SANDERSON, TEXAS, FRIDAY, JUNE 19, 1942

NUMBER 16

## Rubber Nears 5,000 Pound Entire County Responding

The five thousand old hot-water bottle, syringe, and ice bag. There should be an old rain-coat, worn-out rubbers and galoshes, or old tennis balls and tennis shoes . . . and even the nursery should yield a good supply of baby pants, crib pads, bibs, nipples, pacifiers, teething rings and toys. Then there are those rubber hair curlers, girdles, combs, dress shields, garters, suspenders and countless of old shoes with rundown heels. They are all valuable and should be added to that pile of scrap rubber being accumulated in every home to be turned over to your nearest filling station. A cent a pound may be collected for the old rubber or it may be donated. Officials have pointed out that all profit from the rubber will go to the U. S. O., Army Relief, Navy Relief, and American Red Cross.

## RY RECEIVES ADDITIONS BOOK PRESENTS

Anderson Library Association has announced presentations to the large group of books. This summer included Mrs. R. S. G. Wells, "Miss Minerva on the Island," "The Closed Garden," "Imperial Palace," "Saitr Saturnin," "Old Pybus," "The Case of Sergeant Zeved," "The Hotel," "The Square Circle," "Quiet Street," "Ossorther Mankind," "Beard," "Berday," "Allen," "By Mrs. Wilkinson: Adventures of Tom Saw," "Twain; "Nomads of Arizona," "Curwood; "The Engineers in Arizona," "Polf in the Woods," "Through the Air to A-W. Dixon; "Skippy," "Lad of Sunnyhune; "The Bobsey the Circus"; Hope; "The Flying U"; Bower; "Island"; Robert Louis

But Japan now controls over 90 per cent of the world's rubber plantations. These are a few of the many reasons why every piece of available scrap rubber must be turned in and before the close of the salvage campaign, June 30. The matter of scrap iron and other metals should not be overlooked as the premises are ransacked for bits of rubber. No matter what kind of metals you come across, pile it up and when that pile of scrap rubber goes to the central point of collection see that that pile of scrap metal goes along with it.

For the purpose of aiding in the campaign those who have more rubber and scrap metal than can be conveniently brought in are urged to gather it at some central point and call the county clerk's office or notify the commissioner of the precinct in which you live. A county truck will be available to bring the scrap rubber and metals to town for you.

A county truck will be available to bring the scrap rubber and metals to town for you.

## MRS. P. E. DISHMAN LEASES BUSINESS OF MR. AND MRS. COX

Mrs. P. E. Dishman has leased the firm of Empire Cleaners from Mr. and Mrs. Weldon Cox who have operated the business since they purchased it from Frank Robertson in September of last year.

Mrs. Dishman assumed charge of the firm Monday of this week and will continue to serve the public with the same courteous and efficient service as has been received by customers in the past.

Mr. Cox is employed with the T. & N. O. railway.

## SUGAR RATION OF HALF POUND PER WEEK CONTINUED

According to an announcement made Wednesday by the Office of Price Administration, the value of sugar ration stamps numbers 5 and 6 have been increased to two pounds each. This does not mean an additional amount of sugar, however, for each stamp will cover a period of a month instead of two weeks as heretofore, continuing the weekly ration of half a pound to each person.

It was explained that stamp number 4 now valid for the purchase of a pound of sugar, will expire at midnight, Saturday, June 27. The next stamp, good for two pounds, may be used at any time thereafter until midnight, July 25, after which time stamp number 6 will become valid until August 22.

## SPECIAL ASSIGNMENT

A telephone call received Sunday night by Mr. and Mrs. N. E. Charlton of Del Rio advised that their son, John Fisher, had arrived that day in Dallas by plane from Los Angeles, Calif., and that he would be in that city for ten days on special assignment for his company. Mr. and Mrs. Charlton plan to spend the week-end with him there.

Mr. and Mrs. W. E. Stavley and Mrs. C. F. Stavley are in LaVerne this week for a visit with relatives. They were accompanied as far as San Antonio by Mrs. Jess Mullins and baby daughter who will visit relatives there.

## FUNERAL SERVICES TO BE HELD SAT. FOR E. D. GATLIN

Funeral rites for Ernest D. Gatlin, about 52, will be read from the R. M. Gatlin home in Del Rio Saturday morning.

Full particulars of the death of Mr. Gatlin, son of Mr. and Mrs. R. M. Gatlin, were not available at this time although it is understood that the death resulted from being thrown from a horse. He was alone at the time of the accident which is thought to have occurred late Monday and the body was discovered Thursday and brought to Sanderson in an Oberkampff funeral coach. After preparing the body it was taken to Del Rio Thursday night to await arrival of relatives who are expected Friday night or Saturday morning.

## BIDS FOR SCHOOL BUS AND DRIVER TO BE RECEIVED

A notice published in this issue of the Times contains the information that sealed bids will be received by the trustees of Terrell County Common School District No. 1 until 10:00 o'clock a. m. Tuesday July 7th, for the contract to transport all school children from Dryden and vicinity to Sanderson.

