## HOUSEWIVES ARE REQUESTED TO SAVE ALL GREASE

Arrangements have been made with the Cooke's Market to handle all salvaged grease for Terrell County according to announcement made this week by the County Salvage Committee members.

Previously, the matter of marketing the grease and of obtaining containers in which it might be shipped has prevented any effort toward the salvaging of grease in the county. Plans have been completed for the handling and shipping however, and all housewives are urged to save all greases possible.

It is pointed out that the grease must be clean and that not less than one pound should be taken to the market at a time. The grease should be kept in a metal or glass container and kept in a cool place while a pound or more is accumulating. While the grease is hot it should be strained so that all particles will be removed. No rancid grease is wanted as the glycerine content is low in old greases. The grease is to be donated and all funds received from sales will be donated to the local chapter of the American Red Cross.

J. T. Dillard has been named to contact clubs within the city and Mrs. C. C. Mitchell has been named to contact the churches to urge support of the campaign. Mrs. Sid Harkins was named to contact members of the rural clubs for the same purpose.

## CERTIFICATES OF WAR NECESSITY NOT TRANSFERABLE

Certificates of War Necessity and "T" ration gasoline coupons are not to be transferred along with titles to trucks, the Texas USDA War Board has been advised by ODT.

ODT pointed out that violation of this regulation may result in suspension or revocation of Certificates.

When transfers are completed, the new operators should file applications for Certificates of War Necessity. Failure to file the application also may result in suspension of Certificates to their district ODT office and surrender unused "T" coupons to their local War Price and Rationing Boards. Fleet operators are required to advise the nearest ODT district office of their action and return the appropriate sub-certificate.

According to the ODT, operators changing their area of operation or substantially changing the nature of their business must inform their local ODT district office of the changes. Changes of address also should be reported. Failure to comply with the rules may result in reduction of gasoline allotments or possible suspensions of Certificates.

Operators are also reminded that data called for on the reverse side of certificates must be maintained and made available when other applications are filed.

## COMMISSIONER'S COURT SELLS OIL ROYALTY IN GAINES COUNTY LANDS

A deal was consummated Saturday whereby the Commissioner's Court of Terrell County sold to Fuhrman Petroleum Corporation of Midland one-half of the mineral rights on 7,109 acres of the Terrell County school owned lands in Gaines County. This land is under a ten year lease to the same firm, the lease having been made about a year and a half ago.

Consideration for the mineral rights was \$20,000.00 which goes

into the permanent school fund and has been invested in Series G War Bonds. These bonds pay interest semi-annually.

The purchase of bonds with the funds brings the total investment in War Bonds for Terrell schools to \$31,500.00 by the Commissioner's Court. Of the money invested, \$4,915 was received in payment for 1,390 acres of the Gaines County land sold in 1908, payment for which was due in 1948. The owners paid \$2,240 of the amount last year and the balance of \$2,675 the first of the month, paying the entire indebtedness off five years before it was due.

Added to the \$4,915 above was \$6,585 which was derived from oil leases on a part of the land, and the \$20,000.00 brought by the sale of the royalty last week brought the total to \$31,500.00. This investment in bonds returns \$787.50 to the schools each year in interest, which goes into the local fund to be used for maintenance, for paying of teachers, and other necessary expenditures in conducting the schools.

## SECOND WAR LOAN QUOTA FOR TERRELL COUNTY IS MET

Announcement made Friday from the office of C. P. Peavy, chairman of the Second War Loan drive, was to the effect that the quota for Terrell County of \$60,000.00 had been met. Total bond sales at the Sanderson State Bank and at the post office were \$60,037.50, although the final total will show an increase due to purchases made out of the county for which credit will be received, and several smaller bonds which were not counted or written after the announcement.

Much credit for meeting the quota must go to the Victory Band Concert held at the high school auditorium Wednesday night of last week when sales amounted to \$19,484.25.

PERMANENT PEACE IS POSSIBLE

Future world peace depends to a large extent upon the United States—providing we do three things: First, keep our faith with the American capitalistic system by allowing individuals and businesses to survive with sufficient earnings to maintain private jobs in free enterprise; Second, actively participate in world affairs; Third, lead the way in broadening the flow of international trade.

The first is essential to peace because the alternative to free enterprise is state socialism, and state socialism leads to war. The dictators have proved that. The second is essential because our cooperation is necessary to enforce a just peace. The third is essential because nations tied together by trade are far less inclined to fight.

