John Stout, 32, was found dead in bed at the home of his aunt, Mrs. W. H. McDonald, Wednesday evening about 6 o'clock ..

He had told O. C. McDonald that he was very sleepy and if no one was there he wanted to go and take a nap because no one would bother him. He went in around four o'clock and lay across the bed. Mrs. Jesse Mc-Donald, who resides in the other apartment of the house, went through the room where he was lying and thinking it might be rather cool, threw a quilt over him. She went on into the front of the apartment and told Mrs. McDonald and Mrs. F. N. Harrell Jr. that he looked as though he might be dead. They all went back into the room and then one of them went across to a neighbor's house where O. C. Mc-Donald was listening to a news broadcast. # **PACKAGES EARLY**

The mailing of Christmas packages should be done as soon as possible to insure delivery on time, according to information sent out by the Postmaster Gen-

During the holiday season the volume of mail increases approximately 200 percent, according to this information, and it is a physical impossibility to handle this great mass of mail matter efficiently and promptly within a few days. It is suggested that all packages be mailed at least a week or ten days before Christmas. This will not only insure delivery of the package before Christmas, but will aid the postal service greatly and will enable postal employees to spend the Christmas holiday with their families.

It is also urged that all packages be properly wrapped in strong paper and use heavy twine for tying.