For the past four years the contract has been held by Houston Chandler and the past year the driver of the school bus has been Jay Turner.

Persons interested in making a bid for the transportation of the school children must have their bids before the board by the above mentioned date and time and should address them to G. J. Henshaw, Chairman of Board of Trustees, Box 447, Sanderson, Texas.

## Are You American? It's Hard to Prove Without Birth Record

Austin—Are you a citizen of the United States? Can you prove it?

The easiest and sometimes the only way you can definitely prove native-born citizenship is by a birth certificate showing that your birth is on record at the State Department of Health.

Dr. Geo. W. Cox, State Health Officer, this week re-emphasized the importance of every American citizen being in possession of his birth certificate and outlined the simple procedure for obtaining this vital record.

"Requests for certified copies should be made direct to the State Health Department, bureau of vital statistics," Dr. Cox said. "There is no charge except the fifty cents necessary to pay for making a search of the records and a photostatic copy if the record is on file."

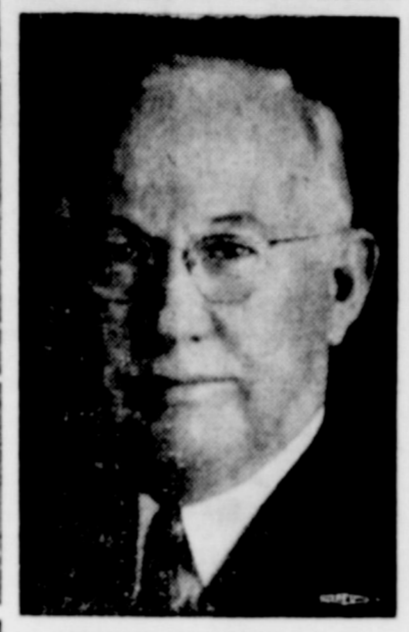

Birth certificates are doubly important in the national emergency, serving as proof of citizenship which is necessary for entrance to our armed forces or for employment in any national defense industry. A record of birth is also useful in establishing the time and place of birth as well as parentage and can be of great assistance in the settlement of estates and other legal matters.

"American people are beginning to realize the importance of birth records since our entry into the war," Dr. Cox declared. In the month of March alone, the Bureau of Vital Statistics received 19,810 requests for copies of birth records; and in April and May, the requests have continued to increase steadily.

Miss Dorothy Snyder, niece of Mrs. Ray Caldwell, returned to her duties at Fort Sam Houston Thursday of last week after a visit here with Mr. and Mrs. Caldwell. She is a dietitian at Fort Sam Houston.

## Rep. Thomason Bids For Re-Election On Defense Records

Citing a one hundred percent record on support of legislation for fortifying and defending the United States, Rep. R. E. Thomason of El Paso is asking the

REP. R. E. THOMASON

support of voters of the district in his campaign for re-election

Rep. Thomason is the ranking member of the House Military Affairs Committee, and a member of all conference committees between the House and Senate in matters affecting military legislation.

In October, 1935, he represented the House Committee at the inauguration of the Philippine government, and ever since his return he has urged both in committee and on the floor of the house a large increase in our Army, and especially our Air Corps.

Congressman Thomason has voted "for" on the following matters:

Fortification of the Naval Base at Guam;

Repeal of the Arms Embargo; Repeal of Neutrality Law;

Selective Service Law, and he spoke for its extension when it carried in the House by one vote.

Lease-Lend for aid to our Allies;

Material enlargement of our Army, and especially Air Force;

For a two-ocean navy;

For repeal of the ban against arming of our merchant ships;

For lifting the ban against sending our ships into war zones.

For the seizure of alien property.

## OBSERVES FOURTH BIRTHDAY WITH PARTY

The fourth birthday of Darrell Griensby was observed by a party given by his mother Mrs. Weldon Cox, June 6. She was assisted by Mrs. G. D. Vincent, Mrs. Ed Conner and Mrs. John Wolke in the serving of ice cream and cookies to the little guests to the little guests and in helping them with their games.

Those present to help the honoree celebrate, were Colleen Pierson, Sarah Pat Grigsby, Nancy Jean Turner, Jackie Vincent, Bobbie Lee Wolke, W. J. Vaughan, Vana Jo Nance, William Doyle O'Bryant, Joy Rose, Mary Nell Gates, Daryel Keene, "Butch" McElroy, Gail McElroy, and Jerry Carter.

## TENTATIVE TAX PROPOSAL TOTAL JUMPED TO OVER \$6,650,000,000

Washington—The House ways and means committee boosted the tentative total of its new tax bill to more than \$6,650,000,000 Wednesday by deciding to tax parimutual wagering, freight and express transportation and coin-operated amusement devices and to raise the postage rates on newspapers and periodicals.

The committee estimated that its action on those four items would produce \$408,000,000. This, with other excise taxes already approved, would boost the total revenue from that source to \$971,000,000.