Every effort must be made to awaken people to the fact that our leadership is sorely needed in the creation of a lasting peace and a new era of trade, just as every effort must be made to awaken the people to the fact that all of us have a common interest in the maintenance of the free enterprise system.

In pleading for such leadership, Clark H. Minor, chairman of the National Foreign Trade Council, says: "When we look over the economic record of the past and see the ravages caused by war... we must be convinced that the establishment of permanent peace would be so beneficial to every inhabitant of the world that there is hardly any immediate sacrifice which we could be called upon to make which would not be repaid a thousand-fold."

He further declared: "That we and every country may enjoy the fruits of the particular aptitudes of other nations, of their particular natural resources, requires that no barriers shall be placed in the way of our access to such fruits. This means intelligent and courageous action with respect to tariffs, exchange

regulations and all the unnecessary impediments which now restrict the flow of goods. Our country has the least to fear from being a leader toward freer world trade. With our total foreign business representing such a small percentage of our total trade, and with our resources of such great richness, we are surely the best situated to take the lead in a program benefiting not only ourselves directly, but all other civilized nations." As a step toward international leadership, the council has urged the renewal of the Reciprocal Trade Agreements Act. This act has opened the door to commerce and enduring peace. The door should not now be closed.

Peace, trade and free enterprise are dependent upon each other, and the freedom of mankind depends upon the maintenance of all three.

Monday morning in assembly Rev. Griffith, who was holding the meeting at the Church of Christ, spoke to the student body. The main thought of his talk was the importance of having a successful life through an education.

Wednesday the picture show was "The Day Is New," "Dawn To Darkness In Mexico City," "Keep 'Em Rolling" and "The Arm Behind The Army."

The Seniors, sponsored by Mrs. Holley, had charge of the assembly program Friday. They presented a short skit entitled "Let's Make Up." The characters were: Mickie Corder—Marilyn, Margaret Pierson—Jean, Donald Babb—Dick, Weldon Blackwelder—Johnny, an elderly couple—James House and Laura Oberling, and Lewis William Lemons—bell boy.

The other numbers on the program were a piano solo by Jimmie Bradford; Professor Voodoo Hoodoo and his magic globe, who answered some questions that had been lingering in the minds of some of the students, and Mary Alice Allen who played a medley of the service songs.

Fort Stockton Pioneer—Pecos county farms are the scene of intensive activity these days, and operators get underway with the first cutting of alfalfa and with planting of cotton.

Hay is light this year, due to continued dry weather and a late spring, but quality is unusually choice for the first cutting. First cuttings usually are lighter and more variable than those later in the season, and yields on current cuttings range from 1/2 to a ton to the acre.

Wink Bulletin—With a quota of a little more than \$21,000 in the Second War Loan Drive, Wink went over the top early, and almost reached the quota in one single rally held at the high school auditorium last Monday night.

Reports from Kermit indicated that city was also responding well to the War Loan Drive, and they too, had reached their quota, making the county quota of \$51,600.00 assured several days ago.

EASTER CONTEST HELD

Tom Hill, graceful in a play suit designed and constructed by the renowned designers Misses Billy Babb and Clara Alice Bell, won First Prize in the Easter Parade contest in Assembly last Friday. Tom was dressed in a fringed paper skirt of the daily papers with a midriff of green crepe paper. His blond hair was held in place by an attractive yellow snood.

Other contestants were: Edward Kerr, dressed by Misses Betty Frazor and Janice White; Don Frazor, dressed by Misses Helen Holmes, and Mary Jean Ogle; David Duke, dressed by Misses Maurine Cox and Maurine Frazier.

Edward was beautiful in a sarong, a la Dottie Lamour, with a lovely gold braided band. Around each dainty ankle were bands of flowers and beads which added to the whiteness of his dainty bare toes.

Don Frazor depicted a lovely Easter bride. His bouquet was picked from a Victory garden and consisted of carrots, new onions, and beet tops. His long white veil of white crepe paper was held in place with a carrot on each side of the head. His gown of week-old funnies was knee length (to conserve materials). As he made his bows the entire skirt had a decided drape affect.

David Duke showed just what the best dressed girls will wear on Easter morning. His plaited skirt was decorated with San Antonio Express Classified ads. His blouse had a cape effect which added to the slenderizing lines of the full billowy skirt. His hat, decorated with fresh garden

COMMENTS ON THE STYLE SHOW

Say, Don. I believe you've got something there. Wouldn't it be patriotic for all the girls to have victory corsages for the Junior-Senior banquet?

