## It Happened in Sanderson TEN YEARS AGO This Week—Remember?

August 28, 1931

**Father Sage Says:** A man may be said to have passed middle age when he no longer cares to go to a fire in his neighborhood.

With the opening on Monday 14. of the public schools, Sanderson and Terrell County have the prospects of having one of the best school terms yet. An increase in enrollment is expected as families are now moving into town in preparation for school. Since the close of school last spring several new families have moved into Sanderson and Terrell County.

All teachers selected to teach in the public school of the city are degree teachers. Many of them have several years experience and are highly recommended for their position.

With one of the finest and most up-to-date high school buildings in the south, school children should take advantage of opportunities offered them here. In addition to the regular literary courses offered, home economics, commercial work, and athletic courses are offered to the students. Possibly this year a course in shorthand will be added to the commercial courses now being taught.

A worthwhile and interesting open program is now being worked out and will be given on Monday morning, September 14.

at 9 o'clock to which the public is cordially invited to attend.

Joe Jr. and Campbell Kerr returned home Sunday from a visit in Floresville with their aunt, Mrs. J. E. Dewees.

## WITH OUR NEIGHBORS

The Nueces Valley News—The Uvalde and Northern Railroad has been abandoned after over 20 years of operation between Camp Wood and Uvalde. During this period it has carried thousands of cars of cedar timber, livestock and ranch produce to market and brought back needed supplies to the people of the Nueces Valley.

It began operation on March 17, 1921 and sounded its fare-taps August 8, 1941.

The people of the Nueces Valley regret to see its passing, but the building of new highways and the decline of the cedar business placed a financial responsibility upon the operators of the road that they longed to escape. Early this year Interstate Commerce Commission granted permission to the owner to discontinue the line. The steel has been sold to the Commercial Metal Co. of Dallas. It is being stored at Uvalde at present waiting order to be allotted to defense construction.

Cage Brothers Construction Co. has the contract to take up the track.

The Livestock News—Van Horn received 164 inches of

rain last Tuesday afternoon. Sierra Blanco and Hudspeth county have received rain since last Friday. In some places it was very good, not so heavy here in town.

The Brackett News-Mail—The shearing season is getting under way at this time in this county and this immediate section. Nearly all of the shearing crews which make this community their headquarters left last week and began their shearing schedules over this area, the work to take them away well into the fall.

The Alpine Avalanche—Approximately 80 per cent or more of the calves of this area have been contracted for fall delivery, it was stated here this week, at an average price of around 11 cents per pound.

Calves in this area will weigh on an average of from 25 to 50 pounds heavier this year than usual, on account of excellent range conditions prevailing generally as a result of fine rains which have fallen for the past several months. Ranchmen say that the calves will weigh around 425 to 450 pounds on an average.

The State Observer—Governor Coke Stevenson remained in bed last week on advice of his physician. He is suffering from a throat ailment which has kept him confined to the mansion for the last ten days.

The Hell Box in Eden Echo—The age-old question of whether its the heat or the humidity has come up again, but personally, we still think it's the heat.

## Mr. Wright's Cow Competing For Fame With O'Leary Cow

Austin—Now there are two famous cows—Mrs. O'Leary's and Mr. Wright's.

Everybody knows about Mrs. O'Leary's cow, and the lawyers and police officers of Texas are learning about Mr. Wright's. It was four years ago that Wright began selling his cow, along with a song and dance, and he's been selling it ever since.

Wright—his initials are C. R., but his friends call him Charley—always sells his cow to one C. A. Fox for \$42. Mr. Fox pays by check, typing everything but his scrawled signature, and usually notes on the face of the check that it is "For 1 cow."

Usually, upon selling the cow again, Wright calls upon a lawyer in a medium-sized city, retains the lawyer to handle a suit against a railroad whose train allegedly has run into his truck, and gets the lawyer to endorse Fox's check so he can cash it. On two occasions Wright sought the professional services of a dentist. A Cleburne dentist gave him a \$30 set of false teeth and \$12 change for Fox's check. A Seguin dentist endorsed one of the checks after agreeing to work on Wright's teeth.