## LETTER FROM E. L. WILLIAMS TELLS OF KERN COMMISSION

A letter from Capt. and Mrs. E. L. Williams, along with another years' subscription to the Sanderson Times, states that Dr. and Mrs. J. C. Kern and children have been visiting at Perrin Field, Sherman, with them.

According to the information in the letter Dr. and Mrs. Kern and family left this week for Rolla, Mo., where they will visit a few days with Mrs. Kern's mother before returning to Perrin Field to await orders. Dr. Kern has been commissioned a first lieutenant in the Medical Corps and as soon as orders are received will leave with his family for Pendleton, Ore., where he will be stationed.

A desire of the two families to visit Sanderson was also expressed in the letter with the statement that they extended regards to friends of Terrell County.

Capt. Williams was for years County Agent here, and Dr. Kern held a medical practice.

## Wild Texas Guayule Is Not Sufficient To Warrant Factory

Washington—Wild guayule growing in Texas will turn out 200 to 250 tons of rubber, the recent United States Agriculture Department-Texas A&M survey in the State showed, according to a statement from the department appearing in hearings on the second deficiency appropriation bill, released Tuesday.

This amount according to the department, "is insufficient to warrant the construction of an extraction factory," but it suggested that "the shrub may be harvested and shipped to the factory at Salinas, Calif." It would be an operation of about two months to get it out.

This is just a partial report of the extensive joint investigation made in Texas as one phase of the guayule development program in the State. There had been so many and various claims as to the extent of wild guayule in Texas that the survey was made to determine it exactly.

Officials of the department said a complete program has been sent to Texas A&M for approval there and since this is a joint proposition, they said they felt it should not be made public until the school authorities approve it. The same holds true for the full report on the investigation. The department expects to be able to announce it in a few days.—Fort Worth Star-Telegram.

## DENTIST HERE

Dr. Leo Daniel has announced that he has come back to Sanderson and will office with Dr. R. E. Lester. Dr. Daniel stated that he would remain here permanently until he was called to the army.

E. L. Arbuckle, general highway foreman from Pecos, is a business visitor in Sanderson this week. He plans to return to Pecos Saturday.

## NEW AUTO STAMPS ARE NOW ON SALE IN LOCAL POSTOFFICE

The five-dollar federal automobile use stamps are on sale at the local postoffice, according to Postmaster Clyde Griffith, and must be placed on automobiles by the first of July. These stamps will replace the issue of February 1 and will also be necessary for gasoline rationing cards in areas where motor fuel is rationed.

The stamps are good from July 1, 1942, until June 30, 1943, and internal revenue officials have announced that penalties will be assessed against persons failing to buy the stamps by July 1. These penalties will be assessed on a five percent basis for delinquents, and will be charged against persons who have driven their cars without the stamps. If the automobile owner places his car in storage or in the garage and at the time he wishes to purchase a stamp can prove that it has not been driven, the price of the stamp will decrease as follows:

August \$4.59, September \$4.17, October \$3.75, November \$3.34, December \$2.92, January \$2.50, February \$2.09, March \$1.67, April \$1.25, May 84c and June 42c. These prices prevail only if the car owner can prove he has not driven the car from July 1 until the time the stamp is purchased.

In case an owner is arrested and convicted of driving his automobile without a stamp he will be fined twenty-five dollars. The stamp will be serially numbered and have spaces on the back for recording the make, model, serial number and state license number of the vehicle. It will not be necessary for the owner to fill out a postal card and mail it in as was done with the purchase of the stamp issued February 1. The stamp will simply be purchased as any other stamp and it is requested that it be placed on the windshield in a location that will not be in conflict with state requirements.

## Frozen Refrigerators To Be Released Soon To Uncle Sam Agents

Effective June 15, sales of domestic mechanical refrigerators by manufacturers and distributors will be limited for the duration of the war to fill orders for the armed services, the Panama Canal, or upon a certificate of transfer issued by WPB's Director of Industry Operations.

This reminder of the effective date of WPB's plan for withdrawal of refrigerators from stocks frozen since February 14 was issued today by Carl Pool, San Antonio district manager of the WPB priorities field service.

"This order does not affect the right of retailers to sell all domestic electric refrigerators they had in stock when the freeze order was issued," Mr. Pool stressed. "However, the only gas or kerosene refrigerators that may be sold by retailers are those which were fully paid for by a purchaser and were in the hands of the seller at the time of the original freeze order. Restrictions on sales of gas and kerosene refrigerators are more severe because the available supply is considerably less than the supply of electric refrigerators."

Production of new mechanical refrigerators ended on April 30, and supplies now on hand must meet essential needs of military forces and civilian users until the end of the war.

R. E. Killmer, district highway engineer, and C. F. Weddington, assistant district engineer, of Pecos were visitors in Sanderson Tuesday and Wednesday making their periodical inspection of the highway work contemplated in Terrell County on highway 90.

## It Happened in Sanderson TEN YEARS AGO

This week—Remember?

June 17, 1932

Charlie Gregory was a business visitor in Del Rio several days this week.