David, your Easter bonnet was too ducky for words. Originality is the word for your bonnet.

Don, we've all heard of the bride being left on the church steps, but never before did we hear of her losing her skirt.

The most spectacular thing about Edward's costume was his barefeet. Since shoes nowadays are a very sensitive point with all of us, we might go Hawaiian in our Easter costume.

GUESS WHO?

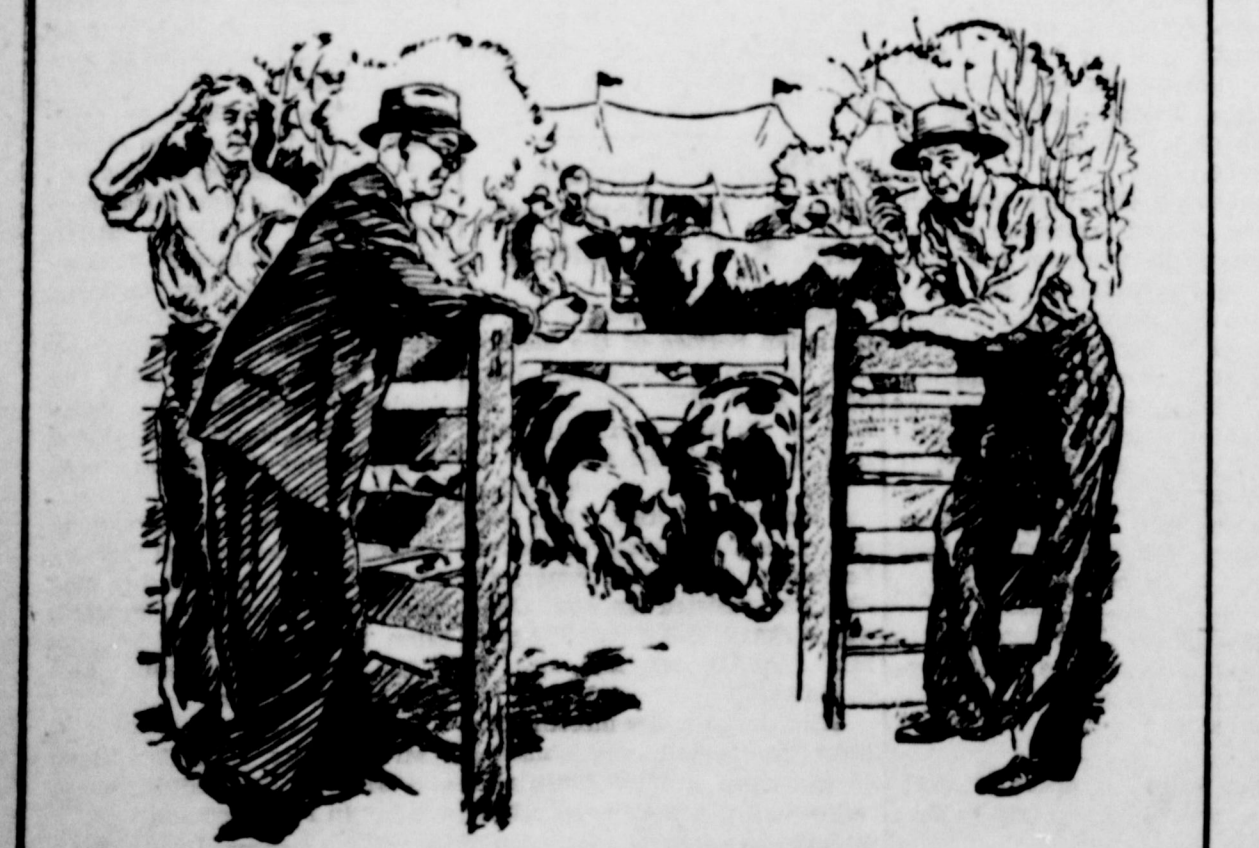

This week I'm back dignified seniors. My cousin this time is a very sweet blonde girl. She has blonde hair, and a cute smile. She is very popular in school. Tennis is her sport, however she likes others too. Dancing is her favorite pastime and good at that. This year she elected queen of the school and was very beautiful in white dress and blue tulle. It seems that I've told you is so I'd better shut up.

Well now it's time for another of the juniors to appear in the paper. This week is a very good boy, with black wavy hair, brown eyes. He is rather dark. And how do you go for that! Lots of girls try to attract his attention. (Continued to Page Two)

THE OLD JUDGE SAYS...