Fox's checks always come back marked "no account," and Wright is nowhere to be found.

Wright's first offense was in Mineral Wells in September, 1927. Subsequently he has cashed worthless checks in Cleburne, Laredo, Waco, Marlin, Cameron, Coahuila, Kerrville and Seguin.

Chief Joe S. Fletcher of the State Police Identification Bureau believes many swindles perpetrated by Wright have never been reported. Wright is described as 55 years old, 150 to 160 pounds, and about 5 feet 10 or 11 inches tall.

## New Hopalong Mixes Fun And Fight Thrills

Lucky finds romance. Old California find a fortune, and Hopalong hits on the toughest mystery that any gun-slinging man of the West ever had to crack in the new and thrilling Harry Sherman picture, "Pirates on Horseback," which comes on Friday, September 5 to the Princess Theatre.

When Hopalong and his pals from the Bar 20 head for the rich diggings in their hunt for the lost Edorado mine, a dead man's story leads them to the

# THE KERR MERCANTILE CO.

Complete Department Store

## SHERWIN-WILLIAMS PAINTS

greatest strike in gold-mining history.

There are some complications of course. One of them is Morris Ankrum, as the cagey leader of the gang of claim-jumpers. He tries to cut in head of Hoppy's gang and a pretty heiress in the hunt for the mine. But Hopalong stays one jump ahead of Ankrum, right up to the finish of the picture when he lets Ankrum catch up with him to administer a licking.

Sequences of exuberant fun lend lightness to the drama of the picture. Russell Hayden's romance provides a number of real chuckles, and Andy Clyde's fake gold-strike provides a screen panic.

Dr. and Mrs. William Aston attended the meeting of the Big Bend Medical Society Tuesday of last week. The meeting was held at Fort D. A. Russell, Marfa.

(Continued from page two)

## Film At Princess Packs Thrills, Love, Suspense

A mystery film packs suspense from start to finish will open next Friday, September 5, at the Princess Theatre. The picture, called "A Shot In the Dark," is the exciting story of a man who pleaded guilty to crimes he never committed.

William Lundigan heads the cast as a reporter who likes crime stories and a certain pretty night club singer, played by Nan Wynn. Richard Cortez plays the role of a night club owner who sells his place to an old friend only to find him brutally murdered before the sale is completed. To make matters worse a jealous ex-girl friend of Cortez, played by Lucia Carroll, is also murdered and the police

accuse him of both crimes.

Regis Toomey, in the role of a smart detective, doubts Ricardo's guilt, and together with Lundigan, sets out to bring the actual murderer to justice. It is a thrilling plot with a novel ending that will prove a surprise to all.

STORIES

WILL E. JAMES  
 One of the largest ever made in Texas is the George West ranch in Live Oak County, by Whit Morris of the State and Guaranty Companies, San Antonio. The document contained in seven volumes, 400 pages each, a total

of 4200 pages. Mr. Morris spent three months in George West on the job using six typists most of the time and draftsman for about one month. Mr. Morris says it is the largest abstract he has ever worked up in his 42 years' experience, and the largest one ever compiled to his knowledge. The abstract is of the whole of the George West Estate lands, covering 82 original grants, one from Mexico, several from the Republic of Texas, and others from the State of Texas.

The Big Bend Sentinel reports the birth of a son to Mr. and Mrs. L. L. Parker. Nothing so startling or extraordinary about a new item of that nature—but the young man's father was a member of the District Court Jury, and the jury had been held over night. A member of that body just can't get excused for any cause, including the birth of his son. So the whole jury including the sheriff had to march to the Peterson Hospital in order that the prospective father could be present on that auspicious occasion. It is doubtful that any young man born within the state has had as many "God-fathers" as did L. L. Parker, III!

Some people think they have made a sacrifice in giving aluminum pots and pans of which they have daily need, but what think you of the man who deprived himself of his aluminum artificial leg? Such was the sacrifice made by Sergeant Robert W. Hyatt, who lost his leg in the World War at the Battle of the Argonne in 1918. Now he gives his metal leg for the cause of defense in 1941.