Mr. and Mrs. James House and family left last Friday for Carrizo Springs where they will visit relatives for the next two weeks.

On Wednesday of this week, the Sanderson Wool Commission Company shipped their entire accumulation of wool which amounted to 500,000 pounds to Studley and Emory at Boston.

J. M. Corder was a business visitor in Del Rio the first of the week.

William Lea left Wednesday morning for Camp Bullis where he will enter the Citizens Military Training Camp for the four weeks course that is given each year for students.

Mrs. D. A. Pollard and Mrs. C. P. Peavy were hostesses to a novel party Thursday morning. After following several detour signs the guests found themselves assembled in the "Loft" at the rear of the Pollards. In these delightfully cool and rustic surroundings bridge was enjoyed.

## WITH OUR NEIGHBORS

McCamey News—The bombs dropped on target ranges surrounding Midland Army Flying School may be traveling as fast as 1,200 feet per second.

These bombs weigh 100 pounds each. In each bomb is a powder charge. Should one of these bombs strike an automobile—or a human being—it is not hard to imagine what would happen.

This information was announced today by Lt. Col. R. H. Smith, director of training at the Bombardier College, as a "warning to all civilians to stay clear of the bombing range."

Alpine Avalanche—Organization of the Brewster County Eagle club was perfected at a meeting held here last week. The purpose of the organization is to control the golden eagle and other predatory animals and birds in this area.

The club's field of operations will be within a radius of 100

## PRODUCTION... Is the Present Need...

"This is a war of machines... Our national need calls for the best efforts of every man in industry. My message consists of one word, PRODUCE! Produce all you can, as fast as you can. Our entire war effort depends on how well you do your job." — Lieut. Gen. William S. Knudsen

Munitions are important, but so also is the production of food and other essentials. Without well-planned production all along the line, the most hopeful plan for victory must fail.

The Sanderson State Bank is ready to do its part in increasing local production. We have faith in the future of America, and we shall welcome any opportunity to be of service.

## SUPERMEN OF THE U.S. ARMY

## Americans Must Wake to Fact And Curb Short War Optimism

Cecil Brown, the well known foreign correspondent, recently made a speaking tour of this country. In a radio broadcast from Los Angeles, he said that he had been enormously impressed by the incredible strides American industry is making in producing for war. At the same time, he added, he was disturbed by the excessive degree of optimism held by many of us. In short, too large a proportion of the American people are not yet convinced that this will be a long and hard war.

That kind of optimism is not held in informed circles. Most of the experts still think that another New Year's day will come before the United Nations are able to engage in major, continued offensive drives against the enemy. In 1943, they forecast, a gigantic effort to knock Hitler out of the war will be made. Then, in 1944, the United Nations will be able to turn their full and undivided attention to Japan. And so, by that year's end, the war may be over.

Other experts consider that Stockton streets, and numbering of houses also is being planned by the council.

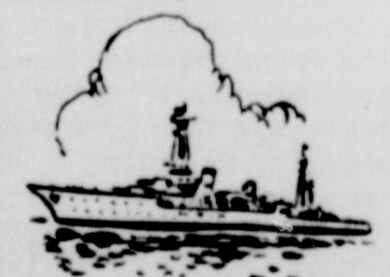

Ozona Stockman—Application of first coat of rock and asphalt was nearing completion this week on Highway 163 south of Ozona, which is being paved a distance of approximately 19 miles south from the city.

The hard surfacing operation is progressing from the south end toward Ozona and was a few miles from town at the middle of the week.

Big Bend Sentinel, Marfa—A bid "in the neighborhood of \$430,000" Saturday secured for Holland Page, Austin contracting firm, the award of the contract for the construction of the Marfa municipal airport north of town, construction of which has been under way several weeks.

## What You Buy With WAR BONDS

Navy Cruisers are built in two classes, light and heavy, the latter displacing about 10,000 tons. Our navy has about an equal number of light and heavy Cruisers, the 10,000 ton Cruiser costing approximately \$20,000,000. Many Cruisers are under construction and many more are needed.

To pay for these speedy and powerful ships with their heavy guns and armament we must buy War Bonds. Citizens of a large town or a given community, working in unity, could buy one of these ships for the Navy if they put at least ten percent of their income in War Bonds every pay day.

U. S. Treasury Department

tremely accurate information provided by the Intelligence services, were ready. The Navy, the Army and the Marines worked in perfect harmony. The result was the most serious setback Japan has yet taken in the Pacific war. That battle, coming on top of the Coral Sea engagement, must be causing plenty of headaches among the moguls in Tokyo. They caught our forces asleep at Pearl Harbor. But our forces are 100 per cent awake and on their toes now.

This latest Pacific battle is important for the beating handed Japanese military power. Its greatest importance lies in the fact that it may have tipped the scales of Pacific naval power in our favor. After Pearl Harbor, the Japanese fleet was supreme in the Pacific. Japan also had air supremacy. Now American war vessels which were damaged at Pearl Harbor are back in service, new ships have been sent to join the fleet, and our air power has been tremendously increased. Our production capacity is many times that of Japan in all fields. The Mikado, in brief, doesn't look as big and tough as he once did.

