirely... to protect your right to drink good

beer... and our right to make it

And also to protect the many benefits brought by the beer industry to Texas... such as the 31,165 jobs created... and beer's \$22,076,182 annual payroll. Beer contributed \$2,273,968.94 last year in taxes to help pay the cost of government in this state.

You can help us in our program of law enforcement, if you will, by (1) patronizing only the legal and reputable places that sell beer and (2) reporting any abuses to the proper law enforcement authorities.

## HOMEMAKERS TO RALLY IN SAN ANTONIO

Maurine Frazier and Margaret Pierson were guests at a Home-making rally in San Antonio over the week-end. They were accompanied by Miss Willms, the home economics department teacher here. The two girls participated in clothing contests and in contests on foods, child care, and safety. They attended some very instructive meetings, a banquet, a tea at the governor's place, and between sessions they went on sight seeing tours. The rally was the largest the homemakers have had in 22 years of club rallies. There were 2,500 girls there who represented 446 schools. The subject of the rally was: "Youth in American Democracy."

## LIFE OF A SENIOR

By Billie Jo Corder  
Pauline Bell was born February 25, 1923, in Del Rio, Texas. She has been nicknamed "Polly" by her friends. Pauline wants to go to the University of San Antonio and specialize in physical education. As a deduction her favorite subject is P. E. Pauline has blue eyes, light brown or dark blonde, (choose your favorite description for her hair) a scrumptious figure, and a catching smile—completely equipped with a set of giggles, ranging from middle C on! Pauline loves to sink those pearls into something piping hot, hot tamales, enchiladas, frijoles, oh-giggling and dates with Joe. Hmmm—some hibby-horse! When she isn't pursuing her hobby, gruesome mysteries enthrall her. Polly's favorite music is "Only Forever", and it seems permanent enough. Sports—swimming, horseback, tennis. By the way, Miss Bell is slightly well-known around the premises for her outstanding accomplishments in athletics. She has been on the volleyball team for about four years. Tennis is also a strong sport of hers. During the football and basketball seasons when the pep squad was peppiest she led yells and songs in the capacity of head cheer leader for S. H. S. We'll really miss a good athlete, scholar, and play-girl when Polly takes leave of us. (Hope she cares as much as we do.) Her favorite expression is "Oh, fiddle!" and she likes boys with straight hair, blue eyes, and the ability to make a dull moment funny. Compare her hobby-horse with that description and I'd say that she should enjoy her hobby quite a bit!

Helen Ruth Harrell was born January 24, 1924, in Sanderson, Texas. She has dark brown hair and lovely pink-and-white complexion. Her ambition is to be a business executive. I know some boys who wouldn't mind being stenographers to you, Helen, in fact, the job would probably be rushed with applicants! Her favorite color is red. Dangerous color, but, gee, what fun! Helen eats chocolate cake with relish—not the food substance, she enjoys the cake. She plans to go to Abilene Christian College and thresh out her post-high school education. Her hob-

bies are cooking, reading, and writing letters. Oh joy! And the lucky recipients? Aw, come on, Helen—tell us all! In high school her favorite subject is math. Helen has starred in athletics like most of the senior girls. She has been a member of the volleyball team and quite a valuable one. Her favorite piece of music is "Mexicali Rose". She likes to read mystery and romance—probably, decidedly, and perhaps, certainly, romance is preferred. Her favorite expression is "cat-fish" and her nickname—say, what is it? This is awful—she has to have one. The contraction of that name was immediately met with rejection, so you'll have to think of something else. She likes tall, dark, and lively males—perhaps you could supply the name!

Earline Stirman was born May 4, 1923, in Sanderson Texas. She has hazel eyes and light brown hair. Earline has the desire to be a bookkeeper after studying at Draughon's Business College. In high school Earline has taken most of the business courses—typing, shorthand, business training, and bookkeeping. Earline's hobby is having fun—the best hobby you could indulge in. Miss Stirman! Her favorite hit tune is "Perfidia".

Earline has but to settle down with a novel, a dish of walnut ice cream, and a luscious piece of fluffy chocolate cake to be supremely contented. Her favorite color is red. It's the funniest thing—all the seniors are partial to either red or blue. Gee! What patriotic people! Earline's favorite sports are volleyball, tennis, and swimming. Here's another senior girl who has excelled in sports, especially in volleyball. Hope you do the same in everything you try, Earline!

Billions of barrels of Texas oil reserves mean money in the bank for you as a Texan.

On constant deposit in underground vaults, they assure continued wages for Texas workers, lease and royalty payments for Texas farmers and ranchers, and tax revenues for our State and local governments.

Nearly 11 billion barrels of known oil reserves are on tap in 161 counties of our State. Texas oil men are now searching for new fields in 90 additional counties. They discovered last year almost three times as much oil as they produced.

These oil reserves can be cashed only through their production and processing by Texas workers.

As a means of safeguarding this backlog of economic security, you as a Texas citizen can and should expect:

(a) Sound conservation practices, (b) A reasonable taxing policy by State and local governments to permit healthy development without loss of employment through abandonment of properties, (c) Increased use of this great fuel source through creation of new Texas industries.

These oil reserves provide security for you and every other Texan

## Johnson Calls for Solid Backing for Roosevelt

Austin—With a rousing campaign speech behind him, energetic, fast-moving Cong. Lynden Johnson, this week had hit the campaign trail full blast with a whirlwind tour of the state to meet supporters and campaign workers.

Johnson opened his campaign Saturday night at San Marcos before a crowd of thousands that time after time roared full-throated approval of his firm stand for unity of all Americans behind Pres. Roosevelt in the current international crisis. From every section of the state to his opening came friends—new ones and old ones—to San Marcos, where in his college days Johnson worked at jobs from janitor to secretary to the college president to pay for his education.

Among them was Federal Judge James V. Allred, former governor and old friend of Johnson, and Mrs. Allred, once his classmate.

Speakers from the five major sections of Texas bespoke the support of their areas for Johnson and their faith that his experience and dependability in the national congress would carry him to victory.

They were Dr. J. T. Harrington of Waco, chairman of the board of Baylor University and noted Texas physician; Mike Anglin of Longview, East Texas attorney; Frank Wilson of Dallas; Lloyd Croslin of Lubbock and County Judge Roy Hofheinz of Harris County, who also acted as master of ceremonies.

From the piles of telegrams pledging Johnson support were ones from Clara Driscoll, national democratic committee-woman, and Myron G. Blalock, national democratic committeeman from Texas. Johnson, who announced his candidacy from the White House steps with the endorsement of Pres. Roosevelt as an "old and close friend," pitched the theme of his opening address upon the vital necessity of an all out effort by Americans for national defense and democracy and upon unified support of the President and his country's foreign policies.