The Sabinal Sentinel changed hands last week. The new owner, Mrs. Pauline Adams, has been a resident of Sabinal for several years, having taught in the Sabinal schools for the past ten years, taking an active part in school work, in the church and community projects. The former owner of the paper lease says "she is thoroughly qualified to operate the paper successfully."

NO KIBITZERS SAYS BANK PRESIDENT

How many school patrons in Sanderson will be in attendance at the school opening Tuesday, September 2? What is your estimate? or do you think any of them should attend the opening?

Years ago, in the little Red School houses scattered over the big State of Texas, opening day was made a gala affair. People came from all over the community, brought dinners and enjoyed the holiday. It was a holiday for the hard-working farmers, but just the commencement of labor for the youngsters. People of those times wanted to meet and shake the hands of the young ladies and young men—in other words to know personally the ones who were to guide their offspring throughout the year, but that was before the day when school patrons were impregnated with the idea of "let George do it." If attending a school opening, meeting and welcoming the teachers to the neighborhood, impressing them with the idea that you really want them, is old-fashioned and obsolete, then hadn't we better discard that idea and the time to lay it in the background will be September 2.

You have a good superintendent, one in whom you have all confidence. He in turn, with your school board, employs the best of talent to guide your children through the school year. If he and the school board and teachers have confidence in the school, the town, and your children, then is it not fair to show the interest we should have in the school and the progress of the children by attending school functions. What do you think?

New Songs and Dances In "Moon Over Miami"

Hailed as the most elaborate Technicolor musical to come out of the 20th Century-Fox studio in recent years, "Moon Over Miami" skillfully blends comedy, melody, and breath taking dance routines into an outstanding motion picture. Featuring Don Ameche and Betty Grable, the romantic duo of "Down Argentine Way," and Robert Cummings in top-oiling "Moon Over Miami," due Wednesday, September 3, at the Princess, is generously sprinkled with hit tunes by Leo Robin and Ralph Rainger. Certain to become popular favorites are these masterpieces of melody: "KINDERGARDEN CONGA," "HURRAH FOR TODAY," "MIAMI," "I GOT YOU ALL TO MYSELF," "LOVELINESS AND LOVE," "YOU STARTED SOMETHING," "IS THAT GOOD?" and "SOLITARY SEMINOLE." For another spectacular routine, Betty teams up with Condos Brothers, who are to dancing what swing is to music in a number called "You Started Something." The picture just wouldn't be complete without a comedy turn by Charlotte Greenwood and Haley, and the two favorites, who are also featured with Carole Landis and Cobina Wright Jr., in "Moon Over Miami," do fast side-splitting stepping.

Dallas—Dallas' Mercantile National Bank is erecting a 30-story bank and office building at Main, Commerce and Ervay Streets here, and the whole town is talking and watching.

The Sidewalk Superintendent's Club membership is growing daily. More than 17,000 persons have watched the excavating from the gaily colored stand, in its first three weeks of operation. A uniformed attendant presides at the guest register, passes out membership cards and answers questions about the skyscraper. There are seats and a telephone for the convenience of the observers. In the language of the street, members might be called kibitzers—but not by President R. L. Thornton of the bank.

"Their interest is more than appreciated," he said, almost as soon as the first dig in the hard blue limestone underlying the building site was made by a titanic steam shovel. "If they want to watch, they'll watch in comfort," was his conclusion. Result was a 50-foot "upper deck" provided with seats and a canopy top against Texas' summer sun. The deck is very much like that a-top a Gulf Coast fishing boat, and it is sheltering hundreds of people very day.

It was soon found that the 50-foot covering wasn't sufficient, so 26 feet more were added and the Sidewalk Superintendent's Club continues to grow.

Membership cards have been issued to more visiting foremen than you'd imagine, and by now they're being exhibited in many points throughout the United States and some foreign countries.

Mercantile Bank officials do not claim originality in the Sidewalk Superintendent's Club—but it does seem that the quarters of the Dallas Chapter are the most spacious that have been provided heretofore and a number of new features have been added.