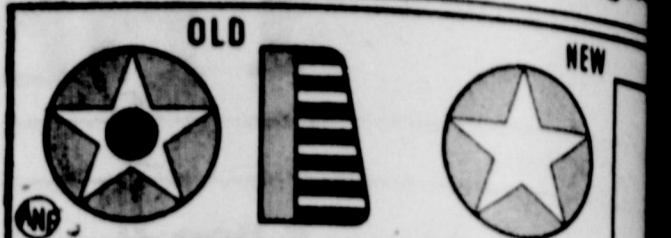

When we finally take the offensive in the Pacific, we may expect hard going for a considerable time. It is obvious that Japan has developed the mandated islands, as well as her own islands, to a very high degree so far as military power is concerned. She may have literally hundreds of air, naval and submarine bases and her plan has been to create a ring of steel about her own part of the Pacific. It will be a real job to destroy these positions—and we can not do it overnight. We must expect losses as well as victories. But no one with any knowledge of American war production and American fighting spirit can doubt that the job will be done. The United Nations' commanders will not be satisfied with a partial victory this time. They intend to take the war straight to Berlin and Tokyo and give the Axis powers a full taste of the kind of treatment dealt out to the countries they have subjugated.

For sheer unnecessary cruelty, the Axis leaders can bear comparison with the blood-loving conquerors of antiquity.

Additional evidence has been produced to completely substantiate Anthony Eden's almost unbelievable report of what the Japs did in Hongkong. Wanton murder, torture and rape are apparently a definite part of Japanese policy.

In Europe, Hitler is pursuing a similar course. When "crimes" are committed against the Germans in occupied countries, no particular effort is made to find and punish the guilty. Instead, scores and hundreds of inno-

## Warplane Insignia Changed

The red circle wing insignia on American Army warplanes ordered changed to a white star in a blue circle to avoid confusion with Japanese fighting planes. In addition, the red and white markings have been eliminated. The red circle of the insignia since 1919 — has been dropped, it was said, because Japanese planes are marked with an orange-red circle, and in the Southern fighting this sometimes confused the defenders.

## As I Was Saying...

By Aynah Nemus

My boss is different from other guys bosses. For instance, all the fellers are doing this now:

"Say boss, can I have today off to help my wife with her spring house cleaning?"

"Well, I don't know. I'm a-fraid..."

"Thanks, boss, I knew I could rely on you."

But MINE, he answers, "Yes, I think I'll work today."

A visitor was splashing around in the Fort Stockton swimming pool, and suddenly he ventured too far and sank under

the water. Two local bank watching him. Up from the first dive, out "Help! Help! I can't swim!" and went under. One of the natives to the other and remarked "I can't swim either don't make all that for it."

The poor, struggling logged visitor came up down for the third time.

Then the other natives to the first and said, "Too bad we were duced. I might have

cent people are summarily executed. And the Nazis usually pick victims who have qualities of leadership—in order to further their policy of turning the countries into slave states whose function for all time will be to produce brutish laborers for the New Order. Cold, planned barbarism is part and parcel of the Axis' design for world conquest.

## CONSERVE FOR VICTORY

TIPS ON THE CARE OF

YOUR ELECTRIC RANGE

Properly used, your electric range can save you time, money, food and work. It helps conserve vitamins, too. Here are hints that will help you keep it in A-1 operating condition:

Clean outside of your range as you would a china plate. Wash, when cool, with warm soapy water; rinse and wipe dry. Do not put cold water or cold objects on outside finish when hot. It may crack or craze the finish.

Avoid letting spilled foods dry or harden on range. Food spilled on surface units should be burned off. Avoid using stiff brush or sharp instrument.

Most surface units can be raised and the pan beneath removed for scouring. This should be done every day.

To clean oven, first be sure it is cool and switch is off; then remove heating units by pulling them straight out. Wash oven linings with warm soap and water, scouring charred spots with steel wool. Rinse and dry. Scour oven shelves lightly with steel wool. Never wash oven or surface heating units. Keep

dripping rags away from switches. Use a rag that is merely damp.

Aluminum deep well cookers should be kept bright and shining by scouring with steel wool and soap and water. Porcelain enamel cookers should not be heated before adding fat, water or foods, should not be permitted to boil dry, and should not be subjected to sudden changes of temperatures.

Have a competent serviceman check your range occasionally, to make sure it is "sitting level" on the floor, that the vent is clean, that the units are operating satisfactorily, and that wiring is in tip-top shape.