"Makes me feel extra good hearin' you talk that way, Judge... never realized I was contributin' to the war effort in the way you mention." "You certainly are, Hank. Part of the grain you farmers grow is used by the beverage distilling industry to make alcohol for war purposes. Hundreds of millions of gallons are required every year for smokeless powder, medical supplies, chemical warfare materials, shatterproof glass, lacquer for camouflaging equipment, fuel for propel torpedoes and in the making of critically needed synthetic rubber. But, Hank, the grain used in distilling this alcohol is not thrown away. It is processed and comes back to the farm again in the form of dried grains or dried solubles which you use for dairy feeds, hog supplements and poultry mashes. This year alone it is estimated 388,000 tons of these much needed feed stuffs will be produced by the distillers." "I can see now, Judge, why you say it's a mighty good thing we have a legal distilling industry in times like these."

WHAT'S THIS WAR ABOUT, DADDY?

Honey, in a place called China, children
can never play as you can . . . because
men in airplanes roar overhead and shoot
them, and burn their homes.
In other places . . . in Norway and France,
in Poland and Greece and Russia . . .
children have their mothers and daddies
taken away from them . . . led off to a
prison called a concentration camp. Their
children may never see their parents again.
Many of these children—boys and girls
just like you—don't get enough to eat.
Many of them have starved to death.
Why is all this happening? Because there
are evil people in the world, who call
themselves the Axis, who do these things.
And it's our job to make them stop—to see
that they never trouble the world again.
That's what this war is all about.

To do our job we've got to knock out the
Axis. And a lot of us Daddies would like
to do it with our own fists . . . or our own
guns. We can't all do that. There's other
work that Uncle Sam wants us to do.
So let's help knock out the Axis with that
work. Let's take a dime out of each dollar
we earn while working and buy War
Bonds and Stamps to turn our dollars into
America's tough new tanks and planes.
So . . . tell your employer to set aside
10 percent of what you earn every payday
in the War Bond Payroll Savings Plan.
Then, each time it adds up to \$18.75,
you'll get a bond.
Your Government will use that money to
smash the Axis. Every dollar is a nail in
Hitler's coffin. Every bond a bomb to
blow the Jap off this earth. And your

money is an investment against that time
when peace returns and you will no longer
have to answer that question:
"Daddy, what's this war about?"

- WHY U. S. WAR BONDS ARE THE SAFEST
PLACE YOU CAN PUT YOUR MONEY!
1. They are obligations of the United States. If this
isn't safe, nothing is!
2. For every \$3.00 you invest in War Bonds you get
back \$4.00 at the end of 10 years.
3. They do not fluctuate in dollar value—are never
worth less than you pay for them.
4. You can name one individual either as co-owner
or as beneficiary right on the face of the bond.
5. Your savings in War Bonds cannot be lost or stolen.
Each bond is registered at the Treasury Department.

EVERYBODY—EVERY PAYDAY 10% IN WAR BONDS

The above is one of a series of messages to be brought to you by patriotic firms who desire to give you full particu-
lars as to why you should LEND your DOLLARS to back our sons, husbands, fathers and friends, who are willing
to GIVE their LIVES so that the world might be a free place in which you and your children, and they and their
children, might live in freedom rather than as slaves to ruthless dictators. Every dollar put in bonds helps them.

## From where I sit...

by Joe Marsh

Charlie Jenkins writes me from down at camp:  
"Dear Joe: Somethin' mighty swell happened to me on my last day's leave. I'm standin' in the corner, not knowin' anybody in town, when a stranger says 'hello, soldier—how'd you like a chicken dinner at home with me and the wife?'  
"Well, it turns out they were the kind of folks who couldn't do enough to help out soldiers. They'd invited two other fellows and just as soon as we're introduced the lady brings a glass of beer before dinner. 'We had a fine dinner, till ten... Honest, Joe, I forget their hospitality, but me feel good fightin' for like that.'  
Thought you might hear what kind of fellows in this army of ours, and they like to enjoy themselves when they get a chance to."

## New Conditions----

During the coming months, all of us will be called upon to do without things to which we have long been accustomed. Each must make sacrifices in one way or another, but all will do it cheerfully so our great nation and its cherished institutions may be preserved.

Many things will go on much as before, and, on these, we may learn to place higher value. As in the past, your local bank will be ready to serve you, and we shall endeavor to keep our service attuned to the times.