Des Moines, Iowa, had the first one, at the site of the Bankers Life Building. New York's Rockefeller Center had a spectators' stand. So did Boston, with the famed Milk Street financial district the gathering place, when the New England Mutual Life Insurance Company erected its new building.

The lot fronts 200 feet on Ervay Street, by 120 each on Main and Commerce—24,000 square feet in all. Height of the completed building is to be 431 feet from ground level to top cornice. It will have 30 floors and two basements. It is scheduled for completion by December, 1942.

At the present time, the Sidewalk Superintendent are engrossed in watching blasting activities, and operations of the drag-line, or steam shovel. It is difficult to determine which is more fascinating.

The modern use of dynamite in blasting can hardly be compared with former methods. The steam shovel, weighing a mere 90,000 pounds, goes into action and with a yawning bite scoops up one-and-one-quarter cubic yards of blasted rock, turns nimbly and accurately deposits its load in a waiting truck. This performance is repeated sixty times an hour.

The average depth of excavation is to be 35 feet which will

require the removal of 33,000 cubic yards of rock. Thus, it requires no figuring to determine that the members of the Sidewalk Superintendent's Club have many hours of constructive watching in store for them.

Site of the new bank structure is an historic one from the local standpoint. Upon it, for 50 years, the Dallas postoffice stood. With completion of the New Federal Building, removal of the postoffice thereto, the old structure stood for some time, pending sale of the lot by the Government.

Several bids were submitted, but that of the Mercantile National—\$607,000 according to the deed—was finally accepted. W. Bruce Luna, postmaster up to 1938, recalls that the Government paid \$11,000 for the lot back in the '80's.

And so there's prospect that the Dallas Sidewalk Superintendent's Club, an outstanding example of Southern hospitality,

will be in session for some time yet to come—until, perhaps it may be necessary to provide members with telescopes with which to pick out top-most details of "A City in the Sky"—431 feet above the street level!

Defense Quiz—

Q. Why should Americans buy Defense Bonds and Stamps now?

A. Among the reasons are: (1) It is the quickest way in which every citizen can both serve his country and conserve his earning, and (2) the purchase of the Bond and Stamps help not only to finance National Defense but also to prevent high prices and increased cost of living.

Q. Can I pledge a Defense Bond as collateral for a bank loan?

A. No Bonds are registered and not transferable. They are payable only to the person named on the Bond.

NOTE.—To buy Defense Bonds and Stamps, go to the nearest postoffice, bank, or savings and loan association; or write to the Treasurer of the United States, Washington, D. C., for a mail order form.

## "THE DEVIL AND MISS JONES"

Sparkling in story and treatment, Jean Arthur's new starring vehicle, "The Devil and Miss Jones" which comes Monday, September 1 to the Princess Theatre proves itself a welcome screen offering. Robert Cummings has the romantic lead opposite the star and Charles Coburn the other top-featured role, that of a gruff multi-millionaire.

Miss Arthur plays the part of a shoe clerk in a big department store which is one of hundreds of firms owned by Coburn. Her boy-friend, Cummings, has been discharged for trying to organize the store employees against unfair treatment—a revolt in which an effigy of Coburn himself has been hung outside the store.

Angered, the millionaire decides to investigate the trouble, and arranges to take a position as a clerk in the store in order to find out what employees are involved in the rebellion. Unknown even to the manager, he goes to work in the shoe department, and Miss Arthur, feeling sorry for the seemingly lonely old man, helps him out with the pompous section manager and slyly promotes a romance for him with an elderly and kind-hearted saleswoman.

How the crusty Coburn comes to sympathize with his workers' viewpoint and at a critical moment takes a hand in the revolt with unexpected results, makes for the gay ending of picture and leads to the fantasy of its concluding sequence, with the reformed millionaire leading a vast protest parade against himself in hilarious style.

Miss Arthur gives a brilliant performance as the warm-hearted clerk, and Coburn and Cummings both turn in noteworthy portrayals in their respective parts. Edmund Gwenn as the section sales manager, Spring Byington as Coburn's ro-

## STICK TO YOUR JOB!

mantic partner, S. Z. Sakal, William Demarest and Walter Kingsford have the principal supporting roles and handle them splendidly.