Remember — an ounce of prevention is worth a pound of cure, so give that range of yours the best of care and it will last you longer and give you better service.

superb flying qualities of the new training planes which are emerging from the mass production lines of more American aircraft plants are daily becoming more and more apparent as the U. S. Army and Air Force continue with their expanded training programs which are designed to afford America the most efficient and efficient combat flyers in all the world. Shown above in the montage prepared by the Aeronautical Division of the Army are ten of the outstanding trainers now in use. Starting at the left and reading clockwise they are: 1—Curtiss SNC-1; 2—Fairchild PT-19; 3—Boeing PT-17; 4—Cessna AT-8; 5—Curtiss AT-9; 6—North American AT-6A, also widely used by the R. A. F. as the "Harvard"; 7—Vultee Valiant; 8—Boeing Stearman AT-11; 9—Beecher AT-11; 10—Ryan PT-20. The pilot at the lower left is wearing Western Electric's throat microphone. Two miniature buttons pressed against the throat enable the airman to converse during battle, unhampered by the conventional telephone mouthpiece.

### SIDE GLANCES On Texas History

By Lorena Drummond  
(The University of Texas)

#### In Praise of Texas Indians

Although some writers seem to have thought the Indians of Texas unusually savage, at least one traveler during the period of the American Revolution considered their behaviour "very decent."

During the course of a five-year trip around the world, a Monsieur De Pages, captain in the French Navy and corresponding member of the Paris Academy of Science, visited Texas, and traveled to San Antonio and then across the Rio Grande

#### AN EDITOR'S PRAYER

Blessed are the merchants who advertise for they have faith in their business; and their prosperity shall increase many fold.

Blessed is the woman who sends in a written account of a party or a wedding, naming names and dates and time and places, for she shall see more than a brief hint that such an event took place.

Blessed are they who do not expect the editor to know everything by telling him whenever an interesting event occurs in which they are interested, for they shall have a better newspaper in the town.

Blessed are those who get their copy in early for they shall occupy a warm spot in the heart of the editor.

Blessed are they who do not think they could run a paper better than the editor runs it—yea three blessed are they, because there are so few of them in the country.

#### JUNGLE SAM NEEDS SCRAP METAL

You may think such trifles as rubber bands can be spared from the war effort. But listen to this: The 6,000,000 pounds of crude rubber used for rubber bands would put treads and rubber accessories on 500 tanks and bullet-proof fuel tanks on 300 heavy bombers.

into Mexico. A copy of his account of this trip, "Travels Round the World," written in the years 1767-1771, is contained in the Texas collection in the University of Texas Library.

The Indians, De Pages wrote, made a display of horsemanship for the benefit of the party in which he was traveling, which was headed by a Spanish governor.

"It is but doing them justice to say that the most noble and graceful object I have ever seen was one of those savages mounted and running at full speed," he wrote. "The broad Herculean trunk of his body, his gun leaning over the left arm, and his plaid or blanket thrown carelessly across his naked shoulders and streaming in the wind, was such an appearance as I could only compare to some of the finest equestrian statues of antiquity."

The Indian women, the traveler declared, were modest and resented "our too inquisitive regard."

#### Doubts Value of Missions

De pages found little to praise in the enterprises of four mission stations which he found near San Antonio. He described the missions as each containing two or three Franciscan monks and a group of Indians, captured in war, on whom the missionaries had conferred marriage and baptism.

The Indians received some education and maintenance in the mission, but De Pages regarded the rules of conduct set down by the monks, and particularly their method of enforcement, as unduly harsh.

The Frenchman further described the way in which the savages were induced to live in the missions. In battles with Indians still using bows and arrows as weapons, the better-armed Spaniards would capture prisoners, bind them hand and foot, and carry them to one of the missions.

"The missionary makes it his business by threats, persuasion, severe fasting, gentleness, and last of all by marriage, to tame and civilize the manners of his prisoner," De Pages continued. **Indians More Honest**

It was perhaps typical of a French traveler to regard Spanish colonial administration—particularly of a province once claimed by France—with suspicion and criticism.

De Page's account of his sojourn in Texas is full of references to the cruelty and unfairness of the Spaniards. In San Antonio, he relates, he lived in

## THE POCKETBOOK OF KNOWLEDGE

**RECORD PRODUCTION**  
FOUR MONTHS AFTER THE UNITED STATES ENTERED THE WAR, PRODUCTION OF SHOELESS "POUNDER" SURPASSED THE PEAK OUTPUT OF THE WORLD WAR.

IT IS ESTIMATED THAT WATER LEAKING FROM A CRACK IN A STEAM PIPE OF A 100-FOOT STEEL SHIP AS MUCH AS 100 GALLONS A DAY.

NAVY STEEL SHIPS MUST BE WELDED AT NIGHT—BECAUSE A HOT SUMMER SUN WILL SPREAD A 100-FOOT STEEL SHIP AS MUCH AS 1/2 INCHES. MANY SHIPYARDS HAVE THEIR PIPES WELDED AT NIGHT.

A NEW PROCESS HAS RECENTLY BEEN PATENTED WHEREBY PLASTIC CAN BE MADE INTO CLOTHING.

ONE MANUFACTURER IS SAID TO HAVE DEVELOPED AN AUTOMOBILE THAT REQUIRES ONLY 1/16 OF THE RUBBER NEEDED FOR ORDINARY TIRES.

the home of an Indian and became close friends with him, even seriously considering settling down and marrying one of the Indian's daughters.

The Frenchman concluded that he had in his Texas travels found proof of his contention that a man's honesty was in direct proportion to his birth, education and environment. "Innocent and ingenuous manners diminish progressively from the

native of the woods to the villager, Indian, Creole and Spaniard; the last of whom is the least friendly and sociable of the whole," De Pages declared.

Your county has a War Bond Quota to meet this month. Is your own household budget apportioned so that you will put 10 per cent into War Bonds?

## AT THE PRINCESS

bad man away. Then he gets into town and knocks out one of the tough guys, and they make him Marshal. From then the floundering fool falls into everything, always coming up with the cake. He gets adopted by the Indians who name him Chief-Big-Hole-in-the-face; he then impersonates a woman and captures the whole gang.

### SONG OF THE ISLANDS

(Wednesday and Thursday)

Victor Mature, Jack Oakie, Thomas Mitchell, George Barbier, Billy Gilbert, Harry Owens and his Royal Hawaiians, lots 'n lots of beautiful hula-hulaing girls—all these and Betty Grable, too. That's the billing in Song of the Islands.

She's the daughter of Dennis O'Brien, who has property on the islands other people want, and O'Brien doesn't want to sell for fear of ruining the nature of the islands. So the fellow that wants it goes after it. Victor Mature falls for Betty, and she reciprocates. Jack Oakie falls into the clutches of a little islander whose father is trying to get rid of her; and she leads the bewildered Oakie a merry chase.

The music is all original and includes six songs written and played by the dean of island music, Harry Owens. "What's Buzzin', Cousin", "Down on Aml, Aml, Oni, Oni, Isle" and "O'Brien Has Gone Hawaiian" are three of the six.

### COWBOY SERENADE

(Friday and Saturday)

Gene Autry plays nursemaid to a cowboy who falls in with a bunch of crooked gamblers and gets cleaned of property that doesn't belong to him. Gene is, naturally, aided by Frog Millhouse, and he makes love to Fay McKenzie.

War Bond sales must be doubled. Are you budgeting your household money to buy War Savings Stamps every week?

### JOIN THE ATTACK ON TOKYO, ...YOURSELF!

Every person in America may not fly over Tokyo, but every one's dollars can help produce the bombing planes that do!

You, you, you, can join the attacks on Tokyo by saving at least 10% of your pay in War Bonds—by joining your company's pay-roll savings plan today or going to your local bank or post office and buying War Savings Bonds—at least 10% of your pay—every pay day.

Remember you can start buying War Bonds by buying War Stamps for as little as 10c and that you get a \$25 War Bond (maturity value) for only \$18.75.

U. S. Treasury Department

### PRESBYTERIAN ANXILIARY

The Presbyterian Auxiliary will meet Monday at the home of Mrs. Earl Pierson. The time of the meeting is set for 3:30.

Mrs. Tol Murrath and Mrs. C. P. Peavy and daughters, Betty and Nancy, were visitors to Marfa Wednesday. They were accompanied by Mrs. R. R. Ellison who returned to her home there after a visit here with her daughter, Mrs. John Reininger and Mr. Reininger.

Mrs. P. H. Snoddy and daughter, Patricia, of El Paso are here visiting her parents, Mr. and Mrs. E. B. Litton, and with her sister, Mrs. Mabel Yeates.

Charles Yeates and Jack Lester are in San Antonio this week visiting with Mrs. J. C. Yeates, grandmother of Charles.

Mrs. Ervin Grigsby returned Thursday of last week from Sterling City and Belton. She visited in Belton with her sister, Mrs. S. M. Ray Jr., and visited in Sterling City with her parents, Mr. and Mrs. J. L. Glass, with whom she returned home after they had visited here with her and Mr. Grigsby.

Mrs. Walter Reiffert and children Avis Marie and Billy C. Foster of Cuero, are here visiting with her sister, Mrs. R. S. Wilkinson.

Resident Engineers A. W. Pope and G. J. Kempen Jr., with others of their staff, left this morning, Friday, for Pecos where they will attend a meeting of highway employees.

A four-engine bomber, flying at top speed with a full load of bombs, burns up in one hour the gasoline your family uses in six months.

By eliminating metal signs for the duration the War Production Board is saving about 80,000 tons of steel a year, enough to provide structural steel for four new battleships.

### 'Poisonous' Tomalo Is Now of Royalty To American Tables

College Station—Tomatoes can be prepared in so many ways and so easily, homemakers will do well to make them a "stock item" in the refrigerator for the remainder of the summer.

With tomatoes available all over the state now, Hazel Phipps, specialist in food preparation for the A. & M. College Extension Service, suggests that homemakers plan to use them morning, noon and night.

As a beginner, tomato juice is always refreshing, or it can be made into a cold congealed consommé. Use baked tomatoes plain or stuffed, scalloped or stewed tomatoes, the specialist advises. Tomato sauce goes well with all kinds of meats, fish or beans.