## Beware of Wares of House Agents Says Doctor

Austin—"Beware of house to you merchandise under some high sounding name and claiming that it will cure all diseases known to affect man or beast," warns the State Health Officer.

"By patronizing such people the general public is not only wasting its money but is often purchasing an article that may be dangerous to the safety of persons or livestock."

One of the more recent frauds uncovered by field inspectors of the State Department of Health concerns so-called "radio-active Cones." Agents for this company have been covering certain sections of the State zealously, and have been selling a product that is not only worthless, but if used according to directions would be very dangerous to the public health.

False claims have been made by salesmen peddling this product that it will not only cure all diseases, but if used continuously will definitely prolong life.

Laboratory analysis reveals that this product contains radon in sufficient quantities and potency to be unsafe for children and if used by adults frequently and in high dosage would be dangerous to their health.

Personnel of the State Department of Health are constantly on guard to protect the general public against such fraudulent practices but to gain a greater degree of success every citizen should be extremely careful in purchasing any treatment concoction or device from persons who claim marvelous results from their fraudulent product.

"If you or your family needs medical attention, play safe, see a competent physician and leave the quacks alone," the article concluded.

Mrs. O. T. Schupbach, Mrs. W. E. Stayley and Mrs. Jack Laughlin spent Tuesday and Wednesday visiting in Valentine.

Bank books, receipt books, coupon books at the Times office.

### NOTICE

The Board of Trustees of the Terrell County Common Schools, District No. 1, will receive bids until 4:00 o'clock p. m. Saturday, September 20, 1941, on equipment and installation of butane gas heating plant for the Dryden School, storage tank to be not less than 285 gallons capacity. All safety requirements and specifications of the Texas Railroad Commission to be complied with. Send bids to R. D. Holt, School Superintendent, Sanderson, Texas.

The School Board reserves the right to reject any and all bids.

TERRELL COUNTY SCHOOL BOARD

## Yankee Spirit is Still Serving U. S.

The traditional hard-fighting spirit and love of freedom which has enabled New Englanders to distinguish themselves in every critical period of the nation's past is again serving the country during the current period of unlimited national emergency.

In its latest film release entitled "New England's Eight Million Yankees," the March of Time reveals the broad scene of New England's participation in the nation's preparedness program. The film shows Yankee spotters, working on defense construction in factories and shipyards, buying defense bonds and savings stamps, and contributing in every way possible to the nation's all-out war effort.

New England is proud of its high production rate, which is almost uninterrupted by strikes and walkouts in important defense industries, the film points out.

To be shown at the Princess Monday and Tuesday, September 1 and 2.

Sales pads, muckage, indelible ink for marking linen, India inks, letter clips, Stapling machines, hand or desk style at the Times office. Phone 39.

Mr. and Mrs. W. D. O'Bryant and Mary Lou and Dorothy Jean Jenschke were Fort Stockton visitors Sunday.

## Crusade Against Accidents Launched By President

Austin—"Help Defense — Stop Accidents!" is the rallying cry issued by the Texas Safety Association in its role as state coordinator in the nationwide campaign against accident launched by President Roosevelt.

By proclamation the President called on every citizen to devote maximum effort to a "concerted campaign against accidents which are wasting the manpower and resources so sorely needed for national defense."

The statewide campaign against accidents on the highways, on the farms, in industry, and at home will be waged by more than 30 organizations cooperating with the Texas Safety Association.

"The importance of helping defense by stopping accidents cannot be overemphasized," said George Clarke, managing director.

"For example, the traffic toll for the Labor Day week-end holiday is expected to take the lives of 27 Texans, permanently disable 71 persons and injure 900

others. The economic loss of three day celebration amount to more than \$100 million dollars!

"Translated in terms of the accident trend of the same holiday period last year, the loss of the Labor Day alone could be built with the loss of the Labor Day alone."

"Help Defense — Stop Accidents!" is a patriotic slogan which every Texan should know.