There is no end to the number of salads which can be made with tomatoes. Whatever the salad, choose tomatoes with a deep red color, Miss Phipps suggests. Attractive salads may be prepared by cutting the tomato in fourths or sixths and spreading it apart in flower-like fashion. Then the center may be filled with cottage cheese, salmon, tuna, raw cabbage, or any food which combines well with tomatoes.

Although the tomato was once the Cinderella of the horticultural world it is now one of the most important vegetables, nutritionally speaking. It provides three vitamins and three minerals. This year's tomato production goal calls for 35 percent more canned tomatoes and 12 percent more fresh tomatoes than were available in 1941.

**COOL SHEERS**  
Warm weather chic calls for dresses that are cool and comfortable, as well as smart New York creations of chiffon, marquisette, or sheer rayon keep you poised and fresh-looking. This charming frock is green and white striped featuring soft tailoring and unpressed pleats. Smartest corsage of the season in sets represents an investment in Victory It's fashion of defense stamps.

### Mrs. Joseph Doakes Sets An Example In Rubber Collecting

Mrs. Joseph L. Doakes is just an average American mother. She has a son in the Army and one in the Navy. Her husband, Joe, is a veteran of the last war, and she wouldn't complain if the Army agreed to let him be a veteran of this one.

Mrs. Doakes doesn't consider that she deserves any special praise for mothering two service men. She thinks fighting is their job, and she'd hate them to dodge it.

And that's why she is determined to do her part—however large or small the task—to help her sons and their country toward victory.

Yesterday Mrs. Doakes read in the paper that all American housewives can help the war effort by turning in every scrap of old rubber they can find.

The United States will get no more new rubber until we chase the Japs back to Japan, she read that what we have on hand must go into tires, gun mounts, bulletproof gasoline tanks of our big bombers and fighting planes. It must go on the wheels of jeeps and the treads of tanks. It must go into gas masks and sailors' boots... into a thousand and one things our fighting men must have to win the war.

But old rubber can be reclaimed, the story said. The nation's rubber plants can re-process 360,000 tons of it—if they can get it.

Mrs. Doakes saw a job for herself. She put on a big apron and tied up her hair and went to work.

For a start, she looked into the hall closet. Before she looked out again, Mrs. Doakes had unearthed three pairs of worn-out rubbers and two pairs of galoshes, an old raincoat that Joe had been treasuring for years past its usefulness.

Encouraged, Mrs. Doakes charged on the attic. With wifely instinct, she made for Joe's workbench under the window. There she retrieved an old pair of waders which he'd been talking about patching for more fishing trips than she could remember. In the tool-chest she found several pairs of old rubber gloves left over from the boys' phase of developing their own snapshots. And behind an old trunk she spied a real find—a fifty-foot length of old garden hose, discarded for leaks. Flabby tennis balls, a rubberized velocipede and a little red coaster wagon finished out the attic's hoard.

Into the torn shower curtain went a retired rubber bath mat. From the pantry Mrs. Doakes salvaged old rubber rings from jam and jelly jars the family had emptied. To the growing pile she added two leaky hot-water bottles, a pure rubber reducing girdle she hadn't been able to stand, a wornout rubber doormat, old rubber doorstops, and a plumber's suction pump that dated back to the little house the Doakes had moved into when they first married.

On to the garage! Mrs. Doakes looked a sight by now. But she found old tubes, two hopeless casings, some bits of patching and removers.

With pride Mrs. Doakes surveyed her collection. Uncle Sam can make good use of that, she thought, and now for a bath.

Sales pads at the Times.

### ON THE OFFENSIVE AMERICA!

Wars are won by attacking, not by sitting in a fort!  
And today America is taking the offensive against the Axis with hard-fighting, non-stopable men and materials!  
We're taking the offensive, too, against the enemy at home—the inflationary bit column that blows prices sky high.  
You can help in both fights by saving at least 10% of your money in U. S. War Bonds every pay day. Attack the Axis with your dollars today.  
You can start with as little as a 10c War Stamp and you can get a \$25.00 War Bond (maturity value) for only \$18.75—at your local post office, bank or other convenient sales agency.  
U. S. Treasury Department

### Our Great America by Try

Are you entitled to wear a target lapel button?  
You can ONLY if you are investing at least ten percent of your income in War Bonds to do your part on the home front toward winning the War.  
The target lapel button is a badge of patriotism, a badge of honor. You should feel proud to display it. The buttons are obtainable at your plant management, at the office of your local War Bond chairman, or at your Payroll Savings Window where you authorize your ten percent payroll deductions.  
Enlist in the ten percent War Bond army and do your part to win the War.  
U. S. Treasury Department

Steel going into war industry alone this year more than equals the entire United States consumption of steel for all purposes during 1932.

Spend less. Make your old clothes do. Put 10 per cent of your income into War Bonds. Help your county meet its Bond quota.

Dehydrated vegetables have only about one-fifth the weight of fresh vegetables and for that reason can be shipped more easily under war conditions.

When you're looking for type-writer ribbons, carbon paper, letter files, inks, in fact, almost anything for the business office call the Times, telephone 39.
